

FATALITY AT THE JUNCTION.

A C.P.R. Carpenter Falls Dead in Kiosk—Other Items of Interest From the Lively Suburb.

Toronto Junction, Feb. 21.—Death came suddenly to a carpenter in the C.P.R. shops here, about 5.30 p.m. Pollard, with several fellow-workmen, were hurrying along Keele-street to catch a car. When opposite the street railway crossing, where a car was passing, he stepped out to his breast, and in the same instant fell to the pavement. Dr. Mavety, who was within call, pronounced the man dead. Coroner Glendon certified that death was due to apoplexy. The body was taken into the waiting room, where it lay exposed to curious gaze until 8 p.m., when it was removed by an undertaker.

The dead man had been employed in the railway shops for several years. He was 41 years of age, a member of the Salvation Army, and lived with his wife and family at 5 Argyle-street, Toronto.

A STRONG COMPANY.

The Provincial Provident Institution of St. Thomas, Ontario.

Twelfth Annual Statement of the Provincial Provident Institution of St. Thomas, Ontario.

Herewith is presented the Twelfth Annual Report of the P.P.I., covering the business transacted during the year 1895. Notwithstanding the extraordinary scarcity of money, and almost unprecedented hard times, it shows a substantial progress and increase of strength, attained in difficult times, as must be considered highly satisfactory by all interested in the welfare of the institution.

During the year, 1844 applications were received and 1386 policies were issued for a total of \$1,000,000. There were 174 applications rejected, showing the determination of the management to accept only first-class risks and thus build up the Company with the very best material obtainable.

The P.P.I. has had the lowest death rate during the past two years of any company reporting to the insurance department at Ottawa for the same period and every prospect is taken to insure a continuance of the same. The large volume of new business written and every prospect is taken to insure a continuance of the same. The large volume of new business written and every prospect is taken to insure a continuance of the same.

Only eight assessments were required to meet the claims of 1895, although \$94,500 was paid out to members and beneficiaries, and a net increase made of \$187,500. The large increase in the Reserve is one of the most gratifying features of the report, showing, as it does, that the institution is not only a safe but a profitable one.

It is a bulwark of strength to the policy-holders against the levying of more than ten assessments in any one year.

The net increase in insurance in force was in round figures \$500,000, and the total amount in force on the books at 31st December was \$1,000,000.

One great advantage that the P.P.I. offers over other companies is that members receive the direct benefit of the low death rate in Canada. Other companies collect premiums based on a higher death rate than the actual rate.

Minnie Madden Drake appeared last night in Ibsen's great drama, "A Doll's House." Nora Helmer is the profound study of feminine character in the whole modern drama, and Mrs. Drake's delineation of the girl was stimulating in charm and intellect. Her feminine in reasonableness, her harmless dishing of the over-mastering love for her husband that in the end turns to cynical contempt, were all shown with exquisite naturalness and grace. Her dominating intelligence was apparent not only in her own brilliant performance, but in the truth and skill displayed by the members of her company. It is almost a hopeless task to find out who can grasp Ibsen's subtlest, but last night Mr. James Neill as Helmer and Mrs. Albert Krogh (herself a Norwegian) as the sister Krogstad, showed the fullest possible grasp of Ibsen's humor and truthfulness. Mr. Rank and Miss Ida Waterman as Mrs. Rank and Mrs. Helmer were followed by a vivid sketch, "A Light From St. Agnes," from Mrs. Drake's own pen. She who is admired by so much of grace and acting was bristling and brilliant in her role of a noble death. In the play "Splendid Work" was done by Mr. Neill as a drunkard, and Mr. Rank as a thief, and Mr. Rank as a priest. To-night the first performance in English on any stage of "Caesars" (the translation of Dumas) "Femide Claude," will be given.

Pirates Headed Off. Messrs. Thomas H. Davis and William Keogh of New York are the proprietors of "On the Bowery," the phenomenally successful comedy-drama in which Steve Brodie will be seen at the Toronto Opera House following the engagement of "Down on the Bowery" to the latter attraction along with Edward J. Nugent, the firm's right-hand man.

STILL LEADING.

And they will continue to lead, for the "WHITE-RIMMED HYSLOP" has become a household word.

It is the handsomest model, strongest and fastest machine built and, when desired, will be fitted with the Anderson Automatic Brake, the success of the year.

❖ THE REGENT ❖

Is also built by ourselves, and is second only to the HYSLOP. Compare it with any other wheel built, either Canadian, English or American.

THE FLEET

Is too well known to require more than a passing mention, that it is right up to the times in both design and quality, and at \$75.00 is equalled by none.

❖ THE SPARTAN ❖

At \$50.00, fitted with D tubing and narrow tread, is without doubt the "plum" of the year. Compare it with other \$75.00 wheels.

OUR SPECIAL

At \$47.50, to which we particularly call attention, is no shoddy affair, but a good, honest English Wheel, and better value than most \$60.00 machines.

❖ The Crescent Line ❖

In all sizes for men, women and children, from six to sixty years of age, will be found the most complete and varied in the trade.

We are holding our opening at the new up-town store, 14-16 KING-STREET EAST, TO-DAY, AFTERNOON and EVENING, and invite all to come and see the largest and best line of wheels and the finest warehouse and riding school in the Dominion.

BAND IN ATTENDANCE BOTH AFTERNOON AND EVENING.
