THE WOMEN'S  
AUXILIARY WORKThe Extra Cent a Day Fund—  
Change Date of Annual Meet-  
ing

The women's Auxiliary meetings opened this morning with prayers followed by a Bible reading by Mrs. Allan Daniel. Meetings of the committees on Dorcas work, and the literature and treasury committees will be held. There was also a meeting of the junior superintendents.

The report of Mrs. Mary A. Roberts, secretary-in-charge of the Extra Cent a Day Fund was read by her and showed receipts of \$221.99, being \$37.65 more than last year. This fund is subscribed to by branches which have fulfilled their pledges. Donations from the fund were made as follows: New church at Highland, \$22; church at Land's End, \$24; four for Boiestown church, \$71; communion set for Greenwich, \$25; to missions in the northwest, \$25, and to the foreign field \$35.65. The disposition of the balance, \$107.38, will be voted on this afternoon. Ten new branches subscribed to this fund during the year, but there are thirty-two not yet enrolled.

A paper was to have been read by Miss Myra Williston of Bay du Vin, on the influence of the bishop, but she was unable to be present her paper was read by Mrs. John McAvity. It proved very interesting.

A discussion took place over the proposal to change the date of the annual meeting. Mrs. William Smith of Gagetown, sent regrets at not being able to be present, as it was very difficult to reach the city since there was no travel on the river. For this travel reason and principally because the bishop was away from the diocese at this time of the year, it was decided to hold the meetings after this between May 1 and 16, the date to be decided by the executive.

CAPTAINS TO USE  
THEIR DISCRETIONOrders About Docking at Halifax  
or Montreal

Montreal, April 22.—The Duke of Connaught will inspect the harbor this afternoon on the yacht Sir Hugh Allen, under the command of the Harbor Commissioners.

Local shipping circles were reassured this morning by the fact that the patrol boat Stanley in the lower gulf will be provided with a second wireless operator.

The commanders of the Teutonic and the C. N. R. boats have been given orders to use their discretion whether to dock at Halifax or proceed to Montreal.

GARRETT-TYNER

Carmarthen street Methodist church was the scene of an interesting event at six o'clock this morning, when James Douglas Garrett, formerly of Crouch Road, London, Eng., and now a member of the staff of T. H. Estabrooks & Co., Ltd., was united in marriage to Miss Annie Blanche, eldest daughter of Mr. and Mrs. Robert Tyner, of Broad street. The ceremony was performed by the pastor of the church, Rev. T. J. Deinstadt, with the church choir assisting in the musical portion of the service, which included the singing of "The Voice That Breathed Our Eden," and the rendition of the wedding march by the organist, Miss Fox. The bride, who was given in marriage by her father, wore a becoming suit of grey with royal blue hat. After the ceremony Mr. and Mrs. Garrett left on the Boston train for a wedding trip to Portland, Me., and on their return will reside at 67 Golding street. A large number of handsome wedding presents testified to the popularity of the bride and bridegroom.

BURIED TODAY

The body of Mrs. James A. Hepburn was taken from her late residence, city road to the Mission Church, where cremation was celebrated this morning. The funeral service was held at 2.30 and interment was in the Church of England burying ground. Rev. H. A. Collins officiated.

The funeral of William Miller was held this afternoon from his late residence in Chesley street to St. Luke's church, where the burial service was conducted by Rev. R. P. McKinn, assisted by Rev. G. B. Trafton of the Reformed Baptist church. Interment was in the Church of England cemetery.

Washington, D. C., April 23.—New England forecasts.—Fair tonight with a probability heavy. Friday fair, but warmer in interior. Moderate to northerly winds.

SAYS FALLS BRIDGE  
SHOULD BE IN ITS  
POSITION BY FALL

The late spring is causing some delay in the work on the structure of the new highway bridge at the falls. Contractor W. B. McVay said this morning that the weather was too cold today for the men to work. More important was the fact that they could not get their granite down the river until the ice came out. Men were at work now at Spoon Island quarrying and preparing the stone and it would be brought down as soon as the river opened.

Another month or perhaps six weeks would be required to make things ready for the steel men but Mr. McVay said that this was not holding back the work on the superstructure as the steel was not here yet. The bridge should be in position by fall and when the steel work was completed he would still have some work to finish up. The length of time required by the bridge company to complete their part of the contract and the kind of weather then would determine whether the finishing touches could be given in time to allow the use of the bridge during the coming winter.

NINE BELOW FREEZING  
AND 40 MILE WIND;  
AND THIS IS APRIL 23

For doggedness stick-to-itiveness, the winter certainly wins. Spring is having a hard time to dislodge it. There are some inclined to believe that the calendar is lying, for it was April 23. With the thermometer nine degrees below freezing point, and the wind blowing a forty-mile gale, the air was anything but spring-like.

The highest temperature registered all day yesterday was forty-three above, and at 9 o'clock it had dropped to thirty-seven. It reached twenty-three, the lowest point, during the early hours of the morning, and at 9 o'clock was only two degrees higher. On April 22 last year the highest was fifty-five, and the lowest thirty-six; this day a year ago the mercury got up to fifty-six and did not fall below forty above.

The wind blew a gale last night—

and then came a blizzard at the rate of something like fifty miles.

IRISH FLAG OVER THE  
MONTREAL CITY HALL

Montreal, April 22.—This city received a mild shock this morning, when an Irish flag was discovered flying from the staff on city hall, this St. George's Day. Mayor Martin was informed of the matter, and the colors of the Emerald Isle were replaced by the Union Jack.

Flags of the empire were raised on the city hall yesterday in honor of the birthday of the new city government. All were taken down but the Irish flag, and this morning the man who had the key to the roof was missing, so it floated in the early sunshine, until the door was forced.

BOO THE JUDGE AT  
REGINA HORSE SHOW

Regina, April 22.—An unpleasant incident marked last evening's session of the horse show, when the crowd booed the judge who gave Bate and Jones of Ottawa, first in the four hand class, placing Regina and Winnipeg entries in a lower class.

Hon. Clifford Sifton's entries were

again given high awards. He took a first for the best saddle horse and first for best hunter.

GUNMAN WANTED IN  
MONTREAL SEEN IN ONTARIO

Coe Hill, Ont., April 22.—One of the Montreal gunmen was identified from a photograph yesterday, five miles west from here. He was moving in the vicinity of Clydeville.

## INDIGMENTS IN SIEGEL MATTER

Boston, April 22.—Three bulky indictments were returned by the grand jury, which has been investigating the banking business conducted at the store of the Henry Siegel Company in this city, in the Superior Criminal Court. It is estimated that the amount involved is ascertained as high as \$1,000,000. A large number of depositors lost savings.

The grand jury has been inquiring into charges of larceny, and auditors put to work on the books of the bank by Dist. Attorney Peletier presented the report of their examination to the jury.

About forty witnesses testified during the six days of the investigation.

In addition to the charges of larceny, it is said the grand jury inquired into the making of false statements concerning the financial condition of the company. The name or names of the person or persons indicted will not be disclosed until arrests are made. Warrants will be issued immediately and turned over to the police.

CONDITION OF AUSTRIAN  
EMPEROR NOT SO GOOD

Vienna, April 22.—The condition of Emperor Francis Joseph was not so satisfactory today. His rest last night was disturbed by fits of coughing. The catarrhal symptoms showed no signs of abatement, but his strength and appetite were satisfactory.

cans Killed at Vera Cruz

Washington, April 22.—Diplomatic relations between the United States and President Huerta's government were completely severed at 12.05 o'clock this afternoon.

The members of the house naval affairs committee today decided to amend the pending naval appropriation bill so as to make the money carried therein immediately available. The appropriation amount to \$32,000,000.

Washington, April 22.—Huerta has given Nelson O'Shaughnessy, the American charge d'affaires in Mexico City, his passports and he has gone to Vera Cruz; Senator Algora, Mexican representative in Washington, has been given immediately available. The appropriation amount to \$32,000,000.

Washington, D. C., April 22.—Twelve Americans have been killed and fifty wounded at Vera Cruz after two days of fighting, the American naval force held the entire city.

General Carranza, the Constitutional chief, has addressed a note to the American government, requesting the seizure of Vera Cruz. He characterizes it as an act against the Mexican nation in "violation of the national sovereignty" and "invites" the United States to withdraw.

## Situation Early Today

Washington, D. C., April 22.—Twelve Americans have been killed and fifty wounded at Vera Cruz after two days of fighting, the American naval force held the entire city.

General Carranza, the Constitutional chief, has addressed a note to the American government, requesting the seizure of Vera Cruz. He characterizes it as an act against the Mexican nation in "violation of the national sovereignty" and "invites" the United States to withdraw.

This was the situation, which confronted President Wilson and the administration today. The president, Secretary Bryan and General Garrison, and Major General Woodhouse, chief of staff of the army, were in the White House, discussing the various developments. Steps looking toward a restoration of the embargo on arms have been recommended and may be decided today.

## O'Shaughnessy Given Passports

Nelson O'Shaughnessy, charge d'affaires in Mexico City, has been handed his passports by General Huerta, and is preparing to leave.

That Huerta might follow his action with reference to O'Shaughnessy with a declaration of war, would not surprise in most cases has followed the departure of a minister or charge d'affaires. Charge Algora of the Mexican embassy has instructions from the Huerta government to leave. His departure will be accompanied by a charge d'affaires.

O'Shaughnessy has been handed his passports by the Mexican government.

In the determination of the United States had been to pause after Vera Cruz was taken, and wait for the effect on Huerta, before any attack on Tampico. What the overt developments may mean to change the situation was a conjecture.

The joint board of the army and navy has recommended plans for an eventual blockade, if necessary, all ports on the Atlantic and Pacific coasts of Mexico.

The navy is moving rapidly to blockade, if necessary, all ports on the Atlantic and Pacific coasts of Mexico.

The army is ready to move in an instant. Already a big portion of it is scattered along the southern tier of the United States.

A copy of the text of the Carranza note in Spanish was received here today by the Constitutional agency. An important paragraph in it differed from the translation made for Consul Carothers at El Paso was translated as follows by the Mexican Constitution:

"Moreover invasion of our territory, the permanency of our forces at Vera Cruz or a violation of the rights which constitute our existence as a free and independent state, would certainly drag us into an unequal and deplorable war which we always desired to avoid."

## WAR NOTES

There had been 5,000 American officers and men landed at Vera Cruz up to last night.

Nelson O'Shaughnessy reached Vera Cruz today. He expected Huerta to make a formal declaration of war today.

Steps towards mobilization of the New York troops were taken today.

James H. Warren, president of the Mexican Abstract and Charter Co. Mexicans "Now that United States forces have been landed in Mexico, it will, in my opinion, be twenty-five years before they will be able to leave."

All quiet in Mexico City today. Last night marching crowds cried out "Death to the Yankees."

It is reported that the embargo on arms has been ordered in force again.

The Late Fred Jacobs of I. C. R.

Moncton, April 22.—The funeral of Fred Jacobs, an I. C. R. brakeman, who was killed last week in the Truro yard, was held on Wednesday afternoon.

Besides his family, the young man is survived by his mother, Mrs. George Hay, of Truro; five half-brothers, Kenneth McChesley, in the United States; Alexander McChesley, of Moncton; Samuel McChesley, of Truro; John Ray, of Truro, and Daniel Ray, of Boston.

Mrs. Gordon Stevens, of Truro, and Mrs. John A. Christie, who is living in California, are half-sisters.

## INDIANTOWN RESCUE

Surveyors Hurried to Save Boy  
But Twas Little Doggie That  
Was Overboard

Load cries for "help" and "he's overboard," then the noise of someone struggling in the ice-bordered waters, caused heart-throbs of excitement amongst members of a surveying party working near the Stetson-Cutler mill dam in Indian town yesterday afternoon. Dropping their instruments, and throwing all cares aside, for none was important with a life at stake, they ran with all possible speed to the spot in the dam where three or four young fellows had a few moments before been playing.

Every moment lessened the possibility of rescue, and each member of the party had visions of a Carnegie decoration safely planned upon his breast by reaching the place in time to plunge boldly and unhesitatingly into the chilling waters of the dam, when the sinking child by his curly locks, and bear his exhausted body in triumph to the shore.

Their blood tingling with the adventure, and their manly young faces wrapped in deep concern, the several youthful stalwarts of the surveying party were in a very few moments at the water's brink, ready for the work of rescue.

But, strange, the sounds were not those of a fellow human in distress, those gasping, whining sounds which came floating up from beneath the sluice at the end of the dam. But whatever or whoever it was, there was still life.

Quickly a human chain was formed and the athletic young surveyors set about rescue. "Bob" Tapley was lowered into the sluice some few feet deep, was under for a few seconds, gave the shout to "hoist him up" and up he came. The whole cause of trouble was deposited once more on solid earth, looked around him with blinking eyes, and then, to "hoist him up" and up he came. The whole cause of trouble was deposited once more on solid earth, looked around him with blinking eyes, and then, to "hoist him up" and up he came. The whole cause of trouble was deposited once more on solid earth, looked around him with blinking eyes, and then, to "hoist him up" and up he came.

Whispered knowingly at his little boy's playmates, looked thankfully at his noble rescuer, shook the water from his coat, and like the intelligent little doggie that he was, trotted homeward to the warmth and comfort of his master's fireside.

Many will say "IT SERVED HER RIGHT!"

Woman Refuses to Remove Hat  
in Picture House; Her Phrases  
Are Clipped Off

London, April 22.—A woman visitor from Chicago is mourning the loss of several beautiful birds of paradise, which were clipped off her hat in a picture theatre last night by a man who sat behind her, and whose request for the removal of her hat she had ignored. The loss was not discovered until she reached home.

NEW STREET PLAN  
FOR THE NORTH END

Residents of the North End are advocating a street extension scheme. The proposal is that Elm street should be extended westward, parallel with Main street to join Victoria street at Adelaide. It is said that the work would not be expensive, as all that would be needed would be a retaining wall for a short part of the distance and some filling which could be done with street sweepings. When completed it would be an almost straight roadway from Main street, at the corner of Simonds, to Adelaide street, and thus relieve much of the congestion of Main street.

It would also provide another and better means of access to the rifle range and the baseball park.

## MILL TO START

Miller's mill, Straight Street, will resume operations tomorrow morning.

McL. Barker for vacancies in the high school teaching staff, caused by resignation of Miss Gertrude Welling and William H. Irving.

J. P. MacGregor, maritime representative of the Grand Trunk, left yesterday for Edmonton to be division freight agent of the G. T. P. The Moncton city club presented to him a silk umbrella. Hon. F. J. Sweeney made the presentation.

SURVEYING ROUTE  
FOR STREET CARS TO  
EAST SAINT JOHN

A party of engineers started yesterday to survey for the street car line extension to East St. John from Kane's corner. The work of surveying the line is being done by men employed by the St. John Railway Company, but the route outlined by them will have to be approved by the county council before the work is started.

## THE RIVER TODAY

J. Fraser Gregory received word this morning saying that there had been no further change in the condition of the ice at Fredericton today.

The Reach is now reported to be clear of ice and the D. J. Purdy and O'Connell will both make their initial trips on Monday. The Champlain will leave on Saturday on her first trip up the Belles.

River reports today are—  
Aroostook—River all clear here, freshet very high.

Woodstock—Strong northwest winds, fair and cool, no change in height of water, quite a lot of small ice running.

Fredericton—Heavy northwest gale, cold, no change in ice.

ST. JOHN STUDENT

Aubrey Murphy's Success—The  
May Queen Case

(Special to Times)  
Fredericton, N. B., April 22.—At a meeting of the Board of Education this morning the engineering scholarship was awarded to Aubrey E. Murphy, a third year student, from St. John.

The supreme court resumed this morning and is hearing arguments in the May Queen Steamship Company case. D. Mullin, K. C., and G. H. V. Belyes are appealing from the order of Judge Me-Keown to wind up the concern. J. B. M. Baxter, K. C., is contra. The court is expected to deliver judgments tomorrow.

The weather here today is much improved. With strong westerly wind, ice settled down on the bridge piers at seven o'clock last evening, but since that time has not moved. The river is open from Grand Falls to Macquac Island and from Oromocto to St. John. The water here rose several inches during the night.

Rev. A. S. Newcombe is much improved.

W. Henry Lawrence, for several years steward of the Graftonshire Club, died last week from paralysis, aged 67.

HUERTA TO HAVE  
400,000 SOLDIERS?

Vera Cruz was quiet early today, but the marines and bluejackets do not believe their work is even near completion. In view of developments at Mexico City an attack on this important seaport in an effort to drive out the Americans would not surprise the men here.

Reports here declare that Huerta has said he will have 400,000 men in the field within twenty days. He is quoted as having declared that Mexico is "not only defending her national sovereignty, but that of all Latin-American states."

From 250 to 300 Mexicans have been shot down and more than 200 taken prisoners and placed on the cruiser San Francisco.

Canada and Rear Admiral Badger today prepared a proclamation of martial law.

Galveston, Texas, April 22.—General Emiliano Zapata, commander of rebels in Southern Mexico has formally declared war on the United States, and is preparing to take the field actively against the American forces.

An additional regiment of marines has been landed at Vera Cruz.

BALL LEAGUE MAY  
VET MATERIALIZE

May Be Meeting Here—St. John  
Doing All That Can Be Ex-  
pected

There is still hope that the Maritime Baseball League will be a reality. In spite of the fact that Halifax papers say that the New Glasgow magnates "are glad that the league has fallen flat," a letter was received here from N. W. Mason yesterday asking what was being done and expressing considerable interest in the matter. For this reason it is believed that the idea that the Pictou county men were pleased that there was no league originated with the Halifax papers.

About a week ago the only thing that held Halifax from taking up the proposition was a difference of about \$200 between what they wanted to give New Glasgow and what New Glasgow wanted from their games in Halifax. When it was learned that this was holding arrangements up, the St. John club wired to the Halifax organization, saying that they were willing to guarantee this \$200 if the Halifax club came out behind at the end of the season. No reply has been received.

In order to discuss the matter together it has been suggested that the representatives meet again in St. John and in order to bring them together, the St. John club has offered to pay the expenses of the out-of-town delegates to St. John and in this way it is hoped that something definite may be accomplished. If the league then materializes, it cannot be said that the St. John men did not do their best.

#### FEMININE FACTS

The Michigan State Suffrage Association has endorsed a state system of retirement salaries for teachers.

In rural schools in Missouri, girls are organized into "pick and shovel clubs" under the auspices of the National Congress of Mothers.

In a Budapest publication it is stated that the Countess Oatenplaten, who spent more than \$200,000 a year on dress, has left her heirs sixty dresses and 110 hats—but nothing else.

The most popular feminine Christian name in France is Mary.

Mrs. Anderson Hughes Drew says that New Zealand shows the success of woman's suffrage in that infant mortality is smaller than in any other country in the world.

The Douma in Russia has greatly extended the property and personal rights of married women by passing a bill enabling them to obtain passports without their husband's permission.

A suffrage restaurant is to be opened in Boston.

Mrs. A. B. Lancaster has been engaged as regular matron of the huge Diamond Match Company's plant at Oshkosh, Wis., her work being after the "big sister" plan. It is understood the company will employ such matrons wherever it has many girl employees. Hundreds of girls are employed at Oshkosh.

#### Hints for the Cook

**Sponge Cake**  
Scant cup of sugar, grated rind and juice of half lemon, little salt, yolks of three eggs, well beaten; mix well with sugar, then add one tablespoon boiling water; mix. Add two tablespoons cold water, heaping cup of flour with teaspoon cream of tartar, one-half teaspoon of soda. Beat well and add the whites well beaten. Bake in a moderate oven.

**Nut Cake**  
Cream 1 cup butter, then add 1 cup sugar, cream this well into butter, 1 cup milk, 2 cups flour, whites of 6 eggs, beaten well, put in last 1 teaspoon baking powder and a little salt; both added to Flavor to taste, and add nuts or raisins flour and sift together three times. If you choose.

#### CHILDREN'S SCALP SORES ARE HEALED BY ZAM-BUK

Mothers are well aware how frequently children contract scalp sores, ringworm, etc., at school. Some little sufferer is sent to school with a sore of this nature. At play the children change caps, and right there the infection is spread—the damage done.

Some children are particularly liable to scalp sores, etc., and often these break out with annoying frequency. Such a case was that of the daughter of Mrs. Albert Gaudin, of 488 Avenue St. Montreal. Mrs. Gaudin says: "My little three-year-old daughter suffered frequently from scalp disease, and try as we would, we could not rid the little one of this. We tried everything we could think of, but failed to effect a cure, until we were advised to try Zam-Buk. This balm seemed entirely different to anything we had ever tried before, and from first applying it there was a marked improvement. The sores became less inflamed and less irritable. After a few days, they ceased to trouble the child; and in less than a fortnight from first commencing with Zam-Buk they were completely healed. In view of these facts I feel it my duty to let mothers know how beneficial Zam-Buk is."

There is no doubt that for scalp sores, ringworm, ulcers, abscesses, cold cracks, chapped hands, frost-bite, and similar sores, Zam-Buk is absolutely without equal. It is just as good for piles, varicose sores, poisoned wounds, cuts, burns and scalds. Rubbed well in over the affected part, it cures rheumatism, sciatica, etc., and rubbed into the chest it relieves the tightness and feeling of weight due to contracting a bad cold. All druggists and stores sell at 80c. box, or post free from Zam-Buk Co., Toronto, for price. Refuse imitations.

### Easy & Practical Home Dress Making Lessons

Prepared Especially For This Newspaper by Pictorial Review

**AN EMBROIDERED MARQUETTE**  
The material is embroidered before it is cut or afterwards. Experience, however, has taught that it is better to do this before cutting out the material; then one avoids the danger of stretching and loss of line.

Now, turn the hem in the right front of the waist on small "o" perforations. Gather the upper and lower edges of front and back between double "T" perforations. Sew yoke to front and back, notches and centers even. Close under-arm seam as notched. Large "O" perforations indicate center-front. Sew large collar to neck edge as notched. Sew stay to lower edge of center-front. Turn hem in shield at notches, sew standing collar to neck edge as notched.

The sleeve is not difficult to make, and the same directions that have been given so frequently in these columns may be carried out here, since there is no variation from the simple sewing up of the sleeve and inserting it into the armhole as notched.

For the skirt, now turn under the edges of the right front gore on small "o" perforations. Close side seams as notched. Pleat extensions in lower front and back gores, creating on slot perforations, lap to small "o" perforations and press. Turn under lower edge of upper front and back gores on slot perforations, adjust lower gores to position underneath upper gores. Notches and centers even (large "O" perforations indicate center-front). Stitch in tuck effect. Lap right front gores on left, centers even; stitch to position from single large "O" perforation in upper front gore to lower edge. Sew to lower edge of waist, over stay, centers even, easing fullness between double "T" perforations (center-front). Adjust belt to position, centers even. Large "O" perforation in belt indicates center-front and upper edge. The effectiveness of the dress may be enhanced by hemstitching the upper section of the skirt.

**How You Can Remove Unsightly Hair or Fuzz**  
(Boudoir Secrets.)  
By having a small package of delatone handy, you can quickly banish ugly, unsightly hairs wherever they may appear. Just enough paste to cover the hairy surface is made with some of the powdered delatone and water. This is applied for about 2 minutes, then removed and the skin washed. This simple method not only banishes every trace of hair or fuzz, but leaves the skin firm, smooth and free from blemish.

### ONE WOMAN, ONE VOTE

Important Principle Decided By Anglican W. A. Missionary Meeting Last Evening—The Dorcas Society

"One woman, one vote" was the important question decided at the meeting of the Women's Auxiliary yesterday afternoon. Formerly a delegate who was also a life member had the right to vote in each capacity under the constitution, but after much discussion the above decision was arrived at.

In the afternoon the report of the Diocesan Dorcas secretary, Miss Frances M. Hay, was presented. It showed that fifty-nine bales, of which thirty were assigned to the diocese of Fredericton, had been distributed, the number of new articles provided being 1,556, the number of quilts 110, the cost of material being \$745.27. Groceries cost \$724.66, Christmas boxes \$481.15, and freight \$47.08. Of the special gifts the approximate cost of church furnishings was \$275. The number of letters and postcards written was 120.

The report of the secretary-treasurer of the babies' branch was presented and conference on methods of work was held. In the evening a public missionary meeting was held in the school house. Rev. G. A. Kubring presiding. Instructive addresses were given by Rev. Craig Nichols and Rev. Canon Siam of Moncton, who took the place of Miss Cartwright, who was unable to come here. After a collection had been taken and appropriate hymns had been sung, the meetings were adjourned until today.

### RUNNING TO A FIRE

(Canadian Courier)  
Some years ago, Woodrow Wilson coined a phrase which is applicable to the present state of Canada's affairs. Commenting on Carlyle's style, he said: "All life is not running to a fire."  
Our business and financial men do not seem to be satisfied unless they are running ahead at top speed. If the volume of business does not show an increase of twenty-five per cent they imagine they are losing their grip and that the country has entered upon a retrograde era. They are not happy unless they are running to a fire.

### Don't Suffer With Corns

Try This Remedy  
You can't be disappointed with Putnam's Corn Extractor. It is not only the oldest Corn Doctor, but as thousands know, it is the best. Putnam's Extractor is not a fleshy salve that runs all over the foot and inflames it, no, Putnam's is made to go right at corns—to root them out for all time to come. You can remove your corns quickly with a 25c. bottle, sold and recommended by druggists.

This is the age of neurosthenia, owing to our inability to live quietly and sanely. This disease is fomented by sensational magazines, newspaper front pages with red type, the eccentricities of the fashion papers and the excessive attention paid to cheap theatrical productions. The readers of this paper will be pleased to learn that there is at least one dreadful disease that science has been able to cure in all its stages, and that is Cancer. Hall's Cancer Cure is the only positive cure now known to the medical fraternity. Cancer being a constitutional disease, requires constitutional treatment. Hall's Cancer Cure is taken internally by acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing her work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

**How Thin People  
Can Put on Flesh**  
A New Discovery

"Thin men and women—that big,  
heartily, filling dinner you ate last night.  
What became of it? The fat-producing  
element in it contained? You haven't  
gained in weight one ounce. That food  
passed from your body like unburned  
coal through an open grate. The mater-  
ial was there, but your food doesn't  
work and stick, and the plain truth is  
you hardly get enough nourishment  
from your meals to pay for the cost of  
cooking. This is true of this fatted  
world over. Your nutritive organs, your  
functions of assimilation, are sadly out  
of gear and need reconstruction.  
Cut out the foolish foods and funny  
sawdust diets. Omit the flesh cream  
rub-ons. Cut out everything but the  
meats you are eating now, and eat with  
every one of those a single Sargol tab-  
let. In two weeks note the difference.  
Five to eight good solid pounds of heal-  
thy, "stay there" fat should be the re-  
sult. Sargol charges your weak, stag-  
nant blood with millions of fresh new  
red blood corpuscles—gives the blood the  
carrying power to deliver every ounce of  
fat-making material in your food to  
every part of your body. Sargol, too,  
mixes with your food and prepares it  
for the blood in easily assimilated form.  
Thin people gain all the way from 10 to  
25 pounds a month while taking Sargol,  
and the new flesh stays put. Sargol  
tablets are a scientific combination of  
six of the best flesh-producing elements  
known to chemistry. They come 40  
tablets to a package, are pleasant, harm-  
less and inexpensive, and all druggists  
sell them subject to an absolute guar-  
antee of weight increase or money back.

**LAST TIME FOR "CHELSEA 7750."**  
Tonight will be the last occasion for  
the showing of the four-reel Famous  
Players' production, "Chelsea 7750,"  
which seemed to catch the fancy of yester-  
day's large crowds at the Imperial.  
Exciting incidents dot this play through-  
out and culminate most interestingly in  
the fourth reel, which is the absolute  
quintessence of melodrama and keeps  
the watchers in breathless suspense. The  
turn-out of the New York fire depart-  
ment and the views of the arrest of the  
counterfeiter as taken from the roof of  
an adjoining building are worthy of  
particular mention. Tomorrow and Sat-  
urday the Imperial has another first  
class drama in the naval warfare yarn,  
"Under Sealed Orders," having to do  
with the present trouble between Mexico  
and the United States. This feature will  
be continued until Saturday night.

Gastine Sabline arrived in the city  
yesterday from Paris. He proposes to  
buy a farm and settle in New Brun-  
swick and will go to Hoyt Station today  
to look over a place. More New Brun-  
swick farms are being taken up this year  
than ever before, according to James  
Gibbich, secretary of the farm settle-  
ment board, and most of the farms be-  
ing sold are offered by old folk who  
want to retire.

Thomas Darby, a Plymouth man, had  
the unique experience recently of being  
attacked by a muskrat. He passed it on  
the street, was immediately attacked by  
it and before he could beat it off had  
his trousers badly torn where the animal  
had seized them.

**BIG EATERS GET  
KIDNEY TROUBLE**

Take Salts at First Sign of Blad-  
der Irritation or Backache

The American men and women must  
guard constantly against kidney trouble,  
because we eat too rich food. Our blood  
is rich, our blood is filled with uric  
acid which the kidneys strive to  
filter out, they weaken from overwork,  
become sluggish, the eliminative tissues  
clog and the result is kidney trouble,  
bladder weakness and a general decline  
in health.

When your kidneys feel like lumps of  
lead; your back hurts or the urine is  
cloudy, full of sediment, or you are  
obliged to seek relief two or three times  
during the night; if you suffer with acid  
headache or dizzy, nervous spells, acid  
stomach, or you have rheumatism when  
the weather is bad, get from your phar-  
macut about four ounces of Jad Salts;  
take a tablespoonful in a glass of water  
before breakfast for a few days and your  
kidneys will then act fine. This  
famous salt is made from the acid of  
grapes and lemon juice, combined with  
lithia, and has been used for generations  
to flush and stimulate clogged kidneys;  
to neutralize the acids in the urine so it  
no longer is a source of irritation, thus  
ending bladder disorders.  
Jad Salts is inexpensive; cannot in-  
jure, makes a delightful effervescent  
lithia-water beverage, and belongs in  
every home, because nobody can make  
a mistake by having a good kidney flush-  
ing any time.

## ELECTION CARDS

**A Vote For F. L. Potts  
Means Progress**

**Having Invested, We Now Demand  
Justice**

Every interested citizen is asked to  
read and fairly judge the principles of  
the following:  
We have two vacant lots side by side;  
the purchase price is \$15,000 each. A buys  
one, B buys the other. A builds a \$40,  
000 place of business and stocks it with  
\$100,000 worth of merchandise. B does  
nothing, lets his land lie idle. Ten years  
after, A asks B to sell him his vacant  
lot; B replies "I will for \$15,000." A  
says: "Why you only paid \$15,000. It is  
the same piece of land; has not done  
anything for the community, only cast  
a dark shadow over the street. Why  
should you ask such a price?" B replies,  
"Well, when I bought this there wasn't  
any paved streets, side walks, water and  
sewerage, theatres, hotels, churches, busi-  
ness houses around here, so if you want  
it, you must pay me \$15,000."  
Now, gentlemen, this answers your  
question. All advancement in business,  
good streets, etc., is reflected in the  
values of the land; therefore, the man  
who builds, the man who stocks his  
store should not be penalized for doing  
so.

The city should receive taxes only for  
the value it gives the individual, and  
that value is the water and sewerage,  
paved streets, side walks, police pro-  
tection, lights, which are reflected in land  
values; so I hope that our interested citi-  
zens will give me their support and give  
me an opportunity to demonstrate that  
the policy for which I stand is in the  
interest of a progressive city, and I  
trust I am fully aware that it must be  
brought about gradually, I am, never-  
theless, certain it is the only true policy  
for collecting revenues.  
Much on April 28th will be very  
much appreciated by,  
Yours truly,  
F. L. POTTS.

**To The Electors of The City of  
St. John:**

Ladies and Gentlemen:—  
I thoroughly appreciate the gen-  
erous support given me in the pre-  
liminary election, and I would ask  
the continuance of your approval  
on Tuesday next in the final selec-  
tion of commissioners. To all citi-  
zens I respectfully submit the  
record of the Water and Sewerage  
Departments, over which I have  
presided during the last two years,  
and would ask that you do your  
share in making my return to the  
office sure.

I am tied up to no party in this  
campaign, and I am not a corpo-  
ration candidate. My sole interest  
will be for the furtherance of the  
city's affairs whenever and wher-  
ever I have the opportunity.

Yours sincerely,  
**RUPERT W. WIGMORE.**  
Commissioner of Water  
and Sewerage.

Let Wigmore finish his work for  
better fire protection, better water  
supply, and better sewerage dis-  
posal.

**To The Electors of The City  
of St. John:**

Ladies and Gentlemen:  
I beg to announce that I will be a  
candidate for the office of mayor at the  
coming civic election. I trust that my  
record and service in the Common  
Council, extending over a number of  
years, has been of such a character as  
to meet with your approval, and should  
you honor me with your support and  
elect me for that which I had marked  
out as the closing term of my career  
in municipal politics, I shall endeavor to  
perform such service as may fall to my  
lot to the best of my ability.  
Yours respectfully,  
JAMES H. FRINK.

Mr. Kellogg was always teasing his  
wife; it was strange that she did not  
often suspect the pitfalls he prepared  
for her. This time he came home to  
dinner and said, gravely, "Young White's  
wife gave it to him hot and heavy this  
morning."  
The Whites had been married but a  
few months and Mrs. Kellogg promptly  
scented a scandal.  
"Fighting already? How dreadful!"  
she continued. "Tell me about it."  
"O, she just gave him one of the bis-  
cuits she made for breakfast," replied  
her husband—YOUTH'S COMPANION.

The bored youth turned to his dinner  
partner, with a yawn.  
"Who is that strange-looking man  
over there who stares at me so much?"  
he drawled.  
"O, that's Professor Jenkins," she re-  
plied, "the famous expert on insanity."

**To the Electors of the City  
of St. John:**

Ladies and Gentlemen:  
I desire to express my sincere ap-  
preciation of the very gratifying support  
accorded me in the primary election of  
Tuesday, May 19th. I trust that in  
the final you will by your ballots per-  
mit me to serve your wishes for a fur-  
ther period, in returning me to office,  
and that your opinion as expressed at  
the polls on Tuesday may be accepted  
with satisfaction with the manner in which  
my duties have been performed in the  
past.  
In the department over which I have  
had the honor to preside I have tried to  
meet the demands of the public as well  
and faithfully as my abilities and the  
facilities at hand enabled me to do.  
The policy of improving our streets  
with permanent pavement and better  
sidewalk regulations I will continue to  
urge and popularize. Daily committee  
meetings are most essential and should  
be revived. The Assessment Act should  
be readjusted so as to meet present day  
objections.  
Should you again express your con-  
fidence in me by placing me in office I  
will do my best to justify your support  
and to conscientiously discharge my  
obligations and responsibilities which  
your trust will impose upon me with-  
out fear or favor. I have the honor to  
remain,  
Your obedient servant,  
M. E. AGAR.

**To The Electors of The City of  
Saint John:**

Ladies and Gentlemen:  
I wish to state most emphatically  
that I am an independent candidate in  
the election now pending for Commis-  
sioners, and the canvass that is being  
used against me that such is not the  
case, is entirely without foundation and  
has, no doubt, been originated by some  
jealous rival. I think that for the short  
time I had to canvass the public, my  
ballot on the 14th inst. was very satis-  
fying, and with a little more hard  
work, there will be a great change in  
the returns on the 28th. And I hope  
my friends and the public generally will  
bear in mind that I am in this game to  
stay until the finish, and if elected will,  
at all times, give the laborer the same  
consideration as I should to the more  
wealthy populace and will endeavor  
always to play up and play the game, and  
do it in a straightforward manner.  
Yours very truly,  
CLARENCE W. DEFOREST.

**To The Electors of The City of  
Saint John:**

Ladies and Gentlemen—  
I am naturally very much gratified  
with the very hearty support which you  
have tendered me in the primary elec-  
tion. To those who have so generously  
supported me, especially my friends of  
the North End, I desire to extend my  
thanks, and to the voters as a whole,  
I wish to say that if fettered with the  
continuance of your approval in the  
final elections on April 28th, I will, to  
the utmost of my ability, endeavor to  
carry out your wishes in the adminis-  
tration of whatever work I may be  
called upon to perform. My previous  
experience in civic affairs has, I be-  
lieve, given me something of an in-  
sight into the duties of administra-  
tion, and I hope, if elected, to be able  
to meet your views in all matters  
which it may be my duty to decide.  
Yours respectfully,  
JAMES V. RUSSELL.  
4-15 tf.

**To The Electors of The City of  
St. John:**

Ladies and Gentlemen:  
As you have honored me by election  
in the primary to a place in the final  
contest on April 28th, for the office of  
Commissioner, and my platform has  
been well advertised, I think that this  
card should be brief. The reforms for  
which I especially pledge myself to work  
are better streets and more equitable  
taxation, in both of which matters I  
have had a considerable amount of ex-  
perience and gained a stock of know-  
ledge.  
I again thank you for the splendid  
support so far accorded to me, and I  
look forward to being chosen as one of  
your representatives.  
Yours sincerely,  
GEORGE FREDERICK FISHER.

## THE DUGAL CHARGES

The statement made by Mr. F. B. Carvell, M. P., in relation to the inquiry into the Dugal charges, which is printed in this issue of the Times, is sufficient answer to the rumors industriously circulated by the government organs to the effect that Mr. Dugal had lost heart and that the charges were not likely to be pressed. Mr. Carvell, whose assurance regarding the matter is the fully considered and deliberate statement of a responsible man, ought to be encouraged, rather than pursued a policy of repression to call into activity the worst passions of their natures. It should be the business of a prison to reform a man as far as his nature may be capable of reform, while at the same time it guards the public from danger of turning loose men whose freedom would be a public menace.

The Standard this morning devotes a considerable amount of its editorial space to an expression of its regard for the editor of the Times. Well, the Times has an editor.

The hope of President Wilson in connection with the trouble in Mexico was that the Constitutionalists would not resent the seizure of Vera Cruz and other ports, but General Carranza, who is the leader of the Constitutionalists, suggests the possibility of the warring factions in Mexico uniting against a common foe. In that case the situation would be much more serious and would involve real warfare.

Citizens of Haywood, Wis., met recently to consider the advisability of organizing a "Welfare Club." Everyman present favored the movement and a committee was appointed to formulate plans and provide a program for the first regular meeting in the high school assembly room. The object of the organization is to work for a bigger, better and more desirable Haywood; to make it a town of happy homes and a healthy and prosperous people.

The Standard this morning noisily and abusively denies that it suppressed at the request of Mr. Flemming the official report of the charges made against Mr. Flemming in the legislature. Of course the Standard would not be expected to confess the truth in this matter, but it is telling the truth, at whose request and why did it suppress the report? Being a newspaper, or, professedly so, why did it cut out of the official report of the proceedings of the house.

## CONVENTIONS

Mr. W. W. Lee, secretary of the National Council of Young Men's Christian Associations of Canada, suggests to the Times that next year's sessions of the Canadian Conference of Charities and Corrections might be held in St. John. It has been held in Toronto and the west and will be held again this year in Toronto. One of the best means of advertising a city is to bring thousands of people to it. St. John should go after next year's sessions of this conference, and present so influential an invitation as would ensure success in bringing it to St. John. Just now much attention is being given to the discussion of welfare work, and nothing would give a greater impetus to such a movement than the enthusiasm aroused at the meetings of the conference named. As a beginning St. John should send a strong delegation to this year's conference, as well as to the International Conference on Town Planning. There is too much isolation, among Canadian cities in all matters relating to community work. Every community ought to know what the others are doing, and one of the best means of bringing this about is to have local representation in all national conferences, and such a general distribution of bulletins and reports as would enable all the people to familiarize themselves with the progress that is being made.

## A SUGGESTION

Would not this be a good time for the Standard to publish a report of the address delivered by Premier Flemming at a religious conference in Toronto in June last? A correspondent, commenting at the time on his speech said:—

"He showed himself as much at home in pleading the cause of the church as in discussing the affairs of public life. He turned the light of his political experience upon the problems of the church, and showed how the work must be done not simply by eloquent pulpit or platform appeal, but by personal contact and individual effort."

That must have been admirable as it is said to have been an eloquent and effective speech, and the readers of the Standard would no doubt appreciate a full report at this time, when matters relating to political experience are of such wide-spread interest in this province.

The report of the royal commission which investigated the affairs of the penitentiary at Kingston finds that there was no truth in the charges of political

partisanship, or the charge that the deputy-warden favored Catholics as against Protestants. The report does find, however, that the conditions in the penitentiary were deplorable, and goes further and declares of Canadian penitentiaries in general that the industrial conditions in them are a disgrace to the Dominion. No doubt the report of this commission will result in the adoption of better methods of dealing with prisoners, so that whatever of good there may be in any of them may be encouraged, rather than pursuing a policy of repression to call into activity the worst passions of their natures. It should be the business of a prison to reform a man as far as his nature may be capable of reform, while at the same time it guards the public from danger of turning loose men whose freedom would be a public menace.

## BIRTHDAYS OF NOTABILITIES

THURSDAY, APRIL 23.

Sir John Boyd, who has been chancellor of Ontario for the last thirty-three years, is today seventy-seven years of age. He is a jurist of high repute, holding the esteem of the members of bench and bar not only in Ontario but throughout the Dominion. His ready wit, homely as kindness of disposition, were never better displayed than on a somewhat embarrassing occasion several years ago. The chancellor was a holding court in London and, the day being excessively hot, he was holding the court in the open air. A young man, who was a member of the bar, was called on to appear before him. He was a young man of high repute, and was called on to appear before him. He was a young man of high repute, and was called on to appear before him. He was a young man of high repute, and was called on to appear before him.

Journed the session in the middle of the afternoon. To seek some respite he wandered off along the banks of the Thames, and, finding a secluded spot, was preparing to plunge into the water when a man appeared. He proved to be a fussy solicitor who had tracked him to his retreat. He apologized profusely for troubling the judge but was anxious to secure an order of the court. Sir John sighed and then remarked resignedly "Ubi jus ibi curia," which being interpreted meant that where the judge was there the court was also to be found.

And most of us can spend more than we earn.

## The Return.

"What do you mean to tell your constituents when you get home?"

"I'm not going to tell 'em anything," replied the youthful member of congress.

"I'm just going to hire a brass band and trust to the soothing charms of music."

## Getting Help.

"Did you stop in the employment agency to get a cook?" asked Mrs. Cronkite.

"Yes," replied her husband, gloomily.

"Eight of 'em looked me over and decided that I wouldn't do."

## Practical Philanthropy.

"And so your next door neighbor, you say, is a real philanthropist?"

"You bet he is," said the commuter, enthusiastically. "Why he bought ten dollars' worth of flower seeds for my chickens last spring."

## He Admitted It.

"This is a fine time of the night to be coming home."

"You can't start an argument with me that way, my dear. I agree with you."

## CANNOT TRANSPLANT ORGANS OF HUMANS

Rockefeller Institute Experimenters Say Researches Have Failed

Dr. Alexis Carrel, of the Rockefeller Institute, admitted to the hundreds of world-famous surgeons attending the congress of the International Surgical Institute in New York, the failure of his research work to establish practical hope for the transplanting of organs from one human body to another.

The importance of this admission, according to vivisectionists present, lay in the fact that in spite of the successful results obtained in some cases with animals, there was no possibility that the same results could be obtained with human patients. This was for the reason, he said, that the only successful experiments were those of "autoplastic" transplantations, and that the chances of danger in "homoplastic" transplantations with human beings were too grave to be accomplished.

Doctor Carrel said that experiment has pretty conclusively shown that transplantations of organs in the same creature are practically always successful; transplantations of organs from similar creatures usually fail in the end, and substitutions of organs in one creature by organs from a creature of an entirely different sort are always a failure.

He was asked about the case of a Baltimore boy on whom an operation substituting a cornea from a pig's eye seems to be succeeding.

"Ah, but that is different!" Doctor Carrel said. "The pig's eye cornea is only a tissue, not an organ. If that operation succeeds it will not refute my conclusions."

He added that as far as the technique of transplanting organs is concerned it has been mastered completely enough for use on human beings. The only thing that delays such grafts on human beings is that it would involve nearly always taking an organ from one person and putting it in another person, a process not yet sufficiently safe, being of the kind that seems always to fail in the end.

A. L. Erlington, a New York impresario, was condemning the evils of ticket speculation.

"We can do away with ticket speculation," he said, "if we go the right way about it. The way we've gone about it in the past reminds me of the young bride."

"A bridegroom said to his bride, as he got home from work one evening:

"Did you see that button my Sunday coat carried?"

"No, darling," said the bride. "I could not find the button. But I made everything all right. I sewed up the button-hole."

An old man who looked like a foreigner was walking along a London street playing a concertina that had seen better days. Noticing a brass plate with the words, "Doctor of Music" written under the name on it, he went up to the house and rang the bell. The door was answered by a servant, who asked his business.

"Please," he said, "is the doctor of music in?"

"Yes, what is it you want?" the servant asked.

"Why, just pop in an' as him how much he'll charge to mend my concertina," was the reply.

THE LATE SIR WM. WHYTE

Sir William Whyte, C. P. R. director and former vice-president, who died in California after one of the most remarkable railroad careers that Canada has witnessed. He was born in Scotland in 1848, came to Canada in 1868 and worked for the Grand Trunk for the next twenty years as brakeman and in other comparatively humble positions, in 1888 he cast in his fortunes with the C. P. R. and rose rapidly to the position of second vice-president and later vice-president of the road. It was with the west he was chiefly identified, he having for many years managed all the company's lines between Lake Superior and the Pacific Ocean.

FREE OF ALL  
THREE DISEASES

"Fruit-a-tives" Brought Him Perfect Health

Avon, Ont., May 14th, 1918.  
I am younger since I have been taking "Fruit-a-tives". I was troubled very badly with Piles, Constipation, and Stomach Disorder, but I found "Fruit-a-tives" was the panacea for the whole three.

Now I am free of all these diseases and enjoying perfect health, and able to work wherever I like. Five years ago, I started taking "Fruit-a-tives". I took two every night and they worked wonders for me.

No other medicine I could get was so good and I took lots of different remedies before I found out how good "Fruit-a-tives" were.

I keep "Fruit-a-tives" on hand all the time, and am never without them. I even take them with me when I go out of town, so I can have them handy. "Fruit-a-tives" are worthy of every good word I can say about them. The fact that they cured me of Piles, was something to be exceedingly thankful for.

THE LATE REV. DR. GRAY

Funeral Services in Sussex Church  
—Interment in Cemetery Near  
Sussex Corner

Sussex, April 21.—The body of Rev. Dr. Andrew Gray was brought to Sussex on Thursday afternoon accompanied by his brother, Undertaker F. W. Wallace, conveyed the body to his undertaking room, and afterwards to Trinity church, where the funeral services took place on Saturday at two p. m. The rectory, Rev. Canon Smithers of Fredericton, and Rev. F. B. Gaskill, rector of Waterford. The hymns "Peace, Perfect Peace" and "Now the Laborer's Task is Over," also "Lord, Now Lettest Thou Thy Servant Depart in Peace" were excellently sung by the choir. Rev. Canon Neale gave a short address, in which he paid a glowing tribute to the memory of the deceased. He said in part—

"We are here today to pay respect and mourn the loss of an aged priest of God's holy church. He has spent his life here upon earth in the work of the Divine Master pointing out, teaching, and leading us to that crown of life which is incorruptible, undecaying, and that fades not away. As a scholar, as a writer, and as a minister of God's church, he may well be classed as one of the great men. Although most of his life was spent in the American church, where he labored faithfully yet many of us have, from time to time, listened to his voice and eloquence within these very walls. He has spent his lifetime here upon earth in the work which he so much loved. A great man passed away because of his zeal for God and the work of his sacred calling. At duty he always was ready and willing to do the right in the death of Rev. Dr. Gray the church has sustained a great loss. Now he has gone, may we well trust and hope, to receive his reward."

Many beautiful floral offerings were placed upon the casket by relatives and friends in this part. One was a beautiful wreath with several fine carnations indicative of the number of years of his age; another a beautiful cross from friends in Boston, Mr. and Mrs. Andrews R. Croome, Mr. and Mrs. Rick H. Jones. Word had been received here that a short funeral service was held in London by the rector of the parish where Rev. Dr. Gray died before the body was sent to New Brunswick. Doctor Gray was sailing only six hours. He was among friends, however, and all was done that loving friends and medical skill could do for him. His death was due to heart attack. He talked with those around

## RECENT DEATHS

Many friends will extend sympathy with Mr. and Mrs. Ellsworth McBeth, of the West Side, in the death yesterday of their second daughter, Cynthia May, aged three years and nine months. The funeral arrangements will be announced later.

Many people in the community will be sorry to hear of the death of Mrs. Grace Irving, which occurred at the home of her daughter, Mrs. J. Stoney, Main street, Fairville, yesterday morning.

Mrs. Irvine was born in the Shetland Islands and came to this country in 1860, spending practically the remainder of her life in Millford and Fairville.

The deceased was in her 94th year and is survived by two daughters, Mrs. J. Stoney of Fairville, and Mrs. Barbara Hayward, of Chatham; and four sons—John and James, of Millford; William G., now visiting here; and Alexander F., of Chicago. Mrs. Irvine was a member of the Presbyterian church. The funeral will take place tomorrow afternoon and service will begin at 2.30 o'clock.

## TO MAINTAIN OUR HONOR

(Canadian Courier)

Not because we desire paternalism in our government, but because we desire to maintain our national honor at home and abroad, we need new laws to:

(1) Prevent any board of directors from leasing common stock as a bonus or without adding to the resources of the company.

(2) Prevent any land speculator from selling town lots in a subdivision which has not been approved by a provincial government and countersigned by a municipality.

(3) Prevent any city or town issuing debentures which have not been approved or advisable and necessary by a provincial municipal board.

(4) Ensure that every man who acts dishonestly in the public sale of lands, stocks, bonds or securities of any description shall be speedily brought to justice by a public prosecutor.

These laws we need to protect the savings of our weaker citizens and to preserve our credit in the money markets of the world. Finally, such laws are necessary to maintain our own good opinion of ourselves and our own sense of national honor.

### Gay & Sturges Fall

Boston, April 23.—The failure of Gay & Sturges, 101 Milk street, one of the oldest stock exchange firms in the city is announced. Frederick P. Greenhalgh, for many years an assistant attorney-general, was appointed receiver.

The failure is attributed to the situation caused by prolonged depression in securities and in commitments in long securities.

Members of the firm say that its bank loans are well covered with collateral at prices now ruling, and that settlement with creditors depends entirely upon the friendly attitude of the banks holding the firm's paper.

### POINTS ON SHOP CATALOGUES

(American Machinist)

Most shop catalogues are soon in a dilapidated condition and little better than useless.

To guard against this, and to insure as long life as possible, the catalogue should be constructed of the strongest material possible. Of course, these catalogues are used in the shop as reference books.

While a catalogue printed on colored paper may not be quite as attractive looking as one printed on a white paper, yet for shop use the colored paper is best; a tough bond paper of a buff or dull-yellow color, of a little more than medium weight, being about the most desirable, says L. G. Stebbins writing in the American Machinist.

For the covers a stiff board is best, as when the covers are flexible the shop men are inclined to roll the book up, and this is hard on it.

The catalogues should be indexed so that desired information may be quickly obtained, and they should contain explicit instructions as to the proper specifications for repair parts.

As most manufacturers know, the correct filling of orders for repair parts is one of the chief difficulties which they experience. Many times orders are received which are not clear, and it is necessary in such cases to write for more definite information, thus causing delays which are annoying, and probably costly to the customer.

Some manufacturers seem to regard the catalogue simply as a selling medium, whereas it should be a potent factor in the creation and maintenance of satisfactory service.

About the best way clearly to show a user the parts of a machine or tool is to show a picture with each part numbered, and on the opposite page give the names corresponding to the parts. This is a simple and effective method.

## To The Electors of The City of St. John:

Ladies and Gentlemen:

I am a candidate for the office of Mayor, and believing that anything worth having is worth asking for, I would like to personally ask each and every elector for his or her vote. You will understand how impossible it would be for me to call on each of you. Therefore I take this opportunity of explaining my position and at the same time solicit your kindest consideration through this medium for my inability to do so.

If you believe me to be worthy of your support, and that belief eventuates in my election, you may rest assured that your interests as the City of Saint John will not suffer through any lack of energy or independence on my part when questions involving the interests of Saint John are under discussion.

Is Saint John to remain a ship without a rudder to be buffeted about on the waves of opportunity by every individual and corporate wind that blows?

Yours respectfully,

H. R. McLELLAN

## THE CLOWN'S TRAGEDY

Maddened With Jealousy, Causes Death of Woman He Adored

Kills Himself on Way to Police Station—Lighted Cigarette in Horse's Ear—Makes Circus Animal Kill His Rider

Mlle. Fleurette was the principal horsewoman as well as the principal attraction in an obscure wandering circus which the other week came to Kasan, a small town on the Volga, in Russia.

She was beautiful, graceful and an exquisite rider.

Mirko Fetschell was a clown in the same circus company. He was a plain, simple-hearted man who looked seriously upon foolery as the means of a living.

The military officers of Kasan brought Mlle. Fleurette flowers, gave her cheers and offered her their hearts. She graciously accepted all their tributes, save the hearts. To all would-be lovers she was adorable but distant.

His Love Only "A Joke"

Among her worshippers was poor Fetschell. The man was too poor to give her flowers, and as it was part of his business to cast loving looks towards Mlle. Fleurette, while she was performing, no one ever suspected the sincere love which lay behind the mockery.

Finally he summoned up sufficient courage to propose to her. She regarded his stammering protestations with amusement. "You are a clown," she said; "your business is to joke with everybody; so I take your declaration as a joke."

Just then the bell rang for the evening performance. Poor Fetschell, broken-hearted at his failure to notice the gibes of an attendant who had overheard his declaration of love, went into the heads of the attendants—specially the head of the one who had gibed at him—with such zeal.

Tortured Horse Kills Rider

When he approached Mlle. Fleurette and bent as if to whisper in the ear of her horse, the people waited in tense silence for another of his brilliant jokes. But he uttered no word. Instead the horse suddenly plunged forward and became unmanageable, even to the accomplished Fleurette.

Three times the maddened animal tore around the ring; then it turned a somersault, burying its beautiful rider beneath it, crushing the life from her.

Men ran to the rescue, but Fetschell was there before them. He was laughing and dancing at the side of his dead Fleurette, and when he cried, "My business to joke with everyone—even with horses," people knew him for a madman.

He had placed a lighted cigarette in the horse's ear. It was his last "joke," for, on the way to the police station, he committed suicide.

A New Yorker tells of his sojourn at a certain hotel in the Carolina Mountains. At about 5 o'clock in the morning he was aroused from a sound slumber by a knocking on his door.

"What is it?" he shouted.

"Telegram for you, boss," replied the darky on the other side of the door.

"Will you open the door?"

The New Yorker was angered by this. "It will not!" he yelled back. "Can't you slip it under the door?"

"No, boss," was the response, "it's on a tray"—Lippincott's.

### DEPUTY HAS HIS MAN AGAIN

Revolver Shots Bring Escaped Gagnier to Terms

PRISONER WAS ARMED

Rather a Stirring Incident in Police Work on the North Shore—Sheriff's Bullet Went Through Hand of Man He Sought

(Northern Light)

The people of Bathurst and vicinity will now sleep in greater security, when they know that Wm. Gagnier, after burglarizing Kent's store and breaking out of jail twice, is again under the eye of the authorities.

The details of the arrest, read like a chapter from a dime novel, and the people of Gloucester County should congratulate themselves that their officers are lacking neither nerve nor courage under the most trying circumstances.

On Friday night about half past ten o'clock, Gagnier appeared at the I. C. R. ticket office and asked for a ticket to Campbellton. Ham Chalmers, the night agent, told him there was plenty of room as his train did not leave until half past one. He asked again, saying he would take the train then at the station, but was told that he could not travel on that train. He went out on the platform, where he was seen by Ben Glaser, assistant night agent, and recognized Chalmers and Glaser came out of the station soon after with the intention of capturing him, but when they saw the well-dressed shape of two revolvers in his pockets, they considered the job too risky for two unarmed men.

Glaser telephoned Deputy Sheriff Doucet, who arrived with a constable, and not in eight, so he started in search of him. Above the tank, was a string of open cars, and the sheriff proceeded to examine each as he passed between them, his searchlight was reflected from something bright, and he saw Gagnier holding a revolver in each hand pointed straight at him. He pulled his revolver and shouted to Gagnier to throw up his hands, but getting no response he fired and began to take the car held by the sheriff after him, and running across the track, ran full force into a wire fence.

This knocked him down, and as the sheriff came up to him, Gagnier held his revolver to shoot, but faintly before he could pull the trigger, and toppled over into the sheriff's arms. He left his hands bleeding from the wound inflicted by the sheriff's first shot. The wound was found to be slight, the bullet having passed right through the fleshy part of the hand, breaking no bones. He was soon lodged in one of the cells, where a guard was placed over him.

HORSESHOE NAILS AND HATCHET TO THE KING

Paid Every Year, but Few People Know the Reason

Every year a quaint ceremony takes place at the Law Courts in London. A solicitor represents the corporation of the city, and a state officer, known as the King's Remembrancer, attends on behalf of the crown. Here the solicitor pays rent to the crown for certain lands held by the corporation, which rent consists of a hatchet and bill-hook, six horseshoes, and sixty-one horseshoe nails.

That rent has been paid at the Law Courts year after year for nearly seven centuries, and nobody knows why it is done.

The usual ceremony has just been observed once more, and Sir John Macdonnell, who is King's Remembrancer, has been confessing his ignorance of the origin of the custom. There is a tradition as to the horseshoe and nails, and that, he reminds us, is this:

In 1283 King Henry III. witnessed a tournament at the Knights' Templars' grounds. What are now certain ruins of court and the Thames, the Templars were then a great monastery and tilling ground—the Law Courts stand on part of the tilling ground. Now, it is said that at this tournament the sun was so struck by the dexterity of a black-

## NEW REGULATIONS FOR EDUCATION IN ONTARIO

The theory of education is not merely a method of imparting knowledge nor as preparation for earning a livelihood, but as a means of training pupils for efficient citizenship, was developed by Dr. John Seath, superintendent of education for Ontario, at the meeting of the Ontario Association in Toronto the other afternoon.

Doctor Seath spoke before the public school section of the meeting, and his address was in the form of a presentation of the proposed new regulations of the department of education, draft copies of which were distributed among the members present, in order that suggestions and criticisms might be made.

The idea of training for citizenship, Doctor Seath said, necessitates caring not only for the normal child, but also for the sub-normal, whether physical, mental or moral. So far, he explained, the matter had received practically no consideration, but he declared it altogether likely that legislation would be passed at this session of the Ontario legislature to make provision for the care of the sub-normal.

Doctor Montessori's method of elementary training did not receive favorable comments from the speaker, who announced that the department had been experimenting with the method and had decided that it is incapable of taking the place of the kindergarten system. Instruction and control, he maintained, are the necessary principles upon which the early training of children should be based, and not on the idea of giving fullest vent to individuality, as advocated by Doctor Montessori.

Touching upon the subject of religious teaching in the schools, Doctor Seath said:—"In the failure of the church to fulfill its duty towards the young, it may be necessary for the school to undertake it."

The provisions for teaching morals, he said, demanded the method of treatment adopted, and he reminded his hearers of the attempt to base moral instruction on religious sanctions. The new "Golden Rule" series of books to be used in this connection, he hoped, would be ready by next September, and the value of them, he declared, is the attractive form in which the moral lessons are presented, as well as in the fact that they leave it to the child to do its own moralizing.

smith named Walter Le Brun that he presented to him a piece of land, the rental of which was the horse-shoe and nails. That brings a king and a king smith into the story, but it does not explain how the city got the land.

## READY TO PROVE GRAFT CHARGES

F. B. Carvell, K. C., Only Waiting For Free and Fair Inquiry—Will Return For The Investigation

F. B. Carvell, K. C., who was engaged in the chancery court here yesterday, left for Ottawa last evening. Before leaving, Mr. Carvell was asked about the proposed investigation of the Dugal charges respecting the timber bonus graft. Mr. Carvell said that he expected that the royal commission would be named at once, and he assumed, in view of the assurances given in the legislature by Attorney-General Clarke, that the inquiry would be free and open and not headed about by technicalities.

"Mr. Dugal and those associated with him," said Mr. Carvell, "will be ready to go on with the inquiry. If the inquiry is free and fair, as we must assume that it will be, we will expose the collection and payment of the timber bonus in connection with the timber business. After Mr. Clarke's assurance in the house we must assume that the commission will be one which will command public confidence. If it is and if the inquiry is free and fair we shall be satisfied."

"There has been a great deal of loose talk in the government newspapers to the effect that Mr. Dugal and his associates have been willing to quit or are not now so anxious for an opportunity to go to court as they were some time ago. This is mere bluster on the part of the government press. We have not received an inch. We are merely waiting for an opportunity to produce the evidence. We can produce it."

"Whatever happens before the commission, make no mistake, the public will become apprised of the facts before we are through."

"We are equally ready and confident in the matter of the Valley railway. I have no information yet as to the personnel of the commission, but we must hope it will be one which will fully recognize that the country is entitled to the most complete information both in regard to the crown land bonuses and in connection with the actual cost of the Valley railway, so far as it has been built, and certain matters in connection with the awarding of the contract."

"It is necessary for me to go to Ottawa tonight, but I shall be notified by wire of the appointment of the commission and of the date of the first hearing and I shall return as soon as it becomes necessary. There never was the slightest ground for any of the reckless statements made in the government press regarding Mr. Dugal being either discouraged or unprepared. Mr. Dugal and those who are with him know what they are doing and understand in the fullest degree their responsibilities."

**Not Appointed.**

Fredericton, April 22.—Lieut-governor Wood said tonight that no commission to inquire into the Dugal charges had been appointed this evening. It is said on good authority that the commission may not be appointed for two or three days, and that his honor is awaiting the return of Sir Frederic Barber.

**Why do you coddle Corns?**

Why soak them and pare them? It brings only brief relief.

Blue-jay will stop the pain instantly. It will end the corn completely, and in 48 hours. It is doing that to a million corns a month.

The chemist who invented Blue-jay solved the whole corn problem. Apply it, and the corn is forgotten. It will never pain again. Gently the Blue-jay then loosens the corn, and in two days the corn comes out.

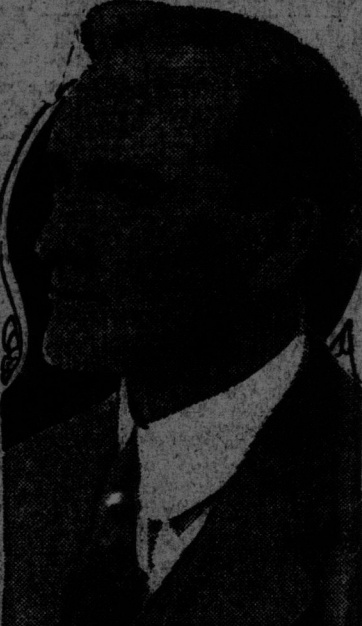

No pain, no soreness, no annoyance. And that corn will never need treatment again.

Old-time methods will not do this. Let no one claim they will. But Blue-jay does it, and has done it for sixty million corns.

## LAURIER TO MOVE FOR FREE WHEAT

Liberal Policy to Remove Duty From Wheat and Agricultural Implements—Budget Debate Closes Tonight

Ottawa, April 22.—Tomorrow will be the close of the budget debate. Sir Wilfrid Laurier, Hon. Geo. E. Foster, Dr. Michael Clark, Mr. Stevens and Geo. H. Bolvin, in the order named, will wind up the discussion of the 1914 budget.

Sir Wilfrid will move the Liberal amendment summarizing the declarations of the past fortnight for free wheat and free agricultural implements, for wider markets for the agriculturist, for relief to the consumer from the exaction of protected monopoly, and of unnecessary tariff taxation, criticizing the present policy of the present administration and condemning generally its regard for special privileges, as opposed to the interests of the great mass of the people. These issues were again emphasized in the seven speeches of today, four from the Liberal side and three from the government side.

**No Morning Sitting.** Yet.

Ottawa, April 22.—Because the opposition considers that it should receive notice of the form the expected legislation for aid to the C. N. R. is to take before morning sittings of the house should begin, these were today postponed from next Monday to an indefinite date.

Premier Borden moved a resolution in the house to have morning sittings beginning next Monday.

Sir Wilfrid Laurier, however, stated that there was a persistent rumor that the government would introduce important legislation in regard to the Canadian Northern. If this were the case it would not be opportune to have morning sittings until the opposition had had time to study the proposed legislation.

"Without committing myself as to the reports the leader of the opposition has referred to," replied Mr. Borden, "there will undoubtedly be further legislation which has not appeared on the order paper and in view of this I will not press my resolution today."

Hon. Charles Murphy inquired when information would be brought down as to Canadian Northern bond issues and was assured it would be ready shortly, while Hon. W. T. White told Mr. MacLean the supplementary estimates would be brought down in the near future.

Premier Borden, who returned to the capital today, after a fortnight's rest in the south, told Edmund Proulx, of Prescott, at the opening of the commons today that the government had received a copy of the resolution of the Vancouver County Orange Lodge in reference to home rule. No reply had been sent, said the first minister. The government did not feel called upon to express any opinion in regard to the contents of that resolution.

The minister of militia told J. H. Sinclair that the total cost of armories and drill halls throughout Canada, built or building, from October 16, 1911 to December 31, 1913, was \$1,085,000.

**Officers Passed.**

Capt. W. J. Osborne, Capt. J. F. McPeck, and Capt. H. F. G. Woodbridge of the 71st York Regiment, and Capt. H. H. Jones, of Apohaqui, and Capt. H. E. D. Golding, of Sussex 74th Regiment, who took examinations for field officers here recently, have all passed, according to orders issued at Ottawa. Lieut. C. N. Clark and Lieut. F. Eason, 71st Regiment, have passed examinations for captains.

## L. O. F. CELEBRATE THEIR ANNIVERSARY

Ninety-Fifth Year Marked by Entertainment in Keith Assembly Rooms Last Evening

There was a large attendance of Oddfellows and their friends at a reunion held in the York theatre last evening which marked the opening of the celebration of the ninety-fifth anniversary of the Independent Order of Oddfellows in America. Hon. John E. Wilson presided during a concert in the theatre and C. E. Cruikshanks of New Glasgow, grand master for the maritime provinces, was also on the platform. Music was furnished by Jones orchestra, B. Arnold Fox being accompanist.

The entertainment was thoroughly enjoyed by the audience and reflected great credit on those having charge of the arrangements. The stage was tastefully decorated.

After an orchestral selection the chairman gave a brief address of welcome, and the following programme was carried out:

Vocal solo—J. M. Gibson.  
Violin solo—Miss Olivia Murray.  
Vocal solo—C. A. Munro.  
Address—C. E. Cruikshanks.  
Vocal solo—Miss Blanche Thompson.  
Sword and club swinging—W. H. Brown and the Misses Brown.  
Vocal solo—J. M. Gibson.  
Solo's horpise and sword dance—Mr. Shuldham.

Motion pictures, selected by W. H. Golding.

The committee in charge consisted of: W. E. Neve, chairman, K. E. Fairweather, H. V. McKinnon, Wm. J. Watson, A. V. Cowan, W. R. Sanderson, M. D. Brown, J. Harry Robson, James R. Smith, G. H. Allan, A. H. Washburn, A. S. Reed, A. F. Boyer, J. A. Stinson, A. Wiles, chairman of sub-committees. Chas. Cowan, W. Frank Hatheway, H. E. Codner, Wm. J. Watson, W. J. Ingram, H. V. MacKinnon, M. D. Brown, J. H. Sinclair.

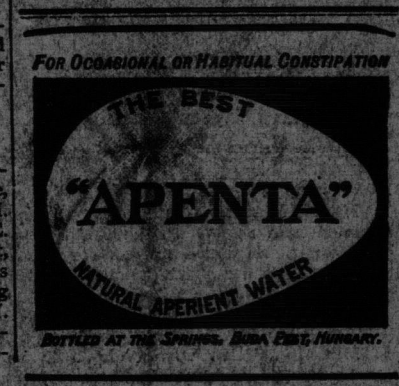

After the entertainment in the theatre adjournment was made to the assembly rooms, where refreshments were served, followed by dancing and bridge.

It is said that there is an old man in North Adams, named Hurdick, who was drafted in the war of 1812, who was never discharged from the service and is now entitled from the government to 50 years' pay, which including rations, would amount to \$5,000.

## TO QUEBEC

The dredge Q. H. C. No. 1, known here  
as the Frubling, which has been here all  
winter under charter to the Norton Gif-  
fiths Company, cleared for Quebec this  
morning.

**OH, THESE BALMACANS.**  
These are overcoats "to make a  
spread in." They have caught on big.  
Gilmour's have some good ones. They  
have only a few left, but in all other  
styles the variety is great.

## THE MAYORALTY

The civic candidates and representa-  
tives of the Women's Suffrage Associa-  
tion are invited to be present at a public  
meeting to be addressed by Commis-  
sioner McLellan, mayoralty candidate, at  
the York Theatre Friday night and in  
the City Hall, West Side, Saturday  
night.

## SALE AT DYKEMAN'S.

A rather serious mishap occurred at  
P. A. Dykeman & Co's store last night.  
Through carelessness one of the em-  
ployees of the work room on the third  
floor, when leaving left the tap in the  
wash room turned on full. The over-  
flow not being sufficiently large, the wa-  
ter continued to overflow the basin. All  
night long the water poured down  
through the hatches and soaked a large  
quantity of the goods that were piled  
near the hatches and penetrated to the  
basement where a lot of feather pillows  
were stored. All of the goods that were  
damaged will be placed on sale Friday  
morning.

## FURS REMODELED

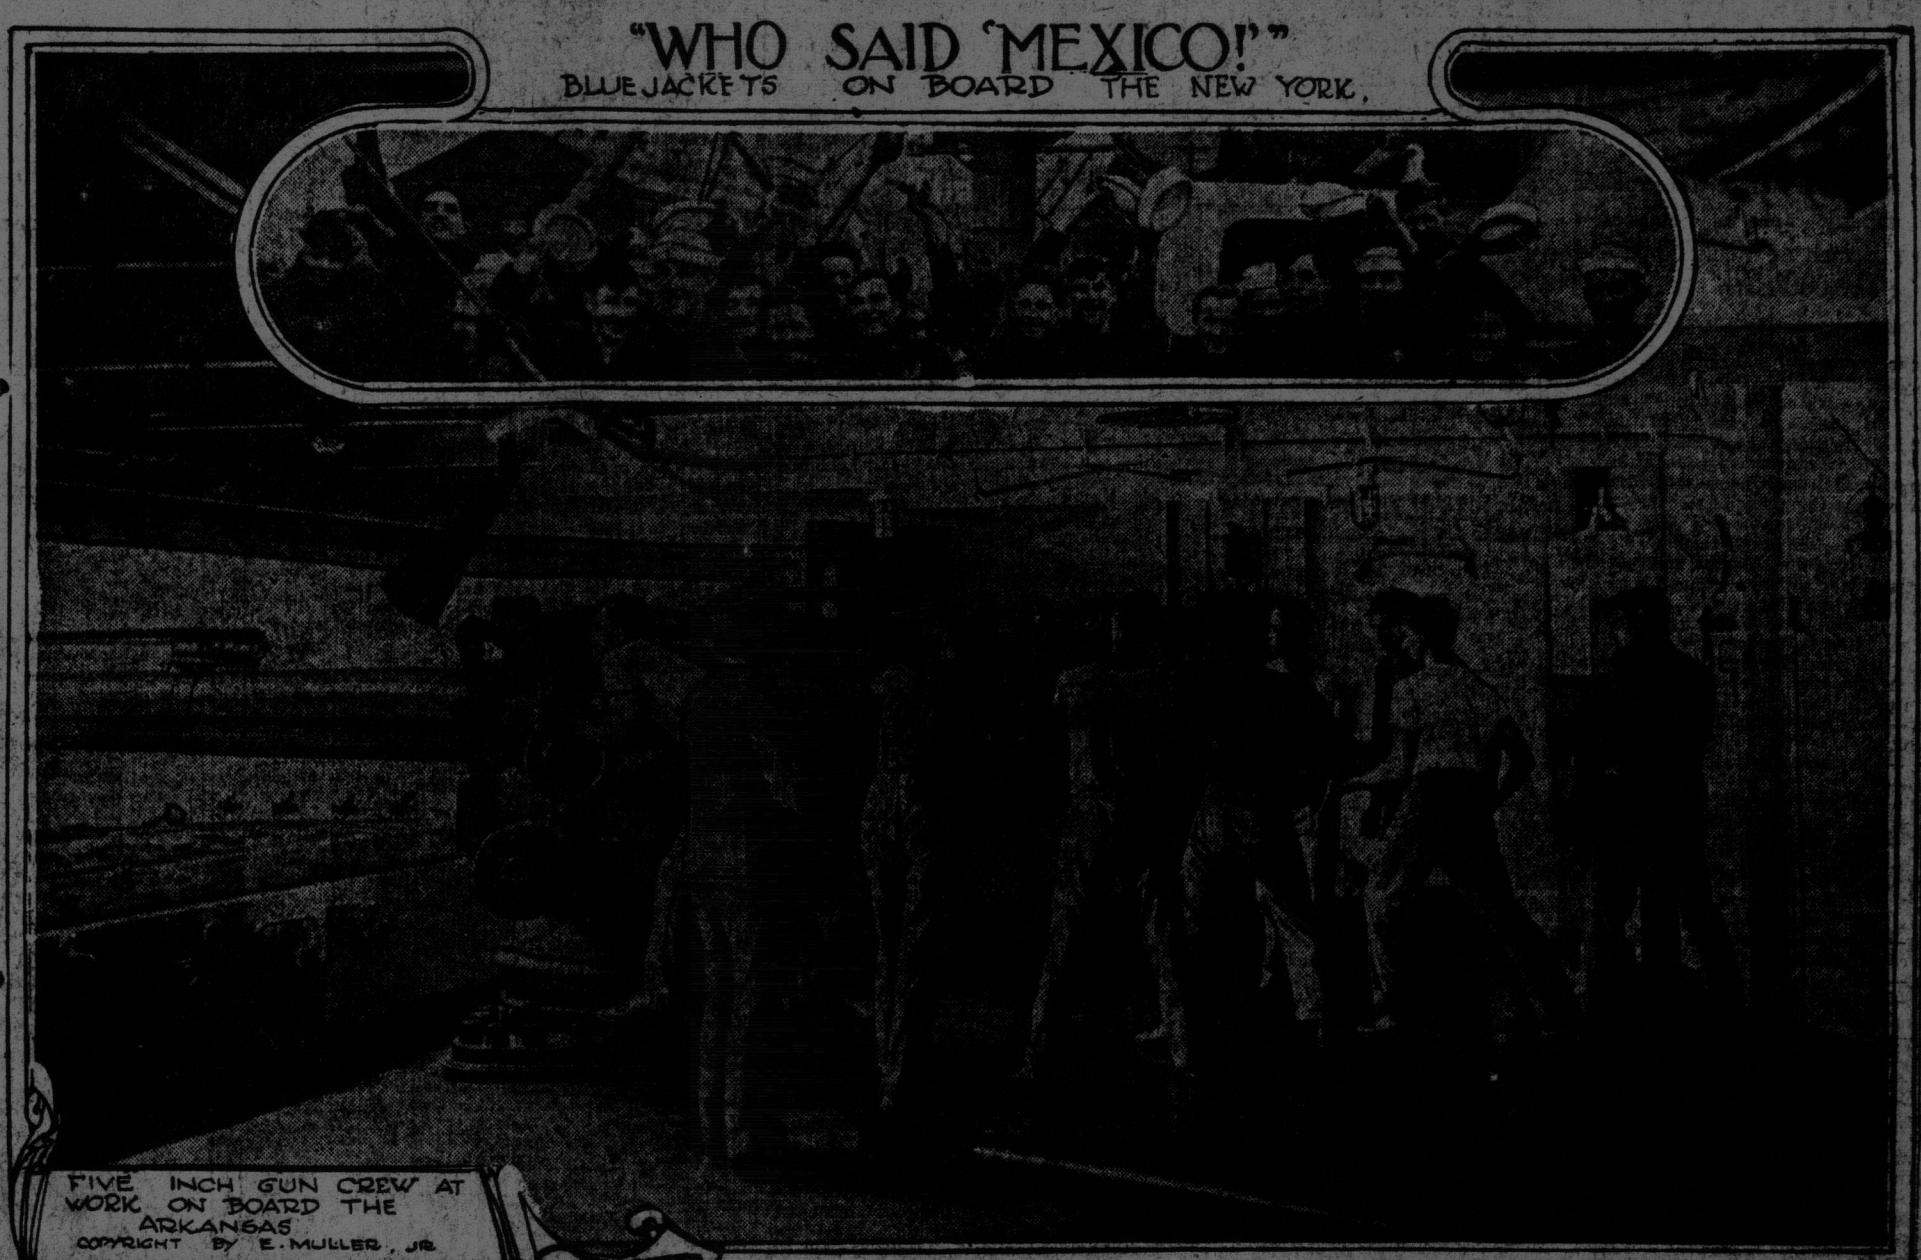

Now is the time to attend to them,  
we can quote you more reasonable prices  
now than later on when we will be  
busy.—And they will be ready for fall  
delivery when you want them to put on  
—H. Mont. Jones, 54 King street. 4-30

## BODY OF MURDERED MAN

**MYSTERIOUSLY DISAPPEARS**  
Caleb Jarvis, a mysterious old grouch,  
had been killed in his youth by a girl.  
Since that time he had lived the life of a  
recluse in a small village, shunned and  
despised by all. One day, as the post-  
man came to his house to deliver a let-  
ter, he discovered the door open and,  
getting no response to his repeated  
knocks he entered and found Caleb ap-  
parently murdered, lying on the couch  
with an assassin's revolver near him. He  
immediately summoned assistance. Cal-  
eb was apparently past all help. The  
crown prosecutor left two policemen to  
guard the body and sought the help of  
King, a detective, when King arrived  
the body had mysteriously disappeared.  
Though the watchers had not stirred  
from the room in which it lay, King  
started his investigations. He accidentally  
touched a spring that released a trap-  
door in a lounge on which he was stand-  
ing and was precipitated to a tunnel that  
led to another room. King found that  
Jarvis had been hiding there and had  
not been killed. Jarvis, seeing that he  
was discovered, placed a bomb in the  
tunnel with a short fuse, but found after  
he had lit it that King had nailed down  
the entrance. Escape was impossible. The  
bomb exploded and killed Jarvis, but  
lived long enough to confess a remark-  
able story, which, with the preceding  
chapter, is unfolded in two exciting reels  
at the Empress Theatre. The programme  
concludes with a stirring western drama  
"John the Wagoner" and two comedies  
"Will Protect the Working Girl" and  
"Heaven Will Protect the Working Girl".  
The extraordinarily fine programme that  
the Empress is showing from the Universal  
Film Co. is the cause of much favorable  
comment.

Lady Grace Mackenzie is shown above as she left New York city for East  
Africa, where she says she will shoot big game and attempt to record on  
photographic cylinders the jargon of the natives and the chatter of large apes  
"she was enthusiastic over the prospects of penetrating the jungle, and de-  
clared she would go where no white woman was ever before seen."

## THE METHODISTS IN GAGETOWN ARE ACTIVE

Gagetown, April 20—Although Gage-  
town is surrounded by the "eternal  
snows" the Methodists are having en-  
joyable and prosperous times.

On the 3rd inst., a party of them  
travelled down the St. John River to the  
Cossar Farm there they were received by  
Mr. and Mrs. Merklejohn. An interest-  
ing concert then began and the "Scotch  
Laddies" sang with great vigor and  
heartiness.

After the close of the entertainment  
the visitors adjourned to the dining room  
and had refreshments served to them.

After Mr. and Mrs. Merklejohn had  
been thanked for their kindness the  
party left and sighted Gagetown at mid-  
night.

On the 11th inst., the Junior Mission  
Band held a small sale of work in Mr.  
Moore's store. There was a fine dis-  
play of fancy needlework which showed  
good taste and a great amount of pa-  
tience through the young peoples effort  
the Women's Missionary society will  
benefit by about thirty dollars.

Many thanks are due to Mr. and Mrs.  
Moore for the help they gave and for the  
use of the store; also thanks are due to  
Misses K. and E. Palmer, N. Bulven,  
M. Dingee, W. Babbitt, M. Weston, F.  
Ruebens for their splendid organizing  
abilities.

On the 17 inst. the Women's Mission-  
ary Society held their Easter meeting  
at the Palmer's home. A fair number  
were present and after the opening hymn  
the pastor, Rev. E. E. Tytle lead in  
prayer. After the next hymn the pres-  
ident, Miss K. Palmer took the chair.

The secretary, Mrs. Babbitt called the  
roll and read the minutes which were  
passed unanimously. The treasurer,  
Miss E. Simpson's report was satisfac-  
tory and passed unanimously.

Mrs. J. Allingham gave a reading, also  
Miss E. Simpson; both were listened to  
with great interest.

Tea and offerings were then offered

and it is believed will be an increase on  
last year.

The social half hour passed away very  
quickly, part of which was used in tak-  
ing of the refreshments so kindly pro-  
vided by the Misses Palmer.

## FOR SUCCESSFUL FARMING

(Canadian Courier).  
Success in farming in Ontario de-  
pends, so far as the state is concerned,  
on three great factors: agricultural edu-  
cation, freedom from communicable dis-  
ease, and good roads. Given these three,  
farming should be a pleasant and profit-  
able industry for an industrious people.  
Yet Ontario is lamentably weak in all  
these factors.

Ontario has no consolidated rural  
schools as Manitoba has. It has no rural  
high schools as have New Brunswick and  
Alberta. It has no text book on agri-  
culture as have British Columbia, Mani-  
toba and Nova Scotia. It is doing nothing  
to educate the farmers' children for  
farming life except by a little desultory,  
narrow-based nature study.

Something has been done to eliminate

bovine tuberculosis and to prevent its  
transfer from animals to human beings—  
but mainly through private effort. The  
poorer farmers would object to stringent  
laws on this subject and the department  
only follows public sentiment, never  
leads. Such improved methods as are  
in vogue are due to the teaching in the  
O. A. C., and the preaching in the farm  
journals.

As for good roads, the Ontario at-  
tempts to produce them are one large  
joke. No one in Canada ever built a  
road four feet deep, as they do in the  
New England States and in Great Brit-  
ain. Our good roads are only surfaced  
with iron to go to pieces every spring.  
We have not overcome the evil influence  
of Jack Frost. Nor have we learned the  
art of continuous repair. The commis-  
sion which reported last week advises  
an expenditure in Ontario of thirty mil-  
lion dollars in fifteen years, under a  
central highways department. The ad-  
vice is excellent, but the method of  
building is the thing. If new methods  
are not adopted, the money would be  
wasted.

## Montreal Subscriptions

Montreal, April 23—The Montreal  
Board of Trade fund for the relief of  
the widows and orphans of the sailors  
lost in the Newfoundland disaster, has  
reached the \$2,000 mark.

Two suffragists were "ven-  
ing at the club di- name of  
billiards."

"How is your husband?" the first one  
asked.

"Slowly mending," replied the other.

"O, I didn't know he was ill!" said  
the first.

"He isn't ill," the other suffragist ex-  
plained, laughing heartily. "It's slowly  
mending my khaki riding breeches."

## Convincing Evidence.

Mrs. Pester—"Don't you really think  
that women have more patience than

Mr. Pester—"I'm sure of it. I've been

## TOO MUCH FOR THE AUDITOR

Managing Director of Construction Company Tells of Finances—Mr. Blanchette Would Not Stand For \$16,000 Entry

Ross Thompson, managing director of the Quebec and St. John Construction Company was the only witness at the afternoon session of the circuit court yesterday in the suit of Thomas Negie vs. the St. John and Quebec Railway Company and the Quebec and St. John Construction Company to recover \$15,000 on a note.

Mr. Thompson said that Mr. Seely complained to him that the name of the construction company had not been affixed to the note for \$15,000. Seely said that it should have been as Mr. Gould had promised it.

Q—Can you give any explanation as to how the signature of the company came to be placed on the note?

A—Because Seely said that Gould had promised it.

Q—Was there any value for it?

A—No.

Q—Who are the directors of the Quebec and St. John Construction Company?

A—L. E. Gould, H. E. McDonnell, W. K. McKewen, Ross Thompson, J. B. Law, F. J. Lissman and S. B. Ross.

Dr. Wallace cross-examined the witness.

Q—Were you a charter member of the construction company?

A—No.

Q—Do you know anything about the Canadian Eastern Construction Company?

A—Yes.

Q—Was it ever completed? It is now operating in Maine, though.

A—From whom did the Quebec and St. John Construction Company get the contract for the road?

A—From the railway company, I think. We have a direct assignment of the contract from the railway company.

Q—Did Seely ever have an interest in the company?

A—Yes.

Q—What became of his interest?

A—He never took up the stock after the legislation was passed. Lissman and Gould each took over a part and paid in \$5,000 for it.

Two Doctors Said He Had Consumption.

DR. WOOD'S NORWAY PINE SYRUP CURED HIM.

Mrs. John Ellis, St. John's West, Ont., writes: "My little boy was very bad with whooping cough and severe cold. I went to two doctors with him, and they said he had Consumption. I could get no relief for him, he was coughing all night long, with a dry hacking cough."

I was persuaded to try Dr. Wood's Norway Pine Syrup, and was surprised to see the first bottle did him good. He had five bottles, and they cured him. He rests well at night now, and is well and hearty. If he gets a cold we always give him Pine Syrup and he is soon better. I did not think I could raise him, but I am thankful to say Dr. Wood's Norway Pine Syrup saved him from being a consumptive."

Too much stress cannot be laid upon the admonition to all persons affected by the earlier stages of throat and lung trouble, as failure to take hold at once will cause many years of suffering, and in the end that terrible scourge "Consumption."

Dr. Wood's Norway Pine Syrup is without an equal for all affections of the Throat and Lungs.

Price, 25 and 50 cents. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

WOMAN WEAK AND NERVOUS

Finds Health in Lydia E. Pinkham's Vegetable Compound.

Creston, Iowa.—"I suffered with female troubles from the time I came into womanhood until I had taken Lydia E. Pinkham's Vegetable Compound. I would have pains if I overworked or lifted anything heavy, and I would be so weak and nervous and in so much misery that I would be prostrated. A friend told me what your medicine had done for her and I tried it. It made me strong and healthy and our home is now happy with a baby boy. I am very glad that I took Lydia E. Pinkham's Vegetable Compound and do all I can to recommend it."—Mrs. A. B. Boscamp, 604 E. Howard Street, Creston, Iowa.

Tons of Roots and Herbs are used annually in the manufacture of Lydia E. Pinkham's Vegetable Compound, which is known from coast to coast as the standard remedy for female ills.

For forty years this famous root and herb medicine has been pre-eminent in curing all the diseases of women. Merit alone could have stood this test of time.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham, Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

E. CLINTON BROWN

Q—Why was the name of the construction company mentioned in the release to Mr. Seely?

A—I don't know. They had nothing to do with the receipt.

Q—How much was the receipt for?

A—\$15,000.

Q—Was the receipt entered on your books?

A—Yes.

Q—Were your books subsequently audited?

A—Yes, by Mr. Blanchette.

Q—This was not paid?

A—He was appointed by the province to satisfy the government that the expenditures were correct.

Q—Was this receipt handed to him as a voucher for an expenditure?

A—It was.

Q—I suppose it was presented before the government?

A—His report was and his statement of the accounts included that.

Q—This was not paid?

A—Well the \$15,000 note appeared in bills payable and the \$4,000 in cash.

Q—Did you not say that Seely should get the \$15,000?

A—I said that personally I would like to see him get it.

Q—Did you not say that the railway company had nothing and that the construction company had everything?

A—Yes, I think I did.

Q—Did you not say that those who lent by the distribution of his interest should look after the note?

A—Yes, I believe I did.

Q—Did you suggest that \$2,000 be paid on the note?

A—Yes, but he refused. He said that the note had left his hands. I told him that there were no funds to meet it.

Q—Did the directors meet for the purpose of preparing the vouchers for Blanchette?

A—No, Mr. Fleming called me up on the phone and told me that Blanchette was coming and a few days later he arrived.

The witness was re-examined by Mr. Mullin.

Q—What do you mean by Seely's interest?

A—The interest he could have had if he wanted it. It consisted of fifty shares at \$100. If he had paid in the \$3,000 he would have owned the interest.

Q—Did he actually pay in anything to the company?

A—No.

Q—Did he give any service?

A—Yes.

Q—To the construction company?

A—No.

Q—You say that Lissman and Gould took over his interest. Did they pay the money into the treasury?

A—Yes.

Q—Do you know if Blanchette took objection to the \$15,000 item on the books?

A—He took exception to it.

Q—What was his result?

A—I then ordered it to be taken out of the accounts.

Q—Is it in the accounts today?

A—I haven't seen the books these last few days, but I gave instructions to the accountant to have it struck out.

Q—No one with the exception of Mr. Blanchette looked at the books?

A—Also a committee from the government caucus.

Here court adjourned until Friday morning. Mr. Thompson was instructed to bring down from Fredericton the assignment of the contract to the construction company, and was also told to notice the item of \$15,000 on the books so as to be able to answer questions with reference to it.

## THE WORD "SAUCE"

What are the first essentials of a Sauce? Many professors of cookery and eminent chefs have, from time to time, set forth their views on this subject. Many solid varieties of food, soluble only by digestion are not rarely dry in substance, but are somewhat insipid and insufficiently flavored. A sauce is intended, amongst other things, to lubricate dry food, and thus increase its palatability, by the addition of flavors or the production of contrast. A sauce is intended to stimulate the appetite and augmenting the juices capable of digestion, it increases the pleasure of eating, meanwhile assisting the mechanism of nutrition. The preparation of a sauce suited to one special dish is, in general, a simple affair, but the making of a bottled sauce, capable of fulfilling scores of demands, and happily alloying itself with hundreds of dishes, is a matter necessitating great experience and elaborate skill. Such a sauce is now obtainable, it is imported from England, where it is produced in the largest Malt Vinegar factory in the world and is known as "H. P. Sauce," and takes its title from the initials of the "House of Parliament," where it is used on the dining tables, both in the home country and in Canada. The makers tell us that the delicious flavor is obtained by blending together the choicest oriental fruits and spices with pure Malt Vinegar by a secret process, and we are sure our readers will find that a personal trial will confirm all the good things that are said of H. P. Grocers over here are already selling it freely.

## A DISGRACE TO THE DOMINION

Royal Commission Finds Penitentiary Conditions Deplorable—"A Crime Against Humanity"

Ottawa, April 22.—The royal commission appointed by the government last year to investigate certain charges of a serious character in connection with the administration of the penitentiary, has today made public its report made public today by Hon. C. J. Doherty, minister of justice.

The commission found that in certain of its departments conditions in the Kingston penitentiary were deplorable, were, in use, the worst of the report, a twentieth century reproduction of the unending toil of the galleys, and a crime against humanity. The report deals in a comprehensive manner with the whole question of prison, economy and nearly a score of recommendations are made with a view to a more humane and Christian-like treatment of prisoners. The principal recommendations are:

Closer supervision of all penitentiaries by a permanent commission, connected powers for the parole boards; the segregation of prisoners into classes and better provisions for discipline, and the mental and moral training of prisoners during their terms of incarceration.

No Political Partnership.

The commission found that the charges of political party connection, connected powers for the parole boards; the segregation of prisoners into classes and better provisions for discipline, and the mental and moral training of prisoners during their terms of incarceration.

## TORY WASTE ON THE N. T. RAILWAY

Paid \$350,000 the Liberals Refused—Arbitrators Were Overridden—Contractor Allowed Full Claim

Ottawa, April 22.—While Mr. Lynch-Staunton was incorporating in his report, on the National Transcontinental Railway, the charge that the Liberal government had allowed a "waste" of some \$500,000 in over-payments to contractors for overbreak, he knew at the same time that under the present government at least \$800,000 more had been allowed to Contractor J. D. McArthur for over-break than the Liberal government was prepared to allow.

That was one of the main points brought out before the common public accounts committee this morning, in concluding the investigation instigated by the Liberals into the payments to Contractor McArthur for over-break.

Chief Engineer Gordon Grant, of the National Transcontinental Commission, who was on the stand this morning, stated that the settlement effected with Mr. McArthur, whereby the latter had been allowed the extra \$350,000, contrary to the report of board of arbitrators appointed under the late government, was a waste of money.

Major Leonard said Mr. Grant had been quite accurate in the settlement and presumably Mr. Lynch-Staunton, who was at that time acting as advisory counsel for the N. T. R., had not had any say in the settlement. Yet in spite of this, the Gutelius-Staunton report deliberately charged that the late government had paid the contractor a total of \$500,000 too much on account of over-break.

Mr. Grant, who was examined by Wm. German, M. P., said this morning that Mr. McArthur had objected to the award of the board of arbitrators deducting \$35,000 from the amount claimed by him for over-break. Mr. McArthur was willing to accept a deduction of \$100,000. Mr. Grant said after going into the matter with the engineers, with Major Leonard, with Mr. Lynch-Staunton, and with the Hon. Frank Cochrane, he had concluded that all things being considered, he did not think that Mr. Cochrane had been asked to deduct. Mr. Grant did not estimate the cost of the over-break.

The committee decided to report the evidence to the house.

This is the significant result of the first opportunity of the Liberals to investigate what has been done by the present government in carrying on construction of the National Transcontinental Railway.

It may be noted that at the last meeting of the committee Major Leonard, a persistent investigator, connected powers for the parole boards; the segregation of prisoners into classes and better provisions for discipline, and the mental and moral training of prisoners during their terms of incarceration.

## DYKEMAN'S

### A Deluge of Water

Caused a large amount of damage to a lot of our Spring importations

The deluge was caused by one of the employees of our work-room, on the third floor, leaving the water tap turned on full in departing at night. The overflow not being sufficiently large, the water continued to run all night long and soaked everything in its course to the basement; fortunately, only the goods that were placed near the hatches were damaged. It being clean water, the goods are not what one would call damaged, they are simply wet. They consist of Ladies' Waists, Misses' and Young Ladies' Middies, White Duck and Pique Shirts, Cotton Suits, Coats, a large lot of Feather Pillows, and a large lot of dark colored Shaker Flannel.

All of these goods will be sold at a tremendous reduction on Friday morning.

### SEUMAS MacMANUS

WOULD LIKE TO MEET  
MEN OF DONEGAL HERE

Noted Irishman, Here Next Week,  
Says Many From His Section  
Came to St. John

If there are in St. John any natives of Donegal, Ireland, or their descendants they will be interested in the visit to this city by Seumas MacManus, famous Irish novelist, poet and story-teller.

In a letter to the secretary of the Playgrounds Association received today Mr. MacManus writes that he would like to know whether there are in St. John any natives of the parishes of Inver, Killynord or Donegal, County Donegal, or if there are any here who sailed in the little schooners and brigs that used to sail from the Green Islands in Donegal Bay. He writes further that he would like to meet any such if they be alive.

"Many from my part of Donegal, the parish of Inver, and village of Mount Charles, sailed to St. John about fifty or sixty years ago. I would like very much to meet any such if they be alive." It may be that among the victims of the cholera some sixty years ago, who were buried on Malpas Island, and in whose memory St. John Irishmen have talked of erecting a monument, were some from Donegal Bay. In any case, doubtless there are many descendants of Donegal people in the city. Mr. MacManus will arrive from Montreal on Sunday and will be at the Royal Hotel until Tuesday morning.

### THE WOMEN'S VOTE

St. John, N. B., Apr. 23.

To the Editor of the Times:—  
Sir:—A few nights ago you granted me the privilege of publishing a letter in your paper supporting the claim that married women owning property should vote at civic elections. My communication was answered by somebody signing the name "Horse Sense." This person, to my mind, argued very illogically and some of his deductions bordered very closely upon insult. The burden of the cry of Mr. "Horse Sense" was to the effect that married women should not be allowed to vote as they were "incompetents," that there was already trouble enough at the polls with widows and spinsters who are entitled to vote and similar other piffle not exactly warranted to demonstrate the writer's mental superiority over the female sex at any rate.

To answer such a foolish letter would be beside the question as I will simply reiterate that in justice to the property-owning married women of St. John every voter on Tuesday next should give his consent to their request by scratching out the line "Against Extending The Civic Franchise To Married Women." This scratching-out mark will allow the affirmative answer to stand and thus register another vote for the women.

It goes without saying that mothers of families, aside from being taxed on property that they own and there are 700 of these property-owning married women in town—are vitally interested in matters pertaining to clean streets, clean street cars, better homes, better health measures, school houses, pure foods and the regulation of public resorts, etc. These are affairs that married women, especially women with children, carry more vitally upon their heart than even widows and unmarried women and it is only fair therefore that they should have some say in them.

This local question of including the married women with the widows and spinsters in civic elections has nothing whatever to do with the universal suffrage idea. It is not to be classed with that movement. There is precedent already established in St. John for making this request and no great radical step would be taken if the married women were allowed the ballot. It seems to be nothing more than a fair, square proposition and local newspapers have given frank editorials in favor of it. Surely these married women with household responsibilities represent as much intelligence and as much civic pride as some of those enjoying manhood suffrage still willing to accept a dollar bill or a bottle of Scotch for their vote. Thanking you, Mr. Editor, for your space, I remain,

Yours truly,  
SERIOUS MALE VOTER.

## ST. PETER'S Y. M. A.

### IN PLEASANT RE-UNION

A Good Programme With Presentation of Trophy in the Bowling Tournament

An interesting and thoroughly pleasing programme marked the annual reunion held last evening by the members of St. Peter's Y. M. A. in the Elm street hall as a close to the winter season. J. J. McDonnell, president, occupied the chair, and the attendance was very encouraging. The association orchestra under Director McBride played a fine programme of musical novelties which were well received. The program gave an address of welcome and reviewed the work of the last season, while also touching upon the future.

Interesting addresses were also given by the rector, Rev. Charles McCormick, C. S. R., and the spiritual director, Rev. J. H. Borgmann, C. S. R., while Rev. M. O'Brien, Rev. J. McLaughlin and Rev. M. P. Howland were also present as invited guests. Rev. Father Howland was heard to advantage in two fine solos. Songs were sung by the choir, J. P. Doherty, and others, violin selections by Maunsell O'Neill, and step dancing by Leo O'Hara. During the evening a friendly wrestling bout was given between Chester, champion lightweight of the maritime provinces, and Mattson, champion lightweight of Finland. The bout went twenty minutes with neither securing a touch, but with several exciting moments. John Neilson was referee and E. R. Hansen timer. A feature of interest was the presentation of the bowling trophy won by the Brins, captained by James McIntyre, in the society's bowling league. The trophy of silver was presented by M. T. Colman in a graceful speech, and he also presented the pictures of the team, complimenting them upon the excellent bowling they had done. Mr. Colman's team was second in the league. Refreshments were served towards the close and an enjoyable time spent by all.

## PAY TRIBUTE TO WORTH OF JAMES MORGAN

One of Largest Funerals North  
Ead Has Seen—Many Floral  
Pieces

The esteem in which James Morgan was held by a host of friends was attested to this morning at his funeral which was one of the largest seen in North End for some time. It took place at 3 o'clock from his late home in Main street to St. Peter's church, where solemn requiem high mass was celebrated by Rev. J. H. Borgmann, C. S. R., with Rev. J. Holland, C. S. R., deacon, and Rev. Simon Grogan, C. S. R., sub-deacon. Relatives acted as pallbearers and interment was in the new Catholic cemetery.

Beautiful floral tributes added to the testimonials of regard from his friends. Amongst those received were wreaths of lilies and carnations from the officers of the 62nd regiment; wreath of cream and pink roses from Lieut. Walsh and members of "B" Co., 42 Regt.; wreath of lilies and cream roses from Manchester, Robertson, Allison, Ltd.; star of cream roses and carnations from M. R. A. wholesale department; wreath of lilies and carnations from M. R. A. clothing department; large standing cross of cream roses and carnations, Mr. and Mrs. F. H. Foster; cross of Killarney roses and carnations, Mrs. J. Short and Mrs. J. Keith; cross of pink roses and carnations, Mrs. J. G. G. Emery; sheaf of roses, G. W. Walker, Toronto; sheaf of white carnations, Mrs. John Morrow; sheaf of pink carnations, Mr. and Mrs. J. Doudy; sheaf of pink and white carnations, A. Morrison; sheaf of narcissus and lilies, Miss M. Barry; sheaf of white and pink carnations, Mr. and Mrs. F. Best; sheaf of lilies, Miss R. Smith, and sheaf of pink and white carnations, Misses A. and K. Morgan.

## WILL OF MRS. SPEARIN

In the probate court today the will of Mrs. Blanche P. Spearin, wife of Freeman A. Spearin, of North End, surveyor. The deceased, who was a daughter of the late Eden Booth, gives all her money on deposit in the Dominion Savings Bank equally among her three children, Minnie E., wife of Charles J. Olney of St. John, pattern maker, and G. Frederick and Frank A. Spearin, infants. By her father's will he gave to the deceased's brother, George A. J. Rootes, \$800, should he claim it in ten years, failing which it was to go to the testatrix. Should such legacy come into this estate it is to be paid to the deceased's youngest son. She directs her executrix to sell her real estate and out of the proceeds she gives \$10,000 to be disposed of as follows: \$2000 to her granddaughter, H. Blanche Olney; \$2000 to her husband; \$215 to placing her two lots in Fernald under perpetual care; the balance of such \$10,000 to be used for the support of her two infant children—the balance to be divided among her three children and she nominates her daughter executrix, and also guardian of her two infant children. Real estate \$2,800, personal estate \$4,500; total \$7,300; Francis Kerr, proctor.

The court took up the matter of the estate of Mrs. Anella B. Crawford, widow of W. K. Crawford, bookseller. For special reason shown the will was admitted to be proved prior to the usual lapse of fourteen days from death. The testatrix, after providing for the support and care of her sister, Elias Evanson, who, however, died before her, gave all her estate to her niece, Laura A. Smith, of Halifax, N. S., and nominated her and the late George C. Coster as executors. The last named died before the testatrix and Laura A. Smith was sworn in as executrix. There is no real estate; personally \$1,900. H. H. Brittain is proctor.
