SAW CARRIAGE.

THIS invention pronounced the "Ne Plus-ultro" of Saw Mills is destined to sweep all rivals from the field. Interlocking hook and lever dogs are used by which the logs are boosed and canyring and the siding racks which move forward and back and by this means a long sweeping log can be spring straight, and tapering logs can be ut to the greatest possible advantage. When one log is sawed the Head Blocks are run back by friction ready to receive another log as the carriage is returning. The whole of this work is performed by a man who rides on the carriage. This mill has shown itself in actual competitions and the straight of the best gangs in New Brunspite, and cutting ready for edging a LOG PER MINUTE, with ease. The right to manufacture and sell this mill in the cominion of Canada has been purchased by the

TO THE FARMERS OF MIRAMICHI. We have been Manufacturing

IRON FRAME MOWERS For the last four years, and are now offering to the farming community this, the BEST MOWER, combining greater 'excellence of mechanical sim-plicity together with greater durability and entire reliability for all the requirements of the field, than containing greater durability and entire reliability together with greater durability and entire reliability for all the requirements of the field, than any other Mower extant. —In construction they are similar to the celebrated Watter A. Wood's Iron Frame Mo ser, and the Richardson Buckeye, both American Machines. Of the former there are over 200,000 in use, and the extraordinary number of 20,000 were manufactured that we have the word Company of the word time. We have the word Company of the use, every one of which (no exceptions) stands as a monument of the great and unprededined success of home manufacture and out enterprise. A list of our Agents in this section of the Province will be found appended, and farmers are requested to ask information of them relative to our Mowers in use in their respective localities, which will establish beyond doubt their unquesti-nable superiority over any other mower to be had in our market.

The facility of procuring all parts or pieces within a nominal length of time must show beyond the shadow of a doubt the claims such an enterprise has upon the farmers of the Maritime Provinces.

For the coming harvest of 1877 we will manufacture LARGELY in excess of our purples of the process of the coming harvest of 1877 we will manufacture LARGELY in excess of our purples of the second of the province of the province of the second of the province of the province of the second of the province of the p all duies, in entering into a irlendry comperition in the field with any other machine in our market WEGUARANTEE OUR MOWERS TO BE INFE RIOR TO NONE. Farmers would do well to enquire prices and terms before purchasing else where.
