German Defeat By The Russians In Poland Declared a Rout

Official News Reaches London Announcing The Russian Victory As Decisive

ENEMY IN RETREAT ALONG THE ENTIRE FRONT

At Some Parts The Germans Are Fleeing In Disorder, Leaving Guns and Other War Material Behind Them--In Berlin They Try to Lay the Blame on the Austrians

London, Nov. 26—Official news received in Russian circles in London today declares that the rout of the German and Austrian forces in Poland has been complete.

The general staff, however, is not yet able to give any details of this fighting.

London, Nov. 26—"The Germans have begun a retreat along the entire front," says the Petrograd correspondent of the Express, "and in many places, the flight is a disordered rout, marked by the abandonment of artillery, maxims and transports."

"It is now clear that the Russian victory in Poland is decisive," says this correspondent. "The number of prisoners taken by the Russians is estimated at fifty thousand."

Berlin meanwhile is beginning to talk about repulsing Russian attacks, which is a subtle method of announcing that the German troops are on the defensive.

GERMANS BLAME AUSTRIANS

London, Nov. 26—The Morning Post's Amsterdam correspondent telegraphs: "The Berlin correspondent of the Allgemeine Handelsblatt says the people of Berlin attribute the failure of the German offensive near Warsaw and Lvigorod and the retreat to the Prussian frontier to insufficient assistance rendered by the Austrian troops under General Dankl, who let the Germans wait three days and advanced only when the Russians already had crossed the Vistula."

HOW VON HINDENBURG WAS BEATEN

London, Nov. 26—The correspondent of the Chronicle in Petrograd describing the reported German defeat in Poland, says: "The weakness of General Von Hindenburg's position was that he was isolated from the crown prince's army, which was fighting south of Czestochowa with the object of keeping the main Russian force engaged while Von Hindenburg operated in the north, but the Russian resources were equal to both armies, and when Von Hindenburg found himself hard pressed he ordered into the gap at Wielun, the Austrian troops, who were intended to turn the Russian left."

"These Austrians shared the fate of all Austrians, who have been made to fight the Prussian battles. The Russian general staff, following their turning movement and got them to flight, capturing 50,000 prisoners and several scores of machine guns."

"General Von Hindenburg's position is now hopeless and the thousands of prisoners streaming into Warsaw speak eloquently of his failure."

"In the battle with the crown prince's army, the Russians are steadily winning. The Russian army advancing westward from the river San is now within twelve miles of Cracow. The civilian population, fearing the destruction of the city, demanded its surrender. In reply the military governor ordered the wholesale expulsion of civilians."

FIVE THOUSAND BID FAREWELL TO YARMOUTH BOYS GOING TO WAR

Yarmouth, N. S., Nov. 26—There was an enthusiastic gathering at the station this morning when Yarmouth's contribution to the artillery trained for Frederickton. More than 5,000 were present. A procession which accompanied the recruits, was made up of the band, cadets, Boy Scouts and firemen with decorated apparatus. The men who went were: Evelyn B. Hatfield, Wm. R. Spodwin, Eric Barrill, Gordon D. Nickerson, Willard F. Allen, Ernest Snider, Charles Wallace, Harris R. Hines, Charles H. Verney, John W. Miasner, Carroll J. Potter, Ashton H. Ines.

BELGIUM

(By A. M. Belding.)

The silent fields, the ruined lanes, The ghosts that walk the blood-wet lanes, The want, the woe, the emptiness, The cry of women in distress, The roofless homes, the children slain— Shall ravished Belgium plead in vain?

Her sons were first whose honor led— God rest them in their dreamless bed! And shall their children's wailing cry Unheard, unpitied, pass us by?

May God forbid! For us they died, Who there the German hosts defied; They laid in shack the Urian lance That thirsted for the life of France, The iron heel, the iron hand That would have scourged our English land.

God grant them rest for ever more, Who thus the brunt of battle bore, Till France and Britain's gathered might Swept down to meet the coming blight.

Not thus the age-long load of shame, Within whose folds the ardent flame Of valor burned, with steady light, When shadows of the awful night Fell dark upon their Fatherland.

But naked now the children stand, And wives and mothers mourn their dead, And hark! The bitter cry for bread, Above the tread of martial feet Grows ever louder in the street.

East land of Canada, the fate Of ravished Belgium, soon or late, But for the might of Britain's arm To shield her children from all harm, Would by thine own thy children's cry

Go up from earth to yonder sky; Thy temples fall, thy hopes lie dead Beneath a tyrant's blighting tread. The devil's hand that sacked Louvain Would strangle thee; the scheming brain That planned the blow at Britain's life,

And plunged the world in deadly strife, Had numbered thee among the spoil, And doomed thy children to the toll Of hateful bondage, sore oppress,— The hapless Poland of the west.

Hear then the cry of Belgium's woe, (For thee her sons have met the foe) And from the wealth the harvest yields, In thy illimitable fields, Load full the ships—for who shall

That gifts alone can e'er repay The debt we owe the men who fell In that fierce storm of shot and shell, —First martyrs in the noblest fight Man ever waged for truth and right.

FIRST INDIAN TO WIN THE VICTORIA CROSS

London, Nov. 26—A Times Boulevard correspondent says: "Havildar Gunga Singh, of the Fifty-Seventh Rifles, is the first Indian to be recommended for the Victoria Cross. He has arrived aboard a hospital ship, a bundle of splints and bandages, but very cheerful and full of heart. He was severely wounded. "Havildar, with fifteen men of his regiment, was attacked in a trench before dawn. The Germans were stopped, for some seconds, by a wire entanglement, and lost heavily before they broke through. In a hand-to-hand struggle that ensued, Havildar shot a German officer whose bullet grazed his head. He took the German's sword and killed ten more men, before he was brought down by a bullet in the foot."

"O'Hervey," he said, "I should have killed more, but I was so tired." "Gunga Singh was the sole survivor of his party."

BOIESTOWN SENDS TO MAYOR \$266.60 FOR BELGIAN RELIEF FUND

North Shore Village Sets Fine Example—More Still to Come From There

One of the most interesting features of the Belgian relief fund contributions, acknowledged by Mayor Frink today, is the amount received from Boiestown, Northumberland county. Boiestown is only a village, and not a large one either, but the contribution of \$266.60 from the people of that district for the impoverished Belgians shows that their hearts are large if their number is not. That this is not the end of their efforts is shown by the letter which accompanied the remittance, as follows:—

Boiestown, N. B., Nov. 23, 1914. Mayor James H. Frink, Treasurer Belgian Relief Committee, St. John, N. B. Dear Sir,—I herewith enclose, by express order, the sum of \$266.60, collected by the local relief committee here, of which I am treasurer. Our request is that your committee should use the funds to the best possible advantage in relieving the situation. Some additional funds are being collected here, which will shortly go forward to you, together with some cases of clothing also being collected. Please acknowledge cash and also let me know when next relief shipment will be made from St. John so that we will know when to forward clothing, etc.

Yours truly, W. MacKay MacMillan, Treasurer Belgian Relief Com.

Today's contributions are as follows: Mrs. Harvey H. Honey, Ludlow Baptist church, Ludlow, N. B., \$5; Mildred B. Hunter, contributed by Progressive League, Douglas Harbor, Queens county, \$5; Maurice N. Tuff, Pejespot Lumber Company, collected at Great Salmon River, St. John county, \$4; H. S. Wanzaker, St. John, \$10; the people of Boiestown, N. B., collected by Local Belgian Relief Committee, per W. MacKay MacMillan, \$266.60; collected at Baptist church, The Range, Queens county, per J. L. Barton, \$1; Basket social, Glassville, N. B., per Kenneth McIntosh, \$26.85; Barnet Land Brook, per Mrs. D. A. Jenkins (fourteen families of district), \$41.25; James Wilson, \$2; Brunswick Rehebel Lodge, No. 44, and Carleton Lodge, I. O. E. No. 41, per Mrs. Thomas W. Baker, Woodstock, N. B., \$24.85; residents of Pettitcodic and vicinity, per

SWEDISH CRUISERS MAY CONVEY STEAMSHIPS THAT CARRY CARGOES OF LUMBER

Stockholm, Nov. 26—The German declaration that wood is contraband of war has brought considerable comment in the Swedish press.

Fifteen Swedish steamers laden with wood, it is reported, have recently been stopped in the South Baltic by German cruisers and made to return to Swedish ports. The suggestion is now made in the press that British cruisers convey Swedish commercial vessels loaded with wood past ice lines of German warships.

SENDING THEM BACK TO THEIR OWN COUNTRIES

Berne, Switzerland, Nov. 26—The exchange of civilians under or above the military age interned in belligerent countries is now being actively carried out. Within the last few days more than 5,000 such have passed through Switzerland in special trains. They included 700 French, 1,000 Austrians, and 3,500 Germans.

It is estimated that there are still 20,000 Germans interned in France and, according to German newspapers, between 100,000 and 200,000 in Russia. Several thousand women, children and old men, it is charged by these newspapers, have been sent in their summer clothes to Siberia, where, destitute of all means, their situation is deplorable, as it seems no way has yet been found to effect their exchange.

BURIED IN RUINS OF COLLAPSED HOUSE

Messina, Nov. 26—One of the palaces damaged by the earthquake in 1908, suddenly collapsed owing to hard weather, burying three families in the ruins. Rescuers saved two children. Neighbors say that at least six people are buried in the ruins.

BRITISH LOSE BULWARK BY AN EXPLOSION

Battleship of 15,000 Tons Blown up Off Sheerness and 700 or 800 Men Are Drowned—News is Official

London, Nov. 26—It was officially announced here today that the British battleship Bulwark had been blown up off Sheerness.

The Bulwark was 15,000 tons displacement, she was laid down in 1899 and completed in 1902. She was 411 feet long, 75 feet wide and drew 29 feet of water.

Her armament consisted of four 12-inch guns, sixteen 12 pounders, six three pounders and four submerged torpedo tubes. She had a complement of 750 men.

Sheerness is on the Thames, at the mouth of the estuary of the Medway. It is thirty-five miles down the river from London.

Only twelve men out of the 700 or 800 on board the Bulwark were saved. According to the admiralty the explosion is believed to have originated in the Bulwark's own magazine.

The announcement of the disaster to the Bulwark was made by Winston Spencer Churchill, First Lord of the Admiralty, this afternoon.

ALLIES HAVE RETAKEN DIXMUDE

French Marines Drive Out Germans--Other Gains Are Reported--Heavy Snowfall on The Vosges Mountains

London, Nov. 26—The Daily Mail's correspondent in Dunkirk telegraphs that Dixmude has been retaken by the allies. He says: "The French marines attacked the town strongly on Tuesday night and drove the Germans out of the advanced trenches. On Wednesday they followed this up by an irresistible charge."

"The enemy did not halt in their retreat until seven miles out of the town. The marines lost 300 men."

Paris, Nov. 26—The official French announcement given out in Paris this afternoon reads as follows:—"No important development marked the day of November 25. In the north the cannonading diminished in intensity, and no infantry attack was directed against our lines, which made slight advances at certain points."

"In the region of Arras there was a continuation of the bombardment on the town and its environs."

"On the Aisne the enemy endeavored to deliver an attack on the village of Migny. This movement resulted in complete failure, with considerable losses to the Germans."

"We have made some progress in the region to the west of Soisau."

"In the Argonne, in the Woivre district, in Lorraine and in the Vosges, there is almost complete calm along the entire front."

"There has been a heavy fall of snow, particularly in the higher portions of the Vosges Mountains."

New York, Nov. 26—A London cable to the Tribune says:—"The prominence given by the English press on Monday to the poor showing the recruiting sergeants are making while thousands of able bodied men watched the soccer football games on last Saturday, has forced the authorities to take some action to stimulate the call to the colors."

The English football association has called a meeting for Monday at which every club in the country will be represented, to consider whether the games ought to be continued. The general opinion will be reached by the end of the season being carried through under certain conditions."

Since September 1 the football association has been willing to call off the games if the War Office so wished, but the "off day" in recruiting on last Saturday gave rise to so much comment that the result of the meeting next week is anxiously awaited by thousands of followers of this sport.

ANOTHER GOOD DAY

Twenty Two More Joined the 26th This Morning

YESTERDAY'S NUMBER 55

Total up to Noon Was 740—Army Service Corps Has More Offers Than Can Be Accepted—Y. M. C. A. Wish to Have Camp With the N. B. Battalion

The strength of the 26th Infantry Battalion up to noon today was given as 740, but this does not include many who expressed their intention of enlisting but who have not yet done so, because of certain reasons existing preventing their signing on for another week or so. The reports from the outlying sections of the province still continue encouraging. Since the campaign was organized some days ago with the slogan "Fifty Men A Day" the average has been well maintained. In fact yesterday the registration was above the fifty mark, for fifty five men enrolled, and this morning there was a good start with twenty-two on the books. Of the fifty-five who signed yesterday thirty-two gave their domicile as St. John, making 864 signing the lists at the local offices, the remainder having been sent in from other parts of New Brunswick and P. E. Island.

U. N. B. Volunteers

The Fredericton announcement from the members of the section volunteering from the University of New Brunswick has caused a certain change of plans for the 26th as it had been thought that the boys would be enlisted in the infantry battalion. According to press reports it was said today that the university students for the most part intended joining the artillery battery, being mustered in the province with encouragement from what upset their plans for the formation of a college students' company. The organization of other companies of "pals" is meeting with encouragement, probably that among the clerks of St. John commercial houses being the most successful. The same idea is being carried into effect in detachments smaller than companies, clubs being kept together as much as possible.

Surplus of Volunteers

With the Army Service Corps it is not a question of trying to get more men but to make a proper selection from the many who have offered their services, for almost fifty more men have offered above the unit of eighty-eight men who will be sent. Lieutenant Colonel Masie in less than four days had many more than were needed for the transport section to be mustered in St. John and now the task is to select from the many who have offered, the most capable from the viewpoint of efficiency to be considered. There is still no word from Ottawa as to the command of the service unit for overseas duty.

Y. M. C. A. Camp

A. S. McAllister national maritime secretary of the Y. M. C. A. and F. S. Shepherd of Toronto, national secretary for military work are in the city today and consulted with Colonel McArdy and Colonel Masie this morning in regard to arrangements for a Y. M. C. A. camp with the second contingent. Several applications to go as Y. M. C. A. secretary have been received from young men in St. John and it is expected that one will be appointed.

The Y. M. C. A. is of valuable assistance to the boys with the first contingent and articles sent to St. John boys at Salisbury Plain will gladly be forwarded through this agency on application to the local secretary of the Y. M. C. A.

Recruits from Bathurst

As a result of the very successful recruiting meeting on Monday night in Bathurst, eleven names were handed in on the next morning, and many of the young men have made enquiries in regard to terms of service. The Northern Light says that from present appearances it would look as if forty or fifty recruits would be secured right in Bathurst within the next few days.

ST. JOHN WAS WELL REPRESENTED IN THE LORD MAYOR'S PARADE

At least two St. John boys were honored with positions in the London Lord Mayor's parade. Jack Nuttall, promoted to corporal in the 4th infantry battalion at Salisbury Plain, and Arthur Estey, promoted to bombardier in the Divisional Ammunition Column, were both in the ranks of the 300 Canadian selected from the thousands mustered at the big training camp.

His brother, W. H. Estey had a letter yesterday from Arthur, telling of his having been selected, and the news concerning Corporal Nuttall came in a letter today from his brother Gordon to his father, John T. Nuttall, City road. They spoke of the procession as having been particularly impressive, and it was said that at all points along the route the Canadian lads were given a hearty reception by the people.

DELEGATES AGAIN ON SIGHT SEEING TOUR

The delegates to the Convention of the New Brunswick Union of Municipalities again spent the morning eight seeing. Automobiles had been placed at their disposal and a round of some of the most interesting public institutions was made. They visited the Municipal Home, the new St. John county tuberculosis hospital, the General Public Hospital, Boys' Industrial Home, the Monastery of the Good Shepherd, the Cornwall and York Cotton Mills and also the harbor development works at East St. John.

The business sessions will be resumed this afternoon and, owing to the length of the programme, it is possible that they will not be concluded until tomorrow.

Despite only fairly favorable weather the delegates are having a good time and enjoying the other features of the gathering as well as the more purely instructive sessions.

GEORGE McDADE ILL

Friends of George McDade of this city will regret to learn that he is seriously ill in a Halifax hospital. Mr. McDade, who has been attending Dalhousie Law School, was taken ill on Saturday. His condition this morning was slightly improved.

MILITARY AND GENERAL NEWS OF FREDERICTON

Fredricton, N. B., Nov. 26—Twenty-five men from Picton arrived here last night to join the field battery, and eight more came in today from Woodstock. There are sixty-four now here.

Eleven recruits for the 26th battalion joined last night and it is expected that at least twenty, including U. N. B. students will be enrolled today.

Colonel Humphrey, of Halifax, is here today on a visit of inspection.

The big game season will close on next Monday. So far as can be learned there has been a falling off in the number of resident and non-resident licenses in comparison with last season.

Miss Thompson's department of the Charlott street school has been closed for a week owing to scarlet fever.

DEATH OF T. J. COCHRAN

Terence J. Cochran, a former druggist of this city, died this morning at his residence in Richmond street after an illness of eight weeks. He was sixty-nine years of age and for many years conducted a drug store here. He was born in Prince Edward Island and was a son of the late Benjamin W. Cochran, formerly postmaster at Halifax. He survived by his wife and one daughter, Mrs. Patrick J. Donohue.

RUSSIANS LED GERMANS INTO TRAP AND BEAT THEM

Petrograd, Nov. 26.—Semi-official advices received from Poland show that the German defeat at Lodz culminating in the capture of a German army corps was the result of a Russian manoeuvre by which the Germans were led into an inextricable trap. The Russian left wing resting on the river Warta and the Russian right wing on the Vistula, both lying along the Warsaw-Kalisz railroad, moved forward in unison in the last two days.

THE DAMAGE TO THE GRAND MANAN

The steamer Grand Manan, which was towed into port yesterday afternoon disabled, was beached in the slip near the Thorne Wharf this morning and this afternoon a survey will be made by the port warden. It was found when the left side of the propeller shaft, which is about six inches in diameter, had snapped off near the propeller. The fact that a large piece was broken off of one of the blades seemed to suggest that the propeller had become entangled in something and jammed.

SCHOONER FROM FARRBORO IN TROUBLE OFF GATHEAM

Chatham, Mass., Nov. 26.—The revenue cutter Acadia today pulled the British three-masted schooner Saint Maurice off the flats at South Chatham, where she grounded yesterday, when an anchor chain broke while the vessel was riding out the blow inside Monney Point. The schooner was leaking slightly but otherwise was undamaged and it was expected that she would resume her journey to New York today. She has plaster from Farrboro, N. S.

THE PRACTICAL GIFT MOVEMENT

There is a movement all over this continent among the large stores, to make this a "practical" Christmas, carrying out the idea of giving only useful and practical gifts, or in other words, Santa Claus is to appear this year in the role of a practical St. Nicholas.

We are heartily in accord with this movement, and we believe the majority of the people of St. John will agree with us.

We have made great preparations to have a splendid display of all sorts of interesting and practical dry-goods. There will be hundreds, we might say thousands, of dainty and useful things to choose from, and even our store has taken on Christmas air.

Remember that practical gifts take more thought and consideration than the ordinary Christmas remembrances, so that it is none too early to begin your buying. Christmas is only a month away and a month ahead is not too long for the average person to work out his or her problem of "practical" giving, so begin now.

Yours truly, F. W. DANIEL & CO. LTD.

IMPERIAL TONIGHT AND TOMORROW

Tonight at the Imperial the final showing of the stirring British picture "Shannon of the Sixth" will be made. Large crowds were much impressed with the dramatic and spectacular quality of this yesterday and as it consumes one hour and a half in the showing, it gives a splendid portrayal of deeds of heroism done during the Indian Mutiny which should be an inspiration to the men of the country at the present time.

Tomorrow and Saturday Imperial Theatre will continue the "Grey of Hearts" serial. The new subject is entitled "Steel Ribbons" and continues in a most spirited way the exciting happenings during the railroad journey of the Trine family, Alan Law and his staunch friend Barcus. In addition there will be a two-act Lubin drama entitled "The District Attorney's Decision" and also the Imperial's new war budget (Recall of Paris) showing how the British drove the Germans out of the city of Ghent in that memorable battle.

THE ALCO SUNK

The tugboat Alco, recently purchased by the militia department for use as a transport between the city and Partridge Island, sank at her moorings at Partridge Island yesterday and is now lying in bottom almost submerged at high tide. The boat made a trip to the island, carrying some Anglican clergymen, including Van. Archdeacon Raymond, and Rev. R. F. McKim, of this city; Ven. Archdeacon Davidson, of Guelph, Ont., and Rev. L. Donaldson, of Halifax.

After they had landed, the vessel, in pitching about in a rather rough sea that was running, struck the wharf, stove a hold in her side and sank. The clergymen returned to the city in another tug.

Constipation, Indigestion and Horrible Backaches

Searched for a Cure for Years—Advised to Try Dr. Chase's Kidney-Liver Pills and Was Cured.

Where there is poison there is pain. This is a provision of Nature to warn you against conditions that are likely to prove serious.

Constipation of the bowels is one of the most common and the most distressing of diseases and suffering. By using one of Dr. Chase's Kidney-Liver Pills at bed-time as often as is necessary to keep the bowels regular you can keep constipation and the consequent indigestion and remove the cause of backache, rheumatism and other painful diseases.

"Daily movement of the bowels" is the greatest law of health. Dr. Chase's Kidney-Liver Pills will help you to form this habit, add to your years, and bring comfort in old age.

Professor A. T. Smith, 1 Mt. Charles street, Montreal, and formerly of Boston, Mass., writes:—"I suffered for many years from bad digestion, constipation and horrible backaches. I have been treated by many doctors without any results. One day a friend in Boston advised the use of Dr. Chase's Kidney-Liver Pills. After using two boxes I noticed great improvement, and after the fourth box I was completely cured. My digestion is good. I never feel any pain in the back. My head is clear, and I feel like a young man. I think Dr. Chase's Kidney-Liver Pills are one of the best medicines in the world."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers or Edmondson, Bates & Co., Limited, Toronto.

HAVE NO ELECTIONS AND GIVE TO FUND THE MONEY SAVED

Barrie, Nov. 26—At the November session of the county-council it was proposed to give a lump sum of \$80,000 to the Patriotic Fund, besides a donation to the Belgian Relief Fund in preference to surging the lives of each soldier from home County now on active service, or he may yet go to the front.

A proposal is being subscribed to by any of the representatives to have all municipal elections throughout the county by acclamation and to devote to the Patriotic Fund the money saved by not holding a poll. It is estimated that some \$8,000 will thus be saved for patriotic purposes, and most of the different municipal representatives are gladly falling in line.

That Racking Persistent Cough Can Be Quickly Cured By DR. WOOD'S NORWAY PINE SYRUP

All obstinate coughs and colds yield quickly to the general action of "Dr. Wood's" for the simple reason that this valuable preparation combines all the lung healing virtues of the Norway pine tree with which is combined Wild Cherry Bark, and the soothing, healing expectorant properties of other excellent herbs and barks. This makes it, without any chance of denial, the best cough medicine on the market to-day.

When you ask for "Dr. Wood's" see that it is put up in a yellow wrapper, three pine trees the trade mark, and that the name, The T. Milburn Co., Limited, Toronto, Ont. appears on the wrapper. Price, 25c and 50c.

Mrs. H. C. Kingston, Moose Jaw, Sask., writes: "I wish to recommend Dr. Wood's Norway Pine Syrup as being the best cough medicine on the market. A few months ago I took a severe cold which left me with a racking cough. After trying several cough remedies, with no result, I decided to get a bottle of Dr. Wood's Norway Pine Syrup, and after taking the first two doses it began to effect a cure, and after continuing its use for a short time, I was entirely cured. I cannot say too much in its praise."

To Put on Flesh and Increase Weight

A Physician's Advice.

Most thin people get from four to six pounds of good solid fat-making food every day and still do not increase in weight one ounce, while on the other hand many of the plump, chunky folks eat very lightly and keep gaining all the time. It's all both to say that this is the nature of the individual. It isn't Nature's way at all.

This folks stay thin because their powers of assimilation are defective. They eat to maintain life and a semblance of health and strength. Stuffing food makes them gain a single "stay there" pound. All the fat-producing elements of their food just stay in the intestines until they pass from the body as waste. What such people need is something that will prepare these fatty food elements so that their blood can absorb them and deposit them all about the body—something, too, that will multiply their red blood corpuscles and increase their blood's carrying power.

For such a condition I always recommend eating a Sargol tablet with every meal. Sargol is not, as some believe, a patented drug, but is a scientific combination of six of the most effective and powerful flesh-building elements known to chemistry. It is absolutely harmless yet wonderfully effective and a single tablet eaten with each meal often has the effect of increasing the weight of a thin man or woman from three to five pounds a week. Sargol is sold by good druggists everywhere on a positive guarantee of weight increase or money back.

How To Make The Quickest, Simplest Cough Remedy

Much Better Than The Ready-Made Kind and Ten Times Safer. Fully Guaranteed.

This home-made cough syrup is now used in more homes than any other cough remedy. Its promptness, ease and certainty in conquering distressing coughs, croup, whooping cough, influenza, colds, bronchitis, pneumonia, croup, bronchial asthma and winter coughs. Get from any druggist 24 ounces of Pinex (50 cents worth) and fill the bottle with pure granulated sugar syrup. Takes you, at a cost of only 54 cents, 16 ounces of Pinex. Takes but a few minutes to prepare. Full directions with Pinex.

You will be pleasantly surprised to note how dry it is, how it soothes and relieves the inflamed and irritated membranes of the throat and bronchial tubes, thus ending the persistent loose cough.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, rich in quinine, which is so beneficial to the system.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Toronto, Ont.

REGIMENT OF "APACHES" TO FIGHT THE GERMANS

Information received in New York tells of the formation in Paris of a regiment which should rival in picturesque quality the Foreign Legion and the Rough Riders of the Spanish-American war.

It is nothing less than the organization of an Apache regiment, composed of the catthroats, desperadoes and criminals of more timid criminals and they may be hired to do killings. But at the same time they are recklessly courageous and the fights between rival Apache gangs that they are enemies of all law and order—the "bad men of Paris" are said to be as hot for the honor and victory of the French flag in war as anybody.

In times of peace the Apache and the army are bitter enemies—in fact, the Apache bands were largely formed, it is said, from the young men who dodged military service.

The Apaches are much like the New York east side "gunners." They have their corps of wretched women, they swagger about as the protectors, for pay of more timid criminals and they may be hired to do killings. But at the same time they are recklessly courageous and the fights between rival Apache gangs that they are enemies of all law and order—the "bad men of Paris" are said to be as hot for the honor and victory of the French flag in war as anybody.

A skin you love to touch

Why it is so rare

A skin you love to touch is rarely found because so few people understand the skin and its needs.

Begin now to take your skin seriously.

You can make it what you would love to have it by using the following treatment regularly.

Make this treatment a daily habit

Just before retiring, work up a warm water lather of Woodbury's Facial Soap and rub it into the skin gently until the skin is softened, the pores opened and the face feels fresh and clean. Rinse in cooler water, then apply cold water—the colder the better—for a full minute. Whenever possible, rub your face for a few minutes with a piece of ice. Always dry the skin thoroughly.

Use this treatment persistently for ten days or two weeks and your skin will show a marked improvement. Use Woodbury's regularly thereafter, and before long your skin will take on that finer texture, that greater freshness and clearness of "a skin you love to touch."

Woodbury's Facial Soap is the work of a skin specialist. It costs 25c a cake. No one hesitates at the price after their first cake.

Do this today—now! Tear out the illustration of the cake below and put it in your purse as a reminder to get Woodbury's and try this treatment. Tear out the cake now. Take it in your druggist today. Begin tonight to get the benefits of this facial soap. For sale by Canadian druggists from coast to coast, including Newfoundland.

THE WAR NEWS.

There is no longer any doubt that a great victory has been gained by the Russians over the German and Austrian armies in Poland. The Germans have again been compelled to retreat to their own borders. While the full extent of the disaster to them has not been officially announced, the despatches appear to make it very clear that the defeat amounts to a veritable disaster; and that while enormous numbers of prisoners have been taken by the Russians, other portions of the German armies are also likely to be compelled to surrender.

possible results to the community may be secured.

GOING THE LIMIT

The Woodstock Press, which is the personal organ of Hon. Mr. Flemming, sends out this week a special supplement containing the report of the Royal Commission, served up with large headlines which would convey to the casual reader the impression that Premier Fleming had been completely exonerated by the Royal Commission. It prints in even more conspicuous type the letter of Premier Fleming, in which he severely criticises the Royal Commission and calls upon Mr. F. B. Carvell to resign his seat in parliament and contest the county of Carleton. In an editorial the Press refers to Mr. Fleming's "staunch integrity," says he has given the province "the very best government," and that he has given the province "good, clean and progressive legislation," and speaks further of "his many projects designed to benefit not only the farmers, but all other residents of New Brunswick." Assuming that Mr. Carvell will accept the challenge, and that Mr. Fleming will be triumphantly returned, the Press adds: "His reelection will be hailed with joy by many thousands of the people of this province who respect and trust him."

For braven effrontery this is surely going the limit.

MUNICIPAL AFFAIRS.

The convention of the Union of New Brunswick Municipalities has brought out some very interesting discussion, and there can be no doubt that the exchange of views will be of benefit to the representatives from the various municipalities, and arouse in them a deeper interest and a broader conception of the extent and quality of the services they may render to the people, as members of the various municipal boards.

St. John has been glad to welcome the visitors, who must have been impressed by the fact that the motto "business as usual" is being observed here in spite of the war. Finding that the conditions of industry and trade in St. John, the chief city of the province, are at least as satisfactory as they were a year ago, and that the problem of unemployment has not yet presented any serious difficulties, they will naturally gain a renewed confidence in the ability of New Brunswick to meet the stress of war without serious hardship.

The banquet last evening was a most interesting affair, and the addresses delivered were thoroughly enjoyed. Warden McLellan had spared no pains to provide a pleasant evening for the visitors and other guests, and his efforts were amply rewarded by their thorough appreciation.

Another New Brunswick minister, Rev. George Wood, of Chatham, well known in St. John, has been accepted as a chaplain for foreign service. The province of New Brunswick will be splendidly represented in the next contingent.

It was unfortunate that Mr. W. F. Burditt's exhaustive and splendidly illustrated paper on town-planning had to be hurriedly presented last evening to a much smaller audience than it deserved. Mr. Burditt has made so thorough a study of this subject that what he says is always worthy of close attention.

Germany now finds it necessary to raise a further enormous sum of money, for the support of individuals and communities hard hit by the war. The financial pressure will be much more keenly felt in Germany than in either of the Allied countries, because its trade has been ruined.

The war appears to have developed at least one new industry. A Chicago concern wants to sell machines for burying the dead, which may also be used for digging trenches. The world ordinarily could get along very well without such a machine, but at present it appears to be a necessity in Europe.

The Fredericton Gleaner is very much disturbed over the prospect of the banquet for Messrs. Dugal and Carvell. It even suggests that free tickets will be available. Now if the committee had that thousand dollars which the Gleaner got they might be able to feed a multitude.

On Tuesday night about eight hundred members of the Nova Scotia Regiment had been recruited. They are doing rather better in Nova Scotia than we have done in New Brunswick; but the campaign in this province is now in full swing, and should result in quickly filling the ranks of the New Brunswick battalion.

Warden McLellan wants the Union of Municipalities to pay very close attention to all legislation that is proposed affecting municipal interests. The importance of such watchfulness has been amply demonstrated no longer ago than during the last session of the provincial legislature. The Union can do its very best work in checking some legislation and promoting really good measures.

HIS HEALTH IN A TERRIBLE STATE

"Fruit-a-tives" Healed His Kidneys and Cured Him

Hagersville, Ont., Aug. 26th, 1913. "About two years ago I found my health in a very bad state. My kidneys were not doing their work and I was all run down in condition. I felt the need of some good remedy, and having seen 'Fruit-a-tives' advertised I decided to try them. Their effect, I found more than satisfactory.

"Fruit-a-tives" is the greatest Kidney Remedy in the world. It acts on the bowels and skin as well as on the kidneys, and thereby soothes and cures any Kidney soreness.

"Fruit-a-tives" is sold by all dealers at 50c a bottle, 6 for \$2.50, trial size 25c or will be sent on receipt of price by Fruit-a-tives Limited, Ottawa.

THE SIKHS

Among the picturesque native Indian troops which England has brought into the firing line to strengthen the forces of the Allies, are the Sikhs. They are adherents of the Sikh religion, found principally in the Punjab, the United Provinces, Kashmir, and other parts of northern India.

The Sikh is a fighting man, and his best qualities are shown in the army. He is brave and slow-witted, obedient to discipline, attached to his officers, he makes the finest soldier of the east. In victory he retains his steadiness, and in defeat he will die at his post rather than yield. In peace time he shows a decided fondness for money, and will go wherever it is to be earned. There are some 30,000 Sikhs in the Indian army, and the sect is cherished by the military authorities, who insist on all recruits faking the pahal or Sikh baptism."

The Gurkhas. They are the ruling Hindu race in Nepal in northeastern India. "They make splendid infantry soldiers," says the Encyclopedia Britannica, "and by agreement with their government about 20,000 have been recruited for the Gurkha regiments of the Indian army. As a rule they are bold, enduring, faithful, frank, independent and self-reliant. They despise other Orientals, but admire and fraternize with Europeans, whose tastes in sport and war they share. They strongly resemble the Japanese, but are of a sturdier build. Their national weapon is the kukri, a heavy curved knife, which they use for every possible purpose."

The Gurkhas. Among the British reinforcements that have joined the battle line of the Allies have been mentioned the sturdy

BRITAIN'S GROWING FLEET

(Toronto World)

In his speech at the Guildhall on November 9 the first lord of the admiralty marked that "at the end of nearly one hundred years of war, the navy, in whose ten and work you have paid tribute to-night, in spite of losses of ships of no real consequence, of officers and men irreparable—the navy, in spite of losses, is usually and relatively stronger, on every point and in every branch, compared to our enemies than it was on the day when war was declared. And it is stronger, most particularly, in its branches of the sea service in which circumstances of modern warfare have exercised the most powerful influence upon the struggle." His deliverance adds strength to the report that Germany is satisfied she can longer compete with Britain in the construction of battleships and is therefore devoting greater energy to the building of an air fleet.

According to last month's navy list, directed down to Sept. 18, no less than 120 warships were added to the strength of the imperial navy. Of these four were dreadnoughts, embodying all the latest offensive and defensive powers and outfitting, on the main broadside, thirty

13.5 inch guns and fourteen 12 inch guns. One battle cruiser of the dreadnought type was also commissioned, carrying eight 18 inch and twelve 6 inch guns. In addition, four light cruisers, three armored cruisers or monitors of light draught, two flotilla destroyer leaders and eight large destroyers were added to the strength. Many submarines are under construction and by the spring of next year the imperial fleet will have further and great reinforcements in every branch of the service. Britain's resources in shipbuilding vastly exceed those of Germany and not even the most fearful critics but will believe that, at a supreme crisis such as that which now confronts the empire, every agency is being taxed to the utmost of its capacity to meet all possible emergencies. Nor will there be less endeavor to strengthen the air fleet, where indeed Britain has already more than held her own.

MUNICIPALITIES IN CONVENTION

Delegates Kept Busy on Opening Day
ATTENDANCE IS GOOD

Sight Seeing, Two Business Sessions and Banquet as Guests of the Municipality of St. John Included in Programme Yesterday

The first day of the annual convention of the Union of New Brunswick Municipalities, which is meeting in St. John, combined the elements of utility and entertainment in a successful manner.

The first session opened in the court house in the afternoon with an address of welcome by H. R. McLellan, warden of the municipality of St. John. Mr. McLellan pointed out the value of the union in preserving the rights and interests of the people, in promoting beneficial legislation and fighting that which is inimical to those whom they represent. Mayor Mitchell of Fredericton replied.

President Parker Grimmer in his address said that the work of previous conventions is bearing fruit. Speaking of general business conditions he said that the war would teach Canadians a valuable lesson if it would force them to learn the value of their own products and manufactures.

A useful though highly technical paper on Civic Accounting was read by Duncan Lingley, city chamberlain of St. John. It pointed out the importance of a modern system of bookkeeping and sub-division of accounts and he instanced the excellence of the system now employed in St. John as a model for working.

toast to the "men behind the guns," and Dr. G. G. Melvin, M. H. O., replied.

R. E. Armstrong, secretary of the board of trade, followed with a toast to the legislature of New Brunswick. His remarks were few, but John J. E. Wilson, a representative of that body, was called upon to respond, dealt at some length with matters of present day interest. "The government has troubles of its own at the present times," he said, but he assured the meeting that in connection with the trouble he would act according to his judgment and in the interests of the people.

In connection with the prison farm project which Mr. Kelley referred to, Mr. Wilson said that when it was proposed to the government he felt it was too heavy a burden for the municipality at the present time, but in future he felt assured that the project would be launched and the province provided with a prison farm.

Edward Sears, postmaster, proposed a toast to the men in the trenches and R. E. Armstrong to Britain's Allies. C. C. Alexander, Campbellton, and F. C. Robinson, Moncton, replied. Sheriff Wilson introduced a toast to the warden and Our City was proposed by Com. Wiggins and Com. Potts replied.

The following took part in the programme: A. LeRoy, A. Carter, Fred Keen, R. L. Duguid, Mr. Marston, J. Westerman, T. Bullock and A. C. Helman. Jones' orchestra provided music for the evening and Com. Potts accompanied the soloists.

In addition to the delegates registered for the morning session, appeared later as follows:—

H. A. Smith, Fredericton; G. S. Stoddart, Newcastle; F. C. Robinson, Moncton; W. K. Gunn, Moncton; C. F. Black and W. Smith, St. Martins; Chas. A. Alexander, Campbellton; T. B. Car-

November 23, 1897, it was badly damaged by fire, and the organ destroyed. The following have been pastors of the Central Methodist church since 1873:—

Rev. D. D. Currie, Rev. Robert Duncan, Rev. T. J. Deinstadt, Rev. R. S. Crisp, Rev. Dr. G. M. Campbell, Rev. John Read, Rev. W. W. Brewer, Rev. W. W. Lodge, Rev. G. W. Fisher, Rev. J. W. McConnell, Rev. James Strothard, Rev.

12 miles West of Courtaul, on the Ypres, a small river flowing into the Yser, both of which have been canalized. In the 14th century it ranked with Bruges and Ghent, and its population in its prime reached 200,000.

It is remarkable chiefly for its fine Halls or cloth market, with a facade of over 150 yards, in length. The main building was begun in 1201 and completed in 1804. The cathedral of St. Martin dates from the 18th century, with a tower of the 13th century. Jansen, bishop of Ypres and the founder of the Jansenist school, is buried in the cathedral. The Butchers' Hall is also of interest and dates from the 14th century. Although Ypres is unlikely to regain the importance it possessed when its red-coated contingent turned the day in the great battle of Courtraul (1809), it has an important linen and lace trade and a great butter market. The Belgian cavalry training-school is established at Ypres.

The Practical Gift Movement

THERE is a movement all over this continent among the large stores, to make this a "Practical" Christmas, carrying out the idea of giving only useful and practical gifts, or in other words, Santa Claus is to appear this year in the role of a "Practical" St. Nicholas.

We are heartily in accord with this movement, and we believe the majority of the people of St. John will agree with this idea.

We have made great preparations to have a splendid display of all sorts of interesting and practical dry goods. There will be hundreds, we might say thousands, of dainty and useful things to choose from, and even now our store has taken on a Christmas air.

Remember that practical gifts take more thought and consideration than the ordinary Christmas remembrances, so that it is none too early to begin your buying. Christmas is only a month away, and a month ahead is not too long for the average person to work out his or her problem of "Practical" giving, so begin now.

Yours truly,

Further Particulars of Death of Moncton Soldier in Bermuda—Central Methodist Church Matters

Moncton, N. B., Nov. 26—Mr. and Mrs. Shepherd Cuthbertson have received further particulars of the death of their son, Corporal Allen A. Cuthbertson, in Bermuda, a few days ago. He and a comrade were riding down a steep hill on bicycles. Cuthbertson's bicycle struck a root, and he was thrown against a tree, and his skull fractured. He died in a hospital. He was buried with military honors. Rev. Neil McLaughlin, a former New Brunswick pastor, and now pastor of a Hamilton church, conducted the service.

The Central Methodists, whose church was destroyed by fire on Tuesday evening will hold preaching service on next Sunday in the Empress theatre. The Sunday school will meet in St. Paul's Reformed Episcopal church.

Rev. W. H. Barraclough, of St. John, who was to have delivered a lecture in the vestry of the Central Methodist Church on Monday evening next, will speak instead in the Wesley Memorial church.

Sunday next will be the 73rd anniversary of the founding of the Central Methodist church. Arrangements for an anniversary service have been cancelled. The building was erected in 1877. On

ORGANIZATIONS TO LOOK AFTER DISTRIBUTION OF RELIEF FROM THE STATES

Paris, Nov. 26—An organization has just been formed here for the purpose of centralizing the receipt and supervising the transmission and distribution of American relief in Europe. It is to be called the American Relief Clearing House, and has the sanction of the state department at Washington, and the approval of the French government. The organization was formed at the suggestion of Myron T. Herrick, retiring American ambassador to France.

The committee purposes to have its own warehouse, and will take an inventory of everything sent from the United States to France. The work will be under the personal direction of a director general. The French committee, of which Gabriel Hanotaux, president of the Franco-American Commission for the development of political, economic, literary and artistic relations, will be chairman, will work in conjunction with the organization. It is also intended to form a Belgian committee.

In the United States the branch of the clearing house will be in charge of R. A. C. Smith, dock commissioner of New York. In Paris the committee will be a large one. Its membership will include Herbert Bacon, former American ambassador, honorary chairman.

CANADIAN SEED GROWERS

The tenth annual report of the Canadian Seed Growers' Association, which is now being distributed, contains the names of the officers and members of the association, together with a classified list of those who are endeavoring to qualify for membership. There were 228 individual applications for membership during the year, while fifty-four seed centres having a membership of 414, were established. The total number of growers now actively affiliated with the association is 1054.

The director's report shows that during 1913-1914 there was initiated a line of action which bids fair to revolutionize the whole seed growing business and place it on an infinitely higher level. This action manifested itself in the establishing of what is known as "Seed Growing Centres." Up to this time those seed growers who were operating as members of the association were widely scattered, rendering it impracticable to co-operate in any way which might lessen the work of each and at the same time make it easier to supply large quantities of "registered" seed at given points.

Reference is made to a change in the constitution making it possible to have all regularly organized seed centres accepted as members of the association. Heretofore, only individuals could be members. Further latitude was also granted in allowing a centre to choose one or two of their number to produce the elite stock seed for propagation by the centre instead of requiring each individual grower to produce his own stock seed.

The papers and addresses printed in the constitution constitute a valuable contribution to the literature on seed improvement. They deal with such subjects as "The Production of Seed of Alfalfa in Canada," "The Rural School and Seed Improvement," "Field Crop Competition," "Soil Management in Relation to Pure Seed Propagation," "Potato Seed," "Seed Centres as a Basis of Supply of Registered Seed."

Copies of this report are available at the Publications Branch, Department of Agriculture, Ottawa.

MAKING POPULAR SONGS.

The statement in court of a music publishing house that it had paid \$8,000 for advertising a new song and teaching amateur performers to sing it is interesting only because it gives the exact figures. That new songs are put forth to the public by such means has long been known. Songs of this kind are generally classed as "popular." They are believed to be an outcome of the musical and sentimental culture of the country where they obtain a vogue. In a measure they are credited with filling the place of the old-time folk songs that arose when there were no publishing houses or cabarets; for the fortune of a song depended upon the sympathy of the hearers.

How far the new fashion of song-making falls short of the old way is shown not only in the cost of making them, but in the amount of good there is in them when started. As "good wine needs no bush," neither does a genuine popular song need such elaborate presentation.—New York World.

CANADA IN THE WAR

Following a rousing recruiting meeting last night at St. Andrews, N. B., addressed by Judge Cockburn and the four clergymen of the town, eleven young men came forward and signed the roll of the 28th battalion under Capt. Elliott, who was present. Eleven more men signed with Lieut. D. F. Pidgeon of the same regiment after a meeting at Fredericton, last night at which the speakers were Mayor W. H. Grey, Lieut. D. T. Pidgeon, Chancellor Jones, and Dr. W. Carter. Lieut. D. B. Pidgeon of St. John sang "Tipperary."

Some more "undesirables" from the Canadian forces at Salisbury Plain are to be shipped back to St. John. Mr. Turner week it is understood that they are of "doubtful nationality." Donald S. Grimmer, who is at Salisbury Plain with an automobile corps of the First Canadian contingent, has sustained a broken ankle and may be laid up for some time. He is a son of Hon. W. C. H. Grimmer of this city.

Yesterday's Recruits. The following were enlisted in the 28th Battalion yesterday: Dan E. Oram, W. U. Graham, J. A. Nelson, A. McAllister, Jas. Allan Shields, Roy Gilchrist, Ernest Wilson, George C. O'Brien, Robt. Strong, U. Manning, Vilhelm Nielson and W. J. Redfern of St. John.

WAR NOTES. Great Britain and France have appointed to the United States to compel Colombia to observe more strictly the requirements of neutrality. A similar communication has been sent to Washington with respect to Ecuador. It is said that Colombia kept in commission a high power wireless station from which messages were transmitted to belligerent merchant ships. The charge against Ecuador is that certain islands belonging to that country had been converted into naval bases for the Germans.

ST. CROIX DREDGING. The Calais correspondent of the Bangor Commercial reports that it is now said that the present contract of the Bay State Dredging Co. on the St. Croix river will not be completed until close to January 1. There remains a channel 100 feet deep dug from the public landing at St. Stephen to the bridge, in addition to finishing the work now being done below the landing.

Britain's "Mosquito Fleet" and Its Work

Special War Correspondence by Harry Payne Burton

Harwich, England, Nov. 2.—(By Mail)—Tourists who know Harwich as the port of departure for the Hook of Holland would hardly recognize the famous harbor these days.

For where the packet boats of the Great Eastern and Belgian state railways are usually moored are now stationed low-lying, tigerish-looking torpedo boats and destroyers ready to attack under cover of darkness and raid the enemy's fleet either at sea or anchor.

And further up the river Stour, where the water laps pleasant fields, bob countless submarines, with their gasoline tanks filled to the brim, and torpedoes in their tubes, ready to attack from the depths below, unseen and unsuspected. This is the base for the British "mosquito fleet" and the sight of the low, sinister-looking destroyers, torpedo boats and submarines, moored in rows as straight as a billiard cue, is about as entertaining as the inspection of a surgeon's table of instruments! At least this is the impression the British "mosquito fleet" made on me.

I had come down here to find out just how this "mosquito fleet" is worked. And when I arrived here I found that it worked from London, not three minutes' walk from my own hotel!

First of all, Admiral Sir John Jellicoe, who is out in the North Sea somewhere in command of the Grand Fleet, keeps the admiralty office in London in touch with every move of the enemy by wireless.

The naval strategists in Whitehall have huge charts of the North Sea, and, by means of models, know where every vessel is, at any given moment, from the superdreadnought to the smallest submarine. They decide upon an attack by the "mosquitoes" and the orders are wireless from the roof of the London government buildings to Harwich, and a bell tolls, calling the sailors aboard. The rest is not known until the newspapers announce a great naval battle.

The very latest "destroyer of destroyers" of the "I" class are stationed at Harwich. These boats of nearly a thousand tons each, oil fired and turbine driven, can jump off from the post half an hour after the order to take station is given and can, in any reasonable weather, continue at 27 knots until all their fuel is expended.

Young men, very young men, are in charge of these boats of the "mosquito fleet." Discipline is not, or rather cannot be, formal or ceremonious on these small floating masses of machinery. The lieutenant in command, the gunner and the engineer officer are never out of sight, touch or hearing of the men whom they command.

In a torpedo boat or destroyer in half a gale on the North Sea the salute to the quarterdeck which every officer and man gives on arriving at the sacred spot in the larger units of the fleet cannot be accomplished, as officer or man struggles on deck holding on with hands and feet while a liberal portion of the surrounding ocean pours over his head or down his throat.

And there is plenty of work for the men on these small craft while they are waiting to go out and meet the enemy. The delicate machinery to fire the torpedoes has to be kept as bright as silver, oiled and cosseted, and many half hours have to be spent by the blue jackets sniveling the exterior of the torpedoes with fine vaseline.

DASHING ALONG AT 40 MILES AN HOUR, THE MEN ON DECK CLING FOR DEAR LIFE TO ANYTHING NEAR

The part Harwich is playing in the great war game between the British and German fleets is largely a flanking one. At the first sign of danger she is expected to shoot out her fastest destroyers and torpedo boats and attack any of the war craft of Admiral von Tirpitz that might attempt to pass down the North Sea into the English channel.

Harwich was basking in a warm autumn sun the morning of Capt. Fox's raid. Thousands of sailors were on shore leave.

That morning they were rambling among the narrow, old-fashioned streets, buying picture postcards, smoking clay pipes and gazing in shop windows.

In the Caps hotel, in an old-fashioned room overlooking a picturesque courtyard—the room that was always occupied by Nelson—a number of young officers were quietly smoking, drinking and discussing the day's war news.

In the midst of all this quietude the gun from the guardship shook the town. The officers tumbled out of the hotel and the men started at a double for the admiralty pier. Even the towns-people rushed out to see what was going on. Perhaps a German submarine had managed to find its way through the maze of mines that guarded the mouth of the harbor!

A dozen or more airplanes quickly took on board the sailors and transferred them to their boats. The wireless apparatus overhauled on a small gunboat tied up at the dock, cracked and hissed

as message after message was transmitted or received. Fuel was blazing under the boilers and huge clouds of thick, black smoke belched forth from the funnels of the destroyers and the cruiser "Undaunted" out in the roads. Probably only Capt. Fox, in charge of the squadron, knew that a "scrap" was on the programme. And even Capt. Fox would not be told exactly what the end-game departure meant until he was clear of the harbor.

Everybody turned out to see the cruiser and the four destroyers depart. There was a slight chop to the water which increased the dangers of the men on the destroyers a thousand fold. The destroyers of the "I" class can make about 35 knots—more than 40 miles an hour—and it doesn't take much of a sea, traveling at this terrific speed, to make the boats pitch and roll to an alarming degree.

One moment the boats were on the crest of a wave, the next they were out of sight in the trough of the sea, while the men on deck clung for dear life to the stanchions, guns, or anything near. Down in the stoke-holds and engine rooms it must have been even worse. Greasy iron plates beneath one's feet, never for two seconds at one angle, while the threatening hungry-looking furnaces, red with heat, seemed to be clamoring for human flesh as fuel.

The last we saw of Capt. Fox's flotilla was five boats with the water dashing from their bows in twin cascades and half enveloped in smoke, making due west for the coast of Holland.

War Will End Within Six Months, By Mediation!

After Conferences at Embassies in Washington, Noted Economist Announces That Opinion in Signed Article—Proposes New Peace Plan; Let no Nation be Mistress of Seas and England and Germany Will Soon Stop Fighting

BY ROGER BABSON (American Statistician, Banker and International Economist)

I have just returned from Washington. After conferences held there with members of different embassies, these are my conclusions.

If the war is fought to a finish, it may last five years, and surely will be a long war.

If, however, there is mediation, this may come within a few months, thus resulting in a short war. I do not mean by this that the war will last "from months to six years," but rather that it will be one of the two—either a short or a long war. In other words, the war will be settled through mediation by means of some friendly nation. In which case it will be short or else it will be fought to a finish, in which case it will be long. Moreover I personally believe that it will be brought to a close through mediation.

The settlement of this war, or its prolongation, rests entirely with Germany and England. This is a war for the supremacy of the seas. England is now supreme on the ocean, mistress of the seas. Germany is fighting to wrest supremacy from England. England fights to retain her security of hold on the commerce of the world.

The interests of the other allied nations are subordinate to England's supreme interest in the struggle. If England and Germany can be brought together by mediation and reach agreement, Russia, France and Belgium will follow. These war will end.

If peace is not brought about through mediation of some neutral power, the war will be a very long one. It will take years to starve Germany into submission. In order for any neutral nation to be successful at mediation, there must be a continued deadlock. So long as either side is continually victorious, there is no chance for mediation. Mediation can be brought about at any time by the consent of England and Germany. The other powers would be helpless to carry on the war when these two are through fighting.

The psychological time for such a move on the part of a neutral nation would be when the armies are practically at the frontiers of the various nations, preferably when the German, French and English armies are all in Belgium. I have been told at Washington that no one of the nations will now consider peace so long as an enemy is in its country.

As the war is primarily over the trade routes of the world, Germany fighting to extend her market and England fighting to retain her security, the mediating nation must in some way solve this problem of the control of the seas. My guess is that this problem can be solved only by the formation of some sort of an international legislative body which the nations will be represented by their fighting strength, this according to their joint control of the between-nation trade routes and barriers.

In view of the above, I expect to see fighting continue until some sort of a world organization is developed which will result in neutralizing the seas and ultimately in the joint regulation of barriers between nations.

It seems to me that the situation of Germany is similar to a mine which has for some years been obliged to go through a field of mine in order to get its produce to the railroad station. His interests finally grew so that he demanded of me that I sell him the strip of land. This land would be anything built on this land would be a severe blow to me. For some years we were bitter enemies, and had the town take the land and make a public highway. This is now as satisfactory to both of us as if each of us owned it independently, and what is best of all, we are now good friends.

New Definition of Amateur

Set of Conditions Which it is Hoped Will End Long-Existing Trouble

The old time difficulty of the distinction between an amateur and professional; the suspension of amateurs who have participated in sports against or with professionals; the long, tedious red tape that follows suspensions of amateurs—all these things are being prepared for their last resting place. And the instrument of death to the old difficulty is the new definition of an amateur, as adopted by the International Athletic Federation, and which will be presented for ratification at a meeting of the board of governors Amateur Athletic Association of Canada in Ottawa on Dec. 6.

The terms of the new definition are as follows: (1) An amateur is one who competes only for the love of sport. (2) Competing for money or any other pecuniary reward in any sport considered as an athletic sport makes the competitor ineligible to compete as an amateur in all sports considered as athletic sports.

(3) In the event of an amateur competing with or against a professional in any sport, not for money or other pecuniary reward, then the members of the federation to which the athlete belongs shall be the judge of such competitor's status according to its own rules, and its certificate as to the competitor's status shall be accepted by all other members of the Federation.

(4) In track and field athletic sports anyone who knowingly competes with or against a professional thereby ceases to be an amateur. (5) One who teaches, trains, or coaches in any sport for money or other pecuniary consideration is a professional, except, however, that so far as competition of the state or school or other educational institution who teaches, trains, or coaches as an incident to his main vocation or employment, may or may not be an amateur, as the member of the Federation of the country of such person shall decide.

As an interpretation of the above fundamental rules, and to be considered as part thereof, the following regulations are set down, and any athlete who violates any thereof shall, thereby, cease to be an amateur: (6) An amateur cannot wager, or be interested in a wager, money bet or

stake made in connection with the athletic competition in which he is to participate. (7) An amateur must not accept any prize or token above two pounds value which is not suitably inscribed with some words or letters commemorative of the competition. Prizes must not be of a character which cannot be possessed or retained for a period of the life of the recipient. (8) An amateur cannot compete for a prize or token of a value of more than ten pounds, except by consent of the member of the Federation of the organizing country.

(9) An amateur cannot, directly or indirectly, accept payment for loss of time or wages in attending or training for any athletic competition. (10) An amateur cannot use the goods or apparatus of any firm, manufacturer or agent, for making any compensation, or shall not allow his name to be used as a means of advertising or recommending the goods of any firm or manufacturer. (11) An amateur cannot, directly or indirectly, receive any reward for becoming or continuing as a member of any club or any other athletic organization. (12) An amateur cannot compete for, or accept, any compensation, or be employed by or render personal service for compensation to any such organization.

In all questions as to the athlete's amateur status other than those in which the member of the federation of the country of the athlete has been made the sole arbitrator the statement of any member as to an athlete's status is sub-

1902 Won \$57,625, the Largest amount Ever Won by Harness Horse One Season.

rd Derby, 2.05%, one of the most ant trotters the harness world has known, is dead. He was at his last as a race horse in 1901, when he a short but remarkable campaign.

His first start was made at Brighton on, where he won a \$10,000 free-for-all. The Monk and Georgina, in 2.10, 2.10. The next week he beat the all-conquering Crescus, 2.02%, and was second to him in 2.06, beating Charley Herr. His effort was made at Hartford, once more he met Borlana. The being the third starter. The race a thriller. In the first heat Lord beat Borlana a neck in 2.06 1/2.

ic second he broke and Borlana from the Monk in 2.07. In the Lord Derby went level and beat ma a half length in 2.07 1/2. 2.08, although the track was slow. In the first heat Lord Derby trotted the last half in 1.00 1/4. At the Hamlin sale in November that year Lord Derby passed under the hammer for \$10,000, and became a member of the stable of George Spear, E. E. Smathers of New York was the purchaser.

Thomas W. Lawson, owner of Borlana, had never accepted the result of the two races of the previous fall as decisive and in consequence a challenge issued by him resulted in the making of a match race to be trotted at Hartford, in which, writes "Volunteer," in the Horse Review, the largest sum ever known to have hinged upon a duel between two trotters was involved. The owners of the rival geldings each wagered \$20,000 and the Hartford management added \$10,000 to this sum—the condition being "winner to take all. It was trotted August 2. Borlana had been working splendidly and an immense crowd gathered to see the contest. He was driven by T. D. Marsh, while Mr. Geers came on specially to drive his old pupil. Lord Derby, at the request of Spear himself, Derby sold favorite at \$100 to \$60, but in the final heat broke under Geers' finish drive and Borlana won it in 2.08. The latter now sold favorite at \$100 to \$70, but in the second heat Lord Derby came from behind and beat him out in 2.09 1/2. Borlana was lame when he came out for the third heat and Lord Derby won it in 2.18 1/4, while the fourth heat was a practical walk-over for him in 3.44.

Borlana emerged from the race broken down and never started again. Lord Derby was never beaten except by a strictly sensational horse, losing races only to the following ones—Crescus, Borlana, Charley Herr, The Monk, Georgina and John A. McKernon. As a money-winner Lord Derby, although upon the turf but three seasons, outranks all geldings in history. In 1900 his first year out, he won \$8,465. In 1891, his second, he won \$11,825. In 1902 his third and last, he won \$57,625—the largest amount ever won by a harness race horse in a single season. His total winnings were \$77,918.

Fifty Men a Day

Must answer the call of Our King to complete New Brunswick's Regiment within the required time.

This Province must do its share in the defence of the Empire.

Who Will Offer Now?

The 26th New Brunswick Regiment of Infantry will be under command of Lieut. Col. J. L. McAvity, and will be a unit in the Second Canadian Expeditionary Contingent for Overseas Service.

PAY FOR VOLUNTEERS

THE PERIOD OF ENLISTMENT is for the duration of the war and for six months after its termination, if required.

THE RATE OF PAY is \$1.10 per day, which for seven days a week, means \$33.00 per month, and found.

IF DISABLED, soldiers will receive pensions at such rates as may be fixed by the government.

IF WOUNDED OR ILL, soldiers will be well cared for and sent back to their homes as soon as convenient.

SOLDIERS MAY ASSIGN THEIR PAY or any portion of it to their wives or other dependents, and such sums will be paid regularly to the persons so named.

SHOULD ANY SOLDIERS BE KILLED, their wives and children will become wards of the Canadian Government, and generous provision will be made for them.

SEPARATION ALLOWANCE, Twenty Dollars per Month, in addition to the soldier's pay, will be paid to the wives of married volunteers, the widowed mothers of men going to the front, or other relatives who depend for their sole support upon the incomes of the men offering for service.

EVERY REASONABLE PROVISION is thus made for dependent relatives of volunteers and men contemplating offering for active service need have no anxiety regarding the welfare of those whom they may leave behind.

THE PATRIOTIC FUND

THIS FUND has been created for the purpose of maintaining in reasonable comfort the wives, children or other dependent relatives of men who volunteer for service.

EACH INDIVIDUAL CASE will be dealt with on its merits, the facts being secured by local committees who shall consider all sources of income of relatives left behind.

THE SOLDIER'S WIFE will, if any such aid is required, receive thirty dollars per month, of which twenty dollars will be from the government and ten dollars from the Patriotic Fund.

PROVISION FOR CHILDREN is made according to a sliding scale. For instance, a wife with three children of the ages of three, seven and twelve, will be entitled to an income of forty-five dollars per month in addition to the soldier's pay.

THE SON OF A WIDOW, who is his mother's principal support, may assign his pay to her, and may on making the proper representations, have the twenty-dollar separation allowance and amounts from the Patriotic Fund also made payable to his mother.

OTHER DEPENDENT RELATIVES.—It is the intention of the Government and the Patriotic Fund to provide that those dependent upon the earnings of any volunteer shall not suffer through the loss of his income.

HARVARD'S NEW PRODIGY IS ONLY SIX YEARS OLD

Enter Lester Snow King as the newest of prodigies and he comes from Cambridge, where live William James Sidis and Norbert Weiner. The King boy is six years old. He just leaped through the game against Harvard. Wilson is one of the best quarter backs Yale has ever had, and also one of the biggest. He's a whale with the forward pass, too.

Cambridge offers him as the youngest grammar school pupil in Massachusetts. Lester is the son of Dr. and Mrs. Myron L. King. He began in the kindergarten. He exhausted all the training given there in one term. Then he entered the Merrill Primary school. Even there he passed from one class to another and did mathematical work for the boys in the advanced classes. Now he has been transferred to Harvard Grammar school, where he is tackling fractions, and comes home and tells his mother, "It's just as easy as the kindergarten. Why, mother," he says, "I can do all that they give in arithmetic in my head. The master of the school tells the boys to be careful about using up so much paper in doing their arithmetic, but I don't want any paper, I can do it all in my head."

He has the multiplication tables at his finger ends. Given a big sum in addition, in a few minutes thinking about it, without putting anything down on paper, he will tell the exact result.

SHIPMENTS OF HORSES TO BE CONTINUED ALL SEASON FROM ST. JOHN

Assurance to This Effect From General Benson to Hon. J. D. Hazen

That there is no foundation to the report that the assembling and shipment of remounts from St. John will be discontinued after Dec. 10 was assured by the board of trade in a statement given out this morning.

The rumor referred to reached the members of the board some days ago and they took the matter up with the Hon. J. D. Hazen.

Hazen interviewed General Benson and received his assurance that the depot will be kept open until the end of the season, and that there would be a steady stream of horses passing through this port.

It was his intention to comb Canada for horses, from the Rocky Mountains to P. E. Island, and he said that these horses would pass through Canadian ports.

Horses purchased in the United States would also be brought in to Canada for shipment.

General Benson promised Mr. Hazen that large shipments of remounts would continue from St. John until about Dec. 10, when they would doubt decrease, but during the whole season there would never be fewer than 400 to 500 horses a week, and later he expected this number to be greatly increased.

C. P. SYMONDS WINS MEDAILLE MILITAIRE

An English paper of Nov. 6 has the following notice: "It is announced under date Nov. 5, that the President of the French Republic has bestowed the decoration 'Medaille Militaire' on the following warrant officers, non-commissioned officers and men of the expeditionary force, with the approval of His Majesty the King, in recognition of their gallantry during operations between August 21 and 30. There are no restrictions as to the occasions on which this decoration may be worn."

Among these names is that of Charles Patnam Symonds an Oxford graduate and at the time of the declaration of war, a medical student at Guy's Hospital, London. He enlisted at once as private in the First Signal Co. of the Royal Engineers, with the position of motor cyclist and in the course of the war he was promoted to the rank of sergeant.

Hearing in the case of Malcolm D. Brown vs. Otto S. Brown and George G. Walsh was commenced this morning before Chief Justice McLeod in the Chancery division.

This is a suit brought to set aside and rescind an agreement dated February 9, 1914, and entered into between the plaintiff and the defendant, Otto S. Brown, for a period of two years from the date of the contract in consideration of the marriage of the plaintiff's son, Otto S. Brown, to the said Jean M. Walsh. The ground on which the agreement is sought to be rescinded is that it was procured through duress on the part of George G. Walsh through his solicitor, R. G. Murray.

At the time the agreement was entered into, the plaintiff's son was under arrest. The plaintiff was the only witness examined in the morning, and gave evidence of the circumstances leading up to the marriage and agreement.

W. B. Wallace, K.C., is appearing for the plaintiff, J. A. Barry for the defendant and J. R. Armstrong, K.C. and R. G. Murray for the defendant Walsh.

Circuit Court The circuit court met this morning and immediately adjourned until ten o'clock tomorrow morning, with the case of the King vs. David Carleton and wife still before the court.

MARRIED MEN To the Editor of the Times: Sir,—In the rank of our volunteers are a great number of married men while there are enough single men in the British Empire to defend it from the danger of any kind. Now, boys let us single men rally to the flag. Answer Kitchener's call and let us be married men remain where they belong and that is with their loved ones, wives and children.

A SINGLE RECRUIT. SISTERS LOVE HERE Mrs. Peter A. MacDonald died at her home in Moncton yesterday of heart trouble. She was thirty-eight years of age, and was formerly Miss Evelyn Peebles, a daughter of the late George Peebles. She is survived by her husband, one brother, George of Moncton, and three sisters, Mrs. Frank Gibson, of this city, Mrs. William Sealey and Mrs. Theodore Stackhouse of St. John. The funeral will be held on Friday afternoon.

CLOSING RIVER SEASON The steamboat service on the river will be brought to a close tomorrow, when the Oceonee will make her last trip to Wickham. The Champlain went up river this morning on her last trip and will return to Indiantown this evening. Captain Flewelling of the Oceonee reports a fair business this year. During the summer months especially, traffic was heavy and a large number of passengers patronized the excellent suburban service.

DEATH OF JAMES DEERING James Deering of 74 St. James street, died suddenly yesterday. Although he had been in falling health for the last three years, his death was unexpected. It brings deep sorrow to his wife and two small children, and sympathy for them from many friends. Mr. Deering was thirty-six years old and a native of Newfoundland. The funeral will be held at half past two o'clock on Friday afternoon.

THIS LETTER BRINGS NEWS OF SEVERAL ST. JOHN SOLDIERS

E. W. Chase of 118 Hawthorne avenue has received a letter dated Nov. 10, from his son Charles, who is with the ammunition column in the first Canadian contingent at Salisbury Plain. He writes: "There are seven of us boys sleeping in the one tent—George Williams, my conductor, Murray Cowan from the North End—used to work in Vassie's in King street, and Corporal Clark from Carleton; a young fellow by the name of Verrall from Toronto and myself. Hayes from Haymarket square is also with us. DeWitt Mullin of North End and Willie Stairs of Lancaster are in the same column. We are all having a good time and are happy."

"Have also seen the two Nuttal boys and Garnett, the boxer, from St. John. Saw several boys from the Every Day Club. Tell the other fellows to come along as we are anxious to see them. We are having a few fine days now. I was messenger yesterday and last night a team ran into me and broke my bicycle. I didn't get hurt but was lucky to fall the opposite way from the wheel. The war is predicted in the papers here to last for three years so I suppose it will be a long time before I get home. I am keeping a diary of everything going on. Hope all are well as I am at present."

ST. ROSE'S PLAYERS WIN NEW HONORS ON STAGE Present Drama Excellently and Give Pleasure in Patriotic Specialty

The St. Rose's Dramatic Club added to their laurels last evening in the presentation of "The Wanderers" a four-act drama, before a good-sized audience, who showed appreciation by hearty applause. While the entertainment all through was considerably above the standard of the average amateur production, the work of the principals was a joy of special mention. Miss Irene Molloy, in the emotional role of Bess Lynn, showed careful training and a natural talent which if further developed might do credit to the professional stage. In her portrayal of Clytie, the other wanderer, Miss Blanche O'Brien demonstrated her ability to take the part of a highly vivacious maiden of the stunts and her manner was always natural. The honors among the men were borne by J. J. O'Toole as a constable in an admirable makeup and W. J. Quigg as a farmer, Uncle Billy. James G. Hennessy as a doctor and acted in a manner that won applause. The other members did their parts creditably and judging by the advance sale the repeat tonight will be a crowded house.

The following is the cast: Uncle Billy Larkins, Wm. Quigg; Josh Waterbury, the Constable, J. J. O'Toole; Eusebius Green, the Animal Post-Box, Conroy; Frank Dunley, an Adventurer, Hugh T. Jamieson; Jim Watson, a slave to drink, J. C. Calnan; Joan Graham, the Little Doctor, J. G. Miss Philura, Billy's Sister, Miss Helen Armstrong; Miss Irene Molloy, Miss Blanche O'Brien; Bessie Lynn, Clytie, Matt (The Wayward one), Miss Irene Mulroy, Miss Blanche O'Brien; Jean; Locality: A country village near Boston.

A military specialty between Acts 2 and 3 was splendidly executed. Three young girls in sizes according to the allied nations they represented and wearing the different flags as sashes marched on the stage as their particular national anthems were played by the orchestra, after various evolutions, six Canadian lads appeared and sang "Tipperrary."

The whole then formed in two lines, a curtain scene showed the boundless sea and a British man 'o' war sailed across with a crew of three little girls while a chorus sang "Rule Britannia." The effect was striking and well deserved the applause demanded. The following were in the specialty: Great Britain—Doris Berry, Alma O'Toole, Helen Sexton and Kathleen Conway; France—Helen Hanlon, Vera Gillis and Nellie McKinnon; Canada—Kathleen Sexton, Irene O'Toole, Isabella Cilly; Ireland—Miss Blanche O'Brien, James McCarty, Edward O'Toole, Eugene Gillis, Edward Gillis, Joseph Murphy; Our Navy—Elpheth McKinnon, Florence McKinnon, Helen O'Toole.

THE BOYS' CLUB The St. John Boys' Club is gradually being put into condition for a successful season, and there is a good attendance every evening. In order that a proper record may be kept, each member fills out an application blank, giving name and address and other necessary information. On last Saturday afternoon Superintendent Howard took nearly thirty of the boys who could get away on a hike to Rockwood Park, where they engaged in a number of scout games and had a relay race and greatly enjoyed the outing, returning home at five o'clock. It is intended to have similar outings regularly during the season.

Make Useful Christmas Gifts, In Other Words, BUY FURNITURE

We have the largest stock we have ever carried, and that means the largest and best selected variety to be found in New Brunswick.

Almost any article from our regular stock is suitable as a gift for somebody, and common-sense tells you that, this season, the thing a person needs is the thing to give.

In addition to the regular lines, we have gotten together a very large number of articles especially suitable as gifts, and which have a distinctly Christmas style about them. We can suggest gifts for young and old, in great variety and to suit every purse.

Make your purchases early. We will store them and deliver them any time you say.
