INSPIRED SUICIDE**

## Carleton Co., Man Infatuated With Brother's Wife.

**Body of Henry A. Teed Found With Bullet  
Through His Head—Verdict  
Says Insanity.**

(Special to the Star.)

WOODSTOCK, N. B., Nov. 10.—A very sad tragedy occurred in the lower part of this parish, presumably a few

The coroner was notified about ten  
time yesterday, that the body of a dead  
man had been discovered in an unoccu-

pled house in the settlement or Springfield field. Death had been caused by a bullet wound. Mr. Hay, with a couple of constables, started for the scene. The body of the man was found in a loft of a deserted old ramshackle of a log house. He was lying flat on his back.

The coroner at once proceeded to hold an inquest, and it turned out that the victim's name was Henry Allen Tees. His death was discovered by a neighbor, one of the names of Rogers, who was

evidence to the effect that deceased had told him that he was in love with his brother's wife, who lives with her husband at Plaster Rock, where deceased had been working some time; and that as he could not have her he would "see her in another world."

The mother of the unfortunate young man—he was about 32 years old—also said that he had made similar assertions to her, and that on a prior occasion he had tried to cut his throat. It also transpired that the deceased was not very strong mentally.

The jury came to a decision that the death was inflicted by a pistol in the deceased's hands while in a state of temporary insanity.

The deceased was unmarried.

**WORLD'S PEACE CONFERENCE  
WILL MEET NEXT MAY**  
ST. PETERSBURG, Nov. 10.—Practically all the world's leading statesmen and military leaders are expected to meet in St. Petersburg next May for the first time since the outbreak of the war. The conference, which is being organized by the Russian government, is expected to be the largest and most important since the end of the first world war.

cally all the powers have now accepted the invitation of Emperor Nicholas to be represented at the second peace conference and the programme which is usual with the conference is being elaborately prepared. The date of the convention has been tentatively fixed

M. Pokotiloff, the Russian minister at Peking has been charged by his government to conduct the negotiations with China, arising from the peace treaty signed at Portsmouth. The question covers the future of Ma-

churia, Russian leases of the railroads and all matters to which the assent of China is required by the treaty. The impression here is that Baron Komura who is now at Peking in charge of the Japanese negotiations will seek to secure the railways, except the Liao Tung

ST. JOHN, N. B., NOV. 10, 1905.

WHAT HEARD DID.

Did you ever stop to think how often you have heard of this man Hearst during the past two years or so? Did you ever wonder why it was you heard his name so often and why a man whom the majority of people consider should occupy so prominent a position in the public view and be so strongly entrenched in the esteem of the masses who hold the balance of power on election day? If you have asked yourself these questions did it ever occur to you that they were all answered by the words "Printer's Ink"?

Upon that and nothing else is based Hearst's prominence. That and nothing else has made him the most talked of man in the United States, nearly made him a presidential candidate last year, netted him an astounding vote in the New York city elections on Tuesday last and may yet land him in the mayor's chair of that city and later in even higher offices in the gift of the people to whom he appeals. His one claim to fame is his genius for advertising. Personally he is not an able man. The speeches he makes and the editorials in his papers which purport to place his views before the people are written for him by clever men whom he pays well. He has served several years in his state legislature without evincing even mediocre talent for public affairs. In his private life he is said to be a repro-  
bate and his public morality is as yellow as the papers he owns. But he knows the value of newspaper publicity and knows how to take advantage of it. And there he is.

He began his career with a pocket full of inherited money and with vast ambitions. He started a newspaper in New York. Clever enough to know he had not the qualities to appeal to intelligent and cultured people and astute enough to see that these are a small minority compared with the ignorant and vulgar he deliberately chose to ignore the former and appeal to the latter class. He made his paper the limit of sensationalism, both in its news and editorials and soon gathered a vast daily audience among the masses of his native city to whom his hired men preached incendiary doctrine. But when he was taken to impress upon these people that the sermons were Hearst's. Hearst's name was prominently featured as the owner of the paper. In posterity it was connected with every bit of inflammatory gospel, cleverly contrived to capture the mind of the discon-  
tent. His paper was made a gigantic megaphone to din Hearst into the public ear, to boom Hearst and his doctrine as the panacea for all social ills. Then he started more papers similarly con-  
ducted in other cities till he had a chain of them all over the States in the hands of the most brilliant news-  
paper men his money could hire, all of them fanatically advertising Hearst.

In the last presidential election he took a preliminary flyer to see how his publicity campaign had worked and learned that the people to whom he appealed where not the class who are sent as delegates to national political conventions. He went back and continu-  
ed the campaign. When the time for the New York city elections arrived he put himself into the field again, this time more judiciously, and in face of the fierce opposition of two powerful political machines secured a colossal suc-  
cess. Had the election been fairly con-  
ducted he would undoubtedly have won. He may win even yet.  
What the result will be if he does be-  
come mayor and later governor and some day, maybe, president has nothing to do with this article which is in-  
tended simply to show what can be done by advertising. For nothing else put Hearst where he is.  
There's a lesson in this which no man who wishes to acquire anything—prominence, influence, more business, a better position—can afford to ignore.

GRAFT IN COLLEGE SPORT.

Another remarkable exposure of the graft that permeates "amateur" athlet-  
ics, especially in the American college, is made by Mr. Edward S. Jordan in an article in the current issue of Col-  
lier's Weekly on college football. Com-  
ing in succession to the recent articles in McClure's Magazine, exposing the commercialism of athletics in the big eastern colleges this article, which treats of methods used by western col-  
leges to acquire good football material, reveals a condition of affairs demanding immediate remedy if amateur sport is not to become a byword and a hissing and the majority of athletes dishonest grafters.

Says the writer in a summarizing in-  
troduction: "Coach Geo. Huff, of the University of Illinois, one of the oldest and best coaches in the west, told me that there are 'more liars and hypo-  
crites than amateurs made through the

Hammer blows, steadily applied, break the hardest rock. Coughing, day after day, lacerates the throat and lungs until the healthy tissues give way. Ayer's Cherry Pectoral stops the hard coughing, heals the torn membranes. We have no equal. We publish the testimonies of all our readers. Lowell, Mass.

efforts of colleges to keep within the boundaries of the Conference rules." He added that he had seen but few college athletes of any ability who were willing to study, and do honest work to sustain themselves in college after a position on the team had been assured, and he asserted further that victory in the west today depended upon the ability of the college to sustain men by devious means. Coach W. MacDonnell and Manager Frank O. Smith, of the Northwestern team, both agree in the assertion that the campaign for men carried on by friends of universities has made a grater of every athlete of ability in the west. If these state-  
ments are well based—and one would suppose them to be, coming from men directly interested in the campaign for men—then facilities would prove their honesty by "sitting up and taking notice," putting up bars against what even coaches call "grafters," and fulfill-  
ing their duty to the commonwealth."

THE ALBERTA ELECTION.

While a Liberal victory in Alberta was not unexpected and not unusual, considering the tremendous influence possessed in the west by the federal government with its large cam-  
paign fund and its patronage and its officials who hold the welfare of the majority of the settlers, especially for-  
eigners, in their hands, the extent of yesterday's sweep is damaging to any hopes the Conservative party may have had with reference to popular sentiment in favor of provincial rights and against sectarian schools. Should the election in Saskatchewan show a similar result the indifference of the west to the policy in which the west should be the most deeply interested will be fully proved, and a question in which race and reli-  
gious discord is inevitably involved will disappear from among live political is-  
sues, at least for a time. And, though Hamilton seems to be supremely con-  
fident of carrying the second of the provinces it is certain that this disaster to his political friends next door will greatly reduce his chances.

After the experience in Ontario where bogus ballot boxes were dredged from the bottom of a lake, and in New York where some of the election were fished last night from North River, it looks as if there might be a fortune for the man who invents a trick box that will stay where it is put.

The hoodoo still holds.

WILLING TO TAKE THE CHANCE.

They tell me it's a risky thing To eat expensive food; That terrapin and quail will bring A life of ease will cause distress And lead you down a dangerous path. But none the less I must confess I'd like to take a chance.

I'm told that sorrows often lurk Within a palace grand, And that despair and gloom and smirk And chest aches on every hand. You'll envy, when with gout you're lame, The poor folks who can dance; But, just the same, I'm downright game, I'd like to take a chance. —Washington Star.

## CONDEMNED MURDERER DISGUISED AS WOMAN.

Sheriff's Race to Save Negro from Mob Which, Angry at Postponed Sen-  
tencing, Planned Lynching

ROANOKE, Va., Nov. 10.—G. Epps Pindexter, a negro under sentence to be hanged today for the murder of an ex-convict, was brought last night to Roanoke, disguised as a woman, from Rocky Mountain because of fear of mob preparations. When a respite was received for a new trial the people began to get rest-  
less. Today was the day set for the hanging but the respite was granted and he followed by action. Your business places you near the thought of the people. Yours is the union upon which devolves the great responsibility of seeing clearly and acting wisely and quickly in the interests of the people. The shame of failure is greater on you than on any other trade union, therefore let not the word "fail-  
ure" be ever seen on your banner.

Do you want heavy, pliable collars and cuffs? Ungars can give them to you.

Fifty thousand acres of alfalfa were raised in the Greeley district of Colorado last year, three crops being cul-  
tured the season. The average yield to the acre for the three cuttings was five tons.

## DIAMOND ADVICE.

PUT YOUR MONEY INTO DIAMONDS. Diamonds in your possession represent money more money than you can pay for them after you have worn them a while, for the advance in prices is very marked and there is positively no danger of Diamonds depreciating in value in our time. Of course it is always necessary to choose wisely and pay the right prices when you make your selection; therefore it is es-  
sential that you should choose the gems at a responsible house and I have a record and a reputation I think enviable, and my very large stock of set and unset gems allows for the best selection in this city or province.

Respectfully yours

## LABOR TALKS.

PAUL THE PRINTER, AND THE PROFESSOR.

Prof.—You say there are 24 printers in your establishment. Next week a bunch of work comes in that requires another hand for a month. A man of 24, a good hand, whose father your em-  
ployer knew well, comes in and asks for work. He is engaged for a month. He is not a union man. What do you union men do?

Paul—We wait upon him, show him the advantages of the union and ask him to join.

Prof.—Well, if he refuses, what next?

Paul—Then we 24 strike. We won't work with a non-union man.

Prof.—Is that quite fair? You virtually say, "Join our union or leave."

Paul—Oh, we don't have to go to Russia for examples. I can tell that the sugar refineries say to every whole-  
sale dealer in the maritime provinces, "Sign our agreement or you can't buy sugar of us." And then they won't let everyone sign. Our union permits every printer to join. We dis-  
qualify for three things—drunkenness, incompetence and breaking employer's rules. I doubt if the sugar syndicate cares whether the signers are drunk or sober.

Prof.—Very good rules, but do you adhere to them?

Paul—Pretty well. Of course we are not a temperance society by any means, but we know well that a man with a clear brain can set type much better than if he is fuddled. Everybody knows our wages and our hours. But who knows how much the sugar refineries are making? Our union gives us a living wage. Then the union man would say "profits if we are to judge by the way the managers live."

Prof.—Still it does seem wrong to force that printer into the union. Why not let him work?

Paul—We don't prevent him working, but we don't want to work with him. Our union has been in force 24 years. We have secured fair wages and our profits if we are to judge by the way the managers live.

Prof.—Still it does seem wrong to force that printer into the union. Why not let him work?

Paul—We don't prevent him working, but we don't want to work with him. Our union has been in force 24 years. We have secured fair wages and our profits if we are to judge by the way the managers live.

Prof.—Since you are so careful and so proud of your union why don't you help the others more? Or are you too aristocratic for that? I almost never hear of you assisting to promote any general legislation. For example, has your union appointed a committee to appear before the tax commission?

Some of you earn \$12.00 a week and each year pay \$1.00 or \$2.00 taxes on in-  
come, whereas a doctor or lawyer who earns \$100 to \$200 a week or more pays over half that income. His children go to the public school until they are 15, and then at 14. Still you pay \$1.00 or \$2.00 income tax to educate the lawyers' children.

Paul—There's where you have me, Professor. Our crowd don't work as we might. We don't look far enough ahead.

Prof.—I wish I could speak to them. Paul—Just save your breath. They'd pour it in a waste. Perhaps after all workers become more selfish as they get more wages. See the chance they had in 1902 to do what they could do at the elections. Now the government scorns them and thinks no more of the workingman's vote than I do of that worm there in that clod. We hurrah a good lot, but when election day comes we are easily fooled.

Prof. You are getting quite philo-  
sophical, Paul, but it is not worth much unless it is followed by action. Your business places you near the thought of the people. Yours is the union upon which devolves the great responsibility of seeing clearly and acting wisely and quickly in the interests of the people. The shame of failure is greater on you than on any other trade union, therefore let not the word "fail-

## RECENT DEATHS

E. R. O'BRIEN.  
E. R. O'Brien, for a number of years postmaster and Western Union telegraph operator at St. George, died there on Wednesday night. He had the reputation of an efficient servant of the public. He was of a very obliging disposition, and he will be missed not only by his immediate friends, but by the general public. A brother of deceased is James O'Brien, formerly M. P. P. for Charlotte. His wife, five daughters and four brothers survive.

## OTTAWA CHURCH RAIDED BY BURGLARS

OTTAWA, Nov. 8.—St. Matthew's church was burglarized last night. The burglars broke into the poor box and abstracted whatever money it contained. They visited the minister's vestry and broke open all the doors that were locked, evidently being in search of the silver. They pulled the altar cloth from the altar and turned everything upside down, leaving nothing in its proper position, except the cross. Everything inside the altar rail was strewn about and much ruined.

Finding the communion wine the thieves made themselves comfortable and drank it. In the basement were the donations of jam, clothing and groceries for the hospitals and the poor. The vandals pulled everything from the boxes, threw the clothes on the floor, threw the jam about, breaking a number of the bottles and scattering the raisins, sugar and rice about the entire building. There was a quantity of flour in the boxes, and this they threw over the clothes.

The surpluses and cassocks were also covered with flour and almost entirely ruined. The silver, they were unable to procure, as Rev. Mr. Loucks, the rector, had removed it to his home.

## CONTRACTORS TALK BACK TO ENGINEER HUNTER.

Some Lively Correspondence Read at City Hall  
Yesterday--To Improve Sewerage  
on Douglas Avenue.

There was a special meeting of the Water and Sewerage Board yesterday afternoon. The mayor presided, and there were also present: Ald. Vanwart, Mr. Arthur, Mr. Ham, Mr. Christie, Mr. Holder, Mr. Barker, Mr. Sprout, Mr. Frank, Mr. McGoldrick and Mr. Pickett, Supt. Murdoch, Director Cushing, Engineer Hunter, Mr. Geo. McArthur and the common clerk.

Engineer Hunter's resignation was read. A letter from Mr. Arthur and Mr. Vanwart was also read, in which the contractors claimed Hunter's letter was misleading and full of prejudice. There has been no wrangling. They said that once Mr. Hunter advised them to throw up the contract and let the city finish it, as he was most anxious to get his hands on the city treasury. He is sore over the fact that he was obliged by the city to give a written order for the extra chamber sewer. Harbour.

On Ald. Christie's motion Engineer Hunter's resignation was ordered laid on the table until Engineer Harbour could be consulted.

On motion of Ald. Christie Engineer Murdoch was requested to examine the city water and also, if necessary, find out how much it cost to connect the Douglas Avenue sewer with the Bentley Street sewer.

The mayor, Ald. Frank and Ald. Macrae were chosen a committee to take necessary steps to remove a building on North Street that projects on the street. Ald. Barker said Mr. Schofield had asked him in regard to the warehouse and its terms. The agreement, he said, should be drawn.

The mayor said the agreement was in Montreal now awaiting the signature of the C. P. R.

The Thomson people want to lease the southern face of the Reed's Point wharf for the Seaside. There was other business of this nature, and the mayor suggested the public works department hold a meeting.

Ald. McGoldrick said the first steamer had left Liverpool today for St. John, and an allotment of berths should be made soon.

The board then adjourned and transformed itself into the board of works. Ald. Barker moved the director call for plans and specifications for heating in offices and, in the gear rooms, and also for No. 4 warehouse.

Ald. McGoldrick seconded this. Carried.

The Thomson request for the southern side of Reed's Point wharf was read, offering rental at \$400 per year. The company would like a drop put in, about 60 feet long.

Bart. Rogers and W. Quinn and others also wished to get the Anchor Line offices.

Percy W. Thomson said his firm was offering \$500 to use the wharf for one day a week. A drop would be required and the shed must be water tight. The drop would cost \$450. If the line give up the wharf in a year they would pay

## WEDDINGS.

### GRIFFIN-RITCHIE.

Miss Mary G. Ritchie, daughter of the late M. F. Ritchie, of 39 Exmouth street, was married on Wednesday in the Cathedral, to D. F. Griffin, of the Canada Saw Company. Rev. A. W. Meahan performed the ceremony in the presence of friends of the contracting parties.

### KELLY-McCARRON.

Miss Mary McCarron, of Hampton, was married Wednesday morning in the Cathedral to George L. Kelly, also of Hampton. Rev. W. J. Holland officiated. Immediately after the ceremony the bride party drove to the residence of the groom's sister, Mrs. G. Henry, 66 Adelaide street, where a wedding breakfast was partaken of.

### McLELLAN-LITTLE.

A very quiet wedding took place in St. Mary's church last night, when Miss Alice Little, daughter of the late Thomas Little, of Halifax, was married to William L. McLeellan, of No. 4 hose company. There were no attendants. Mr. and Mrs. McLeellan will leave on the steamer Calvin Austin this morning for a short visit to Boston. On their return they will live at No. 76 City Road.

A pretty wedding took place at Central Norton last Wednesday when Miss Lottie Frost, of Central Norton, was united in marriage to Mr. Banks, collector of the N. B. Telephone Co. The services were conducted by Rev. Mr. Spidell. The happy couple will reside in St. John.

A pretty wedding took place at seven o'clock Thursday evening in the Cathedral, when Rev. A. W. Meahan united in marriage Miss Mary O. Ritchie, daughter of the late M. F. Ritchie, of 39 Exmouth street, to D. F. Griffin, employee of the Canada Saw Co. The bride was becomingly attired in purple and white silk, with hat to match, and was attended by Miss M. O. Ritchie, while M. W. Ritchie supported the groom. Many handsome presents were received by the happy couple.

The through sleeper between St. John and Montreal on the Maritime Express has been discontinued. A sleeper will be carried on the train between St. John and Moncton, and passengers for Montreal will change to another sleeper at Moncton.

## How Red Rose Tea is Grown

TEA is a native plant of Northern India. Transplanted to Ceylon it lost much of its strength and richness, but gained in fragrance and delicacy. That is why Ceylon tea is not a strong tea. That is why I blend Indian and Ceylon teas together--that is how the strength and richness, fragrance and delicacy of Red Rose Tea are secured--that is why Red Rose Tea has that "rich fruity flavor."

## PERSONALS.

Miss Ethel Panjoy, daughter of Mr. and Mrs. W. H. Panjoy of Tain street, has arrived in the city. Miss Panjoy has just graduated from the Homeopathic School for Nurses, Boston--Sydney Record.

Thomas Morris of Fredericton arrived in the city last night.

W. W. Hubbard returned to the city last evening.

M. E. Nichols of Toronto has resigned his position as editor of the Toronto World, and is now en route to Winnipeg, where he will assume the presidency of the Winnipeg Telegram Publishing Co. and the editorship of the Telegram. Mrs. Nichols accompanies her husband.

L. A. Curry, K. C., returned last evening from Fredericton.

Mrs. Nobles, widow of Capt. Nobles, wishes to thank many friends for kindness and sympathy in her recent bereavement.

Gabriel DeVeber, of Gagetown, is in the city.

Mr. Thomson offered to pay \$20 towards the cost of building a lean-to for the boat.

Ald. McGoldrick moved that the boatmen be given room in the shed.

Ald. McGoldrick's amendment was lost, and the motion was passed.

Ald. McGoldrick moved the director place a shed on the wharf for the boatmen.

A committee of McGoldrick, Sprout, Barker and the director was appointed to look into this matter.

Messrs. McArthur and McVay's letter to the board was as follows:

To the Chairman and Members of Water and Sewerage:

Permit us to make a few remarks, made necessary by the publication of the letter of resignation of H. G. Hunter, resident engineer of Loch Lomond extension of the water works. In this letter he says he has tried to do his duty and feels that he has been successful in carrying on the work entrusted to him. Then he goes on to say that the handling of contractors McArthur and McVay of sections 1 and 2 has been the hardest work, and that he has resorted to anything and everything to keep us in line. He goes on and further speaks about the fact that he is patient and that the work cannot go on without a breach between himself and us, and that life is too short to work in the unpleasant atmosphere.

The thought occurred to us that possibly the atmosphere is too dry since his removal to town and not altogether to his peculiar state of health. Be that as it may, what we wish to say is this, Mr. Hunter's letter is misleading and is intended to prejudice us in the eyes of the citizens of St. John by giving the impression that there has been constant friction and wrangling between himself and us, whereas the opposite is the truth, for we have never had any disagreement with Mr. Hunter in any way, shape, or form, except by giving him ledge was first encountered, when he advised us strongly that we throw up the contract and let the city finish the work under his supervision, as he was most anxious to get his hands into the city treasury.

The only reason we can see for the writing of such a letter on his part is because he is sure over the fact that he was obliged by the city to give us a written order for legitimate extra work on gate chambers, and in retaliation he has taken this means of endeavoring to damage us in the eyes of the public. (Sgd.) Geo. McArthur and Wm. McVay.

On the 10th inst. a letter was received from a short visit to Boston. On their return they will live at No. 76 City Road.

A pretty wedding took place at Central Norton last Wednesday when Miss Lottie Frost, of Central Norton, was united in marriage to Mr. Banks, collector of the N. B. Telephone Co. The services were conducted by Rev. Mr. Spidell. The happy couple will reside in St. John.

The Globe Clothing House is the best place for cheap reliable clothes for men, boys and youths. We make up all kinds of clothes to wear and keep their color. Black and Dark Brown Cheviot Suits sold all over for \$10, here for \$6.7 and 9 King street.

The Young Men's Association of Trinity church opened their series of winter entertainments with a jolly little dinner at White's last evening. The Young Women's Guild were guests of the young men, and after the dinner a pleasant hour was spent socially, in the course of which Miss Munro, Miss Sturdee and Mr. Kelly sang and Mr. Matthews sang and acted.

Coroner Berryman stated last evening that he had decided not to hold an inquest as to the cause and circumstances of the death of Mrs. Frederick Eaton, the colored lady who died of carbolic acid poisoning on Wednesday morning. He was satisfied that the woman had taken her life of her own accord without any outside co-operation, and that no one else was in any way to blame.

Rev. Father Carson of St. George has been in the city for a few days on business. He leaves for home this morning. Last Tuesday he was present at an ecclesiastical conference of the priests of Charlotte Co., which took place at St. Stephen, and at which Father Doyle presided. Among those who attended were Rev. Fathers Lavery and Lafferty. Much important business was transacted, and a better understanding of the condition of church affairs in the county was obtained.

The valuable property situated on Union street, Nos. 151, 153 and 155, belonging to the estate of the late John R. Smith, has been sold to Messrs. McLean, Holt & Co., J. L. McAvity, proprietor, manufacturers of the celebrated Glenwood ranges, cook stoves, Oak heaters and furnaces, who will refit the building to the needs of their rapidly increasing business.

Tenders were called by John A. Sinclair, assignee for the stock of the estate of Philip Carter, clothier, of the North End. The stock was sold to Geo. W. Jones, president of the credit, for \$1,800. The liabilities are reported at about \$7,000, and it is thought that the building will be paid from ten to fifteen cents on the dollar.

The fifth annual meeting of the Dominion Club was held yesterday afternoon in the Bank of Montreal building. The following officers were elected: Col. Geo. W. Jones, president; Paul Longley, secretary; these with H. N. Stetson, John Sayre, W. E. Foster, to be the executive. The ladies' committee chosen were Mrs. Geo. W. Jones, Mrs. W. E. Foster, Miss Leslie Smith, Mrs. Hancock, Miss Martel Fairweather, Mrs. Sherwood Skinner, Mrs. Simeon Jones and Miss Hildes.

Dr. J. Y. Audin, superintendent of the Provincial Hospital for Nervous Diseases, gave a very enjoyable talk last night to the employees of the hospital. About forty guests from the city were present. Music was furnished by Harrison's orchestra and about 12.30 o'clock refreshments were served, bringing to a close a very enjoyable time.

YOU NEED THE OTHER.

Ozone is a germ killer and a valuable remedy, but to get the best results from it you must have a tonic laxative to take with it. "Solution of Ozone (the coupon kind)" is the purest and best form in which Ozone is sold. Every bottle of this remedy contains a coupon, which entitles you to a bottle of "Celery King," the well known remedy free.

In buying this solution you get about as much Ozone for your money as by buying other brands, in addition to getting a package of "Celery King" in two weeks, besides getting Ozone in its purest and most concentrated form. Ask your druggist for "Solution of Ozone (the coupon kind)," and if he does not keep it you can get it from the Public Trust Company, Bridgeport, Ont., by writing for it.

BRITISH S. LIVERS LEAVE  
HALIFAX NEXT W.E. K

Matters are gradually being straightened out for the taking over of the Garrison by the Canadian Militia Department. It is now stated that as many as possible of the 6th Royal Garrison Regiment will be sent home by the Canada leaving here on the 13th so as to leave as much accommodation as possible on the second steamer a week later, in the hope that the greater part of the two companies of Royal Artillery bound home can be taken by her. About sixty of the men of the R. G. A. will remain and enlist in the Canadian service. Good inducements were offered these men and with master gunners and sergeants of the Imperial service, these trained men will be of great benefit to the Canadian Artillery as they know "all the ropes" and are familiar with the forts and the arms and equipment.

It is understood that the steamer Alfreda of the transport service has been secured by the Militia Department, and her crew been engaged to continue in the Canadian service as they had been doing in the Imperial. The steamer Lily of the same service, and her crew have likewise been secured. It is thought unlikely the Canadian service will do much with the mine operations. -Halifax Echo.

## SYNOPSIS OF PREVIOUS CHAPTERS.

Young Montgomery Brewster falls heir to \$1,000,000, left him by his grandfather Edwin Peter Brewster. He is counting his good fortune to Peggy Gray, the daughter of an old friend of his mother, with whom he has made his home when he receives word that his uncle James T. Sedgwick, a bitter enemy of his grandfather, has died in Montana leaving him \$1,000,000 on condition that on his 20th birthday, just one year away, he is absolutely penniless. The money is left in trust of a peculiar character, Eswarson Jones, of Montana, who makes several stipulations as to how the money shall be spent. He must take no one into his confidence, must not be more than a distant acquaintance, nor give extensively to charity. Brewster starts to spend his money and is worried that he can't rid of it fast enough.

He seeks the aid of a young society woman, Mrs. Dan DeMille, to help him get rid of it. She is fascinated by his predicament. He is fascinated by her. She proposes to Sedgwick, who gives him leave to try and win her, and on which he believes his money. She gambles in stocks but has the luck to gain instead of lose. She gains a reputation as a good business man. Many of her schemes for losing money fail, turning out to be money makers instead. She decides social extravagance is the most effective and proceeds to give a series of magnificent entertainments, one ball costing \$50,000. An attack of diphtheria kills through which Peggy nurses him. He is cured and she leaves him with his money back as the doctors let him off easy. Recovering he starts with a party of friends, including Peggy, for a wildly extravagant tour of the Mediterranean. He arrives in Egypt, where a sensational incident is provided by a shark named Mohammed, who falls in love with Peggy. She, of course, refuses and in revenge the shark has her spirited away at night. Monty and others follow and rescue her. Much against the wishes of his guests Monty decides to sail for the North Cape. They rebel and lock him in his room. A great storm comes and leaves the yacht practically a derelict with Monty's wreck and no chance to spend the \$100,000 he has left. He is saved by the arrival of a steamer which charges him \$100,000 to tow him to England. He lands in New York with only a few thousands left of his million and starts to get rid of this money the year is up. When the fateful day arrives he has not enough money left to buy a marriage license. However he proposes to Peggy and she agrees to marry him at once. Then comes the news that Mr. Jones, who holds Monty's hard won millions in trust, has disappeared.

"It concerns me alone, and it is purely of a business nature. Seriously, I can't allow myself to be troubled by it. It is vital. In an hour I'll return. Peggy, don't be worried—don't be distressed about me. Go on and live in a good time, everybody, and you'll find me the jolliest fellow of all when I come back. It's 12 o'clock. I'll be here by 1 on the 22d of September."

"Let me go with you," pleaded Peggy tearfully as she followed him into the hallway.

"I must go alone," he answered. "Don't worry, little woman. It will be all right."

His kiss sent a chill to the very bottom of Peggy's heart.

CHAPTER XXIII.  
EVERYTHING seemed like a dream to Brewster as he rushed off through the night to the office of Grant & Ripley.

He dashed, bewildered, hardly more than half conscious. A bitter smile crept about his lips as he drew away from the street car track nearest as his hand touched the rail of a car he had signed. He remembered that he had not had money enough to pay his fare. He was six or seven blocks to the office of the lawyers, and he was actually running before he stopped at the entrance of the big building.

Never had an elevator traveled more slowly than the one which shot him to the seventh floor. A light shone through the transom above the attorney's door, and he entered without so much as a rap on the panel. Grant was pacing the floor, came to a standstill and faced his visitor.

"Close the door, please," came in steady tones from Ripley. Mr. Grant dropped into a chair, and Brewster mechanically slammed the door.

"Is it true?" he demanded hoarsely. His hand still on the knob.

"Sit down, Brewster, and control yourself," said Ripley.

"Good God, man, can't you see I am dying?" cried Monty. "Go on, tell me all about it. What do you know? What have you heard?"

"I've heard nothing," said Grant. "I've heard nothing," said Ripley.

"I've heard nothing," said Grant. "I've heard nothing," said Ripley.

## again and got no answer. It dawned upon him that this was something unusual. We wired his secretary and received a response from the chief of police. He asked in turn if we could tell him anything about the whereabouts of Jones. This naturally alarmed us, and yesterday we met the street boy. The result of our inquiries is terrible. Mr. Brewster.

"Why didn't you tell me?" asked Brewster.

"There can be no doubt that Jones has fled, accompanied by his secretary. The belief in Butte is that the secretary has murdered Brewster. The result of our inquiries is terrible. Mr. Brewster.

"We have dispatches here from the police in Butte, the trust companies and from a half dozen mine managers. You may read them if you like, but I can tell you what they say. About the first of this month Jones began to turn various securities into money. It is now known that they were once the property of James T. Sedgwick, held in trust for you. The safety deposit vaults were afterward visited, and inspection shows that he removed every scrap of stock, every bond, everything of value that he could lay his hands upon. His own papers and effects were not disturbed. Yours alone have disappeared. It is this fact that convinces the authorities that the secretary has made away with the old man and has fled with the property. The bank people say that Jones drew out every dollar of the Sedgwick money, and the police say that he realized tremendous sums on the convertible securities. The strange part of it is that he sold your mines and your real estate, the purchaser being a man named Golden. Brewster, it looks very much as if he had disappeared with everything."

Brewster did not take his eyes from Ripley's face throughout the terrible speech. He did not move a fraction of an inch from the rigid position assumed at the beginning.

"Is anything being done?" he asked mechanically.

"The police are investigating. He is known to have started off into the mountains with this secretary on the 2d of September. Neither has been seen since that day so far as any one knows. The earth seems to have swallowed him. The authorities are making every effort to find Jones or his body. He is known to be eccentric, and the police say that he realized tremendous sums on the convertible securities. The strange part of it is that he sold your mines and your real estate, the purchaser being a man named Golden. Brewster, it looks very much as if he had disappeared with everything."

## SMART SLEUTHS.

Sherlock Holmes Vind By British Detectives In Arresting Eleven Crooks At Once.

LONDON, Nov. 9.—What is regarded by the police as the most important capture on record in the history of the British Empire took place yesterday at the premises of a firm of gold, silver and platinum refiners in Goswell road, Clerkenwell, E. C., eleven men being arrested as the outcome of a clever detective ruse.

Early in the evening Detective Inspector Kyrle, of King's Cross, accompanied by several detectives, visited the premises in Goswell road, and several gold and silver articles, valued at a considerable sum, unsuspiciously offered them for sale.

The articles were recognized by the detective as "stolen goods," and giving the preconcerted signal, his comrades leaped out from their hiding places and arrested the men.

He was secured and taken into the back part of the shop. The detectives concealed themselves again, and waited.

His patience was not tried, for in rapid succession no fewer than eight other men came in and tried to sell goods believed to have been stolen. They were arrested one by one, and in the evening the eleven captives were brought under escort to the police station.

Some time later, in the presence of a curious crowd, the police, who had "commandeered" a local provision merchant's van for the purpose, removed several thousand pounds worth of gold and silver plate and other valuables, which are believed to be the proceeds of many successful burglaries from mansions all over the United Kingdom.

The two principals in the case have for some time past been suspected of acting as recipients of stolen property on a large scale.

During the evening the police station in Goswell road was purchased by persons who attended at the request of the police for the purpose of identifying the alleged stolen property.

The eleven accused men will be brought up at the Clerkenwell police court this morning when formal evidence of arrest will be given and a remand asked for.

The alleged receivers carried on business in Goswell road as purchasers of a variety of goods. Among the articles they advertised their willingness to buy for cash were gold and silver plate, dental alloy, false teeth, gilt lace, gilt wood and disused and broken electric lamps.

## PHOTOS BY WIRE.

Electrical Inventor Describes Process of Transmission of Photographs By Telegraphy.

MUNICH, Nov. 8.—Professor Korn, a leading electrical engineer, has given a lecture before the Electro-Technical association that the problem of transmitting photographs by telegraph had been solved in principle, and it was now possible to transmit a photograph or sketch six inches square in less than twenty minutes. This was done over a telegraph line between Munich and Nuremberg, but was equally practicable over 5,000 miles.

The photograph to be transmitted is placed in a transparent glass cylinder, which revolves slowly, at the same time moving from right to left. A ray of electric light is thrown upon the subject, and when the ray reaches the interior it is brighter or darker according to the color of the particular part of the photograph.

The light is then reflected by a mirror, and the image is projected upon a screen. The image is then transmitted by telegraph, and the receiver at the other end receives the image and projects it upon a screen.

## BURN 5,000 CHURCHES.

Says an American Preacher Referring to the Many Weak or Half-Living Congregations.

PHILADELPHIA, Nov. 8.—Many dry bones cracked when Dr. Ditzler, president of Hamilton college, advocated the burning of 5,000 churches. Yet religion would prosper in the United States, his theory is that there are too many weak, half-living congregations, and that they would be better in all ways if they were merged, in the country, says the Brooklyn Eagle, this is not feasible, since it is so common that more than one church of a denomination is found in a village, but in the towns and cities local differences have led to the creation of several societies representing the same faith, or the same teaching, and they would be better in all ways if they were merged, in the country, says the Brooklyn Eagle, this is not ## MISS G. of DARTMOUTH

made Cake with Royal Household Flour and it proved a failure. She tried once more with the result that the family said it was the best cake they ever had in the house.

She made the discovery on the second baking that she only needed 14 ounces of Royal Household where she had always used a pound of other kinds. She used the same quantity of water and shortening, however, and the cake was a great success.

## NEWS OF SPORT.

Big Wrestling Bout to Take Place Here on Tuesday Next—Harvard Football Team Will Not See Canadian Game.

### FOOTBALL.

**BOSTON PAPERS ON CANADIAN FOOTBALL.**  
The Boston Globe says of the match between the Canadian teams on Soldiers' Field Saturday: "It is too bad that the rugby football game between the Canadian players, which will be played Saturday while Harvard is at Philadelphia, could not be arranged for a date when the varsity players as well as the real football enthusiasts who will follow the Harvard team to Philadelphia, could see it. Walter Camp says this game was the best of the points of advantage over the game as played in the American colleges."

**HARVARD OFF TO PHILADELPHIA.**  
BOSTON, Nov. 9.—The Harvard team will start for Philadelphia by way of Pull River this afternoon. Tomorrow morning they will take the train for Philadelphia. In the afternoon they will run through signals on Franklin field. They will return from Philadelphia Saturday night, arriving in Boston Sunday morning.

The men who will be taken on the trip are Bartlett, Brill, Carr, Cunniff, Foster, Fultz, Guild, Hall, Hurley, Kereburg, Knowlton, Leonard, Leary, Lincoln, Lockwood, MacDonald, McDonald, Montgomery, Nesmith, Newhall, Nichols, O'Brien, Parker, Pierce, Spear, Squires, Starr, Went, and White. Managers Goodhue and Reynolds, Drs. Nichols and Smith, Trainer, McKeaster, and "Bhamrock" Ryan, the general utility man.

**THE TRAINING SYSTEM OF THE NEW ZEALAND FOOTBALLISTS.**  
LONDON, Nov. 6.—The remarkable success of the New Zealand footballers, who are continuing to simply smother the best combinations of the English teams pitted against them, is exciting great interest among all athletes, foreign as well as English, several having come over to study those colonial athletes and discover something in their system of training, but of system there is none.

One of the team, being asked what it was, looked intensely surprised at the question and said, "On tour the boys just live as they want to; they do not upset themselves by trying fancy tricks in diet and that sort of thing; we live according to no special rules; we do not get up too early in the morning."

"We do not go in, as a rule, for dumbbells on an empty stomach, but we get a good night's rest, and after breakfast we may turn out at about ten o'clock, and those of us who want exercise and practice put in an hour or two running, passing, kicking, and generally getting rid of superfluous accumulations. But there is no exhausting strain and no constant endeavor to be in the pink of condition."

"With the exception of periodical practice and games we live much as other men who go to business and still keep healthy and in good condition. Nearly all our boys smoke; they can always be seen at a match having a cigarette at half time."

"Does smoking affect the wind?"  
"Well, I have heard people say it does, but we never notice it. I am a heavy smoker, but it has not affected my wind, and I have got a bit of speed; yet we just smoke as much as we want to and we do not find it hurts us."

"Dear forbidden? Why, no, of course not. The boys take it if they like it, or anything else they may fancy, and they are not restricted as to quantity either. It is just the same in eating; we have no system of diet; we eat plain food, just what we fancy, but we find the lack of good food in this country affects our health."

### BASKET BALL.

Wednesday evening, in the junior basketball series, Portland Y. M. C. A. defeated Trinity by 15 to 13. Trinity talk of protesting the game.

The Mission defeated the St. Luke's five 12 to 7.

The latest to take up the game are the members of the St. Peter's Y. M. C. A.

The basketball match held in Mission church last evening resulted in a win for the senior team, which defeated the juniors 9-0. A social was held after the game.

### THE RING.

**ABE ATTELL TOO MUCH FOR MOWATT.**  
Tommy Mowatt, the "fighting conductor" of Chicago, made his first appearance in Philadelphia Wednesday night and lost to Abe Attell. Mowatt was at all times eager to mix it with Attell, though, was as clever as usual. Attell received very little punishment, except in the clinch, when both men took advantage of the agreement to box under straight rules and they jumbled away as long as either and one arm free.

**CONNELLY WHIPS BRODERICK.**  
BERLIN, N. H., Nov. 8.—Bartley Connelly, of Portland, Me., knocked out Jim Broderick, of Chicago, in the seventh round of what was to be a 15-round bout here tonight.

**RINGSIDE NOTES.**  
A Philadelphia club is planning to bring Young Ernie and Abe Attell together again. The last time they met Young Ernie put it over Attell.

An effort is being made to get Young Ernie to meet Mike Donovan again in the same city Nov. 17. His sudden blindness was caused by his drinking too much cold tea between the rounds.

### WRESTLING.

**BIG BOUT HERE NEXT WEEK.**  
Arrangements were completed last night for the second of the wrestling entertainments that are to take place at intervals during the winter in this city. The next one as previously announced takes place at the York Theatre on Tuesday night next, Nov. 14th. The two men that will meet are Paul Sweeney and Geo. Schmale, both of whom were in the first leg of the tournament that has just been completed at Montreal.

Paul Sweeney weighs 210 lbs., stands five feet eleven inches in height, chest 46 waist 34, up arm 17, fore arm 14 inches, thigh 23 calf 16 and is 28 years of age. He has been wrestling for the past six years, during which time he has toured the United States and Canada wrestling and beating most of the many wrestlers among whom may be mentioned Emile Maupas, who was seen here during the first match seen here, also Pete Hedgu, Maupas' opponent, Karl Dilwick Apollo, Tom Jenkins, Frank Gutch, Frank Pascal, Leo Pardo, Alva Auvoy, Yank Rogers and many others too numerous to mention.

Geo. Schmale weighs 202 lbs., stands 6 feet one inch in height, chest 45 inches, waist 32, up arm 16, fore arm 14, thigh 24, calf 16. He is 27 years of age. He has been wrestling for the past 9 years meeting and defeating the majority of the champions of Europe and a contestant in the numerous international matches held during the first seven years of his career in the principal capitals of foreign countries. The past two years he has been touring the United States and has met and defeated Famer Burns, Emile Silva, Jim Galvin, Pardo, Peter Hedgu, Maupas and Tom Jenkins. He is said by many who have seen him to stand on the mat to be the coming champion, having youth, strength and height in his favor, to say nothing of his wonderful quickness.

The match between Sweeney and Schmale should prove to be one of the finest wrestling entertainments ever offered as Sweeney is practically in the game category as his opponent when it comes to youth, strength and quickness.

Those who witnessed the last match and were so well satisfied may be assured that they will see it possible a better and even faster match than the last.

It suits everybody, Ungar's rubberize finish.

## CHIEF CLARK WANTS TO KNOW WHAT TO DO. He Is Puzzled Between Judge Carleton's Decision and Judge Forbes' Charge to Grand Jury.

Chief Clark does not know just what to do about handling boxing bouts or prize fights. He stands between the decision of Judge Carleton in the Littlejohn-McLeod bout, and the reading of the law by Judge Forbes a few days ago. The chief recalls that the Littlejohn-McLeod bout was attended by an official referee, time-keeper, seconds and all the other officials. It was fought for money just the same as this last affair, and yet it was declared not to be a prize fight. In the former case the men were arrested and discharged. This time they should all be arrested, according to Judge Forbes, even if the fatality had not occurred. The chief is rather uncertain about his duty in such cases.

Speaking to the Sun last evening, Judge Forbes denied having said that Judge Carleton was wrong in deciding that the Littlejohn-McLeod contest was not a prize fight.

"How could I say that? I do not know what the conditions were that governed that particular contest, and have no knowledge concerning the evidence adduced regarding it before Judge Carleton. In my address to the grand jury I stated what according to my interpretation of the law constituted a prize fight, and I reiterate that the Criminal Code specifically states that a contest between two men, for money, whether gloves are used or not, at which a referee officiates, and the men have seconds, and an admission fee is charged, is a prize fight, and contrary to law."

The judge also stated that everyone attending a prize fight where a fatality occurred was guilty of manslaughter, whether they were present as spectators or officials, and were liable to be indicted. The judge referred to a case in England, where all present at a certain exhibition which resulted in the death of one of the contestants, were tried and found guilty of manslaughter. The judge stated, however, that it would be improper for him to make special reference to the case in this city, as it was now before the courts. His comments on the matter to the grand jury were of a general character. As a judge he was anxious to preserve the fair fame of the city, and his comments were called forth with the object of preventing these illegal and brutal contests from being continued.

Judge Forbes wished it clearly understood that he was not criticizing Judge Carleton, as he had no knowledge of what the evidence was in the case referred to by Chief Clark, who spoke to him about the matter upon the conclusion of his address to the grand jury.

The judge says that in the statutes of Canada there is no mention made of sparring exhibitions. Such exhibitions are held in England, but no admittance fee is charged, the men have no seconds, and receive no money as a result of the contest. The men box for points, and a referee decides who has shown the greater skill. Such contests, under a fair construction of the law, would not be illegal.

## DEATH OF HOPEWELL.

**HOPEWELL HILL, Nov. 9.**—The intelligence of the death of George Bennett of Hopewell Cape, which occurred last evening after five days' illness, was received with deep regret by many friends here. Mr. Bennett was in poor health some months ago, and had a reference made to him by many friends here. Mr. Bennett was in poor health some months ago, and had a reference made to him by many friends here. Mr. Bennett was in poor health some months ago, and had a reference made to him by many friends here.

The body of Mr. and Mrs. Wm. B. Arkhouse's eleven months' old child, whose death occurred at Montreal, was brought here by today's train and buried in the Hopewell cemetery. Rev. Dr. Brown of the Baptist church conducted the services.

Two inches of snow fell in Caledonia on Sunday.

## BOILS ALL OVER HIS FACE AND NECK.

**BURDOCK BLOOD BITTERS  
DID FOR HIM  
WHAT FOUR DOCTORS  
FAILED TO DO**

**KEEWATIN, Ont., July 28th, 1905.**  
**Messrs. THE T. MILDEN CO., LTD.**

Dear Sirs:—I am writing to let you know what Burdock Blood Bitters has done for me. I am a young man, 25 years old, and a year ago last March I began to feel dull and listless, and was greatly troubled with boils coming out on my face and neck, mostly on the right side. I would not sooner get rid of one than I would have, perhaps, two or three more appear.

I had four doctors trying to cure me but they were all failures. They would stop them for a month or six weeks and then they would start all over again. I was told to use Burdock Blood Bitters. I tried it, and it did me good. I began to feel better, and the boils stopped coming out. I am now in good health, and my face and neck are clear. I am a very grateful man, and I would like to say that Burdock Blood Bitters is a very good medicine. I would like to say that Burdock Blood Bitters is a very good medicine. I would like to say that Burdock Blood Bitters is a very good medicine.

Yours truly,

## CELEBRATED THE KING'S BIRTHDAY

Marlborough Lodge, Sons of England, held a successful concert to celebrate the King's birthday, last evening, in the Union Hall, north end. The hall was appropriately decorated for the occasion, and the large audience enjoyed a pleasant evening. B. Thorne acted as chairman, and the following programme was rendered: Opening remarks, chairman; song, C. Calvert; chorus, by the company; recitation, Miss Wood; song, T. Phillips; piano solo, Miss Shore; violin solo, Captain Rawlings; vocal solo, Mrs. Ross; violin solo, Mr. Gouldie; vocal solo, Mr. Appleby. Intermission. Song, H. Nokes; flute solo, W. G. Y. ## FREDERICTON NEWS

FREDERICTON, Nov. 9.—W. P. Collins of the transcontinental railway offices, who has been transferred to St. John, was banquipped last evening by the members of St. Patrick's Literary and Debating Society at their rooms, Regent street.

Today Accountant Collins, Mr. Harry, Miss Burchill, the stenographer, and Master Willie Boyd of the Grand Trunk Pacific offices left for St. John.

Harry B. Clarke of this city and Miss Alice E. Moore of London, England, but now residing in this city, were married at the cathedral last evening by Rev. T. W. Street, sub-dean. The happy couple will reside in this city.

Although nothing has been announced officially as yet, it is being quietly rumored that the next session of the legislature will convene about the middle of February, or about two weeks or more earlier than last year. It was felt last year that the session was too late entirely in opening. The result was that some of the work had to be hurried through, with many night sessions.

Edwin T. McKnight, a native of Put out.

Kings Co., N. B., a graduate of the U. N. B., and a former principal of the Charlottetown school in this city, was elected a member of the Massachusetts house of representatives in Tuesday's election. He was one of the republican candidates in Ward 21 of Suffolk county, his constituency being part of the city of Boston, and the vote stood: Bolton, rep., 2,238; McKnight, rep., 2,091, defeating Kearns, dem., 1,245 and Kenney, dem., 1,461.

Mr. McKnight, after graduating at the U. N. B. in 1894, studied law at Harvard, and on being admitted to the Suffolk county bar, started in practice in Boston, where in partnership with Mr. Eaton, a Nova Scotian, he has achieved considerable distinction. He has served as an alderman of Boston, and is now elected a member of the Massachusetts legislature.

## FIRE AT SUSSEX.

SUSSEX, N. B., Nov. 10.—The firemen were called out shortly before one o'clock this morning to extinguish a blaze in the house tenanted by Mrs. Mike Heussey. The fire gained considerable headway, but was promptly committed the assault.

There is not a laundry in town that does not do their shirts, collars and cuffs by machinery.

## THE UPS AND DOWNS OF LIEE.

A young son of Edward Hickson, of the north end, took a jaunt skyward yesterday, which was not of his own arranging. Two wild-eyed steers which were brought down on one of the river steamers, escaped from their custodians and tore about the streets for some hours before being captured. Young Hickson attracted the attention of one of the steers, and the animal rushed at him, and with a powerful sweep of his long horns flung the frightened boy into the air. Fortunately the horns did not penetrate beyond the boy's clothing, but he received severe injuries as a result of the fall, when he came to earth. It is reported that the boy's father intends bringing an action for damages against the owner of the animal that committed the assault.

There is not a laundry in town that does not do their shirts, collars and cuffs by machinery.

### LOCAL NEWS.

A. L. Goodwin is landing today his second lot of new 45s, which he will sell to the trade.

No. 4 Company, 3rd Regiment, Canadian Artillery, will meet at their armory this evening to return clothing.

The yearly pay roll of the fire department amounts this year to \$7,000.38, and after taxes to the amount of \$1,655.89 were deducted, \$5,344.49 was paid out.

The trains from the west were over two hours late today. The delay was caused on the eastern section, where an engine refused to steam properly.

The rummage sale in Tabernacle hall will close Saturday night. The goods that remain will be practically given away.

The pressure will be taken off the high levels of the water system beginning at six o'clock this evening on account of laying the new pipe on the Marsh road. A flushing pipe on No. 2 main, which is to be removed, is the principal reason.

The condition of the streets and wharves along the waterfront is a perfect disgrace to the city. On the streets there is much refuse, and in the wharves are badly in need of a proper cleaning, refuse matter of all kinds covering the ground in some cases inches deep, no attempts having been made to remove it for days.

The funeral took place at 2:30 this afternoon of Mrs. George W. Ketchum from her late residence, Garden street, to St. Paul's church. The services were conducted by Rev. Mr. Dicker and Rev. Mr. Daniel. Interment was at Fernhill. There were no pallbearers.

The remains of the late Mrs. Ruth Eaton will be taken to their last resting place in the Methodist cemetery at four o'clock this afternoon. The services were conducted by Rev. Dr. Strangue.

The funeral took place at 2:30 this afternoon of Mrs. Margaret Raynes, wife of the late John Raynes. The services were conducted by Rev. Mr. McKim at the Church of the Good Shepherd. Interment will be at Greenwood cemetery.

A NEW QUESTION.

The question as to whether it is right or advisable for business colleges to solicit patronage, guarantee positions, etc., is comparatively new in St. John, but has been thoroughly threshed out in the United States. There, no respectable school will do either. While not morally wrong to canvass for students, provided it is done without misrepresentation, it is nevertheless such a confession of weakness that no school will practice it unless compelled to do so. Guaranteeing situations is on an altogether different basis. Every college will do its utmost for its students, but giving a guarantee does not add one hairbreadth to its ability, and so any disappointment, scandal, and law suits have resulted wherever the thing has been practiced that no reputable institution will undertake it—can't undertake it without the penalty of being classed a fake school.

S. K. & Son are thankful that they have never been compelled to hang out these signals of distress, and will endeavor by faithful performance of duty to merit a continuance of the public favor they have so long enjoyed, and gratefully acknowledge.

SATURDAY AT M. R. A. S. LTD.

The blanket sale was such a signal success this morning that no promise can be made to tomorrow's shoppers regarding a continuance of it. The big, cozy, Turkey Red Chintz Comfortables will be on hand, however, at the one bargain price. See the regular advt.

Today was as busy in the millinery rooms where the Hat Sale is in progress, as yesterday was, but Saturday will be the busiest. New untrimmed hats and new trimmed hats for women and children have been brought to the front—a fresh, stylish collection—and Saturday shoppers will be enabled to buy a nice new piece of headwear as late as 10 o'clock.

Read the advt. for particulars of the Fiannelette and Napkin offers.

ST. LUKE'S GIRLS' CLUB.

There was a meeting Tuesday evening of the senior girls' classes of St. Luke's Sunday school at which it was decided to form a Girls' Club. Miss Mary Roberts was elected president, Miss Gladys Smith, vice-president, Miss Fanny Day, secretary and Miss Grace McKim, treasurer.

After organization it was decided to have a Basket Ball Circle and all the members joined in a game after which the club adjourned until next Tuesday night.

BIG CLASS AT LAW SCHOOL.

The class at the St. John Law School this year will be the largest on record. The public opening, which takes place at 8 p. m. on Tuesday, will be held in the equity court room. President Hannan, of King's College, with which the school is affiliated, will be one of the speakers. The others will be Chief Justice Tuck, who will speak on the course of study prescribed when he was a boy, compared with the present, and the others will be Judge Hamilton and H. A. Powell, K. C.

HORSE INSURANCE.

The latest insurance scheme to be canvassed in St. John is one that covers horses. Life and accident policies will be issued at a reasonable rate. While this is new to this city and service the scheme has worked successfully for owner and insurance company in the United States for some years.

THIS EVENING.

Lilliputian Opera Co. at York Theatre.

Meeting of Teachers' Association in Foresters' Hall.

Meeting of No. 4 C. 3rd R. C. A. Cinematograph exhibition in Salvation Army Hall, Carleton by Staff Capt. McLean.

### NO FEAR OF INFECTION AT THE POST OFFICE.

The funeral took place this morning of little Miss Elizabeth Edna Friars, daughter of Ernest Friars, tobacconist, who has been residing with her grandfather, George Harrison, in the upper flat of the post office where she died yesterday. The little girl who was eleven years old and attended Victoria school, was only ill for a short time, and there was considerable question at the time of her death whether or not it was due to diphtheria. Dr. G. A. B. Addy, however, revealed the diphtheria germs beyond question.

The Board of Health are looking into the matter and a disinfection is being made in the usual manner. The Board of Health are also taking action with regard to the sanitary conditions of the water closets in the post office which have been in a filthy condition.

As regards the public or officials being exposed to any risk of infection, Dr. Inches said the danger is infinitesimal and no more than passing a placarded house.

The secretary of the Board of Health said this morning that it was difficult to keep such places clean. A committee is now investigating the conditions at the market. He favored all public water closets being situated underground.

HEADQUARTERS OF G. T. P. SURVEY NOW FIXED HERE.

Guy C. Dunn was seen this morning by the Star and expressed himself quite satisfied with the new offices of the Grand Trunk Pacific survey in the Fugley building. St. John has considered far more central for their work than Fredericton. The work at the office here will be continued all winter.

The survey parties, however, will probably stop about the beginning of the new year to wait again till spring. Very little of the work, he said, can be done during the winter.

At present there are eight parties out, three on the river route, three on the alternative and two on the part which is common to both.

Considerable alterations will be made in the new rooms in the Fugley building. Five large, light, airy rooms on the top floor constitute their suite. It is their intention to take down the partition between two of the rooms and between them and the hall, making one big sleeping room.

It is expected that by the end of the week all of the office furniture and equipment will be in. The staff consists of C. O. Foss, assistant district engineer; Mr. Collins, of the engineering department; Mr. West, purchasing agent for the district; Mr. Harry, draughtsman; and Miss Burchill, stenographer. They arrived yesterday from Fredericton.

POLICE COURT.

Among the prisoners on the police court bench this morning was an Italian who was arrested last night for not giving a satisfactory account of himself, there being no interpreters on the force. With the aid of John de Angles this morning he said he came from Hamburg, was a carpenter and looking for work. He was allowed to depart with the interpreter, who promised to try and get him a fellow-countryman work.

Wm. Phillips, charged with having no visible means of support, was sentenced to three months in the alms house.

Another prisoner was the well known Margaret Sullivan, charged with drunkenness. She occupied a seat on the bench before the magistrate entered court. Whether she objected to a large audience is not known, for through some pretense she went down stairs to the guard room and refused to re-enter court. She was remanded.

NEW FERRY ON THE ROUTE TODAY.

The new ferry steamer Ludlow started today to earn her living at one o'clock to day, and up to the time of going to press the casualty list has been nil. While it is possible the new boat may get along all right the odds are, and the expectations of those interested are, that she will meet with some little mishap to her machinery that will lay her up for some days.

Arrangement was made the other day for the appointment of an extra officer, but so far no one has been appointed to the position.

TOOTH HINTS!

"When ought we to go to the dentist?"

Many think it unnecessary to devote particular attention to the teeth until the appearance of the mouth is affected by damaged, decayed or broken teeth. Others give their teeth no attention till pain compels them.

Every one who has a moment on the subject knows that we cannot make our teeth as good as new by one or more of the teeth are tender, inflamed, decayed or otherwise out of working order; and that if this be the case the mouth requires immediate attention.

Painless extracting, 15c. Filling, 50c. up. Best \$5.00 teeth in the world.

HEADACHES!

No doubt there are other causes for headaches than fatigue of the eye muscles, but when so many cases respond with such quickness to treatment based on this hypothesis it is advisable that all sufferers should try spectacles or eye glasses if defects that are remediable with glasses can be found.

Our opticians will tell you if such defects are present.
