A MOTOR HOLD-UP

Sensational Affair in Heart of New York Ends in a Death.

New York, Nov. 15.-A hold-up and attempted highway robbery by six men in an automobile in Central Park west early today cost one of the automobilists his life. He was run down by the big touring car when the hold-up men were making a dash for liberty, and so severely hurt that he died in a highest standing in summer matricu- hospital soon afterwards without recovering consciousness. He was Wiggo Brandt, a chauffeur, 31 years old. The police believe that the hold-up was intended merely as a prank by half a dozen chauffeurs who were returning and arrests are expected to follow.

The victims of the hold-up were Miltel Belle Claire, his friend, W. G. Chittick, and a cabman, who was driving the two men to their homes.

SOMETHING MORE THAN A PUR-GATIVE.—To purge is the only effect of many pills now on the market. Parmelee's Vegetable Pilis are more than a purgative. They strengthen the stomach, where other pills weaken it. They cleanse the blocd by regulating the liver and kidneys, and they stimulate where other pill compounds depress. Nothing of an injurious nature, used for merely purgative powers, enters into their composition.

A Great Obstacle Overcome The greatest difficulty in the way of the local option movement in Owen Sound was overcome by the W. C. T. U. buying two hotel properties. For a long time the people of the townships surrounding Owen Sound thought Owen

Sound should take the step first, and the people of that town thought that the township people should take the first step. Crossley and Hunter, the evangelists, came to Owen Sound, and conducted a series of revival meetings. The town seemed to be ready for a revival, for during one month 1,500 men were converted, and the revival proved a great stimulant to the local option-

Temperance hotels were a great subject of discussion in Owen Sound during the time of the local option campaign, Many thought that the commercial travelers would not care to stop at temperance hotels, but this has been proven to be a mistake, and today the temperance hotels are well patronized. Miss Doyle then proceeded to tell of the desperate struggle for local option which ultimately resulted in a sweeping victory for the local optionists. Meetings were held of all kinds-men's mass meetings, chiefly. Every person in the town was personally interviewed; literature was distributed; everything in the power of the W. C. T. U. was done-and at last the right prevailed. Social Tragedy

Women Who Brave Death for Social Honors.

In the midst of one of the most brilliant social functions of the season, a noted society woman started suddenly from her chair with a scream of agony and fell insensible to the floor.

A few hours later the distinguished physician told her anxious husband that she was suffering from an acute case of nervous prostration brought on

by female trouble, and hinted at an operation. Fortunately a friend advised her to try

Lydia E. Pinkham's Vegetable Compound

The result was that she escaped the surgeon's knife and to-day is a well woman.

The derangement of the delicate female organism sets every nerve in the body quivering with pain. Headaches, backaches, torturing bearing down pains and dragging sensations make women nervous and hysterical.

Mrs. T. E. Gillis, of Windsor, N. S., writes:

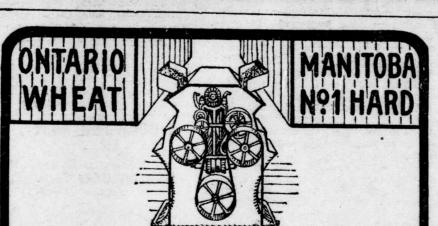

DEAR MRS. PINKHAM: -When I commenced to take Lydia E. Pinkham's Veg. etable Compound I was suffering with weakness and female trouble, headaches, backaches, and that worn-out, tired feeling. I have only taken the Vegetable Compound a few short weeks, and it has made me well, strong and robust. I believe that Lydia E. Pinkham's Vegetable Compound is without equal for

Mrs. Laura Emmons, President Loyal Home Workers, Walkerville,

DEAR MRS. PINKHAM, —I am enjoying such good health that I feel it a duty to write and thank you for what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered for more than five years with functional troubles, causing an unpleasant discharge and weakness which no amount of medicine, diet or exercise seemed to correct. Your Vegetable Compound, however, reached the root of my trouble, cured me and made me strong, healthy and well. I want to say to every suffering woman, don't dally with medicines you know nothing about, but take Lydia E. Pinkham's Vegetable Compound.

Did you ever hear of that proverbial man up a tree? Yes? Well, from what can be learned, he is an ancestor of some of the hockey enthusiasts around town. It is certain that there will be no ice at the Princess Rink, and it is doubtful whether the Jubilee people will sprinkle their floor. The management of the latter rink will not state positively whether they intend to have the "shiny" or not. If the weather is nice and cold, and if, etc. "Ifs" are a poor foundation upon which to build up a hockey league. The Simcoe street rink is out of the question, as it will not accommodate spectators. In the meantime the man up the "tall stump" is "it."

Billy Spry, the local Rugby crack, has charge of the Petrolea-Hamilton Y. M. C. A. junior O. R. F. U. semi-final Rugby match which takes place at Tecumseh Park next Saturday. He says that the teams are very evenly matched and should furnish a great struggle.

One strange thing about the Collegiate Institute presentation noted yes terday was the fact that the junior champion, Jack Pope, is about twice big a boy as the senior leader, A. McDonald.

When Mr. John Tiger, of Blufftown, by the bay, if you please, and the gridiron gents from Montreal meet on the Rugby field tomorrow at Ham ilton, there should be some fur flying about the strike-laden atmosphere.

The Hamilton Spectator says of the Dundas-Cubs game played on Wed

"The Cubs did not think that they had a chance to win out in the di trict, and consequently have not been practicing as faithfully as they migh have. Without Ripley on the line, they figured that they would not be able to stop the rushes of the heavy Dundasites. They went into the gan expecting to be beaten, but the first few minutes' play convinced them the they had a chance, and they spruced up, and fairly played the Dundas boys off their feet. In the second half they had the visitors on the defensive practically all of the time, and only good work by Pete Laing a former practically all of the time, and only good work by Pete Laing, a former 'Varsity star, who played with Dundas, kept the Tigers' score down.

"Nibs Harrison, the Cubs' diminutive center half, was largely responsible for the victory. Nibs is always a sure and a long punter, but yesterday he was even better than usual, and every time that his foot connected with the ball it traveled at least the length of the field. His long punts, combined Lewis Landed Him With Two May Use Plunging Tactics to with the fast following up and good tackling of the Tigers' wings, were responsible for the local scores. Harrison also got in a number of pretty runs, being very hard to stop when he got going. Although the grounds were soft and very slippery he kept his feet better than usual, and made very few mistakes."

New York Sun: It was rough on Capt. Eckersall, of the University of Chicago eleven, that in his last big game as a Maroon player he did not have a dry field on which to make use of his great speed and ability to get away like a flash. Eckersall is one of several ten-second men who are playing football this year. Being a sure catch of a punted ball, he was off like a shot, and a man had to be on top of him to tackle him. He was so fast Exciting Contests in the Winner of Marathon at Athens that he could take an oblique course and speed past many a man who had a shorter distance to go to intercept him. He made few mistakes in picking his route in a broken field, and especially did not make the mistake that many a fast man does make, that is, instead of trusting to his speed, trying elab-

Rulon-Miller, the Princeton half-back, is another ten-second sprinter, and so are Mayhew, of Brown, and Mount Pleasant, of the Indians. Mayhew is one of the most slippery runners on the field. Another such runner is Eddie Dillon, of Princeton, though not so fast. There is an elusiveness about Dillon. He simply has the faculty of not being there when you think you've got him -just seems to vanish past. The erratic Tad Jones, of Yale, has this faculty. He moves faster than he appears to be oving, and looks like an easy man to nail. Apparently he is going squarely into the arms of a tackler, but without slackening speed in the least he gives an almost imperceptible swerve

The above clipping calls to mind that the Forest City has a Rugby player who can go somewhere in the ten-second class. We refer to Hall the English "find," who was injured last Saturday at Dundas, and is at present laid up in the Victoria Hospital in this city. Hall was regarded as a topnotcher among the English sprinters at Oxford, where he studied previous to coming to this country.

"The Perfect Food"

Same Blg Package Same High Quality

"The Perfect Food," malt life, as its name implies, stands for that intense vitality that results from the daily use of a food skilfully prepared from the whole of the wheat, of which, after being cooked, each kernel has been subjected to the searching digestive action of the diastase and other enzymes of barley malt. This makes it a "predigested" food of highest nourishment value, which explains the remarkable results obtained in cases of nervous debility, deranged stomachs and constipation. Besides, it is the best

"We have used several boxes of Malta-Vita and think it the finest food we have tried yet. Having used different kinds, we find Malta-Vita has a flavor which excels all others. We had almost despaired to find something our baby could eat without being distressed. He had, since birth, been a constant sufferer from constipation and a general derangement of the stomach and boweis. Since we began feeding him Malta-Vita he has improved wonderfully in health and is entirely cured of constipation. In fact, myself and husband realize a great benefit since using the food, as we have suffered from general debility. We find it gives life and tone to the entire system." Name given on request by Malta-Vita Pure Food Co.,

MALTA-VITA is a food with a "taste." It does not belong to the tasteless variety of "fiaked foods" and too great credit cannot be claimed for Maita-Vita on account of the fact that it contains its own sweetening agent—maitose always being present in a proportion exceeding eight per cent and sometimes ten per cent. This is a healthy, digestible sugar, formed by the action of the mait diastase upon starch and it causes the stomach no inconvenience. This is not the case with flaked foods that are sweetened by came sugar, best sugar, maple sugar, boiled cider, glucose or grape sugar, as all these cause acidity in the stomach and are seriously injurious.

> New York, Nov. 15.-The mighty Roseben will be retired for the season, following his magnificent win with a ton of weight on Monday, and will not be seen again until racing is resumed at Bennings in the spring of 1507. His owner, 'Davy" Johnson, decided on Tuesday. when the great gelding flashed under the wire a winner over Oxford and a lot of other fast ones, that Roseben had more than earned a winter's rest, and a quiet retreat will be provided for the animal for the winter months, from which he will emerge, his owner believes, even a greater Rose

reater Roseben. Roseben closed the season as he began it, with a stake victory at Aqueduct. He won the Carter hancicap on the opening day of the season, and has been racing pretty steadily ever since. The effort to make him go a mile and a quarter in the big handicaps early in the season was futile, and at one time it looked as if it might have destroyed the horse's usefulness for sprint racing. But after a race Roseben came back to the races with all of his old-time speed, and stands pre-eminent today as the greatest weight-

carrier of the American turf. His most notable achievement of the season was at Belmont Park, where he ran seven furlongs in 1:22, creating a record for the distance that possibly never will be beaten.

Roseben carried 146 pounds in Monday's race, but his greatest weight-carrying stunt was performed last year, when he made the record for six furlongs with 147 pounds up. This is the greatest weight he has ever carried to victory, though he started once under 150 pounds and once with 148 up, but was beaten each time.

Roseben has won ten races during the season, with five times second and three times third. He won \$28,165 in money and captured six stakes. At Aqueduct in the spring he won the Carter and Sterling. at Sheepshead Bay he won the Fall handicap and Flight, at Belmont Park he won the Manhattan handicap, his success in the Bayview on Monday completing

missioner, London, Ont. Dear Sir,-The attention of writer, who is a member of the Windsor court of revision, has been called to an interview with you in yesterday's Advertiser in which you say that the Scot case in Windsor has probably been misreported You are quite correct. The court has all it can do to pass on values as directed under the assessment act without venturing into

the realms of legislation. The matter of Scot was very simple The assessor had assessed him for \$100 income, thinking that his earnings were \$1,100. Scot produced his paymaster's certificates to show that hi earnings had been less than \$1,000. We struck the \$100 off the roll.

The question of Scot being a railroad employe never entered in the case. Sincerely yours, A. J. E. BELLEPERCHE.

Unusual Overcoat Styles and Values

The "unusualness" of Young Overcoat styles speaks for itself. It's prominent. It shows the minute you put a garment on. There's a smartness, a perfectness of fit, a "madespecially-for-you" look to it that needs no pointing out by smooth salesmen. It makes overcoat sales here easier than they're made in any other store in town. We've made the values extra, too. Enough better than the best you can find elsewhere to impress you forcibly and quickly, and to prove conclusively the supremacy of the "Young" system of buying in the open market.

All sizes again for Saturday's trade in all these new and popular models: "The French Back," "The New Paddock," "The Varsity," "The Winchester," "The Chamberlain," "The Mortimor," "The Surtout," completing by long odds the best range of overcoat styles in London. In the biggest and smartest range of plain black and gray and fancy fabrics to be found in any one store. Every garment with splendid, broad, athletic shoulders, new lapels and absolutely perfectfitting collar. The French back models make some so-called French backs sold elsewhere look like jokes. Unapproachable at these prices, \$6.95, \$10, \$12.50, \$15, \$18, \$20

Hart Schaffner & Marx Hand-Tailored Overcoats from Chicago, for which we are exclusive agents here, are positively the highest-class coats shown in London today. Record breaking sales in these coats to the best dressers in London prove conclusively that there is merit and style in these garments that simply can't be got even in the highest-priced custom-made garments. For Saturday, the 17th, repeat order of Varsity models I. and II., form-fitting and French backs will be here in pure wool, black and gray kerseys, cheviots and new freize-

PEOPLE NOT UNANIMOUS

Division of Opinion Regarding the North Midland Railway for St. Marys.

Writing on the request of the North Midland Railway Company for a loan of \$40,000 from St. Marys, the Argus of that town, says: As St. Marys has five passenger trains a day to London now, and excellent freight facilities, it scarcely seems reasonable to expect that the ratepayers of this town will vote to loan \$40,000 to build a second road, and, if the road is to prove of inestimable value to London, why is London not asked to assist in building the road? "It will increase the conveniences of shopping at London," says Mr. Welch. Do the people of St. Marys wish the merchants to move to London to sell them goods? Surely not. Goods can be bought in St. Marys today as cheaply as they can in London. If the North Midland Railway Company chooses to come to St. Marys, unassisted, that is quite another story. By all means come, and welcome. But this town is not so well situated financially that it can afford to loan the amount asked.
