## Wash Silks 25c.

Dress Making . . . Two Dept's

Direct from those nervy little fellows who are giving the Russians such a drubbing just now, by way of Vancouver, on the C. P. R., comes a case of Wash Silks for your Spring and Summer wearing. We must give Japan credit for making the best wearing Silk produced in the world at a low price. The mystery is how we can bring it so far and sell it so cheap. Cash and quantity do the trick.

2500 yards of new Japan Wash Silks in very neat pretty stripes, corded, in shades of Pink, Sky, Old Rose, Nile, Helio, etc., fast colors and serviceable, 5 yds. 250 makes a waist, new style, on sale at a yd.

### LAKE HUBON PARK

This fine park will be open to the ablic May 25th, the season of 1905, or prenies and excursions of all inds, Sunday Schools, churches, so-eties, clubs, etc.

Attractions:— Beautiful Dancing and Refreshment Pavillion, Merry-go-tound, Box Ball Allevs, Shooting Sallery, Swings, Croquet, Fishing, lathing and Boating.

This park is beautifully situated at the foot of Lake Huron, in view of all the shipping passing in and out of the St. Clair river. This is an ideal resort for people from Chatham and way blaces.

Purther information cheerfully ven by applying to Mr. Thos. FRENCH, Mgr., or Mr. Maynard Hagdon, Ferry Office, Port Huron,

A man seldom loses his confidence until he loses his money.

Tabled by Sir Wilfrid Laurier; In-

sire to "Promote in Every Way Com-patible" Manitoba's Welfare—Drawn Up for Political Effect, Says Minlater Campbell of Manitoba-The Autonomy Debate-I. C. R. Running Rights Over C. A. R.

Ottawa, April 4.—Testerday, after outine, the House having gone into ommittee on the bill enabling the rand Trunk to acquire the Canada

Mr. Haggart asked for the promised lovernment statement on the subject. Sir Wilfrid Laurier replied that the lovernment had decided to introduce eparate legislation to give the Interseparate legislation to give the intercolonial Raliway running rights over
the C. A. R. It was considered better
to do this than, as was first proposed,
by amendment to the Grand Trunk bill.
In reply to Mr. Maciean, Sir Wiftid
said that the statement might be made
before the third reading.

Mr. Borden submitted that the full
explanation of the Government's proposals should be given while the present bill was in committee. Sir Wilfrid
asked what more could be stated than
had already been told.

Mr. Maclean—A full statement had
been promised to the House.

E. B. Osler reminded Sir Wilfrid of
the promise made by Mr. Emmerson.

"Under such circumstances, I move
that the committee rise and report progress."

that the committee rise and report progress."

The committee accordingly rose, without having dealt with the bill.

Oppose This Bill.

Arch. Campbell's bill to incorporate the Title Guarantee and Trust Co. was under discussion in committee of the whole for some time, and was finally held over for further consideration. The promoter of the bill not being present, Mr. Fleiding undertook to pilot the bill along. Criticism by Mr. Foster and others showed that the proposition to invest the company with powers of insurance was at variance with the usual practice of Parliament.

The act to incorporate the Crown Casualty Co., and an act respecting the Drummond Fire Insurance Co. were put through the committee, read a third time, and passed.

The Autonomy Debate.

The Autonomy Debate.

The Autonomy Debate.

Dr. Roche, of Marquette, resuming the debate on the autonomy bill, condemned the Government for its failure to extend the boundaries of Maritoba, and also for its attitude on the educational clauses.

tional clauses.
Mr. McKenzle (Liberal), Cape Breton, supported Mr. Fleiding in favor of asparate schools.
Mr. Perley thought that the question-

would finally have to be decided by the Imperial Privy Council. Mr. Lavergne moved the adjourn-ment, and the House rose at 11,40 p. m. The Correspondence Tabled.
The correspondence relating to Manitoba's request for an expension of its boundaries was tabled in the House

yesterday by the Premier.

The Government's answer is contained in an order-in-council. It is argued that the objection to the extension westward is the opposition of the people there, that the request for extension northerly and to the shores of Hudson Bay is not unreasonable and might profitably be considered. It is recommended that after the formation of the new Province Manitoba's request for extension northerly he taken. vesterday by the Premier. tion of the new Province Manitoba's request for extension northerly be taken up, which, it is hoped, will be acceptable to the Government of Manitoba, "whose welfare and development the present ministry desire to promote in every way compatable with their obligations towards the other Provinces of the Dominton."

of the Dominion.' The proposal is to have Manitoba, at the boundary conference

Correspondence Incomplete. Winnipeg, April 4—Hon. Colin Camp-bell, Provincial Attorney-General, and who was a member of the Manitoba delegation to Ottawa regarding the memorandum handed down by Sir memorandum handed down by Sir Wilfrid, stated that the correspondence was evidently incomplete, being without the inclusion of Manitoba's reply to the order-in-council now brought down, and that so far from Ontario having put in a claim shortly after Manitoba, such had not been done until after the direct invitation of Sir Wilfrid to do so.

Mr. Campbell said the memorandum bore every evidence of being a document drawn up for political effect.

## Pepper is Adulterated

Pepper is Adulterated.
Ottawa, April 4.—The Inland Revenue
Department has been inspecting some
flour samples and found no adulteration. A report just issued by the Department shows great adulteration of
black and white pepper. The adulteration of black pepper is greater than
white pepper. Out of 60 samples of
black pepper. 31 were adulterated, 7
doubtful and 22 genuine. Of 26 samples
of white pepper, 10 were adulterated,
13 genuine, and three doubtful.

Favors Canada's Proposals Favors Canada's Proposals.

London, April 4.—(C. A. F.)—Hon.
Mr. Deakin, late Premier of Australia,
asking to give his views on a preference, in replying to the question whether he was prepared to advocate a
preference to the United Kingdom
without waiting for any return, said
he favored action similar to that of
Canada. He also said he did not favor
any general reduction of duties upon
British goods unless they occur on the
Canadian plan.

The business man likes to meet people he can trust; but he much prefers those who pay cash.

### THE CORRESPONDENCE PERHAPS MARRIED WOMEN WILL VOTE IN CHATHAM

minion Government Declares a De. City Council will Petition Legislature to Extend this Privilege to Wives-All City Grocery Stores will now Close at 7 P. M. Many By-laws Passed

> year were opened last evening. Con-siderable interest was taken in the tenders and the free seats at the back of the Council Chamber were

filled. The chief feature of the meeting was the passing of by-laws. Ald. Potter had a handful and he suceded in having them all passed except one in regard to the fire limits. ald. Austin and Ald. Westman each

ald Austin and Ald. Westman each also had a by-law in charge.

A by-law providing for the closing up of all proceries in the city at seven p. in. was introduced and passed.

Ald, Marshall objected to it. He said he smoked and he might have torgotten his tobacco and want to tuy some. The by-law would prevent him.

Ald. Marshall thought this by-law unfair to the smaller groceries. It

unfair to the smaller groceries. It looked like prosecution.
Ald, Austin said that the point was not well taken by Ald. Marshall.
There was no law in Chatham en-

forced as figidly as that. He thought the by-law a good one and in CASES OF NECESSITY,

CASES OF NECESSIA,
like Ald. Marshall's plug of tobacco,
be thought that no attempt would
be made to enforce the by-law.
Ald. Edmondson agreed. He said

Ald. Edurondson agreed. He said that often now cases of necessity occurred when a family would run short of eatables on Sunday. Nothing was ever said to the grocer who sold.

Ald. Westman thought that the bylaw didn't go far enough. It should also provide for closing at ten o'clock Saturday night.

Ald. King—Oh, give them one night off.—Laughter.

Ald: Marshall rose to reply. He said that an attempt had been made to comb him down on the part of Ald. Austin and Ald. Westman. He had never yet voted for any motion that he didn't understand and he wasn't going to begin now. If the by-law were going to impose on one grocer he was going to oppose it.

CITY PAID INTEREST. CITY PAID INTEREST.

The city's share of maintenance of Hatrison Hall amounting to \$151.60 was referred to Finance committee, Mayor Cowan suggested that a by-

Mayor Cowan suggested that a bylaw be passed so that such accounts
could be paid without bringing them
before the Council. These accounts
were paid under agreement and the
city had had to pay the county interest on the last account owing to
delay in payment.

The Asbestos Roofing Co. wrote offering to roof the new market. Received.

A schedule of the proposed assessment of the city for repairs to the
drain on the 2nd concession, Dover
and Chatham Townships, was referred to the Board of Works.

A petition for a sidewalk on the
south side of Selkirk street from
Victoria avenue to Hilliard street
was referred to the Clerk and City
Engineer to report upon.
CITY TEAMSTERS WANT CITY
WORK.

WORK.

Ald, Ainsworth presented a petition from the city teamsters asking that they be given the preference. This was laid over till later in the even-

A request from Wesley Gregg for

A request from Wesley Gregg for permission to out trees was referred to the Chief of Police.

Secretary J. O. Weir of the Waterworks Department wrote stating that the Water Commissioners were anxious that some necessary extensions in the city be referred to a committee of the Council. Referred to Finance. There is some question as to whether the Water Commissioners or the city should make these extensions.

Manager Shannon of the Standard Bank wrote stating that the city was indebted to the Bank as follows: General fund, \$38,000; Local improvements, \$110,000; and that there was to the credit of the city in general account \$204.96, and in Local Improvement account \$819.64. Received.

Local Improvement account \$819.64. Received.

A petition for an extension of the Ursuline avenue drain was received. Chas. Kelly, secretary of the Canadian Stationary Engineers Association, wrote stating that the Association would hold a convention here in August. They asked the co-operation and assistance of the Council to the extent of \$100. Referred to Finance.

Mr. Kelly addressed the Council in reference to this natter.

INDUSTRIAL.

INDUSTRIAL.

Ald Austin for the Industrial committee reported that Mr. Atkinson's letter re Chaplin Wheel Works water main extension was correct and that the matter be reported to the Water Commissioners with a request that the extension asked for be granted.

That the request of P. P. Ball, commercial agent at Birmingham, England, be granted and that \$5 be spent in securing views of the city and forwarding them.

Re subscription to the Factory Site. Trade Journal, of St. Catharines, no action be taken.

The report was adopted, MARKET.

Ald. King for the special Market committee reported that they had instructed Architect Rutley to revise the plans in accordance with instructions and now presented them for inspection, The committee was in a position to ask for tenders. Adopted.

FINANCE. FINANCE.

Ald. Austin reported for the Finance committee as follows:
Re request of James Russell for reduction of the transient traders license, that no action be taken.
That this Council petition the Legislature for a by-law allowing married women to vote in municipal matters.
That the city solicitor's account, \$325, for services rendered in the suit of Thompson vs. the city be paid.

paid.
That the City Clerk should send to the Minister of Public Works a statement of the amount due for Local Improvements and that request be made for immediate settlement.
That no action be taken in regard

to the isolation hospital.

The report was adopted.

PROPERTY,

Ald. Westman for the Property ommittee reported as follows: That The Planet account of \$9.62

That The Planet account of \$9.02 be paid.

Re request of W. W. Scane for permission to erect coal oil and gasolene tanks on the river bank, that it was found that it was injurious to have gasolene tanks of this size in the city and that the request in regard to gasolene be not this size in the city and that the request in regard to gasolene be not granted. That, permission be given to build the oil tanks two feet under ground and that the by-law in regard to explosives in the city be so amended as to allow this.

Re request of Job Moore, lineman, that his strary be increased \$5.

That the two drivers and the foreman of the fire department be given an additional \$5 per month.

The report was adopted.

Ald. Westman said that the Chief of the Fire Department requested the

The report was adopted.
Ald. Westman said that the Chief of the Fire Department requested the purchase of a hydrant gate and a new soczie Ald Westman moved that it be purchased. Carried Ald. Westman moved that Chas. Morrell be hired as impounder at a salary of \$154 per year, to do all the work in the city. Carried.
Ald. Westman said that in reference to the extension of waterworks mains, he had investigated and found that the Public General Hospital and the Ursuline Academy hadn't sufficient fire protection. A four-inon main is all the protection these two buildings have.
At the subgrestion of the Mayor, this matter was referred to the Finance committee along with other extensions already so referred.

PETITIONS MUST BE DATED.

PETITIONS MUST BE DATED. Ald Potter stated that he had ob-tained the opinion of the city solici-tor in regard to signatures to pe-titions for pavements being dated. The solicitor advised that the Coun-

The solicitor advised that the Council should refuse to accept petitions not dated. He also said that the Council could have the date of signature after each name.

Ald Marshall suggested dating each petition blank when it was obtained from the city clerk.

Ald. Potter moved seconded by Ald. Westman, that no petition be received unless it were dated and the date of signature placed after each name, Caaried.

name, Carried. TO ADVERTISE THE CITY. Ald. Marshall said that the program of proceedings for the Stationary Engineers' Association was in the printer's hands. The Association asked \$100 for the use of 15 pages in the book to be devoted to advertising the city. A thousand copies had been contracted for and these programs would be sent all over Canada.

Ald. Marshall moved, seconded by

grams would be sent all over Canada.

Ald. Marshall moved, seconded by Mr. Austin, that \$60 be paid the Association for use of the 15 pages for advertising the city. Carried.

Ald. Austin spoke in favor of the motion from an advertising standpoint, and also from the fact that the convention itself would be an advertisement for the city.

The matter was referred to the Industrial committee to see that proper cuts and photographs of the city were reproduced in the book.

Mayor Cowan called the attention of the Board of Works to the condition that the Windsor Road was in, west from the King St. pavements.

The Mayor also asked the City

ments.

The Mayor also asked the City Clerk to notify the committee appointed to investigate the different payements of the city, to do so and

The Mayor referred complaints re driving on boulevards to the Parks and Cemetery committee to investigate and to prepare a by-law that could be enforced, as the present one was not estisfactory.

CITY TEAMSTERS GIVEN PREF-BRENCH. Ald. Aineworth moved that the

Business Office ..... .... ... 8. STEPHENSON - Proprietor. TUESDAY, APRIL 4, 1905

GETTING ACQUAINTED.

Success in business is largely matter of getting acquinted -learning the needs and tastes of your customers and making them familiar with yourself, your establishment, your methods and your You cannot get acquainted with the purchasing public in a day, or even a month; it takes time to make yourself "solid," but it is worth while. By cultivating the acquaintance of possible buyers day after day through the adwertising columns of the newspa-pers you establish a basis of confidence that yields constantly in creasing returns, and that will in the long run be worth more as an asset than money in the bank.—St. Thomas Times.

### THE NUMBERED BALLOT.

The numbered ballot has for years been used by Reformers as a means of terrorising men into believing that by this method a check could be kept on the nature of their votes. That dodge has been worked from one end of the province to the other and it has been worked right here in Brantford to help elect this selfsame Mr. Preston.-Brantford Cour-

The numbered ballot was copied from the British ballot with the avowed purpose of helping to detect frand were fraud committed at the polls, and no doubt it has had a deterrent effect. That it was used to the advantage of the Liberal party there is no evidence. Has the Cour-ier any evidence? Mere assertion is worthless.-Hamilton Times.

The defence of the abominable numbered ballot has always been that it is the "British" ballot, while the Dominion ballot has been described as being the "American" ballot. A wise country adopts a good thing, no matter where it is found. There is no doubt whatever that Liberal deputy returning officers have learned from the numbered ballot how certain persons voted. To do that they would have, of course, to commit perjury; but perjury is a small offence for some Liberal deputy returning officers who have been in vestigated.

But it is not at all necessary to condemn the numbered ballot, to prove that it has been "used to the advantage of the Liberal party." The liquor dealers and others knew it could be so and believed it was so used, and voted accordingly. A ballot that can be used, so readily, to coerce voters should not exist, and Mr. Whitney will abolish it. He doesn't require any formal "proof" of the working of the thing.

Not only has the Ross surplus escaped; but it has taken \$1,260,627 with it, leaving the government that much in the hole to begin with. -Hamilton Spectator.

### A PITIFUL SIGHT. Bobcaygeon Independent.

The opposition bunch at the Toronto assembly looks like the below sevens at a progressive euchre party. They belong to the pack all right, but they are not figuring much in the game.

### WHERE THE FAULT LIES. Brantford Expositor.

Rev. Dr. Hazlewood, of Hamilton, in a recent sermon registered an objection to aldermen seeking to shape their course at the beginning of the year so as to get votes at the next election. The only way in which this can be overcome is by a long and vigorous campaign of education. The fact that the aldermen can get votes by "shaping their course" along wrong lines is evidence that there is something lacking among the elec-

### SWANS AT ERIEAU

Archie Park was out at Ericau 40 swans that have been hanging about that summer resort. The Eau is clear of ice and the lake is clear

is clear of ice and the lake is clear out for about a mile and then as far as the eye could reach there was nothing but a sheet of ice. The water is low in the marsh this year. It is about 18 inches below the celery farm.

The ice is piled along the lake shore about 50 feet wide and ten or twelve feet high, It is covered with sand and at first sight the reason for the high banks along the shore is not apparent.

There are a lot of wild ducks around the Eau and considerable shooting is being indulged in.

Pride costs us more than hunger, thirst and cold.

Women wonder why men think women want more than they get in life.

### WHY DOES

### A BABY CRY?

Because it is either hungry or in pain. Properly nourished it will usually grow up right and be comfortable -that's the principal thing for a baby. If its food lacks. strength and nourishment add Scott's Emulsion at feeding time. A few drops will show surprising results. If a baby is plump it is reasonably safe. Scott's Emulsion makes babies plump.

We'll send you a sample free. Scott & Bowne, Chemists, Toronto, Ont.

### C. C. I. BOARD

Our true acquisitions lie only in our charities; we gain only as we give.

## Tolstel Was Unable to Answer. Once in Moscow, near the Borovitch-skala gate, Count Tolstol saw a persistent beggar, asking alms, who exclaimed, "A little penny, brother, in the name of Christ!" A police officer approached. He was

A police officer approached. He was young, martial and wrapped in the reg-ulation sheepskin. At sight of him the beggar fied, hobbling away in fright and heats. "Is it possible," said Tolstoi to him self, "that people are forbidden to ask charity, in Christ's name-in a Chris-"Brother," he said to the police, "c

"Yes," said the officer politely.
"Have you read the Bible?"

"And do you remember Christ's orders to feed the hungry?" And he ited the words. The policeman was evidently troubled. He turned to his

questioner and asked: "And you, sir—you can read?"
"Yes, brother."

"And have you read the police regu "Yes, brother."

"And do you remember that begging in the main streets is forbidden?"—Suc

The Winter palace of the czars was built in blood. Almost every stone of the walls and every square yard of the praster lining them cost a life. Nich-las had given the order that the palace must be rebuilt in a year, and what was human life against the despot's will? Six thousand men were kept at work day and night, with the palace heated at 30 R. to dry the walls rapidly, while the temperature out-side was often 30 degrees below zero R. The men could only work with ice packs on their heads, and, experience ing a daily change of 60 degrees, they died by the score every day. By the end of the year the death roll was some thousands, but the palace was finished. To understand the full meaning of this achievement it should be re membered that the Winter palace is as large as Buckingham palace, Kensing ton palace and the National gallery .-

Luminous East Indian Plants. Upward of sixty species of East In-dian plants, mostly of the fern family, with a goodly sprinkling of grasses and creeping vines, are luminous, and it is said that the sides of the mountains in the vicinity of Cyree are nightly illuminated by the pale, white light which they emit. The root stock of a plant from the Ooraghum jungle, near Layki (supposed to be an orchid), possesses the peculiar properties of be-coming luminous when wet, while when dry it is quite lusterless. One jointed plant, supposed to be a member of the rush or cane family, emits a fiery red light from its leaves, a pale white one from its stalk, while its flowers give out capricious flashes, like that of our

Chileans Wear Overcoats Indoor "In Santiago, the Chilean capital, where I have been residing for some years, it is common to see people put on their overcoats when they enter a house and take them off upon going into the street," said a visitor to the

"The cause of this is that the atmosphere on the outside is warmer than within the residences. The Chileans do not heat their domiciles to any extent, and they are construct ed of such thick walls that they are a good deal on the order of refrigera-

Herses In Battle.
Arabian horses show remarkable courage in battle. It is said that when a horse of his breed finds himself yourded and knows instinctively that he will not be able to carry his rider auch longer he quickly retires, bearing his master to a place of safety while he has yet sufficient strength. But if, on the other hand, the rider is wounded and falls to the ground, the faith al animal remains beside him, unmindful of danger, neighing until assistance is bought.

Discontentment seems a positive joy to some people.

When you have to use hard water it is not an easy matter to wash household utensils. To do good washing you should have good soap and soft water (rain water). If you use hard water you must have good soap, and the best soap you can get is Sunlight Soap because it softens the hard water and makes a copious creamy lather. Use Sunlight Soap for all household purposes and the results will surprise you.

ASK FOR THE OCTAGON BAR, Sunlight Soap washes the clothes white without injuring the hands. LEVER BROTHERS LIMITED, TORONTO.

### commission agent living in the Rue Sedaine, near the Place de la Re

Rue Sedaine, near the Place de la Re-publique, in Paris, obliged an eastern friend in his in this way and is now sorry he did it. The friend has put him to great inconvenience and has not apologized for a good reason. He is no more, having hanged himself in the borrowed fat. The deceased was M. Charles Modiano, described as a millionaire Turk, though his name sounds Armenian, and as the swner of a big trading concern in Constantinople, Smyrna and Salonika. Three days ago he asked his French friend to lend him to receive callers whom he did not want to see in his rooms in a hotel on the boulevards. The occupant agreed, as he was going out of tewn for a few days. On his return he went to his flat, which had remained at M. Modiano's disposal during his absence. He found the eastern gentleman hanging by a rope from the dining room ceiling. Modiano had been dead some hours. He had not left behind him even a word of excuse or explanation. He had experienced some financial losses lately, but they were trifling for a man

### in his position

Cost of the Dosing Habit.

Take all the cocoa and chocolate manufactured in this country in a year. Add all the blacking and bluing, the flavoring and extracts and the axie grease. Take next a year's product of beet sugar. Threw on all the giue, the refined lard, the castor oil, the perfumes and cosmelics and the kinding wood. Finally put on top of the pile the entire output of ink and mucilage. The total value of this accumulation will still be less than that of a year's product of what we call "patent medi-

The census of 1900 placed the value of "patent medicines" produced in this country annually at \$59,611,335. As the average profit is about one-third, this means that the sum paid over the retail druggists' counters, taking no account of increased consumption in the last four years, is something like \$80,-000,000 a year, about a dollar for every man, woman and child in the country,—Leslie's Monthly.

Glass Skates.

The young man's skates were made of glass. They glittered like diamonds in the cold winter sunlight. He skated upon them very skillfully.

"Glass skates," he said, "beat steel ones. They silp along better than steel; you can skate on rough ice better with them. Another advantage is that they never need sharpening. Ground sharp in the beginning, they keep sharp as long as they last. A third advantage is that they don't rust, and hence, to prevent rust, it isn't necessary te rub them dry with a chamois every time you take them off.

"They are very expensive, though. To make a glass hard enough for skate runners is an expensive process; hence, till the process becomes less costly, glass skates won't be common."—Minneapolis Journal.

### Candlesticks. Do not stand the candlesticks on the

stove to melt the grease off, as people so often do, for an easier and better plan is to fill them with beiling water Don't allow it to stand any time, but pour it off and rub the candlestick well with a dry cloth. Enameled candle-sticks as well as those of plain metal

### REDUCED A HARD SWELLING.

should be treated thus.

Mr. Gus E. Geroux, writing from Pembroke, tells how he was injured in a lumber camp. "A heavy log rolled against my leg and I was laid up with stiffness and a hard swelling. When I applied Polson's Nerviline I got relief. A few rubbings with this good liminent oured me." In the bush, Nerviline is indispensable; it cures neuralgia, colds, rheumatism and internal disorders, too. No person can afford to be without Nerviline. Useful for all internal and external pain. Large bottles 25c. at all dealers.

The noontide sun is dark, and mu-

## YOUR EYES

Are surely worth more to you than the price of a pair of glasses. If you value your eyes have them properly fitted at once. Delay and your eyes may become so bad that no glasses will help them, then you will regret it the rest of your days. This is true every word of it Do not trust travelling Opticians and peddiars to fit you with glasses. They get your noney and you get the \*xperience. This we know because it is told us by people that comes to us for glasses after having bought of the Spectacle peddiar. Our Optician is a graduate of the Detroit Optical college and is fully optical college and is fully equipped with all the modern conveniences. We will examine your eves free of charge, at the sign of the Big Clock.

ared by Four Bottles of n, Britis possible ardock Blood Bitters. stance:

> Mrs. N. Peister, of Brighton, Ont., was Cured Two Years Ago and Has Had No Return Of It Since.

Read what she says :- "It is now about two years since I was cured of a terrible attack of Erysipelas, with which I had been afflicted for about ten years. I had tried almost everything, including medi-eine from several doctors, but could get no relief. I had given my case up as hopeless, but I procured five bottles of Burdock Blood Bitters, and it completely cured me. In fact, the cure has been permanent. It is now two years since I took Burdock Blood Bitters, and I have not had the slightest sign of the disease returning. I fully believe that your wonderful remedy has taken it so completely out of my system that I shall never be bothered again with it. I have the greatest of faith in Burdock Blood Bitters."

JOSEPH SMITH THE PURCHASER.

Head of Mormon Church Buye 67,000 Acres in Alberta. olis, April 3.-A special from Minneapolis, April 3.—A special from Butte, Mont., says: President Joseph Smith, head of the Mormon Church, has bought 67,000 acres of land in Alberta, and proposes to establish a colony of Mormons. The price paid was about \$400,000.

Rev. Dr. S. G. Stone Dead.

Parry Sound, April 2.—Rev. Dr. S. G. Stone, of Sault Ste. Marie, died suddenly of heart failure Saturday morring at the residence of his son, H. E. Stone, Parry Sound. Rev. Dr. Stone entered the ministry in the Methodist Episcopal Church in 1861. Later he was elected editor of The Christian Advocate, the organ of the M. E. Church. He was one of the two representatives of his church at the comenteal conference in London, Eng. After the union of the four branches of the Methodist Church he became associate editor of The Christian Guardian. In 1897 he was elected president of Toronto conference. Two years ago he asked for supersnusation and has since resided in Sault Ste. Marie. A widow, six sons and three daughters survive him.

E. D. O'Flynn Dies.

Bellevile, April 3.—E. D. O'Flynn, of Madoc, died Saturday afternoon. He was many years one of the leading figures in the County of Hastings, having been a member of the County Council and Warden of the county. The deceased was a Liberal and was twice a candidate for election to the Dominion House of Commons against Sir Mackenzie Bowell, and once for the Ontario Legislature against the late Dr. Boulter. On each occasion he was defeated. He was 74 years of age and was born in Lennox County.

Booth to Equal Eddy. Ottawa, April 3.—John R. Booth has under consideration plans for the erection of an immense paper mill equal to the Eddy establishment. The pulp mill is now in operation and he intends manufacturing its product.

New York, April 8.—Ralph Vorhees, of New Jersey, has donated \$100,000 to the American Tract Society.

### "DOLLAR WHEAT."

Trusts and monopolies are usually considered to be unfair, because they tend to make the rich richer and the poor poorer. Nevertheless, in some cases, the producers are directly benefited. For instance, when a 'big' corner' raises the market price of grain and produce to a fabulous sum, the farmer benefits, if he does not part with his wheat too early, and a dollar a bushel would mean, on an average, that over \$730,000,000 would go annually into the pockets of the farmers of the United States. The operators, later, buy up all the available grain and store it in big elevators, awaiting the proper moment to unload it on the market at the best price.

In the same way that the earth yields food for man, so does it provide remedies for human tile. Thousands of households throughout the farming districts of the United States know the value of Doctor-Pierce's Golden Medical Discovery. It is nature's most valuable and health-giving agent—made without the use of alcohol. It contains roots, herbe and barks, and is the concentration of nature's vitality as found in the fields and woods. This remedy has a history which speaks well for it because it was given to the public by Dr. R. V. Pierce, founder of the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., nearly forty years ago, and has since been sold by dealers in medicines in ever increasing quantities. Dr. Pierce's Golden Medical Discovery has proved such a reliable blood remedy, tonic and liver regulator, that it often enjoys the confidence of several generations in a family, and its increased sales year by year coming from the recommendations of those who have tried it, prove its lasting merit, so that every hotic bears the stamp of public approval.

### VICTORIAN'S ROUGH TRIP.

Arrived Halifax Saturday Having Averaged 13.23 Knots Under Stress.

eraged 13.23 Knots Under Stress.

Halifax, April 3.—The new turbine steamer Victorian, which has been awaited with so much interest, arrived Saturday morning, docking at 11.30 o'clock. As she came up the harbor the wharves were thronged with thousands of spectators. She was boarded immediately by officials and newspaper men, and, after a hurried inspection men, and, after a hurried inspection trip, Capt. McNicol called them into the salon and told the story of the trip. He said the ship had encountered bad weather, and had left Moville in the teeth of a strong westerly gale. Approaching the Newfoundland coast, ice was encountered in about letting.

teeth of a strong westerly gale. Approaching the Newfoundland coast, ice was encountered, in about latitude 47, and the ship was compelled to take a southerly route, going south as far as latitude 42, the track of the steamers bound to New York. She logged 2509 between Moville and Halifax, and was 7 days 22 hours and 50 minutes on the voyage. The average speed was 13.23 knots per hour, and the best hour's run was 16.1-2 knots.

Wonders of the Wireless.

The Marconi system worked well, and through it the ship was kept constantly supplied with the news of the world. The system worked directly for about 120 miles, and by using the steamer Campania as a medium to reach the Lucania, a distance of over 300 miles was had. They were in conversation with the Celtic and St. Paul for two days, and it was from the former that all details of the Parisian accident were heard, and this was later verified from the Tunisian. When they pleked up the Tunisian that steamer was about 19 miles south of them, and they kept in touch for a distance of 167 miles.

The steamer brought 1,470 passengers, of which 98 were first and 476 were second cabin passengers, the remainder being third-class.

Even unmarried woman is positive she thoroughly understands how to make a man happy.

He that sins against his conscience sins with a witness.

When a woman is selfish there is no limit to its extent.

at. (138,229. All the varieties show an increase except sturgeon, catfish and tullibe. The decrease in the sturgeon catch was 9,000 lbs., in catfish 181,000 lbs., and in tuilibe 16,450.

Of the finer varieties herring showed an increase of 1,164,430 lbs., whitefish 241,530 lbs., lake trout, 488,12 lbs., pike, 236,375 lbs.

\$41,530 lbs., lake trout, 428,12 lbs., pike, 236,375 lbs.

The appliances used in this industry include 128 tugs worth \$313,512, employing 672 men; and 1,477 boats, valued at \$105,747, employing, 2,453 men; 3,490,036 yards of gill nets were used, 108 seines, 513 pound nets, 275 hoop nets, 75 dip nets, and 3 machines, which were licensed by the Department and valued at \$931,097. The fry distributed in Provincial water by the Dominion Hatcheries numbered only 77,359,000. In 1903 the total was 93,701,000.

The finest fishing waters in the Province are found in the North Channel of Lake Huron, where, in 1904, 4,343,225 lbs. of fish were taken. The catch of trout and whitefish in the North Channel exceeded that of any other provincial waters. Of the former there was taken 2,101,050 lbs., of the latter 1,532,200 lbs.

Lake Erle has the distinction of producing the largest quantity of herring—2,244,30 lbs. or 53 the 16the total the total the content of the co

MINES OF WEALTH.

Fisheries Catch of 1904.

During 1904 the total catch of fish of all kinds was 24,009,970 pounds, an in-crease over 1903 of \$,030,295 lbs. The estimated value of the catch was \$1,739,229. All the varieties show an in-crease event state.

Lake Erie has the distinction of producing the largest quantity of herring—2,644,300 lbs., or 63 per cent. of the total catch of the Province. Other varieties caught in Lake Erie also show an increase, except sturgeon and coarse fish. A similar condition exists in Lake Nipsissing.

The revenue from all sources received by the Department was \$50,000, and the expenses \$34,315.17, leaving a surplus of \$13,531.83. The maintenance of the steamer Gilphey, on Georgian Bay; costs \$4,500.

### FATHER JOHN BULL.

All English-Speaking Nations Are Members of the Family.

Comradeship and good-fellowship were in evidence at the recent banquet given by the R. C. F. A. sergeants, in the Tete du Pont Barracks, Kingston, Ontario, to the visiting sergeants of the 90th U. S. Infantry of Sackett's Harbor, N. Y. An address ween services.

90th U.S. Infantry of Sackett's Harbor, N. Y. An address was presented by the visitors, in which they said:

"It is an honor to sit with you in a gathering which likley has never occurred before. Such a feeling of comradeship and good-fellowship never existed at any time as at the present between those in the British and American services. We call each other cousins, why not brothers? Are we not children of the same parent? True, the elder child got on his ear and set up in business for himself, and is doing pretty fair, but the other children have no cause to complain of their share in the old man's business.

Are We Not Brothers?

### Are We Not Brothers?

Are We Not Brothers?

"Why not in this day of trust and consolidation in other lines of business extend it to the family business of Father John? Anyone that would try to prove this merger illegal would have a sorry countenance after he had been finished. If the elder child should get into trouble, does anyone doubt but that father and children all would come to his assistance? And does anyone think but that if the father or any of the other children needed any assistance the elder child would hesitate an instant? No. If not brothers, then what? First, our God; second, our country; third, our King and President; and then our family, the English-speaking nations."

### Lakes Getting Deeper.

Shipowners are puzzled over the cause of the phenomenal rise in the levels of the great lakes in the last ten years, and are at a loss to explain it, Every foot of added draught for their ships means the addition of thousands of dollars in their freight earning cap-acity, and as a natural result they are pleased.

pleased.

These figures show the rise in lake levels during the last ten years, the levels during the last ten beight show. number of feet being the height above

number of feet being the height above mean sea level:—

1895 1904.

Lake Superior ...... 603 1-6 603 1-4

Lakes Huron and
Michigan ..... 580 1-6 581 2-3

Lake Erie ....... 571 1-2 573 1-4

Lake Ontario ..... 245 248

In each case the comparison is taken at the high-water mark for the year.

Quick Work of Crematory Plant.

Quick Work of Crematory Plant.
"The time will come when dead bodies will be cremated in Toronto." said City Engineer Rust, to a reporter the other day.

Mr. Rust stated that he had just received a letter from a French firm offering to sell a crematory plant for this purpose to the city.

They said in the communication that they had disposed of a plant to the city of Leeds, England, and mentioned as a proof of its success that a human body which had been place in it in an los-cold condition at 3 p. m. had been converted into white ashes by 6 p. m., and 6.080 feet of gas was required for the cremation.

Lew Wallace's Ben Hur.

Lew Wallace's Ben Hur.

In commenting upon the literary triumphs of Lew Wallace, The Atlanta Constitution says:

"The motive for the great semi-relisious story of 'Ben Hur' came to the author after a straightforward talk with Ingersoil on the subject of religion and the existence of a God, and it was to reft te his doctrine and show the purely hursan probability of a God man that the great novellst undertook the preparetion of the work that has been translated into almost every known language."

The sale of the book is said to be as great as ever, twenty-five years after its appearance. Its success was phenomenal in every way, the aggregate sales reaching 1,000,000 copies.

Wild Cat Plentiful.

Wildcats seem to be plentiful in this meighborhood this season as several have been killed. This week S. W. Clifford killed two in the bush near zion, one of them weighing nearly sixty pounds.—Hepworth Journal.

## Interesting Statistics of the Ontario Statistics of importance as showing the growth of the fishing industry of the Province have been issued by Mr. S. T. Bastedo, Deputy Commissioner of Fisheries for Ontario.

PHILANTHROPY HIS HOBBY.

Sir William Macdonald's Latest Gift of \$4,000,000 to Education.

William Macdonald, the million

Sir William Macdonald, the millionare tobacco manufacturer of Montreal, is a phijanthropist of which any country would be proud. His latest gift to education amounts to about \$4,000,000, and yet little is known of it.

The bulk of the money will go to the establishing of two great colleges, ene an agricultural college, and the other a teachers' college, or Normal school, each a manifestation of the same general idea. The colleges will be practically one institution, although one will probably be under the Agricultural Department and the other under the Education Department of the Quebec Government. They will be built close together at St. Anne de Bellevue, where no fewer than six farms have been bought for the purpose. One of these has been famous for many years as the Reford Ayrshire for many years as the Reford Ayrshire

for many years as the Reford Ayrshire Stock Farm.

In addition to the main structures there will be residences for male and female students. The group of buildings will stand in a fifty-acre field sloping toward the river, and Sir William has given instructions that they shall be of the very best material obtainable. Brick and stone, steel, concrete and tiles will be used, and already the stone for the foundations has been laid on the ground. By October it is expected the colleges will be ready to begin the work which is certain to have such an important effect on the educational future of the Province of Quebec.

MAN 2,000,000 YEARS AGO.

Prof. Macallum Describes the Men of

the Stone Age. There are to-day in Australia some tribes who répresent the paleolithic or oldest types of prehistoric man, while oldest types of prehistoric man, while later types of the neolithic groups are found in America, declared Prof. Macallum in his lecture Saturday at Tenonto University. The former used chipped or flaked stone implements, while the work of the neolithic races was polished. When Athens was at the height of its greatness the shores of the Mediterracean ware neoned by more of height of its greatness the shores of the Mediterranean were peopled by men of the neolithic type; and during the Roman climax the Swiss lake dwellers were contemporaneous for 1,000 years. It would be many centuries before neolithic man disappeared, and he would be extinguished rather than transformed.

Remains of these primitive men were found in the pilocene strata, and two

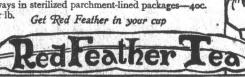

Remains of these primitive men were found in the pilocene strata, and two million years was a conservative, estimate of the age of these remains. Prof. Macallum placed the historic period at 16,000 years. While the skulls were found of a distinctly advanced type among the more primitive forms, these instances have been considered by men of science to be pathological exceptions. Prof. Macallum thought it strange that only exceptions should be preserved. The Spy skull, a celebrated discovery, had a brain capacity of 1,700 cubic centimetres, while that of the average Parisian was only 1,560. The oldest human remains were found in 1856, and these were of the neanderthaloid type, the lowest in human development.

the lowest in human development.

## 50 MINERS ENTOMBED

Thirty or More of the Buried Men Are Dead.

Horror at Joseph Leiter's Mine at Zeig ler, Illinois-Force of Explosion of Accumulated Gas Huris Steel Cage Up 500-Foot Shaft and the Shock of the Explosion was Felt at Benton 12 Miles Away.

Benton, Ill., April 4.—Some 50 mi ers were entombed yesterday in Jos-eph Leiter's mine at Zeigler by a ter-rific explosion of gas, and it is prob-able that 30 or more of the buried men are dead.

able that 30 or more of the buried men are dead.

Thus far four bodies have been found. The explosion, it is said, was due to the fact that the Leiter mines are not worked on Sunday, thus allowing gas to accumulate in the lower workings.

When between 35 and 45 miners had descended into the mine vesterday to resume work a terrific explosion blew the mouth of the mine high into the air. One of the steel cages was blown to the surface from the bottom of a 500-foot shaft. The shock of the explosion was felt at Benton 12 miles northeast of Zeigler.

500-foot shaft. The shock of the explosion was felt at Benton 12 miles northeast of Zeigler.

Main Shaft Demolished.

One miner was killed and four were severely injured at the mouth of the shaft in which the explosion occurred. The main shaft was demolished so that rescue work has to be carried on through the airshaft. This has hindered the work of aiding the entombed men to such an extent that when darkness fell last night only three bodies and one injured man had been brought to the surface. These bodies were found 40 feet from the bottom of the shaft and this is as far as the rescuers had been able to penetrate the shaft.

Dead Unrecognizable.

A committee of the union miners from Duqueen and other mining towns came to Zeigler soon after the explosion occurred, and offered their aid. The bodies of the dead are so burned that they are unrecognizable.

There was much excitement among miners because there had been a strike of long duration and many conflicts occurred between strikers and non-union miners.

An all day investigation tends to show that the catastrophe was due to the accidental explosion of accumulat-

show that the catastrophe was due to the accidental explosion of accumulated gas.

Caught in Wheel Shaft.

Kingston, April 4.—Yesterday mornIng, Edward Randall, of Gananoque,
was brought to the General Hospital in
a badly smashed condition. He is an
amploye in the hinge factory of Cowan
& Britton, and was caught in a wheel
shaft. His injuries consist of a broken
right leg, broken left arm and several
broken ribs, besides cuts and bruises.
The young man has no relatives in this
country.

broken ribs, besides cuts and bruises. The young man has no relatives in this country.

Woman's Injuries May Be Fatal.
London, April 4.—Yesterday, Miss Ward, whose brother-in-law is J. F. Prettle, bridge foreman of a constructing gang near Paris, was returning home after driving Prettle to the depot. The horse became frightened at a street car and ran away. Miss Ward was thrown against a telegraph pole. She was rendered unconscious for several hours, and now lies in a very critical condition at the Victoria Hospital.

Dies From Sprained Spine.

Walkerville, April 4.—Nine-year-old, Alfred Robinson died yesterday as the result of a peculiar accident. A month, ago, while trying to keep a loaded, wheelbarrow from tipping he sprained his spine so severely that his brain became affected. Nothing that could be done could save his life.

Lineman Electrocuted.

Ottawa, April 4.—Philip Forcault, aged 43 years, for many years a lineman, was electrocuted at Aylmer years an employe of the Hull Electric Co., and was an experienced man.

Proper Care Lacking.

Toronto, April 4.—"We find that Lillian Mulvaney came to her death by having been run down by a street car at Soho and Queen streets, on March 23, and we find that the proper care had not been taken by the railroad company." This was the verdict brought in by the coroner's jury last night. Coroner Wilson conducted the inquest.

### DEATH OF JOHN R. MARTIN.

Fermer County Crown Attorney of Hal-dimand Dies in Windsor.

dimand Dies in Windsor.

Windsor, April 4.—John R. Martin, for the past ten years a resident of this city, is dead. He was a prominent member of the Ontario bar, and for 18 years was Crown Attorney for Haldimand County. Mr. Martin was born in Ireland 82 years ago. He was a grandson of the celebrated Col. Richard Martin of Commenara, who represented Galway before the union of the Irish and English Parliaments.

Operated on Prince of Wales.

London, April 4.—The Prince of Wales underwent an operation yesterday morning at Mariborough House, the nature of which was not divulged in the official statement subsequently issued, as follows:—"Owing to a slight operation this morning the Prince of Wales will be confined to his room for a few days. As his condition gives rise to no uneasiness, no bulletins will be issued."

J. W. Baumann Dead. Hamilton, Ont., April 4.—Prof. J. W. Baumann, the well-known violinist and instructer, died of paralysis at St. Joseph's Hospital yesterday morning. He had been ill for some time. He was 55 years of age and unmarried. Deceased was a native of Germany but had lived in Canada many years.

Castro Is Satisfied. Castro is Satisfied.

Caracas, April 4.—President Castro yesterday said that he is well satisfied with the turn of American-Venezuelan affairs and feels sure that there will be no difficulty between the two nations. The American Government and people, he added, are beginning to understand the true situation.

Canal Openings. Oftawa, April 4.—The Department of Fallways and Canals has arranged for the opening of the Welland Canal on the 24th in the The St. Lawrence and Quebec canals will be opened May 1.

Geo. A. Young,

SPENT \$26.45; WAS DEFEATED.

Winnipeg, April 4.—The precis of the Manitobs Government's documents relating to the Provincial claims for extension of boundaries was not in a sufficiently forward state for publication yesterday, and the public which was on the tiptoe of expectancy, will have to wait till this afternoon, when, according to official assurances, the document will be given out.

Strathcona's Successor.

Montreal, April 4.—A gentleman well informed and conversant with Canadian politics, said yesterday:
"Lord Strathcona's successor as Canadian High Commissioner in London may be Lord Mount Stephen and his appointment would be acceptable to everyone in Canada and in England."

Claude Bragg has returned from spending a few days in Detroit. Claude saw the production of Ben-Hur in the Detroit Opera House Saturday night.

E. E. Parrott delivered an address at the Gospel Temperance meeting held in the I. O. O. F. Auditorium, Sunday afternoon. Mr. Moore made an excellent chairman and Mr. Pickett gave a trombone solo. The orchestral gave a number of selections.

J. L. Wilson & Son, architects, have already this year got out plans and specifications for four large churches, which will mean a total expenditure of \$60,000 in churches. They are all out of the city, one a Presbyterian church at Delmer, and the other three Methodist churches at Corinth, Goderich and Leamington.

### SUDDEN DEATH

John A. Patterson, one of the pi neers in the Township of Harwich, and one of the most highly respected citizens in the county, was suddenly summoned at his residence on Monlay last from an acute attack of

summoned at his residence on Monday last from an acute attack of asthma, in his eighty-third year.

On Sonday he was in his usual health and attended to his farm duties, but it is supposed the slighty cold he caught aggravated his trope ble and death occarred in less than five minutes after the attack.

The deceased came from Beame-ville when a young man, without means, and accumulated over twelve hundred acres of the beet land in this county, owning over 600 acres in Hanwish 400 in Raleigh and 200 in Camden, which three years ago he divided amongst his children and for the benefit of the widow who survives him and who is a sister of the late John A. Langford, for many years warden of the county. The surviving children are, A. B., Northwood: John L., Fletcher: A. K., Walkerville: Mrs. M. Campbell, Bottary; A. H., hardware merchant in this city, and Mrs. H. A. Clark, of Gluzing Cross.

The funeral will take place on Wednesday, at two o'clock p. m., to Bethel Charch, near Ken: Bridge.

A very pleasant and enjoyable function was held in the Holy Trinity Sunday school last evening when the congregation and friends of the church extended a formal welcome to their new pastor, Rev. J. W. Hodgits. The firm of Albert Jahnke & Sons undertakers, who were recently burned out of their premises on King street, have reopened again in the Scane Block and are prepared to accept funeral enragements. They have opened up with a complete stock of undertakers supplies and are in as good a position to do business now as they were before their fire.

gius.

There was a very large attendance and Mr. Hodgins could not have wished for a heartier or more spontaneous welcome. Addresses were given by different clergymen in the city expressing their pleasure at receiving Mr. Hodgins as a brother pastor, and a good musical program was also given. Rev. Mr. Hodgins replied to the kind words that had been addressed to him and spoke very hopefully of his coming work in Chatnam.

Ald. Edwin Bell made a capital NOTICE, TO CONTRACTORS. Wanted, tenders for the brick veneering of Northwood Methodist church, Send applications to Irwin Boyle, Northwood, not later than April 10th. Ald. Edwin Bell made a capital chairman, presiding over the following program:

### REASON Nº 24 WHY YOU SHOULD USE

## Red Rose

Because it is full weight.

You get a full pound of tea inside the package. The lead wrapping is not included in the weight.

It is weighed by automatic electric machinesmachines that never make mistakes (clerks sometimes do), and the tea is poured into the packages after being weighed.

Put a pound package of Red Rose Tea on a scale and it will weigh 19 to 20 ounces, according to the thickness of the lead wrapper; or the tea, poured out, will weigh 16 ounces.

Everything about Red Rose Tea is always full measure-weight, quality, purity, and cleanliness-and your satisfaction will be full and complete when you use it.

T. H. ESTABROOKS, St. John, N.B. BRANCHES: TORONTO, WINNIPEG.

### THE MAN IN THE MOL

Some Curious and Varied Beliefs to His Identity.

According to Pratorius, the man in the moon is the patriarch Isaac, carrying the bundle of sticks which were to be lighted to sacrifice his own body on the mountain top. Dante believes him he Cathe carrying a hundle of thoras be be Cain, carrying a bundle of thorns, the meanest offering his lands afforded. as a present to God. In Iceland the people claim that they can see the face of Adam in the moon and that of The in the sun. Among the Frieburg-there is a superstition which says that the marks and spots on the moon's Sudas Iscariot, holding his hand over his face while sneezing just prior to hanging himself. This last belief accords with the old Frankish legend which says that there was no spot on Luna's bright face until after the time of the crucifixion of Christ. Still another story tells us that in the time of the creation God threw an offending angel against the face of the moon, while another is to the effect that the moon witnessed the creation of Adam and Eve and took an impress of their features on his surface, intending to people his own land with similar beings. When he essayed to imitate God's When he essayed to imitate God's works, he made nothing but a slimy serpent, which since that day has con-tinued to fold and unfold its mighty coils in full view of the descendants of the God created beings.

### TRUE STORY OF MASSACRES

Those at Baku Planned by Blood-Guilty Originators of the Terrible Butchery at Kishineff.

London, April' 3.—The true story of the Baku massacres as told in the Caucasian newspapers is a tragedy with which the atrocity of Kishineff alone of recent years may be compared, Armenians at Baku taking the place of the Jews at Kishineff.
"For four days," in the words of the Bakinskia Isvestia, "a savage bacchanalia raged in which the passions of homicide, outrage, arson and plunder were let loose."

were let loose."

2,000 People Killed.

The paper goes on to say that during those days no less than 2,000 people lost ther lives as victims of the cold blooded machinations of the St. Petersburg authorities. The latter attributed the outbreak to the sudden development of an internecine feed between the Mussulpan and Armenian inhabitants, but those acquainted with the relations of the Christians and Mussulmans there know this to be false. The truth is boldly asserted by the Bakinskia Isvestia, which, it must be remembered, like all Russian papers, is published under the supervision of the censor.

the censor.

The Isvestia says that it has not the slightest doubt that the massacre was organized by the same blood guilty persons who planned the butchery at Kishineff. Then it proceeds and tells the blood-curdling tale in detail.

A word to the wise is resented.

honest treatment. It mose who are in search of horest treatment is equivalent to a care, because I never accept inequivalent to a care, because I never accept inequivalent to a care, because I never accept inequivalent to a care, because I never a care to money for the value I have given the patient, but I expect to prove my worth and show positive and satisfactory results before I ask for the fee. So, should I also cure the case, the patient loses nothing, and when I cure him I have given what is worth much more than money —I have given what is sworth much more than money —I have given what specialist in the lattle again. ### HOME SLAVERY.

Some Wives and Mothers Become Too Self Sacrificing. Self sacrifice is natural to some wom-

en. Often its power masters them alto-gether until their lives become one ceaseless devotion to endless labor and

ceaseless devotion to endless labor and acceptance of unpleasant things that the pleasant part of living may be kept sacred for the rest of the family.

The purely useless side of this entire self effacement must sometimes strike the beholder, who realizes that it gives as little real benefit to the family as to the individual. Putting aside the moral effect on the younger members of a family brought up to record their moral effect on the younger members of a family brought up to regard their mother as a machine operated for the family convenience, the woman who consecrates herself to the well being of her family does not really accomplish all she desires.

all sac desires.

If she renounces all recreation and higher life for herself and gives up all communion of mind and spirit with her husband and children, it is doubtful if she has chosen the best way of spending her health and energies.

If overfatigns anything her weekling the second of the se

If overfatigue numbs her mental brilliance or saps her buoyancy, the atmosphere of home is more greatly injured than the added cleaning and stitches and cooking can repair. If she is too worn out to give a support. is too worn out to give sympathy to the children's joys and sorrows, what do the lavish larder and fine furniture

And if, as does happen, overtaxed nature gives way and ofbras must step in the breach to take up her work, and to

the breach to take up her work, and to take care of the worker as well, what has she gained that she does not finally lose in her breakdown?

A life laid down in a worthy cause is not lost, but gained, but to teach children and husband selfishness and children and husband selfishness and the religious and husband selfishness and the religious to these to ruin one's own helpfulness to them by useless drudgery is not a worthy cause.—Chicago Record Herald.

### LARGE HATS.

How to Fasten Them on When Driv-ing In the Wind.

I have heard it said there is money awaiting the woman who will patent a device for keeping on a large hat while driving in the wind. My neighbor offers the following original idea: Stretch a fine black silk cord across the front of

SECURING THE BIG HAT.

the hat and on top of the brim, as shown in the illustration (A A A), fastening it on each edge with a veil pin. ass it along the sides of your face and tie it together over your hair at the back. Try it if you want to prove that the hat cannot blow upward in front-K. in Good Housekeeping.

Many women become middle aged from the simple reason that they allow middle aged habits to steal upon them and relapse into a state of physical indolence just at a time when they should fight against this tendency to give up exercise, says Woman's Life.
"The best preventives against growing middle aged," says a charming woman of forty-five, whose unwrinkled face and slim figure give her the appearance of being at least fifteen years younger than her real age, "are cheerfulness, a strict determination not to worry over trifles and a sense of humor that saves ion. A cold tul morning, a walk every day in rain or sunshine, face massage with cold cream at night, ten minutes' physical exercise immediately on rising, friction of the hair to stimulate its growth, will keep any woman free from wrinkles and will preserve the contour of her fig-

Twe Kitchen Cemforts.

I find my two best kitchen friends are a high stool and a camp chair; cost \$1. The bigh stool saves strength and rests the feet when employed in the ceaseless round of washing dishes. So many women stand to peel potatoes or apples, while I find it a great pleasure to sit in my camp chair with lean back. It is very light and can be easily lifted to the handlest place in the kitchen or carried to the open air. Then, again, I sit in my camp chair by my blue flame when frying fritters or doing the many things which need almost constant attention. Offtimes I can have paper, magazine or book in hand, but with the nose and ears so close the cooking can be attended to even if the eyes and mind are otherwise engaged.—Brown Book.

Baked Potatoes.

Baked potatoes are supposed to be very easily digested, and so they are when they are baked properly. A hot oven is necessary, for a strong degree of heat is required to turn the starch of the potato to dextrin. Cooked in a slow oven a baked potato is no more digestible than boiled. Potatoes in the shell are very good, besides being wholesome. Bake large potatoes, and when quite done cut off a piece from one end and scoop out the inside: Mash with salt, pepper, butter, a little hot milk and the white of an egg to three potatoes, the egg heaten stiff. Refill the shells and return to the oven for a few minutes.

A Tale of a Tub. The two pretty American girls had met two delightful Englishmen on the way across and had given a cordial invitation, warmly seconded by their mother, to Sir Charles and his friend to visit them at their country home. One day a message came saying the two men would arrive that afternoon. The family was thrown into a fever of excitement, and many plans of entertainment for their guests were suggested and abandoned. It was finally decided that, as Englishmen are no-toriously fond of a "tub" and their guests were coming directly from the train, they should first be invited to take a bath. After that the hostess would rely on the inspiration of the

moment.

The young men arrived promptly and after some demurring were hurried off to the bathroom. In about an hour they emerged and went immediatly to their hostess, saying, "We are sorry to leave so soon, but we only came to make a call, and our train leaves, in fifteen minutes."

SERLING & KOVINSKY

Curing the Gapes.

I keep wheat soaking in a small both tie of turpentine. If a chick wheezes, snuffles and ratties as though it had a cold, this is the forerunner of gapes, says an Illinois breeder in American Agriculturist. When gapes are unsupplied to the color of the color of turpenting the color of the color of turpenting the color of turpenti usually violent and fatal a chick may begin gaping without showing these. In such case the chick is nearly always a goner. Carbolic acid will help him if anything will.

Pour a little refined carbolic acid in a spoon, hold it over a lamp, and dense white tumes will soon arise. Hold the chick's head in these, drawing him away for a second or two to let him catch his breath. Don't let him get his bill in the acid. If you look at the would rely on the inspiration of the moment.

The young men arrived promptly and after some demurring were hurried off to the bathroom. In about an hour they emerged and went immediately to their hostess, saying. "We are sorry to leave so soon, but we only came to make a call, and our train leaves in fifteen minutes."

Minard's Liniment Cures Dandruff.

his bill in the acid. If you look at the acid in the spoon before you pour it back in the bottle you can often see the tiny red worms that the times made the chick cough up. Five cents worth of acid will doctor dozens of chicks. If the chick is only coughing, two or three grains of the wheat or a tiny plece of asafetida may cure him. If he is still wheezing the next day repeat the dose. I never failed to kill a chick that I gave both carbolic acid and turpentine in one day.

THE POSTMASTER TELLS HIS SEURET

His Health Mainly Due to the Use of Dodd's Kidney Pills.

oathaster Lee Looks Ten Years Younger Than His Seventy-Six Years And He Gives The Credit To The Great Canadian Kidney

Tabuciatac, Cumberland Co., N. B. April 3.—(Special).—Horatio J. Lee, postmaster here, is now in his seventy-sixth year but so bright and healthy does he look and so energetic is he in his movements that he would easily pass for ten years venuer.

he would easily pass for ten years younger.

"How do I keep young looking," the poatmaster says, "Well, I attribute it largely to my good health and my health is mainly due to the use of Dodd's Kidne, Pills, "I first learned the value of this Kidney Remedy some years ago, I was then suffering from Kidney Disease. My feet and lers swelled and I had to rise eight or ten times in the night because of uninary troubles. Six boxes of Dodd's Kidney Pills restored my health at that time and I have used them at intervals since.

vals since.
"To anyone afflicted with Kidney Trouble I say 'Dodd's Kidney Pills are all right.' Try them and you will be sure to find a benefit."

Glass Eyes. People who through accident are obliged to use a glass eye should have one for night and one for day use The pupil of the natural eye is smaller by day than by night. A glass eye that looks all right during business hours gives the wearer an uncanny appearance at night.

The Brain Stene.
One of the most peculiar marine curiesities found at the bottom of the sea
is the brain stone, which in many ways
resembles the head of a human being,
with its many brainlike furrows.

BEWARE OF CINTMENTS FOR CA-TARRH THAT CONTAIN MERCURY.

As mercury will destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is tem fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the stem. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free, Sold by Druggists. Price 75c, per bottle.

Take Hall's Family Pills for con-

Masteal Fish of Ceylon. Every bay and inlet on the coast of Ceylon abounds with musical fish. Their song, if it can be called a song, is not one sustained note like a bird's, but a multitude of tiny, soft, sweet sounds, each clear and distinct in itself, something like the vibrations of a wineglass when its rim is rubbed with the moistened finger. In the harbor at Bom-bay, India, there is a fish with a song like the sound produced by an acolian

Blee the sound produced by an aeolian harn.

Free Medical Advice. Men and women suffering from chronic diseases are invited to consult Dr. Pierce, Buffalo, N. Y., by letter, absolutely without fee or charge. For more than thirty years as chief consulting physician to the invalids' Hotel and Surgical Institute of Buffalo, N. Y., Dr. Pierce has devoted himself to the treatment and cure of chronic forms of disease. Assisted by his staff of nearly a score of physicians, each man a specialist, his sancess has been phenomenal, ninety-eight persons in every hundred treated being absolutely and altogether curred. Women have especially availed themselves of Dr. Pierce's offer of free consultation by letter, thereby avoiding the ampleasant questionings, the abnoxious examinations, and odous local treatments considered necessary by some practitioners. Over half a milhon women have been treated by Dr. Pierce and his staff for diseases peculiar to women, with unvarying success. Write without fear as without fee. Every letter is the lack of it which makes the feather bed and its prototype among womankind after awhile pre-eminently tiresome. As to clothes for it, Brummel's famous aphorism anent dining out, "The finest linen, learned than decountry washen," appeared to it, Brummel's famous aphorism anent dining out, "The finest linen, easied the linen need not be overfine provided it is generously supplied, of a fair whiteness and smelling of rose leaves and lavender or new mown hay. The coarsest textures so conditioned make even beds of straw or husks more inviting than those stuff monuments of great estate, flock beds, down heds or hair mattresses, even though they be sheeted with satin and lace. By the way, it was a flock bred, "my second best," that Shakespeare willed Anne Hathaway, his wife not, as some have said, in misprision of her, but because the best bed, like freeholds and lease-holds, was subject to entail and went invariably to the heir.—Good House-keeping.

The Girl From School.

The daughter who comes home from

MRS. MAY WRIGHT SEWALL

A Prominent Reformer and Pounder of Wemen's Clubs. Mrs. May Wright Sewall, founder and ex-president of the International Council of Women, is of New England stock, born, however, in Wisconsin. She became a schoolteacher, a principal of a college and teacher of lan-guages soon after winning her A. B. Matrimony beckoned her in 1880, but did not deter her in her work along educational lines, but rather broadened ft. She possesses the degree of A. M. and with all her public life is a thor-

not neglected. She is the founder of other organizations, netably the Indianapolis Wom-an's club, Art association, Equal Suf-frage society, Indiana State Suffrage

oughly domesticated woman, her home in Indianapolis being a model one and

society, Association of Collegiate Alumnae, Ramabai circle, university extension work, Woman's Exchange, In-dianapolis Contemporary club and the Local Council of Women. Mrs. Sewall originated the plan for the Indianapolis Propylaeum, a company of women who have erected a handsome building for helpful purposes. She is a prolific writer of books and articles on literary reform and educational subjects and is in constant demand as a lecturer.

Mrs. Sewall is still in the prime of life, is fond of society and is a power in the social life of her city. Her weekly "at homes" are largely attended. Probably no woman in America so completely represents the life of modern woman, with its marvelous round of occupations and duties. Many official honors have been conferred up-on her. She is a member of the New York Sorosis and of the American Historical association.

Infammable Flannelette.
Surely the days of inflammable flannelette should be speedily numbered. The death roll among children who have been fatally injured by the ignition of this perilous fabric is simply appalling. The wearing of fiannelette has again and again exposed children to the same risk as if their night dresses were soaked in spirit. The fabric catches fire as easily and burns with the same intense flame as alcohol, and the flames are not readily extinguished. "An inquest was held yesterday on the body of a little boy, aged two. He was left to play in a room while his mother was absent. He was in a flannelette night shirt. The mother had not left the room long when she heard screams and found the boy in flames. He was terribly burned, and the poor little fel-low died within twenty-four hours of the occurrence." Such is the sort of ig paragraphs constantly appearing in the newspapers. One coroner alone has stated that last year he held no less than seventy-three inquests on children who had been burned to death, and a large proportion was due to flannelette igniting.-Medical Jour-

A Perrect Bed.
A perfect bed, like a perfect woman, is deliciously soft without being too impressible. The quality of rebound is indispensable—it is the lack of it which makes the feather bed and its proto-

unvarying success. Write without fear as without fee. Every letter is treated as strictly private and saredly confidential, and all answers are sent in plain envelopes, bearing no printing upon them. Address Dr. R. V. Pierce, World's Dispensary Medical Association, Buffalo, N. Y.

The chaste mind, like a polished plane, pay adm four thoughts without receiving their tincture.

The Girl From School.

The daughter who comes home from boarding school is often a disappointment to her mother. Is she not so? She is inclined to be critical and make remarks about the furniture, the table, even your gowns, which hurt bitterly, even though she is your daughter. She seems discontented with the old life, and you are at a loss as to what is to be done. But do not take the situation we seriously, and, above all things, de

Always the Same.

FOOD

Nestle's Food is always the same, whether you buy it in Canada or China. Nestlé's never varies

day or night-summer or winter. You can't always get milk from the same cow. A change of milk often means serious illness for baby.

You can get Nestle's Food in every part of the globe. THE LEEMING, MILES CO., LIMITED, MONTREAL.

not harass her with showing her what you consider her "plain duty." She loves you just as much, but she is young and has been away, says Woman's Life.

Although she seems very self assured, very confident of herself and her abilities, she has only not gone far enough to realize how little she knows. She must be led by affection and led with tact and gentleness. If she wants to make changes in the home life, so far as they are possible permit her to do so. It will give her occupation, and possibly the new ideas she brings out will mean something to you toe.

Cleaning Windows.

Kerosene is a splendid acid in the cleaning of windows. Into a basin put two tablespoonfuls of kerosene and two of water. Take a soft cloth a little larger than the hand, dip it in the basin, half wring it and wash your windows, both sash and glass. Then rub dry with a soft newspaper and polish with a soft towel. This process will remove flyspecks and dirt from both glass and paint more easily and quickly than soap and water and leaves the glass with a better polish. The quan-tity given is sufficient for washing two ordinary sized windows.

A REMARKABLE STORY

WOMEN TELLS OF HER FOURTEEN YEARS OF SUFFERING. From Buffalo, N.Y., comes a startling story iliustrating how much

suffering a woman can bear and yet live. Mrs. H. J. Rehorn, 189 Landon St., that city, says :-"Soon after the city, says:—
"Soon after the
MRS H J REHORN. birth of my first child,
14 years ago, constipation became
troublesome, and the various pills
and medicines I used would give temporary relief, but gradually they
seemed to lose their influence and
the condition became worse. I must
have used fully 50 different remedies.
"At times I would have no relish
for food, and what I did eat would
distress my stomach. Gas would
form and rise, headache and restless sleep, bearing-down pain, backache, and gradually I began to recognize the loss of strength, easily
tired, and never feeling fully rested,
"My husband brought me home a
bottle of a new medicine called AntiFull and from the first I began to
improve. My appetite was better
and what I ate did not make me
feel uncomfortable. Anti-Pill is
mild and gentle in its action, and
yet it cured my terribly obstinate
constipation and made me feel so
well."

WEDDING FASHIONS.

PREVAILING STYLES AND FANCIES FOR EASTERTIDE BRIDES.

Bride's Gown and Other Dresser The Heavy Trained Dress Versus the Airy Short One-Vells and the New Colfure Arrangement.

For pictorial representation is selected a charming bridal gown of white mousseline de duchesse, the skirt cut in deep vandykes, edged with a lovely Irish crochet point lace and falling over a quantity of white net frills. stitched with rows of narrow white satin ribbon and fine white silk me dallion lace, which lace is also again used in vertical lines on the back of the skirt. Particularly duinty is the corsage, with its deep bertha of lave

BRIDE'S GOWN

and bouffant sleeves of net run with ribbon, while the graceful bridal veil of net has a large true lovers' knot embroidered in each corner in white floss silk. The second cut shows two gowns of a trousseau, one being the going away gown.
White satin is still one of the hand-

somest of wedding gowns and gives a better effect than the newer diaphanous materials when made with a very long train. Charming as are the chif fons, nets, mousselines de soie and other filmy fabrics, they are not well adapted to very long trains. Hence the train in these materials is usually much shortened.
Lace veils, especially if they are

heirlooms, are quite the vogue, but otherwise there is nothing so charmingly becoming and altogether appro-priate as the very fine chiffon vells that crown the costume with a sort of radiant softness and grace.
Among the latest fads for brides

maids is the substitution of the elabo rate coffure and veil for the hat that has been so long worn. At a recent swell New York wedding the eight

## Mineral Baths

Chatham, Dec. 18, 1901.

For some years I was so badly used up with rheumatism in my hip and leg that I could not walk without suffering severe pain and finally got so bad that I was confined to my bed. I tried almost every kind of patent medicines beside consulting physicians, but obtained so relief. At last I was persuaded to try the mineral water and used it in liberal quantities. From the first I felt a decided change for the better, and now I can say I have entirely recoved. I cannot recommend the mineral water too highly and am pleased to such a magnificent establishment erected for the treatment of cases like mine. ROBERT BLACK,

Chatham, Ont.

### ON TO VLADIVOSTOCK

Vice-Admiral Rojestvensky Sends the Word to His Wife.

Russia Expects Him to Defeat the Japanese Fleet-100,000 Chinese Home less As a Result of the Fighting Around Mukden-Peace Recedes Into the Background-A Renewal of Fighting Expected.

St. Petersburg, April 4.-- A letter from Vice Admiral Rojestvensky to hi the departure of the second Pacific final and that now it is on the way to

Russia Leans on Rojestvensky. St. Petersburg, April 4.—The statements concerning the prospect of peacesent from St. Petersburg should be regarded with the utmost suspicion. The truth is Russia has the fullest confi-dence in the ability of Vice Admiral Ro-jestvensky to inflict defeat upon the enemy, thus completely turning the tide of systems.

100,000 Chinese Homeless en. Oku's headquarters in the field April 4.—There is much suffering among the Chinese in the vicinity of

Scores of villages were destroyed in

Scores of villages were destroyed in the recent fighting and 100,000 persons are homeless and destitute. The Chinese Government is now feed-ing and housing 60,000 refugees at Mukden and also furnishing seed grain. There is little prospect for good crops this season, owing to a lack of farm animals and implements.

The Japanese are employing thou-sands of Chinese and paying them lib-

Linevitah Too Brief.

London, April 4.—The correspondent of The Times at St. Petersburg cables: The brevity of Gen. Linevitch's tele-grams and the contradictory reports of Russian correspondents render it difficult to obtain a correct version of what is occurring in Manchuria. Some of the correspondents telegraph that the army is retreating to Sungari, others that it intends accepting an engagement near Sipinghai.

Marching Through Mongolia. The representative of The Novoe Vremya telegraph that there are ruwrenya teregraph that there are running through Mongolia. Gen. Linevitch's records flanking movements only on the east, and mentions a skirmish between Madriloff's scouts and Japanese cavalry south of Kirin. Temporary Check to Peace.

The belief is gaining ground that the prospects of peace have suffered a tem-porary check, although in the opinion of leading diplomats here a certain in-terval was bound to follow the first exchange of proposals, and it would be premature to say the negotiations had failed. The Foreign Office yesterday declared with special emphasis that the war will continue. This is the first time we have heard belilcose language from this ministry, though such assur-ances would naturally be given by the Foreign Office during the preliminary stages of negotiations. Wives of Reservists Starving,

According to The Razsvet, the wives of reservists who have been drawing re-lief from the Zemstro of Nijni Novgorod are now starving the Zemstro's funds being exhausted.

Expect Renewal of Fighting. Gunshu Pass (108 miles north of The Pass), Manchuria, April 4.—A renewaid fighting is expected shortly. The concentration of the Russian army is complete, with its advance lines south of the station of Sipinghai (74 miles north of The Pass). The Japanese are screening their movements well by Gunshu Pass (108 miles north of Tie screening their movements well by means of cavalry, and it is difficult to means of cavairy, and it is difficult to locate the bulk of their army. A heavy movement seems to be in progress on the Russian flanks. The railroad station at Changtufu (40 or 50 miles above Tie Pass), is occupied by Japanese artillery, but so far as ascertainable it does not cover large body of troops. Japa Capture Heights.

Tokio, April 4.—A part of the Kai-yuan force drove the Russians from Mienhuachieh and occupied the village and northern heights March 31.

Temporarily Repealed.
St. Petersburg, April 4.—An Imperial manifesto was published in The Finland mantesto was published in the Financia Gazette yesterday, directing that, in compliance with the request of the Fin-nish estates, the military service law for Finand, issued July, 1901, be tem-porarily repealed pending legislative settlement of the question.

Bomb Thrower Dead. Lodz, Russian Poland, April 4.—The Lodz, Russian Poland, April 4.—The would-be assassin of Police Commissioner Szabalovicz of the second district, who was seriously injured Saturday afternoon by a bomb which was thrown at him in the street, is dead. He never regained consciousness after being shot down by the policeman who ariested him.

Considerable excitement was caused at midnight by two Cossacks, who attacked four pedestrians, killing two and wounding the others.

The Governor-General has prohibited the sale of revolvers. The gun dealers have been ordered to enclose all the revolvers in sealed cases and to hand them over to the police.

### Fought in the Crimea.

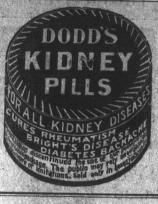

Kingston, April 4.—Patrick McGee, 75 years old, formerly janitor of the old grammar achool, was found dead in bed yesterday morning at his home on William street. He was a Crimean veteran, a sergeant is the Imperial forces. He was a drill instructor for years.

### Fire at Guelph.

Guelph, April 4.—At noon yesterday fire broke out in the japanning room of the Taylor-Forbes Co. and before it was subdued damage to the amount of \$1,500. Covered by insurance.

### Five Feet of Snow.

Denver, April 4.—The snow storm, which has raged in Colorado and a portion of New Mexico for 35 hours has subsided. Between Clyde and Fairview the snow is 5 feet deep.

M.P.P.'S MARK TIME.

Legislature Not Doing Much While Waiting for the Estimates, but

Toronto, April 4.-Very little business of importance was transacted during the brief session of the Legislature yes terday afternoon. There was a slim brought down, which may not be til Tuesday of next week, the members will mark time. Meanwhile the Cabinet is working overtime, revising the demands of the various departments.

Two bills were introduced. Mr. Tor-

rance (North Perth) seeks an amend-ment to the Municipal Act, to make it optional with municipal councils empt property assessed for sidewalks as local improvement. Dr. Jessop (Lincoln) has an amend-

nent to the act respecting conveyances to trustees for burial grounds, whereby the trustees can beautify the grounds whether the owners of lots agree or

Hon. Mr. Hanna laid on the table corrion. Mr. Hanna laid on the table correspondence between Sheriff Dawson of Lincoln and the Government with regard to the appointment of a jailer to succeed the late T. P. Blain.

The report of J. W. Mallon, inspector of legal offices, for the past year, was laid on the table.

The Premier informed Mr. Minro

was laid on the table.

The Premier informed Mr. Munro (North Oxford) that James Co bailiff of the first division court of the County of Grey, had been removed "for having been an active partisan during the elections."

In reply to Mr. Preston (East Dur-ham) the Premier said the report of the Railway Taxation Commission had not been received, but would be laid on the table as soon as it was received. The secretary of the Commission, W. J. Wilkinson, stated after the session that the report was not yet ready.

HON. JAS. SUTHERLAND HOME. Will Not Resume Duties at Ottawa During This Session.

Woodstock, April 4.—Hon. James Sutherland, Minister of Public Works, arrived home early Sunday morning from San Antonio, Texas, where he has spent the past four month in an endeavor to regain his lost health.

The week's traveling from the south had its effect, and as a regard Manda its effect, and as a regard.

The week's traveling from the south had its effect, and as a result Mr. Sutherland was greatly fatigued on his arrival. While the climate in the south has benefitted him in some respects, yet he is far from being well. The weather in Texas a large part of the time was most unfavorable consequently Mr. Sutherland did not improve as much as he had anticipated. he had anticipated.

Mr. Sutherland yesterday expressed

Mr. Sutherland yesterday expressed the hope that the coming summer months at his home here would make him feel binness again. It is most improbable that he will be in a condition to warrant his return to Ottawa during the present session of the House.

PARTY FURNISHED MONEY.

Hon. Mr. Prefontaine Says It Put Up for Petitioners' Deposits.

Montreal, April 4.—Proceedings in connection with the petition of Ludger Pleau, contesting the election of Ald. Arnes, as M. P. in St. Antoine division

Ames, as M. P. in St. Antoine division commenced yesterday before Judge Curran.

The first witness called upon to give evidence was Hon. Raymond Prefontaine, Minister of Marine and Flahe eries, who upon being questioned by counsel for the respondent, admitted that the Liberal party had furnished Pleau, as well as the petitioners who contested in other divisions, with the necessary money to make their deposits.

A by-law providing a reward of some striction of for the arrest and conviction of horse thieves.

The publishing of the early closing a day from Chicago, through without by commendation of the property committee with power.

Ald, King asked what about the removal of the market shed.

Mayor Cowan replied that this matter was in the hands of the Board of Works.

On motion, the chairman of the Board of Works was empowered to advertise for a suitable lot upon which to place the market shed.

Ald, Austin asked what steps had been taken to secure a onliding for a market while the new one was being built.

Ald, Westman said that the Profice or iving rooms.

## STRONG SUITS FOR BOYS

We are showing a big range of Boys' Suits that will give an easy feeling to the mother who has a rough-and-tumble boy who is distressingly hard on In the first place they are made of good, stout,

serviceable fabrics that will stand the knocks as well as anything that is not iron. Then they are strongly put together, and cut

in as smart styles as our men's suits.

Boys' Fancy Norfolk Suits, in up to-date Tweed Patterns and Serges, sizes 22 to 34, \$2.75 to \$6.50 Boys' Smart Double Breasted Tweed Suits in the stylish shadings, sizes 28 to 33, \$4.50 to \$7

Odd Knickers in Tweed, Serge and Corduroy, sizes 22 to 33, 50e to \$1.00.
