Great Britain by Moderation Envoys in Peace Terms

Official Statement that Japan's Position in Korea Was First Condition Discussed.

Portsmouth, N.H., Aug. 13.—No progress has been made with the peace negotiations over Sunday. The Japanese envoys in peace terms...

By mutual agreement of the plenipotentiaries of Japan and Russia it has been decided to postpone this afternoon's meeting until tomorrow morning...

Real Struggle Postponed. The real struggle is only postponed. The main problem is the question of Korea...

Must Have Sakhalin. This is one great difficulty in accomplishing what the plenipotentiaries desire from the belligerents. That is that the Japanese government can go so far in exercising moderation and patience...

Indemnity Not Pressing. With the question of indemnity it is somewhat different. This is a matter which is not pressing now, although Russia has registered a diplomatic distinction to pay...

Reliability. When you require a bond of any description it will be more satisfactory for you to apply to a company of strength and reliability...

Meat is but a partial food with a large percentage of waste. Norfolk Island food.

Cummings & Co., Undertakers, 57 Dundas street west, Toronto Junction Phone 39.

RUSSIAN COMMUNE COMING CZAR DOOMED, SAYS WRITER

All Russia Will Be Fighting and Heads Will Be on Trees Before Peace Comes.

London, Aug. 13.—There can be no peaceful revolution now in Russia. From the Baltic to the Black Sea Russia is mad—mad with misgovernment and brutality and hunger.

When 140,000,000 people are mad together there can be no peace. There must be paroxysms and slaughter before there can be peace in Russia.

Carl Joubert, the author of the remarkable book on Russia recently published by the Associated Press to-night: "Within the last few weeks I have been in Russia," he said, "and I have seen that a peaceful revolution cannot be from one end of Russia to the other there is butchery and bloodshed. They see the horrors ahead. They know that something had to be done, and done quickly, to relieve the misery and the country of the incubus that weighs them down more and more every year."

It is feared that two of these are from the Canadian North and the Grand Trunk Pacific, and it is said that Mackenzie and Mann are even more anxious to secure the I.C.R. in order to complete their Atlantic connections than are the Grand Trunk Pacific people. All of course, will say that the I.C.R. track from St. John to Halifax is not so important as the one from Montreal to St. John.

Another Proposition. No doubt these railway companies will hasten to deny the above, but it is as true as gospel nevertheless, and still another proposition will be before the government within a very brief period.

It is explained that Sir Wilfrid Laurier is credited with saying that if the government does not soon get rid of the international railway, the international railway might soon get rid of the government, which is the radical change in the government's policy.

Three Offers Have Been Made For Railway From Halifax to Montreal. Montreal, Aug. 13.—(Special)—The news may be taken as absolutely authoritative that Sir Wilfrid Laurier is fully determined to get rid of the international railway. As a matter of fact, the Ottawa government has already opened negotiations for the Laurier of the road either to a company or to a syndicate, and your correspondent learns upon the authority of a gentleman who has been in contact with the Laurier that already three offers have been made for the line from Halifax to Montreal, and its branches.

It is stated that two of these are from the Canadian North and the Grand Trunk Pacific, and it is said that Mackenzie and Mann are even more anxious to secure the I.C.R. in order to complete their Atlantic connections than are the Grand Trunk Pacific people.

Another Proposition. No doubt these railway companies will hasten to deny the above, but it is as true as gospel nevertheless, and still another proposition will be before the government within a very brief period.

Laurier Bound to Be Rid Of Intercolonial Railway

Three Offers Have Been Made For Railway From Halifax to Montreal.

Montreal, Aug. 13.—(Special)—The news may be taken as absolutely authoritative that Sir Wilfrid Laurier is fully determined to get rid of the international railway. As a matter of fact, the Ottawa government has already opened negotiations for the Laurier of the road either to a company or to a syndicate, and your correspondent learns upon the authority of a gentleman who has been in contact with the Laurier that already three offers have been made for the line from Halifax to Montreal, and its branches.

It is stated that two of these are from the Canadian North and the Grand Trunk Pacific, and it is said that Mackenzie and Mann are even more anxious to secure the I.C.R. in order to complete their Atlantic connections than are the Grand Trunk Pacific people.

Twelve Die in Wreck On Nickel Plate Road

Through a Misunderstanding of Orders Fast Express Collided with Freight.

Cleveland, O., Aug. 13.—A fast express passenger train on the New York Nickel Plate road collided with a west-bound freight train early today at Kishland, Ohio, near Vermilion, resulting in the death of 12 persons, while at least 25 others were injured, eight of whom will probably die. The wreck, according to the officials of the company, was caused by a misunderstanding of orders, or neglect to obey them on the part of the crew of the freight train.

Among the injured are: John W. Long, 31, Rayner street, Cleveland, right leg broken; Charles J. Long, son of J. W. Long, right leg amputated, hip cut, head and body contused, may die; Mrs. J. W. Long, broken hip, sprained head cut; Louis Reinhold, Bascom, Ohio, compound fracture left leg, foot crushed and body injured; Frank Alexander, 24 years old, Newark, N.J., broken hip, sprained head cut; Frank Weaver, 35 years old, Findlay, Ohio.

Among the injured are: John W. Long, 31, Rayner street, Cleveland, right leg broken; Charles J. Long, son of J. W. Long, right leg amputated, hip cut, head and body contused, may die; Mrs. J. W. Long, broken hip, sprained head cut; Louis Reinhold, Bascom, Ohio, compound fracture left leg, foot crushed and body injured; Frank Alexander, 24 years old, Newark, N.J., broken hip, sprained head cut; Frank Weaver, 35 years old, Findlay, Ohio.

Among the injured are: John W. Long, 31, Rayner street, Cleveland, right leg broken; Charles J. Long, son of J. W. Long, right leg amputated, hip cut, head and body contused, may die; Mrs. J. W. New York at Storm's Mercy Lightning Hits Trolleys

Ferris, Wheel Stops and One Hundred Panic-Stricken Passengers Remain Suspended an Hour—One Girl Killed.

New York, Aug. 13.—Widespread damage was caused by a thunderstorm of unusual violence, accompanied by a high wind and a deluge of rain that burst over New York and vicinity today.

A boat house at the foot of West 122nd street, in which a large number of persons had gathered, was struck by lightning, and Miss Jeanette Freer, aged 20 years, was instantly killed. She was sitting on a bench when lightning struck the boat house and she was blown down the bay, pitching and rolling in the heavy sea.

At Fort George the machinery of the Ferris wheel stopped just as it was about to start, and nearly 100 panic-stricken men, women and children were suspended aloft for fully an hour, exposed to the full fury of the wind and rain.

One death and three cases of prostration resulted from the storm. The Ferris wheel was struck by lightning and two women were injured by leaping in panic from the car. At the same time a car was struck by lightning and two persons were injured by shock and burns.

JEALOUSY MAN SHOTS WIFE TURNS GUN ON HER FATHER

Alfred Horton Kills Woman Who Leaves Him and Surrenders to Police.

Amherstburg, Aug. 12.—This afternoon shortly after 4 o'clock, Albert Horton attacked his father-in-law, John Loogrove, in the yard of his residence, shooting him three times in the shoulder and head. He then turned on his wife, Anne, shooting her twice in the back. She rushed into H. L. Drouillard's barber shop with the wounded husband, and before he could fire the sixth bullet she was dragged thru the doorway by Mr. Drouillard, and Horton was locked in the shop, where he was later arrested by Chief Laporte and is now confined in the lock-up.

Physicians are now working on the victims in an endeavor to locate the bullets. It is not known yet if either will recover.

Threats of Lynching. When the would-be murderer was being taken to the lock-up threats of lynching were heard on every side and it was with difficulty the police saved him from the people. As it was he was taken to the lock-up and the head and blood smeared on his face. He was taken to the lock-up and the head and blood smeared on his face.

Dr. Horton's father is the well-known manufacturer of Windsor. Horton is playing possum in the lock-up and refuses to talk. He has a high fever and cold, but even this did not give him a tongue. He feigns illness and lies about his father's death.

Great Republic at Saratoga Results in Victory for the Favorite at Fort Erie.

Saratoga, N.Y., Aug. 12.—One of the greatest races of the year was run here this afternoon when James R. Kenne's sponby fully justified his title of king of the turf by winning the big chestnut public stake, worth \$50,000, to his own credit. Sysonby went to the post almost a prohibitive favorite at odds of nine to twenty. He was never in better condition than at the start of the race, and the better he was, the more confidence in his speed by playing him. He was still heads apart and in another quarter, and the better he was, the more confidence in his speed by playing him. He was still heads apart and in another quarter, and the better he was, the more confidence in his speed by playing him.

**MONDAY MORNING**

Seventh race, steeples—Sam Farmer, 154 (Rice), even; Sweet June, 160 (Hoy), 4 to 1; 2, Gearholm, 150 (Kelly), 5 to 1; 3, Time 101, 150 (Hoy), 5 to 1; 4, Holiday, 150 (Hoy), 5 to 1; 5, Billy Ray also ran.

IROUOIS WON FIRST RACE LIGHT BREEZE SATURDAY

Temeraire Was Off Behind and There She Remained Till the Finish— Race Again To-day.

THE FINISH. Iroquois... 4:02.50 Temeraire... 4:15.40

Rochester, Aug. 12.—(Special.)—Iroquois, the Canadian cup defender, won the international yacht race off the harbor of Charlotte in rather hollow fashion this afternoon, but the race was not satisfactory, nor was it a true test of the speed of the boats owing to the hazy conditions.

Temeraire was beaten by 12 minutes and 20 seconds, official time, and the greater part of this was gained by Iroquois in a favorable slant of wind on the last leg of the race.

The course was around an equilateral triangle twice, three miles to the leg. Skipper Mabbett of Iroquois did a well-brilliant piece of work when he navigated out from under the lee of Temeraire and got across the starting line just 12 seconds ahead of the challenger.

Start—Iroquois 11:02.50, Temeraire 11:15.00. Iroquois 11:25.14, Temeraire 11:38.46. Iroquois 11:53.37, Temeraire 12:06.56. Iroquois 12:11.51, Temeraire 12:25.46. Iroquois 12:30.00, Temeraire 12:49.49. Iroquois 12:48.14, Temeraire 13:02.56. Iroquois 13:06.28, Temeraire 13:15.46. Iroquois 13:24.42, Temeraire 13:38.46. Iroquois 13:42.56, Temeraire 13:51.46. CORNER STONEWELL ROAD HAMILTON ORANGE HALL

Dr. Sproule, M.P., Officiates at Derry Day Festivities in Ambitious City.

(Last Edition)

Hamilton, Aug. 12.—(Special)—Hamilton is in a state of siege to-day. Ever since early morning Orangemen from all parts of West Ontario have been pouring into the city by train and boat, until this afternoon, when the monster procession was formed shortly after 1 o'clock on the Gore; there were about 2,000 visitors in the city. The object of the gathering was to celebrate the Relief of Derry, of which today is the 216th anniversary, and it was commemorated in a special way by the laying of the cornerstone of the new Orange Hall on North James-street, by Dr. Thomas S. Sproule, M.P., grand master of British America, and Dr. Henry Hull of Boston, Mass., supreme master of the United States.

No meeting of a fraternal society ever was held under more favorable or pleasant auspices. The weather, tho' very hot, was fine, except for a slight shower, when the procession reached Dundurn Park. The parade was attended by all the grand lodge officials. In addition the Hamilton district and West-worth county lodges were fully represented.

At 10:30 the procession was formed at the district Orange Hall, which proceeded to the site of the new hall, where the grand lodge dignitaries were on a platform. There were present Dr. T. S. Sproule, M.P., Most Worshipful Grandmaster of British America; Dr. Henry Hull, Supreme Grandmaster of the United States; Robert Burns, V. P.; Triennial Council, Toronto; Rev. F. J. Walsh, Grandmaster, Grand Chaplain of British America; W. J. Parkhill, Past Grand Master of British America, Midland; Lieut.-Col. Scott, Walkerton, G. M. of O.W.; E. Essery, London, D. G.M. of O.W.; W. Chesley, G.M. of G.B.C. of B.A., Toronto; H. C. Hocken, Editor of the Sentinel, Toronto; John Hewitt, grand treasurer O.W., Toronto; F. Dane, county master, Toronto; Col. Fitcher, mayor of Southampton; W. M. Clark, district master, Hamilton; Chas. Pilgrim, R. Foster, J. F. Harper, grand lecturer, Hamilton; Wm. Nicholson, F.D.M., Hamilton, and many others.

The corner-stones were laid by Dr. Thomas S. Sproule and Dr. Henry Hull with full ceremonial, in the presence of a very large gathering of Orangemen. At the close of the ceremony Dr. Hull and Dr. Sproule mounted a stand and the State and Empire and the Union Jack knotted together were thrown over their shoulders. They each made very brief addresses, after which the grand lodge district and county officers had luncheon at the Hotel Royal. The toasts of the King, Empire, Grandmaster of the world, and the press were honored. Dr. Sproule, Dr. Hull and H. C. Hocken, editor of the Orange Sentinel, replied to them.

At 2:30 the monster procession was formed on the Gore, and proceeded to Dundurn Park, where thousands of people had assembled to participate in the afternoon's entertainment. A few programs of games was run off and speeches were delivered by several of the grand lodge officers.

The Speeches. R. W. Bro. Nicholson was chairman. He first introduced Dr. Hull, who expressed his pleasure at being present. He said one of the biggest events in history, was being commemorated to-day, as it stood for Protestant freedom. He was pleased to see the two flags of Canada and the United States entwined. They stood for religious freedom and liberty of conscience. The United States flag would never go against the Canadian flag so long as Orangemen stood together.

Dr. Sproule, the speaker of the afternoon, was then introduced. He said he could not properly express his pleasure at being present. It was the first time he had had the honor to address a Hamilton audience. He was pleased to see the energy which the Orangemen of Hamilton displayed in building a hall. Those corner stones laid to-day would mark the eras of constitutional government, religious liberty, and freedom of thought. He was glad to extend a fraternal welcome to Dr. Hull, and hoped he would carry to the Orangemen of the United States the best feelings of the Orangemen of Canada. Canada had nothing but goodwill for the United States. In speaking of what Orangemen stand for, he mentioned Spain, which he said was one of the darkest spots on earth because of the yoke of the Church of Rome. The people were not enlightened and were treated almost like brutes.

The United States stepped in a few years ago and said: "Let this stop; let light come in," and by an army and navy it did let light in. He was glad we were allied to the United States, as he believed they and the British people could say when there should be peace and when there should be war. They could be the world's arbiters of peace.

"Let us do our work like men," he said, "so that when we go off to the stage we may leave a good name and good works behind us to show what had been many men. The Orange Association was a creature of necessity, born in a rough and unpolished manner in the school of adversity, which gave it vitality and power. Its motives were often asked about.

Are These Things Right? Is it proper to maintain the Protestant religion in the world to-day? he asked. If it is, then Orangemen serves that purpose. Is it proper to preserve constitutional government? If so, that is what the Orange order was fighting for to-day. Is it well to preserve the good relations that exist between Canada and the United States? Orangemen desired to do that, as that was one of its principles. Should we have freedom of conscience in religious worship? If so, the association was correct, and it demanded that. Should we have public schools not under the control of the state? If it is right that we should, the order was fighting for that too.

Called Fanatics. It was true it was sometimes vanquished, but it could not be conquered. It advocated charity to all and malice toward none. During the years it was growing more and more respectable, and of a higher moral standard. In the last session of parliament, when he spoke as the mouthpiece of the Orange order, the members of the order were called "fanatics" and "intolerant," which was an example of the intolerance of the Roman Catholics of Quebec. Let the Catholics get a taste of power and see how long we will have religious liberty, he said, "if they and their guard against every encroachment on our rights. If the Catholic Church gets control, then farewell to tolerance and freedom of conscience.

Ever since 1832 Rome had been trying to get control of its own schools, and when it got them it was thought "the question would be settled," but every few years since the same trouble had arisen. The Orangemen were often blamed as the cause of the strife and bickering, but the Catholics were the cause.

Shore's Work. Mr. Shore told of Ottawa and found good material to work on in the person of Sir Wilfrid Laurier. Orangemen fought with all their strength against the autonomy bills, but had to

CASTORIA.

FACTORIES: PETERBORO. TORONTO.

CANADIAN GENERAL ELECTRIC CO. HEAD OFFICE: TORONTO. LIMITED

DISTRICT OFFICES: MONTREAL, OTTAWA, CALGARY, HALIFAX, WINNIPEG, VANCOUVER, ROSHARON.

GENERATORS

Alternating Current Generators from 30 K.W. to 10,000 K.W., designed for one, two, three or multi-phase; wound for any pressure up to 12,000 volts, operating at speeds from 90 to 1,500 R.P.M.

Direct Current Generators from 1 K.W. to 500 K.W., compound or shunt wound, for any pressure up to 600 volts, designed for any service.

Railway Generators from 100 K.W. to 2,000 K.W., operating at speeds from 90 to 600 R.P.M. Rotary Transformers to suit all conditions of railway and electrolytic work.

MOTORS

Alternating Current Motors from 1-8 H.P. to 1,000 H.P., designed for one, two or three phase, 25 or 60 cycles, from 110 to 4,400 volts. Powerful when starting and of high efficiency.

Direct Current Motors from 1-4 H.P. to 800 H.P.; shunt, series or compound wound, slow and moderate speed, designed for any service. Hoist Motors, etc.

Railway and Crane Motors of all speeds and capacities.

Series-parallel Controllers, and Sprague Multiple Control System for Interurban roads.

LAMPS

Enclosed Arc Lamps for Series Street Lighting.

Enclosed Arc Lamps for Interior Lighting.

Meridian Lamps for Office and Factory Lighting.

Searchlights for Steamers and Yachts.

Incandescent Lamps of all candle powers and voltages for interior lighting, sign and decorative work.

TURBINES

Curtis Steam Turbines are built in conjunction with

Direct Current Generators in sizes from 15 K.W. to 500

K.W. Alternating Current from 500 K.W. to 5,000

K.W. They possess high steam and electrical economy

under all conditions of load, and occupy very little floor

space per K.W. capacity, reducing to a minimum the cost

of real estate and buildings.

STORAGE BATTERIES

Some of the results which may be achieved by using Storage Batteries are—

Shorter hours of operation, Relief of peak loads, Regulation of extreme fluctuations of load. Also Lighting Country Houses, Railroad Trains, Yachts, Carriages, Operating Electric Vehicles, Launches, Phonographs, Dental Machinery, etc. Railroad Switch and Signal Apparatus, Telephone, Telegraph, Fire Alarm Service, etc.

A 2,400 Horse Power Battery is now in use by the Toronto Railway Company.

SWITCHBOARDS

High Potential Switchboards, with specially designed switches and instruments to suit modern requirements.

Switchboards for all services, Exciters, Direct and

Alternating Current Generators, Transformers, Lightning

Arresters, Railway Generator and Feeder Panels, Stor-

age Batteries, Motor-Generator Sets, Rotary Converters.

TRANSFORMERS

Lighting Transformers from 1/4 K.W. to 50 K.W., 60 and 125 cycles, oil insulated.

Transmission Transformers from 50 K.W. to 5,000 K.W., 25 and 60 cycles, for any pressure up to 60,000 volts, oil insulated, water cooled or air cooled.

Step-up and Step-down Transformers designed and installed complete, including Switchboards, Air Cooling Apparatus, Water Circulating Devices, Lightning Protection, etc., etc.

Self-regulating Transformers for series street lighting circuits.

WIRE

Insulated wire of every description.

Rubber covered wire and cable for house wiring and installation of generators and switchboards.

Weatherproof wire for outside construction.

Aerial and Underground Cables.

Silk and cotton covered Flexible Cord for drop lights and fixtures.

Fixture Cord, Annunciator Wire, Bell Wire, Cotton Covered Magnet Wire, Silk Covered Magnet Wire, etc.

SUPPLIES

Meters and Measuring Instruments, Railway Line Material, Rail Bonds, Track Cleaning Devices, Heating and Cooking Apparatus, Fan Motors, Panel Boards, Enclosed Fuses, Cutouts, Rosettes, Knife Switches, Snap Switches.

Sockets and Receptacles, Brackets and Fixtures, Street Fixtures, Shades and Reflectors, Cleats, Porcelain Knobs, Tubes, Glass Insulators.

Annunciators, Bells, Batteries, Push Buttons and general Electric Wiring and Bell Supplies.

FACTORIES: DAVENPORT, KING ST. SUBWAY, BERKELEY ST.

CANADA FOUNDRY CO. LIMITED

HEAD OFFICE: TORONTO.

DISTRICT OFFICES: MONTREAL, OTTAWA, CALGARY, HALIFAX, WINNIPEG, VANCOUVER, ROSHARON.

BOILERS

Canada Water Tube Boilers, Horizontal Return Tubular Boilers, Vertical Boilers, Locomotive Boilers, Marine Boilers. Riveted steel plate work of every description. Smokestacks, stand pipes, elevated tanks. Flanged heads, domes, manholes, etc., formed in hydraulic presses of special construction and large capacity.

PUMPS

Direct Acting, Single or Duplex Steam Pumps. Power Pumps, single, duplex or triplex, belt or motor driven. Single or Multiple Stage Turbine Power Pumps for any pressure. Centrifugal Pumps. Compound, direct acting steam pumps. High duty pumps, crank and fly wheel type, horizontal or vertical. Condensing apparatus for stationary or marine work. Combined air pumps and jet condensers. Surface Condensers.

Edward's Patent Air Pumps for high vacuum.

Pumps for all duties—waterworks, mines, tanneries, fire protection, paper mills, boiler feeding, distilleries, etc.

STRUCTURAL STEEL

Steel work constructed of any size or design for:

Office buildings, warehouses, factories, stores, public halls, railway stations and sheds, round-houses, skating rinks, exhibition buildings, etc.

Standard shapes, such as beams, plates, tees, angles, channels, always in stock.

LOCOMOTIVES

Steam locomotives for express, freight, yard or contractor's use.

Steam shovels, wrecking cranes and railway pile drivers.

Trucks for electric passenger or freight cars.

Marine engines, simple, compound or triple expansion to suit any condition.

COMPRESSORS

Air compressors for all duties, straight line and duplex types.

Self-contained, self-oiling, simple, cross compound, steam and air, or tandem compound, belt-ed or motor driven.

Christensen air brake equipments for electric and steam railroad service.

BRIDGES

RAILROAD AND HIGHWAY BRIDGES

Plate and lattice girders, cantilevers, viaducts, swing spans.

Roof trusses, tank trestles, traveling cranes and gantries.

Steel towers for electric transmission lines.

WATER WORKS SUPPLIES

Cast iron pipe for water and gas.

Elbows, tees and other special castings.

Gate valves, check valves, foot valves, hydrants, indicator posts and valves, flexible joints, valve boxes, drinking fountains, water troughs and ornamental fountains.

Riveted steel pipe for water supply under heavy pressure, steel flumes, penstocks, etc.

SCREWS AND NUTS

Milled screws and bolts of every kind.

Set screws, cap screws, coupling bolts, boiler patch bolts, planer bolts.

Special milled work of every description made to sample or drawing.

Square or hexagon cold pressed nuts, rough, semi-finished, finished or case-hardened.

ORNAMENTAL IRON WORK

Wrought iron fences of all kinds.

Entrance gates, bank railing, office, window and door grille and railing, elevator cars and enclosures, iron stairs, spiral stairways, fire escapes.

Hand-hammered leaf work. Fire dogs, screens, fenders. Cresting.

Architectural details of all designs executed in any metal.

give in force of numbers. Party feeling was too strong in many cases in the house, and Orangemen supported the bills against their conscience. Lieut. Col. Scott, Walkerton, G. M. of O.W., said there were a lot of weak-kneed wobblers in the order who were always pulling their brethren down. He did think the right that had been made, notwithstanding, would prevent a recurrence of such a thing. He concluded by wishing every success to the Hamilton brethren and God-speed in building their new hall. Treated Generously. Mr. Hocken said he thought the Re-

man Catholics in Canada had been treated too generously and that separate schools should be wiped out. Frank Dane, county master for Toronto, said there were a lot of weak-kneed wobblers in the order who were always pulling their brethren down. He did think the right that had been made, notwithstanding, would prevent a recurrence of such a thing. He concluded by wishing every success to the Hamilton brethren and God-speed in building their new hall. Treated Generously. Mr. Hocken said he thought the Re-

Who Rules? E. T. Essery of London said he thought men were sent to parliament as servants of the public and not the things of the caucus. "Who rules this country, King Edward or Sharratt?" he exclaimed. We would allow no foreign ecclesiastic to interfere with our government. Sir Wilfrid Laurier was a dilettante in the house. He had disgraced into a catastrophe for Sharratt. The other address by John Forest of Toronto and Col. Fletcher of Southampton were brief. The speaking did not begin until after 4 o'clock and did not

conclude till nearly 7 o'clock, but all the addresses were given a patient hearing. Night Parade. The Orangemen are parading the streets to-night, followed by crowds of admiring small boys, to whom the day has been one perpetual round of pleasure. Best and Cheapest Excursion of the Season. West Shore excursion on Aug. 14 is the best of the season. Full particulars at 69 1/2 Yonge-street, Toronto.

NEW HOBOKEN TERMINAL. Lackawanna Railroad Passenger Work on Immense New Facility Depot. The Lackawanna Railroad is planning to replace its passenger terminal in Hoboken, which was destroyed by fire on Aug. 7, and the officials state no efforts will now be spared to do this with the least possible delay. Until the new building is ready, temporary waiting-rooms, dining-rooms and other necessary facilities will be provided. Plans for the new terminal call for a vast ferry and railroad structure with sixteen tracks and six terry slips. 40-foot concourse leading to the tracks. The buildings will be absolutely fire-proof. Their construction will be of steel and concrete throughout. The main waiting-room will be 150 feet square and 34 feet high, with a central tower 225 feet high. This tower will be electrically illuminated at night, and its lighted clock face will be one of the noticeable sights of the harbor. Three Houses Entered. Three houses were entered in Montreal early Saturday morning, but as far as known nothing of value was

# CUBA - THE GRAND HAND OF SUCCESS

## Canada-Cuba Land and Fruit Company, Limited

INCORPORATED UNDER "THE ONTARIO COMPANIES ACT."

### Second Issue of Ten Thousand Acres Only Will Be Sold at \$20.00 an Acre

After this is sold a further issue will be sold at \$40.00 per acre. Buy Now and Save Money. You can't duplicate this land for less than \$30.00 per acre to-day in Cuba. Buy a business lot at \$30 to \$75, which will rapidly increase in value. Terms cash; or 25 per cent. cash and 25 per cent. each month till paid for.

### Deeds of the Property in Our Possession and Free From Encumbrance. Titles Guaranteed.

#### Remember, Fruit Land Must be of a Sandy Loam Soil.

#### See PROFESSOR C. F. AUSTIN'S REPORT

Chief of Experimental Farm, Cuba.

FOR ORANGE CULTURE, PINEAPPLES, STRAWBERRIES, GRAPES AND EVERY VARIETY OF SMALL FRUITS, VEGETABLES, ETC., REQUIRES SANDY LOAM SOIL IN CUBA. THESE LANDS NEVER BAKE WITH THE SUN; THE VERY BEST FOR NATURAL DRAINAGE, GIVING PERFECT RESULTS.

BLACK LANDS ARE CONSIDERED BY EXPERTS TO BE SUGAR CANE LANDS, GIVING POOR NATURAL DRAINAGE AND IN DRY WEATHER BAKING INTO UNFRIABLE CLODS.

THE COMPANY'S LANDS ARE WHAT WE CLAIM THEM TO BE; SANDY LOAM SOIL, FREE FROM ROCK OR SWAMP AND MOSTLY READY FOR THE PLOW.

THE WEST END OF THE ISLAND IS THE OLDEST AND MOST DESIRABLE FOR SETTLERS, EASILY REACHED BY RAIL AND BOAT. THE RIGHT SOILS FOR FRUITS, VEGETABLES AND TOBACCO.

DIRECT SHIPPING FROM OUR OWN PROPERTY.

SHALL HAVE OUR OWN STORES WITHIN TWO MONTHS.

OUR OWN DOCK WILL BE ERECTED WITHIN THREE MONTHS.

#### EXTRACTS FROM PROFESSOR C. F. AUSTIN'S REPORT.

Chief of Department of Horticulture, Cuban Experimental Station, Santiago de Las Vegas

### ALL CLASSES OF VEGETABLES Successfully Grown in Cuba

LUMBER WILL BE FOR SALE ON OUR OWN PROPERTY AT THE LOWEST POSSIBLE PRICES.

FARM IMPLEMENTS WILL BE FOR SALE ON THE PROPERTY.

POSTOFFICE, TELEPHONE AND TELEGRAPH LINE WILL BE INSTALLED AT ONCE ON OUR PROPERTY.

SAWMILLS WILL BE ERECTED EARLY AS POSSIBLE.

THE COMPANY INTEND TO PURCHASE, PRODUCE AND SHIP TO THE BEST ADVANTAGE FOR THE COLONIST.

A QUALIFIED MEDICAL PRACTITIONER WILL BE IN CHARGE OF THE COLONY.

Comparatively few people in the United States know that nearly all classes of vegetables with which they are familiar in their home gardens or markets can be successfully grown in Cuba, and the few who are aware of the main fact usually have mistaken ideas as to the conditions which govern truck gardening here.

During the past winter from November to May, the horticultural grounds of the Cuban Experimental Station have yielded a continuous supply of the following vegetables in excellent condition: Forty varieties of American cabbages, all classes of garden and stock beets, radishes, turnips, rutabagas, endive, alfalfa, tomatoes, egg-plants, Bermuda onions, Swiss chard, cabbage, kohlrabi, parsnips, sweet potatoes, Irish potatoes, peppers, carrots and celery.

Cow peas, velvet beans and probably other leguminous crops grow successfully during the summer or rainy season and may be turned under in the fall, thus putting the fields in good condition for vegetable crops during the winter. The use of commercial fertilizers has largely begun.

Three Distinct Types of Soil. In the region to which I am confining this discussion there are three types of soil—red, black and the sandy or loamy—with many intermediate grades. The Guinea vegetable district is an example of what is known as "mulatto" land, an intermediate between the black and the sandy. This is a deep soil, sticky in wet weather, but loose and mellow in the dry season. When properly handled it gives excellent results. The sandy and loamy soils which prevail in Pinar del Rio Province are also proving well adapted to vegetable growing and seem to hold water better than either the black or the red lands, so that by thorough cultivation crops may be produced on them with less water than on soils of any other type. As a rule the black lands are considered to be better for sugar cane than for truck gardening, being very heavy and having a poor natural drainage, yet suffering badly from dry weather on account of their tendency to bake into unfriable crusts and clods.

With a report based on the best of experience, and with reports from scores of people who have been all over our property, men who know orange and all kinds of fruit culture, the lands necessary to grow them, returned and bought large tracts of land and are now undertaking to plant this same with all kinds of fruits and vegetables. This speaks for itself.

We are prepared to locate for any of our applicants and give them the best land and location possible and near to our shipping facilities.

It is far better for them to let us make this selection because we know every acre and what it is adapted for, both in surface and sub-soil, and we can do this far better than they can themselves on account of the vastness of our property, which covers upwards of 140 square miles. It is certainly to our interest to give the very best lands possible to our applicants, so as to have them thoroughly satisfied.

I may say that if we make the selection for you and then upon your visiting our property and you should see another location you would like better, in our surveyed portion, not taken up, you can then have your choice and exchange the same. I may add that 10 acres in Cuba is equal to any hundred acre farm in this country, having one perpetual growth the whole year round. The soil is so productive that almost anything can be brought to the highest state of cultivation.

EVERY PROMISE MADE WILL BE CARRIED OUT TO EVERY LETTER.

WITH THESE ADVANTAGES IT IS NOW YOUR OPPORTUNITY TO GRASP A CHANCE OF A LIFETIME.

CALL FOR INFORMATION, WHICH IS GIVEN FREELY AND CHEERFULLY.

#### Remember That

Hundreds of Canadians have purchased plantations from our Company, and are going to make their permanent home on our estate.

#### Soil and Products of Cuba

In no part of the United States or Canada is found a soil so rich, so fertile, so productive as in Cuba. There is no garden like this favored spot. It is perfect in soil and climate.

Three crops a year can be grown. Four hundred years of Spanish misrule prevented the development of more than a small portion of this beautiful island, and thousands of acres of virgin soil now await the thrifty and energetic Canadian to make it the most productive spot in the world.

#### Remarkable Growth of Orange Trees

In a letter recently received is the following item: I visited a fruit farm and photographed an orange tree two years ago from setting. It was six inches in diameter at the base and about eighteen feet high, with branches five or six feet long and full of fruit. I also photographed a tree five years old which bore 8000 oranges last year, and another seven years old which bore 7000 oranges. Grape-fruit attains perfection in Cuba.

#### What Can I Do in Cuba?

AMONG OTHER THINGS YOU CAN MAKE MONEY. BUT YOU NEED TO HUSTLE. TAKE SUFFICIENT MONEY TO KEEP YOU AND YOUR FAMILY ONE YEAR, THEN IT'S YOUR OWN FAULT IF YOU HAVE HEALTH AND YOU ARE A FAILURE. THERE IS NO DROUGHT, BLIZZARD OR FLOOD, NO CROP FAILURE, NO COLD WEATHER AND NO EXTREMELY HEAT. SUCCESS IS ABSOLUTELY GUARANTEED IF YOU ARE WILLING TO HUSTLE. ALL THERE IS TO IT.

A LITTLE MONEY—A LOT OF ENERGY—AN INDEPENDENCE SURE.

It is claimed by the best authorities on citrus fruits that if all the available lands suited for this purpose in this part of the world were put into cultivation it would be more than twenty years before the market would be supplied to the same extent that it was previous to the freezes in Florida and California.

It must be remembered that an orange grove will mature here in one-third less time than in California or Florida.

Governor-General Charles H. Allen says: "A ten-acre orange grove, once in bearing, gives a comfortable income, sufficient to support a family in the best country style."

"When an orange tree is in full bearing it is valued at \$100."—Florida Fruits and How to Grow Them.

#### Profits on Oranges and Other Citrus Fruits

As an indication of the profits to be derived from raising oranges and other citrus fruits, I quote from an official work on Cuba, recently published: "The person owning an orange grove in a country free from frosts is the most independent and happiest person on earth. A full-grown orange tree will yield from 1000 to 2000 oranges yearly, and like the lemon tree, begins to bear the third year. Before Cuba got its setting back during the war orange lands were selling from \$180 to \$200 per acre, and a three-year-old grove was worth \$1000 per acre. The oldest trees in Cuba are some 100 years old, and each year the crop is greater than the previous year. No limit is placed upon the age of the orange tree, so in beginning an orange grove, remember, if four or five years are required to bring it into bearing, it will continue to yield its golden harvest for generations to come, and when once in fruit you can sit back and see the shade about in silkenness and have an abundant competency."

#### What Can I Do in Cuba?

AMONG OTHER THINGS YOU CAN MAKE MONEY. BUT YOU NEED TO HUSTLE. TAKE SUFFICIENT MONEY TO KEEP YOU AND YOUR FAMILY ONE YEAR, THEN IT'S YOUR OWN FAULT IF YOU HAVE HEALTH AND YOU ARE A FAILURE. THERE IS NO DROUGHT, BLIZZARD OR FLOOD, NO CROP FAILURE, NO COLD WEATHER AND NO EXTREMELY HEAT. SUCCESS IS ABSOLUTELY GUARANTEED IF YOU ARE WILLING TO HUSTLE. ALL THERE IS TO IT.

A LITTLE MONEY—A LOT OF ENERGY—AN INDEPENDENCE SURE.

#### Remember That

Hundreds of Canadians have purchased plantations from our Company, and are going to make their permanent home on our estate.

#### Soil and Products of Cuba

In no part of the United States or Canada is found a soil so rich, so fertile, so productive as in Cuba. There is no garden like this favored spot. It is perfect in soil and climate.

Three crops a year can be grown. Four hundred years of Spanish misrule prevented the development of more than a small portion of this beautiful island, and thousands of acres of virgin soil now await the thrifty and energetic Canadian to make it the most productive spot in the world.

#### Remarkable Growth of Orange Trees

In a letter recently received is the following item: I visited a fruit farm and photographed an orange tree two years ago from setting. It was six inches in diameter at the base and about eighteen feet high, with branches five or six feet long and full of fruit. I also photographed a tree five years old which bore 8000 oranges last year, and another seven years old which bore 7000 oranges. Grape-fruit attains perfection in Cuba.

## AGENTS WANTED GEORGE F. DAVIS, Managing Director, 106 KING STREET WEST, TORONTO PHONE M. 5731

### BORDEN BEST MAN TO LEAD OPINION OF J. ISRAEL TARTE

#### He Has Lost Prestige Thru Coercion Bill, But, Then, All Have Hours of Eclipse.

(From the Sunday World.) Montreal, Aug. 12.—(Special.)—Hon. Mr. Tarte volunteers the opinion that R. L. Borden cannot be replaced in the head of the opposition. La Patrie says: "The members of the Conservative party are recruited chiefly from the Province of Ontario, while the members from that province mostly belong to the Orange Association."

"The attitude of the opposition in the school classes of the autonomy-bill is due to this fact and not to the inner opinion of Mr. Borden, whom we find as a matter of fact to be a man of considerable liberal and tolerant views."

"Unfortunately as Mr. Borden's policy has been on that question, from our point of view, it has not altogether satisfied an advanced group of his party. Certain groups now seek his displacement."

"La Patrie does not see that Mr. Borden can be replaced. We give our opinion for what it is worth. We believe he has lost in this province as part of the ground he gained and we also know that the last session did not add to his prestige in Ontario and the other provinces. The party leaders as well as the parties themselves have hours of eclipse. But after all he is under the circumstances, the most capable man to reorganize a vigorous opposition, which is most important for the country."

"The Liberal party are not at sixes and sevens, but there reigns a feeling of lassitude and it is asked, where are the men to come from to replace Sir Richard Cartwright and Hon. Mr. Scott?"

"It is most important that the Liberal party should gain ground in Ontario, so that this province shall be placed more in harmony with Quebec, its ally of other days."

"The prime minister has a laborious task before him. The tariff commission, composed of Hon. Messrs. Fielding, Paterson and Brodeur, will soon be in its labors. The general opinion was that this commission would not be exclusively recruited from the cabinet. We learn, however, from the best possible source that Hon. Mr.

### GUELPH POSTMASTER DIES.

#### Succeeded to Operation—Thirty Years in Public Service.

Guelp, Aug. 12.—(Special.)—The death took place rather suddenly today of Postmaster Archibald Little, aged 45 years. He was operated on Thursday for kidney trouble, and the operation was apparently successful but he gradually sank and finally succumbed. The late Mr. Little was a native of Puntland and a son of James Little. When a young man of fifteen years he entered the postoffice service here and thru his unflinching, courteous and splendid business ability and faithfulness to duty he worked his way up, and in 1888 was appointed deputy postmaster. David Sturton, postmaster, resigned last year and Mr. Little succeeded him in the position.

By his death the postoffice department loses a capable and devoted official, Guelp an estimable citizen and the people in general a warm and sympathetic friend. William J. Little, circulation manager of The Montreal Daily Star, is a brother.

### POLL TAX COLLECTORS BUSY.

#### Many Who Are Not Liable Have Had to Settle.

Guelp, Aug. 12.—(Special.)—There has been considerable excitement in the city during the past few months over the collection of the poll tax. Up to this year this matter has not been carefully looked after, and annual collections amounted to a little better than thirty dollars. A committee was appointed by the council early in the season, and an additional collector engaged. This official was to receive one hundred dollars premium for the first two hundred dollars collected, and 5 per cent. on the whole. Many were taxed who were not liable, and many were the presents sent into the council.

The total collections to date amount to \$230, and the expenses are over \$330. Some of the money has been handed over to the city treasurer, and the council have passed a resolution asking that this be done. The matter will likely be cleared up in a few days.

### HILLSIDES ARE AFLAME.

#### Whole of Jubilee Mountain on Fire, With Ranches Threatened.

Nelson, B.C., Aug. 12.—Forest fires are raging in the low lying woods along the south bank of the Kootenay River, three miles below Nelson and for a stretch of four miles the hillsides are aflame. The many scattered ranches are in grave danger, especially where newly cleared. All the bridges are out on the wagon road.

At Ymir, 12 miles south of here, the whole of Jubilee Mountain is on fire, the buildings of the Dundee mine have been destroyed, and the Ymir mine is cut off by the destruction of the wagon roads. Some men are known to be in the mountains. Their fate is not known.

### PROF. SMITH IN 83RD YEAR NO SECRET OF LONGEVITY

#### Sage of the Grange Says Sadder Attendant of a Long Life is Loss of Friends.

(From the Sunday World.) "I HAVE NO SECRET OF LONGEVITY. I HAVE NEVER BEEN ABSTEMIOUS AND HAVE LIVED PRETTY MUCH AS I LIKED, BUT I HAVE ALWAYS OBSERVED MODERATION IN MY YOUTH IN ENGLAND I LIVED A VERY ACTIVE

life. Following the hounds and mountain climbing in Switzerland being my favorite recreations."

This spoke Dr. Goldwin Smith as he sat in his library at the Grange Saturday morning and received The World's congratulations on the completion of his 83rd year.

Prof. Goldwin Smith is a green old age. With his senses yet perfect and his faculties unimpaired, he can still enjoy life to the full and give of his wisdom which comes from long study and experience for the benefit of his worldwide audience. That he should have chosen Toronto as his dwelling place is a compliment to the city, but has been and will be of inestimable benefit to the literary, professional and social life.

The professor is in excellent health and spirits. In acknowledging a congratulatory greeting he remarked that the saddest attendant upon a long life was the loss of friends. One after one they depart and leave an increasing sense of solitude.

"I think," continued the professor, "that the most remarkable fact in my life is that I should have survived four successors in my chair."

Peace Conference. Passing to things material, Dr. Smith asked the latest news from the peace conference and being told the outlook seemed gloomy, said:

"Russia can scarcely consent to pay an indemnity—it would be a grave hu-

millation. The limitations of her Pacific rights to a commercial port would be more easily conceded. If I were a Tsar I would never submit to the payment of an indemnity—it would be a degradation."

The only precedents for indemnities are the case of China, where the European nations, after the Boxer rebellion, and then pillaged her, and France was prostrate and Germany had recouped herself. After the defeat of Napoleon, France was prostrated, Russia in this case is not conquered.

The proposition of the British parliament called forth an interesting observation. Dr. Smith repeated his opinion that Mr. Balfour was not bound to resign in consequence of his defeat on the Irish land commission vote.

"A government has never been held bound to resign unless the vote was either directly one of want of confidence or the question at issue involved it. A snap vote on a subordinate matter never has a resignation result. Peel, who was a strict parliamentarian, took office in a minority, but that was to establish a principle."

"All my information from England is to the effect that tariff reform has made no headway. Mr. Chamberlain has been virtually unsuccessful, as he has been in the case of Mr. Balfour. I remember when the Corn Laws were in force and the misery suffered by the working classes, who were said for lack of bread to have eaten grass and even dog manure. Trade is still current and render duties on food impossible."

Dr. Smith, added Dr. Smith, "Mr. Chamberlain has never told us how he is going to give an entirely practical shape. There must be some agreement between the mother country and the colonies, and any colony which would alter its tariff would have to ask the agreement to be revised. This would lead to trouble. Even as it is, Australia and Canada are quarrelling. It does not look very like a united empire."

As to European readjustments, the professor thought it quite probable the kaiser was taking advantage of Russia's position. He had ambitious dreams of a vast extension of the German empire. "I think mainly towards the south—Austria is on the verge of disruption, and her German provinces would be natural objects of regard—Bohemia also, the no doubt is partly Czech. No one can tell what the kaiser's motive was for seeking an interview with the czar, but it may satisfy him to do with Russia's difficulties—external and internal—and the opportunity was taken those discuss other matters where common action might take place."

Asked in conclusion if he had any message to his fellow citizens at this time, Dr. Smith smiled from viewing the pillars that he had seen in the city. "I have no secret of longevity. I have never been abstemious and have lived pretty much as I liked, but I have always observed moderation. In my youth in England I lived a very active life—following the hounds and mountain climbing in Switzerland being my favorite recreations."

### W. K. McNAUGHT RETURNS WALE, HEARTY AND VERY FIT

#### He Says That Lord Roberts is Anxious to Visit Canada, But is Detained by Lady Roberts' Illness.

(From the Sunday World.) President W. K. McNaught, Mrs. McNaught, and William McNaught arrived in Toronto on Saturday by the 4.30 train from Montreal. All the party were looking uncommonly well, the trip with the manufacturers' delegation having evidently agreed with them. Mr. McNaught said they had had a busy time, each day having its full program. Asked if Lord Roberts regarding the picture, one of Sir John's gifts, he said he had not yet seen it, but would come if he could. Mr. McNaught said that both Mr. and Mrs. McNaught were very well, and that they were far more beautiful and interesting than any body could have any idea of. One of them was King Charles' punch bowl, which his majesty ordered to be made to prove that the goldsmiths and silversmiths of England could do as good work as any foreign artist. Regarding the art treasures that were coming to the city, Mr. McNaught said that they were far more beautiful and interesting than any body could have any idea of. One of them was King Charles' punch bowl, which his majesty ordered to be made to prove that the goldsmiths and silversmiths of England could do as good work as any foreign artist.
