NO PERSON IS DENIED AN APPEAL TO COURTS ON POWER LEGISLATION

Constitutionality of Act Can Easily Be Settled, Says Premier, in Referring to Petition for Disallowance.

NORTH YORKERS' PICNIC ATTENDED BY 12,000

JACKSON'S POINT, July 21.—(Special.)—Herb Lennox, "the hero of North York," as he was called by several of the speakers today, is still close to the hearts of his constituency.

The annual Conservative picnic was as great a success as the uncertain state of the weather would permit.

A tragedy marred the celebration towards the close. During the tug of war between East Gwillimbury and Georgetown, James Duff, well-known farmer of Ravenshoe, who was anchored for the Gwillimbury team, suddenly expired.

Shortly afterwards, Walter Draper, a liverman of Mount Albert, toppled over, and for a time it was thought he was going to die.

The occasion was graced by the presence of Sir James Whitney, Hon. Dr. Pyne, Hon. James Duff and several members of the legislature and house of commons.

The Premier was there. The occasion was graced by the presence of Sir James Whitney, Hon. Dr. Pyne, Hon. James Duff and several members of the legislature and house of commons.

Music and Games. On the flats games were contested, while a program of aquatic sports interested many on the waters.

Four bands meanwhile "discouraged sweet music." They were of the 12th York Rangers, Aurora, Newmarket, Allandale and Cannington.

MUSEUM ROBBED OF HISTORIC RELICS

Burglar Found Provincial Treasurer Easy Prey in Unguarded Hours, Removing Van Koughnet Gift to University.

Seven invaluable relics were stolen from the Normal School Museum on Monday night between nine and twelve o'clock, when no watch of the premises is kept.

The collection was presented to the University of Toronto by the late Captain Edward Barker Van Koughnet, a short time before his death at Gibraltar four years ago.

One Silver Trowel about eight inches long with wooden handle engraved with the following inscription on the blade of trowel: "Presented to the Hon. P. M. Van Koughnet, minister of agriculture, by the local committee of the Provincial Agricultural Association, Crystal Palace, Toronto, July 1883."

One Silver Snuff Box, about two inches long and one inch wide, engraved: "A present to P. M. Van Koughnet, December 23rd, 1892."

One Gold Tray, Diamond Pattern; with crest engraved on the seal and "P. M. V. K." on the handle.

The provincial museum has been located in the Normal school for many years. Dr. David Boyle, the superintendent. Since Dr. Boyle's illness Clarkson W. James, secretary to Hon. Dr. Pyne, has been in charge.

W. A. Poole is guard. Any schoolboy can tell you that his teacher guards his little treasure of colored chalks more carefully than the department of education of this province watch over the priceless relics placed under its care in the Normal School museum.

The traces left behind do not stamp the thief as that of an expert in the art of housebreaking, but with the tempting inducement held out to the amateur such accomplishments may have seemed, as they were, superfluous. Also the thief was modest in looting. There lay open to him \$300,000 worth of relics.

Anyone who knew the routine of the place would have been aware that there were three hours when a thief might work without danger. From 9 till midnight there was no watchman on the job. Two windows on the ground floor were found open next morning when the police examined the premises.

The report of the loss was made to them at 9 o'clock Tuesday morning. It was discovered eight hours previously by the nightwatchman, who had been in the building an hour before discovering the loss. He did not use the telephone.

The seven relics were kept in a case on the second floor. To break open this the thief resorted to tools as antiquated as the methods used to guard the treasure which he sought. With hands exactly like those presented to Adam at creation) he forced another case and took from it an ancient stone tomahawk. With this he burst open the case containing the collection, and then, confident of not being disturbed, waited to commit silly acts of vandalism, but touched none of the other valuable articles which lay ready to his hand.

DINEEN'S IS THE PLACE. It Pays a Man to Be Particular Where He Buys His Hat.

The reason Dineen's Hat Store has acquired such an enviable reputation in the hat world is because patrons can get what suits them at a reasonable price and enjoy the confidence that they have the best.

NEW COLLEGE RECTOR. CHARLOTTETOWN, P.E.I., July 21.—(Special.)—A change is about to take place in the rectorship of St. Dunstan's College.

Rev. Thomas Curran, D.D., who has for years been the presiding officer, will assume the duties of parish priest at Kelly's Cross, and is being succeeded by Roy Torrance Campbell, who has been directing the parish.

DID CLEMENCEAU PLAN HIS OWN DEFEAT?

French Opinion Gives Ex-Premier Credit for Having Committed Political Suicide and Not of Blundering.

PARIS, July 21.—The entire political world remains completely stupefied at M. Clemenceau's action yesterday. No one can believe that an old campaigner like Clemenceau did not realize what he was doing, and for this reason many advance the theory that he deliberately planned his downfall.

The general opinion is picturesque and summed up by Henri Rochefort, editor of The Patrie, who says: "Clemenceau had overthrown so many ministers that he believed proper to overthrow himself."

President Taft Unable to Harmonize Report.

WASHINGTON, July 21.—The White House staff and conference, at which tariff conferees and the president's closest advisers were brought together to-night in the effort to settle differences regarding the tariff bill, ended at 11:30 o'clock, with the disputes over raw material no nearer adjustment than they were before the dinner.

Senator Aldrich was very positive in the opinion that such a report would fall in the senate, but he thought there could be reductions made in the separate rates, with perhaps iron ore and gold raising.

OTTAWA, July 21.—A big diamond robbery occurred here between one and two o'clock yesterday, when four men entered McMillan's jewellery establishment on Sparks-street, right in the heart of the city.

U.M.W. MEN GO BACK. Few Reported For Work Yesterday at the Reserve Mine.

GLACE BAY, N.S., July 21.—(Special.)—There is practically no change to report in the strike situation here. The point of fight and changes here are very closely noted.

UNLISTED SECURITIES BANNED. Will Be Driven From New York Stock Exchange Next Year.

NEW YORK, July 21.—The governing committee of the New York stock exchange to-day adopted a resolution abolishing the committee on unlisted securities and forbidding further dealings in such stocks on the floor of the exchange after April 1, 1910.

DEATH OF AN M.P. M.P. for Strathcona, Alta., who died yesterday. He was born in Victoria County, a graduate of Toronto University, and was president of the Strathcona Board of Trade and president of the Northern Alberta Medical Association.

STILL DIFFER ON TARIFF LOVE FEAST NOT SUCCESS

President Taft Unable to Harmonize Report.

THE GREATER COBALT.

COBALT, July 21.—(Special.)—I spent the best of last week in again renewing acquaintance with Cobalt, and I hasten to say that it is much bigger and better than ever. It is the swiftest thing in Canada, on the American continent to-day. There is an untold amount of wealth in six square miles that include the central part of the camp.

Next the thing that strikes you on a return visit is the solidarity, the extent, the number of plants, the high-class quality of the various executives that are now in charge of them, the unstinted spending of money to get the best of plant, supplies, men, accommodation, to forsake the "gopher-hole" and open cut mining of the first days and to put in its place the most modern, the most scientific method and equipment.

Then take up details: for instance the question of trenching, which is the method of locating the veins and consists in digging a trench two feet or more wide down to the rock and then washing or brushing off the surface in search for veins.

Now take another instance, that of getting in supplies. There is a railway spur line from Cobalt to Kerr Lake and the mines in that vicinity, and this is of substantial assistance to all the camp east of the Temiskaming Railway.

Next take the question of concentrators. There are now at least seven first-class concentrators in the camp, with the early prospect of as many more.

But a concentrator is only part of the aim that the mine owners have in view. They feel themselves burdened more or less with freight rates to the smelters, even on high-grade ore, not to mention low-grade ore, some of which has to go as far as Nevada or California.

Now, however, there are mining mill men who have come forward with a proposition to modify the concentrators so as to use a cyanid and amalgam plant in connection with them.

There are now at least seven first-class concentrators in the camp, with the early prospect of as many more. But a concentrator is only part of the aim that the mine owners have in view.

They feel themselves burdened more or less with freight rates to the smelters, even on high-grade ore, not to mention low-grade ore, some of which has to go as far as Nevada or California.

Now, however, there are mining mill men who have come forward with a proposition to modify the concentrators so as to use a cyanid and amalgam plant in connection with them.

All the silver could thus be extracted on the spot and this would leave only the bullion to ship. For instance, a reliable firm in Reno, Nevada, has offered to put up a first-class concentrating and cyanid plant for the Nova Scotia and guarantee that it will extract 93 per cent. of all their silver values and deliver it right at the mine, not costing one dollar for freights.

But even more important than freight rates is the fact that this new system promises to remove the most unsatisfactory thing in the camp to-day, namely, that the mine owners are entirely at the mercy of the big smelting concerns in the States or Canada, who can charge what they like and make what returns they like in regard to the value of the ores.

Now a word as to the matter of dumps. Several of the mines have very large dumps of low-grade ore which they either purpose shipping to the smelters at an early date or which they are hoping to treat themselves on the line of the above process.

Among the concentrators now in the camp are the Mugsley Concentrator, doing a general business; the Coniagas, the O'Brien, the McKinley-Darragh, the Buffalo, Cobalt Central, the Nipissing, and new ones are to be erected on seven or eight others, including the Nova Scotia, Temiskaming, Trethewey.

I mentioned above the high-class character of the management and the improved methods of the mines. This is easily evidenced by coming in contact with the engineers and executive who are now in charge of the mines and by watching their methods of doing business and of looking

REV. CANON BULL DEAD

Fell fainting in street. Aged Churchman Expired Suddenly Last Night—Happenings of a Day.

HAMILTON, July 21.—(Special).—Rev. Canon George A. Bull, 266 South Bay-street, aged 82, died suddenly this evening. He fell in a faint at the Hess-street and Charlton-avenue and expired in a few minutes. He was born in Dublin, but came to Canada when an infant. His ordination took place at St. Catharines, and afterwards he was rector of the St. Martin and St. George churches for 30 years. For several years he was rector also of Stamford and Lundy Lane, retiring several years ago. A widow, two sons and six daughters survive. The sons are Harry, Montreal, and Richard, Vancouver.

Fire did \$300 damage to the National Laundry Co., 43 York-street, tonight. Cause, an overheated stove. Fred Riedel, 284 North John-street, died suddenly to-day. John W. Burk, 5 Richmond-street, died this afternoon, aged 71. At a meeting of the commissioners this afternoon all the licenses were renewed with the exception of those held by E. Parr, T. H. Gall and J. Burns.

The special committee held a session this afternoon with reference to making a contract for 50 hours power to operate the mountain pumps, and decided to ask John Montgomery, the contractor, to figure for power, and also to ask W. C. Hawkins, manager of the Cataract Co. for a better price than he has quoted. He is one of the committee, contending that the city could save \$18 a month by installing a gas engine.

Henry John, seven years of age, and his brother Leo, two years of age, were left alone for several days by their parents who go about the country peddling. All the youngsters had to eat was some vegetables and what neighbors gave them.

In spite of the rain, about 6000 attended the annual grocers' picnic at Niagara Falls to-day. Permits were taken out this morning for a \$18,000 addition to All Saints' Church and a \$40,000 addition to the Barton-street School.

Suspicious Fire.

The firemen were called this afternoon to the home of Fred Boyd, 47 William-street, where they found fire in three different rooms. The police are investigating. Four Hungarians were arrested at the steel plant at noon to-day in connection with a row and robbery reported from 185 Princess-street. Harold Brown, son of A. S. Brown, while on his vacation at Midland, was seized with appendicitis, and had to undergo an operation.

NOT ENOUGH OIL TO HURT

Rubber Tires and Asphalt Pavements in No Danger. Some difference of opinion seems to exist among dealers as to the effect of the oiling of the macadamized roadways on the rubber tires of motor and other vehicles.

The manager of the Dunlop Tire Company took a different view. "We view it with approbation," he said. "If it were used all over the city it would be bound in time to affect the life of tires. This is the experience on the other side of the line, where oiling roads are continuous. Of course here so far the city engineer has only put oil on a few streets. A motor would run over one of these in a few minutes and any oil it might pick up would be wiped off as soon as it reached another kind of pavement."

The manager of the Barber Asphalt Company was asked as to the possible effect on asphalt roadways of oil carried over from the oiled macadam by vehicles. "I don't think there would be any carried," he said. "We are not worrying about it. Some kinds of oil taken charge of by the Children's Aid Society."

Edna Edwards, the Missie girl from Simcoe, who was not met at the Union Station yesterday afternoon by her aunt, Miss Violet Garrett, at the Russell House, where Dr. Colborne had placed her.

THE GREATER COBALT.

Continued From Page 1. After their men. The very best kind of bunkhouses and dining-halls have been erected on all the shipping mines, and the men are certainly well fed, well looked after and as a result are doing the best kind of work. They are also the best paid men of their class in Canada and most of them are saving money and have deposits in the banks. This high-class business method is carried into everything in the way of supplies, machine plants, horses and wagons, and generally into everything that has to be undertaken.

As an evidence of the kind of labor in the Cobalt mines you can see several scores of the best students from Toronto School of Science and other institutions of that kind in the Dominion and the States working in the mines during the holidays as ordinary miners in order to get actual experience. They all get the miners' pay. These young men make the very best miners and will henceforward be the backbone of the development of the camp. Some of the leading engineers in the camp now are Canadian born and trained.

So that as a consequence now when you go to Cobalt you see a great big industry on big lines with high-class buildings, with energetic men in charge, with the best and highest priced labor doing the work, with unlimited capital available for any kind of improvement and at the top of all this, satisfactory results, including dividends being obtained by many of the properties and others rapidly coming into a corresponding condition. More pointed than Cobalt are the Cobalt dividends. Everybody is confident, hopeful, full of snap, full of enterprise, and as I said above, Cobalt is the swiftest proposition in America to-day, and it is fast taking on still more expansive lines.

Cobalt ought to produce very nearly \$20,000,000 in silver this year and perhaps double that next year and at the same time effect great savings in the expenses and also increase the efficiency of the plants in many ways.

Still more striking now in connection with Cobalt is the easy way in which you can see the richness of the mines at very little inconvenience. You can either see surface veins that carry enormous values and which are uncovered, or if you go down the shafts and into the drifts you will see miles of tunnels with well defined veins carrying various grades of silver ore all easily visible. You have only to lift the ore to get an idea of its value. You can also see in several mines work and ore blocked out so that the management is in a position to tell the shareholders that so much ore is in sight and that dividends for a certain number of months are an undoubted fact. In the ore house you can also see ore being broken up; see it concentrated and see the high-grade stuff being put in bags. For instance, if you go into the engine house of Kerr Lake you will see 200,000 ounces of silver in the bags valued at over \$100,000, and on the other properties similar conditions of a more or less identical nature are at hand.

Cobalt is so big that there is room for everyone in the way of investment. As I said above, Canada alone cannot handle so big a proposition. Foreign capital is gradually coming to Cobalt and there is a good prospect of its coming much more rapidly. English capital is better disposed since La Rose was put on the London market. New York thinks better than ever of Cobalt. Boston, now a copper city, may come to be a Cobalt city; other centres of American capital will follow. Cobalt can absorb many more millions of capital, and those who put it up will be sure of big returns. Cobalt is so great a camp that it is hard to grasp it at a single view. W. F. M.

York County and Suburbs

PARALLEL ROADS WILL BE PUSHED THRU

Business Men of West Toronto Went to Peterboro—County Happenings.

NORTH TORONTO, July 21.—(Special).—Instead of being delayed, interest in the two by-laws (sewerage and parallel roads) has, if anything, been intensified by the action of the rate-payers on Saturday last. The passage of the measures by such large majorities, which hopes were hardly expected, and now that the preliminary stages have been passed the rate-payers are watching with interest the development of council. That no time will be lost appears to be assured. Negotiations are at present in progress for a joint conference between the North Toronto and York Township committees, with the trustees of the cemetery trust, and until this is held the rate of progress will be problematical.

From the southerly limits of the township, where the proposed new parallel road will run, (the exact location is not yet decided), to the northerly part of Mount Pleasant Cemetery, the distance is exactly seven-eighths of a mile. From Weston-street to Victoria-avenue, through which the new road will run, is one and a half miles, wholly in the Township of North Toronto. Expropriation proceedings have been arranged for over a good deal of the way, and it is not expected that any further delay will be encountered at this end. That Reeve Henry, who has always shown a progressive spirit, will long deal with the matter in a business-like manner, at the south end, is not likely. Any delay which may attach to the part thru Mount Pleasant Cemetery, would not necessarily affect the southern end, and now the work is assured, vigorous steps will no doubt be taken by the York Township Council to carry the work to completion. The sewerage project, which will benefit the town has alone to deal with, will probably be well under way by fall. Commenting on this matter on Wednesday, G. E. Hill, chairman of the Ratepayers' Association, said: "The object in getting the by-laws before the people in July was to allow for the initial stages of the work, which will be much of the labor incidental to the digging of the sewers could be done in the winter time. This would provide a great saving of work for our own laboring men when other work is scarce. Similarly, I hope and believe that no time will be lost on the parallel roads."

HIGHFIELD.

Young Son of Henry Gardhouse Died on Wednesday.

WEST TORONTO.

Business Men's Outing to Peterboro Was Great Success.

WEST TORONTO, July 21.—The annual outing of the Business Men's Association to Peterboro to-day was a decided success. The fact that the threatening weather dampened, for a short time during the afternoon, both the enthusiasm and the clothing of those who took part in the sporting events.

The steamer trip in the evening down the Trent Valley Canal and thru the lift locks, was both enjoyable and instructive.

The officials of the Business Men's Association, to whom the success of the excursion is due, were tireless in their efforts to provide everybody with comfort and enjoyment.

The official list is: Chairman, T. P. Padgett; secretary, F. B. Hartney; sports committee, W. J. Dalton (chairman), Ed Doane, E. B. Wright, George Tremble, J. T. Adamson, W. C. Fullerton, W. H. Baldwin, T. J. Sheppard, Charles Southwell, Charles Rowntree, W. H. Whetter, J. C. Gilbert, M. J. Tobin, G. Hallitt, Fred Ellison, W. Powell, Ed Irvine, H. P. Matthews; printed coupons, in Frank Noden, W. T. Pearce, F. G. I. Whetter, W. Speers; finance committee, C. W. Buchanan, G. H. Gray, F. B. Hartney; starters, W. J. Dalton, W. T. Pearce, R. Padgett, A. C. Skeiton, J. Belcher, R. Padgett, J. B. McCaugh, W. H. Ford and R. W. Brough.

Chief Howard of the Peterboro Fire Department is a man of parts. Where engaged at explaining the electric mechanism of the fire alarms or acting as judge in a baby contest, the chief was equally successful. Chief Howard was judge in the baby show. The winners were: Girls, Thelma Piggett, Vine-street; Edna Meadowcroft, 602 Campbell-street; 2 Boys, A. Brown, 813 Campbell-avenue; 1 Frank H. Gave, Myrtle-avenue. 2.

It Looks Like Rain!

Every business man should provide himself with two good Umbrellas—one for his office and one for the home—so as to be prepared for the uncertainty of summer showers.

East's \$1.50 Umbrellas

are as good as any man wants to carry. Made in our own factory on the premises. We'll put them up against most \$2 and \$2.50 kinds. Drop in and get one to-day.

East & Co., Limited, 300 Yonge St.

TOWN OF NORTH TORONTO

Court of Revision Re Local Improvements.

Take notice that the Municipal Council of the Corporation of the Town of North Toronto intends to construct the following local improvement works on certain streets within the limits hereinafter set forth and described, that is to say:

(a) A 6 inch water main, hydrant valve and other necessary connections, upon, along and under Roslin-avenue, from a connection with the water main on the easterly side of Yonge-street, easterly along the northerly side of said Roslin-avenue, crossing the easterly side of the easterly limit of lots Nos. 128 and 127 on the north and south side of said Roslin-avenue, according to Plan No. 2, a distance of 268 feet 8 inches, more or less.

(b) A 6 inch water main, hydrant valve and other necessary connections, upon, along and under Woodward-avenue, from a connection with the water main on the easterly side of Yonge-street, easterly along the northerly side of the westerly limit of Lot No. 2, Plan No. 146, on the north side, and the line of the easterly limit of Lot No. 2, Plan No. 146, on the south side, a distance of 84 feet, more or less.

(c) A 6 inch water main, hydrant valve and other necessary connections, upon, along and under Albertus-avenue, from a connection with the water main on the easterly limit of Lot No. 2, Plan No. 146, on the north side, and the line of the easterly limit of Lot No. 2, Plan No. 146, on the south side, a distance of 180 feet, more or less.

(d) A concrete sidewalk 4 feet in width with necessary grading upon and along the northerly side of Glenview-avenue, from its intersection with the easterly limit of the westerly 1/2 of a certain lot bounded easterly by the northerly side of said Glenview-avenue, to its intersection with the line of the westerly limit of Lot No. 2, Plan No. 146, a distance of 785 feet, for the sidewalk, and 186 feet for grading, more or less.

(e) A concrete sidewalk 4 feet in width with necessary grading upon and along the southerly side of Hawthorne-avenue from its southerly intersection with the westerly limit of Lot No. 2, Plan No. 146, to its intersection with the line of the westerly limit of Lot No. 2, Plan No. 146, a distance of 80 feet, more or less.

And intends to assess the final cost, or a portion thereof, upon the real property to be immediately benefited thereby, fronting and abutting upon or adjacent to the sidewalks and sidewalks to be constructed, and to cause a statement showing the lands liable to be assessed to be specially assessed, and to cause the same to be filed in the office of the Clerk of the Municipality, and is open for inspection during office hours.

The estimated cost of the improvements is as follows: Water main specified under clause (a), \$1200; Water main specified under clause (b), \$1200; Water main specified under clause (c), \$1200; Sidewalk specified under clause (d), \$100; Sidewalk specified under clause (e), \$100. Of which the cost for flankage and street widening is to be paid by the owners of the general funds of the municipality.

Samuel Maycock Billiard Tables. Established 1847. 102 E. 104. AGAARD ST. W. TORONTO.

THE GOVERNMENT OF THE PROVINCE OF ONTARIO, under the authority of Chapter 8 of the Statutes of Ontario, 1927, invites subscriptions from the public for a loan of \$3,500,000 on bonds of the Province of Ontario, or "Ontario Government Stock."

PROVINCIAL Loan of \$3,500,000. THE GOVERNMENT OF THE PROVINCE OF ONTARIO, under the authority of Chapter 8 of the Statutes of Ontario, 1927, invites subscriptions from the public for a loan of \$3,500,000 on bonds of the Province of Ontario, or "Ontario Government Stock."

UNIONVILLE. UNIONVILLE, July 21.—(Special).—To-morrow (Thursday) will be celebrated as a general holiday, and in the afternoon a regatta will be suspended. A union picnic of all the Sunday schools in the village will be held on the athletic grounds, south of the town, at 10 o'clock to-morrow.

WEST TORONTO. Business Men's Outing to Peterboro Was Great Success.

WEST TORONTO, July 21.—The annual outing of the Business Men's Association to Peterboro to-day was a decided success.

EAST TORONTO, July 21.—(Special).—The York County branch of the Independent Order of Foresters will hold their 10th annual picnic on Monday, July 22, per S.S. Turbina.

UNIONVILLE. UNIONVILLE, July 21.—(Special).—To-morrow (Thursday) will be celebrated as a general holiday, and in the afternoon a regatta will be suspended.

EVERETT. EVERETT, July 21.—Out of the pupils who passed the entrance examinations in Weston recently were seven from Runnymede School, Miss M. Evans, the teacher, is being heartily congratulated on the result, every pupil being successful and one obtaining honors.

MIDWAY AT LONG BRANCH. The Cottagers' Midway, such as they have out at Long Branch to-day and to-morrow is one of the most novel and at the same time delightful events in its history. Everything is most informal and the spirit of good cheer and sociability everywhere prevails.

and the citizens who are desirous of helping on a good cause and at the same time spending a delightful evening would do well to go out. The Korean employees of the American Electrical Street Railway System in Seoul are on strike.

U.P. Makes New High Record U. S. Steel Reactionary

Dominion Steel Will Redeem \$2,500,000 Second Mortgage Bonds—Local Market Dull But Firm.

World Office, Wednesday Evening, July 21. Union Pacific was the feature of the New York Stock Exchange to-day, selling up to 199 1/2, thus making a new high record, this figure being above the previous highest of 190 1/2.

The local stock exchange to-day was dull and price changes narrow. Some 200 issues only were traded, with the bulk of sales in Sao Paulo, Twin City and the Steels.

Dominion Steel was the most active of the listed stocks, the common being around 46 1/8 on the morning high, but declining 1-4 later. The preferred sold up 1-4 to 129. It is reported that all the outstanding second mortgage bonds of this company will be retired by the end of the month.

The South Americans were inclined to inactivity, but firm. Sao Paulo changed hands around 147, and closed a point lower. Rio sold down a point from yesterday's high, closing somewhat lower at 86 3/4.

Lake of the Woods was inactive and fractionally lower; C. P. R. remained steady at the recent high price reached; Toronto Railway sold up over a point from last night's close, and remained firm at the high figures reached.

In the mining section La Rose, Nipissing and Trethewey were all dealt in at steady prices.

The investment end of the market was quiet, transactions being limited to two of the banks.

Wall Street Pointers. All grades of copper metal was advanced 1-8 cent.

Louis Dreyfus & Co. of the produce exchange will ship \$500,000 gold on the steamer Verdi, which will sail for Argentina to-morrow.

The National Bank of Commerce has engaged \$200,000 additional gold for shipment to the Western coast, the total shipment by the bank up to \$1,000,000.

Illinois Central declared regular semi-annual dividend of 3 1/2 per cent.—News Bureau.

The New York Stock Exchange Clearing House gives notice that Chicago and West Coast common and preferred B stocks have been dropped from the list of stocks to be cleared.

French cabinet resigned as result of violent debate over naval standards. Further friction has arisen between Argentina and Bolivia.

Striking employees of Standard Steel Co. to go on duty tomorrow. The strike will return to work this morning.

American Tel. & Tel. Co. figured to be earning at the rate of ten per cent. per annum on stock.

Reported that Jersey Central may rent Pennsylvania Station in Jersey City when latter's new terminal is opened, in order to secure McAdoo tunnel connection.

B. O. earnings for fiscal year will show 8.0 on common stock.

Norfolk and W. expected to show 9 per cent. on common.

Large sales of steel continue.

The establishment of new high records will increase outside interest and incline traders to work on the bull side to discount an early adjournment of congress, splendid June earnings reports and a favorable August grain crop review.

Continued heavy buying of railroad equipment justified the bull posture on equipment stocks, and most optimistic opinions relative to the steel and iron outlook.—Town Topics.

NEW YORK, July 21.—President W. E. Corey of the U. S. Steel Corporation, who recently returned from Europe, presided at the usual monthly meeting of the heads of constituent companies of the corporation, which is being held in the company's offices here to-day.

No official statement concerning the conference is likely to be given out, but it is understood that the general trade conditions are being discussed. There is some talk of an advance in the prices of steel products, but President Corey and the other conferees would not commit themselves on that point.

Joseph says: There will be much doing presently in Steel and in Eries. It will be well to take on New York Central and St. Paul and hold for something more than mere turns of a couple of points. It is positive that New York Central will assume market leadership. Hold Coppers; buy Consolidated Gas in activity. Union Pacific is still very good.

Bullish operations along special lines are indicated by latest reports, with much gossip of a Morgan bill demonstration in the stock market on account of his return. We continue to advocate the protection of the character heretofore outlined in making commitments and would prefer the long side of low-priced stocks and industries.

THE STERLING BANK OF CANADA Notice is hereby given that a dividend of one and one-quarter per cent. (1 1/4 per cent.) for the quarter ending July 31st instant (being at the rate of five per cent. per annum) on the paid-up Capital Stock of this Bank has been declared, and that the same will be payable at the Head Office and Branches of the Bank on and after the 14th day of August next. The Transfer Books will be closed from July 17th to July 31st, both days inclusive. By order of the Board, F. W. BROUGHALE, General Manager. Toronto, July 6, 1909.

Carter & Co., 85 East Front street, Wholesale Hides in Wood, Hides, Calveskins and Sheepskins, Furs, Tallow, etc.: No. 1 inspected steers, 60; No. 2 inspected steers, 55; No. 3 inspected steers, 50; No. 1 inspected cows, 12; No. 2 inspected cows, 11; No. 3 inspected cows, 10; bulls, 10; Country hides, cured, 10 1/2; Calveskins, 7; Horsehides, 7; Horsehair, per lb., 30; Hides, per lb., 1.50; Sheepskins, each, 1.30 to 1.50; Wool, unwashed, lb., 6.11 to 6.12; Wool, washed, lb., 6.13 to 6.14; Raw furs, prices on application.

FRUIT MARKET.
Receipts of fruit at the local wholesale market were not quite so large to-day, and prices were generally easier. Medium quantities of raspberries, cherries and blueberries are coming in; plums scarce, while strawberries are practically over. Red currants are beginning to show up in large quantities, and the price is getting easier. Vegetables continue in good demand and at steady prices. New Canadian potatoes are seen here and there in small lots. The Americans are more plentiful. Following prices are current: Raspberries, box, 2 1/2 to 3 to 12 1/2; Cherries, basket, 0.80 to 0.85; Apples, hamper, 2.50 to 3.00; Plums, crate, 1.75 to 2.00; Gooseberries, basket, 0.75 to 1.25; Red currants, basket, 0.75 to 1.00; Peaches, crate, 1.50 to 2.00; Peaches, Georgia, 2.25 to 3.00; Lima, box, 1.00 to 1.50; Lemons, Verdel, 5.50; Lemons, Cal., 7.00; Oranges, Val., 3.75 to 4.00; Oranges, Mex., 2.50 to 3.00; Antipoules, crate, 4.50 to 5.00; Parsnips, bushel, 1.00; Green peas, bushel, 1.00; Cabbage (Canadian), 1.00 to 1.50; Cabbage (Canadian), 1.00 to 1.50; Beets, 0.25 to 0.30; Tomatoes, basket, 1.00 to 1.25; Potatoes (American), 3.25 to 3.50; Potatoes (Canadian), 3.25 to 3.50; Potatoes (Can.), basket, 0.30 to 0.50; Butter beans, basket, 0.35; Butter beans, basket, 0.35.

bearish crop and weather news and heavy liquidation of September by important interests in Chicago, reaching stop-loss orders in the late afternoon. Final prices were 1c to 1 1/2c net. July closed 11 1/2c; Dec. 11 1/2c to 11 3/4c; closed 11 1/2c. Corn—Receipts, 57,650 bushels. Spot easy; No. 2 old, 75 1/2c elevator, and 78c old, f.o.b., float; No. 2 new, 85c, winter shipment, 75c to 80c. London market was without transactions, closing net unchanged. July closed 70c; Sept. closed 70 1/2c; Dec. closed 70 1/2c. Oats—Receipts, 132,825 bushels. Spot easier; mixed, 24 to 25 lbs., 55c, nominal; natural white, 24 to 25 lbs., 55c to 57 1/2c; clipped white, 24 to 25 lbs., 57c to 58c. Rye—Quiet; strained, common to good, 82 1/2c; Turpentine—Firm, 49 1/2c. Molasses—Quiet. Freight to Liverpool steady.

CATTLE MARKETS.
Hogs Active and Generally Steady at Buffalo—Cables Easy.

NEW YORK, July 21.—Receipts, 2400; market lower; steers, \$4.60 to \$6.70; cows, \$2.90 to \$5; bulls, \$3.25 to \$4.40; hogs, \$4.20 to \$4.25; dressed best, slow; market 37 1/2c quarters of beef. Cattle—Receipts, 2900; market generally 2c lower; veals, \$2.50 to \$3.50; at highest figure; culls, \$3.50 to \$5; grassers, and buttermilk, \$3.75 to \$5; dressed calves weak; city dress, 50c to 55c; dressed at 14c; country dressed, 9c to 12 1/2c; dressed buttermilk, 9c to 10 1/2c. Sheep and Lambs—Receipts, 10,000; sheep steady, at \$3 to \$5; culls, \$2 to \$2 1/2; lambs a trifle firmer for best; others slow to a fraction lower, and at \$2 to \$7. Hogs—Receipts, 5500; market steady, at \$3.40 to \$3.50.

Montreal Live Stock.
MONTREAL, July 21.—(Special.)—Since the day week there has been an improved demand for ocean freight space for August shipment, and a fair amount of business has been done to Liverpool and Glasgow at 22 and 23c for the former figure being for the first half of the month, and the latter for the last half. The Canadian Pacific live stock market this morning offers: dressed best, 50c cows, 50c bulls, 50c sheep, 100 lbs., 50c calves and 60c hogs. Considering the fairly large supply of cattle, of which the quality was only medium, and the warmer weather, the trade done was all that could be expected. The demand was fairly good for small lots, and the undertone to the market was steady, as the prices paid were \$2 to \$2 1/2. Monday, Good steers sold at \$4 to \$5; fair at \$3 to \$4; medium at \$2 to \$3; and at \$1 to \$2; common at \$1 to \$2, and bulls at \$1 to \$2 per pound. Notwithstanding the fact that the offerings of sheep were the largest this season, the tone of the market was stronger, and prices advanced 1/2c per pound under an active demand from London. A brisk trade was done in this line at 4c to 4 1/2c per pound. There was a fair demand for lambs, and prices were firmer, at \$4 to \$5 each, as to size. Calves met with a good demand, and the condition of the market for hogs remains strong, and prices were firmly maintained at the recent advance, and a good demand, and small supplies, and sales of selected lots were made at \$2.10 per hundred pounds, weighed off cars.

Chicago Sugar Market.
Sugar—Raw, firm; fair refining, \$3.45; centrifugal 96 test, \$3.95; molasses sugar, \$3.20; refined steady.

Winnipeg Wheat Market.
Winnipeg—July 21, 1909, October 29 1/2c, December 10 1/4c. Oats—July 21c, October 29 1/2c.

Chicago Markets.
