Kipling's Latest. (Montreal Herald).

(Montreal Herald). Rudyard Kipling's latest political out-burst, in which he accused the British government of deliberately plotting mu-der in Ulster, "in order to retain their saleries as cabinet ministers," will prob-ably have no other effect than to create a feeling of pity. It is bad enough for a man of such once-brilliant mental gifts as his to be dreaming that a whole gor-ornment should be obsessed by such goulish matheness as he now attributes to Premier Asquith and his associates. But it is nothing short of a tragedy that he should offer such a dream to the public as a mental product worthy of sober, serious consideration.

Nickle declared his adherence to that principle, and used every endeavor, as he had used every endeavor in the caucus this year, to have his fellow-Conservative members adhere to it likewise. Failing in his efforts, he has taken his stand fearlessly in open Parliament, in defence of his convictions.

He states his case ably and forcibly. His policy is an argual Certainly it is as arguable as it was in 1904, when Mr. set it forth as a fundaments servative principle and argue set it forth as a fundamental Con-servative principle and argued ably in support of it. It is a policy about which there are decided differences of opinion. Among the thinking young men of Canada these differ-ences of opinion will prevail even more markedly than among Cana-dian citizens of the older generation. But even those who meet for the

dian citizens of the older generation. But even those who most decidedly disagree with Mr. Nickle's views in regard to the question of public policy at issue cannot, in sincerity, do other than respect him for his courageous independence. He is doing a real service to Can-ada by setting this example of in-dependent thinking and action. This is Canada's greatest need. Man who fursued film. A Montreal, May 19—Harris Deschamps, aged 17, the runaway son of Isiae Des-champs, a respectable merchant of Bel-isle (Que.), was this morning arrested by Inspector McLaughlin, of the detec-tive force, as the desperate criminal who snatched the purse of Mrs. A. E. Norris, 271 Pine avenue, in front of the Bitz Carleton-hotel on Saturday afternoon and shot H. B. Bouvier, inspector for the Canada Bread Company, who pursued him. Deschamps is alleged to have es-caped in an automobile which was wait-ing for him. In the boys possession was found a diaty little revolver with a mother of pearl butt, and in his room at 54 Sagu-at street Mrs. Norris' mesh bag was discovered under a pile of dust. Little boys five years old are now wearing Norfolk jackets.

The most important feature of this announcement is the fact that the temporary bridge will be made strong enough to bear street cars and thus will allow the immediate extension of the street railway lines. The announcement, which is of the sreatest importance to residents and property owners in East St. John, was made at a gathering in the office of J. B. M. Baxter, M. P. P., yesterday after-noon. Those present included Mr. Bax-ter, H. M. Hopper, general manager of the St. John Railway Company; J. A. Likely, James A. Belyea, John Lee, A. H. Likely, H. B. Peck and E. P. # **Big Money Inside The Fence**

Yes! There's big money behind the wire netting of a Black Fox Farm. That's why so many owners of ranches for fur-bearing animals buy MARITIME NET-TING. They want to feel positive security about the valuable animals inside the fence.

MARITIME Wire Netting is galvanized after weav-ing—no little places missed or unprotected crevices that will corrode and form a weak spot later on. Fur ranchers can't afford to take any such chances—therefore they buy MARITIME NETTING.

Always a good stock on hand ready for shipment and every foot of it guaranteed. Buy MARITIME NETTING for your poultry farm—there's none better at any price, none more strongly guaranteed.
