MSMEN ENQUIRY

Admissions to Account  
for Differences.

March 15.—At the sitting  
on Investigation Commit-  
tee, Mr. Lumsden told of  
estimates of the cost of the  
transcontinental railway to  
ent.

he said, were largely  
in reports of various dis-  
ers. Every year he made  
the commissioners. The  
es were based upon the  
lines, but the final cost-  
road revealed quantities  
rent from the preliminary

the final revised loca-  
frequent changes made  
when admitted that mig-  
for certain discrepancies  
original figures. The  
statement stated that an  
and been made with regard  
haul after the first esti-  
would not say that this  
to a million dollars,  
er a million and a half  
as was suggested by  
any rate this circum-  
easily account for an in-  
stably of over break-  
said, would also account  
for these.

## HYDRO-ELECTRIC COMPLETE CONTROL

Will Regulate and Inspect All  
Companies Supplying Pow-  
er—Penalty Provided  
for Non-Compliance  
With its Orders.

In spite of the vigorous opposition  
of Liberal members of the house, Hon.  
Adam Beck's bill, which gives power  
to the hydro-electric commission to  
regulate and inspect, under a penalty  
of \$100 a day for non-compliance with  
their orders, the operation and equip-  
ment of the works of all municipali-  
ties and corporations supplying power  
and light, was passed through committee  
yesterday without amendment and  
given its third reading.

J. D. McDougall (E. Ottawa) com-  
plained that this clause made the com-  
missioner the judge over its own com-  
petitors. The railway board was the  
right tribunal.

Mr. James Whitney: "The commis-  
sion is not a competitor. It is the  
municipalities that compete."

Hon. A. G. MacKay: "Surely the  
hydro is an operating commission for  
the transmission of all power." He  
also asked Hon. Adam Beck if the  
provision arose out of a dispute be-  
tween the engineer of the hydro com-  
mission and the engineer of Berlin as to  
equipment.

There Was No Dispute.

Hon. Adam Beck: "There was no  
dispute. The municipalities are going  
to wire streets and buildings and  
some check on them is necessary."

Mr. McDougall: "But why should  
you go to municipalities or companies  
where you don't sell power and say,  
'You must have such and such equip-  
ment?'"

Mr. James Whitney: "Public safety;  
that's all."

Among the other provisions of the  
bill, the question of compensation for  
assessments is brought under the Pub-  
lic Works Act.

A motion of Hon. A. G. MacKay to  
refer back with instructions to strike

## C. N. R. STEAMSHIP LINE BEGINS SERVICE MAY 12

Known as Royal Line and Runs Be-  
tween Bristol and Montreal—H.  
C. Bourlier is General Agent.

MONTREAL, March 16.—(Special.)—  
Official announcement was made today  
of the inauguration of the new Cana-  
dian Northern steamship service be-  
tween Montreal, Quebec and Bristol.

The Montreal Harbour Board has  
granted the C. N. R. the right to use  
the "Royal Edward" and the "Royal  
George."

The first sailing will be on May 12,  
then the Royal Edward leaves Bristol  
for Montreal, returning leaving Mon-  
treal on May 26. The Royal  
George will leave Bristol May 26 and  
Montreal June 9. A regular fortnightly  
service will be maintained.

H. C. Bourlier of Toronto, formerly  
assistant general passenger agent of  
the Allan Line for Ontario, has been  
appointed general agent of the new  
line. Mr. Bourlier has been com-  
mander of the Allan line for eight years,  
and is a son of Henry Bourlier, who  
was for years the Ontario representa-  
tive of the same company. He is well  
known by all transportation men  
through both provinces. His head-  
quarters will be at Toronto.

The steamers which had been in-  
tended for the Royal Egyptian mail  
line, are of the new fast triple screw  
turbin type, and, according to the  
announcement, "in general appoint-  
ments are pronounced by experts to be  
superior to any other steamers sailing  
between Canada and Great Britain."

The Montreal Harbour Board has  
allotted the King Edward and  
the new line, and at Bristol the  
Royal steamers will have the new King  
Edward Dock. Special trains of the  
Great Western Railway will run along-  
side the steamers at Bristol, making  
the fastest connections for all British  
and continental points. Bristol is con-  
sidered the best distributing point for  
the Midlands and south of England  
being only a two hours' run to London,  
and it is as near to Birmingham as  
Liverpool. With the shortest of all  
routes from southern ports, and the  
quickest access to the metropolis, the  
new route will have exceptional advan-  
tages.

A special Ben-Hur Matinee,  
will be given at the Princess Theatre to-  
morrow (Friday) afternoon at 2 o'clock  
sharp. The demand outside the city  
has been so great that there have been  
unable to secure seats. It is hoped  
this extra matinee will somewhat re-  
lieve the congestion. Seats are now  
on sale.

ST. PATRICK'S DAY.

The spring starts in ear-  
ly on St. Patrick's Day. Then the best  
part of the world is  
green! And being  
green is a new as-  
pect in order. The Dis-  
ney Company, who  
are sole Canadian agents for the best  
of the world's makers—Dunlop of  
New York and Henry Heath of Lon-  
don, England, have received the entire  
shipment of splendid hats for spring.

Man's Fastest Mile  
Made by Oldfield

In 200 h. p. Auto, He Whizzes the Dia-  
mond in 27 1/2 Seconds, Beating  
All Known Speed Records.

DAYTONA, Fla., March 16.—Barney  
Oldfield, driving against time  
from a flying start, in a 200-horse-  
power Benz automobile of special  
design, covered the fastest mile this  
afternoon ever traveled by a  
human being. His time was 27 and  
3/4 seconds.

Nothing projected into space by  
man save a bullet has traveled 5280  
feet at equal speed. Four years ago  
Marriott drove a special Stanley  
steamer one mile in 28 1/2 seconds,  
an average speed of 127.6 miles an  
hour. Oldfield's average to-day  
was 131.7.

Oldfield later, from a standing  
start, again crossed the line with a  
record of 40 53/100 seconds.

Oldfield came down the rock-like  
surface of the track to the starting  
line, an indistinguishable blur.  
Before the eye had adjusted itself  
to the changing perspective of his  
approach he was already dwindling  
into the distance.

The timing for both races was  
done by J. Warner, official timer  
for the American Automobile As-  
sociation, with the mechanical de-  
vice officially adopted by the asso-  
ciation.

Whitney Determined  
to Render Fair Play

Controller Spence Thinks New  
Street Railway Legislation Will  
Be Effective.

"The great advantage is that the  
Ontario Government has given an ex-  
pression of its determination to see  
that Toronto has an opportunity to  
get a proper street car service. The  
legislation is chiefly valuable as a  
manifestation of the government's  
willingness to give us whatever legis-  
lation along this line is needed. If  
defects are found, they will no doubt  
be remedied at another session."

This was the opinion given by Con-  
troller Spence last night with refer-  
ence to the further amendments to  
the Ontario Railway Act, introduced  
into the legislature yesterday by Pre-  
mier Whitney.

The controller said that the legis-  
lation was practically what should  
have been led to expect. Its effective-  
ness as an aid to the establishing of  
a municipal railway system would  
depend upon the extent to which the  
railway board would give power to the  
city to make connections. Extensions  
in themselves would be of little use  
if they were made part of a  
system. The government's measure  
permitted the city to build lines in  
older Toronto, where such lines were  
refused by the street railway, and if  
the city could combine extension in  
the newer districts with surface lines  
extending from downtown to the out-  
er districts, as well as serving as feed-  
ers for tubes, the city might develop  
a valuable system of surface lines with  
the tubes.

Mr. Spence said that he had pre-  
viously been troubled with doubts as  
to whether the enlarged jurisdiction  
of the railway board might not lead  
to long litigation, said last night that  
he believed the new legislation had  
been so carefully prepared that he  
considered its soundness unassailable.

Dreadnought of the Future  
Will Be 50 Per Cent. Larger Than  
the Present Battleships.

LONDON, March 16.—The battleship  
of the future may be fifty per cent.  
larger than the present Dreadnought.

This is the prediction of Rear Ad-  
miral Bacon, commander of the original  
Dreadnought, who addressed the  
Institute of Naval Architecture to-  
day.

The size of the ships and the power  
of their guns must increase until  
actual war is confirmed or qualified  
present theories of naval construction,  
he added.

INSIST ON WAGE INCREASE

Otherwise the United Mine Workers  
Will Call Strike.

CINCINNATI, O., March 16.—Only  
by advancing wages can the coal mine  
operators of the country avert a strike  
of union miners April 1, according to  
developments before the special con-  
vention of the United Mine Workers  
of North America here to-day.

The session lasted only forty-five  
minutes, but in that time the argu-  
ment of the men intimidated plainly that  
more money must be paid to the 200-  
odd workmen involved or no new wage  
agreement will be signed.

WANTED—15,000 MEN

Demand of the Far West for Imme-  
diate Farm Help.

WINNIPEG, March 16.—(Special.)—  
Ten thousand men are wanted by the  
farmers of western Canada at the  
present time, and, according to J.  
Bruce Walker, commissioner of im-  
migration, great difficulty is being  
experienced in filling the demand.

The men are wanted in all three pro-  
vinces, and when seeding starts, at  
least 5000 more men will be required.  
At the present time there are 525  
applications on file at the immigration  
office for men.

A RETROSPECT.

March 17, 1810—A magistrate, two  
constables and a party of soldiers,  
suppressed Le Canadien in Quebec.  
March 17, 1866—Reciprocity with the  
United States denied.

## FEAR GERMANY'S TRADE WITH CANADA

And Possible Canadian Reci-  
procity With Other Euro-  
pean Nations Compli-  
cates Tariff  
Crisis.

Opposition Support  
Govt. Attitude

OTTAWA, Mar. 16.—(Special.)—  
The likelihood of a tariff war  
with the United States has  
caused much comment among  
the opposition, which is dispo-  
sed to support the government,  
and not grant one iota of con-  
cession.

It is felt that the United  
States, by inspired despatches,  
is merely putting up a display  
bluff, and the scream of the  
eagle will fall on deaf ears.

The consensus of opinion on  
both sides is that the govern-  
ment of the United States has  
everything to lose and nothing to  
gain by a trade battle with Canada.

NEW YORK, March 16.—The Her-  
ald's Ottawa correspondent, who has  
been paying special attention to the  
tariff controversy, wires:

In the situation which now threatens  
tariff war between Canada and the  
United States, the real issue lies deeper  
than the preferential rates which Cana-  
da now extends to France and the 12  
most favored nations. From the Cana-  
dian standpoint, if the Dominion Gov-  
ernment now equalizes its alleged "un-  
due discrimination" against the United  
States by granting to American  
goods some of the benefits accorded  
France, the principle will be recognized  
that in the future Canada must give  
the United States practically every  
concession it bestows elsewhere.

Canadian policy contemplates recip-  
rocity negotiations with Germany. The  
possibility of German goods entering  
Canada cheaper than American is  
known to worry Washington far more  
than the advantages now enjoyed by  
France. The principle of the American  
law is that in order still to enjoy the  
American minimum rates Canada must  
not, even in the name of reciprocity,  
give Germany any rate which will  
benefit the French traders at the expense  
of the American trade.

This principle the Laurier Govern-  
ment is practically admitting unless  
the United States gives Canada a bet-  
ter entry for natural products. Rightly  
or wrongly, the Canadian people gen-  
erally believe that the American tariff  
is too high to permit them to sell in  
the American market the natural prod-  
ucts of this primarily agricultural  
country. These products incidentally  
would be a great relief to the Ameri-  
can consumer now forced to pay inor-  
dinately high prices for food.

All this serves to make it increas-  
ingly plain that even if President Taft  
on March 21 proclaims Canada entitled  
to the most favored nation status, the  
American minimum tariff, the peace is not  
likely long to endure. If Canada's reci-  
procity policy with France and the  
extension of the same rates to the most  
favored nations is held not to be an un-  
due discrimination, there will be peace  
for a time. But when the German reci-  
procity treaty comes on the question  
will be open again. Canada is anxious  
to give Belgium better rates than the  
United States. That will bring the  
issue up once more. Italy stands ready  
to enter into reciprocal relations with  
the Dominion. There again is a point  
of danger.

The Dominion has pointed the way  
out of the difficulty. Sir Wilfrid Laurier  
and Hon. W. S. Fielding, the finan-  
cial minister, said to the American  
commission that they were ready to  
grant "concession for concession." They  
will welcome a reciprocity arrange-  
ment with the United States, a lower-  
ing of the tariff on both sides suffi-  
ciently to stimulate trade along logical  
lines without injuring any delicate in-  
dustry in either country. Establish-  
ment of this reciprocal relation would  
require legislation at Washington.

Those who realize the disaster which  
would follow if these boys were given  
half a chance they will make good.  
"Take New York. A former newsboy of  
Toronto living there is now the most  
eminent physician in the States. Then  
I can mention cases that came under

my notice in Borden-street school. The  
latter has probably the largest number  
of newsboys of any school here. The  
boys are all brilliant and clever little  
chaps, and there is not a lazy one am-  
ong them. The majority of them had  
mother and sisters or brothers de-  
pendent upon the cents they made, but  
they never shrank from the task of  
keeping the home instead they often  
went barefooted in the coldest of weath-  
er to provide comforts for those de-  
pendent upon them. Yes, I am certain  
that the world has never had a better  
project than the Newsboys' Home  
scheme. It will fill a long-felt  
want and should be supported most  
generously by the people of Toronto."

AL. REEVES EX-NEWSBOY.

Nor was the inspector wrong in his  
statement of the successes made by  
newsboys when they had a fair show.  
"Al" Reeves, a prominent actor, who  
most courteously contributes a large  
amount to the benefit entertainment, was  
once a Toronto newsboy and sold papers  
at the corner of Church and King.  
That was about thirty years ago, but  
being an exceptionally bright young-  
ster he soon attracted the attention  
of a business man. The latter became  
interested in "Al" and as the boy was a  
clever musician he was given lessons  
on a banjo at the latter's expense, but  
under the understanding made by "Al"  
that the money would be paid to the  
man week by week.

This was accepted and to-day the  
boy is one of the wealthiest men in the  
theatrical profession. He is also one  
of the best banjo players, and on his  
first appearance won a diamond medal,  
given by Richard K. Fox, owner of The  
Police Gazette in New York, for the  
best player in America.

This is but one of the many incidents  
that could be cited of successes made  
by boys. "Al" did not accept charity.  
He would have been insulted if it had  
been offered him. All he wanted was  
given by Richard K. Fox, owner of The  
Police Gazette in New York, for the  
best player in America.

He was paid back week by week, with in-  
terest, and a few years ago the same  
man was surprised to receive a hand-  
some gift from his ever grateful pro-  
fessor. It is the same with numerous  
other boys. They are bright and clever  
like "Al" and would scorn to accept  
charity, but they need a chance, and  
they are worthy of it.

Continued on Page 7.

ST. PATRICK'S DAY IN THE MORNIN'

OFFICER FOY: Sure it's wid y' I'd be this mornin', boys, av there was such a thing  
in life as a rest day for the force.

## NEWSBOYS' HOME IDEA ENDORSED BY MR. HUGHES

"Grand Scheme" Says Chief  
Inspector—Prominent Min-  
isters Also Favor It—Fri-  
day's Benefit at the Royal  
Alexandra.

The benefit performance in aid of  
the Newsboys' Home, to be held at the  
Royal Alexandra on Friday afternoon,  
will be no ordinary performance. The  
executive of the home building fund  
have taken great pains to have only  
the best talent contribute to this en-  
tertainment, and in this they have been  
most generously aided by the managers  
of the various theatres and shows.

This show will be a benefit in every  
particular. No artist will receive any  
remuneration, while the proceeds and  
the use of the theatre have been con-  
tributed by the management. So every  
ticket you purchase will be a direct  
boost for the fund of the home. You  
will be greatly helping a place that the  
boys are badly in need of and a place  
that will save innumerable boys from  
the evils of the street and give them a  
chance to become good, respectable  
citizens.

Endorsed by Educators.

The World's campaign for this home  
has received endorsement from men of  
all ranks; especially in educational cir-  
cles the movement has been given  
great support. Chief Inspector James  
J. Hughes was most enthusiastic over  
the work. He also helped it practically  
by contributing a cheque for \$25.

"This is a grand scheme," he said.  
"It is something that has been needed  
for many years. These poor boys are  
industrious and hard working and they  
only need a square show to make them  
most generous by the people of Toronto."

AL. REEVES EX-NEWSBOY.

Nor was the inspector wrong in his  
statement of the successes made by  
newsboys when they had a fair show.  
"Al" Reeves, a prominent actor, who  
most courteously contributes a large  
amount to the benefit entertainment, was  
once a Toronto newsboy and sold papers  
at the corner of Church and King.  
That was about thirty years ago, but  
being an exceptionally bright young-  
ster he soon attracted the attention  
of a business man. The latter became  
interested in "Al" and as the boy was a  
clever musician he was given lessons  
on a banjo at the latter's expense, but  
under the understanding made by "Al"  
that the money would be paid to the  
man week by week.

This was accepted and to-day the  
boy is one of the wealthiest men in the  
theatrical profession. He is also one  
of the best banjo players, and on his  
first appearance won a diamond medal,  
given by Richard K. Fox, owner of The  
Police Gazette in New York, for the  
best player in America.

This is but one of the many incidents  
that could be cited of successes made  
by boys. "Al" did not accept charity.  
He would have been insulted if it had  
been offered him. All he wanted was  
given by Richard K. Fox, owner of The  
Police Gazette in New York, for the  
best player in America.

He was paid back week by week, with in-  
terest, and a few years ago the same  
man was surprised to receive a hand-  
some gift from his ever grateful pro-  
fessor. It is the same with numerous  
other boys. They are bright and clever  
like "Al" and would scorn to accept  
charity, but they need a chance, and  
they are worthy of it.

& Guarantee Company, Limited, 45 West King Street, Toronto.

## SUSPECT TELLS CAREFUL STORY

Comber Youth in Custody in  
Detroit on Suspicion of  
Having Caused Wife's  
Tragic Death.

DETROIT, Mich., March 16.—(Spe-  
cial.)—Mrs. Arthur J. Best, formerly  
Miss Alice Frankfruth, of 291 Lawton  
avenue, Detroit, is believed to be the  
name of the woman who was seen  
floating down the river after midnight  
on Saturday on a cake of ice, and  
heard shrieking wildly for help. She  
was drowned before aid could reach  
her.

The Detroit police to-day ordered the  
arrest of her husband, a young man  
living in Comber, Ont., township, Til-  
bury West, 40 miles distant from Win-  
dSOR, Best, and he went to work as a  
tinsmith in Comber.

On Saturday he went to Detroit, and  
was to have spent Sunday at his bro-  
ther's home, when he was arrested at  
only 23 years of age, was four years  
over his husband's senior. He says now  
he decided to go to the house, and  
placed his wife on a Brush-street car,  
to send her home.

When Mrs. Best did not come home  
enquiries were made, and the family  
of the girl, after reading about the  
dramatic drowning of a mysterious  
woman in the river, telephoned to Best,  
Til Comber, and asked where their  
daughter was.

"I haven't seen her," Best replied.  
Not satisfied with this explanation,  
the girl's mother, a dentist, notified the  
brother, a dentist, notified the police.

The Frankfruth family is well known.  
The girl's mother lives in Comber, and  
is reputed to be wealthy.

Best arrived in Windsor at 5 o'clock  
at the Windsor police headquarters,  
detectives from Detroit were waiting,  
and the prisoner agreed readily to  
accompany them across the river as  
he expressed it, "to help clear this  
thing up right."

After he had been served with a  
substantial supper, Best was taken be-  
hind the scenes of the coroner's in-  
quiry, and asked to explain his move-  
ment last Saturday night.

Carefully, as weighing every word,  
the suspect told of having spent the  
evening with his wife in walking about  
the city. About 11 p.m. she accom-  
panied him to the Brush-street depot,  
where he might catch a train for Com-  
ber. He put Mrs. Best on a street  
car for home and then went into the  
train shed.

On several unimportant instances  
Best contradicted himself, but the  
statement that he went to the Brush-  
street depot to catch a train for Com-  
ber is the most damaging. No trains  
leave this station for Comber, and  
as Best had been in the habit of com-  
ing to Detroit at frequent intervals,  
he must have known the proper sta-  
tion to go to.

Best denied strenuously that he had  
walked out towards the dock at Bru-  
sh-street, and said he was of the opinion  
his wife had become despondent and  
had jumped into the river.

## RAILWAY BOARD SAYS MADE THE JUDGE

In Case of Dispute as to Rights  
of Radials in Annexed Dis-  
tricts, it Has the Say—  
As to Whether  
These Exist.

Some of the most important  
measures of the present or any other  
session were under discussion in the  
legislature yesterday afternoon, on the  
next to the last day of the session.

Sir James Whitney's two bills deal-  
ing with "the intolerable state of af-  
airs" with regard to the Toronto  
Street Railway situation, passed their  
third readings. Important amend-  
ments were made to each.

To the former a provision is added  
constituting the Ontario Railway and  
Municipal Board the judge in cases of  
dispute as to the existence of exclu-  
sive rights of radial railways in the  
annexed districts, in which the bill  
permits the city to take the law into  
its own hands.

To the other bill a clause is added  
limiting the power of the Railway  
Board to order extensions and better  
equipment of street railways, to the  
City of Toronto.

"The contending parties," said Sir  
James, "are on the one hand the street  
railway, and on the other, the city and  
the party supposed to represent the City  
of Toronto."

"It is difficult to arrive at the con-  
clusion that any reasonable settle-  
ment can be arrived at between the  
parties."

City May Build Lines.

"When a city asks a company with  
which it has an agreement to put  
down certain lines, and the company  
refuses to lay down the lines, and  
when it is provided in the same agree-  
ment that the city shall have the power  
to authorize another company to lay  
out and operate the lines, it is unrea-  
sonable to permit the city to put down  
the rails itself, instead of getting some-  
body else to do it."

HAMILTON HAPPENINGS

NOTICE TO HAMILTON SUBSCRIBERS

Subscribers are requested to report any irregularity or delay in the delivery of their copies to Mr. J. S. Scott, agent, 15 East Main-street, Phone 1946.

MANY SMALL ITEMS COME BEFORE THE PARK BOARD

Will Refuse to Pay Penalty on Overdue Bill From City—Oshawa Painter Accepts Call

HAMILTON, March 16.—(Special)—Rev. Dr. Pethic, Oshawa, notified the James-street Baptists this evening that he accepts their call. He will be inducted April 17th at 10 o'clock.

Wm. Walker, 55 George-street, had one of his hands crushed at the London Tool & Machine Company's factory this afternoon, and loses two fingers.

The parks board this evening decided to make a vigorous war on tussoc-smoth. A \$300 sprayer will be purchased, and 25 cents a quart will be paid for coccones.

The city presented a bill for \$12 for curbing at Victoria Park, including a penalty of five per cent, because the bill was overdue.

The Gage estate offered 130 acres of land adjoining Gage's inlet for \$30,000.

A Buffalo contractor has made an offer for the city sandpucker.

A Toronto real estate agent has purchased the Acres' store on West King-street and the store adjoining from the O'Reilly estate, for \$60,000.

The committee on state and extension reported to the Dominion Council of the Royal Templars this morning that the membership of the royal degree had increased by 500 and the inaugurated membership had dropped by two per cent.

The First Methodists are talking of building a new \$35,000 church. Provision will be made for a gymnasium.

Special Easter Holiday Rates. Return tickets at single fare will be on sale at all C. E. R. ticket offices, stations, Thursday, Friday, Saturday, Sunday and Monday, March 24 to March 28 inclusive, with return limit March 30, between all stations in Canada east of Port Arthur, and to Buffalo, Niagara Falls, N.Y., etc.

NEW HOTELS FOR CANADA. First One Will Be Erected in Montreal on Elaborate Scale.

NEW YORK, March 16.—A chain of Carlton-Ritz hotels in this country and Canada, in practically business operation with the Carlton and Ritz hotels of London and the Ritz of Paris, is what William Harris says is being arranged. Mr. Harris is chairman of the Carlton and Ritz Hotel Company. He said:

The first will be opened in Montreal, for which the capital in the financial and moral support of the best and most influential men in Canada. It is to contain 250 rooms, with restaurant, grill room, a grand ball-room and state banquet room. The hotel will be opened in about two years at a cost of from \$5,000,000 to \$7,000,000.

OBITUARY. At Copenhagen—Commodore Hovgaard, Arctic explorer.

At Philadelphia—Dr. Wharton Sinkler, a noted nerve specialist, aged 63.

At Newport, R.I.—Morris Morgan, Ph.D., L.L.D., professor of classical philology at Harvard, suddenly, aged 51.

At Washington, D.C.—Rev. Dr. John Ewell, professor of theology in Howard University, of heart disease.

At Port Erie—Wm. M. Baldwin, postmaster for 29 years, aged 89.

Canada's Greatest Sale Ever of High-class PIANOS, PLAYER PIANOS, ORGANS

On April 1st the Brown Building, 193-197 Yonge Street, comes into the possession of the new purchasers,

HEINTZMAN & CO.

MAKERS OF CANADA'S GREATEST PIANOS

For some months architects have been busy on plans for the remodelling of the building, and the work will commence in another two weeks when the present occupants move out.

To facilitate our own removal we have resolved on a quick clearing of all stocks on hand. Every Piano, Player-Piano and Organ must go.

Sale will commence at 9 o'clock Monday morning next. Every instrument in the house will bear a ticket giving regular price and below this the Removal Sale price extraordinary.

The sale is sensational, not in the usual meaning of the term, but in the fact that a house like that of the old firm of Heintzman & Co., known to the Canadian piano buying public for fifty years, find it possible in the development of their business to open up to piano buyers so wonderful an opportunity to buy a piano.

Keep the date in memory—Monday, March 21—over 1000 instruments to be sold. Easy terms of payment arranged with all buyers. PIANO SALON—where the sale will be conducted—115-117 KING STREET WEST, TORONTO.

SCHOOL BOY BURGLARS

Three St. Mary's Lads Are in a Peck of Trouble.

ST. MARY'S, Ont., March 16.—Three St. Mary's school boys of respectable parentage are charged with breaking into the stores of Parsons' Fair, and the St. Mary's Hardware store, in January, and taking guns, traps, cutlery, and other things.

Among the articles taken from Parsons' Fair was a quantity of wool in the form of yarn.

"Well," the boys said, "we expected to walk a lot, and we wanted some yarn to darn the heels of our socks."

Royal Black Preceptory Officers. OTTAWA, March 16.—The Royal Black Preceptory of Ontario East elected these officers: Grand master, Sandy Grant, Tweed; deputy grand master, Joseph Batten, Peterboro; grand registrar, John Keeley, Lindsay; grand treasurer, T. C. McConnell, Spring Brook; grand chaplain, Ralph Fulcher, Marmora; deputy grand treasurer, T. H. Thompson, Madoc; grand lecturers, C. J. Smith, Madoc, and E. A. Morrow, Sterling; junior deputy grand master, W. H. Sproule, Ottawa.

KINGSTON HAPPENINGS. KINGSTON, March 16.—(Special)—Frank Haskett had an arm caught in a driving wheel and may lose it.

Fire did \$3000 damage in Frank O'Gorman's brick store.

Adolphus Charon, blacksmith, aged 57, a resident for 40 years, is dead.

Robt. Reeves, aged 50, a city scavenger, was found dead in bed.

JURY ROASTS METHODS OF THIEL DETECTIVES

Morris Cominski Acquitted of Robbery, as He Was Led Into Committing Crime.

That the jury in the general sessions did not approve of the way two Thiel detectives had Morris Cominski arrested and charged with the robbery of Brodey-Drumlin & Co.'s fur store, was quite evident when they returned a verdict of not guilty.

"I don't quite agree with your verdict," said Judge Denton, "unless it means that you did not approve of the methods pursued by these men. It is a case quite clear so far as theft is concerned, but you have taken a different view, and I judge you have condemned the methods used by the detectives."

Foreman Bateson of the jury asked permission to speak, and said: "We came to the unanimous conclusion that we should condemn the methods used by the detectives."

His honor, turning to Cominski, told him he was fortunate in getting off as he did.

"In some respects I quite agree with the jury. Some of the methods adopted were simply abominable. They have taken the extreme view in your case, and I hope the decision of the jurors to-day will be a lesson to the authorities that in future these methods will not be tolerated.

His honor, in addressing the jury before they retired, also criticized the detectives for encouraging the crime instead of reporting it to the Toronto authorities.

"I am afraid," he said, "that when the ledger of life is made up it will appear against them that they encouraged and tricked another man into committing a crime. The law says that the man who encourages another to commit a crime is equally guilty of the offence."

According to Cominski's own story in the witness box he was forced by the two detectives, who he thought were crooks, to rob the store. He said they both carried guns, and he thought them dangerous men.

The jury were out over an hour. No increase in indemnity. Sir James Whitney was waited upon yesterday morning by a small deputation of members of the legislature with the request that the sessional indemnity be raised to \$1500. It is understood that the answer was not favorable to the proposition.

Rev. J. G. Sterling of Havelock is critically ill in the General Hospital.

TARIFF WAR WITH U.S. MEANS SCARCITY OF COAL

Application of an Export Duty Would Result in a Serious Situation For Ontario Consumers.

A prominent merchant of Toronto, speaking to The World yesterday, expressed grave fears lest the tariff war between Canada and the United States eventuate. He said a tariff war would be a very serious matter for business interests in Toronto.

In the matter of coal alone, if the United States proposed to enter into a tariff war with Canada, they could put an export duty upon coal that would practically close Toronto up in very short order.

"We have coal in Canada, away to the east, and away to the west," he said, "but it would not be practicable to bring it into Ontario."

He hoped that Canada would not carry the chip on the shoulder too long, for the forces behind the United States government were so great, financially and sentimentally, that, in his opinion, there could be only one issue to the tariff war.

He also opined that there was a considerable body of public opinion across the line that was only waiting for an irritating circumstance such as this to perhaps go greater lengths toward aggression and absorption than Canadians had any idea of.

Up On Second Charge. Hugh McDonald, 210 East King-street, was arraigned in police court yesterday morning. He was discharged, with a warning to behave. After he had gone, it was remembered that he was also wanted to face a charge of stealing an overcoat from Michael Bennett. He was re-arrested by Detective Newton, and will face that charge to-day.

Ban on the Orientals. LONDON, Ont., March 16.—Odd-fellows throughout this district are considerably aroused over an order from the Grand Sirs, forbidding members to belong to an order known as Orientals, or to allow them use of their quarters.

PILES CURED IN 6 TO 14 DAYS. PAZO OINTMENT is guaranteed to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days, or money refunded.

Getting Drunk on "Candy."

CHICAGO, Ill., March 16.—Getting drunk on "candy" has become such a widespread practice among men, women and children in the stockyards quarter that the state food department announced to-day that it would stop the sale of the intoxicating bonbons.

One particular brand of bonbons contains a medical intoxicant containing 22 1/2 per cent ether, 2 1/2 per cent ether oil and 65 per cent alcohol. It causes not only drunkenness, but sickness.

Board covered with different sized stationery and 24 envelopes.

Meas's frame, hand made and sterling silver sold for \$2.50

# One Woman's Impressions of the New Suit and Dress Styles

THOSE who are stretching out hands of welcome to the incoming season, greeting it with gladness for the sharp changes it will bring, and the new, gay countenance it will cast over a world of whose grey and white iciness and drear winds they have become somewhat weary, must modify their modest expectations. There are no marked contrasts in the realm of fabrics and design. No blaze of color characterizes the sartorial display. The new modes are more notable for their good taste than their oddity. Spring will glide in gently as far as our apparel is concerned. There will be no upheaval of the elements of shade or line.

Shepherd checks and hairline stripes dominate the cause of tailored suits, with a wide wale diagonal weave cheviot constituting a formidable rival, in its wide range of choice in fine and coarse finish. And very natty and smart their sundry development is in the various models the costume department is exploiting. The bulk of favor appears to fall on the 32-inch coat, the back of which fits a trifle more snugly than heretofore at the waistline, and the fronts of which are single-breasted, and fashioned with long shawl collar, closed with two or three large buttons. Pleated skirts are universal, though the popular tunic and apron effects are simulated in all the more ornate productions.

The vogue of the Russian blouse suit is happily attested by a collection of very pleasing creations of this order turned out to meet the demand of anticipation that rushes ahead to the summer wardrobe, a collection of linen costumes has been opened up. The array is witness to the fact that coats in washable suits will retain their old length, and that rep, French linen and crash will be extensively employed. One's uppermost thought in inspecting the cotton suit of to-day is a mental contrast of the careful tailoring of the present production with the indifferent workmanship which was once thought all sufficient for the tub frock.

A veritable flowerbed of beauty is stumbled on in the superb showing of soft afternoon and street gowns. Paris models and New York and domestic reproductions combine in an offering that is truly worthy of a community that asks for the best that artistic skill can turn out. From the dainty, trim, little frouded dresses for use-ful outdoor and indoor wear to the bewildering creation in apricot satin, with its massive embroideries and filmy chiffon draperies, the whole gamut of spring needs in becoming, graceful gowning is run. One is impressed by the endless possibilities of convenience and suitability that lie in a number of rajah silk dresses. Daintily traced

with soutache braiding and French embroidery, the waist lines prettily girdled, and the skirts modishly cut in overskirt style, they stand as the highest type of ready-to-wear thought. One little model in French grey, and another in peacock blue, are particularly appealing. As an optional selection there is a very successful production in mauve foulard, accordion pleated and attractively finished with guimpe and cuffs of good lace, while a beautiful French pattern dress in navy blue and white, with touch of emerald green, sends spasms of envy to any admirer of exclusive designing. These are exceptionally nice little dresses.

Adjectives come forth only in the superlative in measuring out description of the Store's galaxy of evening gowns. A mustard satin confection is an illuminating example of the grace of draperies and the subtle charm of master treatment. A white crepe with gold fringe and cloth of gold emplacements is a dream of classic simplicity. A splendid sequin and net triumph with patterning in mailed armor effect, in a regal robe destined by Nature for some imperious individuality. From these to the little, artless graduation frock there is a wealth of fashionable loveliness embodied.

- Silk and tapestry squares, 24 x 24 inches, a wide range of designs, for chair seats, footstools and cushion tops, some having been used as samples will be cleared on Friday, each 49.

# THE T. EATON CO. LIMITED

Note and Comment

The Queen's team failed to retain the Allan Cup more than one season, and with equitable treatment by the Intercollegiate officials Varsity would probably have lifted the trophy when this year's game was played off.

New York Tribune: Jack Tait, the Canadian champion, defeated George Bonhag, the amateur distance star of this country, by thirty yards in a special match race at one mile and a half in Madison-square Garden last night.

Tait jumped off in front at the start and forced the early pace, but Bonhag dogged his every stride for three laps, when he took a turn at showing the way.

Three laps from home Bonhag made his move and tried to shake off his rival, but the Canadian, running with a wonderful ease and graceful stride, followed at his heels until just before the last lap, when he dashed to the front.

Big Bob Fitzsimmons, ex-champion heavyweight of the world, will appear on Saturday afternoon at the head of H. D. McNeil's touring show, and gave a performance in the city of New York.

The show was attended by an excellent audience, and the show moved to West Madison, where Fitz had another heavy fight with a local champion, and his last fight in the same city. Now he had checked the game and would most likely be fighting in New York.

It was not so many years ago that matches were common among the major league teams. Now they are seldom seen with the exception of the upper lip.

Dr. MacKendrick, Champion. GALT, March 16.—Fitzsimmons, champion of the world, here to-night to fight the champion of the world, the champion of the world, the champion of the world.

Remembering Their Players. GALT, March 16.—Fitzsimmons, champion of the world, here to-night to fight the champion of the world, the champion of the world.

Amendments to Racing Bill. ALBANY, N.Y., March 16.—Amendments were offered to-day by Assemblyman Perkins.

Canadas by Default. The Canadas won three by default from Pastimes in the Gladstone League last night.

Child Fatally Burned. Irene LANG, aged 4, died in the Hospital for Sick Children yesterday from burns received at her home.

St. Michaels' Gallant Finish Lands Them the Allan Cup

Winning Goal Scored Four Minutes Before Time—All Stars Win at Collingwood Barrie Win.

KINGSTON, March 16.—St. Michaels are now amateur champions of Canada, winning the title from Queens here to-night in a 5-0-4 game before 1000 people. St. Michaels had to fight desperately hard to win out the game being in doubt until the last whistle blew, and it was simply condition that went out. In the first half, under O. H. A. rules, Queens were masters, landing four goals to their opponents' two.

The teams were evenly matched, and played a high brand of hockey from end to end. St. Michaels showed great control, setting the pace, and despite the bad ice, holding it to the finish, when they were carried off the ice by the crowd.

The first half Queens came in strong, Campbell landing the first after five minutes. Matthews evaded after two minutes and was disappointed, as was the Queens' rush, using his body to advantage.

Queens (4)—Goal, Gilbert; point, Trimble; cover, G. George; rover, G. George; right wing, Dobson. St. Michaels (0)—Goal, Thompson; point, Spratt; cover, G. George; rover, G. George; left wing, Richardson; right wing, Richardson; left wing, Richardson; right wing, Richardson.

All Stars 7, Collingwood 6. COLLINGWOOD, March 16.—A fast game was witnessed here to-night, when All-Stars defeated Collingwood by a score of 7 to 6. The game was a tactical contest, the All-Stars winning with a tactical victory.

Barrie 13, Simcoe 7. Barrie, with Leroux on the ice last night at Mutual-street, demonstrated before a small crowd that had not met with a tactical victory.

Dr. Chase's Ointment. Dr. Chase's Ointment is a certain cure for all skin diseases, such as eczema, psoriasis, and other skin ailments.

MORE C. L. A. NOMINATIONS

Five More Aspirants for the Council—Residence Amendments. The following nominations for the council of the C. L. A. were received yesterday by Secretary Hall.

Bowling Records at Detroit

DETROIT, March 16.—Tom Haley of Detroit was the sensation of the evening day of the tenth annual tournament of the American Bowling Congress tournament, when he rolled the remarkable score of 706 in the individual event, winning that event and setting a new tournament record.

Haley's great series came in the afternoon, after practicing everyone had been so tired that the tournament record was not broken until the afternoon session.

TORONTO WIDOW'S DEATH

Refused to Call a Physician When Stricken in Rochester. ROCHESTER, N.Y., March 16.—(Special.)—Clinging to the belief that prayer would cure her, Mrs. E. G. Baker, 55 years old, of Toronto, refused to see a physician, and this afternoon died of a heart ailment.

Mrs. Robertson, on coming to Rochester a few months ago, went to "Elm Tabernacle," a faith-cure establishment conducted by Mrs. E. G. Baker. Two days ago, when she was stricken ill, she refused medical aid.

This afternoon, despite her protest, a physician was summoned, but she died before he could reach her. Her death, and reported the case to the Rochester, N.Y., press.

Dr. Chase's Ointment. Dr. Chase's Ointment is a certain cure for all skin diseases, such as eczema, psoriasis, and other skin ailments.

LANGUAGE OF JACKSON IS SIMPLY A PRODIGIOUS

Woodstock Clergyman Says Methodists Must Wash Their Hands of Responsibility.

WOODSTOCK, March 16.—In Knox Church Sunday Dr. McMillen pointed out doctrinal articles prepared by the union committee, and having spoken out certain changes and improvements made since 1898, he declared himself satisfied with the articles as they stood, and that the union committee would not be correct without any attempt at embodying the fundamental doctrines of the Gospel.

No question, he said, affected the church and of true religion as vitally as that of doctrine. In illustration of this he referred to the reformation of the 16th century as primarily a return to apostolic doctrine. The articles on doctrine being satisfactory, the congregation might inquire for that in his mind the way was clear for the union. Such an inference would not be correct, without any attempt at embodying the fundamental doctrines of the Gospel.

The British Weekly at the time took Mr. Jackson's part, but in two recent issues of that great religious journal the leading editorial articles, written by Principal Forsyth of Hackney College London, Feb. 10 and Feb. 17, from which he read, declare the conclusions of the school of literary criticism "instead of being a revised form of Christianity, a new religion altogether, with the essential elements of Christianity left out. The issue raised by the church is a life and death issue, and it is a matter of life and death to the church."

GERMAN INVASION OF CANADA

New Trade Agreement Expected to Help Textile Industries.

BERLIN, March 16.—(C.A.P.)—Men familiar with the trade practices of the Dominion, especially in the rapidly developing communities of the middle and far west, are being engaged at fancy salaries and will be despatched to the field of operations equipped with conduct one of the most active business campaigns in Germany ever waged on foreign soil.

"DAVIS' PERFECTION" 10c. CIGAR

It's a hit—that's all—a great, big, popular success. Seems as if men have always wanted such a cigar, that they could smoke all day without the slightest ill-effect.

"Davis' Perfection" is not just a light cigar. It is an unusually mild cigar, with the rich, mellow, satisfying flavor of a fine Havana.

And that's a combination you have never been able to get until Davis perfected it.

10c. Straight The Little Brown Band on this Cigar is our exclusive property—registered at Ottawa.

LIBERALS CONDEMN PARADE

Party Compromised by His Tactics for the Power Bill.

OTTAWA, March 16.—(Special)—F. Parlee, M.P. for West Lambton, in a speech to-day in an unenviable position. Although he is a Liberal whip, he became sponsor for the St. Lawrence Power Transmission Bill, a measure which is designed to assist in alienating from Canada a great national asset.

The Free Press, the local government organ, voices the sentiment of many in the party by printing in its editorial columns a letter of which the following is an extract: "It is not an edifying spectacle for the railway committee in support of whatever Mr. Conroy may propose, in face of the explicit declarations of opposition from Mr. Sifton and his colleagues on the conservation commission."

"The public must draw their own conclusions from these attempts to force such measures thru by the mere strength of a parliamentary majority, and it will be a conclusion which will not add to the influence of the Liberal party in the country."

C. M. A. OPPOSE LABOR BILL

Claim Request for Eight-Hour Day is Not a Proper One.

OTTAWA, March 16.—The objections of the Canadian Manufacturers' Association to the Verillie bill for eight hours a day for labor on government contracts were presented to the special committee to-day thru the general secretary, G. M. Murray. The manufacturers are opposed to the bill because it is the thin end of the wedge to make eight hours a working day in all lines.

Mr. Murray described the bill as a continuation of the Dominion Trades and Labor Congress, which, he contended, represented only a small fraction of the workers of the country. Would he fail to legislate for the benefit of the 2 per cent. at the expense of the other 97 per cent.?

"R. J." NOT WORRIED.

If Manager Fleming of the street railway is disappointed because of the cold shouldering given the proposed Glen-road car-line extension by the board of control yesterday, he doesn't show it.

One Man Re-instated.

Trouble between the Grand Trunk Railway and the employees of the freight sheds is practically over. John McKinnon, the messenger, whose sudden dismissal angered the men, has been given employment in the round-house. The company absolutely refuses to re-instate the other man, claiming there are reasons other than his activity in behalf of the union for his dismissal.

SPORTING NOTES

Sam Langford and Jim Ryan will fight 4 rounds in Jeffries' pavilion at Vernon, Cal., this afternoon. Altho at the end of a ten-round bout between the pair some weeks ago Ryan's glancing blow gave Langford a concussion of the brain, he is on the short end and odds of 2 to 1 and 10 to 6 for to-morrow's event.

Whole Limit is Mineralized

According to a return brought down by the government, the whole of the Gilles limit is declared to be mineralized, and all has been prospected. Of this 167 1/2 acres have been sold, the entire limit being 64,000 acres in extent. According to another return, 18 flats have been granted by the attorney general, 6 being for claims against the T. & N. O. Railway. Permission to sue was refused in 17 cases, only one of which had to do with the government railway.

Motorman Arraigned

William McLean, motorman on the Bloor and McCaul car which killed Samuel Manacavich Monday night, was arraigned in police court yesterday morning, upon charge of manslaughter. Bail was refused and he was remanded for a week.

Beck Joins Galt Council

GALT, March 16.—(Special)—Hon. Adam Beck has joined the Galt Council to make some preparations to handle the supply of hydro-electric power contracted for. Nothing has yet been done toward acquiring a plant. The Rev. McLean Galt calls from England, April 1 with 2000 pilgrims representing \$200,000, for Nova Scotia.

THURSDAY MORNING, MARCH 17, 1910.

IMPOUND THE CAR. Only one effective remedy for the violation of motor-car regulations exists. Like other effective expedients it does not seem to commend itself to the legislators. The remedy is to impound the motor-car for a term to be determined by law according to the gravity of the offence.

First offences are just as bad as second offences, or third offences, and according to statistics they are much more frequent. When a man comes up for the nineteenth time he pleads first offence. All offences should be punished according to their gravity, and not according to the number of times they are committed.

It is not the motor-car that commits the offence, but the driver or the owner. In the last resort the owner is responsible. If his car is run carefully there will be no trouble. If his chauffeur is reckless it is his business to restrain him. The device of endorsing licenses, or punishing the chauffeur does not really prohibit. The license may be lost or destroyed. The chauffeur may change his employment. But the owner who sanctioned the violation of the regulations remains. He can only be reached through his car.

Americans are said to be the worst offenders against our road rules. Let it be known that cars are impounded in Ontario for violation of the law, and the foreign motors would travel like lambskins. The knowledge that the touring trip might be held up for one, two or three weeks, would have an absolutely civilizing effect.

THE KING'S HEALTH. His Majesty is reported indisposed at Biarritz. It used to be a regular practice of one of the Chicago evening papers years ago when news was slack to get out a "special," announcing the death of Queen Victoria. The streets were filled with frantic newsmen who recognize the business opportunity, and it was always enough to sell the edition. Another edition explained the false rumor. We trust there is no more basis to the story of His Majesty's illness.

DELAY NO HARDSHIP. No government can afford to dispose of such gigantic interests as are involved in the Long Sault power scheme without the fullest investigation, and without giving the country every opportunity to understand what is intended. Where there is reluctance to give information the public are naturally suspicious. They have good grounds for surmising that the desire to obtain control of the biggest power on the St. Lawrence is not wholly inspired by benevolence for Canada.

A few local interests profess that any attempt to delay the proposed legislation is dictated by enmity to the eastern municipalities. Of course, this is either the language of hysteria or of disappointed graft. The eastern municipalities affected are not going to languish away because a dubious American scheme to monopolize all the Canadian power on the lower St. Lawrence is required to produce its credentials. If it has the credentials well and good, and no harm will be done. If it has not the credentials, as we suspect, the municipalities concerned will be the first to rejoice over the delay that will preserve their rights to them, and to the province in general.

LORDS ON COMMONS. Outside the charmed circle of the house of lords, and its sympathizers, few will be found in agreement with the Marquis of Salisbury and the Duke of Northumberland, when they described the British House of Commons today as decadent. To medievalists it may so seem, but their opinion is an inheritance, very different from the ideas and ideals of the twentieth century. Perhaps it is true that no single man measures up to the level reached by the outstanding statesmen of the great Victorian age. But Gladstone and Beaconsfields are not found at all times, nor can they be reproduced at will.

Reduced to its fundamentals, the estimate of the two noblemen that has found its way over the cables may be taken as a transmittal of the undoubted fact that the house of commons reflects the development of democratic sentiment in the United Kingdom. There was a time when the popular house was dominated by aristocratic influences, and when the assertion of its privileges did not involve the issues that are now supreme. But there can be little question that taking man for man, the house of commons

is far more truly representative than at any previous period, and that its average of individual ability is higher than ever before. To some people reform always means decadence.

THE NEW IMPERIALISM.

Earl Crewe's suggestion that the crown colonies and dependencies should be under the control of a separate secretary of state, and that the self-governing British states should be associated in joint diplomatic affairs, is a remarkable proof of the growth of the new imperialism. Not long ago a proposal of that kind would have been scouted—now it is treated almost as a commonplace, so entirely is it in line with recent developments.

Co-operation and common action are the watchwords of the empire in the twentieth century. Important questions arise touching some one of the allied British states, and they must be handled by the dominion affected as an imperial concern. What this really means can hardly be under-estimated, for it gives scope to the highest qualities of statesmanship, and is the greatest possible remedy for that provincialism which is the bane of all states. The world knows no more hopeful movement to-day than this that is involved in evolution of the British Empire. It contains the germ of a movement which is independent of national and racial distinctions, and if it is allowed full scope, will solve the problem of that federation of mankind which is the divine, but possibly not far off, event towards which the whole creation moves.

When a man is bitten by a dog on the street, he comes home and flogs all the dogs about the house. St. Patrick would be the last Irishman on earth, if he were alive, to flog the Shamrock. He would more probably be petitioning Hon. W. J. Hanna to put his commemoration day on the dry list along with Christmas.

To all appearance the United States will be shown that Canada is independent as real as, as well as claim. Nor is it without justification that the Dominion should be the first to call the republic's bluff.

Why is smallpox that has only killed one man in Toronto in years, considered such a terror, while typhoid which has killed nearly a hundred in the last six months or so is allowed to continue its ravages without anything like the disturbance one case of smallpox would cause?

If our legislators were as careful to protect public rights as they are to vindicate private interests, they would be better worthy of the name. Nothing seems harder to not a few of them to remember that they represent the people, and are there to serve the people.

Lovers of art will deplore the comparatively early death of Herbert Railton, whose architectural drawings and etchings have been a feature of the art journals and magazines for many years. The delicacy and feeling that he displayed in dealing with the outlines and traceries of the "frozen music" of the builder's art will be sadly missed.

The Evening Star suggests that the Municipal and Railway Board be given power to compel the Street Railway Company to build lines in the new districts recently annexed to the city. This is very considerate of the Star—for the company. But what about the city? The city above all things wishes to preserve its rights in these districts, and the Star proposes that Sir James Whitney devise a means to compel the city to give its rights away. Perhaps the Star was only joking?

One of the very best measures adopted by the legislature this session, if not the best, is Mr. Charters' telephone bill. The farmers and other country residents who wish to use telephones will very soon discover the advantage the act gives them, and independent telephone companies may be expected to increase at a greater rate than ever. The new act will be a stepping stone to the provincial trunk telephone line, which must soon be built, and Mr. Charters is to be congratulated upon the way in which he has carried this useful piece of legislation to a consummation.

The settlement of the city's requests by the legislature is perhaps as satisfactory as could be expected under the circumstances. It is to be deplored that leave to expropriate the street railway was not granted. But the city has been given power to construct a tube system and to extend surface lines in connection therewith in the newly annexed districts. Should there be any dispute about the rights of existing traction companies being interfered with, the municipal and railway board are made arbiters in the matter. All Toronto now has to do is to get expert advice on the practical questions involved, and build the tubes.

TORONTO'S NEW POLICEMEN. "Constant Reader" is informed that a big squad of new men were taken on the police force on Tuesday.

Security is the Important Feature in Life Insurance

The Manufacturers Life during 1909 added the very large sum of \$1,270,685 to its reserves for the protection of policyholders. This places all its business on an exceedingly conservative basis—(Hm. 3 1/2 per cent. throughout).

The company's policyholders thus have unexcelled security. To accomplish this for the policyholders' protection required the setting aside of \$277,000 more than would have been needed on the Reserve basis previously used.

It is gratifying to know that this was done without reducing the Surplus. It pays to insure in such a successful company.

The Manufacturers Life TORONTO, CANADA.

ST. PATRICK'S DAY. In presenting our readers with the Boucicault drama conception of an Irishman, we merely accept a convention which is difficult to Irishmen from the minds of those who have never been in Ireland. Such of ancient knights errant. But the conception is symbolical of the misunderstanding, well nigh universal, of the character and intentions of Irishmen in general. They are just like other people, only a little more so. What they are, they are a little more intensely than are apologetics—they say "supplins" in the north; but when they are saints, the holy bow before them.

WOLF BOUNTY FRAUD

Newly-Elected Mayor is Charged With a Unique Crime. RAINY RIVER, Ont., March 16.—Last evening George Westcott, who only yesterday was a successful candidate for mayor, was arrested by the provincial officers and jailed at Port Frances, together with T. Cathcart of Barwick, charged with importing wolf skins from Minnesota and coyote skins from Manitoba and collecting wolf bounty of \$25 a head from the Province of Ontario.

Something like four thousand dollars has been collected in part in Barwick this season, which aroused suspicion. Last year Westcott was tax collector.

GREAT SALE OF PIANOS

Heintzman & Co., Limited, Make Preparation for Removal to Their New Yonge Street Store. The purchase of the Brown Building, a year ago, by the old firm of Heintzman & Co., Ltd., was one of the important real estate transactions of 1909. It has not been possible to obtain possession of the store until now, the understanding with the J. F. Brown Co., permitting them to remain occupants until the end of the present month.

This date is now fast approaching. Heintzman & Co. will take possession on Friday, the first of April, when contractors will commence the work of remodeling the large store after the very attractive plans that have been prepared by the firm's architect. In the meantime preparations will be made to remove from the present premises, 115-117 West King, which Heintzman & Co. have occupied for forty-one years of the fifty years they have been in business. One has some idea from individual experience what it means to remove one piano. Think of the task of removing a thousand pianos! Heintzman & Co. intend to save that labor by effecting a clearing of their entire stock of pianos before the day of moving. With this purpose in view they commenced on Monday next a great sale of their whole stock. Every piano, player and organ in the store will be cut in price—new and second-hand. Tickets will be placed on every instrument, showing how deep is the price cut—all prices being in plain figures. Additional salesmen are being employed and every preparation made for the big business that will surely be done, when a house of the high standing of Heintzman's announce a clearing of one thousand pianos.

TWO COLLISIONS; MAN KILLED

Fatal Accident on Elevated Railway Tracks in Rochester. ROCHESTER, N.Y., March 16.—A double collision, causing a wreck, in which one man was killed, three injured and a Pullman passenger practically demolished, took place at 2 o'clock this morning on the New York Central elevated tracks at Hudson-station bridge in this city, when one passenger train ran into the Buffalo and Toronto, New York Central freight train, from the rear, after the latter had crossed the bridge in this city, when William M. Caldwell of Buffalo, head brakeman, of train 29, was killed. There were only three men in the wrecked Pullman, which was cut in half and catapulted off the bridge, the wreckage catching fire. Local firemen got the injured men out of the car.

"Now I Sleep Well"

Horrors of Sleeplessness Recited. "Nothing in life can be quite bad if one sleeps well," says Mr. B. B. B. in his interesting letter. "I was a heavy smoker and an active business man. In the lumber business one is in the air a great deal and seldom without a cigar. My doctor said that incessant smoking was destroying my nerves and mind. "Finally I got a digestion, and this was the change. It kept up ever since. When I began Ferrero's to fasten and tone my nerves, I had fallen into a state of depression and melancholia that alarmed my family, and I don't know if it did, for she gets in the way of thinking of very unpleasant things when their nerves give out, and sleep is denied. "It is all like a nightmare now, yet I shall always be careful and take an occasional course of Ferrero's which will prevent a return. It effectually restored me to health. "You can refer anyone to me that wants to know more about Ferrero's. My trial is the best recommendation." For the price of one dollar, who are tired, pale, sleepless and in poor health, there is no tonic that will rebuild so quickly as Ferrero's. It's good for men, women and children. 50c per box, six for \$2.50, all dealers, or The Catarhizone Co., Kingston, Canada.

AT OSGOODE HALL ANNOUNCEMENTS.

- Osgoode Hall, March 16, 1910. Motions down for sittings court for Thursday, 17th inst., at 11 a.m.: 1. Re Solicitors. 2. Chesworth v. Chesworth. 3. McDonnell v. Shankie. 4. and 5. Ferguson v. Hayward. 6. Re Hulse and McMurry. 7. Re Solicitor. 8. Re Gertley Estate. Peremptory list for divisional court for Thursday, 17th inst., at 11 a.m.: 1. Re Smith and Millar (to be continued). 2. Gilles v. McClary. 3. Hough L. Co. v. Morley. 4. Lindsay v. Home Bank. 5. Chaperon. 6. Federal Life v. Siddall.

Non-Jury Assize Court.

- Peremptory list for non-jury assize court, before Justice Riddell, Thursday, March 17, at city hall, at 10.30 a.m.: 185. Traders' Fire Ins. Co. v. Apps. 188. Smith v. Wilson Lumber Co.

Jury Assize Court.

- Peremptory list for jury assize court, before Justice Falconbridge, Thursday, March 17, at city hall, at 10 a.m.: 31. Dodge v. York Fire Ins. Co. 32. Golden v. C.P. Railway, and 33. Robinson v. C.P. Railway, to be tried together.

Master's Chambers.

Before Cartwright, K.C., Master. Constantines v. Stewart.—W. A. Weller for plaintiff. An application by plaintiff for leave to issue a subpoena duces tecum to the Registrar of the Eastern Division Toronto. Order made.

De Keyser v. Kingswell.—R. McKay for plaintiff. Grayson Smith for defendant. A motion by plaintiff to strike out the six last paragraphs of the statement of defence as embarrassing. Reserved.

Young v. Hall.—G. C. Campbell for defendant. Williams A. E. Knox for defendant. Motion by defendant Williams for leave to examine his co-defendant, in Montreal, referred to the official referee, before whom the action is pending.

Balby v. Heximer.—J. M. Ferguson for plaintiff. Kerwin (Douglas, K.C.) for defendant. A motion by defendant for particulars of Paragraph 5 of the statement of Paragraph 5 of the statement of claim. Plaintiff alleges to have been broken. Leave to give further particulars on all points after discovery. Costs in the cause.

Robson v. City of Toronto.—H. Howitt for defendant. Miles (Heldrum & Co.) for plaintiff. Motion by defendant for a medical examination of plaintiff. Order made for examination by Dr. Primrose. Costs in the cause.

Wray v. Rogers.—T. N. Phelan for defendant. M. Ferguson for plaintiff. Motion by defendant to strike out certain paragraphs of statement of claim, and for particulars of Paragraph 2, as asked, and to strike out part of Paragraph 3, and allowing plaintiff to amend in ten days, so as to show relevancy of facts stated in Paragraphs 5 and 6, and to state venue. Costs to defendants in any event.

Fish v. McCraney and Wilson.—H. J. Martin for plaintiff. W. H. Irving for defendant. Motion by plaintiff for leave to issue execution against defendant Wilson. Reserved.

Barnet v. Gibbons.—D. Delanere, K.C. for plaintiff. Motion by plaintiff to consent to an order for payment out of him of money paid into court by defendants in a mortgage action which has been settled. Order made.

McDonnell v. Grey.—H. P. Cooke (Oxbridge) for defendant. D. I. Grant (Oxbridge) for plaintiff. A motion by defendant to change venue from Barrie to Wilby. Judgment: Motion dismissed. Costs in the cause.

McDonnell v. Grey.—H. P. Cooke (Oxbridge) for defendant. D. I. Grant (Oxbridge) for plaintiff. A motion by defendant to change venue from Barrie to Wilby. Judgment: Motion dismissed. In view of the decision in the Leeson case, the costs will be in the cause.

Judge's Chambers.

Before Meredith, C.J. The King v. Napoleon Savard.—G. Grant for defendant. A motion on behalf of defendant for a writ of habeas corpus and for a writ of certiorari. Order made.

Kemer v. Waterston.—E. P. Brown for appellant. W. R. Smyth, K.C., for respondent. This is an appeal by defendant from an order of the master in chambers, dismissing his motion to set aside the order of a registrar sitting for the master and the service of it upon the defendant. Judgment: Motion granted. Defendant to file a conditional appearance.

McDonnell v. Grey.—H. P. Cooke (Oxbridge) for defendant. D. I. Grant (Oxbridge) for plaintiff. A motion by defendant to change venue from Barrie to Wilby. Judgment: Motion dismissed. In view of the decision in the Leeson case, the costs will be in the cause.

Single Court.

Before Meredith, C.J. Re Jacob Y. Shantz & Son, Co.—A. H. F. LeRoy, K.C., for the company. H. R. E. LeRoy, K.C., for Good, contra. Motion by the company for leave to appeal to a divisional court from the order of Teetzel, J., in the case of the company, who would be the applicant in reply to last one filed by applicant. Leave to appeal granted, but defendant to file further affidavit. Costs in the cause.

McDonnell v. Grey.—H. P. Cooke (Oxbridge) for defendant. D. I. Grant (Oxbridge) for plaintiff. A motion by defendant to change venue from Barrie to Wilby. Judgment: Motion dismissed. In view of the decision in the Leeson case, the costs will be in the cause.

MONARCH

What other typewriter has such uncompromising durability? None. What other typewriter has such all day, long day speed? None. What other typewriter is so rich in short cuts for all classes of work? None. What other typewriter has such a light, velvety touch? None. What other typewriter can compare with it under all conditions and for all purposes? None. The Monarch is the world's best typewriter under all conditions and for all purposes.

COLD STORAGE EVILS IN MONTREAL

MONTREAL, March 16.—Health inspectors to-day found in cold storage here 2000 sheep carcasses that have been in storage two years. A few days ago they seized 125 barrels of oysters that had gone bad. The board of control will investigate the effects of cold storage on the cost of food.

Cattle Crushed to Death

Cattle were slaughtered more quickly than could be done in an abattoir when 26 were crushed to death in a railway smash-up at the foot of Hurontario street early yesterday morning. The two cars containing the cattle were left on a siding and a string of other cars were left some distance away on an incline. The crew neglected to set the brakes on the string of cars, and they ran downhill into the cattle cars. The animals belonged to John Hisey of Creemore. The loss is estimated at \$500 to rolling stock and \$2000 to the cattle.

Tobacco Habit

Dr. McTaggart's tobacco remedy removes all desire for the weed in a few days. A vegetable medicine, and only requires coupling the tongue with it occasionally. Price \$2.00.

Liquor Habit

Many results from taking his remedy for the liquor habit. Safe and inexpensive home treatment, no hypodermic injections, no publicity, no loss of time from business, and a cure guaranteed. Address or consult Dr. McTaggart, 75 Yonge-street, Toronto, Canada.

THE WEATHER

OBSERVATORY, TORONTO, March 16.—(5 p.m.)—The unseasonably mild weather continues through the western provinces and in Alberta. Maximum temperatures exceeding 60 degrees have been recorded. Local snow flurries have occurred to-day from the Ottawa Valley to the Atlantic Ocean, but elsewhere in Canada it has been clear.

Minimum and maximum temperatures: Dawson, 24—38; Atlin, 4—46; Fort Simpson, 24—32; Victoria, 32—48; Kamloops, 32—44; Edmonton, 28—42; Battleford, 28—42; Prince Albert, 32—44; Calgary, 32—44; Moosejaw, 32—44; Qu'Appelle, 28—40; Winnipeg, 24—40; Fort Arthur, 14—26; Pelly Sound, 16—24; London, 31—42; Toronto, 28—39; Ottawa, 20—32; Montreal, 16—34; Quebec, 14—32; St. John, 34—40; Halifax, 32—44.

Probabilities.—Lower Lakes and Georgian Bay—Moderate winds; fair, not much change in temperature. Ottawa and Upper St. Lawrence—Fair and moderately cold. The Great Lakes—Fair and cold; northwesterly winds; fair and cold; local snow flurries. The St. Lawrence Valley—Light snowfalls; in eastern districts fair; elsewhere colder. The West Coast—Fair and cold; snow flurries. Manitoba—Fair and mild. Saskatchewan and Alberta—Fair and very mild.

DEATHS. CANTWELL.—On Wednesday, March 16, 1910, at her residence, 142 Cumberland-street, Abigail McGregor, wife of Wm. Cantwell, in her 66th year.

Funeral from above address on Friday at 2:30 p.m. to Mount Pleasant Cemetery. In St. Michael's Hospital, on Wednesday, March 16, Jeannette, youngest daughter of William and Agnes Dryden, in her 16th year.

Funeral Friday, at 2 p.m. to Prospect Cemetery. In St. Michael's Hospital, on Wednesday, March 16, Jeannette, youngest daughter of William and Agnes Dryden, in her 16th year.

Funeral Thursday from West Toronto, Belleville, Belleville papers please copy. Late of Craig & Son, Phone Park 2850. Norman A. Craig (UNDERTAKER) 1283 QUEEN ST. WEST, TORONTO

GIRL DRINKS CARBOLIC AFTER TIFE WITH LOVER Florence Barnett, Aged 15, Will Not Likely Recover From Effects of Poison.

Half a minute after parting with her lover, with whom she had quarrelled, Florence Barnett, aged 15, of 127 Mutual-street, drank half a phial of carbolic acid at 10.10 last night. Small hope is held out for her recovery. Late this morning she had only partially recovered consciousness, also anti-dotes restoratives had been administered.

In company with a companion, Grace Allen, who boards at the same house, she went to the party, where she drank half the contents of a bottle of carbolic acid. Her friend had stood still, but when she noticed the action she ran to Florence, called him and he ran back. Between them they took her to her home. When they got there the girl was unconscious.

While standing at Queen and Terrence-street, Florence said: 'If I had a revolver I would shoot the man who told you those lies.' The girl purchased the poison at a Queen-street drug store early in the evening, saying she wanted it for toothache. The fellow, whose name is McNulty, promised the girl he would marry her, but when he heard she was wanted to break it off, Grace gave the bottle to McNulty, and he threw it into the street.

FEARS GERMANY'S TRADE

Washington to ignore the important fact that it is a vast market at the very doors of American industry and has not encouraged the English tariff on that account its trade reciprocity is encouraged by policies which it is not necessary to apply to commercial rivals beyond the seas.

On a division of 29 to 17, Mr. Studholme voting with the government, Hon. A. G. MacKay's bill amending the hydro-electric act to allow owners of power plants to sell their surplus power to collect damages, no matter how occasioned, was declared lost on its second reading.

Technical Schools. Hon. A. G. MacKay made a strong plea for technical schools all over the province. He was not making a political question of it, neither the present nor the future government had been moving fast enough in the matter. He did not say the province should support these entirely. What was wanted was improvement in the shape of intelligent direction.

These should be entirely supplementary to the workshop. Not 25 per cent. of the men in the workshop had passed the entrance examination, so the conditions should be easy. 'This state cannot afford to drop the technical schools, which opened at the shop at an early age,' said Mr. MacKay. 'That is where our educational system is weak, undeveloped and ill-balanced.'

Wants a Square Deal. Allan Studholme (E. Hamilton) complained that the wage-worker was not getting a square deal. Hamilton had a fine technical school, on which she had a fine technical school, on which she had a fine technical school.

Free List Figures. But there is a new feature of the tariff question in affecting countries that may receive the maximum. This is the free list. The free list has been applied under the Payne law and is now being applied under the new tariff.

Should this contention be upheld Canada would be struck much harder than any one supposed. For that matter, she would be struck much harder than any one supposed. For that matter, she would be struck much harder than any one supposed.

Consideration in committee of Sir James Whitney's bill amending the act respecting the government house property gave J. McEwing (W. Wellington) a chance to renew his attack on government houses, and to twist the premises with having favored its abolition when in opposition. He moved in amendment to leave in section 7 calling for the funds of the order to be in an amount within 20 days of the opening of the next session.

The Toronto bill was put thru committee without discussion or amendment, and after Sir James Whitney's street railway bill had been disposed of, was given its third reading. The amendment carried on a division of 65 to 18.

SAYS COLONIES PREFER DUKES TO DEMAGOGS

Lord Curzon Declares Over Seas Dominion Trust the Lords as Being Truly Imperialistic. OTTAWA, March 16.—(Special.)—Three days of battle in the house of commons has caused party feeling to run high, and never has government, during its years of office, had to face such a determined opposition as now.

Haughton Lennox (South Simcoe) opened the firing. He demanded to know why the terms of his resolution passed by the Lumsden committee had been changed. The original reading was that the evidence should be reported to the house from day to day. It was altered to read 'printed from day to day.'

Mr. Lennox demanded 'how, and by whose hand, and whose instance, this avenue of information was so effectually blocked.' He challenged Mr. Geoffrion, chairman of the committee, to get up and state how he had no hand in the mutilation of the report. Mr. Geoffrion did not accept the challenge.

Mr. Crothers then turned his attention to the premier, and asked him if the reports would be laid on the table. He said that the alteration of the resolution had been exposed. He sat down to give the premier an opportunity to reply, but Sir Wilfrid refused to answer.

TO SUSPEND OFFICER A.O.U.W. Grand Lodge Votes Down Proposed Change—Thirty-Second Annual Session.

The question of whether the grand master should be clothed with authority to suspend an officer of a subordinate lodge, when charges were preferred against him by any member of the lodge, evoked considerable discussion at the 32nd annual session of the Grand Lodge of the Ancient Order of United Workmen, which opened at the Temple Building yesterday morning.

The proposal was contained in Chairman Nixon's report of the committee on laws and was recommended by the executive. By small majority the resolution to adopt the change was defeated.

The provision for the engagement of a general organizer, who shall have full charge of the organization work, subject to the organization board, as contained in the report of the special committee on organization, was adopted. The report was presented by Grand Treasurer T. G. Inwood, who also submitted the financial report, showing the funds of the order to be in an excellent condition.

According to the report of the grand medical examiner, Dr. J. M. Cotton, there were in 1909, 315 deaths, of which the average age was 60 and the leading causes were heart disease, numbering 66, apoplexy 54, cancer 50, tuberculosis 25, Bright's disease 28 and accidents 29. The average age of the 3855 applicants to the order was 25 years and of the 450 delegates present at the convention over 200 are young men.

Mr. Crothers then turned his attention to the premier, and asked him if the reports would be laid on the table. He said that the alteration of the resolution had been exposed. He sat down to give the premier an opportunity to reply, but Sir Wilfrid refused to answer.

# Realty and Building

STANDARD BANK BUILDING, SOUTHEAST CORNER OF KING AND JORDAN STREETS.

Since the news got abroad of the purchase of the two-blocks north of Carlton and west of Yonge-street there has been a big jump in the values of property on Yonge-street in this vicinity and further up. But the soaring has been too quick and too high to last, and as one big broker said to his client, "if you can get the big price yours offered, take it quick; you may not be able to get it later." This seems good advice. The World came across the man who sold some time ago on the advice of a friend whose judgment was thought to be worth taking. Had he not sold he could have got more now, he is therefore sore. But the great fact for him is that he sold and made money and the man that makes a turn is the man who ought to be satisfied and go and thank the man who advised him. How many times do people get the slip for holding on too long? That is the great danger.

Property on Yonge-street north of College has been sold of late from \$800 to \$1200 a foot. A number of extra desirable corners are held for more.

Yonge-street real estate transfers in the district immediately above Carlton-street have now extended as far north as Broadbalk-street. Yesterday the row of four stores south of Broadbalk-street were reported sold to an unknown purchaser. These stores include Nos. 518-520, occupied by Herbert Toland, grocer; Nos. 522-524, occupied by Geo. M. Bryan, roofer; No. 526, occupied by T. H. Robinson, jeweler; No. 528, occupied by Sloan & Co., druggists. The property, which was owned by Mrs. W. A. Murray, has a frontage of 110 feet, and the price is said to be in the neighborhood of \$70,000.

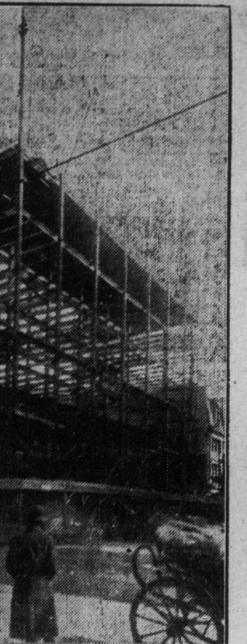

Details of the transactions are not forthcoming at the present time, but The World is led to understand that other transactions are pending in the same block. It is not shown whether these recent purchases are in direct connection with the larger deal to the south, but current gossip calls it a reflex action from the Carlton-street transfers. Still further north, in the next block, No. 530, occupied by J. Brotherton, has been purchased for \$15,000. This buyer is unknown. Also No. 707 Yonge-street, at the corner of Hayden, is reported to have been sold for \$20,000. The property has a frontage of 120 feet.

Had the Bloor-street viaduct gone thru last election upper Yonge-street might have been stimulated; as things are it has felt a few impetus. The talk of a C.P.R. station up-town on Yonge-street has had a lot to do with this improvement. But the railway in the meantime refuses to make any announcement.

The movement away up Yonge-street at Lawrence Park and Melrose Park, for instance, promises to show quick action almost immediately. The public will be offered good building sites for middle-class homes at reasonable prices at the start. Saturday's papers are likely to see the first of this advertising.

What about the Belt Line (Grand Trunk) being reopened including a passenger service? The World expects to hear something definite in a few days. There is no reason why a Grand Trunk service from the Esplanade to the Port and across Yonge-street ought not to reach the Mount

STARTING IN TO TACKLE PURE WATER PROBLEM

## Waterworks Engineer Begins Tackling Soundings To-Day—Glen Road Extension Unlikely.

Now that the breaking up of the ice on the bay is opening the way for navigation, the city's water-works department is preparing for a thorough examination of the conditions surrounding the intake pipe, with a view to bringing in a report as to whether the month of the pipe should be extended or other steps taken to secure a purer water supply.

C. L. Fellowes, water-works engineer, is to have soundings taken this morning with a view to determining the condition of the pipe. To-day's operations will be merely a beginning of the work which will cover weeks, as no regular survey has previously been made.

Can Extend Intake. Capt. A. G. Midford, an engineer who makes a specialty of water supply problems, declares that extension of the intake is the proper solution. He considers that experiments made have proven conclusively that a much purer condition of water exists 1500 feet beyond the present location of the intake pipe. As to the contention of the city engineer that divers cannot work in a greater depth of the water at the mouth of the intake, he asserts that it would not be necessary to employ divers except in coupling the old, and the added length of pipe, a work which, he claims, could be quickly performed.

Will Try Chemicals. One of the suggestions of T. Aird Murray, the expert in purifying the water by chemical action will be tried. Either sodium hypochlorite or calcium hypochlorite will be deposited in small quantities in the well of the pumping station under the directions of Dr. Sheard.

A slight improvement in the city water is noticeable in the most recent analysis. The sample was taken from the tap on March 10, and shows 3400 colonies of bacteria as against 5000 colonies at the previous test. The water is still, however, unfit for consumption without being boiled, says Dr. Sheard.

Despite the objections of the city engineers, the waterworks department undertakes a material change, there will be no extension of the Church-street car-line over Glen-road bridge into North Road.

Set Back for Extension. Unless the present outlook undergoes a material change, there will be no extension of the Church-street car-line over Glen-road bridge into North Road.

J. S. Fullerton, former corporation counsel, told the board of control yesterday that the Beck Act prevented the extension being that without a referendum being submitted, and that the only way to avoid this necessity was to ask the legislature before proceeding to amend the act so as to allow the extension to be exempted.

Altho Mayor Geary at Monday's council meeting pointed out these facts and suggested such an appeal to the legislature, he came out flatly yesterday against such a step, remarking that he had disinclination to "put his head in the way of a shower of bricks."

Controller Foster admitted that the price of a king's ransom would not tempt him to seek any more legislation at Queen's Park, and Controller Ward was opposed to doing violence to the Beck Act "for the sake of a few days' celebration."

It may be decided later to submit the referendum on April 9, when the water works bylaw is placed before the ratepayers.

Moyes Would Build Tubes. J. W. Moyes, who furnished the city with a report on a tube system last fall, has written the board, saying he is prepared to take the "figures given your committee as a basis of cost, and in every other respect carry out the proposal referred to, and will furnish reasonable and valid guarantee for the carrying out of such contract."

Mr. Moyes, who estimated the cost of tubes at \$4,885,000, says that he severed his relations with the city at the beginning of the year, consequently he will not supply details of the plans.

Criticized City Architect. Arthur Denison, architect, complained to the board that work on the new building to be erected by Ambrose Kent & Co. at the corner of Yonge and Richmond-streets, was being seriously retarded through the slowness of the city architect's department in dealing with the plans filed there, Feb. 25 last. He claimed that "on party C. J. Fox of Sarnia, will address the gathering."

200 ACRES—KINGSTON ROAD, NEAR Pickering; over 100 acres seeded down; good soil; all stock farms; excellent spring water; bargain at \$10,000; immediate possession. Stewart, 55 Victoria.

PRINCE RUPERT IMPROVEMENT Superintendent Mehan of the G. T. R. is Now On the Spot.

PRINCE RUPERT, B.C., March 16. (Special).—W. C. C. Mehan, general superintendent of the mountain division of the Grand Trunk Pacific, has arrived, and will make Prince Rupert his headquarters.

The ground has been carefully gone over and Mehan has already planned many changes and improvements in the docks and warehouses, that will greatly facilitate handling of freight. It is rumored that an extension 1000 feet long will shortly be made to the present wharf to the southward, and that the warehouses of Foley, Welch and Stewart will be moved to the new wharf. A big addition will also be made to the sheds owned by the G. T. R., as the present structures are altogether too small to care for the volume of freight handled.

Track laying was begun last week on the completed part of the grade around Estaband, and a big locomotive that has stood idle since its arrival three months ago has already several miles of standard gauge track on which to run.

Left Fortune of \$40,000. About \$40,000 was the fortune left by John Graham, an old man who died at the house of E. C. Sewell, 46 Bloor-street, last Friday. His trunk was opened and securities of that value were found there. The late Mr. Graham has one brother, William Graham, of Morley, Alberta, who has arrived to take charge of the estate.

Artist Tom Browne Dead. LONDON, March 16.—Tom Browne, the painter, and black and white artist, died today. He was born at Nottingham in 1872.

His humorous drawings in "Punch," "Chums," and other publications have made his work familiar to thousands of Canadians.

# COBALT---Mining Securities Hold Generally Steady to Firm ---COBALT

## Active Trading in Cobalts Does Not Influence Prices

### Mining Markets Undergo Little Change, White Undertone Generally Proves Satisfactory—Little Nipissing Easier.

World Office.  
 Wednesday Evening, March 16.  
 Despite considerable activity in the speculative favorites, there was very little change in the position of Cobalt stocks to-day. Price changes were generally confined to narrow ranges, and the only outstanding feature of the markets was the easier tone to certain of the cheaper issues, which have been somewhat prominent of late.

Little Nipissing did not hold its recent advances, but under realizing dropped three points. Supporting interests showed no disposition to hold up the market for these shares, and when profit-taking came into play prices displayed a weak undertone.

In the other securities Chambers-Perland and Cobalt Lake maintained at firm quotations, but there was a good supply of these stocks on offer, and any advances were held in check by substantial realizing from insiders on any appreciation.

Timiskaming moved in a rather irregular manner, opening firm at 67, but losing four points in the early dealings, only to recover this loss later on in the day, and closing around the top for the session.

There were no price changes of importance in the higher priced section of the list. Trading in these issues was narrow throughout, and at the close quotations were on a par with the early dealings.

The market closed with a rather dull feeling prevailing in nearly every section, but in most instances satisfaction was felt in the tone displayed.

Crown Reserve Dividend.  
 Crown Reserve directors have declared the regular dividend of 6 per cent, and a bonus of 9 per cent, on their company's capital stock, making a total of 15 per cent, payable April 13, to shareholders of record April 1.

FIFTY PER CENT. DIVIDEND  
 Declared on Halleybury Silver—100 Per Cent. Paid to Date.

HALLEYBURY, Mar. 15.—Dividends to the amount of 100 per cent have been declared by the Halleybury Silver Mining Co. since last October, a record equaled only by one other company, the Timiskaming and Hudson Bay.

At a meeting of the board of directors Saturday night it was decided to pay another 50 per cent. dividend on April 5, the books to close on March 25.

The Halleybury Silver property lies next to the Halleybury frontier where such excellent finds have been made of late.

In paying this dividend the shareholders now get back the money they invested in the company and have their stock and half their property to the good. The money from which the dividend was paid was raised by the sale of the southern half of the property to the New York company, the Halleybury Frontier.

FREE GOLD IN SHAFT  
 Gratifying Operations on Foley O'Brien Claims in Porcupine.

COBALT, March 16.—On the Foley-O'Brien properties in the east of Timiskaming, about a mile west of the south end of Porcupine Lake, it is reported that free gold values have been struck in the shaft. They have been sinking by hand for some time now on a big quartz vein and at 23 feet in a drift of cross-cut they obtained ore running high in gold.

MR. TIMMINIS HAS FAITH  
 Has Taken Option on Valuable Bunch of Claims Near Hollinger.

COBALT, March 16.—Last week L. H. Timmins made the first payment on another large bunch of claims in the vicinity of the Hollinger. Negotiations have been going on in Toronto for some time for the sale of these claims and last week terms were arrived at.

As the properties taken up are near the claims already under option to Mr. Timmins, they will be able to be worked with the same plant and equipment. Some work has already been done on the properties taken over by L. H. Timmins, free gold in big veins has been found on them and they have long been regarded in the district as among the most promising in the section.

The Timmins compressor has now reached the properties, as has also one of the boilers, while the other is on the road.

LEASES NOT RENEWED  
 Mr. Segsworth Gives Absolute Denial of Report re Cobalt Lake.

Discussing the report that the leases on the Peterson Lake properties at Cobalt have been renewed for five years, R. F. Segsworth, secretary-treasurer of the Peterson Lake Company, said:

"This is absolutely incorrect as no renewal of any lease has been made as yet by the directors. At a meeting held on Friday last the majority of

the directors present favored and recommended the preparation of a bylaw to be considered at a future meeting for certain examinations upon terms yet to be discussed. Favorable consideration was given on the strength of the statements made by the parties representing the different leases and the report of the company's engineers, which went to show that the companies to which extensions were under consideration had spent a sum considerably in excess of \$225,000, all for the exploring and development of the property of the Peterson Lake share-holders so far, as none of the leasing companies with the exception of the Little Nipissing Company, had shipped any ore. The proposition for these extensions was favored as well on the strength of the recommendation of the consulting engineer and from the fact that the Peterson Lake shareholders have much to gain and nothing to lose under the terms of the leases as from the development of the Peterson Lake shareholders are entitled to, and will receive 25 per cent. gross royalty of all the ore taken from the ground, and this is considered by the majority of the best mining men as being in the aggregate a large advantage in comparison with the Peterson Lake Company. In fact there has been so little in it for the leasing companies up to the present, that some of them find it difficult to arrange to finance further development and exploration work, except on some fair understanding that they will have time to share in the results.

Work on Gifford Cobalt  
 Crosscut Will Be Continued for Another 50 Feet.

COBALT, March 16.—(Special).—J. C. Ritchie, treasurer of Gifford Cobalt, is in the camp and as a result this mine will soon be worked on a larger scale, owing to the company being able to secure in cheaper power.

In the cross-cut in which the men were working some time ago a cobalt-calcite vein was cut in which native silver was found and it was in this end of the property that the engineer, who recently examined and reported on the mine, recommended a continuation of the cross-cut for at least another fifty feet before any drifting was done.

The contractors were, however, so both with water that they stopped work here and proceeded in the cross-cut running from the shaft in an opposite direction. Here another vein was cut—a strong pink calcite vein well mineralized.

If an arrangement is made for increased power work can be done in this shaft at once. All that is needed is sufficient power to work the drills and the hoist.

With the rich Timiskaming veins a short distance away and the Beaver in a big ore-shoot right beside it, there is no reason why the Gifford Cobalt should not prove in the end as productive as either of its immediate neighbors.

WORK TO BE PUSHED  
 Peterson Lake to Sink Shaft 150 Feet in Depth.

The Peterson Lake Company have made a contract for the sinking of their shaft on the island in Peterson Lake, southeast of the Stusquehanna shaft, to a depth of 150 feet. The shaft is to be a 12 ft. x 6 ft. shaft, and timbered and the contractors are under obligation to do the work both sinking and timbering at the rate of 30 feet per month. A large number of applications have been made for the leasing of this ground but the directors have refused to lease any more of the Peterson Lake ground, and are going to energetically push the development of the remaining mining land unleased.

THREE LOADS OF SILVER  
 Shipped Yesterday From St. Kitt Smelter to England.

ST. CATHARINES, March 15.—St. Paul-street witnessed a novel sight this afternoon. It was nothing less than three lorry loads of solid silver which were being driven to the station, for shipment to England.

There were a hundred and seventy-eight bars of silver melted in the Thorold refiner from Cobalt ore from the Conlagas mines. Each bar of silver weighed about twenty-five pounds, making the shipment of solid silver weigh a total of 13,200 pounds, or about seven tons. The shipment goes in sealed, well guarded cars.

## Where is LOST LAKE?

Lost Lake is on the new Government Road between Elk Lake and Gowganda, lying just within the eastern boundary of Haultain Township, south of Wigwam and north of Calcite, being the connecting link between these two lakes. It is on that great diabase ridge which runs northwesterly through the Townships of Brewster, Corkhill, Lawson and Haultain, and is a near neighbor of Leroy, Miller and Bloom Lakes. It has a postoffice and direct telephone service and is a favorite stopping place for travelers.

## What is Going to Happen There?

Lost Lake is going to be one of the best silver-producing centres in the whole of the Gowganda mining division. Numerous discoveries of native silver have led to quiet and steady development, and in a very short time Lost Lake will be in the forefront on its merits.

## BEAVER NOW EQUIPPED WITH MODERN PLANT

Ore Will Be Put Thru New Ore House in a Week—Active Development Work.

COBALT, March 16.—(Special).—Perhaps one of the most up-to-date plants in the Cobalt camp has been installed on the Beaver property. The work of installation is practically complete. When the Beaver struck ore last fall ore houses, just as a new office, blacksmith shop, pump house and compressor building. After further development, when the ore body came in so large, it was found absolutely necessary to erect suitable buildings, and after the shipment of the second car of ore this work was completed. The new dry room for the men when they come to the mine wet, and one of the best ore houses and head frames in the camp. A new hoist has been installed, the shaft all timbered, a case put in and now the Beaver is fully equipped with a working outfit second to none.

Contracts have been made with one of the power companies for both air and electricity, and in the meantime the Beaver will operate their own compressor plant from their own steam until such time as the air and electricity can be delivered to them from the power company.

By the middle of next week it is expected that the Beaver will be putting the first ore thru the new ore house, and active mining operations will be resumed. The ore chute extends from the 200 down to the 250-foot level, and is very rich. No stopping has been done, and what ore they have taken out has come from development work. The Beaver now has a case put in to a depth of 150 feet, and it is expected that the depth is what is required in the southeastern part of Coleman, and will undoubtedly be an encouragement to another operator down in that locality to dig deeper. As soon as the new air is distributed thru the camp it is expected that the Beaver will be putting the first ore thru the new ore house, and active mining operations will be resumed. The ore chute extends from the 200 down to the 250-foot level, and is very rich. No stopping has been done, and what ore they have taken out has come from development work. **York County and Suburbs**

**SEWAGE QUESTION IS A LIVE ONE IN N. TORONTO**

Project Contingent on Water Supply—Live County and Suburban Topics.

NORTH TORONTO, March 16 (Special).—Will North Toronto again take up during the regime of the present town council the important question of the installation of a sewage plant?

This is a question which is agitating the minds of the townspeople, and one that perhaps more than any other save and except that of a water supply appeals most strongly to the average ratepayer. The rapid increase in the population and the enormous possibilities in store for the Town of North Toronto in the immediate future, all conspire to render the situation acute and one which demands immediate attention.

"I may say frankly in the outset that before the question of sewage is dealt with we must be assured of an abundant supply of water," said Mayor Brown to the World to-night. On the supply of water hangs the question of a sewage plant. I regretted to see the Artesian Wells Company's project turned down by the private bills committee," continued the mayor, "as that would have solved at least temporarily the problem." Incidentally he regretted the fact that the member for East York had declined to assist the town in the matter.

"No formal resolution was ever put down to accept water from the company in the event of their acquiring the charter," he said, "but it was agreed in committee of the whole to lend our moral support to the project, and a letter to this effect was sent to the representative. I favored the submission of the whole matter to Engineer James and Engineer Brooks, and falling any solution in reference to an expert. If we cannot get enough from our own local springs, and the supply from the Artesian wells is decided as, there is only one alternative, and a last one, to get connection in some way with the city system."

**Will Act at Once.**

"I would not go so far as to say that we ought to wait until the water question is settled before we take up the sewage," said Chairman Murphy of the board of works. "We could get the question under way by anticipation of a supply which must be had from some quarter and at any cost. And I may say further that it is proposed to take the matter up at the next meeting of council." Referring to the Artesian Wells Company he said that he could not see, except as a private company, why the project could be handled. "My only objection to the plan of T. Ald Murray, C.E.," said he, "was that it was not good enough."

**Must Jibe With City's Plan.**

"I am an ardent advocate of the proposal to establish a sewage plant, but I want such a system when we come into the city will jibe into the city's plan," said Councillor Lawrence, chairman of finance. "We are not in favor of the scheme proposed last year and I want some engineer to give us a better one, more along the local improvement system and one that will drain the streets where they most need it. In the expenditure of such a large sum of money we want something that will be lasting and permanent. Further, we might get along with the scheme and trust to get an abundant supply of water."

Councillor Frank Howe, chairman of the parallel roads committee, was a strong advocate of the sewage, and his voluntary retirement from the council of last year, as a protest against the defeat of the measure, is still fresh in the minds of the ratepayers. That Councillor Howe will give any measure for sewage his loyal support is certain.

**Said to Favor It.**

Councillors Peers, Muston and Reed are yet to be heard from, but they are said to be favorable to any well-digested plan for installing a system in the town. It looks now as though the question will be a live one this summer after.

At a well attended meeting in the Bedford Park Baptist Church last night a large number of people were organized, with these officers: W. G. Ellis, president; R. W. E. Burnaby, vice-president; E. Hunter, secretary-treasurer; Mr. Gunn, captain; W. Charles, vice-captain; and an executive committee composed of R. C. Ellis, Messrs. Trudell and Smith.

Another meeting will be held in the same place on Tuesday evening to complete details.

**Want Another School.**

On Good Friday afternoon at 3 o'clock a public meeting will be held in the Bedford Park Anglican Mission Church to discuss the question of the establishment of another school in that district. The North Toronto Board of Education will be there and all interested would do well to attend.

Mr. and Mrs. Robert Mack and son, Jack, have returned from a six weeks' visit to the West Indies and South America. They report a delightful time. George McCormack and brother, Gordon, leave on Saturday with a carload of stock for McTaggart, Alberta, where they will make their home.

**Buy a Ticket From Your Favorite Newsboy**

offering the town the privilege of putting down pipes on his property in the event of securing water was most public-spirited," said W. G. Ellis to-night.

Ex-Councillor R. W. E. Burnaby, an enthusiastic horseman, bought another driver yesterday. Friends of the manager of the Imperial Life will enjoy many outings this summer.

**Big Real Estate Deal.**

Real estate in North Toronto is active. The Warrington farm at York Mills, consisting of about 18 acres, on which is a splendid orchard, has been sold, and will be used as an estate by the purchaser, whose name is not divulged. 280 feet on the south side of Albertus-avenue at \$15 per foot and 100 feet on Victoria-avenue at \$25 per foot have been sold this week. All the above sales have been made by Usher, Strathly & Co., thru their Eglington office, corner Yonge and Hawthorne-avenue.

**WEST TORONTO.**

WEST TORONTO, March 16.—The largest price paid for property in this ward for some years was paid for the lot adjoining that of W. J. Sheppard, 1714 Dundas-street. A Yonge-street florist bought the lot to-day for \$210 a acre.

The West Toronto Baseball League held a meeting last night in the Huntington Clubrooms and admitted 100 clubs for the season: All Stars, Dufferin, Davenport, and Ravens. A schedule meeting will be held on April 1 to arrange games, etc.

Last night the annual pastmasters' night was celebrated in Victoria Lodge, A.P. & A.M. A large number took their first degree and later refreshments were served.

The Delta Alphas, a young ladies' club in charge of the Victoria Lodge, held a special St. Patrick's banquet to-morrow evening.

The demand for six-roomed houses in ward seven far exceeds the supply. If you have a house of this description to rent or sell, notify F. B. Harney, 1720 Dundas-street.

**HUMBER BAY.**

HUMBER BAY, March 16.—The prize-winners at the Humbert Bay Athletic Club's euchre tournament this evening were: First, Mr. MacLeroy; second, Mr. Douglas, and the booby, Alf Taylor.

The St. Patrick's ball will be held in Miles' Hotel this evening. 150 invitations for which have been issued.

**EAST TORONTO.**

Say Local Electric City Light System is Very Bad.

EAST TORONTO, March 16.—(Special).—The vagaries of the local electric light system for the last month or two have given rise to great dissatisfaction. Last night the lights were out for a good part of the evening, and candles and coal oil lamps were called into requisition.

"I am going back to the Toronto Electric Light system again," said a prominent Lee-avenue resident to-night, "as I cannot put up with this condition of affairs any longer."

**DOVERCOURT.**

Rev. J. M. Whitlaw, M.A., of Fairbank, an eloquent preacher, will take all the services at Davenport-road Church next Sunday.

Brick Sunday afternoon meetings at the Oakwood Club will be discontinued for the time being, as the fine spring weather thins the attendance.

On March 19, 1910, at 1 o'clock, D. Beidman will conduct an auction sale of the City of Toronto, of fifty-nine acres, north part lot 25, concession 6, Scarborough, close to city limits, good brick house, fair barns and stables, four acres orchard, first-class clay land. (See page 11 Woodbine-road, Toronto; John Richardson, city hall, Possession-April 1.

### STATUTE AMENDMENTS ACT

Will Reduce University's Share of Succession Duties 50 Per Cent. Net.

In the Statute Amendments Act to be put thru the legislature to-day, a change will be made in the Succession Duties Act, by which the university will get 50 per cent. net instead of the gross results. It is estimated that the difference will amount to from \$500 to \$750.

The provincial secretary will be empowered to direct the chief of the board of health to carry out their own orders as to sanitation, in case of neglect of municipal authorities to do so, and charge the cost to the municipality.

It will be made illegal to insure the life of an infant under 1 year of age. This clause is intended to combat the increase in infantile.

By another amendment the member of the board of education heading the poll at the preceding election will be given the casting vote in the election of a chairman.

After January, 1911, chief makers in cheese factories will be required to possess a certificate from the Ontario Agricultural College, unless recommended by the minister of agriculture, on the advice of a council.

Two years more will be given to the Ontario and Hudson Bay Railway to construct their line from Mississauga to the Grand Trunk Pacific.

**LATE MR. COCKSHUTT'S WILL**

Many Bequests to Relatives and Charitable Institutions.

The will of the late Charles Cockshutt was filed in surrogate court yesterday. An estate of \$251,000 was left by Mr. Cockshutt, of which \$10,717 is household goods, \$72,114 stocks, \$44,425 real estate and \$28,740 securities and insurance.

To his brother Harry he gives \$11,000 in realty and \$9,475 in stocks. To his brother Frank he gives \$525 in realty, \$43,462 in stocks. William P., a third brother, receives \$5000 in cash, \$18,000 in realty and \$12,342.93 in stocks. This is stock in the Cockshutt Company.

Ten thousand dollars cash is divided among four sons and two daughters of W. P. Cockshutt. Another brother, Edmund, is given \$5000 cash. A sister, Lily Drummond of Montreal, is given \$15,000 cash and some chattels. Her children receive a life interest in \$20,882 invested in stocks. Mrs. Margaret Hippic, of Bradford, another sister, receives \$5000 cash, and Kate Scott, a sister-in-law, \$4000 cash.

Mr. Cockshutt leaves the following bequests to charitable institutions: Hospital for Sick Children, \$10,000; Widows' Home, Bradford, \$1000; Evangelical Settlement, \$500; School for Poor Children at Farrington in Brant, \$200.

He leaves \$5000 to poor relations if there are any. If none, the money goes to the poor of Bradford.

A number of bequests to friends were made. To E. R. C. Clarkson he leaves his shotgun and case; to Henry D. Warren, paintings; to D. B. Wilkie, contents of wine cellar; to E. B. Oiler, room and furnishings at Toronto Golf Club; to T. D. Law, \$1000 cash; to H. S. Oiler, fishing rods.

"I direct my executors," a clause reads, "to purchase two cases of the best port obtainable and I present them to my friend Walter J. Cassius, justice of the peace, of Ottawa, as a token of my friendship for him."

He leaves \$10,000 to Adelaide Kerr, wife of Spenser J. G. Kerr, K.C. Her son Stanley gets 11 shares of Toronto General Trusts stock. His housekeeper, Alice Weeks, is given \$1000; Henry Langley, an employee, gets \$500; Miss Edith C. Ellwood of the Evangelical Settlement \$1000, and \$500 is given Minnie Weeks. A \$5000 bequest is given T. F. Hue of T. Ogilvie & Sons, Toronto, "for faithful services to the firm of Chas. Cockshutt & Co." Fishing rights on the Nipissigut River, New Brunswick, are left to E. B. Oiler for distribution, the proceeds to go to charity. A bequest to his brother W. P. is: "The silver casket presented to my late father by the citizens of Bradford, and the address contained therein."

**PRIVATE DISEASES**

Dr. W. H. GRAHAM

No. 1 Clarence Square, Cor. Spadina

2467r

Private Diseases, Nervous Debility, etc. (the result of folly or excess). Gleet and Stricture treated with a new and powerful medicine (the only cure and no bad after-effects). SKIN DISEASES, whether result of syphilis or not. No mercury used in treatment of Syphilis. DISEASES OF WOMEN, Pains of Preterse Menstruation and all displacements of the Uterus. SUNDAYS: The above are the Specialties of

**Regulate the Bowels**

"I have been troubled with constipation for several years, and have tried a great many kinds of pills, as well as medicine from the doctor. Nothing seemed to help me until I began taking Dr. Miles' Nerve and Liver Pills. I found the little pills very effective, and I am thankful that at last I have a reliable remedy."

MRS. F. M. DUNKIN, LeRoy, Ill.

Dr. Miles' Nerve and Liver Pills simply cause the bowels to move in a normal manner, and without the gripping effects of cathartics and purgatives. That's why they are so universally used by women and children. The longer they are taken the less are needed. Natural conditions gradually being restored.

Price 25c at your druggist. He should supply you. If he does not, send price to us, we forward prepaid.

DR. MILES MEDICAL CO., Toronto.

**MONTEAL WILL OPPOSE IT.**

MONTEAL, March 16.—Fearing that Montreal will be side-tracked as a port if the proposed extension of the Grand Trunk to Providence goes thru, transportation men here are preparing to oppose the plan thru the Dominion Government.

The original charter of the Grand Trunk Pacific says that, in return for the aid the government gives financially, the road, when completed, shall carry its freight to Canadian ports unless otherwise routed, and that the company shall make no undue efforts to have goods routed to American ports.

**NEW ROUTE FOR C. P. R.?**

ST. JOHN, N.B., March 16.—It is reported, but not confirmed, that the C.P.R. is planning a new line of railway from here to Montreal. It is the common belief that the C.P.R. now owns the shore line from St. John to St. Stephen, N.B., just across the St. Croix River from Calais, Maine. The rumored project is to straighten the shore line and build a new road from Calais to Mattawakeag, Maine, connect then at Calais and use this line to Montreal. It would be much shorter than the present route via McAdam.

**ATLANTIC CITY OR WASHINGTON, D. C. AND RETURN**

From Suspension Bridge, via Lehigh Valley R. R. Friday, March 25th. Stop-over allowed at Philadelphia. Particulars 54 King Street East, Toronto, Ont.

**G. T. R. AND PROVIDENCE**

Daren't Tell Montreal of Plans at Port-Making, Says Rival.

PROVIDENCE, R.I., March 16.—"An impunctuous lot" was the way President Chas. S. Mellen of the New Haven characterized the Grand Trunk in opposing the latter's offer to get a charter to enter Providence before the committee on corporations.

Mellen proposes to use a part of the New Haven road's track, a provision in the New Haven's charter making such an arrangement permissible, and this President Mellen particularly objected to. President Mellen also condemned any action towards getting to the new

**London Wool Sales.**

LONDON, March 16.—The offerings at the wool auction sales today amounted to 14,540 bales. The demand

**Run Down?**

Ayer's Sarsaparilla is a tonic. It does not stimulate. It does not make you feel better one day, then as bad as ever the next. There is not a drop of alcohol in it. You have the steady, even gain that comes from a strong tonic. Ask your doctor all about this.

Ask your doctor all about Ayer's Sarsaparilla. Entirely free from alcohol. A lining that comes from a strong tonic. Ask your doctor all about this.
