BRITISH AMERICAN LARY OUT SUCCESSFUL DAYLIGHT RAIDS

Germans Occupy Odessa—French Repel Attacks—British Penetrate Enemy Lines Near Ypres

TONS OF BOMBS DROPPED IN GERMANY

Munition Works and Barracks at Freiburg Attacked in Daylight Raid.

BOMB BRUGES DOCKS

Munition Depots Near St. Quentin Also Attacked With Heavy Losses.

London, March 14.—On Wednesday afternoon British airplanes attacked munition works and barracks at Freiburg, Germany, says an official statement on aerial operations. "Nearly ten tons of bombs were dropped," says the statement. "All our machines reached their objective. In addition to the raid reported in last night's official statement, over three tons of bombs were dropped on the docks at Bruges. On Tuesday bombing raids continued with greater vigor than on previous days. Over thirteen and one-half tons of explosives were dropped on various targets, including railway sidings at Mons and Havay, large ammunition depots northeast of St. Quentin and south of Douai and billets east of Lens. "In the course of the fighting, which was continuous throughout the day, 11 German machines were brought down and eight were driven out of control. One hostile observation balloon was destroyed. Six of our machines are missing. "On Tuesday night seven tons of bombs were dropped on enemy billets between Lille and Cambrai."

GRAFT SUSPECTED IN GERMAN FACTORIES

Demiler Munition Plant Probe Has Caused Panic on Berlin Exchange.

Washington, March 12.—According to a dispatch today from Zurich the German socialist newspaper, Vorwaerts, says that the scandal in Germany connected with graft at the Demiler munition factories, which the budget commission of the Reichstag is investigating, has caused a veritable panic in the Berlin stock exchange. The Demiler stock fell two-thirds of its value, a large number of stocks suffered similar shrinkage, due to the popular belief that the greater part of the war factories have been guilty of grafting and will be prosecuted by the German treasury.

FRENCH FELT FOUR OF ENEMY RAIDERS

Many Also Make Disastrous Landings on Return, Owing to Bombing of Airdromes.

ATTACK ON LARGE SCALE

Only Small Percentage of German Machines Reach Paris in Effort at Frightfulness.

Paris, Tuesday, March 12.—Four German machines brought down and 15 trained aviators, mechanics and pilots killed or made prisoner were the German casualties in last night's air attack on Paris. The raid was attempted on a scale of magnitude hitherto unapproached, nine squadrons participating in the attack. Some of the machines followed the Rivers Oise and Oureq, while others came along the Creil-Paris and Soissons-Paris railroads.

SEVERAL AUSTRALIAN TOWNS DEMOLISHED BY CYCLONE

Melbourne, Australia, March 13.—Several towns between Cooktown and Cairns have been demolished by a cyclone. Nine people were killed and many injured. Sixteen inches of rain fell at Cardwell in 24 hours.

INFANTS' BODY FOUND

The body of a female infant, from all appearances about one day old, was found in the Hawassa avenue ravine by Acting Detective Crowe of East Dundas Street Station yesterday. The body was removed to the morgue.

EIGHTEEN VESSELS SUNK BY U-BOATS

British Admiralty Announces Loss of Fifteen Large Ships.

London, March 13.—The admiralty reports the loss by mine or submarine of 18 British merchantmen in the past week and one fishing vessel. Of these, 15 were 1600 tons or over, and three under that tonnage. The arrivals at ports in the United Kingdom numbered 2046; sailings, 2062. Merchantmen unsuccessfully attacked were: "The arrivals at ports in the United Kingdom numbered 2046; sailings, 2062. Merchantmen unsuccessfully attacked were: "The arrivals at ports in the United Kingdom numbered 2046; sailings, 2062. Merchantmen unsuccessfully attacked were: "

BRITISH WOULD END ALL BEER BREWING

Attack Develops in Commons Over Waste of Barley for Beverage-Making.

GRAIN NEEDED FOR FOOD

Government Spokesman Declares Time Not Come for Choosing Between Bread and Drink.

London, Tuesday, March 12.—Strong criticism of the government's policy toward the continued use of grain for brewing and malting was evoked in the debate in the house of commons today. The criticism was based on the enormous tonnage employed by the traffic, the small profit to the government from the expenditure and the waste of cereals at a time when there is a possibility of a shortage of grain for human consumption. Critics pointed out the fact that the opposition is no longer confined to temperance advocates, but is spreading to the general public. The government spokesman declared that the continued growth of the traffic under existing circumstances is fraught with possible peril to the country.

GERMAN BOMB PLOTTER ON WAY BACK TO NEW YORK FOR TRIAL

New York, March 13.—Walter T. Scheele, who was deported from Havana today with American detectives, is expected to return to New York, where he was accused by detectives from New York police headquarters and agents of the department of justice of connection with a plot to place bombs on ships sailing for the war zone.

SUCCESSFUL RAID AT POLYGON WOOD

English Troops Take Prisoners and Guns, With Slight Casualties.

ENEMY ATTEMPT FAILS

German Raid Near Armentieres is Repulsed—Artillery is Active.

ENEMY ATTACK IN CHAMPAGNE REPULSED WITH HEAVY LOSSES

Paris, March 12.—A German attack in the Champagne was repulsed today according to the war office announcement. The Germans suffered heavy losses.

C. P. R. TO CULTIVATE LOTS

Montreal, March 13.—In order to stimulate food production the Canadian Pacific Railway Company has sent out a notice urging all the section foremen, station agents, etc., to cultivate vacant land along the right of way, the land to be supplied to employees without rent.

WIDER POWERS ARE NOW GIVEN TO FOOD BOARD

New and Drastic Regulations Have Been Approved by the Cabinet.

TO PREVENT WASTE

Prosecution for Offences is Now Left in the Hands of Municipal Authorities.

Ottawa, March 13.—Prosecution and enforcing of penalties in regard to food waste has been placed in the hands of municipal authorities under the new regulations which were approved by the cabinet today. These regulations were drafted by the Canada Food Board, and they provide machinery and authority for preventing or punishing the waste of any food or food product, either by individuals, or by cold storage or other companies which handle food. Machinery is also provided for the seizure and prompt sale of food supplies held by wholesalers, retailers or warehousemen, in such cases as may seem to the board to be necessary to prevent waste or deterioration. The food board is given power to forbid the use of any kind of food that may be sold, consumed or used at any one meal or within specified time. Each municipality is made responsible for the enforcement of the regulations within its own boundaries so far as prosecutions in regard to food waste are concerned, but in the case of food hoarding, the board itself will take action, ordering the hoarding of food, and failing compliance will seize the food and dispose of it. The owner will receive the proceeds, less costs. The board is also given power to define the amount of any kind of food that may be purchased or held by any one person or company, and may seize excess amounts in order to safeguard against hoarding of food for speculative price profits. The maximum penalty is \$1000 and three months' imprisonment. Fines go to the local authorities which institute prosecution. The new regulations have been rendered necessary by the huge waste of food recently brought to light in Winnipeg. The board is also given power to regulate the cost of living regulations of November, 1916, which gave municipalities the power to make in their own regulations, to be in force in the hands of the provincial authorities. Winnipeg will now be able to deal with the local waste of food.

AMERICAN FORCES NEAR TOL SUCCCEED IN GAINING VALUABLE INFORMATION

Projectors Were Destroyed and German Plans Thus Frustrated.

WOULD REWARD HEROISM

American Destroyer's Gallantry in Rescue Referred to in British Commons.

London, March 13.—"Profound appreciation" for the work of the American destroyer "Parker" in rescuing survivors of the British hospital ship Glenhart, Castle was voiced by the British admiralty's spokesman in the house of commons today. Thomas James MacNamara, financial secretary of the admiralty, said Mr. MacNamara, "profoundly appreciates the seamanship and very gallant display by the American destroyer Parker, in rescuing nine survivors of the Glenhart, Castle, which was destroyed by a German submarine in the Irish Sea on February 12. Two of the destroyer's complement deserve the greatest credit, he added, for their action in jumping overboard to effect rescue. As to the official recognition of these services, he stated, the award was not a matter for the British Government, but for the American government. However, the admiralty could properly make any suggestion to them which would enable it in a substantial way to honor the crew of this act of gallantry, it certainly would do so."

HARD WORKERS TO GAIN BIGGER MEAT RATION

Lord Rhonda Announces Improvement in Food Ration—Bread Allowance Scheme.

London, March 13.—Lord Rhonda, the food minister, announced today that he had hoped in April to be able to give those engaged in hard physical labor an increased meat ration of 50 per cent, and those engaged in very hard physical labor double the ordinary ration. The outlook as respecting wheat is not so bright, he said, but he added, there was no cause for alarm. A scheme of bread rationing was under preparation and would be ready if and when the government decided it was necessary.

RUSSIAN SAILORS TRY TO TAKE SHIP

Crew Turns Bolshevik, Defying American Port Authorities.

Norfolk, Va., March 13.—Members of the crew of the Russian steamer Omsk removed today by Collector of Customs Hamilton at the request of Capt. Edmund Yanovsky, because of their Bolshevik tendencies, on being paroled to night by federal authorities, armed themselves and made an effort to take the ship. The American armed port guard in charge of the vessel refused to allow the men aboard and police reserves were sent to arrest them. Before the police arrived, however, the Russians defied the guard and boarded the ship without violence. Half a dozen port deputies were rushed to the ship and with the guard searched the Russians and their quarters. A large assortment of firearms and knives were confiscated. The Russians had sought to try the principles of the Bolsheviks into operation on the ship, demanding that the vessel be operated by a committee of the crew with the captain deposed. They also wanted a 25 per cent. increase in pay and threatened to land the ship's cotton cargo in Russia, instead of at Liverpool, to which port it is consigned.

GERMAN TROOPS ENTER RUSS CITY OF ODESSA

Official Announcement Made From Berlin of Capture of Important Seaport.

Berlin, via London, March 13.—(British Admiralty, per Wireless Press)—German troops have entered Odessa. This official announcement was made tonight.

TO EXEMPT IRISH NOT NATURALIZED

United States Will Not Draft Them, According to the British Policy.

NOT RETROACTIVE

Those Who Have Taken Out First Papers and Been Drafted Will Not Be Released.

HEAVY WINDS AND SNOW WITH RAIN EXPECTED

Colder Weather Looked For After Storm New on Its Way Here Has Passed.

The official report from the weather bureau stated last night that an energetic disturbance was centered in Kansas; many people in Toronto were of the opinion that the same energetic disturbance was undeniably sweeping in and out of the streets here. Opinion was rife upon the general subject of the weather, and one hale and hearty old gentleman in the west, and vociferous in his assertion that the storm with the driving wind was a sure indication of spring, "indeed, sir, an' it wouldn't surprise the likes of me to see the rule spring gilly bathin' us 'till the sun winter by an' over." These opinions were not shared by the majority of the citizens.

ON COUNTERFEITING CHARGE

Man Arrested in Soo for Raising One Dollar Bills to Fives

DINEEN'S NEW DEPARTMENT

Following its usual aggressive policy, the Dineen Company has added to its large military department, a separate department for ladies' suits, skirts, coats, blouses and sweater coats. It has taken over three months to make the necessary alterations and install the individual fitting rooms, which have been fitted up in a manner to make the task of "trying on" pleasant and satisfactory to the purchaser as possible. The Dineen Company extend to the ladies of Toronto a very hearty invitation to call at the showrooms to see their early convenience, 140 Yonge street, corner Temperance.

CLAIMS MADE BY THE BOARD

Board of education bonds to the value of \$250,000 were sold and the city was using the money.

The board of education was paying interest on these bonds. Cheques have been held up for eight weeks because of the estimates being deferred.

The board of education has secured for Toronto fifteen million dollars' worth of property, which the city uses to increase its borrowing powers.

FINANCE COMMITTEE WILL PREPARE STATEMENT TO BE LAID BEFORE EACH MEMBER OF THE LEGISLATURE WHEN TORONTO BILL COMES UP

Every member of the Ontario Legislature will today receive a statement from the Toronto Board of Education covering the financial position of the board. This is on account of the expectation that the Toronto City bill dealing with the powers of the board of education will be before the legislature this afternoon.

Trustee C. A. B. Brown, chairman of the finance committee, and Dr. G. J. Steele, chairman of the board of education, both proposed aggressive tactics for the protection of the rights of the trustees at the management committee yesterday. Their proposals met with unanimous approval. Trustee Brown thought it was desirable for a clear financial statement to be made of the money with the legislature so that they could see what the cost of education in Toronto was. The fact should be known that money with the board of education should have had been being used by the city. The money was for board of education bonds sold some time ago. The city was also holding up cheques for the past eight weeks by deferring the estimates. When these facts were made known it would be seen that the board of education was not as black as painted. It was the duty of the board to defend its position properly, and the board he believed stood higher in the eyes of the public than it did six weeks ago.

U. S. HAS ACCEPTED FIGHTING SEAPLANE

Machine Equipped With Liberty Motors Has Proved a Success.

MANY BEING DELIVERED

Second Type of Fighting Plane Has Also Now Reached Production Stage.

Washington, March 13.—America's first fighting seaplane, equipped with Liberty motors, has been tried out and accepted, it was learned tonight, and a number of the craft are now being delivered for the use of the naval air service. They are the advance guard of a big fleet which will be added to the forces engaged in submarine hunting in the war zone. A second type of fighting plane for the American army, known as the Bristol model, also has now reached the production stage and a considerable number will become available during the present month. Still another type of two-seater machine, also in being manufactured. Construction details of these planes have never been disclosed. It is known, however, that the seaplanes are substantially similar to the British flying boats and are equipped with two Liberty motors, which provide approximately 700 horsepower to drive the ship. This is understood to be much in excess of the power used in similar British craft, and their performance is expected to be proportionately better. The success of the Liberty motor is known to have attracted the attention of both French and British air service officials and both governments have had experts in this country studying its construction and methods of quantity production employed. It is anticipated that a large number of foreign planes, particularly British, will be using Liberty motors during the present year. Steps were taken here recently to expedite the delivery of motors for British use.

Emphasizing Values in the Immense Spring Displays of Clothing for Men

And this season as usual, in spite of conditions, variety in styles, patterns, colors, and weaves, is a most notable feature of the displays--and it's such a variety that provides the good fit desired, the smooth or rougher weaves that strike the fancy, and also the patterns and colors that are so important in the choice of a Spring Suit

With Easter little more than two weeks away, the Spring Opening Displays arranged for today and following days are timely, and we invite all men, whether they want to buy or not, to come and see the values that are offered. The illustrations and the brief descriptions tell of some of the notable values and are representative of the selections.

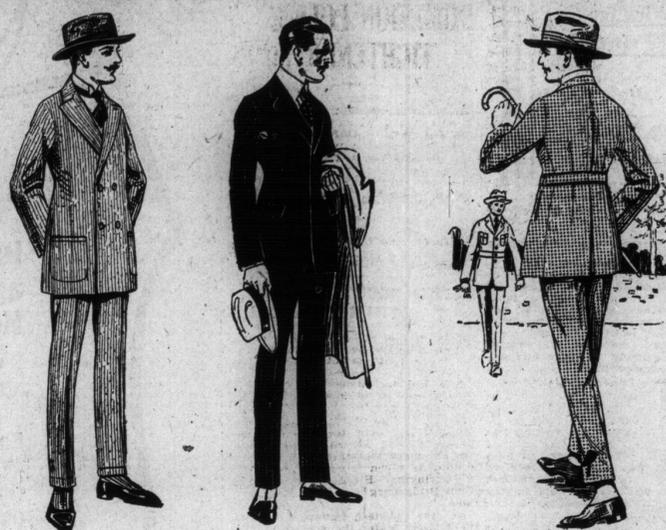

Smart Spring Styles in Hats for Men

THE SMART touch to the appearance of the well-dressed man is a stylish hat; and with the spring comes the popular crease crown hat, with flaring brim. In the Men's Hat Department is an assortment of these hats from a well-known American maker. The brims are either bound or welted on edge, and the colors include light and dark green, palmetto, fawn, brown and black. Sizes 6 5-8 to 7 1-2. Each 4.00
—Main Floor, James Street.

No. 1—Is another belted model particularly suitable for young men with slim figures. It is made from navy blue cheviot serges and has belt all round. Some have plain backs, others pleated backs. Patch and flap pockets. Vests close with five buttons, and trousers have cuffs and belt loops. Sizes 33 to 38. Price 20.00

No. 2—"The Yale," a young man's model—a form-fitting style with slant pockets, top pocket and coat half lined with lustre. The vest also is made form-fitting and closes with five buttons. The trousers have five pockets and belt loops. Cuffs if desired. This is in a light grey tweed of smooth finish and in a serviceable pin check pattern. Sizes 33 to 38. Price 20.00

No. 4—"The Chelsea" is a smart 2-button, double-breasted model with long lapels, form-fitting back and 2 patch pockets. Vest has 4 outside pockets and one inside pocket. Trousers have five pockets with tabs on rear pockets, and belt loops. This suit is in a grey worsted with silver grey hairline stripe. A serviceable and smart-looking suit. Sizes 33 to 38. Price 20.00

No. 5—This model is shown in a variety of good weaves and patterns. In a cassimere finish cloth is a brown with narrow stripe in darker shade; a plain brown in a twill weave; a dark grey with blue stripe, also a bluish grey with fine twill. Sizes 36 to 44. Price 30.00

No. 6—Shows the sport or belted model which may also be worn with half belt at back only. It has inverted pleats in form-fitting back, has lower slash pockets and two upper pockets in military style. The coat is half lined with lustre, and the trousers have belt of self with buckle. This is a light grey tweed with pin check pattern. Sizes 33 to 38. Price 20.00

Men's Work Shirts, Special Value, Each, 37c

STRONG WORK Shirts, taken from stock and reduced for a big rush clearance Today. They are made from English Oxford materials, in stripes of blue, pink and black on light grounds. They are made with neckbands, soft cuffs to button, yoke, and large body. A limit of four shirts to a customer. Sizes 14 to 18. Price reduced to clear, each 37
—Main Floor, Centre.

No. 8—"The Admiral" is a button-through model, with softly rolling lapels, a loose-fitting back without vent, and slash pockets. This coat is shown in tweeds in rough flaky weaves, in greys and mixtures and unlined except through sleeves. Price 20.00

No. 9—An all-round serviceable spring or fall coat, in slip-on style, with full back without vent, patch pockets with flaps and welted seams. This model is shown in dark fawn mixed tweeds of the serviceable rougher weaves, and is unlined, except through sleeves. Price 22.50

The Early Special! 200 Men's Fine Twill Navy Blue English Serge Suits to Clear Today at \$18.75 Each

This is one of the most remarkable offerings of the season, and if men could but see the suits—see how fine the serge—there wouldn't be a suit left in an hour. Imagine English blue serge, too—the universal favorite in suits for men. These are splendidly tailored in 3-button sack model, with slightly form-fitting back, soft rolling step-shaped lapels and natural, well-built shoulders. The vests close with 5 buttons, and the trousers have five pockets and tunnel belt loops. Sizes 36 to 44. Choose early for correct size. Spring display special, today, suit 18.75
—Main Floor, Yonge St.

THE T. EATON CO. LIMITED

THIRTY-ONE MILL TAX RATE ASSURED FOR COMING YEAR

Civic Salaries and Water Rates Both Increased by Controllers.

SCHOOL ESTIMATES CUT

Controllers Overrule Action of Heath Board on Its Estimates.

Tax rate to be 31 mills on the dollar.
Salaries of city employees increased \$2 a week.
School board estimates reduced \$120,000.
Special items totaling \$336,909.76 added to the estimates.
Water rates increased 25 per cent.
Increased revenue, amounting to \$750,000 to be applied to reduction of tax rate.
No short-term treasury notes will be issued to cover war expenditures.
Board of health and board of control at deadlock on Dr. Hastings' estimates.
No increases for school teachers receiving over \$1800 a year.
Toronto's tax rate for 1918 will be 31 mills. This was practically assured when the board of control made its final revision of the civic estimates yesterday afternoon. The session of the board was the most important held this year. Salary increases were allowed to civic employees; the school estimates were cut; the action of the

board of health in refusing to reduce its estimates was overruled, so far as the city has power to overrule that action; water rates were increased 25 per cent. and it was decided to apply the surplus revenue to the reduction of taxation; it was decided not to issue short-term treasury notes; and numerous other less important items were dealt with by the board.
All civic employees receiving less than \$1800 a year will receive an increase of \$2 a week in their wages; the increase will date from April 1, and will be considered as a war bonus, to be discontinued at the discretion of the board of control. Special consideration will be given by the heads of the departments to women employees, stenographers and others not included in the foregoing.
This was the substance of a resolution moved by Controller O'Neill at the meeting yesterday afternoon, and which was passed.
The decision reverses the decision reached by the board a week ago, and was arrived at only after a lengthy discussion, punctuated at half-minute intervals with resolutions of all kinds put in by the controllers. Mayor Church was the only one to hold out for no salary increases. Controller McBride refused to sanction any over \$1,050. Controller Robbins wanted it to be a straight salary increase and not a war bonus, and to date from January 1, but when his motion was voted down he considered that "half a loaf is better than none," and voted for the board's motion. Controller McBride Maguire supported Robbins.
Mr. Bradshaw estimated that the increases would cost the city \$300,000 this year, or over half a mill on the dollar.
The board also added a number of items to the estimates which were left out on the first revision. They were as follows:
Reopening track allowance Toronto Street Railway . . . \$275,000
Interest on Canadian Oil Co. award 3,607.76
Cottage at woman's farm and barn at men's farm 5,802
Bloor street grading awards 2,500
Water meters 50,000
Total \$336,909.76
To offset these increases the board endorsed their action of a week ago to raise the water rates 25 per cent. The

city solicitor informed the board that in his opinion it would be quite legal to apply the increased revenue, which would amount to about \$750,000, to the reduction of the tax rate, but pending his written report the board did not officially decide where the revenue would be applied.
The finance commissioner recommended against the mayor's plan to borrow \$2,000,000 by means of short-term treasury notes, to carry the war expenditures until the money market has cleared sufficiently to make possible the issuing of longer term debentures. He made clear the condition the city would be in in 1919 if the loan were floated; if the war were over in one year's time the city would have to pay \$4,235,071 in that year, which would be increased to \$5,269,770 if the war were not over.
"It would be a crime to load up the taxpayers two or three years hence with expenditures that should be met this year," said Mr. Bradshaw, speaking plainly to the controllers. "The tremendous burden that would be placed upon them."
Controller McBride referred to the plan as the worst example of "frenzied finance" in the city's history. He stated that the real estate speculators who wanted the high tax rate put off until they could unload their holdings were behind the scheme.
"This city is insolvent today," said Controller McBride. "We have \$87,000,000 in assets and over \$100,000,000 in liabilities," he asserted.
Controller Maguire and Mayor Church both urged the issuing of the loan. "Financial houses all point to that plan as the proper one," said Controller Maguire.
Upon division the mayor's plan was voted down. Controllers O'Neill, McBride and Robbins opposed it; Mayor Church and Controller Maguire voted for it.
The board refused to make any changes in the appropriations for protection of civic property. The works department asked for \$16,000, but this was cut to \$66,000 by the board.
The controllers went into a private session to discuss the estimates of the board of education. After the city solicitor had given his opinion on the city's legal position in cutting the estimates, the controllers made the following reductions: in addition to the

\$50,000 cut in capital charges agreed to by the board:
Repairs \$30,000
Public schools 2,000
Overdraft 65,000
Total \$120,000
Despite the action of the board, there is reason to believe that the city solicitor did not report that the city had the authority to make all the cuts it did.
When the matter was first discussed earlier in the session Controller McBride glanced over the solicitor's report and remarked: "After looking thru this document I am not going to vote for any cuts in the school board estimates."
The controllers also decided that they would not sanction any increases in the teachers' salaries over \$1,800 a year.
"I don't care what the law is regarding the school board estimates," said the mayor. "With me it is a matter of policy as well as a matter of law. If the school board wants to go to the courts, we can hold up their estimates until after the first of January anyway."
Controller O'Neill: "That's manipulating the estimates."
No action will be taken this year to reorganize the city garage, it was decided.
The estimates of the public health board also came up. The controllers refused to alter their stand of two weeks ago. The situation as a result now stands this way: The board of health refuses to accept the cuts made by the board of control, and the board of control just as strongly refuses to put back the money they cut off two weeks ago.
The finance commissioner will figure out the rate within a day or two, and at a special meeting of the city council to be held on Thursday of next week the rate will finally be struck and the estimates passed.
Following the meeting Mr. Bradshaw said: "The tax rate will probably be 31 mills on the dollar."

ADVERTISING POLICY FULLY EXPLAINED

Legislature's Policy in Placing Food Production Space Discussed When Public Accounts Committee Met.

Enquiries as to the government's policy in placing food production advertising in the papers were made when the public accounts committee met at the legislature yesterday. Sam Clarke, Northumberland, asked the conditions under which the greater production advertisements of the organization of resources committee were placed in the papers of the province.
C. F. Bailey, assistant deputy minister of agriculture, stated that a contract had been made with McConnell and Ferguson, of London, by which the government paid the ordinary newspaper rates. The agency secured its commission from the papers, and it amounted to about 15 per cent. Mr. Clarke stated that he had heard from a number of newspapers that they had paid 25 per cent.
In view of the complaints the committee decided that the papers would get their regular rates and the advertising agency paid for their service directly.
Mr. Bailey then explained for the committee the manner in which cattle were sold to the settlers in the north country. At first the cattle were sold by auction, but the government lost money this way. The plan was adopted later of placing cattle on the demonstration farms and a price put on them to cover the cost when they were sold to the settlers. The settlers gave splendid results. A year ago 300 cows gave the supply for the creamery, and this year the estimate was that 800 cows would be available.
The government house repairs and maintenance cost were again brought to light, and it was shown the buildings cost the government \$25,000 last year.

FREIGHT EMBARGO SOON TO BE LIFTED

Settlement of Strike Between Freight Handlers and Grand Trunk Railway Not Yet in Sight.

"Now what about the strike or any one else do you think this strike?" said W. H. Farrell, superintendent of terminals, to a reporter when asked if Mayor Church had been able to effect an agreement between the two parties. "So far as we are concerned the matter was settled when the men refused in a body definitely to come to terms with us. And there it remains, except that we are getting more and more men every day. A week ago we had only 50 men working in the sheds; today we had 118 men, and tomorrow we might have 130 or 140. I shall go so far as to say that we hope to be able to lift the freight embargo within a very few days."
Continuing, Mr. Farrell stated that he could not understand why the men had struck in the first place, nor why in the present instance they were apparently so determined to continue striking. "We were giving the men just as much as the C. P. R., and the

only men who held out for higher pay were the very men who needed it least," said Mr. Farrell. "These men were the tonnage men, who were undoubtedly getting all that was coming to them."
Mayor Church, when called up at 8 o'clock last night, stated that he had been unable to get in touch with Mr. Farrell, and that negotiations were therefore suspended for the time being.

WAS IN JUTLAND FIGHT.

Chief Petty Officer John Sawyer Tells of British Victory.

Chief Petty Officer John Sawyer, assistant secretary of the Central branch of the G.W.V.A., has seen considerable active service at sea, and was attached to the battleship Marlborough during the battle of Jutland. He stated yesterday afternoon that there was no possible doubt as to the complete victory of the British forces in that big scrap. The Germans, he said, were outnumbered at every turn until night settled upon the fight, and enabled them to scurry home. They lost 20 destroyers, four large battleships and ten light cruisers. In comparison the British losses were light, comprising only 14 ships of all sizes.

LANGUAGE QUESTION COMES UP IN DEBATE ON THE LEGISLATURE

Gustave Evanturel Makes Suggestion That Regulation 17 Be Withdrawn.

LAND FOR SOLDIERS

Hon. G. Howard Ferguson Says Best Will Be Kept for Those Who Fought.

Sharp exchanges and some plain talk, to a degree not indulged in since the Ontario Legislature opened the present session, characterized yesterday's proceedings, some matters of controversial nature being introduced, including the bilingual question and a few personalities.

H. Hartley Dewar (Southwest Toronto) broke away from conventionalities, and was told so by Hon. I. B. Lucas. Hon. G. Howard Ferguson, in explaining the new rules of settlement in northern Ontario, said they applied to all people, whether French, Austrian or otherwise, and was called to task by Gustave Evanturel (Prescott), who objected to the classification, and Sam Carter made the statement that the Orangemen had gone too far, and urged a compromise on the language issue.

The evening session was for the purpose of taking up the estimates, but the house in committee did not get very far, although adjournment was not made until 11.15. A feature of the afternoon session was the resolution which Mr. Dewar moved calling for amendments to the Ontario Franchise Act, the Ontario Voters' List Act and the Ontario Elections Act, and the reply which Hon. Mr. Lucas made. The motion was subsequently withdrawn, the explanation of the attorney-general being accepted.

William Proudfoot, leader of the opposition, introduced his bill on preferential voting, which was later withdrawn when the prime minister gave what was considered a satisfactory answer.

Some important amendments to the Ontario Temperance Act were covered in a bill introduced by Hon. W. D. McPherson, provincial secretary, which make the laws in this regard more strict than they have been during the past year, and the same time clearing up certain technicalities which have in some cases worked to the disadvantage of persons who were not fully of infraction of the principle of the temperance act.

Amend Temperance Act.

Hon. Mr. McPherson introduced an amendment to the Ontario Temperance Act which in many respects is technical. The definition of a "dwelling" is made more explicit. It provides that a person who is drinking liquor in any public place may be arrested without a warrant, and people accepting liquor from a transportation or a motor vehicle may be arrested as having broken the law.

The house went into committee for the consideration of a number of bills. An act to amend the Statute Labor Act was carried without discussion.

Amend Highway Act.

George H. Goodwin introduced a bill to amend the Highway Travel Act, making it necessary for every vehicle other than a motor car or traction engine to carry a lamp on the left side and prohibiting a bicycle rider from holding any vehicle for the purpose of being drawn by it.

Another measure was an amendment to the Motor Vehicles Act. Any person holding a motor license would be required to notify the department of public works each time that he changes his place of residence; any person who makes a false statement for the purpose of getting a license would incur a penalty of \$50; no person shall drive a motor car who has not procured a certificate of registration from the department, exhaust and cut-outs are done away with except on motor cycles. In addition to these new regulations there is one which provides that the driver of a motor car will be held responsible for violation of the law whether he is the owner of the car or not. Further power is given the minister of public works to suspend any person from driving a car who has been convicted for an offence against the criminal code or for a third offence.

Take Nuxated Iron, Says Doctor, If You Want Plenty of "Stay There" Strength Like an Athlete!

Makes Delicate, Nervous, Run-down People Stronger in Ten days' Time, in Many Cases.

MOST people foolishly seem to think they are going to get renewed health and strength from some stimulating medicine, secret nostrum or narcotic drug, said Dr. E. Sauer, a Boston Physician who has studied widely, both in this country and in great European Medical Institutions, when, as a fact, real and true strength can only come from the food you eat. But people often fail to get the strength out of their food because they haven't enough iron in their blood to enable it to change food into living matter. From their weakened, nervous condition they know something is wrong, but they can't tell what. If you are not strong or well, you owe it to yourself to make the following test: See how long you can walk without becoming tired. Next take two five-grain tablets of ordinary nuxated iron three times a day with meals for two weeks. Then test your strength again and see for yourself how much you have gained. Many scores of nervous, run-down people, who were ailing all the while, most astonishingly increase their strength and endurance simply by taking iron in the proper form and this after they had in some cases been doctoring for months without obtaining any benefit. Don't take the old-fashioned iron pills, iron acetate or tincture of iron. See to it that you have a few cents. You must take iron in a form that is easily absorbed and assimilated, like nuxated iron. If you want to be strong, healthy, and successful in any good, otherwise it simply because it has won the prize of great strength and endurance which comes from having plenty of iron in the blood, while many another has gone

NOTICE TO HYDRO CONSUMERS

The orders of the Power Controller and the Hydro-Electric Power Commission of Ontario, Dated 4th February, 1918, are now amended to the effect that electrical energy may be used for shop or store window lighting on Saturday nights only during the hours that such shops or stores are open for business.

Toronto Hydro-Electric System 226 Yonge St. Phone Adelaide 2120

against this act, or where he has been guilty of reckless driving. This restriction may be placed for a period of two years, and any person so dealt with would be subject to a fine not exceeding \$500, if he drove a motor vehicle.

Preferential Voting.

William Proudfoot, leader of the opposition, supported his bill calling for preferential voting, and explained its principle. It would mean even-handed justice for the minority, which by the present system it did not have. In the case of Toronto the Liberal voters would have representation by five members, a majority of the 12 would give a government sufficient power to transact the business properly, and there would be more responsibility placed upon each member. He held that if a start were made by allowing municipalities the right the system would grow and finally be adopted throughout the province and the Dominion.

Sir William Hearst said the bill could not accomplish any good; there was no such system known to the law, and no way in which it could be made workable. He said he would not ask that the bill be withdrawn because of its being impracticable. The bill was entitled to thoughtful consideration, and at some time it might be taken up, but for the present it could not be a government measure.

Mr. Proudfoot withdrew the bill.

Secondor Was Absent.

After consideration of several bills had been given the printer minister moved the house into committee of supply when H. Hartley Dewar (Southwest Toronto) moved an amendment, seconded by Mr. Richardson (East Wellington). Sir William asked if the secondor was in the house, and when it was seen that he was absent himself, W. R. Ferguson (East Kent) came to his feet as secondor, thereby saving the amendment for Mr. Dewar.

Mr. Dewar then launched into a discussion on the question of preparing voters' lists for an election. He presented the following resolution:

"This house considers it advisable to amend the acts relating to the Ontario Franchise and Ontario Voters' Lists and Ontario Elections so as to provide that the voters' lists shall be prepared from year to year by municipal officials in three parts, namely: the first part containing the names of those entitled to vote both at elections for the legislative assembly and at municipal elections; the second part, containing the names of those entitled to vote at municipal elections only; the third part, containing names of male and female voters entitled to vote at elections for the legislative assembly only; subject to a right of appeal to the county judge upon a revision of the voters' list in each case, and with suitable provisions for registration in cities and towns of 9000 population of male and female voters similar to the system under former Manhood Franchise Act, and when the municipal lists have been prepared for more than three months prior to a general or bye-election; and further, that this house places itself on record as being opposed to any system under which the whole enumeration of voters for provincial elections is made in the best of an election campaign and after the election writs have been issued, as tending to produce partisan feeling and to prevent the exercise of the franchise, while involving the appointment of unnecessary officials and the incurring of large and unnecessary expenditures."

Why not use the machinery at hand, he asked, in case of election? If used as it used to be there would be a more impartial list consisting of more than at present, with plenty of time for an appeal when names had been printed. An amendment was moved by enumerators separate themselves from their political leanings in the heat of an election campaign, he said.

Hon. I. B. Lucas said that the member had not followed the practice of the house that had prevailed for the past 25 years. The courtesy had not been departed from until now, and a new precedent had not been established. Mr. Dewar had not supplied the government with any information as to his motion.

Mr. Dewar's proposal meant the cutting of names left off from the voters' list, and because there were 700,000 women voters an immense burden would be placed on the country by could not be placed on lists that would not be of use.

Economy Was Served.

The interests of economy had been served by the law passed at the last session, and Mr. Dewar could not have given the matter very serious consideration, else he would not have proposed such a motion.

An amendment was to be introduced whereby the assessors would mark the bill of legislative franchise, and making the bill the basis for the new enumeration list, Hon. Mr. Lucas announced. There would then be many names left off from the voters' list in operation they would be inserted with the least possible delay.

The principle of the resolution should be dropped, he said, and he pointed out that none would forget that a voters' list was a matter of want of confidence. Before concluding Hon. Mr. Lucas said the member had referred to him as coming from the country, and he considered the many statements as compliments. Then he told of Mr. Lucas's story when it was "all cheers out and all tears in."

Motion Is Withdrawn.

When the house met after dinner, before the estimates were taken up, H. Hartley Dewar, South West Toronto, withdrew his amendment saying he was satisfied with the reply made by Hon. Mr. Lucas.

Consideration of the estimates occupied the attention of the house at registration in cities and towns of 9000 population of male and female voters similar to the system under former Manhood Franchise Act, and when the municipal lists have been prepared for more than three months prior to a general or bye-election; and further, that this house places itself on record as being opposed to any system under which the whole enumeration of voters for provincial elections is made in the best of an election campaign and after the election writs have been issued, as tending to produce partisan feeling and to prevent the exercise of the franchise, while involving the appointment of unnecessary officials and the incurring of large and unnecessary expenditures."

Mr. Mageau again advanced his arguments against the new settlers' regulations. Hon. Mr. Ferguson replied that a wide open immigration law had not been to the best advantage of the province, and the lesson of the war was that the lesson not be thrown open to people who abiding citizens. The department had no desire to abolish the French tongue, but the people were determined that children should have the opportunity of learning the English language.

Must Obey Laws.

There were many nationalities represented in New Ontario, and it was proper they should be taught to respect British institutions and laws. "If the Ontario conditions do not suit them, Ontario doesn't want them," he citizens would be required to say they would abide by the laws and fight for the defence of the country. "The province has got to go without such a law," he said.

Dr. Godfrey asked Mr. Magations and Mr. Mageau seemed to be objecting to any regulation that worked against right to be here. "I claim even more said, 'for it was me,' people who brought civilization here."

Dr. Godfrey replied that he would be glad to sign the agreement if he were settled and as willing. There was a secret exchange between the two members and the French-Canadian citizens but along other lines. He had been informed that settlers from Quebec were anxious to come in Ontario and he said for the settlers to know if their applications would land had been refused. "Was the

clause drafted to keep the French-Canadians out?" he asked.

Hon. Mr. Ferguson said that on the contrary Frenchmen were coming in every day but neither French, Austrian nor anyone else could come who would not agree to obey Ontario's laws. Some applications had been refused because they wanted to locate on territory not opened up for settlement but not because of their race or creed.

"I am very optimistic about the possibilities of the north as farming area," he said emphatically, "and the best land will be reserved for men who have placed their lives at their country's service and fought in its defence."

Sam Clarke (West Northumberland) congratulated the minister upon his address, but added that the necessary settlement would never come from old Ontario; that there was hard work to be done that the French-Canadians were adapted to it. He agreed that the opening of the whole territory would not be good policy.

Suggests Compromise.

Regulation 17 was the stumbling block in the opinion of Sam Carter, who urged moderation. "The Orangemen have gone too far," he said, "and it may cost me my seat to say so. We are going to have the English language in Ontario, but there is surely an agreement that can be reached. It would compromise on the question."

Mr. Evanturel strongly objected to the English classes as Austrians and Germans. "I will not allow that from any minister of the crown," he said. He emphasized the fact that the war was a success for man to see the war carried to a successful conclusion, that it cost every dollar Ontario had, and it would be a great thing if regulation 17 was withdrawn."

ALLIED NEGOTIATIONS WITH HOLLAND SLOW

Dutch Foreign Minister Expects to Discuss Question Soon—Ship Wanted by United States.

The Hague, March 13.—The foreign minister, Dr. Louzon, presented to the states general today a note explaining the position of the negotiations with the allies for an economic arrangement. The minister said that since the note was drafted he had received information of the allied governments' desire to withdraw their promise to accept the condition that vessels sailing in the interest of the allied governments should be employed in the transport of wheat. The note states that America has agreed to furnish 100,000 tons of wheat to Holland before the end of the war, on condition that a definite arrangement on condition that the allied governments should be employed in the transport of wheat, as a definite arrangement is being made. The Dutch Government is inquiring as to whether it is possible to enter into such an agreement and hopes speedily to arrive at a decision.

NO NEW LARGE ORDERS

Munitions Board Says United States Has Placed the Names on Lists that Would Not be of Use.

Ottawa, March 13.—The imperial munitions board, which makes today as to the orders for shells from the United States, placed in Canadian factories, states that no large orders were received recently. Some three months ago orders were received for the manufacturing of 6,500,000 75 millimetre shells, the manufacture of ten million 75 millimetre forges from steel supplied by the United States, and the making of two million cartridge cases. In addition to these orders another has been received for 425,000 4.7 shells. This comprises the total shells received by the imperial munitions board from the United States for Canadian factories.

SAILOR TRIED AS SPY.

Baltimore, Md., March 13.—Edward Otis, a forty-year-old sailor on an American transport, was today placed on trial charged with espionage. Otis, who claims to be a native of France, is accused of having tampered with the total cargo of the transport. Further, Otis made a false report of the loss of the transport, and the commanding officer would have misled the British in France.

WILL TAKE OUT LICENSES.

Special to The Toronto World. Kitchener, March 13.—License Inspector Winterhall reports that at least 100 licenses will be taken out standard licenses this spring. He stated that all of the hotels in the city will take out licenses.

Sciatica and Lumbago

Of Twenty-Five Years' Standing Soon Yielded to This Combined Treatment—Writer Knows Many Other Cases Similar to His Own.

Morpeth, Ont., March 13.—There have been so many cases of sciatica, and tried almost unaided, in this vicinity by the use of Dr. Chase's Nerve Food and Kidney-Liver Pills that it seems worth while to report the case of Mr. Collins. This case was of twenty-five years' standing, and the cure seemed so remarkable that Mr. Collins told others, and so the virtues of this combined treatment became known. Mr. W. T. Collins, Morpeth, Ont., writes: "It affords me pleasure to be able to speak favorably of two of these remedies, the only ones I have had occasion to use, viz, the Kidney-Liver Pills and Nerve Food. I had been a sufferer for twenty-five years from sciatica, lumbago and neuralgia, and tried almost unaided, in this vicinity by the use of Dr. Chase's Nerve Food and Kidney-Liver Pills that it seems worth while to report the case of Mr. Collins. This case was of twenty-five years' standing, and the cure seemed so remarkable that Mr. Collins told others, and so the virtues of this combined treatment became known. Mr. W. T. Collins, Morpeth, Ont., writes: "It affords me pleasure to be able to speak favorably of two of these remedies, the only ones I have had occasion to use, viz, the Kidney-Liver Pills and Nerve Food. Torontos Win Championship Holding Canadiens to 4-3

Canadiens Failed to Wipe Out Lead Blue Shirt Always Held Them Safe

Game Very Rough, With Frenchmen Contributing Most of Penalties—Cameron and Randall Were Cut Down in First Period, But Were Able to Continue Later.

By a Staff Reporter. Montreal, March 13.—By maintaining a portion of the lead secured at Toronto on Monday night, Torontos earned the title of champions of the National professional hockey league, also they were beaten at the Jubilee rink tonight by the Canadiens by a score of 4 to 3.

than at any stage during the previous session. Hall and Corbeau played well up with the forwards and in less than five minutes, Malone scored. He took a pass from Corbeau and worked his way over to the side and as Munnery went out to meet him he wheeled and shot.

Following the play, Cameron was disabled thru a slash over the legs by Corbeau and was forced to retire. Skinner taking his place, Randall dropping back on the defense. Corbeau was penalized and McDonald was sent in to replace him, McDonald and Lalonde combined for an end to the first period from which McDonald, putting Canadiens in the lead on the same and only three behind on the score.

This gave the French team more confidence and they played with more spirit than previously. For nearly twelve minutes they had the better of the play, until Lalonde scored after a shot of Noble's, netted the puck on the rebound, putting the teams on even terms again. This finished the scoring for the period, the remaining time being devoted to end to end rushes.

The ice surface was surprisingly favorable which also added to the chances of the Toronto team. They outskated the locals in back checking and thru it broke up an attack that otherwise might have been fruitful. Crawford, who was released by Ottawa early in the season, was the most brilliant player on the winning team; he accounted for two of the goals and played a clever game.

When the bell rang for the expiration of time the players of both teams showed the grueling they had gone thru, it being generally agreed that the match had been one of the hardest ever played at Toronto Arena, the first game of the world's series, which will be played at Toronto Arena, the first game next week.

Following the scoring of this goal, Torontos dropped back on the defensive for a breathing spell, allowing the Canadiens to do the puck carrying only to have their rushes broken up on reaching the Toronto defense. Lalonde returned to the ice shortly before the expiration of the period and staged an attack for Canadiens that might have counted had Pitts not missed an open shot. The period ended with Torontos five goals in the lead on the score on the goal on the bench. On changing over for the second twenty minutes, Canadiens adopted different tactics, playing more on the offensive

Canadiens (4)—Goal, Cameron (3)—Vezina. Defense, Cameron (3)—Corbeau, Munnery, Lalonde, Centre, Noble (2)—Wing, Crawford (2)—Subs, Canadiens—Lavolette, McDonald, Biquette and Couture, Toronto—Adams, Skinner and Meeking. Officials: Referee—Harvey Fulton, Judge—E. McKinley (Moth of Ottawa).

HOCKEY SCORES

Table with 2 columns: Team and Score. Includes Canadiens vs Toronto (4-3), Collingwood vs Oshawa (4-1), and Seattle vs Vancouver (1-0).

COLLINGWOOD DEFEATS OSHAWA

Oshawa, March 13.—Collingwood defeated Oshawa tonight in the first home game for the final O.H.A. intermediate championship game by score of 4 to 1. A fine exhibition of hockey playing was witnessed.

Kitchener President Says Will Hold Cup

Winnipeg, with a lead of one goal, play the second game of the finals tonight at the Arena for the Allan Cup, under western rules, which allow passes three feet offside, according to the O.H.A. inter-divisional and the teams play seven men a side. The rivals spent yesterday resting and sightseeing.

Yale Lacrosse Team Already at Practice

New Haven, Conn., March 13.—Yale has voted to organize a lacrosse team, a schedule is being arranged, and a squad of 25 candidates has already been stacked at practice. Donald Francis Manning of Toledo, a member of the senior class of the academic department is captain.

Fred Fulton Matched To Meet Jack Dempsey

St. Louis, Mo., March 13.—Fred Fulton this afternoon was matched to meet Jack Dempsey in an eight-round, no-decision bout on May 30.

DE LA SALLE DOUBLE THE SCORE ON U.T.S.

Winning Junior Semi-Final at Arena by Twelve Goals, and Now Meet Barrie.

De La Salle again easily defeated University Schools in the second game of the junior O. H. A. semi-finals by a score of 12 to 5. Their former win was by 7 to 2, and thus the winners take the round by 12 goals.

Hamilton Champions Challenge the Beaches

The Beaches Hockey League will play its final games at the Arena on Friday night, the first game being to decide the midwest champions, when Beaches, eastern champions, clash with the western champions, ParkViews. Both teams are confident of winning, and it should be a tidy battle.

Women to Break in as Ball Club Managers

By Ida L. Webster. In the old days it was a case of "the man that rocks the cradle rules the world," but not in this year of our Lord 1918. First of all, cradles have given way to a sort of clothes-basket, in which our darling child takes its nap.

LEGALIZE BOXING IN NEW YORK STATE

No Opposition to McCue Bill Presented to Assembly Committee. Albany, N.Y., March 13.—No opposition to the McCue bill to legalize boxing in the state was heard at the hearing on the measure before the assembly judiciary committee today.

WILLARD AND FULTON

Jacksonville, Fla., March 13.—When asked today whether an offer of \$120,000 for the proposed Willard-Fulton championship bout that city, Jess Willard and Fulton were both expected to be an agreement from Kansas City tomorrow.

BEACHES FIVEPIN LEAGUE

Table with 2 columns: Player Name and Score. Includes Alexander (137), Simmonds (137), and others.

CABINET OF SILVER FOR EFFICIENT SECRETARY

Gait, March 13.—At a social evening of the Gait Granite Curling Club, T. E. McLean, secretary-treasurer for the past 25 years, was the recipient of a handsome cabinet of community silver, accompanied by an address, which bore the signature of every member of the club.

BEACHES FIVEPIN LEAGUE

Table with 2 columns: Player Name and Score. Includes Beaches (74), Bally Beach (153), and others.

TORONTO GOLFER WINS AT ORMONDE BEACH

Ormonde Beach, Fla., March 13.—N. B. Perkins of Louisville, Ky., winner of the Daytona Beach Cross tournament in February, was eliminated from the Florida amateur golf championship by a 164 in the second round of match play today.

JAKE GOES TO ATHLETICS

Atlanta, Ga., March 13.—Manager Frank of the Atlanta Southern Association team, tonight announced the sale of first baseman Jake Munch to the Philadelphia Athletics. Munch was the runner-up in the Southern Association batting last season, with an average of .330.

Australian Girl Makes World's Swimming Record

San Francisco, March 13.—The world's record for women for the 460-yard swim was broken by Miss Patricia Durack at the Australian championships at Melbourne, Feb. 16. Word to this effect was received by mail today from the manager, an official of the Pacific Athletic Association. Miss Durack swam the distance in six minutes and 58 seconds, bettering the former record, which was also held, by three-fifths of a second.

Point Competition At East Riverdale

East Riverdale boys and girls have taken great interest in the point competition during the past season. There is only one month to go, with the following standing for the first five in each class:

GOLF AT PALM BEACH

Palm Beach, Fla., March 12.—The first round match play in the golf championship of Palm Beach was played today. The conditions were more favorable than on Monday. The play-off of the first two in the qualifying round of Monday went to J. Hutchinson, Salt, who returned a card of 76.

AURORA BEAT ST. FRANCIS

Aurora, March 12.—The fast and tricky play of the Aurora Leafs was the cause of the 4-2 defeat of the St. Francis intermediate team here tonight.

PENNY ANTE

HA HA! NEXT TO ME, THE TELEPHONE IS THE BUSIEST THING IN THE HOUSE. DEAR ME! HASN'T THE TELEPHONE SERVICE BEEN TERRIBLE LATELY? I TRIED TO CALL YOU SIX TIMES TODAY AND ALWAYS GOT THE BUSY SIGNAL.

Ladies' Night

HOW PERFECTLY RIDICULOUS! I HAVEN'T USED THE 'PHONE ALL DAY EXCEPT TO TALK TO MRS. SMYTHE AND CLARA BROWN AND A FEW OTHER FRIENDS. I'M GOING TO COMPLAIN TO THE COMPANY. MY FRIENDS TELL ME THE SAME THING AND GOODNESS KNOWS I NEVER USE THE 'PHONE.

NO SEATS ASSIGNED IN THE NEW HOUSE

With Exception of Ministers and the Opposition Front Row.

AN UNSOLVED PROBLEM

Three Names of French-Canadians Mentioned for Deputy-Speakership.

Ottawa, March 13.—Under the personal direction of Hon. E. N. Rhodes...

When the house meets, arrangements are being made by the staff at the museum building for the opening of parliament on Monday.

The task is considerably lightened by the circumstances that apart from the ministers of the crown and the opposition front row, members will not have seats assigned to them.

Sir George Foster will continue to be the deskmate of the prime minister, as is likely that Hon. N. W. Rowell will sit on his immediate left with Sir Thomas White as his deskmate.

There is no definite indication as yet as to who Sir Wilfrid Laurier's new deskmate will be in place of Hon. George F. Gahan, who was not a candidate at the last election.

Hon. Charles Murphy may sit at the left of the opposition leader and Hon. Rodolphe Lemieux across the aisle to his right.

The capacity of the temporary chamber will be taxed to its utmost to accommodate the increased membership of the new house.

In recent weeks there was a large attendance for divisions, the majority of the seats were occupied, all the members of the house were reduced by vacancies.

There will be a considerable overflow of government members on the opposition side, and it is not improbable that many of the Liberal-Unionists will choose this group of seats.

Major Bowie, the recently appointed sergeant-at-arms of the house, was reduced by the opening of Monday.

Major Bowie, who has been overseas with an Ottawa battalion, called for home on Monday and will arrive at the capital some time next week.

Captain Charles Panet will be acting sergeant-at-arms until he returns. Nothing has yet been definitely decided as to the appointment of a deputy sergeant-at-arms.

Choice of Deputy Speaker. The choice of a deputy speaker and chairman of committees still remains an unsolved problem for the government because of the fact that Dr. Whobley, member for Ottawa, and the only French-speaking member supporting the government, continues to decline to accept the post.

Dr. Whobley, who has been too much with his professional duties. An agreement with the opposition for the appointment of a French member has not yet been reached.

Such an arrangement will probably be reached when the members arrive next week. The choice of a deputy speaker is made by the house on the nomination of the prime minister after the conclusion of the debate on the address in reply to the speech from the throne.

The three names mentioned for the post are those of Hon. Charles Marcell, ex-speaker of the house; George Bovin, member for Ottawa, and Ernest Paquet, member for Megantic.

ernment. Their punishment had been undecided when the cry, "The English are coming!" resounded thru Jerusalem. The Turks, panic-stricken, are said to have fled, taking their helpless American captives with them.

TURKS CARRY OFF AMERICAN JEWS

Members of Jerusalem Colony Suffer in Hands of Savage Captors.

New York, March 13.—News that 122 American Jews living in Jerusalem had been carried into captivity by the fleeing Turks and that their fate was unknown was announced today by the provisional executive committee for general Zionist affairs.

Reporting details of the evacuation of the Holy City and its occupation by the victorious British army. Twelve days before the fall of the city to Gen. Allenby's forces, the advice said, an order was issued for the arrest of the Americans and their deportation to northern Palestine.

Women and children were cruelly beaten to compel the men to reveal the hiding places of fathers, husbands and brothers. Threatened with the death of their women and children, 70 men emerged from their hiding places and 82 others were rounded up in later raids, which lasted four days.

HALIFAX PILOTAGE IS UNSATISFACTORY

Recommendations Based on the Finding of the Commission Presented.

NO LIQUOR ALLOWED

Apprentices Must Pass Examination Not Lower Than of Sailing Second Mate.

Ottawa, March 13.—The report of the commission which enquired into pilotage at the port of Halifax as the result of allegations made following the recent disaster, was given out tonight by Hon. C. C. Ballantyne, minister of marine.

The commissioners made a number of recommendations, the most important being that legislation should be enacted appointing the minister of marine the pilotage authority for the district of Halifax.

The recommendation is based on the finding of the commissioners that the administration of the pilotage service by the present commission has been found unsatisfactory.

The commissioners further recommended that a superintendent having a seagoing experience with a clear record should be immediately placed in full charge of the district, to organize and administer its affairs, and to be directly responsible to the minister.

Such a superintendent, it is suggested, should have been a pilot of the Halifax pilotage district at any time. He should be provided with a qualified assistant, in order that the pilotage office may be kept open night and day.

As regards apprentices, it is recommended that they should be required, before being granted a license as a branch pilot, to pass an examination not lower than that required of a second mate of a sea-going ship before being granted a license as a branch pilot. It is proposed that the term of apprenticeship be five years, as at present, but in the case of an applicant possessing a second mate's seagoing certificate, he may be considered as having served two years of apprenticeship.

The commissioners recommend an examination test of the eyesight of apprentices in the district of Montreal and Quebec in view of the fact that the pilots and pilots have not been examined since they entered the service, the commissioners regard it as essential that an official of the department of marine, to effect immediately the examination of the eyesight and hearing of the pilots and apprentices in the district.

In regard to the use of intoxicating liquors, the following recommendations are made: That no intoxicating liquor be permitted to be kept in the pilotage office on board the pilot tender; any infraction of this rule to entail instant dismissal.

The solicitation of gratuities by pilots, it is recommended should be forbidden, in order to handle ocean steamers and on questioning some of them they were found to be very deficient in the general chart exercises, etc.

The commissioners declare that the records of the Halifax pilotage office have been poorly kept. The books were audited insofar as the total receipts and expenditures were concerned, but the details of the actual pilotage earned by the pilots were only summarized.

The commissioners who made the report were: Hon. Robt. of Montreal, chairman; James N. Bates and J. W. Harrison.

FRANCE GETS SUPPLIES

Buenos Aires, Argentina, March 13.—A further extension of commercial relations between Argentina and France is provided for in an arrangement concluded today by the French minister for the purchase in this country of a large amount of supplies.

These purchases will be in addition to the 2,500,000 tons of wheat which, under the agreement, will be purchased by the foreign office in January, Argentina is to sell to the entente allies, as in the former clauses, Argentina, by opening a credit in favor of France, to cover the transaction.

WANTS ALLIED TOWNS RAZED

Amsterdam, Feb. 23.—(By Mail).—The destruction of 400 English towns by German airplanes is demanded by the Berlin Tageszeitung "as a reprisal" for the action of the allies in confiscating 400 German merchant ships.

ATLANTIC CITY

WHERE the quiet restfulness of the Lenten Season and the glorious joyfulness of Easter are equally delightful.

Boys, Listen To The S. O. S.—

The Allies' emergency call to boys for food production. Canadian boys will answer the call and help to save the people of Great Britain, the Allied Nations and their fighting forces from starvation and defeat.

Shoulder to shoulder with the boys in the trenches!

Soldiers Of The Soil

Thousands of boys who never knew anything about farming made good last year. You, too, can learn and your country will recognize your service with a Bronze Badge of Honour.

Farm work is war work. It is not easy. It calls for unselfish service. But Canadian boys will gladly sacrifice their holidays to send the needed food to their brothers in the trenches.

March 15th to 23rd is enrolment week. Ontario needs 15,000 Soldiers of the Soil, from 15 to 19 years of age. What a calamity if parents and their boys should not unite to help the farmers produce food.

Boys, Your Country Needs You NOW

Enrolment—Enrol with your School Principal or Enrolment Officer whose name will be announced in your local press.

Farmers—Apply for farm help to the District Representative in your county, or to the Ontario Government Public Employment Bureau, 15 King St. East, Toronto; 139 Queen St. Ottawa; 83 James St. North, Hamilton; 108 Dundas St. London.

Austrian Held as Spy
Jersey City, N. J., March 13.—Victor Sobolek, an Austrian, was held in \$10,000 bail here today following his arraignment in the second criminal court, after an examination of his effects disclosed, according to the police, that he had in his possession numerous railroad maps, pictures of public buildings and railroad stations, drawings of submarine craft and torpedo tubes and photographs of factories in New Jersey. Sobolek admitted, the police said, that he had at one time been in jail in Siberia, but escaped after \$2,000 bail had been furnished by a German.

Farm Workmen Scarce
Kingston, March 13.—So many requests have been made by farmers in the Depot Battalion for leave of absence to assist on the farm, so great is the scarcity of men, that officers stated today that if many more were granted leave the battalion would be depleted of men.

Onions—\$2 to \$2.25 to 75-lb. bag; \$2.50 to \$3.25 per 100-lb. sack; Spanish, \$1.50 to \$2 per case; Florida, \$1.50 to \$2 per case; Cauliflower—California, \$2 per half-crate; \$2.75 to \$4 per case; Celery—California, \$5.75 to \$6.25 per case; Florida, \$2.50 per case; Cucumbers—Hothouse, \$5.50 to \$6 per case (two dozen); Lettuce—Florida head, \$2 to \$2.50 per hamper; California iceberg, \$2 to \$3 per case (10 dozen); domestic leaf, \$2 to \$3 per case; Mushrooms—Imported, \$2.75 to \$3.25 per case; Onions—\$2 to \$2.25 to 75-lb. bag; \$2.50 to \$3.25 per 100-lb. sack; Spanish, \$1.50 to \$2 per case; Florida, \$1.50 to \$2 per case; Cauliflower—California, \$2 per half-crate; \$2.75 to \$4 per case; Celery—California, \$5.75 to \$6.25 per case; Florida, \$2.50 per case; Cucumbers—Hothouse, \$5.50 to \$6 per case (two dozen); Lettuce—Florida head, \$2 to \$2.50 per hamper; California iceberg, \$2 to \$3 per case (10 dozen); domestic leaf, \$2 to \$3 per case; Mushrooms—Imported, \$2.75 to \$3.25 per case; Onions—\$2 to \$2.25 to 75-lb. bag; \$2.50 to \$3.25 per 100-lb. sack; Spanish, \$1.50 to \$2 per case; Florida, \$1.50 to \$2 per case; Cauliflower—California, \$2 per half-crate; \$2.75 to \$4 per case; Celery—California, \$5.75 to \$6.25 per case; Florida, \$2.50 per case; Cucumbers—Hothouse, \$5.50 to \$6 per case (two dozen); Lettuce—Florida head, \$2 to \$2.50 per hamper; California iceberg, \$2 to \$3 per case (10 dozen); domestic leaf, \$2 to \$3 per case; Mushrooms—Imported, \$2.75 to \$3.25 per case; Onions—\$2 to \$2.25 to 75-lb. bag; \$2.50 to \$3.25 per 100-lb. sack; Spanish, \$1.50 to \$2 per case; Florida, \$1.50 to \$2 per case; Cauliflower—California, \$2 per half-crate; \$2.75 to \$4 per case; Celery—California, \$5.75 to \$6.25 per case; Florida, \$2.50 per case; Cucumbers—Hothouse, \$5.50 to \$6 per case (two dozen); Lettuce—Florida head, \$2 to \$2.50 per hamper; California iceberg, \$2 to \$3 per case (10 dozen); domestic leaf, \$2 to \$3 per case; Mushrooms—Imported, \$2.75 to \$3.25 per case; Onions—\$2 to \$2.25 to 75-lb. bag; \$2.50 to \$3.25 per 100-lb. sack; Spanish, \$1.50 to \$2 per case; Florida, \$1.50 to \$2 per case; Cauliflower—California, \$2 per half-crate; \$2.75 to \$4 per case; Celery—California, \$5.75 to \$6.25 per case; Florida, \$2.50 per case; Cucumbers—Hothouse, \$5.50 to \$6 per case (two dozen); Lettuce—Florida head, \$2 to \$2.50 per hamper; California iceberg, \$2 to \$3 per case (10 dozen); domestic leaf, \$2 to \$3 per case; Mushrooms—Imported, \$2.75 to \$3.25 per case; Onions—\$2 to \$2.25 to 75-lb. bag; \$2.50 to \$3.25 per 100-lb. sack; Spanish, \$1.50 to \$2 per case; Florida, \$1.50 to \$2 per case; Cauliflower—California, \$2 per half-crate; \$2.75 to \$4 per case; Celery—California, \$5.75 to \$6.25 per case; Florida, \$2.50 per case; Cucumbers—Hothouse, \$5.50 to \$6 per case (two dozen); Lettuce—Florida head, \$2 to \$2.50 per hamper; California iceberg, \$2 to \$3 per case (10 dozen); domestic leaf, \$2 to \$3 per case; Mushrooms—Imported, \$2.75 to \$3.25 per case; Onions—\$2 to \$2.25 to 75-lb. bag; \$2.50 to \$3.25 per 100-lb. sack; Spanish, \$1.50 to \$2 per case; Florida, \$1.50 to \$2 per case; Cauliflower—California, \$2 per half-crate; \$2.75 to \$4 per case; Celery—California, \$5.75 to \$6.25 per case; Florida, \$2.50 per case; Cucumbers—Hothouse, \$5.50 to \$6 per case (two dozen); Lettuce—Florida head, \$2 to \$2.50 per hamper; California iceberg, \$2 to \$3 per case (10 dozen); domestic leaf, \$2 to \$3 per case; Mushrooms—Imported, \$2.75 to \$3.25 per case; Onions—\$2 to \$2.25 to 75-lb. bag; \$2.50 to \$3.25 per 100-lb. sack; Spanish, \$1.50 to \$2 per case; Florida, \$1.50 to \$2 per case; Cauliflower—California, \$2 per half-crate; \$2.75 to \$4 per case; Celery—California, \$5.75 to \$6.25 per case; Florida, \$2.50 per case; Cucumbers—Hothouse, \$5.50 to \$6 per case (two dozen); Lettuce—Florida head, \$2 to \$2.50 per hamper; California iceberg, \$2 to \$3 per case (10 dozen); domestic leaf, \$2 to \$3 per case; Mushrooms—Imported, \$2.75 to \$3.25 per case; Onions—\$2 to \$2.25 to 75-lb. bag; \$2.50 to \$3.25 per 100-lb. sack; Spanish, \$1.50 to \$2 per case; Florida, \$1.50 to \$2 per case; Cauliflower—California, \$2 per half-crate; \$2.75 to \$4 per case; Celery—California, \$5.75 to \$6.25 per case; Florida, \$2.50 per case; Cucumbers—Hothouse, \$5.50 to \$6 per case (two dozen); Lettuce—Florida head, \$2 to \$2.50 per hamper; California iceberg, \$2 to \$3 per case (10 dozen); domestic leaf, \$2 to \$3 per case; Mushrooms—Imported, \$2.75 to \$3.25 per case; Onions—\$2 to \$2.25 to 75-lb. bag; \$2.50 to \$3.25 per 100-lb. sack; Spanish, \$1.50 to \$2 per case; Florida, \$1.50 to \$2 per case; Cauliflower—California, \$2 per half-crate; \$2.75 to \$4 per case; Celery—California, \$5.75 to \$6.25 per case; Florida, \$2.50 per case; Cucumbers—Hothouse, \$5.50 to \$6 per case (two dozen); Lettuce—Florida head, \$2 to \$2.50 per hamper; California iceberg, \$2 to \$3 per case (10 dozen); domestic leaf, \$2 to \$3 per case; Mushrooms—Imported, \$2.75 to \$3.25 per case; Onions—\$2 to \$2.25 to 75-lb. bag; \$2.50 to \$3.25 per 100-lb. sack; Spanish, \$1.50 to \$2 per case; Florida, \$1.50 to \$2 per case; Cauliflower—California, \$2 per half-crate; \$2.75 to \$4 per case; Celery—California, \$5.75 to \$6.25 per case; Florida, \$2.50 per case; Cucumbers—Hothouse, \$5.50 to \$6 per case (two dozen); Lettuce—Florida head, \$2 to \$2.50 per hamper; California iceberg, \$2 to \$3 per case (10 dozen); domestic leaf, \$2 to \$3 per case; Mushrooms—Imported, \$2.75 to \$3.25 per case; Onions—\$2 to \$2.25 to 75-lb. bag; \$2.50 to \$3.25 per 100-lb. sack; Spanish, \$1.50 to \$2 per case; Florida, \$1.50 to \$2 per case; Cauliflower—California, \$2 per half-crate; \$2.75 to \$4 per case; Celery—California, \$5.75 to \$6.25 per case; Florida, \$2.50 per case; Cucumbers—Hothouse, \$5.50 to \$6 per case (two dozen); Lettuce—Florida head, \$2 to \$2.50 per hamper; California iceberg, \$2 to \$3 per case (10 dozen); domestic leaf, \$2 to \$3 per case; Mushrooms—Imported, \$2.75 to \$3.25 per case; Onions—\$2 to \$2.25 to 75-lb. bag; \$2.50 to \$3.25 per 100-lb. sack; Spanish, \$1.50 to \$2 per case; Florida, \$1.50 to \$2 per case; Cauliflower—California, \$2 per half-crate; \$2.75 to \$4 per case; Celery—California, \$5.75 to \$6.25 per case; Florida, \$2.50 per case; Cucumbers—Hothouse, \$5.50 to \$6 per case (two dozen); Lettuce—Florida head, \$2 to \$2.50 per hamper; California iceberg, \$2 to \$3 per case (10 dozen); domestic leaf, \$2 to \$3 per case; Mushrooms—Imported, \$2.75 to \$3.25 per case; Onions—\$2 to \$2.25 to 75-lb. bag; \$2.50 to \$3.25 per 100-lb. sack; Spanish, \$1.50 to \$2 per case; Florida, \$1.50 to \$2 per case; Cauliflower—California, \$2 per half-crate; \$2.75 to \$4 per case; Celery—California, \$5.75 to \$6.25 per case; Florida, \$2.50 per case; Cucumbers—Hothouse, \$5.50 to \$6 per case (two dozen); Lettuce—Florida head, \$2 to \$2.50 per hamper; California iceberg, \$2 to \$3 per case (10 dozen); domestic leaf, \$2 to \$3 per case; Mushrooms—Imported, \$2.75 to \$3.25 per case; Onions—\$2 to \$2.25 to 75-lb. bag; \$2.50 to \$3.25 per 100-lb. sack; Spanish, \$1.50 to \$2 per case; Florida, \$1.50 to \$2 per case; Cauliflower—California, \$2 per half-crate; \$2.75 to \$4 per case; Celery—California, \$5.75 to \$6.25 per case; Florida, \$2.50 per case; Cucumbers—Hothouse, \$5.50 to \$6 per case (two dozen); Lettuce—Florida head, \$2 to \$2.50 per hamper; California iceberg, \$2 to \$3 per case (10 dozen); domestic leaf, \$2 to \$3 per case; Mushrooms—Imported, \$2.75 to \$3.25 per case; Onions—\$2 to \$2.25 to 75-lb. bag; \$2.50 to \$3.25 per 100-lb. sack; Spanish, \$1.50 to \$2 per case; Florida, \$1.50 to \$2 per case; Cauliflower—California, \$2 per half-crate; \$2.75 to \$4 per case; Celery—California, \$5.75 to \$6.25 per case; Florida, \$2.50 per case; Cucumbers—Hothouse, \$5.50 to \$6 per case (two dozen); Lettuce—Florida head, \$2 to \$2.50 per hamper; California iceberg, \$2 to \$3 per case (10 dozen); domestic leaf, \$2 to \$3 per case; Mushrooms—Imported, \$2.75 to \$3.25 per case; Onions—\$2 to \$2.25 to 75-lb. bag; \$2.50 to \$3.25 per 100-lb. sack; Spanish, \$1.50 to \$2 per case; Florida, \$1.50 to \$2 per case; Cauliflower—California, \$2 per half-crate; \$2.75 to \$4 per case; Celery—California, \$5

MCKINLEY-DARRAGH HAS GOOD OUTLOOK

Six Hundred Thousand Ounces of Silver Placed in Sight During Year.

REVENUE WILL GROW

New Flotation Plant is Expected to Be in Operation by May.

Klely, Smith & Amos yesterday received the following report from Cobalt:

"The annual report of the McKinley-Darragh should be in the hands of the stockholders in the course of the next week, and will dissipate many wild rumors about the property that have no foundation.

"We understand on good authority that the report will be much the same as the last year. The developments of the last vein demonstrated that it was much the same as the adjacent Cobalt Lake property. However, developments during the past twelve months in other parts of the mine have been encouraging, and resulted in placing about 600,000 ounces additional silver in sight. Mining exploration and development of the lower levels is being pushed forward aggressively by drifts and cross-cuts in good virgin territory, and old veins known to exist above the 250-foot level will soon be cut on the lower levels, and the possibility of cutting entirely new ore bodies is still very good.

New Flotation Plant. "Owing to non-delivery of machinery the new flotation plant erected to treat the large smelter dump could not be completed until after winter set in, and will not now be under operation until May, after which the production of silver from tailings should materially increase McKinley earnings for the ensuing year.

"Unfortunately this capital expenditure completed last fall has been unproductive, and will, of course, be chargeable to the earnings, which is a feature adversely in the annual report."

OUTLOOK AT HOLLINGER IS DECIDEDLY BRIGHT

Surplus is Piling Up and Labor Situation Improving.

A despatch from Porcupine says: "The satisfactory and gradually improving situation at the Hollinger Consolidated mine is causing a fairly general belief here that the resumption of dividends will take place before long. It has been stated that the company now has a surplus of considerably over one million dollars and that the net earnings are sufficiently large to make regular substantial dividends a possibility. It has also been intimated that a policy similar to that formerly followed will be adopted, that is, the making of disbursements every two weeks. With the new mining equipment installed and for the greater part tried out, the only thing between the company and the greatest rate of dividend disbursements in its history is labor. During the past few months satisfactory improvement has taken place in the labor market, and the outlook at the Hollinger is a great deal better than generally supposed."

OUTPUT IN ONTARIO OF PRECIOUS METALS

Silver Production 87 Per Cent of Entire Yield of Canada.

In an article in The Canadian Mining Journal, John McLeish says: "The Ontario production of gold was \$5,916,118, being about 58 per cent of the total production for Canada, and also it shows a decrease of 12 per cent from that of 1916. It was the second highest ever recorded. The silver production in Ontario amounted to 19,254,616 ounces, valued at \$15,820,821, or 87 per cent of the total production for Canada. In 1911, the year of its maximum production, the percentage was 98.8. The production was from the great Cobalt and adjoining silver camps, with the exception of 80,868 ounces, the output of the great copper mines. "Of the Cobalt district, production amounting to 19,178,753 ounces, 85.3 per cent, or 16,365,805 ounces were recovered in smelters, and the balance, 14.7 per cent, or 2,810,948 ounces, was exported for smelting. Of the bullion produced in Ontario 8,929,226 ounces, or 60.7 per cent, was recovered in the mills of Cobalt and 6,447,529, or 33.3 per cent, recovered in southern Ontario smelters.

GOLD MINES FIGHT TEN PER CENT. IMPOST

A Vancouver despatch says: "Strong efforts are being made to modify the present 10 per cent tax on profits in the Province of British Columbia. G. P. Jones and V. N. Merrill, general manager and president, respectively, of the Hedley Gold Mining Company, recently met the attorney-general to advise him of the case of the gold mining companies against the taxation system. They pointed out that the 10 per cent levy on gross profits was ruinous to the industry because of the fixed gold values, which prevent such companies as the Hedley from increasing their charges. Increased cost of operation during war-time forcing gold mining companies to rob their mines by taking out only the most valuable ore contents in order to preserve a dividend for stockholders. This made it a hardship to have to pay a 10 per cent gross profits charge. It is believed that special treatment will be given the gold companies.

U. S. MINING DIVIDENDS.

Dividends paid in February, 1918, by 22 United States mining and metallurgical companies making a total of \$12,767,811, as compared with \$12,122,248 paid by twenty-five similar companies in February, 1917, according to compilation of The Engineering and Mining Journal. Canadian and Mexican companies paid \$1,234,923 in February, 1918, as against \$2,186,851 in 1917.

WEST DOME'S ORE TEST.

The Dome Lake is very shortly to make the test run of 1000 tons of ore taken from the West Dome. Arrangements have also been made to drive in from the 400-foot level on the Dome Lake thru the West Dome property, which will thus enable the latter to get at its ore bodies easily and quickly.

LA ROSE'S SHOWING

Altho the price received for silver by the don'ts during the last calendar year showed an improvement of nearly 20 cents per ounce, the earning of the La Rose machine Company showed a decrease of \$95,402, according to the annual report, as compared with the previous year. The La Rose Machine & Co. earnings during 1917 were \$71,372, as compared with \$164,774 in 1916. The decrease is attributed to rising costs due to war-time conditions and labor troubles of the first of the year.

GREATER EQUIPMENT

Milling Facilities Are Added to Enormously and Labor Conditions Better.

According to estimates based on the output of the silver and gold mines of Ontario during the first two months of the year, also taking into consideration the additional milling facilities installed in the unmetallized condition of silver and gold for 1918 will approximate the output attained during 1917.

PATRICIA SOON TO BE ON PRODUCING BASIS

Mill Will Be Second One in Operation in Boston Creek.

Within a few months the Patricia Syndicate owners of the Hollinger claims in the Boston Creek district, will be on producing basis. The mill, with a capacity of 50 tons a day is to be built, and the machinery is expected to arrive at Boston Creek shortly.

The milling process will be roughly speaking, amalgamation and concentration, and a good recovery should be made, as the ore is free milling. The Patricia mill will be the second in the Boston Creek district, the Miller Incorporated having installed a similar mill some time ago. The Miller Independence mill has not been operating continuously, but it is understood that the company expect to have the property in shape to go on a regular producing basis by the summer.

Development underground at the Patricia is being carried on vigorously. One shaft has been driven to a depth of 400 feet, and it is expected that a depth of 200 will be reached and considerable work done there before the mill is ready for operation.

MORE MEN AVAILABLE FOR THE GOLD MINES

Cobalt Companies Have Reduced Working Forces of Late.

The Northern Miner says: "Quite a lot of men have been let out by some Cobalt mines during the past two months. Work at the some practically closed, and curtailed operations at several other Porcupine mines, the labor market seems to be much better supplied than for two years. In fact, there seems to be quite a number of men in Cobalt who are getting a large part of the surplus, while quite a number of miners have gone to Porcupine in search of properties some distance from the mill. This has been a very good sign, and it is believed that the better in the gold mining industry.

POWELL ORE BODIES GIVE GREAT PROMISE

Camp May Become One of Biggest in North Country.

"If Powell ore bodies prove at depth to be anything like what has been found on the surface, after careful assays, the area should develop into one of the biggest camps in the north country. A body of porphyry runs parallel to one of the shafts, and is known to be two miles. The schist is 300 to 400 feet wide, is heavy in pyrites and highly silicious. There are liberal occurrences of quartz. The porphyry body is also from 300 to 400 feet wide and carries good average milling values."

FAME OF ONTARIO'S MINES TRAVELS FAR

Mining Men of International Reputation Look Over Field.

That the mining districts of northern Ontario are attracting much more world-wide interest is evidenced from the fact that from time to time mining men of international reputation are invited to the district to look over the field. At the present time C. J. Garvin, E. M., of Denver, Col., is inspecting the various camps of the north. Mr. Garvin has held some very important positions in the mining world, and is the superintendent of Stratton's Independence Limited, and of the Portland Mines, both of Cripple Creek, two of the large producers in the United States. Mr. Garvin was also superintendent of the Guggenheim properties at Sierra Madre, Mexico—Cobalt Nugget.

DISTINGUISHED MINING MAN VISITS ONTARIO MINES.

C. J. Garvin, E.M., B.Sc., of Denver, Colorado, is paying a visit to the Ontario gold camps. Mr. Garvin has made a specialty of gold mining and has held such prominent positions as superintendent of the Stratton's Independence Mine, also the Portland Gold Mine of Cripple Creek, Colorado, and the Guggenheim Mines of Sierra Madre, Mexico, which rank among the largest producing gold mines of the world.

PETERSON LAKE PLANT.

The equipment for the new flotation plant at the Peterson Lake is understood to be of the most modern construction. It has previously been slightly used but not sufficient to insure it in any way. In fact, it having been slightly used and proven efficient makes it perhaps of greater value than some of the new machinery now being turned out.

NEW YORK COTTON.

J. P. Bickell & Co., Standard Bank Building, report New York Cotton Exchange fluctuations as follows: Prev. Open High Low Close. Close. BIG EARN PROSPECT FOR ONTARIO'S MINES

Output of Silver and Gold Is Expected to Be Very Large.

GREATER EQUIPMENT

Milling Facilities Are Added to Enormously and Labor Conditions Better.

According to estimates based on the output of the silver and gold mines of Ontario during the first two months of the year, also taking into consideration the additional milling facilities installed in the unmetallized condition of silver and gold for 1918 will approximate the output attained during 1917.

AT KIRKLAND LAKE

About two weeks ago word came down from the north to the effect that the downward continuation of the ore body at the Elliott-Kirkland had been located again in the crosscut at the 425-foot level. Since then crosscutting has been continued and it is now found that the vein matter has been cut through to a distance of 28 feet. This is understood to be heavily mineralized and should carry very satisfactory values. The average gold content has not as yet been determined.

A full force of men is employed at the Elliott and development work is being carried on rapidly with an electrically driven mining plant. It will be recalled that at the 100-foot level the Elliott had only a narrow vein, but as is characteristic of the Kirkland Lake veins, it widened out to 11 feet at the 200-foot level, and it is still wider at the 425-foot level. The opening up of the ore body at greater depth will undoubtedly be watched with interest.

Twenty-five men are now engaged in the development of the Canadian Kirkland property, where excellent results are being obtained. The shaft on the No. 2 vein has reached a depth of 75 feet. Pure gold is said to be visible in the drifts at this depth, and the vein is the full width of the shaft with assays running from \$3 to \$12 to the ton. The shaft on the No. 1 vein has reached 35 feet, and here also results are said to be highly encouraging, assays running as high as \$8 to the ton having been obtained. The management plan is to continue to the 300-foot level. A thorough exploration and development campaign has been planned, and with the showings as favorable as they are reported, it is believed the property should develop rapidly.

There has been some talk lately of general survey, and examination of the geological conditions of the Kirkland Lake camp by the different mining companies located there. The idea evidently is to determine the best method to be employed in order to determine the most profitable and instructive undertaking.

FLURRY IN APEX MARKET FEATURE

Favorable Developments on Bilsky Property Inspire Brisk Buying Movement.

Bar silver closed unchanged yesterday at 43 1/2 in London and 86 1/2 in New York.

RIGHT OF WAY SHOWS NO NEW ORE BODIES

Work is Being Continued, However, Says President Seybold in Report.

In the annual report of the Right of Way Mining Limited, President E. Seybold says: "Work done during the year was in the vicinity of shaft No. 2 (north end), the total ore production of 42,418 lbs. being mined there. This amount includes a considerable quantity of high-grade ore, and is the result of the removal of the lower grade. "Development work accounted for an expenditure of \$12,220.00, and is a continuation of the operations referred to in our 1916 report in regard to exploring the property at lower levels. No. 2 shaft has been deepened some 82 feet and considerable work has been done in different directions at this depth. Ore has not been encountered in these directions so that no portions may remain undeposited."

THREE COBALT MINES SHIP BULK OF SILVER

Mining Corporation, Nipissing and Kerr Lake Are to Fore.

A feature at the Cobalt mines was the heavy shipments of bullion sent out during the last week. During the proper split it should be an earnest for the future of this great mine, or, at any rate, give some inkling of its tremendous possibilities. The following table is the record to date:

Year	Tons of ore	Values	Dividends
1911	1,000	\$4,082,252	\$---
1912	45,195	935,682.00	270,000
1913	140,132	2,488,922.58	1,750,000
1914	311,848	27,935,474.47	1,750,000
1915	441,236	4,205,901.69	1,750,000
1916	601,854	5,073,401.05	3,125,000
1917	508,139	4,261,988.72	785,000
Totals	1,650,121	\$19,728,383.03	\$8,194,000

VALUES ARE VARIABLE ON ELLIOTT-KIRKLAND

Developments at 400-Foot Level Are Not Altogether Satisfactory.

A Kirkland Lake despatch says: "Altho a wide mineralized body has been cut and certain sections of the body carry good values, the developments at the 400-foot level of the Elliott-Kirkland have scarcely proved the consistent existence of commercial ore. At the present time drifting operations are proceeding, and the chances of encountering higher grade ore are good. The body as so far determined is running true to form and the mud seam so characteristic of the neighboring proven properties is in evidence on the Elliott. Such being the case, there is no geological reason that would lead to the belief that the deposition of mineral does not extend on to the Elliott.

DAVIDSON ORE LIKELY TO PROVE VERY RICH

Large Force of Men Employed in Preparing Ore for Mill.

Special to The Toronto World. South Porcupine, Ont., March 13.—The largest force of men ever employed by the Davidson Gold Mines is now at work on the property. The work of breaking down the ore from the 100-foot level is going on steadily. Daily additions are being made to the already large force of men on the surface. In view of the high-grade ore developed on this property indications are that the milling will show a grade of ore that may prove the success of the camp. Davidson ore is very similar to that of the Hollinger in appearance. It is easily crushed, and the mill cost therefore be moderate. The fact that the company is going into the producing stage practically free from debt brings the Davidson's future as a dividend payer appreciably nearer the reality. Developments recently have been so favorable that an increase in the mill capacity may be looked for shortly.

HOLLINGER DIVIDEND FOOD FOR SURMISE

Disbursement May Not Be on the Old Four-Weekly Basis.

PROFITS INCREASING

Dividend on Former Scale Not Likely to Be Restored for Awhile.

Isbell, Plant & Company say in this week's market letter that the resumption of dividends by the Hollinger Consolidated as forecasted in the annual statement of the company, President N. A. Timmins in the annual report stated: "If conditions become worse the early resumption of dividends may be looked forward to."

Conditions, according to reports from the north have not become worse so that a large number of shareholders and others have worked themselves into a state of expectancy, and much speculation has been aroused as to just what the company official implied when he said "early."

In some quarters it is believed that the directors are awaiting the results of the first quarter of the year before making the momentous decision. As it is now about the middle of March and no announcement has been made there is a strong possibility that the surmise is correct, in which case it will be along in April before any action can be expected.

As to how much the dividend will amount to is still another question. There seems to be a disposition to think that when dividends are resumed it will be on the four-weekly basis as formerly. From the statement of earnings of the company during the year 1917 it is safe to say that the dividend will be at least \$1.00 per share. The one per cent. payment called for \$246,000 every four weeks, whereas in December of last year the gross profits did not amount to one-half this sum, being shown at \$111,474. It is reported that profits have increased since the beginning of the present year, but it is not reasonable to suppose that there has been such an improvement as would be necessary to take care of the former dividend.

As the officials of the company are not in the habit of giving out any preliminary hints as to their future actions, it remains for those most interested to possess their souls in patience as best they can until the directors see fit to take the public into their confidence.

In the meantime perhaps it will help some to peruse the record of the Hollinger's accomplishment. It viewed in the proper light it should be an earnest for the future of this great mine, or, at any rate, give some inkling of its tremendous possibilities. The following table is the record to date:

Year	Tons of ore	Values	Dividends
1911	1,000	\$4,082,252	\$---
1912	45,195	935,682.00	270,000
1913	140,132	2,488,922.58	1,750,000
1914	311,848	27,935,474.47	1,750,000
1915	441,236	4,205,901.69	1,750,000
1916	601,854	5,073,401.05	3,125,000
1917	508,139	4,261,988.72	785,000
Totals	1,650,121	\$19,728,383.03	\$8,194,000

THREE COBALT MINES SHIP BULK OF SILVER

Mining Corporation, Nipissing and Kerr Lake Are to Fore.

A feature at the Cobalt mines was the heavy shipments of bullion sent out during the last week. During the proper split it should be an earnest for the future of this great mine, or, at any rate, give some inkling of its tremendous possibilities. The following table is the record to date:

The fact that the company is going into the producing stage practically free from debt brings the Davidson's future as a dividend payer appreciably nearer the reality. Developments recently have been so favorable that an increase in the mill capacity may be looked for shortly.

The Gold Stocks

There are unmistakable signs that increased activity is coming in the gold stocks. In spite of the high price for silver, the gold issues are the favorites and it is safe to predict that with the return of the public interest in the mining stock market the standard gold securities are bound to be favorably affected.

PROFITS INCREASING

Dividend on Former Scale Not Likely to Be Restored for Awhile.

Isbell, Plant & Company say in this week's market letter that the resumption of dividends by the Hollinger Consolidated as forecasted in the annual statement of the company, President N. A. Timmins in the annual report stated: "If conditions become worse the early resumption of dividends may be looked forward to."

Conditions, according to reports from the north have not become worse so that a large number of shareholders and others have worked themselves into a state of expectancy, and much speculation has been aroused as to just what the company official implied when he said "early."

FURTHER DECLINES IN UTILITY STOCKS

Gas Companies' Shares Weak Features of New York List.

MARKET IS NARROW

Foreign News Is Ignored and Home Advices Have Little Influence.

New York, March 13.—In all essentials today's stock market repeated its previous period of the previous week. Dealings again were of slender proportions and noteworthy price changes were limited to utilities and the more speculative issues. Foreign news was ignored and home advices were without distinct influence. Traders had the field to themselves and initiative in that quarter was lacking.

Among the weakest utilities were Peoples Gas, Laclede Gas and Public Service of New Jersey. American Telephone was again depressed, but made rapid recovery on denial of adverse reports.

General Motors was weakest of the specialties, and the stock exchange closed quiet.

STABILIZE EXCHANGE BY MUNITION ORDERS

Hope Expressed That Canada Will Get Large Contracts From United States.

Ottawa, March 13.—A good deal of discussion has taken place here with respect to the success or failure of the recent visit of Sir Robert Borden to Washington. It may be recalled, the visit of Sir Robert Borden was for the purpose of bringing about an arrangement between the two countries which would stabilize exchange and that this had been accomplished, thru purely financial means.

Since Sir Robert Borden's return no announcement has been made; and for this reason, the market has the belief exists that the proposed arrangement will not be made. In fact, this is more or less indicated in the upward course of New York exchange in Canada.

SEVEN-POINT ADVANCE IN DOMINION GLASS

Montreal, March 13.—A seven-point jump in Dominion Glass was the feature of the trading on the stock exchange today. The street was today discussing the possibility of a dividend on the company's common stock. It sold up 25 as compared with 28 for a previous transaction. Other features were the two-point rise in the price of steel, and a point and a half increase in Shawinigan.

RAILWAY EARNINGS

Montreal, March 13.—Traffic earnings for the week ending March 7 amounted to \$4,005,982, an increase over the aggregate for the corresponding week a year ago of \$231,692, or 5.8 per cent. The Canadian Northern was the only road to show a decrease, one of 4 per cent. Following were the earnings for the past week with the changes from a year ago:

U. S. Will Spend Huge Sum On Equipment of Railways

New York, March 13.—Word comes from Washington that John S. Williams will be the purchasing agent for the director-general of the railroads, but he will have the advice of a special committee.

TO RE-WORK OLD MINE.

Cobalt, March 13.—Arrangements have been made for the early resumption of operations at the old Calumet and Montana property here, formerly the Airdred. The work of pumping out the underground workings is already under way. The shaft is down over 200 feet, from which point exploration work will be extended. The name of the company is being changed to the Three Stars Mining Company.

TORONTO MARKET IS AGAIN IN RUT

Some Interest Shown in Dominion Canners and General Electric.

The hope of a broader local market aroused by Tuesday's enlarged volume of transactions was not sustained yesterday, trading dwindling to a marked extent, with price changes unimportant. Steel of Canada was the only issue of the steel group traded in, and at 57 1/2 it showed a loss of 1/2. Now that Dominion Canners preferred is on a dividend basis again the prospect of ultimate dividends on the common is attracting some attention. The shares sold yesterday as high as 22, but sagged to 20, the bid later stiffened to 21, with 23 under. General Electric was relatively active around the current level of 104 1/2. Ten shares of Canadian Locomotive sold at 55, or 5 1/2 points above the minimum. Maple Leaf common and preferred were rather heavy on light dealings, and Steamships declined 3 1/2. The flood of offerings of Colonial Loan dried up, only 60 shares being marketed at the minimum of 63. There was a little more activity in the war loans, but no inclination to recover from recent heaviness.

NO BIG SHELL ORDERS FROM UNITED STATES

Ottawa, March 13.—The imperial munitions board, when asked today as to the orders for shells from the United States placed in Canadian factories, stated that no large orders had been received recently. Some three months ago orders were received for the machining of 6,500,000 seventy-five millimetre shells, and the manufacture of ten million seventy-five millimetre shells from steel supplied by the United States, and the making of two million cartridge cases. In addition to these orders another has been received for 425,000 4 shells. This comprises the total of the orders received by the imperial munitions board from the United States for Canadian factories.

TRIBUNE'S COMMENT.

New York, March 13.—The Tribune, commenting on the exchange situation, says: "The exchange situation between the United States and Canada continues to give trouble. So far nothing has come of the efforts made in Washington to obtain a credit advance from the Dominion. American orders for war supplies in Canada will become important factors later on in adjusting the exchange position, but at present the Canadian standpoint is nil. In banking circles the opinion is expressed that unless some credit arrangement is made in favor of Canada the exchange situation will not be corrected until Canadian grain begins to move again in the spring."

LIVERPOOL COTTON.

Liverpool, March 13.—Cotton futures closed quiet. New contracts—March, 22 1/2; April, 23 1/2; May, 24 1/2; June, 25 1/2; July, 26 1/2; August, 27 1/2; September, 28 1/2; October, 29 1/2; November, 30 1/2; December, 31 1/2. Old contracts (fixed prices)—March, 22 1/2; April, 23 1/2; May, 24 1/2; June, 25 1/2; July, 26 1/2; August, 27 1/2; September, 28 1/2; October, 29 1/2; November, 30 1/2; December, 31 1/2.

LIVERPOOL MARKETS.

Liverpool, March 13.—Beef, extra India... Pork—Prime mess, western, 30 1/2... Hams—Short cut, 14 to 16 lbs, 16 1/2... Clear bellies, 14 to 16 lbs, 16 1/2... Bacon—Clear bellies, 14 to 16 lbs, 16 1/2... Lard—Prime western, in tins, 14 1/2... Australian tallow in London, 7 1/2... Petroleum—Refined, 1 1/2... Cottonseed oil—58 1/2... War keroseene—No. 2, 1 1/2.

CHICAGO MARKETS.

J. P. Bickell & Co., Standard Bank Building, report the following prices on the Chicago Board of Trade: Corn—Open, High, Low, Close, Prev. Close. May, 127 1/2, 127 1/2, 127, 127 1/2, 128 1/2. July, 128 1/2, 128 1/2, 128, 128 1/2, 129 1/2. September, 129 1/2, 129 1/2, 129, 129 1/2, 130 1/2. December, 130 1/2, 130 1/2, 130, 130 1/2, 131 1/2.

NIAGARA FALLS POWER.

The annual report of the Niagara Falls Power Co. for the year ended December 31, 1917, shows a surplus of \$1,200,065 after depreciation and other charges, as compared with \$1,362,116 surplus for 1916, or a decrease of \$162,051.

COTTON MARKET FIRM.

J. P. Bickell & Co. received the following closing cotton list: The cotton market today, while extremely bullish, maintained a fairly firm tone, with final figures 14 to 25 points higher on balance.

Record of Yesterday's Markets

Table with columns for Toronto Stocks, New York Stocks, and various market indices. Includes items like Am. Cyanamid, Am. Holden, B.C. Fish, etc.

Montreal Produce Market

Montreal, March 13.—There was a better feeling in the local market for the cash article in oats today, as a result of improvement in the export market. The price of oats advanced 1/2 cent to 11 1/2 cents per bushel.

UNLISTED STOCKS.

Table listing unlisted stocks such as Brockton, Black Lake, C.P.R. preferred, etc.

MONTREAL STOCK EXCHANGE.

Table listing Montreal stock exchange items like Bell Tel., B.C. Fish, etc.

MINES ON CURB.

Table listing mines on curb such as Beatty, Buffalo, Crown Reserve, etc.

WANT ACT AMENDED

Kingston, March 13.—Kingston is still without a street car service. It may require three more days to make repairs to the generator.

FATAL SHELL EXPLOSION.

Washington, March 13.—A shell explosion on the U.S.S. Van Steuben, which killed three men, was announced late today by the navy department. The shell exploded while being fired.

DECLINE EXPECTED IN CORN RECEIPTS

Bad Weather Causes Prices to Stiffen in Chicago Market.

Chicago, March 13.—Unfavorable weather conditions, together with predictions of falling receipts, strengthened the corn market today, after some weakness at the outset. Prices closed firm at the same as yesterday's finish to 2 1/2c higher, with March \$1.25 and May \$1.27 1/2. Oats advanced 1/2c to 34c to 35c. The price of oats ranged from 2 1/2c decline to a rise of 1/2c.

Board of Trade

Table listing Board of Trade items like Manitoba Wheat, Ins. Copper, etc.

WAR CABINET HISTORY SHOWS BIG CHANGES

London, March 13.—The war cabinet's history for 1917, which was issued today, forms a most interesting and highly important historical record, and also shows the tremendous labors of the achievement. The government emphasizes that the whole character of the war has gradually changed since last year, involving the complete transformation of the British administration and organization.

JOHN DILLON IS MUM

Dublin, March 13.—John Dillon, who succeeded John Redmond as leader of the Irish Nationalists, said today that he did not think any statement of the Irish party policy could usefully be made until the result of the conference was made known. He is, he trusted, and believed, would be within a very few days.

To Call on U. S. Congress

Boston, March 13.—After a public hearing today, the legislative committee on federal resolutions voted unanimously to report favorably a resolve calling upon congress to "pass such measures as may be necessary to provide that the right of Ireland to be a free and independent country shall be considered at any peace conference which may be held at the termination of the present war."

TO MAKE IRISH INDEPENDENT

Paris, Tuesday, March 13.—The Romanones element in the Spanish cabinet has apparently become extinct with the resignation of Amalio Jimeno, the minister of marine, according to today's advices from Madrid, where the premier, the Marquis de Albuquerque, recently agreed to continue in office at King Alfonso's request, after the presentation of his resignation. Conferences lasting all the morning between the premier and former Premier Romanones were held in private, the object of the latter's effort to obtain the continuation of Senor Jimeno in office, but this was unavailing.

MONTENEGRIANS RELEASED.

Indianapolis, Ind., March 13.—Thirteen Montenegro prisoners held in the United States district court here on a charge of conspiring to obstruct the United States in its military preparations were discharged by Judge A. B. Anderson directed the jury to return a verdict of not guilty.

SOVIETS MEET TODAY.

Moscow, Monday, March 11.—The All-Russian Congress of Soviets, which was called to rally the peace treaty with Germany, has postponed its opening meeting until Thursday, March 14.

At Simpson's--Brisk Movement of Easter Fashions for Women

The steady exit of suits, coats and dresses from our third floor makes constant replenishment necessary from the most approved makers and fashion centres. It is well worth your while to see these fleeting visitors. Come today and look up specially the items mentioned here.

Women's Smart Suits Special Values \$32.50

This excellent assortment includes some of the smartest designs we have shown this season at the moderate price for which they will sell today. Many of them are sample suits; others are chosen from regular high-grade stock; all are examples of the leading materials, colors and styles. Each is a very special value today at \$32.50.

Wonderful Array of Misses' Tweed Coats Moderately Priced at \$19.95---\$22.50---\$25.00

The Tweed Coat brooks no rival for real comfort and practicability. Young women will be interested in these three stunning new designs.

The back of one falls in box pleats from a deep yoke; loosely belted, and finished with large convertible collar and button-trimmed cuffs; half lined with satin. Price today, \$19.95.

Inverted pleats, a military buckled belt, a huge square-backed collar, and fine bone buttons. They are cleverly finished with gipings of bias gingham. Sizes 41 to 51. Price, \$22.50.

Double box pleats are shown in a very striking model; also note the graceful shawl collar, broad belt, and deep button-trimmed cuffs; half lined with satin. Today's price, \$25.00.

Women's Smart Becoming Mourning Dresses

Women who wear mourning will appreciate the special attention we give to the choosing of frocks that are at once appropriate and modish. Just now the dresses we are showing are particularly attractive. Crepe de chine, georgette crepe, taffeta, satin and crepe de chine and taffeta combinations, are mostly used to fashion them. Each design clings to the straight effect, relieved by soft draping and tunics and dressy surplice, bolero and vested bodies. Tiny buttons of self, rich embroidery in silk or dull beads, and often touches of white or dove grey in vestee or collar gives a quietly bright touch. Priced from \$22.50 to \$50.00.

Women's Dressy Skirts

They are made from taffeta and crepe de chine, featuring pleated and gathered designs, flowing side panniers and deep tucks.

The waist lines are either high or normal, while broad buckle-caught girdles and button trimming give a smart finish. Colors navy, black and taupe. Prices, \$10.00, \$11.50 and \$12.50.

Women's Extra Size House Dresses

The woman who possesses a stout figure will be glad to hear about these smart, neat, extra-size house dresses of blue chambray. They are cleverly finished with gipings of bias gingham. Sizes 41 to 51. Price, \$15.00.

Sateen Petticoats--They are smartly cut and finished with pretty frilled and knife-pleated flounces; lengths 34 to 40; black only. Price, \$15.00.

Women's Spring Coats

No woman who is looking for a smart, moderately priced spring coat need go further than these cleverly tailored garments at \$22.50.

They are made from fine and medium serges in a number of dressy styles, showing the new fitted back and rippled skirt. Very attractive are the button trimmed and buckle-caught belts, rows of military braid, jaunty collars and novelty pockets. Price, \$22.50.

Great Offering of Habutai Silk

We could not buy this habutai silk today at the price we've marked for selling. It is reasonable, the quality is A1, and this large purchase should all be disposed of the same day it is put on sale. Remember, today.
