# CANADIAN CONTRACT RECORD

46 Richmond

A Weekly Journal of Advance Information and Public Works.

ITS PURPOSE: TO SUPPLY TO CONTRACTORS ADVANCE INFORMATION RESPECTING CONTRACTS OPEN TO TENDER, AND TO ARCHITECTS, ENGINEERS, MUNICIPAL AND OTHER CORPORATIONS, A DIRECT MEDIUM OF COMMUNICATION WITH CONTRACTORS.  
ITS MERIT: ECONOMICAL AND EFFECTIVE SERVICE.

Vol. 2. Toronto and Montreal, Canada, January 30, 1892. No. 51

**THE CANADIAN CONTRACT RECORD,**  
A Weekly Journal of Advance Information and Public Works,  
PUBLISHED EVERY SATURDAY  
As an Intermediate Edition of the "Canadian Architect and Builder."  
Subscription price of "Canadian Architect and Builder" (including "Canadian Contract Record"), \$2 per annum, payable in advance.  
C. H. MORTIMER, Publisher,  
14 KING ST. WEST, TORONTO, CANADA. Telephone 2362.  
64 Temple Building, Montreal. Bell Telephone 2299.

Information solicited from any part of the Dominion regarding contracts open to tender.

ADVERTISING RATES ON APPLICATION.

At its Convention held in Toronto, Nov. 30 and 31, 1889, the Ontario Association of Architects signified its approval of the CANADIAN CONTRACT RECORD, and pledged its members to use this journal as their medium of communication with contractors with respect to advertisements for tenders.

The following resolution was unanimously adopted at the First Annual Meeting of the Province of Quebec Association of Architects, held in Montreal, Oct. 10th and 11th, 1890: "Moved by M. Perrault, seconded by A. F. Dunlop, that we the Architects of the Province of Quebec now assembled in Convention being satisfied that the CANADIAN CONTRACT RECORD affords us a direct communication with the Contractors,—Resolved, that we pledge our support to it by using its columns when calling for tenders."

The publisher desires to ensure the regular and prompt delivery of this Journal to every subscriber, and requests that any cause of complaint in this particular be reported at once to the office of publication. Subscribers who may change their address should also give prompt notice of same, and in doing so, should give both old and new address.

## WANTED,

A thoroughly competent Architectural Draughtsman, must have some knowledge of design and be able to render well in pencil. A permanency and liberal salary to a good man.  
E. A. KENT, Buffalo.

A recipe for use in connection with waxing floors is to stir 25 parts of shredded yellow wax into a solution of 12 parts of pearlash in soft water. Keep the mixture well stirred until the effervescence ceases, then remove it from the fire, and stir in 12 parts of finely ground yellow ochre. It may now be poured into cans to cool. When wanted for use, one part of it is dissolved in five parts of boiling water. Apply warm with a paint brush. It dries in a few hours, when the floor is polished with a floor brush, and afterwards wiped with a woolen cloth. This wax coating will last for six months with ordinary use.

## CONTRACTS OPEN.

EDMONTON, N.W.T.—The C. P. R. purpose erecting a new hotel here.  
HESSON, ONT.—The Catholics intend building a new church the coming summer.  
NAPINKA, MAN.—Messrs. R. Muir & Co. are talking of erecting a grist mill here.  
BRIGHT, ONT.—The Methodists of this place are taking steps to build a new church.  
DUCK LAKE, MAN.—Tenders will shortly be called for the erection of a schoolhouse.  
STRATFORD, ONT.—Tenders are invited by the Board of Works for 2,000 feet of lumber.  
PERTH, ONT.—A scheme is talked of to build an electric railway between Lanark and this town.

RAT PORTAGE, ONT.—It is reported to be the intention of the C.P.R. to erect an hotel at this place.  
GODERICH, ONT.—Mr. A. Farrow, Collector of Customs, proposes to erect a residence next summer, to cost about \$1,600.  
NEW WESTMINSTER, B. C.—Mr J. B. Fisher will expend a considerable sum of money in the erection of residences in this city.

SHERBROOKE, QUE.—St. Hyacinthe has voted a bonus of \$15,000 to the E. T. Corset Co., of this place to remove to that town.

ACTON, ONT.—The Trustees of the School Board will meet on Monday next to consider the question of building a new school.

WARWICK, ONT.—Mr. W. H. Stewart will receive tenders until noon on Feb. 22nd, for digging the Leean Extension Drain.

ATWOOD, ONT.—At the annual meeting of the Presbyterian congregation it was decided to build a new manse next spring, to cost about \$2,000.

COBOURG, ONT.—A deputation from the town has been appointed to confer with the County Council with the view of building a poor house.

GLADSTONE, MAN.—The Presbyterians have decided on the erection of a new church and have appointed a committee to make final arrangements.

WALLACEBURG, ONT. The proprietor of the Hub and Spoke factory, which was recently destroyed by fire, contemplates rebuilding and putting in the most improved machinery.

WALKERVILLE, ONT.—Messrs. Iram Walker & Sons will shortly begin the erection of a block of stores, a new hotel and a number of residences.—Mr. W. Robbins will build a large residence.

OWEN SOUND, ONT.—Mr. Cowie, Engineer of the Public Works Department, Ottawa, was in town recently for the purpose of taking soundings and preparing plans for improvements to the harbor.

DELAWARE, ONT.—J. I. Sutherland, Mount Brydges, Ont., will receive tenders until the 16th February for the erection of a brick Presbyterian church in this village. Plans at office of Mr. Sutherland.

ROCKLAND, ONT.—Another branch of the Central Counties Railroad will be constructed this summer between this village and South Indian. A further branch may be built between Caledonia Springs and Vankleek Hill, but this has not yet been definitely decided upon.

St. JOHN, N. B.—Negotiations are in progress between the council and Mr. Van Horne, president of the C.P.R., with regard to the construction of a bridge from the West Side to the Strait Shore, via Navy Island.

ERAMOSA, ONT.—Messrs. Stanley, McCann and McMahon, trustees, will receive tenders until 2 p.m. of the 6th February, for the erection of a stone school in School Section 4. Plans to be seen at Oustic post office.

LONDON, ONT.—Moore & Henry, architects, Albion Block, will receive tenders until the 12th of February for the erection of a brick church for the Siloam Methodist congregation, on lot No. 8, concession 5, London township.

AMHERST, N. S.—The plans have been prepared for the new academy building. The estimated cost is \$25,000.—There is some talk of organizing a joint stock company to rebuild and run the Lamy hotel lately destroyed by fire.

COLLINGWOOD, ONT.—Mr. Frank Teller, Mayor, intends to erect a solid brick and stone residence, with cut stone dressings, on Third street, to cost about \$6,000. Mr. T. I. Hodgson will have charge of the work. Contracts will be awarded about the 1st of March.

KINGSTON, ONT.—A bill has been introduced in the New York Assembly incorporating the Wolf Island Bridge Company for the construction of a bridge across the St. Lawrence river, from some point in New York state to a point near this city. The capital stock is \$2,000,000.

HAMILTON, ONT.—It is stated that the Grand Trunk authorities intend to lay a double track this summer between this city and Niagara Falls, and also to build a connection between the Samia branch.—Building permits have been granted as follows: Emily E. Gourlay, alterations to a store on King street, between Hughson and James streets, cost \$2,500; R. Pearce, three brick cottages, corner of Hunter and Richmond streets, cost \$2,400.

HALIFAX, N.S.—Mr. C. E. Harris, 119 Hollis St., will receive tenders until the 1st of February, for hot water apparatus for the Nova Scotia Telephone Co.'s new building.—The Board of Health have recommended the construction of sewers on different streets, at a cost of \$45,000. The Board of School Commissioners have decided on the erection of a new school building.—It is understood that no further action has been taken in regard to the proposed new athletic buildings.

VANCOUVER, B. C.—A meeting was held recently to make arrangements for the building of a 200 ton ship in this city. Particulars of the meeting have not yet reached us.—Messrs. P. Wade & Co. have leased the marble quarry on Texada Island, and intend putting in sawing machinery to enable them to supply tiling and paving.—The City Engineer has recommended the paving of Cordova and Hastings streets with bituminous rock.—A number of improvements will be made this summer to the gas works. New retorts and purifiers will be put in, and the present building almost entirely pulled down and rebuilt.

WINNIPEG, MAN.—Local capitalists have decided to erect an elevator of large capacity here in the spring.—The town council of St. Boniface have decided to build another bridge across the

Red river.—Plans are being prepared for improvements and additions to the Manitoba College to cost about \$40,000.—A new bank and office building is to be erected on Portage avenue by one of the local trust and loan companies.—Mr. H. S. Westbrooke will erect a warehouse on Princess street, corner of Markham street. Mr. George Brown is preparing the plans.—The Northwest Assembly will ask the Dominion Government to establish an insane asylum for the territories.

MONTREAL, QUE.—At a recent meeting of the congregation of Knox church it was decided to take immediate and active steps to build a new church on the present site.—The Harbor Commissioners have extended the time for the reception of tenders for the supply of 50 small cars, 300 boxes for dredgings, 150 tons of light steel rails, and a pile driving engine, from the 26th January to the 2nd February.—Messrs. Wilson & Frost are having plans prepared for 100 houses to be erected next season.—Mr. Chris. Clift, architect, is calling for tenders for a house for A. W. Hadrill, on Seymour Ave.—Several lots of the Ewing property, fronting on Pine Ave., have been sold to citizens who intend erecting handsome residences thereon.—It is expected that the erection of a new Protestant school at Cote St. Louis will be commenced in the spring.

TORONTO, ONT.—Mr. C. H. Edwards, lumber dealer, and Britnell & Co., lime dealers, North Toronto, will shortly erect a building for office purposes at the corner of Birch avenue and Yonge street.—Application will be made to the Legislature of the Province of Ontario at its next session to incorporate the Toronto Transfer Warehousing and Railway Company, with power to construct and operate a railway in the easterly part of the city, to construct swing bridges over the Don river and Coatsworth Cut, and to erect warehouses along the line of the proposed railway.—The Superintendent of waterworks recommends the laying of a companion supply main from the reservoir at Bloor St., connecting with the 12-inch mains running across the city.—Tenders are wanted for plumbing and plastering a pair of houses on Manning Ave., opposite 396, just north of College St.—It is understood to be the intention of the management of the Dominion Bank to erect a new building on the site of the present branch at the cor. of Queen and Sherbourne Sts.—Mr. W. F. Sexton will shortly commence the erection of four solid brick houses on Church St., opposite the Normal school.—Mr. Sproale is preparing for the erection of four houses on Irwin Ave., near Yonge St., to cost \$4,000 each. Contracts not yet awarded.

OTTAWA, ONT.—The Sault Ste. Marie and Hudson Bay Railway Company and the North Canadian Atlantic Railway and Steamship Company will apply to Parliament next session for an extension of time for commencing and completing their railways.—The Pontiac and Pacific Junction Railway Company will next session ask Parliament to extend the time for the building of their bridge over the Ottawa river opposite this city, as well as for an extension of time for the completion of the road to Pembroke.—Wm. Smith, Deputy Minister of Marine, will receive tenders until the 2nd February, for the construction of a pier to support the lighthouse at Point Aux Anglais Light Station, in the Ottawa river, County of Two Mountains, Que. Plans at the Department, this city, at the Steamboat Inspector's office, Montreal, and at the Point Aux Anglais wharf.—A director of the Vandreuill and Ottawa railroad states that work on the road will be pushed from Rigaud to Ottawa in the spring, and it is expected it will be completed by the fall.—Application will be made to Parliament at its next session for an act to incorporate a company to build a railway line from the vicinity of Carp, in Huntley township, county of Carleton, through the villages of Almonte and Sharbot Lake, a distance of about fifty miles.—Mr. Walter Shanley, C.E., has recently been in consultation with the Government engineers regarding the enlargement of the Cornwall canal.

## FIRES.

The residence of Mrs. McLeod, Murdoch St., Owen Sound, Ont., was burned on the 25th inst. Loss \$1,000; insurance \$300.—The hotel and general stor. belonging to Mr. John Webb, North Bend, B. C., were burned on the 19th inst. Loss \$20,000.—The hotel recently erected at Whitby, Ont., by Mr. I. Hos. Deverell, was entirely destroyed by fire on the 23rd inst. Insured for \$4,600.—On the 25th inst. fire completely destroyed the Andrews' block at Meaford, Ont., comprising the City hotel, occupied by M. Reynolds, a grocery store and bake shop, occupied by C. Meyers, also the telephone office, Robinson & Johnson's loan office and Mrs. White's millinery store. Loss about \$15,000; insurance on block, \$7,000.—On Wednesday last fire at Dresden, Ont., occasioned the following losses: Mrs. Hazlett, \$1,600; insurance \$1,200; Mrs. Mooney, building, \$1,500, insurance \$1,000; Smith Bros., dry goods establishment \$5,000, insurance \$3,000; E. Miller & Co., druggists, \$7,000, insurance \$6,000.—Eastbrook's saw and flour mill and grain elevator at Tweed, Ont., was burned on Tuesday last.—The Salmon River Pulp Company's mills at Scottstown, Que., were totally destroyed by fire on the 26th inst. The loss is about \$30,000, and insurance \$15,000.—The Public school building at Courtwright, Ont., was destroyed by fire on Thursday last. The building was of brick and two stories in height. Loss \$1,500; insurance \$1,000.—Madder's general store, north of Douglas, Ont., was destroyed by fire on Thursday. Loss \$6,000.

## CONTRACTS AWARDED.

WINNIPEG, MAN.—The contract for the erection of Allan McDougall's block at Fort William, Ont., has been awarded to Messrs. Thompson & Griffin of this city.

MONTREAL, QUE.—The British Columbia Mill, Timber and Trading Co. are supplying the large spruce timber for dredges for the Harbor Commissioners.—At a meeting of the Road Committee of Cote St. Antoine, it was decided to give Mr. Little the contract to supply 2,000 tonse of stone to macadamize the streets of the municipality.

## USEFUL HINTS.

Shellac and borax boiled in water produces a good stain for floors.

Zinc is best cleaned with hot, soapy water, then polished with kerosene.

CLEANING EXTERIOR WALLS WITH THE SAND BLAST.—The sand blast is now being used in New York for cleaning the States Assay office in Wall street. The apparatus consists of a "gun" in the shape of a sheet-tin tube 3 feet long and 2½ inches in diameter, which is bent into a goose-neck at one end and terminates in a 2 inch nozzle. A second tube, 1 inch in diameter, enters the first at the upper bend of the goose-neck and terminates about 3 inches inside, being central with the nozzle. The sand is fed through this tube from a hopper and is projected against the work by an air blast through the outer tube. With an air pressure of 2 pounds per square inch at the nozzle 1 square foot of marble will be abraded to a depth of 1-32 of an inch to 1-64 of an inch in one minute, leaving a fresh clean surface.

CURIOUS FOUNDATIONS.—The *Railway Review* tells of a novel method of laying foundations in swampy soil, recently employed by an American engineer. The building to be supported was a low wooden one, which it was proposed to use for the storage of machinery. Casks were set in holes in the ground along the

line of posts and were filled to the depth of one foot with iron turnings. The posts were placed in the casks, which were then filled with iron turnings compactly rammed in place. A solution of salt and water was slowly poured over the turnings, under the action of which they solidified into a hard mass. The heat of the oxidation of the iron was so great that the posts were charred. They also served to act as a preservative, and to that extent the iron turnings are probably superior to concrete under similar conditions.

Some Belgian manufacturers of glass and porcelain have recently introduced from Germany, says a correspondent of *Industries*, a new coloring matter, which can be fixed without the use of fire. In this process a mixture of two solutions, one of which consists of 100 parts of strong potash and 10 parts of acetate of soda, and the other of 15 parts of acetate of lead in 100 parts of water, is used. The second solution consists of 50 parts of borax dissolved in 100 parts of hot water and 20 parts of glycerine. Sixty parts of the first mixture are mixed with 40 parts of the second. When the composition has been applied the objects are placed in a bath, which is composed of one part of borax dissolved in 12 parts of water, mixed with 50 parts hydrofluoric acid and 10 parts of sulphuric acid. After being allowed to remain in the bath for ten minutes, the objects are washed in clean water, when the color appears as clearly as when the objects are fired.

A CHEAP STAIN.—An excellent stain for cheap work is given in *Painting and Decorating*. Fill a quart bottle a third full of red sanders, and fill the bottle with alcohol; let it stand a week and strain out the dregs by running through thin muslin or cheese cloth, and you will rarely want to use it unmixed with other stains. If too strong, which you can determine by testing on a piece of wood, dilute with turps or alcohol. If you want a mahogany stain, first put on a coat of red sanders, then a coat of asphaltum, or the reverse, and see which you like the best. Or, if you want it all at one coat, dilute your red sanders with turps and you can mix it with asphaltum in proportions to suit your purpose, and please your taste as to color. Don't make the mistake of putting on your stain too heavy; because the thing is done to say whether you like it or not; but if too light, a second coat, thinned with caution and good judgment, will be more apt to make it to your taste. I need not tell you (but I will) that it is always safe to try a little of the stain, let it dry, and varnish it, in order to see if you like it before covering the job with it. This stain, and in fact, any spirit stain, will spread better if diluted with turps. Bear in mind, that all stains put on previously oiled wood need a binder—japan, gold size or linseed oil may all, or either, be mixed in by first diluting your stain with turps. Red sanders mixed with burnt umber, ground in oil, makes a good walnut stain for soft wood. Red sanders on walnut in its natural state makes as good mahogany as you could wish for outside of the genuine wood.

**A CONTRACTOR'S LITTLE SCHEME.**

According to the *Philadelphia Record*, a local contractor has a peculiar method of keeping tab on a gang of Italian laborers working under him. The men are known only by numbers, and to keep trace of the doings of each individual is a matter of considerable difficulty. They are all apt to sneak off when the foreman's back is turned, and sit down for a rest. The unique plan of the contractor in question is devised to put an end to this lazy practice and the consequent loss of time. In the morning, before the gang goes to work, each man's number is printed on the seat of his trousers. When the men knock off work in the evening the chalk marks are inspected, and if any are found to be erased or blurred, the unfortunate Italian to whose pants the blurred number appertains is docked a day's pay. The scheme works admirably, as the men prefer to forego the pleasure of a few minutes' rest, rather than lose their pay.

**MORTAR MAKING.**

An old builder, of nearly forty years' experience in making mortar, writing upon the subject to a contemporary, very justly says: "The mere matter of slacking lime does not make mortar out of it. Lime and water alone will not make any better mortar than sand and water." He suggests the use of plenty of water in slacking the lime, so that, when it is run out of the box into the bed, it will not bake or burn, as it is liable to do if not well watered. The mortar bed should be large and tight, so there will be no leakage of the lime water. The proportion should be about fifty yards of good sand to twenty-five barrels of lime, for the first mixing, which should be thoroughly done. The hair should be put into the lime before mixing in the sand. After the mortar has been mixed in the above proportions for ten days or more, if the amount of materials given have been used, twenty-five to fifty loads of sand may be added and worked in. It is said that the water that rises on a bushel of slacked lime, and where plenty of water has been used, if removed and put on a sharp sand, will make better stone than lime and sand mixed, showing that the water should be retained in the sand lime while it is fresh, and that the mortar should be tempered in its own liquor. Of course, where smaller quantities are used, the proportion should be retained, both at first mixing and in the sand added subsequently.

Much depends on having mortar made on correct, if not scientific, principles. The durability, if not the actual safety, of a building is more or less affected by the kind of mortar that is put into it. We have seen brick buildings, and not very old ones either, from which the dry and hardened mortar could easily be picked in cakes from between the bricks.

To move rust stains from nickel plate, grease the rust stains with oil and after a few days rub thoroughly with a cloth moistened with ammonia. If any spots still remain, remove them with dilute hydrochloric acid and polish with tripoli.

**TO BUILDERS.**

**ALEX. MACLEAN,**

9 Victoria Street, Toronto,  
Offers to builders, on advantageous terms, lots on Elizabeth St., Westmorland Ave., Spencer Ave., Shaw St., Wellesley St. and Spadina road.

**To Builders, Investors and Speculators.**

Offers are invited to purchase that magnificent business site at the intersection of Dundas and Arthur streets and Ossington Ave. The lot has a frontage of 100 feet on Dundas and 120 feet on Arthur St., and is undoubtedly the best business corner west of Yonge St. Offers to be sent to F. J. Smith & Co., Estate Agents, 90 Church St.

**J. A. NESBITT,  
ESTATE AND FINANCIAL AGENT  
AND ARBITRATOR.**

Office: 9 Adelaide St. East, - TORONTO.  
Office Telephone 1631. House Telephone 3692.  
Money advanced on mortgage. Fire insurance at lowest rates. Valuers carefully estimated.

**W. PARSONS,**
