HOUSE MUST QUASH TEMERE NOT COURTS, SAYS LANCASTER

Long Debate Followed Premier's Proposal That Privy Council Interpret Decree, Ending in Vote to Adjourn at 2 a.m.—W. F. Maclean, Blain, Kidd and Edwards Voted With Lancaster Against Adjournment.

LAURIER MEETS ISSUE WARILY

OTTAWA, Jan. 22.—(Special.)—"One law for Canada we must have on these questions, and we're going to disrupt confederation if we don't have the law," declared E. A. Lancaster (Lincoln), who to-day moved the second reading of his bill to amend the Marriage Act, by declaring that persons married by legally authorized authority shall be validly married, notwithstanding difference of religion.

The house divided at 2 a.m. on the motion to adjourn the debate. Colonel Hughes was loudly cheered by the opposition when he voted "yea." So was Capt. Tom Wallace. Conservative members who voted against the motion were Lancaster, W. F. Maclean, Blain, Kidd and Edwards. The motion was carried by 86 to 61. The house then adjourned.

The doubt that was cast upon the validity of marriages would, unless set at rest, sap the national life as no trade or other agreement ever could, said Mr. Lancaster in opening the debate. He might have to come to the Italian law and prohibit priests discussing the marital relations of families. He pointed out that no one had ever doubted the competency of parliament to pass the deceased wife's sister legislation which was against the law in Quebec and against the Anglican rule.

Courts to Decide.

Hon. R. L. Borden stated that the question involved would be sent to the supreme court and on to the privy council, and moved the adjournment of the debate.

W. F. Maclean (St. York) pointed out that the confusion into which the question was drifting might force the adoption of civil marriage.

W. B. Northrup (E. Hastings) made it clear that the question was whether the church or the state should rule.

Hon. C. J. Doherty delivered a long and interesting lecture on the legal technicalities of the case. "Let us be sure we're right before we go ahead," was his conclusion.

Evil Demands Remedy.

"This is an evil which requires a remedy at the hands of parliament," said Mr. Lancaster in introducing the bill, which was seconded by Richard Blain (Peel).

The evil did not arise because of the decision of one of the courts of Quebec. All the Quebec judges did not agree in the matter.

"What I do say," he declared, emphatically, "is that there is a doubt cast upon the marriage of persons who are otherwise lawfully married and upon the legitimacy of their children, simply because they are of different religion.

"The evil in my mind is the doubt. We cannot afford to have Canada looked upon with doubt by any country in any part of the world that may be looking to Canada in this regard. If you do, then you are sapping the national life of this country in a way in which it could not be sapped by any trade or any other agreement.

"I don't want to go any further than will remedy the evil," he continued.

For General Good.

"This question must be dealt with by us entirely in the interests of the nation, regardless of what may be the law of any particular creed or religion. I contend that this bill is absolutely in the interests of everybody of every Christian creed in this country. There is a necessity for prompt action."

Some people had objected that the bill did not go far enough, and he instanced an article in the Orange Sentinel which demanded the enactment of the Italian law, to prohibit a priest "going into our houses to discuss our marital relations."

"I do not agree with them," said Mr. Lancaster. "I do not believe such an evil exists. We are not in Italy, but if we do not do something, if we do not take some reasonable course, we will be in Italy, we may get into a condition in which even I may get to admit that we have to enact such a law."

Evasion of Civil Law.

Mr. Lancaster then quoted the celebrated interview of Rev. Father Co-mear with a Winnipeg paper, in which he arrogated to a priest the moral right, in case a man who had married

Red Tape Stops Clock

OTTAWA, Jan. 22.—(Special.)—Dr. Clark (Red Deer) had a bright idea this afternoon which proved rather a boomerang.

In the course of his wandering around Parliament Hill, he had noticed that the tower clock, which had been pursuing a somewhat erratic course ever since the beginning of the session, had been stopped for two days. He asked the minister of public works if this came under the head of "dismissals," or whether it was intended to synchronize with the general state into which the country might be expected to drift under the present administration.

Hon. J. D. Monk explained that it was even a more complicated matter than "dismissals," owing to the circuitous route to which he had been condemned, owing to the arrangement made by the late government in seeking the man whose duty it was to fix the clock.

When the red tape gets untangled from the wheels, the clock may be expected to resume its diurnal rounds.

CAR DIDN'T STOP AT CORNER AND BAG SMASH-UP RESULTS

Two persons were injured and two street cars badly smashed when a Bathurst-street car crossing the intersection at Harbour-street was struck by a Harbour-street car last midnight. The Harbour car, going west, did not stop at the corner, but went right on until it rammed the Bathurst car about a few feet forward of midships.

The motorman of the Harbour car was slightly hurt and a young man in the Bathurst car was jammed against the stove and injured. There were a dozen passengers in the Bathurst car and half as many in the Harbour car. Some of these were severely shaken up and all were badly frightened. Both cars slid off the tracks and the glass in them was smashed.

AMATEUR AVIATOR KILLED.

LOS ANGELES, Cal., Jan. 22.—(Can. Press.)—Rutherford Page, a wealthy young graduate of Yale College, flying on the first day after receiving his license as an aviator, fell 150 feet to-day at the Dominguez field and was killed. His engine fell upon him and his body was badly crushed.

WHITNEY-FELS CONFAB QUITE A SPICY AFFAIR

Sir James' Solemn Warning Sitting Lightly on Single Tax Apostle, Premier Moved to Emphatic Expression—Mr. Fels Did Not Apparently Secure a Convert to His Views.

OTTAWA, Jan. 23.—(Can. Press.)—Joseph Fels, tax reformer, of London and Philadelphia, to-day confessed to a strenuous interview with Sir James Whitney last Thursday in Toronto, on the subject of single tax.

Joseph Fels told it after this way: "I telephoned to Sir James on Thursday afternoon, asking for an interview. He told me he could not see me till noon Friday. However, it was worth a day's time to see Sir James, and the next day I reported at his house and his business shop in the provincial capital."

"The first question I asked him after he let me sit down was that he should define the difference between the Liberal party, and the Liberal-Conservative party. His answer was that the Liberal-Conservatives now stood where the Radicals stood 40 years ago. I almost fell off my chair in my astonishment at hearing something like the truth.

"My next question was what importance he ascribed to the single tax movement in Canada. He said that 'two or

Cement Trust May Be Probed

Dominion Government Awaits Statement From Winnipeg Before Taking Action.

OTTAWA, Jan. 22.—(Special.)—It is very possible that the government may hold an investigation into the prices which are being charged by the cement trust. Recently the Winnipeg Board of Trade sent a memorial to the government making certain charges against the merger, and asking for an investigation. The trust replied with a memorial in which they claimed that the prices charged at the mills have actually lowered since the amalgamation was effected. A schedule of prices was submitted to the cabinet. The trust claimed that the freight rates which are charged were responsible for the high cement prices.

The reply of the merger has been sent to the Winnipeg Board of Trade, and as soon as they get an answer the cabinet will settle what is the best way to deal with the matter.

ALBERTA WATERWAYS TO GO TO PRIVY COUNCIL

Promoters of Railway Confiscated by the Sifton Government Will Stand by Their Rights.

The Alberta and Great Waterways Co. are no quitters. They are determined to stand up for their rights and fight for them till the bitter end.

Far from being a discouragement, the action of the Rt. Hon. R. L. Borden yesterday in refusing to disallow the compulsory legislation brought against the company by the Alberta Government, appears to have acted rather as a stimulus to increased action.

W. R. Clarke of Kansas City, president of the company, was in Toronto yesterday consulting his lawyers, and when interviewed at the King Edward by The World last night regarding Premier Borden's attitude on the matter, he said:

"Mr. Borden's refusal to disallow the legislation of the Alberta Government is disappointing, but not overwhelming. Our position would have been improved by disallowance, but it is not weakened by the lack of it. We will fight right on until we reach the privy council in England, and if we don't get reimbursed for our scuttled enterprise, we will take it up internationally. The rights of our little railway are analogous and as good as the rights of any railway in Canada, and we will fight for our rights to the finish."

The Alberta and Great Waterways Co. are now suing the Alberta Government for \$2,500,000 for the loss they have incurred by the confiscating of their railway.

When the case was taken to the premier of Canada, Mr. Borden, while refusing to disallow the legislation, gave the company full assurance that Premier Sifton of Alberta will pay all just claims.

The company, therefore, claim \$2,500,000 for the throttling of their railway.

An editorial in The Toronto Globe on Jan. 18, entitled "A Very Dangerous Proposal," has been regarded as libelous by the company and legal proceedings are to be instituted against The Globe if the alleged libelous statements are not retracted.

Filtration Plant Coped With

Aid. Yeomans opened the proceedings by a series of rather startling disclosures on the filtration plant which, as he explained, he had visited on Sunday. The alderman saw few virtues in the plant, the machinery and the general operation. The three motors which had been installed to pump the water, were all inefficient for their purpose. They were guaranteed to pump ten million gallons of water a day, but at the present time they could not be made to pump within from 33 to 50 per cent. of this rated efficiency. The steam plant, which was intended to be used only as an emergency, was working 14 hours a day.

The machinery plant of the pumping house was, he said, an aggregation of irreparable blunders. There was a net loss of 2,500,000 gallons of water a day in the pumping capacity of the plant, and this was the plant which one of the experts had described as "pure gold."

To add to this, the alderman explained that the roof of the pure water reservoir was caving in and he had found several bad cracks. He thought the city had been lunched in the whole deal, and he recommended immediate attention to the matter.

Mayor Geary suggested that Aid. Yeomans make a motion to some effect covering his statement, and the alderman moved that he be allowed to testify before Judge Winchester before the filtration enquiry was concluded. The motion passed.

Controller McCarthy's motion to the effect that no civic employee be discharged, who had given evidence in a civic enquiry before such a dismissal be approved by the board of control and the city council was discussed. The council, after listening to the deputations, decided to send the matters

three piling newspapers" were advertising it, and mentioned The Globe and The Ottawa Citizen.

Sir James Gives Warning.

"I asked him if it was true that 169 newspapers had signed some kind of a petition to him, expressing a desire as representatives of the people, for the single tax. Sir James' memory failed him here. He warned the against using barb wire methods of extorting knowledge from him. My next question was what he would do about the holding of land out of use all over Canada, reports of which had reached even my dull understanding during my few days in Canada.

"In reply he said that my single tax agitation and my Henry George philosophy were false and false and that little of his attention had been called to any holding up of land, or speculating in land values that were of hurt to the country. If, however, private people were holding up land against the welfare of Canada, he would make it his business to wipe out this kind of hold-up by strenuous measures. Asked what

IN THE HIGH GRASS

SLIDING CONTINUES TWO MORE SUNDAYS

City Council Gives Prohibitory Bylaw Nearly Two-Thirds Majority — Vote Was 15 to 8—Pastime May Cease After Next Meeting.

That Sunday tobogganing be prohibited; that married women who are propertyholders be allowed to vote in the municipal elections, that the city seek authority from the legislature to build model houses; that the city seek legislation to own and operate omnibuses, were among the motions carried by the city council yesterday.

It was a busy day for the city fathers, and to add to their troubles, there were numerous delegations who had to be heard, including one from the local Council of Women, which presented a quartet of orators in an effort to convert the council.

Rev. W. M. Rochester appeared on behalf of the Lord's Day Alliance. The afternoon session lasted till 6:30 o'clock, after which the members adjourned for dinner. They met again at 8 and sat till 12:55 a.m.

Filtration Plant Coped With

Aid. Yeomans opened the proceedings by a series of rather startling disclosures on the filtration plant which, as he explained, he had visited on Sunday. The alderman saw few virtues in the plant, the machinery and the general operation. The three motors which had been installed to pump the water, were all inefficient for their purpose. They were guaranteed to pump ten million gallons of water a day, but at the present time they could not be made to pump within from 33 to 50 per cent. of this rated efficiency. C.P.R. to Get Allan Line?

PORTLAND, Me., Jan. 22.—(Can. Press.)—A report was current here to-day to the effect that the Canadian Pacific Railroad had planned to checkmate the efforts of the Grand Trunk to enter Boston, by gaining control of the Allan Line of transatlantic steamships and building a new line of railway to connect with its present line at Newport, Vt., and to run directly into Boston. The report had it that the Canadian Pacific had purchased a controlling interest in the Allan Line.

THRONES WILL NOT ABDICATE

Premier Yuan's Efforts Fail, and Complications Grow—Dissension in Ranks of Missionaries.

PEKIN, Jan. 22.—(Can. Press.)—Premier Yuan Shi Kai's efforts to bring about the abdication of the throne have failed, and the situation in China has entered a new and perplexing phase. Prince Ching, the ex-premier; Prince Pu Lun, ex-president of the national assembly, and Prince Tsai Sun, brother of the ex-regent, absented themselves from the conference of the princes of the imperial clan to-day, which left the decision as to abdication to the reactionaries, who have been strengthening their hand steadily since the premier permitted the probability of abdication to become known.

Curiously enough, the princes of inner Mongolia, whom the Manchus consider inferior to themselves, rallied to the aid of the Manchus. Apparently preparations were complete for a provisional government; an abdication edict had even been drafted, but the announcement of such a course, which had been allowed to become public with the evident object of preparing the Manchus against the shock, inspired clamour of all degrees to resist.

The empress dowager, being reluctant to abdicate, has accepted the advice of the reactionary princes. The matter of appointing Yin Chang, the former Tartar general at Nanking, to replace Yuan Shi Kai was discussed, but the argument prevailed that the 19 articles of the constitution promulgated by the national assembly last November should be observed.

MIMICO RADIAL IS TO-DAY OPERATING WITHOUT FRANCHISE

City Has Still Chance To Take Over Etobicoke Township's Jurisdiction.

The Toronto and York Radial Railway Company is now operating the greater part of its Mimico division without a franchise and without any particular right to use the Lakeshore road on which its line runs.

Yesterday its franchise with the Township of Etobicoke expired. The River to the Etobicoke River, past Long Branch. For some time the city has owned the radial's rights to operate on Sunnyside to the Humber.

And it also appears that the city has for a year past had the opportunity of taking over the township's jurisdiction over the railway, but has not, so far as the officers of the township know, even thought of seizing this chance of securing power to say how the radial shall run from Long Branch into the city.

A year ago the township council notified the city that they would be willing to relinquish their jurisdiction over the railway company provided the city guaranteed the township against any loss or damages in any way. At the same time they asked the company if it would give certain small concessions, such as more frequent service and tickets purchasable on the cars. The company granted these concessions, and as the city has not made any move to acquire the township's rights, it is more than likely that when the Etobicoke Council meets in a week or so, that they will renew the company's franchise for ten or even twenty years.

But the city has still a week to determine what to do about it. A large part of the section, such as New Toronto and Mimico, through which the radial runs in Etobicoke, is as thickly populated as parts of the city, and it is only a matter of a very few years before it will want to be taken in.

Paris Pattern Garments.

The opportunity offered by the Di-nen January sale for anyone requiring something good and exclusive in new garments, is most appealing. In the sale there is a particularly high-class selection of pattern garments imported from Paris early in the season and used as examples by the Di-nen designers. These are exquisite creations and are being offered at a positive loss.

SOCIALISTS GAIN GOVERNMENT IN PERIL

Pendulum Swings Surprisingly in German Elections, and Outlook for Allied Conservatives and Centrists is Gloomy—Capture of Cologne by Socialists a Body Blow.

BERLIN, Jan. 22.—(Can. Press.)—The Socialists, as a result of to-day's reballoting for members of the Reichstag, lack only one of an even one hundred seats. This was the outcome of another remarkable change in the political atmosphere, coupled with 33 victories by other left parties, which makes the chances of the "blue-black bloc," or government, of retaining its former majority more than doubtful.

The Socialists elected 27 men in eighty contests, and now have a total of 99 seats. The allied Conservatives elected 11 with a total of 69; allied Centre, 5, total 107; Radicals, 17, total 24; National Liberals, 16, total 41.

The most sensational event of the reballoting was the winning by the Socialists of Cologne, "the German Rome," which has been in the uninterrupted possession of the Clericals since the founding of the empire. The Socialists lacked only nine votes of carrying the First Berlin District, where the ministers' votes re-elected the Radical candidate.

The Conservatives suffered a net loss of fifteen, of which ten went to the Socialists. The Socialists captured Colmar and Strassburg from the Centrists, and defeated Dr. Mugden, the Radical leader in Goertz, and Dr. Rosann, the National Liberal leader in Darmstadt. Count von Oppendorff, the leading clerical, barely escaped defeat by the Radicals in Fraustadt.

Victory for "Left."

Late returns give the "bloc" a total of 176 seats, and the National Liberals, Radicals, Socialists together a total of 174. Of the 33 mandates which will be contested on Thursday, the most generous estimate apparently cannot give the "bloc" more than ten, making the total 185, fourteen less than a majority, while 23 appear to be safe for the Left. This would give the combined Left 197, leaving only 14 for particularists, independents and others.

PLANT TO COST \$5,000,000

Mackenzie and Mann's Iron Enterprise at Port Arthur.

PORT ARTHUR, Jan. 22.—(Can. Press.)—Acting for Mackenzie & Mann and an English syndicate, J. M. Fraser, manager of the Atkocan Iron Co., a Mackenzie & Mann concern, submitted to the city to-day an application for the establishment here of a five-million dollar plant. The city will give a site of 400 acres at Barendpoint and a fixed assessment for twenty years of \$50,000, except for school and local improvement taxes.

Mr. Fraser estimates that, in the iron ore areas of which Mackenzie & Mann have control, and for which they are seeking development, is ore enough to keep a steel plant running for 475 years. These include the Atkocan, Moose Mountain and Nipigon areas. The proposed industry is to employ 2000 men.

LAVERGNE CONVALESCENT.

QUEBEC, Jan. 22.—(Can. Press.)—Armand Lavergne, M.L.A. for Montmagny, who underwent a serious operation just before the opening of the present session, left the Hotel Dieu to-day. His convalescence is now assured, and it is expected he will take his seat in about three weeks.

SENATOR MILLER VERY ILL.

OTTAWA, Jan. 22.—Senator Miller is lying in a serious condition at his boarding house on Gloucester-street. He has been ill for some time and is now, in addition, suffering from a stroke of paralysis.

ANCIENT BUILDERS.

The foreign legations do not desire to see Yuan Shi Kai retire, because a capable substitute for his office is not available.

Missionaries Divided.

Many missionaries in the northern provinces strongly resent the attitude of the missionaries in Shanghai who are publicly supporting the revolution. Bishop Bashford of the Methodist-Episcopal Mission, and other prominent American missionaries, have expressed to the Washington administration the view that a republic is inevitable, while another group, almost entirely American, have telegraphed to the empress dowager and the leading princes, asking them to abdicate.

The American legation approved of

LOSE SELF-RESPECT IF WE DO NOT TAKE UP OUR BURDENS AS NATION

Canada Cannot Travel Any Longer on a Child's Ticket, Asserts Professor Kyle.

"Canada cannot travel any longer on a child's ticket," was the epigram with which Prof. E. J. Kyle summarized his conclusions with respect to Canada's relations with foreign nations, upon which subject he addressed the Canadian Club yesterday.

"We must either join in an effective league of British dominions or set up as an independent state," he declared, adding, "I am not giving tips to statesmen."

"We should see to it that no partisan delegation from other parts of the empire, be thought, where all the cards would be on the table and a settlement could be arrived at. The situation was rapidly becoming intolerable. He did not refer to the expense, but to their independence and self-respect as men. They should not feel on the crumbe that fall from other people's tables nor fear to take up any burdens and responsibilities involved. (Applause.)

"Canada was for a very long period the Thibet of North America, but in recent years its isolation has rapidly been broken down," was Prof. Kyle's introduction to his address. Canadians primed their pump with borrowed capital.

"Personally, also I may differ from many of you, I am of the opinion that we can adopt no other policy. We have enough unassimilable elements already," he stated, speaking of the exclusion of Hindu subjects of Britain, who he admitted the danger of stirring up the millions of India.

"Canadians Lose Nationality. When an immigrant left Canada, also naturalized when he left the country, he became a Swede or a Russian, or an Italian again. It was proposed to deal with this in an imperial measure, but when it was submitted last year to each government in turn at Ottawa, neither paid any attention to it. No better example could be had of the indifference of our governments to such questions.

"They needed the open door in the east and they needed open sea routes and these depended on the balance of power in Europe, which rested on the silent and bloodless struggle going on in the North Sea. If one European power possessing the greatest military strength became also the greatest naval power, it might easily threaten the control of the Panama Canal. We were clearly in a position in this. We were well advised to keep out of the vortex of European militarism, but the vortex was coming to us, and when the United States was the second greatest power in the world the vortex, which China and Japan had brought nearer, was coming very close.

With regard to Persia, he said England was interested there because of India. And it was becoming increasingly difficult for small states to maintain centres of disorder in the world. He took it that England was right, but assuming that England had had it had to be considered that England was no longer naturally a strong state. Relatively with Germany, England was a small state and had to look about for friends. She therefore had to do more for Persia than she might have done, or than she might do, with the assistance of her colonies.

CHURCHES FEDERATED FOR PURITY EDUCATION

At the request of the executive of the Canadian Purity Educational Association, an informal conference of representatives of church departments and other organizations was held yesterday afternoon at the Confederation Life Building. Rev. Dr. T. Albert Moore of the Methodist Social and Municipal Reform Board presided.

The conference adopted a resolution in favor of federated work along purity education lines.

The Canadian Purity Association will take the initiative in securing the organization of the proposed federation by issuing invitations to the churches and societies interested in the movement.

PRESBYTERIAN DONATIONS TO MISSIONS INCREASING

Fair play for the small congregations was the slogan of the recent foreign mission executive yesterday afternoon. Rev. Prin. Gandler presided. The meeting was held at the Confederation Life Building.

The chief topic discussed was how to increase the interest at home in the foreign mission work. It was pointed out that the present arrangement is a substantial increase in Presbyterian church giving under the million dollar revenue movement inaugurated on New Year's Day.

Change in Toronto-Montreal-Ottawa Service. The Canadian Pacific Railway desires to notify the traveling public that train No. 24, which at present is leaving North Parkdale at 8:15 p.m. West Toronto at 9:39 p.m., will on and after Sunday, Jan. 28, leave Parkdale at 9 p.m., and West Toronto at 9:20 p.m.

There will be no change in time of leaving North Toronto. 23456

COTTON MILLS RESUME

MANCHESTER, Eng., Jan. 22. (Can. Press.)—Work has been resumed everywhere in the cotton trade, with the exception of a few spinning mills which will be run on short time for a week or so.

The woman, Margaret Bury, who owing to her refusal to join the trades union, caused the dispute between the employers and the workers, is doing her customary work at the York Mills.

The operatives and employers are to observe a truce for a year, during which the question of the employment of non-unionist labor is to remain in abeyance.

Bear Paid in Dome Extension Fails to Affect General List

Porcupines Get Another Bad Jolt Dome Extension Hammered Down

Outburst of Liquidation in Mining Markets Again Depresses Prices —General List Holds Up Well—Hollinger Scores Advances.

World Office
Monday Evening, Jan. 22.

Porcupine stocks received another jolt today when an outburst of selling orders in Dome Extension swamped the market. The quotation for the shares dropped in short order, the slump running into a comparative volume before the decline was checked. The movement did not pose as a factor of much importance for the rest of the list, however, for it was remarkable that in the main prices held up comparatively firm with those of Saturday last.

Just what there was doing in Dome Extension today it was rather hard to find out. As usual, there was no news out of the property, but the customary number of vague rumors were circulated on the street, the upon investigation it was seen that none of these were to be credited. The general idea was that the slump was due to the concerted efforts of a number of bear traders, who raised the stock with impunity, and when once the decline was well under way, sought in enough to cover the short contracts they had assumed on the way down.

General List Holds Well.

It was significant that while operations of this nature were under way in Dome Extension, they were not prominent in any other issue, and this was accepted as indicative of the fact that the remainder of the list was not in a vulnerable condition.

In some instances the market actually showed a buoyant undertone, and this was particularly marked in relation to Hollinger. This stock was up 35 points to \$13.85, and at the close there was some buying of the stock.

In the special instances where the decline in Dome Extension had an effect on sentiment, the losses which were occasioned were slight. Rea sold five points to \$1.41. Vipond lost a fraction only, and the rest of the list on the whole displayed a comparative steady undertone. Crown Chartered was one of the weak spots, a good deal of liquidation being still under way, and the price dropped back to 7 1/2, a new low record.

In the Cobalts a strong demand was shown by Nipissing, which was up 30 points to \$8.50, and closed strong a short distance below that figure.

Progress Made on Porcupine Railroad

Pearl Lake Branch Rapidly Nears Completion—Surveying for Elk Lake Branch.

Chairman J. L. Englehart, Commissioner Fred Dane and Dennis Murphy of the T. & N. O. commission, accompanied by George Lee, general agent; S. B. Clement, chief engineer; W. A. Griffin, superintendent of traffic; and William Young, general roadmaster, have been north inspecting the government road. They made a special trip into Porcupine to look over the new Pearl Lake section of the Porcupine branch of the T. & N. O.

The Pearl Lake branch is being rushed to completion and trains will be running to and from Timmins in a short time. Steel has been laid for the most of the line and work on the present station at Aura Lake is being completed at present.

Speaking of the Elk Lake branch, Chairman Englehart stated that a couple of the survey parties were still in the field and nothing definite could be said as to when the work would be started in the spring.

Steel at Record Price in Montreal Market

Stock Advances on Heavy Trading, But Loses Portion of Its Gain.

MONTREAL, Jan. 22.—Heavy trading in steel corporation was again the feature of today's market and a new high level of 21 7/8 on the present movement was touched at the morning session. The stock was generously supplied on the rise and profit-taking in the price declined, at one time working off to 60 1/2, but rallied to 21 7/8, but again reacted to 21 1/2 at the end of the day. The net gain for the day was 1-4 on sales of \$948,000.

Steel Corporation of Canada was quiet after a display of activity on Saturday, sales of the common stock totaling \$1,000,000. The company's Montreal office was quiet, but other features were furnished by Detroit and Montreal Power. Detroit opened strong and was 7 3/8 in the last sale, a net gain of 2 3/8. Power moved up a full point during the day but eased off 1-4 in the last sale.

GOOD VALUES REPORTED

Active Work Now Under Way at Langmuir Property.

PORCUPINE, Jan. 18.—Daniel F. Yost of New York has just returned from a trip to the property of the Langmuir North Hawk Lake Gold Mines, Limited, controlled by the North Hawk Lake of Porcupine Gold Mining Company, an American corporation, bringing with him 200 pounds of ore that he will take with him to New York. Mr. Yost reports that camp buildings have been erected on the property, which consists of five claims in the northwestern part of the township, and an assay office is being built.

Shut sinking has started on a big vein 27 feet wide that lies in the granite. Mr. Yost says that the vein carries values consistently for 150 feet, running up to \$15 on the hanging wall side and \$8 on the footwall side. It is understood that the stock will be listed on the New York curb market inside of a few days.

CONIAGAS' DIVIDENDS.

The declaration of the regular dividend on Coniagas for the first quarter of 1912, brings the total disbursement of the company up to 80 per cent., and by the end of the year, with their present rate, they will have redeemed their capitalization and entered upon the select list, now held by but half a dozen mines in Cobalt.

The list of dividends from the Coniagas now reads:

1907	9 280,000
1908	11 140,000
1909	9 280,000
1910	6 240,000
1911	28 1,400,000
1912, Feb. 1	9 280,000
	80 \$3,200,000

New Wettlaufer Director.

NEW YORK, Jan. 22.—At the annual meeting of the Wettlaufer-Lorrain Silver Mines, Henry P. J. Kofoblock was elected a director, succeeding W. B. Thompson. Other directors were re-elected.

DOMINION EXCHANGE STARTS UP AGAIN

Fund Was Raised to Aid Hard-Up Members—Starts With Clean Bill of Health.

The Dominion Stock Exchange will resume its usual course of business today, and will thus settle the unimportant question as to whether it is temporarily closed, pending the settlement of clearing difficulties among its members, or is actually conducting open business on the floor.

The exchange has been sending out its usual daily quotation sheet since Thursday last, when it was announced by authority of the secretary that open trading would be discontinued for the time being, but the amount of business put thru shows a decided falling off and presumably represented the interchange among the individual members rather than any open transaction on the floor.

"We will be open for business in the usual way to-morrow morning," said one of the members of the exchange last night when questioned by the World as to how affairs were shaping, and we will start with a clean sheet. It is useless to pretend that we have been doing open business on the floor since Thursday last, for we haven't a cent of business, and the sales reported represent merely the business which the brokers found it necessary to carry on, and which they conducted among themselves outside the usual regulations of the exchange.

"To-morrow, however, we start out again with a clean bill of health. The matter of delayed clearing has been fully cleared up, and each broker has now made a complete settlement of all stock owned by him. A fund has been raised by the members, to which every subscriber, and this was handed over to the officers of the exchange, and they have then at their discretion, to pay off any indebtedness which it was impossible for the members to take up at this time. I have seen a list of the state of a man in which I believe any other exchange in the city would find difficulty in carrying out."

PROMISING RESULTS AT MARTIN PROPERTY

Splendid Surface Showing—Diamond Drill Results Highly Satisfactory.

Development work at the Martin property, south of the Big Dome, is progressing rapidly, and it is reported that promising results are being obtained. The Cobalt Nugget in a special article in the property states that such remarkable results are being secured in surface work at the Martin that the manager, J. W. Wilson, is even more enthusiastic concerning the future of the property. The ore body now being worked upon is at least 50 feet wide, and employees are making an open cut across the 7 feet wide, 75 feet deep. A tonnage will be sent to Cobalt for treatment, and the mill run will give an average check up against the assays which are being obtained. While the Nugget representative was at the mine, shots were put in, and disclosed just as good values as those encountered when the vein was first stripped, nearly all of the pieces of ore being rich in gold or being very heavily mineralized.

To date the diamond drill has gone over 60 feet, and the results being obtained are most satisfactory. It is expected that the mill run when the shipment of ore is made to the concentrator, and upon which the surface work will rest the policy of future development.

Several camp buildings have been erected, and these will be added shortly, so that a larger force of men can be accommodated.

At the Toronto office of the company, it was learned last night that the diamond drill has been put down 280 feet to yesterday, and that the cores showed mineralization through.

London Market Shows Irregularity

LONDON, Jan. 22.—Money was dearer, but discount rates were easy today. The Bank of England secured the bulk of the \$2,500,000 new gold offered in the open market.

The stock market was quiet and generally easy. Continental politics and dearer money affected gilt-edged securities and foreign bonds, and realizing weakened home rails, but Mexican and Guatemalan bonds closed firm.

American securities were quiet and featureless during the forenoon. In the later trading Rio Grande shares were firm, but the rest of the list sagged on Wall-street offerings. The closing was easy.

MINERS SUPPORT MITCHELL.

INDIANAPOLIS, Jan. 22.—(Can. Press).—Enemies of John Mitchell, in the convention of the United Mine Workers of America failed in an effort to oust Mitchell from the office of president by censuring Mitchell's conduct toward the National Civic Federation. He obtained the passage of a resolution providing for an investigation.

Wall St. Shows Indications of Uncertainty Regarding Future

Easier Feeling in Wall Street Stock Market is Reactionary

Disappointing Action of New York Securities Due to Uncertainty Over Situation—Bear Drives on Steel.

NEW YORK, Jan. 22.—After their brief rise of last week, stocks became heavy to-day. Losses were not large. Union Pacific, Lehigh Valley, United States Steel, American Smelting and a few others showed declines of a point or more at the low quotations of the day. In a majority of cases the movement was narrower. Shortly before the close there was an improvement which partly compensated for the earlier recession, but the tone of the market as a whole was reactionary. A few stocks developed exceptional strength. Of these the Hill and Fertilizer shares were most conspicuous.

The action of the market disappointed hopes for a continuation to-day of the upward movement which had marked the closing of the week. Expectations of a further rise were predicted upon the recent expansion in the demand for bonds, such an increase in the investment enquiry frequently having been a forerunner of an increased absorption of stocks. Trading in bonds continued on a heavy scale, the total of the day's transactions being one of the largest for several months.

The uncertainty of the outlook in business and politics tends to hold back an expansion of this movement to the nature of the present position of traders is to take quick profits rather than to enter upon commitments for the long pull. The developments on the market to-day was attributed largely to profit-taking sales.

United States Steel was objected to vigorous drives from the bears. An advance in the price of steel wire and wire products was of no effect on the stock. Some of the selling was based upon reports that developments unfavorable to the Steel Corporation were expected soon at Washington. Union Pacific also was under pressure.

Among the stocks which advanced, Great Northern preferred, with a gain of 1/2 cent, was most conspicuous. The Fertilizer came into prominence again and Interboro-Metropolitan shares reflected expectations that the company's recent survey showed that the demand for fertilizer was being stimulated by a time by a speculative demand apparently based upon the recent sharp upturn in Central Railroad of New Jersey, but was unable to hold its advantage.

Berlin advices to the effect that arrangements had been made for the renewal of a large part of the German loans maturing in New York in the latter part of January or early in February. The renewals were said to have been made at 1-1/2 to 2 per cent. Unless there is some change which cannot be foreseen, it is regarded as probable that the issue in New York will continue for some time. In the bond market trading was broad and content.

Monday Evening, Jan. 22.—The Toronto stock market was somewhat less active to-day than during the last few sessions, the speculative movement showing a falling off from its recent proportions. This occasioned no let-up in the responsible undertone, however, prices in the main showing a remarkably firm disposition, and in some instances developing an all-round buoyancy.

The Russell Motor stocks were the feature of the day's trading, with the common particularly in the limelight. The price for the latter was advanced by leaps and bounds, and during the afternoon got as high as 104, a net gain of 3-1/2 points for the day. The preferred stock, which is convertible into common, also moved up, the advance was less marked in respect to the common particularly for those securities having received talk of an increased dividend, and traders are already predicting an eight per cent. rate for the common in the near future.

The South American traction issues did not accomplish very much, both Rio and Sao Paulo showing apathy and holding comparatively unchanged from Saturday. Rio sold between 112 1/2 and 113 7/8, thus closing on offer at 103, which was also the low price for the day.

Steel Trust About Earning Dividend

NEW YORK, Jan. 22.—As the time draws near for the publication of the earnings of the Steel Corporation for the fourth quarter of 1911, many speculations are being made as to the probable showing they will make. It is conceded generally that the earnings will be large enough to cover dividends on the common stock, however.

December unfilled tonnage, which showed an increase of nearly 1,000,000 tons over that for November, which in its turn showed 450,000 tons better than October, has given heart to investors, also, of course, that the earnings will be large enough to cover dividends on the common stock, however.

Royal-Colonial Merger Called Off

At the annual meeting of the Royal Bank of Canada, held in Montreal last week, Mr. H. H. Holt, president of the bank, stated that negotiations for the purchase of the Colonial Bank, one of the leading banking institutions of the West Indies, have been discontinued. Mr. Holt, in his address to the shareholders, referred to the proposed merger as follows:

McConnell to Europe To Finance Big Deal

MONTREAL, Jan. 22.—Mr. J. W. McConnell, the vice-president of the Montreal Street Railway Co., goes to London next week on perhaps what will be the most important trip of his career, as he will endeavor to secure financing in London and Paris to effect the financing in connection with the proposed new holding company which will take over the Montreal Street Railway and the Canadian Light and Power companies.

COTTON MARKET LOWER

Erickson Perkins & Co. had the following: Liverpool cables again disappointed local bulls, and moderate liquidation caused a break to new low ground during the day. Spot interest in the market as buyers promptly checking the decline. News of the day was favorable. The market is expected to predict an improvement in the demand, as a result of the settlement of 1908 labor difficulties. Trend of Railroad Earnings

Gross earnings of all United States railroads reporting to Dun's Agency for the opening week of 1912 are slightly less than those of the corresponding period of a year ago, the total, \$72,810, showing a decrease of 1.7 per cent.

DR. F. S. PEARSON

Dr. F. S. Pearson In Another Enterprise

Canadian Capital in Mexican Inter-urban Traction Company—Capitalized at Five Millions.

Another Pearson enterprise, in which Canadian capital is to be largely represented, known as the Mexican Inter-urban Traction Co., Limited, with head office in Toronto and capital of \$5,000,000, has been incorporated at Ottawa. The company is to form another branch of the Mexican Electric Railway system owned by the group of capitalists headed by Dr. F. S. Pearson of New York. The various enterprises controlled by the syndicate capitalized under the laws of the Dominion of Canada, amount to over \$100,000,000.

The line will join Mexico City, population 500,000, with Pueblo, population 10,000, and will run thru mountainous country, but scattered along the right way of the line are numerous small cities of from 2000 to 10,000 population.

Toronto financiers associated with Dr. Pearson in his Mexican enterprises are Dr. E. R. Wood, Walter Goss and J. S. Lovell of Toronto; Sir William C. Van Horne is also associated with Dr. Pearson as a member of the boards of directors of the Mexico Tramway Co., the Mexico Northwestern Railway Co., and the Mexican Light and Power Co.

C. P. R. Plans for 'Big Improvements'

Vice-president Bury of the Canadian Pacific has issued the following statement in regard to the \$20,000,000 which the road announced a short time ago would be expended on improvements and extensions:

This year the Canadian Pacific will spend \$20,000,000 for improvements and betterments on its lines west of the Great Lakes. Double-tracking of main line will be done in all congested sections; a new cooling plant will be constructed at Fort William together with new freight yards, steel docks and increased elevator capacity; a new terminal at Coquitlam, Vancouver Island; improved terminal facilities at Winnipeg, Vancouver, Calgary, Swift Current, Moosejaw, Outlook, Regina, Broadview and Brandon.

In addition to this work about 250 miles of new branch lines will be constructed, while about 470 miles of line are to be relaid with 80-pound standard rail.

"GO SLOWLY," SAYS CLEWS.

For the immediate outlook, while there is no immediate cause for concern, it is wise to continue "going slow," maintaining that capital is demanding better returns, that important new issues are pending, that the political situation abroad is still unsettled and that our own political affairs are far from settled; the continuance of a conservative policy in all business affairs is the only safe policy. When the political haze begins to clear we may be sure of better times. Perhaps these are already approaching.—Henry Clews.

Sane Company Legislation.

NEW YORK, Jan. 23.—The New York Bar Association committee plan to introduce a bill at Albany doing away with par value of stock, increasing directors' liability and providing that in-kind capitalization shall be fully paid in cash or property at actual value.

THE TORONTO GENERAL TRUSTS CORPORATION acts as ADMINISTRATOR of Estates where there is no will or where the appointed executors prefer not to act.

OUTLINES OF TO-MORROW'S OPPORTUNITIES AT THE SIMPSON STORE

Let Our 3rd Floor Demonstrate

to you to-morrow how economical it is to do as much buying as you can just before stock-taking. These prices will be a surprise to any good judge of values, when she sees the garments to-morrow.

Here is an item worth reading about from each section of the Women's Ready-to-wear. A visit to the third floor on Wednesday will be advantageous to your purse and your wardrobe.

In the Suit Section—Suits priced at \$18.50 and \$22.00, for \$11.95. There are serges, Venetians, tweeds and corduroy velvets. Coats are lined with silk and satin; collars notched or rever, are trimmed with braid. Skirts are up-to-date, plain or pleated styles. Colors navy, black, green, brown or tweed mixtures. Sizes for women 34 to 47, and for misses of 14 to 18. Wednesday ... **11.95**

In the Coat Section, 21 Warm Winter Coats. This is how the price tickets read: 13 at \$9.50, 2 at \$10.00, 6 at \$15.00. Wednesday \$6.95. Fine imported friezes, in navy and brown, beaver cloth in green. Two or three particular styles, decidedly up-to-date. Wednesday **6.95**

In the Girls' Coat Section—Splendid beaver cloth coats, for ages 6 to 12. One of the most attractive styles of the season, in red or brown; beautifully made. Wednesday **5.95**

In the Skirt Section—Black voiles, of excellent quality, plain or loose panels; trimmed with braid, silk fringe or silk folds. Regularly priced at \$7.50, \$8.50, \$9.50 and \$10.00. Wednesday **5.95**

Hundreds of Fine Pictures at each 90c

This is a stock-taking clearance that will interest everyone who looks at a blank wall, either in the home or in their office. Some of these pictures are worth as high as seven dollars and a half, but they will go on sale to-morrow (sixth floor) at ninety cents!

There are 350 Pictures left over from the shipments imported; all are appropriately framed, and were regularly priced at from \$2.00 to \$7.95. See window Wednesday **.90**
N.B.—Phone or mail orders not accepted.

Dismissed!—But the Men will Profit

Twice a year there's a roll-call in the Men's Store that gets every suit carried in stock into line. When there's not enough of one kind to make a corporal's guard, these are dismissed at prices close to half.

Prudent men all over Toronto have learned to watch for these dismissals, because it means big savings on the very suits they most want to wear. Here are the ones that are going to-morrow:

Sample Suits and Suits in odd sizes, new shades, greys, browns, fancy mixed tweeds and worsteds; single and double-breasted; fine looking and tailoring; not a poor suit included. Regularly sold at \$10.50, \$12.50, \$14 and \$15. Wednesday **7.90**

The Drapery Sale

The second day of the drapery sale brings a special list of money-saving items. The first day found hundreds of eager buyers taking advantage of the extensive reductions before stock-taking. Do not delay, there are only four days more and first comers get the best selection.
