HON. F. D. MONK RESIGNS—UXBRIDGE FARMER BURNED TO DEATH—BOND GUARANTEE FOR C. N. R.—RAILWAY PROMOTIONS

### MANY PROMOTED IN EMPLOY OF GRAND TRUNK

C. E. Jenny Goes to Vancouver as General Passenger Agent, W. J. Moffatt Becomes City Passenger Agent and S. R. Joyce Will Be Traveling Passenger Agent.

Announcement has been issued by the Grand Trunk Railway System that C. E. Jenny, city passenger and ticket agent of the G.T.R. at Toronto, has been promoted to the position of general agent of the passenger department, Vancouver. In this he is to succeed W. E. Duperon, who leaves to become assistant general passenger agent at Montreal.

Mr. Jenny, who is one of the best known railway men in the city, has, within the past year or so, received a number of promotions. His most recent changes were from traveling passenger agent, with headquarters at Toronto, to be the company's agent at Pittsburgh. When last year the position of city passenger agent at Toronto became vacant Mr. Jenny was the man chosen to fill it.

W. J. Moffatt, traveling passenger agent, Toronto, is to succeed as city passenger and ticket agent, and in this a very popular promotion will be recorded.

S. R. Joyce, ticket agent in the Toronto city ticket office, is to be traveling passenger agent, with headquarters at Toronto, succeeding Mr. Moffatt.

### TWO MEN IN TORONTO HELD FOR HIS CRIME

LONDON, Ont., March 3.—Professing Christianity at the City Mission, George Orsby, alias George Osborne, confessed to Supt. Matteson that he had stolen a diamond ring and stick-pin at Toronto a few days, and today in company with Mr. Matteson he gave himself up to the police.

Orsby in his confession stated that two innocent men had been arrested in Toronto for the crime, and he had made his escape as the police were about to make the arrest.

### BOND GUARANTEE TO C. N. R. NOW RUMORED

Finance Minister White, Replying to Sir Wilfrid's Pointed Queries, Stated Explicitly That No Loan to Any Railway by the Government Was in Prospect.

(Special to The Toronto World.)

OTTAWA, March 3.—An echo of the persistent gossip about the Canadian Northern loan was heard in the house of commons this afternoon. The absence of the Canadian Northern magnate, from the capital, this week, and the fact that Sir Thomas Shaughnessy was entertained last night by Hon. Robert Rogers at a dinner, at which the premier, Sir Edmund Osier and R. B. Bennett of Calgary were present, was of course commented upon in the lobbies today, and it was reported that if any financial assistance was given to the Canadian Northern it would be not by way of loan, but by bond guarantee. That impression was confirmed by the brief statement of the finance minister in the house this afternoon.

Upon the orders of the day, Sir Wilfrid Laurier said: "May I ask the minister of finance to give the house some information which he seems to have given the press this morning? I suppose I need not say

### LIBERALS MADE SHARP ATTACK ON CROTHERS

C. N. R. Influence Alleged to Have Hampered Action in Settling Western Miners' Strike—Resolution to Censure Labor Minister Was Voted Down.

OTTAWA, March 3.—After a prolonged and somewhat bitter debate the house of commons at an early hour this morning voted down a resolution offered by Mr. Alphonse Verreille, the Liberal labor member for Maisonneuve, Montreal, censuring Hon. T. W. Crothers, minister of labor, for his conduct in relation to the long-protracted coal strike on Vancouver Island.

The resolution was offered as an amendment upon going into supply and declared that the minister deserved the censure of the house for his "persistent negligence and absolute indifference" respecting the rights of the miners in that controversy. The opposition lined up behind Mr. Verreille, Sir Wilfrid Laurier declaring that the indictment was strongly worded, but, he thought, supported by the evidence.

Attacked Verreille, Mr. Crothers defended his course, and in closing, denounced in scathing terms the member for Maisonneuve as a "dred-in-the-wool" Grit, who accomplished nothing and attempted to accomplish nothing for the benefit of the laboring people of Canada.

Mr. Sheppard of Nanaimo and Mr. Green of Kootenay declared that the people of British Columbia were extremely satisfied with the way the strike had been handled.

Alleged C. N. R. Influence. A feature of the debate was the insinuation by several Liberal members that the Dunsheer Collieries belonged to the Canadian Northern Railway and the inactivity of the Dominion Government was due to the influence of that corporation.

The debate was also enlivened by some sharp personalities between the minister and his critics. Mr. Crothers was called to order for saying that Mr. Verreille had better leave parliament and make an honest living.

Mr. E. M. Macdonald, who sharply criticized the present labor department for its attitude towards the United Mine Workers, was greatly discomfited by the production of some

### RESIGNATION OF MONK RATHER UNEXPECTED

Former Member of Borden Cabinet, Whose Long Absence From House Thru Ill-Health Has Been Criticized, Goes Into Retirement—House Surprised.

(Special to The Toronto World.)

OTTAWA, March 3.—The formal announcement by Mr. Speaker Sproule this afternoon that Hon. F. D. Monk had resigned his seat as member of the house for Jacques Cartier came as a surprise, altho it was known that some time ago Mr. Monk had had this step in contemplation. He will publish an address to his former constituents in Mr. Bourassa's paper, LeDevoir, tomorrow, stating the reasons for his resignation. It is generally understood, however, that continued ill-health is the principal reason which has led to Mr. Monk's retirement. He has been ordered by his physicians to take a prolonged vacation, and it is unlikely that he will take any part in politics for the next eighteen months at least. Should his health improve, however, it is said that he may re-enter parliament at the next general election.

Resigned From Cabinet.

Mr. Monk, who is 55 years old, was first elected to the house of commons in 1896, and was re-elected in 1900, 1904, 1908 and 1911. He entered the Borden government as minister of public works in October, 1911, and resigned one year later because of his inability to concur in the proposals of the government later embodied in the naval aid bill, which passed the house of commons, but was killed in the senate at the last session.

Mr. Monk has not appeared in the house since the prorogation of parliament in April, 1912. It was expected, however, that he would resume his seat at this session, when it was known that the naval aid bill was (Continued on Page 7, Column 5.)

### FATALLY HURT BY STREET CAR

John Shunk of Parliament Street Died of Fractured Skull in St. Michael's Hospital.

While attempting to cross the intersection of Queen and Parliament streets at 5.30 last evening, John Shunk, aged 84, 131 Parliament st., walked directly in front of an east-bound Broadway car, and was knocked to the pavement. He was conveyed to St. Michael's Hospital in the police ambulance, where he died at 8.30. Death was caused by a fracture of the base of the skull.

The old man had been walking south on the east side of Parliament street. According to eye-witnesses he did not stop to look for street cars coming from either direction, but walked directly across the tracks in front of the oncoming trolley. The frantic shouting of bystanders was just too late to have the old man who made an effort to avoid the car, but slipped, and before he could even fall to the ground was knocked several feet ahead. The car was stopped before he was struck again.

The body was conveyed to the morgue, where an inquest will be opened today.

Double Bill for Matinee.

There will be a double bill at the Princess Theatre matinee today, when the eminent English actor, Mr. Tom Terriss, and his excellent company present "Nicholas Nickleby" and "A Christmas Carol," two popular Dickens plays.

### BONES OF UXBRIDGE FARMER FOUND IN A SHES OF HIS HOME

Wm. Beverly Was Overcome by Smoke After Carrying Out His Belongings and Was Burned to Death in a Fire Which Destroyed His Home.

Overcome by smoke after he had carried his trunk from his burning home, and had re-entered the building in order to remove some of his furniture, William Beverly, a well-known farmer of Glen Major near Uxbridge, was burned to death. The fact that he had died in the fire which destroyed his home was not known to his neighbors until after the fire, when they were searching the ruins, and found his charred bones buried under the ashes and smoldering embers of his house.

Mr. Beverly was a bachelor and lived in his little home on his hundred-acre farm. One of his neighbors was passing the farm and saw that the house had been destroyed. He at once investigated. On the stove a few feet from where the house stood was a trunk which the farmer evidently had carried out of the house when it

first took fire. He then, it is supposed, re-entered his home for the purpose of carrying out some more of his belongings, when he was overcome by the smoke and fell in one of the rooms, unconscious, where the flames enveloped him. In another part of the cellar were found the buttons from Mr. Beverly's trousers, while his shirt buttons were found close to the charred remains.

He was last seen at the post-office at Claremont, and it is known that he had a hundred dollars in his pocket at that time. He was 55 years old and is survived by two brothers and four sisters. He was a resident of Glen Major for 20 years and was very well known in the district.

Some of his neighbors are of the opinion that Mr. Beverly may have been robbed, and house set afire in order to hide it, but as the authorities considered it unnecessary to hold an inquest, this is not probable.

### TO STOP EVASION OF TAXES ON ESTATES

Wholesale Distribution of Property for the Express Purpose of Side-Stepping Succession Duties Will Be Prevented by the Legislature, Says Hon. I. B. Lucas.

Once more the budget of the Ontario Legislature is upon the floor of the house. Hon. I. B. Lucas, provincial treasurer, yesterday afternoon submitted the account of his stewardship and declared his trust well-secured and a comfortable surplus of \$380,000 to show. This closing year, which had promised to be a somewhat critical one, had, he said, in its general outline pointed to a bright and prosperous future. Reorganization of revenue sources gave promise of an increasing assurance.

"The more a man has to do with the finances of Ontario the more optimistic he becomes," declared Hon. Mr. Lucas. "As years go by the sphere of governments which keep abreast of the times must increase, and the revenues must keep step. Social legislation in the widest sense of the word means more work to be carried on by the state in the interests of all. It is idle to talk social legislation and to ignore revenues. The social legislation of Great Britain depends upon her budgets."

To Meet Labor Sore.

The minister spoke on the conditions of unrest prevailing in the world at large and deplored that it should be brought to the floor of the legislature in what could only appear as an attempt to make party capital. The manner in which it had been produced by the opposition, he said, would result in but stirring up discontent and restlessness where none need exist. Meanwhile the government would proceed along well-traveled lines.

Aimed at the Risk.

Perhaps the most important point in the address, from a public standpoint, occurred in the foreshadowing of important legislation before the session, by which the wealthy persons of the province who attempt evasion of the succession duties will find their efforts unavailing. The government has determined to prevent the "wholesale distribution of property" with this intent in mind. A bill to be brought down is designed to lighten the burden upon the shoulders of the small-salaried man and to shift more responsibility upon those of his more wealthy brother.

Subsidy Transfer.

A second point explained by the treasurer concerned the adjustment of the T. & N. O. federal subsidy, so that the sum of \$954,629 appearing in the receipts column shows the province to have a surplus this year. Ordinarily the whole grant of two million would have gone into a special account, but on the argument that the back interest on the deferred subsidy warranted the transfer of this amount it was so used.

### MAY BE CLASH OF EXPEDITIONS

Shackleton Refuses to Alter Plans to Suit Purposes of Austrian Antarctic Party.

LONDON, March 3.—Sir Ernest Shackleton, the Antarctic explorer, declines either to admit priority for the Austrian Antarctic expedition or to give up his plan to use Weddell Sea as a base on his proposed trip across the south polar continent. In a letter to Dr. Felix Koenig, commander of the Austrian expedition which will start for the Antarctic in June, the British leader declines to alter plans which he claims were long since made, and refuses to co-operate with the Austrian except regarding meteorological or magnetic observations.

Shackleton, in an interview today, refused to believe there was any occasion for a fear said to have been expressed in Vienna of a physical collision between the two expeditions.

### UNITED STATES WILL ADOPT MORE AGGRESSIVE ATTITUDE

Washington Believes Conference Between President Wilson and Sir Lionel Carden Yesterday Will Have Important Results—Tension Relieved to Some Extent.

WASHINGTON, March 3.—Great Britain's pronouncement thru Sir Edward Grey, that the United States was in no way responsible for the recent execution at Juarez of William S. Benton, a British subject, and that the American Government would not be asked to resort to force as a result of the incident, was the chief factor in the Mexican situation today.

President Wilson, in a conference today with Sir Cecil Spring-Rice and Sir Lionel Carden, the British minister to Mexico, is understood to have expressed his approval and appreciation of the friendly sentiments uttered by the British foreign secretary in the house of commons. Tension, which had been felt here over the killing of Benton rose largely because it was believed Great Britain might press the United States into taking drastic steps to secure reparation. The British view that the United States is not obligated to demand reparation for Great Britain, altho it is clear that the Benton incident has developed an intention on the part of the American Government to take a more aggressive attitude toward the contending factions in Mexico.

### PANAMA TOLLS STRUGGLE NEAR NAVAL BATTLE IS IMPENDING

President Wilson to Make His "No Exemption" Appeal to Congress Tomorrow.

WASHINGTON, March 3.—President Wilson will personally address a joint session of congress Thursday, advocating the repeal of the clause in the Panama Canal Act, which exempts American coastwise shipping from the payment of tolls.

White house officials tonight arranged with the majority leaders in both houses for a joint session at 12.30 p.m. Thursday. The president has prepared a brief address in which he sets forth his opinion that congress should reverse itself and keep the obligations of the Hay-Pauncefote treaty, which he believes were vitiated by the Panama Canal Act. The president holds that the national honor of the American people is at stake and that European nations should not be allowed to get the impression that treaties made by the American Government are not adhered to both in letter and in spirit.

The president believes that there should be no debatable ground on treaties once made, and believes the United States is in honor bound to keep the spirit of the Hay-Pauncefote treaty.

### Two Federal Gunboats in Position to Attack Rebel Boat in the Harbor.

NOGALES, Sonora, Mex., March 3.—The first naval battle in the history of the Mexican revolution, was expected today at Topolobampo, Sinaloa. Reports received by Gen. Carranza were that the federal gunboats Morelos and Guerrero had arrived off the harbor, where lay the gunboat Tampico, which recently went over to the constitutionalists.

It was asserted the Tampico had plenty of ammunition, and that from the interior of the land-locked harbor it would be easy to fight off the two federal vessels, which must enter thru a narrow channel.

WIDENING COST FOR WHOLE CITY

Yonge St. Property Owners Think All Citizens Should Pay.

RESOLUTION PASSED

City Council Will Be Asked to Reconsider the Scheme.

Another appeal is to be made to the city council to charge the whole of the cost for Yonge street widening to the city as a whole, rather than to the property owners along the street, the council falls, then the Ontario Legislature and Municipal Board will be appealed to, the order preventing the work being done upon the local improvement plan.

The following resolution was adopted by the association last night, and will be presented to the city council: Moved by C. G. Case, seconded by J. H. Hull, "That the North Yonge Street Ratepayers' Association submit the following resolution to the city council, after it has been considered by a specially appointed committee and approved by the council: 'The city at large should pay the whole cost of widening Yonge street. If carried out as a local improvement, all ratepayers which abut Yonge street should be assessed for that portion of Yonge street between Lawton avenue and Merton street, and be taxed on both sides on the street.'

The city at large should pay the whole cost of widening Yonge street. If carried out as a local improvement, all ratepayers which abut Yonge street should be assessed for that portion of Yonge street between Lawton avenue and Merton street, and be taxed on both sides on the street.

Has Grave Doubts. "I have very grave doubts as to \$2,000,000 being the total expense of the widening of Yonge street," said Mr. Mackenzie King. "It is also doubtful if the city council is in a position to conveniently finance this year the cost of the widening. Then all the argument for the widening of the street is a thing of the past."

LIBERALS MADE SHARP ATTACK

Letters he had written several years ago to Hon. Mackenzie King, in which he urged that law be passed to prohibit 'foreign agitators' from stirring up labor troubles in Canada.

The debate was concluded by the prime minister. Mr. Borden spoke briefly, but with considerable vigor, and was warmly applauded. He defended the course of the minister of labor and called upon the house to vote down the Verville resolution, which, he declared, had been inspired by Sir Wilfrid Laurier.

The Verville resolution, which was passed last night, is a government motion, passed on March 2, 1913, which provides for the appointment of a commission to inquire into the causes of the strike.

The minister of labor, Mr. Verville, attacked the resolution, and said that it was a sharp attack on the government. He said that the resolution was a government motion, passed on March 2, 1913, which provides for the appointment of a commission to inquire into the causes of the strike.

GREY'S SHINING OF ARMED ACTION TO PUNISH SLAVERS OF BENTON MEETS APPROVAL IN BRITAIN

Pointed Comments by Leading British Newspapers Indicate Great Dissatisfaction With Wilson's "Watchful Waiting"—Some Complaint That Foreign Minister is Too Cautious.

LONDON, March 4.—The Daily Telegraph, commenting today on the statement made in the house of commons yesterday by Sir Edward Grey, the British foreign secretary, on the Mexican situation, agrees with Sir Edward that reparation cannot be sought from Mexico for the killing of William S. Benton since the Huerta government has no power in the north. It also agrees with Sir Edward that armed pressure, such as the blockade of a Mexican port, would only serve to advance the interests of the rebels and embarrass the Mexican government.

The editorial commends the concluding statement of the foreign secretary, that when "it is in our power to carry the matter further we shall take whatever steps may be practicable," and says it is convinced it will meet with general approval. The Telegraph says, "It is a just and specific statement of British policy. The foreign office does not intend to play the game of the rebels to the discomfiture of the Washington authorities, but at the same time it has no intention of abandoning our unqualified rights."

The Daily Graphic says it understands by Sir Edward Grey's conclusion that the foreign office intends "to give all moral support to any organized Mexican government which may hold out a reasonable hope of crushing the rebellion and restoring order in the republic." The Graphic says it would be glad if the United States, anxious to avoid European interference in American affairs, would undertake the punishment of the murderers of Benton, but that if the United States, for reasons of its own, declines to assume the task, England must hold herself ready to undertake it when a convenient opportunity arises.

CURE FOR CANCER NOT YET PERFECTED

Dr. Robert Abbe Thinks X-ray or Radium Will Be Solution.

That a cure for cancer has yet to be discovered was admitted by Dr. Robert Abbe in his lecture last evening to the members of the Academy of Medicine, "The Therapeutics of Cancer." His solution might be found in radium, the X-ray, or in some other substance. Dr. Abbe believed that it would be found, the probably not in this generation. Cancer has not yet been cured. The beginnings have hardly been overcome. Surgery has always failed that it casts a stigma upon the profession," said Dr. Abbe. "What radium has been made to do for man was shown by means of plates of cancer, which represented certain forms of cancer, tumors and kindred growths. They were all weak cell growths, and it was on this principle that the cure was made. Radium had been put to the test and had been able to cure many forms of growths which could never be cured by any other means. The power of the intangible substance, which has proved itself to be possessed of an infinite energy, was illustrated by means of photographs, printed with light, had been made through granite slabs. It was said to minimize the growth of cancer, as well as to cure it. The speaker had personally covered certain exceptions to this rule."

## Quality Talks on These \$10 EATON-MADE Suits for Men

And there are several reasons why we can talk quality in connection with these suits. One convincing fact: They're the production of the EATON workrooms, EATON made. The workmanship throughout is most thorough; every point in their making is given the fullest attention. Result: Suits that will stand the most rigorous service test.

Another important point is the selection of materials. These are bought in immense quantities, directly from the mills, and in this way the qualities are the best that could possibly be secured for the purpose. Included are tweed of sturdy wearing quality, showing a nice selection of patterns, fancy mixtures in new weaves with thread stripes on brown or grey grounds. Single-breasted, 3-button models, well tailored, with durable linings. Sizes 36 to 44. Price .....

### DRIVE SPARROWS FROM THE PARKS

More Song Birds Than Will Be Found Every Summer.

Are the parks of Toronto to be equipped with sparrow traps? At a meeting of the parks and exhibition committee yesterday, Ald. Wickett suggested that action be taken to restore song birds to the parks. "In private gardens where sparrow traps are set the sparrows keep away and song birds come in," Ald. Wickett stated. "Where sparrow traps are not set there are only sparrows and robins."

An Up-to-Date Romance
By Tom Jackson
In a city full of brewers, trolley cars and evil-doers, a young girl wandered at the close of day. She would have walked much faster, but she'd worn out her corn plaster, for many, many miles she'd walked that day.

That girl a fearful, awful rap. In the air, well, for a minute, the poor, sad maid was in it—then landed down, plump, in a young man's lap. She was naturally excited, but the young man seemed delighted. He said: "Don't cry. I am not hurt a bit. 'Tis the first time that I've met you, but I never can forget you. With me you've made the biggest sort of hit."

Berlin Intermediates Win 4-0 First of Finals From Orillia

BERLIN INTERMEDIATES HAVE FOUR GOAL LEAD ON ORILLIA

Orillia Goaler's Good Work Kept the Score Down—Dutchmen Showed Nice Combination and Are Favorites for the Title.

By a Staff Reporter. BERLIN, March 3.—The intermediate championship of the O.H.A. will just about reside in Berlin this year if last night's game of the finals is any criterion. The Dutchmen swamped Orillia here tonight by the score of 4 to 0 and they will journey to Orillia on Friday with that margin to offset any unlooked-for come-back that the northerners may develop. It is hardly likely that Orillia, although a home team, will be able to do so. Their green and white have superior team work and speed to defend themselves with.

Fast in Second Half. Returning to the rink after their team wasted a moment in forcing the fray at top speed, dazzling work by both aggressions being the feature, and the checking back and stick work left nothing to be desired. From the moment the puck was in play, the Dutchmen were in command, and they were in command from the start.

Orillia Juniors Hold Their Own at Oshawa—Play Varsity in Final

ORILLIA JUNIORS ENTER THE FINAL HOLD OSHTAWA TO TIE AND WIN ROUND BY FOUR GOALS.

OSHTAWA, March 3.—In the most exciting hockey that has ever been staged here, Orillia and Oshawa Juniors played each other to a standstill in the last of the home-and-home games in the semi-finals of the O.H.A. before a crowd that filled every available foot of Bradley's arena. The Orillia team had a four-goal lead from the game played in Orillia, and came to Oshawa full of confidence.

The half-time score was 3 to 1 in favor of Orillia, and it looked as if the Oshawa team were to have an ignominious defeat, but in the second half the Oshawa team, on the ice full of fight and started out to overcome the big lead ahead of them, and in a whirlwind rush Williams went around Orillia's whole team and best their goalkeeper, landing the puck in the net. Something happened a minute or two later which put more heart into the Oshawa team. One of Orillia's players shot high with considerable force, the puck catching Butterfield, Orillia's star player, on the head, cutting him, and he retired. Miller, for Oshawa, going off with him to even up. From then to the end of the game Oshawa played like fiends, and had it all over the visitors on the ice, but Orillia's goalkeeper was a marvel.

The score should have easily been eight or ten in favor of Oshawa, but the Orillia goaltender seemed to have a screen around his net nothing could get thru. Time and time again Oshawa had the puck right up to their opponents' goal, but could not get past the goalkeeper. Butterfield was only off about five minutes, but Oshawa were out to win, and had it all over the visitors on the ice, but Orillia's goalkeeper was a marvel.

The ice was soft, the play was terrifically fast and pretty rough, in the last half especially. People lined the street for half a block waiting for the ticket to open before the game. It is said that the Orillia team was so confident of their victory that they did not even bother to change their jerseys.

Pro League Season Ends Tonight If Torontos Beat the Wanderers

FINAL PRO GAME AT ARENA TONIGHT TORONTOS MUST WIN TO LAND THE CHAMPIONSHIP—AMATEUR TEAMS ARE READY.

This is championship night in the N. H. A. The Montreal Wanderers come tonight, and they have the awarding of the honors in their hands. If the Montrealers can down the blue shirts here it will mean a tie and a play-off for the championship. The Canadiens are just one game behind the Torontos, and are almost sure to win tonight, as they have Ontario in their own backyard.

The Wanderers are going great guns, and Torontos will need to be in good shape to land the championship. A big crowd will be on hand for the last pro game of the year.

Both St. Michaels and T.R. & A.A. had workouts last night at the arena and both are ready for the final game on Thursday night. Jack McManus was out with the Saints and going well. He is right down to top form, and his ankle has been no trouble last night. The Irishmen had absolutely no evidence to indicate that they can overcome the champions' one-goal lead.

T.R. & A.A. gave their forwards a good drilling in breaking three abreast across the ice, and Gooch and Heffernan were pitted against them to break up the rushes. All the regulars, with the exception of Bud McLean, were in uniform.

The O.H.A. sub-committee finally got together yesterday morning for the consideration of the proposal of Belleville O. H. A. Juniors against Oshawa. The proposal was dismissed. The charge was that Belleville had no Oshawa Club base, and that the Oshawa Club was not to offer in support of their charge. The whole matter was dropped.

AS TO DRAFTING OF HOCKEY PLAYERS

Patricks Can Draw From Quebec, Ottawa and Wanderers.

OTTAWA, March 3.—A misunderstanding entered into between the National Hockey Association and the Pacific Coast Hockey League with regard to the drafting of players. Last fall, the N.H.A. drafted the Pacific Coast players, but the P.C.H.L. buried the hatchet and signed the players to contracts with the N.H.A. This was done with a view to keeping the Pacific Coast players in the N.H.A. until such time as they are able to develop players in the west. Last fall they drafted Frank Nighbor from the Torontos, Arth Throp from the Torontos, and Newey Lalonde from the Torontos. Lalonde refused to go, and the British Columbia magnates took the case to court. The court ruled that Lalonde should revert to the Canadians at the close of the present season, and that Lalonde should become the property of the coast clubs.

According to the peace terms suggested by the Canadians, Torontos and Orillia, who succeeded the Torontos, are to take Lalonde. The Torontos, however, are to take the Pacific Coast players, and the Orillia are to take the Torontos players.

FEDERALS READY TO STAGE BATTLE WINDY CITY FEDS ANNOUNCE TEAM

Will Go After Major League Players—Blading Case Cause of It All.

CHICAGO, March 3.—The greatest war of baseball history was threatened by President Gilmore of the Federal League today as the result of reports that the American and National Leagues were pressuring among the Federal players.

News that Pitcher Blading had resigned the Cleveland Americans after having signed a Federal contract made President Gilmore decide to take action. He immediately called a meeting of the Federal players and they agreed to go on strike.

BASEBALL GOSSIP

Sunday night's high wind carried away the roof of the east end of the Island Stadium. The wind lifted the roof up like a sheet of paper right up to the main entrance.

An Ottawa paper has the following: The Senators are unlikely to get Pitcher Blading, the big Richmond twirler. Manager Ryan of Richmond notified Manager Shaughnessy that the big twirler refused to come north. An effort will be made to persuade him to come, but if he is still determined to remain in the south, the Senators will have to look elsewhere for a twirler. Manager Ryan was willing to trade him for Kubat and Robertson. Pitcher Blading sent in his resignation on Monday and thus removed one cause for worry. The Senators are still anxious to get the twirler, but the question is unsettled. It is a matter of some interest that the Varnell of the Fort Wayne Club will give the Senators the use of his president.

It is a pretty well settled fact that Season Gagner of Brooklyn and Pitcher Blading of Richmond will be found on the Federal League roster. The match-talented but long-delayed list is made public.

The Hamilton fans are just beginning to realize that the Ambitious City is to be represented by a real ball team this season, and so everyone who takes the question into consideration has a boost for the new manager and team. This story seems somewhat strange, but the terrific handling that the ball team got last year from some of the fans, and outside of a few close friends, everyone who understood baseball at all times, had a knock for the Hamilton club.

**What Doctors Say About Good Beer**

The most eminent and best known physicians are unanimous in saying that, of all beverages, good, pure beer is the most wholesome.

That good, pure beer, like **Honigsbier**, combines not only the properties of water as a thirst-quencher and provider of fluid for the bodily functions, but is a wholesome, nutritious, digestible and invigorating liquid food.

Why then continue to use other beverages which contain only one or two of these properties when you can have Dawes **Honigsbier**—the purest, most wholesome and most delicious beverage that it is possible to brew?

# Millions of People Today Are Drinking O-T, the Most Successful NON-ALCOHOLIC Product the World Has Ever Known.

## What is 'O-T'?

'O-T' is derived from fruits, spices and herbs. The formula is a jealously guarded secret known only to the inventor.

Strictly speaking 'O-T' is not so much a drink as a drink-flavor. Its addition as a flavor to other drinks is its chief use. Just as salt and sauces are added to food to improve their palate quality, so 'O-T' should be added to all drinks—plain water, aerated waters, lemonade, ginger ale, grape juice, beers and ales, whiskey, gin and wines.

"No matter what your drink may be, Always add a little 'O-T.'"

## 'O-T' is non-alcoholic

'O-T' is non-alcoholic. In this lies undoubtedly its great claim to favor on the part of many of temperate or abstemious habits.

But—it has the "bite" or zest of alcohol without its intoxicating effects. For this reason, even to persons who have no scruples with respect to the drinking of alcoholic beverages, 'O-T' has come into high favor, for it gives equally pleasing and stimulating results without the immediate and subsequent undesirable effects of alcohol.

As a summer and winter drink 'O-T' is equally good.

## How 'O-T' got its name

WHAT do the letters 'O-T' stand for? Merely for a distinctive name. The inventor wanted a distinctive name for his product—something that would be easy to say, that would impress itself on the mind and memory, and that when printed in newspapers or on posters, would catch the eye quickly, and could be read at a glance. The letters 'O-T' in hyphenated combination have succeeded in introducing 'O-T' to literally millions of men and women all over the world.

"No matter what your drink may be, Always add a little 'O-T.'"

## How to drink 'O-T'

DILUTED with Lemonade, Soda, Ginger Ale, Water, (Hot or Cold), 'O-T' makes a blend most grateful to the palate and beneficial to the system.

MIXING 'O-T' with Gin, Whiskey or Wine improves their flavor, moderates their intoxicating effect, and leaves the fragrant aroma of 'O-T' on the breath.

A DASH of 'O-T' in Beer or Stout gives a fine "nip" and takes away the cold filling effect.

## 'O-T' and the demands of hospitality

A PHASE of 'O-T' worth noting is that it fulfils acceptably the requirements of hospitality. Frankly, the question of what to offer one's guests has perplexed many a host and hostess. The solution of the problem is 'O-T.' 'O-T' with ginger ale, 'O-T' with grape juice, 'O-T' with soda water, Vichy, Ferris or Apollinaris. And if one does serve wines, whiskey, gin or brandy, 'O-T' added to these beverages makes them more enjoyable. By adding 'O-T' it is possible to reduce your wine bill by nearly one-half.

## The romance of 'O-T'

IN Melbourne, Australia, a maker of mineral waters, after years of experimenting in the manufacture of satisfying, thirst-quenching beverages, discovered in the drink to which he gave the name 'O-T' the thing he was after. It "caught on," and has "held on" ever since. This was 10 years ago.

In Australia the success of 'O-T' was instantaneous and enormous.

LESS than two years ago, the inventor of 'O-T' took his product to London to develop a market for his discovery in Great Britain, and the result to-day is that the sale of 'O-T' in Great Britain has outstripped the sale in Australia by many times—truly an astounding success.

Simultaneously with the introduction of 'O-T' into England, 'O-T' was introduced in practically all the countries of the Eastern Hemisphere—India, South Africa, Burma, Ceylon, Japan, China, Egypt, Arabia—with great success.

Now 'O-T' has crossed to the Western World. It is sold in South America. It has been introduced to the United States. It is on sale in Canada.

## The purity and wholesomeness of 'O-T'

'O-T' has stood the test of many analyses. THE PURITY OF 'O-T' is governed by the Medical and Scientific Staff of the British Analytic Control; the Pure Food Society of Great Britain have also placed their seal on 'O-T,' therefore its purity and goodness are beyond question.

Among other high awards may be noted the Gold Medal of the International Exhibition, Paris, 1909; and the Grand Prix of the Empire Exhibition, London, 1911.

Another significant tribute to 'O-T' is its endorsement by the British Admiralty which has commended its use on His Majesty's Ships.

'O-T' is obtainable from Grocers, Druggists, Wine Merchants and Hotels. It is served at Clubs, Cafes, Restaurants, Bars and Fountains. The Price by the bottle: 40c. for the small size (12 oz.), and 75c. for the large size (25 oz.).

## BRITAIN TO RESERVE RIGHT OF INTERVENTION IN MEXICO

Sir Edward Grey Announced in British Parliament That Drastic Action May Be Taken if Offices of United States Prove Unsatisfactory.

LONDON, March 3.—The British Government's view that no immediate action could be taken by it in connection with the death of Juarez de William S. Benton, the British ranchman, was made quite plain today in the house of commons by Sir Edward Grey, the British Foreign Secretary. Sir Edward was, however, equally explicit in pointing out that, if Great Britain failed to secure satisfaction thru the United States, the British Government reserved to itself the right to secure reparation whenever it was able to do so.

He said, in part: "All the efforts that have been made hitherto have failed to secure an investigation into the facts respecting the death of William S. Benton."

"The persistent difficulties put in the way of such an investigation create the strongest presumption of a desire and an intention to conceal the truth on the part of those in Mexico who are responsible for what has happened."

"Communications with the government of the United States are still proceeding but I would repeat what I said last week—that these communications do not imply that the government of the United States has any responsibility for what has taken place—by which I mean, of course, the death of Benton."

"I am, therefore, well welcome to any action that the United States is prepared to take to secure justice, we have no title to demand as a right that the United States should itself resort to the use of force."

"One can demand that another government should go to all lengths to secure reparation for a crime only when one holds that government in some way responsible for the commission of the crime."

"So far, the United States has shown at least as much interest in the death of a British subject as it has in the case of outrages on American citizens—for I understand that several Americans have been killed in Mexico. And the United States has shown every desire to use its influence to secure protection for British subjects in the Mexican territory controlled by those described as Constitutionists."

Reserve Right of Retrial.

"I would, therefore, sum up the situation by saying that if the United States thinks it proper to take further steps, either on behalf of its own citizens or of a British subject, we will gladly await the result. But if, for reasons of its own, the United States does not think it desirable to take such steps, we must, of course, reserve to ourselves the right to secure reparation whenever there is an opportunity to do so."

"We have no intention of engaging in what on our part would be a fanatical attempt as the sending of a force—which to be effective would have to be a very large force—into any part of Mexico."

"Under ordinary circumstances we might have taken action at a port or by way of blockade. Under present conditions, if we took such action, and it had any effect, it could only result in giving assistance to the contending party in North Mexico."

Matter Not Settled.

"To take action that would positively help those from whom we demand reparation simply for the sake of appearing to do something, would be worse than futile. But we do not mean to let the matter rest and if by any change of circumstances it is in our power to take the matter further, we shall take whatever steps may be practicable."

Replying to a question, Sir Edward Grey said that Great Britain had not recognized General Villa as a belligerent.

A further question brought the statement from Sir Edward Grey that no assurances had been obtained from Provisional President Huerta regarding the protection of British subjects in Mexico.

Some things are better left unsaid. Every breach of promise suit demonstrates that.

Many a man has made a monkey out of himself trying to ape his betters.

## PARENT REPLIES TO HIS CRITICS

Questions Maj. Leonard on Work of National Transcontinental Commission.

## HINTS AT MORE WASTE

Raises Point About Construction of Car Ferry in England, Not in Canada.

MONTREAL, March 3.—Following the Gutelius report presented to the Ottawa House on extravagance in the building of the Transcontinental, Hon. S. N. Parent, chairman of the first commission, after issuing a statement that the Gutelius-Lynch-Staunton report was all at sea, comes out today with questions which he asks Major Leonard to answer. They are as follows:

"Is it not true that the commission of the Transcontinental Railway, consisting of Major Leonard, effected changes in certain sections of the Transcontinental which involved a considerable increase in the cost of construction?"

"Is it not true, that these changes were contrary to the agreement between the government and the Grand Trunk Pacific Railway of July 29, 1903, and confirmed by parliament?"

"Is it not true that the commission in concert with the Gutelius-Staunton commission had work done to the extent of thousands of dollars outside of and in violation of existing contracts?"

"Is it not true, that the commission bought about 170 arpents of land, at a thousand dollars an arpent for the construction of shops more than three miles from the main line?"

"Is it not true, that the commission paid a considerable indemnity to the Canadian Northern, Quebec Railway, for cutting the old Godofroy road in two?"

"Is it not true, that a steam car ferry at Quebec was illegally ordered in England by Major Leonard at a cost of \$560,000?"

"Is it not true that there are factories and equipment in this country capable of turning out a ferry boat and equipment as required for not more than \$400,000?"

"Is it not true that the old commission was given expert advice to this effect, and was contemplating issuing tenders?"

"Is it not true that the legislation of the Transcontinental provided that preference shall be given to material manufactured in this country?"

"Is it not true that the substance of the report given by the Staunton-Gutelius enquiry bears on reports already received by the Heald and Lumsden enquiry, and for the most part rejected by arbitration between the two parties?"

"I think that this is enough to show that we should enquire into the actions of our successors. We do not fear that comparison which a strict and non-partisan enquiry can draw between our conduct and theirs."

## BOY IS ON TRIAL FOR KILLING SEVEN PEOPLE

NANTES, France, March 3.—The trial opened here today of Marcel Redureau, a fifteen-year-old boy, who on Sept. 30 last, hacked seven people to death at Baes, bridge-en-Landreau, Loire Inferieure. The boy was employed as a vine-cutter. He became angry during a discussion with his employer, seized an enormous ax, and with a single blow cut the man's throat from ear to ear, killing him instantly. The murderer then killed his employer's wife and a servant, and his employer's mother and three children. Redureau in court today admitted all the accusations. A commission of doctors appointed to examine the accused reported that he was apparently not normal.

COMPANY UNABLE TO COLLECT DEBT

Protest Made Against Law as Interpreted by Chief Justice Haultain.

BEFORE LAW LORDS

Overseas Decision Must Be Patiently Awaited, Reminded of Doherty.

(Special to The Toronto World) OTTAWA, March 3.—Upon the motion to go into supply in the house today Mr. Thoburn, the Conservative member for North Lanark, called attention to a judgment recently handed down by Chief Justice Haultain of Saskatchewan. It appeared that a Montreal firm had sued local creditors of a company upon a debt due for the installation of a refrigerating plant, and had been non-suited on the ground that it had not complied with the Saskatchewan law in respect to registration and therefore being a "foreign corporation" it could not maintain an action in the courts of Saskatchewan.

Mr. Thoburn said it was outrageous to think that one could not collect a debt due from another Canadian corporation. If Chief Justice Haultain had correctly interpreted the law, then the law should be immediately repealed or amended. (Applause.)

Must Await Decision. Hon. C. J. Doherty, minister of justice, said there was great uncertainty as to what was the law on the subject. It seemed an incongruity for a corporation created by parliament to be debarred from doing business in any province of the Dominion. At the same time there was reason to believe that the provinces might properly enforce reasonable regulations against corporations chartered by some other province or by the Dominion Government. The matter had given rise to litigation which had given rise to the imperial privy council. Until the highest court in the empire delivered an opinion it would be idle as well as presumptuous for him to express any views on the subject.

RAILWAY ENTRY TO BE PROTESTED

Ottawa Committee Names Date to Hear Toronto's Plea Against Charter Extension.

OTTAWA, March 3.—The protest of the City of Toronto against the extension of the charter of the Ontario and Western Railway Company will be heard by the railway commission on Tuesday, March 10. Claude Macdonald, M.P., asked when the bill came up this morning that it be held over for a week. It is understood that the company has had a charter since 1881, which has from time to time been extended. The charter gives power to run into the city limits to which the municipality objects. Another bill to which there are objections will also be heard on the same date. There was a discussion in the railway committee today evening, of the Norfolk and Elgin Railway Company. It is a bill to extend the charter of the railway company to include the operation of trains and the operation of the railway. The bill is introduced by J. A. M. Aikins and is supported by Hon. H. R. Emmerson.

TORONTO SURGEON LEFT GAUZE IN HIS PATIENT

GANANOQUE, Ont., March 3.—Following an operation for appendicitis performed in Toronto, Gordon White, Dr. J. P. Sinclair thought it advisable to reopen the incision in his side. Dr. Sinclair drained a cupful of pus out of the wound and then discovered three short pieces of gauze bandage which were the cause of all the pain.

IS FROM LONDON.

LONDON, March 3.—C. H. Mathewson, a former Londoner, who for some years has been employed by the department of public works of the London government, has been appointed resident engineer on the works now under contract with the Canadian Stewart Co. on the Toronto harbor improvements. Mr. Mathewson will be associated with Mr. J. G. Sing, district engineer, Toronto, and also consulting engineer for the Toronto harbor board.

ACID STOMACHS ARE DANGEROUS

Nine-Tenths of All Stomach Troubles Said to Be Due to Acidity. A Physician's Advice on Cause and Cure. A famous physician whose successful researches into the cause and cure of stomach and intestinal diseases have earned him an international reputation, said in the course of a recent lecture that nearly all intestinal troubles, as well as many other diseases, were directly traceable to the diseased condition of the stomach, which in turn was due to the presence of too much acidity, commonly termed sour stomach or heartburn, which not only irritated and inflamed the delicate lining of the stomach, but also set up gastritis and other troubles. It is interesting to note that he condemns the use of patent medicines as well as of medical treatment for the stomach, stating that he and his colleagues have secured remarkable results by the use of ordinary bisulphated magneesia, which, by neutralizing the acidity of the food, removes the source of the trouble. He contends that it is as foolish to treat the stomach as it is to treat a man who stepped on a tack to rub liniment on the foot without first removing the tack. Remove the tack and the foot will heal itself—neutralize the acid and stomach troubles will disappear. Irritating medicines will disappear, but are useless, so long as the contents of the stomach remain acidic. Remove the acidity and there will be no need for medicine—the inflamed lining of the stomach will then heal itself. Sufferers from acidity, sour stomach or heartburn should get a small bottle of bisulphated magneesia from their druggist and take a teaspoonful in a quarter of a glass of hot or cool water, after meals, repeating in fifteen minutes, if necessary, this being the dose which the doctor has found most efficacious in all cases.

C. N. R. PLANNING TWO NEW LINES

Legislation Introduced at Ottawa to Change Routes and Extend Line.

OTTAWA, March 3.—The railway committee of the house of commons today reported the bill to incorporate the Sudbury, Kewawa and Bell River Railway, to run from Sudbury to the foot of Lake Timiskaming and from Kewawa Junction in Quebec to the crossing of the N.T.R. with the Bell River. G. Ruel, counsel for the Canadian Northern, explained the bill asking for an extension of the time for the construction of a C.N.R. line from a point between Port Arthur and Sudbury near the head of Long Lake, northwesterly to a point on the N.T.R., east of Lake Nipigon. He further asked leave to change the route of a line from a point on Lake Erie between Amherstville and Port Dover, thru Branford and Merrickville to be routed to near Owen Sound or Meaford on Georgian Bay, and permit it to be routed to near Kincardine. R. B. Bennett of Calgary said that the company was simply trying to "horn" this bill was merely because of a request for change of route. Mr. Bennett said there were no more notes in the bill to indicate how long these lines had been pending. Mr. Murphy (Northport), believed that the change route would be completed of the road. A new country would be opened up if the line were routed to Kincardine. The bill passed the committee.

SUBMIT LIST OF RADIALS.

STRATFORD, March 3.—At a special meeting of the council, Mr. Wright and Mr. W. J. Mooney were chosen as a committee to go to the hydro radial field day at London. The council also approved a list of radials in which it wishes to receive estimates from the hydro commission. They are as follows: Stratford to Guelph via Wellesey; Stratford to Grand Bend; Stratford to London via Thamesford; Stratford to Brussels via Monkton.

ORGANIZE FOR RADIALS.

COLDSTREAM, March 3.—At a special meeting of the council of Lobo, many ratepayers met at the request of the council to consult about the building of a radial road thru this section, and passed the following resolution: "Resolved, that we are entirely in favor of such a road to pass thru this township, near its centre, and in nearness to a direct line from London to Arkoona; also of a cross-road from Stratford thru Parkhill to Grand Bend. Signed, on behalf of the ratepayers, D. Gray, S. P. Brown, S. P. Zavitvitz."

TO SEEK FARM LABORERS.

LONDON, March 3.—At a joint meeting of the Greater Middlesex Association and members of the city council, P. C. Claxton for an order compelling the railways to proceed with the expropriation of property for the Union Station at Toronto was called before the railway committee today. It was announced that it was withdrawn.

RESIGNS IN PROTEST.

KINGSTON, March 3.—As a protest against the rumors that he was interested in land at Kingston Junction which the property committee, of which he is chairman, recommended the city council to purchase for industrial purposes, A. F. Harrison resigned his resignation to the council last night and refused to withdraw it. He said he had been made a laughing stock to his friends by being too highly to allow to be injured by innuendoes.

DIED TRYING TO SAVE WIFE.

CAMPBELLFORD, March 3.—At Heaty Falls, two Austrians, Peter and his wife, were burned to death in a fire which destroyed their boarding house this morning. Twenty men were engaged in their night clothes. Bonivant discovered the fire, aroused the inmates and re-entered the building for his wife, but their escape was cut off.

GAS COMPANY FINED.

BRANTFORD, Ont., March 3.—The Brantford Gas Company was this morning fined \$100 and costs on a charge of injuring the public health. The suit was brought by the city following upon the introduction of Tiltbury sulphur gas here without purification, and the case was adjourned from time to time to allow the company to get a purifier working.

CAMPAIN FOR HYDRO.

BURFORD, March 3.—There will be a meeting here Wednesday evening to discuss the hydro-electric question. A vote on the money bylaw will be taken on Monday next. Engineer Jefferson of the Hydro-Electric Commission is present. It is the feeling of nearly all the citizens that hydro will pass with a large majority.

EARLY CLOSING BYLAW.

PARIS, March 3.—The early closing bylaw was passed at a special meeting of the town council. It provides for the closing of dry goods stores, boot and shoe stores, grocery stores, tailors' and gents' furnishing stores thru the year between the hours of 7 and 8, except during December and nights before holidays and Friday and Saturday nights.

LINEMAN BADLY HURT.

BRANTFORD, Ont., March 3.—John Wainmaker, a hydro employee, fell from a pole while wiring a house on Georgian street this morning, breaking his thigh bone. On removal to the hospital it was found that he had suffered internal injuries. His life is despaired of.

MORE HYDRO WANTED.

LONDON, March 3.—Westminster Township Council sent to the Ontario Power Commission a petition from ratepayers asking for the extension of hydro-electric power. The petition of the township desire to make use of Niagara power in agricultural and domestic uses, as many of the neighbors over the Oxford border do.

BLENHHEIM SEEKS HYDRO.

BLENHHEIM, March 3.—Blenheim wants hydro-electric service. Mayor J. B. Smith has written to Hon. Adam Beck, and a public meeting is expected to be held soon to consider the proposition.

Rent Offices Having the Strategy of Position in Your Favor

Location is often a winning factor in the battle for business success. The location of the new Royal Bank Building, on the north-east corner of King and Yonge Streets, is within a few steps of almost every important financial institution. It is the financial centre of the city and of the province. Every office in this new building will have the continuous service of six express elevators, giving maximum ease and quickness of entrance and exit. Complete suites on one floor may be arranged for now.

All offices are planned to be "usable" as to entire floor space paid for. They are flooded with daylight on all sides; the water, rooms and toilet conveniences are exceptional in space, in fittings and accommodation, and are placed on each floor. Great care has been taken to provide for the interests of tenants to a degree never before attempted in Canada.

Occupation About Oct. 1st, 1914

We will be pleased to receive correspondence or interviews regarding complete floor suites in this most modern building.

The same ultimatum was given to the employees of the Acton Harness Works, and not a man went to the bench.

CAN PREVENT WAR BY ELECTION ONLY

Pall Mall Gazette Says Deadlock on Irish Question is Absolute.

LONDON, March 3.—The Pall Mall Gazette declares today that a general election is in sight, the deadlock being absolute with no prospect of its being solved under the conditions existing in the present parliament. National control of the commons and the government forbids an effective attempt to secure a compromise in Ulster. The Pall Mall Gazette asserts that the government is preparing its suggestions while well knowing that they will be rejected to be an absolute failure.

RESUME DEBATE MONDAY.

LONDON, March 3.—The second reading of the home rule for Ireland bill is to be debated next Monday in the house of commons, according to an announcement today by Premier Asquith, who said he would then make his final statement as to the proposed concessions to Ulster.

Electricity Will Cure You

Prof. Begonnie, of Paris, France, says from results of a series of experiments on the use of electricity to cure disease and build up the strength of the human body. "The moment is not distant when all troubles of manhood will be cured electrically." That the human body is electrical is no longer a mere theory among scientists and up-to-date physicians. It is generally conceded to be an absolute fact. I have invented an electric body battery for the cure of chronic and nervous ailments. It gives health, new part of your blood, nerves, organs, or any other ailment. My Electric Belt generates a powerful current of electricity, and can be made as strong or mild as you like, by the adjustment of a rheostat. Scientists tell us, and I have proven, that the motive power of the body is electricity. When you are full of it you are strong and healthy. When you lack it you are weak, stupid and nervous. Electricity cures by restoring to the body the power it has lost. When I say that electricity cures, I don't ask you to take my word for it. I back up my statement with the testimony of hundreds of honest men who have found health and strength in this life-giver, and who were just as skeptical as you before they tried my treatment.

READ WHAT SOME OF THEM SAY.

Dr. McLaughlin:—No More Backache—Feels Better Than Has for Ten Years. Dear Sir,—I can safely say that I have not felt better for ten years than I do today. The Belt has done all you said it would. I must say you have acted after you got my money, show you a real honest man, which a patent doctor appreciate very much. I have told the people here how honest you have been with my case, and they think the Belt is a great invention. I feel strong and since I wore it. I feel a difference the third or fourth time I wore it. I will do all I can by recommending your Belt to others.

WHEAT SOLD ON EXTENSIVE SCALE

Prices Broke at Chicago Under Vigorous Attack of Bears.

CHICAGO, March 4.—Speculators sold wheat today with more courage than they have shown in some time. Opinions by crop experts that the wheat crop is larger than the best promise in many years, took a heavy toll of wheat prices.

Large Stock of Corn. Corn suffered a further reaction as a consequence of the break in wheat and the fact that receipts were less than expected.

Receipts of farm produce were only 12 loads of hay. Hay—Dry loads sold at \$17 to \$19 per ton.

The People of Toronto are invited to examine a magnificent painting of WINDSOR and district, now on exhibition in Oak Hall window, northeast corner of Adelaide and Yonge Streets.

This painting is now exhibited for the first time in this city, and it accurately depicts the many interesting features of Windsor, showing quite five miles of the water front, the Detroit River and the shipping, also the extent of the great city of Detroit in a most realistic way.

Those who have had an opportunity of examining this painting have declared it to be a most commendable manner of accurately and artistically presenting the features of a territory which for the next few years will probably be the most interesting section of Canada.

An examination of the painting should be made as early as possible and a PHOTOGRAPHIC COPY OF IT SECURED AT ROOM 309, LUMSDEN BUILDING, with information in detail as to Windsor and district.

SLOW LIQUIDATION DEPRESSES PRICES QUIET TRADING IN NEW YORK STOCKS

Toronto Market Does Not Arouse From Its Lethargic State. Market Had Not Recovered Yesterday From Effect of Storm.

NEW LOW IN STEEL NEW HAVEN WAS DOWN Larger Interests Are Not Interfering With the Course of Market. Big Shrinkage in Railway's Net Earnings for January Reported.

The Toronto stock market showed an inclination to work out of its lethargic condition yesterday. In spite of dullness there was enough evidence of prospective liquidation to cause brokers to take the short side to an extent warranted by the outlook. January's speculation was not lavish and the proportion of long accounts that might fall in thereby is not large. Impatient traders and some short paid up owners are letting their nerves wear out by the daily grind of slow disintegration in prices. Market makers in the big sense are not interfering with affairs and will wait a time when the temper of the outside is more susceptible to manipulation before commencing another period of revival.

CONSUMERS' GAS BYLAWS RATIFIED Meeting of Shareholders Confirmed the New Scheme of Financing.

Yesterday's meeting of the Consumers' Gas Company shareholders ratified the bylaw which has been under consideration since Feb. 2. According to General Manager Arthur Hewitt, the following business was transacted: Providing for the re-division of the capital stock of the company into shares of one hundred dollars each, the issue of new certificates therefor and the sale of the shares to persons continuing to hold respectively one \$50 share and the distribution of the proceeds of such sale ratably among the shareholders entitled thereto.

WEDNESDAY MORNING.

CATTLE MARKET AGAIN LOWER

Sheep, Lambs, Calves and Hogs Were Unchanged on Tuesday.

Receipts of live stock at the Union Stock Yards yesterday were 28 car loads, comprising 422 cattle, 314 hogs, 23 sheep and lambs and 61 calves.

The cattle receipts were light, but there were about 300 held over from Monday, which with the 400 that came in today, made about 1200 cattle on sale, which, apparently, by the movements of sale were not many for the demand.

Buyers reported that they were prepared to purchase the cattle at values that would allow them to turn a profit at once at which the retail butcher can turn a profit to the purchasing public.

Choice butchers sold at \$7.50 to \$8.00; common, \$6.50 to \$7.00; medium, \$6.00 to \$6.50; heavy, \$5.50 to \$6.00; stockers and feeders, \$4.50 to \$5.00.

Choice fresh milkers and forward springers are in good demand, but backward springers are slow sale. There was a moderate run yesterday, which sold at \$9 to \$10, the bulk going at \$7 to \$8.

Receipts of calves were again light and prices ruled firm. Choice veal calves, \$10 to \$11; good, \$9 to \$10; medium, \$7.50 to \$8.50; common, \$6.50 to \$7.50.

Choice hogs, \$6.50 to \$7.00; medium, \$6.00 to \$6.50; heavy, \$5.50 to \$6.00; stockers and feeders, \$4.50 to \$5.00.

Choice sheep, \$5.50 to \$6.00; medium, \$5.00 to \$5.50; heavy, \$4.50 to \$5.00; stockers and feeders, \$3.50 to \$4.00.

Choice lambs, \$5.50 to \$6.00; medium, \$5.00 to \$5.50; heavy, \$4.50 to \$5.00; stockers and feeders, \$3.50 to \$4.00.

Abolition Co. on Monday and Tuesday... Choice 1 choice load of steers, the best seen on the market in many weeks, 1400 lbs. each, at \$8.45; cows, \$8 to \$8.75; bulls, \$7 to \$7.25.

W. James of Wallace had the best steer weighing 1550 lbs., on the market, which was sold by Corbett and Hall for \$8.50. This animal was fed by Joseph Wrigley of Ayr, Ont.

President of Timiskaming Company Believes Big Amalgamation Deal is On.
