

THE EVOLUTION OF CANADIAN COMMERCE--Seven Pictures

No. 1--The First Exchange of European and Canadian Commodities--Jacques Cartier in the St. Lawrence River, 1535

WOMAN'S WORLD

Young Women Renounce the World.
KINGSTON, Aug. 29.—(Special).—At the second annual retreat of the sisters of the House of Providence, thirteen young ladies announced their devotion to the poor and sick in hospital and for the education of the young. Miss Teresa Quinn, Ferguson's Falls, known in religion as Sister Mary James, pronounced perpetual vows; Miss Agnes Perigot, Vinton, Que., Sister Mary Marcella; Mary O'Reilly, Madoc, Sister Mary Jerome; Annie Fowler, Glenburnie; Sister Mary Harold; Sarah Freeman Read, Smith's Falls, Sister Mary of Lourdes, were admitted to vows for probationary term of two years, while Misses M. Moore, Chesterville; E. O'Meara, York; A. O'Reilly, Madoc; L. Mc-Nichol, Cornwall, and E. Dowdall, Perth, were clothed in the habit of the order.

IN SOCIETY.

A quiet wedding took place Saturday last, Aug. 28, at Quebec, when Mr. Henry H. Mason of Toronto was united in marriage to Miss Ethel Wilson of London, England. Miss Nan Wilson, sister of the bride, together with Mr. Alfred J. Mason and Miss Kate E. Mason, father and sister of the groom, were present from Toronto. The Rev. George Cobblecluck was the officiating clergyman.

Miss Aletha McCully of 180 Bellevue-avenue, returned home Saturday after six weeks in Muskoka.

Among the Torontonians arriving at the Queen's Royal are: Mr. and Mrs. Thomas Gilmour, Mr. and Mrs. R. H. Green, Mr. and Mrs. John Lyne, Miss Rogers, W. A. Knox, F. A. Reid, Mrs. S. Campbell, L. Campbell, Herbert Locke, Mr. Calvert, W. E. Rudcliffe, J. R. Coke, Mrs. R. W. Smallpiece, Mr. and Mrs. D. H. R. Cooper, Miss Nordheimer, J. A. MacKellar, F. Thompson, J. C. Rose, Mr. and Mrs. Husher, F. A. P. Long, J. Ross, Mrs. J. E. Smith, Mrs. A. M. Piper.

Everything Up-to-Date.
The only business school in Toronto conducting a properly equipped office training department with multigraph and all modern appliances, is the Central Business College, Yonge and Gerrard-streets.

OPTIMISM IN BEVERAGES

How the O'Keefe Brewing Company Met Popular Demand.

The optimist—the man who looks on the bright side of life—has much reason to be gratified with human nature in these latter times. Within the past year or two there has been a distinctly an ever-increasing desire for natural, wholesome beverages that afford pleasure with any alloy.

In no way is this upward trend better noticed than in the quality of the beverages that the people drink. A large section of the community the essentially temperate, have a desire for wholesome cooling drinks that refresh and stimulate, without any of the unpleasant after effects which an indulgence in the so-called alcoholic liquors often incurs.

Not by any means ignorant of this ever-increasing demand for a temperance drink, the manufacturers have set to work to cater to the wishes of the public, and in the front ranks of the new order of things is the already famous "Star" beer of the O'Keefe Brewing Co. It was by a stroke of luck—a mere suggestion in the fact that this beverage was put on the market a year ago. The company anticipated a ready sale for it, but not the phenomenal one which has resulted, consequently, it is almost impossible for them to supply the demand. It proves conclusively that the O'Keefe idea of what the public wanted was correct.

Hosts of people don't like strong beverages. They want a refreshing drink but complained that none was to be had which would not injure the stomach. They like beer, but find the alcohol a little too strong. Here the "Star" beer stepped in and filled the bill completely. Malt and hops are the only materials used in its preparation. It is absolutely pure, no preservatives of any kind being used. The object of the O'Keefe Brewing Co. has been to keep the percentage of alcohol in this new brand, as low as possible, and not border on the 2-1/2 per cent, permitted by the law, as the flavor of the drink has not been impaired, and several of the company's officials have been afforded much amusement lately in watching the unsuccessful attempts of experienced beer drinkers to distinguish samples of the intoxicating and non-intoxicating brands. The only one who has made the "Star" beer gain popular favor so quickly is the know-

ledge that it is pure—pure in material and in preparation. A analysis is made of every brew before it is sent out, and not more than 40 per cent. of the strength permitted is run, so that there is actually less alcohol in "Star" beer than in older, ginger beer, and other temperance drinks.

A feature that is pleasing too, is that ladies have shown a decided preference for "Star" beer over other highly charged beverages.

SERVICE FOR THE AGED

Many in Congregation Ranging in Age From Seventy to Ninety.

Yesterday morning in Elm-street Methodist Church, Rev. W. F. Wilson conducted one of the most unique and impressive services ever held in this grand, old historic church. It was a service for aged people, and the church was filled, many people coming in carriages, motor cars and taxicabs.

There were people in the congregation whose ages ranged from seventy to ninety years; one couple has been married nearly sixty-five years. Hymns were sung to the old tunes so familiar fifty years ago. The text was taken from Acts xxi, 16. The sermon—"An Old Disciple," was particularly appropriate, bright and inspiring. The preacher's chief points were the rich memories, blessed example and glorious hopes of old people whose lives were Christ-enriched, and the eternal reward that soon must be theirs who stood amidst the shadow of the eventide of life.

Cooke's Church Improvements.

Rev. Dr. Taylor, who has just returned from his vacation, preached to congregations which crowded the lecture hall of Cooke's Church yesterday. Dr. Taylor asked the congregation to raise \$2000 by next Sunday night, to cover the balance on the improvements of the church, which is to be reopened on that date.

Local Option Mass Meeting.

HESPELER, Aug. 29.—The Hesperian Citizens' League in the interests of local option held an open air meeting this afternoon. Two lorries served as a platform for the speakers. The teachers and scholars of the different Sunday schools, about 500 in number, paraded to the grounds, the children carrying small flags, with the words "Save the boys," "Save the girls," and "Vote for us." They were headed by the Salvation Band of Guelph. The speakers were: Rev. Dr. Eby, S. Berr, J. Parkin, Rev. J. Wilson, and J. H. Christman.

HAMILTON HOME DOUBLY BARRED

Continued From Page 1.

got me by the throat and threw me down, holding me on the ground with his knee. But he let me up to get away with the boy.

Driver's Assistance.
"God bless that taxi driver. I would not help him to steal my child, he turned to me and said that he would not try to take him if I would go into the house and talk things over. I ran to the door which the lady who was left in the house held open, and as soon as I was in she slammed it in their faces. They stood and talked for a minute, and then went out and drove away. I hope I never see either of them again."

"After they were gone, we looked at West's suitcase. It was cheap, absolutely new, and contained only a brick. I laughed at that."

Mrs. Hamilton went on to tell of the trouble she has had in keeping her little son with her.

"I have feared to trust anyone," she said. "Mr. Hamilton's plans have reached everywhere. He lured a servant out of my house, and took her to St. Louis to give evidence against me if I sought to recover the boy thru the courts there, after he had stolen him in January."

"You see the father had been away from him so long he would not have known the little fellow, and the night before New Year's I had his pretty curls cut off. The next day he went to visit Mrs. A. McKee, 83 Gladstone-avenue, who is Mr. Hamilton's aunt. She wanted to give him something, and bought him a bright green Buster Brown overcoat, and told him he must always wear it."

First Kidnapping.
"The next week, January 13, the father and a woman caught the little fellow in Spadina-avenue. They waited for him with a cab, and caught him up and drove away, just this way you told it in the Sunday World. Then I went to St. Louis, just as you said, and 'save the girls' and 'Vote for us.' They were headed by the Salvation Band of Guelph. The speakers were: Rev. Dr. Eby, S. Berr, J. Parkin, Rev. J. Wilson, and J. H. Christman.

got him back from St. Louis, March 13, having there on the eleventh. You see, the thirteenth was both lucky and unlucky for me, as it was on that day that I lost and recovered the little fellow."

"The day I left the city a letter came from this girl who had worked for me, telling me that my husband had told her that I was working against her, and got her to go to St. Louis to help him to keep the child if I went to court, but that she had found out so much that she had refused. She told me that the woman who is living with Mr. Hamilton—as his wife thought that the boy should be sent back to me. He was horribly dirty and covered with vermin, when I got him back."

"Another curious thing is that a big auto stood in the street just opposite the house next door all Thursday morning. I have asked all the neighbors, but none of them 'know whose it was.'"

SHIPPERS WORRIED
New Government Regulation Causing Them Trouble.

The fact that the government railway commission has ordered that bills of lading be of uniform size and contain certain wording, might not be considered of any great importance, but it has got a certain number of manufacturers and shippers pretty much worried just now. During the last week in July the government advised the railroads that they must insist on shippers using one form of bill of lading on and after October 1st. The railroads in turn advised their agents that they must not accept old forms after that date. Many manufacturers and shippers looked into the matter and decided that they would go straight along and use up the old forms. But the law stood in the way and the result is that the makers of loose leaf supplies are at their wits' end to cope with the landslide of orders for bills of lading forms coming their way.

R. J. Copeland, the president of the Copeland-Chatterton-Crain Company, said yesterday, that they had sized up the situation early and installed extra capacity metal presses to handle the orders. "Even with our very large plant," concluded Mr. Copeland, "we are working overtime to keep the makers of checks and have made provision for all customers to be supplied in time to start on the fixed date."

Emigrants to Canada during the first seven months of the year were 57,923 and to the United States 59,443.

ST. JOHN AND MALTA

Chapter-General Meets in Toronto on Sept. 6.

The Chapter General of America of the order of Knights of St. John and Malta will hold their annual convocation in this city on the 6th of September. About 200 delegates representing fourteen states and the Dominion of Canada will be in attendance. Reservations for the grand officers and delegates have been made at the leading hotels, and the headquarters will either be located at the Queen's or the Prince George's. The first of the delegates to arrive will be the New York, Pennsylvania, Maryland, Delaware and Connecticut knights who are coming early next Sunday morning, and will be followed during the day by those from the western and southern states. The meetings of the chapter general are purely business ones, all parading and entertaining being prohibited by constitutional enactment. The local officers of the commanderies will meet the incoming trains and look after the reception and comfort of the visiting knights. The sessions will last three days, and be held in the chapter rooms of Beaver Commandery.

FIRE CHIEF IS TAKEN ILL

James Armstrong of Kingston is Threatened With Pleurisy.

KINGSTON, Aug. 29.—(Special).—Fire Chief James Armstrong is confined to his home to-night, threatened with pleurisy. He worked as usual at a fire which destroyed Alex. Arthur's bakery on Princess-street at 3.26 a.m., during a heavy rain, but was unable to turn out at 9 a.m. when fire was discovered at McKelvey & Birch's plumbing shop. The losses were \$2500 and \$1000 respectively. It is the fourth fire in a few years for the plumbers.

NEGRO KNIGHTS OF PYTHIAS

QUELL AN INCIPENT RIOT.

KANSAS CITY, Mo., Aug. 29.—Swinging their swords above the heads of the belligerents and declaring that unless the trouble ceased they would use them, a company of negro Knights of Pythias prevented what promised to be a race riot, during a parade of the supreme lodge of the negro Knights of Pythias.

The trouble began when W. S. Jarbot, a laundryman, accompanied by his wife, drove thru the parade of 5000 negro knights.

"G" CO. R.G. RIFLE MATCH

Sergt. E Hancock Makes Highest Score, With 92.

The annual rifle match of G Company, Royal Grenadiers, was held on Saturday, resulting as follows: Sgt. E Hancock 92, Corp R Jones 88, Col Sgt A J Cook 84, Pte W Jaffray 82, Lee Corp H Wise 79, Sgt F Thomas 79, Pte E Allen 70, Lt Ryerson 67, Lee Corp Willmott 65, Pte J Burton 64, Pte R Otterby 64, Pte T Baker 63, Pte L E Jones 61, Pte J Hammond 57, Lee Corp Lambert 56, Lee Corp Fletcher 52, Sgt G Cartwright 49, Corp H Hardman 46, Pte G Rush 45, Pte A Foster 44, Pte A Southern 41, Lee Corp A Johnson 41, Pte J Forsyth 38, Lee Corp W Stewart 38.

Two matches—Pte J Burton 64, Pte R Otterby 64, Pte J Hammond 57.

Range—500—200 yards, Corp R Jones 23; 500 yards, Col Sgt Cook 32; 600 yards, Sgt Hancock 33.

The Thompson trophy, section prizes, five highest scores, was won by No. 3 section with a score of 344.

MONSTER SHIPS FOR JAPAN

Tokio Talks of Laying Down Cruisers Soon of 36,000 Tons.

TOKIO, Aug. 29.—The government announces its intention to build cruisers of 36,000 tons.

The Dreadnough is only of 17,900 tons, the superdreadnoughts 20,000 tons or less; the British invincible class of cruisers are 17,250 tons. The biggest ship talked of for the United States navy is to be about 25,000 tons.

A 36,000-ton cruiser would be in the class as to size with the greatest Atlantic liners, the Mauretania and Lusitania alone excepted.

No Inquest.

Coroner Lawson of Brampton decided an inquest unnecessary in the level crossing accident at Streetsville, Friday, when one man was killed and a boy critically hurt. It seems that the occupants of the rig had been looking at a small grass fire in approaching the crossing.

A Valuable Exhibit.

Every business man who visits the exhibition should see the Flexotype in operation. It is exhibited by the United Typewriter Co. It does printing equal to the best presswork, at half the cost.

EVOLUTION OF CANADIAN COMMERCE.

Individual instance is not uncommonly the most telling method of tracing the progress of nations, cities or great departments of commercial life. Great men are the measure of history and great businesses are typical of expanding trades and industries.

That was a happy inspiration which led Mr. S. H. Howard, the manager of the city advertising office of the Robert Simpson Company, Limited, to have prepared, for free distribution at the National Exhibition, a souvenir of the completion of the firm's new building in Toronto.

Next in order come the fortified trading posts, which remained for many years the type of the Canadian place of business. These were dotted by the degrees all over the continent and on their sites now stand some of the largest and most notable cities of the North American continent.

The next stage in the march of the circular saw-mill—the clasp-board store—is possible by the advent of the circular saw-mill—the old familiar corner "store at the corners" just before Confederation.

KINDNESS TO ANIMALS.

It is gratifying to those who supported the labors of the late George T. Angell for so many years, to know that his works follow after him. "Our Dumb Animals" is quite the most interesting periodical of the many devoted to our four-footed friends.

U. S. SILVER IN CANADA.

Taking as its text a statement of Canadian origin to the effect that 40 per cent of the silver circulating in Western Canada is of United States coinage, The New York Mail recently drew the conclusion that the reason for this is because the users prefer it.

SPANIARDS CELEBRATE MASS IN SPITE OF MOORISH ATTACK.

MELILLA, Morocco, Aug. 29.—A solemn requiem mass for the repose of the souls of the large number of Spanish officers and men killed in the sanguinary battle with the Moors July 27 was dramatically celebrated this morning. The altar was decorated with flowers and surrounded by four cannons.

For Visitors and Tourists and May Fever Victims.

Do you know that within a few hours' ride of Toronto are the celebrated "Highlands of Ontario," the finest summer resorts in America. Charming scenery and virgin woods, pure air, where hay fever cannot exist.

CRICKET RESULTS

St. Albans Beat Grace Church. In a league game on Saturday at Varsity athletic field, St. Albans beat Grace Church by 14 to 9. Grace Church batted first and started out well, Collins and MacCallum hitting up 26 for the first wicket.

St. Mary Magdalene Beat Queen City. St. Mary Magdalene C.C. defeated Queen City at Riverside on Saturday by 22 to 25. For the winners, May and Smith were tied for batting honours.

Riverdale Defeats St. Cyrilians. Riverdale C.C. defeated St. Cyrilians in a friendly game at Riverside on Saturday by 12 to 28. The Saints were unable to make a stand against the bowling of Stephenson and Pearson, the former getting five wickets for 8 runs and the latter five for 15.

West Toronto Western Champions. On Saturday, at Aura Lee athletic grounds, West Toronto C.C. succeeded in winning the western division of the Church and Mercantile League, defeating Dovercourt C.C. in a decisive manner by 74 runs to 38.

St. James' Cricketers Win. St. James' Cathedral and Grace Church Cricket Clubs played off their postponed C. & M. League game Saturday at 49 to 37. Treanor was top scorer for the club.

St. Davids Beat Devonians. At Leslie Grove on Saturday afternoon, St. Davids beat the Devonians C.C. by 50 runs. For St. Davids, Muckleston played well for his 28. Maffey, Read and Morison reached double figures, scoring 15, 13 and 10, respectively.

Aura Lee Beat St. Pauls. Aura Lee cricketers defeated St. Pauls Saturday by 12 to 48. Scores: T.A.A.C. cricketers defeated Toronto Saturday by 12 to 48. Scores: Jones, bowled Howard, 4; P. Morris, c Kingsmill, b Howard, 16; Livingstone, sid. Marshall, b Brown, 7; Gibson, bowled Brown, 19; B. Morrison, bowled Brown, 19; Gausden, c Howard, b Brown, 19; Wood, Dalrymple, b Brown, 19; Hartley, c Dawson, b Brown, 19; Beeton, bowled Brown, 19; McKeen, bowled Brown, 19; Extras, 19.

Diarrhoea, Dysentery, Summer Complaint, Stomach Cramps, Colic, Cholera Morbus, Cholera Infantum, and all Looseness of the Bowels. MAY BE RAPIDLY AND EFFECTUALLY CURED BY THE USE OF THAT OLD AND STERLING REMEDY Dr. Fowler's Extract of Wild Strawberry

It has a reputation of 65 years' standing and never fails to either relieve or cure. There are many imitations of this remedy on the market that sell for less per bottle. Dr. Fowler's is 35 cents, so be sure and get the genuine. The cheaper articles may be dangerous to your health.

Mrs. GEORGE PHILLIPS, Sault Ste. Marie, Ont., writes: "My baby one year old took the Summer Complaint, and was so bad as to pass blood." I got a bottle of Dr. Fowler's Extract of Wild Strawberry, and had to give a few doses before my baby was cured. My husband had diarrhoea and three doses cured him. I have used it in my family for over three years with great results and feel safe in recommending it to everyone for all kinds of Summer Complaints.

TWO AUTOS SMASHED Cars of Hyslop Bros. and Edmund Bristol in Collision.

Two automobiles came to grief about five o'clock yesterday afternoon on East Queen-street, near Coxwell-avenue.

One car No. 3455, which is registered in the name of Hyslop Bros., disintegrated right-of-way with a telegraph pole, and the front was badly smashed.

The other, No. 3854, owned by Edmund Bristol, M.P., had the axle of the rear wheel broken, and the car almost turned turtle.

As far as could be learned the cars were traveling at a high rate of speed, and were not thoroughly under control.

In trying to avoid colliding with a punny vehicle the accident occurred. No one was hurt, and Hyslop Bros. have no knowledge of license No. 3455.

A carelessly tossed cigarette exploded 700 lbs. of dynamite at Key West, Fla., and killed twelve men.

TOBIN-LITTLE-On Saturday, Aug. 28th, 1899, at the Metropolitan Church, by the Rev. W. H. Armstrong, Ethel Little, daughter of Mr. and Mrs. Parker Little, of 57 Borden-street, Toronto, to Leonard Moore Tobin of New York City.

DEATHS. BOLLARD—Suddenly, Friday, Aug. 27, 1899, at Chemung, Ont., Arthur Bollard (Dutch), aged 19 years, beloved son of Arthur and Mary Bollard. Funeral Monday, at 2 p.m., from 381 Berkeley street.

EGAN-At Barrie, Ont., on Sunday, Aug. 29, 1899, the Rev. R. J. Egan, Dean of Barrie, R.I.P. Funeral Tuesday, Aug. 31st, at 11 a.m., at St. Stephen's Church, Barrie. Kindly omit flowers.

GANNAN-At her sister's residence, 212 Bathurst-street, Aug. 29, 1899, Johannah Gannan, aged 4 years. Funeral Tuesday morning, Aug. 31, at 7.30 a.m., to Union Station. Interment at Brimley-road.

MASON-Howard Mason, 14-year-old son of Thomas, of 50 West Lodge-avenue, Montreal, Tuesday, Aug. 30, at 2.30 p.m.

DIAMOND "PRINCESS" RINGS

This style of ring is made generally of three rows of Diamonds, running crosswise on the finger. Sometimes the centre row is raised, but more often the Diamonds are set on the same level, making a most beautiful effect.

In stock at present we have a large variety of "Princess" Diamond Rings, to which we invite your inspection, the Diamonds being set in platinum, while shank of ring is of 14k gold. Prices are from \$150 up.

AMBROSE KENT & SONS, LIMITED. 156 Yonge St., Toronto ESTABLISHED 1868

HYDRO KNOCKERS CAN'T SCARE FARMERS

Continued From Page 1.

was finally agreed to remove four towers from a closed road allowance, and put the telephone poles along the fence line to be used for fence posts if the farmers desired.

In addition, Mr. Lobb stated that rural or municipal telephone companies might be able to get their lines where possible.

This was all satisfactory. In adjourning the meeting the reeve voiced the unanimous sentiment of all present by saying: "We are obliged to Mr. Lobb for those and courteous explanation of the cheap power scheme. We are satisfied with what he has said. Had we seen him first it would have saved much worry and trouble."

Pushing the Work. During the afternoon The World man drove over eight or ten miles of country contiguous to the right of way. He passed a gang of workmen busy on the towers—one of seven gangs pushing the line thru to Toronto and London, 20 miles in all.

The workmen themselves are really enthusiastic. The contractors are eager to push the construction. The land buyers are equally anxious to get the right of way.

BETHANY AVIATION FIELD, Rheims, Aug. 29.—A twilight vision of Paulhan's graceful monoplane, like a great white bird soaring above the plain so high that it seemed to rise above the yellow harvest moon just as the sun set.

The Curtiss machine has been dubbed, "the Vitessay world's record in the prize des aviation week."

Curtiss only missed winning the lap speed contest from Bleriot by a small margin. His capture, second place in that event, which was over the full circuit of ten kilometers or 6.21 miles, raising his total money winnings to \$8,000, makes his record in the Vitessay world's record in the prize des aviation week.

An accident removed Bleriot from today's three lap speed contest. The rudder suddenly failed to respond and the machine turned completely over three times, landing with such force that the motor, bars and propeller were smashed.

Before Bleriot could extricate himself, he was burned about the face and hands.

The prize de l'altitude, 10,000 francs, to be awarded the aeroplanist attaining the highest altitude, was won by Latham, who reached a height of 155 metres (about 490 feet). Farman was second with 110 metres, Paulhan third and Rougier fourth.

The international cup of aviation, known also as the Gordon Bennett trophy, was won to-day by Glenn H. Curtiss, the American aviator, in the fastest aerial journey of 20 kilometers (12.4 miles) ever achieved by man. His time, 15 min. 30.5 sec., was only 5.3-5 seconds faster than that made by Bleriot over the same course.

The other two pilots who represented France, Latham and Lefebvre, finished respectively in 17 min. 32 sec., and 20 min. 47.5 sec. Cockburn, the Englishman, ran into a haystack as he was manoeuvring for the start, and Henry Farman, the English aviator, added to his laurels by carrying two passengers around the course.

Buffalo and Fort Erie, \$2.00. Excursions Daily Until Sept 4th (except Sunday).

By leaving Toronto on Grand Trunk "Radio Express" 9 a.m., you reach Buffalo at 12.30 noon. Returning trains leave Buffalo 6.25 p.m. and 10.15 p.m. (giving you ten hours in Buffalo).

Special to Fort Erie, leaves Toronto 11.30 a.m., running direct to retrace. Tickets valid for return date of issue only.

YOUNG BROTHER'S VERSION OF FIGHT WITH BOLLARD

Harry Jopling Says One Blow and a Little Wrestling Was All, But Postmortem Shows Otherwise.

PETERBORO, Aug. 29.—(Special.)—The inquest into the death of Arthur Bollard of Toronto, who died on Friday as the result of injuries sustained in a fight with Harry Jopling, will be held Monday evening.

A post-mortem was made on Saturday by Drs. Scott, Gray and Morgan. They refuse to make public the results, but it is stated that they found mutilation that indicated that the young man was the victim of a most ruffianly assault.

According to Harry Jopling, brother of Fred Jopling, who fought Bollard, and who is now in the hospital in a serious condition from blood poisoning, the fight followed a joking remark made by Harry to Bollard, which the latter chose to interpret as an insult, and he challenged Jopling to fight it out.

"As I am only 18 years old and a little fellow, and he was a trained athlete, I said I wouldn't," said Harry Jopling, "and Bollard said he could lick me and my chum, Billy Merrill. We drove on. That night I went to a dance with my sister and saw Bollard point to me and heard him say, 'That's the guy.' I was afraid he was going to get one of the big fellows to come up."

"After the dance we saw Bollard and three others going on ahead and Fred said, 'Let's ask him what he meant by treating you like that.' Bollard turned and Fred approached Bollard and asked: 'What do you mean by hitting my little brother?'"

Then Bollard turned and struck me with his hand. Fred struck me only one blow, which knocked him into the ditch. Bollard looked in bad shape as he crossed."

"He then challenged my brother to a wrestling match, and the idea striking both of them as good fun, they shook hands and started in. Bollard saying that he was better in wrestling than boxing. Once Fred threw Bollard and the next morning he was in the hospital. On the third throw, Bollard was pitched into the side of the road, where he vomited profusely for several minutes. After that he got up and went home with his friends."

Certain it is, that while this version may be, in a general way, accurate, it does not tell all that occurred, and the brutality of Bollard's assailants should call for the most rigorous prosecution that the law allows.

AVIATION CONTESTS END CURTISS BREAKS RECORDS

DIRECTORS

The following gentlemen have consented to serve as Directors:
J. N. GHEENSHIELDS, K.C., Director of the Shawinigan Water & Power Co., and the Quebec Railway, Light & Power Co.
WILLIAM FARWELL, President of the Eastern Townships Bank.
S. H. EWING, President of the Montreal Cotton Company, and Vice-President of the Moisson Bank.
RODOLPHE FORGET, M.P., President of the Richelieu & Ontario Navigation Co., Second Vice-President of the Montreal Light, Heat & Power Co., and a Director of the Toronto Railway Company.
HON. CHARLES J. DOHERTY, M.P., Director of the Montreal City & District Savings Bank.
S. M. BROOKFIELD, Halifax, President Eastern Canada Savings & Loan Co.
HON. ROBERT ROGERS, Winnipeg, Minister of Public Works of Manitoba.

The company has acquired the following important concerns.

- The Union Asbestos Mine, about 110 acres.
 - The Southward or Bells Mine, about 117 acres.
 - The Imperial Asbestos Company (controlling interest in), about 153 acres.
 - The Black Lake Chrome & Asbestos Company, 5000 acres.
- TOTAL 5,385 ACRES**

These properties are in the Serpentine belt of the Black Lake and Thetford Mines district, in which the most important asbestos mines in the world are situated. They have an area of 5385 acres and partially surround some of the most valuable companies in the district.
 The company has all its properties paid for, and out of the present bond issue will have more than \$500,000 available for the further equipment and development of its properties.
 Making allowance for the cash in hand, the bonded indebtedness against the properties is extremely low, being less than \$100 per acre.
 The asbestos industry is unique, as it has the whole world for a market.
 It is the only industry in the world of which this can be said.
 This district produces about 85 per cent. of the world's output.
 The industry is controlled by a few companies, which practically eliminates competition.
 The Black Lake Consolidated, with its enormous area and inexhaustible deposits of asbestos, is therefore destined to become an important factor.
 The remarkable growth of the industry in Canada is demonstrated by the fact that all grades have doubled in value during the past eight years, although the output in the same period has trebled, proving that the demand is keeping ahead of the supply.
 These facts show that this is just the time for the investor to become identified with an industry, which, though still in its initial stages, has a future assured.
 Application will be made in due course to have the securities of the company listed on the Montreal and Toronto Stock Exchanges.
 Any additional information can be obtained from and subscriptions made through

BRITISH SCIENTISTS INSPECT GOLD FIELDS

Sudbury Board of Trade Conducts Old Country Visitors Thru New Ontario Gold Plant

SUDBURY, Aug. 21.—To-day a number of the above gentlemen were the guests of the board of trade of Sudbury, and as they had previously been shown some of the large nickel deposits existing in this neighborhood, it was thought well to give the visitors an opportunity of seeing some of the other extensive mineral deposits, so a trip to the Moose Mountain mine and the Vermilion River gold placer deposits was decided upon, and under the skilful guidance of the genial president of the board of trade, L. O'Connor, an early start was made from the new depot of the Canadian Northern, to Moose Mountain iron mine.
 On the way several short stops were made along the line to afford Dr. Coleman, Ontario's chief geologist, who accompanied the party, an opportunity of pointing out the various changes of the rock formation occurring along the route. Arriving at Moose Mountain, the party was received by Mr. Jordan, the able manager of this extensive property, who conducted his visitors for some miles over various beds of iron ore, which extend into the Township of Roberts, where other large bodies of iron have been located, and are now owned by Mr. L. O'Connor and associated. A halt was at last called as there would not permit of more of these enormous deposits being seen. On the return to the mine an excellent lunch was served and done ample justice to by our visitors, whose appetites were sharpened to a keen edge by our northern atmosphere.
 After lunch and a few short speeches an inspection was made of the mine and shipping plant. There is being installed a plant of a kind somewhat new in Canada, arranged on the principle of concentration, which, if properly carried out, as it undoubtedly will be, under the management of Mr. Jordan, is the new principle of treating many of the bodies of magnetic ores, a treatment which, if more thoroughly practised, would much increase the profits of the mine owners and be beneficial to all concerned. The principle of these new ores is undoubtedly the new principle of treatment to be adopted, eliminating as it does in the process many of the deleterious constituents existing in the crude ore.
 After examining the works above re-

PRICE OF SILVER.

 Bar silver in New York, 51 3/4 oz.
 Mexican dollars, 46c

ferred to the party returned to the cars and proceeded on its return journey south along the banks of the Vermilion River. The route was over some extensive beds of auriferous gravel, which will undoubtedly be worked in the near future and made to yield the province some portion at least of the many millions of dollars of gold that is now disseminated in fine dust thru these gravels.
 A halt was made at Auriferous for the purpose of inspecting the works at this point, owned by Mr. R. H. Ahn and one or two associates, and which have been built up by Mr. Ahn for the purpose of demonstration, in a substantial manner, that these placer deposits can be treated successfully and made to yield up their values at a handsome profit to the operators.
 On arriving at the works the whole plant was found to be in full swing, extracting the values. The two new concentrators that have lately been installed attracted particular attention, as they delivered their continuous stream of black sand and gold at the bottom of the tables, while the waste, according to its specific gravity, was gotten rid of at other points. Considerable interest was also displayed in the construction of a new concentrating table. This contrivance has done much to solve the problem of the winning of the fine values which have generally been deemed too fine to save. Such, however, is no longer the case, and by this contrivance alone many millions of acres of ground which heretofore could not be profitably worked, will now be made to yield a handsome profit.

The simplicity and cheapness of this construction is its greatest recommendation, as it is entirely self-contained and requires little or no attention or power. The remaining features of the plant were carefully examined and favorably commented upon.
 After some gold had been panned out from the gravels in the presence of the visitors, the amount obtained being a great surprise to all who had not previously visited this ground, the party returned to the cars.
 Before the visitors left the works they were handed a small bag of black sand and gold, some of the product being obtained from the concentrators, quite a number of bags of which were too heavy, as some of the visitors found to be carried away, and were seen ready for shipment.
 The universal opinion, as expressed by those gentlemen, who have known of these deposits of gold, but have been sceptical as to the possibility of the values being easily extracted, was that the difficulty had undoubtedly been overcome, and great credit was due to Mr. R. H. Ahn, who has so persistently stuck to a self-imposed task and accomplished it.

WAY TO SOUTH LORRAIN

Mining Camp on Lake Timiskaming is Easily Located

HAILEYBURY, Aug. 24.—Not every person who hears the name of South Lorrain knows where it is, but it is easily located. From Hailybury to Silver Centre, which is situated on Lake Timiskaming, about midway between the north and south boundaries of that rich district, is about 28 miles. The Wetlaufer property, which is about the centre of the camp, is in the neighborhood of fourteen miles southeast of Cobalt. The Montreal River forms the southeasterly boundary from Gilles Limit.
 The only convenient way to travel to the camp is to Hailybury by train, and then south again by boat. There are two companies operating between these points, and the service of each is remarkably good, and the fares quite reasonable.
 A prominent company in this district is the Hailybury Silver Mining Company, which has a claim just north of the Big Keeley, and another south of Ox Bow Lake on the diabase and Keewatin contact. This latter property is being actively developed and the prospects are particularly good. The former claim is being allowed to stand for a short time, but the southern half, which was sold to the Meagna-Canadian Mining Company, has every indication of native silver at depth, and at the veins on this property run into that of the Hailybury Silver. Some development work has been done on this latter property.

D. M. O'Gorman.

COLLINGWOOD'S SHIPYARDS.

COLLINGWOOD, Aug. 23.—James Smith, manager of the Collingwood Shipbuilding Company, said to-day: "This yard is capable of constructing anything in the line of cruisers, dispatch, supply ships, colliers, scouts, torpedo boat destroyers, torpedo boats, and submarines, up to the capacity of the Welland Canal."
 This includes all except the heaviest cruisers and the largest battleships.

GETS ORDER FROM G. T.

KINGSTON, Aug. 23.—Cornelius Bermingham, managing director of the Canadian Locomotive Works, has returned from Montreal, having closed a contract with the Grand Trunk Railway Co. for 25 engines, bringing the company's order placed with the Kingston Company up to 75 engines during the past few years.

SUMMING UP THE WEEK IN NEW YORK MARKET

Was Harriman the Cause of Collapse in Values or Not?—Attitude of Lombard Street.

NEW YORK, Aug. 28.—The Post's London cable says: "Although Harriman's illness and Harriman's interview on stock market affairs are fully recognized here as having had an effect in Wall-street, our people prefer to take a broader view of this week's collapse in prices, and consider the latter as simply due to recognition that even greatly improved property had been heavily over-discounted on the stock exchange. Moreover, we believe that the attitude of some of our leading banks has been largely responsible for the much-needed reaction. The best quarters here, in fact, believe your financial institutions have applied the lessons learned by all of them from 1907, and have been acting accordingly to keep the situation in hand through curbing speculation. That they and interests, affiliated with them would cooperate similarly to give support in any really serious break, is assumed as probable."

From all sides comes recognition of Harriman's great organizing power, but it must be reported that the stock speculation by him and by other eminent capitalists in your market not only modify the tribute, but prevent foreign observers even from giving to your real commercial development and prosperity the weight in judging financial values which would otherwise be accorded to them. The story that Harriman came home to defeat a plot against his interests by other powerful financiers is altogether disregarded. New York can have no idea how utterly London distrusts all rumors concerning the actions and purposes of American personalities. I can illustrate this attitude best by saying that many people here believe that Harriman is not seriously sick at all. As regards the feeling towards your market since the break, Berlin is still bullish on Americans, but Paris and London are holding quite aloof. We are, however, not at all alarmed over your position, and shall not be so unless prices begin skyrocketing again. Enquiries come as to the status of the Paris syndicate in Steel common since the institutional exchange will be adjusted by temporary borrowings in Europe, and that ultimately your exports will expand very greatly. Great interest has been attracted here by the report that the Bank of France has recently opened a portfolio of certain bills. The belief prevails that at certain periods the best class of English American paper will be specified excluded.

On Wall Street. Charles Head & Co. to R. R. Bonard at the close of the market. The serious reports of Mr. Harriman's condition found confirmation, notwithstanding the newspaper denials, and it remains to be disclosed what took place at the Arden mansion to-day. Undoubtedly the banking interests took charge of the market and stayed the slaughter of the Harriman stocks that at one time seemed imminent. The activity in the declines were principally in the few stocks that have occupied the centre of the market to the exclusion largely of others. The bank statement showed small changes in reserve loans and cash, and needs no comment. We still advise waiting for some positive news or firm foundation upon which to buy, not only in any event should prefer to stocks that have intrinsic value commensurate with their quotations.

London Stocks. LONDON, Aug. 28.—Trading on the stock exchange was fairly active the past week for investment stocks at generally higher prices, but with the exception of American rails, the chief centre of interest, speculative issues were depressed. American rails experienced a sharp break and closed considerably lower. The bear knocked the bottom out of the market on Thursday when the announcement was made that no segregation plans were contemplated for Toronto St. Railway, and that stock fell six points, while Southern Pacific went down 5. The weakness was accentuated by anxiety regarding the health of Mr. Harriman and offerings found practically no support. Yesterday's closing operations caused moderate recovery in United States Steel, which was helped by trade reports, and in railroads, which were aided by crop news, but to-day another decline left the market unprofitable from 2 points higher to 4 points lower than last Saturday. Foreign bonds attracted attention and rose steadily under good continental demand, and the

ST. LAWRENCE MARKET.

Receipts of farm produce were 20 loads of hay, with a large number of loads of mixed produce in the north building, and a fair delivery of butter, eggs and poultry. Hay—Twenty loads sold at \$16 to \$17 for new and \$20 for old, per ton. Poultry—Receipts of poultry were fairly large, with prices about steady. Turkey keys, 16c to 18c per lb. for old hens; chickens, 17c to 18c per lb., and in one or two instances 20c was paid for extra quality; ducks, 15c to 17c per lb.; fowl, 11c to 12c. Butter—Receipts large; prices much the same, selling at 22c to 23c. Eggs—Eggs were more plentiful; prices unchanged, at 35c to 27c per dozen, but choice lots by the basket were sold at 24c.

Market Notes. B. Barron & Son, A. Thompson and J. Tomlin were the principal buyers of poultry. Grain. Wheat, fall, bush... \$1.00 to \$1.02

AFFECTED BY WALL ST.

Trading speculators are endeavoring to make the Cobalt market a miniature imitation of the New York Exchange. They may meet with some success, but we doubt it. Temporary irregularities will only be followed by the upward trend, which has only been checked. We still advise purchases of the issues favored by us recently, and particularly HARGRAVE. We are getting a line on Rochester, and until we know the inside information we would say: "Hold what shares you have, and particularly HARGRAVE." Special staff employed to give information on mining securities. edtf
