St. John Officers At Halifax To Speed Up Demobilization

The Olympic Expected There Tomorrow Morning

Word From Charles Robinson That Arrival in St. John Will be at 8 O'clock on Saturday Morning—Some of the Arrangements

Halifax, N. S., May 15.—It almost looks like St. John in Halifax today. The big White Star liner Olympic with the 26th and 2nd Divisional Ammunition aboard will, according to latest advice, dock tomorrow morning. Halifax is looking her best, for the Nova Scotia official contingent is to get back tomorrow also and the city has been hustling in preparation for a big welcome.

CLEMENCEAU'S ANSWER

Plea of Huns That Economic Provisions of Peace Terms Will Have Fearful Effect and Bring About Emigration of Death

Paris, May 14.—The Council of Four has declined to consider the note from Count von Brockdorff-Rantzau, chief of the German peace mission, relative to international labor legislation. In a note sent to the German delegation today, M. Clemenceau said that the Allied and associated governments "of the opinion that their decisions give satisfaction to the anxiety which the German delegate expressed for social justice, and the realization of reforms which the working classes have more than ever a right to expect after the cruel trial to which the world has been subjected during the last five years."

As Hiram Sees It

"Wait," said Mr. Hiram Hornbeam this morning, to the Times reporter who asked him just an' 'out of my eyes, an' 'd'ees, I coughed up enough to cover a hit spotter, afore I come in."

"Where were you?" queried the reporter, as Hiram wiped his eyes, an' dusted his coat "in a coal shed."

"No, sir," said Hiram, "but just outdoors in what passes for fresh air in St. John."

Colonel Frank Magee Arrived Home Today via Montreal—"All Over Now, So Let's Forget It," He Said When Questioned

LIU. COL. FRANK MAGEE

Colonel Frank Magee, St. John's veteran of the late war, reached home at noon today from Montreal. His coming was quite unannounced and his reception was confined to the hearty handshakes and expressions of thanks and pride which casual bystanders, railway men and others pressed upon him.

CITY CLEAN-UP DAYS

Next Tuesday and Wednesday will be the annual clean-up days throughout the city, and citizens are requested to have their yards cleared out and the cleanings placed in receptacles placed in the street, where the city teams can take it away to the dumps. Boxes, etc., will not be returned, but the owners can arrange to have the waste matter dumped into the city dumps.

THE OCEAN FLYERS

Halifax, N. S., May 15.—The hydro-aeroplane N. C. 4, which left Halifax this morning for Trepassy, and which was forced to descend at Musquodoboit Harbour owing to engine trouble, left again for Trepassy at 12.47 p.m., after making repairs to her oil lines.

MEN FROM ROYAL GEORGE WELCOMED

About fifty soldiers, who arrived in Halifax yesterday on the steamer Royal George from overseas, reached the city at six o'clock this morning. They were royally welcomed by a host of relatives and friends, among them R. E. Armstrong, Miss Helen Jack, Mrs. Ray Campbell and Mrs. Stewart Skinner, members of the reception committee, gave them a supply of candy, fruit and cigars. Representatives of the Knights of Columbus were also on hand and furnished the men with a hearty breakfast, after which they received their discharge.

REDUCING STRENGTH HERE

Orders have been received from Ottawa to reduce the strength of the depot battalion fifty per cent. Also all other details will be reduced to a certain extent, including the Gascon regiment, which will be considerably reduced. It is expected that in the course of a few days the depot battalion band will be completely demobilized as orders have been received to that effect.

THREE PEOPLE AT REXTON ARE SHOT

Moncton, N. B., May 15.—A telephone message to the Transcript from Rexton tells the story of the shooting of four people by a man supposed to be insane, named Robert Childs, alias Robert McIntosh. He reached Rexton last night, and this morning went to his old homestead about half mile outside the village on which he said he had a claim. It is said he set fire to the barn and shot a horse. Mrs. John Childs, his brother's wife, and her son, Harold, about sixteen years of age, started to the barn to save the cattle and horses, and shot both of them. Two neighbors, Louis Hebert and his son, noticed the fire and went over to try to save the cattle and it is declared he shot both of them. Mrs. Childs and one of the Heberts are in a critical condition. He had three revolvers and is still at large in the woods.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

HARD TO BEAT BILLS LIKE THESE

Opera House Tonight and The New Attractions For Tomorrow

Last time tonight, at the Opera House, to see Kirc Brown and Marcella Fields in their stirring dramatic playlet, have a good laugh with Metcalf and Evelyn in the two comedy acts, and see the smashing French playlet, "The Man in the Moon".

EASE OFF YOUR OLD HEART TODAY

See "The Turn in the Road" at The Imperial - It is a Spring Tonic

"The Turn in the Road" at the Imperial today and the remainder of the week, is the sort of screen drama that makes you forget you are watching a picture and that is just what so many picture fans fail to do. It is a human and tremendously human picture and it will make you cry. When a picture does that, it has the whole-hearted support of the audience. It is the only way to advertise by word of mouth. And, after all there is hardly a man who doesn't like to see a picture now and then to satisfy himself that his heart ducts haven't run dry. The picture makes a big appeal because of its simple paths and tender pathos. Although the women's support is most in evidence, it is Helen Jerome Eddy's role which makes the strongest appeal. She is the plain sister whose love is returned by Miss Eddy's sincerity and naturalness make it a real characterization to be remembered. Little Ben Alexander comes in for a generous share of praise. He is one of a thousand and Dr. Bridges, chief of the censor-board, heartily endorses it.

RAWLINSON AND MARSH IN "THE CARTER CASE"

Popular Screen Favorites Appear in Serial Production of Craig Kennedy Detective Story

Herbert Rawlinson and Margaret Marsh, two of the screen's most popular favorites, are co-starring in "The Carter Case," a Craig Kennedy story which is a picture of one of the famous stories of the scientific detective, written by Arthur B. Reeve and John W. Grey. It will be seen at the Imperial this Friday.

Mr. Rawlinson portrays the role of the great detective, while Miss Marsh is seen in the part of Anita Carter, a girl particularly suited to the peculiar talent of this beauty of the screen. Mr. Rawlinson is an ideal type for the powerful and clever detective and is the one expected by the producers of the serial that he will exactly coincide with the mind's-eye image of the famous detective held by the hundreds of thousands of readers of the Craig Kennedy stories.

The production itself is said to be along feature lines, with the most elaborate settings and most magnificent stage investiture ever given an episode picture. On account of the wide popularity of the Craig Kennedy stories and of the high excellence of the stars and their supporting cast, it is indicated that "The Carter Case" will be the object of great popularity with motion picture fans throughout the country.

MONCTON PERSONALS

(Transcript, Wednesday)

Dr. W. W. Barraclough, son of Rev. and Mrs. W. H. Barraclough will sail between the 18th and 22nd for Halifax, and will spend a month here before going to Halifax, where he will take care of the shell shock department in the military hospital.

Rev. W. H. Barraclough left on Monday for Sydney, where he embarked for St. John's. Mr. Barraclough will deliver an address at St. John's on Friday evening in the Methodist church, and will also occupy the pulpit of the same church on Sunday, and on Monday evening will deliver his lecture, "Beautiful British Columbia."

Mrs. (Dr.) MacGraith, of Fredericton, is spending some time at her former home here, the guest of her father, Patrick Gallagher.

Rev. Fr. Lockay, formerly of Riverside, Albert Co., but who has been for some time overseas on the firing line, is in the city today, the guest of the Rev. Fr. Savage. This afternoon he left for St. John.

Miss Lottie Corbett, formerly Matron of the City Hospital here, who has been spending a few days in the city with her mother, left for Boston this afternoon to resume her duties as Matron of Dr. Brook's Hospital, Corey Hill.

Major (Rev.) E. B. Hooper, of St. John, accompanied by Mrs. Hooper, of the Misses Hooper, passed through Moncton yesterday from Quebec to Amherst, where they will visit friends for a few days. A number of the Moncton friends of Major and Mrs. Hooper were at the depot to welcome them back to Canada.

WATER SERVICE MATTERS

The employees of the water and sewerage department have been endeavoring to trace a leak in the water main in Fernhill. Pits have been dug but so far there is no indication of a leak and the commissioner and his superintendent are of the opinion that the flow under the pipe is from the installation of a new eight inch water main in Mecklenburg street from Wentworth to Pitt streets, has been completed. The old four inch main was found to be badly corroded and was not furnishing the citizens with an adequate supply of water. The new service is greatly appreciated by the residents.

A \$250,000 BUILDING PROPOSED

Halifax Chronicle—At yesterday's board of control meeting a letter was read from W. D. Cranston, informing the board that an important Canadian firm doing an annual business of \$200,000,000 desires to establish a branch in the maritime provinces and are considering the advisability of locating in this city. The nature of the business was that of warehousing general merchandise. They proposed erecting a quarter of a million foot proof building in the restricted district and would employ 150 men. The board decided to ask for permissive legislation for the same.

ARTHUR HARRISON DROWNED NEAR HOME

Wm. D. Bailey Dead in Fredericton—Verdict in George Harris Case

Fredericton, May 15—Arthur Harrison lost his life by drowning at Iron Bound Cove, Queens county, on last Monday while working on some logs near his own home. His wife and three small children survive. He was twenty-eight years old.

The Victoria saw mill here, owned by Fraser Companies, limited, will have a nine-hour day. The King Lumber Company's mill at Chipman also is operating on a nine-hour day.

The coroner's jury in the inquest into the death of George Harris, killed in the C. N. R. freight yards here on May 6, brought in a verdict of fracture of the skull and also that the accident was due to negligence of some member or members of the shunting crew of the C. N. R. William D'Avray, Bailey, son of Dr. and Mrs. L. W. Bailey, died yesterday at the home of his parents here. He came here from Providence, R. I., about two weeks ago suffering from heart trouble. The parents, four brothers and two sisters survive. The brothers are Joseph W. of Boston, Loring W. of Quebec, Dr. George W. of Fredericton, J. C. and Henry D., at home. The sisters are Mrs. A. T. West of St. John and Miss Laureline Bailey of MacDonald College, St. Anne de Bellevue, Quebec.

FIVE FAMILIES BURNED OUT

Child Gives Alarm in Brussels Street Fire in Early Morning

A two and a half story house owned by Charles Bruger at 289 Brussels street was practically destroyed by fire this morning just about five o'clock. The origin of the fire is unknown, but it is presumed it started from a pan of hot ashes in the rear of the building, as that house was badly damaged. Thomas Earle, one of the tenants, saw the fire on the roof and gave the alarm. There were five families in the house, including J. Jeffries, who was the proprietor of a grocery store on the ground floor; Thomas Earle, Joseph Doucet on the second floor; Charles Conway and Mr. Chapman on the top floor. The fire department responded quickly, but despite their efforts the building was badly gutted. The tenants in the house had no insurance except Mr. Jeffries, who has a small amount on the stock in his store; the household goods were totally destroyed.

Seven-year-old Leo Conway, whose home was on the top floor, was first to give the alarm. His bedroom was in the rear of the house almost directly over the shed in which it is thought the blaze originated. The child, who was merely calling out in a dream. However, in a few moments he dashed into his mother's room with the warning that the house was afire. Mrs. Conway had barely time to wrap herself in a fur coat, pick up her little daughter and escape through the burning flames to the street, two flights below.

The unfortunate families in the house lost practically everything, including clothing.

The building itself is a wreck, having its roof burned off and all the walls impaired. It will have to be almost completely rebuilt. Charles Bruger has not insured for a small amount. The early hour of the blaze—a time when all the occupants of the house were asleep—made the life risk a serious one during a recent western fire in the great building before being seen.

The burned-out families are living temporarily with friends and relatives. They say it is difficult to rent new quarters.

An alarm from box 88 was rung at noon today for a slight fire in a garage on banks in the city by today's Montreal train.

The origin of the fire is unknown.

CAPTAIN'S WIFE AND FOUR CHILDREN ALL ARE DROWNED

Portsmouth, N. H., May 15—Six persons, including the captain's wife and four children and the engineer, were drowned when the coal-laden barge Nanticoke, owned by the Potter Transportation Company of New York, sank in the Isle of Shoals early today. Captain William Gray and Allen McDougall, a deck hand, were picked up after they had drifted in a small boat for several hours.

PERSONALS

Mr. and Mrs. F. J. Boyer of Victoria county, are expected to arrive in the city this evening from New York to greet Mrs. Boyer's brother, Major Norman P. McLeod, recently returned from overseas, before they proceed to their home.

WORK AT SYDNEY STOPPED

Sydney, N. S., May 15—Construction work on the \$50,000 plate mill was discontinued this morning on instructions from the Dominion Iron & Steel Company. Bate McMahon Company had the contract for the construction of the foundations and had about four weeks' work to complete it. It had been expected that part of the \$250,000 tons of plate which had been contracted for by the government would be turned out next fall.

THE CANTEN INQUIRY

This morning's session was taken up with addresses of counsel. Yesterday Afternoon.

At the afternoon session, Brigadier-General Mackenzie, recalled evidence submitted in evidence a report on canteen conditions at Sussex made by Colonel Deacon. The defense was the 119th year. Evidential proceedings took place in the university library and were well attended.

General Mackenzie's evidence was read in proceedings extracts were given by the winners of the Douglas Medal, Miss Frances M. VanWart, and of the Alumni Gold Medal, Frederick Patterson from their respective English and Latin essays.

Increases in Pay

Montreal, May 15—An arbitration board which considered the demands of the employees of the Montreal Tramways Company, has recommended that the fact that attendance is an hour be raised to forty-eight, and that getting thirty-one be raised to forty-one. This will mean an addition of \$600.00 to the company's operating expenses. Three thousand, five hundred men are affected.

THE BEST QUALITY AT A REASONABLE PRICE

Diamonds Quality, not price, should be your first consideration in buying Diamonds. A Diamond is not a necessity—it is bought simply because of the pleasure that may come from its use, and no pleasure can come from the use of an article that you know or suspect to be of inferior quality. We carry only the better grades of Diamonds, and the purchase of such a stone will be a source of continual satisfaction. We make a specialty of stones at the price most people want to pay—\$25 to \$100.

WINNIPEG IN THE GRIP OF A GENERAL STRIKE

Winnipeg, Man., May 15—This morning a general strike was launched here at 8 o'clock and approximately 27,000 unionists left their work. Street cars were taken to the barns; elevators in buildings stopped; postal employees went home; all deliveries of milk, bread and other foodstuffs ceased and about 3,000 clerks, bookkeepers and stenographers employed by the city struck. Especially for a special organized life-saving crew, all firemen walked out. The policemen have been ordered by the strike committee to remain on duty although, it is said, they voted solidly to strike; and some strikers have been delegated by the committee to offer their services in the interest of maintaining order.

CAPTAIN'S WIFE AND FOUR CHILDREN ALL ARE DROWNED

Portsmouth, N. H., May 15—Six persons, including the captain's wife and four children and the engineer, were drowned when the coal-laden barge Nanticoke, owned by the Potter Transportation Company of New York, sank in the Isle of Shoals early today. Captain William Gray and Allen McDougall, a deck hand, were picked up after they had drifted in a small boat for several hours.

CHANGES IN THE U. N. B. FACULTY

Fredericton, N. B., May 15—The annual meeting of the Senate of the U. N. B. took place this morning. On the agenda was the resignation of the first woman member, Miss Eliza Hunter of Fredericton. The general interest of about twenty-five per cent in salaries of members of the faculty was announced as the result of an increase in the grant made by the provincial government.

Robert B. Miller resigned as professor of forestry. He has been on leave for some time. His resignation, effective May 15, is expected also that of Prof. W. L. MacDonald, who has been on overseas service. Prof. John Stephens, who returned from overseas service, is to resume his work.

Congratulations were extended to Sir Ezekiel Macdonald on being fifty years a member of the faculty.

Under weather conditions which could not have been better, the University of Fredericton today concluded its 119th year. Evidential proceedings took place in the university library and were well attended.

General Mackenzie's evidence was read in proceedings extracts were given by the winners of the Douglas Medal, Miss Frances M. VanWart, and of the Alumni Gold Medal, Frederick Patterson from their respective English and Latin essays.

WORK AT SYDNEY STOPPED

Sydney, N. S., May 15—Construction work on the \$50,000 plate mill was discontinued this morning on instructions from the Dominion Iron & Steel Company. Bate McMahon Company had the contract for the construction of the foundations and had about four weeks' work to complete it. It had been expected that part of the \$250,000 tons of plate which had been contracted for by the government would be turned out next fall.

THE CANTEN INQUIRY

This morning's session was taken up with addresses of counsel. Yesterday Afternoon.

At the afternoon session, Brigadier-General Mackenzie, recalled evidence submitted in evidence a report on canteen conditions at Sussex made by Colonel Deacon. The defense was the 119th year. Evidential proceedings took place in the university library and were well attended.

General Mackenzie's evidence was read in proceedings extracts were given by the winners of the Douglas Medal, Miss Frances M. VanWart, and of the Alumni Gold Medal, Frederick Patterson from their respective English and Latin essays.

Increases in Pay

Montreal, May 15—An arbitration board which considered the demands of the employees of the Montreal Tramways Company, has recommended that the fact that attendance is an hour be raised to forty-eight, and that getting thirty-one be raised to forty-one. This will mean an addition of \$600.00 to the company's operating expenses. Three thousand, five hundred men are affected.

THE BEST QUALITY AT A REASONABLE PRICE

Diamonds Quality, not price, should be your first consideration in buying Diamonds. A Diamond is not a necessity—it is bought simply because of the pleasure that may come from its use, and no pleasure can come from the use of an article that you know or suspect to be of inferior quality. We carry only the better grades of Diamonds, and the purchase of such a stone will be a source of continual satisfaction. We make a specialty of stones at the price most people want to pay—\$25 to \$100.

GETTING OUT THE FLAGS

Large Union Jacks are blossoming out today all along the front of the new post-office. Down at Reed's Point the pilots have made a fine display of flags. Here and there along the streets one sees more and more flags and it is evident the city means to make a good showing on Saturday.

PINED 8000

In the police court this morning, the case of Frank McColough, charged with having liquor in his possession in Egin street, on the night of the 13th was brought up. John Main corroborated the Hearn Saunders evidence. His Honor said that under the evidence, both witnesses having contradicted the accused, he would be adjudged guilty and fined \$300 or six months in jail.

SCHOOLS RESPOND WELL UNDER THE NEW TIME

The second day's experience with daylight time in the schools has been practically normal. While a canvas of the pupils some time ago showed a rather wide divergence of opinion upon the subject the actual adoption of the day light schedules has been a success. In one large building there was only one dissenting pupil.

FOUCH TO THE RHINE TO BE READY IN CASE OF NECESSITY

Paris, May 14—(By the Associated Press)—Immediate measures tending to the further subjugation of Germany if its delegates refuse to sign the peace treaty, were indicated today by the announcement that Marshal Foch had been sent to the Rhine by the council of four to take such action as may become necessary in the event that the treaty is not signed.

INFLAMED GUMS—THE CAUSE OF TOOTH-BASE DECAY

Just as the strength of a building is dependent upon its foundations, so are healthy teeth dependent upon healthy gums. Permit the gums to become inflamed and tender and you weaken the foundation of the teeth. This condition is called Pyorrhoea (Riggs' Disease). Loosening of teeth is a direct result, and spongy, receding gums invite painful tooth-base decay. They act, too, as so many doorways for disease germs to enter the system infecting the joints or tonsils—or causing other ailments. Pyorrhoea (Riggs' Disease) attacks four out of five people who are over forty. And many under that age, also. Its first symptom is tender gums. So you should look to your gums! Use Forhan's, which positively prevents Pyorrhoea if used in time and used consistently. It also scientifically cleans the teeth—keeps them white and clean. Brush your teeth with it. If gum-frustration has already set in, start using Forhan's and consult a dentist immediately for special treatment. 30c. and 60c. tubes. All Druggists. FORHAN'S, LTD., 307 St. James St., Montreal.

PROPOSAL HAS BEEN DEFEATED

Railway Commission Not to Have Control Over Inland Water and Coastwise Navigation

Ottawa, May 15—A vote was taken in the special railway committee of the House of Commons yesterday afternoon on an amendment proposed by J. E. Armstrong of East Lambton, to give the

railway commission control over inland water and coastwise navigation. This control included the authority to decide the question of rates. The amendment was defeated by a majority of five, Canada's Needs.

A special committee appointed under the chairmanship of Major Hume Croft of London, to consider ways of providing the application of science to industry in Canada at its first sitting, heard from Dr. A. D. MacCallum, chairman of the industrial and scientific research council, something of the dominion's urgent needs and large opportunities for industrial development based on scientific research.

That Canada lags far behind the United States, Great Britain and other countries in encouraging and providing for the necessary application of scientific knowledge to modern industry; that

there is a great dearth of trained research workers in Canada—enough at present to supply only about two per cent of the industrial needs—and that a start should be made at once towards providing men and facilities for co-ordinated and well directed research was strongly urged by Dr. MacCallum. The committee was favorably impressed with the recommendations of the research council for the establishment of a national research institute at Ottawa, combining the functions of the bureau of standards at Washington and Mellon Institute at Pittsburgh and is arranging for a comprehensive hearing of representatives of universities, manufacturers, scientific associations and government departments.

The board gratefully acknowledged a check for \$1,000 from the estate of the late Samuel Myers, which is to be placed in the benevolent fund. Upon request the five members to serve on the Social Service Council were elected at yesterday's meeting. They are J. Hunter White, Rev. W. H. Sampson, Mrs. F. E. Marven, Miss Payson and Miss Grace Robertson, the latter to act on the executive.

RECENT DEATHS

Rev. Canon Hoyt  
Many friends will learn with sorrow of the death of Rev. Canon Leo A. Hoyt, who passed away, about 6 o'clock last evening at his home, Loch Lomond, after an illness of only a few days' duration. Next December he would have celebrated the golden jubilee of his ordination and completed a round half century filled with most praiseworthy work. During the last six years he had been retired and spent a quiet life at his Loch Lomond home. Besides his wife, he leaves one daughter Miss Bessie, also two brothers, William and E. H., both of Andover (N. B.).  
Rev. Canon Hoyt was a native of St. John, born about seventy-eight years ago, was educated in local schools and also at U. N. B. He was ordained to the ministry on December 17, 1870, by Bishop Medley at Fredericton. The greater part of his ministerial career was spent at points along the river and for years he was stationed at Andover. For a long time he had the distinction of being the only missionary north of Woodstock. He labored hard among the people of that section of the province and it was through his efforts that many churches were built. His was a life devoted to the church and the Anglican body stands indebted to him for its progress and development in quarters where he toiled.

Mennonites Defiant.

Winnipeg, Man., May 14—Mennonites of the old school in the vicinity of Werkeber are resisting the school authorities and withholding their children from the public school. It developed that John Friesen, bishop of the colony, had advised his people not to send their children to the public schools.

The death of Theodore Smith occurred on Monday, May 13, at the home of his father, David Smith of Greenfield. The deceased had not recovered from an attack of Spanish influenza which he contracted last fall.  
He is survived by a sorrowing father and mother, and five brothers—Russell, Denis, Murray, Wilnot and Holly. The latter has not returned from overseas service yet.

Luther Archibald died at his home in Hopewell Hill, Albert county, yesterday at the age of seventy-two. He is survived by his wife, two daughters, four brothers and two sisters. High Sheriff E. W. Linds of Albert county is a cousin.

License Benefit Societies.

Ottawa, May 14—The senate's amendment to the insurance act respecting fraternal benefit insurance was approved by the banking and commerce committee of the commons. Under the amended legislation licenses will be necessary to carry on fraternal benefit insurance, but existing societies will be deemed to be licensed.

U. S. CAPITAL IN CANADIAN INDUSTRIES

According to an estimate given in the Monetary Times there are 868 manufacturing plants in Canada which are directly connected with United States concerns. The average capital is estimated at \$264,889,592. The actual paid-up capital in the case of seventy-six of the companies was found to be \$31,895,850,

and as these companies were fairly representative of the whole list, the average for them was considered a fair basis for making the estimate.  
A similar list was compiled by the Monetary Times in January, 1914, the number of plants being then estimated at four hundred and fifty, and the total investment \$135,000,000, an average of \$300,000. A considerable number of branches included in that list, however, were mere distributing agencies; the intention has been to eliminate these entirely from the present list, and include only those involving the investment of capital in such fixed forms as manufacturing premises and machinery. Some of the concerns previously included have since 1914 passed entirely into the hands of Canadians and these have also been struck off, while they generally speaking manufacture lines in Canada similar to those manufactured in the United States by the company or companies which originally established the branches here, yet they no longer represent the in-

vestment of any great amount of American capital on this side. On the other hand there have been a large number of plants established here during recent years with American capital and the net decrease in the number of plants is therefore small. The average investment has increased substantially, not merely as a result of the elimination from this list of the distributing agencies mentioned above, but also owing to the increase of business in Canada.  
The list does not represent the investment of United States capital exclusively as the lists of shareholders of many of the Canadian concerns includes a considerable proportion of Canadians. On the other hand there are a large number of companies not included in the list, the shareholders of which include many citizens of the United States. In the case of some enterprises, for instance, which have always been distinctly Canadian a majority of the stock is now held in the United States. The total investment represented by the list given may,

therefore, be considered a conservative estimate of United States investments in Canadian manufacturing enterprises.

CUMMINS SELECTED FOR PRESIDENT OF U. S. SENATE

Washington, May 14—Senator Cummins, of Iowa, favored by the Progressive group was chosen unanimously for president pro tempore, of the senate at the organization conference today of Republican senators. Senator Lodge, of Massachusetts, was re-elected party leader.

POLES AND UKRAINIANS DECIDE TO END FIGHTING

Paris, May 13—(By The Associated Press)—The Poles and Ukrainians have reached an agreement to cease fighting, largely through the friendly offices of Americans. The Ukrainians have lost heavily in the fighting with the Poles.

Coal Points That Spell Economy in Anthracite. The money value of Coal lies in its heating power in which our American Anthracite is especially rich. The heating parts of Coal are carbon and volatile matter; the waste matter is ash, including clinkers, stone, etc. which keep it from burning, and ordinarily, increase its cost through excessive expenses in cartage for its removal from your home.

CONSUMERS' COAL CO'S AMERICAN ANTHRACITE differs from ordinary kinds of coal in the very small quantity of ash it contains, having greater heating power than you usually find in Coal, and, for this reason, is the most economical coal to use, this having been proven by experience over and over again. Now is the time to lay in your coal for next winter. Lay in OUR AMERICAN ANTHRACITE COAL, GUARANTEED TO SATISFY. ASK FOR SUMMER PRICES.

SICK HEADACHE and CONSTIPATION CURED BY MILBURN'S LAXA-LIVER PILLS

When your liver becomes sluggish and inactive, the bowels become constipated, the tongue becomes coated, the breath bad, and the stomach all out of order. Then comes those terrible sick headaches. They take out every bit of life and ambition, bring on depression, and often end in complete mental and physical prostration. To keep the liver active, and your bowels moving regularly is the only way to get rid of the constipation and the distressing sick headaches. MILBURN'S LAXA-LIVER PILLS will do this for you by stimulating the sluggish liver into manufacturing sufficient bile to act properly on the bowels, thus making them active and regular.

WITH \$250,000 CAPITAL Business of W. C. Macdonald Reg'd Now Incorporated.

Notice is appearing in the Quebec Official Gazette to the effect that letters patent under the Quebec Companies Act have been issued incorporating W. C. Macdonald Reg'd into a company. The company takes over the old established and well-known business founded many years ago by the late Sir William C. Macdonald, as manufacturers of and dealers in tobacco. The partners of W. C. Macdonald Reg'd were Messrs. T. Howard Stewart and Walter M. Stewart, who inherited the business in question from the late Sir William C. Macdonald. It is understood that the object of incorporation is the continuation of the business by the Messrs. Stewart as heretofore, and has particularly in view the perpetuation of the name of the late Sir William C. Macdonald who was so long connected therewith. The incorporation of the business in question has no financial significance whatsoever. The capital of \$250,000 is held and will be continued to be held solely by the Messrs. Stewart and members of their respective families. The business in question is one of the best known in the whole Dominion of Canada, and has always made its first efforts in the direction of quality as regards the goods manufactured. T. Howard Stewart is the president of the new company; Walter M. Stewart the vice-president and Thomas Caverville the secretary-treasurer.

MINISTERS OF GOSPEL PUT TANLAC TO TEST

Well-Known Ministers of the Gospel Come Out Openly and Fearlessly and Tell What They Know to be the Truth About the Medicine That Has Helped Them.

RARELY will a minister of the gospel endorse a proprietary medicine. The preacher's high calling, the influence he commands puts a grave responsibility on his every word.

When ministers of some of the great communions in the land endorse Tanlac their words carry conviction. They say what they know to be the truth.

The proprietors of Tanlac have received countless testimonials from people in every walk of life, earnestly commending it. Among them are a number from prominent ministers of various churches.

Rev. W. C. Norton is pastor of the Wesley Memorial church of Jacksonville, Fla. He says: "I suffered from chronic indigestion for years. I seldom slept well and had severe headaches.

Rev. A. H. Sykes, pastor of Watkins Park Presbyterian church, Nashville, Tenn., says: "Mrs. Sykes suffered from stomach and kidney troubles and a nervous breakdown. Tanlac restored her health—she is gaining strength and flesh rapidly—her full restoration is but a question of time."

Rev. E. G. Butler, pastor of Central Baptist church, Muskogee, Okla., says: "I had attacks of acute indigestion. Results from taking Tanlac have been most satisfactory—an old friend to recommend it as the best medicine I have ever tried."

Rev. F. M. Winburn, Methodist, San Antonio, Tex., says: "I had no appetite—suffered from weakness and general debility—could not work without quickly tiring. Found Tanlac just what my system needed. I consider Tanlac a good medicine to build up run-down systems."

Rev. R. J. Taylor, pastor of Pleasant Baptist church, Franklin, Tex., says: "Grippe left me in very bad shape—had

indigestion, nervous headaches—could not sleep well. Tanlac gave me a good appetite, strengthened my nerves, I sleep as well as ever—have gained five pounds."

Rev. A. L. Tull, Methodist, Atlanta, Ga., says: "My granddaughter was a nervous wreck from indigestion. Tanlac gave her an appetite—she can eat anything. She is on the road to recovery."

Rev. John M. Sims, Baptist, Atlanta, Ga., says: "My wife had severe cramps, headaches, was very nervous, badly run down, weak and thin. Tanlac caused her troubles to disappear—she never complains now."

Rev. A. J. Valley, former superintendent of Bethany Home, Monroe, La., now of Memphis, Tenn., says: "Three years ago I had a general breakdown with indigestion—had rheumatic pains in legs. Since taking Tanlac am relieved of indigestion—rheumatic pains have stopped—feel like a new man. I give Tanlac my unqualified endorsement."

Rev. John M. Sims, Baptist, Atlanta, Ga., says: "I suffered from nervous indigestion and inactive liver—digestion badly impaired. Tanlac corrected these troubles entirely—gained ten pounds taking two bottles."

Rev. W. T. Roby, pastor West Lonsdale Methodist church, Knoxville, Tenn., testified from personal experience as to the great benefit he derived from taking Tanlac for disordered stomach.

No greater praise can be given a remedy than the unsolicited testimony of men whose lives are devoted to the betterment of their fellow men. Their integrity cannot be doubted. They serve their calling often at great personal sacrifice. Tanlac has helped them—they say so because they want to do you good.

Tanlac is sold in St. John by Ross Drug Company, and F. W. Monro, under the personal direction of a special Tanlac representative.—(Adv.)

UKRAINIANS WIN. Vienna, May 13.—(By The Associated Press)—Polish attacks in the region of Lemberg in the last few days failed completely according to reports received here from Ukrainian sources.

BOLSHEVIK DEFEAT. Vienna, May 14.—(By The Associated Press)—Russian Bolsheviki forces have met with new defeats from the Ukrainians led by Simon Petlura. Zelensky, another peasant leader, is leading fresh revolts throughout the governments of Kiev, Tchernigov and Pollava and the Bolsheviki have been forced to reinforce their troops in these districts.

OTTAWA REPORTS AGREEMENT TO TAKE OVER ST. JOHN HARBOR

Word was received from Ottawa last night that Hon. Frank B. Carvell, minister of public works, Rupert W. Wigmore, M.P., and Stanley E. Elkin, M.P., have officially concluded with Hon. C. C. Ballantyne, minister of marine, details of the agreement for the taking over of St. John harbor by the federal government.

It is learned that in a few days a bill to this effect will be drafted for introduction to parliament as a government measure, and that there is no doubt that it will become law. It is understood that the compensation to be allowed the city for its capital investment in the harbor will be in the neighborhood of \$2,250,000.

Hon. Mr. Carvell, Messrs. Wigmore and Elkin, Mayor Hayes and city commissioners, the board of trade and other commercial bodies have been working hard for months to bring about nationalization of the port, which will thus be accomplished within a reasonably short time.

Mix-Up Over This Soldier

Canadian, Who Lived in Maine and Was in American Ranks

Complications Follow His Coming to Canada in American Uniform, His Return and His Being Brought Back to This Side of the Border

(Special Correspondence of Bangor Commercial) August 5, May 15.—No immediate prospect of hostilities with Canada are in sight but here is a story that might lead to crisp words between the governments of the United States and Canada.

Hughie McGovern, a Canadian by birth, was an adult seven years in this country, making his home for at least five years at Wypitlock, in the northern part of the state. He did not care to serve in the Canadian army but was willing and did serve in the American army, being honorably discharged at the end of the war at Camp Devens.

The matter was reported to the attorney-general of Maine by the chairman of the Wypitlock public safety committee, and after securing all the facts the attorney-general reported to the state department at Washington, with a recommendation that it be referred to the department of justice, or if necessary to the department of state, in order that it might be investigated and the rights of an American soldier, Hughie McGovern, be protected.

The correspondence in the case, given all the details, is very interesting. It follows: Wypitlock Chairman, Wypitlock, Me., April 30, 1919. Attorney-General, Augusta, Me. Sir,—Hughie McGovern of Canadian birth, who was drafted and taken to Camp Devens, honorably discharged at the close of the war and who had taken out first naturalization papers, went on a visit to his folks in Canada in American uniform. When he tried to cross back at Yancowick, Me., they turned him back but he got back here.

Last night a Canadian officer came here after him and took him back to Canada. He has made his home here for at least five years. Now, I believe this is a rank injustice and believe also that we ought to look after our soldiers.

THE TELEPHONE IN THE UNITED STATES. Marvelous Growth in Use—More in Boston Than in All Austria-Hungary

(Boston Herald.) The city of Boston has more telephones than the whole of Austria-Hungary. Kansas City has more than Belgium. There are office buildings and hotels in American cities which have more telephones than the kingdoms of Greece or Bulgaria. Chicago has more than all France. Great Britain and Ireland, with 650,000 telephones, have only about 200,000 more than the city of New York. Only in the United States have the possibilities of this marvelous implement of modern civilization even faintly been realized.

Only when Americans go abroad do they realize that however imperfect in many ways their industrial organization may be, their nation is pre-eminent in the development of this marvel of direct and rapid communication. Suburban connections requiring a half-minute in Boston take a half-hour in London. We think of the installation of a telephone as a matter merely of notice to the company and a wait of a few days. But in many places the mere privilege of having a telephone is a property right of considerable value; in others the telephone service has a "waiting list" like an exclusive club. In Japan one sells the telephone outright at a good price and its value is quoted on the stock exchange.

The London Times announced this American achievement—and it is largely a Boston achievement—as "the latest American humbug" not so many years ago. But since 1900, when there were in this country some 600,000 telephone subscribers, the instrument has become a commonplace of American life. Up to 1900 its use had grown at the rate of 13,000 a year, since 1900 at the rate of 700,000 a year. Nothing more amazed Philip Gibbs, the famous correspondent, in his visit here than the universality of the telephone. Strike every instrument dumb, silence every telephone exchange, as the operators' strike has done, and Uncle Sam's most wonderful convenience is rendered useless.

THE PROGRESS ON THE PLAYGROUNDS

Last Year's Work and This Year's Prospects—Need of Play Director—Boys' Club Needs Quarters

The following is the report for the Playgrounds Association, prepared by Mrs. W. C. Good for the annual meeting of the Women's Council, with which it is affiliated: April 26, 1919.

I beg leave to submit the following report on behalf of the St. John Playgrounds Association to the St. John Local Council of Women.

Our work has progressed with leaps and bounds throughout the past year. In addition to the six grounds that have existed for some years there have been instituted two baseball fields for boys, and another is nearing completion for this year. One of the diamonds was converted into an open-air rink for the winter, and most healthful recreation was enjoyed by old and young.

The teachers on the supervised grounds were most painstaking, as was very evident when at the end of the year the children made a goodly showing of handicraft work and gave drills on their respective grounds. A committee from the executive made a tour on closing day and altogether the season ended most satisfactorily.

Our association feels that the time has come to focus the work under a director—the control to be held either by the playgrounds executive or by a commission from the city. It is generally felt that the work would be more progressive under civic control, having the support of the most prominent business men. By the report in the year book, we see that this matter is formulating in the minds of other cities and we add our influence to the enterprise, trusting that some action may be taken, not only here, but all over Canada to concentrate our efforts and make the work a real benefit to the people, governed by themselves as it were.

In response to the request of our national convenor in Winnipeg we sent the following resolution from our executive: "As the idea of national playgrounds first originated with Miss Mabel Peters of this city, the founder of the organization in Canada, and as she was also the chairman of the standing committee for national playgrounds in Canada, therefore resolved, that we the St. John playgrounds executive most heartily endorse the scheme now put forward by this committee in the National Council of Women, namely, the establishment of a Canadian National Association, to be planned and instituted whenever possible."

The winter activities are of great value in making good citizens for the future, namely, the carrying on of a boys' club. Though handicapped by poor equipment and inadequate space, the improvement in the lads who come under our supervision is very marked. With a membership of over 100, we reach such a variety of boys that we can never know just what the effect may be in their surroundings. Some of the leading men and women of the country have spoken to us, giving addresses illustrated and otherwise, which have been most appreciated by the boys. That some such work be done for their sisters is a long felt necessity, and we hope this may be accomplished when we move into better quarters next autumn. But are we to

ed, and R. H. Butts, as a mark of disapproval, walked out of the house during the course of Dr. Edwards' speech. A statement by Dr. Edwards that there were whole countries in Ontario and Quebec where no provision is made for education of children of the minority, drew forth denials from Hon. Rodolphe Lemieux, and J. A. Robb, as a representative Protestant of Quebec province, Mr. Robb stated that he was well satisfied with educational conditions in that province.

This afternoon Sir Thomas White introduced the bill to confirm the prohibition order-in-council regarding importation, manufacture and transportation of intoxicating liquors, the resolution regarding which was introduced yesterday.

Mr. Sinclair was informed that the total expenditure to date on the Halifax terminals was \$1,450,835. Completion of existing contracts, together with new engine facilities at Fairview was estimated to cost \$8,000,000 at present prices.

Do You Remember The Old Corn Doctor?

He stood on the street, in the olden days, and offered a "magic corn cure." The same ingredients, harsh and inefficient, are sold in countless forms today.

But they did not end corn, and they do not now. Nor does padding, nor does paring—methods older still.

The One Right Way Modern scientists in the Bauer & Black laboratories have evolved a perfect method and embodied it in Blue-jay.

In 48 hours, while the corn is forgotten, Blue-jay completely ends it and forever. Hardly one corn in ten needs a second application.

The way is sure. It is easy, pleasant, scientific. Quit old-fashioned methods. Try Blue-jay on one corn—tonight.

IN PARLIAMENT

Ottawa, May 14.—A debate on the question of national schools was precipitated in the Commons today by Dr. Edwards, member for Frontenac. Dr. Edwards had a motion for the order paper calling for the establishment of a national school system, but it was not reached before private members days were abolished for the session, so he started a discussion today on the motion to go into supply. The debate which ensued was at times inclined to be heated.

## N. B. ENCOENIA

### Eleven Graduates From Institution At Fredericton

#### A. C. Edgecombe, Valetudinarian, Reviews College Life of His Class in Interesting Manner—The Answer to the Call to War

Fredericton, N. B., May 15—At half past two o'clock this afternoon His Honor Lieut.-Gov. Pugsley opened the proceedings of the U. N. B. enclosure in the presence of a large gathering. The graduating class this year numbers eleven, as follows—Charles Roy Christie, Arthur Charles Frasier, John Miles Gibson, Joseph Aloisius Haney, Gustav Francis Kuhnring, Mary Mandie McMonagie, Brydone deLott, Millidge M. C. George, Thomas Mitton, Harold Emery Seely, Georgina Helen Trueman, Frances Mary Hume Van Wart.

Professor Cameron, in a praise of the founder, was read by Professor Kierstead, as Professor Cameron was unable to be present. The distribution of prizes and conferring of degrees followed and the very Rev. Scoville Neales, M. A., D. D., gave the address to the graduation class. The alumni orator was delivered by Prof. D. Frasier of Dalhousie University, who spoke on Science and Character Building. It was a thoughtful and powerful address.

This Encenia Day of 1919 brings again in the history of this university the passing from the precincts of still another graduating class. Four years have rolled by since first this class assembled in these halls. Our college has been one of moral, mental and physical training, fitting us for a future of achievement. Today marks the end of our initial preparation and we step into the world as foster-brothers who are carrying on the work of the world. Today we stand upon the shore, ready and eager to set out upon the sea of life. Today our past and future seem to blend. We have long looked forward to this Encenia and our ideal has been at last attained. For four years we have been students, even so shall we be students tomorrow in the exacting college of the wide world, where every hour is a test, even as they have accosted us within these walls. For all life is a school, a preparation, a purpose; nor could we now pass current in a higher college, if we had not undergone the tedium of education in this lower one.

Yet, it is with no ordinary emotion that we leave the precincts of this last time. The old associations and friendships are not lightly severed. Fond memories rush upon us and for a moment we would fain linger and prolong our stay where we have passed so many of the happiest days of our lives. But the duties of the soldier, the sailor, the farmer, the worker of the future is upon us, and we turn our faces forward to pursue our destinies through the beaten and untrodden paths of life.

The class that graduates today has a future overflowing with opportunities. Our country is just recovering from the stagnation and demoralization of the war, and we turn our faces forward to pursue our destinies through the beaten and untrodden paths of life.

Active interest was shown by our class in all college societies and functions and the verandah, characteristic of Freshmen classes, gradually disappeared. It was during our first year that the College Officers' Training Corps was given its birth and which has been so gloriously carried on all through our course by Dr. Macdonald and Professor Cameron.

## ANY WOMAN'S STRUGGLE FOR GOOD HEALTH QUICKLY REWARDED

When a woman's face grows haggard and pale, when she is tired all day and ready to cry when night comes, she ought to know something is wrong. Putting off only makes matters worse. The best advice we can give any sickly woman is to test out the following treatment.

At the close of every meal, with a sip or two of water, take two chocolate-coated Ferronose Tablets. This seems to be the best thing going for folks that are tired out, run-down and in need of a strengthening, building-up medicine. Ferronose's action aids the three principal functions of the body—digestion, assimilation, elimination.

By strengthening digestion it forms an abundance of rich, red blood—this gives good color.

By perfecting assimilation, Ferronose supplies nutrition—this gives strength, vitality.

Elimination is assured because Ferronose quickens the action of the kidneys and bowels—this guarantees the maintenance of vigorous health.

Ferronose put you on the right road—the one that leads to health.

Not a man, woman or child needing blood, vigor, endurance—not a person who is weak, nervous, or whose nerves are in ill-health who will not receive immediate help from Ferronose.

As a tonic and restorative, as a health-bringer and body-builder, Ferronose is unrivaled. It cures because it feeds and nourishes, because it contains the elements that build up and strengthen.

Try it yourself—sold everywhere in 20 cent boxes, 6 boxes for \$2.50, or by mail from The Catarisone Co., Kingston, Ont.

learned to love and respect, ambition, energy—above all, victory, that seemed to pervade the whole atmosphere! The victorious Allies were sweeping back the foe; the tide had turned; the strain was over; the dawn had come. At last the ranks of our student body had ceased to decrease. It must have been very gratifying to our chancellor and senate to see the ranks of the early Grads, the ranks of two men at the beginning of the year and by returning more than the completion of the term. With so many of our sons returning, U. N. B. seemed to be supplied with an incentive to activity, and the ending of the war encouraged us to make a start to wings somewhat on pre-war basis, the college functions. Our annual "Con," extinct since 1914, was this year our means of entertaining the friends and relatives of graduates and under-graduates. It was unanimously considered very successful.

In athletics, mainly confined to basketball, we think we have made some progress. We think we have made some progress. We think we have made some progress.

Our debating society had a most successful year. The Saturday night debates were very well attended and the standard shown by the under-graduates in the forum, U. N. B.'s success in this most important branch is assured for several seasons ahead. At last we lost the debate with Mount A, but for our opponents it was a hard victory.

Mock trial and mock parliament were held very successfully. For the first time our ladies were given the privilege of seats upon the floors of the house, and added much interest to the proceedings thereby.

The College Monthly has been well managed and its literary production equal to that of former years. The college paper can be a great influence in promoting unity and harmony among the students and the faculty, or its efforts will be equally injurious if improperly used.

The University Dramatic Society was not dead, we hope, but only dormant.

The Forestry Association had a fine year of activity, and increased activity was desired upon the part of the Engineering Society.

The Y. M. C. A. had a fairly successful year, but for so good a cause do not receive the support that is their due from the student body.

The various literary societies report a very active, interesting and profitable year. The true worth of the co-ed is not in our opinion, appreciated by their male fellow students. They display a far greater amount of true college spirit than the male members.

We have but one faculty change to note and in the recent history of our institution it is somewhat of a phenomenon. Professor Blamph has succeeded to the Chair of English and History. He came to us with high attainments, attainments which his work this year has shown to be of the very highest order. We regret that he is leaving at the end of the term. We also regret to hear, out of interest for U. N. B., that Professor Stiles severs his connection as Dean of the Engineering Faculty, and accepts a more remunerative if not a higher position elsewhere, and that Professor Baird has finished his term of supply. We wish Professors Stiles and Baird all success in their new spheres.

Before completing the history of our

Crockett, Dr. B. C. Foster and E. A. McKay; were appointed a committee on loan funds. Some discussion took place with regard to the memorial magazine published by the university and Dr. C. C. Jones, chancellor explained that there had been many inadvertent omissions from the publication which it was hoped to rectify later.

The Alumnae Society of the University of New Brunswick held its annual meeting last night assembling at the residence of Mrs. H. F. McLeod. The chief item of business was the election of representatives to the university senate. Those elected to the positions were Miss Ellen B. Hunter, B.A., of Fredericton and Miss Grace H. Fleming, B.A., of St. John. This is the first occasion on which women have been elected to legislative office by the University of New Brunswick. A former student of the university who spent some time overseas on V. A. D. work, addressed the society on the work of the overseas forces and Miss McFarlane was elected to life membership in the society.

After the business of the meeting all the lady students at the university were entertained at Mrs. McLeod's residence.

When the history of the war has been written, the work done by the women will impress itself upon the nation as few ever now realize. Literally, millions of women left their homes at the outbreak of the war and worked in various capacities. Some were in the front lines, some were in the rear, some were in the hospitals, some were in the factories, some were in the fields, some were in the homes. They were the backbone of the nation, the women who have never before been called, and many more at home devoted long hours at work in knitting and preparing supplies for the front. Some have worked at the expense of health and are now suffering from headaches, backaches, digestive troubles, and other ailments. It should be remembered that Lydia E. Pinkham's Vegetable Compound for more than forty years has been recognized as a standard remedy for these ailments.

## SEAMEN'S MISSION TO BE HANDED OVER TO THE NAVY LEAGUE

Legislation to Be Sought—H. C. Schofield New President—Excellent Reports at Annual Meeting

It was announced at the twenty-fifth annual meeting of the Seamen's Mission, held last night, that the work of the mission would be handed over to the Navy League when legislation authorizing such transfer had been obtained and the meeting with reluctance acceded to the wish of the president, R. M. Smith, that he should be allowed to retire from office. H. C. Schofield was elected president for the coming year. Excellent reports were presented at the meeting, that of the manager of the institute, Hew Walker, being specially interesting.

R. M. Smith occupied the chair and in his presidential report said that in the history of the Seamen's Mission, the work of seamen's work in St. John. He referred to the generosity of the Navy League, which had provided entertainments for the sailors and contributed a motion picture machine; to the splendid service rendered by P. A. in organizing the canteen and under the kindness of the W. C. T. U., under the direction of which Sunday evening services had been held and addresses given, Mrs. Seymour being chiefly active. He spoke of the pleasure and inspiration he had found in the work of the mission and thanked all the officers and members for assistance willingly given.

L. P. D. Tilley, Mayor Hayes and H. C. Schofield each spoke of the wonderful devotion of the retiring president and urged his continuance in office till the mission was handed over to the Navy League, but Mr. Smith could not be persuaded to alter his decision.

The treasurer's report showed total receipts, including general subscriptions, dominion and city grants, donation from the Royal Standard Chapter, I. O. E. L., and a Navy League grant of \$2,983.76, amounting to \$6,264.90 and total expenditures of \$5,818.78, with a balance on hand of \$746.12 and liabilities of \$810. The report was submitted by J. N. ## WOMEN BACKING THE SOLDIER BOYS

When the history of the war has been written, the work done by the women will impress itself upon the nation as few ever now realize. Literally, millions of women left their homes at the outbreak of the war and worked in various capacities. Some were in the front lines, some were in the rear, some were in the hospitals, some were in the factories, some were in the fields, some were in the homes. They were the backbone of the nation, the women who have never before been called, and many more at home devoted long hours at work in knitting and preparing supplies for the front. Some have worked at the expense of health and are now suffering from headaches, backaches, digestive troubles, and other ailments. It should be remembered that Lydia E. Pinkham's Vegetable Compound for more than forty years has been recognized as a standard remedy for these ailments.

## SEAMEN'S MISSION TO BE HANDED OVER TO THE NAVY LEAGUE

Legislation to Be Sought—H. C. Schofield New President—Excellent Reports at Annual Meeting

It was announced at the twenty-fifth annual meeting of the Seamen's Mission, held last night, that the work of the mission would be handed over to the Navy League when legislation authorizing such transfer had been obtained and the meeting with reluctance acceded to the wish of the president, R. M. Smith, that he should be allowed to retire from office. H. C. Schofield was elected president for the coming year. Excellent reports were presented at the meeting, that of the manager of the institute, Hew Walker, being specially interesting.

R. M. Smith occupied the chair and in his presidential report said that in the history of the Seamen's Mission, the work of seamen's work in St. John. He referred to the generosity of the Navy League, which had provided entertainments for the sailors and contributed a motion picture machine; to the splendid service rendered by P. A. in organizing the canteen and under the kindness of the W. C. T. U., under the direction of which Sunday evening services had been held and addresses given, Mrs. Seymour being chiefly active. He spoke of the pleasure and inspiration he had found in the work of the mission and thanked all the officers and members for assistance willingly given.

L. P. D. Tilley, Mayor Hayes and H. C. Schofield each spoke of the wonderful devotion of the retiring president and urged his continuance in office till the mission was handed over to the Navy League, but Mr. Smith could not be persuaded to alter his decision.

The treasurer's report showed total receipts, including general subscriptions, dominion and city grants, donation from the Royal Standard Chapter, I. O. E. L., and a Navy League grant of \$2,983.76, amounting to \$6,264.90 and total expenditures of \$5,818.78, with a balance on hand of \$746.12 and liabilities of \$810. The report was submitted by J. N. Evans.

The manager's report, submitted by H. Walker, referred to new attractions added to the Seamen's Institute, the installation of sleeping accommodation, the

## It's Easy to Peel Off All Your Freckles

The contrast between the freckles and the clear skin usually is so great that the freckles can be more than partially removed by the use of Freckles Off. Ordinary mercurochrome is far better. It literally peels off the freckles. Get an ounce of it at the nearest drug store and tonight spread on the freckles. Repeat daily until every freckle has disappeared.

Enough, blotchy, pimply skin, also common in the summer, may be entirely gotten rid of by this same method, with no discomfort and no inconvenience. The effort is decidedly worth while, the new complexion obtained being so clear, smooth and youthful.

Freckles are caused by an up-to-date motion picture machine, enlargement of the canteen and the fitting up of a modern kitchen and of a bath room. He spoke in glowing terms of the work of the Young Women's Patriotic Association in caring for the canteen arrangements. The report also told of the entertainment given by the association each week, when the attendance of sailors filled the hall, and of special entertainments provided by the association for the canteen. The Y. W. P. A. It included the hospital committee's report by Mrs. Goss, which gave an excellent description of the sick sailors.

Thanks were extended to Y. W. P. A. minister and choir of the church, assisting in the Sunday services, the various film companies, the Soldiers Comforts Association for donations of food and supplies, the Y. W. P. A. and friends who had contributed to the success of the season. Statistics given showed that 27,231 sailors had attended the mission, twenty-four concerts given, 5,720 articles of clothing distributed, 660 hand rugs given, 1,120 comfort bags distributed, 6,986 letters posted, 224 visits paid to ships, 800 mattresses, 300 blankets, 1,876褥子 exchanged and 1,876褥子 books given away.

J. S. Flagg's suggestion that tablets commemorating the faithful work of the two presidents of the mission, Mr. Tilley and Mr. Smith, should be placed upon the walls of the building before the mission was taken over by the Navy League, met with a favorable reception and may be acted upon in the future.

The election of officers resulted as follows: president, H. C. Schofield; 1st vice, Mayor Hayes; 2nd vice, L. P. D. Tilley, treasurer, H. J. Evans, secretary, J. N. Rogers; board of management, D. W. Ledingham, T. Graham, Captain Muleney, Captain Walsh, George Henderson, Rev. J. A. MacKinnon, auditors, J. S. Flagg, C. N. Macdonald. No appointment as manager was made by Mr. Walker was asked to carry on the mission. The board had met with the Navy League and conferred upon the matter. When it was expected that he would be re-appointed with increased duties and salary.

## NEGRO IS LYNCHED

Vicksburg, Miss., May 15—Lloyd Clay, aged 24, a negro, alleged to have assaulted a young white woman, was lynched here today. His body burned in a mob of between 800 and 1,000 persons.

At a meeting of the Sons of England Benefit Society last evening a cordial welcome was extended to members who returned home with the 4th and 6th regiments. Arrangements were made for a church parade.

## COUGHED, COUGHED ALL NIGHT LONG

Terrific coughing on the system is the cough that comes at night and prevents sleep. Sometimes the cough is so bad that it will not be quieted.

Sometimes it is a choked-up, stuffed-up feeling that makes breathing difficult, and sleep impossible.

Whatever kind of a cold or cough you have, Dr. Wood's Norway Pine Syrup is the remedy you need to cure it. For the simple reason that it is a valuable preparation which combines all the lung healing virtues of the Norway pine tree with which is combined wild cherry bark, and the soothing, expectorant properties of the cough and every excellent herb and bark.

Miss Margaret Landish, Bristol, P. E. I., writes: "I am writing to tell you the benefit I have received from Dr. Wood's Norway Pine Syrup.

Last fall I took a severe cough and cold in my head. I was unable to do anything. At night I could not sleep. By cough, cough, all night long. A friend advised me to use Dr. Wood's Norway Pine Syrup, and before the second bottle was used, my cough was cured, and I have found this the best cough medicine I can buy."

Do not accept any other "pine" cough remedy when you ask for "Dr. Wood's." This remedy has been on the market for a quarter of a century. It is put up in a yellow wrapper; three pine trees; a trade mark; price 25c. and 50c. Managed exclusively by The T. Millburn Co., Limited, Toronto, Ont.

## COCONUT OIL MAKES A Splendid Shampoo

If you want to keep your hair in good condition, be careful what you wash it with.

Don't use prepared shampoos or anything else, that contains too much alkali. This dries the scalp, makes the hair brittle, and is very harmful to the scalp. A natural, mild, and pure shampoo is what you need. It is pure and entirely greaseless, is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonfuls will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily and removes every particle of dirt, dandruff and excessive oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get mulsified coconut oil at most any drug store. It is very cheap, and a few ounces is enough to last everyone in the family for months.

## Best Home Treatment For All Hairy Growths

**C. P. R. PREPARES FOR AIR SERVICE**

Grant Hall Points Out Reasons For the Application For a Charter

(Canadian Press Despatch) Montreal, May 14.—"The application of the Canadian Pacific for an air charter," said Grant Hall, vice-president of the C. P. R., "is only natural when one considers that we are approaching a new epoch in air transport as applied to commerce. Even before the war a dirigible airship maintained a regular passenger service between Frankfurt and Berlin for two years, and during the war the progress in aerial transit has been wonderful. Mach of that progress has been due to the skill and daring of Canadian fliers. General Sealey in the British House of Commons recently acknowledged the indebtedness of the allies to Canada in securing aerial supremacy. 'Canada,' he said 'gave the largest contribution in numbers and of her services those who know what Canadian airmen did need not to be reminded they were second to none.'"

"The British government has allowed no less than three hundred million dollars in the estimates for the coming year for air services, of which ten million dollars has been set aside for experimental research and civil aviation. Bonar Law owns his own airplane, which is used for his frequent visits to Paris and there is a regular daily service of a 17-passenger Handley Page machine between London and Paris."

"Although at present aerial transportation is a distinctly expensive matter, the progress being made both in airplanes and dirigibles is so rapid that it is quite in order for a company such as the C. P. R. to be ready to enter the field as soon as air transportation comes within the range of practical politics. Although there are areas in Canada which will for a long time present difficulties, particularly to pilots, there are other areas which conform to the requirements of the experts. Take for instance the western prairies, which offer the conditions described by General Sealey as vital, namely, that they are regions where there are wide spaces with almost complete absence of the airman's real enemy—mist and fog—not wind. It is there where air travelling might be made profitable."

"There are, however, many costly features about an air service by means of airplanes which will militate against any hope of very low rates, particularly the necessity of suitable landing spaces at frequent intervals in case of engine trouble. Orville Wright maintains that to make flying reasonably safe good landing places should be provided at ten or at most fifteen miles intervals. A landing section must be about a quarter section in size, and the surface must be of level, smooth, hard sod. Then, in the case of airships, the cost of sheds is a very considerable item. Thus, for instance, a shed to house two of the new rigid R-80 British dirigibles is about two million dollars, so that anyone who is under the impression that air transportation in the near future will reduce either rail or steamship rates is likely to be disappointed. In a word, the future of commercial air transportation is bound up in the question of cost, but we are of the opinion that with the engineering and operating resources which the Canadian Pacific has always been able to command we should be able to enter the field with confidence when the time seems ripe."

**NEWS OF OUR SOLDIERS**

Rev. Francis Lockery, who went overseas more than three years ago as chaplain with the 38th Battery, Nova Scotia, arrived in the city yesterday and is at the Bishop's Palace. Father Lockery says that the towns of Northern France suffered far more from devastation than those of Belgium. A large number of the factories in Belgium have already resumed operations, as it is an industrial country and there is not enough raw material to carry on all the reconstruction. He said that there is considerable amount of unemployment in England.

Hon. Col. George H. Johnson of Campbellton, N. B., for the last ten years practising engineering in Ottawa, and who has been at the front for years, part of the time in command of the Canadian Engineers, returned on the Royal George yesterday. He wears the decoration of the Legion of Honor and was also made a commander of the British Empire.

**END OF WAR CAUSED MANY TO LOSE WORK**

Report on French Manufacturing Establishments Shows a Large Number of Hands Laid Off

Paris, April 17.—(Correspondence of The Associated Press)—Nearly all the French manufacturing establishments which were converted into plants for the making of war materials at the outbreak of hostilities have already returned to their peace-time work. Many others which were created especially for war industries have either been transferred, or are in the process of being transferred, for employment in peace pursuits.

Generally speaking, there has been a reduction in the personnel employed in all these plants, pending the completion of the alterations necessary in the equipment. Some of the peace-time manufacturing plants which were adapted to war work will need comparatively few changes, but those establishments which were born of the war, such as aviation works, will have to make important alterations. Throughout the latter class of manufacturing there has been a reduction in the number of employees. Some of the war plants, whose contracts have not yet expired, have kept part of their personnel busy by reducing the working day to nine, eight and seven hours.

The effect on labor of the cessation of hostilities may be seen from the figures of employment in some of the great French industrial centres. In ten of

these districts from which reports have been received the total number of plants engaged in war work was 992. They employed before the armistice 261,824 men and 109,775 women. The total number of employees has been reduced now to 194,648 men and 46,703 women.

Beginning on Monday, May 19, the Canadian Cotton Mills, Ltd., and the Cornwall and York Cotton Mills, Ltd., of this city, will operate on a fifty-hour a week schedule.

ZEST OF LIFE IN WORK AND PLAY There is Plenty of Pleasure in a Day's Duty Well Done If life were worth only the living it would be a poor investment. It should earn a surplus over and above the cost of living. That surplus philosophers call the Zest of Life. The dictionary gives the primary meaning of "zest" as: "An agreeable excitement of mind accompanying exercise, mental or physical." Its secondary meaning is: "An added flavoring such as is given by spice or condiments." The original idea in human life seems to be that mere fact of living shall produce an agreeable excitement of the mind. All well-born, well-managed babies start out that way. They are on good terms with the world. And most well-developed, well-environmented persons carry on that way their life long. Few give up life willingly, though too many later on come to doubt the profitability of the investment. Most men who go stale on living have been looking for zest in its secondary sense. "When I am through my day's work," says the drudge, "I am going to man get an agreeable excitement of mind at his bench. There is pleasure in a good day's work, a pleasure of quality better than that of a full day's entertainment. There is a pleasure in paying up a grocer bill and in making good a note at the bank, a pleasure that varies but little from that of making a good profit on a land deal or putting by money in a savings fund. Providing a good comfortable home for one's family furnishes as great a zest of life as some find in a trip around the world. Most people find their pleasure, not in

making money with which to buy agreeable excitement of the mind, but in the zest that comes as a by-product of their struggles for a living, because the most of us mortals spend practically all of our time getting a living. If the human race waited for zest till it could buy it with surplus profits, or waited for a leisure hour in which to sit down and enjoy it, it would find this world a dull workhouse indeed. Zest lies hidden somewhere in every particle in the universe. And the immaterial world is literally packed with it. The art of living is to find the zest.—Minneapolis Journal. The inspection of millions of dollars' worth of Roumanian goods bought under Canadian credits is being feverishly carried on under the Canadian Trade Commission. The first shipment will go on May 20.

TO GET INCREASE BUT WILL IT DATE BACK? CHARGES CARRANZA WITH COLOSSAL BANK ROBBERY New York, May 15—Venustiano Carranza, president of Mexico, was charged with "a colossal bank robbery" in a suit for injunction filed in the supreme court here yesterday by William B. Mitchell, former manager of the Banco De Londres y Mexico, of Mexico City, seeking to restrain Alfredo Catarghi, counsel here for Carranza's "commission monetaria," from prosecuting a \$140,000 suit against the Bank of Montreal. The money claimed by the commission from the Montreal institution, Mr. Mitchell alleges, belongs to the Banco De Londres y Mexico, which he claims Carranza will send a minority report to the minister of labor. A series of illegal governmental decrees.

**ATHLETIC**  
Friends of Joe Irvine, a local boxer and wrestler, will be interested to know that he is at present at his home in Queens county training for a bout, prior to going on a tour of the Massachusetts railway that an endeavor is being made to match him with a Nova Scotian boxer of note.

**GO TO IT BOY!**  
Lance Corporal A. J. Gallant, of Boston, recently returned from overseas with one of the Massachusetts railway engineering corps, passed through the city at noon en route to his boyhood home in Prince Edward Island "just to give the old folks a surprise" as he put it. He wore the Yankee uniform and has been in service for two years, but has not seen his home people for four.

**SOLDIER SMITH HONORED**  
Sgt. Hobson D. Smith of the C. P. construction corps, who returned home yesterday after nearly four years of service, was welcomed by his married friends last evening at his home, 183 Duke street. Capt. Shorten, on behalf of the party, presented to Mr. and Mrs. Smith a china dinner set, pleasing speeches marking the presentation and the receipt of it. There was dancing and supper was served. A very happy evening was spent.

**"NED" WASHINGTON IS BACK**  
Edward S. Washington, familiarly known to the St. John public as "Ned" who has for some time since his removal from this city been conducting a restaurant in York street, Frederickton, was among yesterday's soldier arrivals. Ned is very glad to get home after three years service with the second construction corps but says the trip and its ups and downs were wonderfully enlightening to a man in many ways, not the least being the realization of man's frailty and constant contact with death. Mr. Washington returns to his home tonight. When in this city, years ago, the returned man assisted his father in conducting Washington's restaurant in Charlotte street, next to the Unique Theatre.

THIRTY YEARS AS MAGISTRATE

Tribute Paid Hon. R. J. Ritchie This Morning  
D. Mullin, K. C., Refers to His Honor's Ability and Honorable Record — Magistrate Speaks of Matter of Retirement

Hon. R. J. Ritchie, in a case in the city court this morning, made reference to the fact that he will have served in his judicial capacity for thirty years on the 18th of this month. Daniel Mullin, K. C., who was in the court, made this an opportunity to address His Honor on the subject of his long service as magistrate.  
"Your Honor," he said, "made reference to the fact that the 18th will be the thirtieth anniversary of your appointment as magistrate. I would like to speak of that event." He went on to speak of the high position that His Honor held at the bar before he was made magistrate, saying that he was looked upon as one of the best among many lawyers then at the bar. He spoke of the great changes that had occurred, but said that His Honor had retained his full faculties, both mental and physical.  
"I venture to say," he added, "that as police magistrate, you have shown undoubted legal ability, with impartiality and fairness."  
In reference to a statement made by His Honor to the effect that some people still harbored a strong feeling of resentment, because of his appointment, Mr. Mullin begged to differ and said that he was sure all such feelings had been forgotten long ago. In conclusion, Mr. Mullin said that he wished to offer his own congratulations and he would venture to say that if the other members of the bar were present, they would also offer their congratulations and their hope that His Honor might have many useful years yet in store.  
His Honor in replying, said that he appreciated what Mr. Mullin had said. He referred to the fact that in his position he could not please everybody, and must often do unpleasant things. "I was born in the city, went to the Grammar School here, to the Catholic Seminary and later practiced law here, so that I know the city and the people very well," said His Honor. He remarked that he was very seldom embarrassed, but that Mr. Mullin had embarrassed him.  
He said that one of his greatest consolations was that some who were most opposed to him in politics were his greatest friends. He admitted that most people who were against his appointment had forgotten their resentment, but insisted that there were at last two who would not speak to him because he still held his position. He said he would be seventy-six years old on October 12, and that he could remember Mr. Mullin as a boy and had watched his brilliant progress with interest. He concluded by thanking Mr. Mullin for the way he had expressed his own feelings and those of the community, and said that if the "Powers that Be" would look after him properly he might be content to retire on his seventy-sixth birthday.

**EXPECT 75 KNIGHTS ON VISIT FROM MONCTON**  
The visit of the Knights of Pythias of Moncton to the three local lodges this evening will cause quite a stir in the ranks of the brethren. It is expected that Chancellor Commander Wadman of Westmorland Lodge, No. 3, will bring with him on the C. P. R. at 4.45. A large delegation of members from New Brunswick No. 1, Union No. 2 and St. John (N. E.) No. 90 will meet the Monctonians and escort them to Bond's restaurant where supper will be served. After the feast and the usual exchange of speeches the combined party, upwards of 150, will proceed to Castle Hall, Germain street, for a ritualistic session. It being the regular meeting night of New Brunswick Lodge, C. C. Richard Thomas will open the lodge, after which the Moncton team of ritualists will confer the rank of knight upon a class from New Brunswick and St. John lodges. After the rank is worked there will be some light refreshments, a smoke and then the local knights will escort their visitors to the late train.

**BOY OF THIRTEEN IS MISSING SINCE MONDAY**  
Mr. and Mrs. John Hayman of 108 St. James street are anxiously endeavoring to learn something concerning the whereabouts of their thirteen year old son, Sedfield, who disappeared from his home on Monday morning, and has not been heard of since.  
It was learned that he had been away from school some days last week and it is thought that he feared punishment and ran away. He is quite tall, is of dark complexion and was wearing a blue suit and brown cap. Any person having news which would confer a favor by sending word to his anxious parents.

**Now the Season of New Homes Starting--And We're Ready**  
In the spring young couples' thoughts naturally turn to home-making, and this season finds us ready to do our part. Never so complete in point of variety, design or price—for the home already under way, this time of year suggests many new things desired.  
A new color scheme in the home—New Floor Coverings a New Armchair or Arm Rocker, a New Davenport or Sofa, a New Table or, perhaps, New Furnishings for the dining-room, or some needed article to supplement the furnishings of the bedroom—all these suggest possibilities of far-reaching influence in spring-time home beautifying.  
This store has critically gathered very interesting and unusual selections for your approval. You will find only the distinctive and worthy here, and yet, when you compare values, you will be convinced that however modest or pretentious your home, you can economize by buying here, to say nothing of the resultful service you will receive.
