## Probable Advance of General Middleton To-Day.

## THE NORTHGOTE ARRIVED.

## A Letter Said to Have Been Written by Riel.

## THE WIRES DOWN AGAIN.

## Loyal Halfbreeds Threatened With Death.

## ANOTHER PRIEST KILLED

## A Present From the Princess Louise.

## THE BRUTALITY OF BIG BEAR.

## The Valkyrie and Battalion - Their Colonel Now Dead - Arrival at Winnipeg of the Mounted Police Recruits - Strange Resolves of the Government - Interview with Riel.

## Winnipeg, Man., May 2.—One hundred and fifty recruits of the mounted police in charge of Sergt. Hoodle arrived this evening at 10 o'clock, having left Toronto at noon on Thursday. They leave in the morning for Regina, where they will be housed and equipped.

## A despatch has just been received from the west announcing that a rise of the water in the Saskatchewan has enabled the steamer Northcote to move off the sandbar and she is expected to reach Clark's Crossing by noon to-morrow with the Midland battalion.

## The Governor-General's Body Guard, Toronto, are also expected to reach Clark's Crossing to-morrow night.

## Riel has issued a proclamation to the halfbreeds who refuse to come into camp to do so at once, or he will murder them.

## A large supply of rifles and ammunition arrived last night at Fort Qu'Appelle and west north this morning, under escort of the 12th and 35th battalions, under command of Major Burnett, as far as Houghton, where they will be met by Lieut.-Col. Turnbull.

## The wires are down again between Fort Qu'Appelle and the Touchwood hills.

## Big Bear's Brutality.

## BATTLEFORD, May 2.—Big Bear has now a large camp near Sounding Lake. A man he passed it says that they have hundreds of cattle corralled near by, and are busy with war dances and general rejoicing.

## Father Lacombe's description of the Frog Lake tragedy is in the Outlook and Delaney was invited to a party, but at that time a word was spoken. The priest went to say prayers for the dead, but they were not dead, when he was shot, and his assistant who went to his rescue was also shot. The others fled to the priest's house, but were put to death and Mrs. Delaney made a prisoner. The bodies were carried into the house, where coal oil was poured upon them, and everything was burnt.

## Relief of Edmonton.

## EDMONTON, May 2.—Gen. Strange with the advance guard has arrived. The people gave him a most enthusiastic welcome. The infantry (55th and 9th) will garison Fort Saskatchewan and Edmonton, while a large number of mounted men will make forced marches to Eastwood, along both banks of the Saskatchewan. Gen. Strange expects to have this force moving by Monday next.

## WINNIPEG, May 2.—The latest news from the front is contained in the following despatch received by Chief Commissioner Whyte this morning. It came by courier from Humboldt, the wire being down west of that point:

## FISH CREEK, May 2.—Thanks for all you are doing. The steamer has stuck six miles from here below the ice. I have sent five men with teams to empty her. Your idea of working on the river is very good, and I hope you will see it through. I have sent four men to see how the ice is. I have sent four men to see how the ice is.

Northwest. It is a rebel sheet, covantly sneering at the troops. One article purports to be the report of Gen. Dumont, the rebel leader, and gives an account of his battle with Middleton, in which he claims he had only fifty men in the recent fight, and is, which he claims to have placed sixty of the soldiers hors du combat. The paper compares Riel with the late Sir George Cartier, and generally sounds the tones of the recent rebellious meetings which gave the first notes of sympathy with the rebels.

The Death of Col. Kennedy. Winnipeg, May 3.—Rev. C. E. Whitcombe of Toronto, and Rev. W. S. Ball of Guelph, clergymen from Ontario, arrived in the city this morning en route west to join the troops. They leave to-morrow morning.

Gloom was cast over the city by the announcement of the death of Col. Kennedy of the 90th battalion rifles now on service with Gen. Middleton. He expected to join his regiment in the Northwest about May 20. Col. Kennedy was the first Mayor of Winnipeg. He leaves a widow and large family to mourn his demise. He had two sons at the front in the 90th battalion, one in the field battery and another in the 1st battalion of military school. The eldest is not yet 21 years of age.

There is no news from the west since yesterday, an account of the wires being down between Humboldt and Clarke's Crossing.

Great anxiety prevails here as to whether the steamer Northcote reached her destination at day noon or not. If the steamer has reached Middleton, will resume his march upon the rebel stronghold at Batoche to-morrow.

Scouting for Rebels. WINNIPEG, May 3.—A courier arrived at Humboldt to-day with a despatch from Gen. Middleton dated Fish Creek, May 1. Middleton says he has secured for and been unable to find any signs of the enemy. All the houses up to Gabriel's crossing north are vacant and believed the occupants have fled to the west. Every one is in excellent spirits and anxious to advance.

A Letter Alleged to be from Riel. MONTREAL, May 3.—The following letter purporting to have come from Riel is published in a St. Hyacinthe newspaper:

BATOUCHE, April 15, 1885. Sir, I have just learned from one of my messengers that St. Hyacinthe is organizing for 8000 men and that they are preparing for your departure. I have written for you for your country, but I will ask you to sign a little paper for me to take with me. If we have taken up arms we are not the enemy. We are only men who want to live in peace. Without doubt your united soldiers will never fire a shot at us. We are only men who want to live in peace. Without doubt your united soldiers will never fire a shot at us.

Major Walsh is at Fort Qu'Appelle doing good work with the Indians and halfbreeds. He has a large stock of goods, valued at \$250 a bush, has 800 a ton and tough beef 25 cents per pound.

Col. Deacon of Lindsay, is in command of the detachment (company) of the same battalion at Swift Current.

Col. Oulmet has been taken seriously ill at Calgary and will be unable to join his regiment in the present Russian advance.

The alleged rising at Fort Qu'Appelle appears to have been nothing more than a halfbreeds and Indians on a drunk.

The bodies of Lieut. Swaine and Private Ferguson are being taken to Winnipeg for burial. They will be interred with Masonic honors.

Sergeant Williams, when with his brother-in-law Mr. Rhy, in this city, played in the Toronto lacrosse club and made fair money. He is a detachment of the Fusiliers is to be stationed at Moose Jaw, which is to be a new base of supplies by trail for Clark's Crossing and the Touchwood hills.

A courier from Prince Albert states that Capt. Moore, who was wounded in the Duck Lake fight, is not doing so well and will not be able to return to his regiment.

Lieut. Col. Williams, Major Hughes, and four companies of the right wing with Gatling guns, ammunition, stores, etc., are on their way to the Touchwood hills.

Our despatches this morning indicate that the steamer is now adrift and probably has reached Gen. Middleton's camp the river having risen seven inches.

Major Smith of Kingston, Deputy-Sergeant-at-arms in the house of commons, has been killed in the Touchwood hills.

In addition to many other necessities that his liege the Holland started sending the members of their battalion a complete set of haversacks. The men will be glad to appreciate this thoughtful gift.

The halfbreeds in the Turtle mountains are giving more attention to hauling buffalo bones down to Devil's lake than to siding the rebel war. Most parts of that territory the bones have about all been gathered.

Mr. Gallagher, who has the contract for supplying the troops at the Touchwood hills of one hundred cattle north from Qu'Appelle on Tuesday last. They will be taken to Clark's Crossing before the middle of this week.

A large supply of rifles and ammunition arrived at Fort Qu'Appelle Friday night, an escort of the 12th and 35th under the command of Major Burnett, as far as Houghton, where they will be met by Lieut.-Col. Turnbull.

Would not be a good plan to have the Northcote patrol the river at Batoche? It could easily be fitted up with quadruple sets of bay holes or other protection against bullets, and armed with two companies of infantry and one rifle cannon, and it is out of the way of the rebels.

Capt. Swainford, commissary of the Northwest field force, writes to the ladies of Winnipeg: "Would suggest that they send bed linen, night shirts, pillows, and anything that would be good for sick men, such as jellies, wines, brandies, or candles, or anything that would, in the ladies' line, suit a sick man. I can send them, and will get them to the front as quickly as possible."

A party of medical men under Deputy Surgeon-General, J. J. Dickson, of Montreal, arrived at Winnipeg on Saturday morning, and dressers Schmidt and White of Montreal, and McDonald and Reo of Toronto, arrived at Winnipeg on Saturday morning, and dressers Schmidt and White of Montreal, and McDonald and Reo of Toronto, arrived at Winnipeg on Saturday morning.

The last letter written by Alok Ferguson, who was killed in the Touchwood hills, states that he was writing to the premier's son: "The pass was good through was deep, narrow and muddy, and the walking was very hard. It is about one and a half miles up the hill. High John Macdonald walked part of the way with me. He was terribly broken up when he reached the top. He lay down in a wagon, went to sleep and stayed there till we got where we now are."

Some Suggestions. We would suggest that every officer of the Canadian active militia should be required to furnish himself with a good field glass. If the scouts now with Gen. Middleton each had one their efficiency would be much improved. From the accounts of Fish Creek fight one would suppose our troops were within easy range of the rebels before the latter were seen.

Instead of a sack as our infantry officers now wear we would suggest that a white shoulder glass with telescope or field glass case be worn. In times of peace "eye

water" or other necessities might be stored in the case, but in time of active service every one should be obliged to have a glass.

We venture the assertion that there is not an officer now in the northwest who could not do more marches, wear a sack, and have a good field glass than with his sword.

Dr. Willoughby's Interview with Riel. Dr. Willoughby, of Saskatoon, in a letter gives the following version of his interview with Riel:

"On entering the house I approached Riel and shook hands with him, remarking that he pleased to meet him once more. He replied, 'It is a pleasure, doctor, for me to meet with you again.' After a few casual remarks, Riel soon turned the conversation and paced the floor in front of me. At that moment about seventy armed men drove up to the door. Can you imagine my feelings? I had revolvers, and decided to let them take me quietly. Welsh sat with his my pistol in his hand, and I was going to let them take me quietly. Welsh sat with his my pistol in his hand, and I was going to let them take me quietly.

"I also have my police whom you would like to see. Last night they were with me. 'Doctor, don't kneel; obey your own conscience.' Prayer lasted about three-quarters of an hour, after which we took a little rest."

That night Welsh and I became deeply sick with every symptom of poisoning. Riel was very kind and gave me a cup of milk. The affair looked suspicious."

The wounded have arrived at Saskatoon and are doing well.

## IMPROVEMENT IN THE ANGLO-RUSSIAN OUTLOOK.

De Giers Asks for Delay—Earl Granville Replies—The czarina's Influence—Gen. Lamaden to be sacrificed.

New York, May 2.—A special London cable received at midnight by the Sunday Financial Journal says: The special cable community does not look for war was now. The buying of Russians by the Vienna clique has created a scandal. It is charged that it brought them on information from the imperial court to the effect that if it was necessary Germany would interfere to prevent hostilities. The disclosure looks like a solution of the whole question.

Russia Agrees to Arbitration. LONDON, May 2.—Earl Granville stated this evening after the cabinet council that by his latest advice the government had every reason to believe that a peaceful settlement would be arrived at with Russia. The session of the cabinet lasted over an hour and a half.

It is now known that the special cabinet held this afternoon was called to consider the English proposal to submit for arbitration the question of responsibility for violation of the agreement of March 17.

MONDAY MORNING MAY 4, 1885.

THE WORLD IN DEER PARK.

W. J. Randall, 690 Yonge street, is now delecting the World as far north as Park, Rosedale, Yorkville, can now have the World delivered at their doors for breakfast.

The Revolving Barricade. We don't know of a more inept measure than that of the government franchise bill which proposes to put the voters' lists at the mercy of partisan revising barristers.

We don't often sympathize with Grip but give credit for a wise idea when it comes. He is not less than a hundred different qualifications, and each of these is open to a score of interpretations, to quibbles, to trouble.

The Deacon Emassked. We understand that the whole police force was out on special duty yesterday morning to raid the deacon selling Sunday papers.

Improvement for Dees. Editor World: Seeing that your paper is out to denounce injustice, even if under the sanction of the law, particularly when it is pronounced against the rich and the poor to the detriment of the latter—I would call your attention to the fact that the old barometer and widely varied law of impounding a man for debt will operate in some places in this country with all its glaring inconsistencies and anomalies of punishing a man for imprisonment for not doing what he is in no way responsible for.

Assessment versus Old Line Insurance Companies. Editor World: In reading Insurance Society of Montreal for April I notice report of the directors of the company of Montreal. One of the speakers at a recent meeting refers in very eulogizing terms to the great care used by the directors in "getting good security" in their investments.

THE EASTERN ROUTE TO BE WORKED FROM MONTREAL. The completion of the Canadian Pacific railway across the Lake Superior is an event that brings other events in its train.

such a university battalion and trusts it will have the support of all the university and college men, as well as of the minister of militia in setting it into shape.

Scenes in Parliament. We notice in the account of the late session of the English parliament, the noisy interruptions, the exciting cheers, and the personal demonstration against Mr. Gladstone.

The Revolt of the Domesticated. In this city there exists a respectable but too prolific class of inhabitants who carry out, in geometrical ratio, the law of Malthus, that population tends to increase faster than the means of subsistence.
