The promise of an active market in the beginning of the week was not verified, the business at close having been only moderate in extent.

moderate in extent.

Except for a flurry in War Eagle, the week closed very tame, but this security suddenly seized the investment fancy and rose yesterday 8 points. The principal business was in this stock, but Canadian Pacific, Toronto Railway, and Montreal Street added considerably to the volume of the week's transactions.

Money continues plentiful Banks have

Money continues plentiful. Banks have quantities to lend on call at 4 p.c. Loans from private parties have been made under this rate.

NEW YORK EXCHANGE.

MARKET STRONG. PRICES HIGHER.

> DEMAND COMES FROM INVESTORS.

TOBACCO THE FEATURE.

CLOSE IS STEADY AT FIRM OUOTATIONS.

New York, Aug, 13.

New York, Aug, 13.

The day has been marked by an easy opening, but the demand from Commission houses was so pronounced, those keeping the downward course were obliged to join the forces which sought after shares. To-bacco led the rise, and though not specially active, sold steadily up. The Grangers, Pacifics and Brooklyn Rapid Transit then followed, and even sugar, for which such great breaks have been prophesied from time to time, showed a firm front.

The week closes with a decided upward tendency. The several attempts to break prices have only met with partial success.

MORNING OPINION.

New York, August 13.

The conservative element have been all the while insisting that the advance would be the better in the end, if prices would only go off sharply enough to catch a lot of stop orders, which must be in the market, as average speculators in a market like that of last week, merely moves up his stop order as the price of his stock advances.

Later in the day there was a general easing of prices, but it was restricted on account of the aggressive movement which was started in Northern Pacific and Union Pacific stocks.

The rise in the last named issues was based on calculations as to the showing of the roads for the completed fiscal year.

It is well understood that the Bank Statement this week must show a decrease in cash reserves, in connection with the beginning of payments under

the second half of the government loan.

The Chesapeake and Ohio anual report 's a marvel. This road last year enjoyed the largest tonnage and greatest ton mileage in its history, and made more earnings than ever before, in a year when the rate situation was the worst. when the rate situation was the worst ever known among the lines through the Atlantic seaboard.

THE MONEY MARKET.

The fear of stringency in the money market, is one reason given by people who are bearishly inclined, why stocks should sell lower. There seems to be no grounds for this lear, and the fact that rates for call money advanced rather sharply one day during the present week, does not by any means constitute a tight money market.

NEW YORK STOCKS.

Records have been made in prices of some of the stocks during the past week. Tobacco, Brooklyn Rapid Transit, Burlington and Northern Pacific experienced the greatest advance. Manhattan has been the weak feature of the market, this in face of many bull points given out. The check to the extreme buoyancy which obtained at one time, is looked upon by many as an ultimate benefit to speculation. Doubtless heavy realizations have taken place, but the confidence in the business situation and political outlook, will prevent any great reaction. On the market would be a purchase, and no reasons can be given by the most pronounced Bear for any great set back. Weak holders may be forced to unload, but any break will be quickly taken advantage of by the operators. A sensational attempt was made to advance rates for money on the 11th, which rose to 5 per cent. for a short time, but the day closed with money of-fered at 2 per cent. and yesterday it went back to 11/2.

DULUTH COMMON.

Yesterday a round lot of this stock was traded in at 3. More could bought at this price, the preferred is offered at 7 with 5 bid. The strength of New York stocks should be communicated to this security and a dearth of speculative outlets should

make these issues a good speculation at their current low prices.

ROCK ISLAND.

Those who have been among the largest buyers of Rock Island say they are still buying it and think the stock should sell at the price of Burlington & Quincy, because they think one as good as the other. A great deal of stress is laid on the outlook for business, as outlined by the manager of the based on the steady growth in the miscellaneous business of the pro-

LONDON MARKET.

The London market shows considerable irregularity this morning, but no feature of particular interest. Fluctuations range from 1/4 down to 3/8 der cent. up, the greatest advance being 1/4 and % each in Louisville and Nashville and Southern Railway Preferred, respectively. These two stocks among the heaviest in our market yesterday afternoon, on the rumors that yellow fever had broken out at several points in the South. This is now de-mied and the denial is no doubt responsible for the strength of these two stocks in the London market.

London was a considerable seller yesterday but their stocks were well taken, and although the market here was inclined to be heavy, it was at no time weak.

YELLOW FEVER RUMORS.

It is officially announced that yellow fever has appeared at Franklin, La. Many rumors have been afloat for the past two days, as to the spread of ;the disease, and this has orought realizing and hammering in the market, which is nevertheless in good condition, and its general movement still apparently

RECENT advices from the Camp regarding the development upon "OLD IRONSIDES"

has advanced the price to 30c per share, with little offered. We advise you to pick up through your broker some of that stock and also that of the ad-

broker some of joining property "KN B HILL." You can find out about thrse properties by asking your broker, or by writing or calling upon

MONTREAL GOSSIP.

MONTREAL GAS.

Prices have remained steady to strong in this security. On Monday 125 shares sold at 194%, the lowest sale of the week being made at 174 and the highest 195½. The total sales amounted to 729 shares, and it closed 194% bid, and 195% asked.

HALIFAX TRAM.

The anxiety of the public to purchase this stock has manifested itself by the magnificent sales of fifty shares during the past week. Its friends claim for it a large and improving business, but as yet they have not taken the public into their confidence, and could they do so, and follow the example of their sister roads in publishing their daily returns, no great boom, in our opinion, will take place in this stock, under the pattern of their stock, under the pattern of the pattern of their stock of their less brought about by inside buying which will doubtless be the case if the company is really doing the profitable business claimed.

BELL TELEPHONE.

No transactions on the erdinary shares of this company, have shares of this company, have taken place, but quite a business has been done in the sale of rights, of which 225% shares have been sold. The price of the stock has been merely nominal, the difference between buyers and sellers being from 10 to 12 per cent. At present prices the stock yields nearly 4½ per cent. and considering it is practically a monopoly it looks cheep.

COMMERCIAL CABLE.

The large investment orders in Cable at 885 which are still in the market, will prevent any set-back in this security. During the week only 135 shares have been bought, 100 of which sold on Monday at 186. Rumor says the business of this company continues of a most satisfactory character and many look forward to an increase in its dividend. Before long this stock will become even scarcer than at present, as its absorption by investors is steadily going on.

ROYAL ELECTRIC.

A small business has been transacted in this security, with a tendency to lower prices. This in face of the large earnings of 18½ per cent. shown in their last statement would indicate unfavorable interpretation on the part of the public, though insiders profess to be well satisfied with the position of the Co.

The strong opposition of the Lachine Rapids Co. is evidently regarded by investors as a drawback to the continuation of large profits, otherwise the stock should sell higher considering the many profitable contracts which they have at present.

CANADIAN PACIFIC.

Transaction in this stock have fallen short this week by several hundred shares as compared with last, prices, however, have varied very little, those of the eleventh instant were the best, reaching 851/s. The falling off in the London quotations of about 1 per cent. carried the stock back to 84 yesterday, which is within a fraction of the figure at which it sold the first day of the week. There is nothing new to report, the decrease of \$19,000 for the week e ding 7th August, shows a continued falling off in the craffic returns, which are not likely to be improved until the rate difficulties are adjusted.

MONTREAL STREET RAILWAY.

This stock continues quiet. handsome increases in earnings for the past week, aggregating close upon \$800 per day, are quite sufficient to account for the steady prices. Both

LONDON CABLE.

C. Meredith & Co.'s Cable gives the following London quotations:
Grand Trunk, 1st preference...62\frac{3}{4}
'' 2d '' ...40\frac{1}{4} 3d " guart'd 4 p.c.....76

speculators and investors are still willing to pay full prices for the shares, arguing that it is only a question of time before an extra division of profits in some shape must take

To those who have been tempted to part with some of their holdings a reaction in this stock would be very welcome. This in itself is a strong feature and would be a sustaining factor in the event of any break.

GRAND TRUNK.

The very unfavorable report for the past half year, caused a marked decline in the London quotations for the various issues of this stock. According to reports received, the surplus, after the payment of the £2 per cent. on the 4 per cent guarranteed stock, was very small. The first preference sold dow to 62 3-8 and the second to 40 1-4.

WAR EAGLE.

A strong feeling has sprung up at last in this stock. Large purchases have been made for English account and we are informed insiders are buying back a good deal of stock sold at higher prices. The increased volume of transactions, the standing of the buyers, the glowing reports from the mine, all indicate a bright future for this stock and those who held on to theirstock during the recent depression will yet receive a rich reward.

Toronto Stock Exchange.

¶ May, 1894, 3\ dividend; April, 1891, 2\ dividend.

TORONTO RAILWAY.

Business for the past week in this security has not been one-fifth in extent as compared with the previous one. 1455 shares have changed hands at prices ranging from 99½ to 100½, closing the week at 99% bid and 100% asked. Steady increases on earnings are reported, and on the 8th (a civic holiday) the handsome increase of \$1,-903.89 was shown. The public are more inclined to buy this stock now that it has passed par and we think in this instance the public are right.

DOMINION COTTON.

375 shares of this stock was sold during this week at prices ranging from 95% to 961/4 an advance oxer last week of about one per cent. As is well know there is considerable diversity of opinion re the earning power of this stock, some claim. The directors in the past have neglected the expenditure on plant renewals, a necessity by mills of this nature. This expenditure has sooner or later to be made of the management wish to keep abreast of of the times and this large outlay, will

naturally cut into the profits. Others claim that the mills are thoroughly equipped, business to be good, and profits equal if not better than in the past. We expected further information on these points shortly, the results of which will be made known in a later issue. A leading stock exchange firm has been a large buyer lately.

MISCELLANEOUS.

The rest of the week's business was confined to Bank shares, Bonds, Dom-inion Coal, Common and Preferred, the buying of which was principally for investment account and for which full prices were paid.

Correspondence. To Answers

R. M. Sherbrooke.—See issue of August

th, F. St. Hyacinthe. This refers to your stock. On soft spots, buy it.

S. Montreal.—Yes they look very large, but are not higher than others which have been put to same test. Bankers have to study the greatest possible economy to earn their dividends, a lesson manufacturers have already learnt.

CHICAGO MARKET.

WHEAT DULL AND LOWER,

Recent Demand from Shorts Satisfied.

Government Estimates Crop 607 Millions.—Others at 700 Millions.

Provisions Quiet. - Corn Steady.

Chicago, Aug. 13. Chicago, Aug. 13.

The shorts having been largely forced to cover, the main sustaining force of the market has been unmoved. Fresh short interests will no doubt soon occur, when the same result may be looked for. No great losses, however, can accrue from the buying of Dec. wheat around 63, as averaging from this down would be sure to bring back any losses.

The Government report makes the crop

The Government report makes the crop to be 607 millions; this, according to good authority, is much too low. 700 millions is the generally accepted nearest estimate. Corn has been dull and steady, and provisions have been neglected. The change in quotations are insignificant.

WHEAT.

The government raport on wheat shows the largest crops ever recorded. This had the effect of weakening prices Inis had the effect of weakening prices somewhat, September selling at 65 and December 63½c. A very quick recovery took place in September option, and it advanced yesterday to 57½c. December, however, only recovered 1½c. The extraordinary depletion in stocks, places those with outstanding contracts for September in a very present tracts for September in a very precarious position. The deferred options, however, can hardly advance much, in view of the large incoming crof, and the expected marketing of North West wheat in the near future. The condition of corn and oats, showed a falling off, but prices have not been influenced thereby.

MINES.

Attention was drawn in a recent issue to the past experience of Canamight have been said on the subject and despite the large and glowing figures given in a morning paper, we would sufficient investors against this class of security, without making the fullest enquiry. It is not pleasant to visit a distant land for the purpose of finding the location of a mine in which one has largely invested and to hear threats on the rotunda of a hotel to the effect that any "durned foreign-er prowings around looking into their camps would be the recipient of a little cold lead."

These mines advertised may right, but Canadian investors in a number of instances have only received a few dividends paid out of capital, and upon investigation found the mines to be largely a mytch.

DEER PARK.

Rossland, B.C., Aug. 13.

Deer Park has sprung into prominence and sells freely. Specimen assays from the lowest workings give an average of \$372 in gold, and 152 ounces in silver to the ton.

VIRGINIA.

Virginia workings continue in ore in the middle vein and still improve in appearance.

SUNSET NO. 2.

Sunset No. 2 has a fine body of ore at the 350 foot level.

CENTRE STAR.

It is stated on what is said to be the best authority that the Gooderhain-Blackstock syndicate has concluded the purchase of the Centre Star. Montreal capitalists are said to be interested.
