## "Vice Squad" Starts Intensive Campaign Against Motorists Who Seek Prey.

New York, Aug. 6.—(Special).—A detachment of detectives from inspector Belmont's special service squad, sometimes known as the "Vice Squad," started last night an intensive drive against the so-called "curb cruisers" and other "vice" elements, Commissioner Ellen O'Grady and other police officials to be the latest and the worst of Broadway's modern afflictions.

The "curb cruiser" has graduated with alarming progress from an amateur standing to the fields of professionalism and even organized business, according to the police. It is to prevent its further growth that inspector Belmont's men have been assigned to cope with it.

What the police call the curb cruiser is an automobile occupied by one or more men which drifts along the high ways of the white city and seeks passengers in the persons of unescorted women.

In recent months the practice has become so general that it is now possible to traverse the sidewalks of Broadway without being accosted by a man in an inviting vehicle.

# POLISH CRISIS IS NOW EASIER

(Continued From Page 1).

The British labor party is taking a strong hand in the matter of the Polish-Russian situation with a view to adjusting the country against war with Russia.

**Soviet Reply.**

The reply of the Soviet government to the British note expressed preference for direct negotiations with Poland as separate from the proposed conference in London between Russia and the leading powers. The guarantees which would be required of Poland include partial disarmament and the cessation of recruiting conscript soldiers and volunteers.

Of the guarantees desired, M. Kamenev says:

"The history of the Polish attack upon Russia, the interruption of assistance to Poland on the part of France, and the presence on the right wing of the Polish army of the troops of General Wrangel, who also is supported by the French government, render it a matter of necessity for the Russian Soviet government to demand the inclusion in the terms of the armistice with Poland of such reasonable guarantees as would prevent all attempts on the part of Poland to use the armistice as a period for the renewal of hostile acts against Russia."

M. Kamenev states that it was the absence of powers to deal with such questions that led to the soviet asking the Polish delegates to obtain an extension of their powers from their government.

**Must Fight Till Armistice.**

The soviet delegates proposed that armistice be used and the negotiations for an armistice be begun as soon as Warsaw replied that a courier had left Warsaw with new credentials, M. Kamenev says. He adds that the Polish delegates decline and returned to Warsaw. M. Kamenev continues:

"One is indeed justified in inferring from the conduct of the Polish delegates who preferred to return to Warsaw, that the Polish government is speculating on foreign assistance and delaying armistice and peace negotiations in expectation of it."

M. Kamenev says international law shows no case in which a belligerent has suspended military operations before the conclusion of peace treaty, and does not constitute an attempt against the independence and integrity of the Polish state.

"The soviet government more than once has pleaded itself ready to respect the independence of Poland and the right of her people to political self-determination," he says, "and intended the terms of armistice and peace should in no way include any restriction of the Polish people in this respect."

**Poles Deny Allegation.**

The Polish legation in London tonight issued a statement controverting the communication of M. Kamenev to Premier Lloyd George as far as it concerns allegations against the Poles. The statement purports to prove by explanation that the delay in the armistice negotiations was not due to the Poles, but to the fact that the British and French delegations met to consider certain points of the treaty of Versailles.

**Will Confer at Lympne.**

London, Aug. 6.—The London Times says the conference between Premier Lloyd George and M. Millerand will take place at the residence of Sir Philip Sassoon at Lympne, Kent, Sunday. It was here in May that the British and French delegations met to consider certain points of the treaty of Versailles.

**Field Marshal Wilson** was early summoned to the joint conference at Downing street, which lasted from 7.15 this afternoon until after 9 o'clock tonight, and the fact that he will Mr. Bonar Law, remained until the end is taken as indication that military questions were fully discussed. Mr. Lloyd George has intended to leave London early today for a week and in the country, but when his car arrived he ordered it sent away.

**FREIGHTER SINKS BARGE.**

Detroit, Aug. 6.—The freighter "Homer" today was in collision with today's towed barge Homer, near Belle Isle Light, on the Canadian side of the island. The barge was sunk. The freighter continued on her way. The crew of the Homer was rescued.

**NO H. C. OF L. HERE.**

San Francisco, Aug. 6.—High cost of living has never hit Madagascari, Kendall K. Kay, former California newspaper man, has written to friends here. Best prime beef soups for three and one-half cents and rice for one and one-half cents, he said. Pineapple can be had for one-half cent and big lobsters for two cents.

# NEWSPRINT IN BIG ISSUE AT PRESS CONFERENCE

## Committee Appointed to Take Steps to Secure Adequate Supplies Thruout Empire—Cheaper Postal Rates Aimed At.

Ottawa, Aug. 6.—Newsprint and the supply of this commodity to the newspapers were the chief themes at the afternoon proceedings of the Imperial Press Conference. Experts on behalf of both the Canadian publishers and of Canadian manufacturers were heard on the subject. Newsprint difficulties at the Antipodes were emphasized by a number of the delegates.

In Australia, one delegate said, they paid as much as \$450 a ton for newsprint—when they could get it—and they had to depend on Canada for it. And why it should increase 100 per cent in price over the Canadian and United States prices was another thing they could not understand.

A. L. Dawe of the Canadian Pulp and Paper Company gave an outline of the pulp and paper industry, introducing a paper which he had prepared for the delegates.

Mr. Dawe explained that when Norwegian paper manufacturers failed during the war to meet the demand for newsprint in the United States (Canadian firms had "taken up the slack" and Mr. Dawe added, "we intend to keep it").

Mr. Dawe explained that with the single exception of Russia, Canada was the sole remaining source of pulpwood in large quantities. A number of delegates from Australia and New Zealand cited Mr. Dawe with questions concerning prices, and when he failed to explain some seeming anomalies the Hon. Theodore Fink said that his address supplied all the information except that which the delegates really required.

P. D. Ross of The Ottawa Journal said the production of paper in Canada was in the hands of a few people who conceded to Canadian consumers no favors which other consumers did not enjoy. In regard to postal rates, it seemed to him reasonable to ask Canadian manufacturers at least to give first choice to British countries in making contracts, also perhaps a concession in the matter of price was more than could be expected.

The following resolution was carried: "The question of paper supplies being of vital importance to members of the Empire Press Union, steps should be taken to ensure adequate supplies thruout the empire, and that a standing committee be appointed to give effect to the above, such committee to consist of two representatives of the British Isles and one delegate appointed by each delegation and the president who is to be chairman."

Many other important resolutions were passed, including one sponsored by Sir Gilbert Parker, seeking cheaper postal rates with a view to the establishment of the "penny post."

Resolutions calling for improved facilities for the telegraphic transmission of news through the empire, and cheaper cable rates, were adopted unanimously. Governments in the empire will be asked to assist in providing such facilities, but emphasis was placed on any procedure which might endanger the freedom from other than journalistic influence of the British press.

The resolution was adopted with the warm support of the whole delegation.

**Postal Rates Within Empire.**

Postal rates within the empire for newspapers and periodicals were taken up when the Imperial Press Conference resumed its sittings this afternoon. The question arose on a motion by R. E. Kingsford, Toronto, read a memorandum prepared by the St. George's Society and several Protestants in this city, opposing the postal rates within the empire, which exceed the lowest rates in force between any foreign country and any part of the empire.

John Collins, a London correspondent, introduced his resolution "that a committee of the Empire Press Union be appointed to confer with its overseas branches, with a view to securing within the empire, which provide courses of journalism in order to frame a scheme of travel scholarship within the empire and to young journalists of proved capacity."

Mr. Collins suggested that the scheme might be extended to include newspaper women. Mr. M. de Billington, London Daily Telegraph, endorsed Mr. Collins' remarks.

**Saving White Paper.**

J. C. Imrie, general manager of the Canadian Newspaper Association, then gave the conference a vivid picture of the troubles of Canadian newspaper publishers in regard to newsprint. Mr. Imrie showed that in excess of production to the tune of 900 tons per day. In 1916 newsprint could be obtained for \$35 per ton, while the contract price for the second half of the present year was \$120 per ton. He told of instances where publishers who required more than they had been able to secure on contract had to pay as high as \$260 per ton in the spot market. These were individual sales, he explained. One of the causes for a much higher demand for newsprint was an unprecedented increase in the volume of advertising.

Another cause was largely increased circulation. The publishers, he said, were willing to pay the export price to foreign countries. It was admitted by the manufacturers that the present prices bear little relation to the cost of production, and that they were enjoying hitherto undreamed of profits.

As a main remedy for meeting existing shortage in newsprint, Mr. Imrie suggested a real increase on the production above the present demand. He remarked that since the war 25 per cent of the daily newspapers in Canada had gone out of business. This included amalgamations.

Seventy-five per cent of the capital invested in pulp and paper production in Canada, said Mr. Imrie, comes from the United States. The solution of the problem of paper supplies for the British empire, he thought, lay in an empire partnership in which British colonial capital would be invested in Canadian mills for the utilization of Canadian pulpwoods and was now being produced for British countries.

At the morning session, a standing

vote of sympathy was taken by the conference in the death of A. E. Miller, editor of The London Free Press, and a telegram of sympathy was despatched to Mr. Miller's family. The vote was moved by T. H. Preston of Brantford and seconded by G. E. Fairfax, chairman of the Australian delegation.

**Independence of Press.**

Hon. Theodore Fink of Melbourne moved a resolution "that the press remain independent of official and government control, and that privileges secured by the press be maintained." He suggested that the press should be free to report on government activities on record as opposed to any sort of fetter of officialdom being imposed upon newspapers. The newspapers generally viewed with suspicion the mushroom growth of government publicity bureaus—"with their air-governing despatches, sometimes with party politics. In Australia these usually found their way to the waste paper baskets."

Amendment of the resolution was urged by Walter Mackintosh of Singapore and representatives of crown colonies. They took the view that there was a difference between self-governing communities able to judge news and the uneducated millions on the outskirts of the empire. Eventually an amendment was accepted, providing that the press should remain independent of government control, "except in so far as purely military exigencies may render censorship necessary in time of war."

On a vote being taken, nine voted for the amendment, which was declared lost. The resolution was then carried without a dissenting voice.

**Uniform Cable Rates.**

The conference then passed a resolution, held over from yesterday, dealing with cable rates. The resolution calls upon the Empire Press Union to take immediate steps to secure facilities for the better, quicker and cheaper conveyance of news cables to the empire. It also urges the governments of the United Kingdom, of the self-governing dominions and India to use their influence with the cable companies to assist in such projects, such assistance, however, to be limited to providing increased and cheaper cable facilities, and not to subsidize the cable companies. Further, should any such assistance be given, it should appear specifically in the estimates of public expenditure, through the empire, expressing the belief that the full utility of cable and wireless communications as a factor in educating the peoples of the empire will not be attained until rates, irrespective of distance, are reduced to a uniform rate of one penny per word for press messages thruout the whole British empire.

**Resolution was carried without discussion.**

**Flood of United States Publications.**

R. E. Kingsford, Toronto, read a memorandum prepared by the St. George's Society and several Protestants in this city, opposing the flood of United States publications in Canada, and urging that editions of British magazines be printed in this country.

It should be marked that other resolutions should contain British and Canadian advertising. Urging the necessity for an all-British cable service, the members of the Empire Press Union, Press despatches naturally have been prepared for United States consumption were not suitable for Canadian readers. The attitude and policy of Great Britain, the memorial continued, was frequently garbled in the news services of the United States and should be especially prepared for Canadian readers.

Kitchener, Ont., Aug. 6.—(Special).—Citizens are wondering as to the whereabouts of a Kitchener real estate man, C. G. Pritchard, who has not been seen here for a week.

His office staff here state it is nothing unusual for him to be away several days without letting them know. Friends also say he is on a fishing trip.

**BRINGS BRIDES-TO-BE.**

Quebec, Aug. 6.—The C.P.O.S. Pretorian, which arrived in port this morning from Glasgow, had aboard eight brides-to-be. One of these had been engaged for 17 years. The majority of passengers were Scotch and bound for Toronto, Hamilton and the prairie provinces and British Columbia.

**Excitement in Vancouver Over Mobilization Possibility**

Vancouver, Aug. 6.—Great excitement reigns over the news regarding the possibility of a mobilization in Great Britain among the imperial servants in this city. Reservists here are anxiously waiting definite information and wondering whether or not they will be called to the colors.

**RE-ARREST DESPERADO.**

Woodstock, Ont., Aug. 6.—(Special).—John Parkes, who escaped from jail here last May, while waiting to go to Burwash to serve a lengthy sentence, was re-arrested in Port Colborne last night. Parkes escaped, along with his brother George, who, in addition to their father, Nelson Parkes, were all found guilty of burglar of their own household. They were members of the notorious South Norwich gang.

vast timber lands and some wonderful valleys. The United Grain Growers, Limited, has some big timber limits along the G.T.P. and is operating them on a large scale. We have new and enlarged docks at Prince Rupert, and we are going to get the Grand Trunk Pacific a considerable share of the traffic from the Alaska fisheries. Last year 200,000 cases of Alaska salmon were landed at Prince Rupert for shipment to eastern American cities over the Grand Trunk Pacific. The annual pack is something like 20,000,000 cases, and as Prince Rupert is nearer the fisheries by 600 miles than Seattle, we ought to get a large share of the business."

**League Alone Can Act.**

The only guaranty of the boundaries of Poland was set forth in the covenant of the league of nations and that body alone could act to preserve those boundaries, under the terms of the Versailles treaty, state department officials declared.

The boundaries of Poland were laid down in the treaty, but the terms of peace with Germany did not provide that the other nations of the world should preserve them, it was explained.

Should the allied governments decide to send troops into Poland, it was said, such action would be taken to restore peace in Europe and not primarily to protect Poland.

In the event that congress is called into special session, it was said, the president would ask congress to assume the full responsibility for the course of the United States and would not request any extension or enlargement of his own executive powers.

The United States government is watching developments closely. It is probable that the American government will wait until Great Britain and France have decided upon a course of action before the United States makes a decision.

### DEAL ONLY WITH RAILWAY RATES

Carvell Intimates Policy Will Be One of Full-Speed Ahead.

Ottawa, Aug. 6.—(By Canadian Press)—Interviewed by a representative of the Canadian Press Limited, today, Chief Commissioner Carvell of the Railway Board, stated that there will be no sitings of the board other than those fixed for Ottawa to hear the application of the Canadian railways for a thirty per cent. increase in railway rates. Mr. Carvell also intimated that there would be no adjournments of the hearings, which will commence on Tuesday, August 10, excepting such adjournments as may be necessary for the inspection of documents and exhibits and the need for which may occasionally arise. The chief commissioner said that a demand has arisen for hearings in different parts of Canada, more particularly in the west, but as no local questions are involved and the matter to be dealt with is one of principle, the question was whether or not there should be an increase in rates, and if so, to what extent. The application of the railways was one that could properly be heard at the capital.

### TWO KINGSTON CHILDREN HURT PLAYING WITH RIFLE

Kingston, Aug. 6.—(Special.)—This afternoon two children who got hold of a 22 calibre bullet and struck it with a stone to hear it go off met with painful injuries. Thomas Bristow had the end of one thumb blown off, the hand lacerated, right thumb badly cut and his knee also cut. The other child, Harold Dumphy, had a lot of pebbles driven into his right side. Dr. R. J. Gardner happened to be making a call at the very place where one of the children lived, and he was able to treat their injuries in a most thorough manner.

### JESLIN GREEN, CHESLEY, IS CHARGED WITH KILLING

Chesley, Ont., Aug. 6.—At an inquest held here today by Coroner Dr. Rennie, in connection with the death of the local carter, Bert Cavill, the jury brought in a verdict that Cavill died of wounds on Aug. 2, inflicted by Jeslin Green on July 29. Several eyewitnesses were examined, and they testified to seeing Green shoot Cavill. Drs. Main, Morgan and Rennie, who held the post-mortem examination, gave evidence that death was caused by two gunshot wounds. Green was not present at the inquest, but was represented by Lawyer McNabb of Walkerton.

### MONTREAL STREET CARS MAY NOT OPERATE TODAY

Montreal, Aug. 6.—(By Canadian Press)—J. A. Woodward, representative of the Montreal tramway employees on the conciliation board, stated today that the vote of the employees last night in favor of rejecting the board's award of the presentation of an ultimatum to the company, demanding the original terms, a strike to follow their non-acceptance, was due to a misunderstanding caused by a typographical error. But as the situation stands at present, there is every possibility that there will be no tram service after noon tomorrow unless the company complies with the original demands of the men.

### BELLEVILLE PAINTER SUCCUMBS TO INJURIES

Belleville, Ont., Aug. 6.—(Special.)—Cavel C. Atkins, the decorator who yesterday was severely injured by the collapse of a scaffold in the interior of St. Andrew's Church, succumbed to his injuries at an early hour this morning. A number of ribs were broken and these penetrated the lungs. He was otherwise injured. He was 51 years of age and born in Hastings county. He was a member of Mizpah Lodge, L.O.O.F., Moira Encampment and Canton, Belleville, in which society he had held several offices. A widow and one son survive. C. Cochrane, his partner, who also fell, is progressing as well as could be expected. No serious results are anticipated in his case.

### NIAGARA YIELDING GREAT FRUIT CROP

To Surpass Output of Past Five Years — Prop Up Peach Trees.

St. Catharines, Ont., Aug. 6.—Harvesting early peaches has commenced in the Niagara district and will be in full swing next week. The branches in many orchards have had to be propped up, so heavily are they laden. Those now being picked are "Clings-tones." Notwithstanding the heavy crop, the quality of the peach is excellent. In spite of the cool weather of the past few weeks, fruits and vegetables have grown well. Tomatoes have not ripened as rapidly as ordinarily, but with copious rains they have developed to a great size and the sun of the past three days is supplying the ripening process.

Comes Up to All Forecasts. Plums and pears and, in fact, all varieties of fruit are realizing the most optimistic hopes of the growers. The greatest crop in five seasons. It is now definitely established that grapes, the only fruit that has cropped high in the past few years, will again show a maximum yield. Tremendous quantities have already been contracted for in advance at prices in excess of any previous year. Pickers are more plentiful than in the strawberry season, before the school vacation days, and there is the greatest joy and satisfaction among the growers of half a decade, for as yet not one fruit or vegetable farm has been found that is not bearing well.

### TO CLOSE TWO ARSENALS.

Ottawa, Aug. 6.—(By Canadian Press)—It was officially stated this afternoon that the two Dominion arsenals located at Quebec and Lindsay, Ont., will be closed down for three months, commencing with August 15. The employees will receive five days' leave with pay from August 10 to August 15. The reason for the closing down is necessary stock-taking, which has not been possible to do satisfactorily since the war.

At the first sign of illness during the hot weather give the little ones Baby's Own Tablets or in a few hours he may be beyond aid. These Tablets will prevent summer complaints. If given occasionally to the well child and will promptly relieve these troubles if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are young children. There is no other medicine as good and the mother has the guarantee of a government analyst that they are absolutely safe. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

### CENSUS SHOWS MANY POLES ARE IN CANADA.

Ottawa, Aug. 6.—(By Canadian Press)—The latest available census figures indicate that there is within the borders of the Dominion of Canada a considerable number of Polish people. When the census of 1911 was taken it revealed a total Polish population of 33,326. For several subsequent years there was a fairly heavy movement of Poles to the Dominion, more particularly to the western provinces, with the result that the 1916 census for Manitoba, Saskatchewan and Alberta showed a population of Polish people for those provinces alone of 33,326. While Poland was with Russia has undoubtedly influenced many Poles to go home for their native country, there is no indication that the movement has been a particularly heavy one.

### AMERICAN AIR FORCE IN POLAND TRANSFERRED

Warsaw, Aug. 6.—Owing to the desperate situation on the front nearest Warsaw, the Kosciuszko squadron, the air force composed of the most part of Americans, attached to the Polish army, is being transferred from the southern front. The squadron will aid in the defence of the Polish capital. The United States consulate in Warsaw will be closed on Friday, and Consul Rankin is making preparations to depart Friday night. Most of the records already have been shipped away. The United States legation here is also prepared to close within a few days. The legation employees have shipped their baggage to Camp Grappe, the emergency headquarters of the United States typhus expedition.

### DEATH OF KINGSTON BOY DUE TO DEFECTIVE WIRING

Kingston, Ont., Aug. 6.—The coroner's jury, which last evening inquired into the death of Albert Gatchell, the 12-year-old youth, who was electrocuted Wednesday night at Finkley's livery, found that death was due to defective electric wiring. The jury recommended that the inspection of all electric wiring in the city be compulsory and that all defective wiring be immediately repaired.

### PRINCESS PAT SURVIVOR IN TROUBLE IN NEW YORK

New York, Aug. 6.—John B. Miller, 32, of 272 Spring street, who claims to be one of the survivors of the "Princess Pats" after the battle of Vimy Ridge, pleaded guilty of grand larceny in Jefferson Market court yesterday. He said he stole \$600 from a friend in order to furnish bail for the woman he married, who is in the Riverhead, L.I., jail, charged with bigamy. He was held in \$1,000 bail for the grand jury.

### TORONTO JUDGE IN NEW YORK COURT

Judge Coatsworth on Mission to Study Probationary System.

New York, Aug. 6.—County Judge Emerson Coatsworth of Toronto was a visitor to the night court last night and sat on the bench with Magistrate Bernard J. Douras for more than an hour. The Toronto judge has been commissioned by the Toronto and Ontario government to study the probationary system in vogue here and in Chicago. He will make a study of criminal administration and treatment of prisoners. It is the intention of the province of Ontario to establish a centralized probationary headquarters for offenders as in New York, he said. The judge declined to say where he is stopping as he did not want to be interviewed.

Today he will visit the court of domestic relations and other courts, and in a few days he will go to Chicago. The judge said he will make a report of the probation system to William E. Haney, attorney-general of the province of Ontario, when he returns to Toronto. The judge said that the criminal is a by-product of humanity and it is the intention of his government to utilize him by extending assistance and making him self-supporting. This can be accomplished best through the probationary system, which, when centralized, will facilitate the difficulties in identifying criminals. The judge was impressed by the

### BUMPER CROP IN OXFORD.

Woodstock, Ont., Aug. 6.—(Special.)—It looks like a bumper crop all the way around in Oxford this year. Wheat and oats promising record yields, corn now forging ahead, due to the warmth and moisture of the past few days, and promises to be one of the best crops in many years. There is a large acreage under corn in the county and an estimate places the acreage at over 40,000.

### RETURNING TO SHIPYARDS.

Halifax, N. S., Aug. 6.—There has been a break in the ranks of the strikers' marine workers. It was announced this afternoon that at a meeting of the Hullmakers' Union last night the majority voted in favor of calling off the strike. This means that about 100 men will apply for their former jobs at the Halifax shipyards at the five cents per hour increase offered by the company shortly after the strike began.

### FATAL MOTOR CAR ACCIDENT.

Sherbrooke, Que., Aug. 6.—Emmett Ward, of Grand Rapids, Mich., was instantly killed when an automobile left the road at the southern approach of the Massawippi bridge last evening, and rolled into the river. The driver of the car, Ernest Rossiter, assistant general manager of the Brompton Pulp and Paper Company, East Angus, escaped. The two men were the only occupants of the car. Mr. Ward was visiting his brother-in-law, Mr. Rossiter, and had just returned from Alaska, where he was chief accountant of the Northern Commercial Company.

### ENGLAND WILL USE FINANCIAL WEAPON

Will Withhold Money From Bodies Repudiating Authority of Parliament.

Belfast, Aug. 6.—There is to be a continuation of the government's policy of using to the fullest extent its financial weapon on Irish public bodies declaring for republicanism. A letter has been sent from the chief secretary's office to Irish county, borough and urban districts councils saying that in view of resolutions passed by certain bodies in Ireland repudiating the authority of the imperial parliament it is necessary for the lord lieutenant to withhold further payments for the local taxation in Ireland account to any local authority. This, the letter adds, will continue until definite assurance is received from the county and urban district councils sharing in such payment that they will distribute the money to the services to which they are assigned by statute and will submit accounts to the government board for audit as heretofore and will conform to the board's rules and orders.

## POLICE STATION IS LIKE SHOW ROOM

### Detectives Arrest Three Men Charged With Being Concerned in Many Thefts.

Three men were arrested last night by Detectives Sullivan and Waterhouse, charged with theft of upwards of \$3,000 worth of electrical goods from the Canadian General Electric Company, King and Simcoe streets, Robert Orpwood, Logan avenue, William Davies, 777 Manning avenue, and Robert James Taylor, 155 Beach avenue, are held in custody on charges of theft. In various houses through the city the detectives recovered stolen goods, and claim that they have still thousands of dollars worth of goods to recover, the thefts having, according to the police, been going on for at least six months. Davies was foreman of the shipping department of the Canadian General Electric, Orpwood was an office clerk and is alleged to have passed bogus shipping bills sent in by Davies for the stolen goods shipped out.

After the articles had been delivered to various houses in the city an advertisement was inserted in the papers and the goods sold at less than half their value. Court street station last night resembled a show room of an electric shop. Floor lamps, silver coffee percolators worth \$100 each, electric vacuum cleaners, vibrators, electric sewing machines, motors, and several of practically every electrical device on the market had been gathered in by Sullivan and Waterhouse.

## AMALGAMATION OF VETERANS IS URGED

### Mass Meeting in Trinity Park Favors Joining Under One Political Banner.

Between 600 and 1,000 returned men attended last night's mass meeting, held at Trinity Park, Queen street, under the auspices of Parkdale G.F.U.V. Comrades J. Harry Flynn, J. F. Marsh, J. J. Higgins and Mr. Herbert Capewell were the principal speakers. They all strongly advocated the amalgamation of returned veterans in Canada under one banner with the view to gigantic political affiliation against the forces alleged to be arrayed against the returned soldier in the Dominion. The collection from those present totaled \$43.15. "I have no hesitation in saying that 90 per cent. of the returned men and their dependents in this country favor amalgamation for political purposes," said Mr. Capewell, who quoted figures to the effect that 75 men in the Dominion controlled interests totaling easily \$1,000,000. "There are thousands of returned men in British Columbia without either employment or funds to carry them thru the winter," said Comrade Flynn. "What we ask is that returned men be given a chance to get back into the business or employment straits they held before they enlisted. In very many cases this is not being carried out. And everywhere we went out west and here, too, in the east, we heard M.P.'s say that the returned soldier was not to be feared, because politically he completely lacked organization. No matter how strong a vote he held the returned man was powerless because of lack of unity of purpose."

## BOARD FOR THE POSTIES

### A board of conciliation will sit in the near future in Toronto to deal with the grievances of the postal employees under the new civil service classification.

A board of conciliation will sit in the near future in Toronto to deal with the grievances of the postal employees under the new civil service classification, according to an announcement yesterday of R. S. Bartlett, president of the Postal Employees' Federation. During the war Rabbi Jacobs acted as chaplain in various camps and among the sick and wounded, always a source of comfort to them. He took an active part in the various patriotic campaigns, and particularly in connection with the efforts made for the war sufferers, although he himself was at the time in a very poor state of health. He was a life member of Mount Sinai Lodge, No. 522, and a charter member of Palestine Lodge, A. F. & A. M., of Toronto. His favorite sermons were on the brotherhood of man, and his slogan, "Have we not one father and has not one God created us all?" The late rabbi leaves a wife, Edith Cohen Jacobs, one son, Arthur, and two daughters, Ray and Lisa. Owing to the alterations in the auditorium of the Bond Street Synagogue the funeral services will be held in the vestry rooms, on Monday next, at 2:30 p.m. Interment will take place at Pape avenue cemetery.

## WILL TAKE PHOTOGRAPHS.

Among the many Canadians going to Europe for the Olympic games is a party consisting of P. J. Mulqueen, Edward Robertson, and Frederick Lyonde, the well-known photographer. This party will visit England, France and Germany and will make a general tour of the war area. While there and at the games Mr. Lyonde will make a series of photographs for The Toronto Daily and Sunday World. Mr. Lyonde's eminence as an artist will ensure World readers many fine views from the interesting points at which the party will touch.

## RABBI JACOBS DIES; HAD NOTED CAREER

### Eighteen Years' Religious Work in Toronto—Activities Elsewhere.

Rabbi Solomon Jacobs, of the Holy Blossom Synagogue, Bond street, died at his residence, 75 Grenville street, at four o'clock yesterday afternoon, after a lengthy illness. He recently visited New York, where he consulted specialists but only obtained temporary relief. Rabbi Jacobs, who was of the orthodox English Jew school, was a broadminded, cultured man, with a magnetic personal charm, and was highly esteemed by a wide circle of friends, a large number of whom were outsiders to his own religious faith. He was a well-known figure in Toronto, and for more than eighteen years he occupied a leading part in Jewish work both religious and philanthropic character. The late Rabbi came to Toronto from Kingston, Jamaica, where he lived from 1880 in charge of the United Congregation of Israelites, being repeatedly re-elected by the members. He was present at the opening of the J. M. G. Exhibition in 1890 by the present King, who then Prince George of Wales. When then Prince George of Wales was in Toronto last summer Rabbi Jacobs presented an address to the Prince of Wales on behalf of the Jewish community here. During his stay in Jamaica, Rabbi Jacobs was not only zealous in the work connected with his synagogue but took an active part in various branches of public affairs. He was a member of the Cambridge local examination board, director of the Kingston city dispensary which affords medical attention to the poorer classes of the community, and president of the Hebrew Benevolent Society. He was also on the advisory board which had the management of the Jewish almshouses, and frequently the Rabbi's proud boast that his duties in the latter respect were his greatest. The fact that the almshouses were so frequently tenanted, there being so few poor Jews in the city.

Rabbi Jacobs was born in England in 1861 and was thus 59 years of age at the time of his death. He was educated for the Jewish ministry at Aria College and had the distinction of being the first minister trained at that institution, which has since turned out so many other distinguished rabbis occupying high positions in the church. For a short time Rabbi Jacobs was a master in the Manchester Jews' School, and at an early age he was unanimously elected minister of the Newcastle-on-Tyne congregation, which he left in order to take up the more responsible position still in Jamaica.

## AT THE REGENT NEXT WEEK.

"Sinners" featuring Alice Brady, at men play at the Regent Theatre. Winter Garden next week, has just the right combination and proportion of laughter and tears; a story that thrills you and makes you feel that life is sweet—and home sweeter. Alice Brady does the best work of her career in interpreting the difficult role of Mary Horton, the little country medic whose wings were all but singed in the city's flame. "Some Baby," a unique musical comedy played with a real plot, headlines the vaudeville, which also includes: Morgan & Grey, "Every Day in the Year"; Mack & Maybelle, in "Fifty-Fifty"; Billy De Vere, monologue; Conroy & Connell, "The Parcel Postmen"; and Dolly & Calame, presenting dance specialties.

### "A Prince There Was."

When the curtain rises on "A Prince There Was" next Monday evening at the Royal Alexandra Theatre, Edward H. Robins will again introduce to the many eyes of the Robins Players the cleverest child actress in America, Lorna Volare, who when she was a guest artist with the company a few weeks ago in "Daddies" won the affections of all who had the pleasure of laughing at this comedy for the two weeks it was presented. In "A Prince There Was" Lorna will be seen in the role of the "Fairy Godmother," who awakens in the breast of a disheartened miller all the ambition that was his before his great loss overcome. "A Prince There Was" is George Cohan's stage adaptation of that beautiful modern fairy tale, "Enchanted Hearts," and as usual in all Cohan plays, it is comedy, real comedy, written with the laugh not so much in the situations as in the lines that are given to the different characters, and there are many characters, some of them new to the stage, but none the less they are funny. When "A Prince There Was" enjoyed its long run in New York at the Grand Theatre, Lorna Volare appeared in the original lines. "Some Show" Captain Plunkett is preparing a new revue for "The Dumbbells" road tour, and it was planned to open it here Aug. 16, but the many requests for the original show intact have made him decide to present the original show for the opening to be followed by the new revue. Altho "The Dumbbells" played here five weeks last fall, immediately on their return to Canada from France and England, there were many thousands of local theatregoers who were unable to secure tickets, as the house was sold out two weeks in advance for all performances.

## "KEEP HER SMILING."

That there will be no let-up to the high class of attractions offered by Edward H. Robins for the last week of his present season at the Royal Alexandra Theatre is evidenced from the fact that for the week commencing Monday evening, Aug. 16, he will offer for the first time by any resident company, Richard Walton Tully's latest, and certainly most successful, comedy, "Keep Her Smiling." This is the comedy last starred in by Sydney Drew. The matinees will be Wednesday and Saturday.

## AT LOEW'S NEXT WEEK.

"Sinners" featuring Alice Brady, at men play at the Regent Theatre. Winter Garden next week, has just the right combination and proportion of laughter and tears; a story that thrills you and makes you feel that life is sweet—and home sweeter. Alice Brady does the best work of her career in interpreting the difficult role of Mary Horton, the little country medic whose wings were all but singed in the city's flame. "Some Baby," a unique musical comedy played with a real plot, headlines the vaudeville, which also includes: Morgan & Grey, "Every Day in the Year"; Mack & Maybelle, in "Fifty-Fifty"; Billy De Vere, monologue; Conroy & Connell, "The Parcel Postmen"; and Dolly & Calame, presenting dance specialties.

## AT THE REGENT NEXT WEEK.

A story that will surely appeal to everybody is "The Cheater" the feature production at the Regent Theatre next week. Charming May Allison is the star, and she is charming indeed. The story is a very human document. It exposes many things. Those who believe that all who advocate it can cure certain or imaginary ills will be highly interested in the methods adopted by this trio of operators who are seen in the picture. The cynics, of course, will applaud in gloe, believing that their views have been sustained. But everyone will be surprised at the manner in which a cure is actually brought about. And while it cures in one sense, it cures also in another, but the mystery surrounding the entire procedure is highly entertaining. Couple this picture with the Famous Regent Orchestra music and that is all that could be asked for.

## POWERS FOR MOUNT PLEASANT LINE

### Transportation Commission Will Assume Office Next Week—Have Wide Scope.

The new transportation commission, headed by Messrs. P. W. Ellis, George Wright and F. Miller, will be sworn in by Mayor Church next Thursday morning at 10 o'clock, and they will then get down to business on Toronto's transportation problems. Mr. Miller is out of the city, but Mayor Church had a meeting yesterday with Messrs. Ellis and Wright, upon the matter of their work was discussed and all documents in connection with street railway affairs were handed over. For the present the commission will use the Hydro office at George street, and it is understood that appointments will be made as the commissioners have thoroughly digested the situation. The question of the appointment of a chairman will not be taken up until Mr. Miller returns to the city.

Mr. Ellis is already chairman of the Hydro Commission and therefore the chairmanship of the new commission is likely to go to Mr. Wright. It is understood Mr. Miller will be asked to accept the position.

Mayor Church informed the World yesterday that while he was personally in favor of the building of the Mount Pleasant car line without Rate Pay, was a matter entirely for the new commission to deal with. They had full powers to proceed with the work at once if they decided that the project was warranted. The question of the purchase of two or three hundred street cars to better equip the Toronto lines as soon as they are taken over by the city next year will be among the first matters receiving consideration. It has been decided, said Mayor Church, that the car lines will not be handed over to the commission before the Toronto system is handed over in September, 1921.

### Powers of Commission.

Regarding the act states that they may consider all matters pertaining to transportation in the city, constructing new lines and provide such plant and equipment as may be necessary, and also:

(a) To construct, control, maintain, operate and manage new lines of street railway in addition to or in extension of existing lines.

(b) To fix such tolls and fares, so that the revenue of the commission shall be sufficient to make all transportation facilities under its control and management self-sustaining, including such maintenance, renewals, depreciation and debt charges, as it shall think proper.

(c) To make requisitions upon the council for all sums of money necessary to carry out its powers and duties, but nothing herein contained shall divest the council of its authority with reference to providing the money required for such work.

## TORONTO DELEGATES FOR TEMPLARS MEETING

The Sovereign Great Priory of Canada, Knights Templar, will hold its annual assembly in Calgary on the 11th, 12th and 13th inst. Glendinning, Dr. Foster and Col. J. Thompson.

### Dining Car on 7:00 p.m. Train for Sudbury and Sault Ste. Marie.

Canadian Pacific train No. 27 from Toronto, 7:00 p.m. daily for Sudbury and Sault Ste. Marie, carries dining car serving evening meal immediately after leaving Toronto.

### ACTION FOR ALIMONY.

Action has been entered at Osgoode Hall by Mrs. E. Townsend of Toronto against R. C. Townsend of Hamilton, in which alimony is asked at the rate of \$25 a week.

### PROMISCUOUS THEFTS.

Sentence of one year in jail was passed on William Osborne in yesterday's police court for the theft of sundry articles, including razors, diamond, the pink, gold medals, etc. Accused is still young and has a record in the juvenile court.

### JUDGMENT BY DEFAULT.

Judgment by default has been signed at Osgoode Hall in the foreclosure proceedings by Robert Duck against W. S. Dinick and Alice Louise Dinick for \$3462.58, due under a mortgage on property on the east side of Yonge street.

### BEQUEST TO CHURCH UPHOLD.

Justice Sutherland yesterday held that the United Presbyterian Church is entitled to \$400, which accreted to the estate of the deceased, Jane Sprout of Action, who died in 1918, leaving her entire estate to the church. The \$400 came into deceased's estate four years after her death, under the provisions of a mortgage made by her husband.

## FREQUENT HEADACHES

### A Sure Sign That the Blood is Watery and Impure

People with thin blood are much more subject to headaches than full-blooded persons and the form of anaemia that afflicts growing girls is almost always accompanied by headaches, together with disturbance of the digestive organs.

Whenever you have constant or recurring headaches and pallor of the face, they show that the blood is thin and your efforts should be directed toward building up your blood. A fair treatment with Dr. Williams' Pink Pills will do this effectively, and the rich red blood made by these pills will remove the headache.

More disturbances of the health are caused by their blood than most people have any idea of. When your blood is impoverished, the nerves suffer from lack of nourishment, and you may be troubled with indigestion, neuritis, neuralgia or sciatica. Muscles subject to strain are undernourished and you may have muscular rheumatism or lumbago. If your blood is thin and you begin to show symptoms of any of these disorders, try building up the blood with Dr. Williams' Pink Pills, and as the blood is restored to its normal condition every symptom of the trouble will disappear. There are more people who owe their present state of good health to Dr. Williams' Pink Pills than to any other medicine, and most of them do not hesitate to say so.

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from the Dr. Williams Medicine Co., Brockville, Ont.

## CITY HALL NOTES

Mayor Church leaves this morning for Brockville for the week-end and will not return until Monday.

Members of the city have accepted the invitation of Sir Adam Beck to go to London next week and enjoy a run over the London & Port Stanley Railway. They will be taken from Toronto to London by private car and will be accompanied by Sir Adam.

Five new one-man cars ordered by the works commissioner for the civic lines were taken to the Danforth car barns yesterday and will be placed in service at once. There are twenty cars still to come, and these will be distributed among the other civic lines.

A tender was awarded for a high pressure boiler for the laundry at the Isolation Hospital to the John Inglis Company. There was a tender of \$13 under the Inglis firm, but on motion of Ald. Risk and Maxwell the contract was given to the Toronto firm.

The Isolation Hospital is filled to capacity. There are a large number of cases of typhoid fever and diphtheria in the city.

Deaths from tuberculosis in the city in the month of July totaled eighteen and there were six more persons from this city who died in outside sanitariums, a total of 24, according to a report made by Dr. Hastings, M.H.O., to the board of health yesterday.

During July the number of deaths registered by the medical officer of health was 460, exclusive of still births, or a rate of 10.5 per thousand population. The deaths from all causes were as follows:

July, 1920	Deaths	1000
July, 1919	480	10.5
July, 1918	449	9.8

## QUARTER MILLION BATHING PAVILION

### Many New Building Permits Were Issued by the City Architect Yesterday.

An application was made at the city hall yesterday for a permit to erect a bathing pavilion at the foot of Keele street, at Sunnyside, to cost over a quarter of a million dollars. There were four other applications for permits for the erection of additions to schools totalling over a quarter of a million. Other applications brought the total for the day up to about \$800,000.

The bathing pavilion will be about 400 feet long and 100 feet deep. It will be of reinforced concrete construction.

The additions to the four schools total \$255,000, as follows:

- Rumsey, \$39,000; John Fisher, Erskine avenue, \$52,000; Balm Beach, Pine avenue, \$46,000; Gledhill Avenue, \$88,000.

The city architect issued the following permits yesterday:

- Padfield Bros., one pair residences, 84-85 Lansmore Crescent, \$8,000.
- Leicester Bros., detached dwelling, 14 Kingsmount Park road, \$4,000.
- N. G. Conemander, pair detached dwellings, 51-53 Morton road, \$6,000.
- P. Stephenson, detached dwelling, east side Brownlow avenue, near Soudan avenue, \$3,000.
- F. Poppleton, dwelling, north side of Harris avenue, near Westlake avenue, \$3,800.
- Phil Sarcino, dwelling, 519 Parliament street, \$4,000.
- Jean Dancer, yarn shop, store alterations, 235 Yonge street, \$3,500.
- Cafeteria on roof.
- Swift Canadian Co., Ltd., cafeteria on roof of cooler, St. Clair avenue, near Keele street, \$8,000.
- Doan & Charles, public garage, 383 Soudan avenue, near Dundas street, \$15,000.
- Thornton & Garrett, pair dwellings, north side Deel avenue, near Hastings avenue, \$3,500.

The Plummer Machine Company has leased the ground floor, containing about 5,000 feet, of the building at 80 Chestnut street. The concern is a subsidiary of the Oak Tire Company, of Oakville.

One real estate broker informed The World yesterday that his firm had sold three \$5,000 houses and one \$30,000 house this week, and that in his opinion the demand would continue as brisk as ever. There are practically no houses being offered for rent.

## THINKS TENNESSEE MAY GIVE SUFFRAGE

### Last of the States to Ratify Amendment Allowing Women the Franchise.

"I believe that the Tennessee legislature will ratify the suffrage amendment, and that the women all over the United States will have the privilege of voting in the presidential elections in November," said Hooper Bennet, of Memphis, Tenn., at the King Edward last night. "In order that the amendment to the constitution may become effective, it must be ratified by three-fourths, that is, by thirty-six of the states. Thirty-five have already ratified it, and I believe that Tennessee will follow suit next week."

Altho a good deal of pressure is being brought to bear on the Tennessee legislators from outside the state by woman suffrage and political associations, there is, nevertheless, according to Mr. Bennet, a strong sentiment among great many Tennessee women in favor of having the vote. An active campaign both for and against the measure is being carried on thru the state, and those who are opposed to the amendment are taking the ground that the legislators will be violating their oath of office if they submit and decide on a measure of this kind at the same session of the legislature, a procedure which they claim is contrary to the state constitution.

## NO ATTEMPT TO DICTATE.

The report that the members of the Plumbers' and Steamfitters' Union had been requested to work only for employers endorsed by the Masters' Association was characterized as incorrect yesterday by Business Agent W. J. Storey. No attempt had, he declared, been made to dictate the names of the plumbers might seek employment.

## MAYOR ANGRY WITH EDUCATION BOARD

### Charges Lack of Business Methods Responsible for No New School Building.

The reply of the board of education to the suggestion that the department's building program for next year should be laid before the board of control this fall, which is a straight refusal, has drawn another broadside from Mayor Church. The statement reads, in part:

"A lack of business ability and business methods on the part of the board of education is responsible for no building having been done this year so far, a new school. The city council asked the school board for their building program for 1920 in September, 1919, but they declined to give it, standing on technicalities. We did not get the program until the middle of June of this year.

"In addition, the board have done nothing to prosecute those guilty of fraud, as set out in the reports of Judge Lennox and Judge Winchester. They squandered all last year and did no building, altho they had the money and wasted \$100,000 on useless architect's fees, with no building. In the face of the high cost of land, money, labor and material, they now decline to give the building program for 1921, because of technicalities, but in reality the reason is they are afraid to trust the people to a vote on their program next Jan. 1.

### Useless Waste of Money.

"There is a useless waste of public money, and the same old methods are being pursued as in the past. The trustees are afraid to trust the people. If they gave us the building program for 1921 by next November now, we could submit it to the people next Jan. 1. I am going to vote against any more capital grants without the consent of the ratepayers.

"The people should have a chance of expressing their opinion on the lack of business methods in the purchase of sites and buildings, and the hazardous delays in bringing down their building program each fall for the ensuing year. It can be done as a matter of policy if not of law. If our legal department do not act at once, or are not competent to do so, outside counsel will be asked to go ahead at the coming general sessions and advise."

### Plans for Big Liberal Picnic

### Mackenzie King to Make First Public Appearance in Toronto Since Leadership.

The arrangements for the monster Liberal picnic and reception to the Hon. William Lyon Mackenzie King on Saturday, August 14, were put in definite shape at a meeting of the general reception committee held yesterday at the Reform Association offices. It will be a grand basket picnic. A number of soldiers from the Christie street and other hospitals will be guests of the ladies who are taking part in the picnic. A program of sports will be run off at 2 p.m. and the addresses will begin about 3.30 o'clock. The speakers in order will be H. Hartley Dewar, K.C., M.P., the Ontario Liberal leader, the Hon. Dr. Henriel and M.P., and the Hon. Mackenzie King, whose address will be the feature of the day. As this will be Mr. King's first public appearance in Toronto since his election to the party leadership, special interest attaches to the speech he will deliver.

The stadium at Hagan's Point will be faced by the platform so that in the event of rain the audience will be under cover. The transportation of the crowd to the island will be by special ferry service, and as the proceedings will be over by six o'clock the return to the city is at a convenient hour for everybody. Sir Alan Aylesworth will act as chairman of the meeting. Committees have been appointed to look after all the details connected with the event, and these committees Dr. Cascard is general chairman and Frank W. Denton secretary.

## CHURCH FOR STRANGER

### Sold to Men of England Congregation Jewish Church for Seventy Thousand.

The Western Congregational Church (The Church for the Stranger) has accepted the offer of purchase made by the Men of England congregation Jewish Church of \$70,000 for their property on Spadina avenue. Possession will not be given for some months.

Plans for the future for "The Church for the Stranger" are under way and an organization adequately equipped in every way to carry on a downtown program may be expected in the very near future. Under the leadership of Bertram Nelles (minister) the church is meeting with considerable success. On this account the church anticipates operating on an extended plan of downtown work, in quarters to be later selected, rather than build a new church in a residential district.

### SUMMER SCHOOL CLOSES.

Summer School at the university closed yesterday. Prof. J. Home Cameron, head of the French department, pronounced it the most successful yet held. Classes at the University School also closed yesterday. About 700 were in attendance.

## ASK REFERENDUM FOR OCTOBER 25

### Delegation Leaves Toronto to Interview Cabinet at Ottawa This Morning.

A deputation organized by the board of control of the Ontario Referendum Committee left Toronto last night for Ottawa, where they will meet Premier Meighen and other members of the cabinet today and make an effort to induce that body to fix October 25 of this year as the date upon which the referendum on the question of importing liquor into Ontario will be taken in this province.

Rev. Dr. A. S. Grant, secretary of the Ontario Referendum Committee, stated last night that altho October 25 was never officially announced as the date on which the referendum was to be taken, nevertheless he was assured in private correspondence with the Ottawa authorities that the vote would be taken on that date. The committee will protest against deferring the referendum to the date officially announced, namely, April 13, 1921.

### Personnel of Delegation.

The following is the personnel of the delegation as announced by Dr. Grant:

John Macdonald, Father Minehan, Brigadier Morris, Rev. T. Albert Moore, D.D., D. A. Dunlop, A. O. Hogg, Rev. Gilbert Agar, Jas. R. J. Jas. Hales, Rev. R. B. Nelles, M. Brown, Rev. John Nell, D.D., Theron Gibson, Rev. W. M. Rochester, D.D., Rev. J. G. Shearer, D.D., Mark Ezebin, J. A. Machado (Ottawa), Rev. D. N. McLaughlin, ex-Mayor C. Hopewell (Ottawa), Dr. Grant, Mrs. W. T. G. Brown (Kingston), Mrs. Asa Gordon (Ottawa), Mrs. Stevens, Mrs. Pugsley, Geo. H. Lees, A. H. Lyle (Hamilton).

### PRISON FOR SECOND BREACH OF O. T. A.

On a second charge under the O.T.A. Solomon Burdell was, in yesterday's police court, sentenced to six months in jail. On a charge of keeping a house of ill repute accused and his wife were fined \$30 and costs or thirty days, while sixteen people of different nationalities found in the premises were fined \$5 and costs each.

### FELL THRU WINDOW.

Thomas Tilley, 273 Withrow avenue, a draughtsman, fell thru a window at 191 West Adelaide street yesterday, and his right arm was badly lacerated. He was taken to the General Hospital in the police ambulance.

### CIRCUS MEN DISORDERLY.

A fine of \$1 and costs was imposed on each of four circus men, Harry Williams, George Thomas, Charles Plummer

### LICENSE BOARD HEAD SATISFIED WITH RESULTS

J. D. Flavell, chairman of the Ontario license commissioners, stated yesterday that the liquor handling on the Essex border was being considerably checked. There were now ten inspectors in the county, and a number of special officers had been sworn in with more to follow. "We are satisfied with the results at any rate," Mr. Flavell added.

### ROBBED HIS SHOEMAKER.

Sentence of forty days in jail was imposed in yesterday's police court on Clifford Hines for illegally taking possession of his boots, which he had left to be repaired at a local store, and also robbing the repair man's till of 75 cents.

### ROBBED HIS SHOEMAKER.

# How Soviet Russia Is Compelling Recognition

In all the fighting that has been going on in Eastern Europe and in the negotiations involving Moscow and Warsaw and Paris and London there is but one certainty, observes The New York Globe, that is, that the situation is approaching what we may call a "show down." "Shaking hands with murder" is Lord Northcliffe's phrase, but as The New York Sun is forced to agree the murderer is now in a position to say whether we shall shake hands with him or whether weary Western Europe must take arms against him. Strange as it may seem, says The Sun, "the international vagabond of 1919 has gained the amazing position of being in control of European stability, and perhaps of World stability in the year, 1920."

The Russian situation is the biggest problem that America and the rest of the world has to face today, and in the leading article in THE LITERARY DIGEST for August 7th, the most recent phases of this perplexing complication is dealt with comprehensively.

## NIAGARA'S HYDRO SYSTEM PROSPERS

Report for Year Ending Last December Discloses Grati-fying State of Affairs.

A gratifying report has just been issued by the provincial Hydro-Electric Commission of the business of the Niagara system for the year ending Dec. 31 last. During the last ten years, the clientele has grown from 12 municipalities to 115, with a distribution of 225,000 horsepower, and serves also 13 rural systems, 23 companies and five government industries.

The report gives the total assets at the Falls and in the municipalities as \$10,659,970. The accumulated reserves are \$7,644,370, and the surplus is \$2,177,894, as the result of an average operating period of five years. No tax levy has ever been necessary to support or carry temporarily any Hydro enterprise, the rates fixed by the commission for a number of municipalities have proven slightly under the cost of power. Twenty-six municipalities, operating for an average period of three and a half years, report a total operating shortage of only \$39,078. Such deficiencies are carried as deferred expense against future revenue, which will be produced in these municipalities by increased rates, if necessary.

The report continues: "Obviously, the Niagara Hydro System is self-sustaining and more, as the sums in reserve clearly demonstrate. It is always maintained at the highest point of efficiency, and at the same time is accumulating a fund which in less than 25 years, will be sufficient to replace the whole central and local plant, serving the district between the Niagara frontier and the St. Clair River."

**Benefit to Municipalities.**  
The report shows that 57 municipalities served by private enterprises before joining the Hydro group were paying these concerns an average rate per kilowatt hour of 9.3c, there being in 37 of these an average additional charge of 2.2c a month for meter rental. In the period under review, these would have paid, at the rates mentioned, \$35,758,596 for electrical energy. They actually did pay for Hydro service \$11,022,972, a direct money-saving of \$24,735,623.

Reductions in the Hydro's own rates since the system was inaugurated have saved the Niagara group of municipalities \$5,046,682.

The report also deals with Hydro power supplied to Dec. 31, as compared with power generated by steam coal, quoted at \$14.75 per ton in Toronto today, but averaging about \$8 for the period under consideration. The electric energy supplied by Hydro has been equal to 18,000,000 tons of coal, worth \$108,000,000, or more than twice the entire capital expenditure for the co-operative plant at Niagara, the 1400 miles of transmission lines, and all the local distribution plants.

**Province "A Friendly Bank"**  
Commenting upon the Hydro System as "an institution of rock-ribbed financial solidity and stability," and referring to the provincial government as "advancing money merely in the capacity of a friendly bank," the report goes on to show the fixed assets of the Niagara system as follows:

Lands and buildings	\$ 1,709,288.61
Sub-station equipment	2,726,174.83
Distributing system—	
Overhead	6,131,871.17
Underground	1,082,037.59
Line transformers	1,707,835.83
Meters	2,144,083.24
Street lighting equipment—	
Ordinary	1,064,390.03
Ornamental	467,220.51
Miscellaneous construction	2,318,083.73
Steam and hydraulic plant	97,903.59
Old plant	539,846.21
Provincial commissions	14,098,318.19
plant to serve municipalities	
There are also current assets of \$6,604,916.68, making the total of \$40,692,070. The liability to the province is \$14,008,318.19.	

**START CAMPAIGN FOR WILLARD HALL FUNDS**  
A mass meeting of the Women's Christian Temperance Union has been called to meet in Willard Hall on Tuesday afternoon, Aug. 16, at three o'clock, to discuss the campaign for Willard Hall extension. Members of every union in the Toronto district are expected to be present. The drive for subscriptions to this building fund begins on Aug. 15, and the ladies wish to leave no stone unturned. The captains of the teams have been chosen, and the membership will be divided into companies to canvass the city thoroly.

**SEEK FACTORY SITES**  
In the past week there have been more inquiries from American manufacturers for Toronto factory sites than at any time within the previous two months, stated a realty broker yesterday. Among the inquirers was an immense corporation, which has 40 branches in the United States. Today its representatives are negotiating with Hamilton.

**RIFLE ASSOCIATION MEET.**  
The Ontario Rifle Association will hold the annual shooting matches at Long Branch range commencing on Monday next and continuing until Friday. There will be matches at 200, 300, 500 and 600 yards, and an extra series. Over 500 trophies have been received, and \$7,000 will be given in prizes.

**AN ATTEMPT TO WRECK C.P.R. TRAIN IN ALBERTA**  
Fernie, B.C., Aug. 6.—An attempt to wreck a Canadian Pacific Railway train near Sentinel, Alta., a short distance from the scene of last Monday's hold-up of passenger train No. 65, was frustrated Wednesday night, when the engineer of a freight car, who had obstruction placed across the tracks in time to stop the train. It is thought here that it was intended for east-bound passenger train No. 65.

No trace of the bandits who robbed train No. 63 last Monday has been found. Posses of mounted police have penetrated into the Flathead wilds, where they will be out of communication for a week.

## EXHIBITION PLANS GETTING IN SHAPE

Visit of Inspection Reveals Excellent Progress—Putting Finishing Touches.

A trip in the interests of various details of organization was made to the Exhibition grounds yesterday by President H. J. Fleming, General Manager John G. Kent, and the chairman and vice-chairmen of the various committees. During the afternoon Mr. Kent allotted various duties connected with the successful conduct of the big fair.

All officials in the party expressed complete satisfaction at the progress which is being made in the preparation of the grounds and buildings. It was common opinion that preliminary arrangements were well ahead of schedule, and that the Exhibition would be in absolute readiness for the opening hour. The exhibition management is ensuring this feature by the early assignment of painters and electricians to the necessary work of retouching faded interiors and providing the brilliant lighting displays which are an annual feature. Numerous private exhibitors are also busily engaged in arranging their allotments.

The motor show this year will differ from former exhibits in the fact that the whole of the transportation building will be available for the display of passenger cars only. The Exhibition management has secured the use of two temporary buildings which were erected by the military authorities for purposes of demobilization, and will utilize them to house the motor truck and accessory displays. These buildings, which contain some ten thousand feet of floor space each, lie directly to the northwest of the transportation building, and will each accommodate in the neighborhood of 50 exhibits.

A reply has not yet been received from Henry Ford in regard to his invitation to speak on automobile day at the directors' luncheon. Whether or not the "flier" magnate appears, however, the fair is assured of the attendance of men prominent in the motor industry.

## "WAR" PLEA FUTILE IN REVISION COURT

Decision is Again Reserved in Assessment Appeals of Davies Company.

The court of revision yesterday once more had a session with the William Davies assessment appeals, and once more reserved decision owing to the fact that there are several other similar cases coming up which will be considered at the same time.

The company asks that its business tax of 60 per cent, be reduced to its previous assessment of 25 per cent. The increased assessment is due to a decision of the appellate court, which places the retail stores of a manufacturing business as all part of the manufacturing business.

The Western Warehouse Company were unsuccessful in securing a reduction on their assessment of their buildings on Dufferin street. The plea was entered that they were "war" buildings, and had to be torn down two years after the signing of peace, which allowed them one more year of use. Buildings were purchased for \$11,000, while the assessors valued them at \$55,000. Evidence was produced by the city, however, showing that the company was receiving 30 cents a square foot rental for space, which amounted to \$19,848 a year, and no reduction was allowed.

**Cut for Lumber Company.**  
The Laidlaw Lumber Company succeeded yesterday in having the court of revision reduce the assessment on their land on Dundas street by one thousand an acre. The assessors had entered the land at \$15,000 an acre. The total assessment on 9 acres and buildings is \$248,050. A reduction of \$5 a foot was allowed on some of the property of the Canada Foundry Company on Royce avenue and Wallace street.

Martin J. Quinn, manager of the National Equipment Co., was not allowed any reduction on his income, which was assessed at \$5,000, as he failed to comply with an order of the court to produce a paper showing that his income was less than that amount.

The Canadian General Electric Company, with which is connected the Canada Foundry Company, were unsuccessful in securing a reduction on their assessment of \$15,000 an acre on property at King and Simcoe streets. Last year's assessment was \$10,000. A reduction of \$5 a foot was allowed on five small parcels in the same vicinity. The court also confirmed the assessment on 153 lots belonging to the Canadian General Electric Co. in the Dufferin street and St. Clarens avenue district. The lots are assessed at from \$23 to \$40 a foot, the majority being at \$30 a foot.

**METHODIST MINISTERS' SALARIES INCREASED**

Encouraging reports of Methodist ministers' salaries being raised all over the country are being received by Rev. Denzil G. Ridout, secretary of the Dominion ministerial support committee.

The church boards are meeting, and all the increases asked are being granted," stated Mr. Ridout. "The encouraging part is that not one board has so far refused the request of the committee on behalf of the minister. We are asking \$1500 for country ministers, \$1800 for those in towns, and \$2000 for those stationed in cities."

In support of the report, government statistics are being submitted to the effect that \$1,045.29 is required per year for living alone. The average stipend in one conference was \$1138, leaving \$42.80 for the other necessities of life.

**TO DEDICATE NEW CHURCH.**

Kingston, Ont., Aug. 6.—(Special).—The new Methodist Church at Harrowsmith will be dedicated on Sunday. Rev. Robert Smith, president of the Montreal conference, will preach the dedication sermon.

**RADIAL COMMISSION**

Sittings Are Expected to Resume This Month—Not Waiting For All Reports.

August 23 is the probable date for the next sitting of the Sutherland commission, investigating the Hydro radial question.

The Hydro Commission and the Hydro Radial Municipal Association representatives are now busily at work on the preparation of the bulky reports asked for by Mr. L. P. Hellmuth, the investigating counsel. It is likely that much of this material will be ready within two weeks.

The Royal commission will not wait for all the reports and estimates to be prepared before getting down to work. It is the present intention to take the reports as they come along.

## PILES

Do not suffer another day with Itching, Bleeding, or Protruding Piles. No surgical operation required. Dr. Chase's Ointment will relieve you at once and afford lasting benefit. See a box, all dealers or Edmondson, Bates & Co. Limited, Toronto. Sample box free if you mention this paper, and enclose 2c. stamp to pay postage.

digest them and take them up at the sessions of the commission, day by day, so that no time will be lost.

Mr. Justice Sutherland, chairman of the commission, is still in the city, attending to details of the work.

**WILLS AND BEQUESTS.**

The deceased Mrs. Alice McLeay, widow, London, England, left an estate valued at \$233,317, of which \$6100 is in Ontario. Deceased made bequests amounting to \$2,436, divided in varying amounts, between 56 beneficiaries.

Six daughters, four grandchildren and a friend are beneficiaries under the will of the deceased Mrs. Sarah Tomlinson, a widow, who left an estate valued at \$303,093.

Mrs. Sophia Elizabeth O'Reilly receives a life interest in the \$56,812 estate left by her deceased husband, Dr. Charles O'Reilly of Toronto. On the death of the widow, deceased's son, Dr. Hugh O'Reilly inherits.

Mrs. Mary Elizabeth Woodley receives a life interest in the estate of her deceased husband, Dr. Charles Woodley, a contractor, who left an estate valued at \$13,266. Five children inherit on the death of the widow.

The Ontario property of the deceased Albert R. West of Walthamstow, Eng., has been valued at \$2100. He was landlord of the Suffolk Arms public house, Walthamstow, and died in Egypt as a result of wounds. His total estate is valued at \$2900.

**CLAIMS DORSAY 'NOT ORIGINATOR OF IDEA**

Chief Engineer Clark of the Toronto & Niagara Power Co. asked as to the feasibility of Prof. John W. Dorsay's scheme to bring power by cable under water from Niagara, stated he had discussed the matter with him, and "fundamentally his idea is all right. Of course, he is not the originator of the idea to transmit power by direct current this way."

To a French scientist and inventor, Mr. Clark gave the credit, saying: "One scheme has been proved, and the other not as yet. Dorsay's plan, which is a novel one, differs from Thuro's, and may be described as constant potential, while Thuro's is constant current."

Mrs. Mary Elizabeth Woodley receives a life interest in the estate of her deceased husband, Dr. Charles Woodley, a contractor, who left an estate valued at \$13,266. Five children inherit on the death of the widow.

The Ontario property of the deceased Albert R. West of Walthamstow, Eng., has been valued at \$2100. He was landlord of the Suffolk Arms public house, Walthamstow, and died in Egypt as a result of wounds. His total estate is valued at \$2900.

# HYDRO-ELECTRIC POWER COMMISSION BALANCE SHEET NIAGARA SYSTEM

## HYDRO-ELECTRIC POWER COMMISSION OF THE PROVINCE OF ONTARIO

Presents Summarized Statement of the "Hydro" Assets and Liabilities of One hundred and Fifty-Five Municipal and other Utilities Receiving Power from Niagara Falls

### INVESTMENT OF OVER FORTY MILLION DOLLARS

An Average Operating Period of Five Years Produces Aggregate Surplus of Over Two Million Dollars, and Reserves Exceeding Seven and a Half Millions—Frequent Reductions of Rates, Despite increased cost of operation—The Figures Interpreted

Ten years ago the Hydro-Electric Power Commission began to deliver power at cost to 12 municipalities within 120 miles from Niagara Falls. To-day the Niagara System is distributing 225,000 horse-power of energy to 115 Municipalities, 12 Rural Systems, 23 Companies and 6 Government Industries.

A comprehensive statement of the Hydro-Electric business of the entire Niagara System has just been completed by the Commission's Accounting Staff. This Balance Sheet of a great and successful experiment in Municipal Ownership and co-operation includes every asset, and sets forth every liability of each participant, and of all in combination. It visualizes the financial position of the System after an average operating period of five years, ending on December 31st last, and gives overwhelming proof that the "Hydro" is built upon solid and enduring foundations.

The total investment at the Falls and in all the Municipalities is \$40,093,070.00. The accumulated Reserves are \$7,564,370.83. The aggregate Surplus is \$2,177,934.37, and the balance of Liabilities \$30,950,764.80. This result has been achieved in a period of great economic uncertainty, unrest and change. The industrial paralysis caused by the declaration of war was followed by extreme activity as the munitions business developed. The end of the conflict brought new and serious difficulties. The vast expenditures of all countries, together with the scarcity of war-time, compelled a sharp upward trend in the cost of labor and materials. By the end of 1919 the inflation was such that operating and maintenance charges in all "Hydro" Municipalities had doubled, as compared with expenditures in 1914.

Yet, during this period, Hydro-Electric rates were being reduced. If in abnormal and unprecedented circumstances, and despite rate-reductions, the Niagara Hydro-Electric System can make such a remarkable showing it must be an institution of rock-ribbed financial solidity and stability.

The Balance Sheet Explained  
Each Municipality contracting with the Hydro-Electric Power Commission for the delivery of energy must assume its just share of the investment in the Niagara Transforming and Generating Plant, and in such Transmission Lines as serve that particular Municipality. That just share is determined by the yearly average horse-power of energy transmitted and the distance from the point of generation. Interest on the investment, current operating expenses, cost of energy at the Falls, and fixed charges are apportioned on the same basis.

As more Municipalities enter the co-operative union the allotments are varied from year to year so that each local system will have its proportionate investment and bear its proportionate liability. The sum of these proportionate investments appears in the first column of the Balance Sheet as an asset. The amount of money advanced from time to time by the Provincial Treasury (acting merely in the capacity of a friendly Bank) to create that Asset is shown as a liability in the fourth column.

Analysing the Totals  
The statement of Grand Totals at the bottom of the Sheet is bold and uniform, owing to the necessity of extreme abridgment. Here follows an analysis of the composition of these totals. It gives a clear understanding of the conservatism of the Accounting, as compared with that of an ordinary joint-stock corporation with an irreducible share-capital. The entire "capital stock" of the Hydro-Electric System consists of serial-debentures and bonds, which must be taken up as they mature. Not only are payments made to Sinking Fund sufficient to cover the entire investment, but a Renewals Fund is accumulating, sufficient to replace the central plant within 25 years and the local distribution plants well within a period of 20 years.

Balance Sheet Totals Analyzed  
Fixed Assets  
Lands and Buildings, \$1,709,288.61

One Municipality's Results  
The following Statement is presented to make the preceding paragraphs more clear. It is a typical "Hydro" Operating Report for the year 1919 and shows in detail what became of the money collected from "Hydro" customers in that Municipality.

Revenue:  
Obtained from consumers for Electric Service rendered during the year ending December 31, \$440,918.06  
Disposed of as follows:  
Paid to the Commission to meet the cost of power, as ascertained by Annual adjustment by the Commission, 95,922.22  
Cost of Power at Niagara Falls, 95,922.22  
Interest on the Commission's capital, proportioned to the share of Capital, 32,815.87  
Set aside to meet Contingencies and to provide a Renewal Fund for this share of Plant, 18,182.69  
A deposit to Sinking Fund to liquidate this share of Capital, 12,887.73

Actual Cost of Power to Commission, paid by Municipality, 190,834.50  
Municipal Utility's Charges to this Revenue:  
Sub-station operation, \$12,463.91  
Sub-station Maintenance, 1,042.93  
Distributing System Operation and Maintenance, 5,183.20  
Line Transformer Maintenance, 4,187.89  
Meter Maintenance, 8,894.47  
Consumers' Premises Expenses, 4,165.87  
Street Lighting System Operation and Maintenance, 8,312.31  
Promotion of Business, 6,951.65  
Billing and Collecting, 14,334.22  
General Office Salaries and Expenses, 25,527.13  
Undistributed Expenses, 17,970.13  
Interest and Debenture Payments, 54,288.08  
Provision on account of Plant Renewal, 47,815.27

Total Cost of supplying Electric Service in this Municipality for one year, \$401,969.65  
Surplus, \$38,948.41

all the local distribution plants mentioned on the Balance Sheet.

**Following the Consumer's Dollar**  
Let a consumer's Dollar be followed, from the time it goes over the counter of a Municipal Hydro-Electric office in payment of a lighting bill.

Twenty-seven cents is applied to the cost of maintaining, operating and administering the Municipal Distribution System.

Twenty-three cents meets interest, a sinking fund deposit, and a Renewal Fund instalment.

Forty-three cents is paid to the Hydro-Electric Power Commission of Ontario for power delivered at the Municipal Sub-station.

There is a remainder of seven cents. That is Municipal Surplus.

Now follow the 43 cents paid to the Commission.

Fourteen cents is used by the Commission on the Municipality's behalf, to pay interest, sinking fund and renewal charges on that portion of the Niagara plant for which the Municipality is liable.

Twenty-eight cents is applied on the operation, maintenance and administration of that same portion of the Niagara Plant.

One cent is the remainder. That is credited to the Municipality in the books of the Commission as "operating surplus."

It is probable that next year the adjustment of rates the consumer will pay 99 cents instead of 1.00 for the same service. It, owing to increased circumstances, and the power in this specific case had been 44 cents, what would have happened?

The shortage of 1 cent would have been charged to the Municipality, and probably next year the cost to the consumer for the same service would be \$1.01 instead of \$1.00.

It is understood that the Dollar just allowed was actually paid to one of the Municipalities in the Niagara System, and that the percentages were worked out (fractions omitted) from the actual operating statement of that Municipality.

The sub-division of the Dollar will vary in other cases, but this instance may be taken as an illustration of the drastic principles of accounting followed in every part of the Hydro-Electric System.

**Trend of Commodities**  
Is Very Generally Lower

Bradstreet's give the following review on business in the United States. Aside from a slightly better tone of reports from final distributors, trade reports are not greatly changed, and all trade in general is still in a definite form.

On balance reports as to transportation point to improvement as the result of past strenuous work, but the iron and steel and fuel trades are still centres of complaints. Crop reports could hardly be better, not so much because of any record yields indicated, as on account of the generally cheerful tone of almost all the reports.

Special mention needs to be made of the very general lower prices of commodity prices this week. Marked weakness is shown in the cereals, due to crop reports or movement; flour off, hog products are lower, as are butter, sugar, coffee, meat-producing animals and cotton and cotton goods.

Industrial and cotton index of wholesale goods prices is lower, and the 16 commodities of all kinds, only ten are higher, 23 lower and 37 are unchanged.

**MONTREAL PRODUCE MARKET.**  
Montreal, Aug. 6.—The market in cash grain is quiet today and there is no new report in the flour situation. Prices are very firm in the millfeed market, while rolled oats market is unchanged. The potato market shows no change, but the butter and cheese markets are without new news.

**EGG MARKET STILL HIGHER.**  
Ottawa, Aug. 6.—(Dominion Live Stock Branch)—Market firm and higher. Sales of current receipts reported, 58c to 59c. Ontario country points, with firsts 4c, 67 f.o.b. shipping points free cases. The export movement continues sales of fresh fowls reported at 56c to 58c, o.b. seaboard, and 70c f.o.b. seaboard for full shipment.

**WINNIPEG GRAIN MARKET.**  
Winnipeg, Aug. 6.—October oats closed 1/2c lower and December 1/4c lower. Barley 2 1/2c higher for October, and 3/4c up for December, and flax 3 1/2c higher for October.

**CHICAGO LIVE STOCK.**  
Chicago, Aug. 6.—Cattle receipts, 4,000. Grain heavy. Steers slow, all other beefs and butchers steady to strong; average quality only fair; choice quality steers best offer top at \$16.25; bulk good heaves, \$14.50 to \$15; heavy, \$13.50 to \$14; calves, 25 cents lower; good to choice vealers, \$15.25 to \$15.75; heavy calves, very dull; stockers dragsy, bulk \$6.50 to \$9.

**DRURY AND DOHERTY SPEAK AT MONTPELIER**  
Announce New Experimental Farm Plans—To Establish a Normal School.

## DRURY AND DOHERTY SPEAK AT MONTPELIER

### Announce New Experimental Farm Plans—To Establish a Normal School.

Montpelier, Aug. 6.—Intimation that the provincial experimental farm here is to be made over into a breeding ground for stock for the benefit of the settlers of Timiskaming, and that it was intended to put in herds of cattle, sheep, swine and poultry, "all good utility stuff" was made here today by Hon. Manning Doherty, Ontario minister of agriculture, to two thousand people of this district, assembled at the annual picnic held in the grounds of the experimental farm.

The minister further announced that in connection with the farm, there would be established a continuation agricultural school, and later a normal school, these to be under the supervision of the department of education.

**Speech of Premier.**  
Hon. E. C. Drury was the other leading speaker of the day. The premier said he came to sound a new note, that of helping people to help themselves. The keynote of his speech was co-operation between the people and the government, and he declared that without it the country would never get anywhere.

He said that the educational problem, the premier said, was the most important one that the government had to face. He said that the government would do its best to help the people, but that the people must do their part.

**Policy on Pulpwood.**  
Hon. Mr. Drury said what the country here needed was concentrated, solid settlements, and he told his audience "it was in your hands to build the settlements of the country."

Touching on pulpwood, the premier said the government's policy was to treat it as a crop to be reaped and replanted, and that it should form a permanent basis of industry.

**THE WESTERN CROP.**  
It is estimated that about 30,000 men will be required to work as farm laborers to assist in harvesting the crops in Manitoba, Saskatchewan and Alberta.

**Only Jail Terms for B.O.T.A.**  
In Eastview Police Court  
Ottawa, Aug. 6.—A warning that no more fines for infractions of the Ontario temperance act would be imposed in the Eastview police court, but instead, parties convicted of offences against the act would be sent to jail, was given by Magistrate Cummins this morning, when he fined Mr. Ell Busse, 56 Overton street, \$200 and costs for having liquor in a public place, which happened to be a dwelling house in which he resided.

**W. H. BRANDES, of Des Moines, Iowa, who declares he gained twenty pounds in thirty days after taking Tanlac and now feels like a different man.**

"Thirty days ago—or a little more, I only weighed 125 pounds, but now I balance the scales at 145 pounds, and Tanlac did it," declared W. H. Brandes, a well-known and highly respected citizen of Des Moines, Iowa. Mr. Brandes has been looking after the plumbing work in the Des Moines public schools for the past nineteen years.

## ANOTHER VICTIM OF RHEUMATISM

MR. AMEDEO GARCEAU  
82 Hickory St., Ottawa, Ont.

"I was for many years a victim of that terrible disease, Rheumatism. In 1915, I was laid up for four months with Rheumatism in the joints of the knees, hips and shoulders and was prevented from following my work, that of Electrician.

I tried many remedies and was under the care of a physician; but nothing did me any good. Then I began to take 'Fruit-a-tives' and in a week I was easier, and in six weeks I was so well I went to work again.

I look upon this fruit medicine, 'Fruit-a-tives', as simply marvellous in the cure of Rheumatism, and strongly advise everyone suffering with Rheumatism to give 'Fruit-a-tives' a trial.

**AMEDEO GARCEAU.**

## CANADA'S BUSINESS GOOD DECLARE CREDIT MEN

Winnipeg, Aug. 6.—(By Canadian Press)—The general condition of business throughout Canada seems to be very satisfactory. With good fruit crops in the east and a better than ordinary grain crop in the west, wholesale and manufacturers look for a busy fall, says the weekly trade report of the Canadian Creditmen's Trust Association.

Montreal and the east reports little change in wholesale conditions. Winnipeg and the west generally reports business well up to the average with wholesale houses.

RESERVISTS IN WINNIPEG WOULD SERVE IN NEW WAR Winnipeg, Aug. 6. - Imperial reservists of Winnipeg today were eagerly awaiting news from Europe. Scores of them, according to a local paper, went to the headquarters of the 100th Winnipeg Grenadiers and other organizations asking for news, and announcing that in the event of a war with soviet Russia they were ready to sign up again. No reserve officers who could be reached had been asked to serve again in the event of war.

WHOLESALE FRUITS AND VEGETABLES
