NORGE'S SUDDEN SUMMONS

Was Seen to Go Down Bow First, Like a Whale, and Rise No More.

Grimsby, Eng., July 4.—A lone pile of granite, rising sheer out of the Atlantic, 200 miles from the Scottish mainland, is now a monument to almost seven hundred dead.

Bodies wash against the rocks or lie in the ocean bed at its base. Near by, completely hidden in the water, is the Scandinavian American liner Norge, which was carrying eight hundred Danes, Norwegians, Swedes and Finns to join relatives or friends in America.

Of these only about 120 were saved. No tragedy of the sea has had more appalling consequences, and none has occurred in the history of the shipping since the passengers were suddenly aroused from their sleep, terrified by the contact of the bows of the ship with the solid granite, followed by a grinding, rasping sound, as if the hull was being shoved over huge rocks. Then silence as the clanging bells brought the engines to a stop. Those of the passengers who were struck the rock were thrown against the bulwarks or on the decks and had not recovered their feet when a stenorian voice gave the terrifying order: "All hands on deck. Hurry or you may sink."

Equipment in Bad Shape. Immediately there was a search for the narrow companionways, and men, women and children pushed and struggled, making every effort to reach the deck, where the boats swung from the davits. Many persons, retaining their presence of mind, seized life preservers, only to find in some instances that the strings were rotten and that they could not be put quickly around their bodies. Those who reached the decks saw the nose of the Norge plumed directly against the rock. It remained there only a few minutes, for Captain Gundel, commanding, who had immediately gone to the bridge, gave the order to the engine room to reverse engines. Some men of the engineer force had relatives among the passengers, and after seeing them safely to the boats they heroically returned to their stations below.

Ship Backed Off. As the ship backed off, and as she gained way it was found that water was pouring into her hold. This announcement called out in Scandinavian and presaging death, added to the supreme fright and agony. The passengers who were piled in the bows were the fortunate ones who were to escape. Others, fighting their way to the deck, clustered in seething, struggling masses, some on their knees praying, others being held by children, others supplicating aid from any one and shrieking for permission to enter the boats. The water was pouring into the places from which the boats were being lowered.

Save by the Bow. The sound of grinding ceased and the bow of the Norge yawned as the steamer returned to deep water. The water poured hungrily into the huge rents made by the rocks in the iron hull. Swiftly the vessel began to sink by the bow. Without waiting for orders and without paying attention to their proper manning, the occupants began to lower the boats. The starboard lifeboat began slowly to fall, when to the horror of those on board the stern tackle failed, while the bow tackle ran free. Soon the boats were almost perpendicular. Those who were in it clung desperately to the sides until a great wave came towering over the bows of the boat, smashing it against the side of the ship. The occupants of the boat who were not killed by the impact were

HURRICANE HIT THE ISLAND

TENTS AND COTTAGES SUFFER

Fence Around Oval Blown Down and Total Losses Are Placed at About \$2000.

That Hanlan's Point is popular goes without saying. Even a little hurricane that blew in at 7 o'clock last night could not go by without having a look in, much to the discomfort of the campers on the sand bar and several others. While Mr. Harrington says he has not no time. It will cost about \$2000 to repair the damages his visit made.

It will cost Manager Solomon \$500 to replace that portion of the fence around the oval that was blown down and broken; fortunately no one was injured. Over on the sand bar every tent was blown down, and most of them torn to ribbons and the major portion of the contents ruined. Among those who suffered were Mr. Harrington and Mr. Buchanan of the Hamilton Steamboat Company. The latter unfortunately had a piano in his tent. It is feared the instrument is ruined. The inmates of "Edgewater" and other tents were also left without a shelter. The veranda of "Edgewater" was carried away, also Spence's new wharf, and the wharf and breakwater at Turner's beach.

The storm seems to have been worse at the Point than any other locality. The report is that the wind was particularly violent, but the lightning was especially fierce. Several trees were blown down at the island. Clark's ice house was struck by lightning. A number of the cottages were blown down. As far as is known there were no accidents in the bay.

The water in the lake at Sunnyside was declared by boatmen to be the highest yet known. The water was a very heavy swell that did some damage to the landings. It appeared to be a roll, with the heavy down-pour of rain in the evening, washed away another couple of hundred feet of the sidewalk along the lake shore, as well as a portion of the roadway.

WAR. NORTH SQUADRON HOME. St. Petersburg, July 4.—The Vladivostok squadron is understood to have returned safe to port.

OFFER TO SURRENDER. Tokyo, July 4.—It is reported that Russia has offered to surrender to the Japanese and cut their breastworks on June 27. The Russians captured a Japanese cavalryman, whom they bayoneted and then cut his abdomen open; on May 15 the Russians bayoneted a Japanese cavalryman whom they captured.

ACCUSES RUSSIANS. Tokyo, July 4.—Gen. Oku has made a statement charging that the Japanese were overpowered by Russian troops, who ran bayonets in their mouths, in the streets and cut their breastworks on June 27. The Russians captured a Japanese cavalryman, whom they bayoneted and then cut his abdomen open; on May 15 the Russians bayoneted a Japanese cavalryman whom they captured.

TWELVE MILES APART. St. Petersburg, July 4.—(7 p.m.) The latest despatches from the seat of war are to the effect that Gen. Kuropatkin has ordered the Japanese to retreat to the Abode of Love, at Spaxton, a picturesque village in Somersetshire, connected by a special service which is operated several times a day. The general opinion was that the C. N. R. had played a trump card.

Mr. Mackenzie says "Nothing New." Seen by The World with reference to the coup which has brought to a sudden end the negotiations between the city and the C. P. R. and G. T. R. Companies in connection with the leasing of the rail-

road area south of Front-street, William Mackenzie, president of the Canadian Northern, remarked with one of his exact routes is finally settled. We propose to come down the Don Valley and enter the city from that side.

On his attention being called to a despatch from Montreal that the contemplated new Union Station would be really a Grand Trunk affair and that the Canadian Pacific would pay the latter railway on a wheeling basis—\$9 much on every engine and car—Mr. Mackenzie said he had not been aware of the fact that such an arrangement was under consideration.

He will be the fact that the Grand Trunk will be alone responsible and alone look after all negotiations in connection with the proposed station. "I don't think there will be much change. We are on quite as good terms as ever."

WILL LOAN \$20,000. To the Central Ontario Railway, Says Ernest Ontario Township.

Kingston, July 4.—(Special.)—A vote was taken to-day in the Township of Ernest, Ontario, County of Addison, on a by-law to loan \$20,000 to the Central Ontario Railway. The result was a great majority in favor of the by-law, the vote being 348 for and 79 against. The vote necessary to carry, being two-thirds of the total, was 267.

Mr. J. Turner, a mayor, who returned this evening from Ottawa, where he was working, expressed himself as well satisfied at the result. The proposed railway will pass through the centre of the township, which is about twelve miles long.

He was confident that the results in Trenton, Colborne and Brighton, where the vote would be taken within the next three weeks, would be similarly favorable.

EMMERSON ON ESTIMATES WEARIES THE COMMONERS Opposition Severely Heckle Him, Remembering His Silence During G.T.P. Debate.

Ottawa, July 4.—Hon. Henry Emmer-son tackled his estimates this afternoon, and for two and a half hours wearied the house with dry details of revenues and expenditures upon the inter-continental railways.

Not having the details for the full year of 1904, Mr. Emmer-son took the year of 1903 as a basis for his estimates. He showed that the working expenses in the ten months of 1903 were \$2,292,839, receipts \$3,272,821, a deficit of \$979,968.

Coming to the capital expenditure, the minister said that in 1903 it amounted to \$229,104, in 1902 to \$183,122, in 1901 to \$252,758, in 1900 to \$1,011,921, in 1900 to \$1,796,348, in 1901 to \$3,622,213, in 1902 to \$4,072,000 and in 1903 to \$2,216,744.

Next the committee took up the estimate of \$4,511,000 capital expenditure for 1904. Mr. Emmer-son said that the original estimate of cost of strengthening bridges on the inter-continental outside of Cape Breton was \$1,750,000, so that with what had been expended and the estimate of \$288,000 for next year, there would be at least \$2,038,000 more required to complete the work.

HOW TO THE REAL QUESTION

Lord Dundonald has been dismissed, the outraged dignity of the Dominion government has been assailed.

And now what about Hon. Sydney Fisher? Assuming that Lord Dundonald made mistakes, that he was indiscreet, that he was bumptious and officious, these characteristics of his lordship's official career are no longer of the slightest concern to Canada.

Whatever Lord Dundonald's offenses may have been—and they have not lost fat in the telling—he has been required to pay the penalty. But if the government has made out a case against Lord Dundonald, it has not justified the circumstances which were the immediate cause of his dismissal.

Real equality does not mean an equal division of political power, or of money. It means that all the people shall have access to the "best things" of culture, whether spiritual, intellectual, or physical, courtesy, honesty, cleanliness, ample spaces, fresh air, the enjoyment of nature, and of all that the best and strongest of the race have done for their fellowmen.

evil than sensational journalism. Shoddy goods, scamped workmanship, failure to keep engagements, general disregard of the rights of others, are characteristics that are becoming too common.

THE REAL CONFLICT. The Republican party of the United States has chosen its candidate, and the Democratic party is now engaged in a similar task.

Lord Dundonald is the Hero of Lady Smith and who has Hon. Sydney Fisher there was a great deal of assertion of "liberty, equality, fraternity" in those days.

It rained on the First of July, and it rained again on the Fourth. Old Frobs treated with the utmost impartiality the two great divisions of the continent to which we belong.

So the opposition is making a "dead set" on Hon. Sydney Fisher. The martyrdom of Mr. Fisher is likely to become one of the most over-estimated chapters in the political history of this country.

A cornerstone at St. Catharines has been robbed. How can our boasted property stand the strain of the stubborn fact that the enterprising burglar is reduced to the necessity of robbing corners?

Minister Hyman's Desire is Granted on Division—Many Bills Passed. Ottawa, July 4.—(Special.)—Mr. Henderson protested against Mr. Hyman's motion made at the opening of the house today for leave to be given the railway committee to meet during the sitting of the house.

Mr. Fitzpatrick introduced a couple of bills in amendment of the Dominion elections and the representation acts. The first bill applied this special arrangement for votes of nomination and polling in the sparsely settled districts of Alberta, Ont., and Bernard and Yalo, B.C., as subdivided under the Redistribution Act of last year.

Mr. Borden observed that there were not too many members in the house attending to business at the best, and it would not be well to introduce a practice of having simultaneous meetings of committee and the house.

 Wholesale Dry Goods Men May Im-  
 port 7th Aug. 31 Under Old Tariff.  
 The secretary of the board of trade  
 has been advised by the minister of  
 customs that the efforts of the whole-  
 sale dry goods sections to secure an ex-  
 tension of time for the operation of  
 the increased rates of customs duties  
 on woolen goods, from June 7 to Aug-  
 31, have proved successful, the following  
 resolution of the minister of finance  
 having passed the house of commons:  
 "That all goods actually purchased on  
 or before the 7th day of June, 1904,  
 at any place out of Canada, for im-  
 portation into Canada, on evidence to  
 the satisfaction of the minister of cus-  
 toms of the purchase having been so  
 made, and all goods in warehouse in  
 Canada on such day may be entered  
 for duty at the rate of duty in force  
 immediately before the said day (with-  
 out special duty) notwithstanding any  
 increase in customs duties under the  
 said resolutions, but this proviso shall  
 not have retrospective effect after  
 the 31st day of August in the present  
 year."

**HITS AT REPORTERS.**  
 Berlin, July 4.—(Special)—A merry  
 writer is on in Berlin between the  
 town council and the press. To-night  
 the reporters were denied the privilege  
 of perusing the communications for the  
 purpose of making copies of them. A  
 reporter who had enjoyed for years  
 the satisfaction of the minister of cus-  
 toms of the purchase having been so  
 made, and all goods in warehouse in  
 Canada on such day may be entered  
 for duty at the rate of duty in force  
 immediately before the said day (with-  
 out special duty) notwithstanding any  
 increase in customs duties under the  
 said resolutions, but this proviso shall  
 not have retrospective effect after  
 the 31st day of August in the present  
 year."

**BOOKMAKERS ROBBED.**  
 Vancouver, B. C., July 4.—A hold-up  
 has occurred here, in which a race-track  
 bookmaker was relieved of \$10,000 at  
 the point of a revolver. The robbers  
 when pursued dropped the money  
 everywhere, and several thousand  
 dollars were scattered about. The  
 man, a large, burly fellow, was  
 carrying a trunk on his head and  
 then emptied the till.

**UP AT SAULT STE. MARIE.**  
 Sault Ste. Marie, July 4.—(Special)—  
 The directors of the Lake Superior Com-  
 pany arrived from Toronto yesterday  
 after a long and tiring journey. They  
 were met by the board of directors  
 and the public. The meeting was  
 held in the evening and was a suc-  
 cessful one. The directors will be  
 in the city for several days.

**ASTRONOMICAL SOCIETY.**  
 An open-air meeting of the Royal  
 Astronomical Society of Canada will  
 be held at the Observatory, Queen's  
 Park, on Tuesday evening, July 5.  
 A number of telescopes will be  
 provided for observing several  
 celestial objects of interest. The  
 courtesy of the director, R. F. Staples,  
 the large telescope and transit in-  
 strument will be at the disposal of  
 the public. The grounds will be open  
 to the public at 8 o'clock.

**Auto Turning Over.**  
 Auto 228, in turning over High Park  
 yesterday, was turned on its side by  
 the explosion of one of the rear wheels.  
 The occupants, three ladies and two  
 gentlemen, were thrown out, but luck-  
 ily escaped injury.

**It's a Habit Now.**  
 The civic league department yesterday  
 began another action against the To-  
 ronto Railway Co. for \$1400. The amount  
 covers the daily penalty for the  
 last 14 days in June.  
 July 14 is the date.

 Controllers Favor Davenport and  
 Rosedale Annexation Proposals.

The board of control yesterday de-  
 cided to report in favor of the annexation  
 of the Davenport-road and North Ros-  
 edale districts. The former is bounded  
 by a point 120 feet west of Bathurst-  
 street, and a similar distance north  
 of the Davenport-road. The Rosedale  
 district extends 150 feet north of Ros-  
 edale hill-avenue, east from Yonge-street, to  
 the belt line tracks, including the city  
 reservoir.  
 Commissioner Fleming reported ad-  
 versely on both propositions. The town-  
 ship was now paying for protection of  
 the railway crossings, and the city  
 would be compelled to assume this li-  
 ability. A number of crossings would  
 be opened up and the dangerous cross-  
 ings would be greatly increased. A large  
 amount of vacant land would also be  
 brought into the city to compete with  
 property which had paid local improve-  
 ment taxes. The commission would  
 strongly the system of taking in prop-  
 erty piecemeal, as it would prevent  
 big schemes in the future.  
 Controller Spence also supported the  
 city official, the mayor and Controller  
 Hubbard and the other members of the  
 board. The increase in assessment would  
 amply compensate for any disadvan-  
 tages.

**BRITAIN WILL WAIT**  
 THE Prize Court Passes on the  
 Vessel Allanton.

London, July 4.—In the house of  
 commons to-day, Earl Percy, the under  
 foreign secretary, announced that the  
 British gunboat Epiegle has been  
 ordered to return to Newchwang and  
 watch over the interests of British sub-  
 jects.  
 The secretary also said that as the  
 owners of the British steamer Allanton,  
 which was captured by the Russian vessel  
 the Russian Vindictive, in the  
 squadron, were appealing to the su-  
 preme prize court at St. Petersburg  
 against the condemnation of the vessel,  
 the British government intended to  
 await the decision of that tribunal  
 before approaching the Russian  
 government on the subject.

**SCIENTIFIC SUN-WORSHIPPERS.**  
 Paris, July 4.—With all due solemnity  
 the first feast, in honor of the  
 summer solstice, was celebrated a few  
 nights ago on the Eiffel Tower.  
 The committee of the Astronomical  
 Society of France issued sixty invita-  
 tions to dinner and 500 invitations to a  
 conference.  
 The dinner took place on the first  
 platform of the Eiffel tower, and the  
 guests had a most learned and ven-  
 erable appearance. Practically all of  
 them were scientists, and the discus-  
 sion of the sun-worshipers was  
 had long hair, but the majority were  
 bald. The dinner was presided over  
 by M. Janssen, whose speech was fol-  
 lowed by others from MM. Lippmann,  
 Flammarion and Loewy.

**WOODS-PLANNING.**  
 Yesterday morning at St. Paul's  
 Church, Power-street, a pretty wedding  
 took place, when Miss Theresa Flan-  
 nagan, the well-known vocalist, was  
 united in marriage to Fred Woods of Dun-  
 dun-street. The ceremony was per-  
 formed by the Rev. Father Hand,  
 the groom's gift to the bride was a  
 burst of diamonds, while to the bride-  
 maid was presented a four-dollar  
 gown. The groom's best man was  
 brother T. A. Woods, while Miss Mi-  
 nnie Flanagan performed a like service  
 for her sister, the carrying of the  
 trip will be to Atlantic City, and as  
 both the bride and groom are well  
 known, a large circle of friends will  
 wish them happiness and prosperity.

**Few Men Working.**  
 Halifax, N.S., July 4.—Only a limited  
 number of workmen resumed work at  
 the steel works to-day. The feeling  
 were on hand and used their efforts to  
 persuade the men to desert from their  
 returning or engaging in the strike.  
 successful were in their efforts that  
 outside of the officials and clerks  
 very few men were at the steel works  
 of the company. So far the blooming  
 only has been started. It is expected  
 the road and wire mills, which were  
 to-morrow. No acts of violence  
 have been reported so far. The men  
 are said to be determined to work  
 hard to defeat the company's object.

 gence Printing Company, was in-  
 jured in an accident yesterday afternoon.  
 She was engaged in a drive when an  
 automobile frightened the driver, and  
 the animal ran away and  
 crushed the buggy, throwing her  
 out. She was severely bruised and  
 taken to the hospital.

**Dowie in Inland London.**  
 Chicago, July 4.—London is to re-  
 ceive a visitation from John A. Dowie,  
 the young giant of Willow  
 Bend, Canada, who was well known  
 throughout Western Canada. Dowie is  
 22 years old, was 8 feet 2 1/2 inches  
 tall, and weighed 378 pounds. His last  
 visit to London was in 1898, when he  
 was embraced and placed on exhibition.

 P.C. Chapman to Be Disciplined—  
 Proposed Livery Stable  
 Arouses a Protest.

Talk about the smile that won't come  
 off! Watch the face of your favorite  
 policeman to-day. They will be all  
 new editions of "Sunny Jim," and the  
 police commissioners are the cause of  
 all. This small but important body  
 of legislators met yesterday afternoon.  
 There were only the mayor and Magis-  
 trate Denison present. That was  
 enough. They decided to allow the con-  
 stable Chapman to be disciplined every  
 month, with the exception of the  
 month in which they take their regular  
 vacation. This order will go into ef-  
 fect at once.  
 The board also dealt with the case  
 of P. C. Chapman of the monthly ad-  
 versity. The penalty to be imposed on  
 him was that he should be suspended  
 from duty for one month. The proposi-  
 tion was assented to by the board.  
 A new supply of revolvers will be  
 purchased. They will be of the same  
 type as those now in use. The propo-  
 sition of P. C. McClary was accepted. No  
 1 patrol wagon will be repaired.  
 The board also dealt with the case  
 of the erection of a livery stable on  
 Yorkville-avenue, opposite the fire  
 station. This property has been pur-  
 chased by John Townsend for the pur-  
 pose of erecting an up-to-date estab-  
 lishment. The board listened to argu-  
 ments for and against the proposition,  
 but deferred a decision until the next  
 meeting. In the meantime the commis-  
 sioner will take a look at the property  
 and try to ascertain who will be in-  
 jured.

**WHO SHOULD GET THE DUTIES?**  
 Ontario and Quebec Differ Over  
 Succession Revenues Transfers.

Ontario and Quebec are picking a  
 crow.  
 Several estates subject to succession  
 duties recently have included shares in  
 companies whose head offices are in  
 Ontario, but which for convenience  
 have an office of registration in Quebec  
 for purposes of transfer.  
 On this score the Quebec govern-  
 ment claims the succession duty, which  
 the Ontario government claims. The  
 province in which the head office is sit-

PROF. McLEOD RETICENT STEPHENS' BAD MEMORY

J. M. Shanley Speaks a Word in Favor of Canadian Engineers.

Montreal, July 4.—(Special.)—Judge Winchester opened his court here today, J. M. Shanley, C.E., being the first witness. At the enquiry in Montreal J. M. Shanley had stated that he had made application for American engineers only after he had exhausted every effort to obtain Canadian engineers and Mr. Mowat produced this testimony and asked Mr. Shanley what he thought of the experience of certain men whom he named.

The witness' opinion, first, that Canadian engineers in sufficient numbers could be obtained second, that the qualifications of the Canadian engineers would compare favorably with those from the United States; and third, that as a member of the Canadian Society of Civil Engineers he had never heard that Mr. Stephens had made any application to that society for men.

Mr. Shanley, shown a list of men who had applied for work, recognized many of them as being applied qualified for the position of divisional or district engineer, which is now filled by Mr. Stephens, an American, at a salary of \$700 per annum. He mentioned the names of the following who would be in his opinion amply qualified for the premier position: Messrs. Massey, Doucet, Mountain, Leonard, Jennings, Lumsden. Mr. Shanley named 15 men who, from his knowledge, would be amply qualified for the position of divisional engineer, which position was worth \$400 per annum.

The next witness was Prof. McLeod of McGill University, who proved, as both Mr. Mowat and the court averred, an unwilling witness. Prof. McLeod refused to answer most of the questions put to him by Mr. Mowat. He declined to mention the names of any members of the Society of Canadian Civil Engineers, which he was secretary, as being qualified for any position, whether that of chief, or divisional, or district engineer. He declined to say how many names on the list of membership might possibly have proper qualifications. He refused, again and again to say whether the number out of two thousand members might be one hundred or twenty-five or ten who would possess sufficient qualifications.

He was shown a list of men who had applied to the Grand Trunk, and he said he could not tell whether they were qualified or not. He said this, as Mr. Mowat reminded him, without having looked over the complete list. The professor, when asked why he had not been an employee of the Grand Trunk as an official timekeeper.

In the afternoon, witness Stephens was called. Witness refused to state if he had been in the Jamieson road, and he also refused to state why he had left South Africa and his memory failed him entirely when asked the men to whom he had refused positions in the survey.

C. M. Hays was then asked from what source he had received a list sent to the government as to the men's nationality, and the general manager replied from Mr. Stephens.

Harry Hobbs goes free. Bank didn't prosecute.

Crown Attorney Ball Promises to Bring Matter to Attention of Hon. Mr. Gibson.

Woodstock, July 4.—In the police court this forenoon Harry H. Hobbs, the insolvent bank teller who was arrested last week, received his trial on the charge of stealing the sum of \$723.34 from the Merchants Bank. He pleaded not guilty to the charge and the prosecutor offering no evidence against him he was discharged.

The prosecution was represented by Thomas Wells, the solicitor for the Merchants Bank, and upon the plea of the accused being received he informed the following resolutions were passed: Watson-Henry. That the application be the laying of a water pipe along Clarendon-avenue, Schiller-avenue and Poplar-Plains-road to connect with city water main on Avenue-road.

YORK COUNTY AND SUBURBS COUNCIL CANCELS FRANCHISE

Suburban Electric Railway Fails to Comply with Agreement—York Township Council.

Toronto Junction, July 4.—The regular meeting of the town council was held to-night, Mayor Chisholm presiding. The Wilkison Plow Company asked permission to cross Colling-avenue with a switch from the cross Colling-avenue, near the C.P.R. tracks, with the right to operate a steam engine there.

The application was granted on condition that the company should remedy the flooding of the collars of his houses on Keele-street, Humboldt-avenue and Whitby-avenue. The Union Stock Yards has built a switch at the town station, and there is no outlet for water running off St. Clair-avenue. The town council, however, is of the opinion that the Union Stock Yards were responsible for the damage. He thought the houses on the west side of the street, which were purchased from Mr. Train for \$150 on the recommendation of the town council, were in a better position than the houses on the east side of the street.

Board of Health Discusses Plans for Doing Away With Noxious Odors.

Hamilton, July 4.—A fire caused by a defective fuse broke out in the home of T. J. Holden at 435 Mary-street, this afternoon and did damage to the extent of \$200 to the house; the loss on the furniture is small. The blaze was confined to the kitchen and the bathroom above it.

This evening the members of the board of health discussed plans for doing away with bad odors that come from the coal oil inlet and almost stifle the passengers on the railway. The effluent of the sewage disposal works contains a large amount of ammonia and a sample from the inlet will be chemically analyzed, and if the chemist says that it would do any good the effluent will be turned into the inlet instead of the bay.

While there are quite a number of diptheria cases in the city, scarlet fever appears to be dying out. Dr. Langrill reported fifty-three deaths in June. Five of them were caused by tuberculosis and three by diptheria.

The members of the board of health held their annual meeting this afternoon. There were only a dozen of them there. They will wait upon the city council and ask that the fire department be authorized to erect a reservoir of new high level reservoir. The reservoir would increase in insurance rates was discussed and the members of the board of health decided to take the position of president, and H. N. Killson will be the president of the board of health.
