JOURNAL
OF THE
HOUSE OF ASSEMBLY
OF
Prince Edward Island.

THIRD SESSION OF THE FOURTEENTH GENERAL ASSEMBLY.

TUESDAY, January 26, 1836.

THE House having, by several Proclamations, been prorogued until this day, then to meet for the dispatch of business :

And being met—

A Message from His Honor the President, by John Cambridge Wright, Esq. Usher of the Black Rod.

Mr. Speaker,

His Honor the President commands the immediate attendance of this Honorable House in the Council Chamber.

Accordingly, Mr. Speaker and the House went up to attend His Honor in the Council Chamber—and being returned,

The names of the Members present were taken down, as followeth:—

Mr. Speaker,
Mr. Macdonald, Mr. Binns, Mr. Palmer,
Mr. Le Lacheur, Mr. Douse, Mr. Nelson,
Mr. Thornton.

And at half-past Two o'clock, p. m., Mr. Speaker adjourned the House, for want of a Quorum.

WEDNESDAY, January 27, 1836.

JOHAN MACKINTOSH, Esq. elected a Member for King's County, in the room of Daniel Brennan, Esq. whose seat had become vacant in consequence of his accepting the office of a Commissioner for ascertaining the Boundary Lines of Counties and Townships, appeared at the Bar, and having been led into the body of the House, and introduced to the Speaker by Mr. Cooper and Mr. M'Callum, two of the Members, took the Oaths and his seat.

Mr. Speaker then reported, that when the House did attend His Honor the President, yesterday, in the Council Chamber, His Honor was pleased to make a Speech to both Houses of the Legislature, of which Mr. Speaker said he had, to prevent mistakes, obtained a copy, which he handed in at the Clerk's Table, where it was read, and is as followeth:—

*Mr. President, and Gentlemen of His Majesty's Council :
Mr. Speaker, and Gentlemen of the House of Assembly :*

The lamented decease of His Excellency Lieutenant Governor Sir Aretas William Young having caused the administration of the Government of this Colony to devolve upon me, as senior Member of the Council, I have taken advantage of that period of the year when your private avocations will best admit of your absence from your homes, to convene you for the dispatch of public business.

There is nothing in the existing state of the Colony which needs any particular observations from me; its advancement is steady and progressive; and it must be gratifying to observe, that the system of Agriculture, the basis of our public wealth, is making great and visible improvements in all its branches. Under the blessing of Divine Providence, the late season has been productive of an abundant harvest, and tranquillity and contentment seem every where to prevail.

Mr. Speaker, and Gentlemen of the House of Assembly :

I shall direct the proper Officer to lay before you the Public Accounts of the Revenue and Expenditure of the past year; and, in accordance with the system adopted in the late Session, I shall cause the Estimates for the current year to be submitted to you, relying on your readiness to grant such additional supplies to His Majesty as the exigencies of the Public service may require.

*Mr. President, and Gentlemen of His Majesty's Council :
Mr. Speaker, and Gentlemen of the House of Assembly :*

That long desired measure, the Boundary Bill, to which His Majesty's Royal assent was communicated during the last Session of the Assembly, has been brought into active operation; and its salutary effects are already apparent, not only in ascertaining and establishing disputed Boundaries, but in confirming to the industrious settler the quiet and peaceable possession of the production of his labour. The late Lieutenant Governor took the earliest opportunity of causing that part of the Act which relates to the ascertaining and fixing the two County Lines to be carried into effect—Plans of which, together with the expenses incurred in the performance of this necessary branch of the public service, will be laid before you.

I shall communicate with you, by message, upon all subjects connected with the public interests, as occasions may arise, with the full assurance that I shall receive your ready co-operation in promoting those objects which have the welfare of the Colony in view.

Resolved, That a Committee of Five Members be appointed to prepare and report, with all convenient speed, the draught of an Address in answer to the Speech of His

Honor the President, delivered yesterday to both Houses of the Legislature.

Ordered, That Mr. *Douse*, Mr. *Nelson*, Mr. *Binns*, Mr. *Pope* and Mr. *Thornton* do compose the said Committee.

Resolved, That a Committee be appointed to examine what Laws have lately expired, or are near expiring, and to report thereon to the House.

Ordered, That Mr. *Pope* and Mr. *Thornton* do compose the said Committee.

Resolved, That a Committee be appointed to examine Bills to be engrossed, or that have been engrossed.

Ordered, That Mr. *Palmer*, Mr. *Thornton* and Mr. *Binns* do compose the said Committee.

Resolved, That a Committee be appointed to revise the Journal of each day, after the adjournment.

Ordered, That Mr. *M'Callum*, Mr. *M'Nutt* and Mr. *Thornton* do compose the said Committee.

Resolved, That a Committee of three Members be appointed, to keep up a good correspondence between the two Houses of the Legislature, and to report their proceedings from time to time, with power to send for persons, papers and records.

Ordered, That Mr. *Pope*, Mr. *Palmer* and Mr. *Macdonald* do compose the said Committee.

Ordered, That the said Resolution be communicated by Message to the Legislative Council.

Ordered, That Mr. *Pope* do carry the said Message to the Council.

Mr. *Pope* moved, that the Rev. *Louis C. Jenkins*, Chaplain to this House, have notice to attend the House each morning during the Session, to read Prayers, before the House proceeds to business.

Mr. *Le Lacheur* moved, in amendment, that the words "Louis C. Jenkins, Chaplain to this House," be expunged, and the words "Bernard D. Macdonald" substituted—which being seconded and put, was decided in the negative.

Mr. *Macdonald*, in amendment to the main motion, then moved, that, after the word "That," all be expunged, and the following

substituted—"although the House thought " proper, in its first Session of 1835, to appoint the Reverend Louis C. Jenkins to be " its Chaplain, and did then and still continues to entertain the highest respect for " that gentleman's character, yet, as the " House is composed of persons professing " various religious opinions, it now deems it " inexpedient to desire the attendance of any " Clergyman whatever, to officiate as Chap- " lain."

The House divided on the question of amendment:

Yeas.

Mr. Macdonald,
Mr. M'Nutt,

Mr. Clark,
Mr. Cooper.

Nays.

Mr. Le Lacheur,
Mr. Mackintosh,
Mr. Thornton,
Mr. Pope,
Mr. Nelson,

Mr. Binns,
Mr. M'Callum,
Mr. Douse,
Mr. Palmer.

So it passed in the negative.

The question being then put on the main motion, the House again divided:

Yeas.

Mr. Pope,
Mr. Binns,
Mr. Palmer,
Mr. Douse,
Mr. M'Callum,
Mr. Nelson.

Nays.

Mr. Macdonald,
Mr. Clark,
Mr. Thornton,
Mr. Cooper,
Mr. M'Nutt,
Mr. Mackintosh,
Mr. Le Lacheur.

So it passed in the negative.

Ordered, That a copy of the Journal be sent to His Honor the President each day, as soon as may be after the adjournment.

Ordered, That One hundred and twenty copies of the Journal of this House be printed, and that the same be disposed of in the manner directed last year.

Resolved, That the Clerk be directed to notify the different Printers in Charlottetown, that Tenders for printing the Journals of this House for the present Session will be received by him until noon to-morrow, agreeably to the form and subject to such conditions as will be exhibited at his office—and that a Committee be appointed to open and report on the same to the House.

Ordered, That Mr. Palmer, Mr. Pope and Mr. Binns do compose the said Committee.

Mr. Speaker informed the House, that the Committee appointed in the first Session of last year, for the purpose, among other matters, of purchasing some additional Books for the use of the Library, had transmitted the money voted for that purpose to London, with an order for Books, some of which have been received, and were now on the Table, and that there remained unexpended, in the hands of the Agent employed by them, the sum of Eighteen Pounds Nineteen Shillings, Sterling.

Then the House adjourned until to-morrow, at Ten o'clock.

THURSDAY, January 28, 1836.

" *Ordered*, That a Message be sent down to the House of Assembly, acquainting them therewith."

And then he withdrew.

Mr. Douse, from the Special Committee appointed to prepare and report the draught of an Address in answer to the Speech of His Honor the President to both Houses, at the

We the Representatives of His Majesty's faithful Subjects of Prince Edward Island, in Colonial Parliament assembled, thank your Honor for your Speech at the opening of the present Session.

We thank your Honor for having assembled us in our Legislative capacity at a period of the year most suitable to our personal convenience.

On receiving the Public Accounts and Estimates, we beg to assure your Honor that the exigencies of the Public service shall be provided for, with a due regard to the resources of the Colony.

Mr. *Palmer*, from the Committee appointed to open and report on the Tenders for printing the Journals of this House, presented to the House the Report of the said

The President lays before the House of Assembly the copy of a Dispatch from the Right Honourable Lord Glenelg, dated the 3d October last, inclosing an Order of His Majesty in Council, allowing an Act passed by the Legislature in the year 1833, intituled "An Act to enable the several Congregations of the Church of England in this Island to choose Church Wardens and Vestries, and for incorporating the same, and to repeal the former Act for appointing Vestries."

THE KING'S MOST EXCELLENT MAJESTY.

Viscount Palmerston,

Viscount Melbourne,

Lord Holland,

Lord Hill,

Lord Glenelg,

Sir John Hobhouse,

Mr. Chancellor of the

Exchequer.

Whereas the Governor of His Majesty's Island of Prince Edward, with the Council and Assembly of the said Island, did in the months of March and April, 1833, pass an Act, which hath been transmitted, intituled as follows, viz:

[SECOND MESSAGE.]

GEORGE WRIGHT, President.

The President lays before the House of Assembly the copy of a Dispatch from the Right Honourable Lord Glenelg, dated the 4th November last, on the subject of the dangerous navigation of the Gulf of Saint Lawrence, and expressing the anxiety of His Majesty's Government to take any precautions for preventing the numerous and fatal shipwrecks which annually occur there. And it appears to them that if Light Houses were erected upon the Islands of Scatterie and Saint Paul, off the Coast of Cape Breton, many shipwrecks which now occur might be prevented. His Lordship further announces the readiness of the Lords Commissioners of His Majesty's Treasury to apply to Parliament for the funds necessary to the erection of Light Houses upon those points; provided that the Colonies, whose trade is to be benefited by the measure, will engage to defray the expenses of their future maintenance.

The President has no doubt that the House will cheerfully co-operate with His Majesty's Government,

and with the neighbouring Colonies, in promoting a measure so important to the commercial interests of the whole of British North America, and therefore recommends the subject to their favourable consideration. Should any further communications on this subject be received during this Session, the President will lose no time in laying copies of them before the House.

1st Feb. 1836.

No. 13.

[COPY.]

Downing Street, 4th November, 1835.

SIR,

His Majesty's Government have recently had under their consideration, the representations which have been at different times addressed to them by parties interested in the trade of the North American Provinces, upon the subject of the dangerous navigation of the Gulf of St. Lawrence. The numerous shipwrecks which annually occur there, attended in some instances with considerable loss of life and property, are too notorious to require mention; and you will therefore understand the anxiety of His Majesty's Government to adopt any precautions by which such melancholy occurrences may be prevented for the future.

With a view therefore of ascertaining the most effectual means for this purpose, the Lords Commissioners of the Treasury have endeavoured to obtain the opinions of scientific persons experienced in the navigation of those seas, and acquainted with the circumstances of the neighbouring Provinces. The result of their inquiries, as communicated in the letter and minute, of which copies are enclosed, appears to be, that if Light Houses were erected upon the Islands of Scattered and St. Paul's, off the coast of Cape Breton, many of the shipwrecks which now occur might be prevented. Anxious therefore to contribute as much as possible to an object which their Lordships consider as of national rather than of local interest, they have announced their readiness to apply to Parliament for the funds necessary to the erection of Light Houses upon those points, provided that the Colonies, whose trade is to be benefited by the measure, will engage to defray the expenses of their future maintenance. It is the object of my present Dispatch, to direct you to take an early opportunity of bringing the subject under the consideration of the House of Assembly of Prince Edward Island; and I cannot allow myself to doubt, that that body will be anxious to co-operate with the home government, and with the neighbouring Colonies, in promoting a measure so important to the commercial interests of the whole of British North America.

Adverting to the details of the arrangement by which the effectiveness of these Light Houses is to be

secured, the Lords Commissioners of the Treasury have recommended that they should be placed under the management of the Board for the direction of such matters, which already exists in Nova Scotia; and they also suggest that, as a preliminary to any further proceedings, that Board should be requested to report upon the measures to be adopted. To the former part of their Lordships' suggestions I do not apprehend any objections; from the latter I have been induced to deviate, in so far as to bring the subject at once under the consideration of the respective Legislatures—because, were I to await a Report from Nova Scotia, it would be impossible to submit it to these bodies during their approaching Sessions. No advantage sufficient to compensate for this delay could, I think, be expected from the Report in question. The expense to which each of the Provinces will become liable by their acceptance of the offer of the Lords Commissioners of the Treasury, cannot, under any circumstances, be otherwise than inconsiderable; and they will at the same time have at hand greater facilities for estimating its amount than I can hope to obtain. Under these circumstances, I am induced to present the matter for the consideration of the House of Assembly of Prince Edward Island, in its present incomplete form.

The other Colonies to which it is intended to apply for a contribution towards the expense of these Light Houses, are Lower Canada, Nova Scotia and New Brunswick; and I have suggested to the Earl of Gosford the expediency of His Lordship's communicating directly with yourself and the Lieutenant Governors of the other Colonies interested in the measure, for the purpose of maturing any arrangements which may be common to all. Among these the principal will be the apportionment of the annual expense; and it has occurred to me that this object might perhaps be conveniently effected by means of a Commission of Arbitration, of which the members should be appointed by the respective Legislatures, with the power of adopting a final award. This, however, is a point upon which I desire only to offer a suggestion. If any other arrangement should appear to the Legislatures interested in the measure, to be better adapted to the circumstances of the case, I need hardly state that I shall be ready to co-operate with them for giving effect to it.

I have, &c.

A Message from His Honor the President.

Mr. Secretary Collins, by command of His Honor the President, delivered the following Message:—

GEO. WRIGHT, President.

The President lays before the House of Assembly the copy of a Circular Despatch from the Right Honorable Lord Glenelg, dated the 28th November last, inclosing a series of Reports adopted by the House of Lords, on the subject of an effective Prison Discipline; and also of an Act passed by the Imperial Parliament, for the purpose of carrying out the principles elicited by their Lordships' inquiries. In laying these documents before the House, the President is directed to call their early attention to this important subject.

[CIRCULAR.]

Downing Street, 28th November, 1835.

SIR,

Among the subjects which have recently engaged the public attention in this country, none has occupied a more prominent place, or is more intrinsically important, than the establishment of proper regulations for securing an effective Prison discipline.

During the last Session of Parliament a Committee of the House of Lords was appointed to inquire into the state of the Gaols and Houses of Correction in England and Wales. After a minute and laborious investigation, their Lordships adopted a series of Reports, of which copies are herewith inclosed for your information; and an Act, of which a copy is also inclosed, was subsequently passed by the Imperial Parliament for the purpose of carrying out the principles elicited by their inquiries. It is the object of my present Despatch to call your attention to the general subject of Prison discipline, as far as regards the Colony under your government.

From the nature of the investigation undertaken by the Committee of the House of Lords, some of the observations in their Reports, and of the recommendations embodied in their Resolutions, are necessarily of a local and exclusive nature. But there are many others which are of general application, and with such modifications only as are demanded by local circumstances, might probably be advantageously introduced into the Colony under your government.

I have therefore to desire that you will bring the inclosed documents under the consideration of the Legislature of Prince Edward Island, and solicit their early attention to this important subject.

I have, &c.

(Signed)

GLENELG.

Lt. Governor, Sir A. W. Young.

Mr. Secretary Collins laid before the House the copy of a Letter from the Attorney General to him, explanatory of the steps taken to recover from Mr. Coun Douly Rankin, and his Sureties, the sum for which they are considered liable on their Recognizance, in the matter of the disputed Return for Queen's County; and the said Letter was read, and is as followeth:—

Charlotte-Town, 5th February, 1836.

SIR,

In reply to your Letter of the 4th instant, I beg to acquaint you, for the information of his Honor the President, that I wrote Messrs. Rankin, Willock and M'Lean, and demanded payment from them of the sum for which they are considered liable on their Recognizance, in the matter of the disputed Return for Queen's County. This demand was met by a refusal of payment; and their Counsel, Mr. Lawson, informed me, that they had instructed him to contest the legality of the Recognizance. Under these circumstances, and as the question is solely one of law, I proposed that a case should be prepared and submitted to the Court, on which, after argument heard, a Judgment might be pronounced, binding on all parties. My proposal was acceded to, the case prepared and signed at Trinity Term last, but in consequence of the press of business at that Term, and also at the Michaelmas Term thereafter, the same has not been argued. It is however set down for argument at the next Term in Georgetown, when I have no doubt the point will be finally decided.

I have, &c.

(Signed)

R. HOBSON,
Atty. General.

Mr. Secretary Collins also laid before the House a copy of the Warrant Book, from 1st February, 1835, to 31st January, 1836.

A Petition of divers Inhabitants of Townships Forty-eight, Forty-nine and Fifty, whose names are thereunto subscribed—setting forth the inconveniences experienced from the dilapidated and ruinous state of the Hard or Slip, south side of the Charlottetown Ferry, and praying the House to take the necessary steps for causing the same to be rebuilt, with as little delay as possible.

A Petition of Charles Russell, whose name is thereunto subscribed; setting forth—That Petitioner has conducted Schools in various parts of this Island since the year 1801, with general acceptance; that he has now reached the advanced age of Seventy-eight years, and is no longer able to earn a livelihood. That, with the exception of the sum of Six Pounds ten shillings, he has never received any Legislative aid; and having no property of his own, has now to submit his unfortunate case to the justice and compassion of a Legislature which has wisely deemed the encouragement of Education a matter of first rate importance to the interests of the community—and praying relief, in consideration of his past services and present infirmity.

Ordered, That the two preceding Petitions do lie on the Table.

A Message from the Council, by Mr. Desbrisay.

Mr. Speaker,

Mr. Le Lacheur.

So it passed in the negative.

Ordered, That the said Bill, with the amendments, be engrossed, and that the Title be *An Act to consolidate and amend the Election Laws*.

Then the House adjourned until Monday next, at Ten o'clock.

MONDAY, February 8, 1836.

RESOLVED, That a Committee of seven Members be appointed, to inquire into the expediency of regulating the mode of trying controverted Elections, with power to report by Bill or otherwise.

Ordered, That Mr. Douse, Mr. Cooper, Mr. Macdonald, Mr. Green, Mr. Ramsay, Mr. McCallum and Mr. Binns do compose the said Committee.

A Petition of divers Inhabitants of Charlottetown, whose names are thereunto subscribed, was presented to the House by Mr. Thornton, and the same was received and read; setting forth—That the increase of dogs in and about Charlottetown has become a serious public annoyance, and consequently a great nuisance. That Petitioners deem it highly necessary that some measure should be adopted to obviate this increasing evil, and praying for an Act imposing a fair and equitable tax on Dogs kept within the said Town and its vicinity.

GEORGE WRIGHT, President.

The President informs the House of Assembly, in answer to their Address of the 4th instant, requesting him “to be pleased to acquaint the House, if any and what answer has been received to the Address to His Majesty, of the 7th April last, praying for the adoption of measures for effectually re-vesting in the Crown all Lands in this Colony liable to forfeiture,” that upon inquiry he has ascertained, that on the 9th April last, the House requested the late Lieutenant Governor to transmit to His Majesty an Address, of which the following is the only prayer:—“That he

“1832, intituled *An Act to encourage the settlement and improvement of Lands in this Island*, and to regulate the proceedings of a Court of Escheat therein, may be allowed to go into immediate operation.” That on the 13th April, His Excellency received a Despatch from the Secretary of State, inclosing an Order of His Majesty in Council, disallowing the above named Act, which Despatch and Order in Council were communicated to the House on the 1st May following—and His Excellency therefore thought it unnecessary to transmit the Address praying “that it may go into immediate operation.”

Ordered, That the Report be received.

Ordered, That the said **Bill**, as amended, be engrossed, and that the Title be *An Act to regulate the manner of proceeding upon contested Elections of Members to serve in the General Assembly*.

A Petition of divers Inhabitants of King's County, whose names are thereunto subscribed, was presented to the House by Mr. Cooper, and the same was received and read; setting forth—That Petitioners, or their forefathers, being British subjects, emigrated to this Island at differend periods, under the impression that they would be secured in their rights and privileges under His Majesty's Government. That they felt it to be their duty to submit to such regulations as were permitted by Government, to obtain the occupation of the land whereon to labor, from a consciousness that a Government which was deriving strength and support from their labour, would not permit any advantage to be taken of their ignorance, while so occupied, and suffering all the privations incident to a new Colony, in a severe climate. That Petitioners, from their earliest arrival in this Island, have been led to believe, that the original Grants of Land were forfeited to the King, and that Petitioners would be dealt with according to the mode of settlement in the neighbouring Colonies; and that two Townships have been actually escheated—and they believed it was the duty of Government to afford justice to the inhabitants under its protection—but that they have been greatly deceived. They have repeatedly applied by Petition for redress, through their Representatives in General Assembly, from whose representations the highest expectations were raised that justice would be done them, by the appointment of a Court of Escheats in this

Colony. Instead of which they were informed by the Minister's despatches, that they would derive no benefit by the establishment of such a Court; and that an Act passed by the Colonial Legislature, for regulating the mode of proceeding in the Court of Escheats, had been disallowed, least it should fetter the Royal prerogative. In the same Despatch they were informed, that it would be unfair to escheat the Lands of some of the Grantees, for non-settlement, according to the conditions of the Grants, as they had sent out a sufficient number of persons to settle the Lands, who afterwards left their Lands to settle in more favourable situations. That Petitioners from hence infer, that His Majesty's Ministers, considering that a compliance with the conditions contained in the Grants would be attended with inconvenience and expense to the Grantees, gave it as their opinion, that the fulfilment of the conditions of the King's Grants was impracticable. That Ministers appear to have been at considerable trouble to plead the cause of the Grantees. That if as much anxiety had been shewn to make His Majesty's British subjects who first emigrated to this Colony acquainted with the treatment they were to receive; that they and their posterity were to supply the place of foreign vassals to the Grantees; that the industrious Colonists were to be exposed to the exactions of the Grantees and pretended land-owners, and harassed withendless law suits, with the Bench and the Bar influenced against them; that the Laws of Great Britain, which extended to every other Colony, were to be inoperative in this Island; that in this part of His Majesty's dominions no reliance was to be placed on the faith of a King's Grant, and that the industrious classes would have to redeem the forfeitures of the Grants at the price of their freedom; that in the shape of Rent for forfeited Lands they were to supply yearly pensions to those whose interest it was to deceive the Colonists and misrepresent them to His Majesty, for the sake of those pensions—if such representations had been made to the first Emigrants from Great Britain, it must appear evident that this Colony would, as far as the Petitioners are concerned, have remained in a wilderness state until this day. But it is now too late to inform the Colonists of the impracticability of fulfilling the conditions of settlement, as a plea for the Grantees to hold possession of the forfeited Lands; which

would be, in effect, to reward the Grantees for the non-fulfilment of the conditions with the labour and improvements of the Colonists for the last sixty years, as the exactions for rent are beyond their means of payment, and many of their leases expire at the term of forty years. That that part of the Minister's Despatch which asserts that certain Grantees had sent out Emigrants to settle their Lands, has no reference to the Petitioners, many of whom were induced to emigrate to this Colony from erroneous and highly exaggerated statements relative to the Island, circulated in Great Britain, and other parts of His Majesty's dominions, by the Grantees or their Agents—and that some few who came out more directly under the influence of the Grantees, had not only to pay their passage money, but were afterwards forced to leave their Lands, at the sacrifice of several years' labour and improvements. That Petitioners pray that the terms of the Grants be enforced, whereby each of the Grantees binds himself to settle his Lot or Township, within ten years from the date of the Grant, with foreign Protestants, in the proportion of one person to every Two hundred Acres, failing which, the said Lands to become forfeited to His Majesty, and the Grant to be void and of non-effect. That these conditions, which form the Charter of the Colony for the settlement of the Inhabitants, were never fulfilled, is well known, and that the Grants became forfeited to His Majesty; and still the Grantees levy contributions upon the Colonists under colour of rent and the sale of Lands, the titles to which have no foundation in the King's Grants or the Laws of the Colony. That from a conviction of the foregoing truth, the Legislature of the Colony passed an Act to encourage the settlement and improvement of the Lands in this Island, and to regulate the proceedings of a Court of Escheat therein—and reason and justice alike point out that an early settlement of the Lands is essential to the formation of a civilized society. That when His Majesty was pleased to confer a Colonial Legislature upon this Island, the said Legislature became entitled to certain rights under the authority of Government, which rights extended to every matter and thing connected with the Grants of the Land, as being the foundation of the liberties of the people—and further, that no tax or burthen should be imposed upon the Colonists, without the consent of their Representatives—which rights are

more particularly confirmed to Colonies having Legislatures by the declaratory Act of the British Parliament passed in 1778. That Ministers have advised His Majesty to disallow the Colonial Act for the settlement of the Inhabitants upon the Lands, and have, under the plea of an exercise of the Royal prerogative, transferred numbers of His Majesty's British subjects, with all their improvements, to the Grantees, as foreign vassals—and by holding out encouragement to the Grantees in their pretensions, and listening to their misrepresentations, have enabled them in many cases to nullify the proceedings of the Colonial Legislature. Against such transfer and influence the Petitioners most solemnly protest. That the influence of the Grantees is felt in the Courts of Judicature, the Barristers and Officers of Government being principally in their pay, or interested as Land Agents; and the pleadings are carried on and judgments given where Land or Rent is in question, without any regard to the rights of the Crown to the forfeited Grants, or to the condition of the settlers, who from necessity are compelled to submit to such terms as the Grantees impose. That from the delay to escheat the forfeited Lands, Petitioners are deprived of a just and fair representation in the General Assembly, from the embarrassed circumstances of many of the Tenantry, who, being in arrear for Rent, to obtain a temporary indulgence, vote for Land Agents to represent them, against their free will and better judgment. That these grievances have long prevailed, and that the unsettled state of the lands in this Colony, owing to the non-fulfilment of the conditions, was long since communicated to His Majesty's Government, is acknowledged by His Majesty's Minister, in a Despatch to the Lieutenant Governor of the Island in 1802. That for the foregoing reasons, the Petitioners humbly submit, that, according to the Constitution of Great Britain and this Colony, the Township Lands in this Island are forfeited to the Crown, with the exception of Townships Fifteen and Fifty-five, which have been escheated and settled. That from the language of Lord Goderich's Despatch, "If Lands were escheated in Prince Edward Island, it is probable that such portions of them as are actually occupied would be continued to the occupying Tenants at their present Rents," it clearly appears to be the opinion of His Majesty's Ministers, as it is also that of the Petition-

ers, that all Monies arising from the forfeited Lands, for rent or purchase, are due to the King, as a portion of his Colonial Revenue; and Petitioners, goaded by oppression and the delays of justice, come before this Honorable House, by Petition, humbly and respectfully, and with a degree of firmness which a high sense of duty and loyalty inspires, to offer themselves as the King's tenants, and to pay their rents to him as his undoubted right, relying on his sense of justice, that they will not be placed in a worse situation than if the lands had been escheated in 1802. That Petitioners have sought for redress by every constitutional means known to them, and have, by Petition to His Honor the Administrator of the Government in Council, offered themselves as the King's tenants, and prayed for an injunction on behalf of the King's tenants against the grantees or others pretending an ownership to the forfeited lands. That Petitioners may be preserved from molestation by the grantees until an investigation into the merits of the case takes place, they humbly pray that the House will make such representations to His Honor the Administrator of the Government as will add weight to the prayer of the Petitioners; and also transmit similar representations, with the submission and loyalty of the Petitioners, to be laid at the foot of the Throne. That to prevent further mis-statements being made to His Majesty's Ministers by the grantees, and their agents in high offices of government in this Island, they further pray, that the House will be pleased to forward the whole of the statements and representations which have been made to His Majesty by the House of Assembly, relative to the unsettled state of the Inhabitants and the oppressions they have laboured under, to be laid before the Commons of Great Britain in Parliament, by a Deputation, and Petitioners will willingly submit to such burthens as may be necessary to defray the expenses incurred for that purpose.

Mr. Cooper then moved that the said Petition be referred to a Committee of seven Members, to examine the contents thereof, and to report thereon with all convenient speed, with power to send for persons, papers and records.

Mr. Pope moved, in amendment, that all the words after "Committee" be struck out, and the words "of the whole House" substituted.

The House divided on the question of amendment:

| Yeas. | Nays. |
|----------------|-----------------|
| Mr. Pope, | Mr. Cooper, |
| Mr. M'Null, | Mr. Clark, |
| Mr. Green, | Mr. Le Lacheur, |
| Mr. Macdonald, | Mr. Ramsay, |
| Mr. Palmer, | Mr. Mackintosh, |
| Mr. Nelson, | Mr. M'Callum. |
| Mr. Binns, | |
| Mr. Douse. | |

So it was carried in the affirmative.

The Question being then put on the main motion, as amended, it was agreed to by the House.

Resolved, That this House do resolve itself into a Committee of the whole House on Tuesday next, on the consideration of the said Petition.

On motion of Mr. Palmer, Ordered, that such Proprietors of Land on this Island as may feel themselves interested in the matter of the said Petition, and in particular Lord Viscount Melville and David Stewart, Esq. have liberty to be heard by Counsel before the said Committee.

Ordered, That the Clerk of the House have permission to furnish a copy of the said Petition to any person desirous of obtaining the same, on being paid his customary fees.

A Petition of divers Inhabitants of the south side of Township Sixty-five, whose names are thereunto subscribed, was (with the consent of His Honor the President, that the House may proceed thereon as they shall think fit) presented to the House by Mr. Nelson, and the same was received and read—praying an aid for the erection of a Bridge over Ferguson's Creek.

Ordered, That the said Petition do lie on the Table.

A Petition of Alexander Livingston, of Dog River, whose name is thereunto subscribed, was (with the consent of His Honor the President, that the House may proceed thereon as they shall think fit) presented to the House by Mr. Douse, and the same was received and read; setting forth—That in the month of July last, Petitioner entered into a Contract with Mr. Thomas Tod, the Road Commissioner, to build a Bridge, 370 feet in length, over De Sable River, for the sum of

One hundred and ninety Pounds, agreeable to a plan and specification exhibited to him. That it now appears that the said Bridge (now in a state of forwardness) is deficient in length by one hundred and ninety feet, actual measurement on the ice. That Petitioner is willing to complete the remainder of the Bridge on the House granting him a sum of money to enable him to do so, in the same proportion as the part contracted for, and praying a grant for that purpose.

Ordered, That the said Petition do lie on the Table.

A Petition of James Rockwell, a Prisoner in confinement for debt within the Jail of Charlottetown, whose name is thereunto subscribed, was presented to the House by Mr. Pope, and the same was received and read; setting forth—That about Twenty-one years ago Petitioner held the Promissory Note of a James Maclellan, of New Brunswick, for £115—that at the same time he owed a Mr. Knapp £40, to whom he gave Maclellan's Note, as a security, on condition that he (Knapp) would exert himself to recover the amount of the Note from Maclellan. That bearing Maclellan was about to leave the Province, Mr. Knapp employed Mr. James S. Morse, who was his Attorney, to arrest him, who, however, neglected to do so. Judgment was subsequently obtained against Maclellan, but he had in the meantime absconded, and has never since returned. Mr. Knapp dying, his Heirs sued Petitioner for the amount which appeared against him in Mr. Knapp's books, at the same time denying any knowledge of Maclellan's Note, so that judgment went against him. That for the costs of the two suits, including a small balance upon a running Account, amounting in all to £32, he was induced to sign a Promissory Note to Mr. Morse, being threatened with the Jail, if he refused. That some time afterwards Petitioner came to this Island, where he was immediately arrested, at the suit of Mr. Morse, for the amount of his Note, which, with the costs superadded, now exceeds £52, which it is quite impossible for him to pay. That Petitioner's family, consisting of a wife and three children, (one of whom, to add to his affliction, is a lunatic,) are in a very destitute condition—and, in order that he might be

enabled to support them and himself by his industry, he prays that the limits of his confinement may be extended so as to embrace the whole Island.

Ordered, That the said Petition do lie on the Table.

A Petition of Michael Dalton, a Prisoner in confinement for debt within the Jail of Charlottetown, whose name is thereunto subscribed, was also presented to the House by Mr. Pope, and the same was received and read; setting forth—That on the First day of August last, Petitioner was arrested by virtue of an Execution, sued out against him by Donald Macdonald, of Glenaladale, Esq. and committed to Charlottetown Jail, and was under the necessity of availing himself of the allowance to Prisoners under the Insolvent Act, as his only means of subsistence. That although Petitioner has heard that it is in contemplation to pass an Act for the relief of such persons as himself, yet, not being aware at what time it may come into operation, he prays the limits of the Island, by which means he would be enabled to earn his support and pay his honest debts, which he is most desirous of doing.

Ordered, That the said Petition do lie on the Table.

The Order of the Day, for the House in Committee to resume the consideration of the Bill for improving the administration of Justice in criminal cases, being read;

The House accordingly resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. Binns took the Chair of the Committee.

Mr. Speaker resumed the Chair.

Mr. Binns reported, that the Committee had gone through the Bill, and made several amendments thereto.

Ordered, That the Report be received.

Ordered, That the said Bill, as amended, be engrossed, and that the Title be *An Act to improve the administration of Justice in Criminal Cases*.

Then the House adjourned until to-morrow, at Ten o'clock.

SATURDAY, February 13, 1836.

UPON reading the Journal of yesterday's proceedings, Mr. *Binns* moved that the entry relative to allowing Counsel to be heard before the Committee of the whole House on the consideration of the Petition of divers Inhabitants of King's County be expunged from the Journal, as being irregular;

The House divided on the question:

| Yeas. | Nays. |
|-------------------------|-----------------------|
| Mr. <i>Binns</i> , | Mr. <i>Palmer</i> , |
| Mr. <i>Macdonald</i> , | Mr. <i>Green</i> , |
| Mr. <i>Ramsay</i> , | Mr. <i>Pope</i> , |
| Mr. <i>M'Nitt</i> , | Mr. <i>Nelson</i> , |
| Mr. <i>Clark</i> , | Mr. <i>Douse</i> , |
| Mr. <i>Le Lacheur</i> , | Mr. <i>Thornton</i> . |
| Mr. <i>Cooper</i> . | |

So it was carried in the affirmative—and

Ordered accordingly.

A Message from the Council, by Mr. *Desbrisay*.

Mr. Speaker,

The Legislative Council have appointed the Honorables Mr. Attorney General, Mr. *Smith* and Mr. *Goodman* a Committee to join a Committee of the House of Assembly, in preparing an Address to His Majesty, on the subject of the alleged intention of His Majesty's Government of proposing an alteration in the duties affecting the North American Timber Trade—to meet and adjourn as they shall see fit.

And then he withdrew.

A Message from His Honor the President.

Mr. Secretary *Collins*, by command of His Honor, delivered the following Message:—

GEO. WRIGHT, President.

The President lays before the House of Assembly the Plans of the County Lines, as ascertained and established under the 4th Will, 4th, cap. 15, together with the different accounts, shewing the expences incurred in that service, by which the House will perceive that the sum of £150 voted last Session has proved insufficient to pay the accounts of the Surveyors alone, there being a balance still due to each of those gentlemen. And the President trusts to the liberality of the House to make good the deficiency, as well as

to place at his disposal a sum sufficient to remunerate the Commissioners for their services.

Ordered, That the above Message, with the Documents accompanying the same, be referred to the Committee of Supply.

Ordered, That Mr. *Palmer* do go to the Council, and acquaint them therewith.

A Petition of William *Cranston*, and others, Proprietors of Pasture Lots in the Royalty of Charlottetown, whose names are thereunto subscribed, was presented to the House by Mr. *Binns*, and the same was received and read; setting forth—That Petitioners are owners and occupiers of Pasture Lots in the Royalty of Charlottetown, fronting on the Princetown Road; and that from the very inaccurate manner in which the Roads in the said Royalty are laid off, Petitioners have, in many instances, been deprived of considerable portions of Land, the same being held by other Owners of Land on the opposite side of the Road, in addition to the quantity of Land their respective Lots ought to contain—and praying the House to adopt such measures as will remedy the evil complained of.

Ordered, That the said Petition do lie on the Table.

Ordered, That Mr. *Binns* have leave to introduce a Bill to authorize the sale of the Building heretofore used as an Episcopal Church in Charlottetown.

He accordingly presented the said Bill to the House, and the same was read the first time, and ordered to be read a second time on Monday next.

Then the House adjourned for one hour.

And being met—

Two Petitions were (with the consent of His Honor the President, that the House may proceed thereon as they shall think fit) presented to the House by Mr. Macdonald, and the same were received and read, viz.:

A Petition of divers Inhabitants of Mill Cove, whose names are thereunto subscribed, praying an aid of Fifteen Pounds, for the repair of three Bridges within the settlement of Donaldstown.

A Petition of divers Inhabitants of the Eastern part of Cavendish, whose names are thereunto subscribed, praying an aid to improve the road communication between that Settlement and Rustico.

A Petition of John Macwilliams, late of Crapaud, Farmer, at present a Prisoner in confinement for Debt within the Limits of the Jail of Charlottetown, whose name is thereunto subscribed, was presented to the House by Mr. Macdonald, setting forth—That Petitioner has now been fifteen months a Prisoner for Debt, charged in Execution at the suit of one Brian Corney, of the Province of Nova Scotia, for the sum of £150. That Petitioner has offered to Plaintiff's Attorney to surrender to the Plaintiff all that Petitioner possesses in the world, which offer the said Attorney has declined on the ground of its value being inadequate to discharge the debt; and Petitioner prays the House to take the subject into consideration, and afford such relief as to its wisdom may seem meet.

Ordered, That the three preceding Petitions do lie on the Table.

A Petition of divers Inhabitants of Little Sands, on the Western extremity of Township Sixty-four, whose names are thereunto subscribed, was (with the consent of His Honor the President, that the House may proceed thereon as they shall think fit) presented to the House by Mr. Le Lacheur, and

he same was received and read—praying an aid to open a Road from that Settlement to White Sands, a distance of five and a half miles.

A motion being made that the said Petition do lie on the Table;

Mr. Pope moved, by way of amendment, that the prayer of the said Petition be rejected.

The House divided on the question of amendment:

| Yeas. | Nays. |
|-------------|-----------------|
| Mr. Douse, | Mr. Le Lacheur, |
| Mr. Pope, | Mr. Macdonald, |
| Mr. Binns, | Mr. Thornton, |
| Mr. Palmer, | Mr. Ramsay, |
| Mr. McNutt, | Mr. Clark, |
| Mr. Green. | Mr. Cooper, |
| | Mr. Mackintosh, |
| | Mr. Nelson. |

So it passed in the negative.

The Question being then put on the main motion, it was carried in the affirmative—and Ordered, accordingly.

A Petition of Charles Stockdale, and others, Proprietors of Pasture Lots in the Royalty of Charlottetown, whose names are thereunto subscribed, was presented to the House by Mr. Palmer, and the same was received and read; setting forth—That Petitioners have learned that certain individuals have petitioned the House for an alteration in the Princetown Road, notwithstanding the sense of a public meeting, expressly called to consider the subject, having been clearly against any alteration in any of the Royalty roads—That it has been held by all constitutional writers, and is rigidly observed by the Imperial Parliament, that private property is not a subject for parliamentary enactment, as the Constitution has provided a better mode of redress by the erection of Courts of Justice, where the contending parties have their claims brought to the test of legal decision. That the other Petitioners have no legal claim to the land they pretend a right to; that they never possessed it; on the contrary, it has been in the possession of the proprietors on the Western side of the Princetown road for a period of thirty years—the Eastern boundary of the proprietors on the West side of said road being by their grants declared to be the then existing “road

leading from Charlottetown to Princetown:”—and that were they to be deprived of their lands, houses, &c. by any *ex post facto* enactment of the Legislature, they would suffer the greatest injustice—and praying the House not to pass any enactment for altering the Princetown or other roads within the Royalty of Charlottetown.

Ordered, That the said Petition do lie on the Table.

A Petition of divers Inhabitants of this Island, whose names are thereunto subscribed, was presented to the House by Mr. Pope, and the same was received and read; setting forth—That Petitioners are so well satisfied with the conduct of Alexander Johnston, the carrier of the Western Mail for several years past, that they regret that under the present system he is only engaged by the year. That Petitioners conceive, were the Western Inland Mail placed on the same footing with the Winter Mail, and the carriage thereof secured to the present contractor for a term of years, it would be a great benefit to the public, by inducing him to make such arrangements as would materially conduce to the comfort of travellers, and facilitate the communication between the capital and the distant parts of the Island—and praying the House to take the subject into consideration.

Resolved, That the said Petition be referred to a Committee of three Members, to examine the same, and report thereon to the House.

Ordered, That Mr. Pope, Mr. Green and Mr. Thornton do compose the said Committee.

Mr. Thornton laid before the House the Impost Accounts for the District of New London, for the Quarters ending 30th September and 31st December, 1835.

Ordered, That the said Accounts be referred to the Committee appointed to examine and report on the Public Accounts.

Then the House adjourned until to-morrow, at Ten o'clock.

TUESDAY, February 16, 1836.

READ a third time, as engrossed, the Bill intituled *An Act to regulate the manner of proceeding upon contested Elections of Members to serve in the General Assembly.*

Resolved, That the said Bill do pass.

Read a third time, as engrossed, the Bill intituled *An Act to authorize the sale of a Building heretofore used as an Episcopal Church in Charlottetown.*

Resolved, That the said Bill do pass.

Ordered, That Mr. Douse do carry the two preceding Bills to the Council, and desire their concurrence.

Two Petitions were (with the consent of His Honor the President, that the House may proceed thereon as they shall think fit) presented to the House by Mr. Macdonald, and the same were received and read, viz.

A Petition of divers Inhabitants of Township Thirty-five, residing near Johnson's River, whose names are thereunto subscribed, praying an aid to complete a road lately opened between Johnson's River and the high road leading from Charlottetown Ferry, on the South side of the Hillsborough, to Mount Stewart.

A Petition of divers Inhabitants of the East side of New London Bay, Cavendish, and the adjacent Settlements, whose names are thereunto subscribed; setting forth—That Petitioners are annually in the habit of shipping off large quantities of agricultural produce to the neighbouring markets, but that in making such shipments, much inconvenience is experienced from the shallowness of the water at the only shipping place in the whole District. That a Public Wharf might be constructed at the place referred to, which would completely remedy the evil complained of. That Petitioners have already subscribed the sum of £28 4s. towards that object, and praying an aid towards carrying the same into effect.

Ordered, That the two preceding Petitions do lie on the Table.

Mr. Pope moved to resolve, That this House will to-morrow resolve itself into a Committee of the whole House, to consider the

expediency of continuing the Act, 11 Geo. 4, cap. 17, for levying an Assessment on Land.

Mr. Cooper moved, in amendment to the said motion, that after the word "That" all be expunged, and the following substituted:—"whereas it appears from a Despatch from Lord Goderich, His Majesty's Secretary of State, entered on the Journals of this House in 1833, that the Quit Rents are to be demanded after the present Land Tax expires, and that the proceeds of the Quit Rents are to be appropriated solely to objects connected with the Colony; and as it is the opinion of many that a Land Tax would in some degree retard the Escheat of the lands liable to forfeiture—Therefore, Resolved, as no loss will thereby be sustained by the Colony, that all proceedings relative to a Land Tax be deferred until His Majesty's pleasure is known with reference to the Escheat of the Lands liable to forfeiture."

The House divided on the question of amendment:

Yeas.

Mr. Cooper,
Mr. M'Nutt,
Mr. Ramsay,

Mr. Mackintosh,
Mr. M'Callum.

Therefore *Resolved*, That Mr. *Pope* be required to apologize for his conduct in the words following:—

Mr. Speaker,

I acknowledge that on the evening of yesterday I did address you, Sir, in language highly offensive and unwarrantable; for which I now humbly beg pardon, as well of you, as for the contempt which it reflected on the dignity of this Honorable House.

Mr. *Binns* moved, in amendment, that after the word "*Resolved*," all be expunged, and the following substituted, "That the apology already made this day by *Joseph Pope, Esq.*, a Member for Prince County, in his place, is sufficient and satisfactory."

A Petition of divers Inhabitants of Georgetown and its vicinity, whose names are thereunto subscribed; setting forth—That they are without a public School House, the erection of which, and the establishing a good School, would materially tend to promote the settlement of said Town. That no place of interment, nor ground whereon to erect Churches, have been provided in Georgetown. That the completion of the King's Wharf there, would not only be a benefit to the inhabitants, but to the public generally, the addition of one Block and Bridge being alone required to enable vessels of a large class to use the said Wharf. That the placing of posts or stones at the corners of each street and square, before more buildings are erected, would have the effect of preventing trespasses upon public

property, and of giving the inhabitants confidence in the selection of building sites—and praying a grant in aid of the objects above stated.

Ordered, That the two preceding Petitions do lie on the Table.

A Petition of divers Inhabitants and Owners of Property in Georgetown, whose names are thereunto subscribed, was also presented to the House by Mr. *Thornton*, and the same was received and read; setting forth—That for the purpose of making and keeping in repair Pumps and Wells, it is desirable that a fund be provided—and for this purpose they pray for an Act to authorize the levying an Assessment on all granted or occupied Town and Water Lots in Georgetown, to a limited extent, to be under the direction of resident Assessors, and applied toward the making and repairing Pumps and Wells, and for such other local purposes as may be deemed requisite for the security of property in the said Town.

Resolved, That this House will, to-morrow, resolve itself into a Committee of the whole House, to consider the expediency of authorizing an Assessment on Town and Water Lots in Georgetown, for raising a fund to make and repair Pumps and Wells, and other local purposes.

A Message from His Honor the President.

Mr. Secretary Collins, by command of His Honor, delivered the following Message:—

GEO. WRIGHT, President.

The President lays before the House of Assembly the copy of a Despatch from His Excellency Sir Colin Campbell, dated the 8th July last, enclosing a letter from the Board of Revenue of the Province of Nova Scotia, on the subject of the contribution due by this Island towards the support of Cranberry Island Light House. In submitting these documents to the consideration of the House, the President begs to call their attention to the correspondence on this subject since the year 1829, which was laid before the House in the Session of 1835; and it will be seen that the only difficulty in the way of the adjustment of this question was the amount of £80 annually demanded of this Colony by the Province of Nova Scotia: whereas the Commissioners appointed by Lieutenant Governor Ready, were of opinion that £60 would be a fair proportion. That difficulty has now been obviated, by the Province of Nova Scotia consenting to accept the £60 annually offered by this Island. And the President therefore trusts that the House will place at his disposal a sum sufficient to pay the arrearages due since the year 1828, in accordance with the application herewith submitted.

February 18th, 1836.

Government House,
Halifax, 8th July, 1835.

SIR,

Having caused a copy of Your Excellency's letter, dated the 18th December last, and Lieutenant Governor Ready's, dated the 27th April, 1830, together with that from Messrs. Hodgson and Cameron, in May, 1829, addressed to the Commissioners of Light Houses of this Province, to be laid before the Commissioners of the Revenue, for the purpose of eliciting from them their opinion as to the arrearages due and payable by Your Excellency's Government towards the support of the Light on Cranberry Island, I have now the honor to transmit to you a copy of that opinion, and I

hope your Excellency will agree with me, that the amount recommended to be paid as arrearages is very low; and when it is considered the very great benefit the lights of this Province afford to the mariners belonging to the Island of Prince Edward, that measures may be adopted by Your Excellency to cause the immediate payment of the arrears, and to ensure the future regular transmission of the annual sum to be paid to this Province; and that all monies on this account may be remitted to the Provincial Treasurer here.

I may further call Your Excellency's attention to the fact, that the expense of keeping up our numerous Light Houses is much beyond the receipts toward their support.

I have, &c.

(Signed)

C. CAMPBELL.

His Excellency Sir A. W. Young,

&c. &c.

Board of Revenue,
Halifax, 20th June, 1835.

SIR,

The Board of Revenue beg to inform you, for the information of His Excellency the Lieutenant Governor, that the expense of supporting Cranberry Island Light House costs upwards of £350 annually more than the amount of Light Duty collected for its support. The Board are of opinion that £80 annually is but a very moderate sum for Prince Edward Island to contribute to the support of that establishment. As the arrears are long due, and now much needed towards the support of Light Houses, the Board recommend that the sum of £60, Halifax currency only, for the past years from 1828, be received in full satisfaction for the contribution from Prince Edward Island, and beg His Excellency will take such measures as may be most proper to effect the adjustment of the subject.

I have, &c.

(Signed)

E. DUCKETT, jun. Clerk.

Sir Rupert D. George, Bart.

Ordered, That the two preceding Petitions do lie on the Table.

Mr. Palmer read in his place a Petition of Sir Thomas Stephen Sorrel, Knight, and David Stewart, of London, Esq., by John Lawson, their Attorney, setting forth—That Petitioners are persuaded, if they are permitted to do so, that they can convince the House that the prayer of the Petition of certain Inhabitants of King's County, now before the House, is such, that it cannot be granted in justice to the rights of Petitioners, and other Proprietors, consistently with the honor of the House and a due regard to His Majesty's dignity and prerogative—and praying that they may be heard by their Counsel against the prayer of the said Petition.

Mr. Palmer then moved, that the said Petition be received and read.

The House divided on the question:

The Legislative Council have passed a Bill intituled *An Act to authorize the closing of a certain Road within the Royalty of Princetown*, to which they desire the concurrence of the Assembly.

And also—

The Legislative Council do agree to a Conference, as is desired by the House of Assembly, on the Public Accounts—and have appointed the Honorables Mr. Lane and Mr. Brecken a Committee to manage the same—to meet the Committee of the House of Assembly in the Committee Room instanter.

And then he withdrew.

And thereupon the Managers went to the Conference.

And being returned—

Mr. Thornton reported, that the Managers had been at the Conference, and he stated the substance of the Conference to the House.

Mr. Binns reported, from the Joint Committee of the Council and Assembly, a Petition to His Majesty, on the subject of Duties upon Foreign Timber imported into the Mother Country, as prepared by the said Joint Committee—and the said Petition being again read at the Clerk's Table, was agreed to by the House, and is as followeth:—

TO THE KING'S MOST EXCELLENT MAJESTY.

The humble Petition of Your Majesty's Legislative Council and House of Assembly of Prince Edward Island, in General Assembly convened.

May it please Your Majesty;

The Council and Assembly of Your Majesty's loyal Island of Prince Edward have just cause to fear that, from the Report of a Committee of the House of Commons, made in the last Session of the Imperial Parliament, Your Majesty's Ministers may be induced to recommend an alteration in the existing scale of protecting duties payable upon the Importation into Great Britain and Ireland, of Timber and Deals, the growth and produce of Your Majesty's North American Colonies, wherein it is contemplated to afford to the Foreign manufacturer advantages ruinous to the Timber trade of these Colonies—a trade which has become so vitally interwoven, either directly or indirectly, with their growing prosperity, that any interference in the present system which shall tend to give further encouragement to the importation into the United Kingdom of Timber from the North of Europe, cannot fail to prove most disastrous to their existing and future welfare; and as regards the anticipated consequences of such a measure to the interests of Prince Edward Island in particular, we humbly crave leave to lay the following representation at the foot of the Throne:

We gratefully acknowledge the bounty of nature in the distribution of her gifts to this favored Colony:

over and above its productions of Ton Timber, its forests abound with a description of hardwood, the adaptation of which to the construction of vessels is not to be exceeded in any other British Colony in North America; and its soil is exceedingly well calculated for producing the necessary supplies for carrying on this important branch of our Colonial trade, and for all the purposes of agriculture.

The manufacture of Ton Timber and Deals, the latter of which is annually engrossing the attention of an increased number of enterprising individuals, gives ready employment to the new settler, and enables him to subsist his family until the soil becomes capable of yielding a return for his labor; whilst the outward bound vessels required for its conveyance to the mother country, afford facilities to emigration which no other means could possibly compass.

Ship building is also carried on to a considerable extent; and owing to the readiness with which timber freights can be obtained, and the profits arising therefrom, Vessels form the principal article of export to the United Kingdom, in payment of those necessary supplies of home manufacture which are indispensable to a new Colony. The agricultural productions of this Colony already greatly exceed the wants of its inhabitants, and the principal and almost only markets for its surplus produce are at present found in those extensive Timber establishments which are formed along the shores of the Gulf of St. Lawrence, stretching from Wallace, in Nova Scotia, to the district of Gaspé, in the Province of Lower Canada, particularly Richibucto, Miramichi and the Bay of Chaleur, where the pursuits of Agriculture being but little regarded, their principal consumption has been hitherto drawn from the resources of this Colony.

As any alteration in the present system of protection to North American Colonial Timber would necessarily tend to the total annihilation of the trade, this Colony, in common with the other British North American Provinces, would lose the benefit of emigration; the improvement of its wilderness land would be consequently suspended; it would be deprived of the means of paying for British manufactures, the importation of which must necessarily cease, and its surplus agricultural produce would no longer find a remunerating market.

The Council and Assembly therefore humbly implore Your Majesty, that you will graciously grant your royal interposition to prevent any alteration in the existing scale of protecting duty upon Wood, the produce of Your Majesty's North American possessions, and thereby avert a measure so fraught with injury to the interests of Your Majesty's North American Colonies in general, and this Island in particular: And as in duty bound they will ever pray, &c

Mr. Thornton, from the Committee appointed to examine and report on the Public Accounts, presented to the House the Report of the said Committee, which he read in his place, and afterwards delivered in at the Clerk's Table, where being again read—

Ordered, That the said Report be referred to a Committee of the whole House to-morrow.

Then the House adjourned for one hour.

Ordered, That the said Bill be engrossed.

The Order of the Day, for the House in Committee to resume the consideration of the Petition of divers Inhabitants of King's County, presented to this House on the 12th inst. and of His Honor the President's Message of the 7th inst. stating the reasons why an Address of this House to His Majesty of April 7th, 1835, was not transmitted by the late Lieutenant Governor, being now read;

The House accordingly resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. M'Callum took the Chair of the Committee.

Mr. Speaker resumed the Chair.

Mr. *Thornton*, from the Committee of the whole House, to consider the expediency of authorizing the levying of an Assessment on Town and Water Lots in Georgetown, and a Petition of the Inhabitants and Land-owners of said Town, reported, according to order, the Resolutions of the said Committee; which Resolutions being again read, were agreed to by the House, and are as followeth:—

1. **RESOLVED**, That it is the opinion of this Committee, that it is expedient, for the preservation and improvement of public and private property in Georgetown, that the owners of Town and Water Lots situate therein should be empowered to assess themselves, for the purpose of clearing the said Town and Water Lots of wood and brush-wood—for sinking public wells where deemed necessary—and for other local purposes; and that the House be recommended to order a Bill to be brought in for effectuating the purposes aforesaid.

2. **RESOLVED**, That the annual Assessment on each Town and Water Lot in Georgetown shall not exceed the sum of Six Shillings and Eight-pence, to be assessed equally on each Lot.

Ordered, That Mr. *Thornton*, Mr. *Macdonald* and Mr. *Binns* be a Committee to prepare and bring in a Bill for effectuating the purposes mentioned in the above reported Resolutions.

Mr. *Palmer*, from the Committee of the whole House, on His Honor the President's Message of the 16th instant, and the Documents therewith transmitted, relative to the rebuilding the Ferry Slip opposite Charlotetown, reported, according to order, the following Resolution of the said Committee.

RESOLVED, That it is the opinion of this Committee, that an Address be presented to His Honor the President, recommending that the Tender of William Crosby, for rebuilding the Ferry Slip, be accepted, and to cause a Contract to be entered into with the said William Crosby for that purpose, although such Tender is Twenty Pounds above that of John Macphee; as the advantage to the public of having the work performed two months earlier by the terms of Mr. Crosby's Tender than by Mr. Macphee's, is considered more than equivalent to the difference between the two Tenders.

Mr. *Cooper* then moved, in amendment, that after the word "recommending" all be struck out, and the following substituted "that the Tender of John Macphee, for rebuilding the Ferry Slip, be accepted, being the lowest, and that a Contract be entered into with him for that purpose."

The House divided on the question of amendment:

| Yeas. | Nays. |
|-------------------------|-------------------------|
| Mr. <i>Cooper</i> , | Mr. <i>Macdonald</i> , |
| Mr. <i>Clark</i> , | Mr. <i>Binns</i> . |

| Mr. <i>Nelson</i> , | Mr. <i>Douse</i> , |
| Mr. <i>M'Nutt</i> , | Mr. <i>Thornton</i> . |
| Mr. <i>Mackintosh</i> . | |

So it was carried in the affirmative.

The question being then put on the main motion, as amended, it was agreed to by the House, and is as follows:—

GEORGE WRIGHT, President.

In laying before the House of Assembly the Estimates for the service of the current year, the President acquaints them that they have received the fullest consideration of himself and of the Executive Council, and have been framed with the strictest attention to economy in every department of the Government. In the Estimate of Salaries not fixed by Statute, the allowance to the Sheriff is left blank; and the President suggests to the House whether, since the County Courts came into operation, that Officer would not have a fair claim to a further sum than has been hitherto allowed him. Accompanying the Miscellaneous Estimate, are the vouchers of the several items, for the information of the House.

ty of this House was not transmitted by the late Lieutenant Governor, reported, according to order, the following Resolution of the said Committee:

“Whereas the Legislature of this Colony did, in the year 1832, pass an Act for establishing a Court of Escheat, which was disallowed by His Majesty in December, 1834—and the House of Assembly having also, in the first Session of 1835, agreed to an Address to His Most Gracious Majesty, relating to the Permanent Revenue Acts, Quit Rents, Land Tax, Civil List, and Escheat of Land to the Crown liable to forfeiture, which Address was delivered to His Excellency the late Lieutenant Governor Young, who promised to transmit the same to England, but did not do so: and the Assembly having repeatedly brought the foregoing subjects, and particularly those relating to the Permanent Revenue and Escheat, before His Majesty's Ministers, without any satisfactory result—*Therefore, Resolved*, That the House be recommended, not only to cause a Petition to be immediately forwarded to His Majesty on the foregoing subjects, accompanied by a copy of the Address of this House to His Majesty of last year, before mentioned, and of the Report accompanying the same; but also that a Petition to the same effect to His Majesty the King in Parliament, be transmitted forthwith to one or more influential Members of the British House of Commons, with a request to support the same—the said Petitions to be prepared by a Special Committee to be appointed by the House for that purpose.”

It was thereupon *Ordered*, That the House will hear Sir Thomas Stephen Sorrel, Knight, and David Stewart, Esq. of London, by their

Counsel, at the Bar of the House forthwith, against the prayer of the Petition of the said Inhabitants of King's County.

Mr. Solicitor General was accordingly called in and heard at the Bar; and having retired,

Ordered, That the question of concurrence be now put upon the said Resolution.

And the said Resolution being again read;

Mr. Pope moved, in amendment to the said Resolution, that after the word "Resolved" all be struck out, and the following substituted—"That a Petition be forthwith forwarded to His Majesty, on the expediency of establishing a Court of Escheat, for the purpose of revesting in the Crown such lands as are liable to forfeiture in this Island; and that a copy of the Address of this House of last year, above alluded to, and also of the Report accompanying the same, relating to the foregoing subject, be also transmitted therewith; but that it is not expedient to send a deputation to the Commons of Great Britain in Parliament, as prayed for in the Petition from King's County: and further, that copies of the said Documents be also transmitted by the Speaker, with all convenient speed, to with a request that he will be pleased to lay the same before the King in Parliament."

| Mr. Cooper, | Mr. Mackintosh, |
| Mr. Le Lacheur, | Mr. M'Callum. |

Mr. Cooper moved that the House do come to the following Resolution:

Resolved, That a Petition to the King in Council be prepared, and also to the British Parliament, founded on the King's County Petition, and certified copies be procured from

the public Records in support of the allegations contained in the said Petition, to be forwarded with and accompany the same, and that a Committee be appointed to carry this Resolution into effect.

The House divided on the question:

Ordered, That the said Petition be referred to the Committee of Supply.

A Petition of James Adams, of Tryon, whose name is thereunto subscribed, was (with the consent of His Honor the President, that the House may proceed thereon as they shall think fit) also presented to the House by Mr. Pope, and the same was received and read; setting forth—That while in the service of the Winter Mail Carriers, and employed in the conveyance of the Mail across the Strait, he met with an accident, which has reduced him to great difficulties, and praying relief.

Ordered, That the prayer of the said Petition be rejected.

A Petition of divers Inhabitants of Bedeque, whose names are thereunto subscribed, was (with the consent of His Honor the President, that the House may proceed thereon as they shall think fit) presented to the House by Mr. Pope, and the same was received and read; setting forth—That no Vessel of more than twenty tons burthen can complete her loading in Dunk River, above Hird's Point, without risk of grounding on the Oyster Beds—that said Point approaches to within two hundred yards of a channel, by which vessels of 120 tons burthen, fully loaded, can proceed to sea; but that all access thereto by land is over private property, and which they are in constant dread of being deprived of—and praying that a right of way through the said property may be purchased with the public money.

Ordered, That the prayer of the said Petition be rejected, as coming within the scope of the Road Compensation Act.

A Petition of John Ready, of Tracadie, a person blind and in indigent circumstances, was (with the consent of His Honor the President, that the House may proceed thereon as they shall think fit) presented to the House by Mr. Nelson, and the same was received and read—praying a continuance of the grant hitherto allowed for his support.

Ordered, That the said Petition be referred to the Committee of Supply.

A Petition of William Macleod, of Pinette, whose name is thereunto subscribed, was presented to the House by Mr. Binns, and the

same was received and read, praying for the enactment of a Law conferring upon the Judge of Probate the power of enforcing his decrees.

A Petition of divers Inhabitants of the Town and Royalty of Georgetown, whose names are thereunto subscribed, was also presented to the House by Mr. Binns, and the same was received and read; setting forth—That Petitioners memorialized the House last year, on the subject of four hundred acres of the Royalty having been granted by the Colonial Government to one individual, which they consider a direct infringement of their rights and privileges. That it is the opinion of the Petitioners that the said Grant ought not to be considered valid, as not being consonant to the Royal Instructions with respect to the said Royalty—and they pray the House to endeavour to obtain a restitution of the said Land, in order that it may be appropriated to the uses for which, by the said Instructions, it was intended; and in the event of its failing to obtain a restitution of the said Land, that it will endeavour to obtain from Government an express recognition of the right of the Inhabitants to the use of the water fronting the same, which in time will become extremely useful, so that it be not construed to have been granted along with the said Land.

Ordered, That the two preceding Petitions do lie on the Table.

Then the House adjourned until to-morrow, at Ten o'clock.

THURSDAY, February 25, 1836.

A PETITION of divers Inhabitants of Queen's County, whose names are thereunto subscribed, was presented to the House by Mr. Macdonald, and the same was received and read—praying that the House will be pleased to forward the whole of the statements and representations which have been made to His Majesty by the House of Assembly, relative to the unsettled state of the Inhabitants, and the oppressions they have laboured under, to be laid before the Commons of Great Britain, in Parliament, by a Deputation, and Petitioners will willingly submit to such additional burthens as it may be necessary to impose for

defraying the expenses necessary for carrying that object into effect.

Ordered, That the said Petition be referred to the Special Committee appointed to prepare a Petition to His Majesty on the expediency of establishing a Court of Escheat in this Island.

Resolved, That a further Conference be desired with the Council, on the subject matter of the last Conference.

Ordered, That Mr. Thornton do go to the Council, and desire the said Conference.

Ordered, That the same Committee who

managed the last Conference be a Committee to manage this further Conference.

Mr. *Thornton*, from the Committee appointed to prepare and bring in a Bill for the improvement of Georgetown, by levying an Assessment on Town and Water Lots in that Town, presented a Bill, as prepared by the Committee, and the same was read the first time, and ordered to be read a second time to-morrow.

The Order of the Day, for taking into consideration a Motion made by Mr. *Pope* on the 16th instant, viz:—"That this House do resolve itself into a Committee of the whole House, to consider the expediency of continuing the Act, 11 Geo. 4, cap. 17, for levying an Assessment on Land."

The House proceeded accordingly to take the said Motion into consideration.

And the said Motion being again read, and the question being put thereon;

The House divided.

A Message from the Council, by Mr. *Desbrisay*.

Mr. *Speaker*,

The Legislative Council have passed a Bill intituled *An Act to suspend an Act made and passed in the Twenty-sixth year of the Reign of His late Majesty King George the Third, intituled "An Act for the relief of Insolvent Debtors," and to make other provisions in lieu thereof.*

And then he withdrew.

Ordered, That the said Bill be read a first time to-morrow.

A Message from His Honor the President.

Mr. *Secretary Collins*, by command of His Honor, delivered the following Message:—

GEO. WRIGHT, President.

The President lays before the House of Assembly an extract of a Despatch from the Right Honorable Lord Glenelg, dated the 21st November last, explain-

ing the reasons why the decision of His Majesty in Council on an Act passed in 1833, intituled "An Act to incorporate the Trustees of St. Andrew's College, in King's County," has not been hitherto communicated to them.

February 25th, 1836.

[EXTRACT.]

Downing Street, 21st November, 1835.

SIR,

Upon a review of the correspondence between my predecessor in this department and yourself, I observe that the decision of His Majesty in Council upon an Act passed by the Legislature of Prince Edward Island in the month of April, 1833, and intituled "An Act to incorporate the Trustees of St. Andrew's College, in King's County," has never been communicated to you.

It appears that this Act was received at the Colonial Office at a time when discussions upon subjects considered analagous to it were pending before the Privy Council, and the consideration of it was accordingly postponed until these discussions should have been brought to a close. The announcement of His Majesty's decision was subsequently delayed beyond the period originally contemplated, by circumstances which it is unnecessary now to explain; but I learn from the records of this office that the Act in question received the attentive consideration, not only of Lord Stanley, who held the Seals of this Department at the time of its receipt, but also of Mr. Spring Rice, and of the Earl of Aberdeen.

The objections to it are neither few nor unimportant; and you will notify to the parties interested in the measure, that for the reasons hereafter adverted to, His Majesty will be advised to disallow this Act, in order to prevent them from now adopting any measures which would hereafter be annulled by such disallowance. Those objections appear to me to be as follows:

First—The trusts on which the property are to be held, are explained only by reference to a Deed, of which the Act contains no transcript or abridgement. It is therefore impossible to ascertain its object or tendency.

Second.—The corporate body which is established by it will have no determinate constitution, but will be governed by such rules, and according to such principles, as a fluctuating body of Trustees shall from time to time establish. It appears to me that some security should be taken in the Act itself against the influence of the prejudices or the self interest of a temporary majority of the members.

Third.—The Act does not establish a Visitor, or invest any person with visitorial authority over the College; nor does it provide for the forfeiture of the charter, by any abuse, however gross, or any non use, however protracted, of the powers which it confers.

Fourth.—The provision made for the perpetuity of the College, by filling up vacancies among the Trus-

tees is imperfect. It is not determined what is the smallest number of subscribers by whom such elections may be made; nor is there any guarantee against the reduction of the whole number of Trustees below five, when they would be incapable of filling up their number; nor any provision in case their number being reduced to five they should not be unanimous.

Fifth.—In the condition that not more than four of the Trustees shall be Clergymen, or men in holy orders, there is no sufficient definition of the terms used.

Sixth.—The College is permitted to hold lands of the annual value of Two thousand Pounds. It appears to be very questionable whether in an Island of such limited extent, and where a considerable territory might be acquired without transgressing that limit, it would be expedient to entrust such a power to a corporation of this nature.

I have, &c.

(Signed)

GLENELG.

Lieut. Governor Sir A. W. Young.

A Message from the Council, by Mr. Desbrisay.

Mr. Speaker,

The Legislative Council do agree to a further Conference, as is desired by the House of Assembly, on the subject matter of the last Conference; and have appointed the same Committee who managed the last Conference a Committee to manage this further Conference—to meet in the Committee Room instanter.

And then he withdrew.

And the names of the Managers being called over,

They went to the Conference.

And being returned—

Mr. *Thornton* reported, that the Managers had been at the Conference; and he stated the substance thereof to the House.

Then the House adjourned for one hour.

And being met—

Three Petitions were (with the consent of His Honor the President, that the House may proceed thereon as they shall think fit) presented to the House by Mr. *Macdonald*, and the same were received and read, viz.

A Petition of divers Inhabitants of Brackley Point, whose names are thereunto subscribed—praying an aid to improve the road leading from Black River Bridge to the Twelve Mile Mark.

14

A Petition of divers Inhabitants of Townships Thirty-five, Thirty-six, Thirty-seven and Forty-eight, whose names are thereunto subscribed—praying an aid of Forty Pounds to bridge Martin's Creek, and improve the road leading from Mount Stewart Bridge to the Ferry opposite Charlottetown.

A Petition of Elizabeth Le Page, of Township Forty-nine, whose name is thereunto subscribed, praying a continuance of the grant formerly allowed for the support of her husband Andrew Le Page, a Lunatic.

Ordered, That the three preceding Petitions do lie on the table.

Mr. *Macdonald* read in his place a Petition of divers Inhabitants of the North Western part of Queen's County, praying an aid to open a road from Haslam's Tavern on the Princetown Road to the Grenville Mills, New London, a distance of about three and a half miles.

Mr. *Macdonald* then moved that the said Petition be received and read; which being seconded and put, it passed in the negative.

Mr. *Macdonald* read in his place a Petition of John Arbuckle, of Charlottetown, praying an allowance for keeping a School in the said Town, of a nature not provided for in the Act for the encouragement of Education.

Mr. *Macdonald* then moved that the Fourteenth Rule of this House be suspended, as far as respects this Petition.

The House divided on the question.

YEAS, 7.

NAYS, 7.

The votes being equally divided, it was decided in the negative, by the casting vote of the Speaker.

Three Petitions were (with the consent of His Honor the President, that the House may proceed thereon as they shall think fit) presented to the House, and the same were received and read, viz.

By Mr. *Binns*.—A Petition of the Commissioners appointed under the Act, 3 Will. 4, cap. 24, to superintend the re-printing of the Laws, whose names are thereunto subscribed—praying remuneration for the performance of that duty, and for compiling an analytical Index to the Statute Book, with a marginal epitome to each Act; and also to be allowed the Costs of prosecuting an action against Mr. John H. White, Printer, for

breach of contract, and for the taxed costs of the defendant against them, on his obtaining a verdict.

A Petition of John Pippy, of Charlottetown, whose name is thereunto subscribed, praying remuneration for extra work performed by him in building a Breastwork to the Dam and Roadway leading to Government House, which, when completed, proved to be forty-one feet longer than he had contracted to build.

By *Mr. Green*.—A Petition of George Thomson, of Darnley, whose name is thereunto subscribed, setting forth—That Petitioner having contracted to build a Bridge over Indian River, was induced, in order to preserve the proportions of the arches and abutments, to extend the work a considerable distance farther than he was bound by his contract to do, as certified by the Road Commissioner—and praying remuneration for the extra work so by him performed.

Ordered, That the three preceding Petitions do lie on the Table.

A Petition of divers settlers on the Brackley Point Road, whose names are thereunto subscribed, was (with the consent of His Honor the President, that the House may proceed thereon as they shall think fit) presented to the House by *Mr. Palmer*, and the same was received and read—praying an aid to lower a hill on the said road, commonly called Thomson's Hill.

A motion being made, that the said Petition do lie on the Table;

Mr. Pope moved, by way of amendment, that the prayer of the said Petition be rejected—which being seconded and put, it was carried in the affirmative.

A Petition of John Henry White, of Charlottetown, whose name is thereunto subscribed, was (with the consent of His Honor the President, that the House may proceed thereon as they shall think fit) presented to the House by *Mr. Nelson*, and the same was received and read; setting forth—That Petitioner is a Printer and Bookbinder, and, in the year 1833, tendered his proposal for printing the Laws of the Island, agreeably to an Act of Assembly then recently passed, and his Tender being the lowest, he entered into articles of agreement with the Commissioners appointed to superintend the work, and gave Bond, with Sureties, for the due performance of the said Contract. That notwithstanding the various difficulties with which he had to contend, he proceeded

with his work, and having completed one third agreeably to Contract, he delivered a copy to each of the Commissioners, and for nearly a month afterwards was led to believe that it met their unanimous approbation. At the expiration of this period, however, on Petitioner's applying for a further supply of copy, he received an intimation from Messrs. Binns and Cullen that they "by no means" acknowledged or admitted that the Contract "was still open; and that if *Mr. White* "thought proper to proceed with the said "work, he should distinctly understand that "he acted upon his own responsibility;" and at the same time they furnished him with the supply of copy required. That Petitioner was at a loss to conceive, whether such communication was to be considered a condemnation of his work or not, and conscious that the part then done was faithfully performed, he did not hesitate to proceed with and complete the remainder. That it is well known that after a very full trial of the cause in the Supreme Court, no breach of any material part of the Contract appeared against Petitioner, and a Jury of the country recommended that he should be paid for the work. That Petitioner being advised, that under the Laws of this Island, his proper, if not only mode of redress, is through the medium of this Honorable House, he therefore prays that the House will take the premises into consideration, and grant such relief as shall appear just and meet.

Ordered, That the said Petition do lie on the Table.

A Petition of James Peake, of Charlottetown, Merchant, whose name is thereunto subscribed, was presented to the House by *Mr. Douse*, and the same was received and read; setting forth—That a Light Duty on all vessels owned by Petitioner has for several years been exacted for the support of Cranberry Island Light House, on their clearing out at the Custom House of this Island. That in the summer of 1834, one of Petitioner's vessels on her voyage to this Island, having anchored in the Gut of Canso, he was compelled to pay the sum of £5 13s. 4d. Halifax currency, being at the rate of four-pence per ton on the vessel's tonnage, for the same light. That Petitioner finding himself aggrieved at thus having to pay twice on the same voyage for his vessel passing the same Light, prays the House to cause the said sum of £5 13s. 4d. to be refunded to him, and deducted from

such sum as may be payable by this Island to the Government of Nova Scotia, towards the support of the Light House above mentioned.

Ordered, That the said Petition be referred to the Special Committee appointed to report on a Message of His Honor the President of the 18th inst. relative to a claim made by the Province of Nova Scotia on the Government of this Island for a contribution towards the support of Cranberry Island Light House.

Ordered, That Mr. Pope and Mr. Binns be added to the said Committee.

Mr. Douse read in his place a Petition of John O'Brien, Ferryman, setting forth the dilapidated state of the Ferry House opposite Charlottetown, and the out-buildings belonging thereto, and praying that the same may be put into a proper state of repair, as he is bound by his lease to keep the same in good order.

After which Mr. Douse informed the House, that His Honor the President, being acquainted with the purport of the said Petition, gives his consent that the House may proceed thereon as they shall think fit.

Mr. Douse then moved that the said Petition be received and read; and the motion being seconded and the question put thereon, it passed in the negative.

A Petition of the Reverend Abraham V. G. Wiggins, purporting to be on behalf of the Delegates of the different Temperance Societies of this Island, assembled at Charlottetown on the 24th inst. was presented to the House by Mr. Clark, and the same was received and read; setting forth—That at the meeting of the said Delegates, it was resolved to address the House, praying its countenance and assistance to put down and abolish the degrading and demoralizing vice of drunkenness. That the said Delegates have remarked that most of the liquid poison which is vended to the community issues from shops licensed to sell in quantities less than one quart; and they are persuaded, that if the retailing of Spirits were confined to Taverns, duly qualified by law, a great check would be given to this crying evil. They humbly suggest that a change in the mode of granting Licenses to Taverns is highly desirable, and they suggest that none should be licensed unless recommended by the Grand Juries of the respective Counties. The said Delegates

also suggest, as an improvement, that Tavern-keepers should be compelled to enter into securities, to keep orderly and decent houses. They are also of opinion that a Tax upon Stills used for the purpose of distilling ardent spirits, would be of great service to the cause of Temperance, and prove a considerable source of revenue. They are also of opinion that keepers of Jails should on no account be suffered to sell Spirituous Liquors, being an occupation totally at variance with their duty as guardians of those who have infringed the Laws of the land—and praying the House to take the premises into its favourable consideration.

Resolved, That the said Petition be referred to a Committee of three Members, to examine the contents thereof, and report thereon with all convenient speed.

Ordered, That Mr. Thornton, Mr. Clark and Mr. Palmer do compose the said Committee.

A Petition of Daniel Brenan, of Princetown, was (with the consent of His Honor the President, that the House may proceed thereon as they shall think fit) presented to the House by Mr. M'Nutt, and the same was received and read; setting forth—that being afflicted with loss of sight, and without friends and relations, he trusts the House will afford him such relief as his unhappy circumstances require.

Ordered, That the said Petition do lie on the Table.

Resolved, That this House do again resolve itself into a Committee of the whole House, on the Report of the Special Committee appointed to examine and report on the Public Accounts.

The House accordingly resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. Thornton took the Chair of the Committee.

Mr. Speaker resumed the Chair.

Mr. Thornton reported, that the Committee had gone into the consideration of the Report of the Special Committee referred to them, had made amendments thereto, and then adopted the same; and he read the Report in his place, and afterwards delivered it in at the Clerk's Table, where being again read, it was agreed to by the House, and is as followeth:—

| To amount of Treasury Notes in circulation, - - - £15,500 0 0 | By Balance due on Bonds, - £5,275 4 2½ | |

| £15,500 0 0 | £15,500 0 0 | |

The expenditure of the past year appears to have been £7,495 7 10½, which is £4,458 3 7½ less than that of the preceding one, and £2,344 10s. below the actual receipts of the last year.

Your Committee have to observe, that there is an increase in the Revenue of £1177 18s. 10d. beyond that of the preceding year, which (with the exception of £149 7s. 2d.) was derived from the usual resources of the Colony, and which they are aware would have been considerably increased, had not the navigation closed so early, and prevented the return of many vessels that are now detained in various ports in the neighbouring Provinces.

Your Committee are gratified to state, that the above increase in the Revenue has been chiefly derived from the Ad-valorem Duty, as they find that the quantity of ardent spirits imported during the past year is about 9,000 gallons short of the year preceding.

Your Committee have to remark, that the amount of Treasury Notes now in circulation is £15,500—Notes to the amount of £1000 having been cancelled during the past year, agreeable to law. It will be found, on reference to the foregoing general abstract, that to meet this amount there is in the Treasurer's hands, in Bonds and Cash, £6,178 16s. 9½d., leaving a balance of £9,321 3s. 2½d., to which must be added the outstanding Warrants, amounting to £3,381 9s. 2½d., which will make the gross amount of Notes and Warrants unprovided for, £12,702 12s. 4½d.

Your Committee consider it their duty to make the following statements and observations on certain items in the Public Accounts for the past year:—That the sum of £100 has been paid for three Pews in the new Episcopal Church for the use of His Majesty's Council, House of Assembly, and the Military. Also, that the sum of £103 2s. 10d. has been paid for extra work

in and about Government House, during the past year; and the sum of £39 13s. 4d. for alterations in the Council Chamber. That the sum of £23 6s. 6d. has been charged by the Colonial Secretary, as a per centage on the amount received for Licenses of Taverns and retailers of Spirituous Liquors during the past year; but your Committee do not consider that that Officer is entitled to make any deduction of that nature, as the Act of 3 Will. 4, cap. 33, expressly states "all which sums respectively shall be paid into the Treasury of this Island, for the use of His Majesty's Government (over and above the usual fees of office)." And thus it appears that no sum should be taken from the public funds for any service connected with the granting of those Licenses, in the shape of a per centage, or otherwise; and therefore recommend that an Address be presented to His Honor the President, praying that he will be pleased to give the necessary directions, that the said amount may be refunded and paid into the Treasury of this Island.

Your Committee have to remark, that the Duplicates of the Impost Accounts for the District of New London, for the Quarters ending 30th September and 2d December, 1835, have not been laid before the House by the Collector of that District.

Your Committee would recommend that the detailed Accounts, together with the Warrant Book, be printed, and form an Appendix to the Journal of this House.

All which is respectfully submitted.

[For the Detailed Accounts referred to in the above Report, see Appendix (B.) at the end of the Journal of this Session.]

Then the House adjourned until Monday next, at Ten o'clock.

THURSDAY, March 24, 1836.

A Petition of divers Inhabitants of Queen's County, whose names are thereunto subscribed, was presented to the House by Mr. Macdonald, and the same was received and read; setting forth—That Petitioners feel much discouraged that no Court of Escheats has yet been established in this Island, in conformity to the just representations of the late House of Assembly to His Majesty. That the Grantees have held, and still continue to hold, the property which they claim, merely by misrepresentation and deceit, by means whereof they abstract from the Inhabitants of this Island, in the course of every three or four years, an amount equal to the fee simple value of the lands occupied. That some of the Petitioners are American Loyalists, or the descendants of such, who emigrated to this Island in consequence of certain inducements held out to them by Governor Patterson, and were afterwards grossly deceived by interested individuals administering the Government of the Colony, and others pretending ownership to the soil; and had since to settle themselves down, under rent, upon the very lands which they were led to expect they were to receive as a compensation for the losses they had sustained by their attachment to the Government of the parent country. That the conditions in many of their leases are such, that they cannot be fulfilled, and therefore the persons, property and labour of the cultivators of the soil are at the mercy of those who claim a right to the soil, or their agents. That the abstraction of the money drawn from the country tends greatly to embarrass trade and commerce; and the money now paid for rents must be obtained, at a great sacrifice of property, from the other Colonies—and praying the House to take the premises into consideration, and take such measures for laying an impartial statement thereof before the British Government as its wisdom may direct.

Ordered, That the said Petition be referred to the Special Committee appointed to prepare an Address to His Majesty, on the expediency of establishing a Court of Escheats in this Island.

Mr. Speaker laid before the House the copy of the Treasury minute and letter, referred to in Lord Glenelg's Despatch relative to

the erection of Light Houses on the Islands of Scattarie and St. Paul's, communicated to this House on the 1st February, but which had not then been received by His Honor the President.

And the said Documents were read, and are as followeth:—

Copy of Treasury Minute, dated
6th October, 1835.

Read a letter from Sir George Gray, referring to the communications from the Secretary of State's department, of the 11th September and 29th October, 1834, on the subject of the erection of Light Houses at the entrance of the Gulf of St. Lawrence, and on the Island of Scattarie, on the North East coast of Cape Breton, stating that Lord Glenelg has received information, by a Despatch from the Lieutenant Governor of Nova Scotia, that three more vessels have recently been lost on that part of the coast of North America, and requesting this Board will have under early consideration the suggestions that have been submitted to His Majesty's Government respecting the establishment of Lights on the most dangerous points of that coast, and the aid that should be afforded by this country for that purpose.

My Lords having now before them the report called for by their Minutes of the 3d and 24th March last, from the Elder Brethren of the Trinity House, and from the commanding Officer of the Royal Engineers, in Nova Scotia, respecting the nature of the Lights it would be advisable to exhibit, and the means that might be found in the Province for constructing Light Houses, resume the consideration of the circumstances represented in the Address to His Majesty from the House of Assembly of Nova Scotia; and in the report of the Hydrographer of the Admiralty, forwarded to them by direction of the Secretary of State, in the communication of the 11th September, 1834, already adverted to.

My Lords observe that the report of the Hydrographer of the Admiralty, drawn up with a reference to the information relating to the Light Houses on the coast of the British North American Colonies, which had been procured in consequence of representations from British Merchants and Ship-owners engaged in the trade with these Colonies, represented the great importance, in addition to the Lights already established by the local Government, for objects more immediately connected with the Trade and Navigation of the separate Provinces, of placing Lights on the Islands of St. Paul and Scattarie, at the Northern and North Eastern extremity of Cape Breton, for the guidance of all shipping bound for the Gulf of St. Lawrence, or for

other parts of British North America; and that the Board of Admiralty have expressed their concurrence in the suggestions submitted in this report.

The Address of the House of Assembly of Nova Scotia, dated in April, 1834, likewise urges the great importance of establishing Lights at these points; it enumerates ten vessels, comprising a tonnage of 2766 tons, and having on board 603 persons, and being, with the exception of two small Colonial schooners, the property of British owners, which had been wrecked in the course of the previous year; represents that although few, if any, of those vessels, were bound for the ports of Nova Scotia, the heavy charge attending the relief and providing for the numerous individuals thus thrown ashore in a state of destitution, had been defrayed from the funds of the Province; and states that the local Legislature would be anxious and willing to contribute towards the expense of the proposed Lights, although their establishment much more nearly concerned the trade to and from the other British North American Provinces.

My Lords further observe, that all succeeding communications from the Secretary of State notice the receipt of intelligence of further wrecks, and losses of life and property; and unequivocally evince the urgent necessity on the score of humanity, and of every consideration connected with the safety of the maritime trade with the North American Colonies, or of His Majesty's ships employed in those seas, for the adoption of every practicable means of protecting shipping from the dangers which attend the navigation between Cape Breton and Newfoundland.

That the proposed Lights on St. Paul's and Scattarie Islands would most materially tend to effect this very desirable object, appears to be the concurrent opinion of all the parties conversant with the navigation of that part of North America, who have been consulted on the subject; but although these Islands are within the jurisdiction of the Government of Nova Scotia, my Lords cannot but admit that the allegation on the part of the House of Assembly of Nova Scotia, that the adoption of precautions with respect to the dangers in question, concerns the trade of the other British Provinces in North America, fully as much as the trade to Nova Scotia, is well founded. My Lords, however, are not prepared to approve of the suggestion of the House of Assembly in regard to the imposition, by the Parliament of the United Kingdom, of dues for defraying any expenditure for this purpose, to be levied either in the ports of the Colonies concerned, or on shipping clearing from British ports for those Colonies. But it appears to my Lords that, provided the Legislatures of those Colonies can be brought to concur in making provision for the future current expense of maintaining the proposed Lights on the Islands of St. Paul and Scattarie, the

important considerations to which they have adverted would justify an application to Parliament for the grant of such sum as would defray the charge of erecting Light Houses, and of fitting them in the first instance with the requisite apparatus and machinery.

Transmit copies of the report of the commanding Engineer in Nova Scotia, of the letters from the Secretary of the Trinity House, and of this minute, to the Secretary of the Admiralty, in order that they may be submitted for the information of that Board, and for any further suggestions the Lords of the Admiralty may see occasion to offer with respect to the subject to which these papers relate.

Treasury Chambers,
12th October, 1835.

SIR,

The Lords Commissioners of His Majesty's Treasury having had under consideration your letter of 22d August last, upon the subject of the erection of Light Houses along the coast of North America, I am commanded to transmit to you a copy of their Lordships' minute of the 6th inst. thereon, together with copies of the Report of the commanding Royal Engineer in Nova Scotia, and of a letter from the Secretary of the Trinity House on the subject, in order that they may be submitted to Lord Glenelg, with reference to the communications from His Lordship's department of the 11th September and 29th October, 1834. And I am to request that you will state to Lord Glenelg, that my Lords can entertain little doubt but that the Legislature of the North American Colonies will readily cooperate in the promotion of an object in which the interests of their respective Provinces are so deeply concerned. And my Lords would accordingly suggest, that communications should be made to the respective Colonial Governments on the subject, and will be prepared, upon the concurrence of the several Legislatures in the proposed arrangement, to submit the requisite application to Parliament for carrying into effect that part of it which is to depend upon this country. At the same time you will also state to Lord Glenelg, that, adverting to the position of these contemplated Lights, it appears to my Lords that their future supervision and management may be most advantageously vested in the Commission already existing in Nova Scotia, for the management of all matters relating to the Light Houses established by the Legislature of that Province; and my Lords would therefore propose as a further preliminary to any proceedings that may be adopted, that the reports, both of the commanding Engineer and of the Trinity Board, may be referred to that Commission for their consideration; and with a request that they will report their opinion upon the several suggestions contained in these documents relative to the position of the Light Houses, and the description of Lights that should be

exhibited; and likewise respecting the most eligible mode of erecting the requisite buildings; and that they will cause my Lords to be furnished with detailed estimates of the expenditure they may conceive it will be necessary to incur for this last mentioned purpose, with the understanding that the Lanterns and apparatus might be forwarded from this country, and that separate estimates would accordingly be procured for these portions of the charge.

I am, &c.

(Signed)

J. STEWART.

Sir George Gray, Baronet.

Ordered, That the said Documents be referred to the Special Committee appointed to report on the expediency of contributing towards the maintenance and support of the proposed Light Houses.

A Message from the Council, by Mr. Desbrisay.

Mr. Speaker,

The Legislative Council have passed a Bill intituled *An Act to amend an Act intituled 'An Act for ascertaining and establishing the Boundary Lines of Counties and Townships, and parts of Townships, and for regulating the duty of Surveyors, and to repeal a certain Act therein mentioned,'* to which they desire the concurrence of the Assembly.

And then he withdrew.

An engrossed Bill from the Council, intituled *An Act to amend an Act intituled 'An Act for ascertaining and establishing the Boundary Lines of Counties and Townships, and parts of Townships, and for regulating the duty of Surveyors, and to repeal a certain Act therein mentioned,'* was read the first time, and ordered to be read a second time to-morrow.

Ordered, That the Order of the 26th ult., for engrossing the Bill to provide against acci-

dents by Fire, and for the improvement of property in Georgetown, be discharged.

Ordered, That the said Bill be now re-committed to a Committee of the whole House.

The House accordingly resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. Thornton took the Chair of the Committee.

Mr. Speaker resumed the Chair.

The Chairman reported, that the Committee had made some progress, and had directed him to move for leave to sit again—which the House agreed to.

Then the House adjourned for one hour.

And being met—

Resolved, That this House do resolve itself into a Committee of the whole House, to resume the consideration of the Bill to provide against accidents by Fire, and for the improvement of property in Georgetown.

The House accordingly resolved itself into the said Committee.

Mr. Speaker left the Chair.

Mr. Thornton took the Chair of the Committee.

Mr. Speaker resumed the Chair.

Mr. Thornton reported, that the Committee had made several amendments to the Bill; which amendments were again read at the Clerk's Table, and agreed to by the House.

Ordered, That the said Bill, as amended, be engrossed.

Then the House adjourned until to-morrow, at Ten o'clock.

FRIDAY, March 25, 1836.

A PETITION of divers Inhabitants of Prince County, whose names are thereunto subscribed, was presented to the House by Mr. Ramsay, and the same was received and read; setting forth—That Petitioners have had reason to believe that the original Grants of the Land in this Island were liable to forfeiture, and also that they (the Petitioners) would have been dealt with according to the mode of settlement in the neighbouring

Colonies, the more particularly, as two Townships have actually been escheated and partially settled. That Petitioners are at a loss to conceive why the Colonial Government have, within the last few years, demanded at least Two hundred and fifty per cent. more for the Crown Lands in this Island than is demanded for such Lands in the neighbouring Provinces; in consequence of which, together with the deceit and oppres-

sion of many of those pretending ownership to the lands, Petitioners are greatly discouraged, and many of the youth of the Island are forced to emigrate to other countries. That to obtain a temporary indulgence, or through fear, many of the Colonists are constrained to vote for Land Agents to represent them in the General Assembly, contrary to their judgment. That many of the Petitioners emigrated to this Island in consequence of erroneous and flattering statements, circulated by Land-jobbers in Great Britain and other parts of His Majesty's Dominions, and by their Agents in this Island—that they have been greatly deceived, having had to leave their lands and improvements, after a lapse of ten, twenty, and in some cases of thirty years, or otherwise remain immured in a forest, destitute of roads, without religious instruction, or the means of educating their offspring, and all owing to the non-fulfilment of the conditions of the original Grants, conditions which formed the Charter of the Colony as regards the settlement of its Inhabitants. That several of the Petitioners being Loyal American Refugees, or the children of such, have been much injured and deceived by self-interested individuals connected with the Colonial Government, having come to this Colony in consequence of Governor Patterson's Proclamation, which held out the promise of free locations of land to them in this Island, but which, with few exceptions, were never obtained; and the Grantees still continue to let and sell the lands which they affected voluntarily to give up for the benefit of the said Loyalists. That Petitioners humbly beseech that every means within the power of the House be used to prevent further mis-statements being made to His Majesty's Ministers by the Grantees and their Agents; and also that the House will be pleased to forward the whole of the statements and representations that have been made to His Majesty by former Houses of Assembly, as well as by the present House, relative to the unsettled state of the Inhabitants, and the oppressions they labour under, to be laid before the Commons of Great Britain in Parliament, by a Deputation or otherwise, as the House may see meet, and Petitioners will cheerfully contribute to defray the expenses incurred thereby.

Ordered, That the said Petition be referred to the Special Committee appointed to prepare an Address to His Majesty, on the expediency of establishing a Court of Escheats in this Island.

Then the House adjourned for one hour.

And being met—

A Petition of divers Inhabitants of Be-deque, whose names are thereunto subscribed, was presented to the House by Mr. *Ramsay*, and the same was received and read; setting forth—That Petitioners believe that some of the original grants are liable to forfeiture, for non-fulfilment of their conditions. That Petitioners are of opinion that the granting of large tracts of Land in this Island to individuals, has had a tendency to retard its improvement, and has been greatly detrimental to the interest and prosperity of its inhabitants. That Petitioners are of opinion that as the conditions of the original Grants have not been fulfilled, they are consequently liable to forfeiture, and they humbly beg that the House will address the Throne, praying His Majesty to establish a Court of Escheats, believing that the escheat of the lands liable to forfeiture is connected with the fundamental prosperity of the Island. That unless some speedy remedy be adopted for the relief of the Petitioners and others suffering under the exactions of Proprietors of Townships, many of them must inevitably be compelled to leave the Colony, as many of their fellow subjects have done already. That many of the Petitioners have been greatly disappointed in their expectations of finding an asylum from oppression in this Island, owing to being obliged to pay heavy rents to non-resident Proprietors in Sterling money, and to the difficulty of obtaining the same. That Petitioners would wish to be dealt with according to the mode of settlement in the neighbouring Colonies. That they are at a loss to account for the high price demanded by the Colonial Government for the Crown Lands in this Colony, compared with that in the neighbouring Provinces, the upset price of such Crown Lands on Township Fifteen being Twenty Shillings per acre, although actually not worth more than Five—and praying that the House will take the premises into consideration, and take such steps as that their grievances and complaints may reach the Royal ear.

Ordered, That the said Petition be referred to the Special Committee appointed to prepare an Address to His Majesty, on the expediency of establishing a Court of Escheats in this Island.

The Order of the Day, for the second reading of an engrossed Bill from the Council, intituled *An Act to amend an*

Act intituled 'An Act for ascertaining and establishing the Boundary Lines of Counties and Townships, and parts of Townships, and for regulating the duty of Surveyors, and to repeal a certain Act therein mentioned,' being read;

A motion was made that the said Bill be now read a second time.

Mr. Douse, from the Special Committee to whom was referred the Message of His Honor the President of the 18th ult. relative to a

claim made by the Province of Nova Scotia on the Government of this Island, for a contribution towards the support of Cranberry Island Light House, with the Documents accompanying the same, presented to the House the Report of the said Committee, which was again read at the Clerk's Table, as followeth:

Your Committee having examined the Documents laid before the House, by order of His Honor the President, and having also called before them and examined several Merchants and other persons interested in shipping, find that the Province of Nova Scotia has for many years continued to exact (not only in their Ports but in the Gut of Canso) a rate equal to fourpence per ton upon Vessels belonging to this Island—whereas the express condition on which the Commissioners on behalf of this Colony agreed to contribute the annual sum of Sixty Pounds in aid of the Cranberry Island Light-House, now claimed, was that it was to be a full consideration in lieu of all such rates or charges.

Your Committee are therefore of opinion, that the amount now claimed by the province of Nova Scotia as arrears, ought not to be allowed; but that the House be recommended to provide for the regular payment in future of £60 per annum, Halifax Currency—provided the collection of the said Light Duty on all Vessels belonging to this Colony, be discontinued in future by the said Province.

Ordered, That the Report be agreed to.

Resolved, That a copy of the foregoing Report be communicated to his Honor the President, with an humble Address praying that His Honor will be pleased to announce to the Government of Nova Scotia, their decision on the subject to them referred.

Ordered, That Mr. Douse, Mr. Nelson and Mr. Macdonald be a Committee to prepare the said Address.

Mr. Speaker left the Chair.

Mr. Palmer took the Chair of the Committee.

Mr. Speaker resumed the Chair.

Mr. Palmer reported, that the Committee had come to a Resolution, which Resolution being again read at the Clerk's Table, was agreed to by the House, and is as followeth:—

Ordered, That Mr. Palmer have leave to introduce a Bill to amend an Act passed in the Fourth year of His present Majesty, intituled "An Act for the better preventing

Then the House adjourned until tomorrow, at Ten o'clock.

SATURDAY, March 26, 1836.

A MESSAGE from His Honor the President.

Mr. Secretary *Collins*, by command of His Honor, delivered the following Message: GEORGE WRIGHT, President.

The President lays before the House of Assembly a copy of a letter from the Attorney of Messrs. *Cunard & Co.*, of Halifax, proposing to run the Steamboat *Cape Breton* between Charlottetown, in this Island, and Pictou, in Nova Scotia; and between Charlottetown and Miramichi, in the Province of New Brunswick, for the term of Five Years, for the sum of £700 currency, per annum, which the President recommends to their favorable consideration.

Charlottetown, March 29, 1836.

Charlottetown, 25th March, 1836.

SIR,

I have received directions from the Hon. Samuel *Cunard & Co.*, of Halifax, to signify their readiness to furnish a sufficient Steamboat, as described in the Act of the 4th King William the 4th, cap. 13, for the conveyance of the Mails weekly "between Charlottetown, in this Island, and Pictou, in Nova Scotia, and to run from Charlottetown to Miramichi, in the Province of New Brunswick, from the opening of the navigation in the Spring until the closing thereof, in each year," for the term of Five Years, for the sum of £500 currency, per annum.

The Boat intended for this purpose by Messrs. *Cunard* is the Steamer *Cape Breton*, well known as

every way suitable; and until her arrival, which, it is supposed, will be early in June, the Steamer *Pocahontas* to run as heretofore.

The House of Assembly of New Brunswick, during its present Session, has granted a sum of money, payable annually, for the encouragement of this object, under the impression that the House of Assembly of this Island will also be disposed to assist an undertaking so advantageous to both Colonies. Although a considerable outlay of capital is required for this purpose, in the first instance, and which, by the Act in question is in part provided for, by granting an advance of £1000, the first year, to the contractor, Messrs. Cunard do not require such advance, but will be satisfied if the sum of £500 per annum is secured to them for five years by Legislative enactment, or by such other mode as the House of Assembly may deem proper.

As it is an object with Messrs. Cunard to be made acquainted with the decision of the Government upon this matter with as little delay as possible, I have to request that your Honor will be pleased to take an early opportunity of bringing the same before the House of Assembly.

I have the honor to be, &c.

R. HODGSON,

Attorney for S. CUNARD & Co.

Then the House adjourned for one hour.

And being met—

Mr. *Thornton*, from the Committee to whom was referred the Message of His Honor the President of the 25th February, with the Despatch from Lord Glenelg, relative to the Act for incorporating the Trustees of St. Andrew's College, presented the Report of the said Committee, which was again read at the Clerk's Table, and is as followeth:

Your Committee to whom was referred His Honor the President's Message of the 25th February, transmitting an extract of Lord Glenelg's despatch of the 21st November last, relative to the Act for incorporating the Trustees of St. Andrew's College, having carefully examined the several objections urged by his Lordship in the said despatch, against the Act of Incorporation, and compared them with the respective clauses or enactments thereof, beg leave to report—That with regard to the first objection, viz: "The trusts on which the property are to be held are explained only by a reference to a Deed, of which the Act contains no transcript or abridgment"—they would observe, that in the preamble to the Act in ques-

tion, the terms upon which the property is to be held by the Trustees are distinctly stated. But, in order to meet the objection, your Committee would recommend that a transcript of that Deed be inserted in any future Bill that may be introduced on this subject.

Second objection. "The corporate body which is established by it will have no determinate constitution, but will be governed by such rules, and according to such principles, as a fluctuating body of Trustees shall from time to time establish. It appears to me that some security should be taken in the Act itself against the influence of the prejudices or the self-interest of a temporary majority of the members."

Your Committee are at a loss how to define any fixed principles by which such an institution could be properly governed, as almost every Country or Province requires different By Laws and internal regulations, according to local circumstances, for the management of their respective Seminaries. And as in the present instance the Trustees of St. Andrew's College are obliged, by the eighth clause of the Act which gives them a legal existence, to keep a Register of the By Laws, Rules and Regulations, &c., which is to be at all times open to the inspection of the Administrator of the Government, His Majesty's Council and the House of Assembly, and are by the first clause prohibited from making such By Laws contrary to the Laws of this Island—which your Committee deem a sufficient guarantee in this particular—they cannot at present suggest any better means of carrying the instructions of the founder of the said College (the late Bishop M'Eachern) into effect, than by enabling the Trustees to govern the same by such rules and regulations (not contrary to the laws of this Island) as they may think proper to adopt, particularly as no specific conditions are imposed in the devise of the founder, the non-fulfillment of which would sanction the application of the property to any other purposes.

Two of the Trustees of the College having been examined by your Committee, they have expressed their anxious desire that the fullest security should be taken by enactment, so that the benevolent intentions of the founder may be fully carried into effect, and the proper application of any funds hereafter accruing to the Institution sufficiently provided for.

With reference to the Sixth and last objection—the annual value of Lands permitted to be held by the College might, in the opinion of your Committee, be reduced to one-half of the present amount, without any manifest injury to the Institution, and thereby remove what appears to your Committee to be one of the principal objections urged by His Majesty's Government.

Your Committee would therefore recommend that a Bill be ordered by the House, to amend the Act of 3 William 4, cap. 17.

And also to the Ninth Amendment, because the House of Assembly considers that a long continued riot might induce many Electors to leave the place for holding the Poll, and return home without voting; and they might not have time to return before the Writ might be returnable, or the time for legally Polling have expired. To adjourn until next day, if the riot was early in the day, seems too long; it would be better to cease Polling for a time, without adjourning, at the discretion of the Returning Officer, and might be part of

his instructions, and appears not advisable to be enacted, as it might be taken advantage of by the party likely to be defeated, in order to gain time to bring in votes when other modes failed.

He accordingly presented the said Bill, and the same was read the first time, and ordered to be read a second time to-morrow.

Mr. Pope, from the Committee to whom was referred the Petition on the subject of the Western Inland Mail, presented to this House on the 15th February, presented to the House the Report of the said Committee, which was again read at the Clerk's Table, as followeth:

Your Committee, appointed to examine and report on the Petition of divers Inhabitants of this Island, relating to the conveyance of the Inland Mails, are of opinion, that great advantage would accrue to the Public, if the contracts for the conveyance of the Inland Mails were made for a longer period than one Year, as the contractor would thereby be enabled to provide better accommodation for the conveyance of Travellers than could be expected under the present system. Your Committee duly appreciate the good conduct of the present Carrier of the Western Mail, as stated by the Petitioners, but cannot recommend so dangerous a precedent as that of securing, by enactment, a public contract to an individual, as, in their opinion, the public interest will be best promoted by submitting public contracts to a fair competition. They would therefore recommend to the House, to suggest to His Honor the President, by address, the expediency of extending the duration of all contracts entered into in future for the conveyance of the Inland Mails, to a period of three years, subject to such regulations as the Administrator of the Government in Council may deem necessary.

JOSEPH POPE,
SAMUEL GREEN.
E. THORNTON.

Ordered, That the same Committee who made the Report, be a Committee to prepare and report an Address to His Honor the President, conformably to their Report.

A Message from the Council, by Mr. Desbrisay.

Mr. Speaker,

The Legislative Council have passed the following Bills, without any amendment:—

An Act to provide against accidents by Fire, and for the improvement of property at Georgetown.

An Act to provide for the conveyance of the Mails by means of Steam Navigation, and to repeal the Acts heretofore passed for that purpose.

And then he withdrew.

Then the House adjourned for one hour.

And being met—

Mr. Thornton, from the Committee to whom was referred the Petitions of the Commissioners for superintending the reprinting of the Laws, and of John Henry White, Printer, relative to his Contract with the said Commissioners, presented to the House the Report of the said Committee, which was again read at the Clerk's Table, as followeth:—

Your Committee to whom was referred the Petition of John Henry White, and also the Petition of William Cullen and Charles Binns, Esquires, Commissioners appointed to carry into effect the Act of 3 Will. 4, cap. 24, for re-printing the Laws, have to report— that as the authority and power of the Commissioners were derived from the above Act, which constitutes them the sole judges of the work, they certainly have in no respect deviated from the letter of the Law in the course which they may have felt it necessary to adopt; but your Committee at the same time regret that the Commissioners should have considered it a duty imperative on them to prosecute Mr. White for the penalty for non-performance of the Contract, as they consider that the rejection of the work, and the consequent loss which the contractor must suffer, was sufficient, without taking further steps against him. Your Committee, under these peculiar circumstances, thought proper to make a proposition to Mr. White, which was as follows:—"If the Committee should recommend to the House that you receive a certain sum of money, say not less than One hundred and twenty-five Pounds, will you pledge yourself to give up any claim that you may suppose you have on account of the Contract for printing the Laws?"—to which Mr. White replied—"I could not." In making this proposition, your Committee would remark, that they did not do so from any claim they conceived Mr. White had on the Government owing to the conduct of the Commissioners, but in consideration of the loss of time and expense he had incurred in consequence of the prosecution, which they must consider as an unnecessarily severe step under all the circumstances of the case.

Your Committee having attentively considered the respective claims of the several Commissioners appointed to superintend the Printing, &c. of the Laws, recommend that the sum of One hundred Pounds be paid to Mr. Cullen, as having had the greater part of

the duty to perform; to Mr. Binns, the sum of Fifteen Pounds, and to Mr. Forgan, Ten Pounds, for their services.

Your Committee, considering the Commissioners were authorized by Law to act as they have done, would also recommend that there be granted to the Commissioners the sum of Seventy-one Pounds Four Shillings and Eight-pence, currency, to defray the costs incurred in the prosecution.

Mr. Le Lacheur moved, by way of amendment to the motion, that the House do come to the following Resolution thereupon:—

“Whereas the conditions of the original Grants of the Lands are not fulfilled, and the said Lands subject to forfeiture, it is inexpedient to make any amendment to an Act for establishing the Boundary Lines of Townships, or in any way to acknowledge the claims of the Proprietors—**Therefore Resolved**, That the third reading of the said Bill, as amended, be postponed until this day three months.”

By the enclosed Resolutions your Excellency will observe, that the Assembly of Lower Canada are disposed to pass an Act this Session, appointing a Commissioner to act with such Commissioners as may be named by the other Provinces, for the purpose of ascertaining the fittest sites for the proposed Light Houses, and of apportioning the annual expense of maintaining the Lights.

I need hardly assure your Excellency that this humane and highly beneficial undertaking shall not fail to receive my best attention and support.

I have, &c.

His Excellency the Lieut. Governor, or Officer administering the Government of P. E. Island. }

House of Assembly, Friday,

Resolved, That it is expedient to repeal an Act passed in the 10th and 11th years of the Reign of His late Majesty Geo. 4, cap. 34, intituled "An Act to appropriate a certain sum of Money towards the erection of a Light House on the Island of St. Paul, and to provide for the maintenance thereof."

Resolved, That this House gratefully appreciates and returns its thanks for the enlightened liberality of His Majesty's Government, contained in the Despatch of the Right Honorable the Colonial Secretary of State, dated Downing Street, 4th November, 1835, by which it appears that the Lords Commissioners of His Majesty's Treasury will apply to the Imperial Parliament for the funds necessary to the erection of Light Houses upon the Islands of Scatari and Saint Paul, provided that the Colonies whose trade is to be benefited by the measure, will engage to defray the expense of their future maintenance.

the said Islands for the proposed Light Houses, and the sums of money required for the erection of the same, as well as for their future support, and under whose management and controul the yearly expenses of the said Light Houses ought to be placed; and also, to apportion the sum of money which this Province ought to contribute annually towards the maintenance of the said Light Houses, according to the tonnage of vessels trading to or from this Province, as compared to the tonnage of vessels trading to the Provinces above mentioned, or to the benefit which each of the said Provinces respectively may be expected to derive from the said Light Houses.

Resolved, That it is expedient to appropriate a sum of money, not exceeding One hundred Pounds, to defray the necessary expenses of the said Commissioner.

Resolved, That as soon as the Commissioner on the part of this Province, and the Commissioners on the part of the other Provinces above mentioned, shall have reported upon the matters referred to them, respecting the said Light Houses, it will be expedient to pass an Act to provide the necessary funds for that part of the expenses towards the annual support of the said Light Houses, which they may award to Lower Canada, and which, being just and equitable, ought to be borne by this Province.

Resolved, That an humble Address be presented to His Excellency the Governor in Chief, praying that His Excellency will be pleased to communicate the foregoing Resolutions to the Governments of Nova Scotia, New Brunswick and Prince Edward Island.

Mr. *Binns*, from the Committee appointed to prepare and report the draught of an Address to His Majesty, on the expediency of establishing a Court of Escheats in this Island, reported the draught of an Address, as prepared by the Committee; and the said draught Address was again read at the Clerk's Table, and is as followeth:

TO THE KING'S MOST EXCELLENT
MAJESTY.

May it please Your Majesty:

The unsettled state of the Inhabitants of this Island, and their reiterated Petitions to us, their Representatives, on this subject, have again induced us to solicit the attention of your Majesty to the grievances of which they complain.

To revert to the origin of the evil, it may be necessary to state to your Majesty, that in the year 1769 the Lands in this Island were granted, subject to the condition of being settled with Protestant settlers, within ten years from the date of the Grants, in the proportion of one person to every Two hundred Acres

—the said Protestant settlers to be introduced from such parts of Europe as were not within the British dominions, or to be such persons as had resided within His Majesty's dominions in America two years antecedent to the date of the Grants, otherwise the Land to revert to the Crown, and the Grants to become void and of non-effect—the Grantees also binding themselves, their heirs and assigns, to pay to His Majesty King George the Third, his heirs and successors, a yearly Quit Rent, varying from two to six shillings sterling for every hundred acres so granted, according to the quality or situation of the Land. Such conditions for the introduction of Foreign settlers, naturally imply, that the expense thereof, together with the Quit Rent reserved, were the price which the Grantees were to pay for their Lands.

These conditions, it appears, were not complied with in any one instance; and, in 1779, the Lands having become liable to be escheated and forfeited, several British emigrants, preferring a settlement in this Island to one in the Southern Colonies, then in a state of hostility to the parent country, were induced to remove hither, such persons having reason to believe that the Lands in this Island would, as a matter of course, be escheated, and that they would be placed upon them according to the mode of settlement adopted in the neighbouring British Colonies which remained firm in their allegiance to your Royal Father. They did not consider it possible, or consistent with the honor of the great nation under whose protection they were placed, that the Grantees, who had so signally failed in the performance of the terms on which they obtained possession of the Lands themselves, would be permitted to impose the same terms on His Majesty's British subjects, who had voluntarily settled in the Island, that they might have imposed upon Foreigners, had they been introduced and settled upon the lands by the Grantees, according to the terms of their Grants. These emigrants, many of whom were induced to leave their native country by flattering and specious representations of the advantages possessed by this Island for emigration and settlement, made by the Grantees and their Agents in Britain, were not made aware of the delusion which had been practised upon them, until after they had arrived in the Island, and the administration of its Government being chiefly, if not altogether, in the hands of those who had a direct interest in deluding them, they were deprived of the means of redress, or even information as to their actual situation. Instead of being placed on the lands upon the same terms as the settlers in the neighbouring Colonies of Nova Scotia and New Brunswick, as they had been led to expect, they were forced, in their then destitute circumstances—their means being consumed in transporting themselves and families to the country—to atton to the Grantees, and become their Tenants, on such terms as they chose to impose. Situated as these unfortunate persons were, they had no alternative but to submit to the terms of the Grantees, or to become Squatters, that is, persons possessing no shew of title whatever to the Lands they cultivate. In some isolated cases, purchases were made of small tracts of land, by individuals more fortunately circumstanced than the rest, whose means were not entirely exhausted; but the number of these was so very inconsiderable, as to render any allusion to them hardly necessary. By far the greater number, impelled by the fear of utter destitution, had to accept of leases of forest or wilderness lands, in many cases for the short

period of forty years, at the end of which the said lands were to be delivered up, with all their improvements, to their Landlords.

We humbly submit, that it must appear but too evident to your Majesty, that such a class of people, coming to a Colony so situated, had no opportunity of making a fair and equitable bargain for a permanent location on land with those who claimed the possession of it; and it may well be questioned whether the Grantees were competent to sell or let lands to British subjects, which were liable to forfeiture for the non-fulfillment of the conditions on which they were granted. The deluded emigrant could form no estimate of the nature or productiveness of the soil, the length and severity of the winters, the labour of clearing the Lands; and the impossibility of paying a money rent, in British Sterling, to an absentee Landlord. The result that naturally might have been expected has followed—the great body of the Tenantry are so in arrear for rent, that the prospect of ever being able to liquidate the same is altogether hopeless.

In the year 1803 an Act was passed by the Colonial Legislature, for organizing a Court of Escheat, and establishing the mode of proceeding, and the fees to be taken in said Court, in exact conformity to the mode which prevailed in the Court of Escheat in the neighbouring Province of Nova Scotia—the reasons for enacting which Law are so fully stated in the Preamble to the Act, that we take the liberty of transcribing the same, for the information of your Majesty:

Whereas, notwithstanding the various instances of indulgence and forbearance of our most gracious Sovereign towards the Grantees or Proprietors of the several Lots, half Lots, or shares of Lots of Land, on this Island, the said Proprietors, a few only excepted, have so wholly neglected the settlement and improvement of their lands, that at this day, now upwards of thirty years from the date of their respective Grants, by far the greatest part of the Island is abandoned to a state of wilderness, discouraging and distressing to His Majesty's faithful subjects, its present inhabitants, destructive to the just views and expectations of Government, and burthensome to our mother country in supporting and maintaining its establishment: And whereas, in consequence of the late humble and dutiful representation of the late House of Assembly to His Majesty's Ministers, the actual state of the Colony, as above mentioned, has been taken under their consideration, and on the Sixth day of August last, His Majesty was graciously pleased to signify his Royal pleasure, by the Right Honorable Lord Hobart, one of his Majesty's principal Secretaries of State, to the Lieutenant Governor of this Island, that the Government of this Island should be prepared to pursue, without loss of time, when circumstances should render it advisable, the requisite and legal steps for effectually re-vesting in His Majesty such lands as might be liable to be escheated and forfeited to his Majesty, either by non-improvement, non-payment of the Quit Rents, or non-performance of any of the conditions of the Grants thereof, and that the line of proceeding established in the neighbouring Colony of Nova Scotia in that respect, should be adopted and followed in this Island—Wherefore, in ready obedience, and in conformity to His Majesty's gracious pleasure so as aforesaid signified, and for effectually promoting, encouraging and advancing the settlement and prosperity of this Island: Be it enacted, &c.

The Act in question having been formed in exact conformity to Lord Hobart's despatch, and going home under a suspending clause, until His Majesty's pleasure thereon should be signified, the Lieutenant Governor, in transmitting the same to the Secretary of State, stated to his Lordship the great public expectations that it excited, and the desire of the House of Assembly, which he was directed to convey to his Lordship, to be made acquainted with the Royal decision respecting it as speedily as might be consistent with his Lordship's convenience—under such circumstances, the disallowance of the Act seems never for a moment to have been contemplated. The measure was hailed by the Inhabitants as the harbinger

of justice; and the expectation of seeing the Island, with regard to the mode of settlement, placed upon the same footing with the more favoured Colonies in its neighbourhood, seemed to be on the point of being realized. An official Return, transmitted to His Majesty's Ministers by the Lieutenant Governor, of the number of Acres in the Island settled and unsettled at the period alluded to, exhibited a list of Forty-one Townships clearly liable to forfeiture, for a breach of the covenant relating to settlement, even on the supposition that the indulgence dispensing with the conditions requiring the lands to be settled with Foreign Protestants had been then issued and sanctioned by Law. And that the Lands were on the point of being re-vested in the Crown, was so much expected by the Grantees themselves, that many of them disposed of their Grants for a mere trifle—in numerous instances, for less than One Penny per Acre! to Land Jobbers and Speculators, when, at the same time, the Tenants settled upon them were subject to an annual rent of from One to Two Shillings per Acre.

That the baneful influence of the Grantees, or the said Speculators who had purchased from them, proved but too successful in rendering abortive the measures planned by the wisdom of His late Majesty's Councils for the settlement and prosperity of this Island, needs no further illustration than a reference to the fact, that all information respecting the Act in question has been suppressed; although, by a Resolution subsequently passed by the House of Assembly, in the year 1805, it is expressly stated, that they had the strongest reason to believe that the Royal assent to the said Act for reinvesting His Majesty with such Lands as are or may be liable to forfeiture within this Island, has been graciously afforded by His Majesty; but that the same has been withheld by means of unfounded representations of interested individuals in England, which the Assembly in this Island had no opportunity of answering; and in the same year of 1805 a humble and dutiful representation was addressed by the Assembly to His Majesty, complaining of the grievous obstructions which had arisen to render abortive His gracious and beneficent intention towards the Colony, and praying that he would give orders for their removal, in order that the settlement and improvement of the Colony might no longer be retarded. We have reason to complain that to this dutiful and humble representation no attention was paid; and the minds of the Colonists remained in the same unsettled state, with regard to the Act referred to, and to the views of Government relative to the settlement of the Colony, until the year 1818, when two Townships were escheated, upon Inquisitions held during the administration of Lieutenant Governor Smith, for non-performance of the conditions on which they were granted—which said Townships have since been partially settled, by the actual residents receiving Grants in fee from the Crown.

The first of these Inquisitions was held on the Fifth of February, 1818; and the Proprietors of the other Townships, well knowing that their Lands were equally liable to forfeiture, appear to have immediately taken the alarm—and, fatally for the peace, welfare and prosperity of the Colony, were again but too successful in arresting the progress of those salutary measures, the operation of which had commenced so favourably. As a proof of this, it appears, that on the 28th day of July following, the Lieutenant Governor received a Despatch from the Right Honorable the

Secretary of State, bearing date the 30th May, intimating that His Royal Highness the Prince Regent had been bountifully and graciously pleased to alter the rate of Quit Rents heretofore payable by the Land Proprietors of the Island, to Two Shillings per Hundred Acres, as related to Township lands; and further, that the pleasure of His Royal Highness was, "that the Proprietors of Township lands shall be released from the obligation imposed by their original Grants, of settling them with Foreign Protestants—provided, that within Ten Years from December, 1816, the lands shall have been settled with other persons in the proportions specified in their original grants."

From the receipt of the above Despatch, all proceedings against the lands were suspended. We may be allowed to express to Your Majesty, that the indulgence thus granted by the Ministers of His late Majesty, your Royal Brother, was viewed by the Colonists, who had been taught to consider the Royal Instructions, and the conditions of the original Grants, as the charter of the Colony, with regard to the settlement of the land, as a direct infringement of their rights; and we should think that we were wanting in our duty to our constituents if we failed to acquaint Your Majesty, that no plan that could have been devised could more effectually have retarded the settlement and improvement of the Colony; nor are we aware of a single beneficial result that has been produced by it. Prior to that period several of the Proprietors had exerted themselves to settle their lands, although with a different description of settlers from that required by their Grants; but since the promulgation of the aforesaid indulgence, it can hardly be said that any exertions have been used; and at the end of the stipulated period the Island remained in nearly the same condition as before. Many of the Proprietors entirely neglected the lands, until by the spontaneous resort of squatters their value was raised; whereupon these hapless persons, who had hewed out of the forest a few clear spots whereon to subsist, were ejected without mercy, or subjected to a ruinous rent. Upon an investigation into the state of the Colony, which was instituted by the House of Assembly in 1832, it was ascertained that even at that late period, being upwards of sixty years from the date of the Grants, not less than Seventeen Townships were unprovided with the requisite number of settlers; and even at this day there are Townships on the Island for which no ostensible owner can be found. It becomes our duty to acquaint Your Majesty, that in the face of all these incontrovertible facts, every attempt to obtain a Court of Escheat in this Island has been thwarted, and we have every reason to suppose, through the prevailing influence of the Proprietors, whose claims upon the Royal indulgence we are at a loss to conceive, seeing that they have uniformly acted as if they considered the conditions of their contracts binding on the one side only. Had the lands been situated in any other part of Your Majesty's dominions, and the Grantees had so neglected to perform their covenants with respect to them, we cannot but suppose that they would have been differently dealt with.

In the Session of 1832, the Legislature of the Colony passed an Act for the improvement and settlement of lands in this Island, and for regulating the proceedings of a Court of Escheats. This Act was duly assented to by the Lieutenant Governor; but although it contained no suspending clause, his Excellency declined to institute the Court until he should receive

instructions from your Majesty's Ministers; and soon afterwards a Despatch was received, in which his Excellency was commended by Lord Goderich for deferring the appointment of a Court—his Lordship stating, "that he considered it essential to the institution of proceedings for forfeiting lands to the Crown, that they should be capable of a speedy decision, and of one capable of being foreseen nearly with certainty—and that, unless with these conditions, he never should consent to unsettle the minds of the Colonists by appointing a Court of Escheat."

Your Majesty cannot fail to observe, that the objection to the appointment of a Court of Escheat, lest it should unsettle the minds of the Colonists, would apply with equal force to the appointment of Courts of Justice, lest the discussion of questions of law should be attended with a like effect. So far from the appointment of such a Court having a tendency to unsettle the minds of the inhabitants, we have no hesitation in asserting that the effect would be quite the reverse. The general ground work of all their complaints is, that they have been denied justice in this behalf, and they only pray for the appointment of an impartial tribunal, where the claims of all parties may be fairly considered, and the question set at rest. With regard to the other point, that proceedings should be capable of being foreseen nearly with certainty—we have to remark, that in the two cases before referred to, being the only instances in which proceedings for forfeiting lands to the Crown were instituted in this Island, no difficulty such as his Lordship anticipated was experienced. In both cases the lands were declared forfeited, and the judgment was never attempted to be set aside or controverted.

In the event of any future proceedings being instituted, we can see no rational ground for apprehending that any long or protracted inquiry would be necessary, to arrive at facts, where all the circumstances connected with the settlement of the lands are so well known.

Notwithstanding the discouraging nature of Lord Goderich's Despatch, the House of Assembly, at the earnest solicitation of their constituents, were induced in the first Session of 1835, to enter into a full investigation of the whole subject, in connection with other grievances which were felt to be oppressive and obnoxious. The result of their labours was a Report and an Address to your Majesty, founded upon a series of Resolutions agreed to in Committee of the whole House, on the general state of the Colony. The said Address, together with a copy of the Report referred to, was delivered to the late Lieutenant Governor by a Committee of the House who waited upon his Excellency for that purpose, and he was pleased to say, that he would forward the same as requested, for the purpose of being laid at the foot of the Throne. After this assurance, it was with no small degree of surprise we learned, in the course of the present Session, that the said Documents had never been forwarded. The information was communicated to us by his Honor the President administering the Government, by a Message, of which the following is a copy:

GEORGE WRIGHT, President.

The President informs the House of Assembly, in answer to their Address of the 4th inst. requesting him "to be pleased to acquaint the House, if any, and what answer has been received to the Address to his Majesty, of the 7th April last, praying for the adoption of measures for effectually vesting in the Crown all Lands in this

Colony liable to forfeiture," that upon inquiry he has ascertained, that on the 9th April last, the House requested the late Lieut. Governor to transmit to his Majesty an Address, of which the following is the only prayer "That he would be pleased to direct that the Colonial Act of 1832, intituled *An Act to encourage the Settlement and improvement of Lands within this Island, and to regulate the proceedings of a Court of Escheats therein*, may be allowed to go into immediate operation." That on the 13th April, his Excellency received a Despatch from the Secretary of State, enclosing an Order of His Majesty in Council, disallowing the above named Act, which Despatch and Order in Council were communicated to the House on the 1st May following—and his Excellency therefore thought it unnecessary to transmit the Address praying "that it may go into immediate operation."

February 7th, 1836.

That his late Excellency acted under the erroneous impression that the Address referred to contained one prayer only, and that as the Act in question had been disallowed, it became unnecessary to transmit the Address praying for its going into operation, it would be but charitable to believe—we wish not to attribute improper motives; but had it pleased Providence to have spared his life, we would have felt it a duty incumbent upon us to have called your Majesty's attention to his conduct in this particular. We are free to admit that the concluding prayer of the Address was, that the Act might go into operation; but it appears to us that the very reason assigned for its disallowance, namely, that without the aid of any positive law, the Crown might take advantage of the conditions of the Grants, ought to have induced his late Excellency to have forwarded the documents entrusted to him by the House; but in reality the Address embodied other topics of great public importance. It referred to the evils arising from the continuance of the permanent Revenue Acts; and it contained the reasons why the Legislature could not adopt Lord Stanley's suggestions for securing a fixed sum upon the produce of those Acts for the support of the Civil Government; and after enforcing the necessity of appointing a Court of Escheat, it prayed your Majesty to take the premises into consideration. From this it will appear that the suppression of these documents was a most unwarrantable proceeding. While we refrain to make any further animadversions upon this point, we have deemed it our duty to transmit copies of the said Address and Report, and earnestly solicit your Majesty's attention to the subject matter thereof.

Your Majesty having been advised to disallow the Colonial Act of 1832, for regulating the proceedings of a Court of Escheat in this Island, on the grounds that the Crown might, without the aid of any positive Law, take advantage of the conditions of the Grants, whereas by the enactment of such a Law as that alluded to, your Majesty would be fettered in the exercise of your prerogative, either of enforcing or remitting such forfeitures as the merits of each particular case might require; and, impressed as we are with the conviction that your Majesty will exercise your Royal prerogative for no other end than the good of your Subjects, we humbly pray, that for the considerations before mentioned, your Majesty will deign to listen to the prayer of your faithful Subjects, for the establishment of a Court of Escheat in this Island, for the purpose of revesting in the Crown the Lands liable to forfeiture; a measure we humbly conceive essentially necessary for the extension of settlement and the general prosperity.

As a concomitant measure, we would humbly beg permission to solicit your Majesty's attention to the case of the numerous loyal American Refugees, and their descendants, settled in this Island. In the year 1783, Walter Patterson, Esquire, then Governor of

the Island, being himself an extensive Land Proprietor, issued a Proclamation, which was extensively circulated in the neighbouring Colonies, for the purpose of inducing the Refugees, Provincial Troops, and other American Emigrants, to settle in this Island. The inducements held out to them in the said Proclamation were, that Lands to the extent of Two hundred thousand Acres, which had been generously placed at the disposal of the Governor and Council for that purpose, by a number of the Proprietors, should be granted to them in the same proportion and on the same terms as were then offered in Nova Scotia, the same to be given out of the different Townships by lot, in the fairest and most equitable manner, according to the quantity signed for by each Proprietor. Induced by such flattering offers, and by a high-wrought description of the fertility of the soil and various and numerous advantages the Island possessed for settlement, a considerable number of those deserving subjects did repair to this Island, and, in some cases, were put in possession of the Lands laid out and allotted to them, and made improvements thereon; but, with very few exceptions, were unable to obtain Deeds or Grants of the same. Worn out by repeated disappointments, the greater proportion left the Island; of those who remained, some accepted of such Grants as they could obtain, although differing widely in their conditions from what had been promised to them; others abandoned their possessions altogether, and accepted Leases of other Lands; while, to this day, many remain in possession of the Lands originally assigned them, without having ever received any Grants or Title Deeds of the same. In the year 1833, the House of Assembly passed a Bill to confirm the Titles and quiet the possessions and locations of the said American Loyalists, grounded upon two Reports of Committees, copies of which are herewith transmitted (marked C. D.) This Bill having been rejected by the Council, another of similar tendency was passed in the year 1835, which was also rejected—the Council assigning as one reason, that a Bill similar in many respects passed the Legislature of the Colony in 1810, with a suspending clause, and the Royal assent never having been signified thereto, must consequently be considered to have been intentionally withheld. Under the peculiar circumstances of the case, we have, therefore, humbly to submit, that in whatever arrangements, which, in the wisdom of your Majesty's Council, may be devised for the settlement of the Lands in this Colony, the claims of that deserving class of persons termed American Loyalists are entitled to your Majesty's gracious consideration.

Mr. Cooper moved that the Address reported from the Special Committee be received, and adopted by the House.

Mr. Pope moved, as an amendment, that instead of the said Address, the following be substituted, and adopted by the House, viz:

TO THE KING'S MOST EXCELLENT MAJESTY.

May it please Your Majesty:

We your Majesty's dutiful and loyal Subjects, the Commons of Prince Edward Island, in Colonial Parliament assembled, beg leave to approach your Majesty with renewed assurances of our unabated attachment to your Majesty's Royal Person and Government.

At the earnest solicitation of our Constituents, and also considering it to be our imperative duty, we were

induced, in the first Session of 1835, to prepare a full Report on subjects of Public grievances in the Colony, and in particular, with reference to the expediency of a Court of Escheats being established by your Majesty in the Island; and also an humble Address to your Majesty, to be transmitted therewith; but we have to express our deep regret, that your Majesty's Representative, the late Lieutenant Governor Sir Aretas William Young, after having received and promised to forward the said Address and Report, to be laid before your Majesty, should have failed to do so—which circumstance remained unknown to the House of Assembly until the House had applied to the President, in its present Session, to know if any answer had been received from your Majesty. This most unexpected occurrence is the more to be deplored, as your Majesty's decision must have tended to allay the excitement which has existed on this subject amongst a numerous class of the Inhabitants, and which is increasing to an alarming extent, to the serious injury of those principles which every loyal British subject ought to profess and entertain, to the great depreciation of all Property in the Colony, by exciting doubts in the minds of many persons respecting the Titles to Lands, preventing men of capital from settling in the country, and retarding the transaction of public business in the Legislature, and to the serious detriment of the prosperity and welfare of the Island at large.

The House of Assembly, in the year 1833, took into consideration the objections urged by your Majesty's then Secretary of State for the Colonies, on the subject of establishing a Court of Escheat, and founded thereon an Address to your Majesty, in which such objections were fully replied to, and to which Address we would most humbly beg to refer your Majesty, as also to the Report and Address of last year, presented to the late Lieutenant Governor, to be laid at the foot of the Throne—copies of which are hereunto annexed. But it would appear, by reference to the Report of the Lords of the Committee of your Majesty's Privy Council on the Colonial Act of 1832, for regulating the proceedings of a Court of Escheats, that your Majesty had been recommended to disallow the same, least it might "fetter your Majesty in the exercise of your Royal prerogative, either of enforcing or remitting such forfeitures, as the merits of each particular case might require."

We therefore humbly pray your Majesty so to exercise your Royal prerogative, by establishing a Court of Escheats, for vesting in the Crown such lands as are liable to forfeiture for non-settlement, unless in such cases where, after a full investigation, the Grantees may be found deserving of your Majesty's most gracious consideration under the indulgences granted by your Majesty's Royal predecessors.

The House divided on the question of amendment:

Your Committee having carefully examined the documents to them referred, cannot refrain from expressing their high sense of the liberality manifested by His Majesty's Government in their offer to erect Light Houses on the Islands of St. Paul and Scatari, on condition that provision be made by the North American Colonies for their future maintenance. And although the said Light Houses would be beneficial to this Island but to a very limited extent, when compared with the neighbouring Colonies, yet your Committee would consider themselves wanting in the common feelings of humanity, did they not earnestly recommend the House to gratefully respond to the liberal proposal of His Majesty's Government; and therefore recommend that a Bill be brought in to appoint a Commissioner to arbitrate with such Commissioners as may be appointed by the sister Colonies, and to estimate the sum to be paid by this Island towards the annual expenses of the said Lights, according to the amount of tonnage trading to this Colony as compared with the tonnage of the other Provinces; and your Committee further recommend that the sum of £50 be provided in Supply towards defraying the unavoidable expenses of the said Commissioner. A Message from the Council, by Mr. Desbrisay.

Mr. Speaker,

The Legislative Council have passed the Bill intituled *An Act to amend the Law relating to the admission of Barristers, Attorneys and Solicitors; and to regulate the admission of Advocates and Proctors in the Courts of Vice Admiralty and Court of Probate in this Island,* with several amendments, to which they desire the concurrence of the Assembly.

And then he withdrew.

Mr. *Pope*, from the Committee appointed to prepare and report the draught of an Address to His Honor the President, praying that he will be pleased to transmit to His Majesty's Ministers the Address of this House to His Majesty, on the expediency of establishing a Court of Escheats in this Island, for the purpose of being laid at the foot of the Throne, presented to the House the draught of an Address, as prepared by the Committee; and the said draught Address was again read at the Clerk's Table, and is as followeth:—

To His Honor *GEORGE WRIGHT*, President and Commander in Chief in and over His Majesty's Island Prince Edward, and the Territories thereunto adjacent, Chancellor and Vice Admiral of the same, &c. &c. &c.

May it please Your Honor:

The House of Assembly having had under consideration, among other matters, several Petitions from the Inhabitants of the Colony, praying the House to cause the necessary steps to be taken for effectually revesting in the Crown such Lands as are liable to forfeiture in this Island, they have felt it their duty to prepare an humble Memorial to His Majesty on the subject, and most respectfully request, that your Honor will be pleased, at your earliest convenience, to transmit the same to His Majesty's Ministers, together with a copy of the Memorial of this House of last year, and the Report accompanying the same, and also a copy of the Memorial of the late House of

Assembly, in its Session of 1833, on the same subject, in order that they may be laid at the foot of the Throne.

The House of Assembly, deeply impressed with a conviction that any unnecessary delay on the part of His Majesty's Government, to bring the question of Escheat to a speedy and equitable adjustment, will be attended with consequences prejudicial to the best interests of the Colony, confidently hope and most earnestly solicit, that your Honor will be pleased to accompany the said documents with such remarks as the importance of the subjects to which they relate justly demands, and which your Honor's local experience may suggest, to the end that the present excitement may be allayed, and the question finally settled.

Mr. *Pope* moved, that the Address reported from the Committee be received and adopted by the House.

Mr. *Cooper* moved, that the consideration of the said Motion be postponed until this day six months.

The House divided on the question:

“HOUSE OF ASSEMBLY,
QUEBEC, 15th March, 1836.

“SIR,

“In the exposition of the extent and nature of the Reforms demanded by the people of this Province, and in the Resolutions of their Representatives which I transmit to you, by order of the House of Assembly, we hope a proof will be found of the earnestness with which we are endeavouring to secure the establish-

ment and recognition of the Political rights of our Colonial fellow subjects as well as of our own.

“ To whatever extent the blessings of a just, cheap and responsible system of Government are obtained by us, to that extent and amount will the people of the other British North American Colonies also participate in the same blessings.

“ They cannot but readily understand how various and how grinding are the abuses which distract this Province, when they are told, that for many long and painful years, the people have, directly by Petitions, or through their Representatives, in terms of no common emphasis, and by majorities so overwhelming that one might say without impropriety, unanimously, impugned the Administration of affairs in every Department of the Public Service. They have demanded the adoption of measures alone adequate to the cure of the various abuses which have sprung from imperfect Institutions, acknowledged by a Committee of the House of Commons, so far back as 1828, to have been viciously administered. So late as the year 1835, it was admitted, both in the House of Commons and in the House of Lords, on the Ministerial as well as Opposition Benches, by men the most opposite in their opinions on every question of domestic or European policy, with a concert which would arise from no other cause than the clearest evidence of the fact, that nothing efficient has as yet been done in Canada to remedy acknowledged abuses—abuses denounced by this House; denounced by His Majesty's Government; repeatedly denounced by Committees of the House of Commons, which enjoined responsible Ministers to see that they should cease.

“ These Ministers we impeach, as being unwilling to effect the good work of peace and conciliation, when charged to do so. We impeach them for their Instructions of the 17th July, 1835, devised with a view to impose a Government upon us, which will be more irresponsible than it has ever been in time past; more prodigal of our lands and taxes, which constitute the common fund; more oppressive by the number of its Agents and their excessive emoluments, out of all just proportion to the value of the services rendered; and more servile, on account of its more direct dependence on Downing-Street, where they never understood, where they are unwilling to understand, that the state of society all over Continental America requires that the forms of its Government should approximate nearer to that selected under propitious circumstances, and after mature consideration, by the wise Statesmen of the neighbouring Union, than to those into which chance and past ages have moulded European Societies.

“ We crave your attention to the contradictions manifest in those Instructions of the Colonial Minister above alluded to. They first theoretically acknow-

ledge a few protecting axioms of public Colonial law, the salutary operations of which they practically obstruct, and then fritter them down to insignificance by niceties and hypothetical extreme cases, which the Minister creates to justify the exceptions he chooses to make to their application.

“ Thus, the Minister of the day admits that Parliamentary legislation on the part of Great Britain, on any exclusively internal subject, in any British Colony possessing a Representative Assembly, is, as a general rule, unconstitutional. Yet by Canada Trade Acts—Tenures' Acts—Smuggled American Land Company Acts—this general rule has been repeatedly, grossly violated. By the first of these Acts, temporary taxes, imposed during the late war, for the duration of that war, and no longer, as a means of aiding Great Britain to preserve a resting place on this Continent, have been ungratefully and oppressively revived and made permanent by the Imperial Parliament. It is true that the Government of Upper Canada induced a bribed or unwary Parliament to petition for the revival and continuance of those taxes; but a treacherous Governor of this Province withheld from this Assembly the information of this fact, transmitted to him to be communicated to the Representatives of the people of this Colony. For years the Assemblies of both the Canadas have been endeavouring to settle this important question, but the useful Bills to provide for the appointments of Commissioners have, until now, been rejected by the Legislative Councils of the one or the other of these Provinces in turn.

“ By the other Imperial Acts, property affected in its incidents and conditions of possession and transmission, has been rendered insecure—an odious monopoly, which retards the settlement of the country, has been created; the administration of justice has been impeded, by an attempt to introduce a second system of laws in a country, where Courts are constituted and Judges commissioned and sworn to administer a different system of law.

“ Of this unconstitutional Parliamentary legislation, on the part of Great Britain, on subjects of an exclusively internal nature, in a British Colony possessing a Representative Assembly, this House has repeatedly, but hitherto ineffectually, complained.

“ Were we to resign ourselves to a degrading system of servitude, do you hope, do you believe, that the ministerial policy which would degrade us, would consent to concede to you an ennobling system of freedom to that extent you deserve, under which the rapid and easy expansion of the moral, intellectual and industrial capacities of the robust and rapidly accumulating population in the several Provinces, would soon reveal how vast are their combined strength and resources, when no sinister and baneful influence is busy sowing dissensions, or exciting by misrepresen-

tations hurtful prejudices amongst those who have so many great and common interests? If misrule went on unchecked in any of these neighbouring Colonies without exciting our sympathy, your ills would soon become our ills, and ours would reach you in turn. If, however, you are free from improper and unconstitutional Parliamentary legislation, we rejoice that such is your happier lot. If you have to complain of evils similar to ours—or any other evils—all constitutional means in the power of the people of this Province would readily be resorted to, to aid you in their removal. Such good offices, it is the duty of every Colony to tender and to accept in turn.

“The present Colonial Minister, who is forced to acknowledge the correct axiom, that British Colonies possessing a Representative Assembly are, of right, freed from the legislation of the Imperial Parliament, is so attached to the privileges enjoyed by his predecessors in office in misgoverning these distant possessions, that he hesitates not to lay bare, (in his Instructions to Sir Francis Head,) in all its naked deformity, the Colonial system, as it is understood and expounded in Downing-street. The inferences which are manifestly to be deduced from these encroaching Instructions, are, that in the most minute details, every thing, though of an exclusively internal nature, in British Colonies having Representative Assemblies, must be carefully kept under the patronage, direction and official legislation of the Colonial office. The remonstrances of nearly a million of people in the Canadas, constitutionally expressed by their Representatives, disturb too much the set doctrines and practices, traditionally transmitted from Tories to Whigs, from Lord North to Lord Glenelg, to expect the concession of any remedial measures which the sufferers claim.

“The people of the Canadas labouring under the accumulating wrongs proceeding from an Act of Parliament, unite as one man in demanding that that Act be amended in such of its provisions as relate to their Legislative Councils, which they denounce as the cause and mainspring of all the heart-burnings, distractions and sufferings in these Provinces. The Colonial Minister, four thousand miles distant from the scene of our sufferings, and naturally unable, from the multiplicity of his avocations, to become acquainted with the extent of our wrongs, arrogantly tells the Assemblies, that have declared that all remedial measures short of rendering the seats in the Legislative Councils dependent on popular Election will be futile and unsatisfactory—that the King is most unwilling to admit as open to debate “the question, whether one of the vital principles of the Provincial Government shall undergo alteration.” His deceitful agents, the Royal Commissioners, to whom those Instructions were address-

sed, told this Assembly, on the other hand, that they are not precluded from entering on an inquiry on this grave subject. Instead of freely communicating those Instructions to the Legislature of this Province, on its being convened, on whose determinations they could not but have had great influence, the Royal Commissioners carefully withheld those Instructions; and it was not until after nearly five months Session, that the Representatives of this Province by chance, learned the suppressed truths from the Newspapers of the day. And thus for months have we been unfairly deprived of all means of protesting and remonstrating, at an early season, against the tyrannical tendencies of those Downing-street Despatches; against the gross errors of fact which they contain; against the untenable assumption that the Councils, created by the Act of 1791, have any analogies either with the Aristocratical Institutions of Great Britain and Ireland, or with the Councils of other British Colonies; and against the heinousness of the conduct of this pretended liberal Minister, who casts off and derides the prophetic warnings of Charles James Fox, of the miseries that M. Pitt's pseudo-Aristocratic Councils were to entail on these Colonies; and were it not that this base dissembling had thus lulled us into false security, our complaints would, ere now, have been before the Imperial Parliament.

“The Act of 1791 was part and parcel of the now repudiated policy of M. Pitt, to build up an Aristocracy in this Hemisphere, and to strengthen its power. The population of these Northern Colonies has quintupled since the passing of that Act; the soil of America repudiates a privileged Aristocracy; yet the sages who have our destinies entrusted to their care, tell us, “that they will not close the avenue to “an inquiry, respecting which for the present they “perceive no reasonable ground of doubt,” but they may possibly take into their consideration at some future time the best means to discard the views of a million of people who ask for *Elective Councils*; who desire to see nothing rationally to envy in the Institutions of their neighbours; and who have a right to claim, if they see fit, and who would beneficially enjoy as much of political freedom as was the lot of the most favored of the British subjects *within the limits of Colonies founded by Charters of Incorporation*.

“These sages tell us, moreover, that if, contrary to their forebodings, they are driven by our importunities to propose amendments to the Statute of 31st Geo. 3, c. 31, it would not be in accordance with the views and wishes of the *living* generations oppressed by its enactments, but in accordance with the views of its bribed and pensioned, and long since buried framers. To menaces such as these we can only reply, that we value too highly a Representative form of Government, to sanction any attempt to infringe our Constitutional rights; and such violent attacks on those rights

could not but excite feelings ruinous to the interests of the parent state on this Continent.

"For a long number of years the Government of this Province, and its Officers, have been in continued minorities in the House of Assembly. Their blind obstinacy to the same oppressive and illiberal policy, brought at last the administration into such thorough contempt, and so disgusted the mass of the people and their Representatives, that these, on the 21st February, 1834, *Resolved*, "that the public functionaries of the Colony are combined as a faction, and induced by interest alone to contend for the support of a corrupt Government, inimical to the rights, and opposed to the wishes of the people;" and had recourse further to the extreme, though constitutional, remedy, of withholding the supplies, until the numerous grievances detailed in the Ninety-two Resolutions, then adopted, should be redressed, and the remedies demanded to prevent their recurrence be granted.

"The then Governor in Chief, in an angry and unparliamentary Speech, with which he closed the Session of 1834, endeavoured, but in vain, to throw a censure and create odium on these deliberate opinions of the House of Assembly of this Province; asserting, groundlessly, that the sentiments of the constituency did not respond to the solemn declarations of their Representatives, and that the people were attached to the Government as it was constituted and administered. General elections soon followed, and the result was, that not a single Candidate connected by office to the Provincial Government, could secure a seat, whilst those who were returned have repeatedly declared their adherence to the principles avowed in those Resolutions, in a proportion of eighty out of eighty-eight members, the full number of the Representatives.

"Instead of grappling with evils of such a magnitude and old standing, as those against which we complain, Lord Glenelg has thrown together raw and undigested ideas, as to the means of checking some of the minor abuses. Policy such as this might be considered a disingenuous effort to uphold, by mild palliatives, the system which generates these and greater abuses. But on the other hand, open and violent attacks are directed in those monacing Instructions, against the most necessary and just rules by which free born British Colonists have striven to protect themselves against improper interference on the part of meddling Colonial Ministers.

"With this view, importunate solicitations are renewed to obtain appropriations for ten years, under the plea that Lower Canada would thus be more closely connected with the other members of the British Empire.

"We, on the contrary, consider, that were we to succumb in this assault against the policy that generally prevails in the Colonies, which was wisely adopted to protect Colonists against the natural and habitual par-

tiality of Downing-street in favour of its nominees, the calamitous concession would separate us from, and exhibit us in a most unenviable comparison with most of our Sister Colonies—that the precedent which we should establish, would expose many Colonies, hitherto in a great measure free from the evil working system, to be assailed by the same demands, sophistries or menaces, to which we have been unfairly exposed for the last fifteen years, during the protracted controversies and discussions on the financial question arising out of the pretensions of the Colonial Ministers.

"The attempt to create classes and distinctions among Public Officers (some of whom would be absolutely uncontrolled in whatever excesses they might run for their salaries, and others submitted to annual discussions), is so shallow and preposterous a scheme to consolidate the present vicious system, that it scarcely requires refutation.

"Lord Glenelg seems not to understand, that however great is the rank, station and importance of the Colonial Minister, and of all the other Ministers of His Majesty, his Crown Officers and legal advisers, they hold their large emoluments of office by a more precarious tenure than Colonial officers, subject to the annual vote of the Assemblies. In order that responsibility should attach to the acts of the highest officers of State, the British Constitution, in principle and practice, has wisely entrusted to the Representative Branch of the Legislature the power of the purse, to use it as they think right and proper. The Commons have established their right to interfere as well in matters of State as of Legislation, by reserving to themselves sufficiently large annual appropriations to enforce on the most unwilling Government obedience to its recommendations. They moreover have secured the responsibility of the highest functionaries, by the establishment of a proper tribunal, to bring to the most condign punishment, yea, even to the forfeiture of life, any of those who, in the discharge of their official duties, had become the oppressors of the people.

"Although the Civil List be granted for the life of the King, all the Officers connected with the service of the State, with the exception of a few of the Officers of the Household attached to the Royal Person, are, to use the improper expressions of Lord Glenelg, "daily beggars," not on the King's good will, but on the Commons, whose wishes call them to office, or turn them out of office, in some cases after a few days, in others, after years of service; but in every instance, on a lease revocable at will. In giving Dispatches for the direction of a Government to Upper Canada, where a permanent appropriation was procured by misrepresentation and surprise, and where the utmost discontent and indignation have existed, as well against the Government as against that Assembly which had surrendered its power and just influence, and thus betrayed the rights of its constituents, how

can Lord Glenelg pretend that an appropriation for a long period would produce contentment in Lower Canada, where the demand has, for fifteen years, been invariably resisted?

"In many other respects might these Instructions be commented on, to prove a deep laid plot, and a wicked determination, among those who penned them, not to consent to any rational reforms in the Colonies, in opposition to the blind prejudices and routine business of Downing Street. But this hurried commentary, in the midst of the fatigues attendant on a lengthened Session, will, I hope, suffice.

"Elected and solemnly pledged to procure a redress of the grievances under which the people of this Province suffer, and to carry out the principles laid down in the Resolutions transmitted herewith, the practical operation of which can alone prevent a recurrence of those evils, we have been assailed and denounced by the enemies of a responsible form of Government. Those interested in the continuance of the present system of misrule, have been actively engaged in misrepresenting our views, in the hope of sowing division and animosity among the people of these Colonies, and by those means crushing therein the cause of reform.

"In defence of principles which are dear to the mass of the inhabitants of British North America, we hesitate not to publish them to the world, satisfied that our views need only to be known to be respected.

"In the position which this Province has long ago taken in defence of Colonial rights, she has acted from no factious opposition, nor from any local prejudices; all she requires is direct responsibility to her people, in the several departments of the State, and economy in her government. Should she succeed in obtaining these, there cannot be a doubt but the people of the other British Provinces must obtain the same extent of political power and liberty.

"In the hope, Sir, that the Assembly of which you are the organ, will co-operate with the Representatives of this Province in procuring a better Colonial system of Government for all, I beg to assure you of the readiness with which the Assembly of Lower Canada will use all constitutional means in its power to advance the mutual interests of the British North American Colonies.

"I have the honor to be,
Sir,

"Your obedient humble Servant,

(Signed)

"L. J. PAPINEAU, S. H. A.

"To the Hon. the Speaker of the
House of Assembly, Prince
Edward Island."

HOUSE OF ASSEMBLY (Quebec),
Monday, 15th Feb. 1836.

RESOLVED, That this House, in its exertions to procure a redress of the various grievances under which the people of this Province labor, and to intro-

duce a good and responsible system of local Government, have, in addition to the other weighty and substantial reasons by which it has been guided, been greatly encouraged by the hope and expectation that any amelioration in the political institutions of the Colony would be followed, of right, by similar advantages to our brethren inhabiting the Sister Provinces of British North America.

RESOLVED, That the political Reforms which this House and the good people of this Province have been for a great many years endeavouring to obtain, have at various epochs been explained by the Votes, Resolutions and Addresses of this House, and by the Petitions of the people themselves: that the principal object of those Reforms is—

To render the Executive Council of this Province directly responsible to the Representatives of the People, in conformity with the principles and practice of the British Constitution, as they obtain in the United Kingdom.

To extend the principle of election to the Legislative Council, which branch of the Provincial Legislature has hitherto proved, by reason of its independence of the people, and of its imperfect and vicious constitution, insufficient to perform the functions for which it was originally designed.

To place under the constitutional and salutary controul of this House the whole of the Revenues levied in this Province, from whatever source arising.

To abolish Pluralities, or the cumulation in one person of several or incompatible offices.

To procure the repeal of certain Statutes, passed by the Imperial Parliament, in which the People of this Province are not and cannot be represented—which Acts are an infringement of the rights and privileges of the Legislature of this Colony, and are injurious to the interests of the People thereof.

To obtain over the internal affairs of this Province, and over the management and settlement of the wild Lands thereof (for the advantage and benefit of all classes of His Majesty's subjects therein, without distinction), that wholesome and necessary controul which springs from the principles of the Constitution itself, and of right belongs to the Legislature, and more particularly to this House, as the Representatives of the People.

Which Reforms are specially calculated to promote the happiness of His Majesty's subjects in this Province; to draw more close the ties which attach the Colony to the British Empire, and can in no way prejudice or injure the interests of any of the Sister Provinces.

RESOLVED, That it has long been the aim of the enemies of these Colonies, by deliberate and unfounded misrepresentations, to engender dissensions and bad feelings between the people thereof, in the hope of preventing all union of purpose among the said people, and of thereby preventing the reform of those

abuses and evils of which the people have so frequently complained, and which are connived at or upheld for the advantage of a minority, hitherto unjustly possessing, and still endeavouring to maintain, a political ascendancy in this Province, contrary to the principles of all good government.

RESOLVED, That this House has seen with extreme concern a speech delivered at the opening of the present Legislature of Upper Canada, by His Excellency Sir John Colborne, late Lieutenant Governor of that Province, at a moment when his sudden recall reflected particularly on the merits of his Administration, in which it is stated that the affairs of this Province had exercised an injurious influence on the interests of Upper Canada, had tended apparently to discourage emigration and the transfer of capital to that Country, and had acted disadvantageously in respect to the terms on which the large Loan, authorized by the Legislature of that Province, was recently negotiated in England: That such a statement is calculated to misrepresent the views of this House—to prejudice the people of these Provinces against each other, to disturb that good understanding which ought to prevail, and which has hitherto prevailed, between the said people, and in place thereof to sow discord and animosity among the several classes of His Majesty's subjects in these Provinces.

RESOLVED, That, strong in the rectitude of their intentions and principles, and moved alone by a desire to introduce order and responsibility into their political institutions, in the place of the disorder and abuses which now unhappily prevail, this House, and the people whom it represents, indignantly repudiate all design to injure the interests or embarrass the exertions of the people of Upper Canada, in whose welfare the people of this Province feel a lively interest, and for whose patriotic exertions to improve their political and social conditions this House entertains a sincere respect; and this House is gratified to perceive, that the Representatives of the Sister Province have done this House the justice to acquit it of being the cause of any dissensions or embarrassments existing in the country; and this House firmly repeats, that those dissensions and embarrassments proceed from the defective constitution of the Legislative Councils of these Colonies, and from the continued unconstitutional exercise by the same persons of Executive, Legislative and Judicial functions, from which causes have resulted the abuses of which the people have so long and so justly complained.

RESOLVED, That the Speaker of this House be authorized to transmit copies of the foregoing Resolutions to the Speakers of the several Assemblies of Upper Canada, and of the other Sister Provinces, and to express the desire of this House cordially to co-operate with the said Assemblies in all constitutional measures

calculated to promote the mutual interests of these Colonies.

Attested,
(Signed) W. B. LINDSAY,
Clk. Assembly.

Mr. *Macdonald* moved that the House do come to the following Resolution:

Whereas the communications from the Honorable the Speaker of the House of Assembly of Lower Canada, addressed to the Speaker of this House, and by him submitted to the House, relating to measures, not only of high importance to that Province, but such as the Colonies in general cannot but feel a lively interest in, were received at such a very late period of the Session as to preclude this House from giving those Documents that consideration which their importance demands—Therefore Resolved, That the further consideration of the subject be deferred until next Session.

Which being objected to;

The previous question was moved " Shall the said question be now put?"

The House divided on the question:

will tend to advance the welfare and promote the interests of the inhabitants of this Colony.

I have much satisfaction in adverting to the cordiality and unanimity which have throughout this long Session marked the intercourse between the two Branches of the Legislature on all matters relating to the public welfare—and I have also, on behalf of the House, to express their warmest acknowledgments for the ready attention your Honor has uniformly bestowed to the various representations which, in the performance of their duty, they have found it necessary to recommend to your consideration.

*Mr. President, and Gentlemen of His Majesty's Council;
Mr. Speaker, and Gentlemen of the House of Assembly;*

The business of the Session having been brought to a conclusion, I have much satisfaction in being enabled to relieve you from further attendance; in doing which, I beg to convey to you my sincere con-

gratulations upon that spirit of harmony and unanimity which has governed your proceedings.

Mr. Speaker, and Gentlemen of the House of Assembly;

I thank you for the Supplies which you have voted for the public service; and as far as in me lies, they shall be strictly applied to those purposes for which they are raised.

Mr. President, and Gentlemen of His Majesty's Council;

Mr. Speaker, and Gentlemen of the House of Assembly;

In returning to your private avocations, I confidently trust that your influence will not be wanting to impress upon the minds of the ignorant and unwary, that

obedience to the Laws is inseparable from their happiness and security.

After which the Honorable the President of the Legislative Council said—

Gentlemen,

DANIEL BRENAN.

Gentlemen,

Agreeable to your request, I have examined the Plan and Specifications of the new Government House, and have gone through all the rooms with Mr. Smith, one of the Contractors, and have found the work, as far as it now can be seen, to be completed according to the said Plan and Specifications, except some alterations hereafter noticed, and some additional work—The whole done in a masterly and workmanlike manner, and in my humble opinion does great credit to the contractors, not only for labour, but materials:

EXTRAS.

May it please your Excellency;

Your Excellency will pardon my representing to you the case of a poor Idiot family, on Lot 61, and to crave a small aid from the public funds to assist in clothing one of them.

John Griffin was a soldier of the American War of Independence, is now verging on eighty years of age, is quite deaf; and, unhappily, has four children Idiots—those who possess any understanding are but moderately gifted. John Griffin, the son, a stout robust tall person, is quite foolish, and now in a very destitute state, as it regards bedding and clothing—I have therefore to solicit your Excellency to grant from the public funds the small sum of Two Pounds Eight Shillings, to furnish him with the annexed articles, as priced by Mr. Peake, which will not only confer a great good on this unhappy object, but confer a personal favor on

Your Excellency's devoted and loyal servant,
