Our devout thankfulnels ought to be most ferioully devoted to the Supreme Being, as the true fource of every good, through whatever means derived to us; and herein we should, on this occasion, in an especial manner, earoestly adore the Divine Mercy in protecting the facred, precious, life of our Most Gracious Sovereign from the unprovoked machinations of foul confpirators, who have been confounded in their dark mischiefs, and have perished under the just, though awful vengeance of those wife and equitable laws, which they were wickedly attempting to subvert.

I rejoice, in feeling as 1 do, that not only every one here prefent, but also every perfor in this Province, will gladly unite with me; in the most earnest wishes of our hearts, that all fuch wicked and detestable endeavors may meet with a fimilar termination; and that, should it ever be necessary, we shall be found ready and willing to devote our lives and fortunes to fecure and enforce it.

Mr. Monk reported from the Committee to whom the Petition of Foreman, Graffie, and others, was referred, and he read the report in his place, and afterwards delivered it in at the Clerk's table, where it was read, and thereu; on

On motion, ordered, That the faid report be re-committed to the faid Committee and that they do prepare and bring in a Bill, in amendment of the Revenue 'Act, to grant the relief prayed for by the petitioners fo far as it relates to the collecting of the Duties on Rum, &c. Mr. Tonge reported from the Committee, to whom the petition of William Sabatier, and others, commissioners of the poor at Halifax was referred, and he read the report in his place, and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows:

That the committee having fully confidered the petition to them referred, and feveral documents laid before them by W. Sabatier, Efq. chairman to the board of committioners, they are fully perfuaded of the necessary of the establishment of a Bridewell, whereby much of that vice and profligacy, which is the predominating caufe of the diffress which calls for public relief, might be represented, and falutary effects produced, in the reformation of many of those individuals, who are thus burihensome to the public; and as a means of carrying this into effect, recommend the passing an Act to enable the Grand Juries and Justices in Session, to assess the counties in the fums necessary for such establishment, vetting the Supreme Court with the power of amercing fuch counties as (having occasion for such establishment) shall neglect to provide for the fame.

On the fecond head of the petition, that of other Townships sending their poor to Halifax, to relieve themselves from the burthen of their support; the Committee observe, that the Law, as it stands, affords a remedy for this evil, as such poor might be returned, with heavy costs, to the Township in which they were legally settled; but as the removal of the pauper would always be troublessome to the Township in which he claims relief, and in many cases impracticable, the Committee recommend an amendment to the Settlement Law, by which a pauper shall be maintained in the Township in which he may require relief, at the expense of the Township in which he may have gained a legal Settlement, until such latter Township upon notice of the circumstances shall remove such pauper.

It being notorious that miny poor are brought into the Country by Sea, who when taken on board the Veffels which convey them, are incapable of getting their livelihood, the Committee, (though fully fentible, that any reitraints on the introduction of Settlers into a Country wanting Inhabitants, fo much as this Province, fhould be adopted with great caution) are refpectfully of opinion, that all mafters of veffels might be compelled by Law, under a penalty to lodge with the Naval Officer of the port, where they enter, lifts of their crew and paffengers, for the infpection of the Commiffioners of the overfeers of the poor, and in cafe it fhould appear that fuch perfons on examination before Juffices of the Peace, were either paupers or likely to become fuch at the time of their embarkation on board fuch veffel, the mafter to be compelled to give fecurity either to take fuch perfon out of the province again, or that he fhall not become chargeable to any Township therein.

On the fourth ground fet forth by the petitioners, viz. the inability of the Commillioners to refufe admittance to applicants, or to claim from those who have fome property a return of these expences, the Committee are of opinion, that the meafures fuggested in the fecond article of this report, afford a remedy for the first part of the evil complained of, and that to provide for the fecond, it is only necessfary to make by a clause in the Law, the Overseers or Commissioners of the poor, creditors to the pauper, and as such entitled to fue for any property, real or personal, which may be discovered to belong to such pauper.

The petitioners in the fifth place, fet forth, a yearly deficiency in the poor rates, occafioned by the inability in the Seffions, to allot as is the cale in the County rates a fair proportion to thefe diffricts, which are not within the Township or Peninfula, whereby the latter have the whole rate to support, as the annual deficiency is added to the enfuing rate. The difficulty on this head, arifes in the opinion of the Committee, from three causes : 1st, a misconstruction of the Law, and consequent irregular practice of affesting as a part of the Township of Halifax, the Township of Dartmouth and Preston, which as a seperate Township should have their own affestments and support their own poor : Secondly, the want of division of Townships of many many Settlements, within this Country, and without the bounds of its prefent Townfhips—and Thirdly, the too great extent of the Township of Halifax, which renders it difficult to collect the afferiments which are made.

The remedy for the first inconvenience lies with the petitioners themselves, and a proper application to the Governor and Council, would doubtless produce relief in the other two initiances.

On the tubject of the vote of  $f_{500}$  granted in the last Session, to assist in the erection of an Hospital, on a particular plan, the Committee find that this fum was not laid out on account of faid plan being found far to exceed the means for its execution, the Committee recommend that the faid sum of  $f_{500}$ , be granted without any other condition than that the Town of Halifax raise  $f_{1000}$ , to be applied to the same effect.

Lastly, the Committee with great deference recommend the placing of the poor who have not legal places of Settlement within the Province, under the direction of Provincial Commissioners, who shall have the general direction and superintendancy of all such paupers, as are usually called Transsent Poor, with power to place them in the Poor House of Halitax, or in any Township in the Province, where they, can be maintained with greatest advantage to the public.

On motion refolved, that the faid report be now committed to a Committee of the whole House,

Mr. Speaker left the Chair,

Mr. Millidge took the Chair,

Mr. Speaker refumed the Chair.

Mr. Campbell reported from the Committee appointed to take into confideration the prefent flate of the Fifheries of the Province, and he read the report in his place, and afterwards delivered it in at the Clerk's Table, where it was read, and is as follows:

That it appears to the Committee the bounty of one shilling per quintal, on Cod, Fish, granted last Session of Assembly, has not (from various causes) answered the beneficial purpoles contemplated by the Legislature. Secondly, That it is the opinion of the Committee it would greatly promote and encourage the Fifhery, as well as tend to encrease the number of shipping and seamen in this Province, if a bounty of of feven shillings and fix pence per ton, was given on all Veffels of fifteen tons and upwards, duly registered and owned in this Province and wholly employed in the Cod, Salmon, Herring, Gaspereau and Oil Fisheries, for any term during the prefent feafon not lefs than three months. Thirdly, The Committee are of opinion that all the Veffels of the above description employed in the Fisheries do not exceed 3660 tons, they therefore recommend that the fum of £1372 15. be granted and appropriated for the above purpole. The Committee, with great deference, beg leave to submit to the confideration of the House, the wildom and juftice of paifing a Refolve which might enable the Treaturer of the Province to pay to William Nixon, Efq. the fum of £20 14. being the bounty of one shilling per quintal on 414 quintals of Cod Fifh, bona fide caught and cured last fummer by inhabitants of this Province, as per certificates which bounty (although they were juftly entitled to the fame) it was impossible for them to apply for, exactly conformable to the directions of the Law, from circumilances originating on the part of Government, and confequently out of their power to prevent.

Entirely convinced of the rectitude of your Majefty's conduct, and your fincere defire of maintaining the Peace folately concluded, we fee, with equal regret and indignation, the baneful effects of the unbounded ambition of a refile's and implacable Foe, by which your Majefty is again compelled to have recourfe to arms, to defend the dignity of your Crown, and the just rights of your infulted People.

Sensible of the infufficiency of our means, we know that we have but little aid to offer in the prefentmomentous contest, but that little we tender heartily and freely, and for ourfelves, and our constituents, felemnly pledge to your Majesty the utmost exercion of our refources, and should the Enemy make holtile attempts on this part of your Majesty's Dominions, we truft we shall evince that we are neither degenerated from the Stock, from which we sprang, nor infensible, nor unworthy, of the bleffings of good government, rational liberty, and the powerful protection of our parent country.

Grateful for the enjoyment of these inestimable privileges and loyalty, and affectionately attached to your Majesty's perfon and family, we offer our most fervent prayers to Heaven, for the prefervation and prosperity of both, and humbly implore the Great Giver of all good, that he may long continue your Majesty nis chosen instrument for dispensing the blessings of protection, order and justice, to a free, a happy, and respectable People, and as a pillar of fecurity for the independence of furrounding Nations.

We, the Subscribers, being appointed Commissioners by his Excellency Sir John Wentworth, to inspect and examine the Road and Bridges laying between the Three Mile Plain, and Pence's farm, on Halifax road, agreeable to a refolve of the Houfe of Astembly, last Sessions, to see if the Contract entered into between the Commissioners for faid road, and Daniel Hammill, for altering and repairing faid road and bridges, was actually and faithfully performed, according to the true fpirit thereof; having care. fully and minutely examined every part thereof, do report as follows, viz. That from the Three Mile Plain to Thomas Stone's wafte house, the road and bridges appear all well done, according to the letter and spirit of the contract, except three or four small fpouts for carrying the water across the road in low places, which the commissioners engage to have immediately done, and from Stone's house to where the road is intended to be altered at Mr. Uniacke's farm (although there appears confiderable work done,) ver there are many fpots or parts of it that the ditches are not fufficiently cleared to carry off the water, nor the road fufficiently rounded in the middle to an fwer the contract; and from thence to Pence's farm the road appears to be well done, and fully up to the contract, except the piece of new road mentioned in faid contract, to be made at Mr. Unia ke's farm, to avoid the hill, which appears only to be cut out, and nothing more done to it: notwithstanding there appears to be some deficiency in the contract as before mentioned, yet there are feveral alterations and improvements which appear to us very judiciously done, and at a much greater labour and expense than the faid contract required, and which the faid Commissioners inform us were not in contemplation when faid contract was made.

That the Committee have fearched the Journals of the Houfe of Lords, and find the precedents hereafter mentioned, from all which, and a variety of others which the Committee did not think it neceffary to transcribe, it appears that the appointing a Committee to fearch the Journals of the Lords, is a thing of a course, and the right of the Committee, to make fuch fearch, appears never to have been denied by the Lords or even doubted, And the Committee is of opinion, that the reasons, of the Commons enjoying this right, are much fironger in this Province than in the Mother

R

Country,

Country, because there the Journals of the Lords are printed, and the proceedings of that House open and public; here the proceedings of his Majesty's Council are in private, their doors being shut, and their Journals never being printed; it will be impossible for this House ever to obtain information, with respect to their proceedings; but through the mode now adopted.

On the 16th March, 1697, a Committee of the Houle of Commons was ordered to inspect the Journals of the House of Lords, and to report what they find therein of the proceedings in relation to Mr. Duncomb. And on the 18th day of the fame month the Lord Marquis of Harrington reported, That the Committee appointed to inspect the Journals of the House of Lords, in relation to Mr. Duncomb, had inspected the Journals accordingly; and what he found therein, he read in his place, and afterwards delivered it in at the table.

in the weitern parts of the Province, &c. and he read the report in his place, and afterwards delivered it in at the Clerk's table, where it was read and is as follows: The Committee recommend that the fum of 2751. be granted and paid for aiding

and encouraging fettlers on the new roads, to be diffributed as follows :

That the fum of 251. for each family be allowed for two families to be fettled on the road between Chefter and Windfor. For two families on the road between Lunenburg and the Nichaur road. For two families between Liverpool, and Nichaur. For four families on the great road from Mufquodoboit road to Guyfborough, and for one family on the road from Onflow to Tatamagushe; the money to be expended under the direction of Commissioners, who fall not draw for it, until the parties are actually settled, and shall have given fecurity to remain in such settlements for five years, and to keep such accommodation for travellers, as their circumstances will admit of.

The Committee further recommend, that the fum appropriated for the encouragement of Emigrants, to the weltern parts of the Country, be apportioned into four divisions for establishing Locations on the Tusket River, on Scissibou River, on Bear River, or fome other vacant Lands in the neighbourhood of Annapolis Bason, and on some vacant Lands in the District of Parsiborough, the money to be expended by Commissioners who will take the necessary previous measures to prepare for the reception of the Emigrants, by obtaining permission for Escheating such forfeitable Lands, as may be necessary for their accommodation and providing such provision as may be requisite to enable them to fettle on the lands affigned them.

The Committee further recommend that the House request his Excellency the Lieut. Governor, to appoint Commissioners, to perform this service, relident in the western parts of the Province.

The faid report was, upon the queffion put thereupon, agreed to by the Houfe.

Mr. Robie reported from the Committee appointed to draw up an answer to the Meffage received from the Council, on the 6th initiant, that he had drawn up an anfwer accordingly; and he read the fame in his place, and afterwards delivered it in at the Clerk's table, where it was read and is as follows:

The Houle of Allembly, on the 1st instant, appointed a Committee to fearch the-Journals of his Majesty's Council; relative to their proceedings on a refolution fent from this Houle to his Majesty's Council, for granting the sum of five thousand seven hundred and ten pounds, for making and repairing roads and bridges; notice of the appointment of this Committee was given by the Clerk, to his Majesty's Council, on the 3d instant. On the fixth day of the fame month his Majesty's Council having fent no Message to the House on that subject, nor having taken any notice of it, the Committee appointed by the House went to the Committee room of the Council, and feat a Message by the Clerk of the House, informing the Council of their waiting in

the

the Committee room of the Council for the purpose of fearching the Journals of the Council agreeably to the order of the House; the Clerk immediately returned to the Committee room, and informed the Committee that his Majeffy's Council received no mellage from Committees : upon the Committee reporting the foregoing facts to the Houle it was suggested that his Majesty's Council might probably have directed their Clerk to furnish the Committee of the House with their Journals for the purpose of the faid fearch ; and the Clerk of the House was sent to know, from the Clerk of the Council, whether he had received any directions to that purport, who informed the Clerk of the House, that he had not received any orders to permit the Journals of the Council to be infpected by a Committee of the Houfe, and that without fuch order he would not fuffer the Journals to be inspected. The House of Assembly having an undoubted right to inspect the Journals of his Majesty's Council, and having, in the attempt to exercise that right, been guilty of no impropriety, could not but be surprised at receiving the following paper from his Majesty's Council. (Vide see the Message from the Council, inserted in the Journal of the House of the 6th inst.). The House of Assembly, without making any observation on this paper, explicitly declares that although it does not intend to arrogate to itfelf a right it does not poffels, fo it is determined not to receive as a favor what it effects a right.

As to the mode of making the application to his Majesty's Council, if it departs at all from Parliamentary usage, that departure must be attributed to his Majesty's Council, which in the privacy of its procedures, and in keeping its Journals fecret, can thew no Parliamentary precedents of modern date. But the Houle of Affembly is of opinion that in ordering a Committee to fearch the Journals of the Council, it exercifed a right over its own members; that in fending notice to his Majesty's Councilof fuch a Committee being appointed, without directing the mode by which that Committee was to obey the order of the House, it was left to his Majelty's Council to have directed the mode in which the Journals were to be fearched; in this the House of Affembly acted with the delicacy it always wishes to manifest in its communications with his Majefty's Council; and it will remain with his Majefty's Count. cil to justify its own conduct in taking no notice of that meffage; and to point our, not by general affertions, but by particular inftances, in what the impropriety of the application made by this House consists. The House of Assembly has only to observe that when fuch impropriety, if any, exists; shall be pointed out, the House will with pleasure give to his Majesty's Council, all the satisfaction it can require, by a free acknowledgment of being wrong; and the House feels entitled to equal candour from the Council, accompanied by a plain avowal or denial of the rights of the Houfe to inspect the Journals of the Council whenever the House shall deem it necessary, without communicating to the Council the reasons which induce the House to order such infpection.

The faid answer was read throughout a first and second time, and upon the question put thereupon, agreed to by the House.

Ordered, That a copy of the faid Answer be fent to his Majesty's Council by the Clerk, and the same was sent accordingly.

The

The House having requested a conference by Committee, with his Majesty's Council, on the subject of the message received from his Majesty's Council yesterday, have trusted none to give their words on that conference, and have ordered it to be in writing, as follows :

That there being ample provision made by the monies now in the Treasury, and fecured by Duties and otherwise by Laws now in force for all the appropriations for the support of his Majefty's Government, and the payment of just debts of the Province, in the Bill, entitled, an Act for the future support of his Majefty's Government, and for the payment of all legal demands on the Treasury, &cc. now before his Majefty's Council, there does not appear to the House any reason on the grounds assigned by His Majefty's Council, to wit, that the Revenue Bills agreed to by both Houses are not passed, why his Majesty's Council, cannot take that Act into consideration, and give an assigned to differ thereto.

That generally during a course of years pass, the Revenue and Appropriation Bills have been brought up for the Governor's affent at the same time, and that the Revenue Bills would not on the present occasion have been detained in the Houle, had not his Majesty's Council, by rejecting in toto, the principal appropriations of money for public services proposed by the House, left scarce any object for which it was neceffary to provide a revenue.

That the House is ready and willing to raise a revenue, as soon as the purposes to which such revenue is to be applied, are settled and agreed upon, by previous communication between the two branches of the Legislature; which communication the House is, and has ever been ready to hold. But that the House conceiving it unconstitutional and derogatory to the rights of the subject to raise a revenue, until the purposes to which such revenue is to be applied are ascertained, cannot give effect to the Bills before the House, until they have assure of the assertion of the House, whenever those Acts were passed.

The faid inftructions were read throughout and first a second time, and, upon the question put thereupon, agreed to by the House.

His Majefty's Council have to obferve, that however ample the Houfe of Affembly fuppole the provision made by the Revenue Acts of last year may ultimately prove to be for the purpoles for which they were intended; the full produce thereof cannot be expected in the ordinary course of payments into the Treasury, before the middle of the year 1804, possibly never ! consequently His Majesty's Council cannot agree to a new disposition of funds already appropriated, the furplus of which, if any, is yet to be afcertained.

The detention by the Houle of the Revenue Eills, after they have been acted upon in both Houfes, and mutually agreed to, is a measure to unparliamentary and defiructive of all confidence, that unless those Bills shall be returned with the Speaker's name thereto, all future communication between the two branches of the Legislature will be rendered uncertain and fuspicious, if not wholly nugatory.

The Council disclaim all intention of trenching on the privileges of the House, their object is not to invade the rights of others, but to preferve their own. They will readily concur with the House in a reasonable and prudent application of the surplus of revenue, which may remain after the ordinary and indispensable expences of His Majesty's Government shall have been provided for; and if the House will consent to transact the public business as it has been usually done, no well-sounded cause of disfatisfaction need be apprehended.

The Council confider that these Bills must be returned, that a revenue may be provided, before they enter upon the appropriation. That His Majesty's Council will agree to a fum not exceeding 40001, to be appropriated for roads and bridges, but contend that they have a right to deliberate on the votes separately, and that was the reason for their not confidering the schedule sent up with the vote of 5,7101.

And the faid Meffage was read by Mr. Speaker, all the members being uncovered, and is as followeth :

Mr. Speaker, and Gentlemen of the Affembly,

In the progress of obtaining information upon the subject of your Address to me to-day, it appears that the Appropriation Bill for the support of his Majesty's Government, was sent down by his Majesty's Council with an alteration, proposed in the title and preamble only; which was returned to them without knowing what had been done upon it, but may be still had when defired. A second Appropriation Bill is unprecedented and unnecessary, as the whole provisions, finally agreed upon, may be included, as heretofore, in one Bill; it therefore appears that the House have it so far in their own power to expedite their proceedings, which is seriously recommended. J. WENTWORTH.

The House having taken into confideration the foregoing Message from Excellency, thereupon,

Réfolved, That from the information given to the Houle, by his Excellency, the Houle are bound to confider both of the Appropriation Bills, fent to his Majeffy's Council, as rejected, by the Council refußing either to agree or difagree to the fame.

Mr. Speaker,

His Excellency commands this House to attend his Excellency, immediately, in the Council Chamber.

Accordingly, Mr. Speaker, with the House, went up to attend his Excellency in the Council Chamber; where Mr. Speaker speaker to his Excellency as followeth:

May it please your Excellency,

It is my duty, on behalf of his Majesty's faithful Commons of this Province, to prefeat for your Excellency's affent, a Bill appropriating the Supplies granted to his Majesty the prefeat Session :

I feel an honeft pride in addreffing your Excellency in behalf of a people, who, in times when they were furrounded with temptations and dangers, remained true to the King; and, by the liberal Supplies they have granted to his Majefty the prefent Seffion, have afforded a ftrong proof that their loyalty is undiminished.

If the House of Affembly has encountered difficulties in appropriating the Supplies of the prefent Seffion to purpoles of the first importance to the Province, it has, at least, manifested its prudence and moderation, in making its feelings a facrifice to its wishes to preferve harmony in the feveral departments of his Majesty's Government; and, I am convinced, that the people of this Province will patiently wait a more favorable opportunity, to accomplish the numerous objects that yet remain unattained.

Notwithstanding the limited sphere to which our actions are confined, we are sensible that it is not fafe, in the present times, to indulge speculative opinions ;--we

Z

PEEL

FEEL the arduous contest in which our King and Country are engaged—we know, that the personal exertions of every man, worthy of the name of an Englishman, will be wanted; and we flatter ourselves with the hope, that, when our's are called for, Your Excellency will find, that the hardy Sons of Nova-Scotia have not degenerated; and, that every man is ready with his arms to support the Constitution, which it is our dury to defend, and our glory and happines to enjoy.

I fhould feel that I had omitted a part of my duty, was I to fail expressing on this occasion, how much of our present happines we owe to the mild and moderate government of Your Excellency; we are sensible, that You have the true interests of the Province at heart; and hope You are convinced, that the people will be ever mindful of the great obligations they owe to You.

l cannot conclude without expressing to Your Excellency my humble thanks, for the ready attention You have always given, to the numerous representations it has been my duty to make to Your Excellency; and I can, with confidence, assure Your Excellency, that the people of this Province well know the value of British freedom, and are not assure to die in its defence.

His Excellency was then pleafed to give his Affent to the Bill following :

"An Act for applying certain Monies therein mentioned, for the fervice of the year of our Lord, One Thousand Eight Hundred and Three; and for appropriating such part of the Supplies granted in this Seffion of General Affembly, as are not already appropriated by the Laws or Acts of the Province.

After which his Excellency was pleafed to make the following Speech :

Mr. Prefident and Gentlemen of the Council,

Mr. Speaker and Gentlemen of the Assembly,

THE public bulinefs, after the maturest confideration, being thus far advanced, it remains with me to return my thanks for the supplies granted for the support of His Majesty's Government, and for improvement of Roads, Bridges and Public Buildings throughout the Province: These useful measures shall be faithfully executed as far as depends upon me.

Great Britain, our Parent State, being again involved in War, through the infatiable ambition, and implacable hatred of the French Government, it is incumbent on us to be prepared for events which proper caution leads us to expect, you will therefore, Gentlemen, in your different diffricts, exert the greateft vigilance to repel every attempt, not only of hoftility, but allo those that may fecretly tend to discourage or diminish our animated efforts of defence and support of His Majesty's Government, towards which the unceasing practices of infidious enemies are always directed.— Hercin, Mr. Speaker, and Gentlemen of the Affembly, I receive particular comfort, ' that the proffered display of your liberality, in behalf of your Constituents, may furnish me an ample Resource to apply for the defence of this His Majesty's Province, should any fudden emergency arise to make it necessary. I hope, however, that the protection of our Parent State, hitherto so effectual, will, under the bleffing of Providence, ftill preferve us from the calamities of war in this country.

It is now my duty, with pleafure, to meet the united withes of both Houfes for a recefs, which I cordially pray may be attended with individual health and prosperity.

And afterwards the Prefident of His Majefty's Council by his Excellency's Command faid,

Gentlemen,

It is his Excellency's Will and Pleafure, that this General Affembly be prorogued, to Thurfday the First day of December next, to be then here held, and this General Affembly, is accordingly prorogued to Thurfday the First day of December next.
