GENERAL CIRCULAR.

THE MOUNT ALLISON WESLEYAN COLLEGE was organized in July, 1862, under a Charter obtained from the Legislature of New Brunswick. By virtue of this Charter it possesses full University powers. An Act was subsequently passed amending the Charter, and changing the name of the Corporation to, "The University of Mount Allison College."

The College is conducted on strictly non-sectarian principles. The general denominational control under which it is placed furnishes a sufficient guarantee that sceptical license will never be allowed within its walls, but does not imply the existence of a purpose or wish to interfere with the conscientious convictions of any. The fullest recognition, however, is given to the truths and claims of the Christian Religion. The Bible is publicly honored as the Word of God, and no pains are spared that the education imparted may be suitably leavened with religious principle.

Students may enter the College either as regular Undergraduates, having passed the Matriculation Examination; or as Specialists, who do not look forward to a University Degree.

For Undergraduates two complete courses of study are provided, viz.:

1. The Regular Arts Course for the B. A. Degree.
2. The Special Course for those who prefer to substitute Modern Languages for Greek and Latin, and who may desire a greater number of elective studies than the Arts Course permits. The degree of Bachelor of Philosophy (Ph. B.) will be conferred on students who shall have completed this course.

There are also Honor Courses in Classics, Mathematics, Science, Philosophy, and Modern Languages and Literature.

Special Students are admitted to any class or course of Lectures for which, in the judgment of the Faculty, after due examination, they are deemed prepared; and upon leaving the College, they will be entitled to receive Certificates bearing the College Seal, and specifying the particular branches of study in which they have received instruction and passed satisfactory examinations.

Special arrangements will be made for the convenience of public school teachers who may desire to pursue a college course while continuing to teach during the summer term.

Ladies wishing to pursue an undergraduate course will find at Mount Allison facilities for thorough collegiate training under the most favorable conditions as regards health, and domestic and social advantages. Board may be had at the Ladies' College on reasonable terms. In addition to the regular undergraduate work the best instruction in Music and the Fine Arts is available.

Mount Allison was the first chartered college in Canada to admit women to all the privileges of regular collegiate courses and degrees.

The Matriculation Examinations are held on the second and third days of the first Term of the Collegiate year. Supplementary Examinations for special cases may be held at other dates.

CANDIDATES FOR THE MINISTRY.

Candidates for the Ministry of the Methodist Church of Canada, who have been appointed to attend College, will pursue the course of study prescribed on page 192 of the Discipline of the Church.

The Educational Society of the Methodist Church makes provisions for free tuition, and aids in meeting the general expenses of young men appointed by the Conference to attend College.

PRELIMINARY COURSE OF STUDY.

This Course of Study is designed to meet the wants of young men preparing to offer themselves to be received on trial for the Ministry. It embraces all the subjects prescribed for the preliminary and first year's examinations of the Methodist Conference, and may extend over one, two, or three years, according to the previous attainments and circumstances of the student.

The Theological parts of this Course may be pursued in connection with Matriculation in Arts.

The English and Classical parts of this Course are prepared in the Academy and College.

Students presenting themselves for admission to this Course should bring with them letters of introduction from the Superintendent Ministers of the circuits in which they reside. If they expect to offer themselves for the Ministry at the close of the year, they must be recommended from the quarterly meetings of their own circuits, and not from the Sackville quarterly meeting. Students bringing with them certificates of such recommendation will be exempted from fees for theological tuition. Licenses as exhorters or local preachers should, also, in all cases, issue from the Superintendent and quarterly meeting of the circuit in which the student resides, and where his church membership and standing should be continued.

After examination at the close of the College year, all students in the preliminary course will return home in time to be presented at their own district meetings, in case they wish to be received on trial by the Conference.

SOCIETIES.

Two Societies have been established, having a relation to this department. The one is designed for the benefit of the Theological Students in the College; and the other to serve as a connecting link between them and the Ministers labouring in the three Conferences of the Maritime Provinces, as well as to promote among the latter a spirit of Theological and Ministerial Culture.

Among the Students it is proposed, by means of Essays, Exegetical Papers, and oral discussions, to stimulate enquiry as to the best methods of Ministerial efficiency, and so to assist in preparing each other for the great work of preaching the Gospel, and feeding the flock of Christ.

The Ministers' Theological Union will meet at the close of each Collegiate year, and, in addition to the consideration of topics of interest belonging to their work, will have an annual Sermon preached, and a Theological Lecture delivered. The REV. D. CHAPMAN will preach the annual Sermon, and the REV. T. W. SMITH will deliver the annual Lecture in 1891.

LIBRARY, APPARATUS, MUSEUM, ETC.

In the course of the last two or three years valuable additions have been made to the Library and to the Chemical and Physical Apparatus of the Science Department.

The sum of Two Thousand Dollars given during the last year by the Rev. Ralph Brecken, M. A., for the purchase of books and scientific apparatus, has been carefully expended under the direction of a committee of the Faculty. More than seven hundred volumes of valuable works in History, Philosophy, Science, Poetry, etc., have already been placed on the library shelves, and books on local history, a department to which in the future special attention will be devoted, are being collected as opportunity offers.

The Library is kept regularly supplied with the leading Reviews, such as the *Edinburgh*, *London Quarterly*, *Westminster*, *Contemporary*, *Nineteenth Century*, *Fortnightly*, *Princeton*, *Bibliotheca Sacra*, *North American*, etc., etc.

The attention of the friends of the College is earnestly directed to the needs of the Library, and to the importance of establishing some permanent fund to secure its steady increase. There is no way in which money can be spent to better advantage in securing the sound development of the College as an institution of learning. Gifts of books or of money will be thankfully received and acknowledged.

Contributions for Library and Museum have been received from the following, among others :

JOSIAH WOOD, M. A., M. P.—Canadian Hansard; Revised Statutes of the Dominion of Canada; etc.

A. A. STOCKTON, D. C. L., M. P. P.—Journals of House of Assembly, N. B.; Educational Reports of U. S.; etc.

Through the liberality of Alexander Gibson, Esq., an annual addition of considerable value has been made to the Library for several years past.

THE EURHETORIAN SOCIETY.

This is a voluntary Literary Society, the history of which reaches back for more than twenty years. Its special objects are the acquisition of readiness and power in debate, and the cultivation of a pure literary taste. Not a few of the Alumni of the Institution who are to-day prominent in the professional and legislative circles of the several Provinces of the Dominion, have been enrolled in its membership. It has a well furnished room in the College in which its meetings are held weekly.

Students whose conduct or progress in study shall continue, after suitable admonition, to be unsatisfactory, will not be allowed to remain in the Institution.

Course of Study, Classification, Etc.

The course of study is designed to secure to the student thorough preparation for College matriculation or for entrance upon a course, either of special training for agricultural, mechanical, or commercial pursuits, or of specific study for professional life.

The students being classified according to their respective scholastic attainments, are arranged in two Departments. Each Department is sub-divided into classes, and has assigned to it its own appropriate portion of the course of study, as follows, viz.:

I.—PRIMARY DEPARTMENT.

This is designed as a Preparatory School for such of the more youthful pupils as may not be prepared for the exercises of the classes in the higher departments. The course of study in this department includes—

Reading and Spelling, Penmanship, Elementary Arithmetic, Geography, Elementary Grammar and Composition.

II.—INTERMEDIATE DEPARTMENT.—TIME, TWO YEARS.

Studies.

First Term.—History, English Grammar, Arithmetic, Greek Grammar, Latin Grammar.

Second Term.—History, Arithmetic, Analysis, Latin Reader, Greek Reader.

SECOND YEAR—FIRST CLASS.

First Term.—Cæsar, Xenophon, Geometry, Algebra, French,

Second Term.—Cæsar or Virgil, Xenophon or Homer, Algebra, Natural Philosophy, French, Geometry.

NOTE—Weekly exercises, alternately in Composition and Declamation, are required from all the students.

Students not preparing for Matriculation, may substitute Book-keeping and Commercial Arithmetic for Greek and Latin.

Department of Music.

A talented Professor of Music has charge of this Department. The course of instruction embraces a thorough training in Instrumental Music (Pianoforte, Organ, or Violin), Vocal Culture, Class and Solo Singing, Harmony, Thorough Bass, and Composition.

Business Department.

In addition to Commercial Arithmetic and Book-keeping, instructions may be had in Short Hand and Type Writing, so that young men may be well trained for a business life.

Requirements.

The general principle insisted on is *obedience to proper authority*. *No one will be allowed to continue in the Academy whose habits are damaging to good morals, or who persistently disregards its rules.* In cases in which it appears necessary to take steps towards severing the connection of a Student with the Institution, preliminary notice will be given to the parents or guardians, *if the gravity of the offence does not require instant action.*

Punctuality and regularity in attendance upon school duties, industrious application to study, chasteness of speech, proper observance of the Sabbath, a careful refraining from injury to the buildings and property of the Institution, and a strict abstinence from tobacco and from intoxicating drinks and places where they are sold, are especially insisted on.

Students are required to attend service each Sunday at the Church to which they belong.

Remarks.

All who design to become students of the Institution should enter, if at all possible, at the commencement of the Term, as the regular classes are then organized; pupils, however, will be received any time. The only prerequisites for admission into the Primary Department are a good moral character, ability to read and spell, and age sufficient to enable a pupil to prepare regularly for recitation.

Students in good standing can receive an honorable dismissal from the Institution at the end of the examination at the close of any Term, and at no other time, except in special cases.

Parents and guardians are respectfully requested to write to the Principal, should they find it necessary to recall a student in Term-time.

Parents are particularly requested to send every article of clothing marked with the name of the pupil in full. Initials are worthless.

Announcement.

The first term of the Academic year 1890-1 will begin on Thursday, September 4, and close on Wednesday, December 24. The second term will begin on Thursday, January 8, 1891, and close on Wednesday, June 3.

The object of this Society is to bring together all those who have studied at Mount Allison either in the College or the Academy, and to ensure the life-long devotion of Mount Allison's sons to their Alma Mater. All old students are cordially invited to become members. With a view of increasing the membership, the annual fee was reduced at the last meeting to one dollar. The funds of the Society have been devoted in past years to paying off a subscription of \$1,000 to the Endowment of the College, to furnishing scholarships to students of the College and Academy, and to adding to the Alumni Reference Library in the College.

MOUNT ALLISON
Ladies' College.

PRINCIPAL:
THE REV. B. C. BORDEN, M. A.

THE attention of the friends of female education is invited to the Mount Allison Ladies' College with a confidence proportioned to the successful history it has already achieved. As an additional warrant for claiming public patronage, reference may be made to the improvements and enlargements recently made in connection with the Academic edifice. These comprise a handsome and capacious wing, and an additional story to the entire structure. This increase of facility will greatly aid the Faculty in their effort to promote the comfort and progress of their pupils.

The Department of Music is under the charge of a gentleman of the very highest rank in his profession, aided by accomplished teachers. It is provided with an admirable suit of rooms, adapted to the Conservatory system. Superior new Pianofortes, both for instruction and practice, are furnished.

All departments of Instruction will be maintained in the very highest state of efficiency, and no pains will be spared to prove worthy of the public confidence and favor so generously and continually expressed.

Catalogues containing full information supplied on application to the Principal. Students admitted at any time.
