

FIVE HUNDRED PEOPLE LOSE THEIR LIVES IN THE RAINY RIVER HOLOCAUST

Inhabitants of Beaudette and Spooner, Minn., Flock for Refuge to Rainy River on the Canadian Side and All May Have Perished There—Terrible Scenes of Saturday Beggars Description—The Financial Losses Dwarf Into Insignificance Compared With the Suffering and Fatalities—Winnipeg Sends Aid to the Distressed Districts.

International Falls, Minn., Oct. 9.—Every settler in a district bounded by the Rainy River and the Lake of the Woods on the north to 25 miles south, and from Spooner and Beaudette east to Warroad west who is not accounted for is dead, according to the most conservative information. No one now estimates the dead at less than 200 and the estimates run as high as the appalling total of 1,000. Probably that is too high but it is certain that the dead will reach close to 500. All wires are down and not one train ran into Rainy River today or came from there so no information is obtainable. High winds are reported however, as through the Rainy River basin and it is feared that wind has caught the flames again and that what was left of the old town of Beaudette is now gone.

Further north it is feared that Rainy River with its 2,000 inhabitants and 3,000 refugees sleeping in store buildings and being fed at public charges, may have been unable to fight back the flames. Late today a special relief train arrived on the Minnesota and International railway bearing provisions for Rainy River and the Bemidji Company of Minnesota National Guards which will take charge of the distribution of supplies and the preservation of order. The burned district will be placed under martial law. Mayor Berg of International Falls has appointed a relief committee to arrange further care for nearly 300 refugees now quartered here. There are three typhoid cases among them, six men badly burned and it seemed all lost everything without exception. They are absolutely destitute.

Women Here Heroics.—The women have taken up under the terrible strain with wonderful fortitude and all stories from the first district are that the women and the men were the heroes. When the refugees fled in panic from the freight cars that took them from Rainy River they were crowded so close together that the men were choked so full that standing room was at a premium. They waited on trains themselves in.

Winnipeg Sends Aid.—Winnipeg, Oct. 9.—As a result of appeal from Mayor Moody of Warroad, Minnesota, Winnipeg municipal authorities this evening sent the assistant chief and a dozen firemen with two steam fire engines and other equipment via C.N.R. special, which arrived in Warroad about midnight. It is reported here in Winnipeg, an excellent authority that a shift in the wind today caused the flames to jump the Rainy River, destroyed the Rainy River Lumber Company's mills at Rainy River with many millions of feet of saw lumber.

and houses disappeared as if by magic. The cries of the women and children mingling with the desperate wails of the men who could not relieve them, was something terrible to witness. As the train pulled in there was an immediate scramble for cars, the women and children loaded inside while the men climbed up on the roof. In Spooner many people filled the pumping house at the Shellin Mathieu mills, some of them rushed into the river, waded deep, others sought safety in the new brick school which is located in the centre of a clearing some distance from the town. Both of these buildings escaped destruction. In Beaudette and Spooner only one life is lost. A faithful servant of Hon. Albert Berg, who, with his wife, are away, refused to leave the burning house as the flames were closing in.

On Canadian Side.—On the Canadian side of the river there seemed no danger until about six o'clock Saturday evening, when it was noticed that a small fire, which had been smouldering to the north-east across the railway grade from the business part of the town, had jumped the track and with the eddying whirlwind was approaching the town. Perhaps half the houses were burned but the wind shifted and held pretty steady in the north about that time, which enabled the fire fighters to make some headway.

Loss Will Be Million.—It is impossible to compute the loss, which will run into millions. Not a single house in the town of Beaudette, Spooner's mill and acre of poles of lumber remain. In Spooner there is not a house left standing. The sawmill escaped but the rest of the Shovel, in Mathieu plant was destroyed. This means probably thirty-six million feet of lumber in the yards burned up. In Beaudette with the exception of a few old buildings on the river front and the railway station there is not a building left standing, although the lumber sawmill, two miles down the river, was saved.

City Has Great Future.—"Your location is a magnificent one and with the development that is bound to come with the advent of railways and your fertile soil there can be no doubt of the future of your city," Mr. Grenfell is greatly impressed with Edmonton and has no hesitation about expressing his opinion that it is destined to be one of the great cities of the west.

ACQUITTED OF MURDER.—Case at Wetaskiwin Results in Verdict of Not Guilty Being Brought In.—Wetaskiwin, Oct. 8.—Serenus Amund was acquitted of the charge of murdering Lewis Goldman, by the jury this afternoon. The affair took place near Sedgewick some time on May 22. The evidence went to show that Goldman, who was the son-in-law of Amund, set upon the older man and beat him very badly. Amund then shot, killing Goldman.

MONTREAL CHEERS PREMIER LAURIER

Wildly Enthusiastic Reception Tendered the Prime Minister. Sir Wilfrid Deals With Varied Lines of Conservative Attack In Various Provinces. Completely Answers Nationalists' Outcry. Maintains Attitude Favorable To Reciprocity.

Montreal, Oct. 10.—Sir Wilfrid Laurier's appearance at Monument National here tonight was the occasion of as great and enthusiastic a demonstration as was ever accorded a public man in Canada. For hours before the Premier was billed to speak the great hall was packed to the doors with cheering thousands unable to gain admittance, lined the streets from Place Viger station to the National and cheered themselves hoarse as the Premier's carriage and its escort passed along.

A Tower of Babel.—The premier, after thanking the meeting and the organizers for the loyal reception, referred to the Conservative convention which was to have been held this year, but which had been abandoned. The premier declared the convention had been called off because of the divided counsels which rendered the convention committee meetings a tower of Babel. In the province of British Columbia, which I visited with a few of my army some time ago, a battle will be waged against the government on the question of Asiatic immigration. In the provinces of the west, Alberta, Manitoba and Saskatchewan, the question will be the fiscal policy and the lowering of the tariff will be demanded.

Declared as Pharisees.—Declaring that the internal disintegration of the Quebec Conservatives started long ago, the premier turned his attention to the Nationalists, describing them as Pharisees attacking any one a little bigger than themselves and defending their religion, which he said was the worship of themselves a monopoly of orthodoxy. The premier then dealt with the Nationalist complaints, that he changed from the Laurier of the Imperial conference of 1902—when he had declared he would never consent to this country falling into the abyss of Utopian militarism. The premier declared it was not the government that had changed.

BRITISHERS IMPRISONED.—NO PLAIN CLOTHES MEN.—Guatemala City, Oct. 10.—Foreigners are feeling in terror from Amalpa, Honduras, following the imprisonment of Englishmen and Americans and seizure of property by the city commander from the Americans and Englishmen is believed to be tantamount to condemnation to death. The joining of the township approaches, is accused of plotting a revolution. Anarchy prevails and the authorities are not attempting to prevent pillaging. The British consul at Amalpa has fled to San Salvador and has called asking for a cruiser. The commandants announced that they will burn the city. Brookings, secretary of state, E. Anderson, Pukwana, treasurer, Wm. A. Isidor, Hiron, auditor, Leroy Hixon, Maricita, commissioner of lands, Wm. Ross, Fort Pierre, attorney general, S. A. Cochrane, Aberdeen.

SUSPECT ARRESTED.—Sacramento, Oct. 11.—George Wallace was arrested at the Sacramento post office today while receiving letters which it is declared connect him with the Los Angeles Times dynamite American refugees are appealing for protection. He is supposed to be a lawyer and familiar with high explosives.

WITH THE FARMERS

GRAIN MARKET.

Oats—Farmers are still busy threshing, but a few have marketed their new crops. The elevators are offering \$2 3/4 per bush for old oats and \$2 1/2 for the best new oats. Wheat—The Alberta Milling Co. report that wheat is just beginning to move now since threshing is well under way. The dry weather early in the season followed by the late rains about harvest time gave the grain a hard stage this year, but it is turning out almost better than expected some time ago. It has escaped any frost except in a few cases of very late grain. Some over-anxious farmers cut on the green side and so their wheat is more affected by those rains at harvest time. What wheat has been offered has graded No. 2 and No. 3. Wheat coming from Vermillion and Lloydminster is grading well. No. 1 northern, 82. No. 2 northern, 77. No. 3 northern, 74. Campbell and Ottewill have their mill still shut down for repairs, which will not be completed for about a week or ten days yet. It is reported that winter wheat is yielding well from 35 to 40 bushels per acre. J. Y. Griffin and Co., Ltd., Edmonton, will pay the following prices from October 10th to October 15th, weighed off cars at Edmonton: Hogs—Choice quality hogs, 150 to 200 lbs., 7 1/2; roughs and heavies, 6 to 7c. You should buy them at least \$1.50 and under choice hogs. Will grade close on roughs and heavies. Cattle—Good fat steers, 1,200 lbs. and up, 3 1/2 to 4c; good fat steers, 1,000 to 1,200 lbs., 3 to 3 1/2c; extra fat heifers, 1,050 lbs. and up, 3 to 3 1/2c; medium quality fat heifers, 1,050 to 900 lbs., 2 1/2 to 3c. Extra good

fat cows, 1,100 lbs. and up, 2 1/2 to 3c; medium quality fat cows, 900 lbs. and up, 2 to 2 1/2c; bulls and stags, 2 to 2 1/2c. Light weight, poor, thin cattle not desirable. Calves—Good calves, 125 to 300 lbs., 4 to 4 1/2c; good calves, 200 to 300 lbs., 3 to 3 1/2c. Sheep—Choice killing sheep, 6 to 8 1/2c. Lambs—Choice killing lambs, 6 to 8 1/2c. CITY MARKET. Now that stacking is finished and the fine weather has made the roads good, there is an increase in the quantity of hay offered on the city market. Still the haymakers are standing out for the same old price, preferring to hold over till the next day rather than sell for less than its value. The increase in supply, however, is rather in the lower grades and the demand and price for timothy continues good. Timothy, \$20.00-\$25.00; upland hay, \$10.00 to \$15.00 per ton; green feed \$10.00 to \$15.00 per ton; green feed and oat sheaves, \$10.00 to \$15.00 per ton. Oats, 34 to 35c per bush. The price of potatoes ranges from 40 to 50c per bush, while a whole load might sell for 35c per bush. Beets and carrots were offered at 20c per lb., and turnips at 1c per lb. Cabbage and other green vegetables were also on the market. One farmer from Excelsior had some "aprons" which were sold by many to be the largest they had ever seen. Butter—First-class quality, 30c lb. Eggs—Strictly fresh, at 30c per doz. Live Stock Market at Edmonton. Hogs—150 to 200 lbs. weight, 7 1/2c; heavy sows, 8 to 10c. Cattle—Steers, 3 to 4c lb.; cows, 2 to 3c lb.; heifers, 2 1/2 to 3 1/2c. per lb.; bulls, 1 1/2 to 2 1/2c. lb.; calves, medium weight, 200 to 250 lbs., 4 to 4 1/2c.

British Columbia's Best Fruit Growing District

Are you aware of the profits to be made from fruit growing in British Columbia? The climate of this province and especially that of Okanagan district, is extremely suited to this industry. In fact this district is admitted to be the finest fruit growing section on the continent. Although this is comparatively a new industry, and only a few of the orchards are fully matured, the results have been highly satisfactory. When we consider results showing from \$500 to \$900 and even more per acre, from fully matured orchards, the inducements are great for the man who would make money pleasantly. Ten acres of Okanagan fruit land will produce more than a quarter section of wheat land.

CARLIN ORCHARDS

in the Upper Okanagan is the choicest tract in the valley, lies beautifully, fronts on railroad and river, requires no irrigation, excellent soil. We are offering it in 10 to 20 acre blocks at prices from \$100 to \$125 per acre, with cleared blocks running to \$345 per acre; small cash payment, balance in three years. This is a special offer made for the purpose of securing bona fide settlers. The owner is determined to have this portion of their holdings settled at once. These prices can never be duplicated in the province, and as will be found by comparison, are much lower than any other good land in the Okanagan Valley. We advise you to write at once for the extensive information regarding soil, climate, transportation and markets, which we have prepared after a study of Carlin Orchards. Selling Agents, Rogers, Black & McAlpine, 525 Pender Street, W. Vancouver B.C.

lb.; 250 lbs and up, 3 to 3 1/2c lb. Sheep—6 to 8 1/2c lb. Lambs, 6 to 8 1/2c lb. Produce Prices at Edmonton. Live poultry—Powl, 10 to 11c; spring chickens, 12c; turkeys, 15c; ducks, 15c; geese, 12c lb. Butter—No. 1 dairy, 21 to 25c, according to quality. Eggs, fresh, 25c doz. The Edmonton Produce Co., Ltd., 755 Fourth street, Edmonton, quote the following prices for farmers' produce: Selects, 25c doz.; No. 1, 23c doz.; No. 2, 19c per doz. Butter—No. 1 dairy, 21 to 22c lb.; No. 2 dairy, 19c lb. Other grades according to quality.

ABOUT THE FARMS.

Sheriff Robertson, who has been taking a trip through the country looking over conditions, told the Bulletin that down around Bruderheim the farmers appeared to be pretty well through stacking and the seed season had been standing rather thick in the fields, thus indicating a good crop. Out around Morinville stock threshing seemed to be about general and the threshers were busy. In some fields he noticed nearly a dozen teams hauling grain. C. J. Carter and Joe Carson, of Edmonton, have returned to the city after a combined business and pleasure trip through the districts to the north of Edmonton. They went as far north as Lily Lake and then westward to north of Bon Accord, returning through the Excelsior and Namao settlements. They report that chickens are plentiful. The farmers are through stacking and stock threshing is progressing well. It is now the time of the potato harvest and the spuds are turning out a good crop. In the Cover Bay district oats are yielding well, according to reports from the threshers from 40 bushels all the way up to 80 bushels per acre. The flow of grain to market will not become very rapid till after freeze up. Now that stacking is about done, farmers will no doubt take advantage of the fine weather to do all the fall plowing they can before freeze up. Some may even delay their threshing till then. Reports from Excelsior indicate that the threshed grain is turning out well. E. F. Samis, T. H. Gibson and Walter Lake have finished threshing. The three making a total of over 10,000 bushels of machine measure, which usually weighs out much heavier.

REGINA OPENS NEW MARKET.

The new market at Regina is to open this week and the first opening day the vendors are to have their free use. As there is a great need for such a market building at Edmonton a study of the proposed regulations at Regina should be of interest to Edmonton and specially to the adherents of the city council. The proposed Regina market regulations are as follows: "Some 15 stalls are to be rented at \$10 per month or \$1 per day, tables 10 cents per day. Out of season, 15c per team space, cold storage stalls 45c per month, when rented per day an advance payment of \$25 per day for the first week and \$15.00 per ton; green feed is required. Stalls will be rented to butchers, green grocers and florists and such other persons upon the approval of the city treasurer. No auctioneering will be permitted and no person allowed to conduct business in a loquacious manner. All goods for sale must be brought before noon and those not disposed of must be removed at the close of the market. The distribution of bills doggers or other advertisements is to be absolutely prohibited upon the market premises. The market clerk and weighmaster are to have powers of police and health officers, power to apprehend for any fraudulent dealing and to destroy unwholesome or tainted meat.

Special Market Day.

Every Saturday will be a special market day except when it falls upon a holiday when the day previous will be market day. From May to November the market is to be opened at seven o'clock and at eight o'clock in the winter. The articles permitted to be exposed for sale are: Butter, eggs, poultry, all kinds of green and dried fruit, vegetables in small quantities, cheese, tallow, lard, dried meats, and such other goods, provisions, and marketable commodities or articles as may be permitted to be so offered by the market clerk."

MONDAY'S GRAIN MARKETS.

Wheat. Open. Close. October, 97 1/2 97 1/2. November, 97 1/2 97 1/2. December, 95 1/2 95 1/2. Winnipeg cash market—Wheat: No. 1 northern, 98 1/2; No. 2 northern, 94 1/2; No. 3, 90; No. 4, 85; No. 5, 75 1/2; No. 6, 78 1/2; Feed: No. 1, 64; No. 2, 60; No. 3, 56; No. 4, 52; No. 5, 48; No. 6, 44; No. 7, 40; No. 8, 36; No. 9, 32; No. 10, 28; No. 11, 24; No. 12, 20; No. 13, 16; No. 14, 12; No. 15, 8; No. 16, 4; No. 17, 0; No. 18, 0; No. 19, 0; No. 20, 0. Flax: No. 1 N.W., 242; No. 1 Man., 240. American markets—Chicago. Wheat. Open. Close. December, 97 1/2 97 1/2. May, 109 1/2 109 1/2. July, 109 1/2 109 1/2. Minneapolis. December, 109 109 1/2. May, 112 112 1/2. Liverpool came lower. There were general rains in the Argentine. World's shipments showed a heavy increase and both Canadian and western yields were larger. United States government report was expected to be bearish and markets opened 08 and gradually worked lower. There was a better cash demand for all grades and in change in premiums or spreads. Some exporting houses were buyers, others appeared to be selling. The

break for the day was 3/4 to 1/2 for October, 1c for November, 1 1/2 for December and May. Oats were 0 1/2 to 1/2, and flax 1 to 2c. American markets were weaker, Chicago closing down 1/4 to 3/4 and Minneapolis 1/2 to 1c. The government report which came at 1:30 showed the following comparison with last year: Spring wheat, 233,476,000, last year, 232,208,000; winter wheat, 419,229,000, last year, 410,102,000; corn, 2,973,000, last year, 2,742,376. The spring wheat yield is an average of 11.8, against 11.9 last year. This report is bearish in tone as there is a gain of 769,000 over the total yield of last year, which was a bumper crop.

CHICAGO GRAIN MARKETS.

Chicago, Oct. 10.—Rain in Argentine, big world's shipments and an increase in ocean passage, all combined today to depress the wheat market, even in the face of an unexpected lessening of the visible supply. Closing prices showed a net loss of 3/4 to 1/2c. Other leading staples, too, finished on the down grade; corn 1/2 under Saturday, oats 1/4 to 1/2 under Saturday. Breaking of the Argentine drought gave the first downward shove to wheat. For a while the only sustaining influence was the fact that receipts in the northwest were light and that shorts were willing to take profits. Traders generally seemed disposed to await the government report. Foreign selling here, however, was in evidence, including some orders from Buenos Ayres. Bears held full possession of the pit until figures appeared making the supply of wheat in sight in the United States 69,000 bushels less than last week, as against an increase of 3,030,000 a year ago. This information led to considerable buying and rallied the market, but from the low point. The recovery was aided by complaints of dry weather in Kansas and Oklahoma. An easy tone nevertheless prevailed at the close. Fine weather and bearish foreign statistics were partly offset in the corn crowd by a decrease in the visible supply. Fluctuations were unusually narrow. Increased notices of consignments from the country weakened oats.

OLD COUNTRY LIVE STOCK.

Liverpool, Oct. 9.—John Rogers & Company report today that there was a very steady demand in the Birkenhead market and everything changed Saturday quotations being well maintained and one or two lots commanded a slightly higher figure. States steers from 12 1/2 to 14c; Canadian, from 12 1/2 to 13 1/2c; ranchers from 12 1/2 to 13 1/2c.

GLASGOW CATTLE PRICES.

Glasgow, Oct. 10.—Richard Watson & Ritchie report 317 cattle exportation on offer. Trade slower, especially for secondary and inferior quality. Top quality, 14 1/2c; secondary and inferior, 12c to 13 1/2c; bullocks, 13 1/2 to 15c.

TUESDAY'S GRAIN MARKETS.

Winnipeg, Oct. 11.—With more than a thirteen million bushel increase in the visible supply, further rains in the Argentine, and corn cables, the bears had it all their own way and pushed prices down on all options. There was a good demand for spot wheat of all contract grades, but buyers were shy of bills and in speciality, fearing possible delay on account of fires along the Canadian Northern. There was little possibility of export as the drop in Liverpool was marked and up to 14s. Exporters declared all prices out of line, but later as the market declined there was more possibility of trade. There was a very heavy liquidation this morning and wheat that was bought some weeks ago at \$1.00 was sold at 98 and a fraction. For the first time in weeks receipts exceeded those of last year. Oats were dull and lower a dflux was down 1 to 2c. The quotations were: Wheat. Open. Close. October, 97 1/2 97 1/2. November, 95 1/2 95 1/2. December, 95 1/2 95 1/2. May, 109 1/2 109 1/2. Oats. October, 32 1/2 31 1/2. December, 32 1/2 31 1/2. May, 36 35 1/2. Flax. October, 243 241. November, 242 241. December, 244 238. Cash markets—Wheat: No. 1 northern, 97; No. 2 northern, 93 1/2; No. 3 northern, 89 1/2; No. 4 northern, 84; No. 5 northern, 78 1/2; No. 6, 72 1/2; Feed: No. 1 northern, 64; No. 2 northern, 60; No. 3 northern, 56; No. 4 northern, 52; No. 5 northern, 48; No. 6 northern, 44; No. 7 northern, 40; No. 8 northern, 36; No. 9 northern, 32; No. 10 northern, 28; No. 11 northern, 24; No. 12 northern, 20; No. 13 northern, 16; No. 14 northern, 12; No. 15 northern, 8; No. 16 northern, 4; No. 17 northern, 0; No. 18 northern, 0; No. 19 northern, 0; No. 20 northern, 0. Flax: No. 1 N.W., 242; No. 1 Man., 240.

C. F. HAYES, Business Manager.

THURSDAY, OCTOBER 13, 1910.

THE MAYORALTY.

Municipal elections are approaching and the field is being more or less canvassed for prospective candidates for the mayoralty and for the four places to be vacated by time-expired aldermen. So far the survey has not resulted in many finds. No one has definitely announced his intention of running for either office, and comparatively few names have got before the public by those circuitous routes commonly adopted by more modest aspirants who wish to intimate that their talents are at the public service. The question as yet is not which candidates, but where to look for candidates. There are reasons for thinking we would do well at this time to observe the more or less commonly recognized rule of looking to the council for a mayor. This rule is fairly well adhered to in cities where the commissioner form of government has not been adopted. Though departed during recent years it was the invariable rule during the earlier years of Edmonton as a city, and its advantages under a system of civic government such as ours are quite apparent. Where the mayor is simply the presiding head of the council, and where the council have little or nothing to do with the detailed conduct of civic business it may not be necessary that the occupant of the position should bring to the office an intimate personal knowledge with the course of affairs, nor a close understanding of recent municipal history. But where the head of the council is also the chairman of the board of directors in whose hands is placed complete management and control of civic business it must be that the man who comes to the position with a fairly thorough personal understanding of the run of affairs past and present has an advantage and other things equal should be able to give the city much better service than one not so equipped. Especially is this so where the civic corporation, as in Edmonton, owns the public services, where, in fact, none of the large industrial enterprises, none of them the easiest to manage, representing an expenditure of hundreds of thousands of dollars, employing hundreds of men, and having to do intimately with the courts, can be financed and satisfaction of the people added to the ordinary duties devolving upon the executive branch, and where the mayor, because he is mayor, is obliged to shoulder personal responsibility for the smooth, proper and economical working of all or any of them. Most men with no personal knowledge of the street railway business and with some regard for their reputations would hesitate about accepting an offer from a traction company in which they hold stock to become the chairman of its board of management. But the mayor of Edmonton is the chairman of a board of directors who have to manage not only a street railway system, but an electric lighting system, a telephone system, a waterworks and sewage system, all of them growing rapidly and subject to the difficulties incident to their expansion; besides conducting in detail the whole mass of current and other common civic business. Clearly if such a man can bring to his task the knowledge acquired by years of experience in the council, board, his time is likely to be more satisfactory, alike to himself and to the ratepayers. A somewhat recent change, too, has been made in the management of civic business during the year, and a change which makes it more desirable than formerly that the head of the commissioners should be well versed in the civic business. The council have this year undertaken to establish directly the system which the charter years ago established in theory. They have thrown upon the commissioners, as was never done before, the whole burden of the practical direction of the public enterprises, and of the general business. In theory this was done when the charter was adopted. In practice it was not done. The requirements and provisions of the charter to the contrary, the members continue year after year to trespass far and continuously on the domain of the commissioners, to spend hours reading communications about titles or matters of detail to receive on business judgment on matters which might with every security and advantage have been left to the executive body or to the operating heads of the departments. This the council during the year back is one of the most common forms of muscular rheumatism. A few applications of Chamberlain's Kidney Pills will give relief. For sale by all dealers.

present year have sought to remedy and to bring the management of things more into line with the intent of the charter and the rules of business. Necessarily, this means that the responsibility of the mayor now is greater than it has been before, and his need of experience correspondingly greater. This considered it would be well if Mayor Lee could be continued in office for another term, or failing this, that he should be succeeded by some one who has had a seat at the council board.

THE PLAINTIFFS' PROTEST AGAINST SETTLEMENT.

Uncertainty has existed as to whether a province has the legal power to regulate and control a joint stock company chartered by the Parliament of Canada. To settle the point the Dominion Government has asked the Supreme Court for an opinion. This opinion, it is explained, would not have the force of a judgment but would be for the information and guidance of the Governor-General in council.

Some of the provincial authorities however are taking the peculiar position that they do not want an interpretation of the law from the Supreme Court and are appealing to the court to decline to hear argument on the case. That the court will accede to this protest against the judicial investigation of a disputed constitutional point is hardly probable, especially as the protest is lodged by the parties who made the dispute. But that the protest is lodged is sufficient indication of the attitude and aim of the provincials, and shows both the attitude and aim to be anything but creditable to themselves or to the interest of the public.

The uncertainty which has existed on this matter has been turned to political ends by those provincial politicians whose chief means of attaining power is to provoke a quarrel with the Dominion, or to pretend to have such a quarrel. Anxious to pose as the champions of their bailiwicks against some supposed injustice on the part of the constitution of the Dominion for points where the respective powers of the provincial and federal authorities have not been explicitly defined, and wherever such point has been discovered they have been promptly raised that the federal government and parliament were trespassing on the undoubted rights and privileges of the provincial administrations and legislatures.

On one of these points has the outcry been more lusty than on that of the incorporation of companies by the federal parliament. Rightly or wrongly, the belligerent provincials have set up the claim that they and they alone hold the power of fixing the conditions and regulations by which companies operating in their respective provinces shall be governed, and whether the charters under which they operate be derived from the local legislatures or from the federal parliament. This claim advanced, it has been easy enough to assail the Dominion parliament and the infringement of provincial rights when ever parliament has presumed to legislate in the matter of companies on business in one of the provinces.

No opportunity of the kind has been lost by those provincial governments whose party name happens to differ from that of the Federal government. It has now come to be expected that when parliament grants incorporation to a company to do business of any kind in one of these provinces, the province's ministers and their supporters shall fling into its nostrils, shall arise the war whoop, order the drums to beat and the bugles to call to arms; shall don their war-dress and make pilgrimages about the tribal domains, declaiming about the wrongs of the past, and their powers and the trespass upon their rights. Incidentally of course they assure the intelligent electors that they and they alone are the defenders of the local authority and that only in their own return to power at the next election by an overwhelming majority they any hope of checking the ravages of the invader.

These same gentlemen are the ones who, now protesting against the Supreme Court expressing an opinion as to whether the regulation of companies is legally the business of the Dominion or the provinces. Nothing further is necessary as to the fairness of their attitude than the end they have in view. Having themselves given judgment on a constitutional point, and made that judgment the basis for political action they protest against the judges being given a chance to expound the constitution as it affects the case. Who can doubt that the reason of their protest is a fear that the judges would decide against them and thus destroy their chance of further imposing wrong notions on the political opponents?

THE PROBLEM OF THE "BACKWOODS SETTLEMENT."

The hoxwood in the Rainy River country, on both sides of the boundary, can hardly fail to stir the two nations to more active measures for the prevention of forest fires. It is an awful reminder that the preservation of the timber, however valuable it may be, is not the only nor the most important object to be attained, but that thousands of lives in the newer portions of the continent are at the mercy of the elements should fire once get well started in the forests which surround them. The timber, moreover, humanity, as well as economy, demands that what can be done to prevent these conflagrations be done.

The Rainy River country is one in which preventive measures would be supposed to have reduced the danger of fire to a minimum. The timber is very valuable and has been known to be valuable for many years. It is located in the heart of the continent and within easy reach of those centres where most has been heard about the conservation of the forests.

MUNICIPAL STOCK YARDS.

The proposal to establish municipal stock yards in Edmonton is an excellent one. The yards would provide a meeting place for the stock grower on one hand and the local butcher, the packer and the export dealer on the other. Instead of waiting at home until a buyer from some firm happened along, as he does now, the farmer could expose his stock for sale where buyers would congregate and where the best possible prices would be obtained. The facility provided, and the encouragement given to stock-growing, would draw business to the city and would create new business from which the city would benefit. The farmer who came here with stock to sell would purchase his supplies from the local merchants, while the better selling conditions would encourage farmers to go into stock-growing more largely. Being taken from the farmer, the yard could be managed solely in the interests of trade and kept free from influences which elsewhere have given rise to grievances on the part of stock-growers.

A CAUSE FOR GRATITUDE.

The terms of the surrender were unconditional other than a request from Deitz that he be protected from the law. He is the fourteen-year-old daughter, represented the family side in the final peace negotiations. A white flag now replaces the Stars and Stripes which hoisted defiantly above the shack until the jailbirds were served with their bread and salt. Sixty armed deputies, grizzled men of the woods, who have lain in the underbrush surrounding Thrapple for a week, returned to town, taking their guns and genuinely glad that the siege is over.

BOLD HOLD UP IN EAST END OF VANCOUVER.

Two Masked and Armed Robbers Entered Bank, Lock Manager and His Assistant in the Vault, and Escaped With \$500. Vancouver, Oct. 9.—Police officers have just been securing the east end of the city in hopes of finding some clue to the perpetrators of a bold hold-up of a branch of the Royal Bank, late last night. The bank was situated on Park drive, in Grandview, an east end suburb.

IRELAND HAS FOUGHT WELL FOR THE LAND.

Toronto Telegram.—Three hundred thousand out of the five hundred thousand Irish farmers now own their own land. "Ireland has fought well for the land," said T. P. O'Connor, M. P., in an interview yesterday. Ireland's advance towards the solution of the land problem is an eloquent exemplification of the truth of Mr. P. W. Ellis' poem: "The wheel that squeals the loudest is the wheel that gets the grease."

IN LIGHTER VEIN.

Harper's—A gentleman formerly attached to the American embassy at London lately told me an old country story. The business it is to find fault with visitors around the churchyard used to stop at one tombstone and say: "This is the tomb of 'Energy' O'Connell, 'Eloquence' O'Connell, 'Eloquence' O'Connell, 'Eloquence' O'Connell." "Dear me! That's rather a lot, isn't it?"

Washington Star—Mischa Elman, the boy violinist, told of his last visit to New York. A story of his early childhood.

When I was very small indeed, he said, I played at a reception at a Russian prince's and, for an arch of seven feet, I rattled on Behov's Kreutzer Sonata finely. This sonata, you know, has its several long and impressive rests. Well, in one of those rests a merely old lady leaned forward, patted my shoulder and said: "Play something you know, dear."

Harper's—The curly-haired little sprite of the house came running to her father in the study, and throwing her arms about his neck, whispered confidentially in his ear: "Oh, papa, it's raining!"

Papa was writing on a subject that occupied his mind for the exclusion of matters aside, so he said, rather sharply, "Well, let it rain."

Yes, papa; I was going to, was her quick response. Philadelphia Ledger—I read that a chauffeur had been blinded by an accident. Poor fellow. Wonder if it will make any difference in his style of driving.

The world-famed district of B.C. Positively the greatest bargain in the whole Kananagan. Prices the lowest; terms the most remarkable. Any acreage, small holdings the specialty, 10 acres to 20,000 acres, \$50 per acre in small tracts. Reasonable rates on larger tracts. Special inducements to Colonization Companies and men of capital seeking safe, reliable conservative investment. Property exchanged for improved farms and city property of high commercial value.

FORBES-ROBERTSON IS BACK. 100th Performance of "The Passing of Third Floor Back." New York, Oct. 10.—Forbes-Robertson and his English company re-appeared last night at Maxine Elliott's theatre in Jerome K. Jerome's play, "The Passing of Third Floor Back." The performance was the one-hundredth altogether in America and England, and in the celebration of it cards containing excerpts from the play which can be used as sunshine raincoats any day in any month were given as souvenirs.

Wishes to Return to Prison. After Serving 20 Years Released on Parole but Petitions That it be Revoked. Madison, Wis., Oct. 10.—Bidding adieu to freedom forever, Mrs. Theresa Steinhauser has of her own

Colonel Roosevelt Takes Up Aviation. St. Louis, Mo., Oct. 11.—Colonel Roosevelt went up with Capt. Hoxway at four o'clock yesterday and made three laps of the field. He was in the air three minutes and twenty seconds, and landed easily.

GET THIS ENERGETIC ENGINE

PUMPS 800 TO 1000 GALLONS PER HOUR. Gives Fire Protection! Runs Light Machines! That's the actual, absolute fact. Pumps abundant water for stock and domestic use. Runs all kinds of hand-power machines, such as cream separators, churns, fanning mills, feed cutters, grindstones. And it is always on guard against fire. Throws a stream as high as a house or barn, or 50 feet on the level. Beats any "bucket brigade!" Gives protection day and night. ALL COMPLETE AS IT COMES TO YOU. Nothing to build—no "extras" to buy. It is a complete Portable Power Plant. Gets busy inside of 15 minutes after you get it. Fits any pump. Out-pumps largest windmills! Air-cooled, without fans or attachments. As high grade as the best automobile engine. Starts or stops on the instant. Cannot freeze or over-heat. A child can operate it. Send For Free Book This Very Day. We haven't exaggerated the facts. Send at once for extraordinarily interesting book. Get acquainted with the little Farm Pump Engine!

Thousands of catalogues have been mailed these past weeks. If your post office has not received its supply or if no catalogue came to your address write at once. There is an Eaton Catalogue here for you and you should see it before planning your Fall and Winter shopping. News have we crowded so many genuine economies into our catalogue. Every page has its message of acceptable value.

THE T. EATON CO LIMITED

GREAT MANY BUFFALO ARE STILL IN THE HILLS

Last of Flathead Herd For Alberta Will Not Be Secured Till December—Thirty-one of the Remaining Hundred Are Now in Corral.

Missoula, Montana, Oct. 11.—Howard Douglas, commissioner of Canadian Dominion parks, has reached Missoula from Edmonton, Alta., to make final arrangements for the transportation of another portion of the Michael Pablo buffalo herd to the Canadian government. This contingent is now on the wagons on route to Ravalli, where the animals will be loaded on Northern Pacific cars, to be moved immediately to Sandpoint, where the cars will be transferred for transportation to the north country.

Thirty-one are rounded up. Speaking of the present shipment, Mr. Douglas last night said he had been advised that thirty-one buffaloes had been rounded up and would be loaded in two cars for transportation as soon as he reached Ravalli, the shipping point. The last shipment was in June, when it was expected that after a month's time had elapsed the scattered herd would have collected and the rounding-up process could again be attempted. The men in charge figured well, but their plans were frustrated when the forest fire attacked the range again, driving the animals out of territory where they could be readily handled. Besides the thirty-one bison now on wagons there are about 100 animals at large. These will be rounded up in December and forwarded to the Canadian government to close the contract entered into between the Dominion representatives and Michael Pablo in 1908, which involved all the buffaloes forming the Pablo herd.

Much Difficulty Experienced. "The cowboys have experienced a lot of difficulty in rounding up this last lot," said Mr. Douglas while discussing the closing shipment of Pablo buffaloes. "There are about 25 old outlaw bulls, which have not only charged the ponies ridden by the men engaged in gathering the scattered herd together, but have even driven the men themselves to seek cover. These animals will be shot and then the remaining buffaloes will be rounded up to make a shipment in December."

Last June, after a long fight with the herd, 45 animals were finally loaded on the cars and sent north. The original shipment, made in 1908, consisted of about 200 buffaloes, and since that time consignments have been made from the original herd until there are now about 700 of the Pablo stock sheltered in Canadian parks. The present bunch will go direct to Lamont park, some 40 miles east of Edmonton. The big bunch is located in the new buffalo park about 127 miles east of Edmonton. In this park there are about 110,000 acres of fenced land.

Poisoned by Mistake. Fort William, Ont., Oct. 11.—In a coffin they had made with their own hands Provincial Constables B. White and Herbert brought to the city tonight the body of Louis Pokarney, forty-two years of age, who died of strychnine poisoning at Lake Superior Junction on Sunday. Deceased mistook poison for another drug.

The best plaster. A piece of flanne dampened with Chamberlain's Lintment and bound on over the affected parts is superior to a plaster and costs only one tenth as much. For sale by all dealers.

ROOSEVELT TOURING SOUTH

Another Spectacular Tour Begins. Is It Presidential Boom?

Lynchburg, Va., Oct. 11.—"I feel in perfectly fine trim for this trip," remarked Colonel Theodore Roosevelt vigorously this morning as the train carrying his special car was whirled on its way to Bristol, Tenn. When the ex-President left New York yesterday afternoon he felt some discomfort from his throat which has bothered him since his whirlwind trip through the West.

The lion hunter will make eight big speeches during the trip and probably one hundred brief talks to the rear platform of his special car. He has looked eagerly forward to the journey through the South, for he has been led to understand that he has lost none of his popularity with its people that they showed while he was President.

If the Western trip demonstrated anything as to sentiment for Roosevelt in 1912, it is said that this tour that they showed while he was President.

Col. Roosevelt's speech at Bristol, before citizens of the town under the auspices of the Board of Trade, will be non-political. He will dwell upon civic virtues and the importance of being earnest in decent politics. After leaving Bristol, where he stops two hours, he will go to Knoxville to deliver an address at the Appalachian fair.

PEACE NOW REIGNS ON LISBON STREETS

Great Britain Asked to Officially Recognize the New Regime—Between One Hundred and a Hundred and Fifty Killed in Revolution.

TO KEEP EXPELLED MONKS FROM ITALY. Rome, Oct. 11.—A semi-official communication states that the Italian government has adopted measures to prevent the religious orders, expelled from Portugal, from settling in Italy.

Lisbon, Oct. 11.—Although the city remains under martial law pending a reorganization of the administration, the soldiers have been gradually withdrawn from the streets. Hardly any more to be seen today. The people have resumed their business and perfect tranquility prevails. Several churches were reopened this morning. Guards have been supplied to these establishments of religious orders which still fly foreign flags.

The government has announced that the Irish Dominican fathers and nuns, who have conducted a school here for many years, will be exempted from the order of expulsion. This step doubtless is due to the desire of the republicans to keep on good terms with Great Britain.

It is said that Foreign Minister Machado has requested Great Britain to grant immediate recognition to the new regime, ostensibly so that it will be in a position to communicate its program to the British government.

The casualty list from the recent fighting falls below the most moderate of previous estimates. The official estimate gives the number killed between one hundred and one hundred and fifty. Unofficial estimates place the number still lower. The provisional government has taken possession of the houses of several religious bodies. No opposition was met with.

The contents were inventoried and the houses sealed. It has been decided to intensify a check enforcing compulsory military service.

ASIATIC CHOLERA IS COMING NEARER HOME

Quebec Medical Authorities Urge Upon Dominion Government Necessity of Taking Greater Precautions—First Case Appears in England.

Ottawa, Oct. 11.—The necessity of taking additional precautions to prevent the introduction of Asiatic cholera into Canada was this afternoon emphasized upon Hon. Sydney Fisher by an important deputation from Quebec. It was composed of Dr. J. A. Beaudet, medical health inspector of the provincial board of health; Dr. A. Jobin, chairman of the board of health of the city of Quebec, and Dr. P. Cattellier, medical health officer of Quebec City.

London, Oct. 11.—The first case of Asiatic cholera has appeared in England. A man who lived in one of the Rowton houses, a series of poor man's hotels, died in a public hospital on Friday. The directors of the hospital ascertained that it was a virulent case.

Rome, Oct. 11.—During the last twenty-four hours twenty-two new cases of cholera were reported with one death.

A White Australia. Melbourne, Australia, Oct. 11.—The Federal parliament unanimously passed bills through all stages making for a permanent white Australia, including sugar bounties.

G.T.P. GRADERS ARE NEARING CALGARY

They Will Be Up to Calgary This Fall, But Road Will Not Likely Be In City for at Least Twelve Months.

Calgary, Oct. 11.—That G.T.P. grading teams were only sixteen miles from Calgary, and that the line would be fully graded as far as the limits of the city within a very few months, was the information given by E. Adams of Canmore, right-of-way agent of the G.T.P., who was in the city last night.

In the vicinity of Irricana the G.T.P. had met with a slight check, he said, owing to the water table being in throwing a mile long spur across the prairie which chanced to cut their projected right-of-way. Accordingly the route plans had to be altered to allow of the new transcontinental passing Irricana at the east instead of to the west as at first proposed.

Red Deer Bridge Started. The construction of the Red Deer river bridge which will be two-thirds of a mile long and 127 feet high, was started last week. All the contracts have been let, but Mr. Adams thinks that it will be at least a year before it is completed quite easily.

He said that the route of the railroad into Calgary had not been decided upon yet, but it would be some considerable time yet before the line would be ready to enter the city.

Mr. Adams prophesies that Buffalo, Lake, Delburn, Treherne and Trochu will be places of the future on the G.T.P. in the district.

MURDER TRIALS OF DEITZ FAMILY BEGUN

But the Cases Are Adjournd in Order That John Deitz May Secure a Lawyer—Resumes Oct. 18th.

Hayward, Wis., Oct. 11.—Laughing and apparently not having a care in the world, John Deitz, the Communist Dan defender, and more recently defender of his log cabin home near Winter against the onslaught of deputized police, was today brought to the shooting of a resident of Winter some time ago, with Leslie Deitz, his son, and Harold Deitz, his wife, was arraigned in the municipal court here today before Judge Riordan. The first charges against them was the murder of a woman named Mary during the battle about the cabin.

"Are you ready for your examination," asked the judge, and Deitz answered, "No sir, I wish to secure my attorney to whom I have already sent word."

Accordingly the case was adjourned until October 18th.

REGARD SEARCH AS FUTILE

Los Angeles, Oct. 10.—That the search for the Times dynamiters on the coast is practically regarded as futile by the police was evidenced today, when it became known that the detective bureau had sent to all important cities of the world descriptions of suspected persons and relatives of their arrest. One more body was taken from the Times ruins today. It was not identified.

A DRY SADDLE WHEN IT RAINS IF YOU WEAR TOWER'S POMMEL SLICKER

THE NEW FLAVOR MAPLEINE

A flavor used the same as lemon or vanilla. By dissolving granulated sugar in water and adding Mapleine, a delicious syrup is made and a syrup better than maple. Mapleine is sold by grocery stores and 5c for 2 oz. bottle and recipe book. Crescent Mfg. Co., Seattle, Wn.

Billousness is due to a disordered condition of the stomach. Chamberlain's Tablets are essentially a stomach medicine, intended especially to act on that organ; to cleanse it, strengthen it, tone and invigorate it to regulate the liver and to banish biliousness positively and effectually. For sale by all dealers.

U. S. SUPREME COURT. BUSINESS CHANCES.

READJUSTMENT OF CASES Owing to Failure to Have a Full Bench. Washington, Oct. 11.—Because of the failure to have a full bench in the Supreme Court of the United States, a general readjustment of important cases was made today. It was the first business day of the eight months term. The Standard Oil and the Tobacco Corporation suits under the Sherman Anti-Trust Law were prepared for re-hearing from November 14th to January 3rd. The corporation tax cases were set for argument January 3rd. So were the cases involving the question of the correct penalty to be imposed on violators of the twenty-eight hour law and the interpretation of the National Pure Food and Drug Act.
