GENERAL CHATS ABOUT WAR

To Officers and Scribes He Praises the Spirit of Volunteers.

"You men who will form the second overseas Canadian contingent are the best product of our country. You will go to the front of battle and will make a name not only for yourselves but for the country you will represent so gloriously. I am proud of you. Canada is proud of you. The whole world will come to hear of you and the Germans will tremble with fear when you get into action. The men of the first contingent have already proved their worth. Canadians need never fear but that the other men who soon will be on French soil will not

make names as glorious." deciared Major-General Sam Hughes to the officers of the 18th Battalion, the 33rd Battalion and the 7th C. M. R., at the conclusion of an official review at Carling's Heights this The men, some 2,500 strong, marched past in splendid order. Each company officer saluted the majorgeneral as he came opposite him, and the courtesy was returned by Minister of Militia. The men looked really fine as they moved along in exact precision; straight as dies were the lines, and the men's faces, while not exactly grim, displayed emotion, which showed they truly appreciated the responsibility which rested on

men's Quarters Wrecked

Liverpool, April 9.-The captain of the Blue Funnel Line steamer Theseus, which left Liverpool March 27 for Java, has sent back a report of an exciting chase by a German submarine. The Theseus managed to make her escape. but she was subjected to and damaged by shell fire from the submarine. Ignored Signal.

March 29 at 7 o'clock in the morning the Theseus sighted the submarine at a point forty miles southwest of Bishop Rock Lighthouse. The submarine signalled her to stop and abandon ship, but this order was ignored, and the Theseus put on all steam and started zigzagging on her course. The submarine opened fire, and continued throwing shells at the Theseus at intervals. The chase continued until 10:30, when the submarine abandoned the pursuit and appeared to turn her attention to a small steamer flying the Norwegian flag.

Five Shells Hit.

Of the seven explosive shells fired by the three-inch guns on the submarine five struck the Theseus and did consid. erable damage. The mainmast was badly cut, and the quarters of the firemen in the poop were wrecked. The distance covered during the chase was about 57 miles. The Theseus maintained speed of about 17 knots. From time to time she fired explosive distress signals in the hope of attracting the attention of a British warship.

No One Injured.
The captain of the steamer is of the opinion that had it not been for the crew of the Theseus was injured. All the damage to the vesse, was above the water line, and only temporary repairs

City Might Impose ALLIES DEVELUP Few 'Extra' Rates onPhoneCompany

Alterations On City Streets, Gen. Joffre Forcing Germans If Company's Policy Were Applied by Municipality, Would Cost Pretty Penny.

Suppose Mr. Smith and Mr. Jones agree to trade houses. Both have telephones, and they want the installed phone in each house to remain in its place.

Do you suppose the Bell Company will simply change the numbers and leave the telephones on the walls? No chance! The benevolent Bell Company will

proceed to remove each telephone, and will charge each subscriber \$5 for the transfer. It keeps men working at a fair profit, and is a part of the company's system.

Instead of aiding the subscriber by a broad policy of service and convenience, the telephone company seems to collect at every opportunity, because it knows there is no competitor in the field. Every move means dollars with the Bell Company.

The city might make every move of the telephone company mean dollars. For instance, every time changes in poles or alterations to cables were made it might be policy for the city to charge a fee. are many other "extras" the city might insist upon.

President of Canadian Club Declares London Stores Are Adequate To All Demands.

Representative London women have voiced some very interesting and di-verse opinions today, in regard to the article appearing in Thursday evening's Advertiser affirming that London merchants yearly lost thousands of dollars because city women buy their clothing in American towns and cities. Interviewed by an Advertiser reporter this morning, Mrs. Betts, president of the Woman's Canadian Club, stated that she was entirely in sympathy with the merchants of London, and believed that really loyal and patriotic Canadians should make their

A second officer of the same organization did not agree that London women went to American cities to do eir purchasing.

"I saw the article in question," she stated to The Advertiser, "but personally I do not know of one woman who does this. In fact very few whom I know go even to Toronto. CANDIDATES!

Attention is drawn to the fact that the first list showing the standing in the different districts will be published on Monday or Tuesday next.

The result in any race depends a great deal on the start. Your friends will all want to see your name at the head of the list in your district.

See that you deposit all the votes in your possession before Saturday night to insure their being credited in time for the first published report of the totals. Watch the advertisements regarding the contest, as well as the bulletin, as important announcements will be made from time to time.

If you have friends outside London, call or send to the Circulation Department and get any number of letters you can use to solicit their help.

TRAINING SOLDIERS TO TAKE OFFICERS' BANK

Britain Has School in France Near General Headquarters.

London, April 1-(Correspondence) .--The school for training officers, established by the British general staff, is located close to the general headquarters in France, and now has more than a hundred students, all picked from the ranks. The course occupies a month, and combines theory with practice, although special emphasis is naturally

placed on the practical side. The school occupies a comfortable old mansion. A group of barns and sheds have been fitted up as dormitories. In the courtyard is a great sand bank, where the students construct model trenches, and apply the theory of the

25c Bottle of "Danderine" Keeps Hair Thick, Strong, Beautiful.

Try This! Doubles Beauty of Your Hair in Few Moments.

Within ten minutes after an application of Danderine you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Dayderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.
Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that hair is as pretty and soft as any It has been neglected or injured by care-less treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine.

THE PREMIER'S COM-PLAINT.

THE Advertiser has never doubted the lovalty of Sir Robert Borden, whatever it may have thought of his capacity as a leader of the Canadian Government. Consequently, from this paper in the House of Commons yesterday he did not use a parallel for the Conservative political pamphlet which charged Sir Wilfrid with the rankest of disloyalty and said that the Liberal leader had not asked for recruits in Quebec at the very time that Sir Wilfrid was stumping his na-

tive province. The Advertiser does not believe that, unless through illness, it was the duty of Sir Robert Borden to be in Hot Springs, Virginia, for four weeks at a time when the country was in the midst of the most critical period in its history. It would be the first to sympathize with a premier overworked to the point of having to leave the Rich .- Your country, but there was no suggestion that he was obliged to go away. Busy Mother's Help.
Dear Miss Grey,—I see a request on your page for a cure for sweaty, odorous feet. My husband used to be very much troubled with this until someone advised his getting five cents' worth of permanganate of potash and putting enough in a basin of warm water to turn the water purple. Then bathe the feet in this. He only used it once or twice and is never troubled with sweaty feet new except in very hot weather, when he is on his feet very much. This amount will last a long time, as it only requires a few grains at a time and it is excellent for

Rubber Set Brushes

Just stop and think what a particular pleasure it must be to never encounter a stray bristle on your face when shaving. Those stray bristles, which are bound to come loose from ordinary brushes, are liable to cause an accident when shaving which would leave a scar on your face and disfigure you for life. With rubber-set brushes such a thing cannot happen. Each bristle is locked by a special process in a rubber base, which gives them extra resiliency, yet holds them absolutely fast. They cost no more than ordinary brushes, yet insure a creamy, free lather for your 35c Up face.

Plan Announced in New York to Benefit Belgians and Non-Combatants.

NEW YORK, April 8 .- To raise within one week at least a million dollars for the combined benefit of the unemployed in New York, destitute Belgians and non-combatants in the European war, is the plan announced tonight by the Belgian American relief and unemployment fund committee.

Beginning Monday, a thousand wo-men, many of them wealthy and socially prominent, will open a campaign to raise the funds of personal solicitation, which will continue until April 26. The funds will be turned over to the several committees, which in this city are dealing with the problem of distress. The campaign will be inaugurated with a dinner on Monday night to enthusiasm. The women workers will be divided into teams of ten each with a captain and will report progress daily at the funds headquar-

This latest addition to the chain of popular Taylor Stores is situated at the

Corner of Hamilton Rd.

The same low prices on reliable drugs, combined with the prompt, intelligent service and square dealing that characterizes all other Taylor Stores, will prevail here.

In the matter of SERVICE, of LOW PRICES, and of DEPENDABILITY, we stand head and shoulders above all competitors.

BECAUSE

Our FIVE Stores are all well distributed in busy sections of the city, where cut-rate stores such as ours are needed.

This makes our service unexcelled, because no matter where you live it is not far to one of the Taylor Stores, and our delivery service is very prompt. Every one of our stores is in charge of competent graduate druggists, with years of experience in prescription work.

We UNDERSELL every other Drug House, BE-CAUSE we are the LARGEST BUYERS of drugs in Western Ontario.

Buying DIRECT from the MANUFACTURERS, in quantities no other drug concern could dream of buying, we save you the WHOLESALER'S profit of from 20 to 30 per cent.

To handle such immense quantities we must have a tremendous output.

That is why we operate 5 DRUG STORES in London and sell at lowest cut rates every day in the year. We differ from other druggists in the fact that we prefer a very large business at a small profit, to a small business at a very large profit.

Our enormous turnover insures the freshness of every article you buy from us, and our reputation for square dealing guarantees the quality.

It will pay you to preserve this advertisement for reference, because the following prices are good every day from now until Thursday, the 15th of April.

THESE PRICES ARE GOOD ONLY AT THE 5 TAYLOR STORES, AND ARE FAR LOWER THAN ANY OTHER DRUG CONCERN WOULD DARE TO MAKE THEM.

STORES in SCHOONER LOST WITH MATE AND FOUR OF CREW

NEW YORK, April 8.—The loss of the schooner Edna M. Smith with her mate and four of her crew was reported to-night, when the Norwegian steamer Petra arrived from Guantanamo, Cuba. The Petra had on board Captain Farrell and eight survivors of the crew of the Smith, rescued from an open boat by the Petra. They had nothing to eat for four days.

Captain Farrell said that he left Gulf-port, Miss., on March 16, with a cargo of lumber for Portishead, Eng. On April 2, he encountered a severe hurricane and his vessel soon became un-manageable. During the storm the mate and four men were lost overboard. After all hope of saving the vessel had been abandoned, Captain Farrell and his eight men took to the lifeboat. Soon afterwards the vessel turned turtle. The Edna M. Smith was formerly a British bark hailing from St. John, but had recently changed her rig to that of a schooner and came under American registry. She was built at Harvey, N.B., in 1903, and had a net tonnage o

London, April 9.—The stock market was quieter today. There was some irregularity in gilt-edged securities and copper and De Beers shares on profit-taking sales. Kaffirs rubber stocks and the Russian mining group continued active and firm. Russian and Chinese bonds were in good demand, but Argentine rails were easy.

American securities opened dull, but became active before noon, with quotations occasionally lower. The closing was irregular.

WALL STREET.

New York, March 9—Wall street, 10:30 a.m.—The sensational movement in Bethlehem Steel was continued at the beginning of today's meeting. Trading in the stock was of the most feverish character. The opening transaction was a block of 2,000 shares at 110 to 107, it closing price yesterday being 105. From 107 it fell by easy stages to 103, and gradually reascended to 115, then back to 109. Individual transactions were very large, but the total output in the first fifteen minutes was a little over 8,000 shares, mainly in lots of 100 to 200. 18 Dominion Savings Building STOCKS BONDS, GRAIN AND PROVISIONS.

Noon.—Highly favorable trade reports issued by the treasury department, and circumstantial peace rumors were the chief influences back of the market, which gathered greater strength and activity after the first hours. Transactions in the morning approached half a million shares, United States Steel contributing a very large part at a maximum gain of 2 points. Other leaders advanced 1 to 2½, and specialties, particularly motor shares, continued their progress to record-breaking prices. Bethlehem Steel was temporarily relegated to the background, but toward midday again became active on a rising scale. Bonds were firm.

1:30 p.m.—Speculation drifted into other channers during the early afternoon, with notable strenth in Rock Island and Rubber shares. Later the leaders again became the centre of a fresh buying movement at higher prices.
