ANOTHER UNFORTUNATE CHOICE

AN UNFORTUNATE CHOICE OF WORDS.

To the Editor of The Globe: The public were informed thru the dily press that an official welcome to Canada was tendered by the depity of His Excellency the Government in his absence (the Hon, Justice Girouard) to Cardinal Vannutelli, the representative of the Pope of Rome at the Eucharistic Congress recently held at Montreal in the following message:

"The Administrator of the Govern-ment of Canada presents his homage to his excellency and bids him wel-come.—Girouard."

come —Girouard."

Exception has been taken to the use of the word "homage" in the above message. This message was an official act of the representative of the Sovereign of the British Empire. The point would seem to be well taken.

The word homage in its primary sense is defined in Webster's dictionary to mean: "(1) A symbolic acknowledgment by a feudal tenant to and in the presence of his lord, that he was his man (homo) or vassal: a profession of fealty to a sovereign. The term is also used to denote "reverential submission or respect." The word in ordinary parlance is the same as 'fealty,' which denotes 'a faithful and solenin adherence to one to whom and solemn adherence to one to whon and solemn adherence to one to whom we owe supreme power and authority.' It is also used (2) to express 'reverential regard or obelsance,' and also (3) to express 'reverence directed to the Supreme Being.' But the principal and popular use of the word as well as its primary meaning is reverential submission to a sovereign lord or master." ord or master."

The explanatory quotation given in Webster's dictionary is Dryden's coup.et:
"Go, go with homage you proud victor Go, go, lie like dogs beneath your master's leet."

All Canadians gladly welcome to their shores distinguished foreigners and strangers such as those who at-tend this conference, but that is en-tirely a different matter from the sotirely a different matter I om the so-called welcome above referred to.

We may suppose that Mr. Justice
Girouard did not, as the representa-tive of his Sovereign, intend to con-vey to the representative of the Pope the thought which the word he used plainly expresses; and I presume he did not mean to use a word which did not mean to use a word which in the English language would in its connection be both traitorous and of-fensive. But certainly the choice of the word was most unfortunate and objectionable.

as right and timely. THE KING IS COMING IN HIS GLOBY

There is a big new thing developing in con with the imperial idea, and that is that the King of England is to, will and must visit every portion of the Empire and himself open the parliaments of the three or four great commonwealths. The King, in five words, three days ago, declared that a Canadian regiment was of the imperial army and that settled it; and when the King of England, as we believe King George will at a very early data, opens not only the British parliament in London but also wil only the British parliament in London but also will come forth to open our parliament at Ottawa, the parliament at the new capital of Australia, and of the South African commonwealth, then will the Empire have been solidified as was not dreamt of in the minds of any of our people five years ago.

Imperial consolidation is moving so rapidly that we can hardly keep pace with it: and The World believes that almost as near at hand will be some kind of trade preference within the Empire that will also carry the movement forward in a vigorous way.

Perhaps a way will be found for the United States

Perhaps a way will be found for the United States the absence of Hon. W. S. Just who will make the first move is not known, but, in view of the independent attitude Canada has assumed, it is almost safe to assert that it will come from the United States, and that it will be made soon. rangement can be brought about between the variwe are prepared to bank most.

In the meantime, those of you who have any doub, as to what imperial unity means, let them watch the measure of reciprocity. # JURY CENSURES G.T.A.

Find that Edward Crane's Death at Dunn Ave. Crossing Was an Accident.

Indignation that a man should be expected and required by the Grand Trunk to work 21 hours at a stretch was shown by the coroner's jury enquiring last night into the death of Watchman Edward Thomas Crane, killed at the Dunn-avenue crossing on

At the conclusion of the evidence, the foreman announced that it would not be necessary to retire to return a ver-dict, but he would like to know if it was a rule of the company that compelled deceased to work for nearly 24 hours straight, or was it an agreement between the two watchmen when hanging shifts.

"I want to know this, because we all feel pretty strongly on that point, par-ticularly when the Grand Trunk makes it a boast of not permitting their drivers to work more than so many hours," he said.

Corner Lynd informed him that the company fixed the schedule for watchnen, an dagreed that it was a hardship to the men. A rider could be attached to the verdict censuring the company on this point.
"Well, Mr. Coroner, I would like to reth wording of that rider made pretty stiff," said the foreman.

The result of the deliberations was a finding "that deceased came to his death."

death by being struck by an engine on the G. T. R., that it was an accident, but we consider the company censurable for requiring or allowing watchmen to be on duty for 21 hours."

Leonard Harris, driver of a milk wagon, testified to seeing deceased on the south track an account to the south track are south tracks. wagon, testified to seeing deceased on the south track sweeping the crossing.

"He waved his broom and I nodded to let him know I saw him. He went on sweeping and then the engine whistled. My horse backed up and the next thing I saw him as if falling away from the engine."

"There are no gates there?" asked Assistant Crown Attorney Monohan. 'No. It is very dangerous, nad my father got struck there once."
Since the terminal had been moved

to Mimico, it was a very busy crossing. The view from the west was obstructed by the cabin and some houses, and it was hard to see any train approaching from the east when coming from George Teale of Belleville, engineer of the train, said he saw the watchman

thing at this point. As the watchman paid no attention, witness tried to stop and brought his engine to a standstill 60 feet east of the crossing.

Peter Morrisey, the other watchman, said trains ran thru all day and night, sometimes at 18 miles an hour. Deceased had been on duty since 9 o'clock Sunday morning. They shifted every two weeks, and this had been Crane's long trick. He believed Crane's eyesight and hearing were both good.

## VEGETABLE CROP REPORT

The Ontario Vegetable Growers' As-

The Ontario Vegetable Growers' Association have received reports from the branches at Ottawa. Believille, Kingston and Picton regarding the condition of the crops. These reports show that the tomato crop in Eastern Ontario is not up to the average, and the potato crop is lighter than usual, altho the late varieties are pioking up. The condition of the onion crop is not as favorable as could be wished, owing to the blight and onion maggot. Early celery will not amount to much. Winter varieties of cabbage and cauliflower will be good if the weather is favorable. Ottawa reports that the corn crop is poor and that the vegetable crops generally have been poor and the prices low. Picton reports crop conditions good.

In Central Ontario conditions are

conditions good.

In Central Ontario conditions are fair and tomatoes ripening slowly. The potato crep is poor in the early varieties, altho the later varieties will be good. Onion crops are not up to the average. Around Sarnia the onion crop is not more than 50 per cent. of an average. The celery crop is good, especially that sown late, and the cabbage and cauliflower crop seems unusually good. Sarnia reports that quantities of sweat corn are being shipped, a new departure in that vicinity.

Reports have been received from Tecumseh, Ojibwa, St. Thomas, Dunnville and Brantford and show that the tomato crop is good average, with conditions favorable. The early potato crop suffered from dry weather and then from excess of rain, while the late potatoes are improving. The reports on the onion crop are the same all over the province—poor, while exceptional cases exist where the crop is an average. The celery and cauliflower crops have come on well and will still improve if the weather is favorable. Reports from Essex complain of a very dry transport. favorable. ## Miss Moyes in Final Meets Miss Fairbairn For Championship

The matches in yesterday's Ontario ampionships, which excited the keenes ames in ladies' singles. Miss Moyes dofeated Miss Andras after a hard game, in which the loser, the over-matched, played which the loser, the over-matched, played cleverly. Miss Summerhayes met Miss Fairbairn and played her usual steady game, driving and cross-courting heautifully for many points. The two winners meet on Saturday in the final, and as Mrs. Hannam will not defend, the title will depend on the result of their meeting. Both ladies are playing wonderful tennis at present. Miss Moyes' prowess is well known and Miss Fairbairn is playing hetter than ever before. Whichever wins there will be a new champion on Saturday night. All of the double events were well advanced and all of the matches scheduled for this afternoon may be expected to be keenly contested. Yesterday's results:

Miss Fairbairn defeated Miss Summer-hayes, 9-1, 6-0.

Mrs. Cooper defeated Miss Evans, 6-1, Miss Fairbairn defeated Miss Sparks, 6-0, 6-0.

Saturday. They practised for an hour yesterday afternoon at Brockton Point. Vancouver, and were closely watched by representatives of the Westminsters. The local team had their final practice last night, and have come to the conclusion that the brunt of the conflict will fail on their defence. The disposition, therefore, is to cover the Nationals most effectively at that point on the field.

The officers of the lacrosse club here predict that fine Westminsters will win the first match by a margin of three or four goals. Newsy, Lalonde says that Lionel York and Mat Barr are very men. And McCaw.

Further west, at a point just east of Sunnyside, and opposite the foot of Roncesvalles-avenue, some fifty men are digging a wide cut to the south of the line. When this is well started, which will probably be on Monday, a track will be laid from Sunnyside east thru this cut, a steam shovel will be run out, and the work of digging the long trench to Bathurst-street will begin. As there is no room for another track at this point, the traffic will probably use the north track while the shovel is digging the south side, and when the southern part of the trench is finished, the traffic will move down and over and the shovel will begin on the north. When the entire trench is finished and the new permanent tracks laid, the streets crossing it will be provided with substantial bridges. It is impossible to tell how long the work will take, but two years seems a safe estimate. The hardest part, of course, will be the excavation to the east of Sunnyside. Two steam shovels will eventually be used, and parts of the cut will be 24 feet in depth. Constructing the embankment west from Sunnyside will be more simple, as it is merely a matter of dumping the earth and banking it up.

Trades and Labor Council.

There was a brief session of the District Trades and Labor Council last night, owing to the absence of many of the members as delegates to the Trades and Labor Congress.

There was a warm discussion over the soliciting of advertising for a labor directory, under the guise that the directory is authorized by organized labor in Toronto. The question was referred to the executive. ferred to the executive.

everywhere been a success. To say the contrary is to admit ignerance of the results attained in all parts of the world. Toronto must get power from ties commission. Such a commission can handle a public service like the street railway in a more satisfactory way, and with a more settled, definite and continuous policy than could be expected from a constantly changing

### FATHER VAUGHAN'S DISTING-TION.

Father Vaughan has explained everything. When he said that Protestantism was a religion without a soul he merely meant that Protestantism is sider that the mass is merely the symbol of the reality, which they regard as the soul of religion. It is all in the point of view.

Father Vaughan said: "I think that Protestants are infinitely superior to the religion which they profess. I admire them, their zeal, their energy, entraordinary generosity, but I can't admire their religion." And the average Protestant will use exactly the same language to give his opinion of Romanism. Honors are about even.

Father Vaughan has reduced the difference between Protestantism and Romanism to a major and minor premise. Nothing like logic.

Must Suffer in Silence.

The Natural Resources Co., Ltd., yesterday applied to Justice Middleton for an injunction to restrain "Saturday Night" from publishing articles reflecting on the company pending trial of an action for libel. The company is interested in land at Fort George, B. C. Whether or not the G. T. P. has located there is the point to be decided as between the two parties.

Noticing in the company's literature that the articles complained of were being replied to, his lordship remarked: "If parties reply to attacks by counter publication, they cannot then apply to the courts for an injunction."

Judgment, however, was reserved.

Endieman v. Rothschild.—G. E. Buchanan (Sudbury) for plaintiff. R. R. Mc-Kessock, K.C., for defendant. An action by plaintiff to recover \$2000 for commission on the sale of a certain mine, less a contra account of defendant of \$688.21. Defendant disputed plaintiff's claim and counter claimed for \$238.20.

Judgment: The contract was not in writing and the evidence of each of the parties is to some extent unsatisfactory, but in the result I determine the case more upon my view of the weight to be attached to the evidence of the parties themselves than upon the other evidence. The onus is on the plaintiff, but weighing all matters as best I can I determine the issue of fact in his favor. Judgment for plaintiff for \$2000 and costs of action and for defendant against the plaintiff on the counter claim for \$603.20, with costs fixed at \$25. This to be set off pro tanto against plaintiff's judgment.

quittal on Shooting Charge.

William P. Riddell pleaded guilty in the sessions to three charges of "false pretences." His counsel explained that he had given cheques in payment for goods believing that he would have money in the bank to meet them. As he has already served three months in jail waiting for trial, Judge Denton sentenced him to seven days on each charge, to run concurrently.

Percy L. Bernard pleaded guilty to stealing \$50 from the City Dairy Co. Carman Montone, an 18-year-old Italian, was found guilty of incest. His 16-year-old sister was complainant.

James B. Crawford (colored) was acquitted of a charge of shooting at William M. Davis (also colored) with intent to maim. J. Walter Curry, K.C., defended and contended that altho Crawford did shoot Davis at close range as the latter was climbing into a back window at 156 1-2 York-street, on the night of July 2, he had only fired with the idea of frightening away an intruder.

Judge Denton held in his charge that prisoner had no right to shoot under any circumstance unless he had first warned the other party.

and mind and will. He might consult his authors, but if he misinterpreted them, they had nothing to say.

Three Vast Forces.

Our mental outlook on the three vast forces of mind, heart and will, a triple alliance that could not be broken, governed everything. They had met in their club, not so much for what they could get, but for what they could give. Their object was to promote the welfare, not of one part, but all parts of the living organism of the empire. They wanted to feel and to see that the flag of the empire was flying topmast high, and in a crisp, clear, sunny atmosphere. This sentiment, ennunciated in ringing tones, evoked loud ap-

clated in ringing tones, evoked loud applause.

Their empire was not only the greatest, but the most flourishing that the world had seen, he observed, and from whatever aspect, almost appalled me by its vastness. But Phoenicia, Carthage, Rome, were not to be forgotten, and the Mediterranean, which was but a lake around the feet of the Caesars. It was not in terms of wealth or commerce that they were to estimate the empire. They must not weigh it by what it possessed, but by what it was. A man was not to be valued for his bodlly weight. He was only a ticket when he traveled, and a number in an hotel. A man is not what he has, or what he says, but what he is. (Applause.)

what he says, but what he is. (Applause.)

The empire would be what its individuals were, and the number of its upright and strenuous citizens would measure its worth. Upright character dominated by lofty principles was the only thing that would stand the wear and tear of the fret and fume of our everyday working life.

They had nothing better to do than to build up their own individual characters.

It had been the ambition of his life to come and see the Dominion which had so shown its patriotism and loyal-ty and love for the mother that bore

"Beware of racial suicide," was the next point. Men might say what they would, and they said things they would have been astounded to hear a generation ago. They were told there was no such thing as sin. Men were told there was no more blame attaching to them for not reaching a high moral standard than for not reaching a high physical standard."

Old Belt Line Will Soon Be Centre of Business Activity,

NORTH TORONTO, Sept. 15.—(Special.)—The southern end of the town experienced something of a thrill yesterday when for the first time in 12 years the sight of a Grand Trunk en-gine and train steaming along the old At Line Railway was seen. The instruction train, containing about a dozen ears of gravel for ballasting came right up to Yonge-street bridge, the present eastern terminus of the oad, and the work of placing the cadbed in first-class shape will be that the line will be at once extended to the old station buildings a few hun-dred yards east of Yonge-street, but the company have no intention at the present time of going beyond the points indicated. The saving to the merchants and citizens generally in avoiding the big hill to the north of the C.P.R. tracks in the cartage of freight will be enormous. the same service does not obtain in West York. From the unanimity and enthusiasm manifested last night this condition will undoubtedly be soon re-(principally, or ostensibly) of selecting delegates to the international convention of the U.I.L., to be field at Buffalo, Oct. 27-28. President F. J. Roche was chairman. Altho it is usual to have only three members from any branch at the international conclaves. National Secretary O'Callaghan requested the Toronto branch to send ten members, if possible—a signal honor, more especially in view of the fact that Canadians show loyalty to the British Empire, while the American branches disclose an undoubted spirit of hostility. A provisional body of ten delegates were chosen, the choice of alternatives being left to a committee of three, consisting of the president, the secretary and the treasurer of the Toronto branch of the U.I.L.

Communications were received from Col. Mason, general manager of the Home Bank, and from Mr. Peter Ryan, the former expressing, thru his secretary, his regrets at not being able to act on the O'Connor reception committee, owing to his absence in the west, and the latter expressing surprise that the names of certain prominent Irishmen, who were active workers for the Irish cause, should have been dropped from the list selected by the sub committee, but stating that he would, in any case, gladly do all in his power to make the O'Connor reception a success.

This firm has had extensive experience in association architecture, and now has as many as thirty-five buildings in course of construction.

The committee is considering the details of the buildings, and has practically agreed upon erecting all the buildings free of debt, giving the boys work large prominence in the Central

buildings free of debt, giving the boys work large prominence in the Central and West End; and in view of the othletic and gymnastic interest in Toronto, providing specially large and well ventilated gymnasiums and shower baths. An interesting experiment has been tried in several of the cities of the United States by which lockers are done away with in the gymnasium, and each member is given a clean sult every time he takes exercise. The only need for a locker under this plan is for such temporary purposes, no permanent lockers being assigned, but space for hanging street clothing of the member being maintained.

The committee is also planning for large dormitory accommodation in the Central and West End buildings. The Broadview situation is so unique that it will require special treatment. A detached building for men will be erected and it will be connected with the present boars, building

Mr. Warburton reports that the collections from the subscribers to the building fund are most encouraging. The treasurer has received to date \$168,189.86 for the men's fund, and \$18,492.36 for the women's fund.

"If this keeps up," said Mr. Warburton to The World, "Toronto will have a two-fold record—that for raising the largest amount of money of any city in a given time, for association work, and also meeting the obligations thereunder in advance of the period stipulated on the subscription cards."

The experiment of employing convict labor on road construction in northern Ontario has so far proved a success, according to the statement of the deputy minister of public works. The gang on the Matheson-Night Hawkoad contains 55 prisoners and 22 freemen. Six miles of road have been conseructed: Five of the convicts engaged seructed: Five of the convicts engaged an the work completed their sentence and were discharged. They immediate-

ly joined the free gang.
On the section from Hill's Landing,
on Porcupine River to Porcupine City, on Porcupine River to Porcupine City, 44 convicts are employed.

This class of work is proving advantageous for the prisoners. It reduces the cost of maintenance to the government and the outdoor work keeps their health in first-class condition so that they obtain work easily on discharge.

A disposition to take profits was somewhat of an influence at the Toronto Stock Exchange to-day. This came from traders who are still under the influence of Wall Street sentiment. It must be said, however, that this turn of the inside speculative sentiment was not much of a market factor, and something further will be required to create the impression that prices are not still in a constructive mood. Montreal had another awakening to-day, with considerable activity at sharp rallies in Montreal and Shawinigan Power stocks. Irrespective of what American securities might do, there is no want of confidence in Canadian listed issues, and it is not improbable that a still greater interest will

# By Weakness on Wall Street

World Office,
Thursday Evening, Sept. 15.
Trading slackened off to a certain extent in the Toronto Exchange dealings to-day, and prices in some of the active shares which have undergone recent advances were fractionally lower.
There were two reasons assigned for the change in to-day's market; first, the offerings from those who had profits, and secondly, professional pressure by those who were immediately influenced by the weakness on Wall Street.
Less activity in the market was occasioned by these two factors, but the morale of prices was not seriously disturbed thereby.
Twin City, Mackay and C. P. R. were evidently influenced by the lower quotations in New York, but the extent of selling here in either of the issues was small.

ST. JOHN, N. B., Sept. 15.—Premier Hassard, Hon. H. J. Palmer and A. W. Hassard, Hon. H. J. Palmer and A. W.

4,200 Warburton, M.P., of P.E.I., and Acting Premier McLean of Nova Scotia,

100 are the guests of Premier Hazen, and will this affernoon discuss federal re100 presentation. It is feared that as a result of the redistribution of seats (17,20) following the taking of the census next year, Nova Scotia and New Brunswick (10) may each lose two seats and P. E. I. one seat. Mr. McLean said the question of representation of the maritime provinces in the federal house was getting to be a very serious one, and
