ABANDON THE PREFERENCE FOR BENEFIT OF CANADA TO GAIN GERMAN'S TRADE

In Discussion on Detrimental Effect on Fruit Industry of German Surtax, Members Take Unexpected Attitude—Preference Does Canada no Good.

GOVERNMENT TO REPEAL THE INDEMNITY MEASURE

Ottawa, April 23.—(Special.)—The government has determined to repeal the indemnity and a Liberal caucus is called for Thursday.

The introduction of a resolution by Mr. Armstrong (East Lambton) concerning the German surtax precipitated a general debate on the tariff, including the British preference. Mr. Henderson (Haltoun), when challenged to state what he would do, unhesitatingly said that he would vote to abolish this "hugghanded" preference. He declared himself a loyal Briton, but for Canada first.

The government refused to give an usual to give any intimation of its views on the tariff, although many members pointed out that there was great dissatisfaction among the farmers of Ontario.

Mr. Clement (West Kent) urged that something be done at once to encourage the growers of tobacco. Thousands of dollars would be invested if there was any assurance of adequate protection.

Mr. Armstrong (East Lambton) moved for copies of all correspondence since 1896 between the government of Canada and the German or British governments respecting the tariffs of Germany and Canada. He condemned the government as careless and indifferent to the interests of the farmer in not cultivating trade with Germany. It has been growing gradually less. In 1893 Germany placed a high tariff against Canada amounting to 100 per cent. Our government retaliated by placing a surtax of 33 1/3 per cent. upon German imports. The minister of agriculture had recently said to a deputation that he had hoped that better trade relations would soon exist, but that if they did not "it would not make any very great difference."

Mr. Armstrong regarded this statement as foolish and irresponsible. On March 1 Germany had put a surtax upon goods from Canada that amounted to prohibition. The apple trade was especially affected.

Mr. Henderson (Haltoun) said that Canadian fruit growers, urging them to do something, but they were unable to interest the minister of agriculture.

Outside of apples, other exports from Germany had only amounted to about \$500,000 per annum, yet Germany was the second largest consumer of agricultural products in the world.

Nothing was gained by the British preference. Canadian goods sold in England on the merits and not on sentiment, yet it is the British preference that closes to our farmers the ports of Germany.

Mr. Fiddling, minister of finance, thought the speeches were unwelcome and unpatriotic. Informal negotiations were now in progress between the two countries. He pointed out that the present government was the policy of Germany as having been very popular among the people. They appreciated that Germany has penalized goods from Canada because of the British preference. No foreign country had a right to offend at this; it was purely a family affair.

R. L. Borden thought it peculiar, if this was purely a "family affair," that he escaped the surtax and that Canada had a Liberal Pledge.

Mr. Sproule (East Grey) said that the Liberals had come into power pledged to reduce taxation. They were to give a preference to Great Britain and thereby decrease taxation. The cry then, was that they would give a preference to Germany.

Mr. Charles Tupper, who had pointed out that the preference, if adopted as proposed by the Liberal government, would eliminate every commercial treaty with this we singled out Germany containing a favored nation clause. He pointed out that Canada would find herself embroiled in commercial war with Germany and Belgium. And that was precisely what happened. The present government had blundered. It found in force a growing trade with Germany, she was buying our fruit, wheat and rye. Instead of cultivating this market, we first violated Britain's treaty and then prevailed on Britain to denounce it. Not satisfied with this we singled out Germany and put a surtax upon all her goods. It is a wonder that Germany has put a tariff of \$1.50 per barrel upon our wheat. What has been gained in place of this great market thus thrown away? Gentlemen on the other side pointed to the British preference. What benefit is the preference to the farmers of Canada? We get in return no benefit beyond that given by the mother country to our competitors from the United States.

German Market is Needed.

Mr. Chisholm (East Huron) said that the former of Ontario were now driven to depend for their living upon their products and fruit. Ultimately they would have to rely upon fruit alone for it in that they need not fear.

STUDENTS PROTEST AWARD AND SPECIAL COMMITTEE WILL ENQUIRE

Students Take Up Objections of Boswell and Demand to Know Why He Was Declared Ineligible for Prize.

Trouble seems to be again brewing at the university.

H. F. Dawes, a teacher in the physics department, under Dr. Macellian, has been awarded the 1861 exhibition scholarship of \$750.

M. W. Boswell, one of several competitors, was recommended by the examining committee as being the best candidate.

Boswell was declared ineligible by the university council, and the others were considered as not being capable of original investigation.

That the under-graduates were much incensed at the decision of the council, was forthcoming in a largely circulated petition, which was presented to the senate asking them to reconsider their award.

The petition mentioned that should the senate take no action, the matter would be referred to the university commission, and also to the commissioners of the exhibition fund in London, Eng., under whose control the scholarship is held. It further intimated that the final vote in the council against Boswell had been small, standing 5 to 6, and that some of those who had voted were not qualified to give an opinion on the merits of the candidates. Boswell had been treated unfairly. His thesis had been accepted and read. A report had been made on it. After six months of hard research, day and night, he had been turned down, despite the fact that he was recognized as a brilliant student. If he was not eligible he should have received notice last fall.

The senate met last Friday night. The question was argued for an hour and a half. The committee was appointed, consisting of the chancellor, vice-chancellor, and John A. Patterson, K.C.; Thomas Worrell, K.C., and N. W. Hoyle, K.C., to investigate the matter from top to bottom.

The committee will hold their first meeting to-night.

When seen by The World no member of the committee would talk.

Princeton Horton, writing up, said that there was no question of issue whatever. The senate had named a committee of lawyers to look into the matter, and he was confident that the committee would give the correct opinion in a few days.

How Earl Grey proffered and Roosevelt accepted.

Ottawa, April 23.—(Special.)—The following correspondence between Earl Grey and the president was given out to-night.

Government House, Ottawa, Feb. 7.

My Dear Mr. President: The fortune of war and the accident of inheritance have made me the owner of the portrait of Franklin, which Major Franklin stated was "allowed by those who have seen it to have greater merit than as a picture in every respect," has for over a century occupied the chief place of honor on the walls of my Northumbrian home. The Choate has suggested to me that the approaching Franklin bicentennial celebration at Philadelphia on April 23, provides a fitting opportunity for returning to the American people a picture which they will be glad to recover. I gladly fall in with his suggestion.

In a letter from Franklin, written from Philadelphia, Oct. 17, 1828, to Madame Lavoisier, he says, "Our English scribes, when they were in possession of my portrait, were so proud of it that they carried it off with them."

"As your English friend, I desire to give my prisoner, after the lapse of 130 years, his liberty, and shall be obliged if you will name the officer into whose custody you wish me to deliver him. If agreeable to you, I should be much pleased if he should find a final resting-place in the White House, but I leave this to your judgment. It will remain with great respect and in all friendship.

"Yours truly,
"Grey."

The White House, Washington, Feb. 12, 1898.

"My Dear Lord Grey,—I shall send you an officer to receive that portrait, and I am sure you will be glad to see your thoughtful and generous gift. The announcement shall be made by Mr. Choate at the time and place you suggest. I am sure you will be glad to see your great and thoughtful courtesy. Meanwhile, let me say privately how much I appreciate not only what you have done for me, but the spirit in which you have done it, and the way in which the manner of doing it adds to it the generosity of the gift itself. I shall have placed on the portrait, which shall, of course, be kept at the White House, as you desire, the circumstances of its taking and return. With kindest regards,
Sincerely yours,
"Theodore Roosevelt."

NO ILLNESS SERIOUS ENOUGH TO ALARM BUT RAIN BRINGS MISERY TO HOMELESS

System in Caring for the Victims is Showing Good Results—Preparations Being Made to Resume Occupation of Damaged Buildings.

San Francisco, April 23.—The new San Francisco that will rise from the ashes of the old city was in its first stages today of rebuilding. After five days of confusion and almost superhuman effort on the part of the citizens of California's metropolis in the great task of sheltering, feeding and otherwise caring for the homeless thousands, complete order has been established and attention turned to the future.

Through the great business quarter, where the devastation by fire was most complete, dangerous walls were raised, buildings that had not been disintegrated by fire were inspected with a view to their reconstruction, and the necessary effort for the immediate construction of buildings in which to resume business at the earliest possible time.

Confidence has been restored. The assurance of the insurance companies, the measures taken by the financial institutions, the prompt and reassuring words that have reached the businessmen of San Francisco from eastern financial centres, all these things have dispelled the feeling of uncertainty.

Homeless persons were fed today in a systematic manner. On the waterfront, where the boatloads of provisions were landed, there was an endless procession of carts and drays carrying food to the scores of sub-stations established throughout the city and the parks. At these stations, food was prepared, comprising bread, prepared meats and canned goods, milk and a limited amount of other food, and even fruit were served to all those who applied.

About 1500 tons of food are moved daily from the waterfront.

Large quantities of blankets, tenting and other material provide coverings for those who have been scantily supplied. The relief of the supply stations is an affair of the university for at least a year before the thesis was presented for consideration. It was quite natural that the exhibition commission should not want to grant a scholarship to any man who was roaming around and not a regular attendant.

Good Candidates.

There had not been word said this year, said the principal, that the competitors for the scholarship, besides Dawes and Boswell, were incapable of original research. There were a number of very fine men presenting themselves. Prof. Alfred Baker would make no statement. He thought that publicity in an affair of this kind would injure the university.

Provost Macklem and Chancellor Burwash would not be interviewed.

"I think that I could have won the scholarship," said Boswell, "but in view of the way things are going I do not wish to make any statements."

CANADA COMPLIMENTED.

Detroit, April 23.—The Detroit Journal (Rep.) to-night says editorially:

"The first appropriation of the United States Congress for the relief of San Francisco was one million dollars. Canada, which has less than one-twelfth of the population of the United States and a still smaller proportion of resources, granted a government appropriation of one hundred thousand. That the Dominion government should itself take official cognizance of the situation, and make a grant that is proportionately even more generous than that of our own government, on which a special obligation is incurred, is unexpected as it was gracious.

"The promptness of the act shows how spontaneous it was. It ought to be remembered as a beautiful incident in the history of two countries which are neighbors in a sense in which no two other nations in the world are neighbors. No two others occupy a similar relative position toward each other and the rest of the world and the respective interests and people and territories of no other two come in touch along a continuous line, 4000 miles in extent."

When the fire catastrophe was in its infancy this downpour would have been regarded as a mercy and a godsend. This morning it could be regarded in no other light than as an additional calamity. It meant indescribable suffering to the tens of thousands of persons camped upon the naked hills, and in the parks and open places. Few of these were provided with waterproof clothes. For the most part they were covered by sheets tacked upon improvised tents. Through this water poured as thru a sieve, wetting the bedding and soaking the ground upon which they lay. When it is understood that thousands of delicately nourished women and infants, the aged and feeble, the sick and the infirm, were in this plight, the horror can be added to describe the misery of their condition. The downpour has aggravated the already unsanitary condition of the camps, and will doubtless add great numbers to those already crowding the regular and temporary camps of the city. What could be done was done by the guards in charge of the camps to relieve the distress. Whenever covering could be had for the women and children it was taken advantage of. They were housed in chilly and cheerless churches, in garages and barns and those who had saved their homes were called upon to take care of the unfortunates exposed to the storm.

Enforced Hospitality.

With few exceptions, those who had returned responded readily to the new call upon them, and where they did not the butt ends of rifles quickly forced a way thru the inhospitable doors. While the storm has added to the difficulties of the general committees, especially of those having in charge the sick, the sanitation of the city, and the housing of the homeless, it has been a spur to even greater efforts to bring order out of the chaos prevailing. Regular shelter tents hospitals of the city, as well as the standing of the ground, it is realized that these provisions are imperative.

PRINCE TORONTO'S GUEST GIVEN ROYAL GREETING AT CITY HALL

Makes Friends Rapidly With Thousands of Citizens Who Witnessed His Arrival—State Dinner.

TO-DAY'S PROGRAM

Morning—At liberty.
12.30 p.m.—Reviews permanent corps and Army and Navy Veterans at Stanley Barracks.
3.15 p.m.—Prince Arthur will arrive at Queen's Park to inspect the Toronto Cadet Corps. On conclusion of the inspection he will drive to government house.
8 p.m.—Dinner in honor of Prince Arthur at the Toronto Club.

There is no doubt about it, Toronto generally will take a great liking to Prince Arthur of Connaught, altho the welcome to him yesterday in some spots was hardly the enthusiastic gathering either in numbers or brightness that Toronto is in the habit of extending to such distinguished visitors. At the arrival was during the noon hour, when lots of people could get out, there were not the thousands lined deep on the sidewalks to view the royal visitor that would be expected on so short a route, but outside the city hall there was a throng. The prince's democratic bearing made him solid.

In the history of the Queen City will be recorded. It was on a sunny day, but as a general rule the citizens had not put out their bunting. In the Union Station, however, there were gorgeous and artistic decorations and the prince and party left their car and mounted a carpeted stairway to the large hall upstairs, which was elegantly uniformed in decorative features.

SEND HOME TROOPS ABROAD

In General Parsons' Opinion It Would Stimulate Recruiting.

Haltoun, April 23.—(Special.)—The annual meeting of St. George's Society took place to-night. One of the most interesting speeches delivered was the farewell address of Gen. Sir Charles Parsons, who said:

"Three years ago I ventured to suggest the desirability of bringing about an interchange of officers. This suggestion is being acted on, and that officers of Canadian forces are now being detailed for service in various parts of the empire—Australia and India, for example, I should like, however, to see still further and see Canadian companies of infantry and artillery exercised in large camps in Great Britain and India, and British companies temporarily doing their duty in Canada. Such an interchange would stimulate recruiting, in that there would be a possibility of service abroad and possibilities of active service."

MURDERER TRIES TO ESCAPE

Youth Was Almost Free When Guards Got Him.

St. John, N.B., April 23.—(Special.)—Frank Higgins, sentenced at St. John, N.B., to a life term in Dorchester Penitentiary for the brutal murder of William Doherty of this city, a boy companion, made a desperate effort to escape from that institution last night.

Higgins with another convict had been working in a machine shop, from which they had stolen several saw blades.

With wonderful dexterity they succeeded in sawing out the bars of the cell doors and outside windows and by means of a long rope which they had secured were lowering themselves down the wall of the high building when they were caught by the guards. After a fierce struggle they were again placed in cells. Higgins was 15 years old when he killed Doherty three years ago. The crime was the most shocking in the second attempt he made to escape. His record in penitentiary is bad.

We are firm believers in all-through goodness. Of course finish and looks are essential, but it's the inner construction and careful detail in making, and the fact that there is fully one-third more fine graining per square inch in a "Macey" Cabinet that make it what it is.

To say that it is the best that is made is a big claim, but you know "seeing is believing."

bers of the citizens' patrol. A friend of the chauffeur was out in the face by a bullet and R. G. Seaman, acting lieutenant of the Second Company of the Signal Corps, was struck by a spent bullet. He suffered no injury.

Tilden was a prominent commission merchant of this city and was one of the foremost workers in the general relief work. He had taken his three children and a nurse to Menlo Park, where he has a summer cottage. His automobile had been used as an ambulance in conveying sick and wounded to the hospitals and the Red Cross flag was displayed on his car. Besides this he had the Red Cross insignia on his right arm. According to Seaman, six men stood in the middle of the road and separated as the car approached them. When the car was within ten feet Seaman claims the guard began shooting without warning or challenge and continued firing after the car had passed them.

The machine had gone about fifty feet past the patrol," said Seaman. "When the car stopped suddenly. Tilden, who was driving it, dropped back in his seat and his arms out of the car. I sprang up and fired five shots at those who were still shooting behind us. Several policemen came running up and arrested three of the men who did the shooting. The men were in khaki uniform."

NOTES.

Seismographs in the Imperial University show that the San Francisco earthquake reached Japan in 11 minutes.

The Red Cross Society of Japan is sending a hospital ship to San Francisco.

A carload of flour, ground in the Regina Roller Mills and grown on Regina Plains, was sent forward from Regina as a gift of the city.

The area of the burnt district is seven square miles.

Funds have been started at the various Australian capitals in aid of the sufferers by the San Francisco earthquake. Premier Seddon, on behalf of New Zealand, has offered \$25,000.

Both Ottawa and Toronto observatories recorded yesterday's earthquake shocks in Oregon.

The passengers leaving Fort Richmond, Cal., on the Santa Fe Road Sunday night, was Emma Bates of Branford, Ont.

The Hamilton police started running \$10,000 to the fund, of which \$5000 was wired at once. About \$600 in private subscriptions have been made.

In view of President Roosevelt's announcement Toronto will not subscribe to the fund now, and it is not probable that the provincial government will make a grant.

J. J. Kenny expects to hear to-morrow from the representatives of the Western Canadian companies a reliable estimate of the companies' losses. In the meantime he is led to believe that the total losses of the companies will barely exceed half a million dollars.

Mayor McClellan of New York has received a letter from Mayor Schmitz of San Francisco. How many architects and architectural draughtsmen can you furnish us? How quickly can they leave for San Francisco? At London, England, the San Francisco earthquake relief fund being raised by Americans is approaching \$100,000. The fund has been cabled to Mayor Schmitz offering to contribute \$5000 to the relief fund.

Massachusetts has raised \$400,000 for the fund.

An insane Chinese at the Presidio Hospital was killed by a delirious federal patient with an iron bar.

The night at the Central Emergency Hospital, Frisco, who were all believed to have been killed when the city hall was razed by the earthquake, escape.

Col. T. Wain-Morgan Draper has offered to supervise the erection of a huge barracks for the refugees at the Presidio, and his services have been accepted by the federal authorities. Work commenced on the structure yesterday. The plans call for the housing of 5000 persons.

San Francisco has a vigilance committee, the first organization of the kind since the early fifties. Dr. Donohue, who is in charge, has been elected president. One hundred and thirty-five men have joined the organization. The committee has charge of the Golden Gate valley district, near the Presidio. A number of large manufacturing companies have arranged to receive and care for refugees at their respective plants along the eastern shore of the bay. Two thousand seven hundred and fifty persons can be accommodated.

Fully 30,000 refugees are being fed by the government at the Presidio and north beach. Provisions are being bountifully supplied to all who make application, and as yet there is no suffering from hunger. Over 10,000 tents have been given out, and the authorities intend continuing the distribution so long as the supply lasts.

Barracks are to be erected in Golden Gate Park to accommodate 15,000 persons.

In response to the appeal made by Mayor Schmitz of San Francisco for Chicago architects and draftsmen to assist in rebuilding San Francisco, volunteers applied yesterday at Mayor Dunne's office.

Chicago's second relief train, carrying provisions for the earthquake victims, was ready to leave yesterday. The city's cash contributions now amount to over \$400,000.

Washington—Representative Madden of Illinois offered a resolution yesterday, taking off the tariff for one year from structural steel for the rebuilding of San Francisco and other Californian cities damaged by the earthquake.

ALL READY FOR HORSE SHOW FIRST EVENTS THIS EVENING

The automobile having had its two weeks of "honzing," the horse will be society's king from to-night until Saturday evening. After that the automobiles are in splendid condition; the decorations are attractive to a degree.

For to-night the box-holders will be able to obtain admission by showing their regular tickets. The rest of the seats will not be reserved, but there

will be a general admission charge of 25c made. There is a very well filled harness class, and a large jumping class this evening, beginning at 8.30. To-morrow morning the show begins in earnest while the formal opening by H.R.H. Prince Arthur of Connaught takes place at 2.30. The opening proceedings will be short, and will consist of the reading of the address and the presentation of it by the chairman, and the prince will then declare the show formally opened.

Mr. Cawthra Mulock, the donor of the champion hunter's cup, has added another cup to the class by very generously offering to present a silver cup to the rider of the champion hunter, provided he or she is an amateur, and is not the owner. By this additional cup, Mr. Mulock is encouraging the

amateurs to ride the horses, and it is thought that perhaps some one of the skilled lady riders who are taking part in the event will be the competitor.

The entries for the two horses sent from Santa Barbara, California, by Harold Richardson—One is a Canadian pony, which has been most successful in the California shows, and the other is a high stepper, who has won a great many of the harness classes, in the exhibitions on the Pacific slope. Another long distance competitor is Miss Kirchhoffer of Brandon, who will ride in the ladies' saddle class.

WILL REVIEW VETERANS.

The Army and Navy Veterans' Association and sister societies will meet at noon to-day at Occident Hall, Bathurst and Queen streets, to proceed to Stanley Barracks, where Prince Arthur has consented to review them. They will parade with the troops.

Another Town Heard From.

Los Banos, Cal., April 23.—The earthquake destroyed the principal business portion of this town. The bank building, which contained a bank, a store and many offices, collapsed in three places. Hotel Los Banos, a several-story brick structure, was partially demolished. The school buildings and churches sustained heavy damage.

Disgusted Thief.

William Wright was sentenced at Wakefield, England, on two months' imprisonment for stealing a pair of boots. He gave himself up to the police because the boots were too small.

COURTMARTIAL OFFICERS ROJESTVENSKY AMONG THEM

St. Petersburg, April 23.—The special commission which has been investigating the naval battle of Tsushima Straits, in which the Russian fleet was destroyed by the forces under Admiral Togo, has reported in favor of court-martialing all the officers who were on board the torpedo boat destroyer Bedovi, to which Vice-Admiral Rojestsvensky was transferred after the disabling of his flagship, for surrendering the vessel.

Admiral Rojestsvensky alone is exempted under the finding of the commission, because he was wounded and unconscious when his flag was lowered.

Vice-Admiral Rojestsvensky, who recently applied for retirement on the ground of shattered health, nevertheless, has requested that he be tried with the others, tho his punishment, as in the case of Vice-Admiral Nebogatoff, may be dismissal in disgrace from the navy.

IT CHOKED HIM

Mr. J. P. Taylor of Dymont, Ont., had a serious time with bronchitis. But he knew just what to do and got well quickly.

This is what he says of Catarrhose: "The remedy that does cure." "I must tell you how much Catarrhose has been to me. I was so bad with bronchitis that I sometimes thought it would soon be over with me. A spell of coughing would come on the fairly choked me, and I was always left prostrated and weak." "Since using Catarrhose I have had no trouble at all. It strengthened me, throat stopped the cough, gave me free breathing, and entirely cured." "Why not cure yourself? Why not get well for all time to come? Buy the last 'Catarrhose'—it costs \$1 and always eradicates every trace of the trouble. All dealers or by mail from N. C. PRESENTED WITH GOWN.

Dr. Faskin and Wife Honored at St. Paul's Opening.

The social function last night in connection with St. Paul's Presbyterian Church opening services was a pronounced success. Dr. Hossack, moderator, occupied the chair and the different demonstrations were represented on the platform as was also Knox College. The Presbyterian pastors to speak were Dr. Wallace, Dr. Parsons, Revs. Gandler, Dr. Nell and P. F. McKay, Methodist, Rev. W. H. Hincks, Baptist, Dr. Elmore Harris, Congregational, Rev. M. Stacey, Anglican, Rev. Mr. Seager, Roman Catholic, Rev. Father Minehan, Knox

College, Rev. P. McLaren and Rev. Dr. Greig. Dr. Faskin, the pastor, sketched a history of the church. A presentation was made to Dr. and Mrs. Faskin, by R. J. McLean, on behalf of the congregation, the formal being the recipient of a gown and the latter of a cabinet of silver. Mrs. Faskin also received a magnificent bouquet of roses from the ladies of the congregation.

Rev. Dr. Gilroy and Dr. McKay took part in the opening and closing exercises.

WATERWAYS COMMISSIONERS TO HAVE MEETING IN TORONTO

Ottawa, April 23.—(Special)—Dr. W. F. THE PRINCE IN TORONTO

Continued From Page 2. but exceedingly interesting and important event in the history of the 10th Royal, now the Royal Grenadiers, in connection with the visit to Canada in that year of His Royal Highness Prince Arthur, now the Duke of Connaught. Lieut.-Col. Brunel, then commanding the regiment, had requested his royal highness to request the winners the prizes won at the annual regimental rifle matches, and the request was graciously acceded to. Accordingly the 10th Royal paraded at the old drill hall on Saturday evening, Oct. 2, where, before a brilliant assemblage, his royal highness presented the officers with a photograph, signed "Arthur," October, 1889, taken in the uniform of the 10th Brigade. This picture hangs in the entrance of the Royal Grenadiers at the armories, and is one of the highly prized as a memento of this most interesting event in the early history of the "Old Tenth" and of the honor conferred on the regiment by the distinguished brother of His Majesty, H.R.H. the Duke of Connaught.

HAMILTON HAPPENINGS W. J. HARRIS' MISFORTUNE

Suffers Amputation of Leg—Market and Harbor Committees Meet.

Hamilton, April 23.—(Special.)—This afternoon the doctors found it necessary to amputate just below the knee the leg of William J. Harris of Harris Bros., the Market-square bakers. The trouble started with a sore toe and developed into gangrene. To-night he was reported to be getting along as well as could be expected.

The markets committee agreed this evening to pay \$1000 of the \$1100 bill that P. C. Harris incurred in his suit with E. Moriarty. It has been discovered that the new patrol stable cannot be built for less than \$4500, and the council appropriated only \$3500. The work will be proceeded with, however. Arrangements will be made to keep the public comfort station open Sundays and at nights.

The harbor and beach committee, and a committee of beach residents, had another conference this evening on the proposed annexation agreement. Under this agreement the beach commissioners will be elected on the first Wednesday in July, and the beach taxation shall not exceed ten mills for ten years.

The decision of Judge Street that Hamilton's law charging brewers and distillers more for water than other manufacturers was illegal, has been confirmed by the court of appeal. The city charged the brewers 12 cents per 1000 gallons, and other manufacturers 7 cents. Hamilton Brewery Association and Hamilton Distillery Company appealed. Judge Garrow observed that there is force in the contention that the municipal council ought to have the power conferred for "But," added he, "in view of the decision of the supreme court, such considerations must now, I think, be addressed by legislation."

J. W. Bridgett the Slater Shoe Agent

Has HEEL-COMFORTING COUNTERS

Action of a Heel-Skimming Counter

IMPROVEMENT NUMBER THREE

Don't know what is meant by a shoe counter? Well, it's the stiff leather that fits around the heel. It's the back stop of the shoe. It forms a leather cavity into which the heel fits. If wrongly built that cavity can inflict more agony than any other section of a shoe. In nearly all shoes it's given little or no care. It's usually constructed of Hemlock tanned, scrap sole leather, hard and stiff as stone, and is lickered together in the cheapest way without shape or form. Result? A rigid, unyielding, heel-skimming, pain-producing, walk-hindering counter.

Action of a Foot-rite Heel Comforting Counter

Foot-rite counters are somewhat different—slightly. They're made of special oak-tanned counter stock, stout but soft, and being shaped the exact shape of a human heel, they're practically ball and socket joints like the human shoulder, capable of moving in any direction and bound together by air suction.

What good are these Foot-rite ball and socket counters? They're this good! Their soft leather won't skin the heel, even though it may rub at every up and down movement, but that up and down rubbing is entirely eliminated by the ball and socket suction which forces the sole under the heel, also the counter at the back and sides, to hug the heel snugly as it lifts and lowers in walking. This suction is not noticeable. Like the shoulder joint it performs its office without being felt.

There's a Foot-rite dealer in your town. His name's below. Ask him to show you Foot-rite Heel Comforting Counters. You'll find his door swinging inward but never outward to find a more welcome store. Anywhere in America, Canada or Great Britain—\$4.00 and \$5.00. Every pair Goodyear Welted.

THE Foot-rite SHOE

FOR MASCULINES THE SHOE WITH TWENTY IMPROVEMENTS BOSTON THE Foot-rite SHOE COMPANY, MAKERS MONTREAL

Foot-rite Shoes to be had in the Dolly Varden Boot Shop, 110 Yonge St., Toronto.

Twenty-seven hundred cadets, including St. Andrew's College, Victoria Industrial School, the blue-uniformed high school corps, and the scarlet-coated public school boys, will parade before the prince this afternoon in Queen's Park. With them in their line of march will be interspersed the Grenadier Pipe and Drum Band, the Queen's Cadets Band and the Industrial School Band.

Dress parade discipline is somewhat of a new thing to the cadets. For this reason they were reviewed by Col. Galloway in practice yesterday on university lawn in command of Col. Thompson. When they heard the idea they went thru the manoeuvres of battalion drill and "march past" redoubtably, after which they were lined up and instructed to assemble at the armories to-day at 2 p.m.

They will be divided in nine battalions averaging six companies each. At 2 p.m. the parade begins at University-avenue and Queen's Park to University lawn, forming a line of quarter column, then as battalions, take post in review order and give a royal salute. They then advance in review order, form a square, receive the prince's greetings, afterwards marching past in four.

The Various Battalions. Each battalion will be commanded by an acting lieutenant-colonel, and will be composed as follows: 1st, Jarvis, Harbord and Jameson-avenue colleges; St. Andrew's College and Industrial School; 2nd, Victoria (1) and Dufferin (1); Jesse Ketchum, Tyson, Givins (1) and Parkdale (1); 3rd, Wellesley (2), Church, McCaul, John, and Wellesley (3); 4th, Jesse Ketchum (2), Huron, Palmerston, Dufferin, Borden and Jesse Ketchum (3); 5th, Dufferin (2), Rose-avenue, Winchester, Queen Victoria (1) and Dufferin (3); 6th, Borden, Park, Rose, and Queen Alexandra (1); 7th, Givins (2), Dawson, Manning, Grace and Clinton; 8th, Parkdale (2), Queen Victoria (2), Fern, Gladstone and Brock-avenue.

The schools opened yesterday after the Easter holidays. The prince's visit will bring no holiday to pupils, except those in the cadet corps. The members of the board of education will attend the parade in a body.

HACKETT GOES FOR TRIAL

Montreal, April 23.—(Special.)—Jas. Hackett was formally committed today to stand his trial for the murder of little Edith Ahearn, a five-year-old girl. A bylaw was adopted to-day placing all poolrooms, billiard rooms, refreshment rooms and confectionery stores under police jurisdiction.

Strict Army Order on Food

Victorious Japanese Know the Secret of Strength and Health. In the Japanese army during the late war with Russia, strict regulations were enforced to promote health among the soldiers. These regulations covered every phase of hygienic living. They were especially strict in regard to food. "The origin of strength in the human body is good food," said these instructions to the conquering Japanese army. And this is just as true in America as it is in Japan. "The origin of strength in the human body is good food."

In this country we have the ideal good food. It is the food which gives to the body and brain perfect strength and perfect health. We refer to Malta-Vita, often called "The Perfect Food," because it contains every food element the body needs, and in the exact proportions which nature has shown are necessary to health and strength. Malta-Vita is the whole of the best wheat grown, mixed with finest barley malt extract. This is the reason it is so rich in vitalizing, refreshing, muscle-building, blood-making food elements. The malt extract, after being thoroughly cleaned, is cooked and steamed until the starch cells break down. It is then mixed with the wheat extract and rolled out into wafer-like flakes, every flake a wafer of health. The malt extract, an active digestive agent, breaks down the solid starch of the wheat into maltose, or malt sugar. Malt sugar is very nutritious and is easily digested even by the weakest stomach. Malta-Vita is baked in great ovens until it is crisp and brown, ready to eat. That is how it comes to you—the most strengthening, most delicious and cleanest food in the world. All grocers sell Malta-Vita. New 10 cents.

The Slater Shoe Store, on King-street, Hamilton, has recently passed under the management of J. W. Bridgett, who is well-known throughout the province, and who recently disposed of a lucrative business in the Town of Meaford to take up the Slater Shoe franchise in Hamilton. Mr. Bridgett has made many alterations and improvements in the Slater Shoe Store, and has issued a cordial invitation to Hamiltonians just to come and see the store and the new spring styles of Slater Shoes. Mr. Marshall continues with him.

German market. It was not a market of any importance the best. Mr. Henderson (Haiton) said he was Canadian first and British afterwards. The preference simply meant that we took bread out of the mouths of our workmen to feed the workmen of England.

Mr. Paterson: Do you favor repealing it? Mr. Henderson: Yes, if I had the power I would take this one-sided preference off the statute book. It is a jug-handled policy. I favor a mutual preference.

Mr. Schell (Oxford) and Mr. Derbyshire (Brookville) defended the government, and Mr. Fowler (Kings and Albany) suggested that Mr. Fielding's British loyalty was of recent origin. It had not been long since he tried to carry Nova Scotia into the United States.

Mr. Fisher, minister of agriculture, tried to explain once more his unfortunate speech, declaring that Canadian farmers asked for no preference in the British market. He explained that they did not want it; that is, they did not ask it because they knew that they could not get it. Personally he felt that with a free market the British meant the disintegration of the British empire.

Mr. Bennett (East Simcoe) ridiculed the idea that either a free preference or German surtax out any figure in the elections of 1900 or 1904. He denied the fact, no minister of liberal gains from the house—at least, I believe he could represent his home in parliament. Before the orders of the day were called in the house, W. F. Maclean (S. SPOKE OF BRITAIN'S DEEDS IN HONORING PATRON SAINT

St. George's Society Listened to Patriotic Addresses Last Night.

Whether it be historically authenticated or otherwise that St. George killed the Dragon—certain it is that the anniversary of England's patron saint is always celebrated by the St. George's Society of Toronto with all due reverence, and last night's gathering was no exception.

The banquet held in St. George's Hall was attended by several hundred guests, and lacked not those touches that conveyed the spirit of the occasion. The wall decorations exhibited the Union Jack ensign and cross of St. George's, and the menu was characteristic of the historic fare of the "light little table" while the orchestra dispensed during the evening those airs which are sweet to the Briton's ears. Patriotic, too, and loyal to the last degree were the spirited addresses made.

The society's president, George F. Harman, was chairman, and the guests included: Hon. George W. Fox, J. P. Downey, M.L.A.; W. K. Campbell, M.L.A.; Major M. Robertson, 48th; Major Sloan, Gerhard Heintzman (German Benevolent Society); Dr. George Kennedy (Caledonian Society); Jas. Bain (St. Andrew's Society); and Rev. Lawrence Skay. Prominently noticed among the members present was W. T. Boyd, the society's oldest past president.

The toast to the King was honored with loyal enthusiasm. Hon. Mr. Foster, responding to the toast of the occasion, celebrated, proposed by Mr. Harman, spoke eloquently of the memories drawn forth of England's past achievements and of the expectation of a future equally glorious. The society's object he interpreted as three-fold, being brotherhood, nationality and Christianity.

With these ideals before it, it had developed abiding strength, and had made it possible for Britons to meet together in hearty fellowship in all corners of the globe. Mr. Foster paid tribute to the sterling qualities of British character, and to the permanency and strength of its institutions, which had made it possible within a few centuries, beginning with a few hundred thousand islanders, for Britain to girdle the earth with possessions.

Major Robertson, speaking for "Britain's Imperial Forces," a toast proposed by Second Vice-President J. M. Gander, dwelt upon the closer unity between the military forces of Britain and the colonies wrought by the South African war. The imperialistic spirit showed forth in every word of an address by Mr. Downey, whose theme, "The Old Land and the New," was suggested by Third Vice-President J. Fairbairn Scott. Mr. Downey drew generously from the annals of British military and naval prowess from the days of Boadicea down to the recent South African battlefields, and passed from this to dwell upon the much more intelligent appreciation of Canada's status that had grown up in Britain within the past few years.

Mr. Downey drew attention to the recent resignation from power of the British government, contrasting its action under the elasticity of the British constitution with what he considered would have been the greatly different attitude of the government of the United States under like conditions. He contrasted the government of the latter being despotic by comparison. The time would come, was prophesied, when Chamberlain's ideas would be realized and the empire would be bound together by the closer ties of mutual self interest.

ATTORNEY CURRY RESIGNS AFTER A NOTABLE CAREER

Energetic Official Who Has Made Fame for Himself in Canadian Courts Going to Cuba.

The announcement that Jas. Walter Curry, K.C., crown attorney for Toronto, has resigned, was yesterday received with much surprise and interest. His work in the York County Loan case, and in fighting combines has shown that he is a valuable man in protecting the interests of the public.

Mr. Curry yesterday sent his resignation to Attorney-General Fay, asking that it take effect May 1. He purposes devoting his time from now on to the Canada Cuba Land and Fruit Co., Limited, in which he has recently purchased a large interest. He will act as legal adviser and also as general manager for the company.

Mr. Curry's record as a prosecuting attorney is one that any man may proudly carry with him. Mr. Curry became a full-fledged lawyer in 1871, and practised in Port Hope and Millbrook until 1878, when he became co-prosecutor in the late George W. Boyd case (1878). In 1882 and 1883 he was acting crown attorney, and that was the time he closed up the pool rooms. On Oct. 15, 1883, he was made crown attorney, and since occupying that important position, Mr. Curry has shown much integrity and aggressiveness. One of his first important cases was the showing up of the Osgoody mail-growth (1880). In 1892 and 1893 he was acting crown attorney, and that was the time he closed up the pool rooms. On Oct. 15, 1893, he was made crown attorney, and since occupying that important position, Mr. Curry has shown much integrity and aggressiveness.

These the Hyams case came in which the brothers were accused of killing Young Wells in a warehouse on Colborne-street. That was in 1895. On this occasion Police Magistrate Denison remarked that if Mr. Curry had the prosecuting of the accused in the high courts they would never have gotten off. The evidence in the Varcoe murder case was also prepared by him, as was likewise that of the Williams case, in which McWhirrel was sent to the penitentiary for life.

Then in the civic investigation which happened some two years ago, where something was found wrong with the ballots and which resulted in three or four people going to Central Prison for a short time, he was the one to disclose the crookedness in the ballots. The case of the plumbers' association, his attack on other combines and his seizing of the books in Jenkins & Hardy's office, are still fresh in the minds of the public. His putting out of business of the man sharks who were asking exorbitant interest, and the closing up of bucket shops are to his credit.

Then his last achievement, the investigation of the York County Loan, by which he has succeeded in returning to the shareholders a substantial amount of money, is one much appreciated by a large percentage of the Canadian public. Mr. Curry purposes leaving for Cuba May 2. The names of those mentioned for the position are Jas. Bain, Jr., S. W. Burns, W. D. McPherson, J. Seymour, R. S. Neville and Nicholas Murphy, K.C. It is said Mr. Neville may be most favored.

TRAINING SHIP FOUNDERS 35 BELGIAN CADETS DIE

Calamity in Bay of Biscay Reported by 26 Survivors Rescued From Raft.

London, April 23.—The Count de Smet de Naeyer, a captain of a sailing ship used by the Belgian government for the training of officers for the government service, founded in the Bay of Biscay April 18, with a loss of thirty-five lives, including the captain and the officers commanding the cadets. The cadets included the sons of many prominent Belgians. Twenty-six survivors of the wreck were rescued by the bark Dunkerque.

It is difficult to get precise details of the disaster, owing to the Dunkerque, which was proceeding to Hamburg, refusing any information or the names of the survivors, and also declining an invitation to land the survivors at Dover. The Count de Smet de Naeyer was built at Greenock, in 1904. It is alleged that she turned turtle when she was launched, necessitating alterations to improve her stability. Most of her officers resigned after her first voyage, declaring that she was still topheavy. She started on her ill-fated second voyage April 11, and anchored off Flushing till Easter Saturday, when she was towed into the North Sea and started on her voyage for Australia. She encountered terrible weather in the Bay of Biscay, labored heavily and foundered.

It is supposed that a boat or raft was launched, and that by this means the survivors were rescued, but no details or list of survivors is obtainable. She was a full rigged sailing ship 270 feet long.

In Fall of Steel Trusses at Ottawa Fat Stock Building.

Ottawa, April 23.—(Special.)—Some steel trusses laid on concrete piers, but not yet fastened in position, at the Fat Stock Show building being erected by the city at the exhibition grounds, fell this afternoon. Samuel Stephen of Montreal and Joseph Cyr, Ottawa, are badly injured. Three others sustained injuries.

Oil Stock in Demand. 100,000 Shares Change Hands on Strength of Rumor. Vancouver, April 23.—(Special.)—As a result of private reports received to-day by the directors of the Western Oil and Coal Co., sinking wells in Alberta, rumors are current over the city that oil has been struck, or a big flow is imminent. As a result of the report 100,000 shares changed hands this afternoon, and the activity of the stock is still very great.

The hold-up was so unfair that, last November, the electorate of the city voted for a municipal plant for the diffusion of electric light and power. The great majority of the candidates of both parties pledged themselves to carry out the will of the people, and the Democratic party specifically promised that if elected they would work energetically and with good faith to the end that Buffalo would have an electric plant of its own and the inhabitants be free from the extortionate practices of private monopolies.

WHEN WILL WHITNEY ACT? The historic deputation which asked Mr. Whitney to obtain cheap power for Ontario municipalities especially requested him and his government to act promptly. It was understood that last week the government would receive the Hydro-Electric Commission's report upon the water powers of the Trent Valley, and that hereafter announcement would be made of the government's policy in relation to the whole subject.

AYLESWORTH KEEPS OUT. All the ministers were present with the exception of Hon. A. B. Aylesworth, postmaster-general, who, having been connected with the case as counsel, was debarred from sitting.

VICTORY AT ALBANY. An illustration of both aspects of this matter was afforded the other day at Albany. The main bills embodying the recommendations of the Armstrong committee were passed on Friday with fewer departures from the fundamental reforms advocated by that committee than was at one time expected.

THE UNWORTHY COMMISSION. The anxiety of the department of finance not to face the music of a thorough insurance inquiry is a bad sign from every point of view. The bill which the department intended to submit to parliament last session finally proves that with regard to insurance legislation, public opinion must assert itself and compel the introduction of the only measure which will satisfy the needs of the case.

CASTORIA For Infants and Children. The Kind You Have Always Bought. Bears the Signature of J. C. Watson.

When now an effort might well be made to induce Mr. Curry to remain as the head of a reconstituted office. The city could not but benefit from the retention of a crown attorney of his unrivalled experience. If, however, this cannot be done, it is to be hoped that the government will make a sound knowledge of the criminal law and practical conversance with its operation essential qualifications of its presentee.

LEHMANN'S FISCAL POLICY. That Germany's fiscal policy of high protection has vastly stimulated her trade and industry is conclusively shown by an official consular report recently made by Mr. Schwabach, British consul-general at Berlin. He says in it: "The people dress better, houses are built better, numerous new and spacious factories bear testimony to the growing industrialization, and there are considerable sums spent on street and sanitary improvements and public buildings."

THE STERLING BANK OF CANADA. A meeting of the subscribers of the Sterling Bank of Canada was held at the head office yesterday, 50 Yonge street, and many shareholders were present. The bylaws of the bank were read and adopted, and the following gentlemen elected directors: G. T. Somers, Esq., Toronto; W. K. George, Esq., Toronto; C. W. Spencer, Esq., Montreal; John H. Tilden, Esq., Hamilton; J. C. Eaton, Esq., Toronto; Wm. Dineen, Esq., Toronto; Noel Marshall, Esq., Toronto; H. Wilberforce Atkins, Esq., Toronto; Sidney Jones, Esq., Toronto. The directors were congratulated on having secured the services of Mr. F. W. Broughall, late assistant manager of the Dominion Bank, as general manager of the Sterling Bank.

THE CROWN ATTORNEY. Regret will be universally felt at the voluntary retirement of Crown Attorney Curry, who during his long tenure of office, has proved himself to be an admirable and efficient public servant. In the course of his official career he has been called upon to conduct many

important and intricate prosecutions and investigations, and has done so honestly, ably and impartially. That there can be no worthier record, and it makes the task of filling his place all the more arduous and difficult. It is satisfactory to know that his relations with the present provincial government have always been pleasant and harmonious, and that the only point of difference—if so it may be termed—has been regarding the reorganization of the department to meet the more exacting needs of the city.

GOVT. OWNERSHIP OF MINES. Engineering and Mining Journal (New York): The Ontario government has apparently decided to try practically state ownership and operation of mines. The purpose of the government is certainly commendable; the question is as to its execution. The national lands belong to the people at large. When they are known to be of exceptional value, it is unjust to give them away for a song to the few "boomers" and speculators who can manage to be on the ground. The case is quite different, when the prospector has to find the veins by arduous search over a great area of country; no one will grudge the treasures that have been found by a comparatively few of our American prospectors, nor belittle the part they played in the development of the west, nor deny the benefit of the system under which our mineral lands were thrown open; but no one wants a repetition of the scandals of the opening of the agricultural lands of Oklahoma.

German competition. It seems that the German government is offering a bonus to exporters of rape oil, and in consequence oil is being sold in England at a lower price than in Germany. After hearing his explanation, the chamber ordered an enquiry to be made with the view of ascertaining if other countries were offering similar inducements for the encouragement of competition with British manufacturers. Incidents of this kind cannot but lead to an irresistible demand for the protection of the interests of the home producer, nor is it easy to see how it can be refused.

MAKING LAWS TO SUIT ITSELF

Feverish Haste Being Displayed Revising Code to Retain Czar's Old Time Power.

St. Petersburg, April 23.—Instead of frankly accepting the verdict of the people, as evidenced by the result of the elections, and preparing to make every possible concession to parliament, the government seems to be deliberately entrenching all its threatened prerogatives with the prospect of giving battle. With terever haste a commission, consisting of the emperor and other dignitaries of the government, under the presidency of the emperor, is sitting daily at the palace revising the fundamental laws, which are beyond the competence of parliament, and working hard day in and day out to retain all the old laws, and to modify the fundamental laws, which are beyond the competence of parliament, and working hard day in and day out to retain all the old laws, and to modify the fundamental laws, which are beyond the competence of parliament.

PREMIER WHITNEY READY TO PASS NURSES' MEASURE

Nevertheless It Was Thought Desirable to Pass It Back to Special Committee.

Neither the premier nor Mr. Crawford, the introducer of the graduate nurses' bill, appear eager to take responsibility for either going ahead with it in committee or sending it back to special committee.

Mr. Whitney, after explaining that he had received a number of objections to certain provisions of the bill, but not to the bill itself, said he saw no reason why it should not pass, but suggested that Mr. Crawford say what should be done with it.

"I would rather the first minister had assumed the responsibility himself," said the latter bluntly. Mr. Whitney replied that if the bill passed in present form it would not be harmful, but explained that he thought some provisions should be changed when the bill went back to the special committee.

The committee will meet on Wednesday morning when the hospital association will be given a chance to state their objections.

Actions for Slander.

Mr. MacKay, in moving the second reading of his bill dealing with libel actions against newspapers, said that the present Ontario law was practically the same as that which had been repealed in Britain in 1888, following upon the premature publication by The London Times of an official police report charging a Swiss firm with extensive swindling.

Second readings were also given these bills: Respecting the Right of Arthur Blast Furnace Co. (Kennedy); to authorize Wm. J. Church to practice as a veterinary surgeon (Tucker); respecting certain sums of money in the hands of the accountant of the supreme court of judicature (Mr. Whitney).

Equitable Loan Assets.

Mr. Jamieson gave notice of an order for a return showing on what terms Equitable Loan Company assets were taken over by the Colonial Investment and Loan Company.

Four bills were read a third time: To amend the Act for the Improvement of Public Highways (Reaume); respecting the Ontario Agricultural Association (Montgomery); respecting the Ontario House of Refuge (Eliker).

Mr. MacKay's Pharmacy Act was further amended by a provision that the act shall not come into effect till Aug. 1, 1906.

Bills introduced.

Hon. Mr. Hoy introduced a bill to amend the Devolution of Estates Act.

Hon. Mr. Hanna introduced a bill to amend the Local Drainage Act.

In moving the second reading of his bill for raising money on the consolidation of the revenue fund of Ontario, Col. Matheson said in this loan, more than in the former, the province would have the assistance of the banks, because the money will be raised in Canada, it will be spent in Canada.

FRUIT FARM AT JORDAN.

Government Will Accept Land Offered by M. F. Rittenhouse.

Referring to a despatch in The Sunday World from Guelph, Hon. Nelson Montet said yesterday that an agreement would be entered into with M. F. St. Catharines, April 23.—(Special.)—The offer of M. F. Rittenhouse to donate to the Ontario government a farm in the vicinity of Jordan for experimental purposes has caused much comment throughout the district.

A Trade Mark which is Worth Millions

"I would not sell the Dolly Varden trade mark, which is registered in Canada and the United States, for a million dollars," said the president of the Dolly Varden Shoe Company, who was recently at the King Edward.

The trade mark is taken from the best story Charles Dickens ever wrote, and the engaging little heroine who carries the hearts of all, has a myriad of admirers, both masculine and feminine. She was the creator of feminine fashion. Whatever she wore became the vogue in London. Never fantastic or flashy in her attire, Dolly Varden always exhibited that good taste which marks the highest type of cultured gentleness.

In Canada and the United States the memory of saintly Dolly Varden will be kept green by this dainty shoe which is sold in Canada and the United States at the same price, \$4 and \$3.50.

NEW CIVIC DEPARTMENT MOOTED FOR GOOD ROADS

Sad Condition of Pavements Discussed by Council—Asphalt Plant Wanted.

There loomed up in the city council yesterday afternoon a proposition to establish another department, as the outcome of the wretched condition of the pavements throughout the city at the present time.

It is deemed advisable to establish a department to take charge of the roadways, after being handed over by the city engineer's department, with a view to keeping the same in proper repair, and in a cleanly condition, and also to take charge of the scavenger work through the city, and that a bylaw be introduced sanctioning the appointment of a person to supervise the work in connection therewith.

Want Asphalt Plant.

The suggestion stands as a notice of motion, but the matter was pretty fully discussed, and the proposal to purchase an asphalt plant, as recommended by the works committee, but turned down by the board of control, was not taken up.

Will Go to Ottawa.

Council authorized the board of control to make a fight for the city in connection with the proposed telegraph and telephone legislation at Ottawa, and the controllers will go to the Dominion house when the matter comes up.

Report of arrears of taxes brought before the board of control, and Mr. Noble and Mr. Hay, who want to know why the assessment on city property is so much lower than the price at which it is sold.

LIQUIDATION RESUMED

IN NEW YORK SECURITIES
Another Selling Wave Strikes Wall Street—Toronto Stocks Continue Dull and Heavy.

World Office, Monday Evening, April 23. The Toronto stock market lapsed into even greater dullness to-day, accompanied by easier prices, and the withdrawal of bids where possible liquidation threatened. Street information afforded no new clue to the market's condition. Traders were unaffected by the lowering of prices, and were a unit in believing that no immediate bull speculation was either possible or probable. Money was spoken of as a little tighter, but brokers had no new bids to arrange for under present conditions, and had, therefore, little direct information on this topic. The renewed weakness of Wall Street was responsible for lower prices in interested shares, and this had a sympathetic influence on other speculative issues. Toronto Railway was freely disposed of at Montreal, but few orders were placed to make a market price here, and outside bidding for the stock was practically nil. The prospect of a strike added to the general public here. The annual meeting of the Saco Lumber Company was held to-day. The statement presented showed earnings of 13 per cent. on the common stock, but this and more appears to have been expected, and there was no attempt to discount any improvement. An estimate of the losses of the Western and Union Pacific, Southern Pacific and other stocks affected by the calamity will be bought back. These stocks were sold on reports of great damage, which are believed to be greatly exaggerated. Reconstruction in California are regarded as a strong bull argument on Amalgamated and other copper, same as it is on steel. Copper metal sales fact field will sell about 20 cents on the increased demand from San Francisco, and trade conditions must send Amalgamated a good many points above this level. Thursday Jefferson M. Levy advised his personal friends to buy everything outside of the earthquake zone.

precedently prosperous; rich men will contribute millions for relief, and San Francisco will rise from ashes with rapidity that will astonish the world. The chances are, accident has played its part in the market, legitimate business, crop, earnings and state of general business may be expected to shape the course of prices during the next few weeks. Unabated confidence in good harvest winter wheat, rail-road earnings and bank clearings, speak for themselves. Political considerations pre- with the bears. High authorities agree that recent events raise estimates of the steel earnings for 1906. New business of rebuilding Frisco, and \$200,000,000 subways in New York, furnish enormous tonnage, but bulk of which the steel corporation will get. There is heavy accumulation of steel common stock by interests who will hold it for a while, and the dividend, Union Pacific, Southern Pacific and other stocks affected by the calamity will be bought back. These stocks were sold on reports of great damage, which are believed to be greatly exaggerated. Reconstruction in California are regarded as a strong bull argument on Amalgamated and other copper, same as it is on steel. San Paulo Report.

The annual statement of the Saco Lumber Company, presented yesterday, showed that the gross earnings aggregated \$1,908,406.73, an increase of \$680,972.29, or 34 per cent. over the previous year, while the increase in the operating expenses amounted to 40 per cent. net earnings for the year were \$1,228,434.56, or an increase of 31 per cent. over 1904. Dividends there have been declared and paid four quarterly dividends of 2 per cent. each, at the rate of 8 per cent. per annum aggregating \$2,000,000. Interest charges, \$275,846.86, and \$50,000 transferred to contingent account \$50,000, leaving an aggregate total distribution of \$925,441.55, leaving the sum of \$313,022.51 to be carried forward. The amount expended on capital account during the year amounted to \$24,974.98. The bylaw authorizing the directors to invest in other securities with the funds of the company was passed.

On Wall Street.

Marshall, Spader & Co., wired J. G. Beatty, King Edward Hotel, at the close of the market. The irregularity in foreign markets this morning, with a rather heavy tone, Americans, furnished the basis for an early selling movement here, and while pressure was not heavy, it was sufficient to depress the market in an almost entire absence of outside support. The advance secured since the low prices of Friday morning was nearly all lost in the most important issues, and the continued selling by those interests which had acted in support of the list was responsible for the decline. The near future of the market can hardly be developed on an advance of importance which could be fully sustained by the speculative public. We feel assured all emergencies will be intelligently handled, and we see no reason for a too serious view of final results, but there is nothing to suggest a buoyant market.

Ennis & Stoppard wired to J. M. Mitchell.

The market to-day has developed extreme weakness. London operations on balance are considered to be in a state of equilibrium. Quiet definite rumors of sales of steel common, and are to sell large quantities of the high-priced investment stocks, and the large capitalists are disposing of stocks to facilities expenditures at San Francisco. As we had anticipated, the increase in amount of funds accumulating here on call money holding steady. The continued withdrawal of gold from London is thought likely to result in a decline in the discount rate of the Bank of England, and the rate of interest on the part of the market. The situation does not warrant sales of investment holdings of stocks, but temporarily there will probably be considerable irregularity.

On good declines we think purchases will prove profitable.

Head & Co. to R. R. Bongard: New York, April 23.—The stock market to-day was only moderately better, but with a decidedly weak tone. The gloomy weather affected sentiment to a certain degree, but it was generally believed that there had been considerable realizing on the rally, which occurred late last week, and, in addition, liquidation for the account of various insurance companies was thought to be in progress. The report that the department of commerce has taken steps to proceed against the so-called Peruvian Trust, re-directed attention to the government's attitude against corporations, and the selling of Virginia-Carolina Chemical was a feature of the trading, which had an unsettling effect. Outside of this, there was nothing in the news developments to affect values. Money was comparatively easy, and the advices from San

Francisco indicated that the losses from the catastrophe were considerably less than the recent estimates. The feeling prevailed, however, that there was little chance for a sustained rise in values until the full financial effect of the losses could be determined. Some issues showed relative strength, notably Streets and Pacific Coast, both of which are expected to benefit from the rebuilding of San Francisco, but as a rule the market showed little rallying power, and, while nothing approaching demoralization was in evidence, there was no disposition to take an aggressive position on the long side. In the afternoon the selling pressure increased and prices slid rapidly, the exception of stop-loss orders accelerating the declines. The closing was weak and unsettled.

London Stocks.

London, April 23.—Money was in good demand in the market for the purpose of the firm. They were affected temporarily by the Russian loan, but a more important factor was the weakness of New York. The demand for gold shipment to New York was still keen and in the absence of supplies the market was very tight. Shippers were obliged to obtain the needed edges from the Bank of England. Consols were closed with an improvement. Home rails dropped, Americans opened irregular and mostly under the influence of the weakness of New York. Prices were slight and generally downward. Prices rallied somewhat; later reacted and closed down.

United States Steel had a better tone.

Foreigners were quiet on the Paris bourse, having been adversely affected by the strike in the north of France. Japanese Imperial 6's of 1904 were quoted at 10 1/2. YORK COUNTY AND SUBURBS JUSTICES OF THE PEACE MEET

Receive the Report of High Constable Ramsden—New Police-men Are Needed.

The Justices of the peace for the County of York met yesterday in the general sessions court room to transact the business for the year. Judge Winchester addressed them in regard to the duties of their position and the different difficulties they were likely to meet with during their term of office.

King Township Seeding. County Councillor Joe Rogers of Kettleby was in the city yesterday.

Visitors to the Horse Show will find that Score's high-grade tailoring grows in importance as each season comes round. If you were a visitor to our shop last year, we want you to call again, our handsome assortment of fine imported fabrics is better than ever.

SCORE'S, Tailors and Haberdashers, 77 King St. West.

Mr. Rogers states that little or no seedling has yet been done in King Township, but that a continuance of the present fine weather would serve to push the work along.

Toronto Junction. Toronto Junction, April 23.—The adjourned vestry meeting of St. John's Church was held this evening, with the pastor in the chair.

The 3-month-old son of Mr. David Smith, 433 West Dundas-street, died this morning.

The ladies' auxiliary of the Davenport Methodist Church held a pancake social to-night in the basement of the church.

The Baptist mission of Royce-avenue held a successful concert in St. James' Hall, Mr. Reed, the pastor, was in the chair.

W. H. Riches, 15 Dundas-street East, Toronto Junction, reports that his place of business was raided by the police on Dec. 23 last, when two bottles of beer, one quart bottle each of celery and black pepper wine, together with 10 empty beer bottles were found.

EMPIRE HOTEL. 236 Yonge-street, most modern and up-to-date hotel in Toronto.

Bracondale. A strong deputation of ratepayers of Albert-street will wait on York Township Council to push their claim for road improvement and sidewalks.

Ratepayers on Christie-street and Davenport-road would like to see a constable coming around occasionally to suppress hoodlums.

Hilcrest Public School opened up again yesterday. About 20 new pupils are enrolled.

A new room was opened, in charge of Miss Foster of Lindsay, with an attendance of 50 scholars. New families are moving into this district weekly.

The promotion examination of Hilcrest Public School resulted: From Junior fourth to senior fourth—M. Byers, J. Tulloch, M. McLean, B. Jackson, V. Meech, M. Gianville, E. McLean, H. Price, F. Frost, S. Sharpley, M. Lindsay, H. Austin, M. Silman, A. Bromley.

BILLS ARE NOT PRINTED SECOND READINGS BLOCKED

Government Game in Two Important Measures—Alcorn's Express Co. Act.

Ottawa, April 23.—(Special.)—Altho the bill introduced by Mr. Alcorn (Prince Edward County), respecting express companies, had its first reading on the 3rd inst., it has not been printed and distributed till this afternoon.

The government can effectually block the second reading of any bill by failing to print it. To-day W. F. Maclean (South York) called attention to the fact that neither this bill nor the bills introduced by Mr. Wilson (Lennox and Addington), respecting the salary grab, had as yet been printed.

After defining express companies and putting their tolls under the jurisdiction of the railway commission, the following important provisions are incorporated:

(1) All companies shall, according to their respective powers, afford to all persons and companies all reasonable and proper facilities for the receiving, forwarding and delivering of goods and traffic between their traffic route and the traffic route of any other express company, and no company shall make or refuse to make any such arrangement of preference or advantage to or in favor of, any particular person or company, or any particular description of traffic or route, or which interferes with any other express route, or which has any receiving or delivering office near to any other express company shall afford all due and reasonable facilities for delivery to such other express company, or for receiving from and forwarding by its express route all the traffic or goods arriving by such other express route with-out any unreasonable delay and without such preference or advantage, or prejudice or disadvantage, as aforesaid, and so that no obstruction is offered to the public desirous of using such route as a continuous line of traffic, and so that all reasonable accommodation, by means of the routes of the several companies, is at all times afforded to the public in that behalf, and any agreement made between any two or more companies contrary to this section shall be null and void.

Up to the Board. (2) The board may determine, as questions of fact, whether or not traffic or has been carried under substantially similar circumstances and conditions, and whether there has, in any case, been unjust discrimination or undue or unreasonable preference or advantage, or prejudice or disadvantage within the meaning of this act, or whether in any case the company has not complied with the provisions of this act and the last preceding section, and may by regulation declare what shall constitute substantially similar circumstances and conditions, or unjust or unreasonable preferences, advantages, prejudices or disadvantages, with-out the necessity of proof of non-compliance with the provisions of this act and the last preceding section.
