A WARNING TO PARENTS

The strangest things seem to happen in the United States. Life in the great republic, as mirrored in the daily press, is suggestive of opera bouffe. For example, at Columbus, Ind., a mother attempts to correct her 4-year-old son by a method sanctioned thru centuries of tradition.

What happens? No sooner had the avenging palm of the tender mother descended upon this young gentleman's anatomy, than he naturally enough "threw back his hand," so the reporter tells us, to defend himself. In his hand was a sharp pointed lead pencil, and the point dug into his mother's right arm (apparently she was not left-handed) "cutting a deep gash," and now "the physicians say that Mrs. Otto Lawless is in danger of blood poisoning."

Young America has set the pace and the old commandment is revised to read: "Parents obey your children." It is hard on us who had to obey our parents, and now have to obey our children. We get no chance to loase.

King Solomon had some strenuous views about sparing the rod and spoiling the child, but out of his one thousand wives he could easily risk a case or two of blood poisoning. In his day, perhaps, it did not exist. Now and here we have to be more careful. Do not spank an embryo reporter. He may have a pencil in his hand. In short, as John L. Sullivan once told his wife, when a young Sullivan was in jeopardy, "Do not strike below the belt."

THE FUTURE OF ROOSEVELT.

It seems unlikely that a man so old in the big affairs of the world as Theodore Roosevelt could pass into obscurity. There are many who believe that the necessities of the United States may recall him to power.

What motives sway the president in refusing a re-nomination? Is it because he shares a very general belief among his countrymen that a third term spells Mexicanization, the beginning of the end for the present republic? Is it because he fears that in spite of his popularity the third term cry might, in the end, overwhelm him, even though he accepted a nomination? Is it because he foresees, in the near future, a crisis which will summon him from retirement for the purpose of restoring order and re-drafting the whole machinery of government?

It is significant that he has never repudiated the idea of a third term as being in itself, abhorrent. He has steadfastly declined to accept it, personally, but he has not denounced the suggestion itself, as unpatriotic or reprehensible. How far he gauges the ingrained sentiment of his fellow-citizens upon this subject is uncertain, but it is unlikely that he really fears a defeat at the polls.

Mr. Roosevelt is not a lawyer; indeed, he is one of the few men ever elected president who was not a member of the legal profession, and it is no secret that he regards the elaborate system of checks and balances in the constitution of his country as a hindrance to reform and needed legisla-

tion. Possibly he would like to see some very radical changes towards centralization and would enjoy seeing the right man given a free hand in the government of the nation. He may foresee great changes and crises approaching and dream of great achievements in the near future, destined to leave lasting traces upon the pages of history, and in which he will play a very prominent part.

Few ex-presidents have yielded any great influence in the United States. Andrew Jackson is perhaps the only conspicuous exception. Mr. Roosevelt may yet find himself in the mood of Benjamin Harrison, who, responding to the query, "What shall we do with our ex-presidents?" suggested that the retiring executive might be de-capitalized when his term expired, as one of the pages contributing to the festivities of his successor's inauguration.

Meanwhile our neighbors look askance at suggestions from other countries that the third term tradition should be disregarded. No stronger argument could be found for the defenders of monarchy than for the people of the United States to confess themselves dependent upon any one man for the administration of their government. It is not likely that for some time to come they will cast any presidential favor able, either for the role of Diaz or the more attractive role of Napoleon.

THE HARVEST OF BLOOD.

A very eminent man, and one occupying a very eminent position in Canada, recently said:

The only agency that can put a stop to the terrible harvest of blood from railway travel is the press.

It certainly appears that the government is inefficient. Counterfeiters may be rounded up by active and organized effort on the part of the Dominion police. For some purposes the federal government seems able to enforce the federal law. But when railway corporations are guilty of crime or of negligence tantamount to crime, it is absolutely indifferent and inert.

We all have to travel, many of us constantly. We do so at the risk of life and limb. Were all forms of government abolished in Canada tomorrow, the slaughter of the innocents could not go on with more reckless or cynical indifference.

No railway company charter grants any power to kill passengers. It is simply a privilege that these companies have assumed and exercised apparently without objection. We have yet to arrive at that stage of civilization when a human life will be held as sacred as a five dollar bill.

A PRISONER'S PROTEST.

Mr. Schmitz of San Francisco has made a point that is worthy of some attention. Has a judge the moral right to lecture, reprimand and denounce the defendant in passing sentence upon him?

In the army, a "public reprimand" is a well-defined punishment; but it is not one of the penalties prescribed for an infraction of the criminal code. Has the judge a moral right, against the prisoner's protest, to denounce and rebuke him as a part of his punishment?

In ancient times, the presiding judge, attacked the defendant virulently in criminal cases, even before conviction. This practice has passed away, but after conviction judges are still found who

Point a moral and adorn a tale

at the expense of the unfortunate prisoner who probably is suffering enough already.

The judge who denounced the ex-mayor and the crowd in the courtroom who applauded, did not contribute to the calm administration of criminal justice, which should strike the offender with the silent precision of a trip-hammer, not with the hysterical staccato of an alarm-clock.

NEW YORK PUBLIC SERVICE COMMISSION.

Altho new brooms proverbially sweep clean and newly-constituted boards are apt to justify their appearance by great show of activity, some indication of the spirit and caliber of those who constitute them can be gleaned from their preliminary proceedings. On Monday the public-service commission for the district of the City of New York held its first public meeting. This is one of the two commissions called in existence by Governor Hughes' Public Utilities Act, and it is called on to exercise more extensive powers over the class of corporation than have ever before been entrusted to a United States board. At the meeting several resolutions of considerable importance were passed, and so far as these go they certainly certify that the commission is entering upon its duties with a keen sense of their responsible character. This was not unexpected, since the governor absolutely disregarded all political and party affinities in his nominations, and evidently relied on his own independent judgment regarding the capabilities and qualities of his nominees.

One of the resolutions passed requires all railway companies, steam, electric, subway, surface, and elevated, to supply by July 22 memoranda showing their

No coarseness in WINDSOR TABLE SALT.

Fine and pure as newly-fallen snow—so rich in delicious savour, once used, always used.

several systems of bookkeeping and finance. This information is no doubt wanted in view of the authority given the commissioners to compel such changes in these respects as they deem to be for the public benefit, and may, indeed, be followed by the establishment of a new and uniform system. The companies concerned must also furnish a complete record showing the movement of traffic, a schedule of all cars and trains in commission on the first day of this month, with the scheduled time of departure and arrival and other incidental statistics. An estimate is also asked of the number of cars expected to be in use on Sept. 1, with total seating capacity and for comparison a similar return as at the same date last year. This, the board has already indicated, is intended to assist it in ascertaining what improvement in the conditions of transportation can be secured with the facilities already in hand.

Another resolution passed calls for the organization of a bureau of inspection to test all gas and electric meters. Commissioner Mattie, who introduced it, said that the custom had been to inspect a very few meters out of each lot and pass upon the whole by testing the samples. The resolution calls for the inspection of every meter installed by any lighting company. Every old meter about which complaint is made will also be inspected and rejected or approved according to the findings.

Other committees were also appointed to investigate and report on specific railway conditions and the progress of railway construction. With regard to the lighting companies, it is also expected that one of the first labors of the commission will be the working out of a plan to simplify the intricate accounting systems of the lighting companies and to unify them. It is noticeable that the officials of these companies profess that a satisfactory system of accounting is earnestly desired by them, and declare that every assistance will be given for that purpose. The City commission merit close attention in Canada, especially as their result will show whether, and how far, efficient control of public utility corporations is possible.

ATTACK DETECTIVES.

Haywood Defence Say McParland Tried to Manufacture Evidence.

BOISE, Idaho, July 9.—The defence in the Steuenberg murder case today charged that Detective James McParland has been guilty of an attempt to manufacture testimony against Wm. D. Haywood, but was unsuccessful in getting the boards and details of the charge before the court and jury.

Alva A. Swain, a newspaper correspondent who represents the Pueblo Chieftain at Denver, was called to the stand and questioned as to a conversation he had with Detective McParland in Denver last fall.

It is claimed by the defence that McParland told Swain that he had a letter from Harry Orchard saying that when Haywood paid him for the Denver banks to stand at the door and saw them. It is said that Swain told McParland that he could not remember the incident, whereupon McParland impressed him with the importance of it as evidence and significance of it, and asked him to recall it and become a witness in the case.

Detective McParland denies that he ever suggested anything improper to Swain.

PEACHED ON PALS.

How the Dominion Police Got on Trail of Counterfeiters.

OTTAWA, July 9.—Col. Sherwood, commissioner of the Dominion police, says that he and on for two years they have been engaged in trying to discover the counterfeiters of \$5 bills of the Montreal, Dominion and Trades' Banks.

Burke of Lindsay has been under watch for some time. Only the arrest in Montreal gave them the clue to the Lindsay plan.

Chief Carpenter had arrested a flashy dressed young man, who peached.

POWER FOR PETERBORO.

Negotiations for Purchase of Present Plant Fall Thru.

PETERBORO, July 9.—(Special.)—The negotiations entered into some months ago by the city with the Peterboro Light & Power Co., for the purchase of the electric light business, have fallen thru.

The council have decided, therefore, to apply to the hydro-electric power commission to acquire water power privileges and construct the necessary works to supply cheap power.

PLEADED UNWRITTEN LAW.

LONDON, July 9.—A Canadian named Silas Ludlam, residing in Hounslow, pleaded the unwritten law when charged with assaulting a man named Tanner and damaging his house. Tanner denied using disparaging remarks concerning Miss Ludlam. The defendant, who behaved with great violence in court, was fined 15.

SIX DROWN.

BANGOR, Me., July 9.—By the capsizing of a pleasure boat in Penobscot Bay late to-day, six young men of Bangor were drowned.

Bishop McEvoy's Jubilee.

LONDON, Ont., July 9.—St. Peter's Cathedral was filled with a large congregation this morning, when high mass was celebrated by Bishop McEvoy of London, whose silver jubilee is being celebrated this week.

Time for Him.

P.C. McNeeney (114) was yesterday presented with a clock by the officers and men of No. 1 police station on the occasion of his recent marriage. Sergt. A. Allison made the presentation.

NEW JUDICIAL DISTRICT FOR RAINY RIVER SOUTH

One of the Requests Made to Government Party—Tour Brought to an End.

RAINY RIVER, July 9.—(Special.)—Another busy day was spent by Messrs. Cochrane and Reaume. Deputations came from the surrounding country, pressing claims for expenditures on road building, drainage and other back-country necessities; also, it was alleged, than Yankee saloon-keepers came into Rainy River, secured locations, and after clearing off the timber, left them. The people also ask that a new judicial district be erected for Rainy River south.

This locality is peaceful, with no talk of secession, but the settlers are in earnest for reforms.

This end of the campaign in Rainy River. To-morrow the ministers and their allies will be in Winnipeg, returning east by way of the C. P. R. and holdings meetings at Kenora, Owenowin, Oxbird and Fort William.

GIVEN A LIBRARY.

Peterboro Receives Fine Building From Mrs. Nicholls' Estate.

PETERBORO, July 9.—(Special.)—Richard Hall, executor, on behalf of the estate of the late Charlotte Nicholls, has handed over to the city a handsome three-story building, to be used for public library purposes. The building is worth \$20,000, and adjoins the Bank of Montreal premises.

The only stipulation is that the city put in the necessary fittings and guarantee future maintenance of the building.

TELEGRAPHERS' STRIKE MAY BE CALLED IN CHICAGO

CHICAGO, July 9.—The indications to-night are that the controversy between the commercial telegraph companies and their operators will be fought out in Chicago. President Small has in Canada, especially as their result will show whether, and how far, efficient control of public utility corporations is possible.

BITTEN BY SNAKE.

LONDON, July 9.—(Special.)—Geo. Flanagan, wholesale butcher, was stung by a snake last week while crossing his place in Westminster, and he now lies in a precarious condition at his home.

Pilgrimage to Shrine.

QUEBEC, July 9.—Fully 1500 pilgrims from the Diocese of Ottawa arrived in the city about 5 o'clock this evening en route for the Shrine of St. Anne de Beauport.

Ruby Steinfeld, aged 5, was killed by a car in Montreal yesterday.

Fishermen along the Canadian side of Lake Erie say that the season has been a poor one.

TRADE WITH AUSTRALIA.

Returns Show Imports From Canada Increased by \$350,000.

OTTAWA, July 9.—The department of trade and commerce has received a report from J. S. Larke and D. H. Ross, Canadian trade agents in Sydney and Melbourne, Australia, respectively.

This year's harvest in Australia will probably be below the average owing to the dry weather. Good prospects for developing a good wether trade with Australia are reported, provided Canadian firms will devote sufficient attention to the Australian market.

Canada's trade with Australia shows a satisfactory increase. Australian imports from Canada last year totalled \$208,751, an increase over the preceding year of over \$350,000. The increase was principally in textiles, drugs, apples, paper, spirits and vegetables. On the other hand, Canadian exports to Australia decreased in lumber, agricultural implements and fish. Canada's imports from Australia totalled last year \$74,558, an increase of about \$30,000 over the preceding year. The principal increases were in meats, butter, wool, tin and coconuts.

POWER LINE SURVEY.

Fourth Party Sent Out Over Projected Branch Line.

The hydro-electric power commission are sending out a fourth surveying party to go over the projected branch lines of the main transmission system in the case of Quebec. The first party is surveying the line from Toronto to Hamilton; the second from Toronto to Hamilton; the third from Hamilton to Toronto.

In the new offices of the commission in the Continental Life Building large space has been devoted to the drafting rooms and the staff of draftsmen has been doubled. They are preparing the plans and profiles of the survey as the details are sent in from the field, so that no time is lost in pushing forward the necessary work of preparation.

ROUGH TIME IN THE MOUNTAINS.

EDMONTON, Alta., July 9.—Collingwood Schreiber, C.E., consulting engineer, department of railways and canals, and party have returned from a long, arduous trip to the Yellowstone Pass, which is 220 miles north-west of Edmonton.

The party, which included Mr. Vanardel, C.E., Mr. Kitting, C.E., and Mr. Loftus, secretary for Mr. Schreiber, was accompanied by several guides and a pack train of thirty horses. The weather prevailing during the trip caused much discomfort to the travelers, who were not only exposed to many storms, but had to sleep on wet blankets much of the time.

Swollen rivers to ford on the way constituted another difficulty to be overcome.

Got Infernal Machine.

SCHENECTADY, N. Y., July 9.—A jury in county court this afternoon acquitted John Hallman, who was indicted for attempted murder.

He was alleged to have invented an infernal machine to Daniel Miller, said to have been his rival in love. Miller is now totally blind.

Russia Will Spend.

ST. PETERSBURG, July 9.—The council of ministers has authorized an annual expenditure of \$15,500,000 from 1908 to 1911 for the construction of new warships and their armaments.

FIVE MILE OPEN RACE.

Police A. A. Will Have Additional Feature at Games at the Island.

The Toronto Police Amateur Athletic Association met yesterday and decided to have a five-mile open race, the first man to receive a \$5 gold medal, the second a \$15 silver medal and the third a \$10 bronze medal. A medal will also be given to the policeman winning the championship.

The team to represent Toronto at Montreal July 12 will be: P.C. Latremouille, P.C. McLarty and P.C. Holmes, with Sergt. McFarlane in charge. The team for Ottawa, July 30, will be: P.C. Latremouille, P.C. McLarty, acting Detective McArthur, with Inspector Dixon in charge. The team for Hamilton was not selected.

NOT CONFIRMED.

No Certainty That All-Red Scheme Has Been Abandoned.

(Canadian Associated Press Cable.) LONDON, July 9.—There is apparently no confirmation at present to be obtained of The Daily Graphic's statement, that the cabinet has decided to abandon the scheme for the all-red route as impracticable.

TO-DAY IN TORONTO.

ANOTHER ARREST.

NEW YORK, July 9.—Late to-day the police arrested Harry Kirkstein, a telegraph operator, 22 years old, on a charge of acting with Mrs. Laura Carter in receiving and disposing of \$5000 stolen from the Windsor Trust Co. by Chester B. Runyan.

The Balm Beach Juniors of the East Toronto League would like to arrange a game for Aug. 1 with some team outside of British North America. Write R. G. Ross, Balm Beach P.O.

WHO IS THIS MAN? His Body Was Found Yesterday in Grenadier Pond, With the Throat Cut.

BANK CLERK GIVES UP. Absconded From Canada With \$6500 Worried Ever Since.

LONDON, July 9.—(C.A.P.)—James Stewart Cather, bank clerk, has been remanded on a charge of absconding with \$6500 belonging to the Bank of British North America. He surrendered on Monday, telling the detectives he was sorry he left Canada, as he has been worried ever since.

TOO MUCH MONOPOLY.

OTTAWA, July 9.—Hon. Mr. Templeman, acting minister of marine, denies the charge of the Marconi Company that the contract rights of that company with the government are being violated or infringed. The government is not willing to admit the monopoly claimed.

Got Infernal Machine. SCHENECTADY, N. Y., July 9.—A jury in county court this afternoon acquitted John Hallman, who was indicted for attempted murder.

He was alleged to have invented an infernal machine to Daniel Miller, said to have been his rival in love. Miller is now totally blind.

Russia Will Spend. ST. PETERSBURG, July 9.—The council of ministers has authorized an annual expenditure of \$15,500,000 from 1908 to 1911 for the construction of new warships and their armaments.

Continuing the Early Closing program the store will close each Saturday of July and August at 1 p. m.

DO YOU WANT A TENNIS SUIT ?

Because a man wears a tennis suit or tennis trousers it doesn't follow that he plays tennis. It means that he wants to be cool and look cool.

We mention a Suit and Trousers to-day, and we want to emphasize two things

1st—The quality, style and workmanship all through;

2nd—The unbeatable value.

Will you come in and make us prove both statements? If you do you'll buy.

The Suit—Fine Cream Serge, with silk stripe seams bound with satin. Satin saddle on shoulder. Size 36 to 42. The price 12.50 The Trousers—Cream Flannel, plain or with stripe. Belt, loops and cuff. Sizes 31 to 40. Two prices \$3.50 or \$4.00

MAIN FLOOR—QUEEN ST. THE T. EATON CO. LIMITED

Nothing So Healthful and Satisfying in Summer as

ROBLIN PROTESTS. Against G. T. P. Line Passing Thru M. A. C. Grounds.

WINNIPEG, July 9.—(Special.)—At the session of the railway commission, which opened this morning, Premier Roblin took the stand and protested vigorously against the Grand Trunk Pacific line passing thru the Agricultural College grounds.

He claimed that it would be detrimental in every way to that institution. This afternoon the commission visited, with the premier, the college grounds.

Your doctor will tell you that fresh air and good food are the real cures for consumption. But often the cough is very hard. Hence, we suggest that you ask your doctor about Aver's Cherry Pectoral. We publish the formulae J. C. Ayer & Co. of all our preparations. Lowell, Mass.

N.B.—No samples of these, but mail orders left to our judgment will be liberally dealt with.

JOHN CATTO & SON King-street—Opposite Postoffice, TORONTO.

BODY WITH THROAT CUT IN THE GRENADIER POND

Identity of Man is Not Known, Nor Are the Causes Leading to His Death.

With a gash in his throat, the body of a robust man, about 65 years of age, was found in the wash along the lakeshore, opposite Grenadier Pond, early yesterday morning.

The police were notified by phone and P. C. Stimmions was sent to the spot, where he lifted the body from the water.

No marks of identification of any kind were found either upon the clothing or among the few poor personal effects which were found upon the body. These were a worn old shaving brush, a piece of soap and a shaving mug.

In the trousers, which were of dark, striped tweed, was found an old knife, which was razor sharp. His shirt was of black serge and his shoes low tops.

Nothing that would indicate how the man had come to the spot in the condition in which he was found, has been discovered by the police or detectives.

The post-mortem examination of the body, to be made for the inquest which coroner M. A. Crawford will open at the morgue at 8 o'clock to-night, will show whether the man was drowned, when at present appears unlikely, or died from the effect of the gash in his throat.

The body did not appear to have been in the water more than an hour, and was not at all decomposed.

Jas. Kerr Hardie, M.P., will address the Canadian Club in September.

COOK'S CATHOLIC COMPOUND. The great "Cure" for the "Tonic" and "Regulator" which women can depend on for strength. 1/2 lb. \$1. 1 lb. \$2. 10 days strength, \$3. For special case, see box. Sold by all druggists, or sent direct on receipt of price. Free pamphlet. Address: THE COOK MEDICINE CO., TORONTO, ONT. (Formerly T. P. Walker).

THE WEATHER

Meteorological Office, Toronto, July 9 (p.m.)—Showers and thunderstorms have been prevalent to-day in Eastern Ontario and the Maritime Provinces, while in other parts of the Dominion the weather has been fine. Extreme heat prevails in the interior of British Columbia and the weather is fairly warm throughout the western provinces and Ontario.

Minimum and maximum temperatures: Atlin, 44-56; Victoria, 54-74; Vancouver, 64-76; Kamloops, 52-62; Calgary, 44-76; Edmonton, 46-76; Port Arthur, 42-76; Winnipeg, 56-76; Toronto, 66-82; Ottawa, 66-76; Montreal, 52-72; Quebec, 62-70; St. John, 54-62; Halifax, 54-70.

Probabilities. Lakes, Georgian Bay, Ottawa, St. Lawrence.—Westerly to northwesterly winds; fine, stationary or a little lower temperature.

Lakes, Georgian Bay, Ottawa, St. Lawrence.—Westerly to northerly winds; fine; stationary or a little lower temperature.

Maritime.—Westerly winds; mostly fine and warmer in western portion; showery in Cape Breton and the island.

Superior.—Light to moderate variable winds; fine and warm.

Manitoba, Saskatchewan and Alberta.—Fine and warm.

NAB COUNTERFEITERS IN THREE LOCALITIES

Arrests Were Made at Lindsay, the Soo and in Montreal.

LONDON, July 9.—(Special.)—No further arrests have been made here by the late hour to-night as a result of the arrest of Charles Burke here and E. Wynn and A. Bryson at Sault Ste. Marie on charges of circulating counterfeit notes of the Montreal, Dominion and Traders banks.

Detectives Parkinson and Cowan of Toronto are still here, however, and several citizens are under surveillance.

At Montreal a large number of counterfeit notes of the Montreal, Dominion and Traders banks, and a young Englishman named Eweley was taken in by the police, but his name was not given.

At the Soo a man, whose name was not given, was arrested at his home on Monday, is supposed to be the man behind the counterfeit money.

FRUIT CROP PROSPECTS

BERRIES WILL BE SHORT

Plums and Cherries Have Suffered.

OTTAWA, July 9.—(Special.)—The Dominion fruit crop just reported gives the yield prospects for the year, of which the following is a summary: June weather favorable on the whole.

Effects of May frosts now apparent, but tree fruits have not suffered much, except plums and cherries.

Prospects for apples encouraging. Pear crop a medium to full yield.

General outlook for plums hopeful, but plums and cherries are expected to be short.

British Columbia and Prince Edward Island crops will suffer.

Cherries a fair crop. Sweet variety very light.

Grapes making good growth everywhere.

The lateness of the season has dislocated the small fruit trade most seriously. Reports indicate: Strawberries: A very short crop.

Raspberries: General outlook a light crop.

Currants, especially, red, yielding well where bushes are protected from worms. There is less risk in growing the currant than any other of the small fruits.

Gooseberries: A medium to full crop.

Blackberries: A medium crop. The late spring has very seriously reduced the aggregate of tomatoes.

One correspondent reports the loss of 500,000 plants.

APPLE CROP IN STATES.

NEW YORK, July 9.—It is claimed that there will be practically no apples at all in Missouri, Kansas and Indiana, but very few in Virginia, and only a small yield in the other States.

The Oregon crop will be about half the average, but never a competitor with eastern fruit. Michigan will have about 15 per cent. of an average yield, while it is expected that Western New York will have in the neighborhood of 80 to 90 per cent. of an average output.

Already the buyers are driving through Western New York making offers for the output. The prevailing price to-day is \$3 for the fruit as it comes from the trees, but very few sales have been made at this price. Larger growers are holding off for \$4 and upwards.

READING DEPOSITIONS.

Proceedings in Haywood Trial Are Devoid of Sensation.

BOISE, July 9.—There were few spectators in the courtroom when the trial was resumed to-day. The day began with the testimony of J. W. Reilly, who lived near the Bradley apartments.

Reilly declared that he saw several men in the apartment-house but a few minutes before the explosion, and saw a Japanese servant cleaning the stoop and vestibule. He does not believe there was within the range of possibility for anyone to have placed a bomb there in the manner of the explosion.

The next deposition taken up was that of Mrs. Charles Fildes, who, as Mrs. Crow, had been employed by the Bradleys as cook. She told of having smelled gas in the house for several days prior to the explosion and had called up the Gas Company to complain of it.

Mrs. Crow denied absolutely that she had gone to the theatre with Orchard, as he had testified.

Haywood is expected to be called on Thursday.

ENGINE TURNED OVER.

T. & N. O. Engineer, Thos. Gould, Killed When Track Sinks.

COBALT, July 9.—(Special.)—Between Englehart and Earleton, on the northern extension of the T. & N. O. Railway, there are several stretches of muck, which have given great trouble to the railway.

As a result of the heavy rains, a "portion" of track sank this morning, when a pulp wood train was going over it. The engine turned completely over, and the engineer, Thomas Gould, was buried under his engine.

The deceased was a popular resident of New Liskeard, and leaves a wife and two children and a sister there. Traffic was delayed several hours.

EDUCATIONISTS MEET TO-DAY

Dominion Association Will Be Formally Welcomed to City To-Night.

The Dominion Education Commission will convene in the University of Toronto to-day. About 500 delegates are expected, representing Canada, from the Atlantic to the Pacific.

The delegation from Vancouver has brought along an earnest invitation from the city and provincial authorities that the next meeting be held there.

As an encouragement \$1000 is being offered to defray expenses of the association for that time.

This afternoon the various sections will meet and organize for the session. To-night in the convocation hall, Hon. Dr. Pyne and Principal Falconer will extend greetings to the delegates.

McIntyre will read an address on "The Needs of the Nation."

Some very interesting addresses will be delivered during the progress of the convention.

Customs traffic are complicated. Friction wastes energy. Bring your entries to us. Ordinary entries 50c. Maurice G. Thompson, Customs Broker, 60 Yonge-street.

INCREASE IN CAPITAL.

LONDON, July 9.—The North of Scotland Canadian Mortgage Co. has increased its capital \$250,000.

HIS FISH HORRIBLY BURNT

His druggist sold him a cheap acid corn cure. What he should have bought was Putnam's Corn Extractor. It's purely vegetable and acts in 24 hours. Insist on "Putnam's" only.

Hine & Co. are the holders of the oldest vintage brandies in Cognac. D. O. ROBLIN, of Toronto, Sole Canadian Agent. For sale by all reliable dealers.

EVERYBODY IS WORKING NOW

(Continued From Page 1.)

collection of coupons for the selected candidates is carried on with methodical regularity, which promises to establish lasting habits of order and routine. Others find it a vastly exciting game, one which beats the athletic field hollow, since all can partake, and the exertion adds nothing to the temperature, while the glory of having a champion among the champion eleven bound for London eclipses all the league combinations.

A few thoughts as to the candidates themselves: There is a prevalent impression among the public at large that the present leaders are the most likely to be finally successful in landing the eleven prizes.

That this impression may be erroneous is suggested by the fact that Miss Mabel Hodgson, in one week, jumped from ninth to first place, and has a lead of more than one hundred thousand votes.

Close behind Miss Hodgson, and confident of leading the field at the finish, is Miss Lizzie McGregor, the Robert Simpson representative. Miss McGregor has an army of supporters, and it is claimed by her friends that when the final test comes she will hold the premier position. From the very beginning, Miss McGregor has never been in worse than second place.

Step by step, and week by week, Miss Florence L. Stevenson, the Labor Temple representative, has climbed from ninth to third place, and, by a large portion of the public, Miss Stevenson is looked upon as the most dangerous candidate in the contest, and the most likely to attain the premier position. She is the avowed representative of the labor element of the City of Toronto, and will undoubtedly poll an enormous vote during the last few days of the contest.

Miss M. E. Virtue, who now holds fourth place, as the representative of the C.O.O.F., is being ably supported by the friends of the order, and it is said that a large number of the civic officials of the city will come to her assistance, if it is necessary.

Miss Ida Vandemark, cashier of Williams' Cafe, has, with the possible exception of Miss McGregor, made the most consistent effort of any of the candidates in district No. 1. She has never stood lower than fifth, and to-day is regarded by many as being the most likely to make a strenuous bid for first place at the end.

Miss Eleanor E. Skene, Miss Ethel Vogan, Mrs. H.E. Hurd and Miss Rhoda Gardiner are within halting distance of first place, and are apt to break up the present standing at any time.

Miss Rhoda Gardiner, the T. Eaton Co. representative, is undoubtedly the unknown quantity of the contest. It is common rumor upon all sides that she will sweep by the entire field in the last few days, but the present leaders have such a handicap over her that it is a question whether such a feat is possible.

Hamilton is being treated with a spectacular race between Miss Minnie E. Corner and Miss Olive Board. For the past few weeks they have been separated only by a few votes, and to-day all of Hamilton is interested in the final outcome of the contest. In Hamilton, too, there is an unknown quantity, in the entry of Miss Maud Smith, who, it is said, is reserving her vote until the last week.

With the exception of one week, Miss Allip of Whitley has held the undisputed lead in district No. 3. Since the beginning of the contest, the entire population of Whitley has been worked up to an intense pitch of excitement over the outcome.

Miss Victoria Patte, Brantford, has gradually moved up from tenth to second place, and will force Miss Allin to the limit to hold the premier position during the coming week.

The race in the country is very close, and the rivalry very keen. The cities with representatives in the contest are very jealous of one another, and during the last few days of the contest will call forth the greatest enthusiasm.

But who shall take it upon himself to prophesy the result of tomorrow's work?

U.S. CAN GO TO WAR AND YET MAKE MONEY

Still, a Fight is Not Wanted—A Semi-Official Paris Opinion.

DES MOINES, Ia., July 9.—Neither Japan nor the United States want a war at this time," said Congressman J. A. T. Hull to-day. Mr. Hull is chairman of the house committee on military affairs.

"There is a big element in Japan who would welcome war, but the ruling classes are too wise to pick a quarrel with the United States.

"If there is war we will at first lose the Philippines and the Hawaiian Islands, but we would triumph in the end, for the United States would build up a navy that would be invincible."

Off for Hawaii. NEW YORK, July 9.—According to a Washington dispatch, Secretary of the Navy Metcalf will sail for the Hawaiian Islands about July 26, to inspect the naval base and fortification there, with a view to making recommendations to the President regarding the Hawaiian Islands.

Secretary of Commerce Straus will sail on the same steamer to look into the immigration system in the Hawaiian Islands and enquire into the reports that Japanese are flocking to the islands.

Secretary Metcalf goes to assist President Roosevelt in persuading congress to provide for a larger navy, strongly to fortify the Philippines and Hawaii and strengthen the fortifications on the Atlantic and Pacific coasts.

A Good Omen. PARIS, July 9.—The French government greatly depreciates the alarmist view of the Japanese-American situation taken by a section of the Paris press and an inspired statement based presumably on the foreign office's advice, placing the most optimistic construction upon the plans to despatch the American battleship fleet to the Pacific, was given out this afternoon as follows:

"Much surprise is manifested in diplomatic circles over the excitement caused by the plan to send the American battleship fleet to Pacific waters. Instead of the alarmist statement, there is reason to believe the decision of the American government implies that the negotiations proceeding between the Washington and Tokyo cabinets are making favorable progress. The American government beyond doubt would not order the naval movement if it was likely to embarrass the negotiations which have been going on for some time between the two governments."

No Danger to Japan. TOKYO, July 9.—The Ashida publishes an intimation with an individual Japanese naval expert, who says: "It would be improper to infer a

warships and fight out a victory. We are the only nation which can conduct a war and get rich at the same time."

Still, a Fight is Not Wanted—A Semi-Official Paris Opinion.

DES MOINES, Ia., July 9.—Neither Japan nor the United States want a war at this time," said Congressman J. A. T. Hull to-day. Mr. Hull is chairman of the house committee on military affairs.

"There is a big element in Japan who would welcome war, but the ruling classes are too wise to pick a quarrel with the United States.

"If there is war we will at first lose the Philippines and the Hawaiian Islands, but we would triumph in the end, for the United States would build up a navy that would be invincible."

Off for Hawaii. NEW YORK, July 9.—According to a Washington dispatch, Secretary of the Navy Metcalf will sail for the Hawaiian Islands about July 26, to inspect the naval base and fortification there, with a view to making recommendations to the President regarding the Hawaiian Islands.

Secretary of Commerce Straus will sail on the same steamer to look into the immigration system in the Hawaiian Islands and enquire into the reports that Japanese are flocking to the islands.

Secretary Metcalf goes to assist President Roosevelt in persuading congress to provide for a larger navy, strongly to fortify the Philippines and Hawaii and strengthen the fortifications on the Atlantic and Pacific coasts.

SUBURBAN LIFE CHEAPER RADIALS NEEDED EAST

Pickering Village Has Cheap Houses and Picturesqueness —Manager Moore Talks.

PICKERING, July 9.—(Special).—The Village of Pickering, situated 22 miles east of Toronto, is a pleasant and cheap place in which to live. One of the prettiest spots on the Kingston-road has here a population of about 800 people.

Living here is well supplied by the obliging merchants of the town at a cheap rate. House rent is low, a good house being secured for \$5 per month. Railway fares, taking advantage of the Rosebank commuted fares, 55 trips for \$8.60—it makes the total journey per month of 25 days cost \$13. Add to this the house rent of \$5 and you get an expense of \$18.10.

Radial Railways. The people of this place are looking for the advantage of a radial railway line which is at present at Highland Creek, eight miles westward. This line has just commenced to run its road across the Grand Trunk line at the Scarborough crossing.

However, residents along the line of the main line are in a state of opposition and many new houses are going up at the terminus of the line. It is the opinion of all here that the terminal station should be located at the village.

HARD TASK FOR FIREMEN But They Kept the Damage Down to the Fine Point.

The loss occasioned by yesterday morning's fire at the P. D. Dods Company's paint warehouse, 145 Church-street, is estimated at something over \$100, including damage to building, \$460 loss to the household goods of Mrs. Sims, who occupied the upper floors, and \$500 loss to the N. T. Lyon Company.

The cause of the fire is a mystery. The stock of oils, paints, benzine, turpentine, etc., made a furious blaze, and the firemen had a tough job. Explosions caused waves of flame to surge back on the men, but each time they fought their way back, and in an hour's time the fire was under control.

Are Guaranteed to Cure Rheumatism and Neuralgia, also Female Disorders arising from Uric Acid. The Electro-Chemical Ring is not an ignorant charm or faith cure, but a scientific medium for the stimulation of uric acid from the blood.

What's YOURS? JAMES WATSON'S SCOTCH WHISKY. THE WHISKY OF QUALITY. MCGAW & RUSSELL, Agents, TORONTO.

Living here is well supplied by the obliging merchants of the town at a cheap rate. House rent is low, a good house being secured for \$5 per month. Railway fares, taking advantage of the Rosebank commuted fares, 55 trips for \$8.60—it makes the total journey per month of 25 days cost \$13.

TRUST?—FAR FROM IT THEY'RE BITTER ENEMIES

President of Postal Says There's No Agreement With the Western Union.

NEW YORK, July 9.—Clarence Mackay, president of the Postal-Telegraph-Cable Company, declared today that "all this talk about the Western Union-Telegraph and the Postal-Telegraph-Cable companies working in harmony is nonsense."

Mr. Mackay said: "We are litigating with the Western Union all over the country in regard to railroad rights of way. In fact, the tremendous fight between the Pennsylvania Railroad and the Western Union was due solely to the fact that we got that business away from the Western Union."

PUBLIC OWNERSHIP IN BRITAIN Leeds Visitor Tells of Its Success in That City.

Arthur Booth, a prominent manufacturer of Leeds, England, is visiting in Toronto. He is an enthusiastic advocate of municipal ownership, which, he says, is now universally adopted in Great Britain.

WILL HOLD DAIRY SHOW. Plans Are Broadened and Big Affair Is Projected.

At a meeting of the local committee interested in the proposed National Dairy Show, held in the city hall yesterday, it was decided to insure the holding of the show in Toronto, if possible, it will be held next January, but if it is found to be impractical, then arrangements will be made to hold it on a much larger scale in Toronto during the winter of 1908-9.

It is probable that a mass meeting of the breeders of dairy cattle, members of the local committee and the exhibitors at the Toronto Industrial Exhibition will be held in September to make the necessary arrangements. It is proposed to invite the Dominion department of agriculture to take an active interest in the show, and arrange for exhibits from the other leading dairy countries of the world, as well as from the province of Ontario.

COASTLINE PROBLEM. Will Be Discussed by Board of Trade and Board of Control.

At 11 o'clock this morning the representatives of the Toronto Board of Trade and the board of control will hold a conference to discuss the reports of their respective engineers regarding the pier and water front improvements.

The attention of the city engineer will be called to the dangerous condition of the sidewalk along the water's edge at the foot of York-street. The supports have been washed away, and there is no railing to prevent pedestrians from falling into the 4 feet deep water which has crept up under the sidewalk.

ELOPES WITH PAINTER. Fourteen-Year-Old Girl Leaves Home and Cannot Be Found.

MONCTON, N. B., July 9.—(Special).—Etta Ramsey, 14, run away from her home Friday with John McLeod, a painter, aged 50, and has not been located. The Ramseys are a prominent family and the girl is good-looking.

LAYS \$1000 EGG. Rhea, in Central Park Zoo, Makes a Unique Record.

NEW YORK, July 9.—Like the bird in Grimm's Fairy Tales, the rhea, a species of the ostrich family, laid a huge \$1000 golden egg in its enclosure in the Bronx Zoo. It is the first of its kind ever laid in this country, and it now rests in the incubator at the Zoo, watched by a score of attendants.

SENSATIONAL ALLEGATIONS HAVE BEEN STRUCK OUT.

NEW YORK, July 9.—The most sensational allegations in the suit of Katherine Clemens Gould for a separation from Howard Gould were struck out of the complaint today by order of Supreme Court Justice McCall.

Penalty for Defrauding Government.

BALTIMORE, Md., July 9.—A sentence of two years in jail and a fine of \$10,000 were today imposed upon John H. Seward of the fruit importing firm of J. H. Seward & Co. of this city. He defrauded the government by increasing the weight of decayed fruit on which there was a refund of duty of one cent a pound.

CARS MUST KEEP GOING IN SPITE OF PARADES

General Manager Fleming Issues a Decisive Order to His Employees.

"It must be distinctly understood, both by the motormen and conductors that it is their duty to keep their cars in operation and on schedule time regardless of any procession or parade which may happen to be upon the streets, no matter what the nature of it may be."

The above is an extract from a long order issued by Manager Fleming to employees of the street railway, probably in view of Friday's Orange demonstration. The employees are also instructed, in event of obstruction being offered, in anyone in connection with the parade or procession, to secure the names of such persons and witnesses and make a full report to the office.

ROCKED BOAT; FOUR DROWN. Dreadful Fatality in Hudson River Due to Foolish Trick.

NEW YORK, July 9.—Three members of the crew of the steam yacht Yacona, belonging to Henry Clay Pierce of St. Louis, were drowned in the Hudson River early today, when a small yawl, carrying six of the Yacona's crew and a dockman, was capsized by a sailor who rocked the boat.

WIFE OF POLICE CHIEF IS COMMITTED TO JAIL.

WINDSOR, July 9.—Mrs. Maxim Laporte, wife of the chief of police of Amherstburg, was fined a short time ago for committing an assault, and defied her husband to arrest her. She ventured to visit Windsor, and was nabbed by two officers. She was committed to Sandwich jail to serve her term, as she refused to pay her fine.

FREE UNTIL CURED.

Not a penny on deposit or in advance. I will take your word for results, and only charge price of belt—many cases low as \$5. My wonderful success has brought forth many imitations of my belt, but my valuable experience to advise and guide my patients cannot be imitated. It and my belt will be had free until a cure is effected, but only at address as below. Call and get one today, or write. I also send two best books ever written upon health and strength of men. Free, sealed, by mail.

M'BRIDE NOT CERTAIN AS TO FUTURE CAREER

Doesn't Say Positively That He Won't Break Into Federal Politics.

Hon. Richard McBride, the brilliant young premier of British Columbia, arrived from Ottawa yesterday morning and left at noon for the Pacific coast. He is not inclined to credit the despatches from London announcing that Sir Wilfrid Laurier may persuade the government to restore the words "final and unalterable" in the amendment to the B. N. A. Act, respecting provincial subsidies.

"I have every assurance," he said, "that the bill will stand as modified by the government at our request. Minister Churchill stated this positively on the floor of the house."

"What was your impression of Winston Churchill?" "He is a man of most remarkable ability, a far more able man than many of us appreciate, and he is growing and developing every day. By the way, he is to visit Canada next year."

THE NEW FRENCH REMEDY. THERAPION.

This successful and highly popular remedy, used in the Continental Hospitals by Brocq, Monod, Albert, Velpeau and others, is the only one to be sought in a medicine of the kind, and is superior to all other remedies.

THERAPION No. 1. In a remarkably short time, over a few days, it removes all discharges, suppurating ulcers, the use of which does irreparable harm by laying the foundation of stricture and other diseases.

THERAPION No. 2. For impurity of blood, scurvy, pimples, spots, butches, pains and swelling of joints, secondary symptoms, gonorrhoea, rheumatism, etc., it has been too much a fashion to employ mercury, arsenic, etc., to the detriment of the patient's health and ruin of his life.

THERAPION No. 3. For exhaustion, sleeplessness, impaired vitality, all distressing consequences of dissipation, nervous prostration, etc., it has been too much a fashion to employ arsenic, iron, etc., to the detriment of the patient's health and ruin of his life.

FREE UNTIL CURED.

NEW YORK STOCKS WEAKER REACTION GOES FURTHER

Locally Market Was Dull—General Electric Recovers Ground After Early Slump.

World Office, Tuesday Evening, July 9. A sharp decline in the New York market was the distinctive feature of the day's trading. The general tone was pessimistic, and the reaction went further.

The bull movement in New York appears to have spent itself, temporarily at least. Conditions have been discoloring, and the general tone is pessimistic.

A further slump in U.P. is called, the selling of 4000 shares by J. M. Fiske and 2000 by E. C. Randolph indicating expectation of a continued bear.

A Minneapolis dispatch says that the presence of the destructive grasshopper in the Minnesota wheat fields has been certified by the government entomological department.

Bankers gained ground from the sub-treasury since Friday. Joseph says: "Steel shares will act well. Market broadening and absorbing profit-taking sales very well."

Market broadening and absorbing profit-taking sales very well. Good demand for stocks in load crowd. Thirty-three roads for fourth week show average gross increase 19.61 per cent.

Total gold exported and engaged now amounts to \$22,500,000. Advice from Boston says it looks as tho the deadlock between producers and consumers of cotton has been broken, and that increased sales of copper are expected.

New York Central gross receipts for June increased \$1,034,615. Charles Head & Co. wired R. B. Bondard at the close.

The effect that President Roosevelt intended to govern the business corporations thru threat of reorganization had effect and prices soon settled away to the extent of a point or two, developing a dullness on the decline.

It would appear that the reaction to government deposits the banks will be at low water mark for the present and should begin to ebb rather rapidly.

Important news includes the agreement between copper producers and consumers that should begin to ebb rather rapidly. It is remonstrative to the sellers. It is claimed that the government will tomorrow issue its new plan regarding industrial and other trust combinations.

This is said to include a federal receiver for such properties pending dissolution. It is also understood that the government report in the Hartman case has been completed and will be made public in the near future.

The various revelations and opinions pointing to a general business reaction are somewhat disconcerting, but the supply of build capital in this country is inadequate, and unless some reaction materializes Wall Street will not be in funds for a long time to come.

Edward Sweet & Co. to J. Lorne Campbell. From outward appearances New York banks never have been in a worse condition at this time than the year since the panic of 1893. While \$3,000,000 or more has been collected by the sub-treasury thru bond redemption, New York's share of public money that has been called for to tomorrow is estimated at \$12,000,000. Besides this the extra-

Combined Goldfields (LIMITED)

(INCORPORATED UNDER ONTARIO COMPANIES' ACT.) AUTHORIZED CAPITALIZATION, \$3,000,000.00

Divided into 3,000,000 Shares of \$1.00 each. Par value of Shares \$1.00 each. Fully Paid and Non-Assessable.

OFFICERS: GEO. STEVENSON, President; PROF. JOHN SHARP, Vice-Pres. and Gen. Manager; W. C. SHARP, Secretary-Treasurer.

DIRECTORS: GEO. STEVENSON, Prof. John Sharp, W. C. Sharp, J. A. Fitzpatrick, J. S. Hales, P. J. Whitney, J. W. C. Cameron.

BANKERS: Union Bank of Canada, Toronto and New Liskeard, Ont.

SOLICITORS: Messrs. Mills, Roney, Hales & Colquhoun, Toronto, Ont.

Head Office—TORONTO, ONT.

The properties of the Company consist of twenty-one Forty-acre claims in the Larder Lake District (total, 840 Acres), situated between the southwest and southeast arms of Larder Lake.

The title of all properties is vested in the Company, absolutely free from all incumbrance.

The properties are recorded under the following numbers: 2578, 2591, 2592, 2686, 2715, 2716, 2717, 2718, 2719, 2720, 2923, 2924, 2925, 3042, 3043, 3044, 3609, 2929, 2930, 2931, 2932.

To the President and Directors of Combined Goldfields, Limited: Gentlemen—I beg herewith to submit my first report on the work carried on for you on our Larder Lake properties.

On May 24th I engaged a foreman and on the following day a cook at \$3 per day, a blacksmith at \$2.75 per day, and three laborers at \$2.50 per day each.

With this gang I left New Liskeard for Larder Lake on May 27th, taking an outfit of provisions, tents, bedding and tools with us.

So far development work has been done mainly on the following claims: Nos. 2,578, 2,591, 2,716, 2,717 and 3,042.

The work so far done on No. 2,578 has been stripping the surface of a body of staurolite rock, which is shot through by several fine veins of quartz, each from eight to twelve inches wide.

On Claim No. 2,591—About 2,000 square feet of rock has been stripped. The formation here is a heavy quartzite, shot through with veins of quartz, and at one point a large vein of quartz four or five feet wide colored green by green talc.

On Claim No. 2,716 a vein of quartz heavily mineralized with iron pyrite has been located, and on to
