Clifford.

Mr. James Thomson, of Carrick, sold two thoroughbred ram lambs, one to G. H. Whyte, and one to Mr. Charles Dickson. The one sold to Mr. Whyte weighed 168 pounds, and the other was also a fine lamb.

The trustees of Lints' school house have engaged Mr. J. A. Rogerson, of Walkerton, (now teaching at North Bruce), for 1908, at a salary of \$500. The new teacher holds a second-class professional certificate. There were fifty-seven applications.

Mr. R. B. Stevenson, divinity student, occupied the pulpit of Knox church last Sabbath morning and evening. The evening sermon was one prepared for delivery at the Academy in Toronto before the Professors.

Mr. George Twamley, an old resident of this vicinity, died on November 6th, and the funeral took place from the residence of his brother-in-law, Mr. George Henry, Howick, to Gorrie, on Friday. His brother, Richard, died here a couple of years ago.

Ontario Liquor License Act.

LICENSE DISTRICT OF SOUTH BRUCE.

Notice is hereby given that Wendell Beitz, of Mildmay, has made application for permission to transfer his tavern license for the premises to transfer his tavern license for the premises in Mildmay, Township of Carrick, known as Station Hotel, to John Schnurr of Formosa, and that said application will be considered at the meeting of the Board of License Commissioners, to be held at the Station Hotel, in the Village of Mildmay, on the 18th day of December, 1907, at the hour of one o'clock p. m.

All persons interested will govern themselves accordingly.

BENJ. CANNON,
License Inspector.
this 19th day of November, 1907.

—Hazlewood Bros. of Clifford have an advertisement in this issue.

—All trimmed hats will be sold at greatly reduced prices. Miss Millie Schurter.

—Jacob Steinmiller, of Otter Creek presented us this week with one of his handsome calendars for 1908. The calendar is appropriately illustrated and should prove a strong advertisement.

—Mr. John Crandell of Ingersoll died yesterday after an illness of seven months. Deceased was 32 years old. He was married to Miss Louise Scheffer, daughter of Mrs. Louis Scheffer of Mildmay. The remains will be brought here this afternoon, and the burial will take place at the Mildmay R. C. Cemetery.

Bro. Whitlock of Wiarton has a libel suit on his hands. In a recent issue of the Canadian he is alleged to have accused John T. Bartley, of Red Bay, with stealing logs.

William McIntosh, a Cobalt drug clerk, died from the effects of inhaling the fumes of nitric acid.

John Hunter, an old resident of Uxbridge, committed suicide by cutting his throat with a razor.

An exchange tells of a merchant in Lindsay who required some money and accosted a wealthy farmer who owed him an account. The farmer stated that he could not pay anything just then but on being pressed said he would try and give him some soon. The creditor explained that he was carrying many accounts without interest while the bank was charging him 8% for loans. The debtor then made the proposition that as he had considerable money in the bank he would lend the merchant a few hundreds at 6% as he was only getting 4 in the bank, and he was always willing to help a man out in a pinch.

LAKELET.

Miss Trench, who has taught in our school during the past year, is engaged at No. 1 Howick for 1908. It is certainly a big mistake to let Miss Trench leave for a few dollars. She has proven herself a capital teacher, and Lakelet section will certainly be a big loser. Miss Trench's home is between Gorrie and Wroxeter.

There was quite a sensation in the village last week when the news spread that Thomas Bennett's friend named "Budget" had been drowned in the lake. What lent color to the report was the fact that the man's hat was seen floating on the lake. While Tom was organizing a searching party the supposed victim turned up. The hat was fished out of the lake and presented to Tom as a reward for his great bravery and presence of mind.

There is a whole lot of kicking being done by the patrons of all the butter factories at the results of the past season. If a kind providence sees fit to chasten poor sinners here below by not sending the showers to make the grass, why be rebellious? That is the solution to the whole thing. Cream was scarce, expenses higher accordingly and there is no use of imputing motives to the Directors when they did the very best they could.

A WONDERFUL COW.

Visitors to the Ontario Agricultural College during the past summer were shown a Holstein-Friesian cow, called Boutsje Q. Pieterje De Kol, which was expected to produce twenty thousand pounds of milk within the year. As a matter of fact, she has actually exceeded this estimate. From October 27th, 1906 to October 26th, 1907, she has given 20,778 pounds of milk, testing a fraction over 3.76 per cent., and containing 781.91 pounds of butter-fat. The cost of the feed, as charged up by the College authorities, was \$72.66. The value of the butter-fat, at prices that have been paid neighboring farmers by the College creamery, was \$190.38. If the 20,000 pounds of skim milk and buttermilk were to be valued at, say 20c per cwt., it would amount to \$40. Adding this to the value of the butter-fat, the total yield of butter-fat and skim milk would equal \$230.38. Deducting the cost of feed, we have a profit, over feed consumed, of \$157.72. At the prices for cream which have been received during the past year by her former owner, Mr. George Rice of Tilsonburg, Ont., the butterfat in this cow's milk would have been worth \$224.57. The skim milk in this case would have been, say 175 cwt., worth \$35, making total proceeds of \$259.57, or a profit, over cost of feed, of \$186.91.

THOMAS THE TANK.

E. J. Berwind, the great coal operator of Philadelphia, was asked by a reporter, at his beautiful Newport villa, a rather stupid question in finance.

Mr. Berwind laughed. "That question," he said, "is about as absurd and ludicrous as a tableau I once saw in a little French theatre in New Orleans."

"The curtain rose up in the theatre, revealing a large bed draped with crape and occupied by an elderly woman who held a black-edged handkerchief to her eyes. A widow, plainly, of but a few days' standing. She wept. Her wound was still raw."

"On the other pillow beside the window lay a large bottle of gin. She turned towards the bottle, and sobbing as if her heart would break, she said tenderly: "Ah, when I see and smell the gin there I think it's poor Thomas back at my side again."

Harry Beuder was killed by a shot from his own rifle while hunting near Pembroke.

A citizen of Burr Oak, Mich., named Taylor, has a son nine years old who is a sleep walker and goes about so often at night that the father has put a notice in the papers that the boy is asleep and should not be harmed. He enters houses climbs trees and steals melons in his sleep, and some folks think he is more wide awake than his father. They are going to nail him down to his bed if they can't keep him home nights any other way.

AN INTERESTING CASE.

An interesting and amusing case came before the Division Court here on Thursday last in the form of an action brought by Joseph Whitehead against the Township of Brant for damages to a horse through a defective culvert on the Elora road near the plaintiff's home: It was shown in the evidence that the horse was blind and stifted, that it had broken through a defective part of the culvert, and had fallen over the edge into the ditch. The ditch was wet and the horse absorbed enough moisture to give it water on the lungs, and the following day it died from pneumonia. The plaintiff held the Township responsible for this sad case of equine fatality. The Township, in defense, claimed that the horse was at large and unlawfully on the road, and that they should not be liable for any accidents which might befall it. A large number of witnesses were heard, and their testimony was of a varied nature. Messrs. John and Joseph Whitehead, father and son, respectively, swore that the horse was worth \$100; the plaintiff claimed \$60, and the Judge, after hearing the evidence, awarded him \$20.

FARMERS, DON'T MISS IT!

Few farm houses in Canada will be found without the Family Herald and Weekly Star, of Montreal. Those homes that do not receive it are missing a great treat. The Family Herald and Weekly Star is to-day easily worth ten times the subscription price to any farmer. Its value in fact cannot be over-estimated. It is a wonderful combination of a weekly newspaper, family magazine and an agricultural journal without an equal. Farmers, if you do not read the Family Herald and Weekly Star, of Montreal, you should give it a trial during 1908. Do not wait until January but remit one dollar now and will never regret it.

THE BOY SCORED.

A Philadelphia paper relates this story which is credited to a prominent lawyer of Pottsville, who was once a high-school principal. The former pedagogue said:

"One day at school I gave a very bright boy a sum in algebra, and, although the problem was comparatively easy, he couldn't do it. I remarked:

"You should be ashamed of yourself. At your age George Washington was a surveyor."

"The boy looked me straight in the eyes and replied:

"Yes, sir; and at your age he was President of the United States."

SHORTHORNS FOR SALE.

A choice lot of young cows, heifers and bull calves by Young Macbeth (imp.) at astonishing low prices.

JAS. THOMSON.

The three Lancaster's sentenced to eight months for rioting at Wiarton will have to serve out their sentence. Jailor McKechnie received word from Minister of Justice Aylesworth that no reprieve would be granted in their case. They have been in jail at Walkerton since Sept. 18, and their friends in Wiarton have been making strenuous efforts to obtain a reduction of the sentence, even sending a large delegation of prominent citizens to Ottawa to interview the minister. The prisoners may be removed at any time to the Central prison.

Dr. Nesbitt, who has resigned the Registrarship of West Toronto says the position is worth \$9000 a year with nothing to do. No man in this country should hold a job and do nothing for it. Small wonder it costs so much to run this country and small wonder politics, especially in Toronto, is such a rotten game. This is the kind of thing the farmers and artisans of this country are fooled into keeping up. The old parties and old cries will line them up every time to keep in office a lot of lazy duffers and ward heeled who get soft snaps like Beattie Nesbitt's registrarship. If a farmer or artisan had a situation worth even \$3000 a year, and had work to keep him busy from 9 a. m. till 5 p. m., it would require a stroke of paralysis to make him quit his job.

RED FLAG WAS HOISTED

Soldiers and Civilians Were Killed at Vladivostok.

A dispatch from St. Petersburg says: According to the official report of the recent mutinous outbreak of sailors at Vladivostok, the crews of three torpedo-boat destroyers, the Skory, Sedily and Trevozhny, mutinied, hoisted the red flag and shelled the port, doing considerable damage to various buildings and killing some soldiers and civilians. The Skory, on board of which were three revolutionary agitators, including one woman, took the lead in the mutiny, the crew rising at the instance of the agitators, killing the commander of the boat and wounding the other officers, who were overpowered and confined below decks. The fire of the rebellious torpedo-boat destroyers was answered by the batteries ashore, and from the gunboat Mandury and the torpedo-boat destroyers Grosvoiy, Smely, and others. They surrounded the Skory, and poured a raking fire into her, which battered her to

pieces, exploded her two boilers and caused fire to break out on board. Nearly all the mutineers of the Skory were killed in the vessel. The three or four survivors threw themselves into the sea. The mutiny on board the Trevozhny was quelled by her own crew, after six of the mutineers had been killed and six wounded. General Count Unterberger, commanding the military District of Amur, has arrived at Vladivostok, and assumed charge of the situation. The United States Embassy here on Friday received a despatch from the Consul at Vladivostok, saying that the American who was wounded during the bombardment of Vladivostok by the mutinous torpedo-boat destroyers is Harry Nielert, an employee of the Pacific Commercial Company, whose building was struck by a shell.

INDIAN FAMILY KILLED.

Father, Mother and Son Found Dead Near Raymond, Alberta.

A despatch from Lethbridge, Alta., says: An Indian, his wife and boy were found on Sunday by some children in the neighborhood of Fifteen-mile Lake. The children thought that the Indians were drunk, and did not go near them. They were a boy named Taylor, who informed his father after going to the spot and finding the dead Indians. After seeing himself Mr. Taylor went to Raymond and telephoned to the Mounted Police at Lethbridge. Coroner Rivers of Raymond was sent to the scene, and found the bodies covered with a cloth. There was every indication of murder. The man's head was blown off as with a shotgun. All of the bodies bore marks of violence. Superintendent Wilson of the Mounted Police says it is certainly a case of murder, but further than that will not say anything. An Indian who was camping near the murdered family on Saturday is suspected of the crime.

SEND OUT EMIGRANTS.

Bishop of London Would People Canada From Motherland.

A despatch from London says: The Bishop of London, speaking at Fulham on Wednesday on the subject of "The Church and the Empire," said that what impressed him most on his recent tour was the wonderful loyalty of Canada—Canada, the granary of the world—and the vast possibilities of this great nation which is bound to us by ties of blood and religion, which nothing ought to be able to break. "There is room," he said, "for a hundred millions in Canada. If we don't take the trouble we will lose our chance, and Canada will be filled by somebody else. We ought to be sending out from this overcrowded land more and more loyal Englishmen. Emigration is largely the cure of our ills, and if it is a God-given cure both clergy and laity might give their brains to see it properly carried out."

THE BIGGEST MOOSE.

Dr. Munro, of Providence, Kills It in New Brunswick.

A despatch from Fredericton, N. B., says: The record for New Brunswick moose has been broken. Dr. W. L. Munro, of Providence, arrived here on Thursday night after a three weeks' hunting trip near the headwaters of the Nepisiquit River, and had with him the head of a moose he shot ten days ago. Its antlers had a spread of 68½ inches, which is the largest of which there is any record. The best previous record was 67½. Mr. E. C. Russell, an English sportsman, killed this season one with a spread of 61 inches.

POSTMASTER BEAR KILLED.

The Roof of Stable Fell on Him at Cordova, Manitoba.

A despatch from Cordova, Man., says: Reuben Bear, postmaster here, was killed on Saturday evening by the roof of a stable falling on him.

ONTARIO RAISES MOST GRAIN

Produced More Than Manitoba and Saskatchewan.

A despatch from Ottawa says: The annual report of the Department of Trade and Commerce contains returns of the grain production of all the provinces of the Dominion, with the exception of Quebec, for the season of 1906.

The total production of all kinds of grain is placed at 413,038,654 bushels, of which 125,515,491 bushels represents wheat, and 202,461,864 bushels oats.

Ontario is still the banner province in grain production, with a yield of 194,000,000 bushels of grain of all kinds.

198,341,045 bushels of the Ontario grain crop of 1906 was oats. The total grain crops of the provinces are given as follows:—

Ontario, 194,000,000 bushels.
Manitoba, 130,000,000 bushels.
Saskatchewan, 63,000,000 bushels.
Alberta, 19,300,000 bushels.
New Brunswick, 7,381,000 bushels.
British Columbia, 2,682,000 bushels.
Nova Scotia, 2,464,000 bushels.

THE BRIDGE GAVE WAY

Two Men Killed and One Fatally Injured in a C. P. R. Wreck.

A despatch from Montreal says: Two men were killed and another probably fatally injured in an accident on the Canadian Pacific Railway near Eastman, in the eastern townships, on Friday afternoon. A Canadian Pacific freight train was on its way to Montreal, and while crossing a high trestle over the tracks of the Orford Mountain Railway

the bridge broke, throwing the engine and several cars to the ground. Engineer Draper and Fireman McKenny were crushed under the wreckage, and instantly killed, while the brakeman was so badly injured that his life is despaired of. The trestle had been filled in except that part which crossed the other railroad tracks, and it was here the disaster occurred.

COAL COMPANY FINED.

First Conviction Under the Lemieux Act in Alberta.

A despatch from Frank, Alta., says: What is believed to be the first conviction under the Lemieux act was secured here this week, when the Hillcrest Coal & Coke Company was fined \$200 and costs by the inspector for locking out employees on the eleventh and twelfth instant while the arbitrators were discussing the difficulty between the employees. The company gave the men the option of returning to work upon its terms or being locked out. They prosecuted, and, as a result, the conviction was obtained.

NELSON RELICS FOR SCHOOLS.

Prizes to be Given for Essays Written by Canadian Children.

A despatch from Toronto says: Two "Nelson plaques," made from the copper of Nelson's flagships "Victoria" and "Foudroyant," will be given as prizes for the best essays written by Canadian school children, boy and girl, under 16 years of age. In this plan the Minister of Education is co-operating with the British and Foreign Sailors' Society of London. Lord Strathcona has given £1,000 to the society to aid in a plan for giving Nelson shields to every school in Canada.

SHOT HIMSELF THROUGH HEART.

Elgin Bechtel's Family Objected to His Marriage.

A despatch from Bridgen, Ont., says: On Friday evening Elgin Bechtel, 19 years of age, a son of Mr. Jesse Bechtel, of this place, took his life by shooting himself through the heart with a shotgun. The act is supposed to be the outcome of some trouble the young man had during the day with relatives regarding his marriage to a young lady of about his own age, a few days ago. Deceased has been a resident of this place since childhood.

GIRL BURNED TO DEATH.

Marjorie Musson of Vancouver Sets Fire to Her Clothing.

A despatch from Vancouver, B. C., says: A little girl named Marjorie Musson, aged fourteen years, was burned to death on Saturday. She was attempting to light a fire with coal oil, when the stove exploded and her clothes caught fire. She was terribly burned about the body before neighbors arrived, and died a few hours afterwards in the hospital.

NEW CHURCH DESTROYED.

Sacred Edifice at Fort William is a Heap of Ruins.

A despatch from Fort William says: The new Catholic church which was nearing completion at the coal docks was totally destroyed by fire on Saturday night. The building was in flames before an alarm was turned in, and the brigade could not render any aid when they arrived. The building was being erected for the use of the foreign element of the city. The loss will be over \$10,000.

CUSTOMS WAREHOUSE BURNED

Heavy Damage in Montreal on Thanksgiving Day.

A despatch from Montreal, Que., says: Thanksgiving Day was marked by a big fire in this city. Late on Thursday afternoon fire broke out in the examining warehouse of the Customs and before it was got under control heavy damage was done. The building, which is situated on McGill and Common Streets, occupies nearly a whole block. Over \$100,000 worth of goods were stocked in the warehouse. The fire, which is supposed to have resulted from spontaneous combustion, originated in the oil department on the top floor, and before a hard fight the firemen succeeded in muzzling the flames, containing the fire to the top flat.

During a public holiday, the warehouse was vacant, the only employee on duty being the watchman. While he was making his rounds shortly after four o'clock in the afternoon he noticed smoke coming from the quarter where the oil is kept. A general alarm was rung in, and the whole brigade responded. The firemen had a hard fight in getting the fire under control and saving the building from total destruction. When they arrived smoke was pouring from the windows of the top flat, and the work of saving the building was attended with considerable risk. Several members of the brigade were overcome by smoke, but nobody was seriously injured. It was after six o'clock before the fire was under control. The damage from the fire and water is estimated at \$50,000.

HELD HAND OF CORPSE.

Gruesome Story of a Young Man's Bereavement.

A despatch from Naples, Italy, says: A particularly gruesome story is being told here of an incident which has just come to light in this city. Elisa Soalisi, a beautiful young woman, was engaged to be married to a young man named Alessandro, but she died a few days before the date set for the ceremony, and was buried in a local cemetery. Alessandro was heart-broken over his bereavement, and one night he dug up the body and carried it to his lodging. He embalmed the corpse of the young woman, dressed it in its bridal clothes, and kept it in his rooms for a fortnight. Neighbors finally grew curious from the fact that the young man never went abroad, and peeping one day through his shuttered window they saw Alessandro seated alongside the dead body of the woman who was to have been his wife, affectionately holding her hand. The police were informed and Alessandro was arrested. The body has been buried a second time.

Young Illinois Student Gets a Verdict of \$14,000.

A despatch from Keown, Ill., says: For hazing Charles Stener, a student at a Bradford school, five young men of Bradford must pay \$14,000, according to a verdict brought in on Monday night by a jury. The defendants are William Reel, Earl Lappin, Arley Harwood, Earl Howe, and Francis Long. They are said to have tied Stener to a tombstone in a cemetery. Stener was so severely frightened that in his attempt to get free he pulled the tombstone over on himself, breaking a bone in his leg. He was confined in a hospital for several weeks.

Helps Men To Work Hard.—Shat's what Ferrozone does; it supplies the additional strength that enables a man to maintain health under difficulties. "Last spring I was so completely fagged out I could not work" writes J. W. McNichol of Turnbull, Man. "In the morning I was tired—limbs ached all over. Had no appetite, was sleepless, nervous and unhappy. Ferrozone put new life into me. Now I eat heartily, nerves are strong, I sleep well. I know the joy of health." It's by supplying nourishment and good blood that Ferrozone builds up; try it—50c per box at all dealers.

According to a letter from the Deputy Minister of Education, published in this issue by request of Mr. Jos. Weber, reeve of the Village of Neustadt, the distribution of school monies between townships and urban municipalities becomes more intricate and harder to understand than ever. According to the Municipal World, than which there is no better authority in Canada on municipal affairs, farmers living in townships but supporters of village, town or city schools, must pay the general levy of the municipality in which their property is situated. The Dep. Minister of Education says that they are exempt from paying this levy, but must pay the particular levy made by the trustees.—Aytton Advance.

A Storehouse For Poisons—You may not think so but that's what you become when the kidneys are affected. These organs cleanse the body; they are the filters that remove from the blood the waste matter that acts like deadly poison on the vitality and health of the system. Dr. Hamilton's Pills stimulate the kidneys, expel fermenting matter from the bowels, restore the liver and stimulate all excretory and secretory organs. This enables the blood to quickly replenish itself and establishes perfect health. No medicine does such lasting good as Dr. Hamilton's Mandrake and Butternut Pills, 25c at all dealers.

Since the death penalty has been abolished in France, murders have increased to such an alarming extent, that there is a strong popular demand for its restoration. Recently juries throughout the country have recommended having recourse to the guillotine as being the only means of stopping the atrocious murders which are of daily occurrence in Paris and in the provinces. A popular vote taken by a local newspaper, has resulted in 1,083,655 persons pronouncing themselves in favor of restoring capital punishment, while 328,692 announced themselves as being opposed to it.

Steel Knife In The Flesh—That's the sensation experienced by Robert Price of Hecaton, Ont. He knew it was sciatica and of course used Nerviline. As usual it cured and he says: "No liniment can excel Polson's Nerviline. Severe pains made my side lame. It was like a steel knife running through the flesh. I rubbed in lots of Nerviline and was completely cured." A regular snap for Nerviline to ease Sciatica and rheumatism. It sinks into the core of the pain, cures it in short order. The laziest man in Britain has turned up; his name is Arthur Chilcot. Since 1903 he has been convicted twenty-three times for refusal to work, and once he was too lazy to walk, and the police had to carry him to the police station. Being on trial did not worry him in the least, and he actually went to sleep in the dock. The doctor said that Chilcot was suffering from ergophobia—a disease known as "fear of work." We hope this disease will not spread to Canada though we have known individuals to show symptoms of it.

TRUE HAPPINESS.

Have to work for every cent,
Srimp and save to pay the rent;
Live in just a frugal way,
Glad to get three meals a day—
Happy when the week is through
If I've paid up every due.
Still, with all its heavy load,
Life's a rather pleasant road.
Got no palace, not to keep.
But I've got a place to sleep.
Got no coach and pair, but, gee!
Walkin's good enough for me.
I've got pictures of the best—
See that sunset in the west!
And I've music when I please—
Hear them robins in the trees!
I don't have to lose health
Worryin' about my wealth;
I don't have to fret about
Too high livin' bringin' gout.
Course I mean some day to be
Higher up the social tree.
But no matter what's my lot,
I'm contented—fur's I've got.

Pain anywhere, pain in the head, painful periods, Neuralgia, toothache, all pains can be promptly stopped by a thoroughly safe little Pink Candy Tablet, known by Druggists everywhere as Dr. Shoop's Headache Tablets. Pain simply means congestion—undue blood pressure at the point where pain exists. Dr. Shoop's Headache Tablets quickly equalize this unnatural blood pressure, and pain immediately departs. Write Dr. Shoop, Racine, Wis., and get a free trial package. Large box 25 cents at Druggists.

A very regrettable occurrence took place here on Tuesday morning when Mr. Thos. Doersam took a shot at a sparrow with a 25-calibre rifle. The bullet was diverted from the direction intended by striking some object, and instead struck the second story of Mr. Fred. Dietrich's wagon shop. Unfortunately Fred. happened to be upstairs doing some painting. The bullet crashed through the siding of the building and struck Mr. Dietrich about the shoulder blade. Dr. Easton was called and probed for the bullet without being able to locate it. The supposition is that the force of the bullet was pretty well spent before reaching him and that it was stopped when coming in contact with the bone and dropped out. At all events Fred. is suffering very little pain and expects to be able to attend to the shop again after a few days.—Aytton Advance.

EVERY PALE WOMAN.

READ THIS AND LEARN THE WAY TO GOOD COLOR AND BETTER HEALTH.

Pale people have pale blood. In other words the blood is watery and lacks red corpuscles.

The stomach is wrong. Assimilation is poor and food is not changed into blood. Naturally the system is robbed of vitality, lacks strength and reconstructive power.

Don't slip from vigor into weakness. Don't allow the appetite to fail, but instead use Ferrozone.

You're bound to feel rejuvenated and strengthened at once. Appetite is braced up, digestion is stimulated, vigor imparted to stomach. Every thing you eat is transformed into nutriment that supplies what your thin weak system needs.

Vital, life-giving blood that makes rosy cheeks and dancing eyes—that's the kind that Ferrozone makes.

The strength and buoyancy that defies depression and tiredness, that's the sort you get with Ferrozone.

Every pale woman can transform her bleached out appearance with Ferrozone.

Not only will it improve looks and spirits, but by rebuilding all weak, tired organs, Ferrozone establishes a soundness of health that's surprising.

For women and girls who want to feel well, to look well, to be well and stay well, nothing known in the annals of medicine is so certain as Ferrozone.

Won't you try Ferrozone? Concentrated cure in tablet form, that's Ferrozone, 50c per box or six for \$2.50, at all dealers.

**LIVE STOCK MARKETS.
TORONTO.**

Receipts of live stock at the City Market since Friday, as reported by the railways, were 120 carloads, composed of 1930 cattle, 873 hogs, 2689 sheep and lambs, and 120 calves. There were also 580 hogs that went to packers direct.

The quality of cattle is getting no better, but worse, as the number of poor quality cattle is becoming larger as the season advances, and the better class smaller.

Trade was somewhat erratic—that is, unsteady, but prices were unchanged all round.

Exporters—There was nothing doing in exporters excepting for a few bulls, and these sold at \$3.30 to \$3.75 per cwt.

Butchers—We heard of one heifer that sold for \$4.50, and one load of 14 butchers, 1250 lbs each, that sold at \$4.10, which were the highest quotations reported. Medium cattle sold from \$3.50 to \$3.80; common at \$3 to \$3.40; cows at \$2.25 to \$3.50; canners, 75c to \$1.60 per cwt.

Feeders and Stockers—There were a few good lots of feeders, and a large number of not very good feeders and stockers that were not good. The Messrs. Murby were busy as usual, as well as Lunness & Halligan, with a large number of farmers that were looking for a few of the right kind.

Prices generally were not any higher. H. & W. Murby report the following quotations: Best feeders, 1000 to 1100 lbs., at \$3.25 to \$3.60; best stockers, 800 to 900 lbs., at \$2.50 to \$2.65; best stockers, 600 to 800 lbs., at \$2.25 to \$2.60; medium stockers 600 to 800 lbs., at \$2 to \$2.25; common stockers, 500 to 700 lbs., at \$1.50 to \$1.75.

Milkers and Springers—The good prices being paid for milkers and springers brought in a large number, there being between 70 and 80 cows of all classes on the market. Prices were a little easier, if anything, but there were a few that sold up to \$65. Good to choice sold at \$40 to \$85; common to medium at \$25 to \$35 each.

Veal Calves—Veal calves sold at old prices, \$3 to \$6 per cwt.

Sheep and Lambs—Export ewes sold at \$3.75 to \$4, a few choice yearlings sold at \$4.50 per cwt.; lambs sold at \$4.75 to \$5.25 per cwt. for the bulk. Inferior quality lambs sold as low as \$4, and selected ewes and weathers as high as \$5.50 per cwt.

Hogs—Mr. Harris reports \$5.75 for selects and \$5 for light unfinished.

HOG FEEDING.

The following letter taken from the Farmers Sun will be of interest to farmers at this particular time:

A neighbor had publicly boasted that he had made \$1 per bushel out of his peas by feeding them to hogs. This statement was discredited, but as we had a litter of seven ready to wean, I decided to try the experiment, (peas were then worth about 60 cents.) I weighed out 30 bushels of peas, and began feeding these, soaked in very small quantities at first, with some skim milk, and kitchen waste, I gradually increased the amount of grain but never gave quite all the hogs would eat. When the 30 bushels were all I decided to kill. The seven dressed 585 lbs. and sold at 6c., totaling \$35.10. Deducting \$7 (the first cost), I had \$28.10 for my 30 bushels of peas, or 93c per bushel.

We all know now that this system of feeding was altogether wrong. Had I purchased half a ton of shorts (worth \$6) and fed with the milk during the first period, and then fed the peas (ground) with other grain, and finished the hogs, my profits would have been larger.

My next experiment was with five Berks, purchased at \$1.25 each. They were fed with shrunken wheat (unsaleable) and peas, ground together, with a little skim milk and kitchen waste added. The hogs consumed 2,735 lbs., valued at \$20.52 (peas were then worth 50c per bushel). These five hogs when dressed, weighed 809 lbs., and sold at 5c, totaling \$40.45. After deducting the first cost, I obtained \$19.93 per hundred for my meal. In both of these experiments no roots or clover were used. The experiments were carried out in the winter, and the selling prices were low, yet the profits were satisfactory.

Again, in October, 1904, we purchased six hogs for \$12, and put them up to feed. These were fed a mixture of equal parts of oats and barley, with one-half bushel of peas to the bag added. The hogs consumed of this meal 2,581 pounds. Our peas that year were injured by the wet weather, and a lot of wild buckwheat grew with them. We had several bushels of this seed, which were boiled and mixed with the meal. The hogs seemed to relish it, and did well on it. They received no milk or roots at any time. They were sold the following March for \$4.90 per cwt. live weight, and weighed 1,125 pounds, real-

RECIPE MIXED OFTEN.

Some remarkable stories are being told about town and among the country people coming in of this simple home-made mixture curing Rheumatism and Kidney trouble. Here is the recipe and directions for taking:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle and take a teaspoonful after each meal and at bedtime.

No change need be made in your diet, but drink plenty of good water.

This mixture, writes one authority in a leading Philadelphia newspaper, has a peculiar tonic effect upon the kidneys: cleansing the clogged-up pores of the eliminative tissues, forcing the kidneys to sift and strain from the blood the uric acid and other poisonous waste matter, overcoming Rheumatism, Bladder and Urinary troubles in a short while.

A New York druggist who has had hundreds of calls for this mixture since the first announcement in the newspapers last October stated that the people who once try it "swear by it," especially those who have Urinary and Kidney trouble and suffer with Rheumatism.

The druggists in this neighborhood say they can supply the ingredients, which are easily mixed at home. There is said to be no better blood-cleansing agent or system tonic known, and certainly none more harmless or simple to use.

izing \$55.10. This, after deducting first cost, allowed \$1.67 per cwt. for the meal.

In all these experiments the hogs were kept in comfortable pens, and fed regularly three times per day. The feed was given warm, the meal being mixed fairly stiff with warm water. They were treated kindly, kept clean, and allowed a good bed; a little salt was given occasionally.

These experiments go to prove the correctness of The Sun's contention that there is a profit in feeding hogs, even at the present high price of feed stuffs, if properly managed. It would be great folly to part with breeding stock now, because these can be wintered for half what it will cost to purchase a litter in the spring. Feed stuffs will likely be cheaper then. Breed the sows to farrow in April or May. Sow an acre of rape and an acre of peas early in the spring, and by the middle of June you will have plenty of feed until harvest. It would be a great mistake to lose the market we have, besides we owe it to the packers, who have put large sums into the business; and to the army of employes, who depend upon them for a living, to stay by the hog industry.

Trial Catarrh treatments are being mailed out free on request, by Dr. Shoop Racine, Wis. These tests are proving to the people—without a penny's cost—the great value of this scientific prescription known to druggists everywhere as Dr. Shoop's Catarrh Remedy. Sold by J. Coates.

The plant of the Holyrood Creamery was sold under mortgage, by auction on Saturday last. The mortgage upon the property amounted to \$600, and the directors of the company, which was a joint stock concern, bought it at that figure. It was not, however, bought in for the stock holders but by the directors for themselves. The plant had cost \$2,900 and the stockholders lose all they put in it.

The London Advertiser says that potatoes were a drug on the market in that city on Saturday and farmers had difficulty in disposing of their loads. There were 60 loads of potatoes on the stands and the loads averaged about 40 bushels each. Then there were three car loads of potatoes in from Caradoc township which has the reputation of being the champion potato township of Western Ontario. The price of potatoes on Saturday was from 75 to 80c a bag.

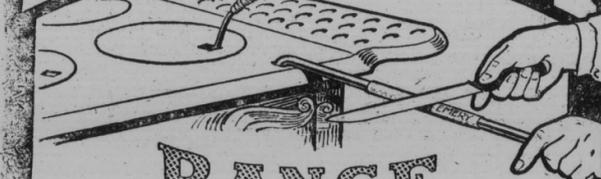

The deer-shooting season opened on November 1st and within a week 150 deer carcasses arrived in Toronto from the northern hunting grounds. Among the lot is a moose weighing nearly 1,200 pounds.

PANDORA

RANGE

A convenience much appreciated by every owner of a Pandora is the towel rod attached to the range. As one-third of the rod is made of emery, it makes a splendid knife sharpener, too.

It's always there handy for you. You need waste no time hunting around for the easily misplaced "steel." Bright idea, eh?

An accurate thermometer is a reliable guide to successful baking, while an inaccurate one is a "cheat" of the worst kind.

Every Pandora thermometer is carefully adjusted and undergoes a practical test by heat—is proven correct before being sent out.

The figures, which show the required degree of heat necessary for the successful baking of bread, cakes, pies, etc., are plainly inscribed in black on a white enamel surface, so that they are easily readable, even when the day is dull.

If your local dealer does not sell the Pandora, write direct for free booklet.

Mde. Joseph Beaudoin, 59 Rue St. Ovide, Quebec, P. Q., Can., writes: "Peruna is wonderful for indigestion. I eat whatever I want and no longer feel any oppression. "Having had dyspepsia for a long time and having tried various other remedies, I decided to try Peruna and with the fourth bottle of it I was perfectly cured. "For this reason I recommend it to all those who are suffering with that terrible malady, dyspepsia. "I hope that all who are afflicted in this way will take Peruna as I did." The experience of Mde. Beaudoin ought to be sufficient proof to any one of the value of Peruna in cases of catarrhal dyspepsia. DO NOT ALLOW yourself to become alarmed because you have lost your appetite and are losing flesh, but commence taking "Perovim" the best tonic. It will build you up quickly.

Benson: "I say, old man, did I ever tell you about the awful fright I got on my wedding day?" Henson: "No! No man should speak like that about his wife."

ITCH, Mange, Prairie Scratches and every form of contagious Itch in human or animal cured in 30 minutes by Wolford's Sanitary Lotion. It never fails. Sold by all druggists.

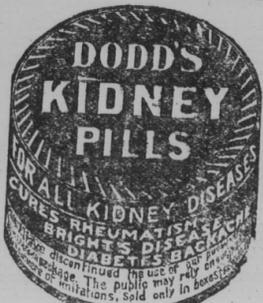

Anthropology Instructor: "What effect has the climate on the Eskimo?" Student: "Cold feet."

It No ds No Testimonial.—It is a guarantee in itself. If testimonials were required they could be furnished in thousands from all sorts and conditions of men in widely different places. Many medicines are put forth every year which have but an ephemeral existence and then are heard of no more. Dr. Thomas' Electric Oil has grown in reputation every day since it first made its appearance.

A SKIN THAT BURNS with eczema, and is covered with eruptions that discharge a thin fluid, may be made smooth and slightly with Weaver's Ointment. But this external remedy should be used in conjunction with Weaver's Syrup.

A POSSIBLE EXPLANATION.

"That ice-cream freezer you sold me," cried the angry woman, "is a fake. It doesn't do the work you claim it does." "No," replied the new salesman, "perhaps you—er—didn't use the best quality ice. The ice must be very cold, you know."

POPULAR MARRYING AGE.

Men 25 and Women 21 London Return Show.

From a return just issued by the London (England) county council it would appear that the most popular marrying age among men is twenty-five, for during the past year 12,958 men who had reached the quarter century entered the matrimonial state, while they were closely run by 12,735 at the age of twenty-one.

With women twenty-one is the favorite period, for 15,848 went to the altar at that age, and at twenty-five there were 9,508, while two girls of fifteen and two of sixteen each married men of fifty-five. One girl of fifteen married a bachelor of twenty-five, and another one of thirty.

At the age of sixteen, thirteen girls and two boys entered into matrimony at seventeen the figures were 122 and six respectively. At sixty, five spinsters took husbands, while there were two bachelors at that age and two at sixty-five who got married. Altogether there were 34,931 marriages between spinsters and bachelors.

The unions of bachelors and widows totalled 1,477, widowers and spinsters 2,099, widowers and widows 1,151, making a grand total of 39,658 marriages.

Of the ceremonies 26,343 took place in the Established Church, 1,529 in the Roman Catholic, 1,887 in Nonconformist churches, 8,371 in register offices, seven were Quaker, and 1,521 Jewish.

Other interesting facts in the return are that, in 1905, the births in the county of London totalled 126,559, of these 61,149 being males and 65,410 females. Stephen heading the list with 20,774 births, and Stoke Newington being last with 1,678.

Based on the increases or decreases in population between 1891 and 1901, it is estimated the present population of Greater London is 7,217,939, and of the administrative county 4,785,217, compared with 6,606,163 and 4,544,870 respectively at the census of 1901.

Deaths for a year totalled 16,637. Drink killed 498, there were 513 suicides and 53 homicides, but only seven executions.

LIKED HER MEDICINE.

"Let me kiss those tears away?" begged, tenderly. She agreed to it, and he was busy the next fifteen minutes. And yet tears flowed on. "Can nothing stop them?" he asked breathlessly. "Nope," she murmured. "It's fever, you know. Bud go on with treatment."

HANDS TERRIBLY CRACKED.

Mrs. Yellen, of Portland, says: "My hands were so sore and cracked they could not put them near water, and I seemed quite unable to get relief from anything I put on them until I tried Zam-Buk. It closed the big cracks, gave me ease, and in a very short time healed my hands completely."

Zam-Buk heals all skin injuries and diseases. Of all stores and druggists, 50 cents, or from Zam-Buk Co., Toronto, for price. 3 boxes for \$1.25.

"It's a shame!" cried the young wife. "Not a thing in the house fit to eat! Going home to papa!" "If you don't mind, dear," said the husband, "I'll worry you."

Do not let a cold settle on your lungs. Resort to Bickle's Anti-Consumption Syrup at the first intimation of infection in the throat and prevent disturbance in the pulmonary organs. Neglected colds are the cause of tuberculosis throughout the country, of which could have been prevented the application of this simple but powerful medicine. The price, 25 cents brings it within the reach of all.

Many a blessing in disguise is a blessing only because it is disguised.

MONTH AFTER MONTH a cold sticks, seems to tear holes in your throat. Are you that even a stubborn and long-undiscovered cold cured with Allen's Lung Balm? Coughs worry no longer.

Customer (at department store): "Where is your complaint department?" New Salesgirl: "Complaint? Guess you come to the wrong place, mister. We ain't no hospital."

The Most Popular Pill.—The pill the most popular of all forms of medicine, and of pills the most popular. Parke's Vegetable Pills. Because they do what it is asserted they do, and are not put forward on fictitious claims to excellence. They are compact and portable, they are easily taken, they do not nauseate, grip, and they give relief in the most stubborn cases.

RICHEST QUEEN IN THE WORLD

No European Queen is so rich in jewelry as the Supreme Queen of Siam. She has a huge safe, or casket, handcrafted of a London firm, in which repose marvelous necklets, pendants, bracelets, anklets of diamonds, rubies, emeralds and pearls galore. The Siamese Queen owns a scarcely inferior casket, and each of the other wives has her own special hoard. The Siamese Jeweller has a standing order for \$500,000 worth of jewelry to be delivered to the King every year, much of which is distributed among the favorites of his harem.

"I say," said a bridegroom to his father-in-law directly after the ceremony, "will you see the minister for me? I quite forgot the wedding gift." "Young man," was the stern answer, "you are beginning early. I at least postponed you back from your honeymoon before this began."

FROST LOCKS
 Make a Fence of Strength

The heaviest, strongest wires made can't make a strong fence unless the locks are as strong as the wires. A fence, like a chain, is only as strong as its weakest spot. The New Frost Lock and Frost Wedge Lock are the most unyielding parts of a Frost Fence. They make the whole fence as strong as the strongest wire.

We guarantee to repair—free of charge—any Frost Fence that goes wrong.
