## General Intelligence

### ACCIDENTS WILL HAPPEN.

John Brown, a G. T. H. veteran, of

2446 Malabar St., Philadelphia, Pa.,

By a mere accident I came across Dr.

Agnew's Catarrhal Powder. I was a

great sufferer from that dread malady,

Catarrh. This wonderful remedy

effected a speedy and permanent cure in

my case, and I have been so thankful

for it that I am willing to spend the

remainder of my days in spreading the

good news to my fellow-sufferers.—Sold

by E. Lee Street.

### ENGLISHMEN GIVE BIG ODDS.

PHILADELPHIA, Pa., Sept. 18.—The

cricket match between the British and

National teams, selected from the

junior members of the various Phila-

delphia cricket clubs, was begun at noon

to-day. Robert S. Newhall the veteran

player acted as captain for the colts.

The Philistines won the toss and chose to

go to the bat first. While the young-

sters as a rule fell easy prey to the high

class bowling of the Englishmen, seven

of them succeeded in getting double

figures as also did Capt Newhall. The

full team was retired at 148 runs.

The Britishers then went to bat and

when they were drawn for the day

they had scored 41 with the loss of two

wickets.

### DOCTORED NINE YEARS FOR

TETTER.

Mr. James Gaston, Merchant, of

Wilkesbarre, Pa., writes: "For nine

years I have been disfigured by a

horrible skin disease. I have spent

hundreds of dollars with doctors and

tried scores of remedies. At last I have

found a cure in Dr. Agnew's Ointment.

It helped me from the first application,

and now after using it for two months I

believe I am permanently cured, as my

skin is smooth and soft and free from

every blemish.—Sold by E. Lee Street.

### BLIZZARD ON THE CHILKOOT

PASS.

SAN FRANCISCO, Sept. 21.—A letter

from Crater Lake, Alaska, dated Sep-

tember 2, says: "A thousand men

toiled all of yesterday in a blinding

storm of snow and sleet on the summit

of Chilkoot Pass. The blizzard lasted

from daylight until dark. An Indian

chief at Dyea told me a few days ago that

Chilkoot Pass would probably be block-

ed by snow about the 25th. He said that

miners fortunate enough to have their

supplies across the summit before that

time were now in luck. The river, he

claimed, will keep open until late in

November, although the lakes will prob-

ably be frozen in six weeks.

### AFEW DROPS GAVE PERMANENT

RELIEF.

James Allen, of St. Stephen, N. B.,

writes: "I was troubled with very se-

vere pains in the heart, pain in the side,

and shortness of breath. I became com-

pletely exhausted with the least exertion.

Doctors said my case was a hopeless one.

I procured a bottle of Dr. Agnew's Cure

for the Heart. A few drops gave me

permanent relief, six bottles entirely

cured me. Today I am well.—Sold by

E. Lee Street.

### AMERICAN POLITICS.

AMERICA MUST REMEMBER THAT SHE

PLAYS BUT A MINOR ROLE.

London, Sept. 20.—The Globe this

afternoon is an editorial on the facility

of arbitrations with a power, "which

Volume Thirty-one.  
With this week's number THE UNION ADVOCATE enters upon its thirty-first year. We have no new pledges to make as to the course we shall pursue in the future. Our aim has always been to further what we considered to be the best interests of the section of our country we live and labor in. We have endeavored to perform what we considered our duty fearlessly and independently without the slightest consideration of whether pecuniary advantages or disadvantages would result therefrom.

In the past we shall we continue in the future, and we confidently ask for a continuance of the liberal patronage bestowed upon us.

His "Treacherous Memory."  
The Advance of last Thursday is unique and amusing in that it editor endeavors to prove that he is exactly right in endeavoring to support none but those in power, but does not give us a list of particulars of the numerous snags he has received for doing so. No doubt according to his own principles, or rather lack of principles, he considers he is quite justified in changing from one side to the other when a higher bid is made for his valuable (?) services than he has previously received. Still he should never forget his very devious course or pretend to forget it, for however treacherous his memory may be he surely cannot but remember the cause which have led to his occupying the despicable position he does today in the opinions of his fellow-men.

His dear contemporary the World frequently refers to the Advance editor's treacherous memory, and the last issue is surely a wonderful specimen of what he thinks are facts, while at the same time every person, intelligent or otherwise, knows them to be but his groundless imagination, and say the writer was either drunk or crazy when he ventured to make such unwarranted and lying statements. He says:—"The Advance steadily opposed the late provincial government and supported the opposition which was led by Hon. Mr. Blair, and when Mr. Blair and his followers defeated that government, the Advance supported the new government which came in under Mr. Blair as premier, and it has continued up to the present time to support the same government under Mr. Blair's successor."

How is that for a statement of facts? Does the satire editor forget that he was the official reporter of the government he now says he steadily opposed, and that having by contemptible trickery and dishonesty managed to get paid in advance for his official reporting he then declined to carry out the contract and thus he forgot that the then government would have nothing further to do with him unless he completed his contract which he was unable to do, and then, having no other resource, he became an opponent and supported Mr. Blair. Since then he has been paid enough to keep him on as a steady supporter, and he is quite satisfied to continue so long as he receives a goodly share of the spoils.

The St. John Sun struck the Advance on the head when in referring to the Advance it says:—"If this journal were concerned chiefly about these things, it would follow the example of the Advance, which impartially supports all local and all foreign governments, changing sides with every change of administration."

This true statement of facts the editor calls, "hearing false witness against the Advance," and yet it is true and it is only his treacherous memory which is at fault. The public do not forget how when Mr. Snowball was bought over by a seat in the Senate to desert his party and support the Liberal Conservative candidate that part of the community was the support of Mr. Snowball's paper, the Advance. It wonderfully satiates the editor's hard work at that time to justify his independent (?) course; it would not do, you know, to acknowledge as true what everybody knew were facts, so he gave as the reason for his sudden flip over the fence that he could not stomach "the Liberal platform." Why he has got enough to stomach anything if there is but money in it for him. Now the true Liberals will have none of him and he has to join himself with the Blairites, the new political party which has for its object the ruin of the Liberal party. Such political gymnastics as the editor of the Advance and his master have shown prove that self and not principle is their great desideratum.

So far as its denial of an immediate general election is concerned, the Advance is not as good authority as the Gleason or the Standard, but whether the elections are brought on this early or not the effect of the agitation will do good in arousing the people to a sense of their duties despite the denials of the hireling press controlled by the government.

We hope these remarks will be pointed out and lengthy enough to show the people what a treacherous memory is possessed by the editor of the Advance and how little reliance is to be placed upon any statement he makes. The people should be and are acquainted with his character, and the assertion is frequently made concerning him "that they would not believe him on his oath."

## Editorial Notes.

The following item in reference to the leadership of the Conservative party in the Dominion Parliament is going the rounds of the press throughout Canada:—  
Ottawa, Sept. 24.—A well authenticated rumor is to effect that Sir Charles Tupper is so immersed in business matters that he desires to be relieved of the leadership of the conservative party in order to devote his attention to the different mining companies with which he is connected. Sir Mackenzie Bowell is accompanying him to Winnipeg, and it is said with the approval of the leading members of the party to Hugh John Macdonald. Hon. Mr. Foster has already seen Mr. Macdonald on the matter.

## Northumberland County Teachers' Institute.

The third annual Convention of Northumberland County Teachers' Institute, held at the Mission Hall, Newcastle, Sept. 21st, at 10 a.m. After singing "All Hail the Power of Jesus Name" several prayers were offered which were followed by an instructive and interesting Bible reading from Judges 7th chapter, by Dr. Anna L. Brown. Minutes read and adopted.

Election of officers for the ensuing year then took place.  
President—Mrs. S. McLeod.  
Vice-President—Dr. Anna L. Brown.  
Corresponding Secretary—Mrs. Jas. T. T. T.

Recording Secretary—Miss Falconer.  
Treasurer—Mrs. Park.

In the absence of Mrs. Leishman, who was appointed to prepare a paper on beer and home made wines, Mrs. G. N. Clark read an essay entitled "Keep the home pure." Mrs. Lawson, of Richibucto, made very interesting and practical remarks on the subject, also Mrs. McLeod. The musical service was conducted by Mrs. J. Harrison.

Morning Session closed.  
Afternoon session opened at two p.m. Mrs. Lawson led the devotional exercises and gave an interesting talk on the relations 21st ch. and 27th verse. Minutes of morning session read and adopted, after which the committee brought in the following resolutions and were unanimously adopted.

Resolved, That every effort be put forth to secure an overwhelming prohibition vote in the coming plebiscite campaign and that it be made the subject of our public and private prayers.

Resolved, That we appreciate and approve of the resolution passed by the Dominion Alliance, urging that the sale of intoxicating liquors in connection with military schools be abolished.

Resolved, That we rejoice to learn that a large number of physicians in the Old Country as well as our own have abandoned the use of alcohol in medical practice, and we desire to express our appreciation of the efforts of our physicians to limit the use of alcohol in their practice.

Resolved, That we deplore the fact that some of the medical profession have been untrue to their sacred calling as to give prescriptions promiscuously to the youth and habitual drinkers.

Resolved, That we declare our belief that one standard of morality is equally binding on men and women.

Resolved, That Unions be organized to hold public and private meetings, in order to keep the subject of temperance before the people.

Resolved, That printed copies of resolutions be sent to Unions as soon as possible after convention with request to read and discuss.

An interesting paper on "Why should we join the W. C. U.?" prepared by Miss Bessie Whittey and read by Mrs. McLeod. Convention expressed their appreciation of the paper by a vote of thanks to the author.

In the evening the Christian Endeavour gave a very enjoyable entertainment which was well attended. The following programme was very successfully rendered:—  
Opening chorus by the choir—Sons of the battle cry.

Prayer by Pastor, Rev. J. A. Clark.  
Scripture reading by Society.  
Solo by Mr. Jas. Leslie—"I am far from my home."

Address by the chairman, Mr. McLeod.  
Quartette by Miss Leighton, Miss Elliot, Mr. W. W. McLeod.  
Recitation by Miss Lounsbury.  
Chorus by choir—"Sowing time."

Reading—Miss Anna McLeod.  
Solo—Miss Maggie Elliot.  
Recitation—Miss Annie Harrison.  
Address by Rev. J. A. Clark.  
Mention closed with benediction.

Northumberland County Teachers' Institute.

Advertising Tip.  
Every merchant, says an exchange, should have an advertising department in connection with his establishment. If it only consists of a pigeonhole, where advertising ideas can be filed and referred to, it will be found a most valuable department in the business. Depending on advertising with his establishment, the merchant will be all right at times, but the better profit by the comparison of their ideas with other ideas.—Business, Canada.

8th.—That we rejoice to learn that a large number of physicians in the Old Country as well as our own have abandoned the use of alcohol in medical practice, and we desire to express our appreciation of the efforts of our physicians to limit the use of alcohol in their practice.

Resolved, That we deplore the fact that some of the medical profession have been untrue to their sacred calling as to give prescriptions promiscuously to the youth and habitual drinkers.

Resolved, That we declare our belief that one standard of morality is equally binding on men and women.

Resolved, That Unions be organized to hold public and private meetings, in order to keep the subject of temperance before the people.

Resolved, That printed copies of resolutions be sent to Unions as soon as possible after convention with request to read and discuss.

An interesting paper on "Why should we join the W. C. U.?" prepared by Miss Bessie Whittey and read by Mrs. McLeod. Convention expressed their appreciation of the paper by a vote of thanks to the author.

In the evening the Christian Endeavour gave a very enjoyable entertainment which was well attended. The following programme was very successfully rendered:—

Advertising Tip.  
Every merchant, says an exchange, should have an advertising department in connection with his establishment. If it only consists of a pigeonhole, where advertising ideas can be filed and referred to, it will be found a most valuable department in the business. Depending on advertising with his establishment, the merchant will be all right at times, but the better profit by the comparison of their ideas with other ideas.—Business, Canada.

## Newcastle Field Battery.

Taken all through the twelve days drill of the 12th Newcastle Field Battery was not favored with weather such as would have been a pleasure. The nights were extremely cold and the frequent rains kept everything damp. Yet in spite of the unfavorable weather there was but one or two cases of sickness among the men, and not one slight casualty from the kick of a horse. We understand that the Battery has been invited to drill in Douglas town next year if not ordered to Sussex, and it is thought probable the invitation will be accepted. During the last week the men were preparing for their usual inspection and other closing exercises which took place as follows:—

Col. Wilson, commander of B. Battery, Quebec, the inspecting officer, arrived on Tuesday morning to inspect the 12th Field Battery. On Wednesday evening the officers and non-commissioned officers were put through the usual technical examination on gunnery matters, and four companies were put through the firing range competition.

On Thursday morning the general inspection of the battery took place and gunnery competition was held. The target practice was held at 1700 yards, and then kit battery was held.

On Friday the battery proceeded to Douglas town, where they had been invited to drill. They left here at 10 a.m. and arrived at Douglas town at 4 p.m. On Saturday morning they were put through the regular field movements, drilling in the large field owned by Mr. Hutchison above the church, and fired a salute of four guns.

On Sunday Mr. Hutchison sent out a bill of lard, a cheese and some gallons of milk and all enjoyed a hearty lunch. Col. Call was on the field when the battery reached there and as they were leaving for home the men gave three cheering cheers for Mr. Hutchison, three for Col. Call, and three for Major R. L. Maltby, their commanding officer.

On Saturday the camp broke up, the guns and implements were placed in store in the armory, the men paid off and then they dispersed to their homes.

A Trip to the Gold Field on Sabbies River.  
To the Editor of the Union.  
Dear Sir, I thought that it would be satisfactory to readers of your much esteemed paper, to give you an account of my trip. I started with a gold expert and three other men on Tuesday morning, and after fifteen miles, the road being much filled with broken down trees. We did not reach the desired haven and had to camp. The expert had rather a poor night's rest, with gold on the brain and footed on the road. We saw two caribou on our first day's journey. Next morning we partook of our repast, composed of bread and meat, with a good pot of tea to nerve us for the day's journey to the gold field, where the no much talked about Klondike was.

On Saturday the camp broke up, the guns and implements were placed in store in the armory, the men paid off and then they dispersed to their homes.

On Sunday Mr. Hutchison sent out a bill of lard, a cheese and some gallons of milk and all enjoyed a hearty lunch. Col. M. ADAMS.  
Newcastle, Sept. 28, 1897.

Newcastle, Sept. 28th, 1897.  
TO EDITOR ADVOCATE.

DEAR SIR.—Being anxious to know it is possible for a sufficient number of our sports and business men to get together and discuss a representation in the exhibition to be held in Boston under the auspices of the New England Sportsmen's Association in March next. I come to the ADVOCATE for assistance. The writer of this is convinced that a better investment could not be made; if the statement is true that nearly 2 millions of dollars are spent annually in the State of Maine every year, by sportsmen, I know that there are many of our people who would willingly cooperate to secure such a creditable exhibit of our Big Game, accompanied by one or more guides, as would satisfy enquiring sportsmen of the superior advantages offered by this and the adjoining counties over that of other sections. Let Mr. R. H. Armstrong and Mr. John Way be sent to the exhibition with spectators, and you will soon hear of some one enquiring for a suitable site on which to erect a hotel in this town. Let some one take the initiative; who will be the first?

## Merit Talks

"Merit talks" the intrinsic value of Hood's Sarsaparilla. Merit in medicine means the power to cure. Hood's Sarsaparilla possesses actual and unequalled curative power and therefore it has true merit. When you buy Hood's Sarsaparilla, and take it according to directions, to purify your blood, or to cure any of the many blood diseases, you are morally certain to receive benefit. The power to cure is there. You are not trying an experiment. It will make you drive out the germs of disease, strengthen the nerves and build up the whole system.

THE INSURGENTS BLOW UP A TRAIN FULL OF SOLDIERS.

DYNAMITE WAS THE AGENT.

NEW YORK, Sept. 28.—A special to the Journal from Havana says: A train conveying soldiers to Artemisa has been blown up by dynamite by the insurgents near the station. The insurgents had torn up the rails for a long distance and laid a bomb where it was anticipated the train would stop. This enabled the party to explode the charge directly beneath the armored cars, which were blown to pieces, none of the escort escaping. The engine was derailed and many in the rear cars were injured. General Garcia has carefully escorted the 140 sick Spanish soldiers captured in the military hospital of Victoria de las Tunas, to the Spanish headquarters.

With the sick in litter, a large escort of Cubans took them across the country, delivering them safely to the Spanish garrison at Port Gibara. Even the official reports give credit to the Cubans for this considerate treatment.

ENGLAND AND AMERICA.

THE "ST. JAMES GAZETTE" REGRETS THAT BETTER FEELING DOES NOT EXIST.

LONDON, Sept. 27.—The St. James Gazette, this afternoon, remarks: "It is quite clear that no concession can be made and no display however sincere of our wish to be friendly has availed one jot to disarm the bitter hostility of those Americans who are always ready for aggressive action. Neither is there a threat of evidence to show that the cold, passive dislike which so many Americans, who are friendly enough to the individual Englishman, feel for the English government has been warmed in the least degree."

Recalling ex-Secretary Olney's alleged dictum that all connection between a European and an American state is in itself unnatural, the St. James Gazette adds: "That some doctrine is working in the English mind is evidenced by many signs, of which the persistent stirring of the Behring Sea dispute is not the least. This is in itself a fact of which we and the other governments interested in America must take note, not as an excuse for losing our heads and rushing to meet an evil half way, but as good reason for clearing our minds and preparing for serious practical action."

BANKERS PROTEST.

ACTION OF BANK OF ENGLAND STRONGLY CONDEMNED.

LONDON, Sept. 22.—A meeting of the bankers of London, called to protest against the action of the governor of the Bank of England in relation to the silver reserve, was held at the clearing house to-day. There was a large attendance of representatives of powerful interests. Several of the prominent bankers were not represented, but according to the statements of those who participated in the meeting their absence was due to the fact that their heads were not in on near London at the present time. A resolution protesting against the Bank of England's proposed action was adopted. This resolution was embodied in a letter to the governor and it will be presented to him to-morrow. The bankers who were present at to-day's meeting were pledged to secrecy in regard to the proceedings. Mr. Robert Benson, who threatened at the recent meeting of the Bank of England, to sell his bank stock if silver reserves were held, took a prominent part in the meeting to-day. This protest upon the part of the London bankers is unprecedented, and is the only thing talked about at present in financial circles.

## AFTER MANY YEARS.

A Sufferer is Restored to Health and Strength.

Suffered From Weak Heart and Could Not Safely Walk Any Distance—How the Pulse of Life Was Adjusted.

From the Cornwall Freeholder.

The romance of unwritten facts of real life far exceeds the rich elaborations of fiction. A peep behind the scenes would furnish us with adequate proof that there is more of care, trial and severe anxiety in human life than floats on the surface. We find many whose experience has almost incessantly fluctuated between health and sickness; little if any of this is obtained upon the notice of the world, or breathed into human ear. You may secure the confidence of some of these sufferers who will relate to you dark catalogue of pains and aches, that are often ill understood by the friends and inadequately treated by the physician. Thanks be to the mighty energy of Hood's Sarsaparilla, the sufferer for the ill to which humanity is subjected when suffering from impoverished blood, a shattered nervous system, thousands have, and thousands are still being, to the greatest advantage, Dr. Williams' Pink Pills. They have passed through a shattering ordeal and again with ever increasing honor. The following statement is from one who was rescued from seeming permanent debility and distressing heart action. Mary Fisher, of Lancaster township, Gleanery county, is a middle-aged woman, about eight years ago Miss Fisher was seized with weakness and a distressing sensation in the region of the heart. It was attributed to several causes, all possibly more or less true, they were overwork, exposure, etc. She was certainly weak and the action of the heart was abnormally rapid. The doctor in attendance pronounced the ailment nervous palpitation of the heart and the received treatment accordingly for two years. At this stage she took to her bed she receiving only domestic attention. She improved somewhat, however, and was able to be taken to a friend's home near Lancaster village, Mrs. J. Hancy, where she was under medical attendance and took medicine for about three years. At the end of this time she could not safely venture to walk out even a short distance. All this time she complained of her heart. About two years ago she began taking Dr. Williams' Pink Pills, from this date she began what proved a steady restoration of nervous energy. During the summer of 1896 she was able to go to the theatre, and was able by the middle of the summer to do as much work and walking as an ordinary woman, and so satisfactory and apparently permanent is the cure that Miss Fisher has gone to her former home. Such are the unvarnished facts of a remarkable case. The remedy was persistent, tenacious and hard to fight. But the instant use of Dr. Williams' Pink Pills wrought a marvellous change, which Miss Fisher's friend said might be profitably known to many others.

Dr. Williams' Pink Pills cure by going to the heart of the disease. They renew and build up the blood, and strengthen the nerves, thus driving disease from the system. Avoid imitations by medicine that every box you purchase is enclosed in a wrapper bearing the full trade mark, Dr. Williams' Pink Pills for Pale People.

IDENTIFYING A BUGLAR AT A DISTANCE.

The identification and capture of robbers comes about once in a very curious way, as the case related below will show. One night about six years ago a stranger went into the town of Newcastle, N. B., and the next morning he disappeared. During the night, the safe in James Fish & Co's premises at Newcastle was burglarized and \$700 taken therefrom.

I. C. R. Detective Skiffington went to work on the case, and sent a telegram to River du Loup, giving a description of the stranger, and the county constable and I. C. R. police officer there found him on one of the trains and when searched he had the stolen money in his possession. He was brought to Newcastle, tried, convicted and sentenced to five years in Dorchester. He gave his name as Bell and was said to be well connected. After serving eighteen months of his sentence he made his escape from the penitentiary and had not been heard of again till a few weeks ago. It came out at the trial that Bell went four hours working at Fish's safe, till he got the combination that opened it.

It will be remembered that three weeks ago dispatches were published about the robbery of the Dominion bank at Napawan, Ontario, and of \$30,000 having been taken, under similar circumstances as the robbery at Fish's. The strange part of the story is that Detective Skiffington on reading the dispatches pitched at once upon Bell, and sent a full description and a photo of him to E. H. Baines, the manager of the Dominion bank. Word has been received that Bell is undoubtedly one of the principals, as he was seen in company with three others near the bank on the day of the robbery. It is rather curious that his identity should have been made from Moncton, which is so many hundred miles away.—Halifax Chronicle.

ON TUBERCULOSIS IN CATTLE.

Fredericton, N. B., Sept. 24.—Julius L. Inches, secretary of agriculture, received a telegram tonight from Hon. Sydney Fisher stating that he was willing to send Prof. Macrae of Ottawa here on the 30th inst., on the day of the government stock sale to deliver a lecture on tuberculosis in cattle. Mr. Inches at once wired the minister to send him along and that arrangements would be made for holding the meeting here on the evening of the 30th.

Prof. Macrae is known as the most eminent authority on tuberculosis in Canada, and the farmers and stock raisers are very fortunate in having an opportunity presented to them of hearing an address from him.
