Dr. RADWAY'S ALMANAC

For 1867,

WITH AGRICULTURAL DIRECTIONS.

Together with Astronomical Phenomena, indicated at the precise hour, for the lovers of Sidereal Contemplation.

W. G. BERRY

SYNCHRONISM OF THE YEAR OF OUR LORD 1867.

- The year 7375-76 of the Byzantine Era, or of the Septuagint, in use at Constantinople.
 The year 5627-28 of the Jewish Era.
 The year 1284 of the Turks or Mahomedans.
 The year 2179 of the Grecian Era, or the Era of the Seleucides.
 The year 2620 since the Foundation of Rome, according to Varro.
 The year 875 of the Discovery of America by Christopher Columbus.
 The year 91 of the Republic of the United States of America.

CHRONOLOGICAL CYCLES OF 1867.

Solar Cycle.....	28	Dominical Letter.....	F
Lunar Cycle, or Golden Number.....	6	Roman Indiction.....	10
Epact.....	25	Julian Period.....	6580

MOVEABLE FEASTS AND FASTS.

Septuagesima Sunday.....	February 17	Low Sunday.....	April 28
Shrove Tuesday.....	March 5	Rogations.....	May 27
Ash Wednesday.....	March 6	Ascension.....	May 30
First Sunday in Lent.....	March 19	Whit Sunday.....	June 9
Passion Sunday.....	April 7	Trinity Sunday.....	June 16
Palm Sunday.....	April 14	Corpus Christi.....	June 20
Good Friday.....	April 19	Number of Sundays after Trinity.....	23
Easter Sunday.....	April 21	Advent Sunday.....	December 1

ECLIPSES FOR THE YEAR 1867.

In the year 1867 there will be four Eclipses; two of the Sun, and two of the Moon.

1. An annular Eclipse of the Sun, March 6, 1867; invisible in America; visible in Europe towards 5 o'clock 4 minutes, A.M., of Washington.
2. A partial Eclipse of the Moon, the most being visible at Washington on the 20th, at 3 o'clock 40 minutes, A.M.
3. A total Eclipse of the Sun, August 29th; invisible at Washington, and only visible in South America, when it is 8 o'clock 23 minutes, A.M., at Washington.
4. A partial Eclipse of the Moon, September 13th, partially visible at Washington, the middle occurring at 7 o'clock 18 minutes, P.M.

MORNING AND EVENING STARS AT THEIR MERIDIANS.

1. MERCURY will be Evening Star till February 6th; then Morning Star, March 15th; then Evening Star, June 21; then Morning Star, July 25th; then Evening Star, September 16th; then Morning Star, November 12th.
2. VENUS will be Morning Star till October 5th; then Evening Star the rest of the year.
3. MARS will be Morning Star from the 1st of January to the 12th; then Evening Star to the end of the year.
4. JUPITER will be Evening Star to February 8th; then Morning Star to August 26th.
5. SATURN will be Morning Star till May 10th; then Morning Star to November 15th; then Evening Star.
6. URANUS will be Evening Star till June 51st; then Morning Star.
7. NEPTUNE will be Evening Star till the 4th of April; Morning Star till October 5th; then Evening Star.

SYMBOLS AND ABBREVIATIONS.

- ☉ The Sun. ☾ The Moon. ☿ Mercury. ♀ Venus. ⊕ or ♁ The Earth. ♂ Mars. ♃ Jupiter.
 ♄ Saturn. ♅ Uranus. ♆ Neptune.
Spring. ♈ Aries, ♉ Taurus, ♊ Gemini. *Summer.* ♋ Cancer, ♌ Leo, ♍ Virgo. *Autumn.* ♎ Libra, ♏ Scorpio, ♐ Sagittarius. *Winter.* ♑ Capricornus, ♒ Aquarius, ♓ Pisces.
 ☊ Conjunction, ☋ Quadrature, differing 90°; ☌ Opposition, differing 180°.
 ♎ Ascending Node, ♏ Descending Node.

NOTICE TO FARMERS AND OBSERVERS OF CELESTIAL PHENOMENA.

The Calendar contains, among other subjects, an agricultural part calculated for the Middle States. In the Northern States sowing begins about one month later, and in the Southern States about one month sooner than in the Middle States. And an astronomical part, where the phenomena are indicated at the precise hour, for the lovers of sidereal contemplation.

Radway's Ready Relief.

DISEASES TO THE CURE OF WHICH
IT IS ADAPTED.

The Philosophy of its Operation.

The preventive and remedial properties of the Relief take a far wider range than those of any other preparation included in the *repertoire* of Therapeutic Science.

Medication, properly understood, has but two fundamental objects, viz., the defense of the system against the predisposing and proximate causes of disease, and the production of such changes in the condition of diseased organs and functions as will enable them to revert as promptly as possible to their natural state.

In all sickness the *vital principle* is assailed by some morbid and antagonistic influence, which disturbs the balance of the physical forces and destroys the equilibrium of the fluids, and it is only by reestablishing the equipoise of those forces and equalizing the circulation of the fluids, that health can be restored. These, together with the re-enforcement of the vital powers, are the specific objects which RADWAY'S READY RELIEF is designed to accomplish; and that its effects do not fall short of its salutary purpose, is abundantly shown by the record of its marvellous cures. All the Radway Remedies are based on a careful study of the philosophy of disease, and of the remedial properties of the plants, roots, barks, and herbs comprehended within the scope of medical botany. Hence they have a higher mission than the mere alleviation of symptoms. They expel or extinguish the morbid element which underlies these manifestations, and thus leave nature free to obey its inherent tendency to return from a morbid to a healthy and vigorous condition.

There is no class of maladies in which the Relief has been administered with greater success than in those of a malarious character, and this class is much more comprehensive than is generally supposed. It comprises *all the fevers*, from the mildest intermittent to the most malignant types of the vomito, typhus fever, and small pox. Cholera must also be included in the category, for its voyages round the world are clearly atmospheric. On no other theory than that of a progressive malaria, starting in the far East, and sustaining its infectious principle from the noxious material it encounters *en route*, can the far-reaching crusades of this terrible enemy of the human race be accounted for.

In the treatment of Yellow Fever, and of all febrile diseases of a malignant phase, the Relief should be used in a two-fold capacity, viz., internally, as an

anti-spasmodic and alterative, and externally, as a rubefacient, or counter-irritant. All malarious disorders gather strength, with appalling rapidity, if they are not checked in the beginning. At the very first symptom, therefore, a dose of the Relief should be administered, to be repeated, if necessary, at intervals of half an hour, until the disease is controlled; and this mode of treatment may be seconded, in severe cases, by a brisk outward application of the remedy to the spine, stomach, and bowels. Any species of malarious fever can, by these means, be arrested at its very inception, and the patient may subsequently be secured against a relapse by the mild evacuent and anti-bilious operation of Radway's Regulating Pills.

The Asiatic Cholera is now, for the fourth time, on its tour through the nations of the earth, and no man can say where or when it will be stayed. Judging from the past, it may be safely predicted that the strictest quarantine will prove no bar to its invasions. Wise sanitary regulations may modify its virulence, but no hygienic precautions can turn it aside from its destined course. Under these circumstances it is not only essential that governments, through the organizations charged with the protection of the public health, employ every means that science and experience can suggest for the mitigation of the scourge, but it is also the duty of each individual of the community to obtain from trustworthy sources such practical information upon the subject as will be of real utility in the hour of trial. Panic is the strongest ally of cholera asphyxia (as indeed it is of all infectious maladies), and the surest preventive of panic is a thorough knowledge of the nature of the danger to be encountered, and of the best manner of meeting and combating the evil.

Believing, nay *knowing*, that during the cholera of 1849, the Relief proved a specific for the disease in every instance in which it was administered, Dr. Radway & Co. would be recreant to their sense of duty if they withheld a fact so important at the present crisis. The preparation is known everywhere as a standard remedy for such a multitude of diseases, that the idea of adding to its popularity by claiming for it any therapeutic properties which it does not possess, would be simply absurd, even if it were not utterly inconsistent with the reputation for truth and candor which the firm of Dr. Radway & Co. have for so many years enjoyed, and which has never been impugned, either by the medical profession or the public at large. It is with a full understanding of the necessity for circumspection in a matter of such importance, that they take the solemn responsibility of EARNESTLY RECOMMENDING THE RELIEF AS A SPECIFIC FOR ASIATIC CHOLERA.

The members of the faculty have as yet been unable to agree upon any uniform mode of treating this most fatal of all malarious disorders. Some of them prescribe the most pungent and irritating stimulants; others give nothing but ice. They all admit, however, that the first thing to be done in the early stages of the malady is to *restrain the diarrhœa*. If this is not promptly effected, the dejections soon assume a rice-water appearance, and unless these thin discharges, which have neither odor, color, nor any other characteristic of the natural feces, are speedily checked, the circulation is im-

peded, the blood loses its fluidity, violent muscular contractions ensue, and the sad scene closes with collapse, asphyxia, and death.

Now the Relief administered internally at the commencement of the attack, *inevitably arrests the diarrhoea*. In the second stage of the disease, when the evacuations have acquired that whitish appearance which is supposed to be derived from the washing away and solution of the semi-transparent membrane of the bowels, the violent peristaltic action of the intestines may be stopped by the same means; and even when the Relief cannot be retained on the stomach, its use as a rubefacient, with strong friction, will be found of wonderful efficacy. The moment that choleraic symptoms manifest themselves, the patient should be placed in a horizontal position in bed. He should lie upon his back, motionless if possible, and while he is in that position, the medicine should be given to him with a spoon. If spasmodic action ensues, the Relief should be used externally, without a moment's delay, and continuously rubbed in over the whole region of the stomach and bowels, until the spasms subside, which they assuredly will do if these directions are complied with. Even where there is collapse, the circulation may be restored and the nervous system recuperated, by vigorous applying the Relief as a vesicant to the exterior surfaces.

Although the proximate cause of cholera is undoubtedly an atmospheric poison, moving in a certain general direction, in accordance with some mysterious law which we do not comprehend, yet there are conditions of the system which invite and attract the disease, as the magnet attracts iron, and greatly increase the danger of an unfavorable result. Among these are intemperance, uncleanness, fear, exposure to the night air, unwholesome food, and inordinate sensual indulgence of every kind. By avoiding these, and fortifying the body against malarious influences with this genial vegetable antidote, the chances of an attack will be materially lessened; and even should a visitation occur, it will be comparatively mild and controllable. No known disorder so disastrously interrupts the regular and harmonious movements of the animal fluids as cholera; and as the Relief exercises an irresistible influence over the circulation, and superinduces an equable distribution of the vital fluid throughout the entire organization, it is obvious that its adaptation to the prevention and cure of the disease is based on sound physiological and pathological principles. The instantaneous operation of the Relief renders it the most valuable of all known remedies for diseases which strike, at the outset, at the sources of vital action. This is the case with nearly all the endemic and epidemic maladies of warm climates. Yellow fever, typhoid fever, coast fever, and all the violent congestive disorders common in the tropics, make fearful headway in a few hours, nay sometimes in a few minutes. Before any slow alterative could operate, the patient, if the attack were severe, would be past human aid. The Relief grapples directly with the deadliest symptoms of the disorder, and subdues them. **IT SUSPENDS THE PROGRESS OF INFLAMMATION AND ANNIHILATES PAIN.** Time is thus secured for the exhibition of the other medicines of the

Radway series, if required, although, in many cases, the Relief alone accomplishes a complete cure.

Such are the effects of Radway's Ready Relief when administered as a remedy; but its curative properties are not its only recommendation. As a PREVENTIVE OF Miasmatic and Contagious Diseases, it has no equal in the *Materia Medica*. It is at once a powerful antiseptic, and a genial diffusive stimulant. It sends no deleterious fumes to the brain. It is not an excitant. It does not increase the action of the heart, and quicken the pulsation of the arteries. On the contrary, if there is a tendency to inflammation, however slight, in the brain, the stomach, the kidneys, the bowels, the lungs, the liver, or any other internal organ, the effect of the Relief is to check an undue rush of blood in that direction, and to compel the distributive vessels to perform their functions naturally and regularly; in other words, to EQUALIZE THE CIRCULATION.

In making these statements Dr. Radway & Co. simply condense into a few words the more detailed testimony of Dr. Frederick Page, Prof. Lawrence Reid, and other medical men of world-wide professional reputation. These distinguished physicians also express a wish that their opinion of the Relief, as a disinfectant, should be generally known. They recommend that it be sprinkled on the beds of cholera, small-pox, and fever hospitals, and taken by the nurses and medical attendants in such institutions, as an antidote to infection and contagion.

There is another important point to which it is proper to direct especial attention. Medical advice is costly, and the charges for making up prescriptions are necessarily high. Why, it is asked, should this heavy expense be incurred, when a bottle of the Ready Relief, procurable everywhere for 25 cents, is a more certain specific in the early stages of every disease, than can be obtained by seeing a physician for a prescription and an apothecary for making it up? The pecuniary difference in the two cases would probably be as 25 cents to ten dollars, but the advantage of resorting to the Relief in preference to any potion prepared after a hastily scribbled formula, may truly be said to be beyond all estimate.

In all diseases of the bowels, all intermittent, remittent, and malignant fevers; in croup, diphtheria, coup de soleil, entire or partial paralysis, apoplexy, epilepsy, asthma, rheumatism, diseases of the kidneys, spasms, nervous headache, hysteria, gastritis, neuralgia, physical prostration, and every species of complaint involving inflammation, or any acute disturbance of the nervous and venous systems, Radway's Ready Relief is of immediate and inestimable benefit.

The Relief justly enjoys a high reputation among intelligent ladies for its tranquillizing, restorative, and invigorating properties. Taken inwardly, and applied with brisk friction to the spine, it will be found (in combination with the Regulating Pills) a prompt remedy for Leucorrhœa, Suppression of the Menses, and all the genito-uterine complaints which exclusively afflict the feebler sex, as well as for the mental distempers which accompany them.

RADWAY'S REGULATING PILLS

differ from all other cathartics in several essential particulars. Their mild but thorough purgative effect is unaccompanied either by pain or prostration, and they act upon the liver as directly as calomel or blue pill, without producing any of the disastrous ulterior consequences that too often follow the indiscreet use of those powerful mineral medicines.

The vegetable extracts of which the Pills are exclusively composed, are prepared *in vacuo*—that is to say, in receivers from which the atmospheric air has been withdrawn. Hence the volatile elements of the materials cannot be dissipated, and all their most valuable active qualities are concentrated and preserved. Nor is this all. In the process of manufacture all the inert ingredients of the drugs are expurgated, so that the extracts are absolutely unadulterated. Some idea of the thoroughness with which the processes of expurgation and condensation are performed, may be gathered from the fact, that twenty pounds of crude material furnish but one pound of the solid extracts of which the Pills are made.

The large quantity of inoperative and irritating matter contained in ordinary evacuants, is a tremendous drawback on their efficiency. The drastic element inflames the mucous membrane of the bowels, and the inert material, though inherently neither good nor bad, weakens the aperient and alterative principle of the medicine. From these objections Radway's Regulating Pills are wholly free. They are not drastic, and no negative makeweight enters into their composition; whereas in the ordinary purgative preparations, three grains out of every five may be fairly set down as either deleterious or without remedial value.

The Regulating Pills do not, as has been already said, debilitate the system. On the contrary, they invigorate it by gently toning the liver and the stomach, while they painlessly remove all obstructions from the bowels. Their action is altogether different from that of the griping, rasping cathartics, such as aloes, jalap, and Croton oil, which, by their rapid and violent expulsion of the contents of the intestines, occasion an interruption of all the secretive functions.

The celebrated Dr. Martyn Payne remarks, in his Institutes of Medicine, "That many varieties of acute and chronic inflammation are ascribable to morbid influences propagated by the organs of digestion." Nothing can be more true. Dyspepsia, for example, the chronic type of indigestion, besides being in itself a terrible affliction, is the parent of a countless brood of sympathetic maladies. It has been called the national disease of America, but is, in fact, cosmopolitan. Everywhere there are dyspeptics, and probably two-thirds of them owe their sufferings to themselves. Man is not constituted like the shark. He has not, like that sea-monster, a set of teeth in his maw as well as in his mouth, and yet he seems to think that his stomach will perform the task which nature has assigned to his molars and incisors. He neglects to masticate his food; the delicate and sensitive organ into which it passes cannot digest it in an unmastered state, and in the futile effort to do so becomes weakened, dis-

ordered, diseased. The liver, the bowels, the spleen, the nerves, the skin, and indeed the whole organic structure, are necessarily affected, more or less, by the condition of the great laboratory whence they derive their aliment, and the consequences are, of course, disastrous. Among them are included biliousness, constipation, loss of appetite, cutaneous and ulcerous diseases, nervous debility, general prostration, congestion, mental depression, headache, heart disease, and many other distressing and dangerous ailments. In all these the aperient and alterative operations of the Regulating Pills will be found of incredible service in expelling morbid matter from the bowels, without irritating their coating, in toning and controlling the liver and other secretive organs, and in promoting the formation of pure blood, the basis of health and vigor.

In almost all the maladies incident to tropical climates, the liver is either directly or indirectly affected. Throughout South and Central America, the West Indies and Mexico, the bilious types of disease are the most prevalent. Acute and violent disturbances of the biliary organ accompany all the malarious epidemics both of the coast and the interior; and of the inhabitants who escape these destructive visitations, but few are exempt from the more indolent hepatic ailments, which gradually deplete the frame of its strength and the mind of its energy. For both these classes of disorders—the fevers which, if not arrested by proper treatment, sometimes prove fatal in a few hours, and the insidious and more sluggish complaints which gradually undermine the constitution—the Regulating Pills are most potent remedies. They contain a vegetable element which possesses, in a more intense degree, the anti-bilious virtues of mercury, without its salivating and corrosive properties. In dangerous febrile cases, when there would be risk in waiting for the operation of a cathartic, the Relief should first be administered to check or suspend the progress of the attack, and then the Pills should be given to control the liver, discharge the diseased humors through the bowels, relieve congestion, and complete the cure. If after the danger has thus been met and conquered, the patient should gather strength but slowly, a course of the Resolvent will greatly expedite the process of convalescence.

Mere purgatives are of no use whatever in cases where the liver is touched. Epsom salts, Siedlitz powders, magnesia, aloes and gamboge, Haarlem oil, jalap, etc., are indeed strong cathartics; but what is their effect? They only act upon the bowels, driving out with great force their contents, and continuing to purge when there are no further obstructions to remove; thus irritating and inflaming the internal surfaces, and sometimes producing ulceration. The dejections they produce are watery, and the griping by which their operation is accompanied, instead of being, as some persons suppose, a proof of their efficacy, is, in reality, occasioned by the corrupt humors which they have failed to touch. They have no alterative, purifying, or tonic properties whatever, and no power to eliminate bile or any species of acrid matter from the blood or serous fluid. It is far otherwise with the Regulating Pills. Their action is not *mechanical*, but strictly *therapeutic*. They alter the condition of the biliary secretion, the bowels, and the circulation, without giving an unpleasant shock to any part of the system.

and the tone and regularity they impart to the secretive and excretive organs is natural and permanent.

For these reasons they stand alone as a remedy for chronic constipation. They are also warmly recommended by medical men as a specific for worms and other visceral diseases of children. Being coated with gum, they do not nauseate the stomach; and as the taste-disguising envelope also excludes the air from the substance of the pill, they will keep for an indefinite length of time in any climate.

Among all the medicines extant, official and proprietary, there is not one that is in such universal favor with the more delicate sex as Radway's Regulating Pills. Married ladies find them invaluable during pregnancy, as a remedy for the "morning sickness" which generally accompanies that condition, as well as for those irregularities of the bowels, which frequently occur at such times, and cannot, without imminent danger, be treated with drastic purgatives. For all cases where the distinctive functions of the female sexual organs are irregular, or torpid, or in any way disordered, the Pills, in combination with the Relief, applied as a counter-irritant to the spine, hips, and loins, will prove of unspeakable service.

In cases of misdirected menstruation, which we notice is becoming alarmingly general among young ladies of from 15 to 25—the Ready Relief and Regulating Pills—may be relied upon as curatives. Vomiting of blood, Headache, Hysterics, Fits, Spasms, is immediately arrested by the Ready Relief—and a few doses of the Regulating Pills, will force the misdirected menses through the natural channels. Dr. Radway invites special attention to the following letter.

NEWARK, N. J., Oct. 10, 1863.

Dr. Radway:

Your Pills and Ready Relief have saved my daughter's life. In June last she was eighteen years of age, and for three months her menses were suppressed. She would frequently vomit blood, suffer terribly from headache and pain in the small of the back and thighs, and had frequently fits of hysterics. We commenced by giving her six of your Pills every night, and rubbed the Ready Relief on her spine, back and hips. We continued this treatment one week, when to our joy she was relieved of her difficulty. She is now well and regular, and has been so ever since. Yours very truly, J. G. HODGSON.

Your Pills cured me of Piles that I feel assured was caused by over-dosing with drastic pills.

The Regulating Pills intended for exportation to Spanish America and other intertropical regions, possess this great advantage over all other aperient and alterative medicines shipped from the United States: They are prepared with special reference to the constitutional peculiarities and general physical condition of the inhabitants of hot climates. This is a most important consideration, inasmuch as a dose of cathartic medicine, esteemed a mild one in a temperate climate, might prove dangerously severe if administered to a native or resident of the tropics. Radway's Regulating Pills, for Southern export, are, therefore, carefully graduated to suit the requirements of the sick in countries where the heat is excessive and continuous, and they are believed to be the only medicinal preparation extant thus modified for tropical use.

RADWAY'S RENOVATING RESOLVENT.

The medical term *resolution* signifies the restoration of the morbid properties and functions of an organ or tissue to their natural state, and if constitutional invigoration is effected while this salutary local change is in progress, the medicine which produces the double result is strictly and literally a "*Renovating Resolvent*."

The theory that all ulcerous, cutaneous, and glandular diseases—with many other painful and dangerous maladies that can not be technically classified under those heads, are due to the presence of a *poisonous element in the blood*, is of ancient date; but it never *has* been nor *can* be controverted or shaken, because it is founded on undisputable facts. We know that physical infirmities are sometimes transmitted in families from generation to generation, and it is self-evident that the only medium through which they can be thus propagated is that fluid whence every secretion, every gland, muscle, bone, sinew and fibre which make up the human frame is primarily derived. If the red current that flows through the veins and arteries is pure, the body can not be diseased; if it be impure, bodily health is a physical impossibility.

Each portion of our structure abstracts from the blood (which according to modern physiologists consists of seventeen elements) precisely the constituents necessary for its own sustainment, and if the elements thus secreted are empoisoned, disease in some shape or other is the inevitable consequence. A corrupt tree will not bring forth good fruit neither can corrupted blood be converted into healthy flesh and fibre.

To expel from the circulation the poison which generates many of the most terrible disorders that affect humanity, and to recruit the constitutional elasticity and vigor which those disorders necessarily impair, is the important province of *Radway's Renovating Resolvent*.

It may be thought strange, perhaps, that one medicine should be applicable to so large a number of ailments as are claimed to be within the remedial scope of this powerful vegetable purifier and invigorant. But the truth is that the generic diseases are few although their manifestations are almost infinite in variety.

Thus *Scrofula* takes innumerable shapes which are distinguished by different names, and unfortunately for the sufferers, are treated in as many different ways; although a radical and permanent cure of any of them can only be effected by *extirpating from the blood the vitiating agent which is the dread parent of them all*.

Scrofulous diseases are often seemingly cured by *suppressive medication*. No superficial trace of them is left. But are they therefore extinct? Not so. They may be said to lie *perdu* in the vital fluid, awaiting an opportunity for re-development. They *slumber* but they are not *dead*.

While all is fair without,

"Corruption, mining all within,
INFECTS UNSEEN."

The seeds of the disease are scattered through the system instead of being driven out of it or destroyed, and although they may remain inactive for months or even years, they are sure to germinate at last and may possibly produce an ailment quite different in its outward symptoms from the one that *was suppressed*, although of the same generic character. For example, the virus of a stifled ulceration may subsequently generate a dry eruption or hard tumors, or carbuncle, or nodes, or caries, or necrosis, or cancer, or scurvy. Nobody can tell in what form the uneradicated venom will take its ultimate revenge.

It is, therefore, of the highest importance that the scrofulous poison be *eradicated*; that it be reached at its sources in the circulation by an *irresistible disinfectant* like the *Resolvent*, and utterly extinguished there. That done, the cure is perfect. There can be no relapse, no reappearance of the old foe with a new face.

Children and even adults are often inoculated with disease in the process of vaccination. If the vaccine matter contains other morbid elements than those proper to itself it is as sure to communicate them to the party vaccinated as to communicate the kine-pox. Why not? If the pus be charged with two infective principles, why should they not be equally active? A long time may elapse before the unsuspected evil takes a palpable form, but its eventual development is certain. In fact, no calculation can be made as to how long the germs of a disease may exist in the blood, before the symptoms appear. There have been cases in which the virus of hydrophobia has lurked in the blood for years, to manifest itself at last in the most appalling type of the malady.

Surely, under these circumstances which no medical man will question, it is madness to trifle with distempers originating in the venous system. *Excirpation* is the only *safety*, and this desideratum may always be attained by the persistent use of the "*Resolvent*."

Acute diseases often become chronic in consequence of maltreatment. The rash and wholesale use of calomel, blue pills, corrosive sublimate, mercurial ointment, etc., in cases of primary and secondary syphilis, often lays the foundation of maladies more difficult to deal with than the lues venerea itself.

The arsenical preparations not unfrequently given in Fever and Ague, and the so-called heroic doses of quinine so often administered to persons suffering from remittents and intermittents, also do a vast amount of mischief. In fact, the disorders artificially created by an indiscriminating use of mercury and quinine are almost invariably more terrible than those that they are prescribed to cure. To purify the blood and restore it to its normal healthfulness after being contaminated through the misuse of mineral salivants and active poisons, no medicinal agent is so sufficient as the "*Renovating Resolvent*." One bottle of it contains more of the disinfecting principle attributed to sarsaparilla than five bottles of the so-called Extracts of that root. To this effect the most eminent analytical chemists have certified, and the wonderful operation of the remedies in long standing cases of mercurial diseases abundantly prove the correctness of the analysis.

There are certain sexual ailments for which the Resolvent and the Relief are specifics, that must not be overlooked in this connexion, although they are of too delicate a nature to be minutely described in a treatise intended for universal circulation. The complaints referred to are those to which *ladies only* are subject. Their name is legion but they are all traceable to the derangement of a simple function and are all controllable by the same means. Whether the results of the derangement are weakening discharges, leucorrhœa, chlorosis, amenorrhœa, painful or suppressed menstruation, inflammation of the womb, prolapsus uteri, or any other of the complaints and disabilities which affect the female organs of reproduction, the evil may be readily arrested, and reinvigoration and regularity secured by a course of the Resolvent, seconded by the occasional application of the Relief to the spine.

An instance of the extraordinary success of this mode of treatment has recently occurred in the city of Brooklyn. Mrs. S.—a young married lady had long suffered from sexual difficulties in the form of irregularities, to such a degree that her life was a burden to her. She was worn down to a mere shadow, and her fits of mental depression almost amounted to insanity. The pains in her back and loins were so violent and acute, and the periods when nature was struggling to restore the interrupted local function, that to use her own words she was often "for whole days upon the rack." While in this sad condition she was advised by a lady friend to try Radway's Renovating Resolvent and Ready Relief, and the physician who attended her has testified over his own signature to the remarkable and rapid change they produced. In three months perfect regularity was re-established and every unpleasant symptom bodily and mental has disappeared. If names and facts could honorably be given in such cases, hundreds of them might be cited and the statements verified beyond the possibility of question.

As a specific for nervous weakness and every species of physical debility, general or local, and as a prompt restorative for feeble convalescents, who have been brought as it were to death's door by the violent diseases of the tropics, there is no preparation comparable with the Renovating Resolvent.

The Renovating Resolvent, if used in either of the following named complaints, will positively cure the patient:

SKIN DISEASES, CARIES OF THE BONES, HUMORS IN THE BLOOD, CONSTITUTIONAL, CHRONIC AND SCROFULOUS DISEASES, SCROFULA, SYPHILIS, FEVER, SORES, ULCERS, SALT RHEUM, ERYSIPELAS, RICKETS, SCALD HEAD, SORE LEGS, CANKERS, GLANDULAR SWELLINGS, WHITE SWELLINGS, NODES, SORE EARS, SORE EYES, STRUMOUS DISCHARGES FROM THE EAR, OPHTHALMIA, ITCH, CONSTITUTIONAL DEBILITY, WASTING AND DECAY OF THE BODY, SKIN ERUPTIONS, PIMPLES AND BLOTCHES, TUMORS, CANCEROUS AFFECTIONS, DYSPEPSIA, WATER BRASH, NEURALGIA, CHRONIC RHEUMATISM AND GOUT, DISEASES OF THE KIDNEYS, BLADDER URETHA, STRICTURES, DIFFICULTY OF PASSING WATER, CALCULOUS DEPOSITS, &c.

HUMORS AND SORES OF ALL KINDS.

And all diseases entailed from SMALL POX, MEASLES, ERYSIPELAS, FEVER AND AGUE, YELLOW FEVER, TYPHUS, AND OTHER FEVERS, such as DROPSY, DEAFNESS, FITS, LOSS OF MEMORY, &c.

When infants and young children are afflicted with SORES OF THE GUMS, CANKER IN THE MOUTH, SORE HEADS, EARS AND EYES either from Worms, Teething, or any other cause, RADWAY'S RENOVATING RESOLVENT will speedily eradicate every particle of disease, and reinvest the child with health.

THE GREAT PURGATIVE.

DR. RADWAY'S PILLS,

FOR THE CURE OF
ALL DISORDERS
OF THE

Stomach, Liver, Bowels, Kidneys,
Bladder, Nervous Diseases,
Headache, Constipation,
Costiveness, Indiges-
tion, Dyspepsia,
Biliousness,
Bilious Fever, In-
flammation of the Bow-
els, Piles, and all Derange-
ments of the Internal Viscera.

ONE TO SIX BOXES ARE

WARRANTED TO EFFECT A POSITIVE CURE.

PURELY VEGETABLE

CONTAINING NO MERCURY, MINERALS, OR DELETERIOUS DRUGS.

D O S E :

As a brisk purge, four to six pills; as a laxative, one or two pills—to be taken at night on retiring.

Observe the following symptoms, resulting from Disorders of the Digestive organs—
Constipation, Inward Piles, Fullness of the Blood to the Head, Acidity of the Stomach, Nausea,
Heart-burn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking
or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried and Difficult Breath-
ing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture,
Dimness of Vision, Dots or Webs before the Sight, Fever and Dull Pain in the Head, Defi-
ciency of Perspiration, Yellowness of the Skin and Eyes. PAIN IN THE SIDE, CHEST,
LIMBS, AND SUDDEN FLUSHES OF HEAT, BURNING IN THE FLESH.

THE LIVER.

Many of the disorders of the Stomach, Bowels, Kidneys, and other glands of the system, are caused by derangement in the action of the Liver. Headaches, Nervousness, Dyspepsia, Hysterics, frequently owe their presence to a disordered liver. What a blessing, then, to suffering humanity, are Radway's Regulating Pills, (called Regulators.)

These Pills are the most safe, effectual, and speedy Corrector and Regulators of the Liver in use, and are the only Medicine known to the world that possesses the wonderful power of imparting *nutriment* to the diseased system while it is undergoing medication. In all cases of Liver Difficulties, Dyspepsia, Costiveness, Biliousness, Headache, Neuralgia, Hysterics, the patient taking these pills derives a nourishing principle from their use that cannot be obtained from ordinary food. In all cases of Indigestion, where the torpid state of the Liver interrupts the process of Digestion, Radway's Regulating Pills quickly restore each and every organ to its natural tone, vigor, health, and duty.

DR. RADWAY'S PILLS ARE SOLD BY ALL DRUGGISTS AT 25c. PER BOX.

DR. RADWAY'S OFFICE,

87 MAIDEN LANE, New York.

RADWAY'S READY RELIEF.

ITS THREE METHODS OF APPLICATION.

Either of which for the ailments and diseases prescribed, will afford immediate relief and consequent cure.

RUBBING THE SPINE.

This method of application should be resorted to in all cases of SPINAL AFFECTIONS, OR WEAKNESS, RHEUMATISM, NERVOUSNESS, NEURALGIA, LUMBAGO, SPASMS, SCIATICA, GOUT, Paralysis, Numbness, Diseases of the Kidneys, Bladder, Urethra, Difficulty of Passing Water, Pain in the Small of the Back, Cramps and Spasms, Pain in the Hips, Back and Thighs, Weakness and Lameness in the Back or Legs.

And in all Female Complaints, such as Leucorrhœa, Weakening Discharges, Obstructions, Retention, Weakness, Pro-laps Uteri, Hysterics, Headache, &c., &c.

In these cases, the entire length of the Spine should be rubbed for 10 or

15 minutes, three times per day. In many instances the most severe and agonizing pains will cease during the process of the FIRST RUBBING. Its continued use a few times will cure the patient of the most aggravating and long standing diseases.

Persons suffering from either of the above named complaints, should not hesitate a moment to apply the Ready Relief, as directed. *It will surely cure.*

The Rubbing should be continued until a sense of heat and irritation or burning is experienced. If you succeed in securing this action on the skin and back, you may feel perfectly satisfied of a cure—it is a sure sign.

SECOND METHOD OF APPLICATION.

APPLIED EXTERNALLY,

By Rubbing the part or parts of the body where the disease or pain is seated, with the Ready Relief.

In ninety-five cases out of one hundred, the most severe pains will cease by one Rubbing with the Relief.

IN ATTACKS OF SORE THROAT, HOARSENESS, CROUP, DIPHTHERIA, INFLUENZA, THE RELIEF SHOULD BE APPLIED TO THE THROAT AND CHEST.—IN A FEW MOMENTS THE SORENESS, IRRITATION AND INFLAMMATION WILL CEASE.

Let the Ready Relief be applied in this manner for the following complaints:

RHEUMATISM, TIC DOLOREUX, TOOTHACHE, HEADACHE, EARACHE, INFLAMMATION OF THE STOMACH, BOWELS or KIDNEYS,

SPRAINS, STRAINS, CUTS, BRUISES, WOUNDS, CRAMPS, BURNS, SCALDS, PIMPLES, BLOTCHES, MOSQUITO BITES, STINGS OF POISONOUS INSECTS, CHILBLAINS, DEAFNESS, SUN STROKE, APOPLEXY, EPILEPTIC FITS, ASTHMA, LUMBAGO, SORENESS and PAINS IN THE LEGS, FEET, JOINTS, &c., LAMENESS, SWELLING of the KNEES, FEET, LEGS, &c., SORE EYES, and in all cases where there is pain or distress, the READY RELIEF, if applied over the part or parts, will afford immediate ease.

There is no other remedy, Liniment, or Pain-Killer in the world that will stop pain so quick as RADWAY'S READY RELIEF.

THIRD METHOD OF CURE.

TAKEN INTERNALLY. — One tea-spoonful or more, if necessary, to a wine-glass of water every hour until relief is afforded. One dose in most cases will prove sufficient.

ASIATIC CHOLERA, DIARRHŒA, BILIOUS COLIC, LOOSENESS OF THE BOWELS, SICK or

NERVOUS HEADACHE, FOUL BREATH, HYSTERICS, WORMS, CHOLERA MORBUS, WIND COLIC, SPASMS, PURGING, HEART-BURN, FITS, SEASICKNESS, DYSENTERY, VOMITING, CRAMPS, SOUR STOMACH, HYSTERIA, CONVULSIONS, BAD DREAMS;

—ALSO,—

FEVER AND AGUE,

One dessert spoonful every three hours during the interval of fever. Also, take four to six of **RADWAY'S PILLS** every second night.

Persons subject to Chills and Fever, Ague, &c., can prevent these attacks by taking repeated doses of Radway's Ready Relief, daily, during the prevalence of this *complaint*.

CHILLS AND FEVER.

FOR A CURE.—The **RELIEF** should be taken on rising every morning, before eating, and a dose of 4 to 6 of **RADWAY'S PILLS** taken every night. This treatment will cure Fever and Ague, without subjecting the patient to the horrors entailed by the copious use of Quinine, Calomel, Arsenic, &c.

LETTER FROM DR. SALMON SKINNER.

New York, January, 1860.

Dr. Radway & Co. :—I have, during the past four years, used your remedies, and have recommended them to others for **BILIOUS COMPLAINTS, INDIGESTION, DYSPEPSIA, &c.** I consider the Ready Relief and Regulating Pills unequalled. The Regulating Pills are mild in their operations and thoroughly effective.

The first dose should be large enough to purge, say four or five, and each successive dose be diminished one pill, until reduced to one, and then repeated every day for a week or ten days. A permanent cure will surely follow.

Yours, &c.,

DE. S. SKINNER.

AN INTERESTING LETTER FROM JOHN POTTS, OF SOMERTON, PHILADELPHIA CO., PA.

DYSPEPSIA, FISTULA, PALSY, RHEUMATISM CURED.

Dr. Radway & Co. :

MAY 9, 1863.

DEAR SIR :—I have been for several year past using your medicines on myself, family, friends and neighbors. I have seen them used in all cases successfully where a proper trial has been made, and sometimes do much good where imperfectly used. I wish to make known to the world the following wonderful cures :

A neighbor of mine was afflicted with the Dyspepsia, and likewise suffered from a Fistula. I had no doubt but that Dr. Radway's Remedies would cure the Dyspepsia, but was not certain as to the Fistula. I commenced giving the patient a dessert spoonful of the **RENOVATING RESOLVENT** three times per day, half an hour after each meal—a dose of from two to four pills every night. Sometimes I would discontinue the use of the pills for two or three days, then give them every other night. The **READY RELIEF** I applied externally whenever there were pains or distress, and internally a teaspoonful in a wineglass of water, when seized with Cramps, Weakness, Pains in the Stomach, &c.

Two months' use of the Medicine completely eradicated the Dyspepsia; and the Fistula that had been troubling him for eighteen months, began to heal, and continued to improve. The continued use of the **RESOLVENT** and **RADWAY'S PILLS** effected a perfect cure.

Another case is that of a man who had a stroke of Palsy, and suffered severely with Palsy Rheumatism. The use of the **READY RELIEF** and **REGULATING PILLS** cured him.

Yours, respectfully,

JOHN POTTS,

Somerton, Philadelphia County, Pennsylvania.

FACTS AND FIGURES.

READ AND COMPARE.

There are two especial points connected with the treatment of disease upon which the sick require, and have a right to expect, accurate information.

In the first place, they desire to know what medicines will certainly and speedily restore them to health; and in the second place, what will be the expense of a complete and radical cure.

By contrasting the moderate cost of

DR. RADWAY'S REMEDIES

with the heavy expense involved in employing a physician, and procuring the medicines he may prescribe, it will be seen that

SEVERAL THOUSAND PER CENT.

may be saved by resorting to the three carefully prepared vegetable specifics known as RADWAY'S READY RELIEF, RADWAY'S REGULATING PILLS and RADWAY'S RESOLVING RESOLVENT, which comprehend within remedial range all types of acute and chronic disease. This can be made manifest by a few illustrations based on facts. To begin with the

READY RELIEF.

Case 985.—Henry E. Morton, New York City, is seized with severe vomiting and purging, accompanied by cold chills and violent pains in the bowels. A physician is called. He treats the patient for CHOLERA MORBUS. First visit, \$3; cost of prescription, 75 cents. Second visit next day, \$3. Change of treatment. New prescription \$1. Patient still suffering and sinking fast. At this stage the READY RELIEF is suggested. One bottle 50 cents. A teaspoonful in water is given and an application made to the stomach and abdomen. Pain ceases—vomiting is stopped—discharges are checked—system recovers its tone—strength is restored. Patient perspires freely, and falls into a refreshing sleep. Cure complete. NOW BALANCE THE ACCOUNT.

Physician's bill, \$6; prescriptions (utterly useless) \$1 75.....\$7 75
Bottle of Ready Relief (which effects a cure with three-fourths of the bottle spared for other exigencies)..... 50

Balance in favor of READY RELIEF.....\$7 25

Case 1,169.—Freeman L. Forsyth, Brooklyn, is attacked with Ague and Fever. Medical man called in. Charge \$3 per visit. Looks in daily for a fortnight. Prescribes quinine, piperine, arsenic, morphine, &c. Prescriptions costly, averaging \$1 per day. No perceptible improvement in patient. Advised to try READY RELIEF and REGULATING PILLS. Relief 50 cents per bottle, Pills 25 cents per box. Half a dozen doses of the Relief, diluted according to directions, break up the fits, and two or three doses of Pills remove the malarious virus of the disease from the system. Post the Books again:

Physician's account—14 visits at \$3 each, \$42; prescriptions, \$10, (and no benefit).....\$52 00
Relief, 50 cents, Pills, 25c., (a portion of which effect a cure, leaving a surplus for future use. 75

Balance in favor of READY RELIEF.....\$51 25

Case 2,631.—James B. Hendrick, New York City, night attack of violent Bilious Colic. Doctor called in. Visit \$3. Second visit in the morning \$3. Third, in the afternoon, \$3. Prescriptions, \$4. Patient still in agony and pulse and strength failing. At this stage the RELIEF administered, paroxysms of pain arrested, and cure perfected by the assistance of a few doses of the REGULATING PILLS, which carry off the corrupt and acid humors that caused the attack. Compare again: Physician's charge, \$9; Prescriptions, \$4.....\$13 00
RELIEF and PILLS, (with more than a dozen doses yet on hand)..... 75

Balance in favor of the RELIEF.....\$12 25

RADWAY'S READY RELIEF is a household medicine which no prudent family that understands its value will ever be without. It instantly arrests pain, and its effects as a defensive stimulant, anodyne, nerve in cholera, cholera morbus, bilious colic, spasms, fits, malarious diseases, &c., transcend those of any other preparation known. As an external application for burns, wounds, scalds, bruises, &c., it has no equal. Pass on to

RADWAY'S REGULATING PILLS.

Case 592.—W. A. Stuart, New York City, a martyr to chronic dyspepsia, complicated with liver complaint. Physician's bill for one year's attendance, \$200. Prescriptions, \$100. No improvement. Appetite gone, sickness at the stomach, terrible oppression after eating, bowels irregular, complexion cadaverous, body emaciated, pain between the shoulders and in the right side, great debility, spirits suppressed. In this condition patient resorts to a course of the REGULATING PILLS. After the first two doses the distressing symptoms sensibly abate, and the patient, persevering in the use of the remedy (and adopting such rules in regard to diet, &c., as common sense suggest), is soon perfectly well. Four boxes, 25 cents each, suffice to banish every relic of the complaint. Contrast the cost:

Medical attendance for one year, \$200; medicines, \$100 (of no avail).....\$300
Four boxes of the REGULATING PILLS, at 25 cents each (and a cure perfected)..... 1

Balance in favor of REGULATING PILLS.....\$299

Case 1,236.—Marcus W. Mount, long a sufferer from liver complaints, has paid, he says, at different times, about \$250 to physicians, and he thinks as much more for medicines. Is induced to try

REGULATING PILLS, with occasional doses of the RESOLVING RESOLVENT, to assist in removing from his system the effects of the mercurial treatment to which he has been subjected. Soon feels the benefit of the change. Takes, in all, five boxes of the PILLS and three bottles of the RESOLVENT, and at the end of the course is "as well as he ever was in his life."

(Glance at the account current below:

Bills for medical attendance, \$250; outlay for prescriptions, \$250 (so much money thrown away).....\$500 00
 Five boxes of REGULATING PILLS, \$1 25; three bottles of RESOLVENT at \$1 each, \$3—(disease removed)..... 4 25

Balance in favor of REGULATING PILLS and RESOLVENT.....\$495 75

The REGULATING PILLS possess the alterative, anti-bilious and disinfectant properties of Mercury, without any of its pernicious attributes. They are prepared in vacuo from concentrated vegetable extracts, and are an absolute specific for all disorders of the stomach, liver, bowels and kidneys. They tone the system while relieving the bowels from viscid humors, and control the liver more readily than blue pills or any preparation of quicksilver, or its salts or oxides.

And now a few words about the effects of the

RENOVATING RESOLVENT.

Case 1,969.—Zachary N. Lathrop, New York City, a sufferer from chronic scrofula; has been long under physicians' hands; has twice had the disorder suppressed with blue pill and mercurial ointment, but only to re-appear in another and more malignant form; has been repeatedly salivated, and suffers from mercurial disease complicated with the original disorder. Suppresses he has paid for medical attendance and costly drugs, such as iodine, hyd. potash, corrosive sublimate, extracts of sarsaparilla, various acids, &c., over \$300. Is recommended to give the RENOVATING RESOLVENT a trial. Before the first bottle is finished there is a manifest change in the appearance of the sores with which he is affected. As the medicine is continued they begin to heal, and after the course of six bottles he is a sound man. The mercury is out of his system, and the disease is not suppressed, but eradicated. Once more pure, uncontaminated blood runs in his veins, and his health and vigor are completely restored. Strike the balance:

To medical advice and medication, (worse than useless).....\$350
 To six bottles of RENOVATING RESOLVENT, at \$1 per bottle, by which the priceless blessing of health is restored..... 6

Balance in favor of the RESOLVENT.....\$344

Case 1,064.—Sergt. B. A. Cole, New York City, a returned volunteer. Complaint, chronic rheumatism, produced by exposure during the war. Was one month "under treatment" since his discharge. Received during that time 20 visits from his physician. Visits \$3 each. Cost of medicines prescribed, consisting of colchicum, gum guiac, quinine, morphine, hyoseyamus, &c.—all expensive—and various embrocations, \$1 50 per day on an average. Whole amount paid for prescriptions, \$45. Not the slightest change for the better produced. RENOVATING RESOLVENT and READY RELIEF (as an external application) recommended by physicians as a *dernier resort*. Result immediately beneficial. Patient convalescent in three days. Within four weeks, pain, swellings, contractions and all other symptoms removed. A radical cure. Number of bottles of RESOLVENT taken, four, and half a dozen bottles of RELIEF, used as an external remedy.

Look again at the comparative expense:

Physician's fees, \$60; medication, \$45—all to no purpose.....\$105
 Four bottles of the RESOLVENT, at \$1 each, and six bottles of RELIEF, at 50 cents, (every trace of the disease eradicated)..... 8

Balance in favor of the RESOLVENT and RELIEF.....\$98

A VERY HARD CASE.

On looking over the record book of reported cases of cure, we find the following, which we publish as a warning to the indiscreet, and likewise as a means of cure for those who are similarly afflicted.

Case 20,206.—Thompson Riggs, states:—I am a married man, with three children, aged 45. In 1857, my business as a commission merchant called me to San Francisco. While there I contracted a frightful and loathsome disease that laid me on my bed for nine months. I paid for physician's fees \$1,200 00, medicines \$600 00. At the end of nine months, the disease was so far suppressed that I was enabled to return to New York. In two weeks after my arrival, the old disease appeared in a more severe form. Sores and running ulcers covered my body, my throat ulcerated, and mouth, tongue and lips a mass of sores. This is not all. By carelessness of my servant, one of my children used a towel of mine, and the little innocent became afflicted with sore eyes, mouth and nose. Again I called a physician who attended myself and child for three months. Fees, \$150 00; medicines, \$80 00, of no good. I then commenced a course of RESOLVENT. Nine bottles, at \$1 per bottle, made a perfect cure of myself and child. Let us again balance the account:

California physicians.....\$1,200
 " medicine..... 600
 New York Physician..... 150
 " Prescriptions..... 80

Nine bottles of RESOLVENT.....\$2,080
 9

Balance in favor of RESOLVENT.....\$2,021

N.B.—The cost of medical attendance in the above table is based upon the charges of medical men in the cities of New York, Brooklyn, Philadelphia, Boston and New Orleans. In towns and villages where living, house rent, &c., is cheaper, the fees of physicians are consequently less, averaging from one dollar to one dollar and fifty cents per visit.

RADWAY'S RENOVATING RESOLVENT is the most perfect depurative, and the most powerful restorative that has ever been derived from the vegetable kingdom. It eliminates from the blood every trace of serofluous or syphilitic virus, eradicates mercurial disease, and is the only preparation which can be depended upon for a thorough cure in tumorous, cancerous and other consuming diseases of the fleshy fiber. In salt rheum, erysipelas, and all cutaneous eruptions, it is equally efficacious; and as its effect is not merely to suppress symptoms, but to remove the morbid causes, the cures are always permanent, one bottle of it containing more of the active disinfectant and purifying principle of Sarsaparilla than is diffused through **ONE GALLON** of the ordinary extracts of that root.

The above comparative view of the expense of ordinary medication and of the cost of cure through **RADWAY'S REMEDIES** is not in the slightest degree overdrawn. It is founded on testimony in the possession of Dr. Radway, and accessible to all who desire to examine it. The sole object has been to **ILLUSTRATE FACTS**, in a familiar way, by exhibiting an

ACCOUNT CURRENT

between disease and the stereotyped practice on the one hand, and Dr. **RADWAY'S REMEDIES**, on the other. If, however, the balance is several thousand per cent. in favor of the latter in an economic point of view, it is infinitely greater in a sanitary sense. As regards cost a comparison may be instituted, but *not* as regards *remedial value*. The superiority of the **READY RELIEF**, **REGULATING PILLS** and **RENOVATING RESOLVENT**, over all other medicines of the classes to which they belong has been made too manifest to be successfully disputed in any quarter, and is too great to admit of computation.

RADWAY & CO., No. 57 Maiden Lane, N. Y.

MEDICAL TESTIMONY.

As an evidence of the high opinion and confidence the Medical Faculty in the United States entertain for these remedies, we present the following letter from Prof. Reid

DR. LAWRENCE REID,

Seven years lecturer on Medical Chemistry in the New York Hospital, and seven years Professor of Chemistry in the New York College of Pharmacy, and for four years in the Medical University of Edinburgh, Scotland.

56 DE KALB AVE., BROOKLYN, NOV. 30th, 1863.

DR. RADWAY & Co., of New York, have submitted to my analysis their three remedies, named "Ready Relief," "Renovating Resolvent," and "Regulating Pills;" they have also communicated to me their mode of preparing the same. After a careful examination of these articles, I pronounce them as composed of ingredients of great purity and cost, free from mercury or other dangerous substances, and prepared with skill and care.

Having long known Dr. Radway & Co., as scientific gentlemen of high attainments, I place every confidence in their remedies and statements.

These remedies, in my opinion, stand on different ground from nostrums which absurdly pretend to cure all diseases with one preparation. They are a well considered series of remedies prepared on scientific principles, and having a strong claim to public favor.

From their adaptation to the diseases for which Dr. Radway & Co.'s remedies are recommended, and from their speedy action in giving relief, I consider them as a useful invention and quite a family convenience, superseding in numerous instances the necessity of medical assistance; and when that is necessary, doing something of a safe nature to relieve the sufferer in the interval.

I have no doubt of the great value of the Relief as a local application to the spine in those Cases of weakness of the body or limbs, or the digestive and other organs which depend upon the nerves proceeding from the spine for power to perform their functions.

LAWRENCE REID, Professor of Chemistry.

DR. SIDNEY STEVENS' TREATMENT OR CURE WITH RADWAY'S PILLS.

Inflammation of the Bowels, Bilious Fever, Dyspepsia, Costiveness, Scarlet Fever, Lead Colic, &c.

U. S. INVALID HOSPITAL, NEW YORK.

Dr. Radway & Co.:—I send you for publication the result of my treatment with your pills in the following cases:

1st CASE.—Inflammation of the Bowels. John C. Chapman, aged thirty-four, was seized on the night of the 22nd of October with inflammation of the bowels; was called at 10 P. M.; he had then been suffering over three hours; had not a passage for six days. I gave him six of your pills, and applied the Ready Relief to the abdomen; in a few minutes the pain ceased, he fell into a calm sleep; at 4 A. M. he had a free evacuation; at 9 A. M. eat his breakfast; at 11 A. M. gave him six more pills, and for five days gave him three pills per day; he is now well and hearty. In all cases of inflammation of the bowels, I succeed in removing all danger by a single dose of from six to eight hours. In lead colic, I give the pills in large doses—six to eight, and a teaspoonful of Relief to a wineglass of water every three hours—it always cures.

2nd CASE.—David Bruco, aged twenty-six, called at 3 P. M. on Nov. 25; found that he had been attacked with bilious fever for twenty-two hours. I gave him six of your pills every four hours,

and gave him warm drinks of boneset tea. In twenty-four hours he was convalescent; is now at work and perfectly healthy.

3d CASE.—Sarah Burns, aged six years, seized with scarlet fever; gave her two pills every four hours for twenty-four hours; applied the Ready Relief to her throat, gave her lemonade with half a teaspoonful of Relief as a drink. In thirty-six hours she was playing with her brothers and sisters. I have prescribed your Pills in cases of Dyspepsia, Indigestion, Costiveness, Sluggishness of the Liver, or Torpidity, and have witnessed the most astonishing cures. I believe them the only true purgative in use; they are invaluable, having a greater controlling influence in Liver and Spleen derangements than calomel or blue pill. Your Pills are the only purgative that can be administered with safety in Erisipelas, Typhoid Fever, Scarlet Fever, Small Pox, and all Eruptive Fevers; their soothing, tonic, and mild aperient properties render them invaluable.

Yours, &c., SIDNEY STEVENS, M. D.

FROM THE TROPICS.

RHEUMATISM AND BILIOUS FEVER CURED.

From the GUARDIAN, Kingston, Jamaica, W. I., March 15th, 1866.

PRO BONO PUBLICO.

MIRACULOUS CURE EFFECTED! READ! REMEMBER! REFLECT

To J. S. PRIEST, Esq., Kingston.

Agent of Dr. Radway, New York.

Dear Sir:—Permit me to express to you my heartfelt thanks for your friendly and timely visit of yesterday, whereby you so speedily relieved my sufferings by means of the truly valuable remedies of Dr. Radway. I was a victim of the late insurrection, having been ran into the bushes by the rebels, and forced to remain for three days and three nights, sleeping upon the bare ground, thereby contracting a most violent attack of Rheumatism, by which my limbs became completely swollen and useless, and so painful as to prevent my turning in my bed, and at the hour you called I had not slept for several days and nights in succession.

Besides this Rheumatism, I had been suffering several days with a violent bilious fever.

You came at 10 o'clock, A. M., and prescribed a dose of "Radway's Regulating Pills," which I took immediately, and, as you also directed, my servant commenced rubbing my limbs thoroughly with Radway's Ready Relief. The operation of the Pills was so complete, (and not attended with the griping pains so common to purgative medicines,) that by 3 o'clock, P. M., I became so much relieved of pain and fever, as to be enabled to move my limbs in any direction, in a word I must truly say that I felt like a new man, so efficacious were these remedies. To-day the swelling has subsided, and I hope by to-morrow to go out and attend to my business.

I now make this statement of facts as well in acknowledgment of your timely aid, and the wonderful cure effected, as also that you may refer to me at any and all times and publish this letter for the information and relief of suffering humanity.

JAMES A. WILSON,

Book-keeper at Golden Grove Estate, St. Thomas ye East.

Kingston, Jamaica, March 12, 1866.

I can cheerfully attest to the truth of the foregoing as Mr. Wilson is a lodger in my house, and I know what has been stated to be true as do others on these premises.

ELIZA TYRRELL.

Thames Street, Kingston, Jamaica, March 12, 1866.

As I was the person that introduced Mr. Priest to Mr. Wilson, I most cheerfully certify to the foregoing facts as also to the signature.
ROBT. KIRKLAND,
Merchant, St. Thomas ye East.

Kingston, Jamaica, March 12, 1866.

ASTHMA AND INFLAMMATION OF THE STOMACH.

RIO DE JANEIRO, February 7th, 1866.

Messrs. Radway & Co. —For more than two years that I have been suffering with those terrible diseases, Asthma and Inflammation of the Stomach, and have tried everything prescribed by "Medical Science" but without any good result. By chance, however, I saw your advertisement in the *Journal do Commercio*. I went and bought a bottle of your remedy called "Prompto Alivio" (i. e. Ready Relief) and a box of your "Reguladores," which cured me almost instantaneously, by following the rules dictated in your circular, which I was fortunate enough to obtain. Therefore, gentlemen, receive my best thanks for the good you have done me, through the medium of your remedies. I remain, gentlemen, yours very obedient,

Rua dos Pescadores No. 24.
