Legations Told of It.

The foreign legations were notified this morning by the foreign board of the death of the emperor and the succession of Prince Pu Yi. Troops have been in readiness for several days to quell any disorders that might arise on the death of Kuang Hsu, and the possibility of uprisings was made greater because the death of the dowager empress was known to be close at hand. Two divisions of troops have been held in reserve, and these are now stationed in various quarters of the city. Twenty gendarmes were despatched to guard the approaches to the legations, but up to the present the duties of the forces have been slight. It was announced that the legation guards were ordered out at "the special call of the legations owing to the emperor's death."

Deathbed observances of three hun-dred years ago marked the passing of the emperor and dowager empress. They died alone and unattended, althe surrounded by circles of abject spectators, who remained a rod distant, because on account of the sacred persons of their majesties, they could not be approached. The emperor died as he lived without ministration of whatever kind of scientific aid. He had refused to permit the services of fereign physicians for months, and, altho it was stated that he had gone back to the old form of medical treat-ment, it is believed that latterly he re-

Quiet.
Until word of the dowager's death is spread broadcast, no general dis-orders are apprehended. China is quieter now than at any time since 1900. Local disorders in the south are possible on any pretext, but the porth is more inclined to peace. There are few signs of antagonism to foreigners, and there is no manner of doubt that Prince Chun will be able to meet the situation, for he is recognized as thoroly progressive, and he is the most acceptable man that could be chosen to those most disposed to cause thought the progressive. trouble, the reformers. Antagonism on the part of the Conservatives and even an insurrectionary movement, is conceivable, because the death of the powerful woman, who dominated all, and the weakling emperor, sweeps away the old paiace corruptionists.

Upon advice from more than a dozen different influential sources, the ladies of the Y. W. C. Guild are considering a proposal of turning next Saturday forenoon into a tag day.

Nine thousand dollars will be the limit of Saturday's collections, while, early in the evening, with the money fairly rolling in, it was estimated that upwards of \$38,000 would be gathered. This was based upon the assumption that each girl would average \$25, and that there were 1500 girls in the field. The "big" boxes were coming in from the downtown districts at that time, and they were coming in fast.

As a matter of fact, the average was less than \$19, and there were only about 500 girls at work.

The largest amount collected in a single box was about \$100, altho one young lady, who endeavored to keep track of her receipts, claimed she secured about \$300. There was no way, however, of verifying this, as she had taken out three boxes and turned them in at various times during the day.

TAFT'S VICTORY.

Toronto Pastor Attributes It to Roman Catholic Influence.

Bond-street Congregational Church crowded, some having to stand, last night. Rev. Byron Stauffer prefaced his sermon by a review of the Taft victory. This, he said, had a moral side, as it was in accord with a defection of Roman Catholic voters from the Democratic party, evidenced strong-ly in New York City, Chicago and Democratic strongholds. This, and the cablegram of congratulation from the Pope, was to be attributed to Mr. Taft's payment of \$7,500,000 in the Philippines to the Roman Catholic Church for properties worth not more than \$1,000,000, and the compensation for damages to churches and convents in suppressing the rebellion, Whereas, Stauffer's opinion, the friars should have paid the United States for the protection afforded them by the American soldiers against hostile attacks upon church property by the

The Making of High Grade Jewelry

NE of man's chief characteristics is the craving for personal adornment, the same craving which impelled the earliest man to decorate his person with beads, shells or teeth, or the monarch to lavish his treasures on the costliest materials and most exquisite workmanship of his crown and insignia of state. The highest art and skill of all ages have been lavished on the making of jewelry, and, much as we may boast of improved methods and advanced art in jewelry work, the people of the Nile Valley long ago could engrave, chase and solder their jewelry and were complete masters of the most important processes of the modern jeweler.

The first metal used was pure gold-although very limited in decorative design, owing to the only mechanical resources of the prehistoric man being rude hammers of stone -and from that time till the present day the demand for jewelry has grown with the extension of commerce, the growth of luxury and the advance of refinement, until to-day poor and few indeed are the women, particularly, who do not possess jewelry of some kind.

JEWELRY IS MADE OW EATON

Upon the sixth floor, away from the noise and bustle of the store and under the most congenial conditions for turning out perfect work, is the EATON. Jewelry made. Large, bright and airy, these workrooms contain the most modern and improved devices used in jewelry-making, machines that now do in a few minutes and in the simplest manner, work formerly of the most fatiguing kind, which required several men to do, such as forming the gold into sheets and wire sticks, preparatory to cutting it; machines for making tools; machines for forming cuffs buttons-one man can stamp several gross in a morningand every machine operated by a man long experienced and skilled in his

You see heavy bars of the finest gold (see illustration, actual size), ready for melting, and though a soft metal, with a small percentage of pure silver and copper, it becomes almost unbendable.

From the furnace, through the hammer, under the ponderous stamperwhich holds the required design, on to the solderer, then through the fire bath, back to the polisher and from one specialist to another goes each piece until the beautiful shining finished article lies in its plush-lined case ready for the department. The illustrations show the differ-

From the melting of the gold till you buy it, this jewelry never leaves our workroom, and if you could take a walk through this busy factory and see the care and attention given every particle, the marvelous skill and dexterity displayed, and the pride each man takes in keeping up his share of the standard of excellency, you'd marvel at thelow prices they're sold for.

It's this standard of quality that raises EATON-made Jewelry head and shoulders above the ordinary; remember this; that every article turned out, if 14k, it is genuine 14k gold through and through - that means solder, pins and every particle of the brooch, ring or pin; this is most important, for you couldn't tell without expert examination whether it was silver solder and only 10k pins, or not.

You could take a most delicate, fr ail looking brooch, composed of 30 pieces, from the finisher and unless you're extra strong, you could neither bend nor break it—this was tried—the same with those sterling silver cuffs links sold in the de-

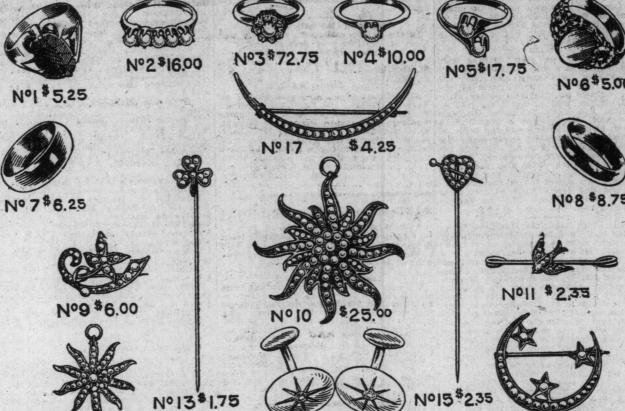

ent stages in making a ring and a brooch.

The Savings Great for You

The Process of Making a Solid Gold Pearl Pendant

Some reasons why we can sell such excellent, high grade quality for the prices we ask, are: we endeavor in every way possible to keep down expenses that would make it necessary to raise the price.

We generate our own electricity and power, make our own tools, have the best labor - saving and time - saving machinery, and teach our workers not to make a single false move or mistake; and, selling jewelry as we do like any other merchandise, we add only our usual close profits, the immense quantities sold making a very small profit possible.

Making this jewelry from first to last, we're in the best position to know it through and through and to know every part of its manufacture, so that we speak with knowledge when we guarantee it, positively, pin, solder, catch and every particle genuine 14k solid gold, an article of beauty, of life-long service, at the greatest saving

grounds, likely next Saturday. The time and place will be named to-day by the two clubs interested. Varsity will suggest to play off at Rosedale. If this does not meet with Queen's sanction and a dead-lock follows, President McCarthy will have to decide.

The score Saturday between the two college teams can hardly indicate the relative merits of the teams, as Varsity had much the better of the wind aud with a heavy gale against them no team can do themselves justice. Therefore, on the play-off it looks a toss up in as much as Varsity can hardly show her full strength, as Lawson was practically put out of business. It is doubtful if he will be able to play in the final game.

In comparing the play of the two teams, Hamilton must consider they had a lucky win, for Ottawa had much the better of the play three parts of the game. Ottawa back division played without a mistake, and no doubt the pick of the field was Jack Williams, Ottawa's centre half, who played a grand game thruout, his kicking and running bein of the first order, and he never made the slightest sign of a fumble. In this respect he was closely followed by Powell, Ottawa's full-back, who also played an excellent game, repeatedly running the ball out when scores looked certain. AMERICAN COLLEGE RUGBY.

Do So To-morrow.

Eastern League magnates will hold a joint meeting with the American Association club owners at the Lafayette Hotel, Buffalo, next Wednesday.

This meeting is called for the purpose of endorsing or rejecting theaction of P. T. Powers and Joseph O'Brien, who led the bolting factions of the two organizations at the meeting of the National Association at Chicago last week. The general opinion in baseball circles is that the course taken by Powers and O'Brien will be ratified. The utmost importance is attached to the doings of this session.

For five years the Eastern and American magnates have been trying to secure higher classification, but each year they have failed because they have been overwhelmingly outvoted by the small leagues. According to the views of a well-known Eastern Leaguer who was in New York the other day, the only way for the Eastern and American Leagues' these was in New York the other day, the only way for the Eastern and American Leaguer's these way in the second and the first haif, and with the score of it to 6. Outplayed in the first haif, and with the score of the or against them, the Yale elever came back determined to win in the second half, and simply carried the Prince-tonians off their feet. Working like well-oiled piece of machinery in the open for the second session to show only spayed earlier in the day. There was lacking that spontaneity of action and unity of purpose which had characterized the play only a few moments before a both teams were in good condition, but the fierce tackling and heartbreaking line plunges caused each eleven to draw free-light show which began falling a few minutes before play was called, was followed by sieet, and finally rain, which rendered the weather conditions almost unbearable. There were about 30,000 persons at the game.

At Pittsburg—Princeton 11 to 6. Outplayed in the first haif, and with the score of a fall played in the first haif, and with the score of against them, the Yale elevation of the two of a gainst them, the Yale el

out just how badly Bryan was beaten by Taft, they are turning their attention to an analysis of the vote cast at the recent election. One of the most interesting features in this connection is the statement of Eugene V. Chafin, prohibition candidate for president, who, at the Washington Home the other night, said that the prohibition movement on Nov. 3 received a decided setback. Mr. Chafin says:

"With the aid of the liquor business the Republicans carried New York City, Chicago, St. Louis and Cincinnati. Every temperance candidate of prominence on both sides was knocked out at the recent election, including Governor Folk, of Missouri. This means that the fight will be between the Republicans and the Prohibitionists from now on, and I am confident that a Prohibitionist will be elected president in 1912."

Made No Headway.

The storm centres of the Prohibitionists' fight were in Indiana.

Found on Pickpocket.

A dark green leather purse containing 95 cents, some blue and red car tickets and a pair of gold-rimmed eyeglasses, were found upon Stephen Snyder when searched at the Courtstreet station following his arrest on a charge of picking the pocket of Nellie Goodman, Scarboro Junction, at the market on Saturday, and the police are looking for the owner.

MONTREAL, Aug. 15.—(Special.)—
Fred. B. Mellor, whose body was found in Mount Royal Saturday with a bullet in his head, is supposed to have represented a Toronto thread firm. Alongside the body was a rifle and a box of cartridges. Mellor has lived in Montreal about a year.

Fitzherbert in Record Time.

OAKLAND, Nov. 14.—J. Hildreth's high-class 2-year-old Fitzherbert won the Oakland Handicap to-day from a clever field of sprinters at Emeryville and took haif a second off the California record for six and a half furlongs, when he ran the distance in 1.18. Twelve horses went to the post for the event, which had 2000 added. The Ellison entry, Royal Tourist and Don Enrique, was favorite, with Fitzherbert, Tony Faust and Smiley Corbett (running as the Hildreth entry) second choice in the betting. Royal Tourist and Don Enrique got away poorly. Smiley Corbett went to the front and led until the stretch was reached. Fitzherbert then assumed command and won easily from Jeanne d'Arc, a 40 to 1 stot, which closed fast. Native Son was third, Royal Tourist closed up much ground after the poor start and was fourth. The Hildreth colors were again in front when Woodcraft galloped home in the fifth. There were a number of interesting finishes, Fargo Rose and Nogary againing nose victories. JOE POWER PRESIDENT Applies for Admission

MONTREAL, Nov. 14.-(Special).-Cornwall's application for membership in the eastern Canadian Hockey League was the sensation at this afternoon's general annual meeting.

Nationals of Montreal had made application, but withdrew it. Victorias also withdrew at the executive meeting, prior to the annual, and Cornwall's application

George Capps rolled 655 his first three games, and Joe West 633 his second trio.

Eilly McMillan, along with Hartman, his sidekick, occupied prominent places near the foul line, evidently watching the footwork of the rollers.

Wes Williams and Allie Boyd, the Red Rose Tea artists, were seen to scowl when the bowlers were seen to scowl when the bowlers were handed borril.

The stakeholder is pleased to state that he escaped the Tag Girls till after the bank opened.

Waiter Martinson and Bert Neil are now contemplating putting on a one act cornedy entitled, "What's Our Handleaps?"

Billy Bell used a ball that reminded one of the handlwork of the rude forefathers.

Not more than two or three lucky strikes were made the whole night, the rollers giving a splendid exhibition of how the pins should be hit.

Mike Foley and Bill Hunter were seen whispering together after the bovril was brought in. Nuff sed.

Somebody suggested a sweep when Joe West made 224, but Reddy Canfelod broke up the game.

Pat Phalen was seen perched on a rafter working out a theory.

The ladies occupied seats near the pins, They were probably placed there so as to escape any passing remarks that might escape the rollers' lips.

Walter Primeau had a hard night on the foul line—watching the plns fall.

With some beautiful exceptions, continual racial strife exists, altho the leading men accept the last as a final settlement, General Botha and Mr. Smuts are held General Botha and General Botha and Mr. Smuts are held General Botha and Mr. Smuts are held General Botha and Mr. Smuts deneral Botha and Mr. Smuts are held in respect and esteem, but the old bitterness has not died down among the Boers in the country districts and the Boers in the country districts and then a tag year. Every body likes tag day and says, "Oh, it is such fan." You can't have enough of a good thing. Let all the maudlin sentimentalists of this village get tothere is a great deal of heart burning, but the veteran evangelist expressed his confidence that "another generation will do away with that, please God." That there should still be bitter remembrances is not surprising, the General Booth evidently sustained disappointment. He finds other and more permanent causes in the fact that natives are taking the place of white men. The negroes work for less wages and the whites refuse to compete by agreeing to a reduction of wages. As a consequence large numbers are emigrating to Australia and Canada and returning to Britain, and the general declares that if this goes on South Africa will soon be without a white working population. On the other hand the natives are increasing in numbers. Out of 10,000,000 of people between Cape Town and the Zambesi, 9,300,000 are natives, and in addition there are 100,000 immigrants from British India, who are taking away the local trade and driving white traders out of the country. The natives, said General Booth, are learning to work, and that they have political rights and in ten or twenty years both Boers and British will have to reproach themselves when the inevitable conflict of the native races is on them with all its consequences.

The general's chief advice so far as the white side of the problem is concerned is to "make a peasantry." Vast tracts of land were waiting for the plow and the spade. Why not get the men to go on the land? And he applied this to "the thousands

Thruout the island, according to the reports, an extraordinarily heavy vote was cast, vastly in excess of that cast in the August election, where 182,000 falled to vote in a total registration of 450,000. This was especially so in Havana City, where the vote to-day probably will reach 66 per cent, of the registration, against 49 per cent, in

August.

The streets were thronged with rejoicing Liberal crowds. One party,
composed mostly of negroes, while
passing the cafe of the Hotel Inglaterra, which is a traditional Conservative resort, clashed with a group of Con-servatives on the sidewalld Knives and pistols were drawn and several shots were fired, some of them break-ing the windows of the cafe and causing the windows of the cafe and causing a panic among those seated within.

Lieut. McReynolds of the marine corps, ran out of the cafe and interposed himself between the compatants. He made a speech in Spanish and succeeded in inducing them to stop fighting. The shooting, however, attracted a great crowd and the situation eventually became threatening. Major Feltz, supervisor of the police, summoned the reserves and cleared the square. Two men are reported injured, but no arrests were made.

COBALT STOCKS ARE AT INVESTMENTS, ESPECIALLY THE DIVIDEND-PAYING ONES:

Confidence Must Be Gained Results Are Forthcoming

The statement of President Forget of the Montreal Stock Exchange that abundance of money exists at the present time, is repeating what has been already known. The Montreal financier expects that this will result in a better demand for securities, and a corresponding advance in prices. This is not an unnatural expectation, but speculative sentiment has got to be aroused, and until this is forthcoming no great changes in prices may be expected in any operations of the market. Outside the exchange, conditions are considered to have improved material—

Charles Head & Co. to R. R. Bongard:

At the close of the market it was generally irregular, with conspicuous strength in the traction group. Traders who sold stock to even up on the week reported support was forthcoming where necessary, but very little of it was needed at any time during the day. London was estimated to have bought about 15,001 shares in the early depression, principally U. S. Steel, Erle and Harriman stocks. Commission houses doing largest business in the street report that every inducement is being offered to them for finance their customers' purchases. The scrutiny

THE NIPISSING OF THE NORTH! MOOSE HORN MINES

(MONTREAL RIVER)

With 160 acres of land (four mining claims), three-quarters of a mile from Elk City, with assays from six distinct veins, running from 250 to 13,-000 ounces of silver to the ton, with transportation assured during the winter by the Government Winter Road from Charlton, which crosses the property, WITH THE T. & N. O. RAILWAY SURVEYED TO RUN WITHIN 100 FEET OF THE MAIN SHAFT, which is down 72 feet, with fine ore from 60 feet, the Moose Horn Mine compares favorably with any mine on the Montreal River, and goes far to prove our assertion that in the Montreal River

Section Cobalt has no mean rival. Enough stock has been underwritten to provide ample working capital for one year. The present offering is made to put in a complete plant, including six-drill compressor, etc. This stock is going fast, both here and in

New York, where it is listed on the curb. Capt. John Harris says, in his report on the Moose Horn: "At about twenty-five (25) feet down the shaft, the vein widens to one inch of Calcite, in some places SHOWING ALMOST SOLID SILVER. The vein holds good to

the bottom of the shaft and the full length of the drift. "I have been in the Cobalt Camp almost from its beginning, and would say that there are as good showings of silver on the Moose Horn property as in any of the Cobalt Mines at their commencement, and for the same amount of work

having been done. "I BELIEVE THE MOOSE HORN MINE CAN BE MADE A PAY-ING PROPERTY FROM THE START."

strike was settled weeks ago, many of the ex-employes will have a hard time to keep the wolf from the door during the coming winter on account of the company's tactics. It would seem that the C.P.R. officials, in spite of their promises to take back the old employes, deliberately planned to refuse work to those who in any way took an active part in the strike proceedings. Whether a man is married or not evidently makes no difference with the company in this regard, judging from the numbers of ex-employes with wives and families to support, for whom no place can be found on the company of the company with the company in this regard, judging from the numbers of ex-employes with wives and families to support, for whom no place can be found on the company's pay-roil. "That the strike ended as it did is all due to the weakness of J. H. McVety and Bell Hardy," said a union official in West Toronto to-night. "These men are not fit to be leaders; they haven't got the ability, and they've simply got to resign the positions they now hold in the union. We had the company beat to a stand-We had the company beat to a standstill, as is seen now by the fact that the repair shops are being run night and day and every man is working overtime. Rev. Dr. G. Brinley Morgan Killed Crossing Street at New Haven, Conn.

NEW HAVEN, Conn. Nov. 15.—Rev. Dr. G. Brinley Morgan, rector of Christ's Episcopal Church, and one of the most prominent clergymen in the diocese of Connecticut, was struck down by an automobile driven by Samuel Campbell Saturday afternoon, and died early this morning. The minister was crossing the street in front of his church at the time.

Dr. Morgan was about 60 years of age, and connected by family ties with many prominent people. He officiated at the wedding of Alfred Gwynne Vanderbilt and Miss Elsie French, being a relative of the latter.

Dr. Morgan was a member of the Morgan family of Hartford, of which Pierpont Morgan is also a member, he and Dr. Morgan being second or third cousins.
