Arrival of the Arabia.

The Steamship Arabia, which sailed from Liverpool on Saturday, Jan. 19th, arrived at Halifax on Thursday night last, at half-past 9 o'clock. She brought 107 passengers.

THE WAR.

The grand news of the week is, that Russia agrees to negotiate on the terms proposed by the Allies. The first announcement was made by Vienna Telegraph to the London "Times," in these words:—"Russia accepts the Allied propositions unconditionally; this is authentic."

Previous to the above announcement, the Vienna papers represented the state of affairs as most serious, unexpected and alarming, and that all personnel of the Austrian Embassy had received orders to quit St. Petersburg.

The actual circumstance was, that when Count Esterhazy handed to Count Nesselrode at St. Petersburg the Austrian allied note of December the 20, he said that he was not authorized to enter into discussion, but if the note was not accepted unconditionally before January 8th, he and all the Austrian Embassy must leave St. Petersburg.

To prevent this, Nesselrode communicated with Vienna direct, and on January 11th, Prince Gortschakoff, at Vienna, had a talk with Count Buol, in which Gortschakoff produced a memorandum expressing a general inclination on the part of Russia to negotiate, but proposed certain alterations in the programme.

The London Gazette publishes a treaty with Japan, opening to British commerce the ports of Nagasaki and Nacodashi, the same as to the Americans.

The Hon. Mr. Goulburne, Chancellor of the Exchequer, is dead. By his death the Chancellor's pension of £2,000 is saved.

The Countess Dowager of Erroll and daughter of William the IV, and the celebrated Mrs. Jordan, is dead. She was aged 65.

A further consignment of machinery for the Government Small Arms Factory, was landed at Woolwich on the 15th, from the Robbins and Lawrence Company, Windsor, Vermont.

An exhibition of the strength and capabilities of Bolt's metal Life Boats was made at Liverpool, and found satisfactory.

There was a grand review in Paris, on the 15th, of the troops from the Crimea, when the Duke of Cambridge, in the name of Queen Victoria, presented the British Crimean Medal to 14,000 French troops.

The "Moniteur" publishes a report of the Minister of Finance. The report congratulates the financial condition of the country, and says the only danger is the temptation to extravagance.

Several additional explosions were made in Sebastopol docks; the docks are now almost destroyed. France and England each reserve one gun as a trophy.

The "Chronicle Russe" publishes a despatch from Gortschakoff saying that a party of French, wearing white cloaks, to prevent being seen in the snow, advanced by night, and surprised Baidar, bayoneted the out posts and retreated when Russian reserves came up.

The American ship Telegraph is reported in Cayuga, and another American at Revel, ASIA.

Intelligence was received at Constantinople of the report that Mouravieff is advancing in Asia, his advanced posts are within three hours march of Ezeroum.

The campaign of the Turkish army in Armenia is definitely abandoned in order to cover Erzurum. Omar Pasha's troops have begun to arrive at Trebizonde.

The Egyptian contingent has already embarked from Constantinople for Trebizonde. Omar Pasha has tendered his resignation, but it is refused. He is in disgrace at Constantinople. Not long since the official Commissioner for Widows and Orphans applied to Omar's property in Constantinople for the benefit of his children by his first wife.

In compliance to Omar's attachment was not permitted, but since the fall of Kars the Commissioner has taken the property. The Turkish Government has published an account of the fall of Kars, tending to throw the responsibility on Omar; he has sent Col. Simmons to defend him at Constantinople, but Col. Simmons finding himself supplanted there has gone to England.

Omar blames the Turkish Ministry, and especially Riza Pasha, for withdrawing the supplies. There is some talk that Omar will be sent as Turkish Minister to England.

Aud-el-Kader has arrived in Damascus, to occupy the palace presented to him by the Sultan.

A Paris commercial letter says, that the French whaler "Espérance" was chased two days near the Kurulles Islands, in the Pacific, by a Russian cutter, but escaped in a snow storm.

GREAT BRITAIN.

Home politics are quiet. The Palmerston ministry is gaining adherents in Parliament. Hopes of peace throw all other news to the winds.

The President's Message is of course variously commented upon, but the general opinion is favourable. It is considered moderate in tone, expressing American views with dignity and precision.

No one here anticipates a rupture between the two countries.

The London Gazette publishes a treaty with Japan, opening to British commerce the ports of Nagasaki and Nacodashi, the same as to the Americans.

The Hon. Mr. Goulburne, Chancellor of the Exchequer, is dead. By his death the Chancellor's pension of £2,000 is saved.

Gen. Codrington's latest despatch, dated Jan. 1st, reports merely that the health of the army is good.

Baron Seebach left Berlin on the 12th, on his return to Paris.

Sweden continues warlike preparations. The Copenhagen official journal denies the existence of any circulars repudiating the Swedish on the part of Denmark.

Marshal Paskievitch has requested as his dying injunction to the Emperor, to make peace; he would never have given this advice to Nicholas, whose battles he had fought, but to the young Emperor, who had no hand in raising the war, he urged the policy of peace.

The French Council of War continues its sittings at Paris; two commissions, one of the army, and one of the navy, are appointed to prepare a report. Admiral Lyons and Gen. Canrobert are members for the army, and Admiral Dundas and Gen. Neill for the navy.

There had been a discussion, relating to the withdrawal of the allied forces from the Crimea, retaining only Kamiesch, Eupatoria and Balaklava, and making a campaign up the rivers of the Southern Provinces of Russia. The Admirals oppose the plan, inasmuch as it would take 6 months to remove the material of the past campaign from the Crimea.

seriously contemplated to return the charter to Maryland, leaving one division here and one in Georgetown, to operate under authority of the body in Baltimore.

The Standard.

WEDNESDAY, FEB. 6, 1856.

ENGLISH NEWS.—The news by the steamship is of a pacific character. From the telegraph report in our columns, it will be seen that "Russia agrees to negotiate on the terms proposed" by the Allied Powers.

There are differences of opinion on this concession—some believing it only an attempt on the part of Russia to gain time—others again are of opinion that it will lead to a permanent peace. From the Crimea there is nothing important. Flour has declined 2s. per bbl. Corn 2s. 6d. Wheat 6d.

A CONSTITUTIONAL MATTER.—We have of late heard it intimated by some of our friends who are advocates of the Prohibitory Liquor Law, that parties who feel themselves aggrieved by its operation, should call public meetings and discuss its merits, and if they deem proper, petition for its repeal.

This has been done—but how have its opponents been treated by their total abstinence friends? The answer is plain—the parties signing the requisitions, and those who took part at the meetings, are handled in the most intemperate and unmerciful manner by correspondents and editors, who espouse the cause of the Sons of Temperance! Now, freedom of speech and right to petition are guaranteed to every British subject by the Constitution, and are consequently his birth right; and when the opponents of the Liquor Law, adopt an open and proper course to obtain its repeal, they should be respected,—instead of being misrepresented and slandered, and above all things their private characters should be held sacred. It is a fact which cannot be gainsayed, that the learned, the wise, and the good, differ in opinion upon this, as well as other subjects, and men of every rank, creed, and political complexion, are found on each side of this question, and have expressed themselves accordingly; and here we remark that we firmly believe, the majority of these very men in this Province, are opposed to the Liquor Law.

We do not know of a more "constitutional manner" for the opposition to adopt, than the one they have taken, viz.—calling Public Meetings discussing the matter, and petitioning for the repeal of the present law. While the act remains on the Statute book, it is the duty of every loyal subject to be governed by it; but the people have an undoubted right to petition for its repeal if they see fit. The disgraceful scenes which have arisen out of the attempts of parties to convict their fellows of a breach of the Law—the mean subtleties resorted to for that purpose—and the immense quantity of noxious and deleterious stuff called American "white eye" which has been and is daily smuggled into the Province, and peddled through the country—is sufficient argument, if there were no other, to call for its repeal. We can hear with courtesy and respect the opinions of Prohibitionists—but at the same time we cannot agree with them. This surely shows a fair field, and on which "side of the fence" we are.

GROSS OUTRAGE.—A correspondent at St. Stephens informs us that "a most disgraceful as well as illegal proceeding took place last week in St. Stephens under the guise, of what is mis-called legal authority. The house of Mrs. Quinn was entered and searched from cellar to garret for liquors, and articles of household furniture of every description examined, trunks forced open, beds tossed over, and the sanctity of the family circle, invaded, without finding a drop of liquor. This however, did not satisfy the harpies who had the poor woman brought before the Magistrate on a warrant, and some young men were subpoenaed as witnesses to prove that she sold liquor contrary to law. Again the informer and spies were defeated, as no witnesses appeared against her, and the case was dismissed. It is said Mrs. Quinn intends to prosecute these wretches for trespass, and it is hoped she will bring the parties to condign punishment."

The Hon. Attorney General, one of the Railway Delegates, arrived in the last steamer from England. The result of his mission is not known. Our contemporaries at St. John and Fredericton are sanguine of his success, but at the same time very cautious in penning their notices of what he has accomplished. As the Legislature meets next week, the people will soon know whether he has been successful or not—we sincerely hope he has.

RAILWAY ACCIDENTS.—We are sorry to have to announce some very serious railway accidents which have occurred recently. On Monday last, two horses, working upon Messrs. Creelman & Tupper's section of the line, were precipitated over the lofty embankment adjoining the viaduct at Sackville, and both killed. Their driver had a very narrow escape, but fortunately, as we understand, did not escape unhurt. A much more serious accident occurred upon Mr. Cameron's section, near Windsor. Two men were instantaneously killed by the falling in of a bank where they were excavating, on the 19th inst; a third who was of the party died almost immediately after being dug out, and a fourth was so dreadfully mangled that his sufferings were intense and his recovery was considered very doubtful. Two of the deceased were named Keeffe and the third Collins; and the name of the man who survived was Sexton. —Halifax Recorder.

AN INVETERATE CASE OF SCURVY cured by Holloway's Ointment and Pills.—Miss Mary Martin, of Kentville, Nova Scotia, was afflicted for fourteen years (commencing when only 8 years old) with scurvy; the face, hands, arms, and body, were alike constantly visited with this disagreeable and painful eruption, many remedies were tried, in the anticipation of benefiting the sufferer; but in vain. About eighteen months ago, the parents determined to see what effect Holloway's Ointment and Pills would have upon her; those two remedies quickly performed their part, cleansed the blood, reinstated the fluids, and generally strengthened the constitution, the Ointment healed the cutaneous eruptions, and happily continued thoroughly restored her to health after fourteen years almost incessant suffering.

BIRTH.—At St. Andrews, on the 21st January, the wife of Mr. G. W. King, of a daughter.

MARRIED.—At the residence of the bride's father, in Carleton, by the Rev. Dr. Day, on the 23rd inst, Mr. Samuel S. Mays, to Jane K., second daughter of Mr. Robert W. Henson, both of Carleton.

DEATH.—On the 23rd ult, Mr. Matthew Bregatchoff, a native of Galloway, North Britain.

On the 27th ult, John Dixon, son of Mr. William Townshend, aged 4 years and 30 days.

At Carleton, on the 20th ult, in the 41st year of his age, Mr. Wm. R. Snow, son of Capt. W. R. M. Law, of St. Andrews, and late publisher of the "Frontier Journal."

Suddenly, at St. John, on the 24th inst, ADAM JACK, Esq. in the 67th year of his age, leaving a wife and five children to lament their loss.

A LICENSE BILL IN PENNSYLVANIA.—Mr. Wilkins of the Legislature of Pennsylvania, has introduced an Act to regulate tavern licenses and restrain the use of spirituous liquors.

It consists of 23 sections, and, among other things, provides that no person hereafter, unless he be a citizen of the United States and a good moral and sober character, shall keep a public house. Also that there shall be two classes of taverns—the one class chargeable with a high rate of assessment, and authorized to retail wines, brandy, spirits, malt and brewed liquors—a 2d the other class chargeable with a low rate of assessment, and authorized to retail cider, beer, ale, porter and malt liquor. (The Judges of the several Courts of Quarter Sessions shall hear applications, and the rates are divided into three classes, the highest of which is \$1,000 upon a house the rental or yearly valuation of which is \$10,000 or more; the second is \$800, and they gradually fall to \$25, which is the lowest price for a license.

Married in Dubuque, Iowa, Miss Kate Quigley, to D. Lynch, Esq., of same city;—[American Cell.]

We wish too, the above couple to have an abundance of joy; but if we should say a word or two in addition to this, as connected with their marriage, it is not intended to disturb the tranquility and bliss of either the bride or bridegroom; but to express a dislike to the manner in which our distant contemporary handles the subject of Matrimony, or in other words, gives publicity to marriages. What we would say then is simply this:—that in the marriage record given by the "Cell," the fair one, "Kate," is placed above her beloved spouse "Daniel." Now when women, in the beginning of time was made or fashioned, it was not before but after the man. Hence, to place her where the "Cell" has done cannot be good, as it represents her not only as head of him, (the spouse), but actually pursuing, overtaking, and finally tying him in well-kept. However hollowed and charming Hymen's hands may be, such a proceeding is out of order in our eye, as there is no sign of modesty to be seen in it, and where that is deficient, there is a much wanting; for of all the things under the sun perhaps, there is none more attractive, or more lovely, than female modesty. Fully and freely we admit that decline to be true, held by one of our old, inspired writers: "A virtuous woman is a Crown to her husband." But that does not mean she is to be placed upon his head, or that she is to rule over him. No such thing. Yet, according to the "Cell," we are wrong, if we are to take his relation of the above marriage as staff and guide to form an opinion of what is his mind. We wish however, all of them well, and a happy time.

Ufford's Smoke Consuming Patent Lamp.

It is warranted to produce, without smoke and with only the poorest quality of oil or grease, at an expense of less than half a cent per hour, a light equal at least to four wax candles. Extremely simple and durable, less injurious to the eyes than any other artificial light, and will prove the truth of these statements.
Price \$1 30, 82c. 67c.
We have one of the Lamps in use, and are able to conform to the favorable testimony of the Traveller, having found it answering well to what it claimed for (Puritan Recorder).
No person who has ever tried one of the Lamps would be willing to give it up for ten times its cost, if it could not be replaced. [New England Farmer, Boston, 17 Court street, head of Sudbury.

E. D. SPEAR,
INDIAN DOCTOR,
18 Kneeland Street, BOSTON, Mass.
THE great success which has attended the Indian Practice of Medicine, as perfected by E. D. SPEAR, M. D., excites envy in the hearts of the many advocates of Mercury. Many of his remedies, as the public have already learned from newspapers of the day, are prepared from recipes which are believed to have originally been received from the Indians one hundred and seventy-five years ago. No other remedies deserve the name of Indian.
DE. SPEAR'S
GREAT INDIAN MEDICINE,
(For names and description see his "Family Physician"—to be had, free, at his office, or sent to order, prepaid on receipt of a paper postage stamp.)
Are certain cures for
Asthma, Ague and Fever, Barber's Itch, Boil, Bronchitis, Cancer, Canker, Colds, Consumption, Coughs, Costiveness, Cramps, Debility, Diarrhea, Derangement of the Bowels, all humors in the blood, Giddiness, Headache, Inflammation of the Eyes, Jaundice, Kidney Complaints, Liver Complaints, Loss of Hair, Lumbago, Milk Leg, Nightmare, Palpitation of the Heart, Pains in the side, back, and other parts of the body, Painful Menstruation, Pin Worms, Rheumatism, Salt Rheum, Scald Head, Scrofula, Shortness of Breath, Sore Throat, Spinal Complaints, Strangury, &c.
Dr. Spear's Female Medicines have become very celebrated, and it is now admitted that his treatment of Female Weaknesses, Dropsical Uteri, Irregularities and Suppressions is far superior to every other treatment for these complaints.
Dr. SPEAR'S
It is also celebrated in the treatment of children. His medicines being vegetable, do not poison the system.
Dr. Spear is now being visited by one thousand patients every month, some of whom travel hundreds of miles to consult him and to obtain his medicines.
Dr. S. will warrant a cure in every curable case. After giving his remedies a fair trial, if a cure is not effected, he will pay any other physician, who will effect a cure, his bill, not exceeding \$100.
Persons at a distance can consult him by letter, enclosing a stamp to pay the postage.
Dr. Spear consults with patients at his Office No 18 Kneeland street, upon all conditions and diseases of the system, free of any charge.

Stammering Cured!

DR. BRONSON AND C. C. BEERS ARE happy in announcing that STAMMERING can be permanently CURED by Medicine and Vocal Gymnastics. It is first treated as a Nervous Disease, (like St. Vitus' Dance, Epileptic Fits, etc.) and then the habit, instead of the disease, is corrected by exercises in Education. Mr. Beers has been an inveterate stammerer for thirty-five years; has attended many institutions for the cure of stammering, and expended hundreds of dollars without any permanent benefit, but cured himself, 18 months ago, and has ever since remained cured.—With the same means, we have cured others, to whom we would gladly refer any applicants—not having failed in a single instance. Being established from reason, experience, and observation, that stammering is the effect of a Nervous Disease, and can be perfectly cured by the above means in the course of two or three weeks, we assure all interested of these gratifying results, and guarantee a permanent cure, or refund the small fee paid in advance. Those desiring further information on these subjects, (including terms, guaranty, etc.) can obtain it from our New York, just issued, on Stammering, its Effects, Causes and Remedies. Illustrated by One Hundred Engravings. Price, One Dollar; on the receipt of which the book will be sent, without expense, and the money in payment will be credited in the bill for Treatment. Board, etc., furnished on reasonable terms.—Address BRONSON & BEERS, 188, Washington-street, Boston, Mass.

AYER'S PILLS,

A new and singularly successful remedy for the cure of all Bilious Diseases—Constipation, Indigestion, Headache, Irritability, Inflammation, Gout, Humors, Nervousness, Debility, Infidelity, Dropsy, Rheumatism, Scrofula, or King's Evil, Stone and Gravel, Secondary symptoms, Tic Douloureux, Erysipelas, Tumours, Female Irregularities, Uterine Affections, Fevers of all kinds, Venereal Affections, Worms of all kinds, Weakness, from whatever cause, Headache, Indigestion, &c. &c.

Prepared by JAMES C. AYER, Practical Chemist of the City of Lowell, Mass., who has long used this medicine, and is a strong advocate of its virtues.

These Pills, the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are composed not of the drugs themselves, but of the medicinal virtues only of Vegetable remedies, extracted by chemical process, in a state of purity and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition, every medicine is burdened with more or less of acrimony and injurious qualities; by this, each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effect should prove, as they have proved more purely remedial, and the Pills a surer, more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have composed the accurate Formula by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them, they will be promptly forwarded by mail to his address.

For all the Patent Medicines that are offered, how few could be taken if their composition was known. Their life consists in their mystery. I have no others.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject, freely acknowledge their convictions of their intrinsic merit. The Cherry Pectoral was pronounced by scientific men to be a wonderful remedy for the cure of Croup, Whooping Cough, and other pulmonary affections. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their regular action to health, and by correcting wherever they exist such derangements as are the best origin of disease.

Being sugar wrapped, so that they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions, see the wrapper on the Box.

Prepared by JAMES C. AYER, Practical and Analytical Chemist, Lowell, Mass.

LET US REASON TOGETHER.

HOLLOWAY'S PILLS.

WHY ARE WE SICK?

It has been the lot of the human race to be weighed down by disease and suffering. HOLLOWAY'S PILLS are specially adapted to the relief of the Weak, the Nervous, the Delicate, and the Infirm, of all climes, ages, sexes, and constitutions. Professor Holloway personally superintends the manufacture of his medicines, and offers them to a free and enlightened people, as the best remedy the world ever saw for the removal of disease.

THESE PILLS PURIFY THE BLOOD.

These famous Pills are expressly combined to operate on the stomach, the liver, the kidneys, the lungs, the skin, and the bowels, correcting any derangement in their functions, purifying the blood, the very fountain of life, and thus curing disease in all its forms.

DYSPEPSIA AND LIVER COMPLAINTS.

Nearly half the human race have taken these Pills. It has been proved in all parts of the world, that nothing has been found equal to them in cases of disorders of the liver, dyspepsia, and stomach complaints. They soon give a healthy tone to those organs, however much deranged, and when all other means have failed.

GENERAL DEBILITY.

Many of the most despotic Governments have opened their Custom Houses to the introduction of these Pills, that they may become the medicine of the masses. Learned Colleges admit that this medicine is the best remedy ever known for persons of delicate health, or where the system has been impaired, as its invigorating properties never fail to afford relief.

FEMALE COMPLAINTS.

No Female, young or old, should be without this celebrated medicine. It corrects and regulates the monthly courses at all periods, acting in many cases like a charm. It is also the best and safest medicine that can be given to children of all ages, and for any complaint; consequently no family should be without it.

Holloway's Pills are the best remedy known in the world for the following Diseases—

- Ague
- Asthma
- Bilious complaints
- Blotches on the skin
- Bowel complaints
- Colic
- Constipation of the bowels
- Consumption
- Debility
- Dropsy
- Dysentery
- Erysipelas
- Female Irregularities
- Fever of all kinds
- Fits
- Gout
- Headache
- Indigestion
- Inflammation
- Jaundice
- Liver complaints
- Lumbago
- Piles
- Rheumatism
- Retention of Urine
- Scrofula, or King's Evil
- Stone & Gravel
- Secondary symptoms
- Tic Douloureux
- Tumours
- Veneral Affections
- Worms of all kinds
- Weakness, from whatever cause
- &c. &c.

AYER'S PILLS.

FOR ALL THE PURPOSES OF A FAMILY PHYSIC.

There has long existed a public demand for an effective purgative pill which could be relied on as safe and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown that what success it accomplishes, the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have some of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient habitually that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much gripping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Langue and Loss of Appetite, Lactation, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequences of diseased action in the liver. As an aperient, they afford prompt and sure relief in Constipation, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Spitting of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach, renews the strength of the body, and restores the wasted or diseased energies of the whole organism. Hence an occasional dose stimulates the stomach, renews the strength of the body, and restores the wasted or diseased energies of the whole organism. Hence an occasional dose stimulates the stomach, renews the strength of the body, and restores the wasted or diseased energies of the whole organism.

When taken to excess. The thousand uses, in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed that this will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of cathartic medicine.
