Mr. Justice Doherty rebuked a lawyer in a seduction case at Montreal for filling up 200 pages of filthy relations between plaintiff and defendant for the court's perusal. This price nets a handsome profit to Mr. Allen, who proposes to build again on his beautiful lot on Michigan boulevard near 33d street sometime during the present season.

LECTURE.—The Society of Christian Endeavor of the North Street Methodist church has secured Mr. T. McGillivuddy to deliver his lecture on "Backbone" in the church on Monday evening next. The Brussels and Clinton papers speak well of the lecture. No admission will be charged, but a collection will be taken up in aid of the Society. The choir will assist in some choice musical selections. The public are invited.

ORGAN RECITAL.—The "opening of the pipe organ" recently put up in Knox church, Goderich, will take place on Friday evening next, 11th May, beginning at 8 o'clock p. m. The keys will be manipulated by Dr. Verinder, the well known London organist, and Miss Nettie Seegmiller of Goderich. A number of anthems will also be sung by the choir during the evening. It promises to be a musical treat. The price of admission has been put at a popular price—only 25 cents.

FOR FRUIT-GROWERS.—We have received, neatly bound in cloth, a copy of the "Reports of the Fruit-Growers Association and Entomological Association for 1882," and believe it should be in the hands of every lover of horticulture. It contains many valuable hints regarding the culture of fruits and vegetables, and is worth much to the progressive Canadian farmer or the amateur gardener. Among those contributing to the interest of the work we observe the name of our townsman, A. McD. Allan, who is regarded as an authority on fruits.

HIGHLY SATISFACTORY.—The report of Inspector McLeellan on the state of the Goderich High School has been forwarded to Mr. Peter Adamson, secretary of the board of trustees by Mr. Alex. Marling, secretary of the board of education. The school was inspected on the 18th of April. The number of pupils on the roll was 119, of whom 95 were present. In the report the trustees are recommended to introduce vocal music, especially as Mr. Halls is amply competent to teach that branch; also that drawing, in Walter Smith's method, be given in the lowest forms. The report concludes as follows: "The school continues to do good work. The results of examination of several classes were very good. The mathematical master,

Mr. Moore, was not present. The unitary class did very well. The intermediate class has had a good foundation laid in mathematics. Mr. Hall's class did exceedingly well, as also did the principal's class. Miss Oliver is a clear and energetic teacher. The discipline is good, and the general tone of the school is very excellent.

"Backbone."—Rev. S. Jones, pastor of Knox church, Brussels, says of Mr. T. McGillivuddy's lecture, to be given in the North Street Methodist church on Monday evening:—"We have paid \$25 to bring a lecturer here who didn't give us such a treat." No admission fee will be charged on Monday, but a collection will be taken up for the Society of Christian Endeavor in connection with the church.

An exchange thus alludes to an accident which happened to a gentleman who has been paying a visit to old friends in Goderich since the occurrence:—Mr. H. S. Holmes, station agent at Theford, had a narrow escape from death a few nights ago. A lamp exploded, setting fire to the bedroom and Harry had his whiskers burned and was otherwise scorched before he got out. The fire was extinguished before much other damage was done. Harry is a son of the veteran conductor D. Holmes, who pioneered the first R. R. coach to Goderich and who is still on duty.

Rev. J. Wakefield, of this town, has a remarkably intelligent parrot, which took up a position at the recent bazaar, and coolly surveyed the crowds who patronized that affair. At one time Mr. Wakefield entered the room by a door at the end opposite where the parrot was clinging to the cage, and whistled. "Polly" immediately took wing, flew over the heads of the surprised people present, and alighted on the crown of her clerical owner. Then she sat on his finger and cooed satisfaction. She was not in talking mood on Tuesday, that Polly took a rest.

BAZAAR.—The "apron bazaar" in aid of the North St. Methodist church, held on Tuesday and Wednesday, was a marked success. A large quantity of aprons, pinafores, baby's dresses, etc., were disposed of at very reasonable prices, while the restaurant department did a roaring trade. The dinners were amongst the best served in town, and the tables were well patronized by several judges of a good dinner, and pronounced "A1." A large quantity of ice-cream was disposed of during the progress of the bazaar. The entire affair was exceedingly well managed, and the ladies who worked at it (their names in legion) deserve the thanks of the congregation. Next managers desire us to thank the public generally for their liberal patronage. After paying expenses, the ladies will clear about \$130.

H. S. LITERARY SOCIETY.
Annual Entertainment by the Society—Large Attendance—Successful Literary, Musical and Spectacular Treat.

On Friday evening last the annual musical and literary entertainment under the auspices of the Goderich High School Literary Society was held in Victoria Hall, and was largely attended—in fact, the attendance was on the over-numerous side, and a perfect "jam" was the result. Mr. Strang, headmaster of the High School, explained the nature of the society, its objects and aims, and introduced the several members of the programme most appropriate.

The first part of the programme opened with the tableau, "Two Loves and a Life." It consisted of four scenes, and was taken part in by Misses Kate Macara, Maude Starr, Maggie Cameron, Frances Rutson, Alice Trainer, Lizzie Dickson and Messrs. Kidd, Seaborne, E. Duncan and Reg. Shannon. The effect in the different scenes was good. After the tableau, "The One Hoop Shiny," was given by Mr. Hogarth very fairly. Next followed an instrumental solo by Miss Hattie Price, which was well rendered. The reading, "The Auld Currier and his Wife," was capital, given by Miss Strang. The dialogue from the "Merchant of Venice," where Shylock becomes disgusted with the usurers' trade, and is anxious to go into the butchery business, was taken part in by Miss Halse and Messrs. Thomas Farrow, J. Swanson, D. Anderson and R. D. Seaborne. "Portia," by Miss Halse, and "Shylock" by Mr. Farrow, were particularly well sustained. The solo "Water-cresses," by Miss Jennie Cooke, received a deserved encore, and the instrumental duet by Messrs. Freeman and Acheson was exceedingly pretty. This part closed with the quartette, "Moonlight on the Lake," by members of the society.

In the second part of the tableau of "Cinderella," was presented, with Miss Maude Starr in the character of Cinderella; Katie Ball, fairy godmother (and a tidy-looking little godmother she was); Maggie Cameron and Fanny Rutson, the two stylish sisters; Katie Macara, the terrible stepmother; Lizzie Dickson, queen; E. Duncan, prince; Reg. Shannon, king; and Miss Alice Trainer and Messrs. Seaborne and Kidd were guests at the ball whose names were not registered, but able supporters nevertheless. The five scenes in this tableau presented a very fine spectacular effect. "Cinderella" was followed by an instrumental solo from "Martha" by Miss Seegmiller, which was well received. The recitation, "Whistling in Heaven," was exceedingly well given by Miss Katie Ball, whose articulation and manner were much admired. The general

ship scene from "Henry V." which was taken part in by Miss Cameron and Mr. E. Duncan, with Miss Dickson as maid, was realistic, and Mr. Duncan talked and acted as if he knew all about the business. The round "Hark to the Churn Bells," by the members, was well rendered. Mr. Bean brought down the house in the laughable Dutch burlesque, "Sockerly Setting a Hen." The character was true to life, and the manner in which the delineator filled out the ample vestments and beamed such wide "schmules upon dot beebles" was simply immense. A chorus by the members—Let the Hills Resound, and a number of selections from an Italian string band closed the entertainment, the only fault of which was its extreme length.

THE THREE LINKS.
Goderich, and its friends celebrate the 66th Anniversary of American Self-Determination.

The members of Huron Lodge, I. O. O. F., and their friends celebrated the 64th anniversary of Oddfellowship in America by a supper at the Ocean House on the evening of Thursday, April 26th. There was a large attendance. The spread was an excellent one, and reflected credit upon the caterer, Bro. Wm. Babb, and also testified to the culinary skill of Mrs. Babb.

After the tables had been cleared, Bro. F. W. Johnston, who occupied the chair, introduced the list of toasts in his usual happy and felicitous fashion.

"The Queen"—A verse of the "National Anthem."
"The President of the United States," coupled with the name of Major Crane.

The Major in responding to the toast, said he was pleased to be with the Oddfellows tonight, for although not a member, he had found many good friends among those who professed the principles of "Oddfellowship." As an American citizen he thanked them for honoring the toast of the President of the great Republic.

Since the time when the colonies severed their connection with the mother land, now over a century since—had more amicable relations existed between the people of the two lands, and he trusted the feelings of friendliness and fraternity would ever continue. (Cheers.)

Lately when the Queen of England—God bless her—sustained an injury, the great pulse of America throbbed sympathetically for her, and the press of the United States gave decided expression to the feelings of the people of our country towards Britain (a Queen in her physical suffering).

This was a toast to be heard, and was equalled by the kindly expressions of sympathy by the great London papers—the Times, and Telegraph, and others—when President Arthur was stricken down with illness on his recent trip to the South.

Somewhere he had read that a prophecy had been made that this world would be eventually ruled by two great nations, and these nations would be Britain and America. He had an abiding faith in that prophecy, and believed the day of consummation was nearer at hand than most persons imagined. (Hear, hear.)

The Major then went into the questions of kindly relations, brotherliness, &c., &c., and after again thanking the chairman for coupling his name with the toast closed with a brilliant peroration amid tumultuous applause.

"The Prince of Wales and Royal Family."
"Song by Charlie Thomson."

"The Day we celebrate," was next introduced. The chairman in bringing the toast before the meeting gave a brief history of the growth of Oddfellowship in America, and pointed out the many benefits to be derived from connection with the order.

The toast was fittingly responded to by Bros. F. F. Lawrence, Joseph Beck and John Naim—three of the pioneers of Huron Lodge.

"Song by D. McGillivuddy."
"Huron Lodge," was coupled with the names of Bros. Murray, Ball and Mitchell, who responded in suitable terms.

"Song by Geo. Striven."
The Press" was replied to by D. McGillivuddy.

"Song by William Babb."
The Ladies, fired the hearts of Messrs. W. H. Ridley, D. Cantelon and Russell, and caused fervid rhetoric and gladsome gushfulness to flow in an almost unbroken stream from their lips. Some of the remarks, it is true, were highly imaginative, owing to the fact that none of the respondents was in a position to speak other than theoretically on the subject; but as one of the speakers naively put it: "Yet in a little while I shall be able to testify steadfastly and without fear of that, which, in response to this toast—'the ladies'—I now approach with tenacity and trembling."

"The Host and Hostess," was replied to by Mr. Babb.

The pleasant gathering was formally closed by the singing of "Auld Lang Syne," and the "National Anthem."

Long John Reilly, an American baseball player, made a home run in a game played last week. In moving from first to second base, he took just thirteen strides.

It is remarkable that Tipperary is in these days one of the quietest counties in Ireland, while Galway, once a peaceable, has become a power of murder.

The statement that John Brown left \$5,000,000—a sum larger than has ever been left by any British lord chancellor—is utterly untrue. He may have left a few thousand pounds, but that is all.

The Poet's Corner.

The Model Young Girl.
A practical, plain young girl;
Not a maid-of-the-rain young girl;
A poetical way.

AMBITIOUS POLITICIANS.

Mr. St. Paterson Pokes Fun at the Member for East Huron and Others.

The House went into Committee of Supply. On the item of \$45,000 to meet the expenses in connection with the completion of the census, a debate of some length, participated in by many members took place, in reference to the delay in furnishing the statistics collected.

Mr. Farrow has got the true Tory idea of Tory omnipotence thoroughly ingrained in his heart. A Poster for Tilley.

Mr. Auger, the Tory member for Sheffield, who defeated Hon. Mr. Huntington, is reported to have made the following brief but significant speech in the House the other day: If the N. Blacksiding a Professor.

The London Advertiser remarks that Prof. Foster takes strange grounds for so distinguished an advocate of temperance. He favors the sale of liquor in hotels on Sundays. One can readily understand why hotel-keepers and a certain section of the travelling public would favor such a plan, but to have the sale of liquor on Sunday advocated by a temperance lecturer, whose chief plank is prohibition, is a new departure.

Private and Confidential.

When a business man has the unbounded cheek to go to the Government and ask them to favor him by fixing his neighbors heavily on all purchases of goods in his line not made by him, it is not unreasonable for the victims to ask for a statement of the reasons he gives for his request, and on which the Government has acted in granting it.

Dr. J. R. Seymour, Druggist, St. Catharines, writes that he has an increasing sale of Dr. Carson's Blood Purifier, and adds that he can without hesitancy, recommend it.

HE BUCKED.

The Danger of Riding Texas Ponies.

Great Excitement on Montgomery Street... A Happy Thought and a Happy Man.

(San Francisco Evening Post.)

It is a fact beyond dispute that the average Texas pony is uncertain. As a general thing a Texas charger can be relied upon, sooner or later, to indulge his little act, popularly known on the plains as "bucking." You can't cultivate the pony sufficiently to induce him to forget it. It is in his blood, and he sticks to it by the power of heredity. He would probably go without his hay for a whole day sooner than throw away a fair opportunity to "buck." It is a part of his life, and the chief article in his creed. In short, a Texas pony which won't buck is not a Texas pony at all. He is a nondescript, and unworthy to be accredited to the Lone Star State. Mr. George Ridgeway, residing on Jefferson street, Oakland, will probably endorse the above heartily. At any rate the accident which befell him this morning would seem to be a sufficient guaranty for such inference in the minds of observers, for Mr. Ridgeway narrowly escaped death. As it is well known, this gentleman is a finished horseman, and is fond of riding spirited animals. This morning about 8 o'clock he rode up Montgomery street at a very rapid pace. When opposite F. Garcia & Co. residing at the corner of Montgomery and Broadway, Ridgeway suddenly checked his horse and attempted to wheel. But the pony grew obstinate and refused to obey the will of the rider. Mr. Ridgeway attempted to force the horse, but the perverse product of the pampas declined to be enforced, and then ensued a struggle for the mastery between horse and man. True to his instincts the pony finally prepared a coup d'etat, and won the victory. Jumping into the air, the devilish creature stiffened his legs, humped his back until he described an inverted U, came down on the street with all four feet at one time, plunged his head between his forelegs, and the set was complete. Mr. Ridgeway struck the ground about six feet in front of his horse. He was insensible. A large crowd of excited people was attracted to the spot. Kind hands tenderly lifted the unconscious sufferer and bore him into Garcia's. A messenger was dispatched for a physician. In the meantime restorative were applied, and every means known to those present resorted to for his resuscitation. In a short time Mr. Ridgeway showed signs of returning consciousness, and moaned in great pain. Regaining the power of speech the hurt gentleman said: "For God's sake do something to relieve this horrible pain in my shoulder. It is killing my means. You a bottle of St. Jacobs Oil in the house?" "Just the thing!" said Mr. Garcia. "I have some of the oil conveniently at hand."

The sufferer was denuded of his clothing, and his right shoulder was found to be badly bruised. Quick hands applied the great remedy which is now so generally used, and in an incredibly short time Mr. Ridgeway began to show signs of satisfaction. Soon he said that the pain was greatly relieved, and the application of nearly a whole bottle took away all the pain and reduced the swelling which had commenced when they began applying the oil. The exhibition of such wonderful power by the St. Jacobs Oil set all tongues wagging, and many gentlemen present expressed astonishment at the amazing result of its application. Mr. Garcia explained that the Oil was reputed to be almost miraculous in some cases, and the incident of this morning was simply a verification of what he personally knew of, as well as what was attested of by persons of his acquaintance. He thought so highly of its curative properties in all cases of pains and hurts that he never failed to keep some of it on hand. Mr. Ridgeway would doubtless feel a little shaken up by his fall for a few days, but several more applications of the remedy would undoubtedly place his shoulder all right.

The reporter was greatly interested in what he had witnessed and resolved to learn more about the performance of the great remedy. Meeting Mr. R. Young, a printer in the Mercantile Agency, and residing at No. 320 California street, the question of the healing power of St. Jacobs Oil was introduced. Mr. Young immediately and emphatically bore strong testimony in its favor. "Why, sir," said he, "I had been troubled a long time with stiffness of the neck. It was especially severe when I took cold. I had also suffered with rheumatic pains in my shoulders. It is, therefore, with feelings of gratitude that I say that the St. Jacobs Oil relieved me of every pain and ache. I most heartily recommend it as a superb relief."

During the morning the reporter's duties called him to North Beach. While there he met Mr. Charles Schwartz, proprietor of the North Beach Chiropractic House, No. 2200 Powell street. The following conversation ensued: "Mr. Schwartz, do you know anything about St. Jacobs Oil?" "Well, I should say so! It is just the grandest remedy for rheumatism ever made."

"Have you used it, sir?" "Used it? Yes, it has been a standing remedy in my house for two years. There is nothing like it. We could not get on without it. It cures my people of pleurisy, burns, bruises and every kind of ache or pain. Then my neighbors use it, too. I always have several bottles in my house, and it frequently helps on that persons call for it in sudden emergencies. Only a few days since a drayman got badly hurt, and I sent out a bottle of St. Jacobs Oil. It rubbed it on him and it took away the pain. The man was very grateful and said it was the best stuff in the world."

CINGALESE.—A name well known in connection with the Hair Renewer, which restores grey hair to its natural color by a few weeks use. Sold at 50 cents per bottle by James Wilson. 2m

A REWARD.—Of one dozen "TEABERRY" to any one sending the best four line rhyme on "TEABERRY," the remarkable little gem for the Teeth and Bath. Ask your druggist or address.

The reporter stopped in at the popular pharmacy of J. Adolph Boyken, corner of Ninth and Mission streets, and asked the proprietor if he had much call for the St. Jacobs Oil. Mr. Boyken replied: "The Great German Remedy, St. Jacobs Oil, has been having a big sale with me lately, and my customers are high in their praise of it as a conqueror of pain."

A BUCKING... To these true horsemen newspapers are flooded with... advertisements, but you know what to procure. If you are sure you are liver inactive, or general debilitated, there is nothing in the world that will cure you so quickly as Electric Bitters. They are a blessing to all mankind, and can be had for only fifty cents a bottle of James Wilson. [2.]

TEXAS MUSTANGS.

The Rev. W. H. H. Murray writes enthusiastically to the Boston Herald that Texas is just the place for horse-breeding, and that the tough little mustangs are the right stock to take hold of for improving. He declares that they trace their origin back to a "race of equine kings and queens," and have only deteriorated under hard usage. "I have seen these little 800-pound horses," he says, "travel eighty miles with a 180-pound man up, under a Southern sun, in a ride across the country, without roadways, from sun to sun, and that, too, on little grain, perhaps nothing but the grass they get from the prairie at night. Many of them pace—a pace like the wind—so fast that they play with you on the prairie, though you have a blooded mount that can run like a greyhound. Others trot—trot naturally—with strides out and perfect knee action, and will do nothing but trot, however hard pressed. I have raced through the prairie grass and flowers at the rump of a mustang stallion fifteen and a half hands high, and blood-bay in color, with a tail as black as night and that would sweep the ground a foot, and been unable to break him from his trot—range up to his side, although my mount was a three-quarter bred mare of 1,000 pounds weight, that took to the chase with her eyes blazing and ears laid back in a way that plainly told her rider that she felt a good deal as he did." Mr. Murray advises a cross from a thoroughbred stallion, believing that it would increase the size without losing toughness, and produce the best saddle-horses as well as trotters.

Calvert's Carbolic Compound

HER FATHER'S POSTSCRIPT.

An Appointment Which a Mother Probably Failed to Keep.

Not long ago one of those unfortunate creatures called "mashers" sent to an estimable young German lady a letter, to which this postscript was added:

"P.S.—That my darling may make no mistake, remember that I will wear a light pair of pants and a dark cutaway coat, in my right hand I will carry a small cane, and in my left a cigar. Yours forever."

The father replied courteously, stating that his daughter had given him authority to represent her at the appointed place at the time. The postscript added was as follows:

"P.S.—Do not mind my making no mistakes, I will be dressed in mine shirt sleeves. I will wear in mine right hand a club; in mine left hand I will wear a six-shooter, forty-five calibre. You will recognize me by the way I bats you on the head a couple times twice with the club. Wait for me on the corner, as I have some things important to inform you with. Your friend."

AYER'S Cherry Pectoral.

No other complaints are so insidious in their attack as those affecting the throat and lungs: none so trifling with the majority of sufferers. The ordinary cough or cold, resulting perhaps from a trifling or unconscious exposure, is often but the beginning of a fatal sickness. AYER'S CHERRY PECTORAL has well proved its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all cases without delay.

A Terrible Cough Cured. "In 1857 I took a severe cold, which affected my lungs, and I was unable to get up after eight or ten days. The doctors gave me up, I tried AYER'S CHERRY PECTORAL, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. The continued use of the PECTORAL, a permanent cure was effected. I am now 62 years old, hale and hearty, and am satisfied your CHERRY PECTORAL saved my life. HONORABLE FALLENBOMBER, Hockingham, Vt., July 15, 1882."

Group.—A Mother's Tribute. "While in the country last winter my little boy, three years old, was taken ill with croup; it seemed as if he would die from strangulation. One of the family suggested the use of AYER'S CHERRY PECTORAL, a bottle of which was always kept in the house. This was tried in small frequent doses, and to our delight it has been half an hour the little patient was breathing easily. The doctor said that the CHERRY PECTORAL had saved my darling's life. Can you wonder at our gratitude? Sincerely yours, Mrs. EMMA GEDNEY, 150 West 125th St., New York, May 28, 1882."

"I have used AYER'S CHERRY PECTORAL in my family for several years, and do not hesitate to pronounce it the most efficient remedy for coughs and colds we have ever tried. A. J. CRANE, Lake Crystal, Minn., March 15, 1882."

"I suffered for eight years from Bronchitis, and after trying many remedies with no success, I was cured by the use of AYER'S CHERRY PECTORAL. JOSEPH WALKER, Memphis, Miss., April 5, 1882."

"I cannot say enough in praise of AYER'S CHERRY PECTORAL. I do not doubt but for its use I should long since have died from lung troubles. FALLENBOMBER, TEXAS, April 22, 1882."

No case of an affection of the throat or lungs exists which cannot be greatly relieved by the use of AYER'S CHERRY PECTORAL, and it will always cure the disease is not already beyond the control of medicine. PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists.

APRACTICAL FARMER

SOME of the Reform papers in quizzing about the next Minister of Agriculture have, out of pure merriment, sandwiched in the name of our only son, Thomas Farrow, the silver-tongued tenor of East Huron, as a coming man.

The Tory papers of the county have taken the question up seriously, and one or two of the scribes who know nothing of Mr. Farrow's abilities, and would not recognize him from the proverbial side of sole-leather were they to meet him on the street, are busily engaged in talking up his chances of obtaining a portfolio.

The Star has seen fit to print three parts of a column of leaded pica on the strictures of the THE SIGNAL on the present mixed condition of the county.

Most of our readers will remember with what joy the incoming of the so-called National Policy was received in 1879 by the adherents of the Conservative party.

Mr. Hardy has a fine opportunity to distinguish himself as acting minister of education in a way that will earn the undying gratitude of countless thousands.

Having snubbed himself in the presence of the Ministers at Ottawa, and carried favor with those to whom he owed his appointment, by "setting up champagne suppers and kindred luxurious entertainments, and leaving Government to manage the property at Regina, made so valuable by him through his placing the capital at that awkward spot.

THE FIRE DEPARTMENT.

Goderich for years past has been able to boast of one of the most efficient volunteer fire companies in the province, and much of the efficiency was due to the chief of the company, Capt. T. N. Dancy.

It is not deemed advisable that a prosecution should be instituted against any newspaper for heretofore advertising lotteries, until the publishers have been informed that unless such advertisements are at once discontinued, and no more inserted, the law will be put in force against them.

The telegraph brings us the startling news that Caffrey and Delaney, two of the accused murderers of Cavendish and Burke, have pleaded "guilty" to the indictment, and have made a clean breast of the whole affair.

The Winnipeg journals are advocating high license as a scheme for the abatement of drunkenness in that city. They are on the right track.

CONCERNING LOTTERIES.

The County Attorney has received official notice from the Attorney-General that the law respecting lotteries, contained in the Consolidated Statutes of Canada, chap. 95, as amended by 23 Vic. chap. 36, must hereafter be enforced.

The Grammar Question.

Mr. Hardy has a fine opportunity to distinguish himself as acting minister of education in a way that will earn the undying gratitude of countless thousands.

An Ottawa Salary Grab.

Advices from Ottawa state that the members are contemplating another salary steal. The poor hard-worked individuals make the modest request for \$500 more each.

Dewdney's Luck.

The bachelor friends of the "Duke," will, we feel certain, read the following selection from the Rock Lake (Man.) Herald with interest:

Decidedly the most unique venture in a literary way to which the public has been treated, is the Elzevir Library, a new semi-weekly magazine.

THE WORLD OVER.

Judging from the movements of the Princess Louise since her return to the capital, her health has been fully restored.

Lady Macdonald created some sensation among the fair occupants of the speaker's gallery this evening by appearing in their midst clad from bonnet to boots in scarlet, without the slightest patch of any other color to relieve the glare.

A fact not generally known in connection with the new president of the National League is that Mr. Sullivan is a native of Amherstburg, Ont., where his father was engaged in the British military service.

Dr. Geo. H. Marshall, of Pittsburg, Pa., has been committed for trial on a charge of attempting to blackmail Mary Anderson, the actress.

The police have evidence implicating James Carey, a witness for the crown in the state trials, in the murders of Talbot, a police informer, of Clarke, a Fenian informer, and of a bricklayer named Behan, and also in the attempted murder of Murphy, a bookkeeper in the office of the Irish People.

The petition which was presented in the House of Commons a few days ago by Sir William McArthur in favor of Sunday closing is one of the largest documents of the kind ever laid before Parliament.

A Good Old Hen.—Mr. John J. Gal-
lagher, who lives near S.S. No. 1, has a
hen which got its feet frozen several
years ago and hangs around on one leg
and a shapless stump. But this does
not hinder her from laying 200 eggs in
a season, as well as raising three broods
of chickens during the same period.
She is over eight years of age, but is all
there on the lay yet.

Mr. James Barclay arrived home from

hearty.

FARM SOLD.—Mr. Culbert, of the 12th
con. of Ashfield, sold his farm of 100
acres to Mr. John Gardiner, for \$5,500 a
few days ago.

NEARLY AN ACCIDENT.—On Monday
evening last as a farmer of the 9th con.
of Ashfield was returning from Lucknow
with a new seed drill attached to the
waggon, when a short distance from this
village, drove into the ditch and fell out.
Had the horses not been stopped very
quickly he would certainly have been
run over and injured. (Case—Whiskey)

Dangannon.

Last Sabbath was Quarterly meeting
on the Ashfield circuit.

Presbyterian Sunday school opens
next Sabbath at 9 o'clock.

Mr. Wm. Given, our new tailor has

very neat sign.

Next Sabbath, being first Sabbath in
May, Quarterly services will be held in
the Methodist church.

The fall wheat is reported to be suf-
fering from the present protracted sea-
son of frosty nights.

Dangannon is kept pace with the
times. During the past year it has be-
come quite a bicycle town. We have no
less than four bicycles, and as many
amateur riders.

What came very nearly being a seri-
ous runaway happened on our streets last
Friday evening. While Mr. Pierce,
with two women and two or three chil-
dren in his waggon, was driving along
the street, his horses took fright. Mr.
Pierce ran them into a fence and suc-
ceeded stopping their headlong career
very shortly. Fortunately no person
was hurt and very little damage was
done.

Mr. Moses O'Brien lately bought the
farm lately occupied by Mr. Echlin. Mr.
S. E. Sanderson then bought Mr.

pied the rooms upstairs in Clendinning's
store, as tailor shop, has removed to Mc-
Pherson's old stand.

A review of the changes that have
taken place in our population since new

Rev. Father Wilds' EXPERIENCE.

The Rev. Z. P. Wilds, well-known city
missionary in New York, and brother of the
late eminent Judge Wilds, of the Massachu-
setts Supreme Court, writes as follows:
"78 E. 5th St., New York, May 16, 1882.
MESSRS. J. C. AYER & CO., Lowell, Mass.
Last winter I was troubled with a most uncom-
fortable itching humor affecting more especially
my limbs, which itched so intolerably at night,
and burned so intensely, that I could scarcely bear
any clothing over them. I was also a sufferer
from a severe catarrh and costive bowels; my
appetite was poor, and my system a good deal run
down. Knowing the name of AYER'S SARSAPARILLA,
I purchased a bottle of the above-named medicine,
and from personal use in former years, I began taking
it for the above-named disorders. My appetite
improved almost from the first dose. After a
short time the fever and itching were allayed, and
all signs of irritation of the skin disappeared. My
catarrh and bowels were also cured by the same
means, and my general health greatly improved,
until it is now excellent. I feel a hundred per-
cent stronger, and I attribute these results to the
use of the SARSAPARILLA, which I recommend
with all confidence as the best blood medicine
ever devised. I took it in small doses three
times a day, and used, in all, less than two bottles.
I place these facts at your service, hoping their
publication may do good.
Yours respectfully, Z. P. WILDS."

Ayer's Sarsaparilla

cleanses, enriches, and strengthens the blood,
stimulates the action of the stomach and bowels,
and thereby enables the system to resist and over-
come the attacks of all Scrofulous Diseases, Eruptions
of the Skin, Rheumatism, Catarrh, General
Debility, and all disorders resulting from poor or
corrupted blood and a low state of the system.

Some of the Reform papers in quizzing about the next Minister of Agriculture have, out of pure merriment, sandwiched in the name of our only son Thomas Farrow, the silver-toned tenor of East Huron, as a coming man.

There is one thing, however, that will militate against Mr. Thomas Farrow's chances for obtaining appointment as Minister of Agriculture, even were his abilities of a sufficiently high order to merit the offer of the portfolio.

THE Conference of the Evangelical Association has passed a resolution declaring that the "Crocka Act" has resulted in a visible improvement in sobriety and the keeping holy of the Lord's Day, and deprecating any interference on the part of the Dominion Government.

THE FIRE DEPARTMENT.

THE NATIONAL POLICY.

Most of our readers will remember with what joy the incoming of the so-called National Policy was received in 1879 by the adherents of the Conservative party.

FARM SOLD.—Mr. Culbert, of the 12th con. of Ashfield, sold his farm of 100 acres to Mr. John Gardner, for \$3,500 a few days ago.

NEARLY AN ACCIDENT.—On Monday evening last a farmer of the 19th con. of Ashfield was returning from Lucknow with a new seed drill attached to the wagon, when a short distance from this village, drove into the ditch and fell out. Had the horses not been stopped very quickly he would certainly have been run over and injured. Cause—whiskey!

Next Sabbath, being first Sabbath in May, Quarterly services will be held in the Methodist church.

Dungannon is kept pace with the times. During the past year it has become quite a bicycle town. We have no less than four bicycles, and as many amateur riders.

What came very nearly being a serious runaway happened on our streets last Friday evening. While Mr. Pierce, with two women and two or three children in his wagon, was driving along the street, his horses took fright. Mr. Pierce ran them into a fence and succeeded stopping their headlong career very shortly. Fortunately no person was hurt and very little damage was done.

Mr. Moses O'Brien lately bought the farm lately occupied by Mr. Echlin. Mr. S. E. Sanderson then bought Mr. O'Brien's claim; and one day last week Mr. O. and Mr. S. swapped residences.

A review of the changes that have taken place in our population since new year, may not be uninteresting. First, Messrs. Wilson & Bickle betook themselves to New Mexico, in the States, to engage in the fur-furishing business; next Mr. Alex. Stewart moved to Lucknow, his house was taken by Mr. Nichol, a new-comer. Mr. Leitch, Presbyterian minister, vacated his home for Point Edward; Mr. Bennett, of Knox College, fills his place in the pulpit, Mr. Munro, teacher, from Wawanosh, came to supply the place of Mr. W. Bickle.

Mr. Luther Brown moved from the village, and his house is occupied by Mr. Smith, from Wawanosh, Rev. Mr. Carris vacated the English parsonage and moved into the village while Mr. Robinson, of Wawanosh, occupies the parsonage; Mr. Girvin supplies the place of Mr. W. Wilson, tailor, Messrs. Most varieties of grapes, currants, gooseberries and roses will grow readily from cuttings.

Trees are more apt to winter-kill in dry, light or sandy soil than in medium heavy and moist. In such soils plant deep.

Do not allow a single bone to be wasting about your farm or yard. Bury them at the roots of grapevines or fruit trees. Dead dogs, cats or chickens should be utilized in the same way.

When roots are injured, as in transplanting, the broken part should be cut smooth and the top cut back in proportion to the roots retained. Dead spots of soil use and should always be taken out.

The so-called blanketed or Dutch cattle are a neat and moderate-sized breed. They are fine-boned, well built, and put their feet to good use. The broad band extending around the body is the chief source of attraction to the eye.

A pure Italian bee should have three distinct yellow bands or rings across the lower part of the abdomen, and a bright yellow hair over the body. The so-called Albino bees are a strain of the Italians, having white bands and hair. The latter are the finer workers of the two and easier handled.

A single thoroughbred male introduced in a farming section for purposes of improvement adds more wealth than any other investment that can be made. Though worth but very little in the shape of so many pounds of animal matter, the value of the progeny may reach away up in the thousands.

Mangold, turnips, beets and similar roots contain about 1 per cent of albuminoids, but, as nearly nine-tenths of their weight is water, this is equivalent to about 10 per cent of the dry matter. Straw contains from 2 to 4 per cent; good meadow hay, 10 per cent; clover hay, 12 per cent; and wheat, rye, barley, oats and corn from 10 to 13 per cent, and good linseed cake contains 30 per cent.

The Boston American Cultivator states that "the first and most important consideration in selecting a spot for the garden is the situation. The most suitable is a very gentle inclination toward the east or southeast, that it may have all the advantages of the morning sun. The next preferable exposure is south southwest; if sheltered from the north or northwest, so much the better. Always avoid, if possible, the neighborhood of large spreading trees, as their roots will exhaust the soil, and their shade injure the crops."

How to Grow Tomatoes.

The plants for early tomatoes can be started in boxes in the house, if intended for a family garden, but for hotel or restaurant use, a hot-bed is necessary. A good plan is to sow plenty of seed in the box, in order to insure a sufficient number of plants, and if they come up too thickly reduce them by thinning.

The soil for tomatoes should be rich, and of a kind that has been well cultivated and previously well manured. In putting the plants in the ground they should be as deep as possible, as they will better provide themselves with moisture should a dry spell occur, and, although the tomato is not partial to dryness, yet it is often injured by an excess of water. Last season we mentioned the case of a gardener who tried experiments with several kinds of tomatoes, using different methods in management. The most successful plan was one in which square holes of eighteen inches diameter and the same in depth were dug, the bottom filled with chips, stones and other useless material, and upon these placed to within six inches of the top, good stable manure. After covering the manure with earth the plants were placed in them and watered for a few days.

As they grew the hills were gradually made, and, in comparison with other plants cultivated differently the advantages from this system were very marked. The growth was accelerated by good drainage afforded by the loose material in the subsoil, which permitted all excess of water to pass downward, and yet retained capillary attraction during drought. The great quantity of manure directly under the plant could not be washed beyond reach of the plant, and created warmth during the earlier period of progress. Should fertilizers be used, a mixture of equal parts of superphosphate and saltpeter to five times their weight of wood ashes are excellent, and the plants are also partial to common salt.

Should it be desired to get them out in the open air in order to give them an early start, they can be protected with paper coverings at night until the frost is past. Watch for cut worms, and guard against the green worm, which eats them after they leaf. Mulching around the plant is beneficial, and weeds and grass must be kept down. Clean cultivation also keeps the soil loose and mellow and facilitates growth. The tomato is a plant that seems to recuperate from damage or injury very easily. It sends out new branches and blossoms all the season. While the fruit is ripening on one part it is beginning on another, and once commenced to bear it does not cease to bear until late in the season. It is therefore apparent that a great drain is made on the soil to furnish plant food, and it is essential, therefore, that not only manure be placed in the pits or hills, but that it also be worked into the surface soil around the plants.
