

THE WEEKLY WAR PICTURE

French officer examining the German lines in re-won Flanders.

KERENSKY'S GOVERNMENT FORCED TO CAPITULATE UNDER GUN FIRE

Workmen's and Soldiers' Delegates Are in Control of Petrograd—Peace With Teutons Demanded.

A despatch from Petrograd says: Another revolution has broken out. Extremists, led by Lenin, have wrested the reins of power from Premier Kerensky and the latter is reported to be fleeing to Moscow. A Congress of the Workmen's, and Soldiers' Delegates of all Russia has convened in Petrograd and will discuss the questions of organization of power, peace and war, and the formation of a Constituent Assembly. A delegation has been named by the Congress to confer with other revolutionary and democratic organizations with a view to initiating peace negotiations for the purpose of "taking steps to stop the bloodshed." Government forces holding the Winter Palace were compelled to capitulate early Thursday morning under the fire of the cruiser Aurora and the cannon of the St. Peter and St. Paul Fortress across the Neva. At 2 o'clock Thursday morning, the Workmen's Battalion, which had been defending the Winter Palace, surrendered. The Workmen's and Soldiers' Delegates are in complete control of the city. Premier Kerensky was reported Wednesday night at Luga, 85 miles southwest of Petrograd. Late Wednesday evening, after the Government forces had been driven into the Winter Palace, the palace was besieged and a lively fire of machine guns and rifles began. The cruiser Aurora, which was moored at the Nicolai Bridge, moved up within range, firing shrapnel. Meanwhile the guns of the St. Peter and St. Paul Fortress opened fire. The palace stood out under the glare of the searchlights of the cruiser and offered a good target for the guns. The defenders held out for four hours, replying as best they could with machine guns and rifles.

ITALIAN TROOPS STILL RETREAT

Considerable Fighting in Hills of Vittorio and at Northern Points.

A despatch from New York says: The Associated Press issued the following on Thursday night: There has been no cessation in the retreat of the Italians across the Venetian Plains towards the new line of defense, on which it is supposed to stand and face the invading Germans and Austro-Hungarians. The larger units of the Italians are falling back without molestation, according to the Rome official communication, but considerable fighting has taken place in the hills of Vittorio and at other points in the north. The Berlin War Office says that on the middle Tagliamento River Italian troops who were still standing out against the invaders were captured. A General and 17,000 additional Italian troops are reported to have been captured, bringing the total prisoners since the retreat from the Isonzo basin to more than 250,000, according to Berlin. It is also said that in excess of 2,300 guns have fallen into the hands of the Teutonic allies. Along the line in France and Belgium only artillery duels and raiding operations by the French and British forces are taking place.

EXEMPTION CLAIMS AGGREGATE 206,167.

A despatch from Ottawa says: Claims for exemption filed throughout the Dominion totalled 206,167 and 16,433 reports for service. Taking the whole period since the issue of the proclamation, Vancouver has the highest percentage of reports for service. The Vancouver percentage is 22.71; Kenora is second with 17.95, and Calgary third with 11.49.

DEFEAT OF TURKS IF GAZA ANNOUNCED AND CAPTURE ON HOLY LAND

Gen. Allenby's Forces Take Famous City—Gen. Maude's Troops Occupy Strongly-Entrenched Position on Tigris.

A despatch from London, says: The British have captured the city of Gaza, in Palestine, the War Office announces. The British have made an advance of nine miles, carrying the whole Turkish system of defences in this region and capturing two towns in addition to Gaza. A later despatch says: There are indications of a general retirement northward by the Turkish forces in Palestine. The British pushed beyond Gaza, on the right and left, the advance penetrating as far as the mouth of the Wadi-Hesi, eight miles north of the original British line. The British captures of prisoners, guns and stores are considerable in volume. General Allenby reports that there were considerable captures of prisoners, guns, ammunition and stores, but no details are yet available. A despatch from London says: Tekrit, on the Tigris River, in Mesopotamia, 90 miles north-west of Baghdad, was occupied by the British on November 6, the War Office announced on Thursday. The text of the statement reads: "Following the successful action fought near Duj on November 2, our troops advanced further up the Tigris and on November 5th attacked the Turks, who were holding a strongly-entrenched position covering: Tekrit. Under the fire of our artillery our troops with great gallantry crossed 1,200 yards of open country and the Indian Sikh and rifle regiments, pressing home the attack, captured the first two lines of the enemy trenches, inflicting heavy casualties. These trenches were consolidated, and a Turkish counter-attack proved unsuccessful.

BRAZIL WILL CONTROL ALL GERMAN BANKS.

A despatch from Rio Janeiro says: The Chamber of Deputies has adopted all the measures recommended to the Congress by President Braz as reprisals against German agents, as well as supplementary measures, including a state of siege. These measures include the annulment of contracts for public works entered into with Germans; prohibition of new land concessions to German subjects and of the transfer of ownership of German properties; control of German banks and German commercial firms and the internment of German suspects.

SHOULD BE NO RISE IN PRICES OF SUGAR.

A despatch from Ottawa says: Dealers who have advanced the price of sugar to their customers during the past month are taking an improper advantage of the present temporary shortage and exacting an unfair profit. Such is the effect of a statement issued by the Food Controller, Mr. Hanna added that there was no excuse for retail prices to-day being higher than they were a month or six weeks ago. He pointed out that for the month of September the prices of sugar in all parts of Canada were between 10 and 11 cents per pound.

ICELAND DECIDES ON REVOLT UNLESS GRANTED FLAG

A despatch from London says: Iceland is threatening to revolt against Denmark because the island's demand of a separate flag has not been granted. Despatches from Scandinavia say that all political parties and virtually the entire people on the island are disposed to declare their independence unless all their demands are granted. Recently the people of Iceland appealed for home rule. This was granted, but the request for a separate flag was not acted upon.

Sign Anyway.

The Commander (to Paddy Finn, applying for special leave)—Just sign the form. Finn—Above the line or below, sorr? "No, on the line." "Me whole name?" "Yes, your whole name." "Me Christian names?" "Yes, your Christian names?" "And me nicknames?" "Never mind about your nicknames. Write down your Christian names and surname in full." "But, sorr, I can't write."

THE BEST CARTOON OF THE WEEK

"All is unsettled; the Government is provisional, laws provisional, all provisional." "Yes, only the war is permanent."—Novy Satirikon, Petrograd.

NEWS FROM ENGLAND

NEWS BY MAIL ABOUT JOHN BULL AND HIS PEOPLE

Occurrences in the Land That Reigns Supreme in the Commercial World.

The Essex Standing Joint Committee have granted additional war bonuses to all the county constabulary. Trout weighing from five to five and a half pounds have been caught recently in Blagdon Lake, Somerset.

Two German war prisoners who escaped from Handforth internment camp three weeks ago, are still at large.

The importation of grapes from Spain has been authorized this year, up to one-half the amount imported in 1916.

Two German prisoners-of-war who escaped from Knockatoe Detention Camp, Isle of Man, have been re-arrested.

A colliery worker named Readman was sentenced to one month's imprisonment at Nottingham for cruelty to a pit pony.

An open-air peace meeting which had been arranged for Stevenson square, Manchester, was prohibited by the police.

The committee of management of the Royal National Lifeboat Institution, have voted rewards this year for the saving of 822 lives.

A stained-glass window is to be placed in Ewshot Church, Hampshire, in memory of the late A. H. G. Creed, a naval chaplain.

"Geranium Day" at Wimbledon realized £200 for the Comforts Fund of "Wimbledon's Own" Brigade of Artillery.

Private G. Hall, Hampshire Regiment, although on crutches, jumped into the river at Leicester and saved a lady from drowning.

The crypt of St. Paul's Cathedral is open to the public for shelter only after definite police signals of an air raid have been given.

The school children of Victoria have sent £30,000 to the Joint War Committee of the British Red Cross Society and the Order of St. John.

The Brazilian Minister in London held a reception for members of that colony residing in London, on the anniversary of the independence of Brazil.

Notwithstanding increases in salaries and war bonuses, the Richmond Gas Company have been able to declare the usual dividend of five per cent.

THE PALACE HOUSEKEEPING.

Staff of Buckingham Palace Consists Largely of Maid-Servants. An important, though little heard of, person at Buckingham Palace is Mrs. Clerk, the housekeeper, who has been for over fifteen years in the royal employ and stands high in the regard of Queen Mary.

Mrs. Clerk has now a very large staff of maid-servants under her, and the places of several of the royal men-servants who have gone into the army have been temporarily filled by women. Mrs. Clerk engages all the maid-servants but none can be dismissed without the consent of the Queen. As a matter of fact, a servant is rarely or never dismissed from the royal service. All the maids in royal employ are the daughters or near relatives of people who have been in the royal employ for many years. There have been Churches, Leggots, and Chandlers in the royal service for generations.

A spacious reading and writing room is provided for the maids at Buckingham Palace; they begin work at 6.30 and most of them go off duty at 8.30 and have a two-hours' rest during the day. Their "outings" consist of one day a week, every second Sunday, and once a week from 4.30 to 10 p.m. Every maid in the royal service is pensioned at sixty.

GERMANS SHOT DOWN MEN WHO SURRENDERED.

A despatch from London says: The Reuters correspondent at the British front says: About four hundred prisoners were taken at Passchendaele. A considerable number were killed by the fire of their own guns as they were being brought back, whether by accident or design has not been learned, otherwise the total would have been much higher. The order attributed to von Hindenburg that if Passchendaele was taken it must be retaken has not borne fruit. By nightfall the Canadians were reported well dug in around the half-moon of captured ground, and plentifully supplied with machine guns.

The Doings of the Duffs.

Shorthorn Cattle & Oxford Sheep.

Present Offering in Shorthorns:—
Young Bulls from 8 to 10 mos. old, by same sire as Junior Champion, Female, at Leading Canadian Fairs, 1915.

KNECHTEL & KNECHTEL

Those Who May Vote in Coming Elections.

In Ontario those entitled to have their names on the voters' lists and to vote in the Dominion general elections, 1917, are as follows:

(1) All those (except in the cities) whose names are on the Ontario voters' lists as revised in 1916. In cities a special and entirely new list will be prepared.

(2) All women (except Indian women) who are the wives, widows, mothers, sisters and daughters of the Canadian forces overseas and naval forces in Canada or Britain, whether the members of such forces have been at any time resident in Canada or not.

(3) All electors or voters, male or female, must be twenty-one years of age, and British subjects by birth or naturalization, and according to the War-time Elections Act, 1917, section 32, the elector is to reside for one year in the Province and have his residence and domicile in the electoral district for thirty days, both of said periods to be fixed by reference to the date of election, 1917.

(4) There are persons who are not entitled to vote. These are of alien enemy birth or other European birth within enemy jurisdiction, and of alien enemy mother tongue or native language who have been naturalized in Canada since March 31, 1902. In this class, however, persons who have sons, grandsons or brothers in the overseas forces or who can produce certificates of service or application to enlist are entitled to vote.

(5) The sons of these men who have been naturalized since 1902 who were not of age when their fathers were naturalized are not disqualified. Neither are the sons born in Canada whether the fathers were naturalized or not. All of the foregoing classes naturalized previous to 1902, with their sons, are not disqualified, nor are the female voters under Section 33A of the war-time elections act.

(6) The Russian Mennonites who settled in Manitoba under order in Council dated August 12, 1873, as well as the

Doukobors who settled in Canada under order in Council dated December 6, 1898 are disqualified, unless they have sons, grandsons or brothers in the overseas forces. All other Mennonites resident in Manitoba and Mennonites resident elsewhere in Canada are not disqualified as a class.

(7) All who apply for exemption from combatant naval or military service on conscientious grounds are disqualified, unless and until they are refused exemption.

(8) Those who apply for exemption whether refused or not, and clergymen, although not required to perform military service, are entitled to vote.

(9) Returned soldiers are entitled to vote whether they are on the voters' list or of age.

(10) Armenians and Syrians known to be out of sympathy with Turkey are not disqualified.

One of the most widely circulated war-pamphlets in Germany is one in which it is declared that the indemnity to be wrung from the U. S. is 348,000,000,000 marks—about eighty-seven thousand millions of dollars.

Patrick Cudaby, a prominent meat packer, predicts lower meat prices. He says he believes hogs will sell at \$10 a hundredweight this winter. He ought to be on the optimists' staff of the Food Control Department.

Farmers who intend to claim exemption for their sons whom they need at home on the farm, should prepare a written statement setting forth all the information required by the Tribunal in dealing with the case.

Farms For Sale.

J. A. Johnston has two farms in Howick for sale. They are situated between Gorrie and Fordwich. One is just about the best all round farm in Howick and can be bought for \$8000. The other is a cheaper farm, priced at \$4500. Reasonable terms will be given with both properties.

Motor Cars

A Car of Pleasing Design

The design of the new Willys-Overland Light Four is notably pleasing and satisfying in lines and proportions. Crowned fenders, sweeping in their curves, and unobstructed running boards, emphasize the long, low appearance. This car is a beautiful example of the modern tendency toward straight, flowing lines. The attractive finish—in keeping with the other distinctive qualities of this Willys-Overland car—completes its thoroughly stylish appearance. And the tremendous volume of the Willys-Overland factories makes it possible to offer this efficient, stylish and comfortable car at a reasonable price.

Willys-Knight and Overland Automobiles, Commercial Cars

Necessary Farm Equipment

MORE and more the Ford car is looked upon by progressive farmers as necessary farm equipment, the same as the plow, the hay-rake, the drill, the mower, the harrow and other labor and time-saving machinery.

A farmer with a Ford car can dispense with one or two of his horses and make the trips to town, railway station, creamery, or to the neighbors in one-third the time. In fact there is no farm machine made that will save the busy farmer and his busy wife so much valuable time as a Ford. And it's so easy to take care of—far easier than a horse. No bed to make, or hay and oats to get, no harnessing and unharnessing, and no stables to clean. The Ford practically takes care of itself.

Ask any farmer who owns a Ford if he would ever again try to get along without it. His answer will hasten your decision to own one.

A Detroit baby was discovered wrapped in a bundle of clothes, but sleeping in the family washing collected by one of the drivers of a laundry. The mother missed the babe, but thought it was kidnapped and was phoning the police when it returned. It had been discovered in the wash just before the clothes were put in the water where it would have been boiled alive. It was identified by marks on its clothing and was rushed home before it woke.

About sixty of the 750 enumerators required for Toronto will be women. The duties will be to sit for two hours daily and add the names of women who have been left off the voters' lists furnished. They must compile the names of all subjects over 21, who have lived in the Province for one year, and in the city for thirty days. They must also add the names of all females over 21 years who are wives, mothers, sisters or daughters of persons, male or female, living or dead, who are serving or who have served in any of the military forces of Great Britain or Canada, or within or without of Canada, or who served or are serving in the naval forces of Great Britain or Canada in the present war.

Seeing it is so hard to please oneself there is no wonder why it is hard to please other people.

Report of S. S. No. 10, Carrick.

October.

Average attendance 29.
F. G. Kehoe, teacher.

It is a wise proverb that contains half the wisdom it is supposed to contain.

Because you believe a thing doesn't indicate that you regard it as a positive fact.

A husband has ground for divorce if his wife refuses to help him with the house work.

LIVE STOCK MARKETS TORONTO.

There was an almost record run of live stock out at the Union Yards yesterday, within a shade of 6000 head of cattle, together with fairly heavy receipts of sheep, lambs, calves and hogs. That the market held steady to strong for the better class of stuff in the face of the enormous receipts was striking evidence of the strong undertone prevailing. And the quality of the offerings was, in the opinion of practically every commission house, of the most common kind, few good butcher steers and heifers being on sale. The demand for this class was very strong, with prices 25c better.

Briefly summarized, there was a small percentage of good cattle with a strong demand good butcher cattle selling 22c higher. A steady demand for breeder stockers and feeders, with heavyweight good butcher cows holding steady. Canners and all medium grades were 25c lower. Bulls held steady on an active market, with a fair good clean up.

The market for sheep and lambs was steady, lambs selling from \$15.50 to \$16.25, the latter price for odd bunches of eastern black face, and as high as \$16.35 in some cases. Calves were steady and altogether the market closed up well.

There was a fair to good run of hogs, 1429 head, and the price held steady at \$17 fed and watered.

The receipts for the day all told were 303 cars, consisting of 5889 cattle, 262 calves, 1429 hogs and 3326 sheep and lambs.

Fifteen hundred cars of cattle have been shipped from New Mexico where they were dying of drought, to more favored regions.

Joseph Foster of Pinkerton is suing the Canadian Express Co. in Division Court here for \$32, the value of a keg of liquor shipped him and not delivered. It appears that Inspector White took the keg in charge at the Express Co. office but did not remove it from the premises. Somebody then came along and stole the booze. The Express Co. claims that they are not responsible for the keg was not in their custody. The case came up in Division Court of Walkerton on Friday before Judge Greig but was adjourned until next Court.

Trying All Ways

The Harris' on Review is responsible for the following: Many and devious are the methods resorted to and the artful subterfuges employed by the eligibles and their relatives and friends to enable the former to evade service under the Military Conscription Act. Not only are these acts reprehensible and unpatriotic but also dishonest and in some cases punishable by fine and imprisonment. An instance is quoted where an apprehensive parent glued a formidable plaster on the back of his stalwart son, which was ruthlessly removed by order of the medical examiner, who diagnosed the decorated back as a particularly capable one. But the Dad had also scraped acquaintance with the examiner and confided to him that his unfortunate son was quite deaf, and on the doctor casually asking the son in an ordinary tone of voice: "Can you hear what I say?" the stupid youth at once replied: "No, sir, I can't." It is said a member of the exemption board was also approached in the same case.

Judgment for Plaintiff

The only case to be aired before Judge Greig at the Division Court here on Friday was an action brought by Jos. Doyle of near Chepstow against Robt. Bell, a Calross farmer, for \$15.00 damages for the non-delivery of a pair of ewe lambs. Doyle claims to have bargained with Bell for the lambs at \$12 each, while Bell maintains that he was to pay him the highest market price when he should call for them. On coming for them, Doyle, however, only brought \$24.00 with him but as Bell wanted \$27.00, a little heckling took place, with the result it seems that Doyle agreed to pay him the extra \$3.00 later, but as the latter apparently didn't care to trust Doyle for this amount, he refused to pass him the ewes unless he planked down the \$27. The upshot was that Doyle sued Bell for \$15.00 damages for non-delivery of the lambs, and was given judgment against him for \$10.00, together with court costs of \$4.65. Robertson & McNab for plaintiff, O. E. Klein for defendant.—Herald & Times.

Local Aviator Reports Treachery.

Aviator John Bickle, who is training with the Royal Flying Corps, unreeled a rather startling tale of treachery at his camp, while on a visit to friends in town this week. It seems that of five American planes that went up all came crashing down as a result of the snapping of the cables which control the machines. The first aviator met his death from the fall, while the other four were badly broken up. Upon investigation it was found that the cables had been severed by a powerful acid, which had so eaten into them that they snapped when pressure was put onto them. The deed, it seems, was finally traced home to three German-American mechanics who were assisting at the camp, and who were court-martialed and later taken out and shot. As the dead aviator and the four injured flyers were all Americans, it would seem, from John's story, that Uncle Sam has tall reason for doing some careful watching in his ranks.—Herald & Times.

Belated School Grants.

Usually the Legislative grants to Public Schools come in July but this year they did not come till November. This is because the Superannuation percentage for the full year beginning April 1st was deducted from the grant, but as in some cases new teachers were appointed with a different salary, a re-adjustment will be necessary later. The grants are based on certificates and salary; 20 per cent is paid on the excess of salary above \$400 up to \$600; a school with a Second Class teacher having a Permanent Certificate and experience less than five years receives a grant of \$15; with experience of five years or over the grant is \$25. Under similar conditions the grant for a teacher with a First Class Certificate is \$25 and \$40 respectively. There is no grant on an Interim Certificate.

A girl can love almost any man her parents are willing to object to.

There have been so few commitments to Walkerton gaol in recent years that the responsible position of gaoler has not become a very onerous one. Since the death of Deputy Sheriff Harris, gaoler McKechnie has been filling the dual position of gaoler and deputy sheriff and on the recommendation of Sheriff Jermyn the Provincial Govt. has been requested to agree to the appointment. Gaoler McKechnie is a Liberal Unionist and Sheriff Jermyn is a Conservative Unionist and as both are strong win-the-war men it makes a happy combination.

WINNER OR WASTER - Which are You?

On a recent occasion the Honorable the Minister of Finance for Canada, in addressing a representative Canadian audience, dealt with the urgency of everybody doing, even in the smallest way, their share towards aiding the Empire.

It is well to remember that every dollar thrown away extravagantly does one hundred per cent. more good to the enemy than one dollar saved by ourselves.

The wealth of the world finally filters through individual dollars, and if the curse of extravagance strikes deeply enough, our ruin is bound to follow.

Save a dollar TO-DAY and do a hundred per cent. more for the Empire than your extravagant neighbor does for the enemy.

Interest to Depositors at 3 per cent.

The Sung in the Tail.

It is interesting to observe how often people will approve of a preacher's message so long as he does not contradict their own personal opinions. A striking illustration of this has often been given in connection with John Wesley's great sermon on Giving. When the preacher made his first point thus, "Get all you can," a farmer in the audience said to himself, "That is capital." When Wesley made his second point—"Save all you can"—the farmer remarked, "That is better yet," but when he said in the third place, "give all you can," the stingy farmer said, "Now he has spoilt it all."

GOOD HEALTH QUESTION BOX

By John B. Huber, M.A., M.D.

Dr. Huber will answer all signed letters pertaining to Health. If your question is of general interest it will be answered through these columns; if not, it will be answered personally if stamped, addressed envelope is enclosed. Dr. Huber will not prescribe for individual cases or make diagnosis. Address Dr. John B. Huber, care of Wilson Publishing Co., 73 West Adelaide St., Toronto.

For that which befalleth man befalleth also the beast.
THE CUP THAT CHEERS.

Tea and coffee are generally drunk for the pleasure and the sense of well-being they give; yet both these beverages are mostly stimulants, with practically no food value.

When a tired woman prefers to food cup after cup of strong tea she is cheered, perhaps exhilarated—yes, times actually inebriated; and this to the jeopardy of nerves and muscles. So that her constitution must sooner or later break down, if the tea tipping habit is persisted in. Then is there a case of hysteria for the doctor, possibly even a case of "incompatibility of temper" that has to be dealt with in the domestic relations court. In like manner, when a man under stress of business or who is going "the pace that kills" drinks daily anywhere up to a dozen cups of strong coffee in order to keep up under the unnatural strain, he is, as sure as fate and the tides, going to pay the penalty for his intoxication—for that is what it all amounts to. There are plenty of other intoxicants in nature besides alcohol.

The natural forces of the human body are able to do normally just so much work; and their ability to do this work is directly in proportion to the energy derived from the food supply taken into the body. A machine is kept going by the fuel in the engine; it may be made to go faster by means of bellows. Coal is the fuel; the bellows stimulate the flame. In the man machine, food (meat, vegetables, cereals) are the fuel; tea, coffee, alcohol and like stimulants are the bellows—they are not the fuel. No amount of such stimulants adds to the living tissues (the nerves, muscles, organs of the body); they merely goad the nerves, the muscles and the organs to undue, unnatural effort.

however tired and unwilling these tissues may be. When the stimulant is stopped, or, if after a time in spite of the stimulant, the exhausted tissues refuse to do their work, then the weakened body rebels and refuses to work again until it has been fully restored—re-created—by rest, sleep, change, fresh air, abundance of nutritious food and by hygienic living in general. If these salutary means are not forthcoming, disease perhaps fatal, is inevitable.

QUESTIONS AND ANSWERS.

Feels Dizzy.

I am 54 years of age and am troubled with dizziness. In the morning on rising I have to hold on to something to steady myself; and on lying down I seem to lose control for a moment or so. What can be the cause of my trouble.

Answer—With such a symptom at your age one must consider hardening of the arteries, of which dizziness is a very frequent symptom. You should be under the care of a good family doctor.

Rabic Horse Bites Cow.

Sometime ago our cow was bitten on the neck and foreleg by a horse having hydrophobia. But where the cow was bitten there was no wound made in the flesh. We have waited 25 days before using her milk; do you think it is safe for us to use the milk now? Our veterinary told us to wait 21 days.

Answer—By all means use the milk after 25 days. You were wise to take precautions. And when the skin of animal or man has not been perforated by the bite of a rabid animal, the danger of hydrophobia is slight and certainly after 21 days negligible.

THE STORAGE OF POTATOES

By Louis D. Sweet.

It is of great importance that all the potatoes raised this year should be stored under proper conditions. Even when every precaution is taken the wastage of potatoes during the winter is considerable; under bad conditions of storage it is very great indeed.

In order that the best methods may be adopted by the small growers, those who have not had the experience in the storage of potatoes should know the chief causes of the wastage. These causes are:

1. Sweating, heating and consequent rot: often due to insufficient ventilation.
2. Rotting: due to potatoes getting wet at the time of putting them in storage.
3. Injury from frost.
4. Decay: owing to disease in the tubers at the time of storage.
5. Sprouting of tubers in the spring.

It is not possible to prevent altogether losses from these causes, but by using the best methods of storage, it is possible to reduce them very materially.

This may be done by taking care to guard against losses from each of these causes:

1. Sweating and heating occur if the freshly dug potatoes are piled in too large piles, so that the air cannot circulate between the tubers. The risk of loss from this cause is greatest in the fall, immediately after the tubers have been dug, and it is, therefore, important that potatoes when dug should not be put in unnecessarily large piles, nor kept in an ill-ventilated room.
2. Rotting from getting the potatoes wet. If the potatoes at the digging time are allowed to get wet and to go into storage in that condition, rotting is sure to occur. Be careful to have your potatoes dry before storing.
3. Injury from frost. Potatoes are easily damaged by frost. If they become frozen, their market value is destroyed. Therefore, take every precaution to protect the tubers from frost before and after digging.
4. Disease. There are several diseases of the potato which destroy the tuber, and if diseased tubers are mixed with the sound ones, the disease spreads rapidly; therefore, it is necessary to sort the potatoes carefully, eliminating all of the disease, the cuts,

cuts, and dirt before placing them into permanent storage for the winter. All of the cuts, culls, misshapen and diseased tubers should be fed to the poultry and live stock, but should be steamed or boiled before being fed, as in this way you increase the food value, and also destroy the germs of the disease, so that it will not get into the manure and thence into the land.

5. By proper ventilation of the cellar or storage room, and by holding the temperature as near 35 degrees F. as possible, you can keep the potatoes from sprouting.

Soils and Crops

By Agronomist.

This Department is for the use of our farm readers who want the advice of an expert on any question regarding soil, seed, crops, etc. If your question is of sufficient general interest, it will be answered through this column. If stamped and addressed envelope is enclosed with your letter, a complete answer will be mailed to you. Address Agronomist, care of Wilson Publishing Co., Ltd., 73 Adelaide St. W., Toronto.

L.F.—1. Will frozen corn make good silage? **2.** When is manure most valuable, when fresh or after standing some time? **3.** What is a remedy for the zebra caterpillar? **4.** Also for wire worms:

Answer:—**1.** Frozen corn, if handled sufficiently early will make a fair quality silage. When the corn is frozen it is best to cut it at once, or as soon as possible, before the leaves are entirely dried out. Corn cut under such conditions should be put together in large bunches or shocks, so that as little drying out as possible will take place before it is cut up and placed in the silo. If handled in the above way, very little loss will be occasioned. **2.** From the standpoint of obtaining the most organic matter, manure is most valuable when it is fresh. From the standpoint of obtaining the most available plant-food, it is most valuable after it has stood for some time, provided that the manure is protected from rain and snow and sufficiently packed so that it will not burn or fire-fang. **3.** I do not find any insect catalogued under the name of "zebra caterpillar." I assume from your description that you refer to the army worm. This worm collects in large numbers in meadows and pastures for about two weeks before it begins to migrate. The insects hide during the day, but begin feeding about sundown. There are several methods of combatting the ravages of this insect. One is by sowing broadcast a mixture of bran-mash, mixing about 25 lbs. of bran with 1 lb. of Paris green, and a pint of sorghum or molasses, with enough water to make sort of a loose paste. The insects eat this poisonous mash readily. If you can discover where the insects are working in the meadow or pasture, have the section of the field rolled or dragged with a log drag. This will kill a great number. In case the attack is under way and the army of insects is moving toward a corn or wheat field, have a furrow plowed with the vertical side of the furrow toward the crop. Spread dry straw along this furrow and sprinkle the straw with kerosene. As the insects fill in, light the straw and repeat the burning out of the furrow until the attacking host of insects has been halted. **4.** Wire worms are very hard to control. A careful system of crop rotation should be established so that the field that is infested with wire worms may be plowed

and worked, at least once in three or four years. This will upset the dwelling place of the wire worms and should clear the soil of the pests. The addition of fertilizers has been found to control to some extent the attacks of wire worms.

L.R.—1. I have a five-acre field in alfalfa but it looks very thin. It was sown last fall. How can I improve it? **2.** Can you suggest a remedy for ox-eye daisy and wild mustard?

Answer:—**1.** It is late to do anything on your alfalfa field this fall other than covering it with a light dressing of straw manure at the rate of possibly four or five loads to the acre. In the spring I would advise you to top-dress it with fertilizer at the rate of 200 to 300 lbs. per acre, the fertilizer analyzing at least 2 per cent. ammonia, and 10 to 12 per cent. available phosphoric acid. After you have broadcast this fertilizer over the field, follow it with the harrow, harrowing with the rows of alfalfa, if the alfalfa has been drilled in. The teeth of the harrow should be set back so as not to drag the young alfalfa plants out of the ground. The cultivation will do them good as will the addition of the available plant-food. **2.** I assume that the ox-eye daisies are growing in your alfalfa field. If such is the case, frequent cuttings of the alfalfa should prevent much seed dropping. It would be well also when fertilizing the field in the spring to scatter some fresh alfalfa seed over the areas where the alfalfa has not grown, or where the daisies have killed it out. If wild mustard appears in the grain field, the field should be thoroughly disked immediately after the grain is cut, so that the wild mustard seed will have an opportunity to sprout and the young plants can be killed by the plowing that follows. If the grain field is infested with mustard, it should be sprayed before the plants come to the blossoming stage, using the following solution: Add 75 to 100 lbs. of sulphate of iron to 52 gallons of water. When this is sprayed over the field it will turn the grain a slightly dark color and will kill to a very large extent the mustard plants growing. The grain will quickly recover, while the mustard will die out. If the mustard is among the alfalfa crop, I am afraid the spraying with iron sulphate will injure the alfalfa, so that all that can be done would be to have the mustard pulled by hand, under such conditions.

year's planting should be selected from hills that produce all nice, true to type potatoes. These should be selected at the digging time, and stored separately in crates or boxes, and by storing them in a well-lighted room where the temperature can be held at from 34 to 40 degrees, with a little ventilation and this seed planted next spring, the grower will make a start toward improving the quality of his potatoes, instead of as in the past, simply planting the culls or runouts.

About four-fifths of the Italian army is drawn from the agricultural classes, and as a result requests for leave of absence to allow of the tending of crops are numerous, but only a small percentage can be granted.

As far as known, only three conditions are necessary to produce spontaneous combustion in hay-mows or stacks. These are the presence of moisture in the hay, the presence of a great enough bulk of the hay to retain heat, and sufficient ventilation to supply the necessary oxygen.

The Sunday School

INTERNATIONAL LESSON
 NOVEMBER 18

Lesson VII. Nehemiah's Prayer Answered—Neh. 2. 1-11. Golden Text, Matt. 7. 7.

Verses 1, 2. Nehemiah's sorrowful countenance aroused the sympathy of the king. Nisan—the first month of the Jewish year, corresponding to the latter part of March and the opening weeks of April. Twentieth—See comment on preceding lesson, verse 1. Since Nisan preceded Chislew by several months, Neh. 2. 1, compared with 1. 1, implies that the events narrated in chapter 2 took place earlier than those narrated in chapter 1; which is improbable. The events of chapter 1 may have transpired in the preceding, the nineteenth, year of Artaxerxes. Before him—Better, following the early Greek translation, "before me"; that is, when it was my turn to

Willie wants to dig a cave; My! at the rate he's going down 'Twould not surprise mo' in the least If he'd come out in Chinatown.

Xmas and other Post Cards at 10c, a package we will send you, with all charges prepaid, our lovely 15-inch doll and we will also send you the splendid 24 in. doll carriage if you will

show your doll to your friends and get just 3 of them to sell our Xmas Cards and earn prizes also.

Send us your name and address and we will send you the cards to sell. When sold you send us the money and we send you your prize.

whether the presence of the queen helped or hindered his cause. It might inspire the king to generosity or might lead him to hide his interest in the affairs of a servant. How long—Better, "when is your journey to begin?" When do you wish to start and how long do you expect to be gone? Set time—Proposed a time for his departure and perhaps for the length of the leave of absence. Letters—To serve the same purpose as modern passports. Governors—Of the districts between Susa and Jerusalem, including local officials. Beyond the River—Primarily, beyond the Euphrates; but here all the territory west of the Tigris must be meant. Nehemiah also made provision for building material. Asaph—Otherwise unknown; the name suggests that he was a Jew. King's forest—Or, "park"; the word is the Hebrew form of "paradise," which is Persian in origin. The location is not known; probably in the neighborhood of Jerusalem. Castle—The "house" is the temple; the castle was to the north of the temple area (compare Acts 21. 37; 22. 24). The timber was wanted for (1) the castle, (2) the city wall, and (3) his official residence. All the requests were readily granted. Good hand—Nehemiah recognizes the reality of a divine providence in his case.

This Watch Free TO ANY BOY

This "Railroad King" watch is an absolutely guaranteed timekeeper. It is stem wind and stem set, nickel case. Send us your name and address and we will send you 25 packages of our lovely Xmas post cards to sell at 10 cents a set (6 lovely cards in each set). When sold send us the money, and we will send you the watch, all charges prepaid.

HOMER-WARREN CO.
 DEPT. 85, TORONTO.

Hard to Drop Meat?

All depends on what you eat as a substitute. It is a good time to study "food value." You may be eating the wrong foods, the foods that cost most and give the least nutriment. **Shredded Wheat Biscuit** contains more real, body-building nutriment, pound for pound, than meat, eggs or potatoes and costs much less. Two of these Biscuits with milk and a little fruit make a nourishing meal at a cost of a few cents. Make Shredded Wheat your "meat." A satisfying breakfast on which to start the day's work. It is ready-cooked and ready-to-eat. Made in Canada.

The One-Piece Dress

The one-piece dress is vastly becoming to the small girl. The touch of wool embroidery on the collar, cuffs and belt is most attractive. McCall Pattern No. 8012, Girl's One-Piece Dress. Pattern in 5 sizes; 6 to 14 years. Price, 15 cents.

The simplicity of this dress will appeal to many women. It is to be slipped on over the head. Made in worsted, shepherd's plaid or any other warm material, it makes a splendid dress for winter wear. McCall Pattern No. 7884, Misses' One-Piece

Save In the Use Of Wheat Grape-Nuts

All the food value of the grain is used in making this delicious food; and its blend of malted barley not only adds to its nourishing qualities but produces a flavor of unusual richness.

All Food-- No Waste!

Canadian Postum Cereal Co., Ltd., Windsor, Ont.

Dress. In 4 sizes; 14 to 20 years. Price, 20 cents.

These patterns may be obtained from your local McCall dealer, or from the McCall Co., 70 Bond St., Toronto, Dept. W.

BOCHE A PSYCHOLOGIST.

Changes His Tactics to Suit Racial Tendencies of Opponents.

The Boche is a psychologist. Not a very good one—but in his fighting on the western front he makes good use of a certain insight into the different racial characteristics of the English and the French. A British military expert points out the difference in the ways the Germans meet the offensives of the two countries in the following way.

"When the British hammer a certain sector into pulp and then launch an attack," he said, "the German generals withdraw all but a few machine gunners from the first line trenches, leaving these to hold out as long as possible and face certain death or capture. They know that the British are going to get to their objective."

"The main body of the men are rushed back to reserve trenches in the rear, where they prepare for a counter-attack. They feel fairly certain that the British will reach their objective, consolidate it and stay there."

"On the other hand, against the French, they adopt just the opposite tactics. They crowd just as many men as possible into the front lines. Machine gunners, bombers and riflemen are packed in like sardines."

"They adopt this course because they appreciate the Latin temperament of the average Frenchman. They know that if they can administer a severe check early in the fighting the French will fall back, while if the tricolor once gets through it's quite likely to sweep on to a tremendous victory."

NERVOUS AILMENTS

Few people realize that nervous ailments often arise from digestive troubles. The stomach fails, for some reason, to digest food properly. Then the system languishes and the nerves become exhausted in striving to continue their work. Impure blood also causes nerve troubles, but frequently it is in the stomach where the mischief starts. As the nourishment is carried to the nerves, by the blood, it will be seen what an important connection exists between the stomach, the nerves and the blood, and how such troubles as nervous headaches, nervous dyspepsia and insomnia may begin.

In such cases relief is easily obtainable by means of Dr. Williams' Pink Pills. These pills replenish the blood with the food elements on which the nerves thrive; at the same time they exercise a tonic influence on the digestive organs, enabling the system to derive nourishment from the food taken. By this perfectly natural process nervous ills are steadily dispelled by Dr. Williams' Pink Pills. If you are suffering from nerves, or require a blood-making tonic, give these pills a fair trial, and see how speedily the best of health will be yours.

You can get these pills through any dealer in medicine, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams Medicine Co., Brockville, Ont.

CANADA'S FIRE LOSSES.

More Than Four Million Dollars Damage From Trifling Causes.

A man dropped a lighted match on the shore of Kalamalka Lake, British Columbia, on July 8th last. Within an hour a hot fire was racing through the underbrush. For three weeks after that there raged a series of forest fires, defying the organized efforts of hundreds of men.

At one time, 26 fire fighters were ringed about with flames while their relatives, shut off from them and helpless to aid, awaited news in terrorized suspense. Only after severe suffering from exhaustion, thirst and hunger did the band of workers force their way through to safety.

That experience is a big price to pay for one person's foolish act in handling matches in a forest. The court fined the careless man \$50—but that does not help the province to bear the enormous loss.

One lighted match dropped on one inch of inflammable ground expanded into fifteen miles of ruin.

In the Spruce Valley fire of British Columbia of the same month, eleven men lost their lives, most of them tortured to death as they struggled over the mountain tops. The fuse to that disaster was supplied by a small piece of lighted tobacco carelessly thrown on the grassy floor of a tent.

Four out of five tragic accidents could be avoided if every Canadian camper and fisherman kept vigilant watch on his own pair of hands, and every settler kept a tight rein on his clearing fires. It does not cost five cents or five minutes to put out a camp fire or a cigarette or a match, but it costs the people of Canada four or five million dollars a year to partially overtake the timber damage caused by runaway flames.

"When you have read you carry away with you a memory of the man himself; it is as though you had touched a loyal hand, looked into brave eyes and made a noble friend."—Stevenson.

CHINA, PRINTING PIONEER.

Movable Type Devised by Oriental Blacksmith in Eleventh Century.

Those who believe printing to have been invented in Europe during the fifteenth century may have been surprised to read of Cambridge University having acquired "the works of the Chinese philosopher, Liu Tsung Yuan, printed in 1167."

China has been credited with anticipating not a few modern inventions, but her claim to have discovered the art of printing centuries before its adoption in Europe is beyond dispute.

An edition of most of the Chinese classics was printed by means of wood blocks in A.D. 922, and movable type is said to have been devised by a blacksmith, Pi Shing, in the eleventh century.

SATISFIED MOTHERS

Once a mother has used Baby's Own Tablets for her little ones she will use nothing else. The satisfaction she derives from their use is wonderful. They are easy to give the baby; their action is prompt and thorough and above all they are absolutely harmless. Concerning them Mrs. Jean Dechaine, Lacordaire, Sask., writes: "I am well satisfied with Baby's Own Tablets. I had no trouble in giving them to my baby and they have promptly cured her of constipation." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

LUSITANIA WAS DOOMED

Bombs in Hold Would Have Destroyed Her Before Journey's End.

The German submarine captain who torpedoed the Lusitania sunk a ship already doomed, according to a statement made on October 11th at police headquarters in New York by Martin Isen, a German lawyer, editor of a department in the New York Herald. Isen has been in the United States twenty years and is still a German subject. He admitted he was connected with three men arrested and charged with conspiracy to plant bombs on ships bound from New York to allied ports in 1915 and early in 1916.

Isen's story indicates that the Lusitania when she left New York carried in her hold nine T.N.T. bombs, timed to go off when the big liner was nearing the coast of Ireland. Conspirators evidently figured that the Lusitania would travel faster than she did, for the bombs had not worked when she was torpedoed off Kinsale Head, on the south coast of Ireland.

Dr. Karl Schimmel, who had a law office in New York in 1915 and 1916, and is now believed to be in Germany, was in charge of placing bombs on steamships according to information in the hands of Captain Tunney, head of the New York police department bomb squad.

Isen told Captain Tunney that he was in Schimmel's office when news came in that the Lusitania had been sunk by a torpedo. Schimmel, according to Isen, wept, tore his hair, and stamped up and down the room.

"The fool!" shouted Schimmel. "He has ruined my work. I had nine 'cigars' planted on the Lusitania and they would have destroyed her before she had reached Liverpool."

A T.N.T. bomb was called by the conspirators a "cigar."

MURINE Granulated Eyelids, Sore Eyes, Eyes Inflamed by Sun, Dust and Wind quickly relieved by Murine. Try it in your Eyes and in Baby's Eyes. **Murine Eye Remedy** At Your Druggist's or by Mail, 50c. per Bottle. **Murine Eye Remedy** in Tubes 25c. For Bottle of the Eye—Free. Ask **Murine Eye Remedy Co., Chicago**

If cereals, rice or similar foods stick to the vessel in which they are cooked they have an adhesiveness that a postage stamp might envy; but put a cupful of wood ashes in the pot, fill it with water and leave it to soak, and presto, it is easy to clean.

Minard's Liniment Co., Limited. Gentlemen,—I have used MINARD'S LINIMENT on my vessel and in my family for years, and for the every day ills and accidents of life I consider it has no equal.

I would not start on a voyage without it if it cost a dollar a bottle. **CAPT. F. R. DESJARDIN,** Sch. "Storke," St. Andre, Kamouraska.

Flapping Shades.

Often it is necessary to lower the shades when the windows are open, which causes a constant flapping. I remedied this in a simple, inexpensive, yet effective way. I got some small screw eyes and fastened one on each end of the lower shade stick, one on the top and one on the bottom on each side of the window casing. Then I fastened thin cord to the bottom eyelet, ran it through the shade eyelet and fastened it to the top screw eye. If this is done on each side of the shade the window can be left wide open and the shade will stay where you want it. This does not interfere with the raising and lowering of the shade, and if the cord is purchased the same color as the woodwork it will be unnoticeable.

Minard's Liniment Cures Distemper.

FREE TO GIRLS

We will give this beautiful prize free of all charge to any girl or young lady who will sell 40 packages of our lovely embossed Xmas postcards at 19 cents a package.

The Extension Bracelet is of rolled gold plate and fits any arm. Send us your name and we will send you the cards. When sold send us the money and we will send you the Bracelet. Address:

HOMER-WARREN CO. DEPT. 86 TORONTO, CAN.

CANADIAN "LINGUISTS."

Boys Eager To Learn More of the Language of Their Allies.

Young Jack Canuck returned from the front is proud of his assorted vocabulary. He talks a bit of Russian, Turco, Arabic, Greek and German, to say nothing of French and Cockney slang. In the wards of the Military Convalescent Hospitals he trots them all out and shows the greatest eagerness to learn more of any of them.

Many of the boys who are in the eastern convalescent homes of the Commission are taking French lessons. They practise in conversation with their French comrades and are making great strides, just as many of the French who never spoke English before are mastering their language."

LEMON JUICE IS FRECKLE REMOVER

Girls! Make this cheap beauty lotion to clear and whiten your skin.

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

She Loved Ferment.

A little schoolgirl was told by her teacher to write the word "ferment" on her slate together with the definition and a sentence in which the word was used. The following is the result: "F-e-r-m-e-n-t, a verb signifying to work. I love to do all kinds of fancy ferment."

Minard's Liniment Cures Diphtheria.

A Large Edition.

"May I print a kiss on your lips?" I asked. She nodded her sweet permission. So we went to press, and I rather guess we printed a large edition.

MONEY ORDERS

It is always safe to send a Dominion Express Money Order. Five dollars costs three cents.

One Chinese province annually exports more than 150,000 tons of peanuts, all because an American missionary several years ago gave a native convert a quart of California seed.

From indications, the Stock Show to be held at the Union Stock Yards of Toronto, December 7th and 8th next, will be bigger than ever. The 1916 show had 376 entries, comprising in all 2,309 show animals, which sold for the Christmas trade, some of which brought record prices. Premium list has been enlarged and each class carries a handsome prize. For further particulars write C. F. Topping, care of Union Stock Yards of Toronto.

Potatoes showing signs of dry rot, caused by blight, should be well dried before storing, and all affected tubers put away by themselves until fed to the live stock or otherwise disposed of. This disease will spread in the bin.

Minard's Liniment Cures Colds, &c.

An effect of the labor shortage is seen this year in the reduced number of turkeys and geese at the Fall exhibitions. Women of the farms have been driven to devoting much of their time formerly spent on poultry raising to helping the men folk in the fields.

ED. 7. ISSUE 45-47.

To the Nurses of the Empire.

We did not need to ask you, You came with loyal heart, And faithful to your calling, With zeal, to do your part, You knew the cause was righteous, You heard the great appeal, And willingly you offered To soothe, to cheer, to heal.

We do not need to tell you How great your trials be; We bless you for your goodness, And pray for victory; Whatever may yet befall us, In conquest or defeat; A nation kneels to thank you, A suppliant—at your feet.

We do not need to thank you, Mere words would not suffice; Ten thousand lives restored— This is your sacrifice; Ten thousand, aye, ten thousand, Lift up their hearts to-day To thank you, bless you, love you; This is your victory.

—John Light, London, Eng.

Kitchen windows should always be lowered from the top to allow heated and impure air to escape, and raised from the bottom to allow fresh air to come in.

Minard's Liniment Cures Garget in Cows

Educate the mother and save the child.

WOMEN! IT IS MAGIC!

LIFT OUT ANY CORN

Apply a few drops then lift corns or calluses off with fingers—no pain.

Just think! You can lift off any corn or callus without pain or soreness.

A Cincinnati man discovered this ether compound and named it freezone. Any druggist will sell a tiny bottle of freezone, like here shown, for very little cost! You apply a few drops directly upon a tender corn or callus. Instantly the soreness disappears, then shortly you will find the corn or callus so loose that you can lift it right off.

Freezone is wonderful. It dries instantly. It doesn't eat away the corn or callus, but shrivels it up without even irritating the surrounding skin.

Hard, soft or corns between the toes, as well as painful calluses, lift right off. There is no pain before or afterwards. If your druggist hasn't freezone, tell him to order a small bottle for you from his wholesale drug house.

A Dyspepsia Cure

M.D. advises: "Persons who suffer from severe indigestion and constipation can cure themselves by taking fifteen to thirty drops of Extract of Roots after each meal and at bedtime. This remedy is known as Mother Seigel's Curative Syrup in the drug trade." Get the genuine. 50c. and \$1.00 Bottles.

Bruises and Sprains

Have Sloan's Liniment handy for bruises and sprains and all pains and aches. Quick relief follows its prompt application. No need to rub. It quickly penetrates to the trouble and drives out the pain. Cleaner than musky plasters or ointments. Sloan's Liniment does not stain the skin nor clog the pores. For rheumatic aches, neuralgia, stiff muscles, lame back, lumbago, gout, strains, and sprains, it gives quick relief. Generous sized bottles at all druggists, 25c., 50c., \$1.00.

Sloan's Liniment KILLS PAIN

Clear Your Complexion While You Sleep

On retiring gently smear the face with Cuticura Ointment. Wash off in five minutes with Cuticura Soap and hot water, using plenty of Soap and continue bathing a few minutes with Soap. Rinse with tepid water. The cleansing, soothing influence of this treatment on the pores extends through the night. It may be repeated on rising. Sample Each Free by Mail. Address post-card: Cuticura, Dept. N, Boston, U.S.A. Sold throughout the world.

NOTICE TO SICK WOMEN

Positive Proof That Lydia E. Pinkham's Vegetable Compound Relieves Suffering.

Bridgeton, N.J.—"I cannot speak too highly of Lydia E. Pinkham's Vegetable Compound for inflammation and other weaknesses. I was very irregular and would have terrible pains so that I could hardly take a step. Sometimes I would be so miserable that I could not sweep a room. I doctored part of the time but felt no change. I later took Lydia E. Pinkham's Vegetable Compound and soon felt a change for the better. I took it until I was in good healthy condition. I recommend the Pinkham remedies to all women as I have used them with such good results."—Mrs. MILFORD T. CUMMINGS, 322 Harmony St., Penn's Grove, N. J.

Such testimony should be accepted by all women as convincing evidence of the excellence of Lydia E. Pinkham's Vegetable Compound as a remedy for the distressing ills of women such as displacements, inflammation, ulceration, headache, painful periods, nervousness and kindred ailments.

A Good Cup Of Coffee

At the end of dinner quiets any misgivings of indigestion, obliterates all suggestions of ill-humor.

Rideau Hall Coffee.

Always receives a hearty welcome at the end of each and every meal, a promoter of good humour, and indispensable aid to good health.

It costs a trifle more in price than ordinary coffee, because it is so much better. Yet it is the most economical of all coffee because of its absolute purity and great strength.

It will go so much further -- make so many more cups to the pound.

Put up in sealed tins at 45c a pound. If you wish we will grind it for you.

CARLSRUHE.

Mr. and Andrew Oberle and family from Walkerton visited relatives here on Sunday.

Henry Halter has started a grocery store as a side line with his hotel business.

The Ayton Creamery J. B. Benninger will test and pay cash for cream on the 15th, and every Thursday following, at H. Halter's hotel.

Married here on Tuesday of this week. Contracting parties being Frank Gross son of John Gross and Oliva Young, daughter of Philip Young, both of Hanover. The nuptial knot was tied by Rev. Father Fischer of Kitchener. The young couple will take up residence in Hanover.

Rev. J. Lenhard who has been in London for the past couple of weeks returned to his home here last week. We hope the change will bring Rev. Father good results regarding his health. Mr. and Mrs. John Stroeder of near Decemerton visited friends here on Tuesday.

FORMOSA.

Mr. and Mrs. Noah Rudolph from Tara motored to this burg on Monday. Mrs. J. B. Gatz and Miss Tinie, who spent a few weeks with them, returned home.

Mr. and Mrs. F. A. Heisz were at Walkerton on Sunday.

Mr. Jos. D. Schumacher of Toronto spent Sunday at his home here.

Alex Oberle raised and put a cement foundation under his stable. Louis Becker did the cement work.

Miss Tillie Mosack of Walkerton is visiting with Os. Beings' here.

The engagement was announced on Sunday of Caroline, daughter of Mr. and Mrs. I. G. Steffler, to Geo. Waddel of Feeswater.

Money fights today, and it is the bountiful duty of every Canadian to back Canada's part in the war by buying Canada's Victory Bonds.

Auction Sale.
Auction sale of farm stock and implements at Lot 8, Con. 16, Howick, on Thursday, Nov. 15th, at 1 o'clock. The farm will be offered for sale at the same time. The sale is called on account of the loss of the barn by fire. Chas. Albrecht, proprietor, John Darroch, auctioneer.

Gassed in France.
Tuesday's papers brought the news that Corp. B. B. Patten of St. George, had been gassed. The extent of his injuries is not yet known, but his many friends here sincerely hope for his early recovery. Gnr. Patten has been in some terrific fighting recently at Lens, where he was awarded the military medal for conspicuous bravery. —LATER
—Just before going to press we were informed that B. B. Patten mentioned as being gassed, was not the former Mildmay man, but a cousin from St. George.

The Late Leopold Bauer.
Upon the death of Leopold Bauer at his residence at Hamilton yesterday, Hamilton has lost one of its oldest and most respected citizens. He was born at Walldurn, Baden, Germany, on November 14, 1835. When fifteen years old he came to America and lived at Pittsburg for three years and for two years in Kentucky. Then he came direct to Hamilton and commenced a brewing business, which he carried on very successfully for many years, and was elected as alderman in 1879. After his retirement from business he acquired the residence of Judge Proudfoot at Aldershot, where he lived until he later returned to Hamilton. At Aldershot he was a staunch Conservative and soon became prominent in municipal affairs. In 1887 he was elected to the council board for East Flamboro, on which he served for several years. He was deputy reeve for three years and reeve for three years. In addition to the esteemed services he had rendered in municipal affairs he had also engaged in helping corporate and financial undertakings in Hamilton. Among other ventures he became especially interested in steamboats in the early days, and later was one of the small group who built and operated the Hamilton, Grimsby and Beamsville railway. The deceased is survived by his three daughters, Mrs. Eva Muller, of Hamilton, Mrs. A. Brohman, of Mildmay, and Mrs. J. D. Slattery, of Stratford.—Hamilton Spectator.

It's His Story, Isn't it?
The old soldier was telling of his thrilling adventures on the field of battle to a party of young fellows, one or two of whom were skeptical as to his veracity. "Then," he said, "the surgeons took me up and laid me in the ammunition wagon, and—" "Look here," interrupted one of the doubtful listeners. "You don't mean the ammunition wagon. You mean the ambulance wagon." But the old man shook his head. "No," he insisted; "I was so full of bullets that they decided I ought to go in the ammunition wagon." Buy a Victory Bond.
