### A GRADUAL PROCESS MUST BE FOLLOWED IN STOPPING WORK

Conditions Regarding Munition Factories Made Certain Yesterday.

NO DRASTIC MEASURES Step From War to Peace Industry to Be Made Carefully.

Conditions regarding munition workers changed from uncertainty to certainty by the official instructions from Ottawa which reached the heads of firms yesterday, defining the method to be taken in the matter of closing down munition plants.

The orders are to effect today and point out that all work on munitions for the imperial munitions board in Toronto will cease on Friday, Nov. 15, as far as first operations are concerned. The instructions further provide that all work in process on Nov. 15 shall be carried on to completion until December 15, at which date all work on shells still remaining to be completed shall also cease.

The official notice refers to the fact that the terms of the armistice make it improbable that further munitions will be required, and in order to discontinue the production of shells with as little disturbance to labor as possible, the course outlined was adopted.

While all work on British orders will terminate finally on Dec. 15, many of the largest firms in the city are expected to carry through orders for the American Government for some months afterwards, with little or no reduction in staffs. What the government desires is that these orders might also be discontinued at any moment, some expect to carry on until well into the summer season.

It is the consensus of opinion that the Dominion Government and the imperial munitions board will co-operate to make the work of slowing down on a war gradient, and that the conversion of the various plants will be such as to verge into lines for use under peace conditions.

Plans for working on shipment of shells are also under orders. The message from Ottawa was to close down shipping contracts and to "store your product and inventory, at usual, attaching necessary certificates and warehouse receipts, certified by inspector."

Regarding the activities on airplanes, work is going on at the maximum, shipping is still in progress, and the opinion of the managers tends to the conviction that orders will not lessen appreciably for some time as far as the American Government is concerned, and that the home government will not insist on any abrupt change, but will, for the interest and protection of labor, see that peace industries are well under way before taking drastic measures.

Again, as was pointed out by one firm, "a peace treaty is not signed, and precautions will not be relaxed."

### The Problems of Reconstruction.

The World has received all kinds of congratulations and suggestions from the general public who have been reading our articles in regard to the immediate reconstruction of Canada by reason of the ending of the war. "Back to Business" is the cry from them all. They want to see the embargo on business by reason of the war, whatever they may be, removed. They want to see demobilization at the earliest possible moment, and especially in regard to the forces now assembled at various points in Canada; that all forms of essential labor now represented in these forces be discharged; farmers and farm laborers; men in the building trades, such as masons, bricklayers, stone-masons, hod-carriers, plasterers, carpenters, plumbers, concrete workers, and all that class; also that men who can go into industrial work of agricultural implements, automobiles, tractors, and the like; most of all, of ordinary every-day laborers, who would be glad to go back to their work; also men in business who have been taken away from useful employment at various points—all be let back.

And what applies to the forces on this side applies equally so in regard to the men overseas. Any number of them should be let back as fast as the ships can bring them. Let the farmers get back and the men in the building trades, and the laborers and the business men. We will want them all here for the reconstruction of Canada. Let the police duty of the allies on the other side be done largely by the forces of the United States. And there is more than one reason why the Americans can do it better than English or French soldiers. The presence of the English or French soldiers in the occupied portions of Germany would be distasteful to the Germans—alho we have not to consult their views—but certainly the Americans, who have seen little service so far, and who are over there in the name of peace, should be let do the work. The Canadian boys ought to be allowed back after four years of hard work and much suffering and long separation from their friends here at home.

And one of the all-absorbing topics is the necessity of calling parliament to assist in the work of reconstruction, by legislation and investigation into actual conditions; and parliamentary committees and parliamentary discussions can do a lot in this direction.

It may be that the prime minister must attend the peace conference. But that is no reason why the government should not be active on this side, and that is no reason why the parliament should not be in session. But parliament in session, by the prime minister, can do more for the reconstruction of the country than the prime minister sitting under the peace table over in Europe can do. There is a strong expression in this regard to be found in the newspapers. The Liberals intend to make an issue of the reconstruction of the country in their platform, and the various meetings, which will be held from now on.

The question of prohibition in regard to liquor and the question of the prohibition of racing are coming up again and are settled by parliament or by the legislatures. And the Ontario Legislature must meet and deal with the question of the vending of spirits that is now allowed under the provincial law. At present that law is very unsatisfactory, and the vending of spirits should be in the hands of the government. And there is no question but that the soldiers who are coming home will demand some change. The French Government has already in the legislature, and the better that is presented to the public. These things must be met in the legislature, and the sooner they get by on them the better.

We have been reading in some of the papers statements to the effect that promises of the reconstruction of the country have been made with an abundance of money to the parties on a fifty-fifty basis; and that fifty per cent. of the seats in the cabinet belong to the Liberals, and that most of these Liberals are in favor of a reduction of the tariff and that the farmers are asking for tariff modification and that they are entitled to it on the fifty-fifty basis.

As to the City of Toronto, as we pointed out yesterday, in no other place in Canada is there so much need of immediate reconstruction in regard to the street railway situation, the radial situation and the power situation. There should be consideration and co-ordination in this respect, and it can only be done by legislation to get the best efficiency and the best service. The Ontario Legislature could well be in session for two or three months in dealing with the reconstruction of the province. The Municipal Act will require revision. It is absurd to think that the government of the suburbs of Toronto can be administered under township municipal organization. If the suburbs have to come into the city, as they will have to, it is time that the city had some say in regard to the building regulations that are to obtain in what is now the township. Rows of a very cheap class of houses, crowded on the smallest, narrow pieces of ground, where there is no reason for crowding, will become a menace to the public health and the public welfare. Why should little cottages be crowded on 15 feet of ground as close as they can be packed, where there is plenty of room for everybody to have a fair-sized lot?

The municipal law must be amended so that in Toronto and in its immediate neighborhood there should be three forms of assessment; one based on assessment for city with city improvements; another based on assessment for suburban improvements; and an assessment for gardening and other suburban improvements. And there is lots of legislation affecting farmers and farming industry from the point of view of reconstruction that ought to be taken up and discussed in the Ontario Legislature right away.

Toronto is about to have a municipal election and has to elect a mayor, council and controllers. It is time that the electors of Toronto be kept advised of the subjects and to see what kind of platforms will be presented to the electors by the various candidates. In regard to the great issue of reconstruction work, the electors of Toronto should be quickly and let the men back to productive employment; get parliament and the legislature at work.

### AN ECHO OF "PEACE MONDAY"

## GERMAN ARMY BEGINS EVACUATION PROCESS

Paris, Nov. 14.—Germany's troops began to evacuate France and Belgium on Tuesday. The allied troops then moved forward, the Americans advanced in the direction of Metz and Strasbourg.

Marshal Foch, commander-in-chief of the allied forces, will make solemn entries into these German fortresses on Sunday in the presence of President Poincaré and Premier Clemenceau. The marshal will ride into the cities on Crocus, his favorite charger.

It is probable that the departments in the new territory will resume their old names, namely, Bas Rhin, Moselle, and Sarre. The prefecture of Colmar and Moselle, the prefecture of Metz, and the prefecture of Strasbourg are already in consideration for the establishment of provisional administrative arrangements.

The occupation of the territory on the left bank of the Rhine and the bridgeheads will not be undertaken by the allied forces until later. The Belgian and Dutch promises to be rapidly accomplished. On the occasion of the re-entry of the Belgian sovereigns into Brussels the French Government has decided to present to the Queen the Grand Cross of the Legion of Honor, and to the heir apparent the Chevalier's Cross and the Cross of War.

In conformity with the agreement reached between Marshal Foch and the German delegates, a period of five days has been allowed to the enemy in which to hand over all the armaments material stipulated in the armistice.

The French commander asked the Germans for information as to where arms had been hidden, and was informed that some had been placed in the Ostend station and lined to explode yesterday. The German command accordingly was asked to send officers to locate the explosives.

An additional day, making 15 days in all from the date of the armistice, has been granted to the enemy to evacuate Belgium, Luxembourg, Alsace and Lorraine.

Marshal Foch has directed the German staff officers to the King of the Belgians at Bruges to give information regarding the German and Luxembourg railroad and canal systems and the navigation of the Rhine. The Germans today are sending an officer to Chimay to arrange with French officers for the handing over of the arms and material which Germany has to surrender.

### BRITISH ELECTIONS WILL TAKE PLACE ONE MONTH HENCE

PROROGATION IN WEEK Both Houses to Present Address to King Regarding War.

London, Nov. 14.—A proclamation will be issued on Nov. 25, summoning a new parliament, Andrew Bonar Law, chancellor of the exchequer and government spokesman, announced in the house of commons today. Nominations will be made on December 4, and polling will take place on December 14. Prorogation of parliament will take place on Wednesday or Thursday of next week at the latest. On Monday an address will be presented to the King and moved in both houses of parliament in regard to the war.

DATE OF REFERENDUM BY ORDER-IN-COUNCIL Sir Wm. Hearst, premier of Ontario, stated yesterday that it might be necessary to settle the date for the referendum on the Ontario Temperance Act by an order-in-council. This was owing to the uncertainty respecting the return of the soldiers from overseas. When the first Monday in June, 1919, was selected it was with the expectation that the war would be over soon enough for the soldiers to be back by that time.

Sir William considered that it would not be satisfactory for the Ontario soldiers to vote on the O.T.A. while overseas.

Ontario is well prepared to deal with the general reconstruction period, according to Premier Hearst, who said, "We did not wait for the coming of peace to prepare plans for the period of reconstruction. Arrangements had been made long ago for the evacuation of Belgium, Luxembourg, Alsace and Lorraine."

Military Police, Civil Section, Will Be Disbanded Forthwith Ottawa, Nov. 14.—The government, having decided to suspend the operations of the Military Service Act, orders have been issued by the department of militia and defence to disband forthwith the civil section of the military police.

ALLIES OCCUPYING ALSACE. Geneva, Nov. 14.—It is announced from Basle that French and American troops have begun occupation of portions of Alsace, as the Germans evacuate the area, which was warmly welcomed by the populace.

### BRITAIN WILL REMOVE RESTRICTIONS ON TRADE

Government at London Takes First Steps—Will Supply Fish to Germany.

London, Nov. 14.—Sir Albert H. Stanley, president of the board of trade, announced today that the first steps had been taken to relax prohibition on imports and exports. The Daily Express is officially informed that the arrangements being made to supply the German people's most pressing need for food will not be lessened by Germany's need for bread, but there is no immediate prospect of white goods in this country.

### FOOD BOARD REPEALS FLOUR SUBSTITUTE ORDER

Ottawa, Nov. 14.—The first order of the Canada Food Board issued after the signing of the armistice fulfills the board's undertaking to withdraw as many war-caused restrictions on food as possible at the earliest moment. Following the action of the allied food controllers, all orders and rulings regarding the sale, purchase, use or consumption of substitutes for wheat flour are repealed from Thursday, whether in the trade or in private homes. The main factor enabling this to be done is the immediate release of allied shipping to make the voyage from Europe to Argentina, India and Australia, where there are accumulations of stocks of wheat. Wheat substitutes only are affected by the new order. The same regulations as hitherto will remain for milling extraction of standard flour.

Spain, After Several Months, To Intern U-Boat Captain Madrid, Nov. 14.—Measures are being taken for the internment of the commander of the German submarine U-39, which has been anchored at Cartagena for several months. The German sailors have been landed and the submarine is being guarded by a Spanish crew.

### \$1,000,000 YEARLY FOR RECONSTRUCTION

Manufacturers' Council Decides to Ask Government to Spend Amount in Research Work. Montreal, Nov. 14.—At a general meeting of the council of the Canadian Manufacturers' Association here today, it was decided to request the government to take active steps in the reconstruction work, and to make a grant of not less than \$1,000,000 a year for research work to find new outlets for Canadian trade. It was further decided to represent to the government that no increase in export trade would be possible unless sufficient vessels were provided to take care of such trade, and representations will be made to the government requesting that strong action be taken to aid in the construction of sufficient shipping so that Canada's foreign trade is taken care of.

President W. J. Bulman, Winnipeg, was in the chair.

### CONFUSION REIGNS IN GERMAN RANKS; ALLIES ON GUARD

Revolutionary Councils May Refuse to Acquiesce in Armistice.

SURRENDER IN TIME Foch's Plan of New Attack Would Have Brought Disaster.

London, Nov. 14.—Describing the situation at the front, the military correspondent of the British wireless service says: "Marshal Foch had prepared a further great attack east of the Meuse, which would undoubtedly have dealt the enemy a decisive blow. When the armistice was concluded, therefore, the Germans were faced with imminent disaster, and the only course open to them was to surrender at their discretion."

"The German army appears to be in a state of extreme confusion but the five days' respite which has been granted may enable the Germans to organize their lines of communication and carry out the withdrawal of their troops. It is evident that the allies must remain prepared for possible hostile action on the part of certain elements of the enemy's forces. Revolutionary councils have been set up which may refuse to acquiesce in the terms of the armistice, and the mere fact that the armistice can be terminated by either side at 48 hours' notice necessitates the allies being fully prepared for eventualities."

### RED GUARD ARRESTS BRUNSWICK OFFICIALS

Revolutionaries Supplant Wurttemberg Cabinet—New German Government Program. Copenhagen, Nov. 14.—The Berlingske Tidende learns that the Wurttemberg cabinet has been supplanted by members of the People's National, the Liberal and the Centrist parties.

Advices from Berlin say that the red guard in Brunswick is arresting the high officials and high representatives of the military authorities and throwing them into prison. A despatch received here from Berlin says the new government has published its program in a proclamation. The proclamation concludes that the victims of the fighting during the past few days inside Greater Berlin shall be buried together in the cemetery where the victims of the 1848 revolution are buried.

The proclamation announces that the state of siege has been raised, that there is to be full liberty for all, even functionaries to form associations; the censorship, including that on theatricals, is abolished, there are to be freedom of speech and writing, amnesty for political prisoners, and the law of national auxiliary service, an eight-hour work day, and universal direct secret suffrage, with proportional representation for men above 20 years of age for election to all public bodies.

## WAGES WILL STAY AT PRESENT LEVEL

### British Government Will Protect Labor in Transition Period.

London, Nov. 14.—Premier Lloyd George, in an address before the representatives of the employers' associations and trades unions of the principal industries of the country, declared that the government wished to have the assistance and advice of the employers' associations and trades unions to the course which should be adopted to make provision for the carrying out of the pledges given by the government in March, 1915. At that time he urged upon the workers to relax during the period of the war certain unwarlike policies and customs. The government, he declared, intended that the pledges given would be carried out. It was the policy of the government with the hope, the assent of the employers' associations and the people's associations, to provide during the immediate transition period the present level of wages, due to the high cost of living, should be maintained for at least a period of six months, unless altered by agreement between the various parties concerned or by reference to an independent tribunal.

## WAR SUMMARY

### The Day's Events Reviewed

Announcement of British general elections in December and of the early sitting of the inter-allied war conference in Paris means that the problems of the forthcoming peace settlement. It appears that the real decision as to terms will come at the late sitting of the conference. The allies will have the program all arranged, and the Germans, Austrians, Turks and Bulgarians have to accept it with little modification. Since the revolution in Germany is just beginning the allies may have to occupy the country in some respect and prevent it from breaking up into communes.

In the war zone the German army has begun the evacuation of France, Belgium and Lorraine, but the German commanders are already having places they have become inordinately, and in other, including Russia, they have broken out into open revolt. The breaking down of the German discipline in this manner, if allowed to proceed, will speedily dissolve the German soldierly into plundering mobs without cohesion and with the sole individualistic desire to scurry home. The German army, in fact, is beginning to resemble the Russian army a year ago. Most of this trouble is the result of the desire to agitate, and it will require, perhaps, two or three years for the men to recover their normal condition of mind.

In the near future the army, and the many vagabond soldiers in Germany will present an international problem. Von Hindenburg meanwhile is trying to prevent change in the army, and the new German Government has ordered the carrying out of the armistice command. Meanwhile the German high command is attempting to disarm the soldiers.

In the eastern theatre of the war the allied soldiers, well before the armistice, had got across the Danube and Rumania, having mobilized, is demanding that the Hungarians evacuate Transylvania. An allied army has arrived in Rumania and will probably demobilize the army of Von Mackem. The presence of allied warships at Constantinople means the speedy opening of the Bosphorus and the sailing of the allied fleet into the Black Sea. It is probable that the occupy Sebastopol and Odessa. The begin a campaign against the Bolsheviks in Moscow from the warm seas also. An allied army is about to occupy Petrograd, in the north and to occupy Peking.

In the allied countries demobilization of the home forces is proceeding, but it will be some time before demobilization begins at the front. The allied armies will follow up the German retreat from occupied territories and eventually penetrate into Germany, and it is necessary to keep them up to strength until it is seen what is going to happen in Germany. The British Government has prepared a plan for demobilization in three years. The process includes the despatch of soldiers home at stated intervals, according to their new war occupations. The problem, however, will consist of dealing with the returned soldier, for after his experience at the front he will require a long rest and retraining in his civilian life. Active service makes a man as a rule speedily forgetful of his trade in civil life.

## VERBAL STATEMENTS NOT BASIS FOR SUIT

### Judgment Rendered for Defendants in Case Against Mercantile Trust Company.

By a Staff Reporter. Hamilton, Nov. 14.—The case of Strathearn B. Thomson against Morris & Wright, the Mercantile Trust Company and others, which has been on trial before Mr. Chief Justice Falconbridge and a jury in the assize court of Ontario since Tuesday morning, came to an abrupt termination today when his lordship took the case from the jury and rendered judgment for the defendants. The motion for non-suit was presented by Senator George Lynch-Staunton, representing Morris Wright, and D. L. McCarthy, representing the Trust Company, and was vigorously opposed by Peter White, K.C., on behalf of the plaintiff.

In sustaining the motion, his lordship observed that the testimony of the plaintiff tended to prove suspicious transactions, but he doubted whether there had been sufficient legal proof to sustain a verdict against the defendants. He cited a recent case, decided by the house of lords to sustain the proposition that any fraudulent misrepresentations respecting the character or ability of a person must be in writing in order to furnish the foundation for a judgment in an action for deceit. The word "person," as used in section 5 of the Statute of Frauds, included a corporation.

Not Made in Writing. The various statements made by the defendants might have been untrue and might have induced the plaintiff to invest his money in worthless shares, but they could not furnish the basis for an action at law, inasmuch as they had not been reduced to writing, but had been made verbally. He also pointed out that the plaintiff had not offered sufficient evidence to establish a falsity of some of the representations relied upon.

Mr. Thomson, who has made a game fight against heavy odds, at once gave notice of appeal. He also stated to the press that he would forward a copy of the evidence and exhibits in the case to the attorney-general. He claimed that the Mercantile Trust Company had no right to loan money upon the shares of the North American Pulp and Paper Company as collateral. The Trust Company is one of the strongest financial corporations in Hamilton, and includes upon its directorate such well-known men as Sir John Hendrie, Cyrus Birge and C. S. Wilcox. Mr. Wilcox, however, was not a member of the board at the time of the transactions complained of by Mr. Thomson.

## NO SHELLS HAVE DROPPED IN CANADA

ACROSS the seas thousands of gallant men have fought the fight that has kept Canada in peaceful possession of the rights of freedom.

Many of these men have died for Canada, have died for an and for the cause for which they fought—while others still "carry on," bringing the war nearer and nearer to a victorious end.

Without food, clothing, guns and ammunition these men could not have fought our fight for us. Without money these things could not have been supplied to them.

Money has been the backbone of this war, and because money in vast sums has been forthcoming, no shells have dropped in Canada.

## Brain Power

IN the brain is consumed one-fifth of all the blood in the human system. This goes to feed the nerve cells and to create the all-essential nerve force—for whether you think or speak or move your hand, nerve force is consumed in that act.

When any unusual demand is made on the brain, whether by excessive mental effort or as the result of mental worry and anxiety, still more blood and more nervous energy are used in the brain and other organs of the body are robbed of the nervous energy necessary for their proper working.

There is always a big demand on the nervous system, and when this is increased by shock, or sorrow or any great mental worry or anxiety there is danger of a breakdown.

At this trying time, when so many are suffering from nervous troubles of one kind or another, Dr. Chase's Nerve Food is proving a blessing of untold value.

This food cure is not like a stimulant, because it cures in Nature's way by restoring the depleted nerve cells, increasing the nervous energy and building up the system generally.

When you feel tired out in mind and body, have brain fog and failing memory, and feel that you are losing your energy and vigor, it is time to turn to Dr. Chase's Nerve Food as a means of renewing mental and bodily vigor.

If your experience with Dr. Chase's Nerve Food is like that of the great majority of people who use it, you will soon feel the benefits in increased capacity—both mental and physical. You will feel that you have the reserve force necessary to withstand the strain of life's work and to ward off disease. It is only by building up nerve force that you can hope to counteract the debilitating influence of mental worry and anxiety.

Dr. Chase's Nerve Food is so universally used that you can obtain it from any dealer at 50 cents a box, 6 for \$2.75, or from Edmanson, Bates & Co., Limited, Toronto. The portrait and signature of A. W. Chase, M.D., the famous Receipt Book author, are on every box of the genuine.

THE T. EATON CO LIMITED

ORDER OF PETAIN TO FRENCH ARMY

Will Go All Way Into Germany to Occupy Guarantees.

With the French Army in France, Nov. 12.—General Petain, the French commander-in-chief, has issued the following order to the day to his troops:

"To the French Armies: During long months you have fought with valor and tenacity and fierce energy displayed during these four years by our country, which had to vanquish in order not to die.

"Tomorrow, in order to better dictate peace, you are going to carry your arms as far as the Rhine. Into that land of Alsace-Lorraine, that is so dear to us, you will march as liberators. You will go, further, all the way into Germany to occupy lands which are the necessary guarantees for just reparation.

"France has suffered in her ravaged fields and in her ruined villages. The freed provinces have had to submit to intolerable vexations and odious outrages, but you are not to avenge these crimes by the commission of violence, which, under the spur of your resentment, may seem to you justifiable.

"You are to remain under discipline, and to show respect to persons and property. You will know, after having vanquished your adversary by force of arms, how to impress him further by the dignity of your attitude, and the world will not know which to admire most, your conduct or heuven.

"I address a fond and affectionate greeting to the heads of households who have given me the victory; I send a message of salutation, full of sad affection, to the soldiers, to the mothers, to the widows and orphans of France, who, in these days of national joy, dry their tears for a moment from the memory of our arms. I bow my head before your magnificent flags.

"Vive la France!" (Signed) Petain."

ARTHUR MEIGHEN TO ACT.

Ottawa, Nov. 14.—In the absence of Hon. C. J. Doherty, overseas, Hon. Arthur Meighen will be acting minister of Justice.

POLES ENTER SILESIA.

Copenhagen, Nov. 14.—Polish troops, having entered a despatch from Berlin, have occupied upper Silesia, Prussia.

PROTESTANT CHURCHES TO STUDY FEDERATION

New York, Nov. 14.—Representatives of nine Protestant denominations have accepted an invitation of the Presbyterian Church in the United States of America to meet in Philadelphia Dec. 3 to 6 to consider a proposal of the Presbyterian general assembly for "organizing union of the evangelical churches in America."

The plan is for making "one federal church out of all these denominations."

The denominations which will be represented at the conference are the Presbyterian Church in the United States of America, Protestant Episcopal Church in the United States, Reformed Church in the United States, United Presbyterian Church of North America, Methodist Episcopal Church, Congregational churches, Disciples of Christ, Evangelical Synod of North America and Moravian Church in America.

WILL AMEND BONUS TO CIVIL SERVANTS

Ottawa, Nov. 14.—The order-in-council granting a war bonus to civil servants is, it is understood, now being revised by a sub-committee of the cabinet which has the subject in hand, and several important amendments are likely to be adopted at an early date.

These will have the effect of classing all employees of the service eligible for the bonus into two divisions—those having dependents and those without dependents—and of granting to all these a "flat bonus" of \$250 and \$150 respectively.

Any doubt as to which class the civil servant belongs to, the \$250 or the \$150 will be decided by the sub-committee of council.

SWISS GENERAL STRIKE.

Geneva, Nov. 13.—A general strike was begun in Switzerland last midnight by order of the soldiers and workmen's council at Olten. The federal authorities have ordered the mobilization of a division of 25,000 troops, mostly French-Swiss, to restore order. The troops, however, have been unable to reach their destinations because railroad service was interrupted.

GERMAN PROTEST AGAINST TERMS

French Government Publishes Declaration of Berlin Regarding Armistice.

Paris, Nov. 14.—A declaration sent to the French Government early this week by the German plenipotentiaries who went to Marshal Foch's headquarters to sign the armistice between the allies and Germany has been published here. It protests against some features of the terms agreed to by the Germans, and to which they objected verbally at their first meeting with Marshal Foch. The declaration reads:

"The German Government will naturally make every effort to aid in the carrying out of the obligations imposed upon it. Its plenipotentiaries recognize that on certain points a conciliatory spirit has been shown towards their suggestions.

"They cannot, however, permit any doubt to exist on the fact that the shortness of the delay fixed for evacuation and the handing over of indispensable means of transport threaten to provoke a state of affairs, which, without the German Government and people being at fault, may render the execution of the conditions of the armistice impossible. The plenipotentiaries further consider it their duty, referring to the reiterated verbal and written declarations, to state once more, with the utmost energy, that the execution of this convention must throw the German people into anarchy and famine.

"After the public manifestations which preceded the laying down of the armistice, conditions might have been expected which, while giving our adversaries full military security, would have put an end to the sufferings of non-combatants and women and children. The German people, which for fifty months have held out against a world of enemies, will maintain its liberty and unity despite every violence."

CAN ONLY SEND REPLY IN EXCEPTIONAL CASES

Ottawa, Nov. 14.—After nine stenographers specially detailed for the work had endeavored unsuccessfully to cope with the flood of letters received requesting the immediate return of soldiers from the front, the militia department issued a statement saying that, owing to the large number of these communications and the tremendous labor involved in dealing with them, replies will not be sent to any received during the last few days, unless the cases appear to come within the policy affecting leave of absence on compassionate grounds, in which event they will be dealt with in the usual way. Any other course of action would involve the return to Canada of soldiers by preference or selection for private reasons which could not in any way be justified.

NO-STRIKE ORDER HAS BEEN RESCINDED

Ottawa, Nov. 14.—The following statement was handed out this morning by the minister of labor:

"On the recommendation of the minister of labor, the government yesterday revoked the no strike order-in-council, passed on Oct. 11, 1918.

"The immediate necessity of the original order was caused by a threatened strike, staged for Thanksgiving Day, by some 5000 labor men. The order was not regarded by the government as placing any disability upon the great majority of labor organizations who had accepted the government's war labor policy as announced by order-in-council in July last, and were submitting all their grievances to the tribunals designated, which were being operated with perfect success.

"The no strike order was issued only for the purpose of maintaining industrial peace during the continuation of the war, and is cancelled because it has served its purpose and is no longer necessary."

### ONLY EDUCATION SAVES DEMOCRACY

Hon. Dr. Cody Speaks to the Women's Canadian Club.

A capacity house greeted Hon. Dr. Cody, minister of education, when he spoke to the members of the Women's Canadian Club at the Masonic Temple yesterday afternoon.

In opening the speaker said that he hoped no sentimentalism would rob the soldiers of the victory they had won, and that no mundane softness would allow the Kaiser and his people to escape without the penalty of their deeds. "We want signs of penitence," he said, "before we take them to our arms. Mercy without justice would be worse than justice without mercy."

Speaking of the new era that is to follow the war, the speaker pointed out that in case of a reaction, Dr. Cody pointed out that if the spirit of service and sacrifice which guided the boys who died was not to be found in those at home, then there might result a very hell in industrial Canada.

Reconstruction, according to the speaker, has been understood in two ways, first, its early meaning, which meant getting back to pre-war conditions, and the later meaning, which implied the bringing in of a nobler and worthier world. In the carrying out of this latter work three elements must contribute: the women of the country, the men who will return, and the people who have remained at home. The only basis of reconstruction upon which success could be built was the conservation and development of human resources.

The fundamental importance of education was pointed out, and in this connection the speaker emphasized the point that the so-much-talked-of democracy was only safe when it was guarded by education and by being honestly and efficiently led. The supreme lesson to be learned was the power, value and ultimate influence of education. Persons must be valued more than things, and service better than self-seeking.

Dr. Helen Macdonald presided, and Lady Hendrie was among those on the platform. The president announced that \$100 had been invested for the club in a Vicory bond. She also made a plea for others to buy bonds. A letter was read from overseas showing appreciation from the men of the tank battalion for the interest taken in them by the Women's Canadian Club. Five hundred pictures and postcards of things Canadian and 752

### IDA AND THE POWDER THROWERS

BY IDA L. WEBSTER.

On Monday night, when everyone was filled with the greatest joy of the last four years, there were a few citizens who lost control of themselves so far that the only outlet which they could give to their highly strung nerves, or rather the only vent which satisfied them, was the throwing of talcum powder.

Now, there is a possible chance that that particular stunt may be fearfully funny, but at the same time it is so absolutely rowdy that it is disgusting. Women had thousands of dollars' worth of clothes ruined by it, and besides that, it was of such a poor and unpleasantly loud odor that it was quite fatal to the eyes.

We have just had our attention drawn to a case which we think is worthy of the high court of Berlin, Germany. A young girl was one day on a street and had had her left eye completely blinded by this powder. While she was standing trying in some manner to wipe the stuff away, or at least make it possible to see, she was accosted by some young hoodlum, who asked her in a most kind manner what the trouble was. She explained to him, and in doing so faced him. When she had finished what she had to say he deliberately threw more in her other eye.

She was then completely blinded, and had to stagger along the street with the aid of her companion until such time as she was able to get a taxi and be driven to her home. Another young lady was taken into one of the drug stores on Yonge street suffering from the same thing, and yet nothing was done to prevent it.

In the former instance the person who thus treated that girl was a Hun of the worst calibre at heart, and we venture to say that he was one of the sort who got married to evade the draft, or managed in some other way to keep himself free of military service. Yet he and the rest of his ilk roared and yapped around the streets, making more noise and fuss than a regiment of real Canadian boys when they are going "over the top."

If Toronto is blessed with one thing more than another, it is a crowd of inconsequential whippersnappers who should be put on a farm where they could get a lot of real hard work, and learn to keep their mouths shut. From their appearance and their talk one would gather the impression that they had but lately arrived from the interior of Russia, and if this is so then they had better take a trip back, because they will not be a credit to any part of the new world.

These very same persons made life practically unbearable on Monday for the people who did not feel that they wanted to be powdered from head to foot, and if there is going to be any more such demonstration then the police department had better see to it that the throwing of that sort of thing is made an offence with a large fine attached. That one thought alone would no doubt put enough fear in their souls to keep them from indulging in the exasperatingly funny pastime, but unless it is made plain that money will have to be paid out it would be quite useless to attempt to stop them.

And to those people who had their clothing ruined we can only say that we are very sorry, but we do not think that you could put a bill in to the city, that is, and get any satisfaction, because we understand that one man has claimed \$12 for a wagon which was taken from his place and burned, but instead of being consoled by the city fathers, he was smoothed down with the news that if the culprit was caught he would be handed over to Judge Cohen for sentence.

### DISCUSS NEW STREET TO THE NEW STATION

King Street Association Meets and Hears Plan for Big Improvement.

The board of directors of the King Street Association met yesterday afternoon, and after listening to the routine reports admitted a new lot of members, the association showing rapid growth as its activities are extended and become better known. The new routine pamphlet showing the objects and aims of the association was formally issued.

Showing the close affiliation of the King Street Association with similar organizations, it was announced that Robert Grier Cooke, president of the Fifth Avenue Association of New York, will address the King Street Association and its friends and guests at the board of trade rooms on the evening of Dec. 5, and give the experiences and tell of the successes of the Fifth Avenue Association.

The proposed new Federal street (no copyright on the name and no objection to a better one) came in for discussion on the motion of W. E. Barker, who had gone into the matter from a standpoint of costs, and it was resolved to appoint a committee to consult with the civic guild with a view to getting the matter before the

public in such form as to be readily understood and action had thereon.

Wesley E. Barker said a rapid survey of the problem showed \$1,495,272 as the actual assessed valuation by taking into consideration 100 feet only. There had been no consideration whatsoever given to the cost of installing sewers, water service, paving, etc. Twenty new corners would be created within a very short time.

### HARI SINGH IS HOME; HAD THREE YEARS' WAR

Hari Singh of Jinkan Jan, Rajputana, is one of the "Victory" arrivals of returned soldiers from the fields of Flanders. Enlisting in Toronto in July, 1916, with the 75th Battalion, Hari was wounded by shell at Vimy Ridge in April, 1917. Hari was ordered to Col. S. G. Beckett, the well-known Toronto man who was killed in action with the 75th Battalion. Later Hari was ordered to Col. Cooper of the 18th Battalion, and finally joined the R.C.D.'s, with which unit he has remained since April, 1918. He was badly wounded in the left side.

### LONG SENTENCE FOR OBJECTOR.

Pte. Arthur Ernest Hill, 2nd Battalion, Canadian Garrison Regiment, has been sentenced, following a court-martial, to ten years' imprisonment, for refusing to don the military uniform. He is a Christadelphian and protested that his religious beliefs would not permit him to take any part in the war.

## OBITUARY

### FRANCIS JAMES FRY

November fifth, nineteen eighteen, saw the passing of Francis James Fry, for some years Chairman of the House of J. S. Fry & Sons, Limited, of Bristol, England.

For nearly seventy years Mr. Fry held a leading position in the development of the House of Fry, and to his commercial genius, unflinching tact, and gracious courtesy the worldwide success of the House was very largely attributable.

It may be stated with confidence that Mr. Fry was a man who, while he had hosts of friends, never made an enemy in business, politics or religion—yet he consistently maintained independence of thought. His sterling honesty and his courteous tolerance of opposing views had always ensured him respect.

At the ripe age of eighty-four years, and after a long life of active usefulness, the Empire loses one of its Merchant Princes, and the World is today poorer by the loss of one of her finest Citizens.

Our deepest sympathy goes out to the bereaved family, and our hope that the sadness will be brightened by the memory of many kindly acts during the long life so nobly spent.

Two thousand Military Service Act defaulters in Toronto military district, which includes central Ontario, are made free from arrest, immune from punishment, and free to return home, by an order received at Toronto headquarters yesterday from the adjutant-general, Ottawa. Much surprise was caused among military men by the Ottawa announcement. The order states that proceedings against defaulters are also to be stopped, except in cases where bribery has been committed to obtain exemption.

FRIDAY MORNING, NOV. 15.  
**Toronto Kaisers.**  
 It is astonishing, after all that has  
 happened in Europe and the object  
 lessons presented daily, that our city  
 hall departments have learned nothing.  
 The police commissioners still persist  
 in their Medes-and-Pardons attitude  
 regarding Constable Ellis, who is not  
 known to have committed any fault,  
 but, as everybody believes and two of  
 the commissioners do not deny, is made  
 the goat of the two commissioners' dislike  
 of labor unionism. They are acting  
 exactly like two Kaisers and  
 czars, and they seem utterly to have  
 forgotten what happens to Kaisers and  
 czars in these later days. The world  
 cannot be ruled with the sceptres of  
 two generations ago. The old ways  
 are dead and gone, and we live in a  
 new world. The police have a perfect  
 right, in our new conditions, to have  
 their union, and as long as their union  
 recognizes its responsibility to the  
 community no one can have any objection.  
 If Ellis goes, the Kaisers and  
 czars are also on the way.

Another evidence of the autocratic  
 methods and their vicious results is to  
 be found in the fire department. The  
 present chief had no reason to con-  
 gratulate himself on the manner of his  
 own appointment, and he has  
 maintained an evil tradition. Nepotism  
 of the kind of which he has just been  
 guilty is altogether intolerable, and the  
 fact that he could be guilty of such an  
 offence is sufficient evidence of his un-  
 fitness for the office he holds.  
 There are standards of public right  
 that must be observed, and when men  
 stray so far away from them as the  
 police commissioners and the fire chief  
 have done, something is bound to hap-  
 pen. This sort of thing in Germany  
 and Russia brought on a revolution.  
 We are not going to let it go so far!

**King or President?**  
 Rumors that the court party in  
 England are inclined to deal tenderly  
 with the Kaiser, and his family will  
 have no beneficial effect on the royal  
 house of Windsor. It is the king's  
 misfortune, not his fault, that he is a  
 cousin of the Kaiser and of the late  
 czar, and of other abdicating and  
 abdicating princes. We have no  
 right to suppose that his private sym-  
 pathies are in the slightest degree  
 with the divine righters, but any court  
 movement to obtain pleasanter terms  
 for William Hohenzollern would be  
 distinctly unpopular in Britain.  
 The Kaiser's suggestion of his desire  
 to be a perpetual president of the  
 German republic did not indicate any  
 demerit tendencies. It would be  
 an impossible position for him or  
 even for King George. President Wilson  
 is entrusted with more power and  
 authority than the King of England  
 could hope for. The Kaiser would never  
 be allowed to possess such influence  
 as even the president of France pos-  
 sesses.

The position of King of England,  
 while not a sinecure, has nothing of  
 the official responsibility that attaches  
 of the presidential office. If it had,  
 or an attempt were made to give it,  
 the result would be a speedy revolu-  
 tion. The crown of England has been  
 maintained by the good sense of its  
 wearers refusing to interfere in the  
 affairs of the state. Should this rule  
 be broken, especially in such a matter  
 as the disposition of the Kaiser, the  
 consequences might be grave.

**Better Treatment of Gerrard Street.**  
 Now that the Bloor street viaduct  
 has been completed and some of the  
 traffic that formerly went via Broad-  
 view and Gerrard street has been di-  
 verted, there is still every reason  
 why the Gerrard street bridge over  
 the Don and the street approaches to  
 it should be immediately improved.  
 A great deal of business concentrates  
 at the corner of Gerrard and Broad-  
 view, including street cars, motors,  
 motor trucks and other vehicles, and  
 the congestion still continues notwith-  
 standing the relief afforded by the  
 viaduct.  
 It is up to the city council, since  
 the business men and the public gen-  
 erally still find their most con-  
 venient thoroughfare, to see that it  
 should be kept up to first-class stan-  
 dard. The recommendation that a  
 new pavement should be put down on  
 both approaches to the bridge should  
 be executed forthwith.

**Mr. McGillicuddy's Poems.**  
 War has evoked the lyric mood in  
 many of our citizens, and it is not  
 surprising to find the autumn crop of  
 poetry unusually large. Mr. Owen E.  
 McGillicuddy has just published "The  
 Little Marshal and Other Poems"  
 (Toronto: Frederick D. Goodchild,  
 11), a slender volume, in which  
 which Marshal Mack is the titular  
 hero. The selections cover a dozen  
 years or so, and while the war poems

possess an immediate interest, we are  
 more attracted by such fine composi-  
 tions as the western poems, "In the  
 Open" and "The Prayers of a Plow-  
 man." The latter especially is dis-  
 tinguished in thought and diction:  
 Keep me from turning back!  
 My hand is on the plow, my faltering  
 hand;  
 But all in front of me is untilled land.  
 The wilderness and solitary place.  
 The lonely desert and its interspace  
 Dread husbandry. And for the years  
 of pain  
 What harvest comes to me?  
 My need of grain, a handful of  
 These dwindling stalks, a handful of  
 dry corn.  
 These poor lean stalks. My courage  
 is outworn.  
 O Lord,  
 Keep me from turning back!  
 "The Admonition" is a lofty setting  
 of the great democratic rule of ser-  
 vice. A quaint little gem is "Comfort":  
 A fire to poke,  
 A pipe to smoke,  
 A little curly head to stroke,  
 And four feet on the fender.  
 The volume is beautifully produced,  
 and is a favorite for Christ-  
 mas remembrances.

**THE WIFE**

**Brian Determines to See Mandel.**  
 CHAPTER LXXXIX.  
 Brian tried to put what Becky had  
 said out of his mind, but vainly. He  
 had said that Mandel would cut him  
 out if he didn't take care of Ruth.  
 "That handsome wife of yours" had  
 been the way he spoke of her. From  
 the very first day that Ruth had gone  
 to work, Brian felt a smoldering  
 jealousy of Mandel. On occasion he  
 had put it into words—as when Ruth's  
 salary had been raised the first time.  
 He had always been suspicious that  
 Mandel paid her liberally because he  
 was in love with her. Brian never had  
 underrated Ruth's attractions, and  
 now, after Becky's tactless speech,  
 was inclined to overrate them.

"D—Becky!" he ejaculated after  
 he had tossed and tumbled for an  
 hour, unable to sleep. "And d—  
 Mandel! They think I'm easy, but  
 they'll find out before I'm thru with  
 them." Just why he should associate  
 Becky and Mandel in his feeling re-  
 garding Ruth it would have been hard  
 to say. Of course, Becky was jealous  
 of him because Mollie preferred him.  
 "Why shouldn't she?" he said to him-  
 self with his usual egotism. Mollie  
 had some sense. She was a discrim-  
 inating kid. But, try as he would to  
 dismiss them, Becky's words persist-  
 ed in haunting and disquieting him.  
 He never had seen Mandel to know  
 him in spite of Ruth's oft-repeated  
 request that he come to the shop. He  
 would make it a point to see him  
 while Ruth was away. Becky had  
 called him her "swell boss"; it was  
 belittling to have his wife spoken of  
 as having a "boss," at least any but  
 him. He'd punch Becky's head the  
 next time he came near him.  
 But all his resolves helped not at all  
 as far as sleeping was concerned,  
 and Brian lay awake nearly all night  
 thinking, wondering one minute if he  
 had cause to be jealous of Mandel,  
 the next, deciding that he did, and  
 that Ruth must leave immediately she  
 came home.

He was so grouchy at breakfast that  
 Rachel grumbled to herself in the kit-  
 chen:  
 "He's stayin' out too late. He ain't  
 up to no good doin' so, when Missy  
 Ruth is done goin' away."  
 "I'll be home to dinner, Rachel," he  
 said shortly as he started for the of-  
 fice.  
 "All right, Massa Hackett. Rachel'll  
 give you de best dinner she kin, she  
 sho'ly will," pleased that he was com-  
 ing home. The old negro was often  
 lonely when Ruth was away, and also  
 Brian didn't visit with her as Ruth  
 did, it was someone in the house and  
 therefore company for her.  
 "Have dinner at 7," he said, then al-  
 most repented that he had told  
 Rachel he would come home if it would  
 be horribly lonely eating alone.  
 He left the office, however, about  
 4.30. Ruth had told him that  
 Mandel usually remained until 6  
 o'clock. But he wasn't going to take  
 any chances. He'd locate the fellow,  
 then if Ruth was ever with him he  
 couldn't be deceived. He had known  
 of Mandel taking Ruth and her aunt  
 to lunch, of the opera tickets, etc.  
 But he had laid it all to his desire to  
 impress Mrs. Clayborne, a very  
 wealthy woman, who might in the  
 future become a customer. Some way  
 while her aunt had been with her, he  
 had had no thought of being jealous  
 of Mandel. Perhaps because of Ruth's  
 absolute taking it for granted that he  
 would be pleased at the attention to  
 her aunt, their guest.

Brian reached the block upon  
 which Mandel's shop was situated be-  
 fore he remembered that he had formed  
 no plans as to how he should find  
 out who was Mandel—how he was to

differentiate him from the men he em-  
 ployed.  
 Halting opposite, he walked back  
 and forth several times. Finally he  
 crossed the street and spoke to the  
 carriage man who stood near the curb.  
 "Has Mr. Mandel gone home yet?"  
 he asked without too much interest.  
 "No, sir; he will be going in a few  
 minutes. That's his car."  
 "Very well, I'll smoke while I wait,"  
 Brian said, then walked leisurely  
 away. When the fellow's back was  
 turned he stationed himself in a door-  
 way next the shop, where he could  
 both see and hear without any danger  
 of being observed.  
 He had waited but a few moments  
 when he saw a man leave the shop.  
 He was shorter than himself, but so  
 well groomed, with a manner of such  
 assurance that it did not need the  
 mention of his name or the obsequi-  
 ous attention of the carriage man to  
 assure him that Mandel had at last  
 appeared.  
 "Ruth's swell boss!" he exclaimed  
 bitterly, as he watched Mandel seat  
 himself in his car and give orders to  
 the chauffeur. Even the respectful  
 way the man touched his hat Brian  
 took as a personal affront. All those  
 things were what Ruth had been ac-  
 customed to before he took her from  
 her home, where servants did her  
 bidding and where she was a pamper-  
 ed woman instead of a working one.  
 He ground his teeth savagely as he  
 swung up the avenue in the wake of  
 the car.  
 When he reached home, Rachel al-  
 most wished he had remained out, as  
 usual, he was in such a vile humor  
 and found so much fault with her.

**TURNING BARRACKS INTO HOSPITALS**  
 Sixteen Hundred Beds to Be Provided at Rosedale Clearing Depot.  
 Hospital accommodation for 1600  
 soldier patients is to be provided in  
 Toronto at once by using four of the  
 big barracks buildings now nearing  
 completion at the site of the casualty  
 clearing station to the north of the  
 St. Andrew's College grounds, North  
 Rosedale. This plan was announced  
 yesterday by Col. John Gunn, Ottawa,  
 and a representative of the Dominion  
 Public Works Department. They  
 visited the site and decided that work  
 should be concentrated on four of the  
 eleven barracks buildings now under  
 construction. Pending completion of  
 the St. Andrew's College group of  
 of \$2,000,000 buildings the four bar-  
 racks will be used as hospitals for  
 treatment of active service and or-  
 thopaedic cases. Each building is 238  
 feet long, two storeys high and will  
 accommodate 400 soldier patients.  
 Gen. Mewburn, minister of militia,  
 is given credit for this additional ac-  
 commodation.  
 In Hamilton the commander of the  
 Royal Canadian Engineers has been  
 authorized to fit up as many of the  
 Scott barracks buildings as required  
 for military hospital purposes.

GERMAN COMMANDERS MAY DISARM TROOPS

London, Nov. 14.—A significant message from the allied high command to the German high command has been sent out by the French government wireless stations. It reads:

"The commanders of the German armies continue to propose to the commanders of the allied armies facing them that they should immediately hand over their war material and prisoners to the allies."

The German soldiers in various sections of the occupied territory have apparently been getting out of hand in some places they have attacked their commanders and raised the red flag of revolt.

POLISH SOLDIERS GAIN CONTROL OF WARSAW

Berne, Nov. 14.—Vienna advices say that Polish soldiers have occupied the royal palaces and Belvedere at Warsaw and also the military commander's quarters. They also have taken possession of the German military automobiles and arms and munitions. Polish officers are directing the German demobilization.

The German police have been disarmed.

Ghent, Belgium, Nov. 14.—Brussels has shaken itself of the German yoke. German soldiers themselves are removing the shackles of the long-suffering population.

Industrial Demobilization To Proceed Cautiously

Washington, Nov. 14.—Munitions contracts for the army are to be canceled with the utmost caution, so as to safeguard the interests of both labor and capital. All bureaus of the war department, it was learned today, are making a careful survey of the outstanding contracts and recommendations are being formulated to cover the industrial demobilization involved in the cessation of work on guns, shells and equipment.

ONTARIO MAKES GOOD; HAS PASSED OBJECTIVE

"Our \$250,000,000 objective seems assured," said G. H. Wood, provincial chairman, in commenting on last night's reports. "It is a question now of how big a total Ontario can roll up by Saturday night. Today's magnificent returns of \$23,901,000, leaving but \$22,000,000 to be raised in the remaining two days of the campaign, leaves little doubt that this old province is out to make another record."

"The governor-general's honor flag will be flying in Toronto, Hamilton and London tomorrow night as a result of these cities having passed their first objective tonight. Their grand totals to date are: Toronto, \$20,871,450; Hamilton, \$14,309,450, and London, \$7,396,700.

"Twenty-two counties have now won their honor flags. The following report tonight having passed their first objective: Lincoln, \$3,762,450; Durham, \$1,855,700; Lennox and Addington, \$855,500; Kenora district, \$497,600; Halldand, \$1,249,500; Muskoka, \$553,500.

"Every unit in the province which has won its flag is still in the race striving for a new record.

"At the end of the 16th day of the campaign Ontario still makes good

KIWANIS CLUB STARTS WAR MEMORIAL FUND

The second annual meeting of the Kiwanis Club was held at the King Edward Hotel Wednesday night, R. T. Stanley, retiring president, submitted a gratifying report covering the work of the club during the year.

During the past year it has taken part in five campaigns—the Patriotic Fund, Red Cross, Y.M.C.A. Sailor's Week, and Catholic Huts—collecting over \$250,000 in aid of these various organizations.

The club is now planning a big Christmas party for the men at the Davisville Hospital, and it was divided to continue its war work and also devote its energy towards national reconstruction.

The following officers were elected: President, Thos. B. James; vice-presidents, James E. Day, F. G. Hiasard; secretary, H. J. St. Clair; treasurer, Fred Page Higgins; directors, Adam F. Smith, C. L. Burton, T. P. Loblaw, A. J. Black, Dr. Pookoik.

As an immediate activity it was unanimously decided to establish a fund for the erection of a memorial to Toronto's soldiers. It is intended that this fund shall form the nucleus of a general memorial fund, open to subscription by the citizens of Toronto.

## MAY MEAN WAR FOR BASEBALL MOGULS

Minors Want Majors Stopped in Drafting the Star Players.

Peoria, Ill., Nov. 14.—War between the major leagues and the minor organizations of the country threatens to develop as a result of action taken at the annual meeting of the National Association of Professional Baseball Leagues here today protesting against the privileges of the major leagues to draft star players from the minors.

The protest was embodied in a resolution drawn by A. R. Tearney of Chicago, president of the Three-Base League and presented by Jack Holland, owner of the St. Joseph, Mo., Club of the Western League. The resolution demanded that the American and National Leagues relinquish the right of draft and also the practice of "farming out" players under the optional agreement. It was adopted without a dissenting vote.

Thomas J. Hickey, president of the American Association, urged the minor league organization to withdraw from the national agreement with the majors if the demand is refused. A committee, consisting of Holland, Tearney and Joe Tinker, owner of the Columbus Club of the American Association, was appointed to present the protest to the National Baseball Commission at its first meeting.

The minor leagues, however, desire to reserve the privilege of drafting players within their own organization. Higher leagues drawn from lower class organizations under present regulations steps will be taken to readjust the draft prices.

The minor leagues also adopted new salary limits and agree to a reclassification of leagues with the exception of the nine that survived last season. The three class AA leagues—the Pacific Coast, American Association and the International Leagues—were exempted from the new salary regulations because of the fear that the Pacific Coast League contemplated playing "outlaw" baseball.

President Hickey of the American Association made an appeal that a stipulated salary limit for the association and the International League would prevent clubs from offering more attractive salaries because of the longer season prevailing on the coast.

The second teams of St. Andrew's College and Upper Canada College played their return game at Varsity Stadium yesterday. St. Andrew's made it two straight by scoring eight points and holding U.C.C. scoreless. Last week the Scotchmen were victorious, 23 to 6.

Only Two Days More. Last night Toronto had subscribed \$90,071,450, and by so doing went over the top and splendidly passed the objective mapped out for her of 80 millions.

Mr. Edmund Walker addressed the workers last night at the last of the wonderful meetings that have been held for the reporting of successes.

Let us be stern but just and see that each of the criminals expiates his sins," said Sir Edmund. "Every one of the German people must be made to feel that every one of them were co-partners in the greatest crime in history."

Supplies the "Pop." E. R. Wood, chairman of the Dominion executive, said that Toronto supplied the inspiration for the rest of the Dominion, and reminded the harpists that they held the honor of Toronto in the hollow of their hands.

J. H. Gundy, speaking for the special subscription committee, reported that Thursday subscriptions amounting to \$6,887,450, and said: "This includes a new subscription of \$150,000 from the Canada Life Insurance Company, raising their total subscription from \$2,550,000 to \$2,700,000."

Life Assurance Company, raising their subscription from \$1,250,000 to \$1,500,000. "An additional subscription from the Crown Life Assurance Company of \$100,000, bringing their total subscription up to \$260,000. A new subscription of \$100,000 from the Trusts and Guarantee Company, bringing the total subscription of this company up to \$300,000. A new subscription of \$50,000 from Col. Kirkpatrick for the United States Fidelity and Casualty Company brings the total subscription of this company up to \$300,000."

J. F. M. Stewart, speaking for the employees' organization committee, of which he is vice-chairman, said that the employees of Toronto had, thru their organizations, subscribed more than \$8,000,000, but the complete totals were not in shape yet to present.

SUMMARY BY DIVISIONS. Table with columns: District, Total, Pct. of Date, Objective.

SENTENCE SUSPENDED. Opportunity for Retrial of Francisco, Found Guilty of Manslaughter.

Mr. Justice Riddell has suspended the sentence of 15 years against Giovanni di Francesco, found guilty of manslaughter, until a superior court decides as to the need of granting a retrial. The decision was due to the recent statement under oath made by a witness, Gertrude Dyson, that by means of Black Hand threats she had been induced to give incorrect evidence.

LIQUOR BUSINESS BOOMING. Among the largest express orders to leave the Union Station yesterday was a carload of liquor. The shipment composed 600 cases, twelve bottles in a case, 7,200 quart bottles in the whole shipment, which, selling at \$4 per bottle, would amount to \$28,800. The shipment was consigned by a Toronto manufacturer to a western government vendor.

SENT TWO HUNDRED BOXES. Under the co-operation of Mrs. Manchester the Ladies' Aid Patriotic Committee of Rhodes Avenue Presbyterian Church have prepared 200 Christmas boxes for shipment overseas.

SHOULD BE RETURNED TO CIVIL OCCUPATIONS

Returned soldiers are up in arms against the alleged policy of the military authorities in marking men (C) who have returned to Canada after long service in Britain and France. George Murrell of the Central G.W. V.A. last night related the cases of many men with more than three years' service overseas who on their arrival in the Toronto military district have been assigned to military duties despite the fact that good civil jobs were waiting for them.

"THE BETTER 'OLE' COMING TO ALLEN

Wonderful English Cinema to Be Shown in Toronto Soon.

"The greatest motion picture of the day," is the way Toronto critics describe "The Better 'Ole," which is to be shown at the Allen Theatre the week of November 25. This wonderful film was produced in England and shows that good motion pictures can be produced just as well there as in the United States. Being an adaptation from the current London stage success, "The Romance of Old Bill," the cinema brings to life those three musketeers—Old Bill, Bert and Alf—made famous by Captain Bruce Bairnsfather.

There have been motion pictures of the great war, but none of them have been able to get right to the hearts of the millions of British soldiers who fought with unconquerable spirit thru four long years, as is depicted in "The Better 'Ole."

Now that victory is won for the allies over the barbarous Hun, there could not be a better motion picture than "The Better 'Ole." It makes every British subject realize the stern determination of the army to hammer at the Germans until the war is finally won and the world rid of militarism.

CLARA K. YOUNG AT MADISON. Clara Kimball Young will be the attraction at the Madison Theatre today, Saturday, in a superb select picture called "The Claw." The story is a thrilling one of the South African veldt, and Miss Young has a splendid part.

REX BEACH AT STRAND. For the remainder of this week there will continue to be shown at the Strand Theatre the magnificent Goldwyn film, "Laughing Bill Hyde," by Rex Beach, and featuring Will Rogers.

TEN THOUSAND CLUB TRULY WORTH WHILE. Good morning, have you joined the Ten Thousand Club?

To qualify for membership you are required to invest \$10,000 or more in Victory bonds, the best investment in the world, and if you meet the conditions you will receive a certificate showing that you are a member in good standing.

POLICE DETERMINED TO GET RECOGNITION. Policeman Gordon Ellis, secretary of the Policemen's Union, yesterday tendered his resignation to the board of police commissioners.

Premier Sir William Hearst stated yesterday that he had not received any word of a deputation coming to see him from the Policemen's Union. He will request that the board of police commissioners be increased to five members.

Want Forty-Four Hour Week For Every Class of Labor. The Independent Labor party of Toronto, thru its president, James H. Ballantyne, is requesting the acting Dominion premier, Sir Thomas White, to introduce legislation which will enact a 44-hour working week for all classes of labor.

DIED FROM HIS INJURIES. W. G. Gee, 39 Mount Royal street, died on Thursday night as the result of injuries received earlier in the day when he was knocked down while riding his bicycle by a horse and wagon.

This Is Your Security

The whole property of every person in Canada is pledged to secure Victory Bonds—both principal and interest.

The security behind Canada's Victory Loan consists of all the resources, developed and undeveloped, and all the assets of all the people of Canada, supporting Canada's promise to pay.

Can you imagine any security more rock-ribbed in its soundness than the signed pledge of the Dominion of Canada, backed by all its boundless resources?

There is no other security so secure; for in it are embraced all other securities. Every farm, every forest, mine, factory, bank, business, every conceivable kind of wealth that exists within the borders of this great Dominion—all this is the security behind Canada's Victory Bonds.

With this security buyers of Bonds receive interest at the rate of 5 1-2% per annum. In ordinary times such an investment as Victory Bonds would be an opportunity. It is an opportunity now.

If you are planning to buy one Victory Bond outright and find that you can buy two if you can arrange to buy them from your future earnings—by all means buy the two—it will be better for you and better for Canada.

If your income is \$2,500 and upwards, do not buy a couple of bonds and then sit back satisfied you have done your whole duty—you can afford to buy more—you are not giving—you are lending at good interest.

Remember---in buying Victory Bonds you exchange one kind of money for another kind of money.

(Each has the same Government guarantee back of it.)

LIVE STOCK MARKET

with receipts of 762 cattle, added to the left-over, trading at the Union Stock Yards yesterday, while inclined to be slow and heavy with a lower tendency in the canners and cutters, got steady, with a lower tendency, considered, was a mighty good ending to one of the heaviest weeks in a long, long time.

It looks as though the canners, common cows and light eastern stockers were off from 12c to 13c again yesterday, but anything with weight and quality held all right. It is always handy to place the blame for slow prices and slow trading on the big packing plants, but in view of the enormous receipts, and quality of the cattle, and the fact that we have had two extra holidays in one week, they are deserving of a lot of credit for the way they got away with it all.

Lambs were stronger yesterday, with a light run, and regained 25c per cwt. Sheep steady, and hogs unchanged at from 18 1/2c to 19 1/2c lbs. fat and watered, and 17 1/2c lbs. f.o.b.

PAINS AND ACHES YIELD QUICKLY TO SLOAN'S LINIMENT

Are you tormented by Neuralgia, Lumbago, Sciatica or any of those aches that require a counter-irritant? Then let the soothing, warming application of Sloan's Liniment stop the pain by drawing the blood away from the congested part. It is the pressure on the nerves by the blood rushing to the inflamed muscle or joint that makes you ache. So when Sloan's Liniment relieves the swollen blood vessels by setting up a counter-irritant on the surface, the circulation is equalized, sympathetic nerves all soothed, and soreness or lameness disappears. Sloan's Liniment is probably the counter-irritant most widely used to overcome painful inflammation in cases of neuralgia, sore muscles, wrenched joints, strains, bruises, gout. Rubbing is not required. This clear, clean liquid is easily applied as it does not stain the skin. Made in Canada. Generous size bottles at your drug-gists.
