A FRIEND IN NEED

Unknown Man Aids A
Chatham Woman in
Distress.

Miss Elizabeth Sullivan, of Chatham had an exciting time Thursday afternoon between the arrival of the Halifax express and the train for Boston, says the St. John Globe. Miss Sullivan had a through ticket and she remembered the I. C. R. conductor giving it to her after the last collection of tickets between Kesteven and St. John. She put it in her purse, but when she reached St. John her purse was missing. She told the conductor and he took her to Terminal superintendent Ross, where she again excitedly told her story. In the midst of all the hubbub a stranger appeared and although he did not know Miss Sullivan off to advance her the \$1.50 necessary for a ticket, expressing the belief that she would repay him. His offer was gladly accepted and the ticket handed to the excited and grateful woman. Just before the train left Miss Sullivan, her kind-hearted friend and a breathless and somewhat excited railroad man, rushed up to the ticket agent and explained that the ticket had been found. Of course the stranger got his \$1.50 back and every body went away happy. The railroad man explained that he found the purse in the car and showed it in his pocket, intending to give it up at the station. In the rush he forgot about the purse and had just reached his home when he remembered about his find. He hurried right back for the station and fortunately was in time to save the benevolent stranger his money.—Ex.

Miss Lizzie Sullivan, the lady who lost her purse and railway ticket to Boston, did not belong to Chatham as the St. John papers would have it. She belonged to Bonaventure Co., Quebec. The lost articles were found by a railroad man and restored to the owner.—Commercial

TRAINS COLLIDE

On The Intercolonial R. R.
Tracks

MONTREAL, Dec. 13.—A head-on collision took place this morning near River du Loup between a Temiscouata railway passenger train, resulting in considerable damage stock and motive power. No loss of life resulted. The engine crews of both trains saved themselves by jumping. The Northern Temiscouata road is at River du Loup and trains run into the I. C. R. Station for a short distance over the main line of the I. C. R. The Temiscouata train was bound south for Edmundston, N. B. The freight locomotive was of a heavy type and played havoc with the passenger cars of the other train.

NEW BRIDGE

Descriptions of Structures
Recently Completed
by N. B. Government

LORSON BROOK BRIDGE HARISH OF COLOMBE RESTIGOUCHE CO.

The contract for the rebuilding of this structure has been awarded to John Goulette, sr., Char. O. Station. The bridge is to be rebuilt during early part of summer 1905. Total length of structure 600 feet. It is situated on Great Road above New Mills Station. Probable cost about \$2,500.

This structure as it now exists consists of an extensive top system of continuous cedar cribwork held up by a series of gear crib blocks, covering an approximate distance of 400 feet. This mass of cedar cribwork is generally in such condition that it is thought advisable to take the same entirely down and construct a new structure. The new design will consist of a western stone or earth embankment out an approximate distance of fifty feet where such is now cedar cribwork and on the eastern end a stone or earth embankment will also replace the existing cribwork for some 40 ft. The present roadway surface over the bridge portion will be raised considerably and the gap between the two embankment approaches will be connected by means of a substantial framed cedar trestle bridge having an approximate height of 22 feet from road surface to ground surface. The trestle bents forming this structure will only be placed 12 ft. centres, which with an extensive system of stringers will give ample strength for securing a very firm and up to date system of earth roadway surface. The trestle bents will rest on a series of cedar cribwork blocks filled with stone and of such height to prevent any ice or such obstructions from the rise and fall of tides from lifting or damaging such trestle bents. Directly over the channel of the brook extra ventway will be secured by placing a substantial King Post Truss span constructed entirely of Southern hard pine. This superstructure will rest on substantial cedar cribworks filled with stone. The steep inclined road approach at the east end of the structure will be very much reduced by cutting down this road surface for an approximate depth of 4 feet and some 80 feet long which with the raising of the structure will reduce the present objectionable hill approach at this eastern end of the bridge.

BATHURST BASIN BRIDGE GLOUCESTER COUNTY, N. B.

Bathurst Basin bridge, one of the longest highway structures in the Province, has lately undergone extensive repairs.

The structure having a total length of 2400 feet, consisted previously to the present repairs of continuous open cedar crib block work on each side approaching the channel where extra ventway was secured by the construction of open cedar cribwork blocks and stringer spans a sidewalk project over the west side. This structure was constructed some forty years ago. Before present operations the structure was very much out of repair. An examination revealed the fact that such portions of this structure below ordinary tide level and where always wet, were in very good condition, and if the top surface above such tide level was stripped the foundation could be utilized again. Plans and specifications were compiled dealing with extensive repairs on the above basis, by building practically a new top over the entire length of structure. Such new work consisted of a thorough construction of cedar cribwork compactly filled with stone, particular care being taken to have all out faces of such cribwork construction thoroughly close faced, whereby the road surface and the interior stone filling is prevented from being washed away or drawn out by the force of heavy storms and high tides.

With such system of outside close faced construction the full width of roadway surface could be utilized, consequently ample room was provided to bring the sidewalk inside on the main cribwork, instead of the objectionable overhanging sidewalk construction that previously existed. This is generally considered a great improvement, for the public have a good wagonway surface of 16 feet wide and a sidewalk 4 feet wide over the entire length of structure, all on a compact and solid underbearing surface. The sidewalk is raised some kind inches above the wagonway surface, doing away with the objectionable plank walkway to decay and be removed every few years.

The old existing short stringer spans besides being entirely removed have had their lengths made just

DALHOUSIE

A Successful Bazaar Held
This Week

The good Sisters of the Dalhousie Convent assisted by several of our ladies held a little Bazaar during three evenings this week in the C. M. B. A. hall. The place was tastefully decorated and those who patronized the affair enjoyed themselves. An interesting part of the fair was the exhibition of so many fancy articles made by the pupils of the convent. During the first evening all the convent children were allowed to attend the Bazaar and they will never forget it. The following ladies occupied positions and assisted to carry out the work with great success notwithstanding the great scarcity of money and so many young men being absent in the woods.

Fancy work—Mrs. C. H. LaBilloy, Mrs. Ed. Watts, Miss Jessop. Supper Table—Mrs. Geo. E. Mercier, Mrs. O'Regan, Mrs. Goodin, Mrs. Samson.

Waiters—Miss Sarah Murphy, Alice Harquail, Mina Mercier, Marie Barthe, Opal Letourneau, Alma Letourneau, Audrey Troy, Maria Lafontaine, M. L. Mercier.

Candy and Ice Cream—Miss Annie Murphy, Miss Thompson, Statia Harquail, Irene Arseneau.

Xmas Tree—Miss Amelia Lawlor. Klondike Dig—Miss H. Harquail.

Fish Pond—Miss Thompson. Lotteries—Mrs. Thomas Murphy.

Quartette—Miss Mina Mercier. Piano: Blanch Mercier. Violin: Louise Mercier. Mandolin: Mr. W. C. Arseneau. Cornet: Mr. W. C. Arseneau.

Those who had lucky numbers with the lotteries were—William Mawhinney, Carving Set; Florence Valdrant, Skates; Mildred Galloway, Cushion; John Good, Lamp Shade; Wm. Comeau, Skates; Alvina Hughes, Cushion; P. S. Martin, Framed Picture; W. C. Arseneau, Fancy Horn; Lumina Mercier Frame; Robert Hallett, Brush wood Glove case; Mrs. George Hallett, Cushion; Eva Samson, Doll; Rev. A. A. Boucher, Shaving Case; Miss Annie Harquail, Cushion; Miss Maggie Couch, Writing Desk; Mrs. Geo. Hallett, Handkerchief Case; Peter Mercier, Pair of Pictures. Proceeds of Bazaar about \$300.

one-half by the construction of a substantial cedar pile bent under the centre of each such span.

The three old existing long stringer spans which previously and even now are required for lumber operations have been replaced by extensive King Post Trusses constructed entirely of southern hard pine.

The entire structure as rebuilt shows a thorough and painstaking piece of cedar cribwork and truss span construction and is indeed a first class piece of work from start to finish.

A MONSTER- HEAD

Moose Had Antlers With A
Spread of 66 Inches But
Lost The Tips.

Hiram Manderville was in town last week with three handsome moose heads. One of the heads was a monster in size. This head when shot by Norris Manderville had an antler spread of exactly 63 inches but as is seldom the case with a moose's antlers there was a shrinkage of $\frac{1}{2}$ of an inch. Mr. Manderville told a reporter for the Advocate that the antlers were originally even bigger than 63 inches. Both points had been broken off before the moose was shot and he is confident that at one time the spread was 66 inches.

Mr. Manderville believes that this was the largest head shot in New Brunswick this season. He disposed of it to Mr. Ernest Hutchinson for a good round sum.—Advocate

THE LOCOMOTIVE'S FINISH

(Philadelphia Inquirer)

The pilot of the locomotive is out of joint, if we may refer to that portion of the iron horse as its nose. A new rival is in the field, and it begins to look dangerous. Five years ago a commission of expert railway men and electrical engineers carefully considered the question of using electrical power on railways, and it was generally agreed that for the time being no such change could be made. Since then there have been new inventions, and discoveries and new engineering processes, and the application of electricity to a limited extent on the present steam roads is practically an accomplished fact. The entire Long Island Railway is to adopt electric power. And the New York Central will use this motive force for thirty miles north of its terminals. The Pennsylvania will install it exclusively on its new tunnel lines into New York.

DOCTORS DID HER NO GOOD.

By the time Miss L. L. Hanson, Waterford, N. B., had taken Three Boxes of MILBURN'S HEART AND NERVE PILLS She Was Completely Cured.

She writes us as follows:—"I feel it my duty to express to you the benefit I have derived from Milburn's Heart and Nerve Pills. A year ago last spring I began to have heart failure. At first I would have to stop working, and lie down for a while. I then got so bad that I had to go to bed altogether and go to bed. I had several doctors to attend me, but they did me no good. I got so weak that I could not get up. I then tried Milburn's Heart and Nerve Pills. I sent to the store for a box, and by the time I had taken three boxes of it I began to get better, and by the time I had taken three boxes I was completely cured. I feel very grateful to your medicine for what it has done for me. Miss L. L. Hanson, Waterford, N. B.

FLEET DESTROYED

Russian Battleship and Cruisers in Port Arthur

JAPAN PREPARING
To give the Baltic Fleet
Warm Reception—Other
War News

London, Dec. 8.—A despatch to the Japanese legation from Tokyo dated to-day says: "The naval staff at Port Arthur reports that on Thursday evening the Pallada protected cruiser was set on fire and heeled to port, with her stern sunk. Eleven shots hit the Giliak (gunboat) The Bayan (armored cruiser) took fire at 11.30 and is still ablaze at 4.15 p. m. The Amur (transport) was hit fourteen times and sank. Many shots greatly damaged the warehouses and other buildings near Pei Yai mountain and the arsenal.

Headquarters of Third Japanese Army, Dec. 7, via Fusan, Dec. 3.—On the morning of Dec 2 the Russians granted permission to the Japanese to gather their dead and wounded from the eastern fort ridge fight of Nov 26. Yesterday the same concession was asked by the Russians concerning 203 Metre Hill. The request was granted, but the privilege was withdrawn to-day.

In the fighting of Nov 30 the second son of General Nogi was killed on 203 Metre Hill. General Nogi's eldest son was killed in the battle of Nashan, and he is now childless.

On the night of November 26th the Japanese established infantry trenches inside the parapets of the two Rikhus and North Keel forts, but on the following day they were compelled to retire beyond the moats. Since then there has been practically no fighting done along the incline of the eastern ridge of forts, the main strength of the Japanese troops having been concentrated to effect the capture of 203 Metre Hill. The battleship Pobieda has collapsed in the harbor and is now burning. The battleship Retvizan and the turret ship Poltava have sunk. The cruiser Bayan has been beached. The other vessels are making no effort to escape.

Tokio, Dec. 9 10.30 a. m.—Imperial army headquarters has published a list of 36 officers killed and fifty-eight wounded. No mention is made of where the casualties occurred, but it was presumably at Port Arthur.

11 a. m.—Baron Komura, minister of foreign affairs, has delivered the Japanese response to the invitation of the American government to participate in the proposed peace conference to Mr. L. C. Griscom, the American minister who has transmitted it to the government at Washington. The text of the response has not been made public.

Tokio, Dec. 8-11 3.0 a. m.—Imperial headquarters has made the following announcement. The result of the bombardment of Port Arthur by four large calibre guns on the 6th inst., was very good. Many effective hits were made against the battleships Petesviet and Pobieda, and the protected cruiser Pallada. In consequence the Petesviet caught fire and at 3.15 o'clock the Pobieda listed to starboard.

Tokio, Dec. 8-11 3.0 a. m.—The commander of the Japanese naval land battery in front of Port Arthur, reporting on Dec 7th says "An Observation taken to-day" Dec 7, from 208 meter hill, shows that the turret ship Poltava lies sunken as reported on Dec 6. The battleship Retvizan seems to have sunk, her stern being under water.

"The bombardment to-day Dec 7, has heavily damaged the battleship Pobieda, which is listing to

Tokio, Japan, Dec. 8.—Japan's preparations for meeting the Russian warships now on the way to the far east are progressing on a most extensive scale, particularly in the navy, which is confident of solving the problem under fair conditions.

When the Russian Baltic warships arrived in Oriental waters, if the squadron has been permitted to exceed a fair construction of neutrality, Japan will consider herself under no obligation to observe neutrality and may send her fleet after the Russians into ports the neutrality of which she believes the Russians are violating.

If the Russians seize a base in neutral territory Japan probably will do likewise.

Japan is keenly anxious to avoid complications, but she will forcefully insist upon what she considers her rights.

The army preparations include the calculation that the Russians may attempt to cut the Japanese communications with the Liaotung peninsula, but by the time the Russian vessels arrive the Japanese armies in Manchuria expect to be in a position to carry on the campaign for many months without the necessity of communicating with Japan.

Business houses expect a temporary disarrangement of mail and maritime services.

A PENALTY OF FAME

Poor Mrs. Chadwick! Incarcerated in a prison cell the woman for whom men of millions became financial sponsors and for whom women of society became social sponsors is paying the penalty of great achievements. In this age of predatory wealth and social distinction with gallantry obsolete the woman who by look or crook wrests millions from men who have them, with no intention of returning with or without interest and thereby climbs to lofty heights in the social world, merits a monument; she certainly does not deserve a prison cell. But there are men who do not think as we do. Just now there are men gloating over Mrs. Chadwick's downfall, notably among whom are those who suffered by her manipulations. Just now kicks are in order where once it was kisses. Mrs. Chadwick will doubtless find herself similarly situated to the great Napoleon. She will merely pay a penalty of greatness.

General Jacob S. Coxey, once leader of the "Commonwealth" Army has filed a petition in bankruptcy. Coxey was always bent on doing something out of the ordinary.

TRUTH AND FALSEHOOD

"Some churches and their problems" is the inspiring title given by a "minister's wife" to an article in the current number of a popular magazine whose editor is a pronounced agnostic. Apart from its aim to discredit the "old theology"—as it is termed—the article possesses merit, which no one will deny. That the welfare of the church would be materially advanced by a process of elimination of cant and hypocrisy is quite clear, and the key to such a process is gratuitously furnished by a minister's wife. Unfortunately however, the tone of the article as a whole is not an elevating one and will doubtless do more harm than good. When the writer declares that the man in the pulpit is the pitiable victim of a deplorable condition in the evolution of the moral life of the human race, she descends to the flimsy and extravagant rhapsodies of a Marie Corelli.

VILE LANGUAGE THIS

Intemperate language is sometimes less excusable than intemperate conduct. It is often more injurious. It is always advisable for one to weigh the goods before one delivers them. The Rev. D. L. Hilliard, pastor of a congregational church and a member of the Vermont legislature evidently thought he was giving the correct measure to his colleagues in the House when he gave utterance to the following words: "Before my God, I swear to you gentlemen, that were it my own sister standing in Mrs. Rogers' place, I would vote to hang her." Mrs. Rogers will be hanged.

THE STRENUOUS ROOSEVELT

President Roosevelt's advocacy in his annual message to congress of large families is freely commented on by women. It is gratifying to learn that Mr. Roosevelt incorporated in his annual message a subject which the majority of women should be able to discuss

intelligently. One prominent club woman disagrees with the President. She says "Child-bearing is not the highest thing that God had in mind for women." Mr. Roosevelt should never have tried to inculcate a love of his strenuous life in the minds of such empty-headed women. He worked much harm. Women have misinterpreted his meaning and got beyond their sphere as instructed above. The President should now preach Wagner's gospel.

IT TAKES TWO ETC.

It is extremely amusing to note the interest and complacency with which some of our southern neighbors argue on behalf of reciprocity with Canada. They entirely overlook the fact that reciprocity does not present the same inducements to Canada that it does to New England and that it takes two to make a bargain. But when they are prepared to submit terms to us they will jolly soon discover the truth. They are now wasting very valuable time and money.

THE POWER OF PERSUASION

A man who can't "persuade" another man to abandon a \$10,000 a year job could do good work as a revivalist—St. John Star.

HARD TO SATISFY

Chatham's fire alarm will cost \$6000 but that will not satisfy the Insurance Board—Chatham World.

Surely the Board of Fire Underwriters do not receive a rakeoff.

ONE OCTAVE DEPTIC

One Octave Depotic shot his son in the Quebec woods a few days ago. The father mistook the son for a deer. We could scarcely imagine such an occurrence in the woods of New Brunswick. The buck fever has evidently not yet reached Quebec.

Earl Grey, Canada's new governor-general, arrived at Halifax amid the glitter of gold lace, the flourish of trumpets, the booming of cannon and the plaudits of an enthusiastic multitude. Lord Dundonald once received much the same sort of tribute.

Mrs. Chadwick doesn't seem to be able to exercise her hypnotic power in the matter of bail.

RUSSIA IS CRIPPLED

A Severe Blow to Russians Policy of Revenge

Berlin Dec 9th.—Herr Von Voellmer, Socialist, assailed the Government to-day in the Reichstag, pointing out that the increase in the army was unnecessary. "Russia," he continued, "is so crippled from a military and moral sense that there can raise no question of danger on the eastern frontier for a long time and Europe is hereby relieved of an enormous burden and Russia's defeat has given a severe blow to France's policy of revenge." Referring to published statements that Russia intends to raise a great loan in Germany, and that Germany will get the largest part of the orders for war material and for building the new Russian fleet, he said "It would be a crime to advise Germany to lend money to Russia under the present circumstances, and it would be a breach of neutrality if Germany allows the new Russian fleet to be built here." The Chancellor asserted that the Government's policy toward Russia was one of strict neutrality corresponding with the traditional attitude of Germany toward the Russian Empire. The Chancellor denied that a secret treaty exists between Germany and Russia, explicating declined to take Herr Von Voellmer's optimistic views regarding the French plans for revenge and remarked "Germany has been able to become the pivotal point in

the peace movement precisely because of her strength. Any weakness of our race would immediately arouse warlike passions, Germany's weakness would not be a danger to us alone but also to the peace of Europe and of the world which we all want to maintain."

ENJOYING VACATION.

Premier Laurier Greatly Benefited by His Trip to California.

SAN FRANCISCO, Dec. 14.—Sir Wilfrid Laurier is staying at Hotel del Monte at Monterey, California and is finding the vacation he is enjoying most beneficial. He has however consistently refused to talk to American reporters on any subject.

MR EMERSON INHALIFAX

Since coming to the city the minister of Railways has been kept pretty busy receiving delegations of one kind and another. Some who have property to dispose of which they bonded in view of the erection of a new round house at Richmond; others it is said, who pled that the extra men taken on at Halifax before the election campaign had had a busy time of it yesterday. The minister received the delegations in his private car at North street. He is accompanied by his daughter and Harvey Atkinson, of Moncton.

Election Protests

MONTREAL, Dec. 14.—Seven protests have been filed against federal members for the province of Quebec. Excise of the two Montreal seats, the members whose election is contested are: Dr Desjardins, Terrebonne; Hon R. Lemieux, Nicolet; J. A. Rossseau, Champlain; Myrand Maskinonge, Lovell, Stanstead; Hunt, Compton; Dr Worthington, Sherbrooke.

NOTHING LOOSENS UP COLDS

On the chest and relieves that tight feeling and hard cough like Nerville's. E. P. Nerville, of Oxford, Ontario, never uses any other remedy but Nerville and find it serves as a general household liniment best of all. Children's colds and inflammatory pains are quickly cured by Nerville, and its action on colds, coughs and sore throat is unequalled by anything I ever used. Nerville is both powerful, pleasant and reliable. Every mother should use Nerville. Price 25c.

INSURING THEIR CHILDREN.

How London's Poor Hope to Profit by Their Loss.

"I believe 95 per cent. of the children here are insured," said the master of a school in one of the poorest East End districts in London.

"But how can the parents of those children afford insurance premiums?" he was asked—several ill-dressed, half-clad and bare-footed little ones being indicated.

Calling one of the children to him, the master asked, "Tommy, when does the 'insurance man' call?" "Every Saturday, sir," said the boy, "and mother pays him 1s. 6d. a week. Billy was ill a little while ago, and mother paid up 10s. 7d. as soon as the doctor went."

"There is great ignorance among these people as to the amount they will receive in case of illness," continued the schoolmaster. "Oh! we leave that to the insurance man," they say when asked about the amount.

"In every case that I have had to bring to the notice of the National Society for the Prevention of Cruelty to Children the children were insured. It is always passive cruelty with these to refuse to insure their children."

"Nearly all my 'hoppers' are insured. Hundreds of infants under six months are at present with their mothers in Kent. Several women with babies in their arms have called here with reference to their other children doing 'hopping'."

"In many cases the only protection these babies will get against wet weather will be a condemned army tent. But then, they are insured."

"Thrifty? Oh, dear no!" he continued, when asked to account for the popularity of child insurance among the very poorest. "The only thrifty these people know is the saving-up in the school penny bank for a 'bean'."

"This insurance is not thrifty. It is effected in the hope of getting a big return for a small outlay. This hope is often realized."

LADY PREACHER.

Novel Experiment in the Pulpit Carried Out at Leicester.

The first woman to become a fully qualified minister of an English church held her first services at Leicester on the 23rd September with a success which may lead other congregations to follow this interesting example.

Miss Gerud von Petzold, who has undertaken the duties of the ministry of the Unitarian Free Christian Church at Narborough road, Leicester, officiated at the morning and evening services as the appointed preacher. She had previously given three trial sermons, and the congregation were unanimous in inviting her to take the place of the Rev. W. Whitaker, who recently resigned.

Pale, but composed, the young lady faced the large congregations, and conducted the services in an earnest, impressive and graceful manner.

She possesses a pleasing and well modulated voice. The sermons were read, but the delivery was good. Learning with clasped hands on the desk on which her manuscript was placed, she kept her eyes mainly fixed on the congregation. She has a German accent, not strongly marked, and the quaint articulation of some of the words was rather attractive than otherwise.

Her language was simple enough to be understood even by the children. At the morning service she preached from the text: "But if thou shalt seek the Lord thy God thou shalt find him. If thou search after him with all thy heart and thy soul."

"Look at the world around you," she said. "Look at the men and women selling their souls for pleasure, for money, ever ready to take advantage of one another, to make the best of a worldly bargain, in their spare moments giving themselves up to their passions, degrading themselves body and soul."

The lessons of the Bible learned in childhood should, she urged, be carried into the lives of men and women. Her addresses were followed with close attention, and leading members of the congregation afterwards expressed approval of the manner in which the services had been conducted.

Miss Petzold was born twenty-eight years ago in West Prussia, and she said, "I was brought up in England about six years. She soon obtained a complete mastery of the language, and graduated M.A. at Edinburgh University in 1900."

Afterwards she underwent a three years' course of ministerial studies at the University of Edinburgh, which is connected with the Unitarian body.

THE ONE BETTER THAN ALL OTHERS

Some of the large city Weekly papers are mainly attempts to get the best of the Montreal weekly, the Family Herald and Weekly Star. The universal circulation of that great weekly more than double, we are told, that of all the city weeklies in Canada combined, enables the publishers to spend enormous sums every year to keep the Family Herald always in the lead. No money is spared to secure the best that can be got, and subscribers receive the benefit. The biggest value to-day in the newspaper market is the Family Herald, and the Weekly Star and their beautiful picture, "The Princess at Work," for one dollar.

LOCAL ELECTIONS

The executive of the Liberal party met at the Hotel de Ville and as a result a call has been issued for a Liberal convention at Berryman's Hall to-morrow Tuesday evening to select a candidate for the seat in the legislature made vacant by the retirement of Hon H. A. McKeown.

Liberal electors of the county of St John are called to meet this evening in Temperance Hall Fairville, to select a candidate for the county seat vacant through the appointment to the collectorship of customs of Hon A. S. Dunn.

The report on the streets to-day is that these two elections will be brought on together about the end of the month—in fact Friday December 30, is spoken of as the probable election day.

For some time past it has been pretty certain that Coun James Lowell would be the government candidate in the county. In fact, the only other names mentioned have been Mr. F. W. Barnhill and Col H. H. McLean. Both of these have announced that they are not in the field, so Coun Lowell, who will be a very strong candidate, is almost sure of an unanimous nomination. He will be opposed by Mr. M. E. Agar, who has been in the field for some time.

For the city seat the report is that Mr A O Skinner will be chosen, and that if nominated he will run. The opposition would not be yet selected a candidate for this seat, and it is not known who will be the choice.

An Emergency Medicine

For sprains, bruises, burns, scalds and similar injuries, there is nothing so good as Chamberlain's Pain Balm. It soothes the wound and not only gives instant relief from pain but causes the parts to heal in about one third the time required by the usual treatment. As it is an antiseptic all danger from blood poisoning is avoided. Sold by all druggists.

THE DOMINION FISH CO.

Mr. R. H. M. Gilker, manager of the Dominion Fish Co's branch at Loggieville, shipped the first car of smelts yesterday. This is the Company's first season in the fish business on the Miramichi. The rivalry between the buyers is great and the fishermen already feel the benefit of the competition. The price of smelts is kept up and the new company can take the credit of running the price of tomcods to the highest point ever reached on the Miramichi. At this date in former years tomcods could be bought for 25 cents to 40 cents per barrel, but today the fish fetch \$1.25 per barrel readily. The Company has already shipped several carloads of tomcods from Chatham and Newcastle. A freezer and packing shed, 100x30 ft., has just been completed at Loggieville, and the Company also has a freezer at Richibucto and Dalhousie.

Grip Quickly Knocked Out

"Some weeks ago during the severe winter weather both my wife and myself contracted severe colds which speedily developed into the worst kind of la grippe with all its miserable symptoms," says Mr J. S. Egleston of Maple Landing, Iowa. "Knees and joints aching, muscles sore, head stopped up, eyes and nose running, with alternate spells of chills and fever. We began using Chamberlain's Cough Remedy, aiding the same with a dose of Chamberlain's Stomach and Liver Tablets, and by its liberal use soon completely knocked out the grip."

It is a good plan to take a dose of the Tablets when you have a cold. They promote a healthy action of the bowels, liver and kidneys which is always beneficial when the system is congested by a cold or attack of the grip. For sale by all druggists.

For sale by all druggists.

DELAY STRIKE

C. P. Telegraphers Demand Ten Per Cent Increase And Refuse Arbitration

Montreal, Dec 8—There is no immediate prospect of a strike by the Canadian Pacific Railway telegraphers, who are demanding a ten per cent. increase and refuse to arbitrate. Negotiations between a committee, representing the men on the system and the company have been resumed and may extend until Christmas.

President Penham, of the International Order, who is here advising the C. P. R. committee, says the men are in a position to strike if such action is necessary to enforce demands.

Officials of the Canadian Pacific decline to make any statement concerning the demands.

KIDNEY DISEASE.

Diseases of the Kidneys are numerous, from the fact that these organs act as filters to the blood, and form one of the great channels for the removal of impurities from the system, which, if allowed to remain, give rise to the various kidney affections, such as Dropsy, Diabetes, and Bright's Disease.

The following are some of the symptoms of kidney disease:—Backache, sideache, swelling of the feet and ankles, frequent thirst, puffiness under the eyes, floating specks before the eyes, and all disorders of the urinary system, such as frequent, thick, cloudy, scanty, or highly colored urine.

Washing Proves

There's only one real test of

unshrinkable underwear—the

wash tub. Two or three hard

rubblings will soon shorten the

usual so-called "unshrinkable"

underwear. That's why the

directions for washing are so

elaborate—why there are so

many "ifs" and "don'ts."

Stanfield's

Unshrinkable

Underwear

is absolutely unshrinkable.

The wash tub proves it. Your

dealer guarantees this to you

—and we back up that guar-

antee to him. We know it

won't shrink because it can't

shrink. Our special process

takes out the shrink before the

garments are cut. Even then,

each one is tested by washing.

OUT IN THIRTEEN SECONDS

(The Rev H. T. Crane.)

Let us now leave the fire tower

and see where the men sleep, be-

cause firemen are not permitted to

sleep at home, but must remain in

the engine house all night, ready

for action. Going down one flight

of stairs, we find ourselves in a

large room, which contains enough

beds to give each man one. On

the wall yonder is a large gong to

arouse them. Here, in easy reach,

is a round, smooth, steel bar, which

passes through a trap door in the

floor, and is fastened in the floor

below, where the engine is. When

the alarm sounds the firemen spring

from their beds, slide down this

bar and are in their places in a

jiffy. The men wear their under-

wear in bed, beside them on the

floor are their heavy rubber boots,

and on the top of these, so arrang-

ed that they can easily be slipped

on, are their trousers. The heavy

hats, or helmets, together with

their warm coats and mitts, are

downstairs on the engine, hose and

hook and ladder wagons. The

bed-clothes are snatched from the

sleepers by a mechanical contriv-

ance; the gas is lighted by electric-

ity, and flashes out in the darkness.

The most interesting part to me

is downstairs. Let us slide down

the pole. Got a blister? Well,

never mind. That horse and buggy

belong to the chief, who always

goes first to the fire. Those six

horses, big, strong and knowing, are

well trained, and as soon as the

alarm rings they rush to their

places, and are quickly harnessed.

All the stalls face the front, and

have no door, the harness, except

the bridle, is hung from the ceiling,

over the place where the horses

stand to be hitched. It takes about

two seconds to hitch them up.

The horses always wear their brid-

les, and when the alarm sounds

the electricity unfurls the bridle strap

heavy weights throw back the

front doors, the men spring to their

seats and all are ready to go out.

If you will place your hand on the

engine, you will find that it is

warm; this is because they always

keep warm water in the boiler, and

as a rule they have sufficient steam

to run the engine long before they

arrive at the fire. Thus you see

that in every way the fireman are

helped to quickly respond when

the alarm comes in. The last time

I visited the engine house the cap-

tain was laid up with a bad sprain

which he had received at a fire. I

said to the acting captain, "How

long, when you are sound asleep,

does it take you to get out?" Well,

he said, "the operator in the fire

tower said that one summer even-

ing, when the windows were all

open and all was very quiet, from

the time he sounded the gong to

waken us until he heard us going

out on the granite street below, it

was just thirteen seconds." Thir-

teen seconds—where? said I, "that

nearly takes my breath away."

"Would you like to see the

horses come dashing out," said he,

"and be hitched up?" This is just

what I want to see, but was a

little timid about asking. "All

right," he said, "stand over there

out of the way." Then he rang a

bell, the men sprang to their posi-

tions. One of them was up

stairs washing his face and hands;

without waiting to dry himself,

and with his face covered with

soapsuds, he dropped down the

pole like a ball from a cannon and

leaped to his seat on the hose wag-

gon. The horses, eager for a run,
