NEGLECTED SCALD CAUSED MONTHS OF AGONY

Syent Dollars in Vain but Zambuk Cured Her.

Following we give the testimony of a lady who if she had known of Zambuk earlier would have been saved nine weeks of agony:
"Mrs. Frederick Bryant, of 100, Railway Avenue, Stratford, Ont., says:—
"I scalded my foot while preparing supper. Next day the skin came off and my foot was in a serious condition. I could not wear my shoe and had to lay up for nine weeks. During this time I used dozens of Salves but none did any good, in fact the wound developed into a running sore. I got no rest day or night from the pain. At this point a supply of Zambuk was obtained and a few applications had immediate effect in soothing the pain and irritation. A small supply proved sufficient to heal the scald, although I had spent dollars in other remedies. New skin has now formed nicely over the open sore.
"Zambuk is the most wonderful and effective remedy I have used, and I advise others to use it."
Zambuk is equally effective in curing Burns. Mr. Geo. Gilmore, caretaker of the E. Clements Block, Winnipeg, testifies as follows:—
"I sustained a series of bad burns while attending to the large furnace which heats the buildings. One burn on my wrist was particularly bad and gave me great pain. I applied some Zambuk and in forty-eight hours all that remained of the burn was a slight scar. Zambuk seemed to take the pain away like magic. It is a splendid balm to keep handy, its healing powers being simply marvellous."
There is nothing to equal Zambuk as a family balm. Its uses are so wide, it has been proved a sure cure for eczema, ringworm, ulcers, abscesses, piles, bad leg, suppurating wounds, cuts, bruises, chapped hands, cold cracks, and all skin injuries and diseases. Rubbed well into the part affected it cures rheumatism, sciatica, neuralgia, etc. All druggists and stores sell at 50c. per box, or post free from Zambuk Co., Toronto, on receipt of price.

LUMBERMEN MEET AT FREDERICTON.

Lumbermen and Limit Holders Presented a Memorial to the Government.

MATTER PRIVATE
Till it is Seen What Small Operators will do who Meet in Chatham To-Day.

Fredericton, N. B., March 23.—Hon. John P. Burchill presided at a large and representative meeting of the members of the New Brunswick Lumbermen's & Limit Holders' Association held in a committee room of the parliament building this afternoon. R. A. Lawlor acted as secretary. Others present included Allen Ritchie, Newcastle; Randolph Crocker, James Robinson, Millerton; J. Fraser Gregory, Henry Hilyard, John E. Moore, St. John; A. H. Fitz-Randolph, Fredericton; F. M. Anderson, Campbellton; T. M. Burns, Bathurst; John Maloney and D. J. Buckley, Roger-ville.

Several matters were discussed, including the qualifications of scalers and fire wardens, and a committee composed of Messrs. Ritchie, Anderson, Hilyard, Randolph and J. E. Moore was appointed to prepare a memorial to the government embodying the views of the lumbermen. There was some discussion in regard to crown land leases and the consensus of opinion among those present was that at the expiration of the leases the government should compensate the holder for any improvements made.

Fredericton, N. B., March 25.—The New Brunswick Lumbermen and Limit Holders Association held a meeting this morning and elected officers for the ensuing year as follows:—

President, John P. Burchill; Vice-President, Henry Hilyard; Secy.-Treas. R. A. Lawlor.

A delegation composed of Messrs. White, Burns, Ritchie, Randolph, Hilyard, Burchill, Crocker, Robinson, Gunter and Curran, afterward met the Surveyor General and presented a memorial recommending changes in the timber regulation. After an informal talk it was agreed that the delegation should meet the whole executive before the close of the session and discuss the question. It was decided not to make public the contents of the memorial in the meantime. Announcement that small lumber operators in the North Shore were organizing, probably influenced this decision. The latter held a meeting in Chatham to-day (March 31st).

THE DOMINION PARLIAMENT.

Government Will Not Increase the Duties on Tin Plate.
MAJORITY OF 41.

New Intercolonial Works at Moncton Will Cost \$2,000,000.

OTTAWA, March 23.—The Government was asked today to place a duty of 15 per cent. on tin plate imported from the U.S.A. and 12 1/2 per cent. from other countries. It is not likely the application will be granted.

The negotiations between the Canadian and Manitoba governments have been broken off, Manitoba being still dissatisfied with the proposed increase of her territory. There will be no increase for any province this year.

OTTAWA, March 24.—On a Conservative motion of want of confidence over the building of a seven-mile branch of the Trent canal to Newmarket, Ont., the government was today sustained by a majority of 41. The vote stood Nay 112; yea, 71.

OTTAWA, March 25.—When the

10,000 A YEAR FOR MILITARY DRILL

In Public Schools, Donated by Lord Strathcona

THANKED BY HOUSE
Both Houses Glad to Accept the Motion of the Distinguished Canadian

In the House of Commons, Wednesday, the Minister of Militia announced the receipt of an offer from Lord Strathcona of enough money to provide \$10,000 a year to encourage physical and elementary drill in the schools of Canada, which offer had been accepted. On motion of Premier Laurier and the Opposition Leader, the House thanked Lord Strathcona for his assistance.

N. B. PRESS ASSOCIATION

Favo Reduction on Postage to U.S. and Amalgamation With N. S. Association.

Fredericton, N. B., March 26.—At a slimly-attended meeting of the New Brunswick Press Association here yesterday, President J. L. Stewart delivered his annual address in which he dealt with several matters of interest to publishers. He favored amalgamation with the Nova Scotia Press Association, the annual meeting of which he recently attended. In closing he referred feelingly to the death of the late Mayor Thorne of Woodstock, who was a member of the association.

John W. Regan, of Halifax, strongly urged the association to amalgamate with Nova Scotia and from one association for the maritime provinces. After some discussion the resolution was adopted favoring the merger and it was decided to hold the next meeting of the Nova Scotia association in Annapolis next year and complete the union.

The following officers were elected for the ensuing year:—Pres. J. L. Stewart; 1st vice-pres. J. D. McKenna; 2nd vice-pres. H. F. Paisley; sec-treas. J. P. Maloney; counsel, George J. Clarke, W. K. C. Parlee, John T. Hawke, E. J. Payson, H. B. A. slow, R. E. Armstrong, A. M. Belding.
Resolutions were adopted recommending that all notices of application for charters be inserted in a newspaper published in the county in addition to the Royal Gazette and urging the government to remove the postage from weekly newspapers mailed to point in the United States.

On Thursday evening, Rev. H. C. Rice of Newcastle, lectured in the Temperance Hall, Millerton, in aid of the Repair fund of the Millerton Methodist church. His subject was "Some Don'ts", and was listened to by a large and appreciative audience. The Miller band, under the leadership of J. W. Miller, rendered several selections very creditably. There was also a chorus by a number of the gentlemen.

Something of a sensation was caused in Campbellton Sunday when Chief of Police Crawford appeared in the room of a hotel where a game of poker was in progress. He sized the cards and the jackpot, which amounted to about \$20, and arrested the six participants who were enjoying the game, among whom were several well known men there. They were all released on deposit until to-morrow morning.

estimates were under consideration Hon. Mr. Graham, discussing the grant of \$400,000 for locomotive and car shops with equipment and new freight yards at Moncton said that the total cost of these, with the line, is estimated at about \$2,000,000. The total amount expended has been \$1,331,446.76. In addition to this vote, we are asking for another amount, which will make for machinery about \$500,000.

DASTARDLY CRIMINAL IN FREDERICTON

Miss Minnie Duncan Thought to Have Been Drugged. But Rescued in Time

THREE ST JOHN MEN,
Two of Them Married, Arrested Under Suspicion of Having Administered Drugs

Fred Logan, champion skater; Fred Kelly, livery stable proprietor; and Gordon McKinnon, barber at the Dufferin hotel, all St. John Men, were arrested in Fredericton Saturday morning for their alleged share in drugging the attractive young daughter of Sergt.-Major Duncan of the R. C. R.

The three men had supper in Wallace's restaurant with Misses Minnie Duncan, N. Toner and S. Lynn. Miss Duncan left the restaurant in company with McKinnon, able to walk, but collapsed at corner of King and Carleton streets. McKinnon dragged his companion to Elliott's Alley into which he was about to take her, when he was noticed by two men who followed the pair out of curiosity. Miss Duncan was vomiting, and the occupants of a house near by had the two men bring her in. McKinnon went for a coach and demanded the girl but was refused. Finding a feeling against him, McKinnon disappeared. Miss Duncan was vomiting and in a serious condition. She was removed to her home. She remembers having drunk in the restaurant a glass of lager beer with a peculiar taste. She was unconscious all night and next morning. The three men were captured on the train next morning. Two of them are married.
The case was with drawn Saturday afternoon by Mr. Duncan, who did not want to call other young people as witnesses. Judge Marsh reluctantly consented, telling McKinnon that he was satisfied that the latter had drugged Miss Duncan with improper intent, and that as a married man he should be ashamed of himself.

OTHER ITALIANS MAY BE GUILTY

Of Murder of Edward Green on December 20th Last.

AROSHA CONFESSES.

Implicating Two Hatches and a Murry in the Terrible Crime.

As a consequence of the confession of Tony Aroscha, that he and Seppipil were incited to, and aided in, the murder of Edward Green last December, by three other Italians, James Hatch and his brother and a foreman named Murray, the latter three were arrested by Constable Miles Macrae of Andover last Wednesday and lodged in jail. It is said that these three helped plan the murder and received a part of the money stolen.

The 11th annual report of the Hotel Den Hospital at Tracadie, Gloucester county, has been tabled in the Legislature and shows that in the year of 1908 one hundred and nineteen patients including 15 men and 56 women, were admitted to the wards and received the necessary nursing and attendance. The number of days which they remained in the hospital amounted to a total of 1,118. In addition to those admitted to the wards, 1184 patients received the necessary medical aid, advice and medicine at the dispensary. Most of the patients of both classes were free patients. The hospital is in charge of Rev. Mother Leger.

**DON'T BUY PAINT
"IN THE DARK"**

There has been so much secrecy, so much take-my-word-for-it, so much misinformation about paint, that many people are buying paint in the dark.

Yet there should not be any mystery about house paint—any buying "in the dark"—if it's honest paint.

You have a right to know what is in the paint you pay for to put on your house.

The dealer has a right to know what is in the paint he sells to his customers.

That is one reason for the very wide demand for "English" Liquid Paint.

Read the formula on the can.

It tells you that "English" Liquid Paint is 70% pure white lead, 30% pure zinc white, 100% pure paint.

That's what you want to know and that's the kind of paint you want.

Come in for a color card.

H. H. PHINNEY
Newcastle.

For Coughs and Colds

Troubled with a cough? A hard cold, bronchitis, or some chronic lung trouble? There is a medicine made for just these cases—Ayer's Cherry Pectoral. Your doctor knows all about it. Ask him what he thinks of it. No medicine can ever take the place of your doctor. Keep in close touch with him, consult him frequently, trust him fully.

No alcohol in this cough medicine. J.C. Ayer Co., Lowell, Mass.

Ayer's Pills. Sugar-coated. All vegetable. Act directly on the liver. Gently laxative. Dose, only one pill. Sold for nearly sixty years. Ask your doctor about them.

IF IT'S A

DR. ROBERTSON TO FARMERS.

Farmer is God's Partner, Says The
Lecturer

MUCH INFORMATION.

New Brunswick Should Have Better
Scientific Instruction in
Her Schools.

FREDERICTON, N.B., 19.—Dr. J. W. Robertson of the McDonald College at St. Ann's was the speaker at a large, attended meeting under the auspices of the Farmer's and Dairyman's Association in the parliament building this evening. In the absence of Governor Tweedie, Premier Hazen presided and many members of the legislature and of the city teaching staff were in the audience.

Dr. Inch was first called upon and told of what is being done in the public schools of the province to impart knowledge on subjects pertaining to agriculture.

Chancellor Jones, who was next called upon, strongly advocated the establishment of an agricultural department at the university.

Premier Hazen, in introducing Dr. Robertson, spoke very highly of his work on behalf of agriculture and education.

In his opening remarks Dr. Robertson returned thanks for the privilege of addressing two parliaments, a political parliament and a farmer's parliament, institutions which he regarded as both of the first importance. He went on to say that New Brunswick should have the first claim upon the thought of every man in the province, and his calls were answered in an intelligent manner the community and the province would be repaid in abundance. The care of the land was of great importance, not only to the man of today, but to the man of the future. All should strive to make New Brunswick a land of happy homes and contented people.

The Farmer God's Partner

He remarked that the call of Canada had brought a good many strangers to our land and a good deal of foreign blood into our citizenship, and we should see to it that these people are not allowed to make our land like the one they had left. The call of Canada, he said, meant the call to a great land of liberty.

After an able definition of the term agriculture, the speaker declared that the man with the hoe was God's partner and was making God's earth better for human habitation. Conditions which provoke a feeling of hostility between residents of the city and the country should not be tolerated. There should be good will and the one class should not infringe upon the rights of the other. His advice to all was not to be in too great a hurry to get something that would not help them, especially if they had to spare a little of their integrity to get it. A mixed crop of comprehension and toleration will find a good return, and it is important that all the people of mixed races should differ in the right spirit.

Dr. Robertson spoke of the great importance of the farming industry to Canada, and quoted statistics to show that in magnitude it surpassed all other industries. The value of New Brunswick's crops last year he said, was eleven and one-half millions, but by adopting methods employed on the farm at McDonald College the same acreage could be made to produce crops worth twenty millions. He did not know of any easier way for New Brunswick to pick up ten million dollars per year than by improving farm methods.

When he first joined the agricultural department at Ottawa the total number

MAKE IT YOURSELF

Says Many Persons Here Can be
Made Happy Again by Using it

There is so much rheumatism here in our neighborhood now that the following advice will be highly appreciated by those who suffer.

Get from any good pharmacy one-half ounce Fluid Extract Damiana, one ounce Compound Karger's, and one ounce Compound Syrup Sassafras. Shake these well in a bottle and take in teaspoonful doses after each meal and at bedtime; also after plenty of good water.

It is claimed that there are millions of this dread and torturing disease who will fail to find ready relief in this simple home-made medicine, and in most cases a permanent cure.

This simple recipe is said to strengthen and cleanse the eliminative organs of the kidneys so that they can get rid of the poisons, acids and waste which cause not only Rheumatism, but numerous other diseases, such as man or woman here who feel their kidneys are not healthy, active, or who suffer from any trouble whatever, should not fail to make up this mixture, as it is said to do much good, and make you from much misery and suffering.

Our home druggists say the mixture either supply the ingredients or the prescription ready to take readers ask them.

Somehow it is awfully hard, mother to persuade her daughter to marry the kind of a man who makes her happy.

NEW STRENGTH IN THE SPRING

Nature Needs Aid in Making New,
Health-Giving Blood

In the spring the system begins tuning up. In the spring to begin with, just as the trees must have new sap, Nature demands it and without this new blood you will feel weak and languid. You may have twinges of rheumatism or the sharp stabbing pains of neuralgia. Often there are disfiguring pimples or eruptions on the skin. In other cases there is merely a feeling of tiredness, and a variable appetite. Any of these are signs that the blood is out of order. That the indoor life of winter has told upon you. What is needed to put you right is a tonic and in all the world there is no tonic can equal Dr. Williams' Pink Pills. These Pills actually make new, rich red blood—your greatest need in spring. This new blood drives out disease, clears the skin and makes weak, easily tired men and women and children bright, active and strong. Mrs. J. C. Moore, Broomton, N. S., says: "Last spring my daughter was completely run down, she was very pale had no appetite, and became very nervous, and we were alarmed about her. We decided to give her Dr. Williams' Pink Pills and soon after she began taking them there was a decided improvement. She gained in weight and vigor, her color returned, and her whole system seemed to have been built anew. I can warmly recommend Dr. Williams' Pink Pills to all who need a medicine."

Sold by all medicines dealers, or by mail at 25 cents a box, six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Bankers who are converts to the Pittsburgh Post-Intelligencer have discovered a discrepancy of \$25,000 in the books of the institution. This will revive the old debate as to the relative moral qualities of the bus and the out.

Salutation for the work in which he was engaged was \$2,000 and last year it was \$295,000.

The Needs of the Farmer

In an impressive manner the speaker declared that the call of the land was for better schools and better homes. Often instead of expending \$150 on a new buggy, a farmer could better afford to expend the amount in providing a good water supply for his home, good water and plenty of sunlight were necessary for maintenance of health in homes. The call of the land was also for rural mail delivery, roadhouses, and what the country needs. Education was also wanted to qualify our people to answer the highest calls. He was glad there were plenty of schools in Canada and it is important that they should be equipped to teach children many of the requirements of life. The schools should endeavor to reach the needs of the people by teaching the things that the people need. In this connection he spoke of work being done at present at McDonald College and was pleased to announce that there were at present eighteen teachers from New Brunswick undergoing training at the institution. He praised New Brunswick's educational system, but thought there should be an equipment for study of nature subjects and house hold science at either the Normal school or the University. He spoke of the importance of these branches of study and promised to render what assistance he could to the educational authorities in having them introduced into this province.

A hearty vote of thanks moved by Hon. Mr. Fleming, seconded by H. M. LaBilholle, was presented to Mr. Robertson for his admirable address.

EXPLORATION NEEDED

One of the greatest needs for the present and future timber administration in this country is reasonably correct information as to the forests of the Dominion, their extent, the amount of timber in them, the rate of growth and the various other questions relating to the amount of timber which it is said to take to use them without impairing the "capital stock." At present calculations as to even the amount of the forests of the Dominion are only guesses, and, unfortunately, no accurate information is available as to this question, it is so much to be desired to inaugurate a scientific and business-like administration of the forests of the Dominion.

It is just these and similar questions which have been the subject of a Conservation Committee, organized by President Roosevelt in 1907. Since its appointment these committees in the United States and the best way of using these as to give the greatest amount of service to the nation. Not only have the forest resources been conserved, but also those of the mines, the streams (for purposes of water power and transportation) and the soils. In the second week of December the committee appointed to give these investigations met in conference with the governor of the several states at Washington and considered their reports.

Some similar stock taking or inventory of natural resources would seem wise on the part of Canada as well. It would be even more timely here, for Canada has not yet reached the stage of material development that the United States has, and her resources have not been dissipated to the same extent. In order to secure wise administration, a far fuller knowledge of our resources is necessary, and among these resources the forests take a prominent part.

The ideas which Canadians hold with regard to their northern forests are based largely on reports brought back by travellers along the chief water courses. Naturally the best timber lies along water courses and there is reason to suspect that the reports of these travellers have been unduly optimistic. Many instances can be given where lumbermen and foresters have found to their cost that estimates of timberlands, based on the timber found along streams, have been much exaggerated. Moreover, in these very regions, the timber is said by those who have explored the country, at some distance from the rivers, to become smaller and more scattered.

What is needed is that men with some knowledge of timber estimating be sent out to explore the country and estimate the timber along routes other than those most travelled, giving special attention to the timber at some distance from the rivers.

The explorations made in Northern Ontario in the summer of 1909 illustrate in some sort the kind of exploration necessary for the whole Dominion. Full and accurate reports of such explorations will serve to clear up much of the business that now attaches to the timber and other resources of the less known parts of the Dominion.

No fewer than 659 municipalities in the Province of Quebec have no liquor licenses. How's that for backwardness?

Croup positively stopped in 20 minutes, with Dr. Shoop's Croup Remedy. One test alone will surely prove this truth. No vomiting, no distress. A safe and pleasing syrup. Sold by all dealers.

It is not a new discovery, but it should ever become law, that no case should be tried in the United States until the accused has been heard.

DANGER IN DELAY.

Kidney Diseases Are Too Dangerous
for Newcastle People to
Neglect

The great danger of kidney troubles is that they get a firm hold before the sufferer recognizes them. The body is gradually undermined. Backache, headache, nervousness, languor, soreness, humors, urinary troubles, dropsy, diabetes and Bright's disease follow in a merciless succession. Don't neglect your kidneys. Once the kidneys are diseased, the body is ruined. Mrs. H. C. Smallwood of Gladstone Terrace, Newcastle, N. B., says: "I cannot speak too highly of Booth's Kidney Pills and I believe them a remedy of great merit in giving quick and lasting relief to the many pains and aches caused from inactivity of the kidneys. Headaches of a distressing nature had for some time bothered me. I would awake with a dull pain in my head and often I would be very dizzy. My back was weak and a dull bearing down pain had settled across the small of my back. I was nervous and restless, and run down and I could find but very little relief in anything I had tried. Booth's Kidney Pills were advertised at Mr. Durick's Pharmacy and I concluded to give them a trial which I did and with the most satisfactory results. The pains left my back and the headache ceased. I have enjoyed good health ever since."

Sold by Dealers. Price 50 cents. The R. T. Booth Co., Ltd., Fort Erie, Ont., Sole Canadian Agents.

OUR CIVIC PLATFORM.

Had we any voice in the management of the affairs of Newcastle or any other New Brunswick town, we would, as a preliminary to the introduction of still other much-needed changes, exert ourselves to the utmost to so alter the civic system as to bring into operation the following reforms:

The making of all respectable citizens eligible for election to any office within the gift of the electorate;

The election of assessors, now appointed by the council;

The election of the school trustees now appointed by the council;

The provision of a sinking fund large enough to rapidly reduce the present debt, no further additions to be made to the latter;

The taxation of vacant or unimproved land at the selling price asked for it by the owners, with a view of compelling the owners, who are now merely speculating in land values, either to build upon such premises, thus increasing the number of dwellings and affording accommodation at reasonable rates for an increased population, or sell their property, now useless, to those who are willing and anxious to build houses, stores or factories upon it and use it not only for their own selfish purposes but for the good of the community.

The granting of municipal assistance to industrial ventures only upon condition that the Town shall retain as stock the full value of the amount contributed, thus giving the Town a share in the control of the enterprise and a voice in the hiring and payment of employees; such grant or grants to be submitted to a vote of the people before ratification.

LET THE PEOPLE DECIDE

The people of Newcastle are not allowed free choice in the selection of Mayor and Aldermen. No man may be nominated for Mayor unless he is assessed on \$1000 worth of real or personal property and no one may run as an alderman candidate unless he is assessed on \$400 worth of property. This limits the electors to a choice between property holders only. And representatives elected from among property holders only have hitherto been, as a rule, reckless spenders of the people's money. It is time for a change. Let the property qualifications for Mayor and Aldermen be removed, and the citizens have the right of nominating for civic office whom they choose. Let the people be allowed the freedom of deciding for themselves. They are not half as apt to go astray in the selection of candidates as some good people fear.

LET THE PEOPLE ELECT THEM.

For years there has been continual dissatisfaction either with the doing of assessors or with the system of assessing. The matter of assessment touches every citizen

directly, and is therefore one of the most important of civic problems. Our theory is that, as all citizens have to pay the taxes fixed by assessors, all citizens should have a voice in the appointment of assessors—the latter should be elected by popular vote at the same time the aldermen are chosen. On similar grounds, the School Trustees now appointed by the Council should be elected by the people. Every official who has power to spend the people's money should be elected by the people and be directly responsible to them. While many appointed and irresponsible office holders are good and careful men, yet the principle upon which they are chosen is an autocratic and bad one and should be done away with.

NO MORE BORROWING.

As ex-Mayor Hennessy declared in the town meeting on the 18th instant, public bodies seem to be possessed by a mania for borrowing, and few of them seem to care about the consequences of their reckless action. Since the national debt of Great Britain was started by the government of William III. over two hundred years ago, all civilized White nations have contracted like obligations, loading their wage-earners and small traders with an intolerable burden of interest charges. France's forty million people have a national debt of six thousand million dollars. Even Japan and China have joined the procession of interest payers.

Canada owes about three hundred millions; New Brunswick about three millions more; while Newcastle, with only three thousand people, owes about two hundred and fifty thousand dollars.

Canada's debt increased about \$35,000,000 last year; New Brunswick's about \$293,000, and Newcastle's by a very substantial sum. If a halt is not called, what little property we may have left will be mortgaged to the Banking Corporations, and we shall be merely tenants-at-will of the latter gentlemen.

This borrowing should cease. What we borrow we repay in full in interest in about twenty years and still owe the principal. In the case of Newcastle nearly half our expenditure last year was for interest. Council after council have issued bonds without providing adequate sinking funds; and council after council have overdrawn the departmental appropriations, overdrawing at the bank without preparing for the day of reckoning.

For the future we should see that no department of the council is allowed to spend more than its appropriation. The sinking fund should be largely increased so as to provide the means of paying off the town bonds when they become due.

"The physician attending me prescribed, on my rallying from an attack of rheumatism, your Scott's Emulsion, which I have been taking every winter since. I find it most valuable in strengthening and building up one after a severe illness. I have not had rheumatism since the time mentioned above and I owe it to your most valuable Emulsion. It is my life now, and makes me strong and healthy."—R. PICARD, Grand Ligne, Quebec.

For two hundred years before Scott's Emulsion came Cod Liver Oil was used for rheumatism.

Scott's Emulsion

is modernized Cod Liver Oil; the purest and best oil partly predigested, made palatable and suitable for the most delicate child or invalid. It enriches the blood, tones up the entire system, and drives out rheumatism.

ALL DRUGGISTS

SCOTT & BOWNE

120 Wellington St. W. Toronto

due; the town's affairs should be run as economically as possible; the full amount of money needed should be assessed for and COLLECTED; and no more money should be borrowed. This is our municipal program, so far as finance is concerned.

NEW ASSESSMENT SYSTEM NEEDED.

Our system of assessment is radically wrong. One great defect is the present mode of assessing vacant town lots. The owners of these are called upon to pay only nominal taxes, while the man who improves his property is taxed upon a much higher scale. The speculator, who refuses to improve his land in the middle of a town but merely holds it until someone who needs a house or store is compelled to buy at a fabulous price, should be taxed for the actual value he puts upon his land when anyone wants to buy the same. If this were done, he would be more willing to sell to those who would settle on the land and help to increase its value. This system of taxation is largely in effect in our progressive sister Dominion of New Zealand, is favored by the present British government which proposes to put it into effect as soon as the opposition of the House of Lords can be overcome, and has been accepted by many thinking people elsewhere. We would heartily recommend it to the assessors and people of Newcastle.

Tax vacant land to the limit, and so make it possible for young men of the town and outsiders to buy lots and settle down amongst us.

This plan of taxing land values is not new to the people of Newcastle. We advocated it in our editorial columns two years ago. One year ago it was adopted, in great part, by the then town council, and was prevented from being sent up to the legislature, for the necessary endorsement, by the casting vote of the Mayor at the opening meeting of the present Council. There being one more meeting of the council before election day, the friends of assessment reform should bring the matter up again, as it is possible that one or more of the late defenders of the present system may have recently experienced a change of heart.

That the question of Assessment Reform is agitating communities far larger and wealthier than Newcastle is shown by the following extract from a recent editorial in the St. John Star, which agrees entirely with our position:

The people of St. John should do everything to see that the land still available for improvement is made to yield the fullest return. No freehold property should be left vacant, and that there are in this city very many lots or larger areas still unoccupied is the fault of the assessors who have not displayed a sufficient interest to force the unwilling owners to part with them. There are today even among our own people some owners of land who are actually afraid to name the prices at which they will sell, for fear it may develop later that they have not asked enough. Citizens who hold fairly valuable sites for buildings which are of absolutely no value as earning investments, are holding on to these in the hope that before very long they may be able to sell out at fancy figures. Meanwhile many others, desirous of building stores or residences are prohibited from doing so by the fact that they cannot secure land. The corporation contributes to the continuance of this condition by permitting vacant land to be held under an almost insignificant assessment. One might suppose that the city is under a sufficient handicap, because of the large holdings of a few estates to adopt every reasonable means of developing and improving whatever other land remains. By permitting the present assessment of unimproved land to St. John the corporation is becoming a party to speculation in which the city as a whole must inevitably be the loser and by which only a comparatively few unprogressive citizens can gain. The sooner vacant land is taxed up to the value placed upon it the sooner will activity be shown in the building trades. We have done quite sufficient already for the rest of Canada; it is time we did a little for ourselves.

LAW UNFAIR TO TENANTS.

On a shop door in Newcastle was recently fastened a notice to the effect that the bailiff had distrained upon the tenant's goods for the rent due the owner, and that unless the tenant paid the said rent within five days from the date of the notice the goods seized would be appraised and sold to satisfy the landlord's claims. The notice did not appear in any newspaper, or in any other very prominent place.

While we presume all the re-

New Spring Goods.

We have just opened up a lot of real nice spring top coats. We have them both short and long.

Price from \$7.00 to \$14.00.

Also a lot of soft and stiff hats. There is nothing nicer on the market than a KING HAT. We have a lot of Boys' Oxford all-wool Pants. Price \$1.00. All sizes.

ASK FOR DOUBLE SUBSIDY.

The Board of Trade Executive met Thursday afternoon and held a very profitable discussion on several topics. The secretary was instructed to telegraph W. S. Loggie, M. P., at Ottawa, and Hon. John Morrissey, Chief Commissioner of Public Works at Fredericton, urgently requesting each to use his influence to obtain from his respective government a subsidy of one thousand dollars for John Russell & Co.'s steamer "Dorothy" for the Newcastle Redbank route the coming season.

ed the South Magnetic Pole in latitude 73° 25', longitude 154° east.

The explorers reached their ship on March 4th and, the sea freezing rapidly, hastily retreated northward, arriving safely in Half Moon Bay, all the men in excellent health. The British Expedition have gone two degrees nearer the South Pole than either the Americans Norwegians or Italians have been able to penetrate towards the North Pole. Evidently British seamanship has not yet, in spite of alarmist rumors of foreign supremacy, materially deteriorated.

Synopsis of Canadian Northwest Land Regulations.

Any person who is the sole head of a family, or any male over 18 years old, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entrance fee may be made at any agency on certain conditions, by father, mother, son, daughter, brother or sister of the intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may file within nine miles of his homestead a farm of at least 80 acres solely owned and occupied by him or by his father, mother, son, daughter, brother, or sister.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$3.00 per acre. Duties.—Must reside six months in each of six years from date of homestead entry (including the time required to earn bona fide profit) and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties.—Must reside six months in each of three years; cultivate fifty acres and erect a house worth \$300.00.

In The Local Legislature.

FREDERICTON, Mar. 22.—The government do not take kindly to the criticism that the opposition speakers have levelled at them since the opening of the house and have decided to have the debate on the address ended as rapidly as possible. All the afternoon Mr. McKeown discharged hot shot into their rank and file also.

Mr. McKeown made a remarkable strong speech and the quiet that prevailed along the front row of the government benches was conclusive evidence that it had its effect. On Friday when Mr. McKeown had expressed the opinion that the purchase of two carloads of school scribbles had been made from the same firm as produced the school books. Hon. Mr. Fleming had arisen and in his smoothest and blandest tones had said the books were purchased from W. J. Gage & Co. and the scribbles from the Kinleath Paper Co.

This afternoon Mr. McKeown made the provincial secretary blue when he told him that Bradstreet had informed him that W. J. Gage & Co. and the Kinleath Paper Company were identical—the same firm practically. Mr. Fleming had nothing to say in reply to this charge of attempted deception on his part. He sat still in his place and swallowed the bitter pill without a word.

But bitter as the dose administered to the provincial secretary, it was merely a prelude to another quite as bitter for the solicitor general. Discussing the unfairness of the government in selecting vendors of school books from political supporters, Mr. McKeown stated that one vendor at Burr's Corner, York county, had been three times convicted of illegally selling liquor. He characterized it as an outrage that children should have to go to such a place to purchase their school books.

Rum and School Book Vendor.

Mr. McLeod, who apparently takes a deep interest in the vendor of spirits and school books, interrupted with the remark that the children did not necessarily go to the place where liquor was sold to get their books, as there was another vendor next door.

When pressed by Mr. McKeown to remove the temptation from the children by removing the books from the shop where liquor was sold, Mr. McLeod replied that he would use his own judgment in the matter.

Another exposure of the government method of handling school books rather surprised the legislature. Mr. McKeown was able to show that while political favorites had the books consigned to them when they were sold, other dealers were compelled to pay cash for the books when they wanted to sell them.

To break the force of this charge, Mr. Hazen said that the books were consigned to Messrs. McMillan in St. John and to the King Lumber Company at Chipman, neither of whom were supporters of the government.

This brought out another statement from Mr. McKeown that neither of the book stores in Fredericton were vendors of school books, which were only obtainable at a grocery store and a variety store.

Dealing with the horse purchase, Mr. McKeown said it had taken a whole string of Kentucky racers to ride through the audit act to prove the fallacy of the government claim that the audit act was passed for the protection of the treasury of the province, and that it would no longer be possible to pay any account for which there was no legislative authority. The government had no legislative authority to buy the horses, yet the audit act had not prevented the money being paid.

Reduction in Size of Lumber.

Mr. McKeown closed one of the ablest speeches of the session by a reference to the laxity of the government in reducing the size of lumber that may be cut on government lands.

He was followed by Mr. Sproul, who delivered a very carefully prepared oration, the only oration of the session so far. The speech was quite lengthy, but Mr. Sproul, in his best flights of eloquence, failed to explain away any of the charges made by opposition speakers. He touched upon them all, said many interesting things, but entirely failed to answer a single charge made against the government methods. He did not criticise the provincial secretary for attempting to give the house regarding the purchase of scribbles. He announced him

self as a prohibitionist, but did not denounce Mr. McLeod for permitting school books and whiskey or something under that name being retailed from the same store. He attempted to defend the purchase of the horses by claiming it was an act of emergency and therefore the breach made in the law was excusable and, further, because the horses purchased would introduce the best strain of the equine race.

But the member for Kings could not take his place without making a reference to the minister of public works, the first, by the way, of the session. This was in connection with the fisheries dispute, between the province and the Dominion. Mr. Robinson had exposed the do-nothing policy of the government and reminded Mr. Hazen that it was the duty of the government to press these claims and not to sit down and wait for the government of Canada to act. Mr. Sproul expressed the view that the responsibility was wholly on the shoulder of the federal government and particularly on those of Mr. Pugsley.

Sproul Rebuked.

Hon. Mr. LaBelle, who followed, pointed out the unfairness of the reference made by Mr. Sproul to Mr. Pugsley, whom he described as the friend of New Brunswick, tried and true, and with ability to present the claims of the province in the best possible light. He described the dragging in of Mr. Pugsley's name as bad taste. Mr. LaBelle touched upon the question of the immigration and repatriation. He said there was now a petition in the office of the surveyor general signed by 200 young men who wished to take up land in the province. The difference between the lumbermen and the settlers could be settled, he thought, by the later paying stumpage to the government. Present methods were preventing the settlement of the lands and they should be changed.

Mr. LaBelle had also some very unpleasant things to say of the manner in which government patronage has been dispensed in Restigouche county. He instanced the case of Joseph Boudreau, of Campbellton, who had been deprived of a liquor license because he had not voted for the government candidates. This man had a well-equipped hotel but his license was taken from him and given to another who had not one-eight the accommodations. The government had also removed from office John S. Bassett, license inspector, an honest and capable official, who had stood for effective enforcement of the license act. Mr. Bassett was dismissed because he opposed the government. When opening this question of patronage Mr. LaBelle did not mention names, but at the request of the provincial secretary he gave the names which could hardly have been new to Mr. Fleming.

Mr. Hatheway's Lamentations.

The lamentations of Jeremiah were as nothing compared to the lamentations of Mr. Hatheway, who made his bow by stating he stood in an independent position, because he had been elected by the Conservative and the Liberal working men of St. John. He said nothing about the disgraceful deal which brought him a portion of the labor vote which was so cheerfully exposed by one of the labor delegates when the compensations act was under consideration last year. His speech was mainly an attack on the late government, because it had not given free school books to the people years ago and praised the present government for their first step in socialism, which Mr. Hatheway favors in everything but the grocery business. He denounced the middlemen in the book business but was silent about those in the grocery lines. Apparently also he favored the sale of school books in grocery, variety and even general stores where liquor is also dispensed to those who want it, as he said nothing in condemnation of the policy of the government.

He denounced the Grand Falls lease and the lease of the Bay Shore Lumber Company and expressed the greatest confidence in the administration of the crown lands department. He was doing very nicely along these lines when somebody asked: 'What about the nine-inch log?'

'Well,' said Mr. Hatheway, 'I think that it is a good policy to increase and not to decrease the size of the log to be cut.'

Whereupon silence fell upon the government ranks.

Mr. Byrne, who had the floor when the house adjourned and will finish his speech tomorrow, rather nullified the effect of the claim made by Mr. Hatheway that the farmers and artisans of the province had been saved large sums by the action of the government undertaking the handling of school books, by pointing out that an additional \$60,000 was taken out of the farmers by the highway act the government had pursued. It was 11 o'clock when the house adjourned.

FREDERICTON, Mar. 23.—The house is gradually getting down to business, until next week. The standing committee have now been appointed and the contingent committee will organize tomorrow. The only important change in the committee this year is making Mr. Munro chairman of the municipalities committee, in place of Mr. Clark, and putting Mr. Jones, the government contractor, on the accounts

committee, in place of Mr. Smith, who went down to defeat in Carleton last October. Mr. Burchill takes the place of Mr. Tweeddale on the standing rules committee, at the request of the latter. Mr. Upham and Mr. Burchill were also given places on the other committees where there were vacancies.

The new arrivals today were Messrs. Lowell and Burchill, the latter after taking the oath was introduced by Hon. Morrissey and took his seat on the floor of the house. This would indicate that Mr. Burchill intends to take an independent course during the session.

Mr. Lowell received a most friendly greeting when he appeared in the house tonight.

The government had a second caucus this morning. All of the members supporting Mr. Hazen were not present, but those who were there were enthusiastic in their show of devotion to their leader and endorsed all that had been done by the government before and since the house opened. There was no mention of the Drummond mines bargain. That will come up later.

Drastic Changes in License Law.

The amendments to the liquor license act were discussed and are quite numerous and drastic.

Screens will have to be removed, saloons will not be permitted to open on holidays or before 7 a. m. and will close on Saturday at 5 o'clock.

There will be no local option election until 1910.

Hon. Dr. Landry in reply to Mr. Cope gave the particulars of the cost of the last horse importation. The horses were inspected by Wm. R. Rowe, government veterinary of Ohio, for disease, but not for blemishes.

Twenty horses were purchased at a cost of \$3,200.

The cost of keeping the horses in Kentville was \$954.50, including feed to St. John and care of horses on the journey.

The transportation charges were \$456.35 and the cost of keeping the horses in St. John from their arrival to the date of sale was \$971.30.

The total cost of the importation was \$5,605 and there are bills unpaid amounting to \$1,056.

There is still due from the purchasers \$4,315.03, which is secured by joint notes of responsible persons.

Mr. Byrne's Able Speech.

The debate on the address continues and is likely to continue over tomorrow. Today Mr. Byrne, of Gloucester, finished his remarks. Mr. Byrne added much to the information already given regarding the government sins of omission and commission. He first discussed the charter which the government is going to grant the company developing the iron mines at Gloucester. It is proposed to guarantee the bonds for the construction of a railway from the mines to tidewater. This railway does not run through a settled country but through the forest and therefore serves no one but the mines.

Attention was also called to another clause in the charter which fixes the royalty of iron ore for all time at five cents a ton. While Mr. Byrne was discussing this matter and suggesting that better safeguards should be thrown around the charter than the government seemed inclined to provide, Mr. Hatheway, who last night displayed so much zeal in attacking some of the charters granted by the late government, leaned powerfully against a post and seemed to have lost all interest of the affairs of the world, and of the house, while Mr. Byrne pointed out the exceptional treatment of this company.

Last night Mr. Hatheway had given Surveyor General Grimmer a magnificent certificate of character for his administration of the crown land department. From the character of the speech Mr. Hatheway made, it was evident that he had been inspecting the archives of the crown land department and had seen the originals of the documents here referred to. But when he was in the office the screen had been carefully drawn against him; Mr. Hatheway seeing the proposed charter for the development of the Gloucester mines. Had he seen that document he might have modified his statements concerning what had been done by the old government. His logical mind would rather have compelled this course or made him take the first train for home.

To Mr. Byrne belongs the credit of bringing to the notice of the house the scandalous misrepresentations of Mr. Hazen and Mr. Fleming during the election campaigns of 1908, regarding the bonded debt of the province. These gentlemen had gone up and down the country shouting with blazon effrontery that the debt of the province was between ten and twelve millions of dollars. Yet, said Mr. Byrne, 'in the first auditor general's report they have placed before the house the debt is \$5,834,533, which includes the amount added this year.'

The people of New Brunswick had been deluded by the untruthful statements of opposition leaders into the belief that the province had been plunged into debt to an extent that threatened its future, but they were now undeceived, as had been proved by the vote-4th Carleton and Northumberland counties.

The immigration policy of the government was reviewed by Mr. Byrne, who put the question plainly to the commissioners of agriculture, if he wanted the crown lands settled. Mr. Landry said he did. Then, said Mr. Byrne, 'why do you not deal with the request for land grants from 200 people in Quebec who want to settle in

New Brunswick? You say the matter is under consideration. It has now been under consideration so long that those who made the application are getting tired waiting for an answer.'

He next placed the surveyor general on the grill and told him that all the difficulties concerning the settlement of the vacant lands of the province could be solved by carrying out the provisions of the public domain act. But that act was still under consideration. The importance of separating the lands fit for settlement from those only suitable for forest production gives the solution to a problem which can be solved in no other way.

The inaction of the government in all matters relating to crown lands was also touched upon. They had not only reduced the size of the log but they had announced an increase in stumpage on some classes of lumber, only to withdraw it a few days later.

The enforcement of the game laws came in for some criticism, because licenses had been issued before the season opened and permits were granted allowing those having licenses to carry firearms into the woods during the close season. This was practically extending the open season, as it was known that moose are more easily killed at the beginning than in the middle of September.

John E. Wilson Condemns.

The School Book Policy.

Mr. Wilson of St. John, followed Mr. Byrne and in a brief speech closed with a reference to school books. Among other things that Mr. Wilson said was that the sale of school books was not restricted to friends of the government. His remarks that he did not believe in the policy that took away from men whose business had been to sell school books, caused the solicitor general to shift uneasily in his chair and this is what he has done in Fredericton.

Dr. Sormany, of Gloucester, was the next speaker. He is one of the independent ticket who decided to throw in their lot with the opposition since the session opened. This action on the part of the members for Gloucester has been referred to in somewhat complimentary language by the Moncton Times and called out the statement from Dr. Sormany that the independent members from Gloucester had never made any overtures to the government nor asked for the patronage of the county. And the further rather startling statement that there was one gentleman who sat on the government side of the house who knew that the members for Gloucester could not be bought. He explained that the Gloucester representatives had come to Fredericton prepared to give an independent support to the Hazen government. They had reached this conclusion because Mr. Hazen had promised in his platform to mete out even justice to both political parties. They had failed in this and displayed the most violent partisanship in dealing with the patronage at their disposal. Instead of showing fair play.

The highway act and the school book questions were dealt with. Regarding the latter Dr. Sormany said he was in favor of free school books. It had been claimed that the people were saving 10 per cent on the purchased school books. He knew many poor children who were not able to go to school because they had no shoes. 'This being the case,' said the doctor, 'why do the government not add the shoe business to the school book question?' He concluded his speech by expressing some practical views on tuberculosis.

FREDERICTON, Mar. 24.—Geo. W. Upham the new member for Carleton, delivered his maiden speech in debate on the address this afternoon, and in the course of a vigorous and forceful address made serious charges against the Conservative party in his constituency—charges reflecting in a damaging way upon the government itself. Amid frequent applause from opposition members, Mr. Upham replied in a telling manner to the attacks upon him by government speakers, and exposed the disgraceful methods resorted to by his opponents to bring about his defeat in Carleton. He also made reference to the recent Dominion campaign in his county and charged that a Conservative worker named Armstrong, undergoing a sentence in jail for theft had been released in order that he might exercise his franchise in behalf of B. Frank Smith.

John A. Young followed Mr. Upham and the house took recess at 6 p. m.

Wm. Currie, M. P. P.

After recess William Currie dealt with the government's importation of Kentucky Horses, and scored the responsible ministers for spending \$7,000 in this way without the sanction of the legislature.

As to the highway act, this first born child of the government was growing very slowly and he was sadly afraid it would have to be bottle fed for years to come.

He had great hopes that the government would have brought in prohibitory laws. The fisheries of the province were protected, also the beasts of the forests, lumber was protected and even the liquor was protected. There was protection for everything but the home. He had hoped that the president of the council, who was born in prohibition, the provincial secretary, who gained his powers of oratory championing the temperance cause, the solicitor general, who knelt in the prohibition cradle, and fifteen or sixteen members behind them would have seen that something should be done for prohibition.

The premier had said that the Scott Act was good enough. The old government had been censured for their in-

ROYAL

Baking Powder

Absolutely Pure

The only baking powder made from Royal Grape Cream of Tartar—made from grapes—

Royal Baking Powder conveys to food the most healthful of fruit properties and renders it superior in flavor and wholesomeness.

activity in the temperance cause, and he hoped that they would not have prohibition they would not have the best thing to it.

It is expected that the debate on the address will scarcely be finished before Friday evening. Several members of the government are expected to speak and Hon. Mr. Burchill has announced that he intends to deliver his maiden speech.

A government newspaper has sought to break the force of Dr. Sormany's caustic criticism of the government by publishing the statement that he is an applicant for the position of alderman of the town of St. John. As a matter of fact, Dr. Sormany is not an applicant for this position although it is a general understanding that he could have had it for the asking. He is supporting the candidature of Dr. Langille of Port George for the position, and the latter is pretty sure of the appointment.

The reception given by Gloucester and Mrs. Tweedie at the Queen Hotel this afternoon passed off very pleasantly. Upwards of three hundred ladies and gentlemen were present and were received by the Lieutenant Governor and his wife and their daughter, Mrs. W. S. Benson. Others who were present were Mrs. J. D. Hazen, Mrs. W. J. Gage and Madame Ellet.

A delegation of gentlemen, composed of Messrs. Wilson, Byrne, Burchill, Upham, Crocker, Gordon, Robinson, Burchill, Robinson R. and others, will wait upon the surveyor general tomorrow morning and ask him to give the timber regulations. They will present a lengthy memorial containing their views of a number of matters affecting their interests, a matter that will be strongly argued since the surveyor general is that the members on the expiration of their terms should be given an allowance of compensation which they have made.

On the 25th Hon. John P. Burchill who on the 23rd was introduced to the house by Hon. John Morrissey, proclaimed himself an independent supporter of the government. He gave Mr. Hazen clear warning that he would go into opposition the moment he detected the Premier in any attempt to use the government's influence in the Conservative interests. He made a forcible appeal for a less partisan consideration of public affairs, declaring that both parties should unite to conserve our national resources and develop the province.

The debate on the address closed on Friday. The House goes into supply on April 1st.

PLAYING HAVOC WITH PATENT MEDICINES.

An Old-fashioned, Home-made Mixture Which Cures Kidney and Liver Troubles.

A prominent local druggist states that since the celebrated prescription of a distinguished specialist has become more or less known it is interfering with the sale of secret medicines, especially the patent or advertised kidney pills. The prescription, which first appeared in a leading health journal, is reproduced here, just exactly as originally written:— Fluid Extract Cascara, 1 oz. Carriana Compound, 1 oz. Syrup Sarsaparilla, 1 oz.

Directions:—One teaspoonful after each meal and at bedtime.

Any good druggist can dispense this, or, even better, a person can buy the items separately and mix them at home by shaking them well together in a bottle. It is stated that the ingredients being vegetable, are harmless and simple. It has a gentle and natural action, and gradually tones up the eliminative tissues, leaving the kidneys in a perfectly healthy condition.

A merchant well known in public affairs states that this recipe cured his rheumatism. Save the prescription.

It takes adversity to show whether we have any real prosperity.

HEWSON UNSHRINKABLE UNDERWEAR IS BEST.

GLOUCESTER COUNTY IS RICH IN COAL.

The Tracoe Coal Company to Start Operations on a Large Scale.

ST. JOHN, Mar. 25.—A prominent Bathurst man, who was in the city yesterday, said something about a big coal discovery in Gloucester county, after being with a party of men for one year the county proved to be a solid coal belt. Bathurst men have made a difference in the near where the cropping of the surface, in one place, was found a bed of coal two and a half feet thick, in another place the surface was another bed about the same thickness at 500 feet below the surface. The coal is of a better quality than the Platon. There are also vast deposits of fire clay.

The Tracoe Coal Company, who own a large tract of the coal region, are now beginning to make operations. They will take some time to properly prepare the whole area where coal is showing up. Their engine claims to be the run of the leads to want the different places that a few feet down, can easily be located which, in connection with the Drummond works at Bathurst, will certainly create an extensive industry within the county.

EDITOR'S MAIL.

For opinions expressed in this column the editor does not necessarily hold himself responsible.

EDITOR UNION ADVOCATE.

Dear Sir:—I noticed a communication in your issue of last week that Trustee Miller offers to resign from our school board. Is it not contrary to the spirit of our laws, that a board having the powers of appointment to office, should appoint themselves where a large proportion of our taxes are expended, and afterwards pass their own accounts?

It looks to me as if member of our town council cannot legally be a school trustee; at any rate, it is an anomaly that demands a change.

Yours respectfully,
CITIZEN.
Newcastle, March 30, '09.

EDITOR UNION ADVOCATE.

Dear Sir:—At the public meeting held on the 18th inst., the action of the Board of School Trustees, in further increasing the bonded indebtedness of our town, for the purpose of enlarging the Harkins Academy, was condemned by a unanimous vote of the ratepayers and a committee appointed to take such steps as were necessary to protect ourselves from this unnecessary increase of our taxes.

If our school board are open and sincere, as they profess to be, is it not clearly their duty to meet the wishes of our citizens and abandon for the present at any rate an undertaking so distasteful and so fully condemned by us all? Not two per cent of our taxpayers had any knowledge whatever of what has been going on; indeed, so secretly has the work been done, that I am told, our town council were not even consulted about it. In fact some of the board themselves were not conscious of what was being done.

To any practical mind the idea of placing all the schools in one spot in such a large district as this is simply ridiculous. The authority to issue the bonds was certainly got without the consent of the taxpayers, and the awarding of the contract by private tender is both illegal and unbusinesslike.

Our committee should act and act quickly—it is time something was done to check this borrowing at exorbitant rates of interest. Our town has already had its "leg pulled" to the breaking point through the irresponsible and the money lender.

TAXPAYER.

SEVEN YEARS AN INVALID

Then She Took "Fruit-a-tives" And
Is Now Well.

Amherst, Ont., Nov. 27, 1908.
I was an invalid for seven years from fearful womb trouble. I had falling womb, and constant pain in the back and front of my body and all down my legs. There was a heavy discharge, and this made me weak, sleepless, restless and miserable. Even I was obliged to be in bed for a month at a time. I was treated by several doctors, but their treatment did me no permanent good.

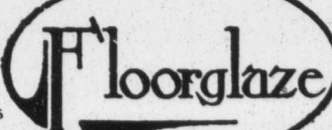

A few months ago, I was persuaded to try "Fruit-a-tives." I took several boxes, and from the outset of this treatment I was better. The constipation was cured, and the discharge lessened. I took, for the past few weeks, several bottles of the Iron Mixture as recommended in the "Fruit-a-tives" book, but I feel that it was "Fruit-a-tives" alone that cured me.

(Mrs. Eliza Levesque.
Take Mrs. Levesque's advice. Take "Fruit-a-tives" and cure yourself. See a box, 6 for \$2.50, trial box 25c. At dealers or from Fruit-a-tives Limited, Ottawa.

One Way to Save Work

As every woman knows who has to take care of even one room, it is the worst workman of all, for the housewife. Most people know, too, that floor dust is a real nuisance. But it has not been an easy matter heretofore to prevent dust from having its own way with floors, even with the gradual basing of carpets and the substitution of rug and hardwood floors; for not every home can afford to have floors refinished every year, and new-looking, as they certainly are not, is the solution of the dust problem is made easy by Floorglaze. With any of the ten charming shades of this easily applied and quick-drying floor finish, any woman can have floors which will be easy to keep clean, and far more sanitary than a painted, oiled or waxed floor.

Even to softwood floors Floorglaze gives a beautiful glossy surface that shows no signs of wear after years of severe service, and that can be quickly washed clean and bright with soap and water. The use of Floorglaze is an insurance against dirt, and actually against disease as well; it saves a vast amount of time and labor, and it is good for outdoor use, on porch and veranda floors and steps. A gallon of this most useful enamel covers 500 square feet. Floorglaze is sold in tins, from a pint to a gallon in size, by most reliable dealers in paint, and is made by Imperial Varnish & Color Co., Limited, of Toronto, who will gladly send you a free booklet worth reading. Recommended and sold by the Stothart Macrae & Co. Ltd., Newcastle, N. B.

Just the hat that becomes you best—and there is only one style that will—sure to be in the stock of the store that sells hats thus labelled:

**WAKEFIELD
LONDON**

Designed by the best men in London; made in a factory that prides itself on its good name making good dressers. Finished like hats that cost twice the price.

Twice pay just to find the store that sells these good hats. They cost less than you'd think.

AN INTERESTING DEBATE

On the Resolution That all Property
Qualification for Office be
Abolished.

The above question was discussed in the Men's Union of Newcastle on Friday evening, March 19th.

Principal Steeves led the affirmative, and was supported by H. H. Stuart and W. C. Day. The negative was led by Simon McLeod who was assisted by A. W. Petrie and Waldo Crocker. Rev. H. C. Rice was chairman.

Mr. Steeves put up an able and convincing argument in favor of equal rights for the poorer citizens. In many cases property qualification had already been abolished as for candidates for provincial assemblies and Dominion commons. In the case of aldermen and other officials there are dozens of traits which are undesirable but not legislated against—it is left to the electors to decide for themselves whether such a man is or is not duly qualified. So with the matter of property. Lack of property should not be allowed to handicap a deserving candidate. If the property qualification for mayor and aldermen were abolished, would the people suffer? Has this restriction ever benefited the people?

Mr. McLeod acknowledged that possession of property did not make a man better or worse, but still he thought the qualification should be retained. Every man at 25 should have property. The Lord found no fault with people for holding property. Those who had been rich and through misfortune had lost, should remain qualified. Propertyless office holders could not be trusted to deal fairly with the propertied class. There were many who wished to divide all property equally. Men who owned nothing were often thriftless, lazy and drunken. Property alone should not be enough to qualify a candidate, but a man with property was, under same circumstances, more industrious and economical than he who had none.

A. W. Petrie spoke strongly against the propertyless man. In eight out of every ten cases he was unfit to hold office. Aldermen who owned no property would be no good to run a town. Men in rented houses might, fifteen or sixteen years ago, have bought homes for themselves. A man who cannot look after his own interests could not look after the town's.

Mr. Crocker spoke along the same lines as Mr. McLeod, and Messrs. Stuart and Day upheld the arguments of Mr. Steeves. Mr. Day's chief point was that brains and honesty were not monopolized by property holders, but were as common among poor men as among rich.

The public would do well to attend these debates in larger numbers.

On the Union's next night of meeting, the question of Equal Political Rights for Women—already in full operation in Finland and Sweden, and (as far as the voting privilege is concerned) in New Zealand, Australia and several of the Western States of America—will be debated. All who can should be present. The debate will be Friday, April 2nd.

LEVEL CROSSINGS

The country is under a great deal of trouble, Mr. Graham for his part, attention by the level crossings bill. He has introduced a bill which provides for the appropriation of \$20,000 a year for five years to aid in the work of removing dangerous crossings wherever they may exist. In the United States the Federal Government has taken no part in the work, the financial burden of separating grades being borne by the railways, the States and the municipalities. There are excellent reasons, however, why there should be a substantial contribution to Canada at least, from the Federal Treasury. Sir James Whitbbs promptly expressed his sympathy with the movement, so that it is not unreasonable to hope that the Dominion and Provincial Governments will aid in this important reform.

The House received Mr. Graham's statement with encouraging cordiality; the only two debatable points raised being whether the Dominion Parliament has power to bring municipal Councils under the Railway Commission and whether municipal

SAVED FROM AN OPERATION

By Lydia E. Pinkham's
Vegetable Compound

Belleriver, Que.—"Without Lydia E. Pinkham's Vegetable Compound I would not be alive. For five months I had painful and irregular periods and inflammation of the uterus. I suffered like a martyr and thought often of death. I consulted two doctors who could do nothing for me. I went to a hospital, and the best doctors said I must submit to an operation, because I had a tumor. I went back home much discouraged. One of my cousins advised me to take your Compound, as it had cured her. I did so and soon commenced to feel better, and my appetite came back with the first bottle. Now I feel no pain and am cured. Your remedy is deserving of praise."—Mrs. EMMA CHATEL, Valleyfield, Belleriver, Quebec.

Another Operation Avoided.

Adrian, Ga.—"I suffered untold misery from female troubles, and my doctor said an operation was my only chance, and I dreaded it almost as much as death. Lydia E. Pinkham's Vegetable Compound completely cured me without an operation."—LENA V. HENRY, R.F.D. 3.

Thirty years of unparalleled success confirms the power of Lydia E. Pinkham's Vegetable Compound to cure female diseases.

It should be required to contribute. The first question is one for constitutionalists to answer. Mr. Borden appears to be in doubt. The Board of Railway Commissioners has now power to order a municipality to bear a share of the cost of protecting a railway crossing. Toronto has been directed by the same authority to pay a share of the cost of the viaduct. The power of the Board to make such decisions has never, so far as we have heard, been called in question.

As to the justice of exacting a contribution from the municipality it may be said that the Board will still have power to determine whether under all the circumstances a contribution from a municipality should be called for or not. Parliament might fix a maximum percentage above which a municipality could be assessed. To solve the municipalities of all responsibility is scarcely practicable. It is not difficult to foresee what would happen if municipalities all over the Dominion could secure expenditures within their borders by railway companies and by the Dominion and Provincial governments, with no sacrifice on their own part whatever. There would be a rush of applications which would swamp everything. The elimination of a dangerous crossing is something in which a locality is deeply interested. The more populous the

neighborhood the more need for greater safety and the more probable is it that the local rates are able to bear a portion of the burden. In the adjoining States, where grade crossings are rapidly being eliminated, the proportion of the cost borne by the municipality varies from ten to fifteen per cent. It would not be unfair to assess them in a similar proportion in Canada.—Toronto Globe.

BUSINESS COMPETITION.

In these days of keen competition, no man should, if he wishes to keep pace with his competitors, hesitate about advertising, for if he does, he will surely get left. The up-to-date and successful business man is the one who resorts to systematic advertising. When the moderate present day rates of advertising, and the great results consequent thereon, are considered, it is small wonder that methodical merchants are seeing that it is folly to undertake the running of a business on successful lines without resorting to advertising. The UNION ADVOCATE is a safe and sound medium, and you cannot do better than give it a trial.

VALUABLE PROPERTY

BOUGHT BY YANKEES.

The lumbering and milling property on the Pokioik River belonging to Gilman Bros., and Burden, has been disposed of to a New York syndicate. The property consists of a large saw mill, fully equipped with modern machinery and eighteen acres of splendid timber land. There is also the Pokioik Falls, which is undoubtedly one of the most valuable water-powers in the province.

Why in the world has that old farmer a dozen pitchforks sticking in his load of hay? asked the astonished tourist. Is he crazy?

No, he is wise, stranger, replied the old gatekeeper at the crossroads. Them that pitchforks are to keep these pesky automobiles from running into him.

A Cure for Leaky Roofs

DON'T waste time trying to patch a leaky roof! A roof which leaks in one place is generally on the verge of leaking in many other places.

The cheapest method of repair is to cover the whole roof with Amatite. Amatite costs so little that the entire job can frequently be done for the expense of caring for a leaky roof. After the old roof is covered with Amatite you will have no further worry or expense.

Most ready roofings require a coat of paint every two years to keep them in order. But Amatite is not the ordinary kind of Ready Roofing. Amatite has a real mineral surface, firmly imbedded in the Coal Tar Pitch waterproofing. This surface resists the attacks of the elements like a stone wall. It demands no additional protection or covering, such as a coat of paint.

Buying Amatite is the same as buying an ordinary ready roofing with an agreement from the dealer to keep it painted free of charge. Such an agreement on the ordinary roofing would double its value. You practically get such an agreement with every roll of Amatite; yet the price is no greater than that of the ordinary kind.

Send us your name and address, and we will forward you by return mail a free sample of Amatite, and you can see how tough, durable and substantial it is. Write to-day to nearest office.

Look After Your Cook's Reputation

Provide your cook with the best flour—"North West Gem"—and she will delight you every time she bakes, with the lightest, whitest, tastiest, most wholesome bread and buns that have ever entered your mouth.

The strength of "North West Gem" Flour is not destroyed or the flavor impaired by the "electrical bleaching process," which is often resorted to for an All Manitoba wheat flour in order to attain the desired color.

Because of the high quality of wheat we use, we get the rich, creamy white color without any "doctoring" whatever.

Many other flours may be a trifle cheaper, but "North West Gem" is so much stronger—makes so many more loaves to the barrel—that it is far more economical in the end.

Buy it from the better class of dealers.

Brant-Wood Flour Mills, Limited, Brantford, Canada.

OBITUARY

MRS. GEO. C. ALLEN

Mrs. Geo. C. Allen died on the 23rd instant at her home in Moncton. She was formerly Miss Ethel Robb. Her husband is well known here having some years ago conducted a drug store in the building now occupied by Howard Williston. She had been ill three weeks. Besides her husband two children, her mother, and three brothers survive.

MRS. JOHN MOWATT.

Word was received at Chatham, Wednesday, from Boston of the death of Mrs. Mowatt, widow of the late John Mowatt, son of James Mowatt. Mrs. Mowatt was forty-four years of age and leaves two children: Chester, in Bank of Montreal, Quebec, and Jessie, who lives in Chatham with her grandparents. Mrs. Mowatt was formerly Miss Holland, of Chatham. Death was due to pneumonia. Her son Chester left on Wednesday for Boston and brought the remains to Chatham for burial.

MRS. HENRY WILSON.

On March 15th Mrs. Henry Wilson, who has been living with Mr. Botsford Black of Trout Brook, Kent Co., died very suddenly. Some eight days before her death Mrs. Wilson had fallen on the ice and fractured her thigh. Under the care of Dr. Girvan she was progressing nicely until paralysis of the heart set in and she passed away without a moment's warning. The deceased was 67 years of age. She leaves to mourn a son and several daughters in the United States. The funeral was held on Thursday afternoon. The services were conducted by the Rev. R. H. Staver. Interment was in Bass River cemetery.

CAIUS McLELLAN.

Caius McLellan, aged sixty, passed away on Thursday, after an illness of over two years caused by injuries received in the Beaver Brook accident on Feb. 5th 1907. Deceased was born at Indian River, P. E. I., but lived in Newcastle for the last thirty years. He is survived by his wife, who was a daughter of the late Donald McLeod, of Newcastle, three sons and two daughters. The sons are William, of Lawrence, Mass.; John and Bernard at home. One daughter Josie is at home, and Kate is a graduate nurse in Augusta, Maine. He also leaves one brother, James McLellan of Worcester, Mass., and five sisters.—Mrs. (Capt.) McKinnon, of P.E.I.; Mrs. McIntyre, Mrs. McKinnon, Margaret and Annie, all of Boston. Mr. McLellan was well and favorably known. The funeral took place at St. Mary's church on Saturday, Rev. Father Maguire officiating. The pall bearers were: Messrs. Maher, McIntyre, McAllister, Masson, L. Donohue and S. Matheson.

WEDDING BELLS.

HARCOURT WEDDINGS.

St. Patrick's Day, at Harcourt was marked by an event of interest in the home of Mr. Andrew Dale, when his daughter Amelia, became the wife of Christopher Cameron of Chignecto Mines. The bride, who was unattended, was becomingly attired in a pretty suit of blue broadcloth. Rev. F. H. Thomas officiated. After the ceremony a dainty luncheon was served to the large number of guests present. On the same evening at the Eureka Hotel Mr. Wm. Dale was united in marriage to Miss Agnes Beck by Rev. C. H. Manaton. The bride was gown in her travelling suit of blue broadcloth. After the ceremony a wedding supper was served to a number of guests. Both couples left on the maritime express Thursday morning for their future homes in Chignecto Mines.

The old time laws were enough to make your ancestors feel the same color.

Manipulating a snow shovel detracts from the picturesque of the winter landscape.

Customer—I called to see about that new topcoat you sent me yesterday.

THE TREASURE OF HEALTH FOR YOUNG CHILDREN

Disease attacks the little ones through the digestive organs. Baby's Own Tablets are the best thing in the world for all stomach and bowel troubles of babies and young children. They act quickly and gently, and are absolutely safe to give any child. Mrs. S. Green, Dunville, Ont., says:—
"I would not be without Baby's Own Tablets in the house for I think they are an invaluable medicine for all little ones." Sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

NEWCASTLE LABOR REPORT FOR FEBRUARY

In the Labor Gazette of the present month James Falcner has the following report for February of industrial conditions in Newcastle and vicinity:

Labor conditions were quiet as the month was cold. Very little work was done on building, but mill men will soon be getting their sawmills ready for spring work. It has been a good winter for getting out lumber as the snow was not very deep. Most of the men are coming out for season, and numbers will be idle until lumber driving begins about the first of April. Everything points to a much improved summer in the lumber trade, especially in laths and shingles.

CONDITION OF LOCAL INDUSTRIES.

Agriculture.—There was not much activity, except in getting beef cattle fattened for the spring market. Newcastle always has a good market for fat cattle.

Fishing.—Smelt fishing is over for the season. The catch has not been nearly so good as the last.

Lumbering.—The pulp and paper mill erected in Derby is now completed and is making paper. The company has about one hundred men employed.

The building trade is very quiet as yet, but carpenters will be busy in a short time. Painters, decorators and paper hangers will be busy now for some time as the coming three months is their busy season. Stone cutters are expecting a good season already a quantity of stone is being shipped to Montreal and other cities. Horsehoers have had a good winter as rain has kept the roads icy. Carriage and wagon makers are now busy on repairs. Tailors report spring orders coming in. Ice cutters are storing up great quantities of pure, clear ice. Unskilled laborers are far in excess of demand, and will be so for five or six weeks.

MAJORITIES SHOULD RULE

(Campbellton Graphic)

The amendment to the Liquor License Act foreshadowed by Hon. Mr. Hazen in the legislature last week is a step in the right direction and we trust the bill will be passed, and that it will be brought into effect at an early date. It seems reasonable that where a majority of the voters casting their votes, deserve it, local option should rule.

HOW'S THIS?

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

The inventor of the 'Stopylin' necktie is to take a rest, which will be good news for revolutionaries in danger of throat trouble.

Merchandise imports at New York are 40 per cent. above those of a year ago, and Boston also reports a heavy increase.

King Edward's health is causing anxiety, especially to the folks who sold stocks short on the strength of the rumor that His Majesty was dead.

Seventy three newspapers have been suppressed in Russia in the last year, and 120 have been fined a total of \$50,000, for not publishing verbatim reports of the Kinrade case.

"We have queer ideas of value," says the Philosopher of Folly. "I know a man who would sell his vote for \$1.50. But he has a yaller dog that no money could buy."

BEAUTIES OF THE INFINITE

(By a Banker)

tensified to such an extent that the splendors of the midnight vault of the midnight sky were revealed to us in all their wondrous grandeur as with the aid of a giant telescope, what a sublime and majestic spectacle would be presented, consisting of the three or four thousand stars which even the sharpest unaided vision can detect, nearly every million burning—suns would be seen scintillating in all their glory; some of a pale azure, like the shining sapidities, as the double star Delta in the Scorpion, and many others some a vivid crimson as that glowing beauty Eta in Perseus; or some, as a group in Andromeda, would be the remarkable companion to a singularly bright star in the constellation of the Lion, like glittering Regulus, while, scattered throughout the firmament, right down even to its remotest depths, are unnumbered thousands of other suns glowing in radiant light, here clustered together, a group of varied tints; here glittering alone, as if their less gorgeous companions were here a pair relieving each other, one a bright indigo blue, the other a deep blood-red.

And the most curious fellow travellers in space, moving round our little sun, for such it is, comparing with some of the giants of the universe, as mighty Arcturus or Rigel or Sirius, is but an insignificant star—how beautiful and striking they would appear! magnificent Saturn encircled with immense glowing rings, some shining with a golden radiance, others transparent and marked by a number of luminous spots; the stupendous Jupiter, a mighty globe, and in dimensions to four times that of our own earth, or relatively, exceeding it in size even more than a football as compared with a very small marble; blood-red Mars, with its strange canals; or the minute minor planets, resembling the wreck of a great ship, and whirling back in the

TRUST BROOK.

Mrs. Joseph Hosford, who has been ill for the past week is rapidly recovering.

Miss Mary B. Waye of this vicinity visited friends in Protectionville recently.

Miss Sadie Sobey and her brother Campbell, visited friends in this place on Friday last.

Mr. James Taylor of Nordin, spent a few days here the guest of James Waye.

David Blackmore and Thomas Hyland paid this place a flying trip last week.

Of the 1904 group of women who fainted last year, says the N.S. fell into the arms of men, fell on the floor and one into the water.

A failing day here, no larger than the finest silver thread takes from the hand its majesty, its power, its regularity. The stomach also has its hidden or inside nerve. It was Dr. Shoop who first told us it was wrong to drug a weak or failing Stomach, Heart or Kidneys. His prescription—Dr. Shoop's Restorative—is directed straight for the cause of these ailments, those weak and faltering inside nerves. This, no doubt, clearly explains why the Restorative has of late grown so rapidly in popularity. Druggists say that those who test the Restorative even for a few days soon become fully convinced of its wonder full merit. Any one who don't drug the stomach, treating the cause of sickness is the only sensible and successful way. Sold by all dealers.

MANY SUFFERING

FROM LA GRIPPER

According to the estimate of a local physician, not less than 2,000 persons have suffered from gripper within the town during the last four weeks. A large number of them are still on the retired list from that disease. There has also been at least 20 or 30 cases of pneumonia, many of them of a very severe type, but so far, however, with successful results. Scarlet fever, which has also been so very prevalent during the winter months is rapidly disappearing. Whooping cough is still so prevalent at Athol. A few cases of diphtheria have also been up at long intervals, but this disease has been so mild a type of late years that it is announced no longer seems to cause much anxiety. Diphtheria, scarlet fever and pneumonia are still however, very much dreaded. An element of danger lies also in la grippe, owing to its frequent complications and the distressing weakness and depressed condition of the system which nearly always follows an attack of la grippe.

Don't believe rheumatism can be cured by rubbing liniment or oil on the sore spot. The disease cannot be reached in that way. It must be driven out of the system. Only Celery King will do this quickly. 25 cents, at dealers or by mail. S. C. Wells & Co., Toronto

Prevents as well as Cures

"Father Morrissey's No. 10" (Lung Tonic) Goes a Step Further Than Other Cough Medicines.

Left to themselves, most "Common Colds" will run their course and depart. But they leave reminders in the shape of lingering, irritating coughs and weak throats and lungs.

There are many cough medicines on the market that help to stop a cold, but they do it because they contain Opium, Morphine or similar drugs that simply quiet or deaden the irritation, but do not remove the cause. Such medicines do little or no permanent good and often a great deal of harm, particularly to children.

"Father Morrissey's No. 10" is made of Roots, Herbs and Balsams, without a trace of Morphine or any other harmful drug. It goes straight to the root of the trouble and removes the cause of the cough. It soothes lungs and throat to a healthy condition, tones them up, and makes them stronger than ever to resist colds and more serious diseases. Trial bottle, 25c. Regular size, 50c. At your dealer's or from Father Morrissey Medicine Co., Ltd., Chatham, N.B. 12

Whooping Cough, Croup, Bronchitis, Cough, Grip, Asthma, Diphtheria

Cresolene is a boon to Asthmatics

Does it not seem more effective to breathe in a remedy to cure a cough of the breathing organs than to take it orally into the stomach?

It does. In fact, it is a powerful remedy, and every breath, gently inhaled, carries it to the lungs. It is invaluable to mothers with small children.

These favorable results are due to the fact that Vapo-Cresolene is a natural product of the forest.

Game Warden, John Keating laid a complaint against Howard Curtis for having a mess meat in the closed season at his camp on Cat's Brook. Accused was brought before Police Magistrate Maltby last week, and fined \$50.00 and costs.

LIBEL SUIT IN FREDERICTON.

As a result of the Crockett-Hanson street duel, notice of action for libel has been served by O. S. Crockett, M. P., on the Fredericton Herald, paper which published a communication over Hanson's signature making reflection upon Crockett's character.

To whom it may concern: This is to certify that I have used MINARD'S ENMENT myself as well as prescribed it in my practice, where a liniment was required and have never failed to get the desired effect.
C. A. KING, M. D.

The ice races on the harbor Thursday morning resulted in Earl Grey taking three straight heats, as follows: Earl Grey, T. Holmes, Chatham 1 1 1; Speculation Jr., McGowan, Chatham 2 2 2; Roy, C. J. Morrissey, Newcastle 3 2 3; Henry Willie, Wm. Bryenton Derby 1 1 1.

Boys' Suits, etc., very newest. Just opened at McMurdo's.

Great crowds attended the Opera House last week, a specially long and interesting program being given. Very long for the money. Queen and Ross and Hi Tom Long kept the audience vastly amused. There was no meaness in the moving pictures—there was lots of them. Every night sees a good audience. The program is always appreciated. The Company will be back tomorrow night, with new Vaudeville Actors, lately engaged in Campbellton. New pictures three times a week.

Buster Brown Suits, just the kind you need for the boy. These are general goods; they wear well and look well. Price, \$2.00, \$2.25 and \$2.50 at McMurdo's.

Wm. Corbett, Jr., the enterprising and popular Jane Street Grocer, has purchased from Alex. Stewart, of Eholt, B. C., the property facing on Pleasant Street containing the Leader office, A. C. Allard's factory, and the dwelling occupied by the buyer. Mr. Corbett has also bought the store, formerly owned by H. H. Lamont, in which his grocery business is conducted.

There were fifteen applications for liquor houses in Campbellton last week.

Miss Bessie Crocker has been engaged as organist of the Methodist church.

Men's Shirts are going like hot cake at McMurdo's.

Reston Division, S. of T., has raised \$800 from a concert and basket social, to buy a new organ.

John McLellan, son of Mrs. Cairns McLellan, is very ill this week. His condition yesterday was somewhat improved.

Rev. Dr. McIntyre, of St. John, occupied the pulpit of the Baptist church on Sunday last. While here, he was a guest at the parsonage.

A popular idea used to prevail that all teas were pretty much alike, but "Salada" Tea is proving a pleasant surprise to thousands of particular tea drinkers. Sold by grocers everywhere.

The Italian who was arrested in Campbellton last week charged with wounding a companion with a knife in a bar room, was tried under the speedy trials act and sentenced to two months in jail.

His Worship Mayor Miller went to Montreal Saturday evening in connection with the Drummond Smelting matter.

OBITUARY

MRS. STEPHEN MONAHAN.

The death of Mrs. Stephen Monahan, niece of M. Bannion and Mrs. P. Hennessy of Newcastle, occurred at her home in Nelson on Thursday morning, after an illness of less than a week, from spinal meningitis. Deceased was the daughter of the late Mr. and Mrs. Patrick Ronan, and was born in Chatham thirty-six years ago. She received her education there and later removed to Newcastle with her mother and they resided with M. Bannion, a brother of Mrs. Ronan. About seven years ago she was married to Stephen Monahan, of Nelson, who survives her with two children, a boy aged five and a girl three years of age. Two brothers also survive. William Ronan of the I.R.C., Newcastle, and Thomas in California.

Mrs. Monahan was a woman beloved by all who enjoyed her acquaintance, and by her bright and charming manner made lasting friends.

The funeral took place in St. Patrick's church, Nelson, on Saturday, where requiem mass was sung under direction of Rev. Father Power.

MISS GRACE WEAVER.

The death of Miss Grace, daughter of Thomas Weaver of Doaktown, occurred on the 3rd instant, at the age of 24 years. The funeral was held at Upper Blackville March 5th, Rev. F. Snell officiating. Deceased's cousins—James Duncan and Chas. Wm. John Gordon and B. Donald—acted as pall-bearers. The hand of Providence has been very heavy on Mr. Weaver lately. His wife was buried on the 8th of January. Mr. Weaver was twice married. By his first wife he has three daughters living, Mrs. Robert Sturgeon, Doaktown; Mrs. Wm. Connors, Upper Blackville and Mrs. Herman N. Hovey, Ludlow.

MRS. EVERETT O'DONNELL.

Mrs. Flora Kate, beloved wife of Everett O'Donnell, and daughter of Mrs. Annie Cluston, died at her home in Lower Derby, March 19th, aged 33 years. She leaves a husband and one child, with mother, sister and brother to mourn their loss. Mrs. O'Donnell was a Christian lady and a member of the Baptist church. Her sudden call to go up higher and her going out of this earthly tabernacle into a mansion to wear a crown, was unexpected by her family and has cast a gloom over the bereaved ones. May God, our heavenly father comfort these sorrowing

friends by his almighty, infinite word of promise, and guide them all safely through the trials of this life, and at last in his chariot of love, bring them to his eternal home. Interment took place at Lower Derby; the funeral services being conducted by Rev. H. D. Worden of Whitneyville.

LENA RITCHIE.

Miss Lena Ritchie, a student at the Normal School, died at the Victoria Hospital, Fredericton, Thursday morning from typhoid fever, aged eighteen. She was a daughter of N. R. Ritchie, of New Brandon, Gloucester and her father was with her when the end came. Deceased was a bright young lady and her death is deeply regretted by her late associates. The sad event was feelingly referred to by Principal Bridges at the opening of the Normal school this morning.

ALFRED PETERSON.

Alfred Peterson, aged 76, died Wednesday at Burnt Church. He was a well known and very much respected citizen. He leaves four daughters—Mrs. John Sewell, Mrs. James Anderson and Mrs. King of Burnt Church and Mrs. F. S. Titus in Campbellton. The funeral took place Thursday interment being in St. Paul's churchyard.

MRS. ZACCHEUS FOWLER.

Mrs. Grace Fowler of Ottawa, wife of Zachaeus Fowler, who with her husband was well known on the Miramichi, died in California on the 21st instant, aged about 45 years. She was a daughter of late Robert Robinson of Doaktown, and sister-in-law of the late Mrs. F. L. Pedolin of Newcastle. She is survived by her husband, and the following children:—Walter, Helen and Florence of Ottawa. Mrs. Robinson of Doaktown is a sister of deceased and there is another sister in Maine. Rev. W. J. Fowler of Little River Halifax Co., N. S., is a brother-in-law of the departed and Miss Fowler of Newcastle and Mrs. Samuel Freeze of Doaktown are sisters in law.

JOHN HOSFORD.

The death of John Hosford, an aged and much respected resident of Trout Brook, took place on the 23rd, after a few days illness of pneumonia. Deceased was 76 years of age. He leaves a widow, formerly Mrs. Mullins of Wayerton, and the following children, Joseph and Mrs. Wm. Dunnett, Trout Brook, Edwin, James, Abigail and Mrs. Bartlett in the west. The funeral took place at Trout Brook, and was largely attended, the deceased being well known and popular. Mr. Hosford was born in Tipperary Co., Ireland.
