# CASCARETS 10¢

### For Constipated Bowels—Bilious Liver

The nicest cathartic-laxative to physic your bowels when you have  
Headache Biliousness  
Colds Indigestion  
Dizziness Sour Stomach  
is candy-like Cascarets. One or two to-night will empty your bowels completely by morning and you will feel splendid. They work while you sleep. Cascarets never stir you up or rouse like Salts, Pills, Calomel, or Oil and they cost only ten cents a box. Children love Cascarets too.

## LADY LAURA'S RELEASE —OR— THE STORY OF A SPOILED BEAUTY.

CHAPTER I.

He was the ideal of an English landlord—handsome, brave, generous, a true lover of all outdoor and manly sports, his hand ever open to relieve distress, his ear ever ready to listen to the sorrows of the unfortunate.

He was still young when he fell in love with one of the most beautiful girls of her day, Laura Milroy, the only daughter of the Earl of Milroy. The young baronet believed her to be the fairest, the most graceful, the most tender-hearted of her sex, and during the whole of his married life he discovered in her nothing but perfection. In his blind idolatry he never perceived that she was vain or selfish, that she was shallow at heart; he discerned in her only the attributes of a good and noble woman, and he loved her with a full and perfect love, believing in and trusting her implicitly. His wife was the center of his hopes and plans, the one object of his care and worship; and next to her in his affection came his little daughter, whom, because of her beautiful face and sweet serious eyes, eyes in which dwelt a sweet brooding seriousness, they named Angela.

Sir Charles worshipped the child just as he did his beautiful mother. He commissioned one of the leading artists of the day to paint the picture of Lady Rooden and Angela, the slender, stately young mother looking down on the child playing amidst roses at her feet. Concerning the undeniably lovely face of Lady Rooden, the artist made no remark—he transferred it, with all its subtle loveliness, to canvas; but with the face of the child Angela he was enraptured. "They have named her well," he said to himself. "So far as the human idea can realize an angel's face, she has one. How deeply she will suffer, and how intensely she will enjoy! There will be no medium for her. She will know the very abandonment of sorrow and the very height of happiness. If it be true that the shadow of the future lies in the face of a child, this one will have a strange life."

Angela had reached her twelfth year when her first great sorrow fell upon her. A sweeter, fairer maiden it would hardly have been possible to find. Graceful, sensitive almost to a fault, tender and loving of heart, gifted with the truest refinement, gifted too with a poet's soul she was a continual source of wonder and delight to Sir Charles. He would not allow her to leave home for school, but engaged clever and accomplished governesses for her, so that he should always have her near him. The girl worshipped both her parents, though her father's character had the greater attraction for her, and, quite unconsciously to herself, she loved

him even more than she did her mother. To those who knew how frail and uncertain human love is, there was something almost pitiful in the devotion of the child to her father. The blow, when it did fall, was therefore all the more terrible to her. For there came a day, bright and sunny, full of perfume and sweetness and song, when Sir Charles Rooden left home in the morning with laughing jesting words on his lips and was carried back in the evening dead.

It was a bright May morning when he started. All the hawthorn trees in the park were in full bloom, and the luscious perfume of may and lilac filled the air. The tresses of the golden laburnum waved in the gentle breeze, the eliant trees were unfolding their pale-green buds to the genial warmth of the sun, and the birds were caroling a welcome to returning spring. Lady Rooden walked with her husband as far as the end of the drive. There the groom stood holding his horse; and Angela, clinging to her father's hand, begged that either she might go with him or that he would stay at home.

"You do not know, papa," she said, "what a different home this is when you are out of it."

"But," he reminded her laughingly, "you have your mamma."

"Yes; you are the sun, and she is the moon."

Sir Charles laughed again. "A poet's comparison," he said. "I shall not be long, Angela, I want to ride a little way down by the river, for I am told that one of the bridges over the Leir is not safe; I must go and ascertain what is necessary to be done. You shall ride with me this afternoon."

He kissed his wife's smiling face; he clasped his lovely little daughter in his arms and bade her "good-morning," and then rode away.

Lady Rooden waited with anxious surprise for the return of her husband. He was the embodiment of punctuality, and for him to fail in any appointment was most unusual. When he rode out, he said he should be home for luncheon at two; but two o'clock came without bringing the master of Rood Abbey. Three, four and five struck, and still he came not. Then Lady Rooden grew anxious. At first she persuaded herself that he had met with friends, and had ridden on with them, although it was unlike him to do that without sending word to her; but, as the hours slipped by, she grew more and more uneasy.

"Angel," she said to the child, "how late papa is! Let us go to the western terrace and watch for him!"

Mother and child stood leaning over the stone balustrade, looking down the drive—the fine avenue of chestnuts, with the shining river in the distance.

"I cannot see him, mamma," said the child.

And Lady Rooden, shading her eyes from the sun with her white hand, remarked:

"There is something wrong; down by the river, Angel. I see a crowd of men."

"Perhaps the bridge has given way and papa is telling them what to do. He would soon see what ought to be done."

The evening was fair as the morning. The wind stirred the lilacs and the long laburnum-trees gently in the garden below; Nature seemed to be reposing in the peaceful calm that had settled over all.

"I wonder what it is, Angel," said Lady Rooden. "The crowd seems to be moving and coming in this direction. They are carrying something. What can it be?"

"I do not see papa," said the child, whom nothing else interested; and they grew silent as the tall trees and the winding of the river hid the crowd from their view.

"I wish papa would come!" cried the child presently; and then, after a few minutes, there was a sound of tramping footsteps, of hurried, hushed voices, and the old butler came hastily on to the terrace.

"My lady, my lady, come in quick-ly!" he cried. "Do not look toward the river! Come in!"

Lady Rooden turned to him in wonder.

"What is it, Jarvis?" she asked.

"An accident, my lady," he replied. "Pray come in."

"What is the matter?" she demanded, on re-entering the room. "What does that noise mean? What is it?"

"Oh, my lady," exclaimed the agitated old man, "I wish I were dead instead of living to say such words to you. There has been an accident, and my master is—"

"What?" she gasped, her face growing white and rigid.

"What?" cried the child, who had followed them. "What has been done to papa? Where is he?"

"He was found in the river, my lady!" Jarvis replied, wringing his hands.

"In the river? Found in the river, do you say? Then he is dead!"

"He is dead, my lady, and they are bringing him home!" answered the man.

With a wild cry Lady Rooden flew from the house down to the stream, where she met the men bearing the lifeless body of her husband. When she saw his dead face, she fell, with a low, anguished cry to the ground, and was carried back home senseless.

It was not until the first shock was over that any one thought of the child. They found her lying near the window of the room, in an ecstasy of grief which no words of comfort could abate.

The mystery surrounding Sir Charles Rooden's death was never solved. Whether he had attempted to cross the river where it was shallowest, and had been carried away by the force of the current, or whether his horse had become restive and dashed into the water, no one ever knew. No one had seen the baronet; no one came forward to say that they had met him on that day. That it was an accident every one agreed, but how it occurred there was no living witness to tell.

How deeply the genial, generous master of Rood was mourned was shown by the assemblage of rich and poor who came to pay a last tribute of respect to a neighbor and friend.

In his will Sir Charles had not forgotten any of his faithful old servants or any of the charities he had supported. Yet to those who listened to the reading of the document there seemed to be something strange in it. It was strange that no income had been settled on the daughter for whom he had always such unbounded affection, strange that no dowry had been left to her, strange that not one farthing of what must ultimately be a large fortune should reach her until her mother's death, strange that so vast a fortune should be left to the absolute disposal of a beautiful young widow. No restriction was placed upon her; there was no forfeiture of money if she married again. The only thing she could not do was to part with property belonging in any way to house or estate. She could not sell a picture or a tree; everything was to descend to Angela just as she had received it.

"A strange will!" the listeners agreed, but it only showed the implicit trust Sir Charles had in his wife.

Lady Rooden was a little surprised herself.

(To be continued.)

## MOTHER! BREAK CHILD'S COLD

Hurry! Move Little Bowels with "California Fig Syrup"

No matter what else you give your child to relieve a bad cold, sore throat or congestion, be sure to first open the little one's bowels with "California Fig Syrup" to get rid of the poisons and waste which are causing the cold and congestion. In a few hours you can see for yourself how thoroughly it works the constipation poison, sour bile and waste right out.

can he will praise you for having given "California Fig Syrup" as the laxative because it never fails, never cramps or overacts, and even sick children love its pleasant taste. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

MINARD'S LINIMENT FOR DISTEMPER.

## MOTHER! MOVE CHILD'S BOWELS

"California Fig Syrup" is Child's Best Laxative

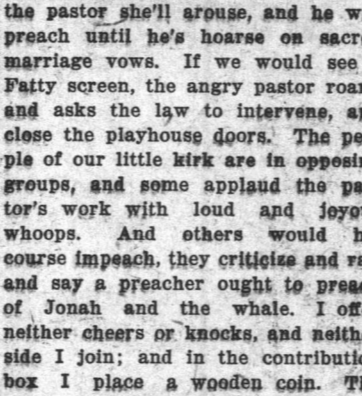

Hurry mother! Even a sick child loves the "fruit" taste of "California Fig Syrup" and it never fails to ease the bowels. A teaspoonful to-day may prevent a sick child to-morrow. If constipated, bilious, feverish, fretful, has cold, colic, or if stomach is sour, tongue coated, breath bad, remember a good cleansing of the little bowels is often all that is necessary. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

### THE BUSY PASTOR.

The pastor of our little church is busy all the time; throughout the town he seems to search for a sign of crime. And when he finds a dinner bent on wicked work or play, he makes that evil one lament the folly of his way. If some tired woman gets divorced, the pastor she'll arouse, and he will preach until his hoarse on sacred marriage vows. If we would see a Pasty screen, the angry pastor roars, and asks the law to intervene, and close the playhouse doors. The people of our little town are in opposing groups, and some applaud the pastor's work with loud and joyous whoops. And others would hiss and curse him, they criticize and rail and say a preacher ought to preach of Jonah and the whale. I offer neither cheers or knocks, and neither side I join; and in the contribution box I place a wooden coin. The parson who would make a hit must closely watch his step, for if he strikes to Holy Writ men say he's lacking pep; and if to modern things he's next, and hunts out sins and scammers, men give him, as his proper text; the virgins and their lamps. No matter how the pastor tries to cleanse this mundane place, some worshippers will promptly rise to say he's off his base. Our pastor jockeys many couples to hunt out hidden crime, and in the contribution box I drop a bogus dime.

### A Dainty Set for the Boudoir.

Pattern 3770 supplies these three models. It is cut in 3 sizes: Small, Medium and Large. The Cap No. 1, will require 3/4 yard of 27 inch material. No. 2 will require 1/2 yard. One Pair of Slippers will require 3/4 yard for a medium size.

For the caps: lace, batiste, net, lawn, satin, silk, cretonne and chintz could be used. The slippers are attractive in silk, satin, cretonne, chintz, flannel and eiderdown.

A pattern of this illustration mailed to any address on receipt of 10c, in silver or stamps.

A good dinner deserves a good cigarette, a bad dinner needs one. Let your choice be CUB.

Can be made more easily comfortable and pleasurable by the installation of this simple, economical device. Saves you one-third of your fuel bill. Keeps out cold and draft, dust and soot, deadens noises and stops rattle.

Coco Metal Weatherstrips placed on your windows and doors relieves you of the bother with storm seals. They are cheaper than storm sash; far more effective, and last as long as the building. For both new and old houses alike. Let us tell you more about it.

## War Debts Agreement

United States Will Fund Britain's Obligations -- Turks Refuse to Accept Allies List -- French Gain Advantage in Ruhr.

**DEBT AGREEMENT FINALIZED**  
 WASHINGTON, Feb. 2.—The final agreement on details was reached late to-day on the programme for funding Great Britain's war time debt to the United States, by the United States funding Commission acting with Sir Auckland Geddes, the British Ambassador.

**HARDING APPROVES.**  
 WASHINGTON, Feb. 2.—The arrangements for funding Great Britain's war time debt to the United States were declared at the White House yesterday to be the opinion of President Harding, "so fortunate and so worth while" that it should be accepted by Congress at the present session. The President is said to believe the terms agreed to by the British Cabinet very acceptable from every standpoint.

**POLITICAL VOTE SEEKERS MAY OPPOSE.**  
 WASHINGTON, Feb. 2.—In the face of confident expressions of the Senate and House Republican leaders that the British Debt Funding bill can be passed this session, signs of serious complications are arising from elements that charge that the arrangement is too favorable to the British and that a promise to stir up a protracted debate in which Congress will not doubt attempt to rouse an anti-British feeling. Moreover the advocates of the soldier's bonus in the House have definitely decided to offer it as an amendment to the funding measure.

**DIFFER ON THIRTY POINTS.**  
 LAUSANNE, Feb. 2.—A list of some thirty points on which the Turks differ from the Allies, was sent to the Allies to-day by the Turks in connection with the Peace Treaty which the powers are seeking to con-

has vast undeveloped resources which hold untold wealth and prosperity for the country at large, i.e., Iron, Ore, Copper, Coal, and Timber. Lack of capital has been the stumbling block for Newfoundland for the past decade or longer and it is hopeless to expect any Government operation of these resources while the country is in such a state of financial chaos. As a result, and thru lack of employment, the future of the country has been jeopardized by the emigration of thousands of its sons to America, the refuge for the non-employed of the world. Annexation by America would be the antidote for all Newfoundland's economical ills. Free trade with the United States would eliminate oppressive import duties and this Government revenue would be not only offset but increased ten-fold by the development of the country by American capital and subsequent exports. In answer to Mr. England's inference that Great Britain does nothing for Newfoundland you say that you don't wish to be "pap-fed" as have been many of the States within the United States. However, if "pap-feeding" can produce "The Nation of Nations," where a man is taken at face value instead of a central, and where petty creeds and distinctions are vaporized by the warmth of contentment, then by all means let your pride take a tumble.  
 Very truly yours,  
 JAMES E. MCGRATH,  
 c/o The Wall Street Journal, 44 Broad Street, New York City, N. Y., Jan. 26, 1923.

**Fire Underwriters Meet.**

**OFFICERS AND COMMITTEE ELECTED.**

The annual meeting of the Newfoundland Board of Fire Underwriters was held in the Board Room, Bank of Nova Scotia Building, at 4 p.m. yesterday, and was largely attended. After the usual routine business was attended to the election of officers, Committees on Rates, and Auditors, was conducted by the Chairman, Mr. C. Mackenzie Harvey. The election resulted as follows:—

President—C. Mackenzie Harvey, re-elected.  
Vice-President—J. Boyd Baird, re-elected.

Secty. Treas.—R. G. Ash, re-elected.  
Messrs. Arthur C. Peters, Cyril E. Carter, Walter J. Edgar, were elected as a Committee on rates, with the Vice-President and Secretary as members ex-officio.

Messrs. George H. Halley and Arthur C. Peters were elected Auditors. The report showed that the losses during 1922 were very heavy, and it was claimed that the majority of fires were due to carelessness. It is the hope of the Board that during 1923 some effort will be made by the teachers of the various schools to instill in the minds of their scholars how much property and probably lives can be saved from the ravages of fire by the careful handling of all inflammable materials. In this direction the Inspector General made a good effort during the Fire Prevention Week last year. The Board of Fire Underwriters has now a membership of forty-six representing sixty-two of the largest Insurance Companies in Great Britain, United States, and Canada, and recently had to take over another room in the Bank Building to use as an office; the Board Room not being large enough.

**S. A. Revival.**

**CAMPAIGN CLOSES TO-MORROW.**

The greatest revival campaign in the history of the Salvation Army in St. John's is now drawing to a successful close. For the past two weeks Captain Shute, the lady revivalist, has been discoursing nightly to very large assemblies and she has succeeded, beyond the most sanguine expectations, in the laudible work of the reclamation of souls. The number of penitents who have come forward since the beginning of the campaign bears eloquent testimony to the soul stirring methods employed by Captain Shute in her campaign. Her lectures and heart to heart talks have borne with them the impress of sincerity and the impassioned delivery of her address commands the entire attention of all her hearers. During the past week Capt. Shute has been conducting a campaign at No. 1 Barracks. To-morrow night will witness its closing and, undoubtedly, there will be a large attendance. Following the successful close of her campaign, Captain Shute will be leaving the city during next week. The city Corps officers will continue the revival and it is hoped to keep the fervor alive. To this end a special revival will be held at all the city Corps on Sunday. Staff Captain Tilley will conduct the services at No. 3, Ensign Cook will lead at No. 2 and Captain Shute will finish her campaign at No. 1, as already stated. Capt. Shute is herself a Newfoundland and wherever she has conducted a campaign the results have been splendid.—R.

Cub Cigarettes are appreciated, not only by the smoker but by those in his company.

**"Beyond The Rocks."**

**A LOVE STORY STARRING GLORIA SWANSON AND RODOLPH VAL-ENTINO.**

(Reviewed by Mary Kelly.)  
The names of Gloria Swanson and Rodolph Valentino should be enough to steer any picture to financial safety, and "Beyond the Rocks" has something even more substantial to offer. Dedicated to youth and to love, it is an expression of an unquestioned faith in romance. In almost every scene and sub-title, the author, Effner Glyn, has conveyed the idea that romance can never die, that it has been and always will be the supreme influence in the life of every normal young person. It is a pure love story with a certain tang of hopelessness that increases the appeal.

Pictorially, the scenes show details of labor and very good taste. The English cottages at the opening; the rescue on the Alps; the peasant and the delightful costumes that go with it; and finally the climax on the desert, characterize the picture as the one that has style.

The directing by Sam Wood invests every scene with grace. Gloria Swanson, with a magnificent array of clothes, is always a delightful figure, and Rodolph Valentino not only acts, but is the Prince Charming for which his feminine admirers have shown such a preference. This picture will be shown at the Malesic on Monday.

# LABRADOR.

## Past, Present and Future.

(H. F. SHORTIS.)

Years ago, during one of my visits to the Star of the Sea and in the Harbor of St. John's, I made a somewhat extended stay at our great dependency, and, now, after the lapse of some time, I think a brief excerpt from the thousands of our countrymen abroad, from the Atlantic to the Pacific. These remarks are the result of a visit to the Labrador coast, since the discovery of the mines at St. John's Bay, according to reports, which have been made of Mexico or the Yukon, here, that about thirty years ago, Fire Sergeant Thomas of the Central Station, first of the mineral resources of the Labrador coast. It was certain the mineral resources were in the localities, having fished in the localities, several years with his uncle, a seal-killer and entrepreneur, Capt. John Pumphrey, showing in an extract from my

immemorial fisheries coast of Labrador have been the industry of our country. It is possible to say who was the first to exploit this great enterprise which has been a source of wealth to the present time. It is evident from the nomenclature of various harbors along the coast of Labrador, that the first to exploit it were among the first to come, and as memoranda of considerable pluck, enterprise and perseverance, they have left names recorded in history, as such names as Grady, Griffin, Corbett's Harbor, Carroll's, etc. These Irishmen must have fished on the Labrador coast very early in the history, and previous to that time we know for a fact that the schooner "Hibernia," Capt. James, was lost with all hands, during the time of the coast, in the number of persons, in this instance, who found graves, was over forty men, and children. I had these names, Capt. Stapleton's, son, a nonagenarian at the time.

**INDUCTION OF TWINE.**  
 A melancholy event, many have taken place in the present of our great industry. Cod and cod-traps have been taken to requisition, and the vessel was steadily pursued with the line, is now finished in the line, although with greater out-planting and those engaged in the industry. Previous to the year was very difficult for our merchants to ascertain the state of the coast, as communication between Europe and Newfoundland was not satisfactory, and, therefore, the disposing of the fish was left to the discretion of the various merchantmen. The great bulk of the fish was brought home from Labrador and sold on the market, either in chartered vessels or those owned by our merchants. Forty or fifty years ago, the trade was at its greatest success, scores of Spanish vessels, whose shores, purchased our fish, and they paid the highest rates for gold, and conveyed their fish to their respective destinations. It was next to impossible to communicate between the merchants of Newfoundland and the planters at the coast, as we had no regular mail until the seventies, and the advent of any craft returning to Newfoundland, were

well aware that nothing like justice can be done to the important subject in the limited space at my disposal. I am also well aware of the almost impossible task of getting at dates and facts in connection with the past history of Labrador, as what has come down to us has been purely traditional, and for the facts in my possession I am indebted to the intelligence of many of our enterprising planters in the old days, whose tenacity of memory and powers of graphic description in their own matter-of-fact style, is second to that of no people in the world. So great was the "gift of their people, that all their social and business transactions were invariably done by word of mouth, and commercial contracts and negotiations, which to-day would require reams of foolscap and all the ingenuity of the legal fraternity to make them binding, were performed by these men on their simple word of honor, and the instances are rare indeed wherein any of these contracts were violated.

### THE FUTURE OF LABRADOR.

Now let us take a glance at what are the prospective possibilities of the future of Labrador. Time was when Labrador was looked upon as uninhabitable. It was viewed by many as the "Siberia of Newfoundland, and whatever idea was entertained of exploiting upon its soil during the summer months, he would be a bold man, indeed, who would openly suggest its possibility of sustaining civilized life during winter months. All this is changing fast. The possibilities of a brilliant future for Newfoundland-Labrador are within a very measurable distance. To substantiate what I here assert, I may add the historic fact that as far back as the forties of the past century, there was built and launched at Sandwich Bay, Labrador, a brigantine of about one hundred and forty tons. This vessel was built entirely of material which was the product of the immediate surroundings in which she was constructed, and nothing but the iron-work was imported from England. From the keelson to the truck was native timber of Sandwich Bay, Labrador, and there is no doubt, even to-day, sceptical enough to doubt this fact, but when I assert that she was built for the late firm of Hunt & Henley, of Devonshire, England, and a few years after her launching, our late respected townsmen, Mr. Charles Ellis, made his first passage across the Atlantic in this ship, which was named the "Notion." I am under the impression that their want of faith will vanish into thin air, and they will be as ready to believe in the grand future of the Labrador as the present writer. That there is a future and a bright future for Labrador, I have no doubt. Even the clergyman had his hand in it, and commerce are going hand in hand into it, as yet, unpermeated wilderness. Already the proof of the prospects of its minable capabilities are beginning to be shown, and there, although in the initial state, fill the student with hopefulness of what is to come.

### SHIPMASTERS AS PHYSICIANS.

Until a comparatively recent date, no medical attendance was to be obtained along the Labrador coast, and for many years the sick and injured had to be conveyed from their own stations to the fishing stations of those three great benefactors of our fishermen and their families (Capt. John Scully, uncle of Doctor Scully; John Strapp, uncle of Rev. Brother Strapp; St. Bonaventure's, father of Mrs. John Phippard, Piacentia), who, as far as I am aware, have never received a dollar for their services, and more than likely, never asked for remuneration. The names of these three veteran planter-philanthropists should live in the history of our country. They have gone to meet their reward—two of them in Harbor Grace and Capt. Strapp in Boston, away from the land he loved so well, and to those people, in years gone by, he proved himself to be such a benefactor. The clergyman had his hand in it, and commerce are going hand in hand into it, as yet, unpermeated wilderness. Already the proof of the prospects of its minable capabilities are beginning to be shown, and there, although in the initial state, fill the student with hopefulness of what is to come.

### WEALTH OF FOREST AND SOIL.

Of its timber-wealth, what has been explored, has more than justified expectations, for the greatest proof of confidence in the capabilities and prospects of a new and undeveloped country is the fact that capitalists are willing to risk their means in developing its resources, and this is at present being done on the coast of Labrador to a surprising extent. I do not intend to speak of the wealth of its waters. This is known the world over, and up to the present time, that was the only recommendation that Labrador had to be considered of the commercial world. Of a sudden, and by one bound, its topographical and mineral possibilities have been made known to the outside world, and men, who a few years ago, scarcely knew of its existence, are willing to-day to risk thousands and hundreds of thousands of dollars in exploiting its mineral, timber and other resources. We, in Newfoundland, have been accustomed to look upon our Labrador appendage as the place where, for a few months, in summer, we gathered in our harvest of fish, and considered that during the winter months it was only fit to be given over to the fox, the wolf and the Eskimo—the aborigines of the soil. To-day things are different. The outside world has stepped in and shown us the treasure we had at our

door, and our own capitalists are at length beginning to realize all that Labrador means, and are quite willing to risk their money on that coast in ventures other than the fisheries. Labrador is no doubt coming in for her share in the march of civilization. The wireless telegraph has already reached her shores—steam communication has tapped her most remote and seemingly impracticable borders. There is scarcely a bay or arm of her immense coast that is not now annually visited by a steamer bearing some scientific or commercial expedition to test its capabilities, and to draw from its wealth, and, in a direct sense, one cannot doubt that the electric light and the telephone will be as familiar to the inhabitants of Labrador, as that of a visit of an ordinary steamer at the present day.

### BY RIGHT OF INHERITANCE.

From every-day indications, one need not live to be a centenarian to be hopeful of witnessing substantial towns and cities reared on the banks of many of the great rivers which abound on Labrador, and which, in a few years, from climatic changes, which inevitably follow in the march of civilization, attract the tourist, the capitalist and the health-seeker, to add to the wealth of this, at present, almost terra incognita. It is only now that the value of Labrador is becoming to be realized, and its importance is becoming more apparent. It will in short stand in the same relation to Newfoundland as Alaska does to the United States, with this difference, that Labrador belongs to Newfoundland by right of inheritance, whilst the United States claims Alaska by right of purchase in the sum of \$7,000,000 in the year 1867. I am sure in saying that had the Russian Empire, which was previous to the above date, the owner of that territory, foreseen the immense wealth it was destined to produce for the benefit of its new proprietors, no amount of money would have induced them to part with so valuable an acquisition. Russia was somewhat in the position towards Alaska in which we have been until recently towards Labrador. They did not realize its value until too late, when the outside world and Yankee enterprises proved to them there were other mines of wealth, besides El Dorado and Peru. Looking back, it is a cause of deep regret to me to find that so much of the property of our old-time planters has passed into other hands, and the labor of years of the old industrious Vikings has been swept away, and what they intended should have been handed down from generation to generation, to perpetuate their names and their deeds, has, by some fatality been abandoned and neglected, or, in most cases, handed over to the charge of strangers. The posterity of these people who allowed this state of affairs to be perpetrated have cause to regret the loss of their sires, who, through carelessness, or a love of roving in search of the unattainable Golden Fleece, neglected their patrimony, until now it has become the property of the stranger.

### REPRESENTATION MUST COME.

I am not too sanguine in hoping that men now living will witness the onward march of civilization penetrate the most remote portions of Labrador. Let us hope that some of our present city editors will live to create a campaign paper to Rigolet, Cape Mudge, Nain or further North, when some city legal luminary will be sent to oppose a lineal descendant of the last chief of the Eskimos, whose war-whoop in pressing his claim for election will be, that as a native of the soil, he is more entitled to their support than is the "alien" from St. John's, who knows little about their wants and requirements—less about their modes and customs, and nothing about the glories of their forefathers in hunting the walrus, the bear and the seal. In conclusion, let us hope that whatever may be the future of our beloved Newfoundland, it should never be forgotten that Labrador is an integral part of our country; that from its waters has been drawn, in the past as in the present, the wealth that has made us what we are as a people to-day, and that unbounded possibilities lie before her in the future. Let no inducements be great enough to separate one from the other; and that the title of Newfoundland-Labrador may never be obliterated from the chart should be the earnest prayer of every well-wisher and native-born son of the soil.

Murray's Successor.

Mr. Ernest H. Armstrong succeeds Hon. George H. Murray as Premier of the neighboring Maritime Province of Nova Scotia. From his entry into local politics and during his tenure of office as a provincial minister of the Crown, Mr. Armstrong has given loyal and faithful service to the State. His ability and energy have marked him out as the logical successor to Premier Murray, of whom he has been, not only an intimate, colleague, but his chief lieutenant and right hand man for many years in the administration of the Government of Nova Scotia. The new Premier is in the very prime of life, and will not celebrate his fifty ninth birthday until July next. As a successful legal practitioner he has made a name for himself at the provincial bar, no less than a legislative record of sixteen years. In that period he has familiarised himself with every phase of the affairs of the province, having for the past eleven years presided over the Department of Public Works and Mines, which is the most important and onerous department in the provincial Government of Nova Scotia. Mr. Armstrong proved himself a capable and careful administrator, and all his efforts were devoted to a conservation of the interests of the public, and with a desire to keep Nova Scotia well ahead in all progressive and enterprising administrative methods. His record as a legislator and as a minister of the Crown has been highly commended, and the people of Nova Scotia are to be congratulated that the mantle of leadership has fallen upon such a trustworthy and competent public official. He has shown unwavering loyalty to his chief, has been instant in the performance of his public duties, and has ever been willing to respond to every sincere and worthy appeal made to him on behalf of the Liberal Party—of which he has been a most consistent adherent—and always bore the burden of a full share of the hard and exacting work of the administration of the Provincial Government. In taking up the leadership of Government and party alike, Mr. Armstrong faces a most difficult task, the perils of which need not be disguised. He has to follow the remarkably successful career of his predecessor—Mr. Murray—and it may be said in all candor, to quote the Morning Chronicle, Halifax, "that perhaps he has not developed those personal gifts, and lacks somewhat the bonhomie and the qualities of urbanity and comradeship, which so eminently distinguished his late chief. But these are of the surface and not of the heart, and the large responsibilities and the closer contact with all sorts and conditions of the public, will, we daresay, soon develop arts and graces of personality, which are so often associated with political leadership. In essentials, however, Mr. Armstrong possesses many of the qualities suited to strong and enterprising conduct of public affairs, and we believe he will receive the loyal co-operation of his colleagues in the Government and in the House, and none the less the whole-hearted support of the

rank and file of Liberals in the whole Province, who may congratulate themselves that the office of Premier has been entrusted to so worthy a son of Nova Scotia."

Towed to Grand Bank.

SCHR. GENERAL JACOBS UNDAMAGED.

A message to the Deputy Minister of Customs received to-day states that the S.S. H. A. Walker had arrived at Grand Bank with the schr. General Jacobs in tow. The Jacobs salt laden stranded at Langlade St. Pierre, some time ago whilst on a passage from Cadix. According to the message, the vessel was undamaged and was towed off after the cargo had been jettisoned.

The Park Rink.

SLIDEWAY IS FREE.

Mr. Miller, who has obtained permission from the Council to make a rink in Bannerman Park, desires to state that he is obliged to collect a small fee from those using the ice as he has to employ considerable help to keep it clear of snow. Regulations of the slideway, which has been made for children, Mr. Miller makes no charge as he hopes that the amount received from skaters will pay for the labor of keeping it in order.

"Anita's Secret."

ENTERTAINMENT AT GREENFELL HALL.

The entertainment provided by Miss Kathleen Fraser's pupils in the Greenfell Hall last evening was a notable success and the large audience was greatly pleased with the performance. The programme, which was opened by Miss Mitchell, who sang a pleasing song in excellent manner, consisted of Recitations by Miss E. Kieley, assisted by Misses Edgar, Kendall, Hiscock, Murphy and Hickman; Miss C. Campbell, Miss Mary Halley and Miss J. Edgar. Dances were splendidly interpreted by Misses Mary Halley and C. Campbell. Charming tableaux were presented by Miss M. Glass. "A little mother correcting her child"; Miss E. Blandford, "Cherry Ripe"; Miss E. Murphy, "Roses." The pantomime "Old Fashioned Garden" by Misses Kieley and Edgar, with the songs by Miss Kieley, won great applause, and a heavy score. Miss M. Hutchings sang "Homing" in excellent voice. The performance of "Anita's Secret" was a distinct success. The scene is laid in the steerage of an ocean liner crossing the Atlantic and shows a group of foreign children immigrants to the United States. It is Christmas Eve and the children wonder if Santa Claus will visit them, Anita is informed that he will and is told to keep it secret. The acting was very clever and the young people taking part received merited applause. The following took part:—Misses J. Edgar, A. Thorburn, C. Hiscock, E. Thorburn, M. Kendall, C. Campbell, E. Murphy, K. Knowling, M. Glass, "Anita"—Miss M. Blandford, "Jack Frost."—Miss E. Kieley and Santa Claus. The accompanists during the evening were Misses Dorothy White, Mary Halley and Master H. Milley. The entire performance was splendid and Miss Fraser deserves great credit for the careful training manifested in the unobtrusive and general deportment of the children. The performance netted a handsome sum which will be devoted to Child Welfare purposes.

Four Slopes to Open.

WILL EMPLOY 1500 MEN.

Hon. A. W. Mews received a message from Bell Island this morning stating that four slopes were opening at the mines on Monday. The work at the four slopes will provide employment for about 1500 men, so that all resident miners of the island and many from Conception Bay will not have to face depression.

Still Alarm.

HOUSE FILLED WITH SMOKE.

At 10 o'clock to-day a still alarm brought the West End firemen to the residence of Mr. Frank Boone, No. 2 Brasill's Square, where it was thought a blaze was in progress. The firemen on investigation, found the house full of smoke, caused by the funnels of a hall stove where they passed through a ceiling and became disjoined. No damage was done the premises.

Kyle Sails This Evening.

S.S. Kyle arrived in port at 2 p.m. to-day, and will sail again at 8 o'clock calling at Port aux Basques en route. The Kyle left Louisburg at 9 a.m. yesterday, but was held by ice about 20 miles East by South of Scatterie until 4 o'clock in the afternoon, when the ship met open water.

EXPRESS TO-MORROW.—An express will leave St. John's to-morrow at 1 p.m., going as far as Millertown Junction.

Portia Arrives.

REPORTS FISHING AT HERMITAGE BETTER THAN USUAL.

S.S. Portia, Capt. Connors, arrived from the western coast service at 11.30 o'clock to-day bringing a part cargo fish and oil and the following passengers: Miss Cunningham, Mrs. Collins, Capt. Belbin, Mr. Keopine, Mr. Ross, Mr. Lambert, Mr. Gregory, Mrs. Gregory, Mr. Curtis, Mrs. Curtis, Mr. O'Brien, Mr. LeGasse, Mr. Williams and 10 steerage. Captain Connors reports fishing at Hermitage as better than usual. At Rose Blanche and Channel the fishery has been hampered by unfavorable weather. On the passage west the Portia met with very stormy weather, but made a good trip on the return. Very little ice was encountered.

Curliana.

The first fixture for the season finished Friday night. The following were the victors for the different divisions who brought their men through the series:— Green Division: Green Division F. G. House; G. Padon; J. Mulcahy; P. Crane; W. A. Reid; J. Peters (skip) 12 J. Baxter (skip) 4; Blue Division: Blue Division J. C. Pratt; T. A. McNab; Irvine Parsons; R. Miller; T. Armstrong; A. Wilson; J. N. Hanlin (skip) 13 J. A. Chalker (skip) 8; Red Division: Red Division Sir J. C. Crosbie; J. J. Henley; Jas. Howley; C. R. Duder; B. C. Gardner; W. B. Fraser; W. T. Shirran (skip) 11 H. E. Cowan (skip) 8; White Division: White Division J. W. Allen; B. Peel; Len Stick; Gus Lester; T. Hallett; F. W. Bradshaw; W. H. Peters (skip) 13 Jas. Maher (skip) 5; In the play off for the Captain's Prizes the following won them:— Skip J. S. Hanlin . . . . . 20—Blue 3rd T. Hallett . . . . . 28—White 2nd J. Howley . . . . . 19—Red Lead F. G. House . . . . . 14—Green F. G. House Green Division . . . . . 4; J. Mulcahy Green Division . . . . . 10; P. Crane Green Division . . . . . 10; J. W. Allen White Division . . . . . 10; Len Stick White Division . . . . . 11; T. Hallett White Division . . . . . 28; W. H. Peters White Division . . . . . 12; J. C. Pratt Blue Division . . . . . 10; Irvine Parsons Blue Division . . . . . 10; T. Armstrong Blue Division . . . . . 21; J. A. Hanlin Blue Division . . . . . 20; Sir J. C. Crosbie Red Division . . . . . 6; Jas. Howley Red Division . . . . . 19; E. Bowring Red Division . . . . . 11; W. T. Shirran Red Division . . . . . 19; Ice permitting No. 2 Fixture Points game will be run off on Monday night.

Police Court.

Two young men, charged with disorderly conduct, were each fined \$1. A hop beer brewer, whose product proved over 2 p.c., was cautioned to keep within the limits allowed by the Act.

Two grocers of Military Road, were charged with obstructing the sidewalk with a display of rabbits. One grocer, who was termed an old offender, by the Judge, was fined \$2 and the other was allowed to go by paying costs, it being his first offence.

McMurdo's Store News.

SAURDAY, Feb. 3. This is a Candy Sale day, and our Candy Counter must have a work. We have made arrangements whereby there is a fresh shipment of candy comes for us by the Red Cross Boat each week. This arrangement secures your getting your candy fresh and new all the time, and in the pink of perfection. Almost every shipment, too, brings a new variety or two, some of which promise to become very popular; this week we have several of these new varieties, such as Heaven by Hash, New York Fudge, Almond Cream Fudge, Lady Almond Caramels, Lady Walnut Caramels, Walnut Slice, Brazil Nut Slice. This of course in addition to all the varieties we had before, surely a toothsome list. Special prices to-day.

Enquiry Closed.

All witnesses in the Magisterial enquiry re the death of Mrs. P. Nolan, of Avondale, have now been examined. The evidence is being considered by the Justice Department. Peter Nolan, the husband of the deceased, is still out on bail, under a charge of neglecting his children.

Shipping.

S.S. Silvia sailed last night at 11 o'clock. S.S. Rosalind left New York at noon to-day and is due here on Thursday next. S.S. Sable L. left St. Pierre yesterday afternoon for Halifax direct. S.S. Digby left Liverpool this (Saturday) afternoon for here. Schr. Centaurus, Capt. Raasmussen, sailed to-day from Harbor Buffet for Malaga for orders.

TO-DAYS MESSAGES.

THE RUSSIAN NAVY.

MOSCOW, Feb. 3. Workers of the Soviet have pledged themselves to bring the Navy to a state of efficiency equal to that of the Army, and in some cases have agreed to furnish funds for ship construction. Another result of the week's campaign in behalf of the Russian Navy has been the enlistment of more than two thousand men for Naval service.

MAINLY WELSH.

PLYMOUTH, Feb. 3. David Lloyd George, returning to-day from a vacation in Spain, said that he felt that United States debt settlement terms were hard and that he was frankly disappointed. "England is able to pay, but it is a heavy burden, and I do not think it will benefit America, as it will diminish their markets in the world, whether here or elsewhere."

THREAT OF WAR.

PARIS, Feb. 3. Threat of war and menace of blockade were the unexpected features of this morning's session of the Council of the League of Nations. Lithuanian Minister to Germany, M. Sidzikauskas, declared Lithuanians would not accept the decision of the League to allow Poland to occupy part of neutral zone. He said they would use force to prevent it. M. Vissiani of France said in such case action would involve the imposition of blockades. The Poles, it was announced by the Polish delegation, would proceed to occupy their part of the zone with troops. Belief is expressed in League circles that the Lithuanians are being encouraged in their resistance by the Russians.

"He Who Shall Conquer in The Future."

Editor Evening Telegram. Dear Sir,—To anyone who has been closely following the Franco-Hun contumelies in the Ruhr Valley it is obvious that there is no circumstantial ground on the part of the English press to sympathize to any great extent with their former allies. The result is that one is inclined more or less to criticize the French for their arbitrary attitude in their attempt to make the Hun live up to his post-war promises in the matter of the payment of reparations. After all, the French are the ones who suffered most in the war. Not only the terrible toll of the flower of the nation but the spoliation of a once fair land—the eastern section of which was devastated by German thoroughness. And now we are informed that the following Latin inscription, "Invictis Victi Victuri," will appear on the monument dedicated in Berlin to the students who were killed in the war. Its remarkably expressive Latin is admired by all, and those who deprecate the study of Latin are invited to see how many words are required in English to express what the Latin language can express in three words. It may be rendered: "We, the conquered, dedicate this monument to the dead and unconquered. We, who shall conquer in the future." The last word, "about to conquer," is being studied all over the globe, and especially in France, and that the following Latin inscription, "Invictis Victi Victuri," will appear on the monument dedicated in Berlin to the students who were killed in the war. Its remarkably expressive Latin is admired by all, and those who deprecate the study of Latin are invited to see how many words are required in English to express what the Latin language can express in three words. It may be rendered: "We, the conquered, dedicate this monument to the dead and unconquered. We, who shall conquer in the future." The last word, "about to conquer," is being studied all over the globe, and especially in France, and that the following Latin inscription, "Invictis Victi Victuri," will appear on the monument dedicated in Berlin to the students who were killed in the war. ### Severe Kidney Trouble

Mrs. F. Rinehart, Campbellville, Ont., writes: "I had trouble with my kidneys and very frequent urination. This was followed by pains which at times were very severe. The doctor said I had inflammation of the bladder and that an operation might be necessary. To this I refused, and began using Dr. Chase's Kidney-Liver Pills. From the first few doses I felt the benefit. The pains left, urination was corrected, and I have had no recurrence of these ailments."

### TRINITY.

WHO WAS WHO IN TRINITY 200 YEARS AGO, AND WHY DOCTOR SAMUEL HARRIS CAME HERE IN 1725.

If you were to go to Dartmouth in Devon, England, to-day, and pay a visit to the old parish church there, you would find many things about it calculated to attract those interested in architecture, and in other reminders of things of an interesting past. The parish clerk, for a consideration, would be glad to point out several things that would ordinarily escape a visitor's attention, and would tell you the history and the meaning of them. Then, if you would go to know the old rector, and convince him of the fact that you had no ulterior object in view, beyond an intelligent curiosity to see old records, he would be glad to open the big old fashioned safe in the vault, and show you entries of marriages, baptisms, and burials of those who had been parishioners of long ago, and whose dust then either commingled with that of the old churchyard, or was held in lead coffins in the vaults beneath the church floor.

On a page of the marriage register, dated June 14th, 1700, you would find the following entry:—"Married this day, William Harris, M.D., and Arabella, only daughter of Colonel Hepworth, of the parish of Lime Regis in Dorset." Then in the Baptismal Register of the same collection, you would find the following entry:—"August 1st 1703, baptized, a son of William Harris, M.D., and his spouse Arabella, named Samuel." Beyond these entries embodying the name of Harris,

you would find no others except those that registered the burial of Arabella Harris, in 1720, and that of William Harris, M.D., in 1722. Samuel was their only child. Not only would the rector tell you the stories of the strange actions of old Dr. Harris, that had been handed down through the generations, but the old folk of the parish would supplement it all, by the stories they had heard their fathers and mothers tell of the doings of "the crazy doctor" as he was known to them.

Samuel, the doctor's only child, was given the advantage of the earliest opportunities to equip himself for a creditable career in life; and had not been so much like his father, he might have succeeded. His strange actions at school, however, brought him into continuous conflict with the masters; whilst his boasted familiarity with the devil, so shocked and frightened the other boys of the school, that, finally, he was expelled. This interference with any steady development of the boy's mind or character so that at the age of twenty (with his mother and father dead) he found himself not only a good deal alone, but also sadly unfitted for any definite calling in life.

Dartmouth being a seaport, young Harris, with nothing definite to do, spent much of his time on and about the wharves; and the sailors and fishermen were attracted by his quaint and queer actions. The result of this was, Harris was induced to pick up his belongings, and join a crew of men who were going out to Newfoundland for the season's fishery. The novelty of the surroundings was at first pleasing to him; but a week at sea completely dispelled his day-dreams, and he made up his mind, that once again

on dry land, no attractions of the sea would ever get him off again. Piacentia, at that date had become a thoroughly English settlement, and there, the vessel in which Harris had left England, landed her crew in the spring of 1724. The regular daily requirements at Piacentia, did not appeal to Harris' undisciplined life, and one morning he was missing from his work and quickly forgotten.

In the meantime he had crossed the neck of land that divided Piacentia Bay from Trinity Bay, and after spending a month or two travelling from place to place, he found himself in Trinity. The many discomforts of a somewhat unsettled life, had brought him somewhat to his senses, and he made up his mind that he would settle down for a few years in Trinity, because it was somewhat like an English village in which he had spent a year after leaving school. During his boyhood days he had spent a good deal of his time in his father's surgery, where he became familiar with surgical instruments, and medicine, and diseases, with little or no thought of the knowledge gained ever becoming of any use to him. After his father died, and before his instruments, etc., were offered for sale, Samuel secured several for his own use. These he took with him when he left England, and during his ramblings from place to place he never parted with them. In those days it did not require much knowledge of medicine, or anatomy, to be dubbed a surgeon or a doctor in the outlying parts of Newfoundland, and when it became known that Harris knew something of the ordinary ailments of daily life, and their treatment, his present and future means of living were assured to him.

From that date he was known in Trinity as Doctor Harris. His life for a long time was uneventful, and the years succeeded one another with a monotonous regularity. As he grew older the peculiarities of his father, "the crazy doctor of Dartmouth" became more and more marked in his life and conduct, and his eccentricities became the subject of daily conversations on the part of his neighbours. One of his favorite habits was crossing the harbor ice after only one night of frost. This performance not only won for him a prominent place in the respect and awe of the people; but the place was made additionally secure for him, every time he repeated it; and he repeated it with every opportunity. During the last ten years of his life, he lived alone in a little house belonging to Mr. S. A. Gent. In the garden opposite the Gent dwelling, house, and owned by Mr. George Gent to-day. The doctor was a man of regular habits, he retired to rest at half past nine. He was fond of company, and some of the men of the place usually went to see him after tea. He was decidedly entertaining, and though the visitors knew they were supposed to leave the house at "square-yards" by the clock (quarter past nine) they often forgot it.

Then the doctor would say to them: "Gentlemen, I have enjoyed your company, and if you are prepared to remain you may do so; but I have an engagement with his Satanic Majesty, otherwise known as the devil, at half-past nine, and I should prefer to be alone with him." The guests at once took the hint and also took to their heels, and left the house. They would, however, linger not far from the house to hear some results of the meeting. The doctor knew only too well that they were not far away; and at nine-thirty the usual rumour inside would begin. Tables were overturned; chairs flew from one side of the room to the other; the light would move about; groans and shrieks would be heard. Then suddenly all would be quiet, and after a few minutes the light would disappear for the night. The doctor had got rid of his visitors; had deepened their belief in him as a man to be feared and respected; and—had gone to bed.

Some one asked one of the men who had been listening if he really believed that it was the devil who had caused the noise; to which the man replied: "I don't know whether it was the devil or not; but I know it was the devil of a noise." Long after the doctor died, and the house was removed, pieces of surgical instruments and an occasional catheter, etc., would be thrown out by the spade when the ground was being dug, and then the tales of the doctor's peculiarities would be told by the diggers, with various additions. It was many years before the doctor was forgotten in Trinity, and his freaks and performances were told over and over again. He is not quite forgotten in Trinity to-day, for in the old Burial Register of St. Paul's Church, Trinity, is the following entry:—"1788, July 18th: Interred, Samuel Harris, Surgeon, of Dartmouth, in Great Britain, but 51 years a resident in this Harbour; aged 78 years."

N.B.—Less than fifty years ago, and long after Doctor Harris was supposed to be entirely forgotten, Ebenezer Newhook dreamed, or in some other way got himself to believe that old Dr. Harris buried a chest of money in the corner of the garden, just by Skipper Jenkin's frontage. Ebenezer dug down some twenty feet one night and struck an object which he believed was the chest. Something, however, lay

open, and he filled up the hole and never went back. After Ebenezer's death, his brother William told the story to one John Williams, who was visiting here from Twillingate. Williams took another man into his confidence, and one night, when they supposed that everybody was asleep, they started to find the chest, by the aid of a bar, sharply pointed at one end. Mrs. Cutler, however, across the way was not asleep, and she saw them at work. When they found the next day that some one had been watching them they gave up the job; and if Ebenezer Newhook's dream was true, the chest of money is still there.

Ecclesiastical Census, etc.—In the Mission of Trinity, from the year 1723 to 1820 (sixty-seven years) there were about 700 marriages solemnized, 4,000 baptisms, and 1,500 burials. The marriages and burials thus recorded were almost exclusively at Trinity. The baptisms include those to whom the sacrament was administered on the South Side of Trinity, during four or five occasions when Rev. John Clinch, and Rev. William Bullock visited there. During the first hundred years a child was seldom named after his father, or his mother, or his Christian name. Of those for girls, the favorites, in order of merit, were Mary, Elizabeth, Sarah, and Ann; and for boys William, John, James, and George. The Christian names Reginald, Heber, and Charlotte, were those of Rev. William Bullock's family, and several children have been called after them since.

Words, Customs, Prices, etc., of yore. Olden Times.—In looking over an old account book, kept in Trinity in 1788, I find the following entries:—"To 26 pairs of sizeable shoes." "To 1 green waistcoat; 1 red waistcoat; 1 pair of Cordroy breeches; 1 pair of white breeches." "To 25 sticks of Vir firewood, 5 shillings." "To 1 small pig, 5 shillings." "I kanted of cod fish, 11 shillings." "1 yard of swanskin, 3 shillings and 6 pence." "1 gallon of sweet oil, 8 shillings." "1 pound of tobacco, 1 shilling and 6 pence." "18 gallons of milk, 18 shillings."

N.B.—The word "sizeable" was no doubt, one of the many funny words that our forefathers brought with them from Dorset, Devon or Hants. It has not quite disappeared. I heard it used last year by a man, who, referred to a lad who was big for his age as "a sizeable boy."

From the reference to a young pig at 5 shillings, it is evident that the price of young pigs was settled at least a hundred and fifty years ago, and was kept at that price till recent years. In proof of the steadiness of the pig market, I remember that when I was doing duty at Trinity East in 1906, a girl came to the parsonage with something to sell, and when Mrs. Lockyer asked her the price, she said "Oh, that's like the young pigs ma'am, always the same price."

"One gallon of sweet oil at 8 shillings," takes me back in memory to sixty years ago—when my father was the store-keeper at Brookings—and sweet oil always came in twenty gallon casks, and was sold by liquid measure. It used to freeze in winter, and was then yellow in colour, and when dug out by the use of a sharp instrument, it was in globules. It is, of course, the same to-day in the same circumstances; but I have not seen it, other than in bottles for several years. I remember, my grandfather Lockyer telling me, that when he came out to Newfoundland as one of a batch of youngsters, over a hundred years ago, there was a puncheon of molasses on the deck of the vessel. One warm day the molasses began to ooze at the bung. Every boy in turn touched it with his fingers, and then licked his finger. They all liked the taste of it, but no one knew what it was. They

Whist I was examining this old account book, I found the front of my coat and vest covered with fine sand and particles of some glistening substance. I was thus reminded that the writer of the book lived before the invention of blotting-paper, and that he had dried the ink on the pages, by covering it with a mixture of fine sand and particles of mica. This was intended to absorb the undried ink, and then to be restored to the tin (with a perforated concave cover) in which the sand was kept ready for use. In this case it had not all been returned to the box, and sand that had been shaken on these pages by the hand of some one in 1785 was released from the ink, and brushed from the clothing, by the hand of another person 138 years later. Sic transit.

The Trinity Benefit Club had its annual meeting and procession on Candlemas Day, when two new members were admitted, making a total of one hundred and twenty seven members. The funds amount to eleven hundred dollars.

ANSWERS TO CORRESPONDENTS. Fractions—Ask me something easy. J.A.B.—Thank you for the item about the old days. I wish the Trinitarians abroad, would send me any such information that they may have about what happened in their day or what they heard the old people tell about Trinity. All is grief that comes to my mill. I will grind it all right.

W.A.M. Burin—Thanks for your letter, glad you are interested in Trinity notes. I have mailed the address you asked for.

Waiting—Your quotation is not correct. It is not: "All things come

### Here's Another Big Picture for You—Love—Pathos—Thrills—at the NICKEL Thurs., Fri., Sat.

JANE NOVAK as the girl who sacrifices love. ROBERT GORDON as the boy who will not understand. DORE DAVIDSON as the widow who makes more than money. BERT WOODRUFF as Captain Mather, the grand old man. EUGENIE BESSERER as the widow who learns to kiss the Cross. LEWIS S. STONE as Father Brian Kelly. MILDRED JUNE as the foolish sister. WALLACE BERRY as the coward.

THIS IS A NEW STORY OF THE ROSARY—FIRST TIME IN ST JOHN'S.

Note—This is a new adaptation from the original story by Bernard McConville, inspired by the theme of the well known play by Edward E. Rose. — EACH REEL A PEARL —

had never heard of molasses, but they had heard of sweet-oil, so they decided that it was sweet-oil.

The man who bought the two "wescoats," red and green, and the two pairs of breeches, one white and one cordroy, would be regarded as a swell (or a mummer) if he appeared in public so dressed, even in these days.

"Milk at 1 shilling a gallon" was quite as cheap as rum at 1 and 6 pence a quart, and the fact that 18 gallons of milk could be delivered within a few days, would indicate the presence of more cows in Trinity in those days than there are now.

"Swanskin at 3 and 6 pence a yard" was remarkably cheap, as no doubt it was guaranteed to wear at least ten years; whilst firewood at 20 shillings a hundred, was probably worth it, when one remembers the size of it at that time. Tobacco, too, at 1 and 6 pence a pound—though neither put up in fancy tins, nor "ready-rubbed," was considered dear enough at that time.

Whist I was examining this old account book, I found the front of my coat and vest covered with fine sand and particles of some glistening substance. I was thus reminded that the writer of the book lived before the invention of blotting-paper, and that he had dried the ink on the pages, by covering it with a mixture of fine sand and particles of mica. ### Just Folks.

By EDGAR A. GUEST.

HAPPINESS.  
It may be the gift of a friend, or a word.  
The smile of a baby, the song of a bird.  
The touch of a hand of the thrill of a deed.  
The spark in a jest or the faith of a creed.  
It may be in little, it may be in much.  
The hem of a garment, perhaps, that we touch,  
But happiness, always the light of our days.  
Comes into our presence in numberless ways.

Baby's Skin Troubles  
Chafing, scalding, skin irritations and itching, burning eczema are quickly and thoroughly relieved and the skin kept soft, smooth and velvety by the use of  
Dr. Chase's Ointment  
Apply daily after the bath.

### STOP THAT COUGH.

No cough remedy has ever been discovered that will cure every cough, but we think we have one that comes a little nearer to doing it than most of them. We have prepared it the last ten years; it has been tried in all manner of cases and given satisfaction. We ask you to remember and try this—

### STAFFORD'S PHORATONE COUGH CURE

## STAFFORD'S

Duckworth Street and Theatre Hill

It may be the lilt of a song which we hear,  
An eye with a twinkle, an eye with a tear;  
It may be a boy with a mischievous smile,  
It may be a pond where the pickerel lurk,  
A patch of blue sky overhead, or a tree,  
A garden, a mountain, a bit of the sea,  
A lane that is shady where true lovers stray—  
Where happiness isn't, no mortal can say.

There's nothing too large and there's nothing too small  
To offer the joy which we seek, after all.  
It may lie in a poem some artist has penned,  
Or a few written lines which a loved-one may send.

It may be a picture, it may be a kiss,  
It may be a smile, or it may be a sigh,  
O, it may be anything under the sun,  
From many a trifle is happiness born.

Of minutes, not years, are our memories made—  
The life of a blossom which fades,  
The light of a sunbeam, the beam of the breeze,  
Too tenderly fashioned, too fragile to seize;  
A word that was spoken, a smile that is gone,  
A song that is finished, yet still in our mind,  
And we learn as we draw to the close of our days,  
That always about us our happiness stays.

# The Duty Of The Government.

## Connection With Relief Work.

(By A. J. M. H. A.)  
ARTICLE I.

TO HELP THE UNEMPLOYED. The utility of temporary assistance, even if those who receive it relapse shortly after into their former condition, their suffering has in many cases been mitigated for the time being. But against the advantages of all schemes for providing work for the unemployed, must be set the grave danger of their tendency to become chronic, and to be looked forward to and counted on every winter; a danger on which it is not necessary for me to make any comment.

### PERSONS WHO ARE A CONSTANT BURDEN UPON THE PUBLIC.

Now, then, the conclusion forced upon us by all experience seems to be that relief work, although the best means of helping the unemployed in seasons of exceptional and acute distress, is apt to fall of its object unless administered with the most conscientious care. In this, I think, my esteemed friend the Minister of Public Works will readily agree with me. The reason for the difficulties presented in dealing with the question of relief for the unemployed is to be found in the existence in almost every community of two other classes of persons who are a constant burden upon the public, and who are distinct from the genuine workers, whether the latter be in distress every winter or only once in every ten years. First, there are the unfortunate, called tramps, vagrants, peddlers, for whom Judge Morris, of the Police Court, can find no room either in the Poor House or the Penitentiary. These men, whether by their own fault or not, have become so unfit for regular work or decent living, that they require a course of severe discipline before, even an attempt to reform them can be made. These are the recipients of almost all the free lodgings, free food, and free clothing, carelessly scattered in times of exceptional distress, and to them these gifts

are the means of continuing a degraded and degrading life. Till the tramp, thief, and ne'er-do-well, however pitiable they may be, are dealt with distinctly from the genuine workers, no permanent benefit will result to any of them.

## INDIGESTION!!! STOMACH UPSET, ATE TOO MUCH

Instantly! Stop Gas, Sourness, Heartburn, Stomach Misery

Chew a few pleasant, harmless tablets of "Pape's Diapopsin" and your distressed stomach will feel fine at once.

Correct your digestion and ease your stomach for a few cents. Don't let your stomach keep you miserable! Druggists recommend it.

### THE REGULAR RELIEF-SEEKERS.

Then, again, and sometimes far above those just mentioned, are the regular "relief-seekers," people who often have many virtues, but whose state of distress is due to inherent defects, either of body, mind, or character, and these also are encouraged in their weakness by "charity." They usually lack energy, skill, courage, and self-respect, as well as other qualities which are necessary to success, and they need, far more than anything else, training, education, encouragement. To offer them free meals and free clothing is to tempt them to degrade themselves, and perhaps in time to enter the ranks of the tramps. To deal with the problem, experience is certainly needed. Inexperienced pity, however, is better than none at all. Between sympathy without wisdom and wisdom without sympathy is a hard choice, and no one ought to be driven to it. But if the choice must be made, the unwise sympathy is better than the unsympathetic wisdom; wisdom will be acquired in the work, while the suspicious and unsympathetic man or official will grow more suspicious and unsympathetic.

### "ON THE HORNS OF A DILEMMA"

Any way, this unemployment problem has placed us "on the horns of a dilemma." Our financial resources at the present moment are such that we must shortly decide between Confederation or liquidation. Which shall it be? To those of us who object to both, a decision seems next to an impossibility, unless we make up our minds to "toss up for it." And here I am reminded that a recent telegram tells how five judges of the Florida Supreme Court tossed up to decide who would be Chief Justice. It may be that blind chance and blind justice, in their case, will work in sympathy. But the casting of lots is an ancient, a scriptural and even a logical way of settling awkward problems. Not long ago the age-long dispute as to the chieftainship of the Clan Macdonald was settled by an agreement, that, on any occasion on which the question of precedence should arise, the point should be decided between the three claimants by the toss of a coin. But it was, perhaps carrying the principle too far when a New York jury a few years ago tossed up as to whether a prisoner was guilty or not guilty.

### AN APPALLING EXPENDITURE.

Without further degeneration, I shall bring this article to a close by saying that we do not need to go back to the day of the "truck system" and "the Fenelon letter" to prove that temporary employment on a large scale, freely advertised, is not a means of preventing, but, on the con-

trary, creates distress and misery and beggary in the locality where it is given. The present deplorable condition of St. John's is plainly due to the fact that \$3,000,000 (a sum equal to the whole revenue collected in Premier's time) have been spent here by the Department of Public Works, largely in temporary work, during the past eighteen months. Not only the industrious and bona fide searchers for regular work were drawn to the city from the outports in expectation of well-paid employment, but all the aimless wanderers who think they can "better themselves" by any change, assembled here.

### Vital Statistics.

## DON'T LOSE ANOTHER HAIR

35c "Danderine" Saves Your Hair—Ends Dandruff! Delightful Tonic

Don't lose another hair! Don't tolerate destructive dandruff. A little Danderine now will save your hair; thicken and strengthen it; double its beauty.

Falling hair never stops by itself! Dandruff multiplies until it forms a crusty scale, destroying the hair, roots and all, resulting in baldness.

Your druggist will tell you that "Danderine" is the largest selling hair saver in the world because it corrects and tones sick, ailing hair of men and women every time. Use one bottle of Danderine, then if you find a single falling hair or a particle of dandruff, you can have your money back.

### SITUATION IN ST. JOHN'S.

The most obvious form of relief comes in the foregoing conditions of temporary needs are supplied by the "expedient works" (as they are called) which are usually intended to tide workers over periods of seasonal slackness or special trade depression. So they discharge their function, and relieve much suffering, at least for the time. Experience, however, has shown that there is a danger in the offer of relief, which is usually intended to tide workers over periods of seasonal slackness or special trade depression. So they discharge their function, and relieve much suffering, at least for the time. Experience, however, has shown that there is a danger in the offer of relief, which is usually intended to tide workers over periods of seasonal slackness or special trade depression. So they discharge their function, and relieve much suffering, at least for the time. Experience, however, has shown that there is a danger in the offer of relief, which is usually intended to tide workers over periods of seasonal slackness or special trade depression. So they discharge their function, and relieve much suffering, at least for the time. Experience, however, has shown that there is a danger in the offer of relief, which is usually intended to tide workers over periods of seasonal slackness or special trade depression. So they discharge their function, and relieve much suffering, at least for the time. Experience, however, has shown that there is a danger in the offer of relief, which is usually intended to tide workers over periods of seasonal slackness or special trade depression. **Bishop Mowll's Mission Closes.**

**VAST CONGREGATION RECEIVES BISHOP'S BLESSING.**

The present week has been a momentous one in the history of the C. of E. in this city, and will long be remembered even when the present generation has entered its rest. An epoch, truly, and one that will be thought of with kindest recollections for so long, as ever, has the church had an opportunity of rendering homage to one of its distinguished sons, as was said to the Rt. Rev. Dr. Mowll, who has been conducting a Mission at St. Thomas's Church since Monday last. The climax was reached at the closing service, for it may truly be said that never in the history of the church in this diocese has such a religious fervor been in evidence as was seen last night.

During the week the wonderful magnetism of the Bishop had drawn thousands of our people to the Mission, and all were helped spiritually by the words of admonition and godly counsel from the brilliant prelate. Verily the Bishop has been a good shepherd and has drawn many to the fold. And yet, in spite of the multitudinous calls on the services of the Missioner, for many kneel at his feet in private and received his blessing, and notwithstanding the many public addresses and sermons as well as private interviews, the Bishop at a late hour last night was both buoyant and vigorous and did not show in the slightest degree the wonderful strain that has been upon him.

It may truthfully be said that few preachers have had such a congregation as that which was assembled at St. Thomas's last night. Although the hour of the service was not until 8, the eagerness of the people to hear the Bishop's final message was such that many were in the sacred edifice shortly after 6, and spent the hours in private prayers that God's blessing would rest on the Missioner in his work in St. John's and Western China. It must have been a momentous day for the Bishop, and, as he said, he will carry recollections of it to the end.

Long before darkness had left the skies, church people from far and near wended their way to the Church to be present at the greatest of all services—the Holy Communion, to receive the elements at the hands of the Bishop. In silence the throng knelt at the Altar and received the spiritual comfort of the bread and wine, consecrated by the Bishop, offering their thanksgiving that he was privileged to come and their prayers that his work in the distant Mission field of Western China would be abundantly blessed. It was a wonderful experience and brought to mind the great Easter festival, which to Church folk is the crown of all services. The solemnity of this holy service is such that one would rather say but little of it.

And then, during the afternoon, the little children paid their respects to the Reverend Father in God. From all the outlying places the children came in their hundreds to listen to the Missioner, and learn from him of the lives of their brothers and sisters in the remote parts of the world. The address was such that each child's heart and mind was able to take it in, and the singing and prayers were such that even the Missioner, with the vast experience that he has had, was almost overcome. Bishop Mowll has been an inspiration to the adults, and with the children yesterday afternoon, he was easily at his best. "Suffer the little children to come unto Me"—and what welcome they received at St. Thomas's from the Ambassador of Christ! Their tiny hearts were inspired, as they knelt and received the Bishop's blessing, the scene was such, that one who was privileged to be present, will never forget.

Ask your neighbors about Dodd's Kidney Pills.

As to the final service at night, words fail to describe it. Crowded congregations have attended the services during the week, but last evening the climax was reached. Seats were at a premium; the aisles were crowded with men and women standing; the entrances were blocked, hundreds were unable to gain admittance to the porch, while many stood outside unmindful of the cold and snow, anxious to hear the message from the eloquent preacher and to receive his benediction. Devoutly the Missioner prayed for his hearers, and then delivered his message. Appropriate indeed was his text for the final service—"The peace of God which passeth all understanding," and he held the vast congregation spellbound. Not a sound was heard excepting from the Bishop for no word wished to miss a word. Plainly the teaching of the Master was put forward; the Bishop did not mince matters. He had a message that repentance was necessary, with a promise of everlasting peace, and he delivered it in an uncompromising manner. Firm, unyielding and exacting in his admonitions of the evil doer, he was equally generous, comforting and forgiving to those who repent and are sorry for their sins. There was no uncertainty as to the condemnation of wrong doings; the horror of sin was exposed, and above and beyond all was the promise of eternal peace.

And as a finale the Bishop spoke of the work that lies before him in China, and formed a link between the Church in this Old Colony and the Eastern Mission field which will not be easily broken. As a fitting close, before the Prelate gave his blessing, the congregation sang "God be with you till we meet again." The Mission has ended; that it has been an edification and uplift to those who attended none will deny. The Bishop came at great inconvenience to himself, but as he himself says, he is thankful and delighted he came. He takes with him the kindest recollections of a thankful and loving people, and he believes that the prayers of all who heard him will be offered to the Omnipotent that his labors will be fruitful. The Bishop sailed by the Sackham for Halifax en route to China, and was accompanied to the boat by numerous friends. His only regret is that he could not wish a personal good-bye to all, but he promised to "remember all in his prayers, and hopes some day to come again."

The Lordship requested the writer to convey his sincerest thanks to the Press for their kindness, and to the many citizens, clerical and lay, who have made his visit such a happy one.—R.D.

**Found Relief For His Kidney Trouble.**

That's Why Another Man Recommends Dodd's Kidney Pills to Other Sufferers.

Mr. Eugene Provencher wants Everyone to know the Benefit he Received from Dodd's Kidney Pills.

St. Julien, Wolfstown, Que., Feb. 2.—(Special). "It is with great pleasure that I tell you how much my health has improved since taking Dodd's Kidney Pills. They have done me a great amount of good. For a year I suffered from kidney affection and now I am quite well." This statement comes from Mr. Provencher, a well-known resident here.

Dodd's Kidney Pills act directly on the kidneys, strengthening them so that they do their full work of straining all the impurities, all the seeds of disease, out of the blood.

Dodd's Kidney Pills are known all over Canada as a standard kidney remedy. They have made their reputation by doing good to people who suffer from any form of kidney disease.

**WEEK-END NOTES.**

**The Water-front and Shipping of St. John's as I Saw Them Fifty Years Ago.**

(I. C. MORRIS.) CHAPTER V.

Before dealing further with the ships it may be of interest to refer to the personnel, or to the owners, or agents, of the firms of that date, all of whom occupied very outstanding and prominent positions in the commerce of their day. As a rule, these men impressed one as being gentlemen of high breeding, and good training. They were all scholarly men, and of the old school; hence, their qualifications were the result of strict training, and of servitude of long hours. These men to whom we especially refer were two generations before the present date; and the change in the conditions of trade and society within the last two generations is so great, that when the extremes are compared, life or rather the extremes, seem almost as different as another world. The men of that time seemed to carry great dignity with them, and they displayed great cautiousness, and their entire deportment was an education to those who looked up to them. Like men of the present, they differed in politics and religion, and had their own peculiar tastes, and fancies; and probably had their weaker moments and personal faults, but they were first and foremost gentlemen; and seemed to impart to their work and influence which commanded, if not demanded, the respect of their fellows. Thus it was that some of them were severe and even tyrannical, but that was due largely to the strict discipline which they themselves had endured; and through which they had passed before they gained the positions of prominence which came to them. The most of them were dressed very neatly, and carried about their person the etiquette and manners of court life. They, of course, were very conservative; and did not at all understand, nor would not recognize, the democratic conditions of the present time. Most of them wore long black cloth coats, and they usually carried a walking stick, and they invariably wore a tall, beaver hat. But they were busy men, and certainly had a great deal to do; and as they did not have the advantages of telephones, nor telegraphy, nor of steam, nor electricity, nor had they the benefits of shorthand and stenography, they found it necessary to work late into the night for most of the year. But with all their business, and they appeared to be ever cautious, and seemed to do things leisurely.

**MASTERS OF THEIR FATE.**

Life to them was not the rushing, hurrying, superficial thing, it is to many of their class to-day. They seemed to be more the masters of the situation, and of themselves, than men to-day appear to be. Nervous breakdowns, were seldom heard of, and some of those men at sixty, and at seventy, and beyond seventy, were competent and alert in the discharge of their high duties. They evidently had learned a more even way of living than men of their class of to-day have developed; for certain it is that seventy per cent. of the business men, as well as professional men of the world to-day, are the victims of high strung nerves, and they are more like dust driven on a wheel, than like master men, who were made to master things, and made to master themselves. Whether these men were really happy, I do not know, but their home life was very devoted, and if appearances may be taken as a standard, then they had much more in their favour, from a domestic standpoint, than the present day indicates. The Victorian age, and especially the first half of it, was an age in which the average man wore a beard; thus instead of the clean shaven man, which

is now encountered, there were the long whiskers, and heavy moustaches, and the thick, short cut hair. When it is stated that two comparatively small barber shops performing all the work in the line, for a town at least twenty-five thousand people, it will be readily understood what little there was doing in the tonsorial art. The beard, of course, gave a very different appearance to the face, and men at thirty, and forty looked older than they really were; hence there was not that dash and youthfulness which men, which men of their age display to-day; but in all they guarded cautiously their vitality, and their health.

**A SWITCHING PROGRESS.**

As already stated, those men mostly carried walking sticks. Some of them spent more time on their wharves than in their offices; and an odd one indulged in the small practice of carrying a switch in his hand, with which to assert authority; and if necessary use it. When passing a wharf one day, I saw one of that class of men, and being attracted by his attitude, and noticing that he was displaying had temper, and that the men and the boys on his wharf were afraid of him; and that he had a switch in his hand, I halted. He was a good looking man, and nature had been lavish with him. He was truly born well, and had much to be thankful for, from a physical standpoint. He always wore a tall hat, but not the dark coloured hat, but rather the gilt or fawn hat. To all appearance he was nature's gentleman, but he evidently allowed himself to be overcome by the worries of business; hence he indulged in the smallness of shouting at his men, and also of blaspheming. At the particular occasion, in which I happened to be on his wharf, he was scolding the culprits, and was certainly making very little of them. As I looked at him the thought occurred to me that if he should ask me why I was looking, what answer could I make; and quick as a flash, the reply came to my mind to say that I was looking at Newfoundland slavery. At that time there was no such thing as Unions, nor protection for working men; hence there was no court of appeal against such conduct; and the few who thus forgot themselves seemed to have had a free hand, and to have had all their own way. Such men went to extremes, but trade Unions and mutual associations have killed out much of that tyrannical spirit, which some of us saw, and endured fifty years ago. But as extremes are always dangerous, so to-day trade Unions need to exercise caution, and not to go too far; nor want too much of their own way; and that by being moderate in all things, there is a possibility of all men, and of every class of men, enjoying their rights, as God meant they should. So much then for the old class of men, whose faces we looked into half a century ago; and so much for their influence. Gentlemen—the most of them were, and capable and clever; and though a few were hasty and rash, yet taken on the whole, they were trustworthy and were literally the fore-runners of our commerce. Whatever development may come to-morrow, or whatever future may lie in store for Newfoundland; to the business men, whether of St. John's or the outports of the fifties, and the sixties, and the seventies, to those men we say, must ever be accorded the praise, which they deserve; for they, by their diligence, and industry, laid the foundation of the Newfoundland that is, and the Newfoundland which is yet to be.

**Our Dumb Animals.**

**REPORT OF THE CHIEF AGENT FOR WEEK ENDING, FEB. 2nd.**

Received a phone message to go to the King's Bridge to shoot a horse for a man named Bassett. The horse was past its labor. I also humanely destroyed a horse for Mr. Baker of Scott Street. The animal was old and the owner was not in a position to provide for it, and thought it better to have it put to death humanely. Received phone message on Sunday morning of a cat which was up among the electric light wires on Pleasant St. The cat had been there all Saturday night, there were quite a number of people watching it. I phoned the sub-station who immediately sent a man and had it taken down. I was also asked by a lady on Carnell St. to destroy a dog which was suffering from distemper. I also sent in six lame horses for treatment, two are being attended by Veterinary Surgeon Smith. The case reported last week was withdrawn as the owner promised to keep the horse off the street and give it medical treatment and if not improved will be destroyed. I also received word of a horse on

Hamilton Street suffering from a quitter. The animal was owned by Mr. J. Roberts, I told him the horse would be laid up for a long time and asked him not to sell it as it would be unfit for work. He went for Mr. Matthew Butler, an expert horseman, to have his opinion. Mr. Butler examined the horse and advised him to have it humanely put to death which was done. I might say here that two of three men are making a practise of going out very late at night and early Sunday mornings trying to sway horses and ponies. With the assistance of the police this work will have a stop put to it. Two cases I know the horses have perished 24 hours after the trade, and many people have been badly taken in and I warn the public to be on their guard against horse dealers of this type. Received a phone message of a lame horse on Circular Road, also of the conduct of some cab drivers who very cruelly overdrive and beat their horses. I have attended to this also and warned them.

JONAS BARTER, Chief Agent.

**NOTICE TO FISHERMEN**

On the 13th June, 1922, the Government reduced the Export Tax on fish, viz.: Cod, Haddock, Hake, Ling, Pollack and Halibut, dried or otherwise preserved.

On the 17th November, 1922, the Government removed the export tax altogether from the above named fish, and the amount paid as export tax was to be paid the Exporters and they to repay the fishermen.

This was found impossible because the Exporters could not be sure of whose fish was exported and whose was not, so on the 22nd January, 1923, the Government decided to pay 10 cents per quintal to all fishermen who actually caught any of the above named fish provided he produced a receipt or certificate where it could be proven that the fish was sold between the 13th day of June, 1922, and the 17th day of November, 1922, both days inclusive, and thereby was entitled to the 10 cents per quintal that the Government have decided to give.

**The following Committee:—**

- H. V. HUTCHINGS, Esq., Asst. Deputy Minister of Customs;
- W. H. CAVE, Minister of Shipping;
- HON. W. W. HALFYARD, Minister of Posts & Telegraphs;
- HON. ELI DAWE,
- A. W. PICOTT, Esq.,
- ROBERT PIKE, Esq.,

under the direction of H. W. LeMessurier, Esq., Deputy Minister of Customs, has been appointed to go into the payment of this refund. As this work represents the payment of 10 cents per quintal on somewhere near one million quintals of fish to about twenty or twenty-five thousand fishermen, it must be understood that the payment of such a sum to such a number will take time. Therefore for the guidance of the fishermen, and to facilitate the work and quick payment, the following is requested of those who are entitled to receive payment:

- 1st.—Have you sold any fish either for cash, barter or credit of your account to anyone between the 13th day of June, 1922, and the 17th day of November, 1922, both days inclusive?
  - 2nd.—If you have the original receipt from the person to whom you sold fish, with the purchaser's address, forward it to the Secretary.
  - 3rd.—If you have no receipt, get a sworn statement from the person to whom you sold the fish, stating the date of sale and quantity sold, with the name and the address of the purchaser.
  - 4th.—A Shareman applying for repayment must get an account of the total catch as landed and sold and in each case a record of the vessel, and the name and address of each man composing the crew, so that he may get the payment direct for himself.
- Owing to the large number of fishermen involved, the first payment will not be made until March 10th and it will be for receipts received up to February 25th. Second payment will be made April 10th and will be for receipts received up to March 25th. Third payment will be made May 10th, and will be for receipts received up to April 25th. Fourth payment will be made June 10th, and will be for receipts received up to May 25th. Fifth payment will be made July 10th, and will be for receipts received up to June 25th. Sixth payment will be made August 10th, and will be for receipts received up to July 25th. Last payment will be made September 10th, after which date the accounts will be closed and no further applicants will be considered. Positively no payments will be made other than on dates named, and it is useless for anyone to bring receipts to the office and expect payment.

Save time and expense by NOT coming, but address all communications to

H. V. HUTCHINGS, Asst. Deputy Minister of Customs, St. John's.

**H. W. LeMESSURIER,** DEPUTY MINISTER OF CUSTOMS.

## Marine Engineers.

OFFICERS FOR 1923.  
 The annual meeting of the Marine Engineers Association, held in the Hall on Thursday night, the following officers were elected for the year:  
 President—Mr. J. MacFarlane.  
 Vice-President—Mr. J. Buckingham.  
 Secretary—Mr. F. LeValliant.  
 Treasurer—Mr. J. McKinley.  
 Committee—Messrs. J. Crossman, G. Pike, J. W. Parsons.

## Shipping.

Schr. Haabet, Capt. Wm. Doyle, has cleared for Barbados with 2871 qts. codfish, 48 qts. Lins, 32 qts. Haddock, 395 bris. herring, 10 bris. salmon and 100 bris. caplin.  
 Schr. Jean Dundonald Duff is now ready to sail for Bahia, and is taking 4571 qts. codfish shipped by the Nld. Prudhoe Company.  
 S.S. Erling Lindoe, on discharging her cargo will load codfish at Harveys for Alentea, Messrs. A. B. Rendell and Co. are the ship's agents.

## United Fishermen's Campaign.

SUCCESSFUL MEETINGS HELD.  
 The following reports of the United Fishermen's campaign were received yesterday:  
 Tickle Cove, Jan. 31, via King's Cove, Feby. 2.—Messrs. Winsor and White held a very successful meeting here last night. Most of the people strongly endorse the movement.  
 JOHN LANE, Chairman.  
 FRANCIS KELLY, Secy.

Muskratville, Feby. 2.—The delegates of the United Fishermen, Sainsbury and Standford, held a meeting here last night. The resolutions passed unanimously, and the people here are backing up the movement.  
 ELEANOR READER, Chairman.

Bay de Verde, Feby. 2.—United Fishermen Delegates held a big meeting here last night. Captain Jesse Winsor was present. The resolutions passed unanimously and the fishermen are determined on a reduction of taxation. The delegates report they have canvassed the district with wonderful success. Signed: MICHAEL KEYS, Chairman; THOMAS RIGGS, MOSES BLUNDON, THOMAS MOORE, MICHAEL NORTH, THOS. RIGGS, of Wm. RICHARD WOODROW, PATRICK RIGGS.

Muskratville, Feby. 2.—At a meeting held here by the delegates of the United Fishermen's Movement, J. S. Hill and S. Roberts, the resolutions were passed. Ninety-five per cent of the people are in favor of the movement.

ARTHUR GUY, Chairman.  
 MOSES BUTT, Secretary.

Tickle Cove, via King's Cove, Feby. 2nd.—Messrs. Winsor and White held a very successful meeting last night, secured majority. Tickle Cove solid for movement.

JOHN LANE, Chairman.  
 FRANCIS KELLY, Secretary.

## Obituary.

ENA BERNARDINE VINCOMBE.  
 The sympathy of the whole community will go out to Mr. and Mrs. N. J. Vincombe, on the passing of their little daughter, Ena Bernardine, which sad event occurred last night at her parents' home, Duckworth St. The deceased had been ill but a short time and despite all that medical skill could do, she gradually faded until the Great Maker of all took her unto Himself. Coming so soon after the recent death of their eldest daughter, it comes as a severe blow to the bereaved parents. Little Ena, who was nearing her tenth year, was a general favourite with her school companions, and gave every promise of a bright future; but it was ruled otherwise, and she has gone to join her other sister with the Angels, beyond the skies. The funeral takes place at 2.30 to-morrow afternoon, from her late residence, Duckworth Street east.

## Here and There.

Look out for KNOWLING'S advertisement of their annual sale of dress goods to appear on Monday morning and Telegram of Tuesday evening.—Feb 3, 11

TEMPERATURE.—Last night at the Valley Nurseries, Waterford Bridge Road, the thermometer registered 15 degrees of frost, and this morning 12 degrees.

The T.A. & B.S. Ladies Auxiliary will hold a Card Party and Dance on Feb. 12th. Pancakes will be served during the evening. Bennett's Orchestra will furnish the music.—Jan 29, 71

## SIDE TALKS.

By Ruth Cameron.

### HOW THEY LOVE TO HATE.

What pride and what pleasure seem to take in their hate.

I have a friend who has a very fine mind and a very fine sense of justice in most things. But she has one great weakness. She always has on hand several very highly cultivated hates, and in any matters relating to these people she seems to use neither her mind nor her sense of justice.

What a silly habit hate is! And what a boomerang in several ways! She Lets Her Hate Inconvenience Her. In the case of the woman of whom

trust your judgment by this display of uncontrolled emotion and bias.

We Even Hate Strangers.  
 I know several people whose respect for the woman of whom I speak is greatly diminished by her habit of letting her prejudices dominate her. Because she feels so violently against people who seem to them tiresome perhaps, but surely not worth so much dislike, they distrust the rest of her mental processes. A distrust

### Footsore?

Bathe your feet with warm water then rub well with Minard's Liniment. Soreness goes—feet feel fine for Minard's Liniment is King of Pain.

**MINARD'S LINIMENT.**  
 The Family Medicine Chest.

Minard's Liniment Relieves Neuralgia

which is natural though not in the least deserved.

People often get the habit of hating people whom they have never met but of whom they have heard things that antagonise them or whose faces for some reason do not appeal. I found myself forming certain impressions of this sort in regard to some people whom I saw every day at a restaurant where I used to eat. Of course it was natural that I should like some faces and dislike others. But it wasn't necessary to let this disagreeable impression grow into a hate that would take some of my vital forces.

### Hate Really Poisons.

"If I wanted to punish an enemy," said Hannah Moore, "it should be by fastening on him the trouble of constantly hating someone."

Hate is a poison that poisons him who hates rather than him who is hated. And I don't mean that figuratively either. Like fear and fatigue and anxiety, hate actually does cause harmful physical changes. Don't get the habit of hate. You can't afford it.
