Allies Will Disregard Wilson's Plea for Peace Without Victory

WITH THE CANADIANS AT THE FRONT

WILSON UNABLE TO UNDERSTAND ALLIES' DESIGNS

British Papers Give Him Credit for Lofty Sentiments, However.

WAR OF LIBERATION

Wilson's Suggestion of Peace Compromise Cannot Be Entertained.

London, Tuesday, Jan. 22.—The Daily Chronicle in an editorial this morning describes President Wilson's statement before the U. S. Senate as an utterance "the extreme elevation of the moral tone of which will command the unqualified respect of those forward-looking, liberty-loving elements of all nations to which he frankly makes his appeal."

President Wilson's position, says the Chronicle, is defined with nicety, he is not attempting to dictate, but to intimate what sort of peace terms would be necessary to obtain America's concurrence in a world-wide league of nations.

Summarizing the principles the president enunciates, The Chronicle proceeds: "This is an imposing program which may well carry American sentiment with it, but the old world will need to apply some searching tests to its broad propositions before they can be harmonized with the realities."

Urging the necessity of good faith as an ingredient of the president's project, the paper continues: "If all parties were willing to work for a world concert honestly, it would have a very different effect from that which might be given it if one of the parties entered it in bad faith. Supporters according to the Wilson formula there is to be no victory. Then the German which will enter the conference will be the present Germany, under the present autocrat who made the war."

Freedom of Seas. "Against such a power unpunished and unrepentant the president suggests that the allies should forego many means of self-protection. Would they be adequately compensated for this on the balance by the promised protection of the U. S.? The freedom of the seas, for instance, is not a phrase any Englishman will gladly hear in this connection. If it means that the seas are to be free in peace time, we all agree. But if it means that in the event of peace breaking down the land powers are to be free to use their military weapons while we are not to be free to use our naval one (and that is what American diplomacy has meant by it in the past), then we should have to consider whether even the assurance of American protection would not be purchased too dearly at such a price."

These Canadians found a little dog in one of the German trenches and presented it to their nurse.

LAURIER DEFERS FIGHT OVER TERM EXTENSION

Liberals Will Facilitate Borden's Attendance at Imperial Conference—Borden Answering Charge of Responsibility for Cabinet Squabbles is Frequently Interrupted by Hughes.

By a Staff Reporter Ottawa, Jan. 22.—Notable speeches by the prime minister and the leader of the opposition characterized the debate on the address which opened today. Sir Wilfrid Laurier preceded the prime minister and from behind the massive battery of the Borden-Hughes correspondence poured a galling fire of criticism into the ranks of the government. He did not assume responsibility for the Hughes charges, but said they clearly indicated that there was no unity of thought or action in the government. The prime minister, Sir Wilfrid said, had complained that his time was wasted and his energies dissipated by the squabbles in the cabinet but for the continuance of those squabbles the prime minister himself was responsible. He should have shown more firmness and decision. (Continued on Page 2, Column 3).

ALLIES WILL CARRY ON DESPITE WILSON'S PLEA

Will Prevent German Armies From Overrunning Britain, France, Italy, Russia and Expel Them From Invaded Lands.

London, Jan. 22.—The Mail thinks that President Wilson's "compulsion of new international morality" will be read with interest. Referring to the "Monroe doctrine of equal rights," The Mail says: "The old Monroe doctrine, as Captain Mahan and Homer Lea have pointed out, was maintained by the aid of the British navy. It is there to be anything so brutal behind the new version? "We have got to carry on," Ours is a humble duty to prevent the German armies from overrunning us, France, Italy and Russia, and to drive them out of Belgium, Rumania, Serbia, Montenegro and other countries where they have no business whatever to be."

Leads His Opponent by Almost Eighteen Hundred Votes. ELECTION QUIET

BRITISH INCREASE BERMUDA FLEET

Large Armored Cruiser and Six Big Submarines Reach Naval Base. WILL HUNT RAIDER

Contest Arouses But Little Enthusiasm Among Voters of the Riding.

After one of the quietest by-elections ever held in Toronto, Hon. W. D. McPherson was returned in North-west Toronto yesterday with a majority of 1,788 over the Liberal candidate, James Cave. The vote was extremely tight, totaling only 6,413, and the competitiveness of both parties found difficulty in getting the voters out, even when cars called at their doors to take them to the polling booth. There was little excitement, and few people around the polling booths, and the committee rooms were not crowded with the usual number of entourage as to where to vote, etc. owing to both candidates having notified everyone on the voters' list as to where he should cast his ballot. A shortage of cars handicapped the workers, and most of the time was spent by them in using the telephone to urge the party stalwarts to do their duty, but all to little avail. The total vote cast was 6,413, compared with 15,068 polled in 1914, when Mr. McPherson was opposed by W. J. McTaggart, Liberal, and W. E. S. James, Socialist. In 1914 Mr. McPherson received 5,915 votes, while the Liberal candidate polled 3,556 and the Socialist obtained 544. Yesterday Mr. McPherson received 4,145 votes and Mr. Cave 2,245.

Six or Eight Fast Light Cruisers Also Arrive at Naval Base.

New York, Jan. 22.—Six large submarines, four British and two Italian, together with the 14,000-ton British armored cruiser Leviathan, have recently been added to the British naval base at Bermuda, according to American passengers arriving here today on the steamship Bermuda from Bermuda. The submarines, the passengers said, were seen from the shore of the port of St. George for the first time last Thursday, and the Leviathan came in Friday morning. In addition to the Leviathan and the submarine, the passengers added, a fleet of six or eight fast, light cruisers flying British and French flags, are now making Bermuda a base, the fleet having been increased since the news of the presence of a German raider in the Atlantic became known. British naval records show that the Leviathan was built in 1901, is heavily armored and equipped with two 3-inch guns in addition to two 18-inch submerged torpedo tubes. Her speed is rated at 23 knots.

Germany To Open Most Powerful Assault Yet on Banks of Meuse, Dutch Reports Say—Has Big New Army.

Special Cable to The Toronto World. London, Jan. 22.—Rumors originating in Holland, to the effect that a powerful German drive on Verdun would be started this week, seem to be borne out by German attacks last night, on the French lines on the Verdun front. Paris reports that the two attacks took place on the right bank of the Meuse river after a violent bombardment of French positions northeast of Courleres wood. Effective from the French artillery and machine guns ended both attacks, and the French lines, the report states, were maintained without break. The Berlin statement refers to the attacks merely as "reconnoitering detachments" and states that they brought back several prisoners and a machine gun. The rumor from Holland forecasts a great German drive on the west front which, according to one version, will be undertaken by reinforcements of 4,000,000 men, a complete army corps. It is estimated that there are, at present, approximately 4,000,000 German troops on the west front from the Vosges Mountains to Ostend Belgium. The German activities against the French armies in France continue in the west, to be merely French raiding operations. The British war office announces the repulse of two German raids during the night, one north of Arras and the other northeast of the Ploegsteert Wood.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

PRESIDENT WILSON is again pleading for peace, but his latest effort, this time before the American senate, does not appear to cause the consternation in American business circles that his peace note did. The speech itself proposes terms that would not be despised by Von Hindenburg, and he is the man probably responsible for the activity of the president at the present time. Briefly, the terms outlined by President Wilson call for peace without a victory, the freedom of the seas, the limitation of navies as well as of armies. The president also says that no right anywhere exists to hand peoples about from sovereignty to sovereignty. These proposed terms may suit certain senators of the United States, but they do not suit the allies; and by persisting in his notion Mr. Wilson would have to ally the United States with Germany, for the allies would probably regard his action as meddlesome and gently but firmly answer no to his proposals. Germany is too far advanced in defeat for a presidential message to save her.

If the reader closely examines the speech of President Wilson, he will notice that the declaration that the coming peace must be a peace without victory is the peace which Germany now wants, for she is afraid of the coming allie offensive in the west. Germany has been for thirty months trying to win the war, and she has failed; the bulk of the allied task has been done; premature peace now would rob the allies of the fruits of victory. A peace without a victory is a peace on the basis of a draw; and the enemy has been intriguing, it is said, for this type of peace for the past twelve months. By declaring that no right anywhere exists for the handing of people about from sovereignty to sovereignty, Mr. Wilson sets himself in opposition to the expulsion of the Turks from Europe, to the handing back of Alsace-Lorraine to France, to the independence of Bo-

DID NOT DELAY IN DISCARDING RIFLE

Correspondence on Ross Rifle Shows Premier Took Step Early.

NOT A RELIABLE ARM

Rifle Did Not Work Well When British Ammunition Was Used.

By a Staff Reporter. Ottawa, Ont., Jan. 22.—The correspondence between the imperial and Canadian authorities regarding the Ross rifle, laid on the table of the committee today shows that as early as March 20, 1916, Sir Robert Borden as the result of rumors which had reached his ears, took the initiative which led to the abandonment of the Ross rifle as the weapon of the Canadian troops, but when it had been decided to replace it with the new Lee-Enfield the old Lee-Enfield having been discarded also, they were confronted with the fact that no other rifle could be secured. Indeed, so lately was this case that on August 30 last, the Duke of Connaught, on behalf of the government, called Bonar Law, desiring to be informed as to the reports which had reached them that the Fourth Canadian Division had been armed with the Ross rifle when recently despatched to France.

LAURIER DEFERS EXPECTED CLASH

Mr. Laurier's Deferral of the Proposed Extension of the Parliamentary Term.

By a Staff Reporter. Ottawa, Jan. 22.—Correspondence regarding the calling of the imperial war conference, made public today, discloses the fact that no date has yet been decided upon when the conference will assemble. On Jan. 5 the governor-general called the British Government that his advice concurred in the view that the prime minister should attend the conference. The Canadian Government would, however, appreciate more definite information as to the questions and more especially that of war policy, to be discussed. The communication also stated that the government would be notified of the latest date possible that the prime minister should leave for England, and the length of time that he would be required to spend at the meeting of the imperial war cabinet.

hemia, and the union of Bosnia and Herzegovina with Serbia, of Transylvania with Rumania, and of Italia Iridenta with Italy. The policy of President Wilson is in brief the denial of the rights of nationalities and the support of such a polyglot empire as Austria-Hungary.

In urging the freedom of the seas President Wilson has merely accepted another German aim in the war. He has adopted it entirely from the propaganda of Von Dornburg and the speeches of Von Bethmann-Hollweg. The policy of President Wilson is in brief the denial of the rights of nationalities and the support of such a polyglot empire as Austria-Hungary.

The president then gives his whole scheme an ironic touch by saying that he is proposing that the nations should with one accord adopt the doctrine of President Monroe as the doctrine of the world. The celebrated Monroe message, which German statesmen have called an international impertinence, was prompted by the desire to enforce peace, such as the president now proposes. That league was formed in 1823 on the initiative of Charles Alexander of Russia. Its object appeared as righteous as the object of President Wilson appears to himself. In five years that league, called the Holy Alliance, became the worst engine of tyranny ever known in the world. By a series of military expeditions, the Holy Alliance suppressed all democratic movements on the European continent for many years. When the powers of the Holy Alliance had moved towards the suppression of the infant republics in South America, Great Britain intervened to intervene, and she induced President Monroe to send his celebrated message to congress. This stopped the aggression.

A year ago Germany industriously circulated rumors from Switzerland that she had raised a fresh army of two million troops. She had done nothing of the kind. This year the same old rumors are revived from Holland, only her agents now place her new forces at 120 divisions. It is the same old propaganda to influence President Wilson to intervene to stop the war.

Little military news has developed in the past 24 hours. On the western front the British beat off two German raids near Arras and Ploegsteert, and the French entered in lively action near Verdun. On the Italian front the Russians repulsed an attack in the Otranto Valley. In East Africa the British have nearly overrun the whole country.

Instead of attacking France thru Switzerland, Germany rumors from Holland say, is about to attack Verdun. It is quite in accordance with German character to attack and attack, if not to advance, at least to forestall an offensive, and so it would not be wisdom to regard her advertising as entirely a bluff. The fact that two enemy attacks launched in this region yesterday suffered repulses from the French suggests that the German higher command is concerned in this advertising of a coming western offensive. By turning to the west again for decisive results Germany would confess that it was futile for her to attack the Russians in the east.

HALF MILLION TO PATRIOTIC FUND

City Council, by Unanimous Vote, Makes Huge Grant to Worthy Cause.

CHARGE OF LOBBYING

Controller Cameron Accuses Ald. Beamish of Seeking Post for Civilian.

That Ald. Beamish had lobbied the board of control in support of an applicant who was not a returned soldier, for a position as inspector in the waterworks department, was the charge made by Controller Cameron at the meeting of the city council yesterday.

The allegation was the outcome of a heated debate on the recommendation to appoint Robert Knox to the city auditor's department and which followed after warning had been given the alderman to be careful of his remarks which created the impression that he was entirely in favor of returned men being placed in all civic positions.

Controller Cameron was irritated by the charge of the alderman that he had referred to the men who enlisted in Toronto as "scum" of the city. He showed much temper in denouncing the alderman and his remarks, which were not denied by returned men but created a mild sensation among the members of the council.

No appointment will be made to the auditor's department at present. Mr. Beamish has been asked to try and get

a returned soldier capable of filling the position. If he is unsuccessful Mr. Knox will likely be appointed. The new plant to be built at Ashbridge's Bay by the imperial munitions board will be exempted from taxation during the war and for a period of two years after the war.

The services of Dr. W. T. Parry of the Toronto jail staff are no longer required. It was decided after much discussion and as a matter of "economics" that he be relieved of his position which brought him \$1,500 a year.

By the adoption of the mayor's recommendation, city officials, labor representatives and the most prominent manufacturers in Toronto will form a commission to prepare for conditions after the war. If this step were not taken by the city, declared the mayor, it would become the dumping ground of the province one peace was declared.

The introduction of a resolution by Controller Foster to rescind the bylaw appointing Dr. W. T. Parry, physician at Toronto Jail, caused some lively discussion. The controller contended that there was no need for the service of Dr. Parry, that his salary of \$1,500 a year should be saved for the city. He produced figures to show that the cost for medical attention was much greater for there were more inmates.

Controller O'Neill agreed with the mover of the resolution that the services of the doctor should be discontinued. It was not a question of attacking Dr. Parry, but of economies. His services had not been required for some time past.

Controller O'Neill protested against selecting Dr. Parry for dismissal. He thought the council should not make any discrimination and that the jail situation should be cleared up entirely at once. Persons who were on remand required medical assistance and one must be provided. "Do not pick out an official here and there," said the controller, "but let us

deal with it in a broad principle. Dr. Parry is as necessary to the jail as is the governor or any other official." He asked them to take into account the number of visits made privately and at the request of the governor.

Wanted to Talk. The members were prone to debate the matter, but the mayor cut them short and on a vote permission to introduce the bill was granted.

When the recommendation of the board of control that the new plant to be built by the imperial munitions board at Ashbridge's Bay be exempted from taxation during the war and for a period of two years after the war came up, Ald. Ramdeen protested on the ground that it would not be a good business method for the council to adopt.

Mayor Church, in urging the council to grant the exemption, declared that it was a splendid opportunity to bring a new industry to the city. As the new plant would bring much trade and give employment to the citizens, they would be well repaid. The plan had the support of the federal and provincial governments and the exemption had been recommended by the harbor commissioners, who had considered the proposition from every angle. If the plant was owned by private interests and if the exemption was being asked for individuals, Ald. Gibbons said, he would offer all his opposition; but if it was a government enterprise to help in the manufacture of munitions for the allies, then he would heartily support the recommendation.

He was assured by Controller Cameron that the scheme belonged entirely to the imperial munitions board, that the government owned the plant and would likely be sold by the munitions board, but not before providing for another outbreak. It would take some time to clear up matters when peace was declared, and he considered exemption for two years reasonable.

When the plant was owned by private interests there was no doubt, he said, but taxes would be levied on the plant, which did not exist in Canada, and which would mean a start in a great industry that had been brought about by the war.

WHAT THE COUNCIL DID

Unanimously granted \$50,000 to the Toronto Patriotic Fund campaign. Referred back the recommendation of the board of control that Robert Knox be appointed to a position in his department, to see if a returned soldier could not be found who was capable of holding the job.

Decided to discontinue the services of Dr. W. T. Parry at the Toronto Jail. Carried the recommendation to exempt the plant of the imperial munitions board from taxation during the war and for a period of two years after the war.

Adopted the mayor's plan to form a commission consisting of the mayor, Controllers O'Neill and Cameron, Works Commissioner Bradshaw, representatives of the Trades and Labor Council and heads of manufacturing firms, to prepare for conditions after the war.

Discontinued temporarily the office of fair wage officer and transferred the duties of the office temporarily to the jurisdiction of the property commissioner. Heard Controller Cameron bring a charge of lobbying against Ald. Beamish and did not hear it denied. Made grants totaling \$1750 to local units for recruiting purposes.

Adopted a resolution that the city should be prepared to receive a returned soldier in 5000 who can do the work, he should get it." According to the mayor, the action

Controller Cameron, Works Commissioner Bradshaw and Finance Commissioner Harris are appointed members of a commission to prepare for conditions after the war received the approval of the members.

Mayor Church, who was sponsor for the scheme, declared that if provision were not made Toronto would become a dumping ground for the rest of the province after the war. He suggested that the names of Major W. S. Dunn added to those named in the recommendation. There were many things which the city had to look after, and the returned soldiers, what work they could do, the wages they could earn, and if their former employers would be willing to give them back their jobs. The commission should be representative of labor and capital, and a survey of conditions made. "Let us start in this thing now," said the mayor, "and not wait until soup kitchens are opened. We must look after the dependents of our soldiers and must provide pensions for the soldiers."

Some of the information on the matter from the members of the board of control, and the mayor reiterated their questions. Bump Propositions. "There seems a disposition, Mr. Chairman," said he, addressing Ald. Beamish, "on the part of members of this council to bump every proposition made by the board of control. Each time the board it is treated like a football by this council. Now I strongly protest against this sort of thing, and it is time it was stopped."

Ald. Burgess thought the mayor was showing unnecessary irritation. He, as one who had asked for information in the council as a representative of the people, and he would be satisfied on all matters before he voted. John Walsh, president of the Earl's court Business Men's Association, in a letter to the council, protested against

the payment of \$500 to J. C. Walsh, of the Canadian Manufacturers' Association, for services rendered in the application of the citizens' express committee before the railway board. Ald. MacGregor backed up the proposition in the council and had been responsible for the able manner in which the case was presented to the railway commissioners, and that he was relieved a great deal for his services. He wanted to know what Mr. Walsh had done to ask the same fee as that which had been paid to Mr. Cowan, the counsel for the committee.

Controller Cameron stated that Mr. Walsh was thought to be the proper man to prepare the case for Mr. Cowan and he had been engaged by the city's legal department before Mr. Cowan was retained for the committee. The bill was referred back for more information.

of the city auditor in recommending Mr. Knox for the position. He said, as the temporary appointment had not been reported to the board of control. As far as he knew, Knox was only a clerk and not qualified accountant.

"Has he got a chartered accountants certificate?" he asked. "Yes," replied Controller Shaw. "Where from?" queried the mayor. "The old country," came back Controller Shaw, and the mayor lost the effect of his argument.

Controller Cameron wondered if all the members who showed great activity in behalf of the returned soldiers were really sincere. He thought they were more desirous of advertisement for themselves than they were of looking after the interests of the war veterans. Where was the good of telling the returned men that they didn't need to work, that they didn't need to use their hands to earn a living. He was not going to tell them to form an association to enable them to get their rights, but he wanted them to come back to a city where they would be offered something.

Want Proper Government. The soldiers themselves when they came back would expect that the government of the city was being conducted properly and would not like high positions held by soldiers who were not qualified for the work even if they were returned soldiers. They as members of the council had a duty to perform and the affairs of the city had been placed in their keeping by the citizens. While there was no one more disposed to aid the returned soldier, he was not going to command himself to the proposition that others should not get appointments.

Ald. Beamish could not see why any member of the council could support the recommendation when there were returned men who were capable of filling the position. He gathered from the remarks of the last speaker that Controller Cameron referred to the

**SEVENTEEN NAMES
ON CASUALTY LIST**

Four Toronto Men Give Up
Their Lives at the
Front.

TEN ARE WOUNDED

Two Are Reported Ill and One
is Wounded and
Missing.

There are 17 Toronto names in the latest casualty lists. Four of these have been killed in action or died of wounds. Two soldiers are reported to be seriously ill, one is wounded and missing, and ten are wounded.

Egt-Major George Brown, 140th Cavalry, recently reported as dangerously ill in England, has died from the effects of an operation. For 12 years he had been a resident of Canada. He was born in England 46 years ago. He had served in France with the C.E.F. for two years. He was an imperial army veteran, having served for seven years in the 15th Hussars.

Pte. Joshua Watts, 185th Gambia regiment, reported as missing in November, is officially listed as "believed killed." He was only 17 years of age, a native of Lancashire, England, and prior to enlisting with the 1st Battalion employed with the Sun Buick Co. His mother has 40 relatives in the British army.

Pte. Ralph D. Lee, only son of D. F. Lee, 588 Manning avenue, is officially reported wounded and missing since Oct. 9. Prior to enlisting he was employed with the T. Eaton Co.

Pte. William Reid, 92nd Highland Battalion member, has been killed in action. He left Toronto last April with that unit, but later was transferred to another. He was 25 years of age and unmarried. His relatives are in Scotland.

Toronto Railway Man Killed, reported Pte. Edgar B. Douglas, reported killed in action, was an electrician in Toronto, in the employ of the Toronto Railway Co. prior to enlisting in the 35th Battalion. His father, Samuel Douglas, lives in Scarborough, Ont.

Two members of the 97th (American) Battalion are listed in yesterday's casualties. Pte. Wallace English, 20 years of age, born in County Tyrone, Ireland, and had lived in Toronto for six years. Before enlisting he was a T. Eaton Co. salesman. Stricken in trench fever and pneumonia, he was given a chance to return home, but declared "he would see the last of the Germans or they would see the last of him."

Pte. J. Clementson, reported recently in hospital with foot and leg wounds, is now listed as seriously wounded, and is expected to be discharged in the 35th Battalion. He was employed at Louder in Front street. His mother resides at 287 Christie street.

Pte. W. G. Chilcott formerly of 821 Logan avenue, is reported in a cable received by his wife, to be in an English hospital seriously ill with pneumonia. He joined the Engineer Corps about a year ago.

Pte. T. Meddings, 55 Hocken avenue, is listed as missing with the 1st Battalion, but was later transferred to the Mounted Rifles and has been nearly one year at the front.

**VIGOROUS RECRUITING
FOR A POPULAR UNIT**

New Railway Battalion Has Toronto Headquarters—List of Officers.

The vigorous recruiting campaign of the 1st Construction Battalion now in progress is rapidly bringing it up to strength. This battalion has its headquarters in Toronto and is proving very popular. Following is a list of the officers of the 256th in Toronto and chief outlying recruiting points:

Lt.-Col. W. A. McConnell, O.C.; Senior Major J. Harris saw service in South Africa; Adjutant Capt. Elson, late of 1st Hussars, was quartermaster of the base hospital, Toronto; Paymaster Capt. Bishop of the 109th and 252nd Battalions head of recruiting for Ontario; Capt. Clarkson-Jones of the 10th Grenadiers, was previously engaged in engineering work in the Yukon, Central America, Spain and Africa. Quartermaster Capt. Pearce transferred from 10th Battalion, Lieut. Allan George and Lieut. Douglas Ellis. Asst.-Adj. Lieut. D. Blain, Major Murten, London, Major McLaughlin, Cobourg; Capt. Palmer, St. Catharines; Lieut. Williamson, Ottawa.

**Thin People Can
Increase Weight**

Thin men and women who would like to increase their weight with 10 or 15 pounds of healthy "stay-their" fat should try eating a little Sargol with their meals for a while and note results. Here is a good test worth trying: First weigh yourself and measure yourself. Then take Sargol—one tablet with every meal for two weeks. Then weigh and measure again. If a question of how you look or feel or what your friends say should trouble you, the Sargol measure will tell their own story, and many thin men and women, by following this simple direction, are following in the first fourteen days, by believing this simple direction. And, best of all, the new food Sargol does not of itself make fat, but, mixing with your food, it aims to prepare the fattening ingredients of the food that you have eaten into rich, ripe, fat-producing nourishment for the tissues and blood—prepare it in an easily assimilated form which the blood can readily accept. Much of this nourishment passes from your body as waste. But Sargol works to stop the waste and do it quickly, and it is made of the contents of the very same meals you are eating now develop pounds and pounds of fat. Sargol is safe, pleasant, efficient and inexpensive. All leading druggists and health stores sell it in a box of 30 tablets to a package—on a guarantee of weight increase or money back, as found in each box.

If you find a druggist who is unable to supply you with Sargol, send \$1.00, money order or registered letter to the National Laboratories, 71 St. Antoine street, Montreal, and a complete ten days' treatment will be sent you, postpaid, in plain wrapper.

Twelve Men Arrive in the City From the Western Front.

ALL ARE MAIMED

Are Taken to College Street Military Hospital for Further Treatment.

During the snowstorm yesterday morning twelve more returned soldiers from the western battle front arrived at the Union Station and were taken to the College Street Military Hospital. All twelve war-heroes were maimed men, eleven of the party having each lost a leg, and the twelfth an arm. Ten of them had been fitted with artificial legs in England. Most of the men received their wounds at Ypres.

Sergeant W. J. Binny, one of the most severely injured, has lost the sight of his right eye, his right arm is paralyzed and his right leg amputated. He wears the military decoration of the battle of the Somme. He was also mentioned in despatches of General Haig. The other members in the party are:

Pte. E. G. M. Dougal, Sussex court, Toronto; Pte. J. S. Tamakill, Vancover, B.C.; Lance-Corp. F. Smith, North Bay, Ont., sister in Utteridge avenue, Toronto; Pte. S. A. **Extremely Severe
Dyspepsia**

Halifax (N.S.) Sergeant in the C.E.F.
Cured Completely by Dr. Cassell's Tablets.

"When the war broke out I joined the Expeditionary Force and came to England. I had not been long there, however, when my trouble returned, and I had to go to hospital. While in hospital a friend told me of Dr. Cassell's Tablets, and I decided to try them. The first box brought such pronounced relief that I continued the treatment. To make a long story short, a complete cure was effected."

"Since taking Dr. Cassell's Tablets I have been through hard ships almost by a Physician, and tried all the remedies on the market, spending a small fortune, but obtained little or no relief. I found human endurance, but not cure. I became utterly discouraged, and had my old trouble returned to bother me."

The above is the frank, clear testimony of a Canadian soldier. He has been cured of extremely severe dyspepsia, which even the healthful life of the training ground could not overcome, and he wishes to tell others that he owes that cure to Dr. Cassell's Tablets.

WILLS PROBATED

Three sons and five daughters will divide the estate of \$715 left by their mother, Mrs. Rachel Vanant, who died in Stouffville, January 3.

Annie S. McLellan, Two Creeks, who at first thought to collect from her mother, Mrs. Vanant, who died in Stouffville, Sask., June 5, 1911.

Mr. Stumps has applied for administration of the estate of \$498 left by his mother, Mrs. Louisa S. Stumps, who died in Toronto Sept. 29, 1916. He and his sisters inherit the estate.

MUNITION WORKERS HONORED.

Twenty-two of the women workers in the Grand Trunk shops at Montreal and Stratford have earned the medals awarded by the imperial munitions board, and a number will soon be entitled to a medal with a bar for having completed six months work on munitions.

Nervous Trouble for Five Years and Heart's Action Was Weak—Dr. Chase's Nerve Food the Cure.

Kingston, Ont., Jan. 18.—This letter will appeal particularly to persons subject to nervous headaches, for the writer suffered almost everything possible in this line. For years I had first indications that the nervous system is breaking down. The use of headache powders or other temporary relief at a terrible expense to the nervous system and to silence the warning bells, that is sounded for you to restore the nerves before nervous prostration, paralysis or some form of nervous collapse has developed.

I was treated with difficulty, but Dr. Chase's Nerve Food, which removes the cause of trouble by building up the nervous system, has done it. I am now strong and able to get around and do my work without difficulty. I would recommend Dr. Chase's Nerve Food to anyone suffering from nervousness and run-down condition.

Dr. Chase's Nerve Food, 50 cents a box, a full treatment of 6 boxes for \$2.50, at all dealers, or Edmondson, Bates and Co., Limited, Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

Mrs. G. Storring, 14 Catharine street, Kingston, Ont., writes:

"I have been suffering for the last five years with nervousness, headaches, so that my eyeballs would fairly split, dizziness, weakness, and a generally run-down condition. I doctored for several years with different doctors, but without getting relief. Through reading one of your booklets I thought that possibly I could get benefit from Dr. Chase's Nerve Food, so I decided to try it. I got one box, took the pills and, feeling better, followed it up with more. Now I am feeling much better, am stronger, and able to get around and do my work without difficulty. I would recommend Dr. Chase's Nerve Food to anyone suffering from nervousness and run-down condition."

TUESDAY MORNING, JAN. 23.

President Wilson and the Senate

It is evident that the war has upset the Monroe Doctrine to a greater extent than idolaters of that ancient United States policy care to admit. President Wilson took a careful aim at yesterday's decision to knock it off its pedestal, and in order to do so, paradoxically suggests that the nations of the world should with one accord adopt it.

President Wilson's views would have met with more favor were he not so obviously supporting the German policy in his proposals. His idea of peace without victory is a direct challenge to the recent note of the entente allies and to Mr. Balfour's communication. If President Wilson means that the German idea of conquest is not to be defeated he will have plenty of sympathy from pro-Germans, but from no others. Once more he places the German forces and those of the allies on exactly the same level and describes them as seeking precisely the same ends. It is this diplomacy it is malignant; if it be stupidity it is diabolical.

Theoretically the president's fine words are very smooth and very sweet and very virtuous, but it was exactly the words like these behind which Germany prepared to ravage Europe, and now she asks that no nation be humiliated. "I would leave a sting, a resentment, a bitter memory." Does the man think of Belgium desolated, or Serbia ravaged, or France torn asunder, and begs that Germany shall have no victory's terms imposed upon her of restitution and reparation? Does he imagine that Germany shall not be required to disgorge her ill-gotten gains, or that she is likely to make reparation to Belgium, when in her present unrepentant spirit she is calculating whether it would be good policy to desolate Switzerland, Holland and Denmark?

The entente allies and Mr. Balfour have made quite clear in their communications that they had nothing in mind concerning a balance of power in Europe or elsewhere. With the opening of the war the old order passed away, and the new order is a world federation for peace. If President Wilson could have adhered to it in brief and practical terms. As it is, he appears to ignore it, and sets up a rival and what he seems to regard as a superior policy.

Another point on which President Wilson makes himself explicit is the freedom of the seas. "The paths of the sea must, alike in law and in fact, be free." When have they not been free? And who complains of any obstacle to their passage? It ought to be evident to even such an unworshipful statesman as Mr. Wilson, that the freedom of the seas as he describes it is the very last thing that Germany desires. Germany built the second navy in the world to challenge his ideal that in "practically all circumstances" the seas should be free and common. Great Britain has made the seas free and common for every flag for a century, and Germany's peace-loving gratitude drove her to build a navy to end that peace and freedom.

While desiring to give President Wilson every credit for the desire to end the frightful struggle in Europe it must be evident that the tone of his address to the senate leaves the impression that he is determined to save Germany from the ignominy of defeat. If that can be accomplished, and that he has set aside entirely the proposals of the entente allies for a world guarantee of peace in the future.

None of the nations fighting against Germany will be prepared to cry quits and permit Germany on her word of honor (1) once more to set up her military machinery, her espionage, her will to power, until a favorable opportunity comes once more to seek the domination of the world.

Germany must make restitution and reparation even at the cost of feeling an intolerable sting and bitter memories. They could be no more bitter than those of Belgium, and it is the chief blot on President Wilson's views that he still places Belgium and Germany on the same moral level.

Military Farewells
Radical changes must be made in the methods of sending off the troops. There have been many warnings and "accidents" in the past two years, but the "accident" of Sunday night makes it imperative that such another possibility can never occur again. Of course it was an accident in the ordinary sense. Blinded with steam and driving snow it was impossible for those concerned to perceive the danger. But for two years or more the accident was being prepared for, gradually led up to, and finally the catastrophe was precipitated.

Everyone will now agree that the farewells to troops at the railway stations should not occur, should not be permitted. And if they are permitted they should not be at the Union Station. The north station is perfectly

IF YOU CAN'T FIGHT HUNS, SHOOT WOLVES

adapted for scenes of this kind, and is protected and safeguarded so that those who stand by the carriage would be in no danger, except the usual risk in the case of crowds, exerting unexpected and irresistible pressure.

It is evident that when partings have to be faced it is just as easy to set the limit at one time and place as another. A Union Station farewell is no more final than one at Exhibition Camp or at the Don or Riverdale. Farewells might be very well arranged for at the armories or some other spacious and accessible point where soldiers could be met by their friends for the last hand clasp. After that they should be on service, and they should go to the train with their good-byes all said, and no interval left before they start. It should not be difficult to arrange this among all the other details of transportation, and it is agreed that it would be in every way a more satisfactory arrangement than that which has terminated so sadly.

Successful Housing Plans
His excellency's visit to the Toronto Housing Co.'s property on Bain Avenue yesterday pleasantly marked the success of a scheme in which his predecessor, Earl Grey, took an active and inaugural interest, not less eagerly followed up by H. R. H. the Duke of Connaught. Mr. Frank Beer and those associated with him have overcome many obstacles in order to carry out the plans to a successful realization, but their reward is chiefly in the notable success which they have actually achieved.

Much misunderstanding and misconception has had to be overcome, and not a few have endeavored to hamper the movement under the impression that it was another capitalist's ploy. The practical common sense and the urgent demand for the project is its own justification. Similar plans on a much larger scale have been remarkably successful elsewhere, and the Duke of Devonshire is himself associated with various movements of the kind in England. Chief of these is the model City of Eastbourne with its 55,000 people, a model town to which Mr. Beer graciously referred.

The plan is simply to supply houses at moderate rentals. Where there is no desire to make profit, the problem is greatly simplified and the slight interest return provided for by the housing company enables the tenants to rent their homes almost at cost. His excellency is chairman of the trustees of a big housing undertaking in London, and he thoroughly appreciates all the problems involved and the success of the local project.

It should be obvious that what has been so successfully done in the case of the housing company could be repeated on a much larger scale, and almost indefinitely. One of the evil features of some schemes on a commercial basis is the frightful ugliness and stark ugliness of the dwellings designed on a standardized model. It is not necessary to avoid beauty of design and comeliness of arrangement in planning such houses. In this as well as financially the housing company has achieved a notable success.

TRAVELERS' CHEQUES.
The public are reminded of the fact that the best way to carry money is by the travelers' cheque system. These cheques are issued in different denominations, put up in book form, and cashed anywhere in the world. This simple way of carrying funds has been in force for twenty-six years and is pre-eminent in all of these features, as evidenced by many years of steadily increasing patronage.

Travelers' cheques are accepted by railways, hotels, shops, etc., and can be cashed any day in the year. Purchasers of cheques are safeguarded against loss by the provision that the time of sale his signature must be placed on each cheque in the space provided therefor.

All information concerning this simple way of carrying money may be had at the office of A. F. Webster & Son, 53 Yonge street.

Alkali in Shampoos Bad For the Hair
If you want to keep your hair looking its best, be careful what you wash it with. Don't use prepared shampoos or anything else that contains too much alkali. This dries the scalp, makes the hair brittle, and ruins it. The best thing for steady use is just ordinary mulberry cocconut oil (which is pure and greaseless), and is better than the most expensive soap or anything else you can use.

One or two teaspoonfuls will cleanse the hair and scalp thoroughly. Simply moisten the hair with water and rub it in. It makes an abundance of rich, creamy lather, which rinses out easily, removing every particle of dust, dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves the scalp soft, and the hair fine and silky, bright, lustrous, fluffy and easy to manage.

YORK COUNTY and Suburbs

CONDUCT BIG CAMPAIGN THROUGH NORTH YORK

York Rangers Men Will Visit Villages in Northern Part of the County.

The party that has been organized during the past fortnight returns to Exhibition camp tomorrow. An officer and five men are to be left in that district to keep in touch with a number of men who are expected to sign up in the near future.

A party of North York men will leave the city tomorrow for Mount Albert. Starting at this place, Victoria campaign is to sweep over North York. Every town and village in the district will be visited, and every man who has rendered invaluable assistance, both in preparing lists of eligible young men and in recruiting, will be invited to accompany the party. Many more homes than any other district have been canvassed. Two or more men, says one family, "can sign with us as long as there is a man in the house."

The two officers and 14 men, who are detailed to tour North York, leave the Don Station at 10:30 a.m. on Monday, Jan. 22, for Puffer, Jan. 27, 1917. The party will establish headquarters at the following places: Mount Albert, Jan. 24 to 25; Puffer, Jan. 27 to 28; Aurora, Feb. 2 to 3; Aurora, Feb. 4 to 5; Schomberg, Feb. 10 to 11; Richmond Hill, Feb. 14 to 15.

ANGLIAN YOUNG PEOPLE HOLD SPLENDID CONCERT

Proceeds of Event Will Be Devoted to St. John's Society.

Under the auspices of the A.T.P.A. of St. John's and the Anglican Church of St. John's, a splendid concert was given in the parish house last night in aid of the society. In addition to the music, a number of tableaux were presented, and the program was composed of brief sketches of the various scenes of the life of St. John the Baptist. The tableaux were: "The Birth of St. John," "The Baptism of Christ," "The Marriage of St. John," "The Imprisonment of St. John," "The Beheading of St. John," and "The Resurrection of St. John." The concert was a great success, and the proceeds will be devoted to the St. John's Society.

WESTON WESTON

Conference of All Interested Parties Will Be Held.

Weston Town Council at a lively session last night, again reviewed the matter of the sewerage trouble in relation to the suits now pending and in the prosecution of which the council some time ago retained the services of Mr. Dewar, K.C., and W. J. Douglas, retained by the petitioners. Owing to the fact that the sewerage work in the town is said to have overpaid the contractors by a large amount, and suit has been entered for recovery, it was stated at last night's meeting that Mr. Dewar had advised a settlement, the town receiving \$2500 in full of all claims, but Mr. Charleton said this amount would not pay the costs. It was finally agreed to settle up a question which has caused the Town of Weston protracted litigation and trouble than any other matter. A number of minor questions were dealt with.

DON'T WANT OLEOMARGARINE.

Weston, York and Etobicoke Agricultural Society Against It.

At the annual meeting of the Weston and Etobicoke Township Agricultural Society held yesterday the financial report was read and approved. A resolution was passed to hold a seed competition and a station and bull show in the spring. The president of the society, Mr. J. G. Gardhouse, was elected president. The directors for the various municipalities were all chosen, and a resolution asking the federal government not to remove the restrictions governing the importation of oleomargarine into the country was unanimously adopted.

BOOT AND SHOE WORKERS.

The Boot and Shoe Workers' Union held a meeting in the Labor Temple last evening. The union has drawn up its new schedule of prices, which will be submitted to the manufacturers. To go into effect in May, W. Brown, business agent, stated that he does not anticipate any trouble on the part of the manufacturers. "With the prices they are now getting," he said, "they can very well afford to pay a little extra for labor in view of the high cost of living." General Organizer E. W. A. O'Dell, who was present, addressed the meeting.

The Link between "the Man in the Trenches" — and "the Woman at home"

216 MEN AND 1,842 WOMEN

Started out this morning to cover Toronto—not as mere collectors, but as canvassers, ready and willing to discuss with you the question of your donation to the Patriotic Fund and Canadian Red Cross.

Think of it!

THE ROTARY CLUB OF TORONTO will canvass every factory and office in Toronto for members for the 50,000 CLUB, and THE WOMEN'S COMMITTEE will see that every dwelling-house and small store in Toronto is solicited; and ask that you make monthly payments of \$1, \$2 or \$3 a month through the 50,000 Club to the Patriotic Fund.

Somebody will call on everybody

Toronto never has seen a campaign such as this. Business Man or Laborer, Rich or Poor, Housewife or Maid—everybody even to the smallest infant will have an opportunity in this campaign to do their share.

It's simple—It's easy—It's a duty

Receive the canvassers with courtesy. Give them an opportunity of stating their case. Give all you can. Give till you feel it.

Gr-r-r-ump! Bang!

*"That was a near one! Wh... Gad! That was close."
"Crouch Down! Driver, can't y' give the old ambulance more gas? Make her hum!"*

"Look out, everybody! Here's a bit o' road that's getting what for. Hunch down, you chaps. Grip the sides, you. Hold tight! Ump!... Ouff!... Gad! Everybody all right?"

And then you and I sit in our comfortable chairs, in warm rooms, safe as the proverbial "bug"—and we wonder if two dollars or twenty dollars, or fifty dollars (whatever it is in each case), is enough for the Patriotic Fund and Canadian Red Cross Campaign. Enough! There's no such word as enough in this war. The only time you and I can say we've given "enough" is when we absolutely and honestly CAN'T give another cent. If it doesn't hurt you to give—then you aren't giving anything worth while.

What's the use of this ad. piling on the agony? You know right well that you are infernally glad YOU aren't in that Red Cross ambulance. Never mind your reasons for being here at home. That's between you and your conscience. But this Patriotic and Canadian Red Cross Fund business is between YOU and YOUR CHILD—because it might be YOU in that Red Cross ambulance, and it might be YOUR CHILD was depending on this fund.

Forget your criticisms. Dig up this small part of your duty. Look at the Red Cross waggon in this ad.—then think of your nice, comfortable bed at home. If you want to enjoy that bed, dig up! For an eased conscience it's cheap, very cheap!

DIG UP!

DIG UP!

DIG UP!

DIG UP!

5% Advance on this stock

To make big money in oil you must invest with a company before the stock is boomed. In 1916 the last sixty days this company has opened up two gusher properties, completed nine producing wells and oil has advanced nearly double, justifying a big advance on the stock, but to raise sufficient additional capital quick, this company offers once more the stock at the old price in force sixty days ago before the oil boom.

WALL STREET HAS EYE UPON WILSON

Guesses as to Nature of Message Keep Traders on Edge.

RELIEF COMES LATER

Stocks Rally When Wilson's Attitude Becomes Known on Street.

Special to The Toronto World. New York, Jan. 22.—Wall street was disturbed all thru the forenoon today by conjectures as to the president's message to be delivered to the senate in the early afternoon would present for public consideration. At the opening the tone was fairly strong because of the reports that the German raider had been destroyed, but the demand for stocks was quickly supplied and the street and stock exchange were filled with rumors of a new German undersea activities and about some position to be taken by our government that might again confirm the diplomatic situation. For a time the street became nervous, fearing that the president's message would be similar to that which preceded the publication of the peace note. When the president's message was read these fears were quickly dissipated.

Special Cable to The Toronto World.

London, Jan. 22.—There was a large accumulation of subscriptions to the war loan in London today. The amount of subscriptions for small amounts are now numerous, and scattered throughout the country. All indications are that the exchange generally were steady today, but trading remained quiet. The gilt-edged section was active.

PORCUPINE

Telegram from Hamlin Brooks Hatch, E.M.

"Just returned from preliminary examination of Tommy Burns property and find work has been progressing favorably under Mine Manager Powers, sinking new shaft on high-grade vein two hundred feet north of mill, very fine showing. Building new camp. Have inspected main sulphide vein, and examination shows it to be of large extent. An arrangement to cross cut our vein at intervals of ten feet. This new work will start as soon as new camp is completed."

Thousands of shares of this stock bought here in Camp by some of the best mining men, and buying orders still coming in."

ORE RESERVES LARGER AT BUFFALO MINES

Mill Reconstruction Almost Completed—May Resume Dividends.

A most optimistic review of the conditions at the Buffalo mines of Col. A. M. Hay has been sent to the shareholders in a circular by the management. The report states that since the last annual statement issued in May, 1916, the ore reserves of the company have been increased to practically a million dollars. In May ore reserves were estimated at 325,000 ounces of silver, whereas on October 31 an increase had been made to 1,258,375 ounces in the mine, 1,600,000 ozs. in assays, and 180,000 in residues which, with bullion on hand of 800,000 ounces, makes a total of 3,838,375 ounces.

The report states that owing to the changes in the entire milling and metallurgical practice much delay has been occasioned, and only a small amount of silver had been mined. On this account it was thought inadvisable to resume dividend payments, but when the mill is started again and working to its capacity of 430 tons per day, it is expected that the first of March will be advanced to a couple of years.

UNUSUAL PROCEEDING BY BROKERAGE FIRM

Mark Harris and Co. Advise the Sale of Lorrain Consolidated Shares.

The street was rather surprised yesterday to see a circular sent out by Mark Harris & Co., advising the sale of Lorrain Consolidated. It is somewhat unusual for a broker to recommend sale of this firm have almost established a precedent by so doing. The stock was first put out by the same company at 22 cents and is now around 50 cents, so that the first purchaser has a respectable profit. Development is going on at the mine and it is expected that the vein may be out at any time, but until this is assured the present price is thought to have discounted any news up to the present. If the company is fortunate enough to strike the expected vein the price will likely score a sharp advance and it is, of course, one of the gambles inherent to most mining issues. If the advice of the firm is followed the price will probably reach sharply owing to the number of shares of the stock being put on the market at one time.

BOSTON CREEK A WORD WITH YOU

Boston Creek remains the leading feature of the Toronto mining share market, both in activity and price advances.

I recommend its purchase by investors—by semi-investors for the long pull and large market profits—by investors for extraordinary indicated earnings and dividends.

BOSTON CREEK IS UNDOUBTEDLY THE SENSATION OF THE NEW YEAR FROM THE NORTH COUNTRY. NOT SINCE THE DISCOVERY AND DEVELOPMENT OF PORCUPINE, WHICH REQUIRED THE BUILDING OF A RAILROAD INTO THE CAMP, HAS THERE BEEN A MINE AND CAMP OF THE NORTH BROUGHT TO PUBLIC ATTENTION WHICH INVITES INVESTMENT AND SPECULATION TO AN EXTENT EQUAL TO BOSTON CREEK, WITH A RAILROAD AND STATION ON THE PROPERTIES.

I believe present buyers of Boston Creek have but to stay with the developments of 1917, as already announced through the management, to see this company pass very far on the road to permanent earnings and extraordinary dividend payments.

Boston Creek is today the sensation of the Toronto Standard Stock Exchange and the New York Curb Market. Its recent volume of transactions recalls the days when the Porcupine gold issues were active and were advancing in price.

Buy Boston Creek now. The company has a management with abundant financial and technical means to carry it to success. It represents an expenditure to date of a quarter of a million dollars.

I URGE IMMEDIATE ACTION IN PURCHASING THIS STOCK BY WAY OF ANTICIPATING HIGHER PRICES. BUY BOSTON CREEK FOR INDICATED REMARKABLE DIVIDEND RETURNS WHEN THE COMPANY ENTERS THAT STAGE AND FOR IMMENSE MARKET PROFITS.

MARK HARRIS

Bank—We advise the immediate purchase of Boston Creek Mines, Ltd., stock at going market prices through your broker or your broker, or place your order direct with us at our head office—Standard Bank Building, Toronto, Ont.
