A but was found to leak so badly, that deer had to be got to bail the boat, while the crew manned the oars. This, sirs, to me what the management of the S. S. my is composed of. If the steamer had a leak, or blown up, where would the gors have been, all doomed of course. I ravelled on boats, but such a rascally if business, as a boat subsidized by Govt ty, getting \$1000 per annum, and not a thy boat on board to save life in case of at. Well, sirs, in the meantime the Govt t steamer "Gullimare" was passing, and a was blown for assistance. The officers passing boat merely looked upon the e as a salute. Strange to say, there was signal flag or flag of any kind on board diramichi" to show that we were in dis. We again had to submit to disappoint. The steamer slowly drifted westward the tide, and after awhile the leaky boat are with the news that assistance would at from Chatham. About 10.30 the tug George, "after hunting us up in the dark-came alongside. Our commander, I suphonoght he was doing right by having all up, but this was wrong, only one light equired, all lights being exposed, the vespeared as a moving craft. All went well me as the tug got hold of us, and Chatham asched at 2 a. m. Those who took pasto Bay du Vin returned sadder, if not for the journey they had taken. Now, I went on that boat for pleasure, having d of this wonderful Company's boats. All as ay is the boat I took passage on is an age on the public—no safe boats in case of lant—inferior accommodation—and no certy of where you may go or be taken. I had so we machinery, as it appears to me, as a A room and after hearing exclamations from nather and others, that some botch of an ager, who never had any experience in makeboat machinery, must have had charge of work. What seems to me to be necessary this route, is a good paddle boat, wider and seen ball to draw less water than the "Mirichi," one adapted to near the shores and go a Bay du Vin river at all times. Until this lone I for one should be compelled to pronuce the present arrangement a fasiure, is immaculate Company will pardon me if I ggest to them the propriety of selling the lat, and having another built for the route by ext spring. # AYER'S Cherry Pectoral.

No other complaints are so insidious in their attack as those affecting the throat and lungs; none so trifled with by the majority of suffer-ers. The ordinary cough or cold, resulting perhaps from a trifling or unconscious exposure, is often but the beginning of a fata sickness. AVER'S CHERRY PECTORAL has well proven its efficacy in a forty years' fight with throat and lung diseases, and should be taken in all cases without delay.

A Terrible Cough Cured. "In 1857 I took a severe cold, which affected my lungs. I had a terrible cough and passed night after night without sleep. The doctors gave me up. I tried AYER'S CHERRY PROTORAL, which relieved my lungs, induced sleep, and afforded me the rest necessary for the recovery of my strength. By the continued use of the PECTORAL a permanent cure was effected. I am now 62 years old, hale and hearty, and am satisfied your CHERRY PROTORAL Saved me.

To the Editor of the Winess.

Six.—In your issue of Monday last, there is a letter from Mr. W. Oakes, of St. Thomas. I presume Ontario, in which he is going very strong against Mr. Sutherland now of Florida, and Florida in particular. Now, as I know considerable about Florida, having spent seven teen years on the Gulf of Mexico, with a fixed residence in Southern Alabama, and have been over the state of Florida agreed deal, I think that I should know something about it, and would ask your indulgence in a few remarks. If you will redellect, Mr. Sutherland and myself had a little spat last summer through the columns of the Rar. He condemned me as being somewhat wild in some of my idea of the products of Florida and Alabama, but I think I got the best of him. And now for florida and Alabama, but I think I got the best of him. And now for florida and Eastern Rallway which lies between Rolestown and the end of the Indiantown Brook, about 14 miles in length.

The erection of 4,400 lineal feet of snow fencing, to be built along their run before the Rar. N. I have no axe to grind, no lands for sale, and no interest whatever in Florida. Mr. Sutherland has. I am a native of this city, left here in 1849 with a splendid constitution, and returned in 1865 in as good health as I had when I left, and had no sickness whatever during my stay South. Mr. Mitchell's efforts, Mr. Temple said not more than a week or two before the subsidy was granted that none could be got. Mr. Temple's friends only a few brief years ago caused the death of his loving and much loved mother. It is not known how or where the disease was contracted. We deeply sympathize with friend Parker in this painful visitation.

Another sad case is that of the Rev. Thos. Crosby, whose mission home at Port Simpson, British Columbia, has been visited by this terrible disease, and two little ones snatched therefrom. It seems that she had been attending a picnic at Grand Ance on Saturday, and arrived home about 11.30 p. m., when she retired, saying that she did not feel well. In the morning it was found that she had fainted, and Dr. LeBlanc was immediately summoned, but could render no assistance, and the girl died about six p. m., without recovering consciousness. The bereaved parents have the sympathy of all. The young lady was only sixteen years of age and was preparing to attend the Normal school, Fredericton, during the next term.—Sun.

MACKEREL.—The latest report from the schooner "Gen. Middleton" is that she is taking mackerel faster than her crew can handle them. She has sent ashore 1200 fresh ones, which have been placed in the Williston Freezers to be kept for the winter market. Extra help had to be procured from the shore the other day for splitting and curing. Some 300 bbls. have been packed. No No. 1 mackerel have been caught yet. The last quotations from Boston show a drop of 50 cents a barrel in shore mackerel.—

REGINA, JULY 30.—During the crossexamination of one of the witnesses yesterday a sensation was caused in the court by Riel insisting upon an examination of the witnesses himself, which his council strongly opposed. Finally, the judge told Riel if he was not satisfied with his counsel to him. Riel was greatly excited. This morning Greenshields addressed the jury for the defence. He recounted the half-breeds grievances and blamed the authorities primarily for the outbreak He said that Riel was a madman, who was induced to enter the country by the half-breeds. He would show by witnesses that Riel lost control of his senses shortly before the outbreak and was absolutely unaccountable for his actions.

REGINA, JULY 31.—Riel's trial was re-residence of his extradition. He adds that he saw Kehoe in Chicago a fortnight ago, and that he knew he was coming to Canada in search of deceased. It is supposed that Kerr was on his way to his former home in Bonaventure Co. when overtaken by Kehoe, the detective.

The funeral of the victim of the tragedy took place on Wednesday afternoon from the residence of his uncle in Champlain ward to Mount Hermon cemetery, Quebec.
