IRELAND'S FORM OF GOVERNMENT WILL BE CHANGED ITALIANS YIELD GROUND BEFORE THE AUSTRIAN OFFENSIVE Borden Asks Sir Douglas Haig to Report on Ross Rifle NEW FORM OF GOVERNMENT FOR IRELAND IS A CERTAINTY

Premier Asquith Concludes That Old System Must Be Changed.

NOTHING DEFINITE YET Greatly Varied Suggestions Have Been Offered to the Premier.

LONDON, May 17, 8:30 p.m.—Until Premier Asquith's return to London, at the end of the week, nothing definite is likely to be known as to the result of his activities in Ireland. He is still consulting with various authorities with a view to obtaining all possible views, and is expected to visit Cork tomorrow, where he will become acquainted with the Nationalist views. In the meantime no step towards filling the vacancies in the Irish administration is being taken, and it is supposed that the main reason for the premier's being sworn as a member of the Irish privy council is that he may become the responsible minister in parliament for Irish affairs temporarily.

PREMIER RECONSTITUTES IRISH PRIVY COUNCIL

Mr. Asquith, Gen. Maxwell and The O'Connor Don Sworn In.

LONDON, May 17.—Premier Asquith, Sir Mackenzie Chalmers, a member of the royal commission to investigate the Irish rebellion; Major-Gen. Sir John Maxwell, commander-in-chief of the forces in Ireland, and The O'Connor Don were sworn in as members of the Irish privy council at Dublin this afternoon. This is the first time an English premier has been a member of this body.

PACT WAS NOT DULY EXECUTED YOAKUM HOLDS

He Was in Agreement With Allison, But Not With Lignanti.

By a Staff Reporter. OTTAWA, Ont., May 17.—The alleged contract among E. F. Yoakum, Col. Allison and Lignanti, referred to by G. W. Kyles, M.P., in his charges made on March 29, was produced before the royal commission this afternoon, but E. F. Yoakum, who was on the stand nearly all afternoon, said it had never been entered into. In so far as the terms of the document referred to former agreements between Yoakum, Allison and Lignanti, Mr. Yoakum declared it to be a false statement of facts. "My dealings were with Allison and Allison alone, Lignanti did not enter into it, so far as I was concerned," he stoutly maintained. He made a lengthy explanation of how the unsigned contract came into existence and into his possession. Allison and Lignanti, he said, had a lot of unsettled financial affairs between them. He told the commission he was never aware of the origin of these differences, but he knew of them by hearing them discussed casually by the two. They seemed to have considerable difficulty in arriving at a settlement and finally asked him if he would assist them in an adjustment. Mr. Yoakum said that he didn't like the job, but he would help in a friendly way. Later on, about September he thought Lignanti called at his office and left the document produced in court. Mr. Yoakum said

Premier Will Become Responsible Minister in Parliament for Ireland.

NATIONALISTS LIKE IT Asquith Will Have Actual Voice in Shaping the Administration.

DUBLIN, May 17, 11:05 p.m.—Premier Asquith has reached the conclusion from impressions gathered during his Irish visit that the old form of government in Ireland has had its day. The Associated Press learns from sources in the closest touch with the premier that Mr. Asquith's conversations and conferences have convinced him that the future government must be conducted on an entirely different system. The prime minister has taken care to learn the ideas and views of many persons other than those in purely official circles, and these persons have offered greatly varied suggestions. None of these, it is believed, could be adopted in its entirety, but it is thought they might be welded together to form a proposal to lay before the cabinet. The premier himself does not know what form his proposal will eventually take, and in fact will probably be fully developed only at the cabinet meeting. Sir Edward Carson, who visited the premier at the latter's residence in London, would not accept a direct proposal implying home rule. But it is believed that they might be induced to enter into a concerted plan which could possibly be arranged to meet their most serious objections. Mr. Asquith will visit Cork tomorrow to gather further opinions. He has, however, not arranged to see the politicians. Most of these with whom he will confer are of the literary and educational classes.

CANADIAN ARRANGED FOR ASSAULTING WOMAN Staff-Sergt. Durand Accused of Offence Against Belgian Hostess.

Canadian Associated Press Cable. FOLKESTONE, May 17.—At the Folkestone police court, Staff-Sergt. Durand of the 2nd Canadian Battalion, now attached as director of recruiting offices, was charged with assaulting a Belgian woman at whose house he lodged with his wife. According to the evidence given by the complainant she went into his room. The prisoner caught hold of her. There was a struggle and she cried for help. The prisoner assaulted her. Then her husband arrived. The case was remanded till Wednesday, May 25, and bail was refused. The solicitor of the defendant said that he had an answer to the charge. The prisoner presented a smart appearance and he showed no signs of nervousness.

ALDERSON'S LETTER FORGERY? BORDEN STIRRED BY ATTACKS TO BE MARRIED NEXT MONTH

Action Threatened Against Ottawa Paper Which First Published Ross Rifle "Disclosure"—Sir Douglas Haig Asked to Settle Controversy.

By a Staff Reporter. OTTAWA, Ont., May 17.—The house of commons today discussed Gen. Alderson's letter, severely condemning the Ross rifle. Hon. Frank Oliver brought up the subject by reading the letter and asking for a statement from the government. Sir Robert Borden said in reply that the government had no knowledge as to the authenticity of the letter, but had requested Sir Douglas Haig, the British commander-in-chief on the western front, to make a thorough test of the Ross and the Lee-Enfield rifles under conditions similar to those that prevailed at the front. Appropriated \$400,000. The senate having passed the Quebec and Saguenay legislation, tonight the house appropriated \$400,000 to carry out the contract. The appropriation was carried in committee of supply by a party vote, except that W. F. Nickle, the Conservative member for Kingston, voted with the Liberals. The house concurred in the senate amendments to the Doherty bill in aid of provincial prohibition. Those amendments pretty well draw the teeth of the measure, but the minister of justice said he had no choice but to accept them. Under the bill as it passed the house a distiller or brewer convicted under the act had his license suspended for the second offence and lost it altogether for the third offence. As amended by the senate the bill now provided merely that the brewer or distiller may forfeit his license upon third conviction. The senate also struck out the clause of the bill which permitted a permit to be issued to a party to be prosecuted either at the place of shipment or the place of delivery. Prorogation Today. Upon the adjournment tonight, Hon. Robert Rogers stated that the prorogation ceremonies would occur at 4:30 tomorrow afternoon. The house, he said, would sit at 2 o'clock as usual, when there would be a discussion on pensions and printing, and a "few farewell remarks from maritime province members on the subject of fish."

GERMAN SOLDIERS ASKING FOR FOOD In Their Extremity They Beg From Swiss Troops on Border. SITUATION IS ACUTE Great Scarcity, Particularly of Meat, Reported in Rhine Towns. GENEVA, via Paris, May 17.—German soldiers along the Swiss-Alsatian frontier, chiefly elderly men of the landsturm, have begun to ask food from the Swiss soldiers. The Germans say they have not eaten meat for weeks. Five German soldiers in uniform, who were captured near Rodersdorf, near Basle, yesterday. They were interned at Berne. The Neue Stuttgarter Zeitung says the food situation in Rhine towns is becoming intolerable. The newspaper advises the government to take drastic measures to change the mode of living of the people. It suggests that cooking in private families be prohibited and that the population be ordered to eat in common restaurants where meat would be served once daily, at noon, and only vegetables in the evening. Eighteen German cattle dealers arrived in Basle yesterday hoping to buy cattle, which are becoming scarce.

ROUMANIA TO EXCHANGE GOODS WITH BULGARIA? Mutual Concessions Open Way to Agreement, So Berlin Says. BERLIN, May 17.—(Via wireless to Bayville.)—The negotiations between Roumania and Bulgaria for the interchange of goods, which were threatened with failure for a time, are now progressing satisfactorily. Despatches to the Overseas News Agency quote the Bulgarian finance minister to the effect that concessions have been made on both sides.

GERMAN TORPEDO BOAT SUNK BY GERMAN MINE Mishap Off Falsterbo, Sweden—All But One of Crew Saved. COPENHAGEN, via London, May 18.—(3:36 a.m.)—A German torpedo boat was sunk by a German mine off Falsterbo, Sweden, according to The Berlingske Tidende's Malmo correspondent. All but one man of the crew were saved.

BIG OFFENSIVE BEGUN BY FOE AGAINST ITALY

Austrians Attack Italians on Twenty-Three Mile Front. CLAIM SOME SUCCESS Rome Admits Making Retreats Before Heavy Enemy Attacks.

Special Cable to The Toronto World. LONDON, May 17, 9:14 p.m.—Interest in the military operations has suddenly shifted to the Italian front, where the Austrians have begun to attack along the whole line, but particularly in the Trentino valley, where the Italian troops occupied positions just over the Austrian border from the Adige valley, south of Rovereto, to the Tirolo valley. The Italian attacks cover a front of 23 miles. The Austrians claim the taking of 6000 prisoners and many guns. The Italian report says they repulsed five violent artillery attacks by the enemy on the slopes north of Zegnatorta, in the Lagarina Valley, and that the Austrians in the zone between the Terragnola Valley and the Upper Adige, had recaptured their line by abandoning some of their advanced posts. In the Asiago sector the Austrians failed in persistent attempts to attack. They were repulsed with heavy losses, including 300 prisoners, in the Sugana Valley.

MODE OF HANDLING ESTATES OF SOLDIERS Memorandum Laid Before House Gives Light on Customary Routine.

By a Staff Reporter. OTTAWA, May 17.—A memorandum dealing with the distribution of the estates of soldiers killed or dying from other causes has been laid upon the table of the house today. It points out that casualties are sent by cable to England and then to Ottawa. Personal effects are collected and forwarded to the base. There they are checked and an inventory sent with them to the director of pay and records of estates branch in London. If the deceased resided in Canada his effects are sent to Ottawa. The pay account is closed as soon as the estate has been received and becomes known as a non-effective account. In the case of missing men, thirty weeks must elapse before the necessary steps can be taken to presume death.

BARON HARDINGE GIVEN POST IN GOVERNMENT Succeeds Sir Arthur Nicholson as Foreign Under Secretary.

LONDON, May 17.—Baron Hardinge, former Viceroy of India, and from 1905-10 permanent under-secretary of state for foreign affairs, will temporarily resume the latter post, in succession to Sir Arthur Nicholson, who is retiring on account of ill-health. Announcement of this effect was made this evening by the foreign office in the following communication: "Sir Arthur Nicholson, who desired at the beginning of the war to retire owing to ill-health, but who consented to remain in the government as a matter of courtesy, is now finding that his health is very great, has repeated his desire to retire, and at this suggestion Baron Hardinge has consented temporarily to assume the post."

R. A. FRINGLE WILL BE GOVERNMENT COUNSEL He Will Take Place of Thompson on Davidson Inquiry.

By a Staff Reporter. OTTAWA, May 17.—It is expected that R. A. Fringle, K.C., of Ottawa, will be appointed by the government to take the place of John Thompson, K.C., as counsel on the Davidson commission, which will inquire into the exchequer court annulment to the British admiralty. Hartley Dewar, K.C., will represent the Liberals.

QUEBEC AND SAGUENAY BILL IS THRU SENATE OTTAWA, May 17.—The senate tonight passed the Quebec and Saguenay Railway acquisition bill without amendment after a motion for the six months' hold had been defeated, and also an amendment which would have changed the direction of the exchequer court from reasonable to "actual cost" to "actual, reasonable and necessary" cost.

WAR SUMMARY THE DAY'S EVENTS REVIEWED

ON the British front in Flanders yesterday artillery and trench mortars kept playing their infernal trade everywhere, and raiding parties of Seaforth Highlanders entered German trenches north of Roelincourt. They killed five Germans who were in their way, bombed three of the enemy dugouts, blew up one and returned safely to their trenches. Fighting also continued among the craters blown up by the Lancashire Fusiliers when they stormed 250 yards of German lines on the Vimy ridge. Twenty-seven combats were fought in the air by British and German machines. An Albatross was attacked and driven down wrecked near Lille, another was driven down damaged north of Vitry, and a third, when attacked by British air scouts, fell and turned upside down near the ground. One of the British reconnaissance machines was forced to land in hostile territory and a scout machine is also missing. As Sir Douglas Haig reports that a good deal of satisfactory aerial photographic work was accomplished, it is known that the air fighting was done over the German lines.

On the Italian front the fighting has been heavy, but the Italians are giving harder blows than they are receiving. The whole offensive initiated by the Austrians seems to be a general one and it appears that the German general staff meant serious business when it sent the Austrians to the assault. In the combats the Italians repulsed five violent attacks against their positions on the slopes north of Zagna-

Stylish Serviceable Raincoats That Are Positively Waterproof

Including a huge variety from the plain raincoat at \$6.50 to the weatherproofed cloth coat at \$30.00

THE UNCERTAINTY of the weather just at this particular season—the frequent, unexpected showers, cool air and breezy atmosphere—makes the raincoat a very desirable and convenient garment to have. Many men will require a raincoat to take along on the holiday outing next week as well as the week-end trips and frequent summer outings that are to come, so that the following good values in new, stylish waterproofs should be of particular interest now, the beginning of the season, when raincoats are probably used the most.

In the extensive showing of raincoats in the Men's Clothing Section, there is one very smart and practical garment that can be used, both as a raincoat and spring overcoat. It is made of strong, durable tweed in brown or green mixtures—a slip on style that buttons close up to the neck like the one illustrated on the left. Sizes 34 to 42. Price 11.00

Another very dressy raincoat, and one that is light in weight, is made of woven covert cloth in a fawn shade. It is smoothly finished and buttons to chin, with military collar and has slash pockets. Price 10.00

The stylish looking coat in the illustration on the right is made of burella cloth, a waterproof material similar in finish to covert cloth. It has short lapels, raglan shoulders, slash pockets, with openings inside, and is in shades of olive and grey.

A coat of same material, that buttons close up to neck, with London collar, is in an olive shade with a herringbone stripe. Price, each 18.00

The Hydrolite is a shower proof coat, very much favored among motorists. It is made of a soft and flexible olive shade material. Buttons close up to chin and has London raglan shoulders and slash pockets with opening to, under clothing. The lining is made of same material as outside of coat. Price 12.50

The "Styma" is a light weight waterproof coat in olive, khaki, tan or light brown, with lapels that button up close. It is finished with a glossy surface and contains no rubber; is odorless and does not crack. Price 6.50

Paramatta Raincoats in olive and fawn shades. Slip on styles, buttoning close to neck. Prices, \$10.00, \$13.50 and 15.00

The Well-Known Burberry Waterproof Topcoats

Burberry's English Weatheralls, made from a very light, soft, flexible material, closely woven, with a very fine twill finish. These come in fawn or slate shades. They button close up to chin and have London collar and raglan shoulders. Price 16.50

Extra fine quality Burberry Weatheralls, made of light weight, twill materials. These are in olive or fawn colors and are in various styles, some half lined, others fully lined with silk. Prices, \$25.00 and 30.00

Burberry's Spring Topcoats in cheviot materials, covert cloth and fancy mixed tweeds. They are very fashionable swarager models with loose fitting backs and are in colors of brown, green, grey and fancy mixtures. Prices, \$25.00, \$30.00 and 35.00

—Main Floor, Queen St.

TORONTO'S FIRST PUBLICITY PARADE

Was Held Yesterday When Greeters' Association Was Welcomed.

AT THE CITY HALL

Visitors Carried Thru City in Tally-Hos, Headed by Highlanders' Band.

Yonge street saw Toronto's first publicity parade shortly after 2 o'clock yesterday afternoon. The Greeters' Association of Buffalo arrived. They were carried in tally-hos and automobiles, led by the Highlanders' Band, to the city hall, where they were welcomed to the city by Ald. Ryding in the name of the mayor...

The procession bore banners announcing who they were. A huge streamer on the boat on which they crossed the lake expressed the welcome of the city to the Greeters. The parade was suspended while the procession went by. Windows were filled with the faces of enraptured spectators. Crowds gathered on the sidewalks...

Major Bullock had been from Canada coast to coast. He had been in the United States during the war. He was a great fighter. He was a great leader. He was a great man. He was a great patriot. He was a great hero.

Col. McCormick followed. The faces of the visitors looked familiar to him. He had known them for many years. He had known them for many years. He had known them for many years. He had known them for many years.

Major Bullock had been from Canada coast to coast. He had been in the United States during the war. He was a great fighter. He was a great leader. He was a great man. He was a great patriot. He was a great hero.

The party was accompanied across the lake by a number of officials of the board of education. He recommends keeping the superannuation fund separate from the general system. The cash basis of accounting should be changed to accrual basis.

Ontario Mining Industries

Whenever anything that looks like a "boom" appears on the horizon there is an immediate outcry from one section of the community about the evils of such a movement. One never hears the poor people complaining about "booms."

It is necessary to say something of this description in referring to the condition of things in the mining regions of Ontario. Any general reference to the mining industry is feared in some quarters as the precursor of this dreaded phenomenon, the "boom."

It is a fact, however, that the success of the mining industry in Ontario has been greater than any "boom" of 1903 or 1904 ever imagined. In no other days it was all silver. No one dreamed of gold. Yet today gold is believed to be the chief interest in the north country.

As for copper and nickel, these are mysteries about which the outsider is permitted to know nothing. It is freely stated that while declarations of \$5,000,000 worth of ore being taken from the big mine at Sudbury are accepted officially, the actual production may be ten times as far ahead in these matters as in Russia, where the mines are owned and operated for the benefit of the state.

There would be less complaint about this if only the people of the nation were fairly treated. But the interests of who or which control the mining operations never remember the fable of the goose that laid the golden eggs. It would not be surprising if the people, one of these days, insisted upon the action of a government which would provide for a fairer distribution of the wealth of the earth.

SOMETHING WRONG

and cribbed by the petty outlook of some of its chief rulers will permit No city on the American continent has such a future, but if any one speaks of such a fact it is regarded as the beginning of a "boom."

There is no such fear of advance or progress in any real business institution in the city. All good business men prepare for these things. Our civic administration is not run by business men. The city council is not sufficiently independent to manifest what business capacity it may have latent in it.

There is a splendid opportunity for the city in the presence of the wonderful prosperity of the north country, the activity in connection with measures in business generally, and the undoubted expansion that may be expected to follow the war, to do something to realize the metropolitan opportunities of the city.

Conscription and Recruiting

With the passing of the conscription bill Great Britain enters upon a new phase of military obligation. Under the voluntary system every man in the land had a chance to profess and honor his manhood. Those who have failed to do so must now take up their duty and perhaps find that it is not so difficult as they feared.

The need for men at the front is very great. A week or two ago the casualties on three days exceeded 1000, 900, and 800 respectively. And this was not in active warfare but in the daily attrition and wearing down which has been the war policy of the allies for months past.

Premier Borden has stated that 500,000 are to be mobilized. The number is nothing compared with the interests at stake. If Canadians came forward with three or four times the eagerness to serve which they are now displaying, it would have its inevitable effect upon the enemy.

The women have still a great deal to do in getting out the eligible men. Mothers, sisters, friends, have influence with young men far beyond the cajolings of the recruiting sergeant. Do women prefer that the war should continue for two years more or perhaps longer? Surely they must understand that the stronger our forces the sooner will be the end and the happier the prospects of peace.

We are not fighting with men in the ordinary sense. The conflict is with the embattled powers of all that civilization has wrestled with for centuries, now gathered together for one last great, and we believe final, struggle. Should it not be settled now it means the prolongation of the struggle for another five hundred years at least. Those who dislike war and fighting have their choice. A short sharp fight now and the end of it, or weakness and indecision and the slavish instinct that permits others to do one's own share of the work; these are the alternatives, and if we choose the part of the lagard, centuries of warfare for the people that come after us. No man hesitates when he understands the issues. The weaklings stay behind with the women and children.

WOULD AID THE WIDOWS OF BRITISH RESERVISTS

Patriotic Fund Conference Believes Difference in Pensions Should Be Paid.

AID COMMITTEE REPORTS

Unable to Fill the Many Requests Made for Returned Men.

At yesterday's session of the Patriotic Fund Conference the entire day was taken up with "the granting of assistance." It was the unanimous opinion of the delegates that representations should be made to the federal government with a view of having the Canadian Government pay the widows of British reservists who are residents in Canada the difference between British and the Canadian pensions.

There are some 600 British and French, 130 Italian, 100 Belgian, and two Serbians on the books of the fund, who would expect matters and reduce the expense to the fund. While there was no little difficulty regarding the pensions of Canadian volunteers, there was the difficulty previously mentioned in the case of the British reservists, and also those of the allies residing in Canada.

NAVAL ENCOUNTER OFF BELGIAN COAST

British Monitors and Destroyers Engaged German Mosquito Craft.

NO LOSS FOR BRITISH

Germans Claim Aeroplane Dropped Bombs on British Cruiser.

LONDON, May 17.—A naval engagement occurred yesterday off the Belgian coast, between small German and British warships. There were no British casualties. Official announcement of the fight was made as follows: "An encounter took place yesterday afternoon off the Belgian coast between a force composed of British destroyers and monitors and some German destroyers. After a short engagement the enemy withdrew to their ports. Our force sustained no casualties." An Amsterdam dispatch tonight says that, according to the German version of the sea fight off the Belgian coast yesterday afternoon, a British cruiser was hit by a bomb from a German aeroplane. The account says: "Some British naval forces appeared off the coast of Flanders. German warships, accompanied by patrol boats, went to meet them. A short fight ensued at long range, during which a German aeroplane dropped bombs on an enemy cruiser, which was observed to be hit near the conning tower."

VENICE WAS BOMBED.

Italian Batteries Gave Raiders a Hot Reception.

VENICE, May 17.—Austrian aeroplanes raided Venice and Mestre last night, but the Italian batteries shelled them so hotly that they were forced to keep at a great height and the bombs dropped by them had little effect. One house was damaged. There were no casualties in Venice, but two persons were killed and several injured in Mestre. The material damage was slight.

DISMISSED ACTION AT OSGOODE HALL

Suit of Cooper vs. Ancient Order of United Workmen Settled.

THE BALDWIN LANE

Witnesses Testify as Having Used Passage in Eighteen-Eighty-Nine.

Chief Justice Latchford, at Osgoode Hall, yesterday afternoon, dismissed, without costs, the action of Elizabeth Cooper against the Ancient Order of United Workmen. The suit which was over a \$2,000 life insurance, was heard last September. The plaintiff's father, Hugh Cooper, died Feb. 16, 1915, and by his will left \$5 to each of his two sons and the residue of his \$2000 to his daughter, Elizabeth. The insurance company refused to pay the amount called for on the policy, claiming that at the time of his (Cooper's) policy was not paid up to date, and, according to the statute, the dues must be paid no later than thirty days. Until late yesterday afternoon, Justice Middleton heard evidence and examined exhibits in the action of the Baldwin estate, who are endeavoring to close the lane east of York street and between King and Pearl streets. John Boldrick testified to having used the lane from 1889 to 1890 worked in a millinery store alongside of the lane on King street, told of having walked through the lane with other employees without ever being hindered. Similar evidence was given by Frank Barlow, who worked in a nearby building for seven years. Alfred G. W. Hurd and Louis Mack have been examined. Justice Middleton adjourned until 3 o'clock to confer with the officials at the Osgoode Hall. When the case was resumed in the afternoon, Back told of having driven up the lane one evening in the heavy rain, and, at 6 o'clock the next morning, when he drove down the lane, gates were there and men came and chopped them down. The case will be resumed this morning. Justice Latchford, in chambers, gave judgment for \$725.42 in favor of Elizabeth Cooper against the Ancient Order of United Workmen. He granted costs of \$100. He granted an injunction against the Ancient Order of United Workmen, who were guarantors for Menka Fall, who purchased the assets of A. Fall of Port William, Plaintiff, who was an assignee, took action to recover the balance of an indebtedness of \$4000 on promissory notes.

Yoakum's Ups and Downs. To Mr. Johnston's questions witness said he could not remember whether the two concerns before mentioned had been incorporated at his suggestion or not. He told the commission that the stock had been recalled simply because it was found it was unnecessary to have a corporation to carry on the business they were transacting.

Mr. Johnston put a question which involved the amount of profit the witness had made out of the stock committee's contract. Mr. Johnston replied: "Now, Mr. Johnston, don't you think that rather personal? You don't hear me complaining of a deal, I lost every dollar I possessed. I wouldn't complain, and if I made a few dollars I don't complain."

Allison Today? During the questioning Mr. Yoakum asked permission to make a statement regarding the failure of the Edwards Valve Co. to live up to their contract for carriage cases. They were doing everything possible to turn them out, he said. They made a mistake in throwing away all their money rather than cutting down their enormous losses. Mining Notes

The feature of gold production all the world over is "the arrival" of the Hollinger Consolidated and the Dome in the Porcupine camp in Ontario. They are now accepted as two of the greatest mines in the world.

One of the new promising Porcupine properties is West Dome Consolidated, which owns 800 acres adjoining the Big Dome. In the reorganization of the old company one million shares were placed in the treasury, and these were disposed of to a New York syndicate at 25 cents a share, thus providing the company with \$250,000 for development.

The Canadian Mining Journal in its issue of May 15th says the high price of silver has naturally led to new activity in the Cobalt district and that many properties hitherto neglected will be subject to careful examination.

NEW ORE BODIES AT MINTURE VALUABLE

Reported to Add Six Millions to Ore Reserves—Two New Veins.

McIntyre IN LIMELIGHT Porphyry Formation at Kirkland Lake Differs From That at Porcupine.

Values of \$10 over a width of 10 feet are very exceptional in the Rand or in any other gold field. The silver ores at Cobalt are unusually rich. Veins about 4 inches wide often shipped worth \$1500 per ton.

Another ore body 25 feet wide, has been located at a depth of 1000 feet. This carries 15 per cent and is no doubt of very great importance.

This method of computation is not strictly accurate in arriving at relative values, but it may be approximately so in the case of the porphyry.

NEW YORK, May 17.—Irregularity was the dominant feature of today's market, which seemed to be governed by speculative considerations or extensions. Prices ranging were again prevalent, but they exerted little influence.

Mexicans were firm during the forenoon but fell away with copper and other metals on increased offerings later. United States Steel was more active than yesterday, but its activity was largely at the expense of its strength, closing at practically a point loss.

MARK HARRIS MINES AND MINING

With silver advancing rapidly week after week to record breaking prices, it was only natural that Cobalt should occupy the premier position in the financial limelight, for this is the district that supplies nearly one-fifth of the world's supply of silver.

Every time silver advanced one cent an ounce, it meant thousands of dollars in added profit for the producing mines of Cobalt and South Lorrain, and when the white metal advanced to prices that had never been known since Cobalt was discovered, it meant an era of prosperity that must be seen to be fully appreciated.

Long before the advance in silver, I urged friends and clients to purchase the better class silver stocks, for, being conversant with the facts, I saw the handwriting on the wall and knew it was only a matter of time when the laws of supply and demand should force up the price of the white metal.

Today silver is quoted at 75 cents an ounce, an advance of more than 30 cents in a few months, and the best informed metal brokers are unanimous in saying the advance will continue until one dollar or more is reached.

I wish I could bring home to every reader of the "World" just what this advance will mean to the big producing silver mines of the world, because, after you once realize it, you will know that "Opportunity"—the fickle goddess—is really knocking at your door—not once—but day after day.

When silver reaches one dollar an ounce, you will find the opportunity gone, for in the meantime I expect to see a healthy and consistent advance in all good silver stocks and with silver selling at one dollar an ounce present values should be almost doubled.

If you are not familiar with all of the facts associated with the producing mines of Cobalt, just drop me a card requesting information on any particular mine, or on the entire district, and my statistical department will immediately furnish you with the latest authentic information, free of charge.

I have correspondents in Cobalt, South Lorrain and Porcupine, and I think I can safely say there is no brokerage firm in the United States or Canada, more qualified to give information on this subject than I am.

I firmly believe that during 1916 my clients will reap exceedingly large profits through investments in the great North Country, and the same information furnished my clients is yours for the asking.

Some people believe it is only necessary to buy any old stock when a boom is on, but this is a grave mistake and one that often leads to disaster. Care should always be taken in the selection of a stock, and when you make your purchase you should know that its intrinsic value is back of it, then, even if the unexpected happens, you can sleep soundly at night, for you know the value is there, and a slump or advance in the market cannot alter the intrinsic worth.

There is always good and bad in everything, but as a rule the investing public will not take the trouble to discriminate between the chaff and the wheat, and in the end when they find they have made a poor investment, they blame everybody but themselves.

An investment is exactly the same as planting a seed—if you placed your seed in rocky uncultivated soil, you could hardly expect an abundant crop; whereas, if you examined the soil carefully before planting, you would no doubt reap what you had sown. When you invest money in a mine—do the same. Satisfy yourself that the Company has a good property, honest and efficient management, as well as ample capital for mining purposes, and nine times out of ten you will have no cause for complaint.

In my opinion there never was a more opportune time for making mining investments in Northern Ontario, and within a few years I believe this district will cause many sensations in financial circles.

Porcupine has already demonstrated, beyond doubt, that gold exists in paying quantities 2100 feet below the surface, and this means that this wonderful gold district will be producing the precious metal as long as you and your children and your children's children remain on this earth.

No one disputes the fact that the "Hollinger" is the greatest individual gold mine in the world, and unless all known signs fail, it will be paying dividends long after this generation is gone, if not forgotten.

Porcupine, located 200 miles north of Cobalt, has already gone to depth and found rich ore, and there is every reason to believe that high grade ore will also be encountered when the second contact is reached in Cobalt.

The Beaver mine in Cobalt has sunk its shaft to the 1700 foot level, and daily expects to reach the second, or lower contact of the keewatin and diabase, at which a new and rich body of ore is looked for.

Should this prove the case, it will mean that Cobalt, as well as Porcupine, is a deep mining district, and that means a long and prosperous life for the camp.

These features, together with the rapid advance in the price of the metal, and the fact that the silver production has decreased from 251,000,000 ounces in 1911, to 196,000,000 in 1915, should convince every intelligent person that now is the time to pick up good silver stocks, for on supply and demand alone the evidence all points to one dollar an ounce silver in the very near future.

Although silver and cobalt are very much in the limelight at the present moment, one should not overlook Porcupine, which I believe will some day be known as the world's greatest gold district.

Porcupine is only seven years old, but it has already attracted the attention of every mining man in the world, and before another seven years goes by, it will add many new millions to the world's wealth.

Porcupine produces the one metal that does not change in value—gold—in fact it is the metal from which all values are judged—consequently, when one has an investment in a mine like the "Hollinger" with proven reserves, that twenty to thirty years of mining will not exhaust, he can truthfully say he has the safest investment in the world.

Porcupine is truly a baby in years and its development is just commencing, and still it can boast of nearly a dozen producing gold mines. The remarkable fact is that every single property that has sunk a shaft to below 500 feet has a proven gold mine.

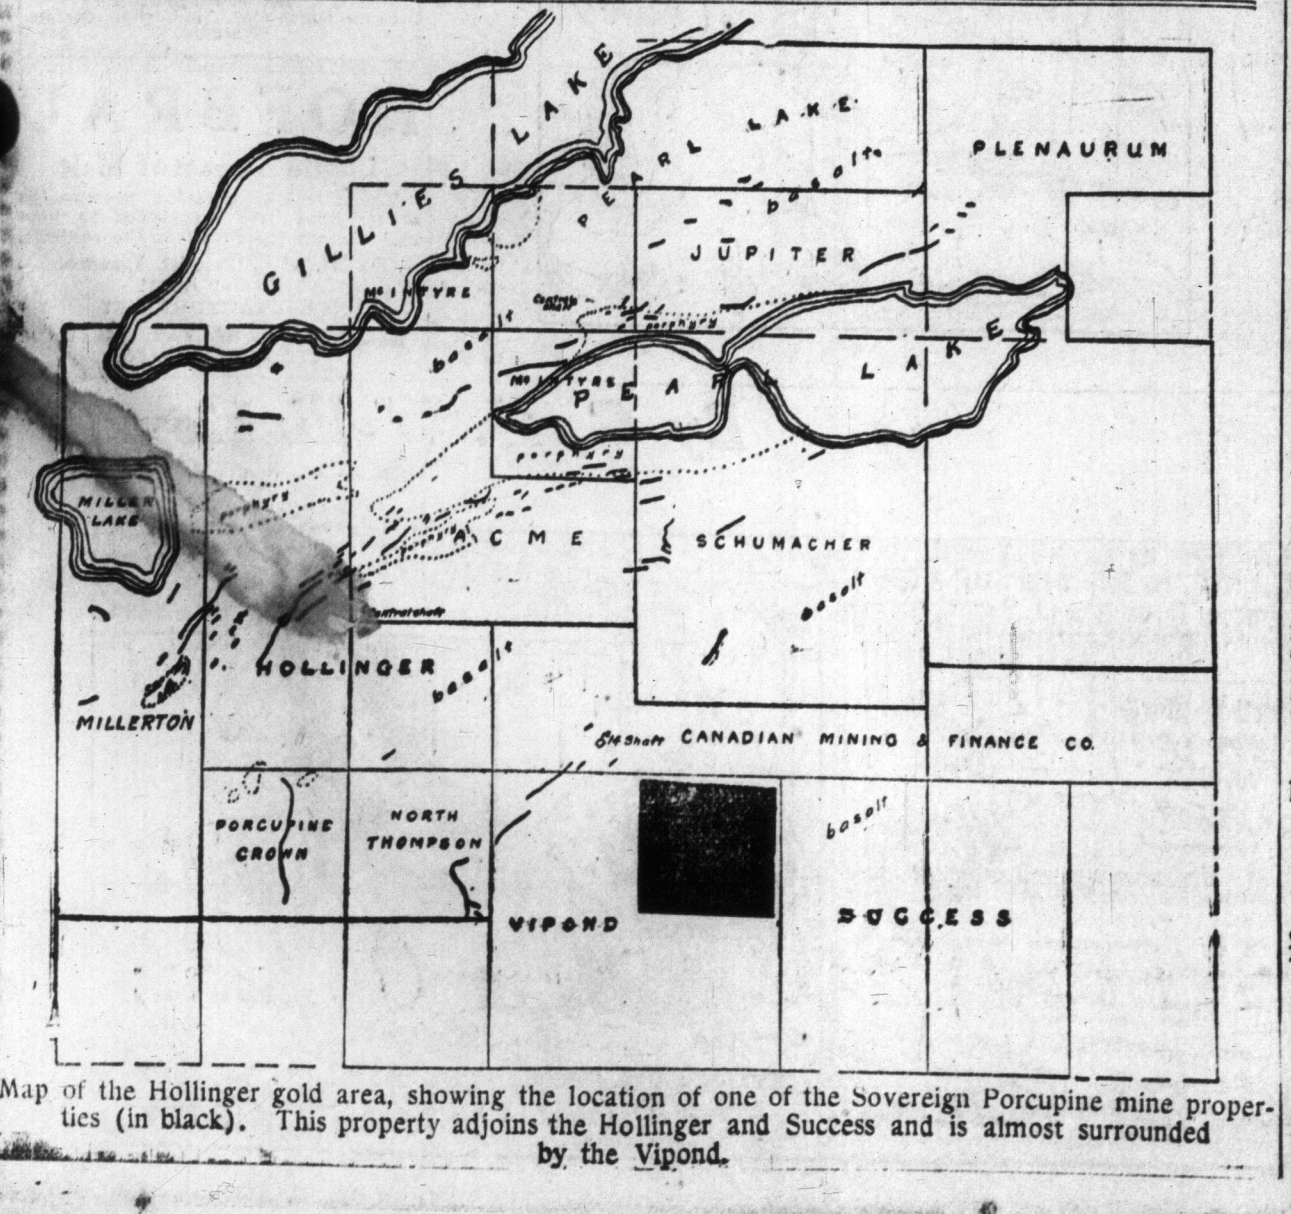

The latest news on McIntyre is the big vein on the 700-foot level. This vein was cut from the No. 5 shaft, and is no less than 62 feet of ore was passed through on the contact zone, assaying over the entire width \$14.40 gold to the ton. On the 1000-foot level, another vein has also been cut 25 feet wide, and assaying \$15.50 to the ton.

I have a high regard for McIntyre, and have repeatedly recommended the stock to my clients as an excellent investment with great possibilities. During the past few weeks this stock has advanced from 90 cents to \$1.66, and even at this figure I consider it an excellent purchase.

Two months ago I told you to keep your eye on the North Country, and today I repeat the advice. Nearly every producing mine in Porcupine is increasing its mill facilities, and this year, 1916, will be the banner one for the camp. Last year Porcupine produced over \$5,000,000 in gold—this year I expect to see these figures doubled—and even this big increase is only a feat to what is expected during the next few years.

Investors who desire to share in the property that must come to the Great North Country should send in their orders now—TODAY—for those who hesitate or delay will find that "time waits for no man," and the gold opportunity of today may pass before you are aware of it.

INTERESTING REPORTS FROM I.O.D.E. CHAPTERS

Patriotic Activities in All Branches Chronicled by the Various Representatives.

FURTHER WORK PLANNED

Mrs. Macdougald Pleads for Abolishment of Slums and Canadianizing of Foreigners.

Summarizing the patriotic activities of the Municipal Chapters of Hamilton, London, Edmonton, Sherbrooke, Montreal and St. Catharines, took up the greater part of the morning session of the I.O.D.E. yesterday. The splendid work of Hamilton was chronicled by Mrs. Burchholder, who reported that in addition to the Trafalgar Day subscription, \$24,746.16 had been raised by the Daughters of the Empire. One of the most interesting activities was their club for soldiers, which is very much appreciated by those in whose interest it was launched.

Field kitchens, societies and comforts generally, furnishing rooms in the soldiers' convalescent home and attentions to sick people in the city had taken the time and money of the Kingston Daughters. The London report, read by Mrs. Graham, told of two new chapters, this report also dealt with progress in Warton, Stratford and adjoining districts. All these included patriotic work exercised in different directions.

Edmonton, reported by Mrs. Spence, has seven new chapters to its credit and one of the objects for which funds are being raised is to be used to come to Canada when the war closes. These with other good works were reported by Mrs. Bayne, Sherbrooke told of things done for the British Navy and for the Victorian Order of Nurses, in aid of the care of soldiers' families and many minor works. St. Catharines introduced a new feature when it told of one chapter which devotes all its time to newcomers who intend making Canada their home.

Toronto had a long list of patriotic works to report, among them the collection of 20,000 pairs of socks, work and collections for the preventorium, support given to nurses in India, care of soldiers' families and assistance given to Belgians, French, sailors and soldiers. The amounts collected by Toronto during the year totalled \$93,324.92.

Reports from the United States Daughters of the Empire proved very interesting. These were read by Mrs. Elliott, and covered the work of 73 chapters. Mrs. Langstaff also reported for the Victoria League.

Across the Sea, with which the I.O.D.E. are affiliated. Greetings were sent from those assembled to their royal highnesses the Duke and Duchess of Connaught on the good afternoon was taken up with a private session and the reading of an address by Mrs. Macdougald, national standard bearer of the order, who made a plea for the women to assist in abolishing slums and in Canadianizing the foreigner. To further this end, I.O.D.E. settlement houses and playgrounds were advocated.

An admission given by Mrs. Macdougald was: "Women must see to it that the men across the seas who are now our brothers-in-arms, must not become the prey of speculators, the greed of which makes the king of rags and the scum of the earth. Children of the men who had saved the liberty of the world must not be fed as kindling to human greed."

Brownfield, Miss Marjorie Brownfield, Mrs. J. Sawyer, Mrs. T. Bellamy. In addition included to the members of the special government trade commission, including Messrs. J. W. Woods, Dupre, Allan, Wardlaw, Hathaway and Campbell, also sailed on the Kronland.

CANNOT AUTHORIZE THE TERMINATION OF LEASE

License Board Cannot Exercise Powers Until Prohibition is In Force.

Several applications have been received by the license board to exercise their judicial functions under the Ontario Temperance Act with regard to the termination of the leases of hotel property within three months. The board commenced to consider these cases under the impression that they could arrange for the cancellation of the leases at the end of three months, that is about the time that prohibition will go into force. They found, however, that the clause giving their power to act as arbitrators in such cases, while properly inserted in the bill, will not go into effect until the rest of the bill becomes active, on Sept. 16.

Apparently it was the intention of the government to enable the board to exercise these functions during the next three months, but it failed to make provision to give the board the necessary legal power. It would appear, then, that the board will not be able to give authoritative assistance for the termination of leases to hotel property in disputes between landlords and tenants until after the act goes into force.

PRESENTED WITH LIFE MEMBERSHIP.

A life membership in the I. O. D. E. was presented the regent of the York Chapter at its last meeting, Mrs. Bennett, first vice-president, making the presentation. Thru the kindness of Rev. Dr. Creighton of the Christian Church, the chapter sent \$250 to Mrs. Rivers Buckley for prisoners of war in Germany.

WILL FURNISH SOLDIERS' BED.

The proceeds of a small dance, engineered by Miss Blackstock, of Victor Blainey, and amounting to \$20.50, have been forwarded to the Parkdale Chapter, and will be used in furnishing a bed in the Soldiers' Convalescent Home.

READING CLUB MEETING.

The Riverdale Reading Club met at the home of Mrs. Blackstock, of Victor Avenue, the president, Mrs. Charles Sheath, in the chair. A program with the poems was arranged by Mrs. Berkeley, who read poems, presenting various ideals of woman as shown in the writings of Kipling, Charlotte Perkins Gilman and Mrs. Browning. A charming poem by Mrs. Sheath was also read. Others who took part were Mrs. Blain, Mrs. Blackstock, Mrs. Walkinshaw and the Misses Jolly and Peggie.

Yesterday the city architect received 25 applications for building permits, the aggregate value of the buildings proposed to be erected being \$71,270.

Do Not Risk Your Favorite Linens at the Laundry, Mrs. Canadal

Have the work done at home under your personal supervision with an EDDY INDURATED WASHBOARD.

Made of one solid lasting piece of hard-ened pulp, it will neither splinter nor fall apart. The slightly rounded even crimp is easy on the clothes and fingers, yet loosens the dirt easily.

COUNCIL WILL ABIDE BY LEGAL OPINION

Mayor Hopes Something Will Come of Criticism of Government.

Mayor Church, in discussing the action of the council in regard to the budget, states that he supposed the council would abide by legal opinion on the war tax. He hoped something would come of the criticism of the government. He added that the government had not done anything for the units that had gone overseas. Something should be done to stimulate local recruiting. If the government could take this money and put it into the consolidated revenue fund, then they could tax the people for postoffice customs houses, and any other Dominion purpose, and take the money out of the consolidated revenue fund.

SUES ON A LOAN.

Evidence was taken in the case of Crozier Couther v. J. Higgins before Mr. Justice Sutherland yesterday. Plaintiff loaned defendant, on Sept. 25, 1914, the sum of \$1700, to be repaid in two weeks. The sum has not yet been paid, nor the interest, nor any part of it. Plaintiff claims the \$1700, the interest and the costs of the action. Judgment will be given this morning.
