LOOKING FOR TROUBLE.

U.S. VESSELS ARE TO DEFEY DOMINICAN BLOCKADE.

The Washington Government Does Not Consider it Effective—Will Not Recognize the Revolutionists.

New York, Nov. 18.—Nevada M. Stranahan, collector of the port of New York, has received telegraphic advices from the United States Treasury Department advising him that the State Department does not consider the blockade of Dominican ports effective, and has entered a vigorous protest against it. The collector has notified masters of vessels that clearance papers will be issued for any ports in San Domingo, thus officially refusing the effectiveness of the blockade. At the offices of the Clyde Line it was said that the Cherokee will clear tomorrow for ports which the local Dominican Consul says are "closed."

Washington, Nov. 18.—The State Department has refused recognition to the Dominican revolutionists. The department says it can only recognize de facto Governments; and Minister Powell, who is on the spot, finds that the revolutionists have actually established a capital and opened ports and are able to protect life and property; he will be authorized to recognize them.

THE WAR OF WEALTH.

Morgan and Rockefeller Fight Each Other.

New York, Nov. 18.—The World has the following:—The Standard Oil Company declared yesterday a dividend of 12 per cent. or \$12,000,000, on its capitalization of \$100,000,000. Of this \$12,000,000 John D. Rockefeller will receive \$4,800,000, and his brother William will receive \$2,400,000. Yesterday's dividend, which is payable Dec. 15 to stockholders of record on Nov. 20, makes a total of 44 per cent. or \$44,000,000, for the year, against \$45,000,000 in 1902, \$48,000,000 in 1901 and 1900, \$33,000,000 in 1899, \$30,000,000 in 1898, \$33,000,000 in 1897, \$31,000,000 in 1896 and \$12,000,000 each in 1891, 1892, 1893, 1894 and 1895. As J. Pierpont Morgan and the Rockefeller interests are now generally believed to be in the midst of the greatest war that Wall Street has ever known, its ramifications taking in a great number of financiers whose fortunes are linked with one or the other of the leaders, the comparative value of Morgan and Rockefeller properties, based upon their capitalization, is receiving considerable attention. The Rockefeller properties, according to the ruling quotations yesterday, are worth \$84,979,282 more than the total of their capitalization. The Morgan properties, on the other hand, based upon yesterday's quotations, are worth the stupendous sum of \$1,132,841,788 less than their capitalization. In other words, the Rockefeller properties have increased nearly 100 per cent. upon their capitalized value, while the Morgan properties show a shrinkage of almost 50 per cent. upon their capitalized value.

THE SOO INDUSTRIES.

Big Sawmill Started up—Charcoal Plant May be Operated.

Sault Ste. Marie, Nov. 18.—The big saw mill of the Lake Superior Consolidated Company started up yesterday with a full complement of 125 men. Mr. J. S. Finkenthal has also given orders to prepare the veneer mill for operation, and as soon as the men can be hired this will be done. The charcoal plant also will be started as soon as Mr. Finkenthal can get contracts for its products. The two plants now in operation, with the addition of the veneer mill and charcoal plant, will employ 600 men, besides those who must be sent into the woods for the raw material.

CHICAGO STREET CAR STRIKE.

The Outlook for a Peaceful Settlement is Decidedly Flattering.

Chicago, Nov. 18.—Peace negotiations between the management of the Chicago City Railway and its striking employees have been begun, and the indications are that both sides will agree to arbitration. After a conference between Mayor Harrison, the officials of the company and the special Aldermanic peace commission and President Mahon of the Amalgamated Association of Street Railway Employees and his legal advisers, Mayor Harrison declared that the outlook for a settlement of the strike was decidedly flattering.

R. H. SCHWAAB KILLED.

Michigan Central Fireman Fatally Scalded.

St. Thomas, Nov. 18.—Mr. R. H. Schwaab, 85 Ross street, a fireman on the M. C. R., was terribly burned near Attercliffe about 5 o'clock yesterday. He was firing on No. 14 express, when a fire burst in the engine's quarter of a mile west of Attercliffe, putting out the fire and badly scalding Fireman Schwaab. A physician of Attercliffe was called to attend him, and accompanied him to the city. He was taken to the Amasa Wood Hospital. Mr. Schwaab was severely burned about the arms, back and legs, the skin peeling off. He was also slightly burned in the face. He suffered greatly from the shock, and died at 3 p.m. Mr. Schwaab leaves a wife and two children.

AT LAST?

Toronto, Nov. 17.—It is said that the date for the North Breenby election has been fixed, and that the writ will be issued in a few days, probably before the end of the week. The exact date of the contest has not been made public yet, but the evening Grit organ says it is certainly to be before Christmas, probably on or about December 15. The contest will be between Lorne Hale, on behalf of the Liberals, and E. A. Dunlop, on behalf of the Conservatives. The constituency has had a mixed record. In 1890 a Conservative named the present Conservative candidate carried the riding by a majority of 88. In 1894 Mr. Barr, a Liberal, was elected by 320. In 1898 Thos. White ran against Mr. Barr and won by 158. Shortly afterwards the constituency became vacant, and again changed its allegiance by electing the late Mr. Munro.

THE FASTEST AFLOAT.

Motor Torpedo Boat for French and Russian Navy.

London, Nov. 18.—Mention was made a week ago of the new types of explosion motor with which the Russian and French Naval Departments are experimenting, with a view to their introduction on torpedo boats and destroyers. Mr. D. Angier has been kind enough to furnish us with a few more particulars of the explosion engines which are now building for the Russian Government. They are being made in Germany, and are to be fitted to a torpedo destroyer. The engines are twin-screw, of a combined 12,000 horse-power. The horse-power of each engine is 6,000. Only one engine has as yet been completed, but the second is nearly ready. It is expected that the speed trial of the new destroyer will take place at Cronstadt some time this month. A speed of 38 to 40 knots is promised for the craft; and if these promises are realized the new destroyer will be the fastest thing afloat. The engines have been built, not according to the inventor's exact specifications, but on the design of the Chief Engineer of the Russian Government; and it remains to be seen whether their construction is heavy enough. The whole of the engines will weigh only 100 tons—50 tons each engine—and for a developed horse-power of 12,000 this will strike some critics as unduly light. The fuel consumption is not yet exactly determined, but in coal units it is calculated as 500 grammes per horse-power hour.

CANADIAN HORSES WIN.

Taking Good Prize at the New York Horse Show.

New York, Nov. 18.—In the competitions at the New York horse show the jumping class resulted in the triumph for the Canadians, Crow & Murray's Sweet Lavender carrying off the first prize, the second and highly commended ribbons going respectively to Myopia and King Edward, entered by George Pepper.

In the roadster class the first prize went to Rhea W., shown by E. T. Stotesbury of Chestnut Hill, Pa.

In the competition for pacers shown before private omnibuses, the blue ribbon went to Astonishment and Surprise, owned and driven by Reginald C. Vanderbilt. The pair also took prize with the same pair shown before a stanhope.

In the tandem class the first honors went to Hildred and The Baron, shown by E. D. Jordan of Chiltonville, Mass.

The last event, a jumping competition for heavyweights, was another victory for the Canadians, Adam Beck's Dublin taking the first prize, the third going to George Pepper's King-ful.

HEAVY CANADIAN LOSSES.

Lloyd's, London, Had Five Steamers Burned This Year.

New York, Nov. 18.—The steamer Atlantic, burned at Parry Sound, November 10, was valued in the Canadian Inland Lloyd's Register at \$20,000 and was insured this year at Lloyd's, London, through Chicago brokers, for \$30,000, at a rate of 90 cents, the Canadian companies having formerly carried it at the local tariff rate of 2 per cent. This is the fifth Canadian steamer burned this year which has been insured at Lloyd's at rates which average about one-half those charged in Canada—the total losses upon these aggregating over \$500,000.

EXODUS FROM DAWSON.

The Stage Service is Utterly Inadequate.

Vancouver, Nov. 18.—A despatch from Dawson says the stage service is utterly inadequate, and the trail to White Horse is black with people walking out, even small fortunes failing to purchase passage, although many independent rigs are in operation.

The Pacific Storage Company has let contracts to haul 150 tons of meat from the steamer Lightning frozen in below Eagle. The vessel will be stripped lest she be lost through ice grinding.

A systematic patrol of the rivers from Dawson to White Horse, as a means against desperate criminals, themselves moving secretly and always at night.

It is now forty below at Dawson.

The municipal campaign is already inaugurated. James McDonald, Thomas Chisholm, John L. Dumas and Chas. Chisholm, being out for the Mayoralty.

Nearly all the rich portions of Dominion, Bank and Gold Creeks will be worked this winter.

WELCOME TO ROSEBERY.

LIBERALS PLEASED AT HIS RETURN TO ACTIVE POLITICS

Edgar Wallace's Strong Words Regarding the City of Montreal—The Merry Fiscal Fight.

London, Nov. 18.—Sir Henry Campbell-Bannerman addressed a large Liberal meeting at Frome yesterday. A significant feature of his address was the welcome he accorded to Lord Rosebery's expressed intention of returning to public life. He said:—"It is with cordial satisfaction that every man among us hears that Lord Rosebery—(loud and prolonged cheers)—"is free to share the labor and responsibilities of public life in active co-operation with a united Liberal party. This is indeed good news. All true Liberals will welcome his appeal for unity." The speaker referring to Sir Michael Hicks-Beach, remarked:—"Those who are defending fiscal and commercial freedom want his aid, and we promise to forgive all about the sugar convention." Mr. Chamberlain and Premier Balfour he compared to street musicians, "So loud is the former's cornet," he said, "that we cannot hear the latter's concertina, but the peace given to the concertina player are shared by the cornet player."

The free-traders were startled again yesterday when the official list of the Duke of Devonshire's supporters at the coming Queen's Hall demonstration appeared without the name of Sir Michael Hicks-Beach. Inquiry revealed the fact that Sir Michael has not yet accepted the invitation to be present.

Senator Glassey, the founder of the Australian Labor party and a former leader of the Northern miners strongly supports Mr. Chamberlain, provided Great Britain grants an adjustable preference to Australian raw material, including wool. He says "My old Northern miners, who are startled by the abruptness of the new proposals, will find on second thoughts the British Empire cannot hold her colonial trade without being secured by a preferential market."

The Scotsman is delighted with Hon. Mr. Foster. It says he is able to answer Lord Rosebery and Mr. Asquith, and to show that Canada desires the new lines of a political and commercial union with Britain. It eulogizes his racy and vigorous western phraseology and says that Mr. Foster brushes roughly aside the pious prayers and theories spun in the closet away from the busy world, and advises the refuge of a practical tariff as the lesson that Canada has hammered out of her own experience.

The Financial News, discussing the New Zealand preference, says the members of her Parliament counsel delay for the same reason that a large section of the Canadian people do in order to see what the motherland will do in return.

The Imperial Tariff Committee has issued a leaflet upon Mr. Chamberlain's fiscal policy by Prof. Wallace of the Workingmen's College, London, which was a study of tariff history shows that preferential treatment of colonial produce had always been a prominent feature of our tariffs up to 1846, and therefore it is not a new proposal. "Mr. Henry Tennant, the oldest railway manager in England, does not believe the country is in a depreciable condition. The population has increased largely in the last ten years to 1901, during which time the railway companies spent £250,000,000 on improvements.

A British manufacturer, replying to the Hon. Mr. Haldane, M.P., says that Englishmen are no fools. The scientific processes used to boom German trade all originate in Britain. The handicap of the British people is the lack of a protective tariff.

Edgar Wallace, writing to the London Daily Mail, compares Montreal to a beautiful woman, down at the heels. He says it is the worst and most depraved city in the world, and the stamp of America is on the town and one-third of the people.

The Evening News in a biography of the King of Italy says he is responsible for the present issue of postage stamps in Italy, just as the Prince of Wales designed the new Canadian stamps.

FASTER VESSELS REQUIRED.

New Atlantic Mail Contract to be Made Next Year.

Ottawa, Nov. 18.—The Atlantic mail contract held by the Allan Steamship Company expires in August next, and the likelihood is that if the company wish to secure a renewal they will be required to provide a speedier service. There is no gainsaying the fact that the existing service is far from satisfactory. The average rate of speed is far below what it should be, and Sir Richard Cartwright, according to reports, is firmly convinced that the time has come for an improvement. It is stated that the Allans are prepared to comply with the wishes of the Minister of Trade and Commerce, and next summer may therefore witness the inauguration of a faster Atlantic line.

Sir Melville Parker, Bart., died at his home, "Knolly," Cooksville, yesterday, in his 80th year, after an illness extending over several months.

Captain W. H. Taylor of the C. P. R. steamer Lake Manitoba has been presented by the Royal Humane Society of Great Britain with a medal and testimonial for rescuing five men from the schooner Grenada of Lunenburg, N.S. The steamer's crew have been awarded sums of money.

GOLD THROWN AWAY

Sydney, Nov. 17.—The mining warden at Bulong near Kalgoorlie, West Australia, reports the discovery of telluride ore at Mulgabbie at a depth of 60 feet. The seam is a foot wide, and samples are assaying 400 ounces of gold to the ton.

The warden is preparing for a great rush. For two miles along the seam the ground is already pegged out.

It appears that two men working in the shaft have for weeks been throwing the telluride away in ignorance of its value.

Telluride is a compound of tellurium with an electro-positive element. Tellurium has hitherto been one of the rare elements. It occurs in nature in small quantities in the native state, and also in combination with various metals, such as gold and silver.

SUSPICION OF MURDER.

Charles Edmiston Found Dead at Montreal.

Montreal, Nov. 18.—The Coroner's jury at an inquest yesterday on the body of Charles Edmiston, a native of Poulney Hill, England, who was found dead under a 6 and 7 trunk train on Thursday night, found "strong suspicion of crime" and recommended the case to the police. The testimony of witnesses showed that Edmiston had been connected with large gold mining interests in Australia previous to coming to Montreal. A few years ago he sustained a sunstroke, and since that time he travelled considerably for his health. He spent a great deal of his time in Winnipeg, Montreal and in the mining towns of Australia, where he was interested in gold-digging.

The Coroner, in summing up the evidence, said that while it was certain that Edmiston had been run over by a Grand Trunk Railway train there was also strong suspicion that a crime had been committed. The dead man's valuable watch, money, ring, and other trinkets were missing. He might have been drugged or knocked senseless, robbed and then placed on the track for the train to do the rest.

SLUGGED THE CARRIER.

An Interesting Assault Case on Trial at Cayuga.

Cayuga, Nov. 18.—The Assizes opened here before the Hon. Mr. Justice MacMahon. Eight civil and two criminal cases are entered for trial. Mr. Alderman of Hamilton will conduct the Crown business. Long v. Long, an action for damages for a personal injury, was the first case to be tried. Mr. J. E. Denton, K.C., for plaintiff; Mr. Lindsay for defendant.

Walter Gamble v. Harvey Hare was an action for damages for assault and battery. A mail driver, in March last, drove an employee from Hagersville to Selkirk on defendant's train. He admitted striking the plaintiff twice at least, but said that, being a consumptive, he could not deliver a severe blow. On cross-examination defendant admitted that he had been in the habit of exercising with a punching bag. The case was not concluded when the court adjourned.

VANCOUVER ELECTION.

The Labor Vote Will Decide Today's Contest.

Vancouver, B.C., Nov. 18.—The Liberals have held their final meeting in the interests of Capt. Duff Stuart, and tomorrow the votes will be decided between him and Hon. Charles Wilson. The result will be decided wholly on the course pursued by labor, for the Socialists, with a city vote of fifteen hundred, will refrain from endorsing either of the old party candidates.

To Get Rowley's Evidence.

Toronto, Nov. 18.—Chief Justice Meredith has made the following order:—

Eigin Loan & Savings Co. v. National Trusts Co.—Judgment (on) on motion for writ of habeas corpus to produce one George Rowley as a witness in certain actions to be tried at St. Thomas on Nov. 19th, 1903. Order made for writ of issue directed to Warden of Kingston Penitentiary requiring him upon proper conduct money being paid for bringing, returning and maintenance on way, to produce the said George Rowley before the presiding Judge.

TELEGRAPH BREVITIES.

The estate of W. W. Sneath, Midland, will be wound up.

Provincial Treasurer John T. Davidson of Manitoba was buried at Neepawa.

The Cleveland steamer Minnesota caught fire and was beached at St. Clair.

The Toronto Junction Council passed the second reading of the local option by law.

Thomas Leclair was shot near Calabogie while carrying a dead deer out of the woods.

Mr. W. F. Scott of Brussels has been appointed Homestead Inspector for new Ontario.

The Municipal Committee on Niagara power have been unable to select an electrical expert.

The first grant from the fund to encourage nature study in public schools goes to Carleton county.

Efforts are being made by Mayor Harrison and others to settle the Chicago street railway strike.

Belleville electors will vote in January on a by-law to raise \$50,000 for the purchase of the gas works.

A C. P. R. special ran into two flatcars at Owen Sound, and a bad smash resulted. No one was hurt.

ENGLAND'S GREETING.

VICTOR EMMANUEL AND HELENA ARE WELCOMED.

Prince of Wales Represented the King in Extending Great Britain's Hospitality.

(Canadian Associated Press.)

London, Nov. 18.—King Victor Emmanuel and Queen Helena of Italy reached Portsmouth on the royal yacht Victoria and Albert shortly before 11 o'clock yesterday, amidst salutes from the ships and land batteries in the harbor.

Upon the arrival of the yacht at the jetty the Prince of Wales went aboard immediately and welcomed their Majesties in the name of King Edward and of the nation.

A torpedo fleet formed an escort for the royal yacht through the home fleet lying at Spithead. Guards of honor of bluejackets and marines lined the jetty and a band played the Italian national anthem as the yacht steamed alongside. The Prince of Wales was met at the top of the gangway by King Victor Emmanuel and Queen Helena. After greetings had been exchanged the naval and military commanders were introduced to their Majesties and the Mayor of Portsmouth presented an address to King Victor Emmanuel, who briefly expressed his thanks.

After luncheon on board the yacht King Victor Emmanuel inspected the guards of honor and the naval cadets from the college at Osborne, after which the party started for Windsor. The royal personages dined together at Windsor Castle.

HEALY'S BITTER WORDS.

Trouble Between the Irish Sections Approaching a Crisis.

Dundalk, Ireland, Nov. 18.—Timothy M. Healy, speaking here yesterday, urged the landlords to make the best possible bargains with their Irish tenants within the next two or three years and not to be too exorbitant in their terms. Otherwise, said Mr. Healy, the London financiers who had to find money for the carrying out of the land purchase act might not be so keen.

Quite apart from this there was likelihood of the Liberals, who opposed the land purchase act in Parliament, coming into office. The present Cabinet and the Conservative party, besides its pro-Irish section represented by Premier Balfour and Chief Irish Secretary Wyndham, contained also an anti-Irish or Chamberlain section, the members of which would not give a cup of water if they could help it.

Mr. Healy dwelt at considerable length and in great detail on the sale of the Wexford estates of John Redmond, the Irish Parliamentary leader, contending that Mr. Redmond was getting far too much for his land and advising him to discontinue the sale on the present terms. If Mr. Redmond did not take this advice Mr. Healy believed that the story of the sale of his land would re-echo through Ireland and "stink in the nostrils" of Irish tenant farmers.

Mr. Healy said Mr. Redmond's services to Ireland could not be measured even by a far greater sum than the profits of this transaction, but the reward for his services should come as a voluntary gift or testimonial from the Irish people.

SLEPT FIFTEEN YEARS.

German Girl Awakened From Trance by the Fire Bells.

Berlin, Nov. 18.—Sesine Meyer, a girl who has lain since December 27, 1888 in a trance-like sleep, awoke yesterday in the village of Grambe, near Bremen, during the clanging of fire bells. Her case had long interested physicians, and she has been the subject of various experiments in the fifteen years that she has slumbered.

THE NEW

DOROTHY DODDS ARE HERE

Are here in all their brightness

Many new lasts and styles have been added to our stock. We can fit any ladies' foot with a Dorothy Dodd Shoe.

Chamois Vests That Fit.

There's no question about the value of chamois vests as lung protection, but most of them are so ill shaped and poorly constructed as to produce irritation instead of comfort. We have a line of vests that it is a pleasure to wear and a comfort as well. They are perfectly form fitting and set put together that no weight comes on the seams. Our prices on these chamois vests are so reasonable that you really have no excuse for exposing yourself to danger by not wearing one. Prices range from

\$1.25 to \$2.00.

Good Buggy and Harness for Sale—\$25.00. Who wants it? Opposite the Post Office. T. C. O'Rourke.

L. J. Ferritor, superintendent of this division of the Grand Trunk, was in Chatham yesterday.

One of the best serial stories ever published will commence in The Big Saturday Planet this week. It will be well worth reading.

A citizen complains that the cover over an intake on Cross St., near West St., is off half the time, and that the spot is dangerous to horses.

Ernest Elliott has left the hospital, where he has been confined for the past two weeks, suffering from a severe strain, and has gone to his home in Ridgeway.

The sterling silver belt pin which was advertised for in this Great Home Journal was recovered yesterday by the adlet. Planet ads always bring returns.

A Scotch dinner will be given by the ladies of the First Church on Monday evening, 23rd, to be followed by a Scotch program. Rev. J. Tolmie will be present. Tickets, 50 cents.

The many friends of Garnet Boyd will be pleased to learn that he is recovering from an attack of typhoid fever. Mr. Boyd left the hospital and returned to his home here some days ago.

The firemen were called out last evening to a burning chimney on the residence of Mr. Corbett, fifth street. Box 14 was pulled and Chief Pritchard wishes it distinctly understood that the person who pulls a box should stay at the box until the department arrives.

William Barclay, injured in the explosion at the Loxar Works, fifth street, yesterday afternoon at 4:30, as announced in The Planet last evening. He was well known in Chatham, as he lived here for many years. He leaves a family of three children, two sons, George and Frank, and a daughter, Gertrude.

E. Blake Arnold pulled his electric vapor launch Winkie out of the river yesterday and has housed it for the winter. Mr. Arnold has had a lot of pleasure out of his craft this year and has made many trips to the light house in this little pleasure craft. It is one of the trimmest and neatest of the many launches on the river.

At the Queen Street Baptist Church, St. Catharines, on Sunday, Rev. J. L. Ross, the pastor, stated from the pulpit that he had received a call from the congregation of the Talbot Street Church, of this city. He was undecided as to what action to take, but would announce his decision on Sunday next.—London Free Press.

This morning's Detroit Free Press contains a picture of the late Capt. Robert White, who died yesterday in Detroit. The captain was a brother of the late Wm. White, ex-chief of the fire department of this city. The late captain was well known by many Chathamites and was a Canadian born. He had sailed the lakes for twenty years and had never lost a ship or man.

The police have Wm. Shea locked up on a charge of vagrancy. His father, Patrick Shea, says that his son refuses to work. He has more than he can do, but his high and expert shoemaker, refuses his assistance. Chief Holmes says that the young man appears to be out of his head and is suffering from a delusion that the people in the Central Prison are attempting to kill him every night.

One of the best serial stories ever published will commence in The Big Saturday Planet this week. It will be well worth reading.

OFFICERS' MEETING

A special meeting of the officers of the 24th Regiment will be held this evening at the offices of Col. Rankin at eight o'clock. A full attendance is requested, as business of importance is to be considered.

FOUND BY THE PLANET

J. W. Steinboff, Wallaceburg, called up Chief of Police Holmes yesterday and said that he had seen in The Chatham Planet that a Thamesville woman was looking for her erring husband, Oliver Edwards. Mr. Steinboff stated that Edwards was working for him and was living with the deaf and dumb woman. If the man's legal wife should go to Wallaceburg she would locate her husband easily. The police notified the woman but she was unable to go. She called on the Crown Attorney with a view to starting the machinery of the law, but he was out of the city and so there was a little delay.

One feature worthy of note is the part The Planet played in this episode. If you want to find a husband or anything make your wants known in The Planet.

WERE WEDDED

A very pleasant social event took place yesterday at the residence of Mr. J. W. Gibson, of Blenheim, when the Rev. D. W. Collins, of that place, performed the marriage ceremony uniting Frank R. Brundage, of the city of Chatham, and Miss Mildred Broadbent of Chatham Cross. About fifty relatives of the interested parties were present to witness the ceremony and enjoy the tastefully served dinner.

The decorations were very neat and artistically arranged in white and pale green. Both of the young couple are well known in the city of Chatham, where Mr. Brundage has managed an ice business for some years. He has been very active in sports and a good lacrosse player and amongst the boys has been a hale fellow well met, and to show their appreciation of his merit the lacrosse boys of this city met him on Friday evening last and presented him with a beautiful dress suit and other articles which need not be mentioned. The bride is also well known here, having taught in the kindergarten for some time, and was popular amongst the girls and boys as well. A short honeymoon will be spent in Detroit and Port Huron, and in two weeks the young couple will leave for Winnipeg, to which place they carry the good wishes of their many friends.

Reported by F. B. Proctor, Broker, Northwood Block, Chatham, Nov. 18, 1933.

CAN MAKE MEN SOUND AND STRONG.

Detroit Specialist Discovers Something Entirely New for the Cure of Men's Diseases in Their Own Homes.

You Pay Only if Cured

Expects No Money Unless He Cures You—Method and Full Particulars Sent Free—Write For This Very Day

A Detroit specialist who has 14 certificates and diplomas from medical colleges and boards, has perfected a starting method of curing the diseases of men in their own homes; so that there may be no doubt in the mind of any man that he has

DR. S. GOLDBERG,
The Possessor of 14 Diplomas and Certificates Who Wants No Money That He Does Not Earn.

both the method and the ability to do as he says. Dr. Goldberg, the discoverer, will send the method entirely free to all men who send him their name and address. He wants to hear from men who have structure that they have been unable to get cured, prostatic trouble, sexual weakness, varicocele, test manhood, blood poison, hydrocele, enlargement of parts, impotence, etc. His wonderful method not only cures the condition itself, but likewise all the complications, such as rheumatism, bladder or kidney trouble, heart disease, nervous debility, etc.

The doctor realizes that it is one thing to make claims and another thing to back them up, so he has made it a rule not to ask for money unless he cures you, and when you are cured he feels sure that you will willingly pay him a small fee. It would seem, therefore, that it is to the best interest of every man who suffers in this way to write the doctor confidentially and lay your case before him. He sends the method, as well as many booklets on the subject, including the one that contains the 14 diplomas and certificates, entirely free. Address him simply:

Dr. S. Goldberg, 208 Woodward Ave., Room 208, Detroit, Mich., and it will all immediately be sent you free.

This is something entirely new and well worth knowing more about. Write at once.

A Sure Way of Saving.

An ingenious method of putting his savings beyond his own reach has been adopted by a German writer who found from dire experience that all his profits melted away as soon as earned. Having made \$10,000 by a fortune-telling literary speculation, he placed the whole of the money, together with his will, in the Imperial Deposit Bank at Berlin and on receiving the receipt from the cashier deliberately tore it up. The cashier thought he was mad and told him angrily that it would take fully three years before he could expect to obtain a duplicate receipt. "That is just why I have torn up the original," calmly remarked the depositor, "and now the money is safe for that time."

The Marriage Knot.

Few of those who talk about the "marriage knot" realize that the knot was ever anything more than a mere figure of speech. Among the Babylonians tying the knot was part of the marriage ceremony. There the priest took a thread of the garment of the bride and another from that of the bridegroom and tied them into a knot, which he gave to the bride, thus symbolizing the binding nature of the union.

The man of letters naturally wants them to be considered letters of credit.

Society is the mother of convention.

Father and Son

BOTH CURED OF KIDNEY TROUBLE

BY

Doan's Kidney Pills.

Mr. Benjamin Brooks, a well-known farmer of West Cape, P.E.I., tells of how his son was cured of Kidney Disease, and how he was cured of Backache.

The First Sign of Kidney Trouble.

He says: "Our little boy was troubled with kidney disease. We had tried many kinds of kidney pills but they only helped for a time. We got Doan's Kidney Pills and one box effected a perfect cure. About six weeks after this I caught a very bad cold that settled in my kidneys. My back was so sore I could hardly walk. I went to the drug store and got a box, took them according to directions and the result was that my back was completely cured. I believe they are the best kidney pill on the market to-day."

There is not a kidney trouble from Backache to Bright's Disease that Doan's Kidney Pills will not relieve or cure. The price is 50 cts. per box, or 3 boxes for \$1.50 and may be procured at all dealers or from

THE DOAN KIDNEY PILLS CO., TORONTO, ONT.

Ask for Minard's and take no other.

CULINARY CONCEITS.

Always butter bread before attempting to cut it thin enough for sandwiches.

When making gravy add a little coffee. This not only adds to the flavor, but gives the gravy a richer brown tint.

Potatoes au gratin are simply potatoes cut, mixed in cream sauce, baked in the oven and served in the dish in which they are cooked.

If celery is called for in a stew or soup recipe and is not available use instead a small quantity of celery seed, which gives a very pleasant flavor.

When making beef tea never add the salt till the meat has been cooking for some time. Salt acts upon the fiber and prevents it giving out all its nourishing properties.

Never allow meats to boil when cooking them in water, but let the water simmer gently, keeping the kettle on the back of the stove. Hard boiling in salted water will toughen the tenderest piece of meat ever sold.

Peach, grape and other very juicy pies often give trouble by overflowing the crust and making it unpleasantly soggy. An old time remedy is to bind a strip of wet linen over the edge of the pie just before it goes into the oven.

Concerning Tables.

Taken all in all, the square table with solid center support and corner legs that are strong without being "lumpy" and graceful without ornament is the best for general use. As dining room and library furniture yields far less to the influence of fashion than does that for the drawing room it should be selected for rich woods, its fine construction, its solid character. All cheap vulgarities and especially that which is gilded on rough carving is least objectionable, though a handsomely grained wood with no ornament save its own fine coloring is far richer. Two favorite woods for heavy dining room and library tables are oak and mahogany. The former is toned in golden, dark oak, Flemish brown or cathedral green and is seen either in a high shagreen or wax finish. The favorite width for a library table is thirty-four inches; for the dining table from forty-five to fifty-four inches—Harper's Bazar.

Insurances.

Plenty of us do not realize that everything we do or say or believe has a certain influence on other folk. A young girl who admires some older woman will often make of herself a nice little carbon copy, talking and thinking according to her ideal. Little children are usually what their parents make them. As is the mother so is the child. A baby brought up in an atmosphere of stunted mentality is seldom bright. The child who hears sane conversation is building up in its wee infant brain the likes, dislikes, perceptions or blemishes of a whole life. All of us are influenced; all of us send out influences. The woman who walks down the street with her shirt waist spick and span, her hair done neatly, her shoes clean and polished and her belt all tidylike is an influence for good. There's no telling how many frumpy, untidy, shabby feminine mortals take the hint to themselves and start in on a little process of improvement.

A Delicate Dish.

Broiled beefsteak with oyster sauce is a gastronomic revelation to those who try it for the first time. Make the oyster sauce by scalding a dozen oysters in their own liquor, afterward removing the oysters and putting them aside. Beat two tablespoonsful of butter to a cream and add the juice of three lemons, beating them into the butter with the juice of half a lemon. Season with onion juice, salt and pepper. Set the bowl containing the mixture into a basin of boiling water and stir carefully for a few minutes. Add a cupful of boiled and strained oyster liquor and boil until the sauce is quite smooth and like a custard. Draw back on the stove and add the oysters, whole if they are small, chopped if they are large. Serve the sauce separately, but pour a little around the beefsteak, which should be garnished with parsley.

Oven Dried Corn Bread.

Take two tencups of boiled hominy and while hot mix with it a very large spoonful of butter. Beat four eggs very light and stir them into the hominy. Add a pint of milk, gradually stirred in, and a half pint of white corn meal; salt. The batter should be of the consistency of boiled custard. Bake with a good deal of heat at the bottom of the oven and not too much at the top. The pan should be deep. This bread is often baked in a milk pan.

Convenient Hold All.

Where closet room is limited a hold all to hang inside a closet door is a great convenience. It may be made of denim or stout gingham, the width of the material and four feet deep. At the bottom are two deep pockets, above these a row of three pockets ten inches deep. The pockets should have a little fullness at the bottom set in a box plait. Edges of pockets and loops of the same serve to hang it up.

Water For the Complexion.

The woman with a muddy skin and dull eyes will find generous water drinking to be the cheapest and best beauty doctor of all. Two glasses of water every morning and night will brighten her eyes, clear her complexion and improve her digestion. Let the water be absolutely pure, and a few months of the simple treatment will gain many compliments for the woman whose greatest affliction is an unattractive skin.

Family cares and duties do not weigh down the well woman, and the children are never in her way. But when the womanly health fails, and there is a constant struggle with weakness and pain, household duties are a burden almost past bearing, and children are a ceaseless annoyance.

Weak women are made strong and sick women are made well by the use of Dr. Pierce's Favorite Prescription. It establishes regularity, drives discharges, drains, heals inflammation and ulceration and cures female weakness.

Sick women are invited to consult Dr. Pierce by letter free. All correspondence strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y. "I had been some time, troubled with female weakness," writes Mrs. Wm. H. Johnson, of Avondale, Chester Co., Pa. "Every month I would have to lie on my back. I tried many different medicines and nothing gave me relief until I began Dr. Pierce's Favorite Prescription and two bottles of 'Favorite Prescription' and two of 'Golden Medical Discovery.' BEAUTY SPOTS.

A few waving locks about the forehead, temple and ears are becoming to a thin face.

If you will apply a little pure white vaseline to your eyelashes every night it will aid their growth and strengthen them.

Don't become too stout. Although plumpness of contour is by no means unbecoming, corpulence is a thing to be avoided.

Onion sandwiches are said to clarify the complexion. The onions must be sliced very fine and salted, then placed between thin slices of bread and butter.

The arrangement of a woman's hair will either enhance or mar her appearance. The wise woman will wear her hair in the style that proves becoming, whether it be fashionable or not.

Don't think that because you are forty and fair you also should be fat and that nature has laid down a law that women shall accumulate layers with years, like a magnolia or any other tree.

Don't wash your face in cold water if you have been weeping. It only makes a bad matter worse. Instead bathe with rosewater and then put a soft cloth saturated with rosewater over the eyes.

Before a Girl Promises.

Whole hearted affection is, in the majority of cases, absolutely essential to married happiness, but it must be accompanied by practical common sense. Girls nowadays are apt to think that a handsome, attractive and fascinating lover must necessarily make a good husband, whereas it frequently happens that he is totally unfit for the responsibilities of married life. Before a woman promises to be the wife of a man it is a duty which she owes to herself to learn everything about him. It is not inquisitive or mean, as many girls seem to imagine, to inquire into his private life and affairs. The time to find out if your fancy for a man's looks is indorsed by his life's history and whether his habits are good and his tastes congenial is during courtship days. Each girl should scrutinize her prospective husband's character as carefully as she would a new hat or gown, and then she should be able to decide fairly easily as to whether he is the right man for her to marry—American Queen.

To Avoid Nervousness.

Dr. H. T. Patrick says: "If you wish never to be nervous live with reason, have a purpose in life and work for it; play joyously, strive not for the unattainable, never regret the unalterable, be not annoyed at trifles, aim to attain neither great knowledge nor great riches, but unlimited common sense; be not self centered, but love the good and thy neighbor as thyself. The time to start such an ideal life is in the childhood. Two capital errors in the training of children are deplored by the author: (1) Leading children into pleasures and duties beyond their years, and (2) magnifying their importance in the family and in society. It is quite as dangerous to give to children the pleasures of adults as to require of them the labors of the mature."—Woman's Life.

The Linen Closet.

Every housewife takes or should take a lively interest in her household linen, and, unlike her sisters of old, she is not obliged to spin her bedclothes with her own fair hands. She may, of course, embroider or hemstitch by way of decoration, but that is all. The housewife of today takes as much pride in her store linen as did her grandmother in the work of her own hands. The closet may be either an old carved oak chest or a low box converted into an ottoman and draped with cretonne. Falling one of these, an old trunk may be utilized or there may be some recess at the landing of the stairs which could very well serve the purpose.—American Queen.

To Make Beds.

The greatest attention is given in hospitals to the proper making of beds. The nurses sometimes spend months chiefly in learning to make a bed. One of the hospital ideas may well be copied in every family where there are invalids or weak people. This is to stretch the under sheet as tight as possible and pin it firmly to the under side of the mattress with safety pins. Wrinkles in the under sheet are a fruitful source of discomfort to a sick and restless person. This system of pulling the under sheet taut and fastening it so it will stay in place will prevent such annoyance.

Women and Advertisers.

How important advertising has become is suggested by the observation of a smart man that there are but two great editors in the country—"one is the American woman and the other is the American advertiser," says the Philadelphia Record. The woman's taste has much to do with the character of the leading journals, and the advertiser's enterprise makes every thing possible to the newspapers. It is because women read the newspapers that most advertisers buy its space.

Room Lights.

The difference between gas and oil lamps in the matter of violating the laws of a room is significantly indicated in the fact that florists use lamps in their greenhouses, gas never. Too frequent emphasis can hardly be put upon the necessity of airing a room thoroughly that must be slept in after having been gas lighted throughout the evening, a precaution too often neglected.

Souvenir Range.

Without an abundance of pure fresh air in the oven whatever is cooked therein is distasteful and unhealthy.

Meats are specially susceptible to impurities while being roasted—their rich flavor is retained only when the oven is pure.

Aerated Ovens Breathe Fresh Air.

By an ingenious arrangement applied only to the Souvenir, fresh air is made to circulate freely and everything impure, including odors from cooking food is driven out of the oven and up the chimney—not into the room.

The Aerated principle is the only one that actually ventilates the oven.

THE WORD MELODRAMA.

It Has Drifted From Its Derivation and Original Significance.

Nowadays "melodrama" is in general use as denoting a purely sensational play, with an all but impossible hero, heroine and villain among the characters represented. Formerly the word meant more closely in its significance to actual derivation. "Melodrama" is compounded of the Greek words melos, a song, and drama, an action, a play, and was applied to two sorts of performances when it first came into use.

It signified a play, generally of the romantic school, in which the dialogue was frequently relieved by music, sometimes of an incidental and sometimes of a purely dramatic character. On the strength of his "Eugene Oniz" J. Rousseau is credited with the invention of this style. Some of the so-called English operas of the older school, such as the once famous "Beggars' Opera" and the once popular "No Song, No Supper," are in reality true melodramas.

In the second place "melodrama" was applied to a peculiar kind of theatrical composition in which the actor recited; his part in an ordinary speaking voice, while the orchestra played a more or less elaborate accompaniment appropriate to the situation and calculated to bring its salient features into the highest possible relief. The merit of the invention of this description of melodrama belongs to George Benda, who used it with striking effect in his "Arladne auf Naxos," produced at Gotha in 1774.—London Globe.

CHANGE IN MANAGEMENT.

Re-arrangements in Crow's Nest Pass Coal Company.

Vancouver, B.C., Nov. 18.—G. G. S. Lindsey, a director of the Crow's Nest Pass Coal Co., is now here to arrange a change in the management of the company's mines. In future the operating and accounting departments will be under separate management. A. H. Reeder, from eastern Pennsylvania, will be in charge of the former, while Daniel Davies, brother of Sir Louis Davies, has taken over the latter department under the title of controller. J. H. Tonkin, late General Manager, has severed his connection with the company. The present output is 3,000 tons daily, which could be increased to 4,500 without difficulty if needed.

LOAN COMPANIES UNITE.

Three St. Thomas Corporations Merged Into One.

St. Thomas, Nov. 18.—St. Thomas which had until recently five loan companies, will shortly have but one. The failure of the Elgin and Atlas Companies are matters of history. The shareholders of the Southern, Southwestern and Star Loan Companies met, and unanimously decided to amalgamate the new company to be known as the Southern. Out of the \$300 shares in the Southern 7,497 were cast in favor of amalgamation. Southwestern, 2,472 in favor, out of 2,500 shares, and Star, 2,472 in favor, out of 2,500 shares. The present manager of the Southern company, will be Manager of the new company. The books of the three companies will be audited at once, and it is expected, the amalgamation will be completed by December 1st.

RESCUERS REWARDED.

Presentation to the Captain and Crew of SS. Lake Manitoba.

Montreal, Nov. 18.—Captain W. H. Taylor of the C.P.R. SS. Lake Manitoba has been presented by the Royal Humane Society of Great Britain with a medal and testimonial for rescuing on December 15, 1902, five men from the schooner Grenada of Lunenburg, N.S. The crew have been awarded sums of money. As the Grenada was a registered Canadian boat, and the crew of the ill-fated vessel were Canadians, recognition has been made to the Canadian Government for a suitable recognition.

MR. PREFONTAINE SPEAKS.

Cannot Tell When the Elections Will Be Held.

Montreal, Nov. 18.—Hon. Raymond Prefontaine, Minister of Marine and Fisheries, addressed the Delorimier Liberal Club, and incidentally touched on the question of the coming general election. He said that, although the lists were being prepared and the Government studying the question, he could not yet speak definitely as to whether or not an appeal would be made to the people before holding another session of Parliament. The matter had been under discussion at Ottawa, but no decision had been reached. The Minister urged his hearers to be ready, whether the elections should take place shortly or not for some months. The Government had not changed its tariff policy.

OUT OF THE COMBINE.

Papermakers Cannot Have Their Own Way.

Toronto, Nov. 18.—A side-light on the recent fight against the paper combine in Canada was published yesterday, when it was asserted that owing to three of the large Canadian manufacturers refusing to co-operate the reciprocal agreement with the American Paper & Pulp Association, that their territory be not invaded, must be discontinued. The companies without the fold are the Laurentide Paper Company, the Sturgeon Falls Paper Company and the Rindon Paper Mills, Limited. An officer of the Papermakers' Association of Canada stated yesterday that the two first-named never had been in the association, and that the Rindon Company had recently withdrawn from it. The same officer said there never was any agreement with the American combine, but those who have to buy paper testify to their expensive knowledge of the fact that there has been.

Two more cases of smallpox have been reported from Kalarad township, one from Barrie township, and one from Sheffield township. These are all in the neighborhood of Kalarad and are supposed to have a common origin.

TELEGRAPHIC BREVITIES.

Dr. McLaren, hospital superintendent at Hamilton, has resigned, and will continue his studies in Europe.

An order in Council has been passed ratifying the federation of Trinity University with the University of Toronto.

It is believed that Russia has an important agreement with Tibet, into which country a British-Indian expedition is about to march.

Lieut.-Col. McPherson of Ottawa has been awarded \$350 and costs in his suit against Kingston for injuries received by reason of a defective walk.

The prisoners in the trial arising out of the Jewish massacres at Kishineff, and which commences on the 19th inst., number 400, and the witnesses 3,000.

Telegraphers in the C. P. R. office at Winnipeg struck because four of their number were discharged. They went back to work after gaining their point.

All reading notices or local announcements must be received at this office not later than noon of the day on which it is desired that they appear in The Planet.

The "Supreme Master of the Short Story."

This title, according to Mr. T. M. Parrott, belongs to Guy de Maupassant, of whom, he tells us, no formal biography has appeared in the ten years that have elapsed since his death. After stating that the short story, as it is at present understood in France, is the product of a French poet's acquaintance with and translation of the works of Edgar Allan Poe, Mr. Parrott admits that, on the other hand, "there is no writer living or dead who exercises a more profound and stimulating influence upon contemporary American short-story writers than the greatest master of the conte in France, that clear-sighted, sure-handed, cynical, unhappy artist, Guy de Maupassant." Of his tales we read (in the "Booklovers' Magazine," Philadelphia):

"Through them all flows the same spite, the same materialistic, humorous keenly sensitive to all the beauties of nature, bitterly contemptuous of all the basenesses of man, vibrating between an almost animal enjoyment of sensual pleasures and a morbid and abnormal, if not morose, obsession with the horror of the supernatural and the unknown."

"His master was his old friend and godfather, Flaubert, the founder in France of the realistic novel, the minute and laborious psychological analyst, the seven years' Maupassant served his apprenticeship, writing verses, stories, novels, even a 'detestable drama,' all of which were first submitted to the master and then committed to the flames. Small wonder then that when Maupassant made his debut he dived into the public eye with a Minerva sprung full-armed from the head of Jupiter. Small wonder, either, that he acknowledged throughout his life the lasting debt he owed his teacher."

"Maupassant has sometimes been described as carrying the art of Flaubert to its highest pitch of perfection, but this is a most uncritical view. We can only regard Maupassant as surpassing his master when we place the technical skill of such performers as Sarraute and Rosset above the creative genius of Mozart and Beethoven. It is, after all, only the technique of an art that can be transmitted from master to pupil. Maupassant's vigorous talent and persevering study ended in giving him such a command of his medium, his methods that he attained with ease and swiftness effects that Flaubert accomplished only after long toil and agonizing effort. Yet Flaubert's four novels, produced at long intervals during a period of nearly thirty years, occupy a place in literature far above the twenty-seven volumes of Maupassant, turned out at an average rate of two or more a year."

"As to the subject matter of many of his short stories, Mr. Parrott remarks that Maupassant found 'a tradition of indecency ready made to his hand,' and neither his temperament nor the circumstances of his life disposed him to break free from this tradition. But the writer goes on as follows:

"It is not, I think, on the score of immorality that the permanent deductions from Maupassant's reputation will have to be made before his fame is secure, but rather on the ground that in consequence of his theory that in art the subject was nothing and the style was all, he too often squandered the resources of his superb technique upon utterly trivial and unworthy subjects."

To quote again, on the subject of his limitations and characteristics as a writer:

"He was at bottom not a thinker, nor an analyst, but an observer; and when he quitted his own field, the transcription of observations and experiences, for a reason where the most interest lay in the hidden causes of things, his powers failed him; he became diffuse, uncertain, and at times almost dull."

"His chief characteristics as a writer of short stories are, it seems to me, versatility in choice of subjects, clearness in presentation, an easy mastery of incident and character, and an almost unique power of isolating and individualizing his scenes and figures so as to make them, in the end, stand out from the canvas. He has a trick, for if nothing more, of framing his stories in a setting which tends, usually by contrast, to bring out and heighten their effect. For instance, the gruesome story of 'Le Mare Sauvage' gains in interest from its contrast to the dainty bit of nature worship which introduces it."

"The dominant and persistent note in Maupassant's work is his pessimism. It comes like a cloud between the sun and the world of men, and straightway all man's deeds and dreams and desires grow dark and repulsive."

The French papers tell of a thrifty Parisian who has hit upon a new system of safety deposit. A visit was recently made to a police station in the Faubourg Monmartre by a M. Samuel V., who came to claim a parcel of jewels which he had lost a month previously, valued at 300,000 francs. The commissary consulted his register. M. V.'s jewels had been found and taken to the station by M. Leon D. "It is very curious," said an employee, "these same jewels were lost on the same date last year, and brought here by a M. Leon D., and claimed a month afterward by M. Samuel V." "It is very curious! Too curious!" said the commissary; "explain this strange coincidence." After a slight hesitation M. Samuel V. explained that, being afraid of burglary while away for a month's holiday, he thought it would be difficult to find a more secure place to put them.

Arry Puts 'em Right.

The "Daily Chronicle" recently suggested that the plural of rhinoceros is a disputed point. "Arry writes: 'What O. Mr. P., disputed?'—not a bit. Any kid, what the plural of 'eel' is, 'do' or 'does,' that the plural of 'eel' is, 'do' or 'does.' Plural anyway 'does.' 'Bus' or 'buses.' 'Rhinoceros'—'Rhinoceroses.' That's as plain as an 'aystack ain't it! Yours, 'Arry.'

HIGHWAY ROBBERY.

Two Men in a Buggy Take \$28 From a Sarnia Man.

Sarnia, Nov. 18.—William Neil, a laborer, was held up and robbed of \$28 by two strangers at the outskirts of the town on the London road yesterday about 5 o'clock. He was walking out from town to work on a farm building, and was overtaken by two men in a buggy. The men turned the buggy into a fence corner and advanced on Neil with a revolver. One shot was fired, probably to intimidate him, and one of the men went through his clothes and took the money, after which they drove away in the buggy. The victim called up a farmer and tried to obtain a ride, and, failing in this, followed a distance on foot, but learned little beyond the fact that the men went in an easterly direction, probably towards London. He furnishes a good description of the men.

THE MARKET REPORTS.

Wheat is Higher.—Live Stock in Good Demand.—The Latest Quotations.

Tuesday Evening, Nov. 17.
Toronto St. Lawrence Market.

Receipts in all lines were light and trade was generally quiet, the result, no doubt, of the threatening weather. The grain on the street amounted to 700 bushels.

Wheat—Two hundred bushels of white sold at \$1.00 to \$1.02 per bushel, 250 of red sold at \$1.02 and 300 of same sold at \$1.02. Dressed Hogs—The market continues quiet and prices are unchanged at \$7 to \$7.50 per cwt for choice light weights, and \$6.75 to \$7 for heavies.

Butter—There were no farmers offering stocks on the market and quotations are unchanged at \$20 to \$22 per lb.

Eggs—Receipts have been heavier lately and quotations are easier at 20c to 25c per dozen.

Poultry—Receipts were light, but there was no brisk demand shown and prices are about steady. We quote—Chickens, 10c to 10.5c; ducks, 10c to 11c; geese, 8c to 9c; turkeys, 12c to 14c and old fowls at 6c to 7c.

Hay—About fifteen loads of No. 1 timothy sold at \$10 to \$11.50 per ton. There was no mixed or clover offering.

Straw—One load sold at \$10.50 per ton.

Cheese Markets.

Ingersoll, Nov. 17.—There has been no cheese boarded at the Ingersoll market the last three weeks, although there has been more or less selling during that time. In fact, the majority of October's stock is being sold at present, ranging principally from 10.5c to 10.75c, 10.5c being reported for an occasional lot.

Campbellford, Nov. 17.—One thousand two hundred and fifty cheese offered, November market. Alexander 500, 600, 600, at 10.5c. Balance refused at 10.5c.

Toronto Live Stock.

There was a fairly good trade at the Western Cattle Market today, although the receipts were not very heavy. There was a good demand for butchers' cattle and most of the stock offered sold well. Trade in other lines was brisk. Hogs were dull and as expected prices declined 20c per cwt. Other quotations were about steady. The run amounted to 65 cars, including 25 cattle, 215 sheep and lambs, 1,100 hogs and 40 calves.

Explosive Cattle—There were very few offerings and these helped to support the fair grade cattle. Prices all round are about nominal. Extra choices are quoted at \$4.40 to \$4.50 per cwt, choice at \$4.30 to \$4.40, others at \$4 to \$4.20, and cows at \$3.50 to \$4.

Butchers' Cattle—There was a better demand for cattle and trade had a brisker tone than it has had for some time. Extra good cattle are more especially in request. Picked lots are wanted and are quoted at \$4.20 to \$4.30 per cwt, good stock at \$4.10 to \$4.20, and choice at \$4.00 to \$4.10, rough to common at \$3 to \$3.50, and cows at \$1.75 to \$3.25.

Stocks and Feeders—Trade in these lines has fallen off pretty much, as the buyers are fairly well filled up. Quotations are about steady at \$1.75 to \$1.85 for stockers and \$2 to \$4 for feeders. Shortlings are quoted with an easier inclination.

Milk Cows—The run was fair and the range of prices was about steady at \$3 to \$5 each.

Calves—Trade was fairly brisk and prices for the best were firm. Quotations are 4c to 5.25c per lb and \$1.75 to \$1.85 each.

Sheep and Lambs—Sheep were dull. Export are quoted at \$2.50 to \$3.30 per cwt, and in the market at \$1.75 to \$2.25. Quotations for good and choice are 15c to 16c per cwt, and fair to choice at \$1.75 to \$1.95.

Hogs—The run was fairly heavy and the market was dull. Quotations are 20c per cwt lower at \$5.10 per cwt for select and \$4.85 for lights and fats.

Chicago Live Stock.

Chicago, Nov. 17.—Cattle—Receipts, 10,000, including 1,000 western; slow; good to prime steers, \$5 to \$5.50; poor to medium, \$4 to \$4.75; stockers and feeders, \$2.50 to \$4.15; cows, \$1.25 to \$1.50; heifers, \$2 to \$4.50; canners, \$1.25 to \$2.50; bulls, \$1.50 to \$2.25; calves, \$2 to \$2.75; Texas fed steers, \$2.75 to \$3.50; western steers, \$2.10 to \$4.50. Hogs—Receipts today, 33,000; tomorrow, 35,000; the lower; close slow; mixed and butchers', \$4.00 to \$4.50; good to choice heavy, \$4.60 to \$4.87; rough heavy, \$3.90 to \$4.50. Sheep—Receipts, 20,000; sheep and lambs, 25c lower; good to choice wethers, \$2.70 to \$3.25; fair to choice mixed, \$2.50 to \$3.25; native lambs, \$2.75 to \$3.25.
