SEWER SYSTEM IS CONDEMNED

Serious State of Affairs DRIVER AND FIREMAN Brought to Light by City Engineer.

SOMETHING LOOKS RADICALLY WRONG

And the Man Who Put Down of the Quebec express, bound from Quebec to Boston, were killed near the Works Is To Be Asked to Help City Out.

The whole sewer system of the city of London is said to be demoralized. So bad have conditions become that Mr. Willis Chipman, of Toronto, consulting engineer, the man who put down the big system of 1906-7-8, has been wired to come to the city and make a report on the question and

recommend what is to be done. After the regular meeting of the council last evening the members adjourned. By a preconceived arrangement they assembled in one of the committee rooms not frequently used, ALDERMANIC OPINIONS and discussed the situation. The press was excluded, but the cause of the meeting was easily learned.

Engineers Make Report.

City Engineer Graydon was present and gave a report of the findings of Assistant City Engineer Wright and his assistants, and it was on the strength of his report that it was dethe cided to call in consultation, Mr. Chip-

This season there has been an abnormal number of complaints regarding the sewerage system. These complaints were not confined to any particular section but were

Mr. Graydon and Mr. Wright have been extremely busy on this work, and in several instances they found He declared that it was not his in-local sewers choked up with roots and tention to advocate a board of conother material. This led to an investigation into the whole system.

Bad in South London South London is in particularly bad tondition, and it is from that section that the chief difficulty has come although all parts have been effected. During the past two years several trunk sewers have been built in that section. As rapidly as they were built connections were made until practically the whole section had sewers. The north and east sections were in

the same position. All were connected with the main sewer system. With the drainage of so large an

System Condemned. The outcome of the whole matter is that the entire sewerage system of the city of London is practically con-

The trouble so far as can be learned is on the outlet. The main brick sewer on King street is 4 feet 6 inches. That carries the sewage along until the river s reached, when it empties into a 20inch pipe, which conducts it to the

Years ago this 20-inch pipe was sufficiently large enough to carry away all the sewage, but it is not large enough at the present time.

A 12-inch sewer has been built in north end that drains many blocks. The same is true in South London, where two trunk sewers have been built. Another has been built recently along Ottaway avenue, and the Dundas street sewer has been carried far east. This has increased the amount

natural sewage a great deal, and has in itself taxed to excess the main

In addition there is a great deal of surface drainage running into the main sewer. It is well known that London has no storm sewers, to speak of, and as a result a large portion of the other sewers.

A Serious Problem.

Now the city is face to face with a serious problem, and one that will mean the expenditure of a large sum of money.

City Engineer Graydon has recommended a storm sewer system for the city. That would carry off all surface water and street cleanings and the

System Condemned.

Ald, Stevenson roundly condemned the board of control system. We have a peculiar way of doing council," Stevenson. "When we think anything tion today is good for the people we don't allow. By the r them to think on the subject, but we take it out of their hands. Now we are sending this question tween Bolton Junction and Bolton has people because we think they will defeat it. I object to sending it to them on that score. I object to the principle. I do not think we are in a position to have a board of control.

The Council Expenditure.

"What have we to control? Of the expenditure of the year, \$742,000, there is the sum of \$542,802 which is classed in the auditor's report as uncontrollable, leaving us \$199,200 to expend. Of that so-called controllable expenditure, there are the firemen to pay, the salaries to pay, and a thous and and one things that are out of our control entirely. As a matter of fact we have not 5 mills on the dollar to control, and where does the advanteducated board of control manage that much business come in?"

A Few Doubts.

"We are a board of control, elected by the people. I doubt that men will give more time if they are paid for I doubt if you will get better men If they are paid for it. We act with out salary, and I believe the councils have acted as good citizens. The men whom many expect the board of control to bring into public life will not come for a paltry salary, because they are too busy, and their business is giving them too large rewards."

No Encouragement.

Ald. Stevenson also complained that the citizens gave no encouragement to their aldermen. Although every business, every up-to-date concern spent great sums of money in sending their representatives abroad to pick up new ideas, complaint was made by some people because the council spent small sums of money in going to conventions where much of value was obtained by the city's representatives. "If the citizens would encourage and

support their aldermen instead of con-tinually fault-finding, we would have

GUILTY OF KEEPING DISORDERLY HOUSE Not Need

Reginald Cannady and Others Convicted in Police Court Today.

Reginald Cannady, of 108 Clarence street, and his wife, Mary Cannady, were found guilty at this morning's ession of the police court of keeping disorderly house. Cannady was fined 325 or 21 days, and his wife was reanded for a week for sentence. Mrs. Mary Gilliam, charged with being a requenter, was also found guilty, and was remanded a week for sentence. A colored man charged with being a requenter, was allowed to go. Sergeant Birrell and Sergeant Down gave evidence regarding what they had seen at the place on different oc-

casions and stated that the neighbors had made many complaints. Mrs. Gilliam is rather a good-looking young white woman. Her husband is a colored man. Some time ago Mrs. Gilliam wanted to leave her husband, as the two have not been happy to-The matter was fixed up at

The above is a statement made by Archbishop Langevin, of Winnipeg in an interview accorded in the residence of Archbishop Begin, of Quebec, where his grace of Winnipeg is staying during there will be a number of poles ing the sessions of the first Plenary Council of the Catholic Church in Canada.

The highest dignitaries of the church are assembled here, and while they have many matters of importance to deal with, the Ruthenian question is, perhaps, the great question, and will be the source of most serious discussion at the meetings of the council.

It is certainly a live issue, so much so in fact that bishops from Eastern Canada, who personally are not interested, have become so through what the representatives of the church from

the west have told them. Considerable interest was added to the discussion when their graces read the interview in which Rev. Dr. E. D. MacLaren, secretary of the home missions of the Presbyterian Church, denied certain statements made in the Register. The interview has been read and re-read, and when the newspaper man was accorded the interview with Archbishop Langevin, he was already thoroughly aware of what Dr. MacLaren had stated.

"As I said," continued his grace, "I have nothing to say against the heads of the Brandon institution, with whom I am not personally acquainted. I am well aware, though, of the work that Normal School is doing, as the missionary priests from all over my diocese keep me informed as to the facts. And the facts are these. skin, which was not only unsightly, but at times very painful. I first tried variou household remedies, but all these proved altogether useless. "I then took medical advice. Not one but several doctors in turn were consulted

but I was unable to get any permanen relief. Some time back I noticed a repor from a Justice of the Peace who had bee cured of a chronic skin-disease by Zam-Buk, and I determined to give the balm a trial. "After a thoroughly fair test, I can say I am delighted with it. I have the best

At the same time the London street railway put in a formal application to double-track the street. Manager King in his letter referred to the fact that a petition had been put in for He was very carefully examining curb and gutter, and asked that it be not allowed to interfere with the dethere was none, yet the pallor of the cision of the company to double-track countenance was unmistakably that of the street. He considered good street death, while the hard, white disfigure- railway service was of more importance than a wide street and boulevards for two blocks.

Want Double-Track. He asked that if the petition could

not be denied, that the curb and gutter be laid so that it would not interfere with double-tracking. Ald. Saunders, Ald. Cooper and Ald.

motive for her death as well as her to the council laying the petition over "At the last meeting of the council we brought in a recommendation that the petition be laid over," said Ald. Saunders, "The council would not accept that, and compelled us to bring in a recommendation finally disposing of it. Now we say that the curb and ert, prostrate form, and took the ungutter should be laid. The petition gloved hands in mine. The stiffening has a right to be acted upon." "We know very well the history of this petition," said Ald. Beattie. "It

was presented entirely for the purpose of frustrating double-tracking the

Ald. Stevenson's Opinion. "The petition, if granted, as the residents desire, will interfere with the adequate street car accommodation of the city, and we should not grant it," said Ald. Stevenson. "It is a question whether the council control the streets or whether the residents of a street. This street is becoming a business street, and it will be such. The people want the curb and gutter because the city will then donate a large portion of land for their boulevards. I cannot see why the council are so solicitous about the residents of this street, when they have shown no such

solicitation for others."

Engineer's Powers "The petition can be granted, and the engineer will have the power to lay it wherever he likes," said Ald. Saunders. "He can move the walk if

he thinks it necessary." The prayer of the petition was granted on the following division: Yeas-Ald, Gerry, Saunders, Cooper, Garratt, Fitzgerald and Moorhead. Nays-Ald. Ferguson, Beattie, Stevenson and Stewart.

SMALLPOX AT HAMILTON. Hamilton, Sept. 20.-The smallpox cases in the city have all been quarantined at the new isoaltion hospital, and the board of health has arranged with the parks board for the use of the old Peter Brass Home for scarlet fever patients. There is some talk of getting this property for a permanent general hospital, owing to the overcrowded condition of the City Hospital, which has been very bad for a year or more.

OLD PEOPLE SUFFER TORTURES With Their BACKS

HERE IS A CASE IN POINT.

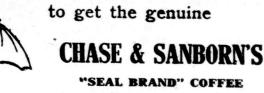

Of course you know a dull ache or sharp pains in the back come from sick kidneys. Old age exacts its penalty. The kidneys become weak or strained through the hard work of a plates from the heights of heaven what lifetime. Plasters, ointments and liniis taking place here today. He sees ments only ease the pain—they can't gathered together from all parts of the reach the kidneys. As soon as the immense territory he once ruled and effects of such remedies wear off the which forms as it were a halo around pain returns worse than ever because the kidneys are worse. West Fort William, Nov. 7, 1908.

"I have been troubled with a lame back for the past twenty years, and rather his children. They are gathered have used plasters and ointment withhere from the east and the west, some out effect. At last I tried Gin Pills, still young, others advanced in years, which proved just the thing, and I would highly recommend them to anyone who has strained or lame back." Gin Pills, you see, act directly

To Produce Best Results Flour Must Be Properly Aged

MILLS with insufficient storage capacity are forced to ship their flour before it is properly aged. Underaged flour requires expert handling in order to secure even fair results. In our big warehouses in six different cities we have storage capacity for 370,000 (98-pound) bags. We are thus able to store "Purity" Flour until it is properly aged.

You can never get underaged flour if you always specify "Purity."

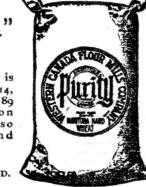

Good results come easiest and surest with "Purity" Flour.

More Bread and BETTER BREAD."

Purity Flour is packed in 7, 14, 24, 49 and 89 pound cotton sacks. Also barrels and half-barrels.

Turner, of the Hamilton Tigers, is a ight chap, with a good foot and some speed, and should make a hit with the crowd. He is a blonde-haired chap, 274 too, and should fill Cotton-Top Tope's place in this respect, for it would never do for the Tigers to be without a blonde somewhere on the lineup.

BLEACHER RULE COSTS THE ATHLETICS \$55

Forty-Four Balls Went Into Stands in Three Days, and Club Is Out of Pocket.

Philadelphia, Sept. 20 .- Three of the Detroit-Philadelphia games cost the Philadelphia Ball Club \$55, because of a rule that exists among the gods in the land of bleach.

Foul balls knocked into bleachers are never returned. Every time ball is sent into the crowd along right or left field foul line, there is a wild scramble, and the kid who happens to get it is a happy chap.

Balls knocked into the grandstand are generally returned, but this is always done under protest of some two or three hundred fans, who yell, 'Keep it."

On Thursday, 11 balls were knocked into the land from which no ball ever returns; on Friday, 15 landed there, and on Saturday the day's total was 18. Grand total, 44 balls; total cost, \$55.

He visited in his journeys, England, France, Germany, Switzerland and Italy, and studied the railroad situa-

tion in each of those countries.

"Men of money abroad," continued Commissioner Lane, "are satisfied that America is on the eve of a rhenomenal era of prosperity, and are ready tral district of the Methodist Church and anxious to invest their money in any stable enterprise in this country; but what they want is some assurance from the Government that their investments will be protected in a fair way. With the enactment of a law to prevent overcapitalization, American railroads would have no difficulty in obtaining in Europe all the money necessary for their development."

RUGBY PRACTICE AT 7:30 TONIGHT

There was some misunderstanding about the rugby practice last night, and a number of the boys turned out at the old hour of 6 o'clock. Despite this fact there were enough out at 7:30 for a very good practice. From this on practices will be held every night at 7:30

sharp at Tecumseh Park, Half a dozen arc lights have been installed, so there is plenty of light for a good systematic workout. London will in all probabil-

ity play her first game on Oct. 2, which leaves a bare two weeks for the team to get in shape, so every man ought to get out immediately. Don't be in doubt as to when the practices occur. They are every night, and Saturday af-

MONTREAL DECIDES FOR

BETTER ADMINISTRATION trary to bylaw No. 916 governing the Sweeping Majority For Reduction of Aldermen—Appointment of Board of Control.

Montreal, Sept. 20 .- Montreal today declared itself overwhelmingly for civic reform. By a sweeping majority the citizens, regardless of race, religion or political leaning, came out committee voicing his complaints, for a reduced city council and a board of control. While exact figures are not yet obtainable, at least 17,000 was the in the council, and about the same majority for a board of control.

TORONTO.

Toronto, Sept. 20.—There was a moderately active trade in butcher cattle at the Union stockyards today. With a total run of 103 loads of stock, including over 2,000 head of cattle, the proportion of butcher cattle offering today was larger than last week. Altogether close upon 700 head of butchers went over the scales this morning. The bulk of the cattle remain ing were classed as export, and were held over for tomorrow's export trade. Prices for the butcher cattle were inclined to ease off, particularly so for the

common qualities, and only anything quite choice held about steady. Generally speaking, the tone of the market was weak today, owing in part to the fact that cables from the old country show that prices there are lower and trade easy. This may mean the throwing of easy. This may mean the throwing of a heavier proportion of the cattle arriv-ing into the butcher market. Exporters—Market easier.

NO CELEBRATION FOR NIAGARA POWER LINE

City Council Refused to Cut Up a Fuss Over the Putting Up of Poles

The erection of the first pole for the hydro-electric power line in London will not be the occasion of a demonstration or much celebration. At the meeting of the council last evening. Ald. Fitzgerald made a motion to the effect that the occasion of the erection of the first pole be marked by a suitable demonstration, in which the aldermen, civic bodies and citizens generally be invited to participate. Ald. Stewart seconded the motion and then a lively little debate fol-

Nonsense, Said Aldermen. "I think such a thing is utter nonsense," said Ald. Beattie. "I do not see why we should want a celebra-We are building the line our selves, and there is no occasion for undue celebrating. There is a division of opinion as to the merits of the scheme. There is no need of emphasizing this difference of opinion, nor is there any need whatever of a celebration. We had better let it pass without notice."

Leave It Over. He moved that the matter be left

in abevance. "I have great pleasure in seconding the motion," said Ald. Cooper.
"The time for celebrating is not here Wait until it realizes some of the promises made to us." "I think the building of this line one of the most important things ever done in London," said Ald. Fitzgerald, "It is well worthy of some notice." "I will agree to it, if every alderman will guarantee to dig a hole," said

Ald. Saunders. Wait for Peary. "We had better wait until Peary
