## Lloyd George Speech Has Won The Marked Approval of England

### Differences As To Some Details But Essentials Hailed As Eminently Satisfactory—Now To See How The Enemy And Russia Take It

#### THE TROUBLE IN SPAIN

##### Some Non-Coms in Army Had Been Establishing Defence Associations

Madrid, Jan. 6.—(By the Associated Press)—This morning's newspapers appeared with editorials expressing great perturbation because of the council of the ministers which was held unexpectedly on Thursday evening. The newspapers assert that the council was made necessary by military rumors of a revolutionary character that have been held recently by corporals, brigade sergeants and non-commissioned officers of the various branches of the army. The press asserts that these minor officers are attempting to establish "juntas of defense," similar to those formed by the chiefs and high officers of the army. The government has issued an order that all branches of the army shall remain in barracks and also has discontinued telegraphic and telephonic communication and taken other important precautionary measures such as dissolving parliament.

#### FINANCIAL IN EARLY HOUR ON THE STOCK MARKET

New York, Jan. 7.—(Wall Street)—The week in the stock exchange opened with further irregularity, but soon gave way to general firmness on a moderate inquiry for rails, steel, copper, ship-pings and the usual equipments. Fictitious and coarser made up part of last Saturday's reversal. The market opened steady almost two points with one point each for United States Steel, American Smelting, Mariposa Preferred, Central Leather and Studebaker. Liberty bonds were heavy, the four declining to the low record of 96.92.

#### CORN AND OATS

Chicago, Jan. 7.—Storms which hampered railway traffic gave a little firmness today to the corn market. Demand, however, was slow, as traders inclined to the view that delay to an increased crop movement from the country would not be long. Besides, a refusal of the board of trade directors to disturb the present maximum price limit on future deliveries tended to discourage bulls. Opening prices, which ranged from unchanged figures to 1/4 cent higher, closed Jan. 12 1/2% and May 12 1/2% to 12 3/4%, were followed by something of a reaction and then a fresh upturn.

#### MONTREAL CATTLE REPORT

Montreal, Jan. 7.—West End Yards—Receipts: Cattle, 500; sheep and lambs, 600; hogs, 600; calves, 100.

#### LONDON STOCK MARKET

London, Jan. 7.—The stock market developed a firm undertone today. Premier Lloyd George's speech was well received, and its results, it is believed, will be seen in the near future. Home funds and Allied bonds were firm under the lead of consols, mining shares were stronger and diamonds were the leading

#### BRITISH CASUALTIES OF WEEK 19,000

London, Jan. 7.—British casualties reported during the week ending today totalled 19,996. The losses were divided as follows: Officers killed or died of wounds, 118; men, 8,832. Officers wounded or missing, 448; men, 14,605.

## MAY POOL FOOD RESOURCES OF STATES AND CANADA

### War Committee of Cabinet at Ottawa to Take up Suggestions Received From Washington

Ottawa, Jan. 7.—Suggestions from Washington that the food resources of the United States and Canada should be pooled for the benefit of the Allies will engage the attention of the War Committee of the cabinet at an early date. No concrete proposals have as yet been formulated, either at Washington or the dominion capital, but the desirability for joint action is realized.

## THE GOVERNMENT AND MATTER OF BOND ISSUES

Ottawa, Jan. 6.—(Montreal Gazette)—An order slightly amending the recent enactment in regard to bond issues is under consideration by the government and is now before the justice department. While the principle of control of all security issues by the minister of finance is adhered to, it is understood that authority may be given the minister to define certain classes of bonds in respect to which his consent may be waived.

Washington, Jan. 7.—The comptroller of the currency today issued a call for the condition of all banks in the United States at the close of business Monday, Dec. 31.

## ON THE BATTLEFRONTS

With the British Armies in France, Jan. 6.—(By the Associated Press)—Freezing temperatures continue to hold the British front in an icy grip. Many of the roads are impassable to motor cars owing to snow drifts and the fighting necessarily is desultory owing to the weather conditions. The Germans, however, are exceedingly active, carrying out raids on various parts of the line.

## SHIPBUILDING PROGRAMME OF 50 TO 60 MILLIONS

### Some Details Given Out by Hon. Mr. Ballantyne; Government Ownership of Ocean Transports Involved in Project

Hon. C. C. Ballantyne has made public in Ottawa further details of the great shipbuilding project announced last week. Here are some of the outstanding features of the programme:—

- (1) The ships will be built and owned by the government. They will be operated partly, at least, and perhaps wholly, by the government, although in special cases they may be chartered to responsible parties. After the war they will be owned and operated by the government in co-operation with government-owned railways. In a word, the policy inaugurated is a policy of government ownership of ocean transports.
- (2) Ships now under construction for the British government will be completed. Contracts for these vessels are let by the imperial munitions board, and most of them will be completed early in the summer. After that Canada will take charge of all construction.
- (3) The government's contemplated programme will involve an expenditure of from fifty to sixty millions of dollars.
- (4) There will be an equitable distribution of labor among the various plants, so as to ensure the maximum of efficiency and speed in the output of ships.
- (5) No new shipyards will be constructed for the present, but all existing yards will be utilized to their fullest capacity. Ships will be built at Vickers, Montreal; George Davis, Lewis; Polson Iron Works, Toronto; Collingwood Shipbuilding Company, Collingwood; at New Glasgow, and in the yards of the Pacific coast.
- (6) Charles Duguld, naval architect of the government service, who has a wide experience in yards in Belfast and on the Clyde, will be the technical officer in charge of the work.
- (7) Steel rolling plants—heretofore, exclusively confined to the United States, will be erected at Sydney, New Glasgow, Hamilton, and Sault Ste. Marie.

## THE POPE PROCLAIMS AGAINST ATTACKS ON UNDEFENDED CITIES

Rome, Saturday, Jan. 5.—In thanking the Roman aristocracy today for their Christmas and New Year's greetings, Pope Benedict expressed his appreciation that the nobility had endorsed "our words with which we recently invited the people of the earth to refrain from the fruits of the earth for more than three years. We must return to Christ, His Holiness added. "In order once more to enjoy the benefits of civilization."

## POTATOES ON THE FREE LIST?

Ottawa, Jan. 7.—(Montreal Gazette)—It is understood that the government is giving consideration to a demand to put potatoes on the free list. There is a considerable surplus in Canada, but a much greater one in the United States.

## TORONTO GLOBE ON LANGUAGE QUESTION

Toronto, Jan. 7.—Replying to allegations of Ontario "Prussianism" made by T. L. Bergeron of Quebec, the Globe says editorially today: "Ontario is not officially bilingual, and it is not going to be. English is the language of instruction in the schools under provincial jurisdiction. Any departure from English is a matter not of right, but of grace. The attempt to have French teaching as a matter of right will not succeed. There is nothing in the fundamental law of Canada, either before or after confederation, upon which such a claim can be based justly. There is no desire on the part of the people whom Mr. Bergeron insults by calling them Boches to proscribe the teaching of French, especially where it is necessary as the language of instruction for children who know no other when they arrive at school age. But we shall not consent to the introduction into this province of state-aided schools in which French language and literature form the chief subjects of study to the exclusion of the language of nine-tenths of the people. The waves of Quebec nationalism will dash themselves in vain against the resolution of the citizens of Ontario to retain English as the sole official language of the province in its schools, its courts and its legislature."

## HOME ON LEAVE

Panama, Jan. 7.—The canal zone Red Cross is sending a special expedition to Guatemala for rescue work in connection with the recent earthquake, as well as 10,000 foodstuffs and various supplies.

## BUTTER IN BERLIN \$2.25 A POUND

#### Arthur Henderson Says:

Just a few words about the woolen market. Clothes are going to be very high before this war is over. Some wholesale woolen houses have written their representatives that they are very doubtful whether they will have any samples for them to go out with this spring to place orders for fall, 1918. Therefore, take a good look at your wardrobe now, for the next two years, for as I am writing this notice, if war lasts another twelve months, it will make to order will be nearer 75.00 than \$35.00. I have some splendid suitings left. These I can still make to order from \$30.00 to \$35.00. I'm clearing out a few at \$25.00.

## FEW ELIGIBLES IN QUEBEC CITY WHO HAVE NOT ENROLLED

### Quebec, Jan. 7.—According to the

list of men who have failed to report for military service on last Thursday, there are at the most six men who registered and then failed to report for duty. Some eight men who are reported to be in the city are being sought for by the police. It is calculated that some 200 men are already in khaki in this city. They have already started training.

Quebec, Jan. 7.—Action Catholic, Quebec's semi-clerical daily, gives sound advice to the young men who are called under the military service act. In a leading editorial in Saturday's issue it said:

"It is to the conscripts of yesterday, of today and of tomorrow that we speak. Our attitude in connection with the military service act, which is now being enforced, is well known, and we are still of the opinion that a grave error was committed by imposing it. But while awaiting until events will have brought our governing powers to a more sane comprehension of the duties and necessities of the hour, we must submit to it. And it is the conscripts of yesterday, of today and of tomorrow who bear the first inconvenience. That is why we say to them, 'Be cheerful!'"

#### QUEBEC LEGISLATURE IS TO MEET TOMORROW

Quebec, Jan. 7.—With the legislature resuming its sittings tomorrow, every one is anxiously awaiting and speculating on the Francoeur motion. It is surmised, however, that it will be on the table till the 12th. The speech on the budget is scheduled for tomorrow. Sir Lester Gouin, who has gone to meet Sir Wilfrid Laurier in Montreal, is expected back here on Tuesday. As regards the alighted motion before the city council, it is generally admitted that it will not even find a seconder.

#### THE BITUMINOUS COAL OUTPUT IN STATES

Washington, Jan. 7.—The 1917 bituminous coal production is put at 544,000,000 tons, an increase of 42,000,000 over 1916, according to estimates today by the geological survey. Fuel administration officials had expected the total to amount to 500,000,000 tons, but a falling off in output in December reduced the figures. December's production was estimated at only 45,000,000 tons, but a falling off principally at coal shortage.

### Brother Meant Well

Speaking at a political gathering, Senator George Sutherland of Utah, reminded us that there are times when we mean well, but express ourselves badly, and told this little story as an illustration.

Recently a certain pastor was called to the site at the conclusion of the service the congregation gathered around with many congratulatory words.

"Doctor," said one of the congregation, seizing the pastor's hand: "I want to tell you how much I enjoyed your sermon today. I have never heard you so good. I judge you have of your subjects and how inspiring you preach them!"

"The doctor," indeed! "enthusiastically explained another brother, taking the preacher's hand in turn. "Why, doctor, we never knew what sin was until you came among us."—Philadelphia Telegraph.

## The Only Known Specimen of His Kind in Germany

(Literary Digest)

War's surprises will never cease apparently; and one of the latest is discovery of a German in Germany who is fair, kind and generous to the enemy. He is Dr. Ascher, physician at the prison camp of Senneberger, where he so endeared himself to the captives that he was like the paring of old and very dear friends.

There is only one touch different in the character of the doctor becomes the more appreciated because we discover German prison camps as recorded by Henry C. Mahoney in "Sixteen Months in Four German Prisons" (Robert M. McBride & Co., New York).

Mr. Mahoney was an collaborator Frederick A. Talbot, but to reassure the public he prefaces the book with an affidavit to the effect that the experiences related are all from his own observation and honestly set down. At the moment Germany and Great Britain were about to clash in arms Mr. Mahoney was traveling toward Russia, where he was engaged in scientific researches that involved the use of special and elaborate photographic apparatus, microscopes, optical lantern, and other accessories. In the mad search of alien from Germany was arrested and taken to a prisoner of war camp.

Dr. Ascher was responsible for the clean bill of health among the civilian prisoners. The soldiers were under a military manager, but owing to the arbitrary manner in which this official displayed his authority, and with which Dr. Ascher's civilian doctor who ministered for the prisoners, his services were in almost universal demand, and the strenuous work that he performed was very much appreciated.

"A short, sturdy, thick-set man, fair, but ruddy in the English language, and by frequent in the English language, and by frequent of a cheery disposition, Dr. Ascher was a true and unflinching representative of his profession. His mission here, frankly one of mercy, he emphatically refused to acknowledge. He was sympathetic to an extreme degree, and never once complained or proffered any excuse when called urgently to exert a special effort on behalf of any man.

"He became an especial favorite among the British prisoners. The fact that he came among them immediately upon our arrival at the camp seeking to extend relief to the sore, distressed, and suffering, his cheery conversation, and his grin though unsuccessful efforts to secure the food which were never forgotten. He became endeared to one and all. Indeed, he was elevated to such a pedestal of appreciation that he was affectionately christened 'The English Doctor,' which he accepted with a grateful smile, which he accepted with a grateful smile, which he accepted with a grateful smile.

He was at our disposal at any hour of the day or night, and he never omitted to spend hours among us, every day, in the camp, and he never omitted to spend hours among us, every day, in the camp, and he never omitted to spend hours among us, every day, in the camp.

Dr. Ascher resided near Paderborn, some three miles away, his readiness to come to our assistance at any moment, his repeated attempts to sympathize our conditions it is not surprising that we came to regard him as our one friend in this desolate spot.

The British prisoners, both civilian and military, never failed to reciprocate whenever an opportunity arose, and this appreciation of his labors made a deep impression upon him. No attempts were ever made to encroach upon his generosity. No man ever essayed to malign or to shirk a duty to which he had been allotted by the doctor. If the doctor desired a task to be done, no matter how repugnant, it was shouldered lightly and cheerfully. Indeed, there was always a manifestation of keen eagerness among us to perform some duty as an expression of our heartfelt thanks as for what he was doing among us. It is for what we are doing among us. It is for what we are doing among us.

It is for what we are doing among us. It is for what we are doing among us. It is for what we are doing among us.

## HUNDRED MEN A DAY HEREAFTER

The draftees under the Military Service Act, numbering 100 men, had their first drill this morning. They were drawn up in column of platoons and headed by the depot battalion band did considerable marching about the Barrack Green. Their parading this morning marks the opening of their training while in Canada. Although many of the men had never done any form of military marching before, yet they showed the object and the officers felt that there is good material in the men so far reported.

To make a very fine battalion. Starting today the registrar will call up 100 men a day instead of fifty, as heretofore.

## FREDERICTON NEWS

Fredericton, Jan. 7.—The campaign for the enforcement of the liquor act of York which was inaugurated some time ago with several raids was continued in the police court here this morning with three cases before the police magistrate. Two resulted from the raid and the other from the arrest of a man.

The Inspector Wilson was present. The Barker House was re-opened this morning by the proprietor, T. V. Monahan.

Special legislation must be enacted by the provincial legislature before the town of Devon, recently incorporated, can have full control of its public utilities. This is the result of the people of the village of St. Marys and Gibson some ten or twelve years ago being incorporated for water and fire purposes. The Devon town council will promote legislation to have control of the two systems, in the council instead of in boards of commissioners at present.

Sergeant R. W. Gregory, formerly shoe-maker-sergeant of the 296th, has returned here from Halifax. He was present at the explosion at that city. The sight of the explosion and that of the other is affected. Sergeant Gregory was the object man enlisted in the Canadian forces.

BETHUNE ANOTHER TYRRE

Active Patrol Work and Artillery Sniping Work—Health of Dominion Forces Excellent and Praise is Given the C. A. M. C.

Canadian Headquarters in France, Jan. 6.—(By W. A. Williston, Special Correspondent of the Canadian Press)—Behind the Canadian front another page is being written in the tragedy of the war of France, and France, knowing it, fights on with unbroken spirit and unflinching determination to the ultimate end of victory.

At present, lacking bright moonlight, the Hun airplanes have been quiet, but two weeks ago his machines were very busy. Raids of Bethune were most nightly occurrence until finally the civilians began to leave in large numbers for places of greater safety, while the city at nightfall seemed deserted, those who remained in it having taken shelter in cellars and dugouts.

In the field there is little of interest to report. Our patrols have been unusually active against the alert enemy, who had been sweeping No Man's Land nightly with machine guns. The enemy working parties were dispersed with casualties, while one of our reconnoitering groups came under heavy enemy machine gun bombardment, but escaped without loss. Our artillery has been busy sniping enemy working parties with eighteen pounders, carrying out the usual harassing fire, in co-operation with machine guns and trench mortars against

In St. John the Baptist church yesterday morning, the pastor, Rev. F. J. Father McMurray asked that the prayers of the congregation be offered for the repose of their souls.

H. W. Bromfield, of St. Luke's choir, was pleasantly surprised on Friday night when he went to choir practice at the church, to be made the recipient of a beautiful silver-headed umbrella, on which his name is engraved. The umbrella was presented to him by the church in recognition of the services he has rendered in the choir for a number of years.

**COLDER IN BANGOR THAN IN GREENLAND**  
 At Least Dr. Harrison Hunt, Who Has Been in Arctic, Feels it More

Esquimo Would Shiver There, If He Wore White Men's Clothes at 30 Below Zero—They Are Dressed for Cold in North

(Bangor Commercial.)  
 Dr. Harrison J. Hunt, who has been in the Arctic for the last four winters, compares Bangor's weather for the last week to that of Northern Greenland. "Zero in Bangor is what the 30 below in Greenland, and I have suffered more from the cold here during the past week than I ever did in the north. Thirty below here is just what the Eskimo would feel if he were dressed in white men's clothes at 30 below zero. They are dressed for cold in North

Well, the secret is out. Most people have had a feeling right along that Bangor was colder than the North Pole when the mercury went down as it has been going lately, hovering around the minus thirty mark, but now it has official confirmation. Dr. Harrison J. Hunt, who has been in the north in Greenland with the MacMillan Crockerland expedition, says that even zero in Bangor is worse than 50 below up there as far as its effect on the person is concerned, and that an Eskimo brought to Bangor would suffer more than we do if he wore civilized clothing. In other words, Bangor residents in order to be properly protected from the cold, should wear furs in the winter and take a swig of kerosene oil once in a while. Yet, the thermometer goes very low in Greenland—so low that thirty degrees seems uncommonly warm up there. Sixty to seventy degrees are not unknown, but the natives and white men who are properly clad in bearskins do not mind it as much as we do thirty degrees in Bangor.

From October to April in Greenland there is a steady range well below thirty degrees below zero, with no definite night and day fluctuations. February and March are the coldest months. People of Bangor need not be alarmed at the difference in thermometers on a cold day, for with over thirty thermometers of all kinds, American, English and German, and those all supposed to be letter perfect, not any two of them agreed in readings during our whole stay in Greenland, which does not speak very well for thermometers.

"Proximity to the open sea at Etah kept the temperature higher than 40 degrees below zero for two years," said Dr. Hunt. "At North Star Bay on Christmas day, 1915, with open water twenty miles distant, temperatures as low as 50 degrees below zero were the general rule, while one year ago this last Christmas day while I was coming southward across the Melville Bay ice, our kerosene froze at about 68 degrees below. It was not the best quality oil, however.

"If we were to bring an Eskimo here to Bangor, and dress him as we dress, with the low temperatures we have been having of late, he would freeze to death. Although these people live constantly in this cold atmosphere, they are just as susceptible to cold as are we, but they know how to dress and to care for themselves. The white man does not feel the cold any more than does the Eskimo up there, and does not have to be acclimated to the region, when dressed in the same manner.

"We did not feel 50 below temperatures while dressed in furs as much as we do zero temperatures here, with our inadequate clothing. Then, too, the dry and of ozone keeps one's physical energies at their highest efficiency. Food has a great deal to do with one's feelings in cold weather. One requires more fats, oils and meats and the more one eats the better one can stand the cold.

"They have colder weather in Alaska than in Greenland, that is inland, for the coast is protected by the warm stream. In Greenland the only time that one feels excess cold is when a storm is raging and the wind blows, at which time the cold cuts like a knife. In the excessive cold the noses and cheeks of the men will frost bite, but the white man shows no more effects from the cold than does the native of the land."

**The Supreme Importance of the Properly Furnished Home at the Present Time**

is aptly expressed in the following extract from an article on "Home Influence," by an English writer:

"In war time, as in peace time, we must live our lives. Our homes must radiate good cheer and optimism. It is in the home that we must look for courage and inspiration to face the daily tasks and duties—and the first requisite to a contented frame of mind is home influence, home attraction, home happiness."

**LOCAL NEWS**

The city waterworks department has not yet recovered from the recent cold snap and many mains have got yet resealed the normal service. The services to Long Wharf, McLeod's Wharf and East St. John were most affected and these have been restored.

On Saturday evening about six o'clock Silas B. Gregg was tossed eight feet and severely injured and Charles S. Hargreaves was injured in the face and a tooth displaced by an automobile owned by Grant & Home, at the foot of King street. They were crossing the street when the car came along. Effort to avoid striking the men was unsuccessful.

At about 9 o'clock last night No. 1 Ladder House in King street East received a telephone call stating that there was a fire in a house on Germain street, next to Emerson & Fisher's store. When the firemen arrived there they found no trace of a fire or any smoke, and so it was evident that the telephone message was a false alarm.

About thirty soldiers, most of whom are returned men, were entertained in German street Baptist Institute last evening by the members of the Philanthropic class of young ladies. The soldiers attended the service in the church first and then went to the chapel followed by a number of the congregation. The first part of the evening was devoted to singing and then refreshments were served. The boys greatly appreciate the efforts which were made to entertain them, especially after going through what they have in the trenches.

A parlor party was held on Saturday night at the home of Mrs. C. A. Ferris, 207 Rockland road, under the auspices of the North End branch, W. C. T. U., in aid of the flower mission. Mrs. E. N. Heutis, superintendent of this work, was ably assisted by Miss Muriel McIntyre, in preparing the programme. Mrs. R. D. Christie, the county president, occupied the chair, and gave an address on the work. Those taking part in the programme were: Otty McIntyre, Vivian Estabrooks, reading; Lillian Codner, piano solo; Miss Mary Kilpatrick, piano solo; Verta Roberts, reading; Muriel McIntyre, piano solo; Mrs. Harry Cotner, vocal solo; Mrs. M. Kilpatrick, vocal solo. Refreshments were served at the close.

It is announced that F. W. Sparham, manager of the Union Bank of Canada here, who has been acting in that capacity since last May, is to be succeeded by Mr. Ryan, a former Nova Scotia man, who has been managing a branch at Fort William. Mr. Sparham, who came here through all the antics and athletic manoeuvres of the day, under the instructor's guidance. From there the jolly crowd were ushered into the swimming pool, where all who so desired could enjoy a swim. And there were some corking fine swimmers among the boys. From here the boys were taken up stairs where the always welcome sound to the youthful ears of "tea" was thrust upon them. Hot coffee and substantial refreshments made up the menu and the happy lads tucked away a "young feast."

It was a delightful evening for the boys of the institute. Hon. R. J. Ritchie, Mrs. W. C. Good and A. M. Bidding accompanied the boys from their own club to the Y. M. C. A. and home again.

Mrs. Arsell Landry, Memramook, Westmorland county, received word some time ago telling of the death in France of her son, Private R. J. Landry, who was instantly killed November 6, 1917, while "carrying on" in battle. He was a native of Memramook where his family still resides. He was employed in Moncton when he enlisted in a New Brunswick regiment. He had many friends in Moncton and throughout Westmorland county. His father, Joseph Landry, died in June, 1917. The sympathy of many friends will go out to the bereaved relatives. A letter was recently received by his mother from Lieut. Charles A. Moore expressing the sympathy of the whole battalion and the dead soldier's comrades.

REICHSSTAG COMMITTEE  
GREATLY DISTURBED  
Troubled Over Russian Demand  
for Peace Negotiations at Stock-  
holm

London, Jan. 7.—A belated despatch  
from the correspondent of the Associated  
Press in Berlin, which is dated Friday,  
shows that there was great political  
perturbation following the meeting of  
the main committee of the Reichstag that  
day. The meeting lasted barely forty-  
five minutes, a motion for adjournment  
being supported by all factions except  
the Independent Socialists. Immediately  
on adjournment all the parties entered  
into caucus sessions which continued  
throughout the day until late at night.

LONDON SALOONS ALL  
CLOSED YESTERDAY FOR  
FIRST TIME IN WAR  
London, Jan. 6.—King George's proclama-  
tion fixing today for prayers throughout  
the British empire for what has been ac-  
complished in the war by British arms,  
in the cause of freedom and inviolation  
for the successful, speedy termination of  
the war was observed in the places of  
worship of every denomination. One of  
the features of the occasion was the  
closing of all saloons for the first time  
since the war began.

REPUBLIC OF FINLAND IS  
BEING GIVEN RECOGNITION  
Paris, Jan. 6.—The French government  
has recognized in right, as in fact,  
the independence of the republic of Fin-  
land," says the Temps today.  
Amsterdam, Jan. 7.—Germany has  
recognized the Finnish republic. An of-  
ficial despatch from Berlin says that  
after the Russian government declared  
its willingness to recognize the inde-  
pendence of Finland as soon as the ap-  
plication of the Finns was received, and  
after the Finnish government had taken  
a corresponding step at Petrograd, which  
expressed in the name of the German  
government recognition of the Finnish  
republic to plenipotentiaries of Finland  
now in Berlin. Chancellor Von Hertling  
received the plenipotentiaries, on  
Sunday and informed them Germany had  
recognized Finland.

ALL PASTRY SHOPS IN  
FRANCE TO BE CLOSED  
Paris, Jan. 7.—Three drastic measures  
for the conservation of food and other  
supplies have been decided upon by the  
minister of provisions, Victor Borel.  
All shops of confectioners and pastry  
cooks are to be closed and restaurants  
will be placed on restaurants charging  
high prices to keep them from bidding  
up the prices of supplies, and private  
use of automobiles will be prohibited.  
These measures will be put into ef-  
fect as soon as the senate passes the bill,  
already voted by the chamber of depart-  
ments, which confers on the minister power  
to enforce his decrees by the infliction  
of penalties.

Washington, Jan. 7.—A despatch to  
the Greek legation here says that a Ger-  
man aviator, a graduate of Berlin Uni-  
versity, who had deserted and arrived  
in Greece, told of starvation in Germany  
and the cruel treatment of the Greek  
population in Macedonia and Thrace oc-  
cupied by the Bulgarians.  
The aviator said that daily a great  
number of deaths occurred in Germany  
due to starvation. He added that the  
mood of the German army was lost  
because of insufficient rearmament due  
to the prolongation of the war. Mutinies  
and threats to the officers occur daily.  
This aviator before deserting visited  
the towns of Xanthi, Drama, Plov and  
Cavala and said that the most appalling  
tragedy that mankind had ever experi-  
enced was taking place in Macedonia  
and Thrace occupied by the Bulgars.  
Greeks from the age of seventeen to  
forty-seven have been taken by force into the Bulgarian  
army. The Bulgarian government hav-  
ing decided to exterminate the Greek  
population by starvation, does not bother  
to feed them. A pound of bread is sold  
at \$2.00. The aviator himself gave \$20  
to buy five pounds of sugar in Drama.

EARL READING TO  
WASHINGTON FOR  
THE WAR CABINET

Diplomatic Matters, Says Report,  
to be in Hands of Charge  
d'Affaires  
London, Jan. 7.—Earl Reading, lord  
chief justice, will go to the United  
States as direct representative of the  
British war cabinet, according to the  
Daily Express.  
While Earl Reading will have the title  
of ambassador, purely diplomatic mat-  
ters will be in the hands of a charge  
d'affaires, the earl controlling war ac-  
tivities.  
The appointment of Earl Reading as  
the ambassador is primarily for war  
purposes, it is said, and probably means  
that Viscount Northcliffe will not re-  
turn to the United States as head of the  
permanent British mission. Lord North-  
cliffe will continue the active direction  
of the American mission offices in Eng-  
land.

REPUBLIC OF FINLAND IS  
BEING GIVEN RECOGNITION

Paris, Jan. 6.—The French government  
has recognized in right, as in fact,  
the independence of the republic of Fin-  
land," says the Temps today.  
Amsterdam, Jan. 7.—Germany has  
recognized the Finnish republic. An of-  
ficial despatch from Berlin says that  
after the Russian government declared  
its willingness to recognize the inde-  
pendence of Finland as soon as the ap-  
plication of the Finns was received, and  
after the Finnish government had taken  
a corresponding step at Petrograd, which  
expressed in the name of the German  
government recognition of the Finnish  
republic to plenipotentiaries of Finland  
now in Berlin. Chancellor Von Hertling  
received the plenipotentiaries, on  
Sunday and informed them Germany had

ALL PASTRY SHOPS IN  
FRANCE TO BE CLOSED

Paris, Jan. 7.—Three drastic measures  
for the conservation of food and other  
supplies have been decided upon by the  
minister of provisions, Victor Borel.  
All shops of confectioners and pastry  
cooks are to be closed and restaurants  
will be placed on restaurants charging  
high prices to keep them from bidding  
up the prices of supplies, and private  
use of automobiles will be prohibited.  
These measures will be put into ef-  
fect as soon as the senate passes the bill,  
already voted by the chamber of depart-  
ments, which confers on the minister power  
to enforce his decrees by the infliction  
of penalties.

SERIOUS DELAYS IN  
OVERSEAS MAILS

Letters Rarely Less Than Three Weeks Old—Vast Consignment of Xmas Parcels Delayed  
Toronto, Jan. 7.—Douglas E. Robertson, in a special cable from London to the Evening Telegram, says:  
"There have been serious delays in the Canadian mail for a long time. Letters from Canada are rarely less than three weeks and often more than a month old. Sir Edward Kemp, deploring this state of affairs, told me he intended to do everything he could to facilitate delivery of letters to Canadian soldiers.  
"He is willing to send soldiers, incapacitated for duty at the front, and employed in English bases, to assist in handling and sorting mail on its arrival from Canada. The delay principally is due to congestion and a shortage of skilled mail handlers both in Canada and on this side.  
"To demonstrate that the delay is not due to lack of speed in ocean passage, an example is cited of a Toronto man who posted a letter the latter part of November, the day he left Toronto. He left Canada weeks later, arriving in England lately after a ten days' passage, yet the letter only arrived the same day he did. In consequence of the tardy handling of mail in Canada, of a cer-

"Mr. Peters," she writes, "has acted most generously with me and has paid me in cash \$8,000. He did this voluntarily and has done all any human being could do toward alleviating my trouble.

Tokio, Jan. 6.—Count Siki Teruchi, premier of Japan, in replying to a new year's message of David Lloyd George, the British premier, said:

"We congratulate ourselves that you can say the efforts of the imperial Japanese navy have contributed toward the accomplishment of this great end. May the co-ordinated devotion of the peoples engaged in the Titanic struggle against the organized forces of inhumanity and deceit come speedily to a full fruition."

DIVERSIFIED BILL AT  
OPERA HOUSE GOOD

Appeals to All and Much Enjoyed  
—Cray Ghost Chapter One of Best  
The programme at the Opera House this week is of such a varied character that it should appeal to all tastes. The outstanding feature, judging from comment of the patrons, is that presented by Ball Bros. It is one of the most amusing comedy acrobatic acts which has ever been presented on a local stage. Arriving on Hoegaarden's special freight the brothers start the fun and from that until the end of their act they keep the audience convulsed with laughter.

Another act which won favor was that given by the "White Steppers." A man and woman wearing beautiful costumes gave a demonstration of dancing, which won well merited applause. The scenic effects were also exceptionally good and were favorably commented on.

Walter Hayes gave a pleasing number of popular songs and selections on musical instruments. His playing on the xylophone was a feature and he received a good share of applause.  
Rome and Wagner kept the audience amused with some songs and jokes and were given quite an ovation at the conclusion of their act. Angle and Fuller also gave a pleasing entertainment and received hearty applause as they brought their act to a close.

This week's episode of the popular serial, The Gray Ghost, was one of the best yet thrown on the screen. Some of Eddie Polo's work is very exciting and is intensified by his endeavors to prevent his employer and friend, Wm. Hildreth, from placing a poisoned ring upon Morn Light's finger.

Lloyd George Speech Setting Out Objects Sought By Entente In War

Restoration; Regard For Treaties and Guarantee of World Peace; Belgium and Alsace-Lorraine Restored; Matter of German Colonies to go to Conference

London, Jan. 6.—The British prime minister, David Lloyd-George today set forth Great Britain's war aims more specifically and at greater length before the delegates of the trades unionist than he had ever done before.

Having first declared that it was not a war of aggression against Germany or the German people, and that the breaking up of the German peoples or the disintegration of their state was not one of the objects for which the allies were fighting, he proceeded to mention the fundamental issues for which Britain and her allies were contending.

First among these was the restoration of Belgium and reparation for the injuries inflicted. Next came the restoration of Serbia, Montenegro and the occupied parts of France, Italy and Roumania. France must have Alsace-Lorraine, and to this end, said the premier, the British nation would stand by the French demand to the death.

The question of Russia was touched upon and Mr. Lloyd-George said that Britain, as well as America, France and Italy would have been proud to fight by the side of the Russian democracy. But now could Russia be saved only by her own people. He declared an independent Poland an urgent necessity for the stability of western Europe.

SELF-GOVERNMENT IN AUSTRIA-HUNGARY AND TURKEY.

Roumania is to be protected and the British and other allies are with Italy in her desire for complete union of the people of Italian race and tongue. Of Austria-Hungary he felt, that while the breaking up of the Dual Kingdom was no part of the allied war aims, it was impossible to hope for the removal of causes of unrest in that part of Europe unless genuine self-government was granted the Austro-Hungarian nationalities.

The Turkish empire, within the home lands of the Turkish race, with Constantinople as its capital may be maintained but the passage between the Mediterranean and Black Sea must be internationalized and neutralized and in the British view, Arabia, Armenia, Mesopotamia, Syria and Palestine are entitled to recognition of their separate national conditions. The matter of the German colonies, all of which now are in the hands of the allies would be placed before a conference whose decision, however, must consider the wishes and interests of the inhabitants—the future administration must be acceptable to the various tribes.

Must Pay for Outrages.

The premier made brief reference to the violations of international law committed by Germany, with special emphasis on the sea, and the peace conference, he declared, must not lose sight of the outrages suffered by British and other seamen and the services they had rendered. The three cardinal points of the British terms, as enunciated by the British prime minister, are:

Re-establishment of the sanctity of treaties.

Territorial settlement based on the right of self-determination or the consent of the governed.

The creation of an international organization to limit armaments and diminish the probability of war.

No British statement since the beginning of the war has given such a detailed and explicit statement of Britain's war aims as contained in the premier's address, which was delivered before the manpower conference of the labor leaders in Westminster Hall.

Three hundred delegates were present and also Sir Auckland Geddes, minister of national service and George H. Roberts, minister of labor. George N. Barnes, member of the war cabinet, presided.

The proceedings were private, neither the public nor members of the press being admitted and after the meeting the delegates dispersed to their homes.

The public nor members of the press being admitted and after the meeting the delegates dispersed to their homes. The premier said that during the last few days he had taken special pains to ascertain the view and attitude of representative men of all sections of thought in the country. He had read the statements of labor war aims; he had discussed war aims with Mr. Asquith, the former premier, and Viscount Grey, the former foreign secretary. Had the nationalist leader in Ireland not been engaged with the tangled problem of Irish self-government, he would have been happy to exchange views with them, but Mr. Redmond, speaking in their behalf, had made clear what his ideas are as to the object and purpose of the war.

Labors Men Endorse Speech.

Most of the labor men who commented on the speech endorsed it. But Mr. Lloyd-George went further on some important points than was anticipated. Again he has drawn a sharp and detailed line against Germany on the question of Alsace-Lorraine. It may be recalled that the German foreign minister, Dr. Von Kuehlmann, recently declared that alone prevented the belligerents from meeting on a common peace ground.

When men by the millions are called upon to suffer and die and vast populations are being subjected to the sufferings and privations of a war unprecedented in the history of the world, the premier Lloyd-George said in beginning his address, "they are entitled to know for what cause or causes they are making the sacrifice. Only the clearest, greatest and justest of causes could justify the continuance even for a day of this condition of military domination, which we consider a deplorable anachronism. Our wish is that the adoption of a democratic constitution by Germany would be the most convincing evidence that her old spirit of military domination had indeed died in this war and it would make it much easier for us to conclude a broad, democratic peace with her. But that is a question for the German people to decide."

"It is more than a year since the President of the United States advised the belligerents by suggestion that each side should state clearly the aims for which they are fighting. We replied that the central powers did not, and they have maintained complete silence as to the objects for which they are fighting. Even on so crucial a matter as their intention regarding Belgium, they have declined to give any satisfactory indication."

Referring to the pronouncement by Count Czernin, the Austro-Hungarian foreign minister, at the Brest-Litovsk conference on Dec. 25, that it was not the intention of the central powers to appropriate forcibly any occupied territories or rob of its independence any nation which lost its political independence during the war, Mr. Lloyd-George said it was obvious that any scheme of conquest and annexation could be perceived within the literal interpretation of such a pledge.

"We must know what is meant," said the premier. For equality of right among nations, small as well as great, is one of the fundamental issues of this war, and her Allies are fighting to establish it.

Reparation for Belgian towns and villages and their inhabitants, he asserted, had been repudiated emphatically by the central powers and almost entirely a refusal on all concessions. On one point only were the central powers willing to restore the whole of her colonies to the separate states of the world, self-determination here vanishes.

"It is impossible to believe that any permanent peace can be achieved unless the formula of no annexation, no indemnity and self-determination is used."

"The days of the treaty of Vienna and the days of the treaty of Tilsit are no longer to be submitted to the arbitrary decisions of a few statesmen. The government will be held responsible for its own actions, and the consent of the governed must be the basis of any territorial settlement. For that reason also, unless treaties be upheld, it is obvious that no treaty of peace can be worth the paper on which it is written."

The first requirements always made by the British and their Allies have been the complete restoration, political, territorial and economic, of the independence of Belgium, and such reparation as can be made for the devastation of its towns and provinces. It is no demand for war indemnity, but insistence that before there can be any hope of stable peace this great breach of the public in Europe must be repaired and so far as possible, repaired.

"Reparation means recognition. Unless international right is recognized by the nations, no settlement for injury done in defiance of its canons, it can never be a reality."

"We mean to stand by the French democracy to the death in the sense that they make for a reconstruction of the great wrong of 71."

"While we do not challenge the maintenance of the Turkish empire in the home lands of the Turkish race, we do not support the passage between the Mediterranean and Black Sea being internationalized and neutralized, as the central powers propose. Arabia, Armenia, Mesopotamia, Syria and Palestine, are in our judgment entitled to recognition of their separate national conditions."

Remember the quickest, surest, most harmless relief is Pape's Diapessin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it digests food and sets things straight, so gently and easily that it is really astonishing. For your sake, don't go to bed with a weak, disordered stomach; it's so unnecessary.

Participate in an urgent necessity for the stability of western Europe. Austria-Hungary and Turkey.

"Though we agree with President Wilson the break-up of Austria-Hungary is no part of our war aims, we feel that unless genuine self-government on true democratic principles is granted those Austro-Hungarian nationalities who have long desired it, it is not possible to hope for the removal of those causes of unrest in the part of Europe which have so long threatened its general peace."

"On the same grounds we regard as vital the legitimate claims of the Italians for union with those of their own people. While we do not challenge the maintenance of the Turkish empire in the home lands of the Turkish race, we do not support the passage between the Mediterranean and Black Sea being internationalized and neutralized, as the central powers propose. Arabia, Armenia, Mesopotamia, Syria and Palestine, are in our judgment entitled to recognition of their separate national conditions."

"We mean to stand by the French democracy to the death in the sense that they make for a reconstruction of the great wrong of 71."

HEART WAS BAD NERVES ALL GONE

Very important it is in this age to have a clear cool head, a strong heart and steady nerves.

Too much work and bustle, work and worry, fall to the lot of women attending to their household duties and social obligations. The constant strain under which they continue day in and day out will soon shatter the strongest system. Before long the heart gets weak, flutters and palpitates, the nerves become unstrung, you start at the least sound, the pulse becomes weak and irregular, then finally comes physical breakdown or nervous prostration.

Milburn's Heart and Nerve Pills are the remedy you require to strengthen your heart and steady your nerves.

Mr. Jackson, 487 Balfour street, Peterboro, Ont., writes: "Fifteen years ago I was so bad with my heart I could scarcely cross the house, my nerves were literally all gone, and I was frightened at my shadow. I commenced to take Milburn's Heart and Nerve Pills, and was soon able to do my own work. I have told dozens of people about them, some as bad as I was, and today they are also doing their own work. If more people would take them there would not be so many weak hearts."

Milburn's Heart and Nerve Pills are 50c. per box at all dealers, or mailed direct on receipt of price by The T. Milburn Co. Limited, Toronto, Ont.

**GIFT OF WATCH TO M. J. POTTER**

Presentation Today to Retiring Postmaster of St. John

M. J. Potter, assistant postmaster, who will in the near future sever his connection with the service, was today made the recipient of a beautiful engraved gold watch from the staff as a token of esteem. At 1 o'clock the members of the staff assembled in the distributing department and Postmaster Edward Sears called upon Mr. Potter to step forward and receive a short address in part as follows: "My Dear Mr. Potter, I have requested your presence here today in order to say a few words that re-echo through the hearts of your fellow workers in this St. John post office, of appreciation of your sincere and sympathetic desire to help or assist each of those in the daily round of their exacting duties from junior to senior clerk. And to testify for myself the many kindnesses and thoughtful acts received from you since I have been in the office of postmaster." The postmaster then dwelt upon the way Mr. Potter had always performed his duties; the good example he had always shown to the members of the staff and the editing manner in which he had always borne the weight of responsibility. He said that he entered the service fifty-five years ago and at that time the junior clerks were H. C. Frink, W. S. Allen, John McCullough, James Woodrow and Mr. J. Potter. The watch has the monogram of Mr. Potter on the back and on the inside case the following is engraved: "M. J. Potter; a token of esteem from postmaster and staff, St. John, N. B., Jan. 1."

**THIS FAMILY HAS FINE WAR RECORD**

Mrs. L. Turner, of 161 Rodney street, West St. John, has reason to be proud. She has two sons overseas. Private Holly Turner, with 282nd Battalion, and Corporal R. M. Turner with No. 5 Army Service Corps; two grandsons, Charles Roberts of No. 1 A. V. I.; and a nephew, Arthur Banks of No. 8 A. S. C.; William Banks of 140th Battalion, recently killed in action, and Aubrey F. McLeod, a member of an overseas unit, who has lost both legs in the war.

**TROTSKY STRENGTHENS THE RUSSIAN FRONT**

(Continued from page 1.)  
A telegram from Brest-Litovsk to Amsterdam gives a wireless message sent to M. Joffe, chairman of the Russian delegation, by Foreign Minister Von Kuehlmann, for the German delegation; Foreign Minister Cassevin, for the Austrians; Foreign Minister Nessmy Bey, for the Turkish nation, and Minister of Justice Popoff for the Bulgarians. It realizes the fact that when the Central Powers outlined the terms on which they were willing to make peace they stipulated that these terms would be valid only if all the belligerents sent themselves within a certain period to observe them. The Russians then fixed ten days as the period in which the belligerents were to decide whether to join in the negotiations, but although this time elapsed on January 4, nothing has been heard from them.  
Another telegram from Brest-Litovsk states that informal discussions there on Friday between the Germans and the Ukrainians took a direction favorable to Germany.

A Petrograd despatch to the Daily Mail says that General Nissel, head of the French military mission, replied to Foreign Minister Trotsky's complaint respecting French military propaganda by stating that certain news received from Stockholm had been issued by a young officer by mistake. The general promised that no such mistake would be made again. M. Trotsky replied with a demand that the officer in question leave Russia.  
The correspondent adds that it is a pity that some of the allied diplomats pretend to ignore M. Trotsky, while in fact they are obliged to recognize his authority.  
Referring to the same incident, a Reuters despatch from Petrograd says Trotsky ordered the immediate closing of the French bureau, the removal of the wireless apparatus, and the immediate recall to Petrograd of French officers in the war area.

**Armistice in Ukraine.**  
An armistice has been declared in the Ukraine region, the Rada, the Ukrainian legislative body, and the Bolsheviks having agreed to a compromise of their differences. The Rada is said to be ready to decline to give support to General Kaledines and his Cossacks in return for the withdrawal of the Bolshevik troops from Ukraine.  
The Petrograd Post says the King of Roumania has called the Entente Allies that the Roumanians are determined to continue the war, notwithstanding the desires of the troops on the Russian-Roumanian front, and that M. Poincare, the French president, replied, assuring the King of France's support.  
The French government has protested against the seizure of French banks in Petrograd.

**MADE \$46 ON TWO CASES OF LIQUOR**

Five Matters in Which Drink Figures Are Up in Police Court

Five liquor cases were up in the police court before Magistrate Ritchie this morning. Frank O'Neill pleaded guilty to a charge of selling liquor to Robert Smith in Kyffin's beer shop in Union street on Jan. 5. There was also a charge against W. C. Kyffin, that of allowing the liquor to be sold on his premises, and E. S. Ritchie, appearing for the defence, sought to prove that Mr. Kyffin was not aware of the transaction and that he never kept liquor there himself. The testimony of both O'Neill and Kyffin bore him out in this. O'Neill told the magistrate that he paid \$46 for two cases from Montreal. He sold them at \$3 a bottle. "You bought them for \$20 and sold them for \$76," said His Honor. "Well, that's the next best thing to being connected with the Valley Railway." The case was postponed until the evidence of Robert Smith could be taken tomorrow at 2 p. m.

A longshoreman was charged with being drunk in No. 8 shed on the west side, resisting the police and using bad language on the ferryboat. The evidence of Policeman Gill and Sergeant Brodie, C. P. R. policeman as well as that of another policeman was heard. E. S. Ritchie and J. A. Barry appeared for the defendant, who was allowed out on a \$40 deposit until tomorrow at 2:30 p. m.

Sergeant Scott and Policeman Duffy arrested a man in Waterloo street for drunkenness and he was fined \$8 as well as \$8 each for profane and obscene language and \$20 for resisting the police. Policeman McFarland arrested a man in Erin street who was fined \$8 for drunkenness this morning. Two more were arrested yesterday, one by Policeman Kierstead in Main street and one by Policeman Litzel in Charlotte street. Both were fined \$8.

Frank Dibble was placed under arrest yesterday on charges of assaulting his wife. He was allowed out on \$20 deposit.

**MRS. CATHERINE REDMOND OF BLACK RIVER DIES SUDDENLY**

Many will learn with regret of the death of Mrs. Catherine Redmond, which took place suddenly at Black River, St. John county, last evening. Mrs. Redmond had reached the advanced age of eighty-three years. She was the widow of John J. Redmond, a member of the grocery firm of Power & Redmond, who carried on business in this city many years ago. Mr. Redmond then located in San Francisco and following his death there Mrs. Redmond returned to Black River, where she had made her home in recent years. She was a woman of high character, of a charitable disposition and was ever doing for those about her. She had a legion of friends, who will hear with regret of her death. She leaves two sisters, Mrs. John J. Mullin and Mrs. Martin McGuire of this city, and one brother, Robert Power of Black River. The funeral arrangements have not yet been completed.
