Technical and Bibliographic Notes/Notes techniques et bibliographiques

The Institute has attempted to obtain the best original copy available for filming. Features of this copy which may be bibliographically unique, which may alter any of the images in the reproduction, or which may significantly change the usual method of filming, are checked below.

L'Institut a microfilmé le meilleur exemplaire qu'il lui a été possible de se procurer. Les détails de cet exemplaire qui sont peut-être uniques du point de vue bibliographique, qui peuvent modifier une image reproduite, ou qui peuvent exiger une modification dans la méthode normale de filmage sont indiqués ci-dessous.

The copy filmed here has been reproduced thanks to the generosity of:

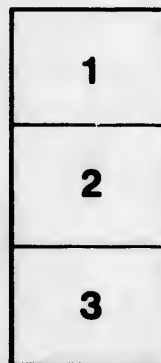

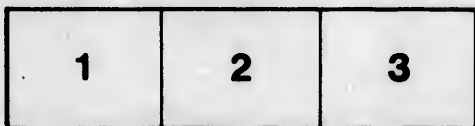

Library Division  
Provincial Archives of British Columbia

The images appearing here are the best quality possible considering the condition and legibility of the original copy and in keeping with the filming contract specifications.

Original copies in printed paper covers are filmed beginning with the front cover and ending on the last page with a printed or illustrated impression, or the back cover when appropriate. All other original copies are filmed beginning on the first page with a printed or illustrated impression, and ending on the last page with a printed or illustrated impression.

The last recorded frame on each microfiche shall contain the symbol → (meaning "CONTINUED"), or the symbol ∇ (meaning "END"), whichever applies.

Maps, plates, charts, etc., may be filmed at different reduction ratios. Those too large to be entirely included in one exposure are filmed beginning in the upper left hand corner, left to right and top to bottom, as many frames as required. The following diagrams illustrate the method:

L'exemplaire filmé fut reproduit grâce à la générosité de:

Library Division  
Provincial Archives of British Columbia

Les images suivantes ont été reproduites avec le plus grand soin, compte tenu de la condition et de la netteté de l'exemplaire filmé, et en conformité avec les conditions du contrat de filmage.

Les exemplaires originaux dont la couverture en papier est imprimée sont filmés en commençant par le premier plat et en terminant soit par la dernière page qui comporte une empreinte d'impression ou d'illustration, soit par le second plat, selon le cas. Tous les autres exemplaires originaux sont filmés en commençant par la première page qui comporte une empreinte d'impression ou d'illustration et en terminant par la dernière page qui comporte une telle empreinte.

Un des symboles suivants apparaîtra sur la dernière image de chaque microfiche, selon le cas: le symbole → signifie "A SUIVRE", le symbole ∇ signifie "FIN".

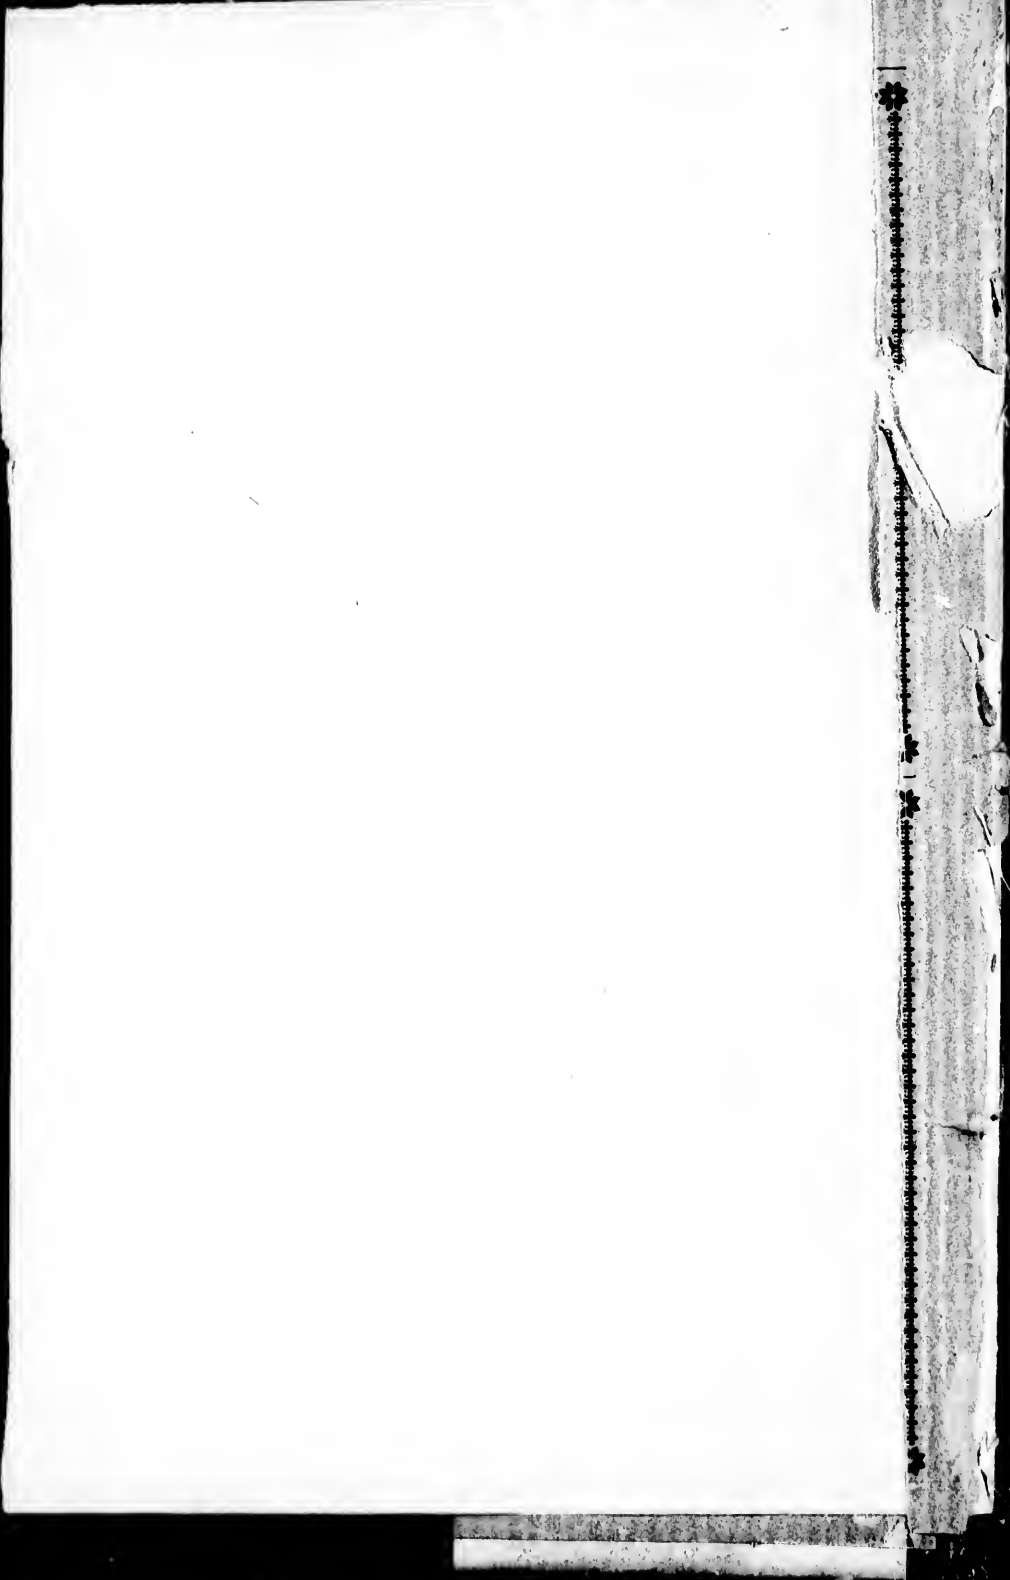

Les cartes, planches, tableaux, etc., peuvent être filmés à des taux de réduction différents. Lorsque le document est trop grand pour être reproduit en un seul cliché, il est filmé à partir de l'angle supérieur gauche, de gauche à droite, et de haut en bas, en prenant le nombre d'images nécessaire. Les diagrammes suivants illustrent la méthode.

## PREFACE.

In presenting the seventh volume of the British Columbia Gazetteer and Directory, the publishers desire to say that the same exertions, the same degree of ability and a greater degree of perfection in the organization of the forces and data necessary for the collection and compilation of the information essential to the value of the Directory have been employed to make this volume superior to its predecessors; and the knowledge that those who frequently use the Directory and are most competent to pass upon its merits appreciate our work and are always ready to commend its trustworthiness acts as an incentive to greater effort on our part to make it correspond to the standing of the Province it represents. The volume this year is divided into six parts, viz:—(1) Mining Companies doing business in British Columbia; (2) Incorporated Companies; (3) a Gazetteer Index showing the names of all Places in each Electoral District; (4) Gazetteer and Directory of all cities, towns, villages, post-offices, mining camps and steamboat landings; (5) Complete Street and Alphabetical Directories of the Cities of Vancouver and Victoria; and (6) A Complete Classified Business Directory.

The compiling and publishing of Directories is our exclusive business. We have a complete plant and every facility for turning out a first-class work. The principal work pertaining to our Directories is done by men trained to the work, and who are all engaged in it the year round.

The Gazetteer section has been considerably increased by the addition of the names of principal residents in our lists of country towns. The Cities and the principal towns have been carefully revised and the information brought down to a late date and will be found to be very complete.

The Directory of Mining Companies is the only work that shows the names of all the Mining and Development Companies doing business in this Province, and great care has been taken in its revision and in the addition of new matter

Attention is directed to the fact that in the Gazetteer all places are found in their proper alphabetical order. The present edition gives descriptions of 875 places, last year there were 844 places. The lists of places by districts will be found a great convenience when used in connection with the Gazetteer.

For convenience of reference, sub-heads show the first and last names on each page of the City Directories, and the first and last places contained on the pages of the Gazetteer.

To make a Directory absolutely correct is impossible; but we believe that this volume is as nearly correct as it is possible to make it with the rapidly changing population.

To our many kind friends who have revised proofs, and without whose assistance it would have been impossible to secure reliable information, we take this opportunity of returning our sincere thanks.

Thanking our patrons for their encouragement, courtesy and liberal support our endeavor will be to merit a continuation of their favor.

Respectfully,

HENDERSON PUBLISHING COMPANY, LTD. LTD.

of the strongest and best in the coun-  
It varies in width from three to five  
ft. The ore runs from eight to eighteen  
feet in width, and is found in chutes  
every few feet apart. It is steel galena and  
copper. In 1896 a steam hoist and  
winning plant was put in, which, with  
water and ore houses, gives the mine com-  
plete equipment. The mine has stood this  
year at the expense of development and has  
been self-sustaining from the start, at the  
same time paying large cash dividends.  
The first ten cars shipped gave smelter  
returns at 270 oz. silver and 45 per cent  
of gold, uniform in grade. One car contain-  
ing 15 tons returned \$3,757. The next ten  
cars varied in grade, ranging as high as  
300 oz. silver and 49 per cent lead, mak-  
ing the average of the 20 cars shipped over  
270 oz. silver and 43 per cent lead. This is  
believed to be about highest average grade  
yet shipped from Slocan.

**LEO (BRITISH COLUMBIA) MINING CO., Ltd. (N. P. L.)** Incorporated Aug. 1, 1890; capital stock \$1,250,000, in \$1 shares; treasury, 500,000 shares; office, Rossland; Chairman, John Moran (Latah, Wash.); vice-chairman, Alfred McMullan; secy., Wm. Tomlinson, Rossland; directors, Edwin H. Bell (Latah, Wash.), Bernard C. Murray and C. O. Lalonde. Property—LEO, KENO, EVELYN, EDNA, LATAH, ROXAL ANNE and RISING NA, situated on Keno Creek, 3 miles west of Hall's Siding, Nelson District. Development, 147 ft. (March 1, 1900). Large ledge 50 ft. to 100 ft. wide, with numerous pay streaks giving high values in silver.

**LE ROI MINING CO., Ltd.** Licensed Dec. 19, 1898. Capital stock \$1,000,000, in 10 shares. Head office, 43 Lothbury, London, Eng.; reg. office, Rossland. Edwin Durant, attorney. Chairman, Most Hon. Marquis of Dufferin and Ava; managing director, Whitaker Wright; secretary, F. A. Labouchere. Other directors, Right Hon. Lord Loch and H. H. Andrews.

Property—3 claims, **LE ROI, BLACK BEAR and IVANHOE**, (fraction), located within the municipality of Rossland, about 1/4 mile northwest from the business part of the city, on the southerly slope of Red Mountain.

The Le Roi is the most extensively developed gold mine in the Trail Creek district or in the province, it having a three compartment shaft sunk on the dip of the main Le Roi vein to the depth of 900 feet. Besides the main vein above referred to, there are two other veins above referred to, claims of the company, viz., the North Le Roi Vein and the Black Bear Vein. The latter traverses through the Le Roi and the Black Bear claims for a length of 2,550 feet, and already one shoot of high grade ore has been developed in this vein by surface workings and cross drives from the 500-foot level of the Le Roi vein. The north vein is known to have the outcrop of a rich ore shoot, but this is not developed in depth. A new five compartment shaft is being sunk, and a new powerful hoisting engine, capable of hoisting 1,000 tons per day from the depth of 3,000 feet, is being built for installation on this shaft, through which, when finished and equipped, all the traffic of the mine will pass.

In its operation, the mine will then employ 400 men, and its output will be 500 tons per day, which will be shipped to the company's smelter at Northport. The operation of its mining plant, for which it is installing in one central plant nine 100 h. p. boilers, which are to deliver the steam required by its compressors and large hoist, through 8 and 9 inch mains and carefully laid and insulated.

On the combination shaft, it has in operation an electric hoist of 150 h. p. capacity. This is used for the irregular general traffic of the mine. Since incorporation a dividend of \$250,000 has been paid, making the total dividends paid to date \$1,225,000. General manager and chief engineer, Bernard MacDonald; superintendent, John M. Long.

For January, 1900, 8,800 tons was shipped, yielding 3,200 oz. gold, 9,800 oz. silver, and 135 tons copper. Total gross value, \$104,700.

Dividends. First dividend paid in October, 1895. Total to January 1, 1899, \$925,000. All paid previous to re-incorporation.

A money order postoffice and settlement, at the head of Barkley Sound,

Alberni district. Mails twice weekly. Nearest express and railway station, Nanaimo, dis. 54 miles. Alberni is a valley probably 25 miles long by 10 wide. It is situated pretty near the centre of the Island, 35 miles north from Cape Beal lighthouse, at mouth of Barkley Sound. The water is navigable for the largest vessels right into the settlement. Distance 110 miles from Victoria, by steamer.

There is also a wagon road connecting Nanaimo, by which the mails are brought. Alberni is a good settlement. Farming is the principal industry. Timber and coal, also gold and silver quartz have been found and no doubt this will be an important place in the future. A saw mill is located here, capacity 1,000 M per day. Has Presbyterian and Catholic churches and two public schools. Has telegraph office.

### ASHBOURN.

(See Vevey.)

### ASHCROFT.

An important town on the main line of the C.P.R., 203 miles east of Vancouver, in Yale district. Mails daily; money order and savings bank, post-office, telegraph and Dom. and B. C. express offices. It is the forwarding point to Cariboo mines. Stage leaves for Clinton, connecting with stage for Cariboo.

Ashcroft is a customs output of New Westminster and has Anglican Methodist and Presbyterian churches also weekly newspaper. The water works system gives supply for domestic uses, fire protection and irrigation of the flat surrounding the town, besides driving electric light and power plant.

The Ashcroft, Water, Electric and Improvement Co.'s works comprise a 75 Kilowatt dynamo, 3 phase, alternating system, driven by double turbine wheels, with 43 foot-head on the Bonaparte River, four miles from Ashcroft. The waterworks supply comes from two tanks, having a capacity of 100,000 gallons. To these at height of 250 feet, the supply is pumped by electricity. Pressure 70 lbs. The company also irrigate a considerable portion of the Bonaparte Valley, and contemplate erecting a steam power saw mill of 25,000 feet capacity per day.

Population, 1899, 600.

Population 1900—750.

Postmaster, James Charles Shields.

**GRAND FORKS,**

(See also Columbia and Carson.)

An incorporated city at the junction of the north and south forks of the Kettle River, two miles from the International Boundary line. Situated on the C. & W. extension of the C.P.R. — miles from West Robson.

Grand Forks owes much of its growth to the Kettle River Valley, which stretches east and west a distance of over twenty miles, with a width averaging three miles. This represents an area of 45,000 acres. The grain, fruit, and vegetable crops are very prolific, while the grassy hillsides afford splendid ranging ground for cattle. The rich agricultural resources of the valley are simply illimitable. The climate is very mild, with no extremes of heat and cold, while the rainfall is light. Its position makes it the supply point for a large portion of the Boundary mining district. The tributary mining camps include Summit, Greenwood, Wellington, Central, Pass Creek, Knights, Brown's and Hardy Camps.

The city owns its own waterworks and electric lighting plant. The systems were installed at a cost of \$40,000. The electric light plant has a capacity of 1,500 incandescent 16 c.p. lights. Seven incandescent arcs are used for street lighting. The waterworks reservoir has capacity of 100,000 gallons, with a pressure of 115 lbs.

The Granby Consolidated Co.'s Smelter being located on the North Forks of Kettle River adjacent to Has telephone connection with Rossland, Spokane, Republic and Washington points, and westward to Camp McKinney, all Boundary points and Bolster, Wash. Has Customs House, Mining Recording office and resident Gold Commissioner, three saw mills, two breweries, etc. Has Presbyterian, Methodist, Anglican, Baptist and Roman Catholic Churches and Public School.

Population, 1899, 1,500.

Population 1900—2,500.

School population 1900—120.

# CITY OF GREENWOOD.

(See also Anaconda, Midway & Phoenix.)

An incorporated City and Mining Camp on the Columbia and Western extension of the C.P.R., 89½ miles west of Robson.

Greenwood is pleasantly situated between the hill, the corporation boundaries are all within the Boundary Creek Valley. The townsite is two miles in length and half a mile in width. The business portion is on a low bench sloping both ways to lower ground.

It stands about 2,400 feet above the sea level, and in summer is climatically a delightful spot to live in, while the winters are not sufficiently severe to prevent mining operations being carried on at all seasons of the year.

The future success of the city is dependent upon the development of the rich and varied mineral resources of Greenwood, Central, Wellington, Skylark, Providence, Summit, Long Lake, Kimberley, Pass Creek, White's, Deadwood, Copper, Smith's, Brown's, Graham and Knight's Camps, which encircle the town, and none of which are at a greater distance than nine miles. All these camps are at a higher altitude than Greenwood, so that ores can be handled down hill on an easy grade. An ample supply of water and water power for smelting or other purposes can be secured from Boundary Creek or any of its numerous tributaries.

Has three chartered banks. Roman Catholic, Presbyterian, Methodist Church of England and Baptist churches and public schools, three newspapers, one daily and two weekly. Private hospital. The waterworks supply is taken from Twin Creek at a distance of 800 yards, and at an elevation of 250 feet above the city.

**INVERNESS,**

A fishing and trading station on the northwest coast, in Cassiar district. Victoria, dis. 550 miles. Has Methodist church and Indian school during summer by Church Missionary Society. The Inverness cannery is the only industry; it employs from 150 to 200 people during the fishing season, which lasts about 2 months. We have about 200 Indians here during the fishing season, but after work is over there, and no Indians who reside here, only those that are working. Inverness is an important camping place, as it can be reached at all season of the year. Telegraph, Victoria, three miles from mouth of Skeena River.

## CITY OF KAMLOOPS.

(See also Morrisville, Campbell Creek, Anderson Creek, Louis Creek and North Thompson river.)

A town on the main line of the C.P. R., 250 miles east of Vancouver, called the "Inland Capital." The name Kamloops is aboriginal, meaning meeting of the waters, the town being situated at the confluence of the North and South Thompson rivers—the main tributaries of the Fraser—two magnificent streams, one of which (the North Branch) is navigable for 80 miles above the town, while the other is navigable for twice that distance. Its situation is beautiful, healthful, and its climate delightful. Large deposits of copper-gold ore are situated in the immediate vicinity. In no place in Canada is there longer summer, and consequently a shorter winter—that can be called winter. Though its winters are short and sharp they are bright, and would not be dispensed with if such a thing were possible. Has money order postoffice and savings bank, express telegraph and telephone offices, Bank of B. C. One weekly and one semi-weekly newspaper. Has Anglican, Methodist, Presbyterian, Baptist and Roman Catholic churches and public school, daily attendance about 200, court hse and gaol 2 steam saw mills capacity 66,000 ft. per day. A good system of water works supplies the town for fire and domestic purposes. No. 3 Co. of the Rocky Mountain Rangers are situated here.

The incandescent electric light is used for street and private lighting. R.M.A.A. Hall sets 550. Steamer run occasionally to Enderby and Savona. The Dominion Industrial school is near here. It is the headquarters for the ranchers in Nicola, the Thompson and the Okanagan valleys.

Stage weekly to Spence's Bridge, dis. 110 miles, through Nicola Valley, connecting at Nicola Lake with stage for Granite Creek and Princeton.

Stage to Louis Creek, 47 miles and to Coal Hill tri-weekly.

Postmaster—William Thomas Slavin.

Mayor—David Huntley Campbell.

Aldermen—D. C. McLaren, James McIntosh, Geo. D. Brown, Geo. Munro, Wm. H. Brown and Jas. R. Michell.

## CITY OF KASLO.

A city incorporated in 1893, on the Upper Kootenay Lake, at the mouth of the Kaslo river. The terminus and headquarters of the Kaslo & Slocan Ry., which was opened in 1890 and extends to the head of the Slocan mining district, Sandon dis. 23 a daily trip from Nelson, and once a miles and Cody dis. 30 miles. It is also the headquarters of the Kootenay and Navigation Co. who despatch two steamers a day to Nelson, 45 miles, and twice a week to Bonner's Ferry, 110 miles. The C. P. R. Co.'s steamer Kokanee makes week to Lardo at the head of Kootenay Lake. It is one of the important distributing points for the mining camps of the Slocan district and Kootenay Lake points. Has money order postoffice, savings bank and telegraph office.

Kaslo is considered a fine townsite. It is situated on a couple of sloping benches overlooking the lake. The assessed value of property for 1898 is \$618,520. The city owns a \$30,000 system of waterworks, consisting of 3 miles of main from the head works up the Kaslo river, 2 miles of which is 12 inch wood pipe, having a capacity of one and a half millions of gallons per 24 hours, and a reservoir with a capacity of 850,000 gallons, located on the hill back of the city. There are four churches, Church of England, Methodist, Presbyterian and Roman Catholic.

Industrial enterprises comprise large saw and planing mills, a brewery of 25 barrels per day capacity, and soda water works. The Kootenay Elec-

tric Light & Power Company furnish incandescent light to the majority of buildings and also light the business streets.

Kaslo has a fine athletic grounds, with grandstand accommodation for four hundred people.

The Kootenian, the leading paper of the district, was originally established as the Kaslo Claim in 1894, and changed to its present name in 1896. Kaslo is an important ore shipping point. In 1893-45 the ore was brought from the Slocan by pack trains, and in 1896, on the completion of the K. & S. railway, these have shown a steady increase and now are large volume.

The sampler operated by the Kootenay Ore Co. has a capacity of 150 tons per day, and handles a large

# CITY OF NANAIMO.

An incorporated city on the Esquimaux and Nanaimo Railway, 73 miles from Victoria and 33 miles from Vancouver. It has a regular steamboat connection and a daily mail (except Sunday), with Vancouver and Victoria.

The city fronts on a well-sheltered harbor, and is the centre of the coal mining industry of the island. Since its incorporation in 1874, the city has made continued progress. It has two Anglican and Methodist churches, a Presbyterian, Baptist and a Roman Catholic Church, besides a number of public schools, a convent (R.C.), a saw mill, an electric light plant and waterworks, a fire department, a Court House and Jail, a Post Office and Custom House, Money Order Post Office, telegraph office and telephone exchange.

There are two branches of banks here, the Bank of British Columbia and the Merchants' Bank of Halifax. Three newspapers are published in Nanaimo, the Free Press and Herald (daily and semi-weekly) and the Review (semi-weekly).

The principle staple industry of Nanaimo is the production of coal, immense quantities of which are carried from here to all coast points and many foreign ports. The colliery works of the New Vancouver Coal Mining & Land Company, Limited, employ over twelve hundred men, which is the largest pay roll on the Pacific Coast.

The streets were very poor but since the road roller has been in operation a marked improvement is apparent. Commercial street and Victoria Cres-

cent will compare favourably with any street in any of the Coast cities.

The city possesses a fire department with a staff of over thirty call-men and up-to-date fire apparatus. It is lighted by numerous arc lights, and is supplied with water by a reservoir about three miles from town. Among the many boats that run to Nanaimo are "Joan," from Vancouver; "The City of Nanaimo," from Comox and the "Dunsmuir" from New Westminster. Nanaimo is at present in a prosperous condition as it has ever been, and its future can hardly yet be ascertained.

# CITY OF NELSON.

An incorporated city (1897) on Kootenay outlet, which is also known as the West Arm of Kootenay lake, 22 miles from its mouth. The terminus of the Columbia & Kootenay railway, which follows the Kootenay river 25 miles to Robson, where connection is made daily with the C. P. R. steamers for Nakusp (89 miles) and Revelstoke (188 miles), also for Trail (25 miles) and Rossland (34 miles). The Slocan branch railway from Slocan Crossing to Slocan City puts Nelson in direct connection with Slocan lake points. It is also the northern terminus of the Nelson & Fort Sheppard railway to Waneta (60 mls). International Boundary and Spokane (200 miles).

Nelson is the government headquarters for the southern district of West Kootenay. The offices of the government agent and gold commissioner and deputy registrar of the supreme court being located there. It is also a port of entry for Kootenay customs district and headquarters for superintendent and district freight and passenger agents of Kootenay branches of the C. P. R., and will be the western terminus of the Crow's Nest Pass Railway now under construction. This it is believed will establish Nelson more firmly as the business centre and distributing point for Southern Kootenay.

There are four banks, two daily and one weekly newspaper; two saw mills, with respective capacities of 30,000 feet and 5,000 feet per

day, sash and door factories, foundry and machine shops. Waterworks pressure is adequate for fire and domestic uses. Electric light plant is operated by the Corporation. The electrical generating station of the West Kootenay Power and Light Co., at Bonnington Falls, on the Kootenay River, 17 miles distant will furnish an abundance of power for all requirements.

The principal industry is the Hall Mines and Smelter, which give employment to four hundred men. There are also a number of other mines on Toad Mountain, just back of the city, and others that are tributary, on Salmon river, Quartz creek, Kokanee creek, and other camps on Kootenay lake. It has money order post office, telegraph and express offices and telephone exchange; Church of England, Roman Catholic, Presbyterian, Methodist and Baptist churches and public schools.

There are a couple of saw mills near by, one a modern mill at the head of the lake, and the other a small water power plant just across the lake. There is first-class steamer accommodation daily to Rosebery, 3 miles (railway transfer for Slocan Lake points), Silverton four miles and Slocan City 19 miles.

Has money order post office, chartered bank, telegraph and express offices and telephone exchange having trunk line connections.

There are a number of promising mining properties in the immediate vicinity. New Denver has a desirable location for a residential town, and is appreciated as such by number of mining men working Slocan Lake properties, who make their homes there.

# CITY OF NEW WESMINSTER,

(See also Sapperton.)

Is beautifully situated on the north bank of the Fraser river, 75 miles from Victoria, 16 miles from the Gulf of Georgia. Sea-going ships load at the wharves with lumber and canned salmon. It contains eight churches, Episcopal, Reformed Episcopalian, Roman Catholic, Presbyterian, Methodist, Baptist, Swedish two or three church buildings. The residences of Episcopal and Roman Catholic bishops are here also, Columbia Methodist college, Central public school, also Roman Catholic convent and college, and some private schools, as well as the Provincial Asylum for Insane and Dominion Penitentiary and Central Prison. There are three public hospitals. The Royal Columbia Hospital, the Women's Hospital and St. Mary's Hospital (R. C.) The public and business buildings are of brick. The city owns its electric light system, which is self-supporting. The city also owns waterworks with a supply by gravitation from a mountain lake giving in business district 170 to 180 pounds pressure. There is communication with river and Vancouver Island ports, daily or oftener, by steamer. A station on the Can. Pac. Ry. is in the city, and of the Great Northern Ry., immediately opposite, on the south bank of the river. There is one daily paper. Electric cars run to Vancouver city every hour, distant 13 miles Sawmills, iron foun-

dries, carriage and furniture factories, wood working establishments, Automatic Can. Co., fruit basket and box factory, cold storage, establishments, condensed milk factory, a feed mill and a tannery are among its principal industries. New Westminster is the headquarters of the salmon canning and agricultural interests of Fraser Valley, and the distributing point for the river trade.

On September 11th, 1898, a disastrous conflagration overtook this place and headed by a strong wind it completely demolished the business portion of the town in a few hours. This set the town back considerable, but there is now a marked increase in its many lines of industry and business.

The buildings which have been erected since the fire are not of so costly a nature as before, but are, as a rule, two stories high and of brick or stone. These are much better suited and adapted for the population and business of the place.

The streets are well kept, with good sidewalks. The climate is mild and equable.

Opera House, seats 1,000.

Population—7,000.
