CAMPBELLTON WINS FROM DALHOUSIE

Four Rinks Played Here Monday, April 9th—Keen Ice Good Playing.

Four rinks of Dalhousie came up Monday evening and played Campbellton rinks at the curling rink here and met defeat at the hands of the Campbellton curlers for the first time this winter. The total scores were:

Dalhousie	44	Campbellton	48
Leo Blanchard	6	E. C. Campbell	6
A. MacG. McKenzie	6	E. H. Smith	6
J. E. McKay	6	S. W. Dimock	6
E. LeCoffre	6	H. R. Barnes	6
Ge. Scott	6	Skip	6
Frank Troy	6	Ge. Lovvick	6
A. Powell	6	Alex. McLennan	6
F. A. Barberie	6	McG. McDonald	6
Skip	6	J. T. Reid	6
Ray Clarke	6	Skip	6
John Galden	6	J. P. McKennie	6
F. Syrett	6	A. H. Russell	6
W. A. R. Craig	6	Ge. Miles	6
Skip	6	R. H. Gibson	6
C. W. Bernard	6	Skip	6
S. Blanchard	6	N. C. McKay	6
Dr. W. W. Fleck	6	D. McLennan	6
A. B. McKinnon	6	F. G. Kerr	6
Skip	6	F. J. McKee	6

This is probably a record for the playing of a foreign match game. The ice is still in excellent condition and games were played last evening.

DISCUSSED IN THE LEGISLATURE

Sentiment Against Capital Punishment in Growing Says Attorney General.

Fredericton, N. B., April 10.—During a discussion of administration of justice estimates in the New Brunswick Legislature last night W. P. Scott, Liberal member for St. John City, called it the feeling that conviction in capital cases meant the taking of another life was not responded to with any sympathy of the dignity in obtaining convictions in murder cases. Attorney General Byrne said it was his opinion that the present law was a "possibility of doubt" not "reasonable doubt," as prescribed by the law and declared that "the sentiment against capital punishment was growing. It had been intensified, he said, by the regrettable incident in Carleton County—meaning the bludgeoning attending the execution of Bonnie Swain in Woodstock last fall. He added that jurors were now in many cases considering capital punishment cases from the viewpoint if there was a "possibility of doubt" not "reasonable doubt," as prescribed by the law and declared it was doubtful in his mind whether persons opposed to capital punishment should be permitted to continue to sit upon juries which were trying cases in which conviction involved capital punishment.

PROGRESSIVE WINS MOOSE JAW FIGHT

E. N. Hopkins Has 1291 Majority With 30 Votes to Hear From.

Moose Jaw, Sask., April 11.—Edward Nicholas Hopkins, whose election as Federal member for Moose Jaw in yesterday's bye-election is almost certain, is a native of Brownville, Ont., where he was born 68 years ago. He is a retired farmer and manufacturer. The election was caused by the unseating of R. N. Johnson, Progressive. Thirty polls are still to be heard from, with Mr. Hopkins leading W. E. Knowles, E. C., the Liberal candidate by 1,291 votes.

The Liberals still refuse to concede Hopkins' election, claiming that the south country polls, which are reported will give their candidates comfortable majorities and may eventually decide the election for Knowles.

BORN
At the Soldiers' Memorial Hospital, Campbellton, Monday April 9th, to Mr. and Mrs. Russell Nicholas Adams a son.

APPOINTED ASSESSOR.
A special meeting of the Town Council was held Monday afternoon for the purpose of appointing an assessor for Ward I. John T. Reid, town clerk, was appointed. It is felt that the Town Clerk should be a permanent assessor and thus have one on the board who is conversant with the many changes made in property during the year.

REPORT.
The last entertainment put on by the Lyric Dramatic Club on Feb. 19, last, brought the substantial amount of two hundred and thirty-five dollars (\$235.00). After deducting expenses and royalty, said amount was paid over to the Chairman of the Assumption School Board after the play. This report was omitted from a previous issue.

FUGITIVE ARRESTED AT SAYABEC

Culprit Who Recently Attacked Train Located by Detective H. Culligan.

The culprit who caused such a commotion and painfully injured two passengers on the Campbellton and Lewis local train one night recently, was apprehended this week at Sayabec by C. N. R. Detective Harry Culligan. The offenders who gives the name of Albert Doucette and says he and elsewhere along the St. John river, parents are dead, is about eighteen years of age. He was taken to Rimouki where he appeared before Magistrate Fitzette. Sentence however, was deferred until April 18th.

NOTABLE REUNION OF C. E. F. OFFICERS

Notable Gathering at Government House, Ottawa on Vimy Anniversary.

Ottawa, April 10.—There was a notable reunion of officers of the Canadian Corps at a Vimy dinner at Government House last night, when Baron Byng of Vimy, who was commander of the Canadian Corps when Vimy Ridge was captured six years ago, had as his guests, officers representing almost every unit under his command at that time. In responding to a toast, Baron Byng said: "You, Sir Arthur Currie and those under your command were determined that the Canadian Corps should be the greatest country that I know it will ultimately become. God bless you all and good luck to you all."

TYPHOID FEVER AT EDMUNDSTON

Serious Epidemic Thought to Have Been Caused by Impure Water.

Sixty cases of typhoid fever have occurred at Edmundston, New Brunswick's thriving communities, the town of Matawaska county, and as a result of the epidemic conditions the Department of Public Health have notified the authorities of Fredericton all derive their water supply from the St. John river. All communities along the St. John river have been warned to exercise care in taking water for domestic purposes from the river, and those communities which have not filtration of chlorination plants have been warned to boil water taken from the St. John river for human consumption. The almost unprecedented winter and the conditions which have been created as a result are believed to be partially responsible for the unfortunate epidemic at Edmundston.

ROAD PATROL SYSTEM SOON

Many Items of Supply Passed at Session of Local Legislature.

Fredericton, April 11.—Details of the proposed system for the patrol of New Brunswick's trunk roads were given in the Legislature last night by Premier Veniot when an item providing for \$150,000 for the purpose was being passed by the House in Committee on Supply. Patrol districts, the Premier stated, will be from 8 to 12 miles in length, and each will be in charge of a patrol captain who will have a pair of horses and one assistant continuously available for the work. The captain will be paid at the rate of \$125 per month for himself and the team and the assistants are expected to be available at from \$2 to \$2.25 per day.

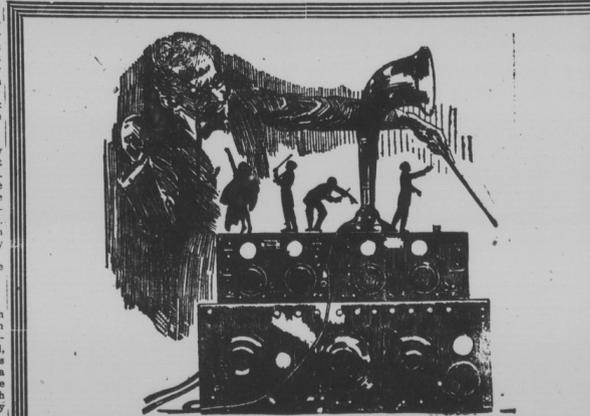

BETTER FREIGHT RATES FOR EAST

Premier Mover and Opposition Leader Secured a Resolution in House.

Fredericton, April 11.—Premier Veniot gave notice in the Legislature today that he would move on Friday the following resolutions, seconded by Mr. Richards: "Whereas, the freight rates charged by the railways connecting the maritime provinces with the rest of Canada are so high as to very seriously affect the commercial and industrial interests of the Maritime Provinces; therefore resolved that this Legislature is of the opinion that immediate action should be taken to secure the co-operation of the governments of Nova Scotia and Prince Edward Island with the object of securing united action to preserve and protect our interests." (a) By impressing upon the Government of Canada the importance of putting into effect at the earliest possible moment the recommendation of the special committee of the House of Commons on Railway Transportation costs in regard to a general reduction in freight rates.

BREAK IN WATER MAIN.

The water pressure was considerably reduced here the first of the week by a break in the water main at the corner of Victoria and Sagamore Streets which occurred on Monday. As a result many residences on the higher levels were without water during the day. Work on the break was commenced without delay and on Monday evening the broken portion was replaced by a new pipe. By Tuesday morning conditions were back to normal again.

Just Like Magic!

That's what you'll say when you hear it. With the simple turning of a dial the world's greatest orators and musicians perform—within ear-reach. Without leaving your home you can enjoy concerts and lectures that you could attend only in New York or other large cities. You can also get the latest world news before the newspapers have it. Our Radio Receiving Sets reproduce with a wonderful clearness and are easy to install and easily operated. We invite you to come and see one of these sets and have us explain it to you.

Our Baker Has Tested The Flour You Buy

EACH day's milling of Quaker Flour must prove its baking perfection before it leaves the Quaker Mills. It undergoes hourly tests during the milling process. It must then pass its most exacting critic—our Master Baker. From each day's milling he bakes bread. His loaves must be perfect in size, colour, texture and flavour. Use Quaker Flour and you will always be certain of success in baking. "The happy baker" uses Quaker.

DETROIT'S O.K. SUITS ARGENTINES

Buenos Aires Buys 32 Dodge Brothers Cars for City Work.

The city of Detroit's judgment on motor car values has a far reaching influence. Away down in Argentina, the city of Buenos Ayres has just bought a fleet of 32 Dodge Brothers motor cars. Dodge Brothers car was chosen, according to city officials, because Detroit has more than 100 of them in its municipal service, with an impressive record for dependability and economy. The sale was made by Julio Fevre Hijo & Co., Dodge Brothers dealer, in the face of keen competition. All the cars are for the use of the police department, which is rated as one of the most efficient in the world. In the fleet are 20 touring cars, five limousines and seven ambulances. There are approximately 100 cities which operate Dodge Brothers cars, three or more, and several others which have one or two in service. The average size of the Dodge Brothers fleet in 10 Los Angeles owns more than 100; Cleveland has 51; Newark, N. J., 23; Kansas City, 22. The city of Tokyo, Japan, uses 22 Dodge Brothers chassis in its fire department.

ONE TIMBER FIRE FOR EACH INDUSTRY

In Canada are located 5,000 wood using industries and it is an odd coincidence that the forest fires average one for each industry, or five thousand a year.

Here and There

Canada's export trade grew \$174,900,000 in the first eleven months of the fiscal year ending March 31st.

A recent and popular Canadian Pacific appointment is that of Mr. Walter Maughan to Steamship Passenger Manager. The appointment includes management of the company's passenger business on both the Atlantic and Pacific oceans.

Fire insurance companies found 1922 the most disastrous year for more than 20 years as a ratio of losses to premiums was 68.64 per cent. British companies suffered most adversely, their losses to premiums being 71.48 per cent, mainly due to the Northern Ontario fire.

A gold rush is in full swing and it is expected to bring about the development of more mining camps in the counties of Temiskaming and Abitibi. Gold was discovered on these two counties early in 1922. The rush of prospectors began in March of that year. In October, 250 claims were staked, comprising 50,000 acres of land, and it is estimated that 90,000 acres have been staked.

In the last fiscal year, Canada imported 1,363,000 pounds of butter from the United States and 2,254,000 pounds from Australia and 2,254,000 pounds from New Zealand. The total exports of Canadian butter were 8,430,000 pounds.

It is announced that the running schedule of the Trans-Canada Limited, which will operate between Montreal, Toronto and Vancouver, commencing May 20th, has been cut down one hour. Considering the steel equipment and luxurious appointments and its regular daily on time performance, this is the longest distance train in the world.

Bungalow camps, such as are operated in the Canadian Rockies, are to be built in the French River, Nipigon Bay and Lake of the Woods districts of Ontario by the Canadian Pacific Railway. The cost of construction and maintenance will enable the company to offer lower rates than standard hotels. The first three will be ready for occupation by July 1st.

According to a recent rearrangement of ports of call, the Orient, the Canadian Pacific Steamships Limited by omitting Manila as a port of call between Shanghai and Hong Kong, will bring the latter port four days nearer to Canada. This makes possible a through service from London, England, via Canadian Pacific Atlantic Express to Quebec and rail to Vancouver and Hong Kong under 28 days.

During the year 1922 the Canadian Pacific Railway handled a total of 8,435,825 pieces of baggage as compared with 8,782,874 for the previous year. Of this amount 5,175,203 pieces were passengers' baggage which compared with 5,486,465 for the previous twelve months. 9,697 bicycles were handled, 19,358 dogs travelled as baggage and 23,853 baby carriages were moved. There was also a considerable increase in the movement of milk. In 1922, the Company moved 1,633,707 cans as against 1,614,791 in 1921; and it is remarkable that most of this increase was in the three provinces, Manitoba, Saskatchewan and Alberta, which is an apparent indication of the further development of mixed farming in those provinces.

One of the best examples of a town "growing up over night" is that of Climax, the end of steel on the Canadian Pacific branch of the Canadian Pacific Railway. All that

February 19th, the day on which the site of the new town was finally settled, was a small bar. When the steel was laid in Climax on March 16th there was a restaurant, one grocery house, over a score of dwellings, two blacksmith's shops, a drug store, general furnished store, a big general store, pool room and barbers shop. The new town in Climax is four blocks long. It is a town in which nearly 100,000 barrels of grain were stored and a large shop. The new town is situated in the valley of the river, about 10 miles from the steel mill.

THE YEAR THERE WAS NO SUMMER

Winter was Mild Until Well on in April When the Change Came.

(St. John Globe).

There have been various newspaper references to the year 1816, spoken of as the year when there was no summer. Such references are attempted to give particular detail with conditions elsewhere. The St. John and New Brunswick conditions were very clearly set out in one of the contemporary issues of the Globe of February 27, 1904. In his reminiscences, Mr. Wayne says: "In the year 1816 there was a general blight throughout our province; there was frost in each month of the year. There are few if any people now living who can recall the phenomenal seasons of that year, but well substantiated statements have been handed down to us from notes and observations made at the time, and a few remarks may be appropriately added to our most unseasonable temperatures. "In the first place, there seemed to be no heat in the sun's rays, and the air appeared to be dead, the people were frightened and imagined that the sun's heat was declining, and that the world might come to an end. The ground was covered with a strange state of affairs, and 'cranks' taking advantage of the popular agitation, commenced to form new religions. The winter of 1816 was cold in Europe, but not unusually severe on this side of the Atlantic, and gave no indication of the strange conditions which soon prevailed. January was quite mild, so much so that people curtailed their fires, usual at this time, as their buildings became so warm that in February a change took place, and there was quite a severe spell of cold weather, but it did not last long. The first days of the month were similar to that experienced in the preceding month. March came in, as is sometimes the case with that month, like a lion and went out like a lamb. The curious phenomenon of the season was developed in April. The first days of the month were warm and genial, but towards the end of the month it became very cold, and ended in ice and snow. May was a great disappointment to those who looked for the opening of buds and the grass growing green as a prelude to summer. The buds came and the grass grew—and then a frost came which destroyed all vegetation, and ice formed by the ponds. June came in like winter months with snow and ice. Every green thing as it came up was blackened and destroyed, and snow fell to the depth of five or six inches. In July was more ice and a heavy frost, and vegetation, which had been commenced in a few favored places, was again cut down by the severity of the weather. Those who had hopes of a favorable change in August were grievously disappointed. The roads were covered with ice formed thicker than in the preceding months. All grain, crops and roots, such as potatoes, etc., were frozen, and from never receiving in England the same conditions prevailed there. September commenced bright and warm, and people began to hope that the worst was over, and for a fortnight the weather was mild and pleasant, but a change came and with it the weather was colder than ever, so much so that people got out their winter wraps to keep themselves warm—they almost despaired of ever seeing the sun again. During October the same conditions prevailed, the thermometer never going above 30 degrees. November was the same; sleighing began early and cold continued. But, strange to say, December was the mildest month of the year, and people began to think that the season had changed. All breadstuffs went up in price beyond the means of the majority of people, and the ordinary vegetables were unobtainable. Flour was as high as four and five dollars a bag and wheat in England was 97 shillings per quarter. And so ended the year which in common parlance was long afterwards termed "eighteen hundred and frozen death."

Dawsonville

School opened again after the Easter holidays. Mr. George K. Thomas, Robinsonville, spent Sunday with friends here. Mr. Alex. Thompson of Little Sydney, who is employed as a foreman on the I. N. R., spent Sunday at his home.

Mr. and Mrs. Nichol Thompson of Little Sydney were the guests of Mrs. John Martin. Mr. Charles Bain of Glen Leith and Mrs. Alex. Thompson were the guests of their mother Mrs. John Martin on Wednesday.

Mr. Dick Cleveland of Robinsonville, Mrs. Thomas Dimock, Mr. William Hennigar, Mr. James and Aetia Main spent a pleasant evening at Mrs. James Hennigar's.

Friends will be glad to hear that Mr. Alex. Thompson is well again after a severe attack of the grippe.

Mr. Hugh Smith of Glen Leith passed through here after spending a day with friends at Pleasant Point, N. B.

Miss Jennina Hennigar of Bathurst is spending a few days with her mother Mrs. James Hennigar.

Wyers Brook

The weather still remains cold and rough.

Mr. Albert Robertson of Robinsonville passed through here on Monday enroute to Deo Side.

Mr. Barten Ferguson was visiting friends here on Thursday evening.

Miss Clara March of Matapedia West is the guest of her sister Mrs. John Mann.

Tide Head

The many friends of T. D. Adams are sorry to hear of his illness.

Mr. James Fitzgerald spent the week-end at his home here.

Miss Ivah Gillis spent her Easter vacation with her parents Mr. and Mrs. H. C. Gillis.

Messrs. Howard Mann, Fred Mann, and James Alford attended the party at the home of Mr. and Mrs. John Mann, Mann's Mt. on Monday evening.

Mr. Maynard Price spent Sunday as a flying visit to this place on Sunday evening.

Mrs. Durcan Myles is spending a few weeks at Runnymede.

Mr. N. B. McDavall of Flat Lands was the guest of Mr. J. Cooling on Thursday.

Mr. Alton Price of Campbellton, made a flying visit to this place on Sunday evening.

Mr. Willard MacDougall was the guest of his sister Mrs. J. C. Under-

Mr. Murray Fraser on more occasions was the guest of his sister Mrs. James Fitzgerald on Sunday.

Miss Kathleen Murray spent the week-end here the guest of Miss Velma Fitzgerald.

Miss Jeph Cooling, Jr. spent Monday evening at the home of Mr. and Mrs. Bevin Polly, Campbellton spent the week-end here the guest of Mr. and Mrs. Murray Deason.

Miss Len MacDougall was the guest of her sister Mrs. J. C. Underhill Sunday last.

Mr. Dave Wyse

Mr. W. Mann was in town on Sunday on business.

Mr. Walter Engelhart of Runnymede, passed through here Friday night enroute to Deo Side.

Mrs. Fred Wyse returned to her home in Campbellton after spending a week here with friends.

OBITUARY

Mr. Hugh Chalmers On Sunday, March 11th the death took place at Bellefleur of one of its widely known residents, Mr. Hugh Chalmers. Mr. Chalmers who was seventy-four years of age, was unmarried, and is the last member of his family. The funeral took place on the 18th from the residence of his nephew, Mr. Thomas Loane, with whom the deceased had resided. Rev. A. D. Archibald officiating. The pall-bearers were Messrs. Harold Chalmers, George Chalmers, Fabien Poirer, and William Craig. The deceased was for many years an elder of the Presbyterian Church and had many friends throughout the county who will regret to learn of his death.

Speaking before a convention of foresters, Prof. Stephen Leacock of McGill University pleaded for the adoption of a scientific system both of preservation and extension of Canada's forest heritage. The human race, he said, for a hundred years has been living on its capital. In the midst of wealth it has grown poorer. It is now beginning to find the limits of its hoarded power over nature in the exhaustion of nature itself. The adoption of a proper policy of conservation needs the stimulation of public opinion.

The Laurentide Company Limited of Grand Mere, P. Q. has about 20,000,000 white spruce seedlings and transplants in their nursery.

Mr. Barten Ferguson was visiting friends here on Thursday evening.

Miss Clara March of Matapedia West is the guest of her sister Mrs. John Mann.

OF INTEREST TO WOMEN

Restaurant Patrons

The fact that two in company and three in a crowd seems to be true in a restaurant than anywhere else, according to a man who has spent the latter part of his life in the restaurant and tea-room business.

"It is very seldom," he said, "that you see a party of three. Couples are the parties of four or more are plentiful."

"But we have so little left for ourselves," he said, "that we usually sit at the table with the waiter. It is an extra chair can be put in if needed. Occasionally three men come in together for lunch. But it is one of the ways he chooses. A single man will pay his bill nine times out of ten it will be either a party of two or one of two or more couples.

"You will find that all the couples want to sit along the wall or in secluded corners, so we have put all our 'new' tables there. Parties of four rather like to sit out in the centre of the room, for what reason I have never been quite able to figure out, unless it is that the women in the party want to get a good view of the whole dining room.

"In a party of four I can usually tell which of the men will pay the bill. It is the man with the prettiest woman generally. He is usually the one who comes in together for lunch. But it is one of the ways he chooses. A single man will pay his bill nine times out of ten it will be either a party of two or one of two or more couples.

THESE FRENCH SUFFRAGE LEADERS ARE COMING TO LECTURE IN U.S.

Two of the outstanding women leaders of the French suffrage movement are coming to America shortly. Miss Aurel, well known novelist and one of the most ardent patrons of the French feminist movement, will lecture in some of the larger cities on French women. Miss Marie Verone, leader woman lawyer, will attend the conference of the League of Women Voters at Des Moines next month.

Are You Planning to Buy New Tools For Your Kitchen

Did you ever try buying one kitchen utensil a month, instead of getting one whenever you chanced to be in the household department of your favorite shop? Try it. If your kitchen things are beginning to be old and shabby and you have not quite all that you need.

Sometimes, housekeepers go on for months without some utensil that really would save time and work, because they think they cannot afford it. Any other expert workman would buy a needed tool if he had to sacrifice a meal to do so. But we have all seen housewives who have used coffee-pots with holes or broken covers and broken handles at the constant risk of burning themselves, just because the pot itself was still intact. This is mistaken economy.

With this new plan of buying, you decide what is needed to put your kitchen on an efficient working basis. You begin by buying the most important article first, then one a month until your workshop is complete.

It is difficult to generalize and tell just what each kitchen should contain, as the needs of each family are different. This must not be possible, yet it is true. For instance, where there are children, at least two double-boilers are needed, while in a small family, where there are no children, one will probably be quite sufficient.

Again, closet room must be considered. In a house there is probably sufficient, but in an apartment, closet space is likely to be at a premium.

In a good-sized family, a ham boiler is a great convenience, not only for hams, but Christmas puddings, mince-meat and other bulky things. In summer preserves are made in it by placing a wooden rack on the bottom on which to stand the jars.

Another month, a good casseroles-dish may be bought. It will more than pay for itself in the economical dishes that can be cooked in it. People often speak of a casseroles-dish as something unusual and rather out of the ordinary. It is really in the economy class, for many a tough chicken or piece of meat is rendered soft and palatable by the use of a casseroles-dish. The glazed casseroles may be served right on the table. Pottery casseroles should be covered with a napkin.

There is in almost every household need for a fish-boiler—a big one, perhaps, but one that will cook a five or six-pound fish without breaking it. This convenient utensil also has other uses. It may be used to boil vegetables in. If a dinner must be kept hot, it will hold three or four saucapots with a little boiling water in the bottom.

An asparagus-kettle is useful. It also makes a good kettle in which to boil cabbage, cauliflower or artichokes. As it is rectangular, it does not interfere with pot cooking over the other gas-holes. The inset tray or strainer can be removed when other things are cooked in the pot.

An English preserve-kettle is not an everyday utensil, but it is invaluable in preserving and pickling. It is of iron with a heavy porcelain lining and a wide handle. Things will well in the kettle, and with a little care it lasts a long time. Perhaps the outlay is more than seems warranted, yet it is worth every cent of its cost when you do need it.

A good stock-pot is a necessity or should be one in every home. A pot of good quality is the only kitchen article that is used every day. One of the very best enamel-ware is in need for all-around use. This method is the best for acquiring the good utensils you need without feeling the outlay.

A married man, trained to watch the pennies, will add his up every time.

"A bachelor will tip the waiter in proportion to his liking for his girl companion. In a married man, the portion to his enjoyment of the meal, and then usually only after he sees his wife first what she thinks would be about right. A man alone, whether single or married, usually leaves more liberal tips than a woman alone.

"About our regular type of customers is the two women friends who come in in the afternoon to tea. They have a pot of tea between them, some toast and a large pot of hot water. By adding hot water to the tea now and then to stay in the pot too long they can string that meal out the whole afternoon. True, they are not much troubled, but all our customers at the table and as long we would never make any money.

"Our best customer, is the man staying downtown for dinner. Usually he has steak or some other of his favorite dishes, and is liberal with both his ordering and his tips.

"The type of customer we have changes considerably from the early morning workmen eager to get to their jobs to the leisurely fur-coated women and their swallows, full of coffee who come in for the theatre supper."

GOT SO WEAK SHE FELL IN TRACKS

Toronto Lady Says Stomach Freezing Cannot Give Tanlac Full Credit for Recovery

"I don't believe I'd be alive today to tell of my recovery if I hadn't taken the Tanlac treatment when I did. I feel so thankful that if I could I would go from house to house and tell everybody about this wonderful medicine. This is the grateful statement made the other day by Mrs. J. Josephine Braithwaite, 18 Bright St., Toronto, Ont.

Seven years ago my health began to decline, and to think that I had only taken Tanlac then what world of suffering would have been mine. Broth and toast was about all that I dared eat, gas and pains in my stomach after a meal nearly set me wild, and I would scream with agony. I grew thin, as a rail and at times became so weak and dizzy I actually fell in the street.

"But since taking Tanlac I now enjoy splendid health. My appetite is wonderful, I haven't a sign of my old troubles, and have gained twenty pounds. Tanlac has been an unalloyed blessing to me, and I will always praise it to the skies.

Tanlac is for sale by all good druggists. Accept no substitute. Over 35-million bottles sold.

COMMERCIAL FERTILIZERS Statement of Analysis Should be Carefully Studied by Purchaser

Now is the time of the year when the nature and composition of the fertilizers that are likely to be used for next season's crops should be well studied. It is particularly important for the farmer to study the composition of the fertilizers that are offered for sale as such in Canada. A statement of analysis should be carefully studied by the purchaser. The plan and scope of the bulletin have been suggested by the Dominion Department of Agriculture, Ottawa. The plan and scope of the bulletin have been suggested by the Dominion Department of Agriculture, Ottawa. The plan and scope of the bulletin have been suggested by the Dominion Department of Agriculture, Ottawa.

THE CONSTRUCTION OF THE HOTBED

(Experimental Farms Note.)

Many of our most popular vegetables such as tomatoes, egg-plants, peppers, celery, and of our best sweet corn, are of southern origin and require a longer growing season than this climate permits. By starting such plants in the hotbed from six to eight weeks earlier than it is safe to plant out-doors, and later transplanting to the open, the required growing season may be obtained. Furthermore, by the use of the hotbed such vegetables as radish, lettuce, cabbage and cauliflower may be started early and thus reach development much sooner than if the seed were sown in the open.

The only really satisfactory location for a hotbed is one with a southern exposure, protected from north and west winds, and with a minimum amount of sunlight. It may be made either above or below ground, more manure, the latter more labor to construct. If above ground, the bed should be situated where there is no danger of water standing at any time; if below, the situation should be such that the water will drain off, or drainage should be provided. With this latter type, the soil should be retained in a depth of about eight inches and the cavity should be at least two feet wide and longer than the frame to be used. This operation should be done before the previous autumn, as it is often quite practical to start a hotbed before the frost is out of the ground to a depth of 18 inches. With the above-ground type, a site merely requires leveling, which may

RED ROSE TEA is one of the first package Teas sold in the Maritime Provinces— for 28 years it has been the foremost.

RED ROSE TEA "is good tea"

RED ROSE COFFEE is as generously good as RED ROSE TEA.

done in the spring as well as at any time.

The frame may be made of inch and a half or two inch lumber. The most convenient size is six feet wide and of the required length to use one or more sash three feet wide. It should be from ten to twelve inches high at the front, and, if six feet wide, sixteen to eighteen at the back. This slope allows rain water to run off easily, and, as the hotbed should face south, a greater degree of sunlight is obtained than if the top were level. The sash must fit snugly and the frames be so constructed that they can be raised or lowered as ventilation is needed.

Fresh horse manure, as free from straw as possible, is the only satisfactory kind for a hotbed, and that from grain fed animals is preferable. For a bed six feet square, one and a half to two tons is required. It should be secured and piled near the front or more before it is to be used, and turned as soon as it begins to heat, thus ensuring even heating and uniform texture. Four or five days after turning, the manure should be evenly heated and ready for the hotbed.

The bed of manure should be at least one foot wider every way than the frame to be placed upon it. It is laid down evenly in layers about six inches deep and each layer thoroughly tramped. The depth of manure required depends upon when the hotbed is made. If made early, two or two and a half feet are necessary, but if made during the latter part of March, one foot will be found sufficient. After manure has been placed to the proper depth the frame should be put on and more manure hanked around the outside of it to the top and at least one foot wide. The lights should now be placed on the frame and carefully closed so that the heat will be retained and the bed thus brought to a high temperature as soon as possible. After about two days the sash should be removed and the manure tramped thoroughly and watered if necessary. The hotbed is now ready for the soil. This should be of good fertility and of such a texture that it will not bake. If seed is to be sown directly in the hotbed, five or six inches of soil will be required, but if seed flats are to be used, two inches will be sufficient. No seed should be sown until the temperature in the hotbed has fallen to between eighty and ninety degrees Fahrenheit. After sowing, the temperature must be carefully observed, and if it gets too high the lights should be raised to provide ventilation. When the plants appear the frame should be kept aired sufficiently to prevent weak spindly growth, although the plants must not get chilled or be frozen. Water should be applied carefully, as too much will make for damping-off conditions. The soil, however, should be kept damp and this together with sufficient air, light, and proper heat will promote satisfactory growth.

"My Boy was Starving to Death" "As He Was Getting No Nourishment He Was Gradually Wasting Away."

"Here's a story which will interest every mother. Before my boy was born, I was in such delicate health that the doctor didn't think I could survive the ordeal. For weeks after she was leading by the hand, I never saw such a change in any child. It was fat and rosy and full of life with a happy smile! 'What on earth have you done to him,' I said. 'Why,' she replied, 'I simply made him live out of doors, gave him good food—and that was the real secret, gave him food. He wasn't naturally strong, but he was taken in choosing his food and his poor little stomach became so weakened that he couldn't keep anything on it. As he was getting no nourishment from his food, he was gradually wasting away. Finally, in desperation, we sent for a child specialist and he said that my boy was starving to death. He gave him some medicine and advised a certain diet. The child did improve, but somehow couldn't seem to get strong. This went on for four or five years and the boy still continued weak and puny looking. He couldn't play like other children without having to lie down and rest. My sister who lives on a farm near the sea, said she could fix him up if I would send him to her. While I hated being separated from him, I was ready to make any sacrifice to get him strong. He was away from me for three months and it was with feelings of great excitement that I awaited his return as my sister had written me that I would be surprised to find I saw my boy. When my sister got off the train, I could not believe that it was my own boy that she was leading by the hand. I never saw such a change in any child. It was fat and rosy and full of life with a happy smile! 'What on earth have you done to him,' I said. 'Why,' she replied, 'I simply made him live out of doors, gave him good food—and that was the real secret, gave him food. My sister who lives on a farm near the sea, said she could fix him up if I would send him to her. While I hated being separated from him, I was ready to make any sacrifice to get him strong. He was away from me for three months and it was with feelings of great excitement that I awaited his return as my sister had written me that I would be surprised to find I saw my boy. When my sister got off the train, I could not believe that it was my own boy that she was leading by the hand. I never saw such a change in any child. It was fat and rosy and full of life with a happy smile! 'What on earth have you done to him,' I said. 'Why,' she replied, 'I simply made him live out of doors, gave him good food—and that was the real secret, gave him food. He wasn't naturally strong, but he was taken in choosing his food and his poor little stomach became so weakened that he couldn't keep anything on it. As he was getting no nourishment from his food, he was gradually wasting away. Finally, in desperation, we sent for a child specialist and he said that my boy was starving to death. He gave him some medicine and advised a certain diet. The child did improve, but somehow couldn't seem to get strong. This went on for four or five years and the boy still continued weak and puny looking. He couldn't play like other children without having to lie down and rest. My sister who lives on a farm near the sea, said she could fix him up if I would send him to her. While I hated being separated from him, I was ready to make any sacrifice to get him strong. - Poetry with Death or Memorial Notices, 10c per line extra.
- General mercantile display rates on application.

Campbellton, N. B., April 5th, 1923.

VOCATIONAL TRAINING

What about vocational training? Is Campbellton to take advantage of this important branch of education or not? If the former is the case then steps ought to be taken without any unnecessary delay. As explained by the town solicitor the initial move is for the town council to pass the resolution called for under the Act re Compulsory Education.

There are many reasons why vocational training should be embraced in the programme of our school work. To deal adequately with the subject would require a very lengthy article but it is possible, even in limited space, to set down some important facts which argue strongly in its favor and which, too often, are not given due consideration.

It is estimated that sixty-four per cent of the boys and girls in the United States leave school before they reach the eighth grade. A similarly large per centage applies to this matter in our Canadian schools. Some of these, of course, are obliged to leave and seek work because of economic conditions, but the great majority of them leave because they are tired of school and because they do not feel that the instruction they are receiving is essential to success in the particular line of work they intend to follow. Some of these students want to go to the farm, others to the shop, others wish to enter the commercial world and others want to be home-lubbers. And it has never been possible, until recently, and as yet only to a limited degree, for the boy who wants to do anything except to be a professional man, to secure at school a technical education for the vocation which he has selected as his life work.

This is where vocational training solves a big problem.

With the opportunities it offers at the hands of the world's best teachers and decide early in life just what particular line he or she wishes to follow. Having once decided this question the student is enabled through the advantage of vocational training to secure the necessary instruction in that line at a very nominal cost. In the first place the variety of practical subjects covered by vocational training is a strong argument in its favor in both town and country alike. Regardless of whether the boy wishes to become a farmer, a business man, a carpenter or a mechanic he may acquire an extensive knowledge of his chosen calling and if a girl wishes to take up dressmaking, millinery or gastronomy in preference to teaching or arts she has the same advantages to become familiar with any of these vocations through vocational training.

The economic advantages of vocational classes is also another important matter. A great number of boys and girls, although ambitious and studious cannot afford to secure the technical knowledge they need to fit them for some trade or profession. Vocational training included according to plan in the routine of school work solves this difficulty most admirably. And the cost to the community where such classes are adopted is almost inconsiderable. The very small investment which the town would be called upon to make is not to be compared with the potential benefits which may be derived from the undertaking.

The town council should take up this matter without delay or at least give citizens an opportunity to voice their opinion.

GOOD ADVICE

Hon. C. W. Robinson declared in the House yesterday, that New Brunswick would enjoy greater prosperity if the people with capital to invest would stop chasing rainbows and devote their energies to the establishment of industries, based on the natural resources of the province. A lot of rainbow chasers were stung on I. L. Steel stock and a goodly number have lost money in other wild cat schemes. They seem to forget that New Brunswick is one of the best provinces in the Dominion and offers just as good opportunities for the investment of capital as can be found anywhere—Fredericton Mail.

WHIST PARTY AT THE CLUB

A very enjoyable whist party was held on Thursday evening, under the auspices of the Dalhousie Social Club, in the spacious club rooms here. About one hundred guests attended the affair. At midnight, dainty refreshments were served by the ladies of the Soldiers' Memorial Hospital Aid. The presentation of prizes was made by Hon. Charles H. LaBillette, an old member of the Club. Speaking on behalf of the club members, Mr. LaBillette thanked all those who had so generously patronized the affair. Those who were fortunate enough to win prizes were the following: Mr. Clarence Robinson, 1st gent's prize; Mr. G. S. Grimmett, 2nd gent's prize; Master Lawrence Cook, 3rd gent's prize. Miss Gertrude Barberie, first ladies' prize;

Mrs. Alex. Wallace, 2nd ladies' prize; Miss Marvel Sullivan, 3rd ladies' prize.

The first prize for ladies, a box of chocolates, was donated by Mr. S. L. Clifford, Mr. J. E. Dean donated ladies' second and gent's second prizes. Mr. J. B. McKay donated a fancy prize to the first prize. Ladies' third prize and gent's third prize, were donated by Mr. E. J. Breau.

A most enjoyable time was spent by all those present.

GOOD THINGS COMING TO THE OPERA HOUSE

NEW SPORTING SERIES COMING NEXT MONDAY

The LEATHER PUSHERS starring REGINALD DENNY Universal Jewel Collectors' Series

People who like red-blooded sport and enjoyed greatly the first series of "Leather Pushers" stories at the Opera House will be glad to know that the stories are to be continued next week with a brand-new series of six detached and separate yarns. They are all peppy and filled with sporting parlance and flippant battles. "Young King Cole" the first number will be presented next Monday and Tuesday.

Nouvelle

Mr. James P. F. of this place registered at the Florence Hotel, Campbellton, on the 10th. He was a guest of friends in Cross Point on the 11th inst.

Mr. Louis Bois of Nouvelle who was for some time absent has just revisited the family of his late brother, Pascal Bois.

Miss Floris Calvert was the guest of friends in Campbellton on Wednesday.

Rev. Father St. Lawrence P. P. of the Rev. Fathers of Restigouche on Tuesday.

Mr. Robert Kerr who for the past month was employed in Edmundston, N. B., was the guest of his sister, Mrs. Walter Wood last week. He returned through Campbellton on the 11th enroute to Edmundston.

Mr. Albert Fallu of New Richmond was the guest of friends in Nouvelle on Monday and Tuesday.

The many friends of Mr. R. W. Kerr who for the past month was an inmate of the Hotel Dieu Hospital, were glad to see him return to his home apparently in better health.

Mr. Omer LeBlanc was the guest of his brother, Philip of Campbellton on Tuesday.

Mr. Joseph Gauthier paid a flying visit to Campbellton on Tuesday.

Mr. S. Beckingham and A. Chisholm of Dalhousie, N. B., were the guests of Mr. James Calvert on Sunday.

Mr. Freddie Savoie was the guest of Mr. W. Wood on Sunday.

Mr. J. Francoeur was a visitor to Campbellton this week.

PERSONAL ITEMS

If you have a friend visiting you, phone the fact to the Graphic for its personal column. We would like to mention every visitor to our town. April 3-4.

Mrs. Alex. Wallace, 2nd ladies' prize; Miss Marvel Sullivan, 3rd ladies' prize.

The first prize for ladies, a box of chocolates, was donated by Mr. S. L. Clifford, Mr. J. E. Dean donated ladies' second and gent's second prizes. Mr. J. B. McKay donated a fancy prize to the first prize. Ladies' third prize and gent's third prize, were donated by Mr. E. J. Breau.

A most enjoyable time was spent by all those present.

The LEATHER PUSHERS starring REGINALD DENNY Universal Jewel Collectors' Series

FISH MEN GO TO DEER ISLAND

14 Members of "Trust" Begin Sentences—Omit Charles St. Jail

The recent sentencing to prison term of varied length of fourteen wealthy and prominent New York business men who were members of a "fish trust" there, has caused some excitement in different parts of Restigouche. The names of one or two of these defrauders sound vaguely familiar to people in New Mills where a "Fish Company" of a somewhat ambiguous nature was partly established a few years ago. It is not definitely known whether the "fish men" recently sentenced had any connection with this enterprise but conjecture and supposition are rampant in that vicinity.

New York—Fourteen members of the so-called "fish trust" were taken to Deer Island today to begin sentences ranging from five to ten months at hard labor in addition to fines from \$50 to \$1000 each in amount.

They spent their first night after sentence in the Charles street jail, as the last boat had left for the island before the proceedings in the superior court were concluded.

Striking Contrast. Guarded from publicity by a deputy sheriff and a jail attendant, eight of the men left in the first vanload from the Charles street jail today.

Deputy Charles A. Heints stood between the men and the newspaper photographers. Each of the men ran from the jail to the waiting van with his overcoat pulled well up to hide his face.

The eight of the fourteen sentenced who left in the first van were F. Munroe Dyer, Alvin G. Barker, Winfield S. Kendrick, Joseph A. Rich, Joseph Paine, Ernest A. James, Jr., Albert E. Watts and Lewis B. Goodspeed.

The same vanload left in the second vanload of the fish men marked the guards. In the second load to leave the jail were Herbert F. Phillips, Fred G. Phillips, William E. Curran, John Burns, Jr., Willard R. Cox and Ephraim N. Cook.

At the pier today they were not put into the regular detention rooms with the other prisoners, but space was reserved for them in the women's detention room.

An Italian woman, accompanied by her daughter, appeared at the pier to speak to her son who was to go to the island. She was allowed to enter. The son caught sight of her, cried out: "am going to Deer Island," and was immediately pushed into the detention room for men. His mother went away crying.

Friends Say Farewell. Several friends of the "fish trust" men came down to see them off, and were allowed to enter the detention room and bid them farewell.

The grim severity of prison walls which surrounded them was in striking contrast to the luxury of the homes which many of the convicted men have hitherto occupied.

Several of these men are known to be very wealthy, and to possess stock holdings in successful business enterprises apart from the fish business in which they were found guilty of creating a monopoly to increase the price of fish.

They did not have to eat prison fare, but sent out for their meals. Their breakfast consisted of fruit and cereals, which they ate with little relish after a night of fitful sleep.

They appeared gloomy and depressed by their experience and had little to say. They did not have to partake of prison food until they begin their sentences at the house of correction. Their status at the jail was that of men detained for safe keeping.

After dinner they were taken in the county prison van to Eastern avenue wharf to board the steamer for the trip down the harbor.

P. H. Brennan, one of the attendants in charge of the prisoners, grew irate when the photographers tried to snap pictures of the men at the wharf and ordered them to leave if they could not show passes. The photographers declared that, while they were compelled to show passes to go on board the boat, no passes were given for a public landing. They light work. Usual work for prisoners serving short sentences is on the

As with all other prisoners, their farm or pigery.

The longer shipments will be served by the former officers of the Bay State Fishing Company, designated as the "trust." These are F. Munroe Dyer, president of the company; Joshua A. Paine, Ernest A. James, Jr., and John Burns, Jr., who were given ten months.

The five months' sentences were imposed upon Willard R. Cox, Albert E. Watts, Ephraim N. Cook, Winfield S. Kendrick, Robert F. Phillips, Fred G. Phillips, William E. Curran, Alvin G. Baker and Louis B. Goodspeed.

The case of one of the fifteen is yet to be disposed of. He is William F. McKoon, whose counsel said he was so ill that the execution of the sentence in his case might have serious results.

LOCAL ITEMS OF INTEREST

Newspapers of Town and Country Gathered by Graphic Reporter

COMING APRIL 13TH. Mrs. H. A. Foster Smith will give her catalogue here on Friday evening, April 13th. Full particulars later.

PALMISTINE SUNDAY CONCERT. At a concert held at the residence of Mrs. W. Gillman on Palmistine Sunday, April 22nd, by Master Harry Gillman and Zeldia Hollingsworth, a very satisfactory sum of money was realized for the interests of the Jewish Passover week.

IMPROVED CONDITIONS. Sunday's rain and the weather which has made some improvement in the water conditions. These waters running into the town reservoir and it is hoped that the electric pump at Walker Brook will not be needed after a week.

BOVERS AND RAMBLERS TIE. The Bovers and "Rabbit Town" Ramblers are still at it. Another match was played on Saturday night and the Ramblers furnished further proof of their steady improvement by their heavier opponents by a score of 1 to 1. The game was closely contested and doubtless one of the liveliest matches in junior hockey here this season. W. Cyr returned the game to the satisfaction of both squads.

BISHOP RICHARDSON INJURED. His Lordship Bishop Richardson, who fell while returning from the evening service at Christ Church Cathedral, on Sunday evening, was reported as resting as comfortably as could be expected. An X-ray examination of his hip did not reveal clearly the extent of his Lordship's injury and the plate has been sent to St. John for further investigation. It is feared the hip has been fractured, and if such is the case, His Lordship will be confined to his home for at least two months, it was said.

SLIGHT FIRE LAST WEEK. Slight damage was caused by fire which broke out in a residence on Duncan Street last Thursday evening at 8:45. The loss, however, is fully covered by insurance, there being \$1000 on the building and \$1500 on the furniture. The fire brigade responded to the call with their usual promptness and were successful in confining the blaze to an upstairs apartment where it had originated from an over-heated stove pipe which had set fire to a couch there. The building is owned by Mrs. F. A. Macdonald and occupied by Mr. Frank Asprey.

THE SEASON'S LATH RECORD. What appears to be the record in lath cutting in this vicinity this season comes to us from the W. H. Miller Co's mill at Felix's Gulch. On the last day of the operation, this season, this mill which is run by Frank Robb cut 97 thousand No. 1 laths in 24 hours. The run was cut short at the juncture owing to the fact that all available lumber was used. The sawyers were Ed. Robb, Bliss Carter, Fred White and Am. Savoy. The lath machine used was one manufactured by the McAnnans Foundry & Machine Works here. So far as is known this is the highest record made this season in one shift.

Newspaper Notes of Town and Country Happenings Gathered by Graphic Reporters

COMING APRIL 27TH.
Mrs. E. A. Weston Smith will give her travelling show on Friday evening, April 27th. Full particulars later.

PALESTINE SUNDAY CONCERT.
At a concert held at the residence of Mr. W. Gillman on Palestine Sunday, April 22nd, by Master Harry Gillman and Zella Hildengrove, a very satisfactory sum of money was realized in the interests of the Jewish Passover week.

IMPROVED CONDITIONS.
Sunday's rain and the warmer weather has made some improvement in the water conditions. Mass water is running into the town reservoir and it is hoped that the electric pump at Water Brook will not be needed any longer.

BOYS AND RABBITERS TIE.
The Hovers and "Rabbit Town" Rabblers are still at it. Another match was staged on Saturday night and the Rabblers furnished further proof of their steady improvement by tying their heavier opponents by a score of 1 to 1. The game was closely contested and doubtless one of the finest matches in junior hockey have this season. W. Cyr refereed the game to the satisfaction of both sides.

BISHOP RICHARDSON INJURED.
His Lordship Bishop Richardson, who fell while returning from the evening service at Christ Church Cathedral, on Sunday evening, was reported as feeling as comfortably as could be expected. An X-ray examination of his hip did not reveal clearly the extent of his Lordship's injury, and the plate has been sent to St. John's for their investigation. It is feared the hip has been fractured, and if such is the case, His Lordship will be confined to his home for at least two months, it was said.

SLIGHT FIRE LAST WEEK.
Slight damage was caused by fire which broke out in a residence on Dumont Street last Thursday evening at 8:45. The loss, however, is fully covered by insurance, there being \$1000 on the building and \$1500 on the furniture. The fire brigade responded to the call with their usual promptness and were successful in confining the blaze to an upstairs room where it had originated from an overturned stove pipe which had set fire to a couch there. The building is owned by Mrs. P. A. Macdonald and occupied by Mr. Frank Asprey.

THE SEASON'S LATEST RECORD.
What appears to be the record in lath pulling in this vicinity this season comes to us from the W. H. Miller Co's mill at Pelic's Gulch. On the last day of the operations this season, this mill which is run by Frank Robb cut 97 thousand No. 1 laths in 2 1/2 hours. The run was cut short at the juncture owing to the fact that all available lumber was used. The sawyers were Ed. Robb, Bliss Carter, Fred White and Ami Savoy. The lath machine used was one manufactured by the McLennan Foundry & Machine Works here. So far as is known this is the highest record made this season in one shift.

Watch for particulars about Gay Pares. Full line will be here shortly. JIM MOORES DRUG STORE.

C. N. S. CHANGES.
Monday, N. B. April 16—H. V. Macgraves, C. N. S. assistant superintendent at Campbellton has been transferred to Halifax, and J. D. MacNutt, assistant superintendent at that port goes to Campbellton.

SPRING BUSINESS.
Have you a plentiful supply of office stationery for the spring rush. If not phone the Graphic and our representative will call upon you. Samples and prices will be sent upon request. April 8th.

WE WANT THEM ALL.
Despite the fact that the Graphic has a reporter always on the move, items of news escape our notice. If you know of anything interesting just word over the phone will start our reporter after full details. April 8th.

PUBLIC MEETING.
A public meeting under the auspices of the Red Cross Committee will be held in the new Town Hall on Monday, April 16th, at 8 p.m. Mayor MacKay in the chair. Miss Mabel John, director of public health nursing will give an address on public health work in the province. Lantern slides will be shown.

OPERATION POSTPONED.
Owing to the illness of Father Albert Politer his ordination into the priesthood has been postponed from the date previously announced until Sunday, April 22nd. The many friends who regret to learn of this misfortune wish him a speedy recovery.

ALWAYS IN VOGUE.
Why labor with homemade dresses that are often—inspite of your care—incongruous with your man. Good dress is suitable to any occasion—and Gray's Velvet Ice Cream is always in vogue. In bricks or in bulk, delivered to any part of the town GRAY'S WHOLESALE, Water St.

LOCAL ORGANIZATIONS.
HOLD MEETINGS.
The April meeting of the Soldiers' Memorial Hospital Aid was held at the home of Mrs. S. L. T. Clifford on Tuesday evening. Delicious refreshments were served after the business had been concluded.

BRITANNIA'S HONOR.
Thank heaven for Old England! In gold and blood and energy she put most into the war. And now when it is all over, and the time of reckoning has come, she alone steps up to the world's center and promptly pays her shot.

140,000 BOYS TO HELP FIRE RANGERS.
One hundred and forty thousand Canadian boys have been organized by the Canadian Forestry Association into a young Canadian Forestry League and will be on the alert this year to prevent forest fires in all parts of the Dominion. Badges and detailed instructions are being supplied and the entire body will act as an auxiliary force to the fire rangers when occasion offers.

News Notes of Town and Country Happenings Gathered by Graphic Reporters.

PROFESSIONAL
Dr. A. Pierce Crockett, eye, ear, nose and throat specialist will be at the St. Louis Hotel, Campbellton, Friday, April 13th, where he may be consulted professionally.

MEMORIAM
In loving memory of our daughter and sister, Mrs. Sadie Hachey who died on the 9th of April, 1922. One precious to our heart has gone, a voice we loved is still.

THIS YEAR AND LAST
The ice ran out of the Restigouche River last year on April 14th. The general opinion is that, owing to the severe winter and the tardy advent of spring, nature's winter bridge will not move out to sea before the end of the month this year, thus being over two weeks behind 1922.

DIED IN MONCTON
Thomas J. Gallagher died at his home in Moncton on Thursday, aged fifty-one years. The deceased had been working in St. John as a insurance agent and went to his home about a week ago. He was a son of Patrick Gallagher, former proprietor of the Minto Hotel in Moncton. A widow, one son and two sisters survive. Mrs. R. H. McGrath of this city is a sister.

WIDOW WILL CARRY ON WORK
Luzon, April 7.—Lady Camarvon, widow of the discoverer of Tutankhamen's tomb, will continue the excavations halted by the death of her husband. Howard Carter, famous Egyptologist, remains as the active head of the expedition.

A NECESSITY
When a merchant talks about "affording" advertising he is getting ready for the live merchant to take his trade away from him. People do not "afford" advertising any more than a man who needs a suit of clothes "affords" them. It is not a question of "affording" advertising, it is a vital necessity.

HARDSHIPS IN LUMBER CAMPS
Quebec, April 7.—Serious hardships are being experienced in lumber camps along the North Shore as a result of the delay of one month in the arrival of spring food supplies. Men are now on short rations. A record cut is also reported in the district.

CHRIST CHURCH, ANGLICAN
A. BROCK HUMPHREYS, Rector. First Sunday in the month, Holy Communion, 11 a.m. Third Sunday in the month, Holy Communion, 8 a.m. Matins and Litany at 11 a.m. Second, fourth and fifth Sunday in the month, Matins at 11 a.m. Every Sunday Evensong at 7 p.m. Sunday School at 9:30 a.m. Men's Bible Class at 9:30 p.m.

OBITUARY

Mrs. Felix Columbe
In the death of Mrs. Felix Columbe which occurred on the 30th day of March 1923, Glen Levt loses one of its oldest and most highly respected residents.
The deceased lady was 98 years of age and was one of the first settlers of Glen Levt. N. B. Up to a few days before her death she was able to attend to her household duties, and her memory was wonderfully retentive considering her advanced age.
She leaves to mourn her loss two sons, Mr. Peter Columbe with whom she lived in the old home and John living in Toronto, Ont., and five daughters: Mrs. Joseph Boudreau, Glen Levt, N. B.; Mrs. Thomas Felix, Dawsonville, N. B.; Mrs. Larry Martin, Matapedia, N. B.; Mrs. Christopher Kierstead, Los Angeles, Cal., U.S.; and Mrs. John Amos of Fresnoville, Maine, U. S. besides 46 grand children and 68 great-grand children, three great great grand children, who have the sympathy of the entire community.
The funeral held the 1st day of April, Rev. Father Lantang of Shives Ahoi, officiating.
The pall-bearers were Larry Martin, Clinton Boudreau, Andrew Boudreau, and Malvin Boudreau, buried in the Catholic Cemetery, Glen Levt. The Tribune please copy.

Miss Helen Harvie, Nash Creek, is the guest of her aunt, Mrs. Harold Hamilton.
Miss Ruby Hamilton spent the week-end at her home here.
Mr. Ian Hamilton was in Dalhousie on Friday.
Mr. Leslie McCurdy who was quite ill, is able to be about his duties again.
Miss Jessie Cook was in Campbellton for the Easter holidays.
Rev. Mr. McParlane of Quebec, spoke here Tuesday evening in the interest of the Loyal Orange Order.
Mr. Vaughan Cook, who has been in Quebec for some time, returned home recently.

Miss Mary Delaney of Normal School, Rimouski, Que., is spending a few weeks with her parents, Mr. and Mrs. Jas. Delaney.
Mrs. Cameron Adams spent Saturday in town.
A very enjoyable evening was spent at the home of Mr. and Mrs. James Adams.
Our local physician Dr. Beaulieu is kept on the road continually, attending "flu" patients here. Glad to hear that so far he has been very successful in bringing his patient's through.
Friends of Mrs. Octave Gallant are glad to hear that she is able to be around again.
Miss Clara Fraser was the guest of Miss Elizabeth Fraser Saturday afternoon.
On Monday evening last a card party and supper social was held in aid of the church of St. Laurence. Prizes were as follows: First, Mrs. W. Flowers, marmalade jar; second, Mrs. Kenny, coffee percolator; third, Mrs. Charnard, biscuit jar; fourth, Miss Paturel, meat fork; fifth, Miss Gallant, soap; sixth, Mrs. Jos. Pinault, consolation prize sugar shaker. The first gentlemen's prize was won by Mr. Damour, clock; second Mr. Charnard, pipe; third Mr. St. Pierre, sock tie; fourth, Mr. F. Irving, shaving brush; fifth, Mr. Haley, armbands; sixth, Mr. G. Pinaud, armbands; seventh consolation prize, won by Mr. A. Irving, armbands. The sum of \$315.00 was realized.
Mr. and Mrs. Russell Adams are receiving congratulations on the arrival of a baby boy at the Soldiers' Memorial Hospital, Monday, April 2nd. Many of the young people of Matapedia attended the dance given at the home of Mr. and Mrs. Wm. Irving, Mann's Settlement.

Charlo

Easter grading list for Charlo school follows:

Christina Hamilton, 99; Dorothy Hamilton, 88.7; Beatrice Craig, 85.2; Vincent Thompson, 79.2; Irene Hamilton, 77.2; Jean Hamilton, 73; Jack Dickie, 68.2; Nellie Roy, 63; Irene Goulette, 61.2; Evonne Marcou, 58.7.

Matapedia

Miss Opal Irving spent a few days in town last week.
Miss Isabel Lawlor spent the week-end in town the guest of friends.
Miss Edna Adams, nurse-in-training at the Soldiers' Memorial Hospital, is spending a few weeks with her parents, Mr. and Mrs. Jas. Adams.
Miss Marie-Ange Charnard, has returned to Rimouski Convent to resume her studies after spending the Easter vacation with her parents, Mr. and Mrs. Edras Charnard.
Mrs. Jas. Delaney, accompanied by Mrs. Frank Irving, spent Saturday in town.
Misses Mary and Ida Haley spent Saturday in town.
Mrs. Alex. Ryan is visiting friends in Flatlands.
Mrs. William Caldwell, accompanied by her daughter, Hilma, paid a flying visit to Villieux recently.
Miss McPherson of Port Daniel is spending a few weeks with her sister, Mrs. William Fraser.
Miss Isabel Cooling spent Monday in Matapedia attending the hockey match.
Mr. Harry Caldwell was in Matapedia Friday evening.
Miss Mary Haley spent Sunday with her parents, Mr. and Mrs. Wm. Haley.
Mrs. S. M. Adams, accompanied by her daughter, Miss Lillian, spent Saturday in town.
Misses Ella McLeod and Kathleen Grace were the guest of Miss Anna Delaney Saturday.
Mr. Taylor Adams is spending his Easter vacation with his parents, Mr. and Mrs. S. M. Adams.

River Charlo

Mr. J. G. Turner spent the Easter holidays at his home in Fredericton.
Miss Beulah Hamilton, New Richmond was with her mother, Mrs. J. K. Hamilton during the Easter holidays.
Mrs. William Beaton entertained her daughter, Miss Lillian, at her home on Thursday evening.
Miss Margaret Fraser was in Campbellton on Thursday.
Miss A. L. Hamilton, teacher at Edmunds, was the guest of Mrs. F. Daughney for the week-end.

CRIPPLED BY RHEUMATISM

Began to Improve After Taking "Fruit-a-lives"

The Medicine Made From Fruit
You can get rid of Rheumatism. You can get rid of swollen hands and feet—of aching arms, legs and back.

"Fruit-a-lives" will drive the cause of Rheumatism out of the system and give you permanent relief.

For over three years, I was confined to bed with Rheumatism. Finally I decided to try "Fruit-a-lives". Before using half a box, I noticed improvement. I continued taking "Fruit-a-lives" improving all the time. I can now walk about two miles and do chores around the place.

ALEX. MUNRO, Lorne, Ont.
50c a box, 6 for \$2.50, trial size 25c. At dealers or from Fruit-a-lives Limited, Ottawa, Ont.

Folks say that our Bread is satisfactory and folks know what they are talking about. It's a loaf of full-weighted goodness that comes to you as clean and pure as the sunshine that bathes the windows of your dining-room. It befores you to remember the name of our bread.

POWER PROBLEM IN DALHOUSIE

Present Supply of Electric Current Inadequate—Say 2000 H. P. is Needed.

Campbellton is not the only town on the north shore that is facing something of a crisis in the matter of necessary electric power. According to information received from responsible parties in Dalhousie, the shiretown is also confronted with a similar problem which, in the best interests of the town, must be solved without unnecessary delay.

The power station in Dalhousie is capable of producing only 140 H. P. and the plant is not only over-loaded but is unable to supply certain prospective consumers with the current they need. In consequence these parties have been obliged to turn to the expedient of one lumber company there, it is stated, would have secured the power necessary to operate a considerable part of their plant from the town had it been available, but as the plant can generate barely sufficient current, to meet the town's present needs, this concern was obliged to put in steam equipment.

The maximum capacity of Dalhousie's power plant is 140 horse power. As it was installed in the fall of 1913 and has been operating night and day ever since there is the probability that serious difficulty is liable to occur most any time. The inconvenience and loss which would naturally follow in the wake of such a contingency can easily be imagined and when these possibilities are considered the seriousness of the present power situation becomes much more evident. If the town possessed some dependable standby which could be relied upon as an adequate substitute in case of an emergency the problem would be robbed of its more ominous aspects, but as the matter stands the power question in Dalhousie is one that demands immediate consideration if a progressive policy is to be adhered to by the governing body there and if the best interests of the town are to be protected.

At present the Grand Falls proposed development scheme is favorably regarded in Dalhousie and is considered by many the most feasible solution of the electric power problem on the North Shore as well as in Dalhousie town. Last week a prominent citizen of that place told our correspondent that Dalhousie should have at the very least a 2000 horse power supply of electric current if the future possibilities of the town were given due consideration. He stated that if the proposed Grand Falls development materialized the town would make a serious mistake if it contracted for anything less than a 2000 H. P. block of hydro. To substantiate his statements he declared that several concerns operating in that vicinity would readily purchase power from the town if it were available and added that one lumber plant there would readily turn to hydro electric for their entire power supply if the town had it to sell.

While the light and power problem in Dalhousie may not yet have aroused any alarm in the shiretown, it nevertheless constitutes an issue which cannot be indefinitely evaded. For everyone except the pessimists, Dalhousie has possibilities for growth and expansion. And these possibilities must be duly considered by all conscientious citizens who have the best interests of their town at heart. There is no doubt but what its location, away as it is from the main line of railway, is an unfortunate circumstance and one which has conspired to greatly hinder the growth and progress of the town. But even this isolation should not be permitted to appoint the destiny of a place so richly blessed in many ways as Dalhousie is. Although away from the main railway line the shiretown is most favorably located for water transportation. Its harbor is one of the finest, most sheltered and most

Social and Personal News

Miss Marjorie MacKay who spent the Easter holidays at her home here has returned to Antigonish to resume her studies.

Miss E. Stewart was a visitor to town for a few days last week.

H. A. Powell, K. C., of St. John, who has been attending court here was the guest of his brother Charles Powell while in town.

Miss Christine MacKay of Campbellton was the guest of Mrs. Jones here for a few days.

Miss Elma Cook, who has been visiting friends in Bathurst, has returned home.

Mr. J. Allan LeBlanc of Campbellton, spent the week-end in town the guest of his parents.

Mr. W. J. Simpson of St. John has returned to Dalhousie to resume his position as filer for the Dalhousie Lumber Co. during the summer season.

Mr. James MacKenzie who has been visiting friends here, has returned to his home in Shipshaw, P. Q.

Miss Maclean of Charlottetown was a visitor in town for a few days, the guest of Mrs. Jones.

Dr. W. W. Fleck paid a professional visit to 'The Soldiers' Memorial Hospital in Campbellton last week.

Mr. and Mrs. T. G. Spooner left on Thursday morning last on a visit to relatives in Amherst, McAdam and Edmundston. They will be absent from town about a month.

Charles Jones left on Monday for Campbellton. He had just completed a professional trip through the southern part of the county.

Edwin Cragg who has been spending the Easter holidays at his home here, has returned to Charlottetown to resume his studies.

convenient in the maritime provinces and is capable of producing a considerable amount of power. This natural asset makes Dalhousie a convenient centre for much of the lumber industry in this part of the province and in normal times the town is always the scene of considerable commercial activity.

The lumber trade which is literally the backbone of this district is getting back to normalcy and there is no reason why the shiretown of Kestigouche should not reap its share of the benefits if its aggressiveness and due care are employed in its local administration.

Then there is another point in connection with the location of the shiretown which should not be overlooked. This is the beauty and other natural endowments of the locality in which the town has its setting. It's very isolation could be converted into an asset and one that would aid numerical growth and general progress for the town. The numerous well-known watering places had to offer, have paid glorious tribute to the Inch Arran beach and vicinity as an unexcelled locality for summer outing.

Of course these facts are only incidental; but nevertheless they combine to show that Dalhousie has a possible future if proper provision is made for its growth and expansion. The solution of the power problem can be made one of the stepping stones along the road of progress.

Happenings of The Week

The Graphic has arranged to devote a page each week to the interests of Dalhousie. How interesting that page will remain, in a great measure, with our readers in Dalhousie and the surrounding country. We want every bit of news from this district, and we ask our readers to send us such items that page will not be wholly uninteresting. We want the citizens of Dalhousie to feel that this page is theirs to use in their own interests. If they do not embrace this opportunity it will not be The Graphic's fault. Correspondence on these subjects will be gladly received.

The Graphic is on sale at Sheehan's Made Store.

Friday is nomination day for mayor and councilors. There is a little talk, but action will have to be evident tomorrow.

Dalhousie needs hydro. Let every citizen speak his or her mind on this matter.

It looks more like spring this week and the snow is setting rapidly.

Men are at work putting the mill in proper shape to commence the season's operations as soon as navigation opens.

An enjoyable evening was spent by a number of young people here on Saturday, March 30th at a birthday party given by Miss Grace MacNeill of Miller's Section. Miss MacNeill was the recipient of many lovely gifts, among them a beautiful violin.

One of the first signs of spring in this locality was observed on Sunday morning when a flock of wild geese, estimated at from twenty to thirty in number, were both heard and seen as they flew westward over the town. There is no open water in this vicinity yet; lakes, brooks, rivers and bay will be solid with ice. The question naturally arises: "How do these birds exist?"

PERSONAL ITEMS

If you have a friend visiting you, phone the fact to the Graphic for its personal column. We would like to mention every visitor to our town, April 3-4.

At a meeting of the Catholic Women's League here last Sunday an election of officers was held. Miss Mary Farrell, although she resigned, was re-elected as president for the ensuing year. The only change in the list of officers was that of Entertainment Convener, that office being occupied for the coming year by Mrs. Frank Savoie. Misses Audrey Troy and May Godin were appointed delegates to the annual convention of the league in Bathurst.

WE WANT THEM ALL
Despite the fact that the Graphic has a reporter always on the move, items of news escape our notice. If you know of anything interesting just a word over the phone will start our reporter after full details, April 3-4.

The Trail Rangers of the Presbyterian Church gave a supper on Friday evening, April 6th, having their young men's friends as their guests. An interesting debate followed the banquet and after this enjoyable evening was concluded with a theatre party.

Straw hats seem to be the vogue for skating this season.

Everybody is wondering why the dance at the "Rink" did not take place on Easter Monday as promised. What happened Mr. Trade?

SALESMEN WANTED.
We have open territory for a number of salesmen to sell the famous Dodge Brothers motor cars on the Gaspe Coast. Write to C. Gordon Amlof or S. W. Dimock, Campbellton, N. B.

AT THE QUEEN.
The following guests registered recently at the Queen Hotel: C. E. Tibault, H. L. Saks, Jacques Rivet, R. H. Pearson, Nonville, John Collier, H. G. Millican, T. Edwards, A. A. Dickson, A. Gaudet, G. McKenzie, M. A. Kelly, and W. Habyasi, Campbellton.

DEATH OF EDWARD ARSENAULT
Mr. Edward Arsenaault, an aged and highly respected resident of Sunnyside died on Sunday last at his late home there. The funeral was held on Tuesday morning. The Rev. Father Hart conducted the services at the house and graves. Mr. Arsenaault was well known in this locality having, for many years been a farmer at Sunnyside.

BUSY SUMMER IS EXPECTED

Revival of Activity in Lumber Industry Will Boost Business in 2 Months.

According to all visible signs the coming summer promises to be a busy season in Dalhousie. Late work from the different lumber companies there verifies the previously circulated reports that all the mills in the shiretown will run at full capacity this summer. This announcement is good news to people at large, but especially those connected with or dependent on this lucrative business.

This hoped-for revival of activity in the lumber industry will also tend to boost general trade conditions in Dalhousie during the month ahead. During the last few years delinquent and consequent depreciation in the industry has contributed to the up things generally and the forecast of return to normalcy is looked forward to with interest. Two of the mills in the shiretown did not run last summer and with all four operating this season the resulting benefits to both business firms and individuals will be very appreciable. A good summer's shipping is also hoped for and if this materialize, it will supply the much more additional work besides opening the way for lumber concerns to clean out much of the old stock from their crowded lumber yards.

PQ Lumber Co. Enlarges Their Mill

The P Q Lumber Company have made some considerable additions to their mill at Dalhousie this spring. The other half of the long lumber mill not previously finished has been completed for this summer's operations and equipment for an up-to-date planing mill has also been installed. It is estimated that the present daily capacity of this plant is now about 100 or 175 thousand superficial feet. Two additional sawmills have also been installed and a heavy season is expected at this mill.

Liquor Business Quiet in Dalhousie

Nothing of any importance has been observed in the town of Dalhousie more closely than in many other towns throughout the province. Disregarding the fact that the present daily liquor market is an extremely tight and very little civic trouble can be credited to old King Hooch. Which sale manufacturers of intoxicating liquor may be going on but, if so, it is being done very quietly and from all appearances, not on a very extensive scale. Apparently the old popularity of stills is waning and this no doubt, is due to the fact that the people will no longer drink "any kind of stuff" to satisfy their thirst.

PERSONALS

Miss Joan Payne is spending a few days in St. John. Mr. E. B. Piles of Bathurst spent the week-end in town. Miss Lily Barry is spending a few days at her home in Chatham. Mrs. Wm. Gremlay has returned from a pleasant visit to Moncton. Mrs. Jasper Davison and son Reginald, spent the week-end in Amherst. Mr. Fred Beaulieu spent the week-end in Causapscal visiting friends there. Mr. and Mrs. Homer Matthews and little daughter have returned from a trip to Moncton. Mrs. John Allen spent a few days in Bathurst last week the guest of her daughter, Mrs. Victor Melanson. Mr. Ernest Foster was called to Chatham last week owing to the death of his sister, Mrs. R. P. Harriman. Mr. and Mrs. Alex. McLennan were in Chatham this week attending the funeral of Miss Jessie McLennan. Mrs. Willard Steeves of River Herby, is spending a few weeks in town the guest of her parents, Mr. and Mrs. John Dickie. Mr. Pius Michaud, M. P. for Restigouche-Madawaska, who was spending the Easter vacation at his home in Edmundston, spent Friday last in town. Miss Mary Adams of the Grammar School staff has returned to resume her duties, having been ill at her home in Strathadam, N. B. for some time. Mrs. J. A. Greenless and Miss Desbrisay of Madisic, spent the week-end in town the guests of Mrs. A. F. Chamberlain enroute to Montreal and Ottawa. Mr. and Mrs. E. B. Reid are spending a few days in town the guests of Mr. and Mrs. P. McNichol, enroute from Montreal to their home in New Richmond. Mr. W. C. Hamilton of Black Lands was in town Tuesday on his way home from visiting his daughter Lillian at St. Arathe, Que. where she is undergoing treatment. Mr. Walter H. Gilker has returned to Mount Allison Commercial College to resume his studies, after spending the Easter holidays here with his parents, Mr. and Mrs. John A. Gilker. The many friends of Miss Audrey Mackay who recently underwent an operation for appendicitis at the Soldiers' Memorial Hospital, will be pleased to hear that she is doing nicely. Messrs. Murray and Kenneth Montgomery of New Richmond have returned to their homes after spending the Easter vacation in town the guests of Mrs. John Annington and Mrs. Joseph Annington.

LEBLANC-BOUDREAU. The Church of Our Lady of the Snows was the scene of a quiet but pretty wedding on Wednesday of last week when Miss Lillian M. Boudreau was united in marriage to Mr. J. Arthur LeBlanc. The ceremony was performed by the Rev. Father Melanson and took place at 7 o'clock in the morning in the presence of immediate relatives and friends. The bride who was given in marriage by her uncle, Joseph Arseneault, was becomingly attired in a navy blue travelling suit with hat to match. After the ceremony the happy couple repaired to the bride's home where the wedding breakfast was served. Mr. and Mrs. LeBlanc then left on a honeymoon trip to Upper Canadian cities and Detroit, followed by the best wishes of their many friends for a happy and prosperous married life. On their return they will reside in Campbellton. Mr. LeBlanc is a member of the C. N. R. Freight Office Staff.

DEWAR-STEWART. The marriage of Miss Amy Evelyn, youngest daughter of Mr. and Mrs. Hugh Stewart, Newcastle and Arthur Dewar, of Campbellton, was solemnized at the home of the bride's parents, Mitchell Street, on Tuesday evening by the Rev. J. B. Champion. The happy couple were unattended by Miss Ruth Stewart and Mr. Leslie Dewar were the witnesses. The

BROWN & CO. CASE SETTLED FRIDAY

Jury Gives Decision in Favor of Plaintiff After Two Hours' Deliberation.

In the case of Brown & Co., versus James McNaughton which occupied the attention of the court at Dalhousie throughout the entire day and evening last Friday, a verdict was rendered in favor of the plaintiff for \$250 and costs. The jury brought in its decision after a deliberation of over two hours. The case was not concluded until about eleven o'clock Friday night. From the evidence submitted by Brown & Co.'s counsel it appears that this company, under the management of William Brown of Campbellton, was carrying on a general merchandizing business here and occupying certain premises which were rented from the defendant, James McNaughton, for that purpose. It was alleged that the defendant, without giving any warning to or having any consultation with his tenant, locked up these particular premises thereby preventing Brown from carrying on his business and also seriously injuring his credit and reputation as a merchant here. The defendant contended that this step had been taken and certain goods seized and sold at auction to defray Brown's bill for rent. The defendant's counsel called several witnesses but no evidence was elicited to prove his claims. At times the courtroom was the scene of heated arguments. This solemnity, however, was alleviated by some very humorous incidents. T. Stanger Crockett of Campbellton represented Brown & Co. and H. A. Powell, K. C. of St. John argued the case. A. T. LeBlanc, Campbellton, acted as counsel for the defence, while the Hon. Justice Barry of St. John presided.

ATHOLVILLE. Mrs. William Christie and son Clarence, of Atholville, have returned from a pleasant trip to Grand Ave. Mrs. Mitchell Harvey and son Dan of Atholville, have returned from a visit to Mann's Settlement, where they were the guests of Mrs. Harvey's parents, Mr. and Mrs. Irvine. A bride who was given in marriage by her father, wore a gown of white duchesse satin and silver radium lace, veil and orange blossoms and carried a bouquet of white carnations and maiden hair fern. The house was very prettily decorated for the occasion, and after the ceremony a large number of friends of the bridal party were entertained at an informal reception. After the ceremony Mr. and Mrs. Dewar left for their honeymoon to Prince Edward Island and on their return will reside at Newcastle, where the groom holds a responsible position in the trackmaster's office of the C. N. R.

NOTE AND COMMENT. Let us hope that winter has not forgotten his hat or anything for which he will have to come back. Much fuss is made over a few persons who died after invading Egyptian tombs, but nothing is said about the thousands of invaders who did not die.

Sugar growers in the United States complain they are not getting a share of the increase in sugar prices. That is usually the experience of the actual growers. A Buffalo engineer claims to be able to keep the St. Lawrence River open for navigation in winter, but the real difficulty is to get rid of floating ice which will carry ships out of the channel. Some of the first cargo of Canadian live cattle sold in Scotland brought about twelve cents per pound, live weight. It would be interesting to learn who arranged for the snuffing out of that admirable institution, the Penny Bank in Toronto's schools. The "lobby" seems to be all-powerful in the Board of Education.

BOY SCOUT IN FIRE PREVENTION

The Boy Scouts in all their camping and fishing expeditions have never yet been charged with causing a forest fire, said the Manager of the Canadian Forestry Association in a newspaper interview. The Scouts are diligently trained to take such care with their camp fires, building them in safe places and totally extinguishing them before leaving camp, that the multi-million activities of the Boy Scout organizations in the woods are never accompanied by any forest losses.

RANGERS VALUE CASH AWARDS

The effect of offering cash prizes to the rangers of New Brunswick who kept their districts free from timber fires last year was to greatly reduce the provincial losses.
