Rheumatism Yields

Only rheumatic sufferers know the agony of its darting pains, aching joints or twisting cords. But some few have not known that

SCOTT'S EMULSION

has been correcting this trouble when other treatments have utterly failed. Scott's is essentially blood-food in such rich, concentrated form that it gets into the blood to alleviate this stubborn malady. Get a bottle of Scott's Emulsion and advise an ailing friend.

Municipal Council.

Continued from last week.

Bad or uncollectible rates were struck off. The amount of Dog Tax included in these was \$150. Of these \$75 missing dogs five were assessed in Ward 14, the alleged owner being Messrs. A. Alges, C. A. Burns, H. Jackson, Edward Spicer, Geo. Sale, man, no one of whom, the Council stated, was the owner of a dog.

An interesting debate on the dog tax system followed. The bill that was a dog against a pound assessment roll without ascertaining whether the man named in it is the owner of a dog, was severely reprobated.

Council adjourned, reassembling at 2.15.

A delegation from Wolfville appeared before the Council asking that provision be made for payment of a salary to the agent of the Children's Aid Society. Rev. Mr. Miller and Miss Annie M. Stuart addressed the Council, pointing out the benefit both to the public and to the children themselves, of the work done by this Society. Mr. Stairs, the agent, also spoke, giving instances of the saving of numbers of neglected children from lives of poverty and crime.

On motion of Couns. Meek and Parker, it was resolved that a salary of \$500 per year be paid from the Municipal Treasury to the agent of the society.

Miss Stuart spoke in reference to the cemetery at Grand Pre. A part of this is on public land. It is proposed to secure an Act of Incorporation. Would the Council permit the portion of the cemetery referred to be included in the property transferred in trust, to the proposed corporation?

On motion of Couns. Gertridge, the request voiced by Miss Stuart was granted.

Mr. A. S. Burgess, of Canaan, appeared in support of an appeal taken by him from the assessment of the Fire and Water District of Canaan. The property was valued by the Assessors at \$24,500, the Municipal Assessors had valued it at \$7,000.

Mr. North, Clerk of the Water Co., appeared in support of an appeal.

The appeal was referred to a committee: Couns. Gertridge, Kinross, Bill, who later reported recommending that the assessment of Mr. Burgess be reduced to \$12,150, which report was adopted.

The Councilors submitted lists of town officers nominated in the several wards. Assessors being named as follows:

Ward 1, Wm. Newcombe, I. J. Brady.

2, Leander Woodworth, Fred Rick Hatou.

3, Harold T. Eaton, Aubrey Newcombe.

4, C. H. Rockwell, W. B. Burgess.

5, T. R. Lyons, Harry Saunders.

6, Budd Bishop, Wm. Ward, (for Cornwallis) A. Ward.

7, H. Duncanson, John Schofield.

8, P. A. Bowers, D. H. Forsythe.

9, Walter Hutchison, F. G. Carry.

10, S. F. Banks, Church Ward.

11, C. E. Gaul, E. H. Saunders.

12, W. S. West, B. H. Hood.

13, M. Chute, J. H. Rawding.

14, A. C. Hall, Chas. Vaughan.

Mr. John MacDonald was appointed Clerk and Treasurer to Overseers of Poor, Cornwallis.

The recent changes in the state of the Town of Berwick, necessitating changes in Highway Labor Districts, part of which are within the limits of the town, on motion of Couns. Brydon and G. R. Nichols, Dist. No. 4, Ward 3, was extended from the bridge near H. R. Munton's to the River Bridge, the northern boundary of the town of Berwick. This District also to include the highway running from the Pleasant Valley Road to the bridge near residence of H. B. Congdon; Dist. No. 5, Ward 5, was extended to the Buchanan Bridge and also to include road from Briggs Woodworth Road. That part of Dist. No. 7, which lies outside the bounds of the Town of Berwick, and that part of Dist. 16, in the same ward, which lies between the following crossing near residence of A. N. Reins and the Bus-Crossing, were formed into one District to be known as No. 20, Ward 13.

Council adjourned.

SECOND DAY.

Council met on Wednesday, 9th, at 8 o'clock, all present.

Minutes of first day's proceedings read and approved.

L. L. Ogilvie was appointed Surveyor of Highways in District 26, Ward 13, in place of A. C. Hall.

J. A. Beckwith was appointed Registrar in District 11st, No. 5, in place of N. E. Black.

Reports Trustee School Lands, Marine and Cornwallis, were read and ordered filed.

Overseers of Poor for the Townships were read and adopted.

Aylesford asks leave to appoint the Poor-District for \$1500 for Cornwallis. Cornwallis asks for \$2000 for the same purpose.

Report of Treasurer: Income, \$2,500; Exp., \$2,500. Adopted.

Uxo. L. Thomson and M. B. Hill were appointed Auditors for the year.

Application of Ephraim Havelock for appointment to the position of Overseer of Poor for the Township of Aylesford, was read and adopted.

Mr. Havelock was appointed.

Report of C. A. Patriquin, Inspector for the past year, was read.

The accounts show a deficit for the year of \$210.00, including Inspector's salary of \$500.

On motion of Couns. Gaul, the report was received and adopted.

Commenting on this Report Couns. G. R. Nichols and W. L. Nichols both expressed the opinion that the report proposed one year ago, namely, the appointment of two inspectors, the County was too large a field to be watched by one man. The expense of operation would be little, if any, greater under two inspectors than under the present system.

Couns. Meek and Parker, who suggested a returned soldier, Sgt. Robert White, for the position.

Read petition from residents of Chipman's Corner School Section asking that the 'Parade' at that place be not disposed of but retained for its present use of school grounds.

A telegram from Col. W. R. Thompson, of the Militia Department, which had just been received, was read. It warned the Council to take no action in regard to the Parade, as it was the property of the Department of Militia and Defence.

Read petition from residents of Chipman's Corner School Section asking that the 'Parade' at that place be not disposed of but retained for its present use of school grounds.

Reins and the Bus-Crossing, were formed into one District to be known as No. 20, Ward 13.

Council adjourned.

SECOND DAY.

Council met on Wednesday, 9th, at 8 o'clock, all present.

Minutes of first day's proceedings read and approved.

L. L. Ogilvie was appointed Surveyor of Highways in District 26, Ward 13, in place of A. C. Hall.

J. A. Beckwith was appointed Registrar in District 11st, No. 5, in place of N. E. Black.

S. Fisher was heard in regard to application to define boundaries of Commercial Block, Berwick.

Mr. Outbait was heard in reply.

A resolution passed directing the Supervisors of Public Grounds for Cornwallis, to render their report at April term.

The assessment was read. Amount \$88,871.42. Adopting a tax rate of 60 cents on \$100 of valuation (\$4,921.000).

Coun. Bishop moved that, in the appointment of an Inspector under No. 1 Temperance Act, a condition be attached to the appointment, that the Inspector should be a returned soldier.

When proposing the hair use half a teaspoon of bicarbonate of soda to each teaspoon of jelly. If you find that the soda has too drying an effect on the hair use half the quantity. Do not dry blonde hair by artificial heat. It will lose its sheen and texture. Rub the scalp briskly, but gently, with a heavy towel to stimulate circulation and then, as the sun, portion receive its share of the sun bath. This means drying requires a much longer time, but the softness will reward you for your patience.

Brunettes should use shampoos containing oils, sub carbonate of soda and yolk of eggs, for instance. They are excellent for dark hair, stimulate growth and improve the lustre. A wonderful shampoo for the dark-haired lady is made of yolks of two raw eggs slightly beaten, one half pint of claret and one gill of soft water. Rub this into the scalp and hair thoroughly and allow it to remain for twenty minutes. Now wash in the usual manner.

Where is the Profit?

The Weekly Bulletin of Leather and Shoes says that nine-tenths of the shoe business in the United States could be done direct between the manufacturer and consumer at a saving of over \$500,000,000 per annum. This statement is made upon the strength of a letter from a prominent tanner who rebels at paying a pair for his daughter, a school girl. He asserts that he would be glad to sell the leather for these shoes at 60 cents a foot and that \$200,000,000 worth of leather could be bought for 40 cents per pair, the labor to make the shoes 60 cents, a total of \$20 per pair for the three important elements. This leaves \$20 for the inner sole, heel, lining, etc., and the retailer's margin.

Be Ready for Emergencies.

The best way is to always keep a bottle of Dr. Chase's Syrup of Licorice and Turpentine in the house, ready for emergency. Then when cough or colds come suddenly they can be promptly cured before they have time to reach an acute and dangerous stage. To meet this requirement we have put the syrup up in family size bottles which contain nearly three times as much as the 25 cent bottle and sell at 60 cents.

What is Camouflage.

Camouflage is a word that you will get no help for in searching your dictionary, as it is what might be termed a war addition to the English language. It is almost as new in the French language, there being little or no record of its use until this war. It does not appear in the French dictionaries of 1896 nor is it included in Larousse.

It is derived from 'Camoufler', which originally meant 'Smoke puffed in the face of a sleeping person, but its general meaning is mystification. In military circles 'Camouflage' means the disguising of guns, military posts and ships so that they may deceive the enemy and escape observation. There is no particular set of rules in Camouflage, the effectiveness of any depends on a proper estimation of the colors, which most effectively blend with the landscape. Ships stripped like a barber's pole deceive the eye altogether, both as to size and their distance from any given object. A certain scheme of Camouflage will mystify the enemy in his coming tower and deceive him so that it is almost impossible for him to get an accurate range at long distance.

The school teachers on the East side of New York are finding some interesting material in the manner in which alien parents are saving up all in the war. One little girl told her teacher how 'the folks at home' are going to help. 'My father and mother and me,' she said, 'we made it on a piece of paper last night. My father has makes \$18 a week, he pays for the rent \$10 the month, \$5 for coal, \$3 for milk for the baby, \$2 for clothes, he keeps \$1 the week, \$2 for the week for the war savings. He does that so long as the war should last.'

Billous—We never hear the best things that are said about us.

Cynicus—No, we are dead then.

The Right Way to Shampoo.

Blonde hair, unless shampooed very carefully, will darken with age. Egg shampoo is not good for light hair for it contains sulphur which will darken it rapidly. Oils, also, have a darkening effect on light hair and should not be used unless absolutely necessary. An excellent soap jelly for blonde hair is made by shaving a cake of Castile soap into a sauce pan and dissolve it in a pint of boiling water. Keep the mixture warm.

When shampooing the hair use half a teaspoon of bicarbonate of soda to each teaspoon of jelly. If you find that the soda has too drying an effect on the hair use half the quantity. Do not dry blonde hair by artificial heat. It will lose its sheen and texture. Rub the scalp briskly, but gently, with a heavy towel to stimulate circulation and then, as the sun, portion receive its share of the sun bath. This means drying requires a much longer time, but the softness will reward you for your patience.

Brunettes should use shampoos containing oils, sub carbonate of soda and yolk of eggs, for instance. They are excellent for dark hair, stimulate growth and improve the lustre. A wonderful shampoo for the dark-haired lady is made of yolks of two raw eggs slightly beaten, one half pint of claret and one gill of soft water. Billous—We never hear the best things that are said about us.

Cynicus—No, we are dead then.

Save Food

In a time needing food economy many people are not getting all the nourishment they might from their food.

It is not how much you eat.

The addition of a small teaspoonful of Bovril to the diet as a peptogenic before meals leads to more thorough digestion and assimilation and thus saves food, for you need less.

THE ACADIAN.

WOLFVILLE, N. S., JAN. 25, 1918.

Editorial Brevities.

Never let out of your mind the fact that the Food Controller of Canada is compelling the millers of Canada to make war-bread, and the bakers of Canada to bake a war-bread. The purpose is to save wheat. You can help by personally economizing on the use of flour and bread through a larger use of other grains. The war regulations point the path of duty.

Sir John Aldred, General Manager of the Canadian Bank of Commerce, has sent a special circular to all branch managers, instructing them to get in touch with farmers and inform them of the importance of raising hogs. The order is a practical one, because the bank stands behind it, prepared to lend necessary financial assistance to reliable farmers who take up the production of this most important staple.

Keene and St. Paul's churches, at Beauséjour, Ontario, one Presbyterian and the other Methodist, have joined forces as a congregation of the United Church of Canada. The union was consummated at a meeting of representatives of the two denominations in the presence of officials of the Kingston Presbytery and the president of the Methodist Conference. The movement for union is slowly but surely making progress in all parts of Canada.

Particularly gratifying is the news of the destruction of the former German war ships Breslau and Goeben. In the light of present knowledge, the sight of these vessels in Constantinople is seen as moves in a game well understood between Turkey and Germany before the war started. Although nominally under Turkish register and name, they constituted German warships, and their destruction will cause more sorrow in Berlin than in Constantinople.

Buying and storing white flour now that the country is about to be deluged as a measure of war-necessity the manufacture of a uniform grade of flour is not patriotic and does not help the Food Controller in his very necessary wheat-saving effort. The duty of all good citizens is to loyally submit to the regulations which the necessities of war bring and not to make their enforcement more difficult by hoarding, which is selfish and altogether unnecessary, for the war flour will be good and wholesome and somewhat cheaper than that now sold. If your house is pledged to support the Food Controller, and you are one of those food-hoarding dealers with white flour caches, you are doing just what the Germans did, treating your pledge as a scrap of paper.

Two leading citizens of Düsseldorf, Germany, the brothers Schindler, are on trial before local courts for crimes against the German Red Cross. One was the local president of the organization, and the accusation is that they speculated in supplies purchased for the society. Before the court of world opinion, the German nation is on trial for crimes against the Red Cross; having bombed its hospitals, sunk its ships in violation of solemn agreements. The Belgian neutrality treaty was by no means the only document regarded by Germany as a scrap of paper. There are many reasons and the Red Cross sign is one of them, why the world cannot afford to make peace with Germany until Germany gives unmistakable signs of an intention hereafter to regard a national pledge as a sacred and binding obligation.

School for Deaf Comes to Wolfville

GENEROUS OFFER OF ACADIA COLLEGE TO ACCOMMODATE SIXTY PEOPLE—FORMALLY ACCEPTED

The generous offer of the Board of Governors of Acadia University to the Halifax School for the Deaf, that they would accommodate sixty of their pupils at Acadia, was formally accepted at a meeting of the Board of Directors of the School for the Deaf, held Tuesday. Mr. Pearson, director of the school visited the College at Wolfville last week to make inquiries and was most kindly and sympathetically received by Dr. Catten, president of the University and the professors.

The University will give over Rhodes Hall to the School for the Deaf for class room and the pupils will be housed in the hospital building. Mr. Pearson visited all the buildings and was most enthusiastic over the new quarters for his pupils. Practically the full privileges of the University will be extended to the pupils of the School for the Deaf. The library will be at their disposal, also in the work shops, recreation rooms and grounds.

Mr. Pearson was directed to express to the Governors of the University, through Dr. Catten, the high appreciation and gratitude of the Directors for their very great kindness and generosity. Acadia is to be congratulated on this move. The generous offer will not only be accepted by the people of Halifax, but also by those who are vitally connected with the School. Immediate steps will be taken to send the pupils now at their homes in New Brunswick and Nova Scotia to Acadia, and to begin school at Acadia in the fall of 1918. Acadia is the most beautiful and best place in Canada.

Prohibition That Prohibits.

First class Legislation with enforcement by competent officials, ensures satisfactory prohibition. The regulations to carry into effect the War Measures Act prohibiting importation, manufacture, and sale of provincial shipments of liquor, should provide adequate penalties and thorough enforcement. Even with the best possible regulations and most efficient enforcement there will be infractions of the Act, and for some time the Province will suffer on account of surreptitious importation and manufacture.

In view of this, and for other reasons, the Nova Scotia Temperance Act should be improved. One of its penalties for violation. When in 1916 the Ontario and Manitoba Acts were framed the penalty for illicit selling or keeping for sale, was fixed at not less than \$200.00, nor more than \$1000.00 for first offence, and imprisonment for not less than six, nor more than twelve months for second offence. In 1918 our Alliance requested the Government to make the penalty for first offences instead of \$200.00 not less than \$500.00. This request was, at that time, considered unreasonable. In the light of Manitoba and Ontario Legislation we hope that our Government will at the coming Session of the Legislature provide adequate penalties, and in other respects make the law more effective.

In the matter of enforcement it is gratifying to say that in parts of the province we have officials who make the best possible use of the Act as it stands. With a satisfactory law we would, under these officials, have ideal conditions. But we have officials who are by no means energetic or capable and on this account prohibition is, in some places, without reason, of course, being discredited. With a defective law and incapable officials prohibition is simply not having a fair chance.

If our Government besides making the necessary improvements in the Act, provides proper enforcement Nova Scotia will in a short time enjoy the moral and material benefits that result from the kind of prohibition that prohibits. H. R. GRANT, General Secy. Temp. Alliance New Glasgow, N. S.

It is gratifying to say that in parts of the province we have officials who make the best possible use of the Act as it stands. With a satisfactory law we would, under these officials, have ideal conditions. But we have officials who are by no means energetic or capable and on this account prohibition is, in some places, without reason, of course, being discredited. With a defective law and incapable officials prohibition is simply not having a fair chance.

Rheumatism A Mystery.

THIS TROUBLE IS ROOTED IN THE BLOOD AND CAN ONLY BE CURED BY ENRICHING THE BLOOD. Some diseases give immunity from another attack, but rheumatism works just the other way. Every attack of rheumatism invites another; worse than that, it reduces the body's power so that each attack is worse than the one before.

If any disease needs curing early it is rheumatism, but there is scarcely any disease that physicians find more difficult to treat successfully. When a medicine does cure rheumatism therefore it is worthy of special notice. Medical authorities agree that the blood becomes this with alarming rapidity as rheumatism develops. Maintaining the quality of the blood is therefore a reasonable way of preventing and combating rheumatism. That it works out in fact is shown by the beneficial effects which follow the treatment of rheumatism, acute, muscular and articular, with that great blood tonic, Dr. Williams' Pink Pills.

That thousands of people who have taken Dr. Williams' Pink Pills for their rheumatism have been cured is a fact beyond dispute. That rheumatism does not return as long as the blood is kept rich and red is equally true. If therefore you are suffering from rheumatism in any form you should lose no time in giving Dr. Williams' Pink Pills a fair trial. Mr. A. E. Hinton, Western Ave., Toronto, says:—"Up to about a year ago, my wife had suffered for nearly three years from rheumatism, from which she suffered greatly. She had been under the care of several doctors, besides spending dollars on advertised cures, but did not get any relief. One day talking to a fellow clerk, she said her sister had been cured of this trouble by Dr. Williams' Pink Pills. Although not feeling very hopeful I took two boxes home that evening and urged my wife to try them. By the time they were used they had done her so much good that she required no pressing to continue the treatment, and after taking six or seven boxes she was completely cured. As I have said this about a year ago, and she had no return of the trouble since. I feel very grateful for the immense good Dr. Williams' Pink Pills have done my wife, and I hope other sufferers will benefit by her experience."

Grading of Potatoes.

The Fruit and Vegetable Committee of the Food Controller's office is considering regulations in regard to the grading of potatoes. The regulations, if adopted, will remove from the market all undersized, scabby, damaged and defective potatoes. Uniform grading by size and quality will save, so the despatch says, "an enormous amount of kitchen waste, and much freight upon the grocer will not be lost in the process."

Potato grading is compulsory in Great Britain and will be practised in the United States, where its good effects have long been recognized. The following table shows potato grading will be more uniform and the consumer will be sure of the quality of those he buys.

The Fruit and Vegetable Committee of the Food Controller's office is considering regulations in regard to the grading of potatoes. The regulations, if adopted, will remove from the market all undersized, scabby, damaged and defective potatoes. Uniform grading by size and quality will save, so the despatch says, "an enormous amount of kitchen waste, and much freight upon the grocer will not be lost in the process."

From Industrial Agent To Flight Commander

Interesting descriptions of incidents in the lives of flying men in England are given in letters to friends written by Acting Flight Commander Graham Waters Curtis, formerly Industrial Agent of the Canadian Pacific Railway in Montreal, who is now a flying instructor in England. The school in which he teaches is a vast expanse of country close to a beautiful seaside resort. He writes: "The view from the air is superb, and we often fly out over the British warships and wave to the sailors. When diving we only travel at the rate of about 175 miles an hour. I am kept very busy instructing, and am turning out a lot of expert pilots. The school I am connected with is one in which flyers finish their course of training. A lot of chaps from Borden come to us to get final lessons, and then they are sent to France. We do all kinds of fancy performances—loop the loop, roll, make spinning nose dives, side slips, and vertical turns. He describes how "little excitements" happen when one zooms into the "wash, or slip-stream of air" made by a preceding navigator. The letters indicate that Acting Flight Commander Curtis is a lucky master of the high school in which he soars. He says: "We have a lot of snappers, but very few deaths, considering everything. None of my pupils has been killed yet."

Acting Flight Commander Curtis has lately been recommended by his commanding officer for a first lieutenantcy, and expects to be sent to France at any time. He joined the Royal Flying Corps on November 15th, 1916.

Municipal Council. Continued from page 1. The Committee on Tenders reported in regard to Tenders for Collection of Rates in the several Wards as follows: Ward 1, Collector, A. O. Sullivan, 4 1/2 per cent. Ward 2, Collector, F. M. Vaughn, 4 per cent. Ward 3, Collector, H. E. Egan, 4 1/2 per cent. Ward 4, Collector, G. W. Porter, 3 1/2 per cent. Ward 5, Collector, H. H. Kesteven, 3 1/2 per cent. Ward 6, Collector, F. B. Denny, 6 per cent. Ward 7, Collector, S. I. B. Kerr, 6 per cent. Ward 8, Collector, G. W. Treholm, 3 per cent. Ward 9, Collector, E. F. Huntley, 7 per cent. Ward 10, Collector, R. J. McKenna, 5 per cent. Ward 11, Collector, N. Pancy, 6 per cent. Ward 12, Collector, M. E. Eaton, 5 1/2 per cent. Ward 13, Collector, D. Wylie Lawrence, 3 per cent.

No tender had been received from Ward 14, and the appointment of a Collector for that Ward was deferred to April Term.

Mayor Pelton, of Kentville, addressed the Council asking that it become a member of the Union of N. S. Municipalities.

Coun. Parker moved that this Municipality become a member of that organization.

The motion carried and the Wardens and Clerks were appointed delegates to the next Convention.

Coun. W. L. Nichols moved that Overseers of Poor for Aylesford be authorized to assess that township in the sum of \$1000 to provide Alms House in place of that recently destroyed by fire. Carried and Coun. B. Underhill and W. L. Nichols were appointed a Committee to take further action in the matter of the Alms House.

A new Road in Centerville from railway crossing to main road near station of Mr. Whalen was added to District 7 Ward 5 Council adjourned.

Mr. Justice Harris, of Halifax, has been appointed third member of the arbitration board that is to fix the purchase price of the Canadian Northern.

The Hon. A. B. Eber, M. L. C. of Amherst, died in a hospital in New York on Saturday.

The news was recently received here of the death on Dec. 29th, at the Royal Alexandra Hotel, Edmonton, of Mr. William C. Hamilton, formerly of Grand Pré. His death took place following a surgical operation. Mr. Hamilton was the son of the late George Hamilton, of Grand Pré. He resided here for a number of years in the Municipal Council, and took an active part in public affairs and was well known. Some years ago he sold his farm at Grand Pré and went west. The news of his death was received with sincere regret by many friends here. Mr. Hamilton married Miss Mary Harvey, daughter of the late George Harvey, who survives him.

Do You Live in a Black House?

In one of every five houses, the plot of Pathe's new serial is being lived in real life right now. Were those houses of unshapely painted black your street would have its share. Would your house be among them? It is quite the best ever sent from London. No so far-reaching that everyone is interested in it. It remained for Mable Herbert Umer, America's most widely read author, to put it into a story, so powerful, so absorbing, so sympathetic, that it needed the screen to adequately bring out its power.

The neglected life featuring talented and charming Edith Roland, puts the problems of the day in the most successful serial of the season. The first episode commencing today and Saturday. 'The Woman Alone' will convince you it is a winner.

The final episode of Pathe's featuring famous Mrs. Vernon Castle 'For the Flag' will be full of surprises and a truly delight for all who have followed this exciting and successful serial.

Monday and Tuesday will be screened a Pathe feature 'Under Pales Colors' featuring Frederick Wade, noted Shakespeare actor, of timely theme and a story that will supply clean entertainment.

Russia and Prussian intrigues become a background for a tale brimful with human interest.

The Annual Meeting of the St. Robert Poyden Chapter, Daughters of the Empire, will be held on Friday, February 1, at 3:30 p. m. at the home of Mrs. E. F. Dixon.

The room in Miss Harwood's apartment, Delaney Block, is open on every Monday, Wednesday, and Saturday afternoon from 3:00 to 5:00 o'clock for the distribution of yarn. This yarn is to be used in the knitting of socks for our boys in the trenches. They need the socks very much, just now. Let us not fail them.

On Wednesday, January 17th, a wedding was quietly celebrated between Mrs. B. B. Mitchell and Mr. S. E. Bowden Elliot formerly of Wolfville, being united by the Rev. F. Armitage. Mrs. Mitchell is well known in Hantsport and Lockhartville, and Mr. S. E. Bowden Elliot formerly of Halifax, is the eldest son of the late Major T. Bowden Elliot and grandson of Sir George Prentiss and has served in France in the present war being wounded on two occasions. The bride and groom proceeded to Westbrook, Ontario.

Nails, caps and cement for applying in core of each roll, also printed instructions.

L. W. SLEEP.

Presentation to Rev. Mr. Armitage.

On Thursday evening, Jan. 17th, about thirty Greenwich people drove to Wolfville and found their way to the Methodist parsonage, where they surprised Mr. Armitage by presenting him with a purse of \$50.

Mr. Geo. L. Bishop was entrusted with the task of explaining that the gift was from the people of Greenwich regardless of their denominational attachments, and was to be taken as an expression of their appreciation of Mr. Armitage, not only as a preacher but also as a man, who had done such good work outside of the limits of his pulpit that it could be genuinely sorry to part with him a few months hence when he goes to Windsor.

Mr. T. A. Pearson then presented the popular young path-finder with a large flash-light as an additional and personal appreciation from one who did not know whether the parson could preach well or not, but who did know that Mr. Armitage was a good kind of man to have in the community.

Mr. Armitage, of course, could not find the proper words to express his surprise and gratitude, so it would not be well to record them here. Anyway some things he tried to tell us were not meant for others to hear. After an evening with games and music, plus refreshments provided by the ladies of the party, we returned home feeling glad that one thing we should have done before—was done. G. R. NEWELL

A Chance for Recruits.

DEAR SIR,—May I make use of your paper to place before your subscribers some facts relative to the battery under my command.

This unit is open to day for any physically fit man who desires voluntarily or who is liable under the Military Service Act to serve his country in the field. All men not liable under the Act can call in the ordinary way; any man of class 1 can report for duty at any time before he is ordered to report by the Registrar under the Act; provided (a) that he produces the counterfoil of his report for service; and (b) that he produces a certificate from his employer, stating that the latter has not lodged a claim for the man's exemption on the ground of national interest.

Owing to the special nature of artillery work a high standard for recruits is required in this branch of the service. Physical requirements are height 5 ft. 7 ins. minimum chest measurement 33 ins. In addition applicants must possess a good standard of intelligence.

The 10th Siege Battery is representative of the positions of New Scotia. During the first year of its existence it sent overseas seven officers and four hundred and fifty other ranks, the majority of whom are now in France. Drafts are constantly being prepared, and as soon as ready will be sent overseas to receive their final training in England. This unit presents the best opportunity to day to any one wishing to join the Army. Interested applicants may communicate with me by letter at the address below. If their application is approved transportation will be forwarded to them.

Thanking you for your valuable space.

I am, Yours very truly, R. H. LACON, Lt. C. G. A. C. C. 10th Siege Battery, C. E. F. Cambridge Battery, Halifax, N. S.

'You're as Young as You Feel' Proven by Peggy Hyland.

VITAGRAPH STAR ROMPS THROUGH FILM WITH STUDIO CHILDREN. Little Peggy Hyland, in the Blue Ribbon feature, 'Her Right to Live,' which was directed by Paul Scardon, and which is the attraction at the Opera House Theatre on Wednesday and Thursday, 30th and 31st, proves to her many friends that it was not so very long ago that she really was a child.

In this story, Miss Hyland plays with the Vitagraph kiddies, Bobby and Helen Connelly and Mirene May. Delighted with her fellow-players, the little star would romp all day about the studio with them, with the result that, when it was time to scene they simply kept right on playing with their 'big sister.'

Entirely forgetful of her dignity as a motion picture star, the tiny English actress would enter into all the sports, and her delight over the fishing party, when they all take off their shoes and stockings and go paddling in boats, to be seen. Her eyes fairly danced with happiness as she runs through the woods with the three children and their big dog, Rover.

But she is insulted—Oh, so insulted, when an artist terms her a 'kid along with the others.'

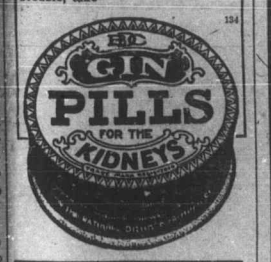

In this role of the older sister, who cares for her chicks like a little brown sparrow-crow for the Redingtons in the nest, Peggy Hyland finds a part ideally suited to her capabilities, and she is more charming than ever before. She will be remembered as being the star in 'The Chateau.'
