PLEASURE-SEEKERS KILLED.

Two Terribly Fatal Accidents in Berlin.

Emperor William's Visit to His Grandmother at Osborne House.

Smallpox on Shipboard in Lisbon Harbor—Negotiations for Resumption of Work on the Panama Canal.

Smallpox.

LISBON, Aug. 5.—A dispatch from Gorenzo Marvuis says that two Portuguese mail steamers with smallpox aboard have been lying in the harbor several days, the British consul refusing to grant them bills of health.

Drove Nails Into His Head.

EASTBOURNE, Eng., Aug. 5.—Thomas Wickers, a tradesman established here, has just astonished the medical world. Some time ago he made a curious attempt at suicide by driving four long nails into his head with a hammer. They penetrated into his brain to the extent of three inches, and were withdrawn with great difficulty. To the amazement of the doctors Wickers has completely recovered and is able to attend to his business as usual.

Emperor William's Visit to the Queen.

LONDON, Aug. 5.—Emperor William, who is visiting his grandmother, Queen Victoria, at her residence, Osborne House, Isle of Wight, rose early this morning and enjoyed a ride on horseback to the village of Ryde.

Upon his return he took breakfast with the Queen in the garden attached to Osborne House. Later in the day, in company with the Prince of Wales, his Majesty drove to Cowes, where he embarked upon the Aline, the Prince of Wales' yacht, which is participating in the race for the Queen's Cup. The Grand Duke of Hesse will accompany Emperor William on his visit to the Czar.

Continental Crops.

LONDON, Aug. 5.—A fair average crop of wheat may be had if the late repentance of the weather holds, after the terrific drenchings of over six weeks, but any considerable wetting through the coming fortnight will ruin all those hopes still surviving. France also has had her rain too long and her shine too late, and home-grown wheat is as rare there as here. Quotations in the provincial markets mean next to nothing. Fancy prices are paid for the left-over grain of last year. The Leeds Corn Millers' Association has just advanced the cost of flour 18 pence per sack of 252 pounds, an increase of 3 shillings per sack in a fortnight. Potatoes, like fruit, are water-soaked. Acres of them in Kent will not be worth digging from the ground.

The Panama Canal.

PANAMA, Aug. 5.—Intelligence concerning canal matters has been received to the effect that the negotiations with the Columbian Government are going on smoothly. Meantime Wyse's engineers are pushing on their preparations here for an early resumption of work. Their careful examination of the condition of the plant has resulted very satisfactorily, everything being in as good if not better preservation and order than could have been reasonably expected. The greatest trouble and delay in recommencing work will, therefore, not be due to the condition of the plant, but of the works, which are covered over completely by nature's green mantle.

Two Terrible Accidents.

BERLIN, Aug. 5.—At Grunewald yesterday eighteen Berlin pleasure-seekers who were driving in a large wagonette were thrown down an embankment into the Haveland. Five of them were instantly killed. The horses shied at a red parasol carried by a lady who was walking in the road, and before anything could be done to prevent a disaster the horses backed the carriage over the embankment and fell with it on top of the occupants. In addition to the people killed there are seveal others seriously injured. Miss Tiegler, a young lady of excellent family, was taken from the debris in a dying condition. She was to have been married to-day to Herr Wilberforce, who is among the killed. She cannot recover.

An upright carousel in the New World Park loaded with people fell yesterday with a terrible crash. Two young women were killed, another had both eyes torn out and six children were mortally hurt. One woman who was riding with her two young children was picked up in a dying condition. She had both children clasped in her arms; one was dead with a broken neck and the other was unhurt.

Buenos Ayres—Not Anxious for Office.

LONDON, Aug. 5.—The Times' dispatch from Buenos Ayres says: "Vice-President Pellegrini threatens to resign. Celman has offered every post in the Cabinet to Opposition leaders, but each has declined the offer. The officers of regiments recently opposed to each other now fraternize and declare that henceforth the troops will be united. The naval officers have resumed their commands. Policemen and firemen defend Celman's house against a surprise by the army. Celman offered the city practical autonomy, which was sullenly refused."

BUENOS AYRES, Aug. 5 —Notwithstanding the fact that the insurrection here has terminated, great excitement prevails throughout the city and the disquiet continues to increase. It is rumored a new issue of $50,000,000 in paper currency will be made. A bill has been introduced in the Chamber of Deputies providing for a forced currency. The National Bank has resumed payment. The Bourse is still closed and the panicky feeling in commercial circles continues. The press is forbidden by the Government to comment on the crisis. The premium on gold is 209 per cent. The rates for exchange is falling.

A Border Battle.

SAN ANTONIO, Tex., Aug. 5.—An attack was made upon the town of Shafter, Presidio county, yesterday morning by 25 Mexicans. State Ranger J. F. Graves was killed and Deputy Sheriff I. Lee seriously wounded while endeavoring to arrest the Mexicans. A posse of rangers and deputy sheriffs left Marfa to capture the Mexicans. It is reported Shafter was sacked and burned.

Guatemala and Salvador.

CITY OF MEXICO, Aug. 5.—A Guatemala dispatch says President Barillas declares he will not resign and prefers death to surrender. Dispatches received by the Mexican Government confirm previous reports of the probability of an intervention in behalf of peace of the foreign diplomats in Central America. President Ezeta's only terms are the recognition of his Government and the non-interference of other powers in the interior government of Salvador.

TORONTO LETTER.

TORONTO, Tuesday, Aug. 5.

Rev. Dr. Potts is spending his holidays at Parry Sound.

The aldermen kicked about paying Police Magistrate Denison's salary during the time he was on a long vacation in Britain. The Colonel says the threat to "dock" his pay will not succeed. He will have the whole amount or nothing at all.

Miss Lizzie Sturrock, teacher in Wellesley street school, went over to Niagara-on-the-Lake to spend the summer months, and she has just died there of typhoid fever.

The ferry steamer Canadian ran into and capsized a sail boat on the bay last evening. The four occupants—E. Meyers, Holmes, Curran and Doran—were rescued from the water after an exciting scene.

The inquest as to the cause of the sudden death of Thomas Butler in Dr. Wallwin's office on Sunday night was opened last evening. The Doctor testified that he had been treating the deceased for a veneral disease. When Butler came to his office he was very weak, and despite the efforts of Dr. Primrose and himself he died in half an hour. The inquest was adjourned to allow of the stomach being analyzed, as it is supposed Butler had been taking some narcotic.

A serious row occurred between two party bands and their retinues last night. The Liberty Band (Roman Catholic) was out practicing for O'Connell's birthday, and they encountered Pioneer Corps (Protestant), who were also on a walk. A fight ensued, the Liberty drum being broken in and several blows being struck. "Jumbo" Campbell, who has made himself obnoxious to Catholics, had a plate-glass window smashed. Two arrests were made.

The civic authorities have been endeavoring for some time to secure the abolition of the duty on asphalt, now beginning to be generally used in the city for paving purposes. It was pointed out that there is no asphalt lake in Canada nor any native industry that would languish away and die a puny baby if asphalt were allowed in free. The Minister of Customs has succeeded in proving, with the aid of an analyst—the fact was not visible to the naked eye—that the asphalt is not altogether crude, so that Toronto will be charged duty even on her streets.

THE WORLD OF WORK.

Railway Men Want Shorter Hours—Steamboat Firemen Kick—Growth of the Carpenters' Brotherhood.

Employes of the Intercolonial Railway are agitating in favor of a nine-hour system on that road.

The bricklayers employed on the N. P. Hotel, Winnipeg, left work Monday morning on the contractors refusing to pay the rate per hour received by other bricklayers in the city. The local union did not sanction the strike.

The firemen on the Richelieu and Ontario Navigation Company's steamer Corsican struck work Monday morning upon their demand of an increase of from $25 to $30 a month being refused. Under threat of arrest they returned to work before the firemen of the other ships followed them.

At the bienniel convention at Chicago, Monday, of the United Brotherhood of Carpenters and Joiners, the secretary reported that from 2,000 members in 1881 the United Brotherhood had grown to 70,000. A day's work is now nine hours, while in 260 cities work for the day is over at 4 o'clock. It is estimated the total increase in wages in the country has been $5,000,000 a year, or from 25 to 75 cents a day for each man. The strikes for the past year number 144, and in only eight cases were unsuccessful. About $500,000 was spent in sick and death benefits.

Murder and Suicide.

MINDEN, N. H., Aug. 5.—Hans Hanson quarreled with his wife yesterday and killed her. He then blew his own brains out.

Mine Disaster.

TACOMA, Wash., Aug. 5.—An explosion of gas occurred yesterday in a mine at Carbona killing Henry J. Jones and T. B. Morgan. Thos. Williams was badly injured.

Kemmler's Case.

AUBURN, N. Y., Aug. 5.—Yesterday afternoon the Associated Press representative asked Warden Dunston if it would be safe for a correspondent to absent himself from the vicinity of the prison two or three hours. "Why, certainly," was the response, "and will say to you frankly that there will be nothing of importance within the next 24 hours." This was said at 4 o'clock in the afternoon.

The invitations or notices to be present at the execution of William Kemmler have been received by the Buffalo gentlemen who by law or courtesy are to be present. They are notified to report to Warden Dunston at the Auburn State Prison on Tuesday, Aug. 5, at 7 p.m.

Two Fatal Falls.

MONTREAL, Aug. 5.—A horrible accident occurred yesterday morning at Notre Dame Church. Joseph Lagace was employed by the Sulpice of the seminary for ten years to assist in keeping their magnificent edifice in repair. He was working on the southern tower, and losing his footing fell to the pavement below, a distance of 150 feet. He was broken to pieces. He was only 27 years old, and left a widow with four children.

OTTAWA, Aug. 5.—Henry Rollin, of Churc street, fell 60 feet over Major Hill's Park cliff and was dashed to death on the jagged rock below yesterday afternoon at 2·30. The victim was a lad of 16 years. He foolishly ventured outside the fence enclosing Major Hill's Park, and attempted to walk along the edge of the precipice.

Free park, all places of interest free, special rates in hotel and Wagner palace car, are among the inducements offered to our citizens to go to Niagara Falls on Civic Holiday. Best of all. The cheap fare of $2 for the round trip will enable many to have a day's outing to the world's greatest wonder. b

History of Fifteen Years.

For fifteen years we have used Dr. Fowler's Extract of Wild Strawberry as a family medicine for summer complaints and diarrhœa, and we never had anything to equal it. We highly recommend it.

LAST MOMENT DISPATCHES.

The manufacturers of Galt and Preston will send exhibits to the Jamaica exhibition to be held in January next.

The drygoods store of F. X. Bedard, Ottawa, was completely gutted Monday night. Loss, $23,000; insurance, $15,000.

Returns from all over Alabama indicate a large Democratic victory. In Jefferson county very few negroes came to the polls.

The authorities of the town of Wick, Scotland, presented Andrew Carnegie today (Tuesday) with the freedom of the town.

Samuel Goyeau, of Sandwich East, drove into the sewer now in course of construction on Ouellette avenue, sustaining serious injuries.

A young lad named Juscksch, about 13 years of age, was drowned in the Saugeen at Hanover, Ont., Monday afternoon while bathing.

W. Smith, a lad aged 10 years, took cramps while bathing in the Red River at Winnipeg on Monday afternoon and was drowned.

A young man named George Robinson while dancing at a picnic at Fraser's Grove, Winnipeg, Monday evening, dropped dead. His father was formerly bailiff there.

At Winnipeg, a young woman named Jennie Smith, who was disappointed in a love affair, took a large dose of laudanum Monday night and will probably die.

Four of the crew of the Government dredge Advance, which was sunk in New York harbor Sunday by the steamer Norje, are missing. Two of them are known to be drowned.

Chemicals exploded in the office of the Denver, Fitzburg and Chemical Supply House at Denver, Col., on Monday. The entire front of the building was blown out. J. O. Bostworth, president of the company, was instantly killed and several passers-by badly burned.

On Aug. 15 rival Irish demonstrations will be held at Chicago, one under the auspices of the Clan-na-Gael and the other conducted by the friends of Dr. Cronin. The anti-trianglers have adopted an address which scores the friends of Cronin's murderers. Just what the anti-trianglers intend to do with the proceeds of their demonstration is not given out.

FORBES' FRAUDS.

Systematic Misappropriations Made by a Late Canal Superintendent.

CARILLON, Aug. 5.—For some days past Mr. A. F. Wood, M.P.P., acting as commissioner for the Dominion Government, has been investigating the various forgeries and falsifications attributed to the late W. B. Forbes, in his lifetime superintendent of the Grenville and Carillon Canals. Mr. Forbes died in May, 1889, and on the pay-day following the superintendent's sudden death by apoplexy certain laborers who had worked on the canal a few days during the previous month found themselves credited with full time, or much more than they put in, and received payment therefor. Those officials of the canal who then went round for the first time with the paymaster also discovered upon the pay sheets names of men who had been long dead. Forbes had been in the habit of paying the men for the time they had actually worked and put the balance into his pocket.

There is every reason to believe that this sort of falsification has been going on for years. Forbes is believed to have converted to his own uses something like $5,000 a year above his salary. Of course such plundering as this could not have been done for even one month had the paymaster, Mr. Dowker, done his duty. For this official, who resigned instantly on the exposure of his negligence, only one excuse can be made. He must be supposed to have entertained in an extreme degree the general confidence in the late superintendent's rectitude. Hence he readily accepted the "powers" by which Forbes was accustomed to draw the pay for absent men and sign on their behalf, and he as readily left the pay sheets and the money with Forbes on many occasions when the latter engaged to do for the paymaster the work which the paymaster should have done for himself. At the same time it is an amazing thing that Mr. Stark, C.E., the superintendent of Ottawa canals, who was the superior officer of Forbes' paysheets, should not have discovered the frauds. The annual outlay on the canal was generally a good deal less than $20,000 a year, and it seems wonderful that a superintendent could cabbage $5,000 a year from this without his immediate superior knowing anything about it. All the blameable persons, the dishonest superintendent, the negligent paymaster, and the superintending engineer, were appointed by the party now in power.

Welcome Rain in Kansas.

KANSAS CITY, Mo., Aug. 5.—The most general rains that have fallen in six weeks visited all parts of Kansas Sunday night and Monday morning. There were few if any sections which did not get some rain. The hot weather last week did further damage to corn, however, in the greater part of the State the rains were too late to do any good.

Fired at a Group of Boys.

CHICAGO, Aug. 5.—In a moment of ungovernable rage Henry Heying, a hardware clerk 19 years old, shot and almost instantly killed Fred Heck, the 10-year-old son of a widow. Heying, with a number of friends, was target shooting and was being guyed by a crowd of youngsters. While in the act of raising his rifle, Heying was struck by a stick thrown by the boys. He instantly turned the weapon at the group and fired, striking the Heck boy near the heart. He gave himself up to the police.

PHYSICAL PHENOMENA.

A Woman Killed by Lightning from a Clear Sky.

Remarkable Storm in Dakota—Eight-Inch Hailstones—Torrid Heat Throughout the Country.

COLUMBUS, Ohio, Aug. 5.—A remarkable thing happened here at 11 o'clock Sunday morning. The sun was shining and the heat was terrible. All at once, from a clear sky, a flash of lightning was seen and a loud clap of thunder heard, though not a drop of rain fell. Mrs. Margaret Bruelling was sitting in the shade of the house and writing a letter, the ink and paper being on a box. The neighbors say that just as the thunder was heard Mrs. Brunling fell to the ground as if shot, and they ran and picked her up. Not a mark was found on the woman, but she is now lying at the point of death. Her son, 14 years old, was near his mother when she fell, and was shocked himself. He says something like a ball appeared to descend from the sky and strike his mother.

EIGHT-INCH HAILSTONES.

SIOUX FALLS, S. D., Aug. 5.—One of the most terrific storms that ever visited this section took place Sunday morning. Citizens who had not yet arisen were rudely awakened from their sleep by the roar of the approaching storm. It is estimated that the wind blew at least 60 miles an hour directly from the northwest. Following the wind came hail-stones of enormous size. For hours after the storm a sample was on exhibition which measured eight inches in circumference and weighed 1½ pounds. In ten minutes after the beginning of the storm there was not a whole gas lamp in the city. Windows by the thousands were smashed. A cow was killed, trees were stripped, and Banker Avey's son was knocked insensible by a hail-stone. The Illinois Central Chicago train was just pulling in the depot when the storm struck the city. Inside of a minute there was not a window left on the side facing west. The Central roundhouse and freight depot present an appearance of having been gutted by fire.

CATHEDRAL WINDOWS DEMOLISHED.

The handsome cathedral, built this year by Mrs. John Jacob Astor, of New York, is a sorry looking picture. The handsome arched windows, filled with imported French cathedral glass, are ruined and lie in a heap alongside the handsone structure. In the front part of the building was a large wheel fifteen feet in diameter, with the French cathedral glass for spokes. The nail punched it with holes like a sieve. The loss caused by the destruction of this wheel of glass will foot up in the hundreds.

It will take a carload of glass to furnish the penitentiary with windows. Thousands of panes were broken in the building, and there is no means of estimating the damage done to glass alone in this city. One dealer thought it would foot up to $10,000.

To the east the storm spread ten miles wide, and ran to Worthington, Minn. At Rowens several buildings were tipped over and destroyed by the force of the wind. The crops in some places suffered, but Sioux Falls seems to have been the center of the hail belt.

CROPS CUT DOWN.

HARRISBURG, Va., Aug. 5.—A tremendous storm of hail and rain passed over the southern end of this county. Corn was cut down by the hail, trees uprooted by the wind, roads badly torn up, and many small bridges washed away. The damage is large.

IN CANADA.

PETERBORO, Ont., Aug. 5.—There was a terrible electrical storm in this vicinity on Sunday, with gales that twisted off the shade trees in town and leveled fences. The rain came down in torrents and the lightning found its billet in several trees and houses. A house in the south end of the town was struck and its occupants stunned. In North Smith the barns of Mr. John Stewart were struck by lightning. It fired two barns, one entirely new, and stables with their contents, hay and barley, were destroyed. Loss about $1,000. The storm was severely felt at Stony Lake summer resorts. Tents were blown down and lightning struck several islands, in one place riving the solid granite. Mr. W. A. Sanderson, jeweler, and wife were in their cottage when the lightning struck the corner, shivering the timbers and stunning the occupants. Crops were badly beaten down in some places and fruit trees suffered considerably.

A most violent thunder storm passed over Three Rivers, Que., on Sunday. The wind rose to a gale, leveling fences and trees in all directions. The lightning was very vivid and did much damage, striking many places and setting fire to several houses. Two large barns in the rear of the Ursuline Convent were set on fire by the lightning and burned to the ground. Reports from the surrounding country report similar damage to barns and trees.

INTENSE HEAT.

At Wapakoneta, Ohio, on Sunday the thermometer marked 106° in the shade. During the night it was 83°.

At Detroit on Sunday it was 100°.

The heat was intense at Quebec on Sunday, from 85° to 92° degrees being registered in the shade.

Monday was the hottest of the season in Montreal, the mercury straining up to the 90th line. There were several cases of prostration amongst laborers on the wharf, and two horses were overcome by the heat.

KILLED BY LIGHTNING.

BURLINGTON, N. Y., Aug. 5.—At West Creek yesterday Nelson Shinn, of the firm of Shinn Bros., fish and oyster dealers, and one of his employes, Benj. Kelly, were killed by lightning.

STORM IN IOWA.

MASON CITY, Iowa, Aug. 5.—A destructive wind and hail storm swept over Lyons, Osceola, Dickinson, Emmett and Winnebaga counties Sunday, destroying nearly everything in its pathway. Many horses and cattle were killed, and men who were out were badly cut by hail, and several are reported as seriously injured.

Ontario Business Assignments.

An assignment has been made by J. S. Rogerson, drygoods dealer, Guelph. Assets and liabilities are about $12,000. Mr. J. T. Sutton, furniture dealer, Niagara; liabilities and assets are about $3,500.

Fierce Fight Between Italians.

PATERSON, N. J. Aug. 5.—Several years ago an Italian girl came here and went to work in the Bound Brook mills, N. J. She was engaged to a lover in Italy, but in a short time married one of the Bound Brook Italians. On Sunday a brother of the jilted lover visited the "gravel pit," and met the woman, who carried a child in her arms. He struck her over the head with a bottle. The husband interfered, and in a moment a general fight ensued, axes and knives and all kind of weapons being used. In a few minutes the ground was covered with bleeding and groaning victims. During the night two of the wounded died in great agony. Others are in a dying condition.

THEY GO DIRECT.

Modus Operandi of London's New Direct Mail to Europe.

The Necessary Changes in the Work—How the Matter Is Assorted, Dispatched and Distributed.

Thanks to the efforts of the Board of Trade the people of London have now acquired direct mail connections with Great Britain. Instead of being overhauled and delayed at Hamilton and other intermediate points, the letters posted from this office are assorted, deposited in their respective bags and are not handled in transportation until they arrive at Great Britain. The advantages of these increased postal facilities are too apparent to need comment. The first consignment under the new regulations was dispatched last Wednesday. Owing to the innovation of the direct system, slight alterations and additions have been made in the post-office to expedite the assortment and other business connected with the change. A new distributing table has been erected with its compartments labeled with the names of the offices to which the letters for Great Britain are consigned. A similar one is in use for the papers. All letters for England are directed to London, with the exception of those for Liverpool. When the letters are addressed to the city of London the words "London (city)" are attached to the label, and when for other points in England are labeled "London (forward.)" These must be put up in separate packages. All letters for Scotland go to Glasgow for distribution, and similarly those for Ireland are sent to Dublin, with the exception of those for Londonderry. The mails for the continent are consigned to London, and there distributed. On Wednesday the bags are sent to Rimouski, and there taken by the Allan Line, while the heavier mail on Monday goes to New York to be transferred to the steamer as the authorities see fit. All the foreign matter leaving this office for New York is placed in one bag, to be there opened and the different bags handed to the steamship. The weight of the letters and also of the papers contained is entered on a sheet and attached to each bag by a wax seal for the information of the steamship companies. Mails for the least important offices are closed first, then weighed, wrapped up, and after attaching the necessary labels, are thrown into the bag ready for shipment. When a letter or paper is suspected to lack the necessary amount of postage it is carefully weighed, and if found wanting the rate is maked on it, also the number of centimes required to make up the correct postage. According to the agreement of the International Postage Congress held in Berne, Switzerland, it was decided to make all money matters in connection with the convention in francs and centimes, as they are more convenient than the fractional currency of any other nation. Thus, when a letter or paper is 1 cent short, its equivalent of 5 centimes is jotted down on it, and when it reaches London (all unpaid or insufficiently paid matter is sent to London in a special package Wednesday evening) the authorities there double the amount and charge the receiver 1 penny. Registered letters are deposited in a separate red bag, sealed with wax, labeled and put in the ordinary bag. All letters and papers going via New York are weighed, and a separate account of that weight is kept for each office to which mail is sent from this city, while registered matter is weighed separately again. On Wednesday evening the parcel post leaves for Liverpool in a bag or basket, and is dealt with separately. Owing to the new arrangement parcels do not have to go as letters, but may be sent now at 25 cents per lb. When the mail arrives at Queenstown it is met by a staff of about 21 clerks, who assort it before it reaches Dublin postoffice, and to such perfection have the facilities been brought that it is almost ready for the carriers when it passes out of the hands of these clerks. They are provided with requisite stationery and other forms for corrections, mistakes, etc. Mr. F. Hawkens, deputy postmaster of Ottawa, is at present in the city conducting arrangements and initiating the staff. The foreign mail department will in future be directed by Assistant Postmaster J. D. Sharman.

Paper Fire-Engine.

The Berlin Fire Department has lately received a novel fire-engine, which has excited much interest in that city.

The carriage is constructed entirely of papier mache, all the different parts, the body, wheels, poles and the rest being finished in the best possible manner.

While the durability and powers of resistance possessed by this material are fully as great as those of wood, the weight is of course much less.

This lightness is considered a great advantage, as it will enable the new engines to reach the scene of a fire with correspondingly greater promptness. It seems not unlikely that the wooden carriages will, in a short time, pass out of use altogether.

Caution!—In our changeable climate, coughs, colds and diseases of the throat, lungs and chest will always prevail. Cruel consumption will claim its victims. These diseases, if attended to in time, can be arrested and cured. The remedy is DR. WISTAR'S BALSAM OF WILD CHERRY.

Boggs—Do angels have one wing or two? Trotter—Well, that's merely a matter of a pinion.

LONDON'S NEW BISHOP.

Rev. Dennis O'Connor Appointed Successor to Archbishop Walsh.

A cable dispatch to the New York Catholic News from its Rome correspondent says that Rev. Dennis O'Connor, of Sandwich, Ont., Canadian superior of the Basilican Fathers and superior of Assumption College, of Sandwich, has been appointed bishop of the diocese of London, Ont., to succeed the most Reverend John Walsh, who was appointed bishop of Toronto last year.

Father O'Connor, D.D., is a Canadian by birth, 50 years of age. He early determined to devote his life to the Catholic faith, and entered St. Michael's College at Toronto, Ont., with the intention of fitting himself for the ministry. He graduated with high honors at the Toronto Coollege, studied for two years in France, and after visiting all places in Europe important for their connection with religious history, took orders in the church.

Returning to America, Father O'Connor was made a professor of St. Michael's College, his alma mater, but soon resigned to accept the position of superior of the Assumption College at Sandwich. When he entered upon the duties of his new office the college was barely in existence. It was located in some deserted army barracks below Sandwich, but under the guiding hand and untiring energy of Father O'Connor it steadily advanced in efficiency and prosperity until it has reached the position that it now holds among Canadian educational institutions.

The success of every project that Father O'Connor has undertaken has been due to his great ability as an organizer and the broad and liberal view that he has taken of everyday affairs. Father O'Connor has continued at the head of Assumption College during a period of 22 years, up to the time of his present appointment, and his masterly efforts will soon be felt in the new position that his profound learning and liberal ideas has won for him.

Wilson's Fly Poison Pads.

One of these pads will kill more flys every day for a month than can be caught upon a large sheet of sticky paper. A 10c. packet of Wilson's Fly Poison Pads will last a whole season. Sold by all druggists.

Old Maid (proudly)—I belong to the cream of society. Rude Boy—No wonder the cats are so fond of you, auntie.

It is not until she has married a man that a woman begins to hear how many other women there are in the world who wanted to get him.

Buz-z-z-z-zip.

There he is again, first on my nose, then in my ear, and I dare not open my mouth for fear he should fly down my throat. Hello, John, just run over to the drug store and buy a packet of Wilson's Fly Poison Pads, I can't stand this any longer. Price 10c. Sold by all druggists.

A girl whose face is her fortune stands just as poor a chance as the rest of the world at a bank counter.

"Scott! it costs money to live." "Why don't you die, then?" "Doctors and undertakers are too blamed expensive."

There is more fun in a sheet of sticky fly paper than in the average negro minstrel. Watch the kitten playing with it on the new carpet; the latter is ruined for ever; the kitten goes into a fit and all the women and children rush out of the house in terror. If you want to rid your house of flies, buy Wilson's Fly Poison Pads, and use as directed. Nothing else will clear them out thoroughly. Sold at 10c. by all druggists.

A late number of the London Times contained the following advertisement: "Required to borrow, the sum of £50 for an indefinite period. No security can be offered. Any lady or gentleman granting this favor will greatly oblige, and at the same time greatly surprise the advertiser. Address Marcus."

Mr. Job Scales, of Toronto, writes: A short time ago I was suffering from Kidney Complaint and Dyspepsia, sour stomach and lame back; in fact, I was completely prostrated and suffering intense pain. While in this state a friend recommended me to try a bottle of Northrop & Lyman's Vegetable Discovery. I used one bottle, and the permanent manner in which it has cured and made a new man of me is such that I cannot withhold from the proprietors this expression of my gratitude.

That distention of the stomach which many people feel after eating may be due to improper mastication of the food; but, in most cases, it indicates a weakness of the digestive organs, the best remedy for which is one of Ayer's Pills, to be taken after dinner.

Pure Lime-Fruit Juice

What is Lime Juice?

The question is rendered necessary by the prominent attention Lime Juice is attracting as the **Best Temperance Beverage.** The answer is that it SHOULD be the juice of the Lime Fruit without admixture.

By the "MONTSERRAT" Company alone is the Lime Fruit cultivated for this purpose, and great care should be taken to obtain this brand (as supplied to the British Government) in lieu of the numerous concoctions sold under the name of Lime Juice Cordials, Prepared Lime Juice, etc. Sold by all Druggists, Grocers and at the leading hotels.

"ASSISTANCE"

Is all nature needs in nine cases out of ten to remedy sickness. The old idea of bleeding, blistering, purging, etc., has been superseded by that of assisting nature, that is, seeing to diet and sanitary surroundings and giving medicine to act gently but just as certainly as the old style. In all cases of Stomach Troubles, Indigestion, Dyspepsia, etc.,

MALTOPEPSYN

[an artificial gastric juice—formula on every bottle] aids the weakened stomach by putting into it what it lacks, namely, *gastric juice*, which assists the digestion of the food, relieves the pain or heavy feeling, and cures the constipation usually accompanying stomach troubles. As you value your future health *avoid* Bitters, Blood Purifiers and Purgatives, which only irritate and weaken the stomach, aggravating the Dyspepsia. The disease is in the *Stomach*, so aid the *Stomach*. Endorsed by physicians. Send 2 cts. in stamps for valuable book to HAZEN MORSE, INTERNATIONAL BRIDGE, ONTARIO.

On Sunday Mrs. Thomas L. Wood, of Brantford, was sitting at the window with her baby boy of 8 months upon the window sill, when the little one suddenly sprang back against the shutters, which gave way, allowing him to fall to the sidewalk, and striking upon his head the skull was fractured and instant death resulted. The sorrowing mother thought the shutters were securely fastened.

The family of Dr. Orton, Guelph, are having their share of trouble just now. On Monday a 9-year-old daughter fell from a tree and had her ankle broken. On Saturday the eldest son, Richard H., who is home from taking a course at the Medical College, Toronto, fell 20 feet from the rung of a ladder on his uncle's farm, Councilor James Howitt, Guelph township, and had both arms broken above the wrists.

A few days ago Robt. Armstrong, of the 14th con., Gorrie, had occasion to go into Mr. Cather's field in which a bull was pasturing and was attacked by the animal. When found about 7 o'clock in the evening he was lying on his back in a corner of the fence unconscious with the side of his skull broken in and other bruises about his head and body. Medical aid was at once summoned, but before the doctor arrived he died.

The funeral of the late Robert Vance took place at Ingersoll on Friday with full Masonic honors by the members of King Hiram Lodge, of which the deceased was a past master. The band of the "D" School of Infantry, London, headed the procession, which was nearly a mile long. Mr. Vance was born at Wigton, Scotland, in 1835, and came to Canada when 18 years of age. In 1860 he started a confectionery business in Ingersoll, which he conducted uutil his retirement, about a year ago. He leaves a widow and six children to mourn his loss.

The other day while digging for a drain near Parke, Davis & Co.'s new laboratory, Windsor, Charles Coste, when only about eighteen inches deep, came across the skeleton of what must have been an immense Indian. The remains were in a sound state, the teeth being exceptionally firm and white. Close by was found his stone-headed pipe, which had apparently been much used, as the inside of the bowl was charred as if burt by tobacco. It is conjectured that the Indian must have been buried there upwards of a century ago.

At noon on Monday Timothy Ryan, the 12-year-old son of Patrick Ryan, laborer, St. Thomas, was gored by a heifer, and received probably fatal injuries. He was chased by the animal and gored, the horns piercing the abdomen, tearing a frightful gash. Before attacking young Ryan the heifer made a rush at Charles Smith, son of J. B. Smith. Mr. Smith saved himself by catching the infuriated brute by the horns and holding on, but he was thrown over a fence and had his back hurt very badly. A doctor was summoned to attend young Ryan, but at last accounts there was very little hope entertained of the boy's recovery.

James Sackrider, who is supposed to be insane, left his daughter's place at Currie's Crossing, on the 1st of June, and has not been heard of since. His relatives have done everything in their power to learn his whereabouts, but without success. Mr. Sackrider is worth about $5,000, and has only one child, Mrs. E. Tucker, of Currie's Crossing. Mr. John Sackrider, of Burgessville, is a brother of the missing man. The following is a pretty accurate description of the man: He wore a light suit of clothes, cap, and a full beard, tinged with gray. He has a scar on his nose and another on his forehead; is 5 feet 8 or 9 inches in height, and his left hand is partially paralyzed.

NILESTOWN.

A. Barnard, while fishing in the Foster pond Saturday toward night, was treated to a free boat ride by a large member of the finny tribe back and forth over the waters. He got the fish near the boat once, but it eluded capture by getting free from the hook, when it sped away—it may be to tantalize some other fisherman that may try those waters.

An intoxicated man came here from London the other day, and going up to a gentleman on the street, much to his annoyance and disgust, began to rapturously hug him about the neck.

Mr. Irwin Piggott, another Ingersollite, spent the Sabbath here.

STRATHROY.

J. T. Vokes, of Strathroy, last week while walking along the 2 R. S. of Ekfrid, was bitten by a dog who came up slowly behind him and seized his left leg, sending his teeth through the skin. But little notice was taken of the bite until he returned home, when he found strange pains shooting up his left side. He immediately called for advice on Dr.. McCabe, who dressed the wound. It is hoped no serious results will follow. He thinks the dog should be destroyed along with many other useless curs that run at large through town and country, to the annoyance and danger of travelers.

On Saturday, while A. Meekison's delivery wagon was about to start out on its rounds, the driver by some means cranked or locked the wheels, which had the effect of sending the hind wheels up in the air and scattering the groceries, brooms, etc., all over the street. The horse run away and smashed the wagon, and to make matters worse a dog belonging to a hotel man ran after the horse and caught his hind legs with his teeth. The principal regret is that the horse did not kick the dog and finish him, as the town is overrun with them and the Town Council refuse to put the bylaw in force so as to have dogs muzzled.

The semi-weekly open air meeting, held under the auspices of the Templars of Temperance Lodge, on account of the inclemency of the weather was held in the Front Street Church. Rev. Dayfoot delivered an able address to a fair audience. He held that as we had prohibition for two days in the week, and at other time, he could see no reason why we could not obtain it altogether; he believed in holding on to the license laws, as it was much better to regulate the traffic than to have free whisky. He also referred to the local option law just passed, whereby we can prohibit the sale in our town as well as in villages and townships. His watchword was to fight the monster until the time arrived for total prohibition, and paid a very high tribute to the teaching of temperance in the public schools.

Some time ago the Templars of Temperance organized a lodge of that order here. The temperance sentiment has grown so lately that their numbers have increased so as to compel them to vacate their present lodge room, the Orange Hall. They have therefore rented and fitted up a hall over Mr. Scott's store, 50x25, and intend opening it on Wednesday, Aug. 13. The lodge now numbers nearly 150 members.

The ADVERTISER has a large circulation here. On Saturday one of the newsboys sold 50 copies alone, so that if all the others did in proportion over 150 copies must have been sold. It is an admitted fact that the ADVERTISER is a very newsy and spicy paper, and has the right moral tone about it.

BEE-KEEPING AND FOUL BROOD.

Bee keeping is attaining great magnitude in this Province. The Ontario Bee-Keepers' Association was organized in 1880 and has a membership of over 300. Of course large numbers not members are engaged in the business of producing honey. The officers for 1890 are: President, Allen Pringle, Selby; vice-president, F. A. Gemmell, Stratford. Directors—District No. 1, W. J. Brown, Chard; No. 2, J. K. Darling, Almonte; No. 3, M. B. Holmes, Athens; No. 4, C. W. Post, Murray; No. 5, S. Corneil, Lindsay; No. 6, W. Couse, Streetsville; No. 7, A. Picket, Nassagaweya; No. 8, F. A. Rose, Balmoral; No. 9, Martin Emigh, Holbrook; No. 10, R. McKnight, Owen Sound; No. 11, J. B. Aches, Poplar Hill; No. 12, Peter Bussey, Cottam; No. 13, F. H. Macpherson, Beeton; secretary, W. Couse, Streetsville; treasurer, R. McKnight, Owen Sound. Auditors — D. Anguish, Brantford; R. F. Holterman, Romney.

Secretary Blue, of the Ontario Bureau of Industries, has just sent out a bulletin prepared by a committee of the Bee-Keepers' Association, entitled "Foul Brood Among Bees: Its Causes, Management and Cure." The bulletin covers 30 pages and embraces an introductory article by Allen Pringle, exhaustive papers on "Foul Brood" by D. A. Jones and Wm. McEvoy, and a copy of the new Ontario Act for suppressing this terrible apiary disease. In his introduction, Mr. Pringle says:

At the annual meeting of the Ontario Bee-Keepers' Association in January of this year (1890) the question of foul brood among bees was discussed, and as the disease was known to be spreading in Western Ontario it was decided to seek legislation from the Ontario Government to aid in its suppression. In a paper which the writer read to the meeting on "The Sunshine and Shadow of Apiculture" the following passage occurred:

"To avoid the origination of foul brood or less formidable diseases in your own yard attend to sanitation. Keep yard and hives clean, and never uncap or behead drones in a weak colony where they are liable to rot instead of being carried out."

Mr. F. A. Gemmill, of Stratford, having suffered much from foul brood through the negligence, or what is worse, the perversity, of a few neighboring bee-keepers, seized this opportunity at the conclusion of the paper to bring the subject before the meeting, and urged that steps be taken by the association to secure an act from the Ontario Legislature. To this end a deputation consisting of the president and the vice-president of the society was appointed by the meeting to draft a bill covering the desired legislation and await upon the Minister of Agriculture—the Hon. Charles Drury—to urge its passage through the Legislature, then about to meet. The result of this was the "Act for the Suppression of Foul Brood Among Bees," which is printed in full in this pamphlet, and which every bee-keeper in Ontario ought to read carefully, so that, knowing the law, he may obey it for his own benefit as well as that of others. On behalf of the Ontario Bee-Keepers' Association, and, indeed, of all Canadian bee-keepers, I beg here to record our thanks to the Minister of Agriculture, and our appreciation of the kind and valuable service rendered us by him in obtaining the passage of this act, which is perhaps the best of its kind in the world. Under its provisions, it became the duty of the O. B. K. A. through its board to appoint a foul brood inspector and sub-inspector. A meeting of the Board of Directors was accordingly called and Mr. William McEvoy, of Woodburn, was duly appointed first inspector under the act. Mr. S. Bray, of Alliston, was appointed sub-inspector. As many Ontario bee-keepers were doubtless unaware of the existence of the recent act, and quite ignorant of the causes and treatment of foul brood, it was thought advisable by the Board to prepare a pamphlet on foul brood (which had been suggested by Mr. Gemmill at the annual meeting) including a copy of the act, and send it out to all Ontario bee-keepers whose names and addresses could be obtained. In pursuance of this a committee consisting of F. A. Gemmill, F. H. Macpherson, D. A. Jones and the writer was appointed to look after the pamphlet. As the association was not in a position financially to bear the expense of such an undertaking, and as the matter in hand affected a large class of agricultural bee-keepers, it was decided to ask the assistance of the Department of Agriculture. The committee accordingly interviewed the Minister, who kindly consented to issue the work as an official bulletin provided we furnished the manuscript ready for the printer, with a list of the names and addresses of Ontario bee-keepers. This we agreed to do, and the writer was delegated by the other members of the committee to arrange the matter for pamphlet and edit the manuscript."

The act clothes the inspector with large powers in ordering the destruction of diseased colonies or infected appliances, and imposes very severe penalties (fines running as high as $100) against those who violate its provisions. Bee-keepers or others aware of the existence of the disease are required immediately to notify the president of the Bee-Keepers' Association or be liable to a fine of $5 and costs. The severer penalties are directed against the selling or bartering of diseased colonies, etc., or interfering with the inspector in the discharge of his duties. The ADVERTISER recommends every bee-keeper who has not seen a copy of this bulletin to send for it at once to Mr. A. Blue, secretary Bureau of of Industries, Toronto, Ont. As to the nature of the disease and modes of treatment, the ADVERTISER not long ago gave considerable information from a bulletin issued by Prof. A. J. Cook, of Michigan.

An Important Element

Of the success of Hood's Sarsaparilla is the fact that every purchaser receives a fair equivalent for his money. The familiar headline "100 Doses for One Dollar," stolen by imitators, is original with and true only of Hood's Sarsaparilla. This can easily be proven by any one who desires to test the matter. For real economy, buy only Hood's Sarsaparilla. Sold by all druggists. y

A WIFE CANNOT CHOOSE HER ASSOCIATES.

It is not generally known that under the English and Scotch common law a married woman has virtually no rights in the management of her domestic affairs which are not directly under the control of her husband. She is not regarded as a co-partner with him, but subject in all respects to his will and pleasure.

This fact was brought out in a striking manner in an action tried at Glasgow the other day. A well-to-do merchant of that place, who has his home in the charming Clyde watering place of Rothesay, asked the sheriff to interdict a lady from visiting his wife during his absence. The defense was that the defender is a personal friend of the man's wife; that she only called at her desire and with her approval, and has in no way annoyed the plaintiff.

The sheriff, in disposing of the novel case, said the house was admittedly the man's property, and that he was undoubtedly entitled to forbid anyone from entering it. But the defender says that she has the consent of the wife. That, it seems, is of no account. "A wife's rights in regard to her husband's house," remarks the judge, "originate in her marriage, and have no existence apart from it. Now, when she marries she promises to obey her husband. If, therefore, she gives a permission which he forbids she is breaking the contract of her marriage, and the permission she gives is null; and anyone acting on such invalid permission, in the knowledge that it is in defiance of the husband's prohibition, is doing an illegal act." The wife need not even be called as a co-defender, because she has really no standing apart from her husband's desires. He must be obeyed, and if he is not the court comes to his aid. This is law, but it places married women in the position of serfs—a standing which no self-respecting husband would care to have his wife occupy.

If a man cannot trust his wife to choose her associates, and cannot persuade her to do right if at any time he believes her to be doing wrong, it seems to us that confidence between the two cannot exist, and genuine marital happiness must be absent. Moreover, it is more than possible that the ability and disposition of a married woman to choose friends that will reflect credit on the household may be just as great as that of her husband.

No wonder the word "obey" in the marriage contract is distasteful to most self-respecting women, when its meaning is twisted by the law-makers so as to place woman in a most humiliating position in a relationship where she should be the queen, not the slave.

THE BOON OF UNHAMPERED TRADE.

The movement which resulted in the reciprocity treaty of 1854 was started by the Conservative party. It was begun in 1849, after the passage of the Rebellion Losses Bill, and was helped by the embarrassed commercial condition of the Canadian Provinces following the repeal of the British differential duties. Under those duties the agricultural and other natural products of the colonies were allowed entry at British ports at a rate of duty lower than was permitted to the products of foreign countries. But Peel's reform of the tariff in 1846 took away this privilege possessed by the colonies, and at first the effects were seriously felt. The Canadian Provinces needed some little time to adapt their commerce to the new circumstances, and they were not able to compete with the United States in the British markets. Hard times followed for them, and the Conservative party, after vainly opposing the Rebellion Losses Bill, conceived that the juncture was opportune for seeking close trade relations with the United States through the short cut of annexation. There were many annexationists in the two old Provinces of Upper and Lower Canada at that time, and it seems likely that, had the hard times continued without any other measure of relief being proposed, the movement for political union would have attained its purpose. But Lord Elgin and his Liberal advisers sought what they conceived to be a better way out of the threatening situation, and negotiations were opened which issued in the reciprocity treaty.

Looking back to the operations of the treaty of 1854, no one can doubt that they accomplished a political as well as a commercial purpose. The free exchange of natural products between the British-American Provinces and the United States soon oversame the commercial stringency here, and as the good times revived the feeling in favor of annexation died away. From 1854 down to 1866 the Canadian people were thoroughly loyal to their own institutions, for although they did pass through a period of severe depression, beginning with the crisis of 1857, everybody recognized that it was not less severe in the United States than in the Provinces, and that there as well as here it was a consequence of the inflation which set in with high prices for agricultural products during the years of the Crimean war, accentuated by the subsequent failure of crops in 1858 and two or three years thereafter. Those twelve years form on the whole the brightest period in the history of the Canadian Provinces, and they laid the foundations of a prosperity upon which we have been building ever since.

But following Confederation many things have been done to the disadvantage of Canada, and to a very large degree its splendid opportunities have been lost. The most serious mistake no doubt has been a series of reckless plunges into debt, for this has been fruitful of other mistakes. We have been building political railways and political canals, and for political ends we have been expending moneys for a hundred different objects far beyond our current capacity to pay. We have been obliged to go to England and borrow large sums of money year after year, upon which interest has to be paid out of the profits of legitimate occupations of the people—with the grain, the lumber, the fish, the live stock, the cheese, the butter and the minerals which are the products of our people's busy industry. This drain upon the national earnings has had its legitimate effect in a chronic condition of hard times, and, like the old leech's method of curing his patient by drawing blood, our political doctors have improved upon the method and drawn more blood. We have adopted a system of high taxation in the hope of improving the state of a people already impoverished by debt and taxes, and in this way we have lost to Canada the opportunity she possessed a quarter of a century ago alongside of the United States, as a country lightly taxed, generally prosperous, and carrying an insignificant burden of a debt compared with her neighbor.

To the Conservative party we are wholly indebted for this unpleasant situation, and to that party we may look in vain for relief. Their only plan of help is to pile on more taxes, as they did last winter at Ottawa, and when more revenue comes to the treasury they set their wits at play to invent new ways of spending it. The Conservatives are not now in the circumstances of 40 years ago, as they would very likely seek to help their country by the issuing of another annexation manifesto, and perhaps this might again stir up the party in power to make terms for the opening of new markets, and getting the people of other countries to help pay our taxes by the purchase and consumption of the goods we produce. The Liberals are less likely than the Conservatives to resort to disloyal devices, but they have always been believers in the saving influences of unhampered trade upon the prosperity of a people, and this boon they are determined to gain for Canada.

The official report of the Johnstown Flood Relief Commission shows that the total contributions to the fund amounted to $3,742,818 78, of which all but $141,300 98 was sent from places in the United States. Pennsylvania gave $1,183,403 84 and New York $911,761 05. As showing how little people over the border know about us, a reference to the contributions from foreign countries shows that from the "Dominion of Canada" $8,053 21 was sent. Manitoba with $31 25 and British Columbia with $170 are rated as not in the Dominion! England headed the list of foreign contributors with $42,909 89, and Italy sent the smallest mite—$9 46.

There are some who think the appointment of Adam Brown, M.P., of Hamilton, as a commissioner to encourage trade with Jamaica is a rum proceeding. BLAINE'S NEW DEPARTURE.

New Haven, Conn., Palladium.

The Palladium is frank to admit its preference for Mr. Blaine's policy; and to our thinking no more significant event has occurred of late years in the world of American statesmanship than this breaking away of the old school, the Chinese-wall protective system, which, in response to changed conditions and popular demand, must go. That Mr. Blaine, the world-celebrated champion and embodiment of the old protective idea, should moderate his views and publicly declare for a more reciprocal policy with the other nations of the world, is a signal to his former followers that the new times demand new ideas.

NEW PUBLICATIONS.

In connection with the series of papers now being published on "Exercise for Women," Harper's Bazar contains an article on "The Ladies' Athletic Club at the Berkeley Lyceum," by Mary Gay Humphreys.

The public importance of the North American Review (New York) for August equals that of any preceding number. The Hon. Thomas B. Reed again makes up for his comparative silence in the Speaker's chair by replying to his recent critic, X. M. C. The other essays are by a collection of writers such as are bound to make a magazine interesting and valuable.

The Century for August shows no sign of midsummer relaxation. A description of the Yosemite is made to seem even novel by the charm of its illustrations. A whaling voyage is dealt with with equal success. Joseph Jefferson's autobiography, Mr. La Farge's letters from Japan, and other contributions make an exceptionally interesting number. New York Century Publishing Company.

There is reading of varied interest in the August number of the Century Magazine. The second paper of Dr. T. H. Mann, in which he relates his experiencas as "A Yankee in Andersonville." The short story of the number is "The Emancipation of Joseph Peloubet," by the late John Elliott Curran. John Muir contributes an important article on "The Treasures of the Yosemite," and there is a most interesting paper from Mrs. Amelia Gere Mason on "The Women of the French Salons." All of the articles are finely illustrated, and the frontispiece, a reproduction of a detail from "Madonna, Child and St. John," by Botticelli, which is in the Louvre, is of real artistic value.

A Sure Cure for Dyspepsia

A Medical Triumph!

HOW THE HEALTH OF ONE OF BELLEVILLE'S CITIZENS WAS RESTORED.

Remarkable Cure of Dropsy and Dyspepsia.

MR. SAMUEL T. CASEY, Belleville, writes: "In the spring of 1884 I began to be troubled with Dyspepsia, which gradually became more and more distressing. I used various domestic remedies, and applied to my physician, but received no benefit. By this time my trouble assumed the form of Dropsy. I was unable to use any food whatever, except boiled milk and bread; my limbs were swollen to twice their natural size; all hopes of my recovery were given up, and I quite expected death within a few weeks. NORTHROP AND LYMAN'S VEGETABLE DISCOVERY having been recommended to me, I tried a bottle with but little hope of relief; and now, after using eight bottles, my Dyspepsia and Dropsy are cured. Although now seventy-nine years of age, I can enjoy my meals as well as ever, and my general health is good. I am well known in this section of Canada, having lived here fifty-seven years; and you have liberty to use my name in recommendation of your VEGETABLE DISCOVERY, which has done such wonders in my case."

A Very Bad Case!

DYSPEPSIA VANQUISHED.

MR. JAMES JOHNSTON, 4th con., 7th lot, Amaranth, writes: "Two bottles of NORTHROP & LYMAN'S VEGETABLE DISCOVERY cured me of Dyspepsia. Mine was a bad case and I had tried a number of other preparations without getting any benefit from them."

Dyspepsia Had to Go.

MR. W. J. DEYELL, Wingham, carpenter and builder, writes: "Three years ago I was greatly troubled with Dyspepsia; a pain between my shoulders was so bad that I thought I would have to quit work altogether. No medicine gave me ease until I got a bottle of NORTHROP & LYMAN'S VEGETABLE DISCOVERY, which gave me relief. I continued using the medicine until I had taken three bottles, when I was perfectly well. I consider it invaluable as a cure for Dyspepsia. I know of several persons who have used it with the same benefit."

Hood's Sarsaparilla

Is a peculiar medicine. It is carefully prepared from Sarsaparilla, Dandelion, Mandrake, Dock, Pipsissewa, Juniper Berries, and other well-known and valuable vegetable remedies, by a peculiar combination, proportion and process, giving to Hood's Sarsaparilla curative power not possessed by other medicines. It effects remarkable cures where other preparations fail.

Hood's Sarsaparilla

Is the best blood purifier before the public. It eradicates every impurity, and cures Scrofula, Salt Rheum, Boils, Pimples, all Humors, Dyspepsia, Biliousness, Sick Headache, Indigestion, General Debility, Catarrh, Rheumatism, Kidney and Liver Complaints, overcomes that tired feeling, creates an appetite, and builds up the system.

Hood's Sarsaparilla

Has met peculiar and unparalleled success at home. Such has become its popularity in Lowell, Mass., where it is made, that whole neighborhoods are taking it as the same time. Lowell druggists sell more of Hood's Sarsaparilla than of all other sarsaparillas or blood purifiers. Sold by druggists. $1; six for $5. Prepared only by C. I. FLYS.

Sammey Laroque is doing well at second for Pittsburg.

No American Association games were played Monday.

Tom Kinslow is the principal catcher of the Brooklyn team.

At Paris Monday, Paris defeated St. George by 24 runs to 22.

Ward will sign Pitcher Munroe, of the Altona, Pa., club, on trial.

Esterbrook ranks first in fielding and fourth in batting for New York.

Foulkrod, late of Hamilton, is playing third base for the Harrisburg, Pa., team.

The Cleveland League club has signed Young, the leading pitcher of the Tri-State League.

Campau is batting for St. Louis as he did when Detroit was after him while he was South.

The Rochesters are making arrangements to play their remaining Sunday games in Buffalo.

The New York Sun dubs Hemming, of the Brooklyn players, a "youthful living skeleton."

Billy Callihan, the pitcher, and Marr Phillips, the shortstop of the Rochesters, have been released—drink.

Cleveland is delighted with Bob Leadley and also the men they secured from Detroit, namely, Virtue and Smith.

Pitcher Wehrle, formerly of the Toledos of 1889 and now with the Wilmingtons, has been elected manager of that team temporarily.

Stein struck out Clarkson three times on Saturday, but the veteran pitcher made a home run the other time at bat. Each club had two home runs.

Arlie Latham will play with Cincinnati after all, so a dispatch says, he having signed a contract for the balance of the year. Cincinnati paid $2,500 for him.

Ball playing on Sunday was prevented by the police both at Buffalo and Syracuse. At the former place between 3,000 and 4,000 persons had gathered to see the game.

In a recent Brooklyn-Chicago Brotherhood game, King deliberately hit Van Haltren with a pitched ball, and the latter retaliated by throwing his bat at the pitcher.

Manager Jack Chapman of the Louisvilles is a happy man. His team is some 60 points in the lead, having lost but 29 games this season. Last year they were the tail-enders.

The friends of Mike Kelly have purchased the estate of William J. Neff at South Hingham, Mass., and will present it to him next week. The estate contains five to six acres, well cultivated, and valued at $10,000.

Of the seventeen men under contract by the Brooklyn (P.L.) club, Tommy Kinslow stands sixth in batting and ninth in fielding. He has played in 43 games. Donovan stands third in fielding for the same club.

Darby O'Brien, of the Brooklyn Nationals, expects to report for duty Aug. 10. When Corkhill also is ready, it is a question whether they will play him, as Donovan is putting up a rattling fielding game, although his stick work is alway below what he is capable of doing.

The Stars and Louisvilles did not play on Sunday. The Stars appeared on the grounds in uniform. Chapman refused to allow his team to go to the grounds, and left for Louisville at 5:25 p.m. Umpire Curry also refused to go, and a local umpire gave the game to the Starts 9 to 0.

"Willie" Callahan, as he was called when in the International, has got himself into trouble. He was detected drinking on Saturday three different times and was accosted by an official of the club. He struck this man and chased him, and while doing so ran into Secretary Bohacheck. Callahan turned on the latter, hitting him in the eye, abusing him and using all manner of names. He will be suspended, if not released and blacklisted.

The Washington Baseball Club is on the verge of disbandment. The assignee now having charge of its affairs has turned the franchise over to Manager Sullivan, who is endeavoring to raise sufficient money to carry the club through the season, but so far has been unsuccessful. The members of the club are considering a proposition to run it on the co-operative plan, but as several players have received offers from other clubs it is not probable that this will be done. The attendance in many instances has not been sufficient to pay the visiting clubs' guarantee.

CRICKET.

THE PATIENTS PUT UP A GOOD GAME.

Yesterday afternoon the Asylum patients and the boys residing at that institution met in a match game of cricket. The boys' team was strengthened by the addition of Dr. Beemer and Dr. Ross. Both teams secured 47 runs in the first inning, but rain coming on prevented the patients from finishing their second inning and the game was drawn. The feature of the game was the bowling of Barbeau and Lutes, who got the ball into the wickets with astonishing regularity. The score is attached:

ATHLETICS.

At the laddermen's contest at the firemen's tournament, Fargo, Dakota, J. T. Cockburn, late of Puslinch, tied the world's record, 5 1-5 seconds, and won the gold medal. The distance run was 50 feet and ascend a 24-foot ladder, time taken when the hand is placed on the top rung.

THE TURF.

The Ridgetown Light Horse Breeders' Association holds its first annual meeting on their grounds there on Aug. 6 and 7. The events are all well filled, and good sport is looked for.

Surefoot, the winner of the Prince of Wales' stakes, will be prepared for the Lancashire plate at Manchester on Sept. 20, which will be worth $55,000. The distance is seven furlongs.

Following are the entries for the Ridgetown races: Green race—Charles A., J. Bedford, Chatham; Texas Bill, T. Heatherington, Cedar Springs; Jenny Lind, J. N. Williams, Ridgetown; Allen Moore, M. L. O'Dell, Aylmer; Aylmer, R. Hall, Ridgetown.

Three-minute Class—Nigerby, J. E. Bedford, Ridgetown; Lady Rooker, Frank Peters, Aylmer; Ben Bolt, M. Buchanan, Ingersoll; Lizzie M., H. H. Evely, St. Thomas; Jenny Lind, J. N. Williams, Ridgetown; Minnie, H. C. Julian, Port Dalhousie; Willie Rose, L. B. Marshall, Merlin.

2:50 Class—Lady Rooker, Frank Peters, Aylmer; Black Billy, D. Gordon, Thessalon; Chester, M. Buchanan, Ingersoll; Brinker Sprague, C. Darling, Ridgetown; Jack the Nigger, A. Fox, Amherstburg; Chapman Maid, W. A. Chapman, Belleville.

2:33 Class—Corncracker, T. Heatherington, Cedar Springs; Henry R., George Robinson, Chatham; Chatham Boy, T. Pierce.

Free-for-All—Rosa B., T. Heatherington, Cedar Springs. Although the last two events have not filled, the directors have decided to let them go in any case rather than disappoint their patrons.

THE WHEEL.

Edin Checkley is going to ride from New York to Chicago on a safety. This will be the first long distance trip taken on a safety machine, and Mr. Checkley thinks he can beat the present record, which was made on an ordinary wheel in ten days, 23 hours and some minutes.

New York Tribune: "H. K. Holsten and D. C. Allen were taking an early spin yesterday morning on their bicycles along one of the avenues leading to Prospect Park when they suddenly came upon a young woman lying in the roadway beneath her overturned wheel. She explained that her skirts had become entangled in the machine, and that when thrown to the ground the garments, which were of the divided variety, had become so tightly fastened to the spokes of the wheel that she was compelled to wait for assistance to enable her to rise. The young men gave the necessary aid, and the thankful young woman went on her way, stopping to give neither name nor address."

QUOITING.

The first draw, to place the several contestants in the competition for the Evans medal by the quoiters of the Forest City Club, resulted as follows: Messrs M. Brown and R. Sparrowhawk, John Robertson and Thomas A. Gray, George Evans and John Tomlinson, Thomas Connors and George Taylor (ma or), Sim Mason and William Lockhead, William McCoombs and John Crawford, Ralph Errington and William Whitehall, Alexander Murray and Robert Robertson, William Bell and Ald. William Jones, John Lawson and Harry Norris, John Evans and Alexander Sinclair, Andrew Scott and Scott Murray; bye, William Wiley.

ANOTHER NEW INDUSTRY.

The Globe Tobacco Company Asks Inducements to Locate Here.

Bylaw Passed for the Sale of Tecumseh Park.

Assistant Clerk Kingston Gets His Salary Raised—Caretaker Scragg's Case Creates a Breeze.

Last evening's meeting of the City Council drew a large representation of the public, who, for the greater part of the evening, took in the proceedings from the auditorium with evident relish. The members of the Council present were Mayor Taylor, Ald. Wyatt, Heaman, Taylor, O'Meara, Moule Fitzgerald, Wallace, Jones, Boyd, Dreaney, Bartlett, Anderson, Luney, Thomas and Shaw. The first matter taken up was the request of the Globe Tobacco Company, asking exemption from water rates and taxes provided they locate their works here.

The company's representative was invited to speak on the matter set forth in the communication. In reply to the question put by Ald. Jones, "If we grant you this will you locate in the city, or is this simply a feeler?" he said he was merely a stockholder and had to be guided by the rest of the Board.

Ald. Jones—I move that the matter be referred to No. 1 Committe with power, provided that the company give some guarantee that it will locate its works here if the privileges asked for in the letter are granted. We don't want to make any auction business of the matter. It will not do to have London bid so much and another place bid so much more.

Ald Taylor—I second the motion.

Mr. Masuret said that the city would not be bidding against other places, because the new Industry would soon become a city affair. He proposed, when the company came to London, to take stock in it.

On motion it was decided to refer the matter to No. 1 Committee with power, the company to state the number of men they will employ and the amount of water they will require. The committee are to meet in the near future for conference with the directors of the Globe company.

The petition of Thomas A. Browne, asking the appointment of a competent caretaker at Queen's Park, elicited keen discussion.

Ald. Jones moved that the matter be referred to No. 2 Committee and a committee from the Western Fair Board, and in the event of an appointment that the Board pay the officer's salary.

Ald. Taylor and Ald. O'Meara were in favor of having the communication filed.

Ald. Taylor spoke strongly in support of the retention of the present caretaker. One man, he said, had asked him to support his application for the position. The man said that Ald. Jones had told him to work the matter up.

Ald. Jones—I totally deny that statement. Ald. Taylor. Name your man.

Ald. Taylor—The man's name is Thomas Cole. I hope, continued the speaker, that the Council will not, for the paltry sum of 70 cents per day, discharge an old man that performs his duty faithfully.

Ald. Jones—I want to deny the statement of Ald. Taylor. Such a statement was never made by me. Several men approached me on the matter, and I told them—as I always tell applicants for support in such matters—that they must wait until I see all those who have applied. Ald. Taylor mentions something about time being short. I think Ald. Taylor's time will be short, and that it would have been very short at the last election had it not been for the acclamation feature of it. I think the Western Fair Board is best qualified to judge in the matter. The Board is a long way ahead of this Council.

Ald. Moule moved that the matter be referred to No. 3 Committee.

Ald. Boyd championed the cause of Mr. Scragg, and expressed the opinion that the caretaker was a pretty decent old man, who performed his work to the satisfaction of all. It appeared to the speaker that there was a "nigger in the fence" somewhere when men were running around for a position before the place was vacant.

Ald. Jones—Motion; motion. We don't want any more talking on this matter.

Ald. Boyd—We know what we are doing, Ald. Jones; we were here before, you see!

Ald. Moule's motion referring the matter to No. 2 Committee was carried, Ald. Jones, Wyatt, Heaman and Luney voting against it.

Ald. Jones—I guess that the thing is shelved.

Ald. Boyd—Yes, that is where we have got it now. Away up high and dry.

NEW BYLAWS.

The proposal to dispose of the Tecumseh Park was then taken up. The bylaw regulating the sale of the same was read three times and passed.

The bylaw for levying rates for street watering for the year 1889 was regularly passed.

The bylaw respecting local improvements, placing all such under the direction of No. 2 Committee and City Engineer, passed.

The bylaw to authorize the Mayor and Treasurer to borrow $20,000 to meet the current expenditure of the corporation at the rate of 5 per cent. passed.

Ald. O'Meara moved that Mr. Kincade be granted until the 1st of October to pay his taxes. The date was changed to September to conform to the bylaw.

NUMBER THREE COMMITTEE'S REPORT.

By Ald. Boyd, chairman:

1. We recommend that Jacob Smith's case for space in market be canceled, and that the arrears of rent due by him in the Bazar be handed to the City Solicitor for collection.

2. That Mrs. McHughs' arrears of rent be remitted as she is in indigent circumstances.

3. We recommend that George Deacon be permitted to put a door between stalls No. 6 and 7, and be granted the latter stall from date with rent from Sept. 1, provided he takes a lease for one year, rent payable monthly in advance.

4. We recommend that the fire hall plans approved by this committee be accepted, and that tenders be called for the work mentioned therein.

Ald. Jones moved that the last clause be referred to No. 3 Committee. Ald. Wallace supported Ald. Jones' motion, which was lost, and the report was adopted as read.

NUMBER TWO COMMITTEE'S REPORT.

By Ald. Jones, chairman:

1. We report progress on the petition of W. G. Parkhouse et al. for block paving Palace street, and Thomas Green et al. against blocking a portion of Princess avenue.

2. We recommend that Thomas Howie's petition for sidewalk be filed.

3. We submit bylaw respecting local improvements.

The report was adopted as read.

NUMBER ONE COMMITTEE'S REPORT.

By Ald. Moule, chairman:

1. That the following accounts be paid:

2. That the petition of M. A. Pugh and L. C. Higman for remission of 1889 taxes be filed.

3. That Messrs. John Elliott & Sons be granted a fixed assessment of $50,000 for a period of ten years on their factories on Bathurst and Ridout streets.

4. That the petition of Wm. Ironside re income tax be filed, the Council having no power.

5. That the petition of Assistant City Clerk Kingston be granted by increasing his salary $200 per year.

6. Your petitioners beg to recommend favorably the communication of H. Blackburn re the Free Press special issue at a cost of about $900.

7. Your committee beg to report progress on the petitions of Mr. J. W. Bartlett, Margaret Muirhead and F. J. Lewis.

8. Your committee submit estimates for 1890 from Board of Education, public schools, Roman Catholic schools, Police Department and Hospital Trust.

The first two clauses were adopted as read.

Ald. Anderson moved in amendment to clause 3 that the assessment be reduced to about $45,000. The motion was seconded by Ald. Boyd.

Ald. Wallace thought that the amendment was altogether too sweeping. He would not object to a reduction of $20,000, but the amendment was too much

Ald. Taylor and Jones spoke in favor of the amendment, which was then put and carried.

When clause No. 5 was read Ald. Wallace began to clear his throat to object, but when he was ready the clause had been passed. He rose and moved that the clause be struck out, but he was too late.

Clause No. 6 was referred to No. 1 Committee. The communication of the ADVERTISER Company to be considered at the same time.

The last clause of the report respecting yearly estimates was referred back to No. 1 Committee to report at the next Council meeting.

Ald. Taylor thought that the Board of Education should be called up and not allow the great expenditure of money that is going on.

Ald. Jones also placed himself on record as opposed to the present expenditures. He thought that it the City Council had been required to call a halt the Board of Education should do the same.

The report was adopted as amended.

Ald. Boyd moved that three electric lights be erected at the respective corners of Thresa and Askin, Craig and Askin and Bruce street and Wortley road. The motion was carried.

The Council adjourned at 10:45 for a month.

The race question—How am I going to get home?

Give Holloway's Corn Cure a trial. It removed ten corns from one pair of feet without any pain. What it has done once it will do again.

Mothers

Castoria is recommended by physicians for children teething. It is a purely vege table preparation; its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhœa and wind colic, allays feverishness, destroys worms and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mother's friend. 25 doses, 35 cents.

A Dinner Pill.—Many persons suffer excruciating agony after partaking of a hearty dinner. The food partaken of is like a ball of lead upon the stomach, and instead of being a healthy nutriment it becomes a poison to the sytem. Dr. Parmelee's Vegetable Pills are wonderful correctives of such troubles. They correct acidity, open the secretions and convert the food partaken of into healthy nutriment. They are just the medicine to take if troubled with Indigestion or Dyspepsia.

The British and Foreign Bible Society has, during the 81 years of its history, issued from its London depository alone 29,000,000 complete copies of the Bible, 32,000,000 Testaments and nearly 12,000,000 portions of the Bible—a total of 73,000,000, or nearly 1,000,000 a year, or enough to furnish every twentieth inhabitant of the globe.

Among the pains and aches cured with marvelous rapidity with Dr. Thomas' Eclectric Oil, is ear-ache. The young are especially subject to it, and the desirability of this Oil as a family remedy is enhanced by the fact that it is admirably adapted not only to the above ailment, but also to the hurts, disorders of the bowels, and affections of the throat, to which the young are specially subject.

A Finland paper mentions a curious stone in the northern part of that country which serves the people instead of a barometer. This stone, which they call "ilmakiur," turns black or blackish gray when foul weather is approaching; fine weather has the effect of turning it almost white.

London, Tuesday, Aug. 5.

A WIFE CANNOT CHOOSE HER ASSOCIATES.

It is not generally known that under the English and Scotch common law a married woman has virtually no rights in the management of her domestic affairs which are not directly under the control of her husband. She is not regarded as a co-partner with him, but subject in all respects to his will and pleasure.

This fact was brought out in a striking manner in an action tried at Glasgow the other day. A well-to-do merchant of that place, who has his home in the charming Clyde watering place of Rothesay, asked the sheriff to interdict a lady from visiting his wife during his absence. The defense was that the defender is a personal friend of the man's wife; that she only called at her desire and with her approval, and has in no way annoyed the plaintiff.

The sheriff, in disposing of the novel case, said the house was admittedly the man's property, and that he was undoubtedly entitled to forbid anyone from entering it. But the defender says that she has the consent of the wife. That, it seems, is of no account. "A wife's rights in regard to her husband's house," remarks the judge, "originate in her marriage, and have no existence apart from it. Now, when she marries she promises to obey her husband. If, therefore, she gives a permission which he forbids she is breaking the contract of her marriage, and the permission she gives is null; and anyone acting on such invalid permission, in the knowledge that it is in defiance of the husband's prohibition, is doing an illegal act." The wife need not even be called as a co-defender, because she has really no standing apart from her husband's desires. He must be obeyed, and if he is not the court comes to his aid. This is law, but it places married women in the position of serfs—a standing which no self-respecting husband would care to have his wife occupy.

If a man cannot trust his wife to choose her associates, and cannot persuade her to do right if at any time he believes her to be doing wrong, it seems to us that confidence between the two cannot exist, and genuine marital happiness must be absent. Moreover, it is more than possible that the ability and disposition of a married woman to choose friends that will reflect credit on the household may be just as great as that of her husband.

No wonder the word "obey" in the marriage contract is distasteful to most self-respecting women, when its meaning is twisted by the law-makers so as to place woman in a most humiliating position in a relationship where she should be the queen, not the slave.

THE BOON OF UNHAMPERED TRADE.

The movement which resulted in the reciprocity treaty of 1854 was started by the Conservative party. It was begun in 1849, after the passage of the Rebellion Losses Bill, and was helped by the embarrassed commercial condition of the Canadian Provinces following the repeal of the British differential duties. Under those duties the agricultural and other natural products of the colonies were allowed entry at British ports at a rate of duty lower than was permitted to the products of foreign countries. But Peel's reform of the tariff in 1846 took away this privilege possessed by the colonies, and at first the effects were seriously felt. The Canadian Provinces needed some little time to adapt their commerce to the new circumstances, and they were not able to compete with the United States in the British markets. Hard times followed for them, and the Conservative party, after vainly opposing the Rebellion Losses Bill, conceived that the juncture was opportune for seeking close trade relations with the United States through the short cut of annexation. There were many annexationists in the two old Provinces of Upper and Lower Canada at that time, and it seems likely that, had the hard times continued without any other measure of relief being proposed, the movement for political union would have attained its purpose. But Lord Elgin and his Liberal advisers sought what they conceived to be a better way out of the threatening situation, and negotiations were opened which issued in the reciprocity treaty.

Looking back to the operations of the treaty of 1854, no one can doubt that they accomplished a political as well as a commercial purpose. The free exchange of natural products between the British-American Provinces and the United States soon overcame the commercial stringency here, and as the good times revived the feeling in favor of annexation died away. From 1854 down to 1866 the Canadian people were thoroughly loyal to their own institutions, for although they did pass through a period of severe depression, beginning with the crisis of 1857, everybody recognized that it was not less severe in the United States than in the Provinces, and that there as well as here it was a consequence of the inflation which set in with high prices for agricultural products during the years of the Crimean war, accentuated by the subsequent failure of crops in 1858 and two or three years thereafter. Those twelve years form on the whole the brightest period in the history of the Canadian Provinces, and they laid the foundations of a prosperity upon which we have been building ever since.

But following Confederation many things have been done to the disadvantage of Canada, and to a very large degree its splendid opportunities have been lost. The most serious mistake no doubt has been a series of reckless plunges into debt, for this has been fruitful of other mistakes. We have been building political railways and political canals, and for political ends we have been expending moneys for a hundred different objects far beyond our current capacity to pay. We have been obliged to go to England and borrow large sums of money year after year, upon which interest has to be paid out of the profits of legitimate occupations of the people—with the grain, the lumber, the fish, the live stock, the cheese, the butter and the minerals which are the products of our people's busy industry. This drain upon the national earnings has had its legitimate effect in a chronic condition of hard times, and, like the old leech's method of curing his patient by drawing blood, our political doctors have improved upon the method and drawn more blood. We have adopted a system of high taxation in the hope of improving the state of a people already impoverished by debt and taxes, and in this way we have lost to Canada the opportunity she possessed a quarter of a century ago alongside of the United States, as a country lightly taxed, generally prosperous, and carrying an insignificant burden of a debt compared with her neighbor.

To the Conservative party we are wholly indebted for this unpleasant situation, and to that party we may look in vain for relief. Their only plan of help is to pile on more taxes, as they did last winter at Ottawa, and when more revenue comes to the treasury they set their wits at play to invent new ways of spending it. The Conservatives are not now in the circumstances of 40 years ago, as they would very likely seek to help their country by the issuing of another annexation manifesto, and perhaps this might again stir up the party in power to make terms for the opening of new markets, and getting the people of other countries to help pay our taxes by the purchase and consumption of the goods we produce. The Liberals are less likely than the Conservatives to resort to disloyal devices, but they have always been believers in the saving influences of unhampered trade upon the prosperity of a people, and this boon they are determined to gain for Canada.

PERSONAL AND GENERAL.

—There are 51,500,000 hogs in the United States. But this does not include the street car or steamboat species of the animal.

‡‡‡

—The sun is a great purifier and health giver. A house should have plenty of sunlight all through the summer, even at the risk of a little inconvenience.

‡‡‡

The official report of the Johnstown Flood Relief Commission shows that the total contributions to the fund amounted to $3,742,818 78, of which all but $141,300 98 was sent from places in the United States. Pennsylvania gave $1,183,403 84 and New York $911,761 05. As showing how little people over the border know about us, a reference to the contributions from foreign countries shows that from the "Dominion of Canada" $8,053 21 was sent. Manitoba with $31 25 and British Columbia with $170 are rated as not in the Dominion! England headed the list of foreign contributors with $42,909 89, and Italy sent the smallest mite—$9 46.

‡‡‡

—Col. Chamberlain, Queen's Printer for the Dominion, ridicules the idea of the Yankeephobes that the dropping of the "u" in "favor," "labor," etc., is a United States freak. He says that those who have dropped the "u" follow Worcester, not Webster, and that Worcester simply reverted to the spelling of the great English

9 at night for just enough money to get himself clothing. Commissioner Jury's protest is a just one.

Mr. Charlton has estimated that the number of native Canadians and of British-born settlers in Canada who have emigrated, plus their progeny, amounts in all to 2,500,000; in other words, for every two Canadians in Canada there is one in the States.

A RUM PROCEEDING.

Goderich Signal.

There are some who think the appointment of Adam Brown, M.P., of Hamilton, as a commissioner to encourage trade with Jamaica is a rum proceeding. What is the use of sending commissioners there and everywhere to encourage foreign trade, and then meeting the foreign traders with the N. P. at the customs house?

BLAINE'S NEW DEPARTURE.

New Haven, Conn., Palladium.

The Palladium is frank to admit its preference for Mr. Blaine's policy; and to our thinking no more significant event has occurred of late years in the world of American statesmanship than this breaking away off the old school, the Chinese-wall protective system, which, in response to changed conditions and popular demand, must go. That Mr. Blaine, the world-celebrated champion and embodiment of the old protective idea, should moderate his views and publicly declare for a more reciprocal policy with the other nations of the world, is a signal to his former followers that the new times demand new ideas.

NEW PUBLICATIONS.

In connection with the series of papers now being published on "Exercise for Women," Harper's Bazar contains an article on "The Ladies' Athletic Club at the Berkeley Lyceum," by Mary Gay Humphreys.

The public importance of the North American Review (New York) for August equals that of any preceding number. The Hon. Thomas B. Reed again makes up for his comparative silence in the Speaker's chair by replying to his recent critic, X. M. C. The other essays are by a collection of writers such as are bound to make a magazine interesting and valuable.

The Century for August shows no sign of midsummer relaxation. A description of the Yosemite is made to seem even novel by the charm of its illustrations. A whaling voyage is dealt with with equal success. Joseph Jefferson's autobiography, Mr. La Farge's letters from Japan, and other contributions make an exceptionally interesting number. New York Century Publishing Company.

There is reading of varied interest in the August number of the Century Magazine. The second paper of Dr. T. H. Mann, in which he relates his experiences as "A Yankee in Andersonville." The short story of the number is "The Emancipation of Joseph Peloubet," by the late John Elliott Curran. John Muir contributes an important article on "The Treasures of the Yosemite," and there is a most interesting paper from Mrs. Amelia Gere Mason on "The Women of the French Salons." All of the articles are finely illustrated, and the frontispiece, a reproduction of a detail from "Madonna, Child and St. John," by Botticelli, which is in the Louvre, is of real artistic value.

The great lung healer is found in excellent medicine sold as Bickle's Anti-Consumptive Syrup. It soothes and diminishes the sensibility of the membrane of the throat and air passages and is a sovereign remedy for all coughs, colds, hoarseness, pain or soreness in the chest, bronchitis, etc. It has cured many when supposed to be far advanced in consumption.

NORTHROP & LYMAN'S
VEGETABLE DISCOVERY
A Great Blood Purifier
A Sure Cure for Dyspepsia

A Medical Triumph!
HOW THE HEALTH OF ONE OF BELLEVILLE'S CITIZENS WAS RESTORED.
Remarkable Cure of Dropsy and Dyspepsia.

MR. SAMUEL T. CASEY, Belleville, writes: "In the spring of 1884 I began to be troubled with Dyspepsia, which gradually became more and more distressing. I used various domestic remedies, and applied to my physician, but received no benefit. By this time my trouble assumed the form of Dropsy. I was unable to use any food whatever, except boiled milk and bread; my limbs were swollen to twice their natural size; all hopes of my recovery were given up, and I quite expected death within a few weeks. NORTHROP AND LYMAN'S VEGETABLE DISCOVERY having been recommended to me, I tried a bottle with but little hope of relief; and now, after using eight bottles, my Dyspepsia and Dropsy are cured. Although now seventy-nine years of age, I can enjoy my meals as well as ever, and my general health is good. I am well known in this section of Canada, having lived here fifty-seven years; and you have liberty to use my name in recommendation of your VEGETABLE DISCOVERY, which has done such wonders in my case."

A Very Bad Case!
DYSPEPSIA VANQUISHED.

MR. JAMES JOHNSTON, 4th con., 7th lot, Amaranth, writes: "Two bottles of NORTHROP & LYMAN'S VEGETABLE DISCOVERY cured me of Dyspepsia. Mine was a bad case and I had tried a number of other preparations without getting any benefit from them."

Dyspepsia Had to Go.

MR. W. J. DEYELL, Wingham, carpenter and builder, writes: "Three years ago I was greatly troubled with Dyspepsia; a pain between my shoulders was so bad that I thought I would have to quit work altogether. No medicine gave me ease until I got a bottle of NORTHROP & LYMAN'S VEGETABLE DISCOVERY, which gave me relief. I continued using the medicine until I had taken three bottles, when I was perfectly well. I consider it invaluable as a cure for Dyspepsia. I know of several persons who have used it with the same benefit."

Hood's Sarsaparilla

Is a peculiar medicine. It is carefully prepared from Sarsaparilla, Dandelion, Mandrake, Dock, Pipsissewa, Juniper Berries, and other well-known and valuable vegetable remedies, by a peculiar combination, proportion and process, giving to Hood's Sarsaparilla curative power not possessed by other medicines. It effects remarkable cures where other preparations fail.

Hood's Sarsaparilla

Is the best blood purifier before the public. It eradicates every impurity, and cures Scrofula, Salt Rheum, Boils, Pimples, all Humors, Dyspepsia, Biliousness, Sick Headache, Indigestion, General Debility, Catarrh, Rheumatism, Kidney and Liver Complaints, overcomes that tired feeling, creates an appetite, and builds up the system.

Hood's Sarsaparilla

Has met peculiar and unparalleled success at home. Such has become its popularity in Lowell, Mass., where it is made, that whole neighborhoods are taking it at the same time. Lowell druggists sell more of Hood's Sarsaparilla than of all other sarsaparillas or blood purifiers. Sold by druggists. $1; six for $5. Prepared only by C. I. FLYS.

Sammey Laroque is doing well at second for Pittsburg.

No American Association games were played Monday.

Tom Kinslow is the principal catcher of the Brooklyn team.

At Paris Monday, Paris defeated St. George by 24 runs to 22.

Ward will sign Pitcher Munroe, of the Altona, Pa., club, on trial.

Esterbrook ranks first in fielding and fourth in batting for New York.

Foulkrod, late of Hamilton, is playing third base for the Harrisburg, Pa., team.

The Cleveland League club has signed Young, the leading pitcher of the Tri-State League.

Campau is batting for St. Louis as he did when Detroit was after him while he was South.

The Rochesters are making arrangements to play their remaining Sunday games in Buffalo.

The New York Sun dubs Hemming, of the Brooklyn players, a "youthful living skeleton."

Billy Callihan, the pitcher, and Marr Phillips, the shortstop of the Rochesters, have been released—drink.

Cleveland is delighted with Bob Leadley and also the men they secured from Detroit, namely, Virtue and Smith.

Pitcher Wehrle, formerly of the Toledos of 1889 and now with the Wilmingtons, has been elected manager of that team temporarily.

Stein struck out Clarkson three times on Saturday, but the veteran pitcher made a home run the other time at bat. Each club had two home runs.

Arlie Latham will play with Cincinnati after all, so a dispatch says, he having signed a contract for the balance of the year. Cincinnati paid $2,500 for him.

Ball playing on Sunday was prevented by the police both at Buffalo and Syracuse. At the former place between 3,000 and 4,000 persons had gathered to see the game.

In a recent Brooklyn-Chicago Brotherhood game, King deliberately hit Van Haltren with a pitched ball, and the latter retaliated by throwing his bat at the pitcher.

Manager Jack Chapman of the Louisvilles is a happy man. His team is some 60 points in the lead, having lost but 29 games this season. Last year they were the tail-enders.

The friends of Mike Kelly have purchased the estate of William J. Neff at South Hingham, Mass., and will present it to him next week. The estate contains five to six acres, well cultivated, and valued at $10,000.

Of the seventeen men under contract by the Brooklyn (P.L.) club, Tommy Kinslow stands sixth in batting and ninth in fielding. He has played in 43 games. Donovan stands third in fielding for the same club.

Darby O'Brien, of the Brooklyn Nationals, expects to report for duty Aug. 10. When Corkhill also is ready, it is a question whether they will play him, as Donovan is putting up a rattling fielding game, although his stick work is alway below what he is capable of doing.

The Stars and Louisvilles did not play on Sunday. The Stars appeared on the grounds in uniform. Chapman refused to allow his team to go to the grounds, and left for Louisville at 5:25 p.m. Umpire Curry also refused to go, and a local umpire gave the game to the Starts 9 to 0.

"Willie" Callahan, as he was called when in the International, has got himself into trouble. He was detected drinking on Saturday three different times and was accosted by an official of the club. He struck this man and chased him, and while doing so ran into Secretary Bohacheck. Callahan turned on the latter, hitting him in the eye, abusing him and using all manner of names. He will be suspended, if not released and blacklisted.

The Washington Baseball Club is on the verge of disbandment. The assignee now having charge of its affairs has turned the franchise over to Manager Sullivan, who is endeavoring to raise sufficient money to carry the club through the season, but so far has been unsuccessful. The members of the club are considering a proposition to run it on the co-operative plan, but as several players have received offers from other clubs it is not probable that this will be done. The attendance in many instances has not been sufficient to pay the visiting clubs' guarantee.

CRICKET.

THE PATIENTS PUT UP A GOOD GAME.

Yesterday afternoon the Asylum patients and the boys residing at that institution met in a match game of cricket. The boys' team was strengthened by the addition of Dr. Beemer and Dr. Ross. Both teams secured 47 runs in the first inning, but rain coming on prevented the patients from finishing their second inning and the game was drawn. The feature of the game was the bowling of Barbeau and Lutes, who got the ball into the wickets with astonishing regularity. The score is attached:

ATHLETICS.

At the laddermen's contest at the firemen's tournament, Fargo, Dakota, J. T. Cockburn, late of Puslinch, tied the world's record, 5 1-5 seconds, and won the gold medal. The distance run was 50 feet and ascend a 24-foot ladder, time taken when the hand is placed on the top rung.

THE TURF.

The Ridgetown Light Horse Breeders' Association holds its first annual meeting on their grounds there on Aug. 6 and 7. The events are all well filled, and good sport is looked for.

Surefoot, the winner of the Prince of Wales' stakes, will be prepared for the Lancashire plate at Manchester on Sept. 20, which will be worth $55,000. The distance is seven furlongs.

Following are the entries for the Ridgetown races: Green race—Charles A., J. Bedford, Chatham; Texas Bill, T. Heatherington, Cedar Springs; Jenny Lind, J. N. Williams, Ridgetown; Allen Moore, M. L. O'Dell, Aylmer; Aylmer, R. Hall, Ridgetown.

Three-minute Class—Nigerby, J. E. Bedford, Ridgetown; Lady Rooker, Frank Peters, Aylmer; Ben Bolt, M. Buchanan, Ingersoll; Lizzie M., H. H. Evely, St. Thomas; Jenny Lind, J. N. Williams, Ridgetown; Minnie, H. C. Julian, Port Dalhousie; Willie Rose, L. B. Marshall, Merlin.

2:50 Class—Lady Rooker, Frank Peters, Aylmer; Black Billy, D. Gordon, Thessalon; Chester, M. Buchanan, Ingersoll; Brinker Sprague, C. Darling, Ridgetown; Jack the Nigger, A. Fox, Amherstburg; Chapman Maid, W. A. Chapman, Belleville.

2:33 Class—Corncracker, T. Heatherington, Cedar Springs; Henry R., George Robinson, Chatham; Chatham Boy, T. Pierce.

Free-for-All—Rosa B., T. Heatherington, Cedar Springs. Although the last two events have not filled, the directors have decided to let them go in any case rather than disappoint their patrons.

THE WHEEL.

Edin Checkley is going to ride from New York to Chicago on a safety. This will be the first long distance trip taken on a safety machine, and Mr. Checkley thinks he can beat the present record, which was made on an ordinary wheel in ten days, 23 hours and some minutes.

New York Tribune: "H. K. Holsten and D. C. Allen were taking an early spin yesterday morning on their bicycles along one of the avenues leading to Prospect Park when they suddenly came upon a young woman lying in the roadway beneath her overturned wheel. She explained that her skirts had become entangled in the machine, and that when thrown to the ground the garments, which were of the divided variety, had become so tightly fastened to the spokes of the wheel that she was compelled to wait for assistance to enable her to rise. The young men gave the necessary aid, and the thankful young woman went on her way, stopping to give neither name nor address."

QUOITING.

The first draw, to place the several contestants in the competition for the Evans medal by the quoiters of the Forest City Club, resulted as follows: Messrs. M. Brown and R. Sparrowhawk, John Robertson and Thomas A. Gray, George Evans and John Tomlinson, Thomas Connors and George Taylor (ma or), Sim Mason and William Lockhead, William McCoombs and John Crawford, Ralph Errington and William Whitehall, Alexander Murray and Robert Robertson, William Bell and Ald. William Jones, John Lawson and Harry Norris, John Evans and Alexander Sinclair, Andrew Scott and Scott Murray; bye, William Wiley.

ANOTHER NEW INDUSTRY.

The Globe Tobacco Company Asks Inducements to Locate Here.

Bylaw Passed for the Sale of Tecumseh Park.

Assistant Clerk Kingston Gets His Salary Raised—Caretaker Scragg's Case Creates a Breeze.

Last evening's meeting of the City Council drew a large representation of the public, who, for the greater part of the evening, took in the proceedings from the auditorium with evident relish. The members of the Council present were Mayor Taylor, Ald. Wyatt, Heaman, Taylor, O'Meara, Moule Fitzgerald, Wallace, Jones, Boyd, Dreaney, Bartlett, Anderson, Luney, Thomas and Shaw. The first matter taken up was the request of the Globe Tobacco Company, asking exemption from water rates and taxes provided they locate their works here.

The company's representative was invited to speak on the matter set forth in the communication. In reply to the question put by Ald. Jones, "If we grant you this will you locate in the city, or is this simply a feeler?" he said he was merely a stockholder and had to be guided by the rest of the Board.

Ald. Jones—I move that the matter be referred to No. 1 Committe with power, provided that the company give some guarantee that it will locate its works here if the privileges asked for in the letter are granted. We don't want to make any auction business of the matter. It will not do to have London bid so much and another place bid so much more.

Ald Taylor—I second the motion.

Mr. Masuret said that the city would not be bidding against other places, because the new industry would soon become a city affair. He proposed, when the company came to London, to take stock in it.

On motion it was decided to refer the matter to No. 1 Committee with power, the company to state the number of men they will employ and the amount of water they will require. The committee are to meet in the near future for conference with the directors of the Globe company.

The petition of Thomas A. Browne, asking the appointment of a competent caretaker at Queen's Park, elicited keen discussion.

Ald. Jones moved that the matter be referred to No. 2 Committee and a committee from the Western Fair Board, and in the event of an appointment that the Board pay the officer's salary.

Ald. Taylor and Ald. O'Meara were in favor of having the communication filed.

Ald. Taylor spoke strongly in support of the retention of the present caretaker. One man, he said, had asked him to support his application for the position. The man said that Ald. Jones had told him to work the matter up.

Ald. Jones—I totally deny that statement. Ald. Taylor. Name your man.

Ald. Taylor—The man's name is Thomas Cole. I hope, continued the speaker, that the Council will not, for the paltry sum of 70 cents per day, discharge an old man that performs his duty faithfully.

Ald. Jones—I want to deny the statement of Ald. Taylor. Such a statement was never made by me. Several men approached me on the matter, and I told them—as I always tell applicants for support in such matters—that they must wait until I see all those who have applied. Ald. Taylor mentions something about time being short. I think Ald. Taylor's time will be short, and that it would have been very short at the last election had it not been for the acclamation feature of it. I think the Western Fair Board is best qualified to judge in the matter. The Board is a long way ahead of this Council.

Ald. Moule moved that the matter be referred to No. 3 Committee.

Ald. Boyd championed the cause of Mr. Scragg, and expressed the opinion that the caretaker was a pretty decent old man, who performed his work to the satisfaction of all. It appeared to the speaker that there was a "nigger in the fence" somewhere when men were running around for a position before the place was vacant.

Ald. Jones—Motion; motion. We don't want any more talking on this matter.

Ald. Boyd—We know what we are doing, Ald. Jones; we were here before, you see!

Ald. Moule's motion referring the matter to No. 2 Committee was carried, Ald. Jones, Wyatt, Heaman and Luney voting against it.

Ald. Jones—I guess that the thing is shelved.

Ald. Boyd—Yes, that is where we have got it now. Away up high and dry.

NEW BYLAWS.

The proposal to dispose of the Tecumseh Park was then taken up. The bylaw regulating the sale of the same was read three times and passed.

The bylaw for levying rates for street watering for the year 1889 was regularly passed.

The bylaw respecting local improvements, placing all such under the direction of No. 2 Committee and City Engineer, passed.

The bylaw to authorize the Mayor and Treasurer to borrow $20,000 to meet the current expenditure of the corporation at the rate of 5 per cent. passed.

Ald. O'Meara moved that Mr. Kincade be granted until the 1st of October to pay his taxes. The date was changed to September to conform to the bylaw.

NUMBER THREE COMMITTEE'S REPORT.

By Ald. Boyd, chairman:

1. We recommend that Jacob Smith's case for space in market be canceled, and that the arrears of rent due by him in the Bazar be handed to the City Solicitor for collection.

2. That Mrs. McHughs' arrears of rent be remitted as she is in indigent circumstances.

3. We recommend that George Deacon be permitted to put a door between stalls No. 6 and 7, and be granted the latter stall from date with rent from Sept. 1, provided he takes a lease for one year, rent payable monthly in advance.

4. We recommend that the fire hall plans approved by this committee be accepted, and that tenders be called for the work mentioned therein.

Ald. Jones moved that the last clause be referred to No. 3 Committee. Ald. Wallace supported Ald. Jones' motion, which was lost, and the report was adopted as read.

NUMBER TWO COMMITTEE'S REPORT.

By Ald. Jones, chairman:

1. We report progress on the petition of W. G. Parkhouse et al. for block paving Palace street, and Thomas Green et al. against blocking a portion of Princess avenue.

2. We recommend that Thomas Howie's petition for sidewalk be filed.

3. We submit bylaw respecting local improvements.

7. Your committee beg to report progress on the petitions of Mr. J. W. Bartlett, Margaret Muirhead and F. J. Lewis.

8. Your committee submit estimates for 1890 from Board of Education, public schools, Roman Catholic schools, Police Department and Hospital Trust.

The first two clauses were adopted as read.

Ald. Anderson moved in amendment to clause 3 that the assessment be reduced to about $45,000. The motion was seconded by Ald. Boyd.

Ald. Wallace thought that the amendment was altogether too sweeping. He would not object to a reduction of $20,000, but the amendment was too much

Ald. Taylor and Jones spoke in favor of the amendment, which was then put and carried.

When clause No. 5 was read Ald. Wallace began to clear his throat to object, but when he was ready the clause had been passed. He rose and moved that the clause be struck out, but he was too late.

Clause No. 6 was referred to No. 1 Committee. The communication of the ADVERTISER Company to be considered at the same time.

The last clause of the report respecting yearly estimates was referred back to No. 1 Committee to report at the next Council meeting.

Ald. Taylor thought that the Board of Education should be called up and not allow the great expenditure of money that is going on.

Ald. Jones also placed himself on record as opposed to the present expenditures. He thought that if the City Council had been required to call a halt the Board of Education should do the same.

The report was adopted as amended.

Ald. Boyd moved that three electric lights be erected at the respective corners of Thresa and Askin, Craig and Askin and Bruce street and Wortley road. The motion was carried.

The Council adjourned at 10:45 for a month.

Mothers

Castoria is recommended by physicians for children teething. It is a purely vegetable preparation; its ingredients are published around each bottle. It is pleasant to the taste and absolutely harmless. It relieves constipation, regulates the bowels, quiets pain, cures diarrhœa and wind colic, allays feverishness, destroys worms and prevents convulsions, soothes the child and gives it refreshing and natural sleep. Castoria is the children's panacea—the mother's friend. 25 doses, 35 cents.

A Dinner Pill.—Many persons suffer excruciating agony after partaking of a hearty dinner. The food partaken of is like a ball of lead upon the stomach, and instead of being a healthy nutriment it becomes a poison to the sytem. Dr. Parmelee's Vegetable Pills are wonderful correctives of such troubles. They correct acidity, open the secretions and convert the food partaken of into healthy nutriment. They are just the medicine to take if troubled with Indigestion or Dyspepsia.

The British and Foreign Bible Society has, during the 81 years of its history, issued from its London depository alone 29,000,000 complete copies of the Bible, 32,000,000 Testaments and nearly 12,000,000 portions of the Bible—a total of 73,000,000, or nearly 1,000,000 a year, or enough to furnish every twentieth inhabitant of the globe.

Among the pains and aches cured with marvelous rapidity with Dr. Thomas' Eclectric Oil, is ear-ache. The young are especially subject to it, and the desirability of this Oil as a family remedy is enhanced by the fact that it is admirably adapted not only to the above ailment, but also to the hurts, disorders of the bowels, and affections of the throat, to which the young are specially subject.

A Finland paper mentions a curious stone in the northern part of that country which serves the people instead of a barometer. This stone, which they call "ilmakiur," turns black or blackish gray when foul weather is approaching; fine weather has the effect of turning it almost white.

The Dairy Markets.

LITTLE FALLS.

LITTLE FALLS, N. Y., Aug. 4.—There was a liberal sale of cheese to-day, and the market is in fully as good shape as a week ago. The shrinkage of milk is represented to be nearly one-third from the flush of the season, and the cheese are sold off to about July 12. Transactions were: Thirty-eight lots at 7c, 7 lots at 7¼c, 30 lots at 7½c, 5 lots at 7⅝c, 3 lots at 8c, 1 lot at 8¼c, 14 lots on commission. There were also 1,635 boxes of farm dairy cheese sold at 7c and 8c, mostly at 7½c to 7⅝c.

Butter—Sales of 34 packages creamery butter were made at 17c, and 14 of farm dairy at 16c and 17c.

UTICA.

UTICA, N. Y., Aug. 4.—The cheese market to-day recorded another decline, and the salesmen are inclined to feel blue regarding the prospects. There appears to be no active demand at present, and there seems to be no likelihood of improvement in the immediate future. The dry weather of the past several weeks has affected the pastures and there has been quite a shrinkage in the production of milk. Transactions: Twelve lots, 1,298 boxes, at 7c; 69 lots, 6,833 boxes, at 7⅛c; 22 lots, 2,377 boxes, at 7¼c; 31 lots, 2,538 boxes, at 7½c; 9 lots, 880 boxes, at 7⅝c; 2 lots, 300 boxes, at 7¾c; 9 lots, 880 boxes, at 7⅞c; 2 lots, 340 boxes, at 7¾c; 18 lots, 1,657 boxes, on commission. Total, 174 lots; 17,168 boxes; ruling price, 7¾c. Transactions same day last year aggregated 17,932 boxes; ruling price, 8c.

Live Stock Markets.

CHICAGO.

CHICAGO, Aug. 4.—Hogs—Estimated receipts, 30,000; official Saturday, 17,937; shipments, 1,979; left over, about 10,000; light mixed, $3 60 to $3 90; mixed packing, $3 55 to $3 80; heavy shipping, $3 50 to $3 75; rough grades, $3 50 to $3 60. Cattle—Receipts 20,000, including 6,000 Texans. Market lower.

MONTREAL.

MONTREAL, Aug. 4.—There were about 300 head of butchers' cattle, 35 calves and 375 sheep and lambs offered at the East End Abattoir today. Trade was slow, as butchers were not caring to buy more meat than they could help in such hot, muddy weather. Prices of cattle are without change, but calves, lambs and fat hogs were rather dearer. Best cattle sold at from 4c to 4½c per lb, but they were not very choice. Fat cows sold at from 3½c to 4c per lb. Common dry cows at from $25 to $32 each, or from 3c to 3½c per lb. Lean dry cows and hard-looking bulls sold at 2½c to 3c per lb. There were no really good calves on the market today, and prices were from $3 to $6 each. Shippers are paying about 11c per lb for suitable sheep. Lambs sell at from $3 50 to $4 for good ones, and from $2 50 to $3 25 for common ones. Fat hogs are scarce, and sell at from 5½c to 5¾c per lb.

BUFFALO.

EAST BUFFALO, N. Y., Aug. 4.—Cattle—Offerings 285 car loads and 300 cars went through for eastern markets. The stock, both sale and through, was of very ordinary kind, while buyers sought good butchers' cattle, of which but a limited supply was here. Export cattle were in fairly good supply and demand; a trifle weaker late in the day. The best price obtained for this class was for a load of 1,550 lb fat cattle, $4 70. The general average of stock, 1,300 to 1,450 lbs, was $4 25 to $4 50, not many above $4 40; choice heavy butchers' cattle, $3 90 to $4 25; medium butchers', $3 60 to $4 15, generally $4 to $4 15, and selling better than heavy, proportionately; light butchers', $3 60 to $3 90, most of the fat handy stock brought $3 90; coarse and greenish steers, heavy weights, sold at $2 75 to $3 25; very large supply of this grade, with demand moderate; mixed cattle irregular; extra sold fairly well at $3 to $3 25; fair to choice, $2 50 to $2 90; common to fair, $2 to $2 65; bulls quiet; stockers and feeders were in sufficiently large supply for all wants, and they were hard to sell. Good milch cows were scarce, and there was a good trade for them at better prices. Calves were scarce and higher, some extra good veals selling at $5 25.

Sheep and Lambs—Thirty five cars on sale; fair demand; prices show a slight improvement, but still kept down by the condition of eastern markets. Good to extra sheep, $4 10 to $5; common to good, $3 75 to $4 25; choice to extra lambs, $6 25 to $6 50; fair to choice, $5 75 to $6 25; common to fair, $5 to $5 65.

Hogs—One hundred cars on sale; trade slow; local butchers bought the heavy grades at $4; Yorkers sold slowly at $3 85 to $4; for light to choice pigs, $3 90 to $3 95.

LONDON AND ENVIRONS.

—Mr. E. Bates, of Toronto, is visiting his parents in South London.

—The recent heavy rains have had a salutary effect in raising the water in the river.

—Dr. and Mrs. Eccles, of this city, were registered in the British metropolis last week.

—Mr. Ed. Boyer, a former London boy, and now of Stratford, is visiting Mr. E. Ruse, of this city.

—Mr. Thomas Blackwell, who has been spending a few weeks with his parents in South London, has returned to Toronto.

—The Sunday school children of St. John the Evangelist's Church will picnic at Springbank to-morrow afternoon, weather permitting.

—Mr. Thomas Hancock, of Fort Worth, Texas, and formerly of this city, is visiting home after an absence of several years. He sees a great improvement in the city. He is a prominent manufacturer, and says all the London boys at Fort Worth are doing well.

—About 1,500 members of the G. A. R. of Chicago will take dinner in this city on Friday afternoon while en route for the grand reunion at Boston. The party will travel by way of the Thousand Islands on their way to the Hub.

A Suggestion.

"There's money in it, gentlemen—heaps of money," emphatically ejaculated one of a group of citizens congregated on a street corner.

"What's the bonanza now?" queried a new arrival.

"Why, to run an electric railway to Woodland, Springbank and Byron. It would be a splendid method of popularizing the new park at Springbank."

"Where would the heaps of money come in?"

"Why, think of the means of generating power for almost nothing which is afforded by the waters of the Thames River! It's a big scheme, and the enterprising capitalist who takes hold of it will make a fortune. I'll not charge for the idea, either."

—The regular monthly meeting of the Forest City Bicycle Club was held at the Tecumseh House last night. The meeting was waited upon by a delegation from the Citizens' Athletic Association regarding a proposed tournament to be held shortly in the city. The club expressed their willingness to participate, and arrangements were also made for the trip to Goderich on Aug. 16.

Wedding Bells.

An interesting event took place at the residence of Ald. John Heaman last evening, when Miss Jennie S. Pickard, cousin to Mrs. Heaman, was united in the bonds of matrimony to Mr. A. Dickison, of Arkona. The ceremony was performed by the Rev. Mr. McIntyre, of South London. Messrs. John Stevenson and John Heaman, jun., supported the groom, and Misses Amy Heaman and Ida Gould lent the light of their countenances to the bride. After the ceremony the company—which was composed almost exclusively of relatives of the bride—sat down to a simple but choice repast. After the good things had been disposed of the company entertained themselves by conversation and music until the "wee sma' hours ayant the twal." The happy couple start for their home in Arkona to-morrow.

The residence of Mr. John Crone, 424 Park avenue, was the scene of a very happy affair this afternoon, the occasion being the marriage of his daughter, Miss Frances Susetta Crone, to Mr. Wm. C. Hiscott, of this city. Between 30 and 40 invited guests were present at the ceremony, which took place at 12:30. The bride, who was given away by her father, was handsomely attired in a traveling dress of heliotrope Henrietta, and looked charming as did also the bridesmaid, Miss Minnie Harris, dressed in cream-colored satin. Mr. F. C. Hiscott, brother of the groom, acted as best man, and the knot was tied by Rev. M. P. Talling, B.A., of St. James' Presbyterian Church. The presents were numerous and costly, some of them being especially valuable. The happy couple left this afternoon for an extended trip to Eastern Ontario.

First Strauss Concert.

An audience of about 4,000 persons assembled yesterday evening at the first concert given by the renowned Strauss orchestra, and they listened with enchantment to the exquisite strains of Strauss dance music, executed in a style only possible to this wonderful orchestra. The programme was rendered in such a manner as to call forth an encore after nearly every piece. Eduard Strauss and his Vienna artists vindicated their reputation to the utmost, and succeeded in discovering new beauties and musical effects to the audience. The strength and renown of the orchestra lies in this fact—that they reproduce in the Strauss music the real ideas and intentions of the composers. In regard to the directing of Eduard Strauss, it can hardly be described. He seems to throw his whole soul into the melodies which he calls forth, and his own enthusiasm inflames not only his musicians, but also his audience. We will not undertake to mention each number separately; it suffices to say they were all rendered in a perfect manner, and we will only add that, in the "Kaiser Waltz" Johann Strauss added a beautiful work to his already numberless compositions. But it was not simply in the Strauss numbers that the orchestra showed themselves as artists. Their master work was exhibited in every selection. The "Prayer" from Reinecke, the "Serenade" from Thioczkowski, and the Carmen Potpourri, were exquisite renditions.—Pittsburger Volksblatt.

Inspection That Inspects.

Actiug on the instructions of the Water Commissioners, Inspectors Platt and Plastow have kept their eagle eyes open to detect citizens who thoughtlessly use lawn services after hours, and as a result they have a somewhat lengthly list of water-wasters who will be brought before the Police Magistrate in a day or two to give an account of their short comings, which in no small degree have aided in producing the recent shortage. The most amusing catch fell to the lot of Inspector Plastow on Thursday evening, while making his way along Ridout street. As the watchful officer approached the corner of Kent street he heard the merry play of the lawn sprinkler, and on investigating the case found that the prohibited jet was directed by no other hand than that of Water Commissioner Essery. "You're behind the time," said a voice from the region of the front fence, and the surprised commissioner turned around to be confronted by one of his own inspectors. The illegal water supply was hastily shut off, but too late, as the hands of the inspector's watch indicated that it was 10 minutes past the hour allowed for lawn services, and that 10 minutes made the commissioner a law-breaker. The offense was not committed knowingly, however, and the culprit could hardly repress a smile at what appeared to him as a huge joke. He expressed himself as willing to pay the penalty imposed and will offend no more. The other citizens who have shown a disregard for the mandate of the commissioners in this respect are Messrs. C. F. Colwell, Edmund Meredith, George McCormick, William F. Strong and Edward Lee.

Has Five Wives.

CHICAGO, Aug. 5.—Charles Loring, an electrician, 30 years old, well educated, handsome and of excellent family, is in jail here accused of having five living wives. The prisoner's father is a prominent citizen of Boston. Esther Bastasco, a beautiful English Jewess, is the complainant, and asserts that she is Mrs. Loring No. 1, having married the electrician at Brighton in 1884. Loring, she says, represented himself as worth $150,000, but after bringing her to this country and living with her a time left her penniless. She patiently traced him over the country, but has only now caught up with him. Meantime, it is alleged, Loring married and deserted a girl in four different cities—Chicago, Wheeling, Helena, Mont., and Brighton, Eng. It was with her English townswoman that Miss Bastasco joined forces, and by means of a decoy letter representing that another of Loring's victims was dying and wished to bequeath him some money, secured his appearance and arrest in Chicago.

CARD OF THANKS.

To the members of the Canadian Order of Foresters, and especially Court London City, No. 236, to which my late husband, Mr. A. S. DIANA WENTWORTH,

Or, The Professor's Daughter.

No one with an imagination less vivid than Diana's would have thought it worth all the trouble it had cost to see. It was very small, and the water was very clear. The pine-trees kept a solemn guard over it, and out of a mass of earth which lay in its midst grew a tall silver-birch tree. That was all; but Diana stood for a few moments on its brink and then took out her watch to see how late it might be.

It was later than she thought, and she thrust it hastily back into her dress. She could not at once find the right place for it, and she still held it in her hand when she turned round to get back to the road. She stopped short and her hand was arrested in its motion when she saw a man standing a few paces from her.

It was by no means broad daylight, but she had no difficulty in seeing the man and distinguishing his features. He was tall, with a thin, gaunt figure, and a face with a sullen, rather desperate expression; his clothes was almost in rags; he looked as though he would hesitate at very little. Still, in spite of his hungry appearance, he looked like an educated man; but Diana only thought he was a robber, and, for anything she knew, might have a whole band within call. Even were he alone, she was, as she suddenly remembered, a very long way from help of any kind.

Her heart beat fast, for the encounter was not agreeable, and she stood for a minute looking at him in silence. He spoke first, addressing her in French.

"Will you have the goodness to give me your watch, mademoiselle? You seem to have some difficulty in finding a place for it."

"Thank you," she answered, in a voice which cost her some effort to keep steady; "I can accommodate my watch perfectly well."

As she spoke she finally deposited it in her dress, and then moved a few steps in the direction of the road.

She had no belief that she would be allowed to escape so easily; and, in fact, no sooner did she move from the spot on which she had been standing than two swift steps brought the man in front of her.

"Pardon, mademoiselle," he said again, "I cannot allow you to pass until you have given me your watch and chain."

He spoke and looked as if he meant what he said; but Diana was naturally fearless, and her anger and spirit were roused by this unceremonious request.

"This is nonsense," she said, with the imperious tone which so often came into her voice when she was thwarted or annoyed; "you must let me pass at once!"

"With pleasure, as soon as ever your watch has passed into my hands."

"I took you for a gentleman at first," she said; "but I see you are nothing but a robber!"

The hot temper which had been her bane from childhood was rising, and she scarcely knew what she was saying.

The man shrugged his shoulders, as he answered:

"Necessity knows no law; often the mighty are brought low. I should advise you to do what I ask quickly: I should be unwilling to keep you out late."

"You shall not have it," she answered, her natural determination coming to her aid. "Let me pass at once. It is cowardly of you to stop a lady who is alone, and to try to frighten her in this way."

"Ah, mademoiselle," he said, "nothing could give me greater pain than to appear at a disadvantage in your eyes. If I seem rough you must lay it at the door of my unfortunate condition. In short," his tone suddenly changing, "I am starving, and a starving man is desperate. Give me the watch without more delay, or I must take it by force."

He spoke more roughly than he had done yet, and Diana bit her lips and tried to believe that her heart was not beating in a way which almost took away her breath. She began to feel seriously alarmed; but in spite of her fear she was cool enough to reason that the loss of the watch and chain, even had she felt no natural disinclination to part with them, could not possibly remain undiscovered and unremarked. Any explanation would be at once awkward and humiliating. Pride urged her to stand out as long as possible. She resolved to try persuasion.

"The watch is of great value to me," she said. "It was a gift from my father, who is dead. I cannot believe you would use force against a woman who is alone and without defense. I beg of you to let me go."

"You shall go as soon as you have done what I ask. I am a gentleman and without great provocation would not harm a hair of your head. God knows I do not live like this from choice. But the watch I must and will have. If we stay here till midnight, I will not go without it. But the moments are precious, and you must remember you are in my power."

Perhaps with the intention of giving her a gentle reminder of the reality of her position, he came forward a step and laid his hand on her arm. It was a very light touch. But Diana recoiled as if a serpent had darted out its sting at her; everything swam before her eyes, and she trembled from head to foot.

"Oh," she cried, her voice unsteady with mingled anger and horror, "how dare you touch me! stand back at once!"

She looked desperately around as she spoke, her lips half opened to call for help; and then she closed them again, as the thought came over her, chilling her with sickly fear, that nothing like help was anywhere within reach. She leaned against a tree, scarcely able to stand.

The man, watching her closely, probably saw the effect of his action, and, being really desperate, hoped that a repetition of it would bring the scene to a speedy close. He stepped up to her again, and firmly grasping her arm with one hand with the other seized the hand with which she had clutched that part of her dress where she had put her watch.

"Now, mademoiselle!" he said, bringing his face very close to hers.

Her head swam as she bent it back as far as possible, so as to withdraw her face from his; and she shut her eyes that she might not see the fierce, haggard countenance so near her own. A frantic, unreasoning terror took possession of her, and, pushing him from her, she took out her watch, saying, wit a half sob:

"There, take it, and let me go."

His hold relaxed at once and he seized her watch. The long gold chain was entangled with one of the buttons of her dress, and, as she hastily strove to free it, she caught sight of Garthwaite's little shabby seal which she had forgotten, and which she suddenly realized was more precious to her than a hundred watches and chains. Her fingers tightened upon it at once, and she said quickly:

"Wait a moment."

"What is it?" he asked, impatiently.

"This little seal you cannot have it. It is of no value except to me. Let me take it off the chain,"

"No, it belongs to me; you must let me have it!"

But she was desperate, with the feeling that that which she most prized on earth was at stake, that she would endure almost anything rather than let this go; and she returned, doggedly:

"No, the watch and chain you may have, but this I will keep."

He might have snatched it from her hand but he did not, he only said:

"I must have it, too How is it you attach such price to it, if, as you say, it has no value. Either you are deceiving me, or it is something you prize for its own sake, perhaps a love-token."

Diana's face burned, but she only tightened her hold on the seal without speaking. But her head drooped somewhat so that she did not see the expression which came into her companion's face. He looked at her fixedly and in silence for several moments and then he said more gently:

"I must request you to give me the seal."

"No," she said, almost beneath her breath.

"Then I must take it," beginning to unclasp her fingers one by one.

SHE CAN RUN THE MACHINE.

A Charming Young Lady Who Has Been an Engineer Three Years.

To see a woman running an engine in real life is a genuine novelty. The fair sex occasionally run engines in novels, on the stage and so on, but a real, live female engineer is a new sensation. Of course she is young and pretty. They always are. The romance of the case is, however, cut out by the cold-blooded announcement that she is not doing it to save a husband, lover or father's life or liberty. She is purely mercenary. The stipend drawn at the end of each week is all that she is after. Her name is not known. Perhaps this is where the romantic part comes in. Perhaps otherwise. Be this or that as it may, she is a flesh and blood reality. When a reporter called at the place where this novelty works he stated his business to a young lady clerk, and asked to see the woman who runs the engine.

"A lady is our engineer," tittered the clerk, "but she is busy and can't see any reporter."

"Can she be seen?" was asked.

"No," was the answer. "She will see no one, unless it is an examiner of engineers, and then she will be found ready and anxious to answer all questions."

The lady engineer, as she is styled, has had charge of the engine for about three years, during which time she has had no trouble and has apparently been well able to attend to all the duties devolving upon her. Her principal claim for competency, however, is that she has taken her engine apart and placed it together again without seriously damaging its component parts or detracting from its power. Questions to be propounded to her by the reporter were furnished by an engineer, but she declined to answer any questions at all unless they came from the board of engineers. These queries were regarding her knowledge of how to figure on her safety valve, her boiler's horse-power and her engine's horse-power. That she can demonstrate properly on all these intricacies she does not doubt, and is anxious to have the board of examiners pass on her case.—[Chicago Herald.

Milk of Magnesia

Cures Dyspepsia, Indigestion, Sick Headache, Heartburn.

The best, safest and most agreeable of the preparations of Magnesia. For all disorders of the stomach, as Dyspepsia, Indigestion, Heartburn, Sour Stomach, Sick Headache, it will afford immediate relief. Its pleasant taste and milk-like smoothness render it very valuable for infants. It positively prevents food scuring on the stomach.

Immediately corrects bad taste in the mouth and renders impure breath sweet and agreeable. Ladies using this preparation will find it of such real value as to make it a standard remedy in every house.

For sale by all Chemists.

THE WEATHER PROPHET.

TORONTO, Aug. 4—11 p.m.—The pressure is lowest over the lake region and Northwest Territories, and about average in Manitoba and Maritime Provinces. Local showers and thunder-storms have been prevalent in Ontario and Quebec, and the weather has been fine in other parts of the Dominion. Winds on the lakes have been moderate to fresh and variable. Minimum and maximum temperatures: Calgary, 50—86; Prince Albert, 42—82; Qu'Appelle, 42—82; Winnipeg, 50—74; Toronto, 62—85; Montreal, 72—88; Quebec, 68—86; Halifax, 62—84.

TORONTO, Aug. 5.—1:30 a.m.—The indications for the next 24 hours for the lower lakes region (covering the peninsula and as far east as Belleville) are: Wind mostly westerly or northwesterly; fair weather, with a little lower temperature.

LONDON AND ENVIRONS.

The ADVERTISER is read by business people. They are the ones who have the situations. Therefore, to secure a suitable place, your opportunity lies in putting a 15-word Want Ad. for 15 cents in the ADVERTISER.

—Miss K. W. Hawkins is visiting her parents at Port Albert.

—The Misses Kate and Jessie McDonnell, Simcoe street, leave for a couple of months' visit to Northern Michigan.

—Miss Effie McKee, of Queen's avenue, has returned home from a pleasant three-week's visit at Mr. Grafton's, Hamilton.

—The Christian Endeavor Societies of London and St. Thomas will hold their annual picnics together at Port Stanley on Aug. 18.

—The Memorial Church Y. P. S. C. E. has accepted the invitation of the St. Thomas local union to a picnic at Port Stanley on August 12.

—Mr. R. C. Milne has left on an extended tour via the Merchants' Line to the northern lakes, visiting all popular and interesting points en route.

—John F. Scott and Geo. Bratt, drunks, were discharged at the Police Court this morning. They raised a considerable disturbance last night near Mr. Thomas Reycraft's house, 408 Rectory street.

—Rev. Thomas S. Johnson, of Brantford (late pastor of Adelaide Street Baptist Church), is enjoying a brief vacation, and was in the city to-day on his way to visit friends in Sarnia.

—Mr. J. B. Cook, one of the party of London tourists to Georgian Bay district, returned home yesterday and Mayor Taylor also reached the city in the evening. The remainder of the party have gone to Pike Bay and will not return until the end of the week.

—Stevens & Burns' employes' annual picnic, which it was proposed to hold on Saturday next, has been temporarily postponed owing to the extra amount of work which the firm now has in hand.

—"D" Company Band will play "The Battle of Tel-el-Kebir" at the garden party to be held to-night at Captain John Williams' Central avenue, under the auspices of the Ladies' Aid of the Colborne Street Methodist Church.

—Mr. Harry Schabacker, late with Powell, Allen & Brickenden, left for Chicago Sunday morning. On the eve of his departure he was presented by a few of his friends with a cane, suitably engraved. He has a host of friends who wish him success in his new home.

—A man calling himself Alf. Highton, Philadelphia, forged the name of Hon. John Carling to a note for $50 and got Mr. Elliott, of Elliott & Reath, St. Thomas, to cash it. He has since disappeared. He is also said to have got ahead of Mr. C. Crowley, this city, to the extent of $5.

—Mr. John B. Cox, charged with using abusive language to Dog-Catcher F. Laderson on July 26, appeared at the Police Court this morning. Mr. Cox's sympathies had evidently been extended to a canine which Laderson was trying to capture, and his heart had perhaps got the better of his head. The charge was withdrawn.

—The Secretary of the Memorial Church Ministering Children's League has acknowledged with thanks the several parcels of clothing for Mr. Trivett's box sent by the following friends: Mrs. Wright (new goods), Mrs. Patterson, Miss Constance Ford, Miss Eleanor Carnegie, Mrs. Richardson, Mrs. Graydon, Mrs. Mills, Mr. Gill (second parcel), Mrs. Reason (six yards new rag carpet).

—John W. Pocock's breach of the fire limit by-law came up at the Police Court this morning for the twentieth time. It appears that the defendant erected a small wooden structure near the C. P. R station and obtained the consent of the City Council allowing it to remain. Chief Williams says he has positive instructions from that body to prosecute Mr. Pocock, and means to do so. The Magistrate adjourned the case until after the next meeting of the City Council.

—The New York Mirror, in a review of Rhea's plans for next season, has the following: "A young Canadian, Hastings by name, has been engaged for the part of Junot. He is a particularly handsome man, and will make a great deal out of the part." It will be remembered by Londoners that this actor appeared with Rhea here last season, when she presented "Eugenie, Empress of the French." His home is at Parkhill. A number came from the latter place to witness the performance.

—John Perry, his wife Eliza and son Allan were charged at the Police Court this morning with assaulting Walter Chisholm. It appears that Allan took Chisholm's gloves, and when the latter went to Perry's house to recover them a slight skirmish with Mr. Perry, sen., occurred. Mrs. Perry went to the assistance of her spouse, and happened to cast a tin can at Chisholm, cutting a gash in his forehead. The Magistrate decided that both parties were to blame, and dismissed the case by charging the complainant the costs of the court.

In Honor of Dr. Verrinder.

Mr. and Mrs. P. J. Watt tendered a reception last evening to the choir of St. Peter's Cathedral at their residence, the affair being in honor of the retiring leader, Dr. Verrinder. The evening was very pleasantly spent in various forms of amusement, among those who contributed vocal selections being Mr. and Mrs. Watt, Mr. Brookhouse Bowler, Mr. Harry Lenox, Mr. W. Miller, Mr. C. H. Fewings, Miss McCarthy, Miss Hennessy, Miss Mulligan and others. The party sat down to a very tempting supper, and subsequently dispersed at an early hour. This evening Dr. Verrinder will finally say farewell to the members of the choir at his home on Queen's avenue.

Y. M. C. A. Camp Notes.

The usual number of visitors continue to call at the camp and pass favorable comment upon our equipment and surroundings. Our lease of the small tent ran out the other day, and Messrs. Fred Darch and John Richards, of London, came and took it away to use themselves.

A somewhat amusing occurrence has just come to light relative to one of the campers. When he was leaving home to come down his folks put in a white tablecloth for the use of the boys, and he, thinking it was a sheet, put it on his bed and used it in that capacity ever since, and would not have known his mistake had not some of his people happened to come down and ask him about it. We have the laugh on him now. He is contemplating taking a course of lessons, so that he will be able to tell the difference between such articles next time.

Lew, the treasurer, who was reported as having skipped with the funds last Thursday, has returned to camp. He no doubt saw the error of his way, and thought it best to come back. In virtue of his return he has been reinstated in office.

Oliver Lee and Fred Kerrigan, two new campers, arrived an Monday. SCRIBUS.

Sing Their Own Praises.

There are few, if any, in the great army of smokers who have not been, by experience, placed in a position to judge as to the merits of the "Norma" 10-cent cigar manufactured by H. McKay & Co., of London. In almost every cigar store and hotel in Canada this pet of all lovers of 10-cent goods has found its way, and is finding rapid and constantly increased sale. Unlike other similar goods, its fame is not of a transient nature. The "Norma" contains all the merits of the imported cigar, and has in many cases supplanted its more expensive rivals, and each successive season but adds to its host of admiring consumers.

The large establishment of H. McKay & Co. is kept continually engaged in supplying the demands made upon them for the "Norma."

Rheumatism,
BEING due to the presence of uric acid in the blood, is most effectually cured by the use of Ayer's Sarsaparilla. Be sure you get Ayer's and no other, and take it till the poisonous acid is thoroughly expelled from the system. We challenge attention to this testimony:—

"About two years ago, after suffering for nearly two years from rheumatic gout, being able to walk only with great discomfort, and having tried various remedies, including mineral waters, without relief, I saw by an advertisement in a Chicago paper that a man had been relieved of this distressing complaint, after long suffering, by taking Ayer's Sarsaparilla. I then decided to make a trial of this medicine, and took it regularly for eight months, and am pleased to state that it has effected a complete cure. I have since had no return of the disease."—Mrs. R. Irving Dodge, 110 West 125th st., New York.

"One year ago I was taken ill with inflammatory rheumatism, being confined to my house six months. I came out of the sickness very much debilitated, with no appetite, and my system disordered in every way. I commenced using Ayer's Sarsaparilla and began to improve at once, gaining in strength and soon recovering my usual health. I cannot say too much in praise of this well-known medicine."—Mrs. L. A. Stark, Nashua, N. H.
